Essentially Normal Composition Operators on the Hardy Space

Jeff Preston, Montana Tech of the University on Montana, Butte
Waleed Al-Rawashdeh, Department of Mathematical Sciences, Montana Tech of the University on Montana, Butte

In this presentation, we will explore composition operators on the Hardy space. We will investigate what it means for such composition operators to be essentially normal. The following question will be answered in this presentation: Are there any composition operators on the Hardy space which are essentially normal but which are not compact?
