Composer's
Symposium
April 2-3

Volume XLII No. 13

MONTCLAIR STATE COLLEGE, UPPER MONTCLAIR, N. J.

March 29, 1968

Copland Concert To Climax MSC Composer's Symposium

Aaron Copland, author of numerous books and renowned composer, will appear in concert at MSC on April 3.

The eminent composer, Aaron Copland, will visit Montclair State College April 3 in connection with the music department's Fourth Annual Composer's Symposium. Mr. Copland will meet with classes in the morning, and lecture to the music students at 11 A.M. on the topic "On American Music." He will take part in an open rehearsal at 1 P.M. Mr. Copland will give an informal public lecture at 4 P.M. in Memorial Auditorium.

The informal lecture will be followed by a question and answer session which will be open to the entire student body. The discussion and lecture will be on topic "Music from the Composer's

Standpoint." The student body should respond to this famous celebrity by participating in the scheduled activities. Mr. Copland will conclude the day's activities by conducting one of his own compositions at the Symposium Concert that evening at 8:30 P.M.

On April 2, the guest conductor will be Emil Kahn, a retired faculty member, who has been commissioned to write a composition especially for the occasion. That evening he will conduct the Montclair Chamber Orchestra in a premier performance of the composition. A panel discussion on "The Orchestra as an Educational

Medium."

Mr. Copland has led an active life in contemporary music as pianist, conductor, and lecturer, as well as composer. The Brooklyn-born musician studied in France as a young man, returning to this country in 1924. The following year he became the first composer to win a Guggenheim Fellowship. Subsequent honors include: a \$5,000 award from RCA Victor for his "Dance Symphony"; Gold Medal for Music from the American Academy of Arts and Letters; Creative Arts Medal from Brandeis University; Edward MacDowell Medal; Henry Hadley

(Continued on Page 2)

Thefts Increase; Evidence Mounts

In view of the increasing number of car thefts on campus, the student body of Montclair State College needs to be alerted to the types of cars being stolen, to the investigations under way and to the precautions that they should take to prevent car thefts.

Most of the seven cars that were reported stolen have been General Motors sports car models—Pontiac GTO's, Chevrolet Impalas and Corvettes. In most cases, the cars have had extra features such as special hubcaps and stereo systems. The cars are opened on campus, not by a master key, but by a pass key. They are driven off campus where they are stripped of their extras and then left there.

Investigations Started

In order to eliminate the rising

number of thefts, the administration and the students of MSC have initiated a series of investigations. The police departments of the surrounding communities have been notified and normal police procedures are underway.

Also, a group of students are (Continued on Page 5)

Jersey Seeks Interstate Teacher Certification

TRENTON, N.J. — Chancellor of Higher Education Ralph A. Dungan announced recently that legislation will be proposed to permit New Jersey to enter compacts for the interstate certification of teachers.

He said the compacts would

A speech by President Richardson, a ribbon-cutting ceremony, and free refreshments provided with the compliments of Slater Food Service will comprise the events heralding the opening of the Temporary Union Building.

simplify transfer procedures for the individual teacher, would encourage more uniform certification standards, and would tend to make available to New Jersey elementary and secondary schools the maximum number of teachers.

A fully certified teacher from New York, for example, who wished to teach in a school system in New Jersey could make a transfer without re-examination of his qualifications, provided a compact existed between the states. New Jersey would recognize New York certificates and New York would recognize those issued by New Jersey.

Dungan discussed the legislation in a speech at a regional meeting of the New Jersey Congress of Parents and Teachers at Rutgers University, New Brunswick. He said he and Dr. Carl L. Marburger, state commissioner of education, are currently discussing the matter.

"We will shortly propose the enabling legislation," he said. "If it is passed, Dr. Marburger will have the authority to enter into contractual arrangements with other states that, I am confident, will be of great value to New

Annex 3 Renovations, Complete As T.U.B. Opens for Student Use

This building (nicknamed T.U.B.) is the result of a complete renovation of Annex 3.

On April 1 at 10 A.M., the official opening of TUB, the students of MSC are invited to witness the co-ordinated efforts of many students and college personnel. TUB was conceived as a means of complementing the snack bar facilities and alleviating the recreational facilities of the Student Life Building. It is hoped that TUB will accommodate the needs of commuting, dormitory, and off-campus students.

Designed by Ron Szabo, senior industrial arts major, the building is equipped with a recreation area, lounge, snack bar, director's office, and control room. The recreational area will include billiard, pool, ping pong, and card tables. The lounge will have a color TV. The snack bar, thanks to the efforts of Mr. Joseph Hartmann, will include a varied

menu with hot and cold meals (including breakfast) offered to the students.

The schedule for TUB will be as follows: Monday-Friday, 10 A.M.-10 P.M.; Saturday, 10 A.M.-12 midnight; Sunday, 12 P.M.-10 P.M.

Funds for TUB have been provided by the Faculty Student Co-op, the SGA, and the War Memorial Board. President Richardson is to be praised for his help in raising the necessary funds.

Mr. Joseph McGinty and the Maintenance Department have been extremely cooperative in working with the students on TUB. TUB co-chairmen Lenny Elovitz and Alan Da Cunzo have worked tirelessly to make TUB a reality.

Mr. Edward V. Yezo will supervise TUB activities. All students are encouraged to use the facilities and make TUB a success.

Teach-in Focuses On Viet Situation

By RUSS LAYNE

In attempting to bring America's most pressing issue, the conflict in Vietnam, into the limelight, the Student Peace Union of Montclair State College is sponsoring a teach-in entitled "The War, Montclair, and You." The participants include Dr. Daniel Brower, chairman of the psychology department, who will speak on the psychological aspects of the war; Rev. John Harms, Protestant chaplain, speaking on the draft; Mr. Joseph Moore, instructor of social science, who will discuss the correlation of the election and the war; and Dr. Howard Haas of the education department. The teach-in will be held on April 1 at 7:30 P.M. in C-304.

The SPU believes that by

presenting these teach-ins, students will be given an opportunity to hear members of the faculty and clergy discuss some of the important aspects of the issue, thereby encouraging them to formulate their own opinions. The students themselves will be able to participate by asking the speakers questions.

The teach-ins is just one of the many projects that the SPU has on its calendar. The SPU is preparing many activities to be conducted on the MSC campus during the nation-wide Student Strike Week, April 22-27. The culminating activity of this Student Strike Week will be a massive demonstration in New York City.

The Temporary Union Building, the now renovated Annex 3 will provide adequate facilities for recreation and lounge areas.

Texas to Host "Mini" International Fair

By DAVID M. LEVINE
 Deep in the heart of San Antonio, a world's fair is shaping, up to greet visitors from around the world. It is known as "Hemis-Fair 1968" and will open for a 184-day run starting on April 6.
 Sanctioned by the Bureau of International Expositions in Paris, "Hemis-Fair '68" coincides with the 250th anniversary of San

Antonio, one of Texas' largest cities. Nearly 40 governments have agreed to participate in the exposition, as well as two states (Arkansas and Texas) and 19 private corporations.
"MINI-EXPOSITION"
 Compared to the two other recent world's fairs, "Hemis-Fair" may turn out to be a "mini-exposition." The Texas fair is situated on 92.6 acres compared

with 1,000 acres for Montreal's Expo '67 and 645 acres for the New York fair. Officials in Texas expect that as many as 7.2 million people will visit the fair during its stay. During last year's presentation, Expo '67 had nearly 51 million visitors and the 1964-65 New York Fair had 9.6 million visitors.
 Admission to "Hemis-Fair" will be \$2 for adults and \$1 for children. Tickets and all current information on "Hemis-Fair" may be obtained by writing c/o Box 1968, San Antonio. In order to help tourists obtain lodging, "Hemis-Fair" has set up an efficient accommodation service. Write to Visitor Services, P.O. Drawer H.

Deep in the heart of San Antonio, a world's fair is shaping up to greet visitors

MAIN THEME

"The Confluence of Civilizations in the Americas" is the main theme of "Hemis-Fair '68." The fair will basically present a view of the nations and peoples of the Western Hemisphere: what they have been in the past, what they are doing today, and where they are heading in the Age of Space.

Commenting on the fair's purpose, President Johnson stated: "Hemis-Fair 1968" is San Antonio's way of telling the world that progress is the wave of the future."

'Copland'

(Continued from Page 1)

Medal; and in 1964, the Presidential Medal of Freedom.

Among Mr. Copland's memberships are National Institute of Arts and Letters and the American Society of Composers, Authors and Publishers. He has written the scores for several outstanding feature films, among them "Of Mice and Men" and "Our Town," and is the composer of a full-length opera, "The Tender Land." His ballet commissions include "Billy, the Kid" and the prize-winning "Appalachian Spring."

Mr. Copland has lectured at New York's New School for Social Research and taught composition at Harvard and the Berkshire Music Center. He is the author of four books, "What to Listen for in Music," "The New Music," "Music and Imagination," and "Copland on Music."

Mr. Kahn has remained active since his retirement in 1962. This coming summer he will be in Germany for a week's engagement on the German Southwest Radio Station and a recording session in Stuttgart for the American Firm, Music Minus One. This spring G. Shirmer is publishing one of his educational orchestral arrangements, entitled "Music at the Court of Versailles."

Speech Department Holds Reunion Today

The second speech family reunion is being held today to bring together undergraduates, alumni, faculty members and former teachers of MSC.

The schedule to be followed includes: tea and registration, 1-2:30 P.M.; afternoon program, 2:30-5:30 P.M.; and a buffet and entertainment, 6-9 P.M.

The afternoon program will be highlighted by Dr. James Andrews, class of '58, and the dedication of the Galanowsky Memorial Speech Library. Tours will be conducted through the speech clinic and studio theater. Video-tape and stage craft

demonstrations will also be presented.

Alternating with this activity will be four panel discussion groups composed of faculty and alumni and focusing on the following topics: 1. professional and graduate opportunities in speech; 2. practicum in educational and affiliated off-campus situations; 3. the basic speech course in high school; 4. theater in the high school: creative and traditional.

The speech family reunion is held every four years. This year's committee was headed by Miss E. Kauffman, Mr. K. Moll and Mr. G. Caracciolo.

HRL Schedules Dynamic Weekend

That famous Greek, Socrates, has been quoted frequently for the wisdom of his philosophy of self-knowledge. At MSC, there are those who also adhere to this doctrine and practice techniques of self-revelation in an intensive weekend program of interaction and communication with others.

This program, known as the HRL, will be sponsored once again on April 18-21 by the College Life Union Board. The weekend conference is to enable students to obtain experience in group dynamics and communication skills.

Students will be broken up into "T-Groups" of 12 to 15 people. In these groups the participants will learn by experience how their behavior affects others and how they are in turn affected by the actions of other participants. The individual learns by actual experience. Participants are exposed to goal setting, group problem solving, group task, and group maintenance functions. Theory sessions will follow some of the meetings and deal with what has transpired in the groups.

The theory sessions are held after the group meetings because it is felt that if the experience precedes the lecture, the

information will be more meaningful. This "T-Group" idea is gaining acceptance in educational circles.

Persons interested in group dynamics should register for the weekend. Registration will take place in the Fishbowl on April 1, 2 and 3. Interested students must bring their SGA card. The cost of the weekend will be \$10. This will cover transportation, meals, and housing. The site of the conference will be Camp Bernie, Port Washington, N.J.

The Human Relations Laboratory began at Montclair State in 1963. At that time the purpose of this faculty-student group was to influence campus culture. Leadership workshops were conducted for officers of various campus organizations in order to help them become more democratic in their leadership. The HRL emphasis has now shifted to the development of communication skills through group interaction.

Due to limitations caused by the budget for HRL, only about 100 students can be accommodated. Persons interested in understanding group dynamics should try to register early as selection is based on first come, first served.

Chairmen Reveal Carnival Plans

"If the weather stays with us, this should be the most successful Carnival ever held by Montclair State College." These are the words of Co-Chairman Bob Martinez as he and his fellow chairman, Barbara Sternberger, watch the plans for this year's Carnival get underway. Bob and Barbara both attended Morris Catholic High School in Denville where they worked together on various projects, including talent shows, Student Government projects, and their sophomore semi-formal for which they served as co-chairmen.

They also worked together in 1967 on Frosh orientation. Their mutual experiences should prove invaluable as they once again put their heads together, this time in organizing one of MSC's most important events—Carnival.

The theme of Carnival '68 is "Crossroads of America: Freeway to Greatness." The date is May 10-11; the time is from 6 P.M. to 12 midnight on Friday, and from 12 A.M. to 12 midnight on Saturday. The place is the parking lot behind Mallory Hall (where new fog lights have been installed for our benefit).

Bob and Barbara will be aided in the coordination of Carnival by 17 committees, the chairmen of which are: financial, John LaManna and Mary Jean Agunzday; standing, John Burke, Ed Berk, Carlene Cheatam and Mary Beth Connolly; secretarial, John Burke and Jane Farnam; photography, Roger Brown; publicity, Carolyn Stewart and Rich Orloff; construction, Rick Warren and Mike Leavy; lighting, Dick Finn and Bruce Berringer;

locations, Bill Ryan and Carol Spicer; tickets, Kathy Mancini and George Malanga; traffic, Pete Fusco; decorations, Eileen Bonten; fund distribution, Bob Manahan and Sue Wasserman; audio-visual, Jim Wynne and Steve Rahn; security, Joel Naughton and Jeff Snyder; clean up, John Herd and Ted Ziemba; equipment, Paul Antonucci, Dale Rogers, and Irene Halushka; programs, Donna Stec and John Grzymko.

The sororities, fraternities, classes and other organizations on campus will choose from one of four categories in building their booths: games, food, entertainment and souvenirs. The booths will be elaborately decorated as will be the cafeteria during the week preceding the big event.

All will be centered upon the main theme of "Crossroads of America," but each booth will emphasize an area of the country—the North, the South, the East or the West. Trophies will be given to the most successful booth in profit-making, to the best booth in each of the four geographical areas of the country, and first, second and third place trophies will be awarded to the most original booths.

Letters are being sent to MSC's incoming freshman class and to our first year alumni, inviting them to Carnival. Chairmen Bob and Barbara anticipate an unprecedented turn-out this year and are working hard, along with their committees to produce a fun-filled, first-rate Carnival. As Co-Chairman Barb puts it, "Bob and I want this Carnival to be great—and it will be!"

Alpha Phi Omega Sponsors Annual Blood Bank Drive

The men of Alpha Phi Omega are planning their annual campus blood drive, to be held on May 2. The blood-mobile will be parked directly in front of Russ Hall, and the donation of blood is open to anyone who is in any way connected with MSC—students, faculty, and administration. The blood drive will be held in cooperation with the Essex County Red Cross; those in need of blood should contact this organization. The blood procured by APO's blood drive is available to all MSC students, graduate and undergraduate, to the faculty and administration, and also to the immediate families of those just mentioned. The minimum age for donating blood is 18, and students under 21 must fill out a form before their donation can be accepted. The forms can be obtained at the fishbowl from April 1 to May 1.

John Clark, publicity chairman

for the drive, encourages all to support the blood bank and to take advantage of it. "MSC students do not realize the value of this project. They can obtain blood through their own campus for \$4.00 a pint, when normally a pint of blood costs \$45.00. But we need support—we need donors. We cannot give blood that we do not have."

The students and administration of MSC are urged

to consider the importance of this drive. It has been calculated that 30,000 people will have access to this blood, but many do not realize the opportunity. The need for blood is equally urgent. Currently, only 70 pints of blood remain in MSC's blood bank. Everyone is emphatically requested to donate a pint of blood on May 2. A trophy will be awarded to the organization which donates the most blood.

College High Writers Publish Anthology

Keeping up with the latest trends in education and the contemporary scene, the Class of '70 at College High has been exploring exciting new fields in English this year. The course of study for sophomore English has been enlarged to include not only the more traditional work in composition, grammar, introduction to literary criticism and creative writing, but also linguistics, the psychology of modern communications media, and movie making.

Earlier this year the sophomores each wrote several original epitaphs after the example of Edgar Lee Masters' famous SPOON RIVER ANTHOLOGY. Pleased with the results, they decided to combine their efforts and print a book. Copies were finally finished last week under the title PASSAIC RIVER ANTHOLOGY.

The class is now reading two books on the origin and

significance of language: THE MIRACLE OF LANGUAGE by Charlton Laird, and LANGUAGE IN THOUGHT AND ACTION by S.I. Hayakawa. Linguistics and semantics as a basis for studying English are fast becoming popular at the high school level, and the reaction of this class to these studies is a good example why. The students feel that they are getting an invaluable background for more advanced topics. Also currently being studied is Marshall McLuhan's controversial UNDERSTANDING MEDIA.

In connection with this, a future project of the class is to produce several black and white movies. So far, they have been taught the mechanics of movie cameras and discussed possible subjects and plots.

Credit for all of this goes to Mr. Morton Rich, a MSC faculty member. This is his second year of teaching at College High and his students are unanimous in their praise.

'Summer' Project Planned For Community Action

With the prospects of a long, hot summer in store for many of our urban ghettos, many people feel that simple community action can help to prevent any strife. Monsignor Robert Fox of the Institute for Human Development will attempt to channel such community action into constructive work through his one-day program "Summer in the City."

The main purpose of this program will be to improve the physical appearance of the Harlem neighborhood.

On April 20, it is expected that 5,000 people will join the residents of Harlem and help them "celebrate their neighborhood."

The area entered by the participants in the "Summer in the City" project will cover 50 blocks.

"Viva La Calle," a similar program held last September, was very successful.

On April 6, an orientation meeting will be held at a yet to be designated spot in New York. At that time, different jobs will be assigned. All interested MSC students are invited to join the program.

Further information may be obtained from the Newman House. Bulletins regarding the orientation meeting on April 6 will be posted around the campus.

THE OBSERVER MARCH 29, 2000

BY DAVID M. LEVINE

Where will you be thirty-two years from today? In case the atomic bomb hasn't knocked us out or your mother-in-law hasn't driven you to the mad house, it should turn out to be March 29, 2000.

The year 2000 sounds a bit mystical and even frightening to some of us with nervous stomachs, but Herman Kahn and Anthony J. Wiener find the subject fascinating, to

(how about doing your term paper with an IBM?).

Human Changes

But any way you look at it, human beings will undergo numerous changes. For instance, "surprise-free" projections state that life expectancy may be extended to nearly 150 years; the government would be able to chemically control intelligence as well as grant "true" artificial intelligence. Teaching methods would rely mainly on "brainwashing" and propaganda techniques as well as more emphasis on practical experience.

Politically, outer space becomes the focal point for a world united by power blocs. THE YEAR 2000 points out that the potential giant of world affairs would become a united Atlantic-Pacific Bloc which would include Great Britain, U.S.A., Canada, Australia, and Japan (a potential giant in its own right). And, of course, colonies throughout space would be common.

So if you plan to spend two weeks on sunny Mars next winter or rent a computer to do your term paper for history, make sure you're around in THE YEAR 2000.

DAVID M. LEVINE

NOTICE

Mrs. Mary McKnight, director of public relations, is asking for contributions for the STUDENT BULLETIN BOARD, located opposite the Office of Registration.

Mrs. McKnight would like articles from hometown newspapers concerning Montclair students.

The Alphabet Game

At this time in the political year, it is anybody's guess as to who will win the 1968 presidential and vice-presidential nominations for the Democratic and Republican parties. The "Alphabet Game," as we choose to call it, is once again causing much speculation and consternation on the part of all involved, from legislators on down to voters.

Anyone can play the "Alphabet Game"; little previous experience is necessary. All that is needed is a little interest, good guessing ability, and the potential to read the numerous newspaper accounts which attempt to sway readers to one side or the other.

This question of who will be the victor of the "Alphabet Game" should be of special interest to Montclair students, especially to those who will be voting for the first time in what seems to be one of the most crucial and controversial elections in U.S. history. The issues and platforms of each of the candidates must be weighed carefully before an intelligent choice can be made. Each candidate has his special platform promises, but that is all they are. One promise looming especially large in this campaign is that of peace.

However, not one of the candidates can be underestimated, even though some have a smaller list of impressive credentials than others. Rather than raising the apparently common banner of "Dump Johnson," we advocate that all potential voters open their eyes before they open their mouths.

R.F.K. or L.B.J., E.McC. or H.H.H., R.N. or N.R. who will it be? This all-important choice is up to Y.O.U.

Don't Play With Fire

In last week's "Letters to the Editor" column, can be found a topic which the editors have been meaning to discuss for quite a while, but which due to limit of space and relevance of other subjects, has been neglected until now. We are alluding to the ridiculous occurrences which take place everytime a fire drill is announced.

The alarm sounds and nothing happens, because so-called mature college students are reluctant to leave their revered residences in the snack bar or in the cafeteria. They appear glued to their decks of cards or to their cups of coffee and half-finished cigarettes. It seems as if they would rather burn alive (in case of a real fire) than to leave the hallowed halls and exert the energy and fortitude needed to brave the cold for five minutes. This foolhardy reluctance must not continue; too much hangs in the balance. Knowing how to escape from a burning building as quickly and as efficiently as possible is a necessary and life saving skill. Let's be more considerate of life, please.

A Hidden Treasure

Students of Montclair, are you aware that your college is the recipient of a valuable collection of 46 Renaissance paintings?

Are you aware that, according to a catalogue concerning these works, there are three Rubens, three Van Dykes, a Tintoretto, as well as 39 other masterpieces on campus?

Are you also aware that this magnificent collection was given to this college with the intention that it would be shared with the entire college community?

Are you aware that this exhibit is located in the basement of Sprague Library and that the only way a student may see this collection is by making an appointment through the fine arts department to have a fine arts major take him through the special collections room?

Not many students are aware of this nor can they successfully answer the above questions. However, every student should be able to know about and view this collection of paintings - The Cosla Collection.

Montclair State College should be the proud owner of this valuable collection of art. But, locked in the basement of Sprague Library, viewed only by an occasional visitor, is not the treatment this collection deserves.

Why isn't this collection opened up to all members of this campus as well as members of the community? Don't hide such an important aspect of campus cultural life behind locked doors.

This collection was given to the college. As students we are part of this college. Now let us see what partially belongs to us!

When?

We have been hearing plans and proposals concerning our future College Life Union Building for a long time. Before the present student body was even enrolled in Montclair State College plans were organized to finance this building project.

Last year, the 27-Hour Marathon was sponsored to raise money for the building project; optional donations are asked for twice a year on our tuition bills. All this money has gone toward the building that we keep hearing about.

So far, we haven't seen any construction. The state has taken over the construction of the building but now the project is being held up in legal settlements in Trenton.

Working plans and blue prints are being drawn up but a date for construction has still not been set.

HOW LONG MUST WE WAIT?

How long can we use a Life Hall built for 1600 when our student enrollment in over 4300? When is Trenton going to wake up to the fact the MSC has no room?

We are tired of waiting and being told to be patient. We desperately need a new building NOW.

Is it too much trouble to save a life?

Letters to the Editor

CANDID COMMENTS ON "FOLLIES"

To the Editor,

As a member of the student body, I would like to make a few candid comments on the recent Pi's Follies. As I understand it, the purpose of the program was meant to be entertainment, either humorous or serious. And indeed, some of the skits were very well done.

However, I can not bring myself to justify some of the trash that was presented Friday night. Not only was it neither humorous nor serious, but it often came to the point of being completely obnoxious. I am certain I need not mention any titles to prove my point.

This type of presentation, especially since it was done by various Greek organizations, greatly concerns me and, I am sure, most of the student body. The Greeks are supposed to be a special part of our community, endowed with a certain prestige and, consequently, a certain responsibility. They represent, in many ways, the student body of Montclair; and whether this representation is complimentary or not is THEIR responsibility.

I am not necessarily advocating conservatism or censorship per se. However, I strongly feel that if these Greeks do not concern themselves with the virtues befitting their status, they should at least be kind enough not to mar the name of Montclair by their public actions as a group. This is not to say that Montclair should put on a false front to impress outsiders, but rather that, as members of the community, each individual and organization should strive its utmost to bring out the finest in Montclair for the sake of knowledge, community, and congeniality. If, perhaps, they should find this an impossible or unprofitable task, it is time they seriously ask themselves what they are doing here and why.

J. DER KINDEREN

SNACK BAR MANNERS

Dear Editor:

I fully realize the fact that College High School is on campus as a convenience for our many students who observe its classes. This experience hopefully contributes to the knowledge and depth of prospective teachers graduating from Montclair State.

This benefit, however, is not sufficient to justify the behavior of some of the younger high

school students who attack the snack bar with the abandon of Sherman's march to the sea.

The many campus projects which are planned at present cannot improve the atmosphere at this college while these few obnoxious children are permitted to exercise their lack of manners at our expense. If they are to continue to use the facilities of a college campus, they must be compelled to act accordingly.

Sincerely,

ROSANNE BOSTONIAN

THE ACTORS

Dear Editor:

On March 15, 1968, I had the opportunity to attend the annual event known as Pi's Follies. The evening promised to be an enjoyable one mainly through the efforts, originality, and wit of the Greek letter organizations in competing for performance prizes. My enjoyment was short-lived after a display of humor(?) by Omega Phi Delta fraternity. The presentation to which I refer was Omega Phi Delta's prize-worthy contribution of "Amos and Andy" in blackface.

To clarify any doubts as to my natural identity, I am a proud black student comprising a part of that one point six per cent (1.6%) in attendance at Montclair State College. Although this ratio holds true as far as our race being a minority, let it not escape your minds that we enrolled at this highly rated college for the purpose of preparation for the so-termed integrated society of the future. We, having been the target of any unmentionable acts conceivable, do not need the prize worthy skit, as presented, to remind us that bigotry and white supremacist thinking still exist in the minds of a segment of our fellow students. Although I realize that no members of the Inter-Fraternity Council are of my race, it is disappointing to find the council lacking enough members who felt obligated to refuse sanction of the idea of a blackface presentation on their campus.

To each member of Omega Phi Delta, I give you my prize for your efforts to express your desires to be humorous. May your make-up technique not be forgotten, since it may possibly be useful in the rice paddies of Southeast Asia where white and black are dying alike.

THOMAS L. PURYEAR

MSC Sponsors Programs To Aid Local Students

Since most of the students at Montclair State College are studying to be educators, it is appropriate at this time to consider the many opportunities for teaching in disadvantaged areas. Special preparation, however, is needed to meet the challenges of these areas and Montclair is fortunate to have several programs which are helping her students to be better prepared to teach in these areas.

UPWARD BOUND is a program involving high school

students from the public schools of Jersey City who come to MSC on Saturday mornings to be tutored. MSC students are the tutors in their major areas. During the summer this program is continued and these students receive additional tutoring while living on campus.

The tutoring they receive may mean the difference between their attending or not attending college.

Lambda Chi Delta Involved

The men of Lambda Chi Delta are actively involved in this tutorial program and welcome all interested students to help. In this way the high school students are aided and all gain an insight into the teaching of children from disadvantaged area.

TRY

A Talent Research for Youth is being carried on in areas such as Newark, Paterson, and Jersey City to help high school students find out what their talents are and where they can best be used. Students from MSC present introductory programs at schools in these areas to get the students acquainted with the great benefits this program offers. Work is then done with interested students to find out for which type of work they are best suited.

Those who are interested in going to college are tutored in their weak areas so they will be prepared for college. New aspects of this program will be started in the near future. Any student interested in joining this program should see Mr. Witcher in the admissions office on Valley Road.

SPURT

Many MSC students are now receiving Special Preparation for Urban Teaching. In cooperation with the Paterson Board of Education, MSC students have the opportunity to learn, first hand, the conditions and problems of the inner city to prepare them to be better teachers in urban areas. The program is built around a combination of specially oriented course work plus field work experiences for six hours a week in the public schools and social agencies of Paterson for two years.

In the future students may be assigned to urban communities other than Paterson to do the field work. In SPURT, MSC students get the opportunity to observe and work with the students of the community both in the schools and in the agencies where they will get a different point of view.

These experiences are all designed to aid the MSC student who is interested in teaching in disadvantaged areas.

All interested should see Dr. Kenyon in room 306 College Hall.

'Thefts'

(Continued from Page 1)

involved in a prowling car coverage and are patrolling all campus parking areas. In addition to these immediate attempts to frighten or catch the car thieves, there is a committee of administration, faculty and students trying to solve the problem.

The committee suspects a group of professional car thieves because of the pattern of the thefts. Cooperative measures by students may help to avoid car thefts. Students are advised to: park in a lighted area; keep all valuable items in the trunk of the car or on the floor; lock all car doors and do not leave keys in the car.

Students owning the types of cars which have been stolen are to take extra precautions. Any thefts or information concerning the thefts should be reported immediately. Reports can be directed to these phone numbers: 746-9500, extension 244 (before 4 P.M.) or extension 321 (after 4 P.M.).

This blind man can hear and understand a 60-minute speech in 30 minutes.

If you've ever played a 33 1/3 rpm record on 78 rpm, you know what happens. The voice speed is more than doubled but the result is a high-pitched, squeaky babble. Bell Telephone Laboratories has eliminated the high pitch, the squeak and the babble. They have developed an electronic device (the harmonic compressor) which permits the recording of the human voice at twice its normal speed without any distortion whatsoever.

This process is actually a hearing equivalent for speed-reading. And that means everyone, but most especially the blind, will one day have a meaningful substitute for speed-reading. The uses for compressed speech, as it is called, are numerous.

In the not too distant future, textbooks, news articles, even novels and other fictional material will be recorded with the Bell Telephone process, and "speed-heard" with perfect understanding by the trained listener. For these reasons and many others, the American Foundation for the Blind in cooperation with Bell Telephone Laboratories is now studying the possible use of compressed speech in its tape and disc recording programs for the blind.

STATEMENT

A COLUMN OF COMMENT

By JORDAN DENNER

In a recent "Letter to the Editor," I gave some reasons why the Camp Wapalanne program should be kept as an integral part of the MSC curricula. To expound further I leave these comments to those interested.

By the proposal to discontinue the Wapalanne program at the end of the academic year, it seems apparent that the Administrative Council, composed of faculty members and department chairmen, has once again deemed a course of action for the "betterment of the Montclair student" without having sounded the student for their support or opinions concerning the matter.

The gravity of the situation can be better realized when we take into consideration that by the year 1976, over 76 per-cent of the nation's youth will be born to know only the urban areas of America. Unless effective means are used to stop this crisis, the mutilation of our countryside is imminent and inevitable.

One way in which we all can help divert this tragedy is to judge the Wapalanne program for its future worth: to let it serve as a bastion of knowledge for years to come as well as the recreational and social needs it fulfills now.

The need for Outdoor Education is summed up on page two of the Wapalanne Student Handbook, given to all students who participate in the program. It states, "Increasing numbers of school systems both on the secondary and elementary levels have incorporated outdoor educational programs in resident as well as in daytime settings; . . . therefore, the professional preparation of any teacher . . . would be incomplete without some exposure to a phase of educational offerings which is gaining increased recognition and importance."

Wapalanne does not offer an answer to all of man's problems. However, it does offer a setting that transcends the classroom and provides an informal basis for better communication between student and faculty.

Essentially the objectives of Wapalanne are as follows:

1. To provide a worthwhile educational experience for the development of a better

understanding and deeper appreciation of the outdoor education process.

2. To develop a positive attitude toward conservation and the intelligent use of our natural resources.

3. To provide a group living experience that incorporates opportunities for the development of sound social values and desirable student-faculty relations.

4. To offer a wide variety of recreational activities which will be personally satisfying to the student during his outdoor experiences.

5. To offer specific post-camp opportunities for students to continue the development of their interests and competencies in outdoor education.

Since the inception of the program in 1948, the facilities have been winterized and all state colleges use the camp throughout the year. The question then arises: "If the program was as successful as it seems, then why is it being suspended?" A recent poll of students that have participated in the program has shown that over 90 per-cent of the students hoped that the program would be continued for other classes to enjoy.

Other colleges have also recognized the importance of this activity. Rutgers-The State University is only too willing to take over the entire camp site if the present program is suspended. The United States government considers these programs important and provides fellowships on the graduate level for work in outdoor education and conservation. Why must we wait until we are graduates if we can enjoy the activity now?

I would like to remind the student body that they have been paying for the upkeep of the camp through their service fees. There is now at least \$40,000 on hand for the camp experience whether we use it or not. You can be sure that it won't be returned to your pockets, so why not let it be used as it was intended to enjoy a week at Wapalanne?

I can only hope that the administration reviews the situation and does not take the Camp Wapalanne program away from the students who deserve the opportunity to enjoy this worthwhile experience.

John Davis Lodge, former governor of Connecticut, will deliver the main address at the National Student Convention to be held at Princeton University on April 6.

Sponsored by Young Republican Clubs at Smith College, Princeton, Bryn Mawr and Trinity College and Princeton's American Whig-Clisopnic Society, the convention will include political education seminars, a mock convention and social events for some 400 delegates from schools from New Hampshire to Virginia.

The convention will adopt an abbreviated platform, hear nominations for the major candidates and vote by state for President and Vice-President.

Representative William Widnall of New Jersey will welcome the students in the opening session. He will also lead a seminar on the current fiscal and monetary problems, including the gold crisis. Widnall is the ranking Republican on the House Banking and Currency Committee.

Those wishing to attend or wanting more information on the convention should contact their local Young Republican Club or write directly to the National Student Convention, Whig Hall, Princeton, New Jersey.

PLAYERS SELECT CAST FOR O.T.I.S.

"Of Thee I Sing," first staged in the 1930's, was the first musical production to win the Pulitzer Prize. A joint effort of the Montclair State Players and the physical education and music departments will revive the musical comedy in Memorial Auditorium on April 25, 26, 27, and May 2, 3 and 4.

The comedy, with the book by George Kaufman, satirizes politics, beauty contests, and the average rank and file. The humor is typical of that found in the '30's, but the songs are "catchy" tunes for any era.

In selecting the cast, it was necessary to coordinate singing, dancing, and acting abilities. The actors, under the direction of Dr. L. Howard Fox, chairman of the speech department, include Tony Guarmo as Lippman; Greg Studerus, Gilhooley; Betty Passafiume, Maid; Bruce Gandy, Fulton; Jim Mussacchio, Lyons; Greg Doucette, Jones; Scott

Watson, Throttlebottom; Walter Kotrba, Wintergreen; Tom Ratzin, Jenkins; Bette Glenn, Diana; Lynn Gehring and Joanne Johnson alternating as Mary; Veronica Hofmeister and Carol Powell alternating as Benson; Paul Shepherd, Chief Justice; Linda Carr, Scrubwoman; Kathryn McAteer, Guide; William Hibbie, French Ambassador; Frank Stacati, Clerk; and Russell Layne, Flunkey.

Mrs. Jimmyle Swope, physical education, has coordinated the routines for the dancers: Evelyn Adamski, Geri DiMayo, Midge Guerra, John Homer, Kou Homyak, Alice Kapchonik, Joe Krenetsky, Joe Macaluso, Sue Mathews, Pat Reaves, Dennis Righetti, Ann Shoemaker, Linda Silverman, Lynn Stanley, Linda Stevens, and Cindy Silverman.

The chorus, under the direction of Dr. Edward J. Szabo, music, includes Pam Behnke, Dianne Bott, Kathy Dreyer,

Sharron Freeman, Laurie Held Joyce James, Carolyn Kolbak, Sandy Krulewitz, Kathy Lardiere, Shirley Lott, Marcia Mehlman, Terry Minoque, Barbara Popek, Arlene Pousson, Paul Shepherd, Frank Stacati, Jacqueline Stomhaug, Mary Wills, and Diana Zervopoulos.

An attempt at musical comedy is a "first" for the Players, but "Of Thee I Sing" promises to be an extremely entertaining evening.

Sports Car Buffs Advocate Rallying

Taking a cue from the Beatles, the Montclair State Sports Car Club normally traffic clogged roads and to find those roads that are the most this is the third event of the year sponsored by the club.

WHAT IS A RALLY? A rally is an automotive event, "a route-following challenge run from point to point on public roads at legal speeds, one car at a time." Its purpose is to test the ability of a driver and navigator to follow a set of route instructions and answer a set of questions about that route. It is NOT a speed event. At all times during the rally, the driver must obey all traffic regulations. Any violation of them will result in disqualifications.

WHERE DO RALLIES GO? All rallies run by the club travel on public roads. In order to make the rallies more interesting and safer, they are most frequently run on secondary roads. Attempts are made to avoid the normally traffic clogged roads and to find those roads that are the most scenic. The rallies always start on campus and usually end at West's Diner on route 46.

WHO CAN ENTER RALLIES? Anyone can enter the rallies. Any type of four wheeled vehicle in good working order can enter. A sports car is not needed. In fact, a milk truck had entered and finished in one rally. Station wagons and sedans do enter. Most frequently couples enter these rallies. Teams of girls have won numerous trophies. A sorority team won last year's fraternity-sorority trophy.

HOW ARE RALLIES CONDUCTED? Each car is given a set of directions and a set of questions. The directions contain a set of numbered instructions which when followed in order and without error, enable the team to complete the rally in the easiest way. The set of questions are keyed to the route that the team follows. The questions are usually of the fill-in type.

For example, a sign that says "Turn Here For West's Diner," might have a question keyed to it such as, "Turn Here for . . . Diner." The blank would simply be filled in. All of the questions asked are in the order that they

will appear on the road if the route is followed correctly.

Those answering the most questions are the winners. A time limit is placed on the event. However ample time is allotted to complete the event.

WHY GO ON A RALLY? Most club members go on rallies because the sport of rallying is enjoyable. It allows participants to enjoy driving and gives them a chance to win trophies while doing so. The rallies are inexpensive and involve only the cost of gas and the two dollar entry fee. A rally is a unique experience. It provides a change from driving in bumper to bumper traffic.

The rally has been divided into two categories: touring class for the beginner, and rallyist class for the most experienced driver.

This Sunday's rally will begin with registration in the freshmen parking lot at 11 A.M. The entrance fee is \$2. The rally will begin at noon. Involving approximately 70 miles of driving, it is scheduled to end about 5 P.M.

Anyone desiring further information concerning any aspect of the Sports Car Club may leave a note under the MSSCC plaque in Life Hall or contact Bob Braun, rallymaster at 672-8954.

WITH THE GREEKS

PSI CHI

The men of Psi Chi are proud to have the following pledges for the spring semester: Bruce Dorsi, '70, Bob Hurley, '70, Nels Jensen, '70, Ken Zurich, '71, Joe Hibbs, '71, and Ken Traynor, '71.

The men of Psi Chi attended the theatre recently to see THE GOOD, THE BAD, THE UGLY.

We would like to thank Ed Pugh and Ken Warren for all their work on our production for Pi's Follies. Also we want to thank the brothers who participated and our 220 pound Saint Bernard for behaving herself during the performance.

Tom Stepnowski and Bill Ryan have been chosen chairmen for our Carnival committee. Other brothers on committees for Carnival are: Tom Stepnowski, student adviser; Bruce Berringer, Dick Finn, lighting and equipment; Bill Ryan locations; Dale Rogers, equipment; Mike Leavy, construction; George Malanga, tickets; Ed Berk, standing committee.

Congratulations to Tom Ackers.

ZETA EPSILON TAU

Congratulations are in order to the founding fathers of Zeta Epsilon Tau and especially to our first and very able officers, Walter

Krawiec, president; George Bohonyi, vice-president; Robert Pepe, secretary; Peter Savage, treasurer.

Congratulations to Craig Bertelli, the winner of our first raffle. He received \$25 worth of his favorite record albums. We wish to extend our thanks and gratitude to all of you who helped to make our first endeavor a complete success.

Pete Savage last week received his final discharge papers from the United States Air Force, where he spent three years active duty and obtained the rank of sergeant.

Engaged

David Kessler, '69, to Judith Breslow.

Carlos Almodovar, '69, to Leida Rodriguez.

OMEGA CHI

The brothers of Omega Chi wish to congratulate the winners of the recent elections for the new officers of the fraternity for the coming year: president-Paul Perna; vice-president-Lou DeCongelio; recording secretary-Bill Stanton; corresponding secretary-Ray Mooney; treasurer-Pete Capezio.

We would also like to mention that Chi Kappa Xi and we have become sister sorority and brother fraternity.

The brothers are in the process of forming some special events for our dance on Fri., April 19, so keep looking for further information and be ready for anything.

Engaged

John Mangelli, '68, to Beatrice Keenan, Orange Memorial School of Nursing.

are your contact lenses more work than they're worth?

If you're tired of using two or more separate solutions to take care of your contact lenses, we have the solution. It's Lensine the all-purpose lens solution for complete contact lens care—preparing, cleaning, and soaking. ■ Just a drop or two of Lensine before you insert your contacts coats and lubricates the lens surface making it smoother and non-irritating. Cleaning your contacts with Lensine retards the buildup of foreign deposits on the lenses. ■ Lensine is sterile, self-sanitizing, and antiseptic making it ideal for storage of your lenses between wearing periods. And you get a removable storage case on the bottom of every bottle, a

Lensine exclusive for proper lens hygiene. ■ It has been demonstrated

that improper storage between wearings may result in the growth of bacteria on the lenses. This is a sure cause of eye irritation and could seriously endanger vision.

Bacteria cannot grow in Lensine. ■ Caring for contact lenses can be as convenient as wearing them with Lensine, from the Murine Company, Inc.

Newark March

In concern for the conditions existing in Newark and other urban areas throughout the country, a walk through last summer's riot area in Newark has been planned for Palm Sunday, April 7. Participants will assemble at the Newark Courthouse between 1:00 and 1:30 P.M. to facilitate stepping off at 2:00 P.M. The group will march about 1½ to 2 miles. The purpose of the march is to display an outward sign of inward commitment which, of necessity, must be followed by further actions. Further details may be found in the next issue of the MONTCLARION.

JOHN CAREY

SPORTS SPOTLIGHT

by John Dantoni

JOHN CAREY

A Montclair Stater in the Olympics? Don't be surprised, for if freshman industrial education and technology major John Carey has his way, the Indians will be represented in October at Mexico City.

John a 5'11", 160 pounder from Fort Lee together with Paul Guyre a senior at St. Joseph's High School in Montville are the defending national two man kayak champions, winning the 1967 championship over teams from every state in the union last

summer at Columbia, Connecticut.

The two man kayak event is run by lining up all the entered kayaks and then racing over a course (usually 500 meters in length, although in the Olympics the team will race over both 500 and 1000 meters) staying within individual lanes marked by buoys and observing rules of passing and paddling.

Carey got his start in kayak racing in 1966 when he met his present coach, Clyde Britt, in Fort Lee. Through Britt, John joined the Wanda Canoe Club team where he began competitive races. He was an instant success winning over 20 medals when teamed with Paul Guyre.

The two are of similar builds and weights (very important in assuring proper boat balance) and have now been paddling together for three years.

John works as the sternman and as such his job is to keep time and push while Paul's function as strokeman is to set the stroke and steer and push the boat. The cohesiveness between the two is amazing. "Paul and I are trained

to the point", states John, "where every move is spontaneous. He can sneeze and I'll do the same. It's like second nature." Carey also stresses the team nature of kayak racing. It is a sport in which a well co-ordinated team will win out every time over a superior individual with an average partner.

John, already in serious training for the Olympic trials, has already been forced to postpone pledging Tau Lambda Beta until after his Olympic obligations are concluded.

John's present work consists of three hours of work daily, paddling on the water every clear

day when he and Paul's schedules are compatible and doing special exercises to build up skeletal and longitudinal muscles. Kayak men, unlike oarsmen who do heavy weight work, are similar to trackmen in doing a lot of running to build up endurance and wind.

Heavy work will commence next month when John and Paul will be on the water seven days a week. During the summer four to six hours a day will be spent in the kayak.

The date that John and Paul are working for is the Labor Day weekend when the United States Olympic trial in two man kayak competition will be held in Long Branch, California. On that weekend, a years work will end in

MSC hurler rounds into shape for coming season.

either frustration or ultimate success.

Good luck John, all of Montclair State is pulling for you.

Indians' Baseball Team Faces Rebuilding Year

"This is a rebuilding." These words, spoken by Bill Dioguardi, Montclair State baseball coach, do not abound in optimism toward the upcoming season.

"The team was definitely hurt by graduation," Dioguardi continued, "as we lost nine lettermen. Included in this number were five starters, one pitcher and three utilitymen."

However the three returning Indian starters, Bob McCormick, Jim Downing, and Frank Rossi are all of top caliber.

McCormick, a sophomore from Bloomfield, leads the Indians in batting while holding down the second base position. Senior centerfielder Downing (a starting end on the football team) was the team's number two hitter, while Rossi was the Indian's top slugger (hitting a record three home runs in one game last season) and a strong armed catcher on defense.

Pitching, an Indian strong

point last season, should be at least adequate with Pete Jerauld, Fred Keimel, and Ralph Miller forming the nucleus. It could be top notch depending on how fast newcomers Ken Inglis (a high school all stater last season) and John Grymko (up from the junior varsity) adjust to varsity ball.

Montclair also received an assist in obtaining two junior college transfers in Ken Meek and Ken Frank who are expected to hold starting berths. Meek, a 6-1, 190 pounder is a shortstop while Frank is a 6 foot, 190 pound first baseman. Both men are excellent hitters.

Other Indian starters are former all-stater Rich San Filipo from Belleville at third, and Howie Behnke and Tony Pecaro in the outfield. Behnke is a senior physical education major from Paramus, while Picaro moves up to the varsity with rave notices, as he was voted last years' top freshman.
