## The Players

VALE Cooperative
 Collection Management
 Committee

## The Problem

Develop & test a method for finding out if individual libraries are getting "the most bang for their buck"

## The Solution A Pilot Study!!!

## **Project Purpose:**

- To determine circulation of <u>recently purchased</u> <u>material</u> and analyze its use
- To help assess collection development policies and practices regarding book selection, approval plans
- To help identify trends, strengths and weaknesses in the collection, and to consider ameliorative strategies

#### **Project Purpose (Cont'd):**

- To help determine the best use of material budget allocations
- To determine/identify a circulation/acquisition ratio

## Pilot Project Participants:

- Montclair State University
- Rutgers University
- William Paterson University

## Parameters

### What to count?

- Books only. Print only
  - Media and ebooks would be a separate report
- Purchased only (not added such as gifts).
  - Define how you identify purchased items.
- Circulating only (not Reference or Special Collections, or any other non-circulating book collection)

## What to count? (Cont'd)

- Approval programs and firm orders.
- Faculty and Librarian selected.
- Include ILL, Reserves, in house use (anything that is counted in ILS circulation)

#### **Time Frames to Use**

- Fiscal year July 1 to June 30
- When purchased: Begin with FY 2005.
  - Eventually will collect 5 years of data
- When received.
  - Define how you identify received items (Barcode attached, Item create date, etc.)
- Begin circulation WHEN?

## Reporting

Call number ranges by LC classifications.
 One letter or two letters as needed.

Use Template to record date

## **Template**

TEMPLATE:	VALE CIRCULA	ATION OF REC	ENTLY PURCH	ASED PRINT B	BOOKS

## Step 1

## Determine LC Classification Breakdowns

## Step 2

## Create report templates in Workflows

## Report Template Used:

Count Item Titles

(TITLECNT REPORT) to count the titles added during a fiscal year & which have circulated

#### **Selection Criteria:**

#### **Count Items Added**

#### Callnum Selection Criteria

- Call Number Range: greater than <u>a1</u> and less than az<u>9999</u>
- Class Scheme : contain LC

#### Item Selection Criteria

- Home Location : contain STACKS
- Date Created : after 6/30/2005 and before 7/1/2006
- Category 2 : not contain GIFT,GOVDOX,MAML

## Count Items Added That have Circ'd

#### Callnum Selection Criteria

- Call Number Range: greater than a1 and less than az9999
- Class Scheme : contain LC

#### • Item Selection Criteria

- Home Location : contain STACKS
- Date Created : after <u>6/30/2005</u> and before 7/1/2006
- # Total Charges : greater than 0
- Category 2 : not contain GIFT,GOVDOX,MAML
- Date Last Charged : before 12/31/2010

## Step 3

## Run the reports

#### July 1, 2004 - June 30, 2005
