PROMETHIANS
c/o Dr. Merze Tate
Howard University
Washington, 1, D.C.

Dear Sirs: Inclosed is my application for membership in the PROMETHIANS. I often wondered whether or not the member of the 2515th "Engineers" would ever again get together; this club seems to answer the question. I hope our first meeting is not far off. Please accept my initial contribution of \$1.00 and place my name on the rolls. As I expect to leave on a "sponsored tour" of certain foreign countries soon, I especially wish to make contact with all my former buddies before I leave. Since within the week I expect to depart this station, I will take the Headquarters of the Prothians as a medium for finding their addresses. Once again let me express my satisfaction at the formation of such a club as the PROMETHIANS and my joy at being a member.

Sincerely yours,

Eugene P. Mackey

Dear Dr. Tate:

Inclosed you will find my subscription fee for the months of Oct., Nov., Dec., & Jan. I am sorry that my Oct. subscription did not arrive earlier but counts, as you can see, prevented its being sent. I wish very much to see the Bulletin as I know it has quite a bit of news about the boys.

Above is my current address & any further change will quickly be dispatched to you. I would appreciate receiving the addresses of any of the fellows, except those at Huachuca whose I already have, so I might drop them a line. With my current situation known as "somewhere in England" you can imagine how I appreciate hearing from my friends & writing to them. I trust that this letter finds you in good health & anticipating another fruitful school term. Would you kindly let me know when you receive this so I will know not to continue to hold my stub. With the school term in full swing, I imagine you have quite a bit of work on your hands, so I'll close now.

Respectfully Yours,
Eugene P. Mackey
