Reagan wins second term by landslide

by the Associated Press

President Reagan swept to runaway re-election over Walter Mondale last night, but Republi-cans struggled to translate his landslide into significant gains

landside into significant gains in Congress.

The GOP renewed its control of the Senate, even if by a reduced margin, and were gaining in the House. But Democrats successfully battled against the Reagan tide in district after district to protect their large majority.

majority.

Mondale conceded defeat, telephoned his congratulations to Reagan and told cheering supporters in St. Paul, Minn., "He has won. We are all Americans; he is our president and we cans; he is our president and we honor him tonight."

Mondale said, "This fight

didn't end tonight, it begins to-

ight."

"Although I would rather have won, tonight we rejoice in our democracy," Mondale said. "We rejoice in the freedom of a wonderful people and we accept their verdict."

Mondale praised his running mate, Geraldine Ferraro, the first woman nominated for that office. "We didn't win, but we made history and that fight has just begun," he said.

"Let us fight on," Mondale said. "Let us continue to seek an America that is just and fair.'

MONDALE SAID he is "at peace with the knowledge that I gave it everything I've got."
Ferraro hailed Mondale in a concession from New York City, saying he won another battle "That battle for equal opportunity . . . he opened a door that

In the other contest, Republican Andrew Douglas of Toledo, judge of the 6th District Ohio Court of Appeals, had a lead over Democrat John E. Corrigan, Cuyahoga County Common Pleas Court judge, of 836,689 to 761,026, or 52 percent to 48 percent.

Wise decision made on fee allocation

The decision made Monday night at the Intra-University Presidents' Council meeting to keep the Advisory Committee on General Fee Allocation out of the hands of the Undergraduate Student Government is a wise one.

Since USG is funded through the general fee, whose distribution is determined through ACGFA, there could have been some bias in their decisions if USG members controlled the committee.

According to Dr. Bob Arrowsmith, chair of ACGFA and assistant vice president for student affairs, last year ACGFA determined how \$275,000 would be distributed among student organizations for the 1984-85 year.

At the present time, the majority of students who sit on the executive board of USG are greek or white males. World Student Association President Pam Columbo says USG is not representative of the student body

Leaving ACGFA the way it is will give more fair representation to minority groups and eliminate chances for biased decisions since USG would have had to allocate money for itself.

Seventeen people form ACGFA, including 15 student members, one faculty member and one administrative staff member. Representatives from eight student organizations and the undergraduate and graduate representatives to the Board of Trustees (one each) help form the com-

Palestine our major foreign policy flaw

by Eric Anderson

There are certain issues that cause every columnist to rush to the typewriter in an effort to release anger over injustice gone uncorrected. This writer has two subjects which provoke such reactions: the first is the racial policies of South Africa; the second centers around the State of Israel.

If the United States ever made a mistake in the area of foreign policy, it was in supporting the desire of Jewish Zionists to create a homeland in Palestine. Blinded by pangs of guilt brought on by Hitler's Holo-caust, it was decided in 1948 to partician Palestine and thereby partician Palestine and thereby give birth to a Jewish nation. This rash decision stripped Palestinian Arabs of land they had lived on for the past 2000 years. Imagine the outcries that would echo throughout this nation if after only 350 years the residents of Rhode Island were told to pack up and make room for the native Indians.

It is estimated that in 1948

It is estimated that in 1948 only 7 percent of the land in Palestine was owned by Jewish individuals. The other 93 percent of the property was in Palestinian hands . . . by 1984 that figure has been reversed with almost no cash changing hands. To acbombings, death as threats, and land seizures were employed. This type of activity finds its only modern parallel in

South Africa . . . In order to maintain a firm grip on all this confiscated territory the Israelies have struck upon a frightening concept, racial segregation through the granting of citizenship. It seems that if a Jew moves to Israel he/she need only file an application to become a citizen. The former Palestinian residents have no such right. They cannot gain citizenship in Israel, even if born there. There is only one parallel for this official policy of segregation . . . South Africa, where blacks are not granted South African citizenship, but rather forced into small territories known as "homelands." grip on all this confiscated terri ries known as "homelands." here, for the Israelies have now decided that it is their right to occupy Lebanon. This imperialistic move has been justified by Zionists, as protecting northern Israel from terrorist raids. The South Africans claim that they must remain in Namibia (South west Africa) because they are protecting their borders from terrorists. Israel claims it went into Lebanon to help establish a new government in that war torn country. The South Afri-cans make the same claim about

The only reason that the Israelies have been able to con-tinue these flagrant violations of accepted international conduct, is the United States. The US of A donates half of all its foreign aid to Israel . . . this must stop. In the cases of Israel and South Africa the next American exec-utive would be well advised to seek out strategic allies that don't practice such abhorrent racial policies. We would be far better of to shift our support to Egypt and Saudi Arabia. The Egyptians' have the Mediterranean ports necessary for our navy, and the Saudis' have a lot of oil.

Let this bastion of democracy correct its ways, sweep away the a foreign policy based on past guilt and move to a more realistic approach to the world. There are a lot more Arabs than there are Israelies, and clearly more blacks than whites in South Africa. The United States can ill afford to continue alienating a majority of the world solely on the basis of maintaing strategically placed allies. Cut the apron strings of aid to Israe-lies and South Africans refuse to trade with them until their current policies are changed. Such a move would help restore America's image in the world. And if the guilty re-fuse to bend . . . well with so much in common, perhaps the South African's would like to establish a homeland for the

The CIA's proofreaders

by Art Buchwald

There has been some slight consternation in Washington about a CIA manual written for rebel forces fighting the Sandirebel forces fighting the Sandinistas in Nicaragua. I called up my mole at the Central Intelligence Agency to find out how they were taking it.

"We're all cool," he said.

"The problem is you just can't find good proofreaders any more."

more."

I asked, "What was the purpose of the manual?"

"To help our freedom fighters overthrow the Marxist government of Nicaragua by kidnapping, assassinating and blackmailing civilians," he said.

"What is the difference between a freedom fighter and a terrorist?"

"A freedom fighter is fi-nanced by the CIA. A terrorist is

supported by the KBG, Quadaffi and Khomeini." "But according to your man-ual the methods used in achiev-

ing the goals are the same." "They might seem that way to the uninformed reader. While freedom fighting requires using tactics similar to terrorism, we part company with terrorists when it comes to which ends justify which means."

"I thought the United States was against all terrorism. President Reagan has ordered an investigation to find out who put out the manual. He was shocked to hear we were making our freedom fighters into terror-

"Why was he shocked?"
"Because he obviously didn't know about it."

"Why didn't the CIA tell him what it was doing?"
"If the president knew what we were doing he couldn't be shocked, could he? The United States does not condone political assassinations nor the over-throw of a legitimate government by force."
"But the CIA does?"

"Somebody has to stand up for America.

"How can the United States protest acts of terrorism in Bei-rut and condone them in Nicara-

gua?"
"You have to differentiate between apples and oranges. In Beirut we see examples of wan ton terrorism against innocent people, while in Nicaragua our freedom fighters use their skills against despots and dictators."

"Every terrorist thinks of himself as a freedom fighter." "That doesn't make him one in our eyes. He has to pass a test."

"What's the test?"
"Does the terrorist act he commits have the sanction, if not the financial support, of the CIA? If it does, the terrorist is officially certified as a freedom fighter."

"And then he is permitted to read the manual?"

"That's correct. It says right on the cover of the manual, 'For Freedom Fighters Only.' " "Suppose it is read by a ter-rorist?"

"Then we'll pull his teeth out."

"Are any heads going to roll at the CIA for embarrassing the president? Will you do anything to the guy who wrote the man-ual?"

"Not at the moment. But when things quiet down, he'll probably get a medal and a promotion."

"How is Director Bill Casey taking it?" "He was even more shocked

than the president."
"Because of the contents of the manual?"

"No, because somebody in the agency leaked it. If there is one thing that sends the director up the wall, it's having a freedomighting textbook fall into the hands of a ruthless terrorist press."

How moral do you think you are in the area of civil rights? Can you condone President Reagan's policy on civil rights.

gan's policy on civil rights.

If you're not sure about what his view is, it's that which promotes the lessening of Federal action in eliminating discrimination. It was his policy in 1980 and still remains his policy in 1984

If you're not, then you're probably wise to what's going on, or worse still, are being affected by this policy. If you are surprised, this article is for

Look at Reagan's 1980 cam-paign. The New York *Times* of October 10, 1980 article of the views of the candidates on civil rights does show Reagan sup-port for the lessening of govern-ment actions in civil rights.

ment actions in civil rights.

The government's actions in discrimination, you must agree, have worked to intergrate the school systems, in places and times when segregation led to physically inferior schools for blacks. Government at that time advocated "separate but equal" many times. We now regard this as discriminatory. Lessening of government actions may allow history to repeat itself. Maybe that's why the U.S. Civil Rights Commission is saying that the Administration is making an "effort to reduce Federal civil rights enforcement in educarights enforcement in educa-

The Commission also differs with the Administration's stance on employment discrimination. The Commission believes mi-

The Commission believes minority and women who are being discriminated against is the problem. Reagan sees "reverse discrimination" as the problem. Willy is it that unemployment figures for blacks and women are higher than that of white males. True, they have been in the work force longer, but we do not need to end programs and precedents that try to reduce that rate.

Maybe you will say they aren't as qualified. That could be stemmed from the before mentioned education problems which Reagan wants us to re-

which Reagan wants us to re-

home, when female headed households make up half of the poor households in this country. So whether or not women wanted to stay home, they could not, because of the need to sup-port a family. Do you believe that people need help at one time or another? Many blacks and other minorities did need help at one time or another. Govern-ment "intrusion and interven-tion" has helped to build the ladder to bring them up the long climb out of economic troubles. Many blacks for the first time had job opportunities and even advancement, because of this ladder. Reagan has removed

this ladder and replaced it with a pole, making it harder to climb up and easier to slide down.

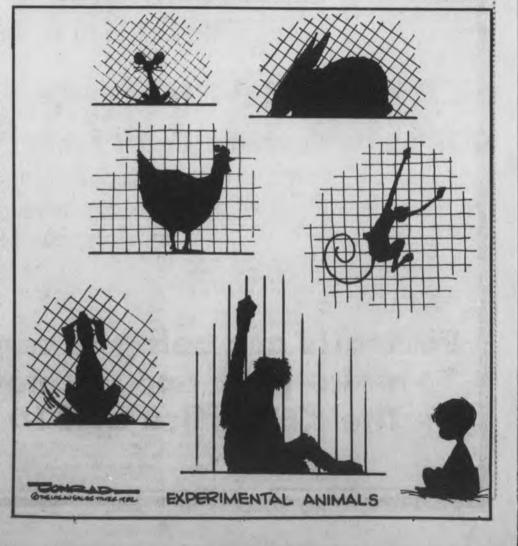

Blacks should not be denied a chance to work in society because government will not "intrude and intervene" for their cause. Maybe the two Offenhauer Republicans will see this quote, "No man can be fully free while his neighbor is not. To go while his neighbor is not. To go forward at all is to go forward together." The man? Richard M. Nixon.
As for the Kennedy quote, the

same president also sought pas-sage of the Civil Rights Act, sent in the National Guard in many states to enforce the end of dis-

crimination, and tried to promote government strength in dealing with civil rights viola-tions. This does not sound like a president who believed in the non-intervention of government to injustices in this country, as Reagan seems to imply.

Think of the significance of the actions that Reagan has carried out in civil rights. If you have morals of good charactor, can you justify the continuance of this policy?

Student voting varied GOP cheers at Ice Arena

from staff reports

Students varied in their voting patterns yesterday at the North-east Commons polling booths.

Some only voted in the presidential election.

"This was my first time voting and the only thing that seemed to matter was the big election," said an unidentified male junior.

"I really didn't think that much about the local things or know about them so I shied away from In a random poll of 28 students leaving the voting area, 19 voted for presidential candidates, is-

While there was little to cele-brate last night at the Wood County Democratic headquar-ters, the President's Lounge in

the Ice Arena was in a frenzy. After the final results were tallied, only one Wood County Democrat, incumbent County Recorder Sue Kinder, had won,

defeating James Witte.

The lounge was filled with partiers and praisers of President Reagan and the Wood County candidates – the soon-tobe-winners.

Democratic headquarters was a different story. It was not very full because supporters received

an indication of their candidates' fate at about 9 p.m.

Democratic supporter and University student Jamie Rug-giero said, "I'm tired of this, I'm going home to go to bed."

Schmitz is one of 26 election judges in Bowling Green. An election judge is in charge of keeping the ballots until Election

"The hardest thing to do is tell someone they can't vote because they aren't registered," Schmitz said. "Once in a while you'll get one of these girls crying because she can't vote."

He said college students have the hardest time remaining registered because their addresses usually change every year.

Designer gives seminar

by Kelly Fritz

Theater majors caught a rare glimpse into the real world of Broadway theater at Saturday's seminar by Jules Fisher, a Tony award-winning Broadway pro-ducer and lighting designer.

Fisher, who grew up in Penn-sylvania, told the audience of mostly students he was unsure of his career choice until he became an apprentice in a sum-mer stock theater.

"That was it. I decided I'd like to do that (technical lighting)," Fisher said.

He then moved to Philadel-phia and worked at a small theater during the week and at larger theaters as a stagehand on weekends.

He received a degree from Carnegie-Melon Institute in Pittsburgh before moving to New York City to break into the

Fisher slowly developed a network of contacts through his lighting work on a series of off-Broadway shows. In 1963, after three years, he was offered his first Broadway show.

PROBLEMS DEVELOPED, however, when it was discovered that he was non-union. He was released from the show two weeks before it opened off-Broadway. Union membership so important on Broadway at painters threatened to strike if a non-union employee

was hired Fisher had problems with the union for several years because he couldn't pass its proficiency

We're neither better nor worse off than we were four years ago, according to Uni-versity professors Paul Haas and Don McQuarie. Haas, economics professor,

said while unemployment has "decreased dramatically in the last years of the Reagan administration," because of a rapid rise in the first part of his term, both economic growth and unemployment are "virtually the same as it was four years ago." Government spending was

"anywhere from minimum wage to \$4 or \$5 an hour."

McQuarie, associate professor of sociology, said this fessor or sociology, said this shift in employment was a long-standing economic trend which would have gone for-ward "no matter who was in office," adding that there are

"now more people working for McDonald's than in the entire U.S. steel industry."

"It's hard to say what would be different under Mondale," McQuarie said last week. "A Mondale administration would have a ministration would have a definite set of priorities on social spending and more money would be given to pay for social programs." The poverty line, as determined by "the minimum amount of money a person could spend on food and still remain alive," is \$10,000 a year for a family of four, he said.

Polish priest beaten, reports say

WARSAW, Poland (AP) - The Rev. Jerzy Popieluszko appar-ently was bound, gagged and battered - but still alive - when his abductors threw him into an icy reservoir in northern Poland, a well-informed source

said yesterday.
The source, who spoke on condition of anonymity, had infor-mation about an autopsy on the pro-Solidarity priest. The au-topsy results have not been made public, but there have been many reports attributed to family, friends and priests say-ing Popieluszko's body bore marks of torture and severe

beating.
Popieluszko had been bound hand and foot with a noose around his neck so he would choke if he struggled.

The source said yestereday the priest died of asphyxiation; it was unclear whether he drowned or choked to death. Popleluszko had been gagged and had rope burns around his neck the source said. neck, the source said.

6 killed in South African riots

JOHANNESBURG, South Africa (AP) - At least six blacks were killed yesterday in clashes with police, raising to 16 the death toll in two days of protests that stemmed from a general strike in black townships near the capital.

Rioters set fires and threw stones, and police responded with tear gas, rubber bullets and blasts of birdshot, and sent hundreds of officers on armored car patrols in Tembisa, east of Johannesburg. Seven people have perished in Tembisa during the wo-day strike. Hundreds of thousands of

black workers and students stayed home Monday in Trans-vaal province, South Africa's

industrial center, in what organizers said was an unexpectedly successful demonstration of black discontent with the white government and its policies of racial separation. Employers said the boycott eased only eligibity posterolars.

A police spokesman said a black woman was killed in a stoning incident in Kwazakele, near Port Elizabeth; another was killed in Daveyton; two black men were killed during crowd attacks on Tembisa; and two other black men were killed when police fired shotgun blasts at a crowd throwing stones at Katlehong.

Police spokesmen gave few riot details and reporters were barred from trouble spots.

Discovery set to grab satellites

CAPE CANAVERAL (AP) As its five astronauts received last-minute flight updates, crews prepared space shuttle Discovery for lift-off this mornring on a mission to chase and capture two satellites that are whirling around Earth in worth-less orbits.

Discovery is set to roar away from the Kennedy Space Center at 8:22 a.m. EST and predictions are for scattered clouds, 'no chance of fog" and gentle winds. During their eight days aloft, the astronauts will deliver two commercial satellites to space, then make daring space walks to snag the two errant satellites

snag the two errant satellites and lock them into the shuttle cargo bay for return to Earth.

It will be the first time satellites have brought back for repair. The technique for tracking them down was developed last April when another crew swapped parts on the Solar Max satellite and released it back into orbit.

Of the 13 on scholarship, nine are freshmen or sophomores. Only two starters return from last year's third place MAC team.

The difference in this year's team could be summed up in one word: attitude.

Last year's starting lineup, with the exception of the point guard battle between Brian Miller and Al Thomas, was decided at the end of the previous season. Another problem that faces
the Falcons this year is the

lack of height. The tallest man on the team that will see considerable time is Freddie Bryant at 6-10. He will be one of the biggest in the league, but far from the most talented of the big men.

Falcon spikers pound Rockets

sports reporter

Some people just don't realize that it's time to leave. Just like the aunt and uncle who stayed until the wee hours of the morning playing cards.

Bowling Green's volleyball team wasted little time in letting Toledo know they weren't welcome guests as they pummeled the Rockets in three straight games, 15-6, 15-11, 15-7 in Anderson Arena last night.

Head coach Denise Van De Walle said that her team proved they were simply just better than the Rockets.

"We had confidence out there tonight; we knew we were stronger at the net and we dominated the net," she said. "Individually, they've got a couple of strong players, but we have a strong team."

After a sluggish start, the Falcons set the tone for the evening by grabbing a 12-4 lead behind the aggressive net play of Lisa Berardinelli. By the time the match was over, UT was no doubt tired of seeing the sophomore middle blocker who, in tandem with freshman Jo Lynn Williamson, helped humiliate the 5-23 (0-15 in the Mid-American Conference) Rockets.

Berardinelli converted an unstoppable seven of 11 attempts for a 636 hitting nercentage. In addition she

Berardinelli converted an unstoppable seven of 11 attempts for a .636 hitting percentage. In addition, she blocked six UT attacks for points or side-out.

"YESTERDAY IN practice, she (Berardinelli) was hitting much more explosively than in several weeks. Her footwork was right on the money, her arm swing was faster and that's exactly what we wanted," Van De Walle said. "It carried right into the match."

The Rockets momentarily overcame Berardinelli's onslaught to claim an 11-11 tie in the second game but the

pesky Falcon spiker pounded two attacks and a service ace to seal the BG triumph.

Williamson did the damage in the final game to finally chase BG's guests back home. Freshman Laura Cramer, who had six kills in 10 attempts, shut the door on UT – and

locked it – with an ace.

All of the explosive hitting gave BG a team percentage of .315 but all of ht credit can't go to the hitters, according to Van De Walle. Setters Barb Baker, 20 assists in two games, and Tracy Livesey, 15 in one game, provided the

necessary support.

The Falcons will have the host-guest tables turned on them Friday when they take their 13-13 (7-8 MAC) record to face UT on the Rockets home court.

"I expect them (UT) to play a better match but I'm not worried because we've seen exactly what they have and should be able to beat them in three again," Van De Walle said. "That's not overconfidence, it's fact."
