Department strives to maintain Division I-A status

University anticipating a football season filled with roar of crowds

Mark your calendars for Sept. 30. It's the date of a Bowling Green first—a night football game at Doyt Perry Field. As long as you're at it, mark down Sept. 16 and 23, Oct. 14 and Nov. 4 as well.

Each is the date of a Falcon home football game and each will offer a special feature in addition to the chance to watch the Falcon team in action.

The plans are all part of an effort to increase attendance at home games to ensure that Bowling Green and the Mid American Conference retain Division I-A status. This year the football program needs to average 17,000 paid attendance at home games. Five of the nine conference schools must reach certain attendance goals for the MAC to qualify as a Division I-A conference.

"A drop from Division I-A would erode financial support for all sports," said Philip Goldstein, athletics. Division I-A status carries with it more prestige and allows the University to compete nationally. The income gained from football contributes the largest increment of funds to the pool that is used to support all University sports programs, he added.

Goldstein said a change to Division I-AA status would mean other limitations as well. For example, Division I-AA teams are permitted fewer athletic scholarships and coaches.

The athletic department, though, is confident that fans will attend the games this year. "They're going to be an exciting team to watch," said Moe

Ankney, head football coach. "We have very skilled players with a lot of speed which will make for a lot of thrills."

The combination of new and returning players will provide the basis for a strong team, he added.

Ankney said he's hopeful but realistic about attendance for the season. "It would be good to have that old-fashioned school spirit but we're smart enough to know that it takes a good team to draw a crowd."

Attending football games has been made easier for students this year. No longer do students have to purchase a sports pass or pay admission to the games. To gain admittance to a football game, students, full- or part-time, simply have to show their student IDs. Goldstein said this is likely to increase attendance because it will appeal to even marginal sports fans. "They may not have had enough interest to want to pay to get into a game before, but if now they only have to show an ID they may be more willing to go, especially when it will help the University."

The athletic department also is reaching out to alumni, urging them to buy season tickets to support the team.

Special events planned for each game will appeal to a variety of other groups as well. Scouts and Wood County schoolchildren will get into one of the games free this season. Sept. 16 has been deemed Band Day and will feature several area high school bands in addition to the Falcon Marching Band.

The night game on Sept. 30 also is Student Appreciation Night, which will offer free concessions to students and T-

Football coach Moe Ankney offers some pointers to defensive back Mike Haack during a practice last week. The Falcons open their home season Saturday (Sept. 16) at 1:30 p.m. against Ball State.

shirts to the first 5,000 students through the gate. Another season highlight is the Oct. 14 Homecoming game against traditional rival University of Toledo. The last time Bowling Green faced Toledo on Homecoming was in 1983 when 33,527 spectators set an all-time home game MAC record.

Goldstein said he feels positive about interest in the team and Bowling Green's potential to maintain Division I-A status.

"We can't determine how the team will do or what the weather will be like, but we're doing all we can to bring in a crowd," he said. — Diane Docis

Company to develop research park's first phase

President Olscamp announced last week that the University has signed a five-year contract with Vista Development Inc., a Rudolph/Libbe company, to develop the initial phase of the research/enterprise park in the I-75 corridor of Wood County.

Vista is a Toledo real estate development company.

The 88-acre park, located on the east side of I-75 at the corner of Dunbridge Road and E. Wooster Street in Bowling Green, is a collaborative effort of the University, the city of Bowling Green, Wood County, the state of Ohio and private enterprise.

Vista's role will be to identify companies and organizations whose needs are compatible with the intent of the park to locate in the approximately 15 buildings planned for the park. In addition to their own growth and economic development, the park's tenants are expected to provide educational opportunities and experiences for University students as well as consulting and research opportunities for faculty.

Olscamp indicated the University talked with firms from throughout the Midwest and Northeast before selecting Vista. He said Bowling Green is pleased to have reached an agreement with Vista because of the Toledo company's local ties, fine reputation and sincere interest in developing northwest Ohio.

"This agreement is tangible evidence of Bowling Green's all-out commitment to enhance the economic base of northwest Ohio and expand upon opportunities available to our students to work with progressive companies. We want to

President Olscamp (left) and David Boston, president of Vista Development Inc., sign a contract at a meeting last week that will lead toward identifying companies and organizations whose needs are compatible with the intent of the University's research/enterprise park.

maintain the lead in this vital financial and educational activity," Olscamp said.

David Boston, president of Vista Development Inc., said his company's interest in the project was sparked first, by its location, and secondly, by the resources the University can provide to business and industry.

"We think that the location of the project on I-75 and the activity being generated along the interstate is excellent. It's a good location for people who can directly benefit from the research and technical expertise at the University," Boston said.

Senate looks at changes in calendar

A change in the current academic calendar has been delayed by Faculty Senate until senators and their colleagues have studied the new proposal. Dr. Ronald Lancaster, computer science, did not have enough time at the Sept. 5 meeting to complete his presentation of the Committee on Academic Affairs' proposed calendar changes.

The Senate voted to maintain the current calendar for the summer of 1990 and Lancaster will continue his presentation at the next Senate meeting. The Senate action meant that there will be no calendar changes until at least fall 1990.

Included in the proposals for a uniform calendar were scheduling classes on Labor Day and creating a new fall holiday five weeks into the semester; starting fall semester classes on Aug. 29 in 1990, and an 18-day break between summer and fall semesters and a 23-day break between fall and spring semesters and nine between spring and summer semesters.

In addition, the summer semester would be reduced from 13 to 12 weeks and would consist of two six-week sessions and an eight-week term.

In other action the Senate approved four health promotion proposals from the Faculty Welfare Committee, including:

1. Endorsing, in principle, a University-wide program of optional examinations for preventive medicine detection for

Commentary

Editor, the Monitor:

I enjoyed reading Tom Anderson's letter to the *Monitor* last week. By carrying a principle to ridiculous extremes, he made me chuckle, and I hope that was his intent. However, I also was troubled, because I thought the letter contained two serious distortions.

For one, Dr. Anderson suggests that a concern for the health and longevity of the campus community is somehow inconsistent with the primary goals of the University, education and the expansion of knowledge. Are these two goals truly incompatible? Must I choose between a sound mind and a healthy body? Or, more specifically, are academic pursuits actually somehow dependent on the presence of tobacco smoke? I find this suggestion ridiculous, not amusing.

The second distortion was the suggestion that having banned smoking, it would be logical to extend the ban to include fatty foods, caffeine, overweight, underexercise, teetotaling, overdrinking and stress. This ignores a crucial distinction. All of these behaviors may be unhealthy, but only smoking also jeopardizes the health of others. Exposure to second-hand cigarette smoke causes lung cancer.

I hope that public discussion of the smoking ban will not ignore the serious public health issue involved. I enjoy a good laugh, but I believe that second-hand cigarette smoke is not a laughing matter.

Dr. Joshua Kaplan,
medical director
Student Health Services

Deans, chairs and directors to head departments for 1989-90

There will be several new faces among faculty and staff who will serve as directors and chairs of departments for the 1989-90 academic year.

New chairs this year include Richard Gebhardt, chair of English; Harold Fisher, chair of journalism; J. Charles Cranny, chair of psychology; Paul Mueller, chair of finance; Donald Boren, chair of legal studies; Ronald Hover, chair of military science; Alan Rohrs, chair of aerospace studies; Eugene Thompson, chair of educational administration and supervision; Trevor Phillips, chair of educational foundations and inquiry; and Sudershan Jetley, chair of technology systems.

New directors include Dennis Hale, director of the School of Mass Communication, and Karen Gould, director of the women's studies program.

Michael Marsden will be serving as interim chair of interpersonal and public communication, and Linda Petrosino will be acting chair of communication disorders.

Continuing deans for 1989-90 are Andrew Kerek, College of Arts and Sciences; Roger Bennett, College of Education and Allied Professions; Clyde Willis, College of Health and Human Services; Robert Thayer, College of Musical Arts; Jerry Streichler, College of Technology; Rush Miller, libraries and learning resources; Louis Katzner, Graduate College; Ramona Cormier, continuing education and summer programs; and Robert DeBard, Firelands College.

A search currently is being conducted for dean of the College of Business Administration.

Continuing chairs and directors for various departments include:

—College of Arts and Sciences: Thomas Hilty, director of the School of Art; Reginald Noble, chair of biological sciences; Douglas Neckers, chair of chemistry; Ann-Marie Lancaster, chair of computer science; Thomas B. Cobb, director of environmental programs; Robert Perry, chair of ethnic studies; Alvar Carlson, chair of geography; Charles Kahle, chair of geology; Joseph Gray, chair of German, Russian and East Asian Languages; Gary Hess, chair of history; and Robert K. Clark, interim chair of radio-TV-film.

Also, Hassoon Al-Amiri, chair of mathematics and statistics; Thomas Attig, chair of philosophy; Robert Boughton, chair of physics and astronomy; Michael Maggionto, chair of political science; Ray Browne, chair of popular culture; Diane Pretzer, chair of romance languages; Meredith Pugh, chair of sociology; and Allen Kepke, chair of theatre.

—College of Business Administration: Thomas Evans, chair of accounting and MIS; James Sullivan, chair of applied statistics and operations research; David Hyslop, chair of business education; J. David Reed, chair of economics; Peter Pinto, chair of management; and James West, chair of marketing.

—College of Education and Allied Professions: Carney Strange, chair of

college student personnel; Robert Oana, chair of educational curriculum and instruction; Ronald Russell, acting director of the School of HPER; Deanna Radeloff, chair of applied human ecology; and Edward Fiscus, chair of special education.

—College of Health and Human Services: Robert Harr, chair of medical technology; Joyce Shoemaker, dean (MCOT) of the School of Nursing; Barbara Keeley, coordinator (BGSU) of the School of Nursing; and Evan Bertsche, chair of social work.

—College of Musical Arts: Kenley Inglefield, chair of composition and history; P. Thomas Tallarico, chair of music education; and Richard Cioffari, chair of performance studies.

—College of Technology: Ernest Ezell, chair of visual communications and technology education.

—Libraries and learning resources: Joan Riapp, director of access services; Paul Yon, director of the Center for Archival Collections; Bonnie Gratch, director of information services; and Jack Ward, director of the Instructional Media Center.

—Firelands College: M. Peter Henning, chair of applied science; O. Dale Schnetzer, chair of humanities; and Kenneth Hille, chair of natural and social sciences.

Bureau offers information

Meetings, conferences and conventions held in Bowling Green produce a positive image of the community and generate revenue for the local economy. Donna Greenwald, director of the bureau, reminds departments that the bureau provides informational packets and promotional items at registration tables or banquet settings, along with other convention services, all free of charge.

Faculty, staff or departments planning an event or convention in Bowling Green are invited to contact the bureau at 353-7945 to find out more about its services.

Greenwald said hosting an event in Bowling Green generates revenue through the city's three percent hotel/motel tax, sales tax and income tax collected from hospitality workers. According to the Ohio Division of Travel and Tourism, for every dollar a visitor spends, another \$1.90 is generated somewhere in the community.

To allow business, University and community organization leaders see firsthand the meeting options available in Bowling Green, the bureau sponsors a guided tour of local facilities. Guests are shuttled to several locations with meeting planners giving personalized tours and explaining services and features.

The next tour of meeting places is scheduled for Oct. 25 with two sessions from 8-10 a.m. or 3-5 p.m.

Edwards named by the Heritage Foundation as Bradley Scholar

Dr. Bruce L. Edwards, English, has been named by the Heritage Foundation, one of the country's leading think tanks, to its Bradley Resident Scholars program for the 1989-90 academic year.

The Bradley Scholars program was established in 1987 with a grant from the Lynde and Harry Bradley Foundation of Milwaukee. It enables scholars from around the world to work on long-term projects and interact with Heritage's resident research staff and the Washington policy-making community.

Bruce Edwards

The scholars also teach in Heritage's Conservative Curriculum program, a series of graduate-level seminars on the roots of American conservatism. The fall 1989 seminars are examining the "Classics of 20th Century Conservatism."

In addition to Edwards, a Ghanaian economist, two British scholars and two other U.S. professors were named to the program.

Edwards, who will be taking a leave of absence spring semester, plans to work

on a book explaining how to address the problems that pluralism raises for language and literature, based on the work of linguist Kenneth L. Pike. Although not as well known as linguist Noam Chomsky, Pike has an international reputation and provides solutions to problems of cross-cultural communication, Edwards said.

"The Heritage appointment provides me with opportunities for government service while in Washington, D.C., and the possibility of working in the Department of Education on an apprentice basis regarding literacy issues," he said.

Edwards joined the University staff in 1981. He received his bachelor's degree from the University of Missouri, his master's degree from Kansas State University and his doctorate from the University of Texas.

He has published several books, including a freshman composition textbook that focuses on word processing and writing. He also has published a book on C.S. Lewis as a literary critic and has edited a second entitled *The Taste of the Pineapple: Essays on C.S. Lewis as Reader, Critic and Imaginative Writer*.

In 1988, he was named the S.W. Brooks Visiting Lecturer at the University of Queensland, Brisbane, Australia. In addition, he is director of the English department's Macintosh Laboratory.

Library is giving graduate tours

Graduate students interested in familiarizing themselves with the University's libraries and their services are invited to sign up for tours.

The tours will be conducted from Monday (Sept. 11) to Oct. 13 with sign ups in Jerome Library, or by calling 372-2362. Tours will be offered during the

mornings, afternoons, evenings and some Saturdays.

The tours will offer information such as how to arrange a computer search for thesis papers, how to obtain Interlibrary Loan items and how to ride the Gutenberg Express II to the University of Toledo.

Research Park from the front

Vista will help locate tenants for the park and build and/or lease buildings to meet their needs. The University will lease land to Vista or to the tenants.

One site is already committed to Bank Sites Inc. a subsidiary of Mid American National Bank and Trust Co., which broke ground earlier this summer.

Vista has, independently or in joint ventures with Rudolph/Libbe Inc., developed a number of the region's leading projects including the Cedar Business Center and the Rudolph-Libbe-Center, home to a number of leading manufacturing, service, distribution and commercial companies.

Vista also was involved with the development of Arrowhead Park in

Maumee.

Vista is a member of the National Association of Industrial & Office Parks. Rudolph/Libbe Inc., is one of the nation's 400 largest construction companies.

Initially, Vista will be involved in creating promotional materials for use in marketing the park, compiling information on previous collaborations between University faculty and outside organizations, and completing a comprehensive catalog of University human resources and expertise that can be tapped by private enterprise that is developed at the research/enterprise park.

Senate from the front

faculty and staff covered by University health insurance benefits and recommending further exploration and implementation of coverages and costs so as to preclude an adverse impact on prospective wage and salary increases;

2. Approving the development of the Fitwell Assessment/Counseling program for faculty and staff at an estimated cost of \$32,240;

3. Opposing the establishment of a Health Promotion Office as recommended by the Health Promotion Task Force;

4. Endorsing the movement toward a smoke-free campus.

Dr. Harold Lunde, management, who presented the resolutions said the University faces a health care cost crisis and that large amounts of money were needed for BGSU to meet future health care requirements of its employees. He said "wellness is worthwhile" and should be promoted as much as possible because in the long run it will reduce costs.

The Senate also voted to recommit to the Ad Hoc Committee on Retiree Concerns an 11-point proposal designed to meet and improve retiree concerns. Further study is needed on the financial impact of the proposal, senators said.

Senate also heard memorial resolutions

for Dr. Lowell Leland, emeritus professor of English, and Dr. Miguel Ornelas, director of affirmative action and associate professor of ethnic studies, both of whom died this summer.

Dr. Benjamin Muego, political science, was elected by acclamation to serve as Senate secretary for 1990-91.

In his report, President Olscamp told the senators that the University's capital budget requests were proceeding normally and that there was no cause for alarm over reports that the Regents had made huge cuts in the budget. "Some cuts are normal at this stage in the process because the number of requests are far higher than can be financed," he said.

He also reported that "while one assault is too many, the number of assaults is about the same as in past years." He noted that campus police were very active in patrolling the campus in their efforts to keep Bowling Green safe.

Olscamp also said that the campus flag will be flown at half-mast for a 24-hour period following the death of any member of the campus community, including retirees. He said that previously there had been no policy on lowering the flag upon the death of a faculty or staff member or student.

Faculty/Staff presentations

Roger Anderson, political science, presented "The Discourse of Development: Transnational Environmental Groups and Brazil's Amazon Development Policies," at the annual meeting of the Midwest Political Science Association, Chicago, April 13-15. Also, "Environmental, Safety and Health Issues at U.S. Nuclear Weapons Production Facilities, 1947-1988" at the Solving Environmental Problems: The Past as Prologue to the Present conference, Evergreen State College, Olympia, Washington, April 27-30.

Elsa A. McMullen, applied human ecology, presented "Mushrooms as a Protein Supplement for Minority Groups" at the annual meeting of the American Home Economics Association, Cincinnati, June 25-29.

Bob Byler, journalism, presented "How to Interview," Northwest Ohio Writers Forum, Toledo, January. Also "Jazz Photographers Capture Memorable Images," at the Popular Culture Association Annual Meeting, St. Louis, Mo., April 5. Also, "Jazz Photographers Capture Images that Enhance Memories of Music," Midwest American Culture/Popular Culture Associations Conference, Bowling Green, November 1988.

Julian Williford, and **Elsa McMullen**, both of applied human ecology, co-presented "Zinc Supplementation and Sickle Cell Anemia," at the annual meeting of the American Home Economics Association, Cincinnati, June 25-29.

Bill Forisha, applied human ecology, presented "Differentiating Eating Behavior From Family Process: The Use of Meal Therapy," at the International Congress on Marriage and Family Therapy, Dublin, Ireland, June 20.

Roger V. Bennett, College of Education and Allied Professions, and **Margaret Ishler**, field experience and standards compliance, co-presented with **Richard Cummings**, Bowling Green City Schools superintendent, **Michael O'Loughlin**, a former University faculty member, and **Jean Daly** and **Joy Rohn**, teachers at Crim Elementary, "Teaching Exchange Fellowship: Creating Partnerships for School and University Faculty Development," at the annual meeting of the Association of Teacher Education, St. Louis, Feb. 24.

Ronald Partin, educational foundations and inquiry, presented "Accommodating Traditional American Values in a Changing Pluralistic Society," "Historical Landmarks in the Development of American Education and Their Effect on the Role of the Teacher" and "Freeing Faculty for Human Development: Time Management for the Professor," under the Visiting Humanist Program at Converse College, Spartanburg, S.C., April 20-21.

Roger V. Bennett, College of Education and Allied Professions, along with **Richard Cummings**, superintendent of Bowling Green City Schools, and **Darlene DeCrane**, Kenwood Elementary School, presented "Teaching Fellows: Collaboration for School and University Faculty Development," at the spring conference of the Ohio Confederation of Teacher Education Organizations, Columbus, April 14.

Richard Lucas, School of Art, presented a tutorial on "Computer Art for Designers and Artists," and participated in a panel on the future of computer art in higher education, SIGGRAPH '89, International Symposium on Computer Graphics, Boston, August.

Charlene York and **Joan Repp**, both of libraries and learning resources, presented "A Resource Library for Ronald McDonald House," at the American Library Association Annual Conference, Dallas, June.

John P. Scott, professor emeritus psychology, presented the opening address, "Aggression: Evolution and Control in Social Systems," at the International Society for Research on Aggression, Szombathely, Hungary, Spring.

Arjun K. Gupta, mathematics and statistics, presented "On the Estimation of MANOVA Eigenvalues Under the Random Effects Model," University of Manitoba, Canada, March. He also presented "Statistical Classification With Multiple Observations" at the International Conference on Computing and Information, Hamilton, Canada, April.

Charles H. McCaghy, sociology, presented "Effects of Enforcement Cost Information on Public Opinion Towards Legal Strategies on Prostitution," at the 1989 Sino-American Conference on Social Change and Policing in Taipei, Taiwan. He also presented a paper with **Charles Hou** of National Chung Hsing University on "Career Onset of Taiwanese Prostitutes" at the annual meeting of the Society for the Study of Social Problems, Oakland, Ca.

Peggy Ishler, field experiences and standards compliance, presented "Education in 2004" at the Hugh O'Brien Yough Seminar at Heidelberg College, June. Also, presented "Assisting the Beginning Teacher" at a pre-conference clinic at the 12th annual Staff Development Leadership Conference, Columbus, May.

Benjamin N. Muego, political science, Firelands College, presented "American Foreign Policy in Southeast Asia in the Post-Vietnam Era," for the Washington Symposium on Foreign Policy at the School of Advanced International Studies, Johns Hopkins University, Washington, D.C., August. Also, presented "The New Armed Forces of the Philippines and the Aquino Regime," at an international conference on the Philippines in a Changing Asia, Honolulu, Hawaii, Feb. 28. He also served as a panelist on the topic "Philippine Nationalism and the American Military Bases," in a roundtable discussion.

Bernard Sternsher, history, presented "Self-Blame in the Great Depression: A Neglected Source Concerning Dubuque, Iowa," at the Ohio Academy of History Spring Meeting, Ohio State University, April 22.

Joan M. Repp, libraries and learning resources, presented "Latin American Acquisitions, A Continuing Challenge," at the fifth national conference of the Association of College and Research Libraries, Cincinnati, April 7. Also, presented "Management Techniques to Streamline Technical Services," for the North Central Library Cooperative, Mansfield, May 11.

Cliff Glaviano, libraries and learning resources, presented "Enhancing User Access: Reflections and a Model," at the fifth national conference of the Association of College and Research Libraries, Cincinnati, April 5.

Kevin A. Work, Instructional Media Center, presented "The Career of Edward Orton, the First President of Ohio State University," at the 24th annual meeting of the Midwest History of Education Society, Chicago, October.

Marilyn Parrish, libraries and learning resources, presented "Discovering the Research Needs of Graduate Students at Bowling Green State University," at the fifth national conference of the Association of College and Research Libraries, Cincinnati, April 6.

Brenda McCallum, libraries and learning resources, presented with **Barbara B. Moran** of the University of North Carolina, "Popular Culture in Academic Libraries," at the national conference of the Association for College and Research Libraries, Cincinnati, April 5.

Bonnie Gratch and **Elizabeth Wood**, both of libraries and learning resources, presented a poster session titled "Strategic Planning in a University Library: Vision and Reality," at the national conference of the Association for College and Research Libraries, Cincinnati, April 6.

Nancy White Lee, libraries and learning resources, presented "Harlequin and Silhouette: Battle of the Giants" at the Popular Culture Association/American Culture Association joint conference, St. Louis, Mo., April 6.

Ronald Shields, theatre, directed a production of "Ohio Town" at the Sherwood Anderson Festival, Firelands College, March 12. He also directed a scene from "Twelfth Night" as part of the "Night of Invited Scenes" at the American College Theatre Festival, Fort Wayne, January.

Allen S. White, theatre, presented "Playscript Interpretation: A Structural Approach to Deconstruction," at the Mid-American Theatre Conference, Omaha, Neb., March 17.

Susan Pauly and **Aurelio Sanchez Jr.**, both of academic enhancement, presented "Why Aren't These Kids Graduating? The Role of Cultural Myth in the Undereducation of Mexican-Americans" at the 15th annual Ohio Association of Educational Opportunity Program Personnel, Columbus. **Ofir Sisco**, also of academic enhancement, was the moderator of the session.

Tom Anderson, geography, presented "Water Use: A Neglected Component of Land Use Studies" at the geography section of the Ohio Academy of Science, Parma, April 29.

Joel Rudinger, English, Firelands College, presented "The Tarot as a Link to Intuitive Analysis," at the annual meeting of the Popular Culture Association, St. Louis, Mo., April 6.

Danny C. Myers, applied statistics, presented "A Dual Simplex Implementation of a Constraint Selection Algorithm for Linear Programming," at the national meeting of TIMS/ORSA, Vancouver, Canada, May.

Susan V. Lab, applied human ecology, presented "Cultural Expression Found in Pre-Columbian Peruvian Textile Color Design," at the Popular Culture Association and American Culture Association annual meeting, St. Louis, Mo., April 6.

David L. Wets, applied human ecology, presented "Self-Esteem and Drug Abuse: A Critical Review of the Existing Literature," at the annual conference of the American Alliance for Health, Physical Education, Recreation and Dance, Boston, April.

Becky Pissanos and **Pamela Allison**, both of HPER, presented "The Experiential Curriculum in Elementary School Physical Education," at the national convention of the American Alliance for Health, Physical Education, Recreation and Dance, Boston, April.

Sub Ramakrishnan, computer science, presented "A Protocol for Global Message Ordering," at the 20th annual Simulation and Modeling Conference, Pittsburgh, May. Also, "Distributed Computing," at the Ohio Collegiate Computer Science Conference, Dayton, April.

Mohammad Dadfar, computer science, presented "Usefulness of Symbolic Manipulation Systems," at the Ohio Collegiate Computer Science Conference, Dayton, April.

Keith Instone, computer science, presented "Becoming an Expert?: The Process of Acquiring Expertise Among Highly Novice Computer Scientists," at the Ohio Collegiate Computer Science Conference, Dayton, April.

Laura Leventhal, computer science, presented "My Program is Beautiful! Some Empirically Derived Patterns of Programming Aesthetics," CHI'89—Human Factors in Computing Systems, Austin, Tx., May 1-4.

David Gedeon, technology, presented "Automation, Distributed Control, Networking and Applications," at the National Association of Industrial Technology, Region I Spring Seminar, April 20, Bowling Green.

Thomas Anderson, geography, presented "Communist Parties of the World, 1987: Some Geographical Perspectives" at the annual meeting of the Association of American Geographers, Baltimore, Md., March.

At the spring NIRSA National Convention, the following Student Recreation Center staff members made presentations: **Tammy Summers** and **Cheryl Sokoll**, "Le Club 8;" **Scott Levin**, "The Development of a Campus Recreation Scuba Program," and "They're in the Right Place—You Make it the Right Time," and **Richard Bowers** and **Terry W. Parsons**, "Project FITWELL: From Dream to Reality."

R. Errol Lam, libraries and learning resources, presented "An Anti-Racist Male and Women as Allies" at the Parallels and Intersections: A National Conference on Racism and Other Forms of Oppression, Iowa City, Iowa, April 6-9.

M. Neil Browne, economics, "Critical Thinking in the Social Sciences," at the University of Wisconsin, Madison, Wi., April 7-8. Also, presented with **Stuart Keeley**, psychology, "Critical Thinking Textbooks," at the American Association of Higher Education Convention, Chicago, April 3. Also published "Necessary Tensions in Assignments that Stimulate Critical Thinking," in *Connexions*, Spring. Also, presented a two-day seminar on "Higher Order Cognitive Skill Development" at Calvin College, Grand Rapids, Mich., June 6-7. Also, presented a faculty development seminar "Questioning Behavior in the Classroom and Critical Thinking," at Loyola College, Baltimore, Md., August 30.

Tom Gorman, **Louise Paradis**, **Joan Tussing**, all of the placement office, and **Tonia Stewart**, residential services, presented the workshop "Silence is the Voice of Complicity," at the American College Personnel Association, Washington, D.C., March.

Steven Lab, criminal justice, presented "Crime Control and Deterrence in the U.S. Sentencing Guidelines," for the panel U.S. Sentencing Guidelines and Crime Control, Washington, D.C., March 28.

John G. Merriam, political science, presented "Aswan High Dam Shutdown: A Regional Concern?" and **Kathleen Howard-Merriam**, political science, presented "Gender and Peace: Egyptian Women's Participation in the Peace Process," at the joint annual convention of the British International Studies Association and the International Studies Association, London, March 28-April 1.

Joni Reed, Center for Academic Options, presented "Promoting Programs: What to Do When" at the Washington Center Liaisons Conference, Washington, D.C., March 10. Reed also participated in a panel on "Marketing Your Program" at the National Student Exchange Consortium Conference, Providence, Rhode Island, March 15.

Willard Miffield, art history, presented "James Tissot's L'Éte: A Rediscovery," at the 16th annual meeting of the Midwest Art History Society, University of Missouri, March 30.

Larry Dunning, computer science, presented "Undetected Error Probabilities for Message Bits of Certain Cyclic Codes," at the 20th Southeastern International Conference on Combinatorics Graph Theory Computing, Boca Raton, Fl., Feb. 20-24.

Jane Forsyth, geology, presented "Geology As It Affects the Landscape and History of Northwest Ohio," at Secor Metropark, March 4. Also, she presented "The Three Landscapes of Camp Campbell Gard," and "Environmental Rules Important to Ohioans," at the Hamilton YMCA Camp Campbell Gard's Nature Shop Workshop, March 18. She also was a featured speaker and field trip leader at the annual statewide meeting of the Ohio Conservation and Outdoor Education Association at the Mohican School in the Out-of-Doors, Loudenville, April 15.

Neocles Leontis, chemistry, presented "Applications of NMR Spectroscopy to Problems in RNA Structure," at Ohio Northern University, March 9.

Ann Corrigan, musical arts, performed at the opening concert of the University of Maryland New Music Festival, March 4.

Janel Jensen, music education, presented "Selection and Preparation of Literature for Young Orchestras," at Michigan State University, March 9.

Burton Beerman, musical arts, presented "Integrating Computer Music and Interactive Video Graphics," at the Society of Composers, Inc. National Conference, Florida State University, March 10.

Issac Sequeira, visiting professor, popular culture, presented "Whitman, Music and the Poetic Imagination," for the Henry J. Haskell Lecture at the University of Missouri-Kansas City, April 24. Also, presented "Walt Whitman, Music and the Poetic Revolution," Rhode Island College, April 12. Also, presented "Popular Culture in India," at the 19th National Convention of the Popular Culture Association, St. Louis, Mo., April 6.

The following faculty and graduate students from the psychology department participated in the Midwestern Psychological Association Meetings, Chicago, May 4-6: **Douglas G. Ullman**, **Eric F. Dubow**, **David Causey**, **Matt Evans**, **Christine Farley**, **Anjie Fischer**, **Collin Lodico** and **Graham Reid** presented "Factors on the Adjustment of Latchkey Children;" **Elizabeth Rice Allgeier** and **Richard A. Zeller** presented "Causal Inference and Sexual Harassment: Hands-on Experience to Illustrate a Hands-Off Policy;" **Betty T. Turner Royster** and **Elizabeth Allgeier** presented "Internal-External Control Expectancies and Reinforcement Substitution After Loss of Control;" **Loring J. Creppeau** and **Jaak Panksepp** presented "Early Handling Increases Play Dominance in Juvenile Rats;" **Nancey Jo Dunn** and **Kimberly Vander Meulen** presented "Marital Attributions: Distressed Versus Non-Distressed Couples in Long and Short-Term Marriage;" **Michael W. Faust** presented "Arithmetic Performance and Mathematics Anxiety: Decision Stage Differences Across Levels of Anxiety;" and **Raymond O'Connor** and **Russell Veitch** presented "Cognition and Affect as Predictors of Behavioral Responses to Different Environments."

Robert Moore, performance studies, presented a performance and four master classes on bassoon literature, interpretation, techniques and reed-making at the University of Wisconsin-Oshkosh, April 15.
