Vol. IX, No. 17

Bowling Green State University

October 28, 1985

Past 25 years have yielded growth and stability

Events on campus this year seem to be tied to the 75th anniversary celebration of the University in one way or another.

Yearly traditional events, new programs and special activities are promoted with the 75th birthday in mind. All will become a part of Bowling Green's history.

In the background, however, is an individual witnessing all the hoopla who knows all about history, particularly that of the University. Stuart Givens has been on the faculty for nearly half of the school's history and has witnessed a lot of the events that have made Bowling Green what it is today.

As the University's official historian, Dr. Givens has been compiling a book that will record the past 25 years of Bowling Green. It is intended to be a supplement to *The History of Bowling Green State University* by James Robert Overman which was published in 1967 and covered the first 50 years of the school.

Dr. Givens' book is expected to be published in the spring by the University's Popular Press.

Dr. Givens views the events of the 75th celebration for what they are — recognition of the milestone between the 50th and 100th celebrations.

"The 75th generally isn't viewed as the 50th and the 100th," he said. "That's the reason why the University decided to make it a low key celebration. We're marking the anniversary, but it's not as great as the fanfare of the 50th or what we will have at the 100th."

But still the anniversary is worth noting, Dr. Givens said because the University has grown and developed considerably in the past 25 years.

Among the changes the history professor counts as highlights is the growth in faculty, enrollment and the physical plant. That growth began in the 1950s and 1960s, he said, and carried over into the 1970s and now the 1980s.

That growth is even more remarkable because it continued during the traumatic late 1960s and early 1970s when universities and colleges nationwide were undergoing radical changes.

"We were able to weather the time

and channel changes into a somewhat constructive direction," he said. "We came through it as the only residential state campus that didn't close. That influenced enrollment and the attitude about Bowling Green. It impressed parents. Bowling Green appeared as a stable university, a better place to get an education."

The fact that the University survived the economic recession of the mid-1970s while other schools suffered is also a highlight in Dr. Givens' view.

Dr. Givens said the past 25 years also have seen the growth of graduate education. There are now nine doctoral granting departments with over 40 specialties, while 25 years ago there were none.

The number and dollar amount of grants have also increased dramatically from federal, state and private sources. The result has been a growth in scholarly productivity, he said.

Curriculum has expanded as well, most notably with the addition of the College of Health and Human Services and the College of Musical Arts in the mid-70s. Dr. Givens attributes the University's success in part to its ability to meet the needs of students by adapting the curriculum to the demand of various professions. As examples, he listed the expansion of industrial arts program to the College of Technology and the various programs tied to the College of Health and Human Services, particularly nursing.

Dr. Givens doesn't ignore the contribution of athletics to the University's history when he reviews the past 25 years. People shouldn't forget Bowling Green's contributions to various Olympic teams and the NCAA national championship trophies that have been brought home in various sports, Dr. Givens said.

These highlights and others will be covered in Dr. Givens' book, which has been in the making for the past five years. He was commissioned in 1980 by then-President Hollis Moore to begin compiling the history in anticipation of the 75th anniversary. The last chapter is nearing completion.

University historian Stuart Givens

Festival covers music spectrum

The University has scheduled its sixth annual New Music Festival for Nov. 8-9 as part of the national celebration of American Music Week.

Works of 33 U.S. and European composers, most of whom will be in attendance, will be featured. Chosen for performance from more than 500 entries, the pieces represent a broad spectrum of musical styles and utilize the variety of resources available to today's composers.

The festival receives funding from the College of Musical Arts, the Ohio Arts Council, the Arts Commission of Greater Toledo and Meet the Composer.

All events will be held at the Moore Musical Arts Center and are open to the public free of charge.

On Friday, Nov. 8, the Percussion Group-Cincinnati will perform recent works for percussion, including works by Herbert Brun, Randall Coleman, Frank McCarty, Mark Saya, Martin Sweidel and Michael Udow.

On Saturday, Nov. 9, composers Barton and Priscilla McLean will premiere their commissioned work, *In Wilderness is the Preservation of the World*, a multi-media extravaganza which has taken more than five years to create. While portions of the work have been performed elsewhere, this will mark the first performance of the work in its entirety.

Works for orchestra and large chamber ensemble also will be performed at this year's festival. The Bowling Green Philharmonia, directed by Robert Spano, and the New Music Ensemble, directed by Blake Walter, will perform works by composers Jan Segers, Nancy van de Vate, Evan

(See Music, Page 4)

Task force reassessing computer needs

The University's efforts to improve its computer resources and capabilities has led to a number of changes over the past two years.

Now, the task force that was originally appointed in 1983 by President Paul J. Olscamp to map out computer improvements for Bowling Green is looking to update its five-year plan by receiving suggestions from faculty, staff and students.

"In the last year or so, we have accomplished nearly all of our first year objectives and have gone well into the second year objectives," said Richard R. Eakin, vice president for planning and budgeting. "We accomplished more than we could have hoped for."

Dr. Eakin said, however, that there is a need for the task force to meet again to determine if the five-year plan should be updated and what changes should be made if it is. "The feeling is that we ought to stop and take a few weeks to check our progress," he said. "We can examine our current needs."

One of the issues to be discussed

by the task force will be how to treat the five-year plan in the future. "Should we make it a rolling plan, periodically updating it, or not," said Dr. Eakin, who chairs the task force.

Money provided by the Ohio Board of Regents to support the purchase of needed modern computer equipment has been instrumental in the University reaching its early goals, Dr. Eakin said.

"There is reason to believe that a similar allocation (about \$800,000) will be part of next summer's capital bill should it be approved by the legislature," he said.

Additions and improvements to the University computer system have added considerably to research capabilities and has speeded processing in various areas. Still ahead is the installation of an academic transcript system and a computerized registration system.

"Clearly, having a computerized registration system may not attract students, but it will help us retain students," Dr. Eakin said, noting that such a system would make it easier

for students to register for class. "It will yield better results and help the students with their programs."

Only Brigham Young University and Georgia State University have such systems, he said.

Dr. Eakin said Bowling Green needs to continue upgrading its hardware and software, add more microcomputers and increase the number of staff available to help faculty, staff and students.

He said doing so will keep Bowling Green in the forefront among other universities in its computer capabilities.

Dr. Eakin urged that individuals with suggestions about computer improvements should contact any member of the task force or Richard Conrad, John Gruber or Richard Zera, all of computer services, who are serving as consultants to the task force.

Members of the task force include: Mark Asman, accounting and MIS; Gerald Auten, economics; Cary

President outlines role and mission

Administrative Staff Council

The role and mission of the administrative staff was discussed by members of the Administrative Staff Council and President Paul J. Olskamp at the council's Oct. 3 meeting.

Dr. Olskamp divided the role and mission into six components: support for the academic area; management of residence halls and their living and learning environment; supervision of the maintenance of physical resources; management of records, as in the offices of the registrar and financial aid; allocation of needed goods to campus consumers; and development of essential personnel services for students, faculty and staff.

The president told the council that the University must maintain its reputation for having a friendly and personally interested staff. His personal role, he said, is to guide the institution and to do what he can to make the jobs of other employees easier.

Dr. Olskamp also discussed developments related to the celebration of the 75th anniversary, including a renewed emphasis on fund raising, work to push a favorable capital budget through the legislature, allocation of funds for an increased number of distinguished visiting professorships and renewed emphasis on minority student recruiting.

A number of subjects were touched upon as Dr. Olskamp responded to questions from council members. Among the items discussed were computer services, the impact of recent negative publicity on fund raising efforts, enrollment, staff development programs, salary and benefit issues.

In other matters:

- The current Merit Pay Policy was distributed. Council voted to have the policy sent to all members of the administrative staff.

- The council was told that fee waivers for employees and dependents was to be discussed by the council's personnel welfare committee.

- Members learned that six luncheon seminars and three workshops have been scheduled for administrative staff employees throughout the 1985-86 academic year.

- Council was told that the insurance committee had completed its review of a consultant's recommendations for changes to the University insurance policy.

The next meeting of the council is Nov. 7 at 1:30 p.m.

Workshop to address writing techniques

The first in a series of workshops to be sponsored during the 1985-86 academic year by the Administrative Staff Council and the Office of Administrative Staff Personnel Services will be held Nov. 5.

"Effective Writing Techniques" is the title of the professional development workshop, which will be conducted by Thomas Wymer, English. The program will focus on the obstacles to clear written communications and how to overcome them. Topics in his presentation will include: getting started, determining an objective, organizing the document, simplifying style, determining the audience, adjusting style and tone, revising and editing.

The workshop will be held from 9-11 a.m. in the Capitol Room, University Union.

Administrative staff wishing to attend should call Marcia Buckenmyer at 2-2558 to make a reservation. The workshop will be limited to 20 participants.

Photo by Clifton P. Boutelle

Gregg T. DeCrane, assistant vice president for student affairs, distributes University promotional material during Preview Day on Oct. 19 in the Lenhart Grand Ballroom in the Union. About 2,000 high school students and their parents attended the annual event sponsored by the Office of Admissions and the Office of Alumni and Development. The program acquaints participants with the academic programs and services offered at the University.

Ten join staff

Ten people have joined the University's administrative staff within the last two months.

They include:

Academic Affairs — Judith Klein, part-time clinical supervisor, communication disorders; Marilyn Parrish, part-time reference assistant, library; Jacqueline Nathan, art exhibition program administrator, School of Art; Mary Helen Ritts, part-time coordinator of program services, College of Technology; Joseph Nayduciak, director of community services, Firelands College; and Mary Walters, assistant director, graduate studies in business.

Planning and Budgeting — Laura Rupert, assistant registrar, registration and records.

Student Affairs — Terri Landry, grant assistant, college access programs, and Deborah Rice, counselor, minority affairs.

University Relations — Carol Jones, assistant director of television development, WBGU-TV.

Monitor

Monitor is published weekly for faculty and staff of Bowling Green State University. The deadline to submit material for the next issue, Monday, Nov. 4, is 5 p.m. Tuesday, Oct. 29.

Editor: Paul E. Kostyu
Student Assistant: Monica Karrer

Free seminars offered

University Computer Services will be offering the following free seminars:

- Advanced Concepts to LOTUS 1-2-3, Oct. 29, 8:30-11:30 a.m., 122 Jerome Library. Basic data base, graphics applications, report formatting, graph printing and other advanced features using LOTUS will be discussed.

- Advanced Concepts to Multimate, Nov. 4, 8:30-11:30 a.m., 122 Jerome Library. Topics include utilizing Multimate's Mail Merge option, background and foreground printing and efficient word processing use in the office.

To make reservations, contact Sharon Reuss, computer services, at 372-7730. Each class is limited to 20 participants.

In Brief

Policy changes Nov. 1

A recent clarification of the Fair Labor Standards Act and the overtime provisions of Section 124 of the Ohio Revised Code now allow Bowling Green to grant compensatory time to an employee for all hours worked on a regular schedule on a designated University holiday.

All previous procedures regarding holiday pay cancelled with the ban on compensatory time will be restored effective Nov. 1.

Of special importance is the rule which states that a classified employee will be paid, in addition to holiday pay, for time worked at one-and-one-half times the total hourly rate of pay or be granted compensatory time off at time-and-one-half within 180 days, at their option. If arrangements cannot be made to take compensatory time off within 180 days, the accumulated time will be paid in cash.

This policy applies only to holidays. If you have any questions contact Personnel Support Services (2-2225).

Skating deadline nears

The registration deadline for group skating lessons at the University ice arena is Tuesday, Nov. 12.

Professional instruction will be offered in beginning, intermediate and advanced skating. One half-hour lesson per week for six weeks will be given. The cost is \$25 per series per person, which does not include skate rental but does include a six-session practice pass to public skating. Rentals are 75 cents for adults and 50 cents for children. A 10 percent discount for faculty and staff for purchasing skating and hockey equipment is available.

Sessions on Wednesdays, beginning Nov. 13, will be: 7-7:30 p.m., beginning children; 7:30-8 p.m., intermediate; 8-8:30 p.m., advanced; and 8:30-9 p.m. adults.

Sessions on Saturdays, beginning Nov. 16, will be: 9:30-10 a.m., beginning children; 10-10:30 a.m., intermediate; and 10:30-11 a.m., advanced.

Maximum enrollment for each session is 20 students. Children must be 4 years old as of Nov. 1.

Insurance available

Information concerning insurance for personally owned microcomputers, which are being used on campus for University related business, is available through the office of the vice president for

operations.

The insurance is through a private company and the premium is \$69 per year for a \$2,000-\$5,000 combination of hardware, media and software package. Other rates pertain to higher and lower values of equipment.

The insurance must be personally purchased rather than purchased through University budgets. For more detailed information contact Sandra LaGro at 2-2126.

Alumni sponsor scholarship

The deadline for undergraduate students applying to an annual program for research support is Nov. 1, according to the office of the associate vice president for research.

Funded by the Alumni Association and Parents Club, the program will provide up to \$500 for support of a limited number of independent student research projects. Projects must be sponsored by a participating department and supervised by a faculty advisor.

The competition is open to undergraduate students who have completed 30 or more semester hours and who have accumulated a grade point average of 3.0 or better.

Application materials and guidelines are available in departments and also in the Research Services Office, 120 McFall Center. Contact Barbara Ott (2-7714) for further information.

Marriages must be noted

An internal audit of payroll office tax files indicates variances between tax marital and personnel marital status.

All employees are legally responsible for notifying the payroll, personnel and insurance offices of any change of marital status within 10 days of the change.

Rupright reception planned

A reception marking the retirement of Earl Rupright, assistant director/project manager of plant operations and maintenance, will be held in the McFall Center Gallery today (Oct. 28) from 2-4 p.m. Rupright joined the staff in April 1960 and is retiring Oct. 31 after 25 years with the University.

Wanted

The Office of Registration and Records is in need of an IBM Selectric typewriter with dual pitch (pica and elite type). Anyone on campus having an extra typewriter of this kind should contact Cary Brewer at 372-8441.

Faculty Presentations

Eldon E. Snyder, sociology, presented "Career Contingencies in the Shuffleboard Subculture: Participation Among Senior Citizens" at the Conference on Qualitative Research: An Ethnographic/Interactionist Perspective, at the University of Waterloo.

Glenn T. Stoops, marketing, presented a paper entitled "The Investigation of Retailing Mix Variables as a Retailing Class Project" at the spring conference of the American Collegiate Retailing Association April 18-21 in San Francisco.

Carney Strange, college student personnel, presented two programs at the annual meeting of the American College Personnel Association — "Lessons from the Private Sector: Applications of Assessment Centers to Higher Education," presented with Peter Rea, a graduate of the CSP program, and "Responding to the Diversity of Adults: A Graduate Professional Preparation Curriculum," presented with Vivian Rogers, a visiting professor in CSP.

Dr. Strange also presented "Using Faculty Members as Integral Participants in the Student Affairs Arena" at the annual meeting of the National Association of Student Personnel Administrators in Portland, Ore.

James D. Stuart, philosophy, presented a paper entitled "Descartes' Proof of the External World" at a meeting of the Ohio Philosophical Association April 20 at Ohio State University. The paper will be published in the *Proceedings of the Ohio Philosophical Association*.

Ryan D. Tweney, psychology, presented a paper, "Cognitive Psychology and the Understanding of Science," at the University of Pittsburgh's Learning Research and Development Center.

Faculty Grants

Mark H. Gromko, biological sciences, \$50,829 from the National Science Foundation for a genetic and behavioral analysis of *Drosophila melanogaster* (fruit flies) produced by artificial selection.

Robert Gulon, psychology, \$10,000 from the American Psychological Association Inc., continued support for the *Journal of Applied Psychology* which Dr. Gulon edits.

Kathleen Hart, English, \$30,000 from the Ohio Board of Regents, a supplement to the "Early English Composition Assessment Program" which is designed to improve cooperation between high school English teachers and teachers of freshman composition with a goal of improving students' writing skills.

William B. Jackson and **Daniel A. Ashton**, environmental research and services center, \$6,340 from Velsicol Chemical Corp. for testing of rodenticides under EPA test protocols.

Evan McFee, educational curriculum and instruction, \$53,090 from the National Science Foundation to conduct a science enrichment program for northwest Ohio schools.

Michael Moore, continuing education, \$1,057 from the Ohio Arts Council, \$2,753 from the Arts Commission of Greater Toledo and \$4,750 from the Ohio Arts Council to support the Arts Unlimited aesthetic education program.

Faculty Publications

Lajos Vincze, sociology, "Hungarian Peasant Obscenity: Sociolinguistic Implications," in *Ethnology*, January 1985.

John M. Wenger, history, "Home Interactive Media: An Analysis of Potential Abuses of Privacy," in *Journal of Broadcasting and Electronic Media*, winter 1985.

Richard J. Wilson, special education, "Deviant Behavior in Learning Disabled and Behaviorally Disordered Students as a Function of Level and Placement," in *Behavioral Disorders*, the journal of the Council for Children with Behavioral Disorders, February 1985.

The article was coauthored with three faculty from Pennsylvania State University and a professor from the University of Delaware.

Bob Wu and **Martha Rogers**, marketing, "Effects of Positive versus Negative News on Response to Newspaper Advertisements," in the *1985 Proceedings of Northeast American Institute of Decision Sciences*.

Frank McKenna, political science, "Improving Cable Television Service in Rural Areas," in *Rural Development Perspectives*, June 1985.

Burton Beerman and **Marilyn Shrude**, music theory/composition, various compositions released on "Shadows and Images," new record from Orion Master Recordings, Inc.

Burton Beerman, music theory/composition, work entitled "Sounds and Waits of the Past," on the University's *New Music Festival 5* album released by Access Records in September 1985.

Lajos Vincze, sociology, presented a paper entitled "Language Maintenance and Change in a Rumanian Speaking Community in Hungary" at the annual meeting of the Central States Anthropological Society April 25 in Louisville, Ky.

David Weinandy, student activities and orientation, presented "Breaking the Ice" and "E.D. 101 — An Innovative Approach to Values Clarification," at the Region VII conference of the National Orientation Directors Association in Lansing, Mich. He is the Ohio coordinator for the National Orientation Director's Association.

Richard J. Wright, Institute for Great Lakes Research, lectured on "November 1913 — The Big Storm" at a meeting of the Friends of Birchard Library in Fremont.

Stephen D. Simon, applied statistics and operations research, and **J.P. Lesage**, economics, presented "The Impact of Centering and Scaling on Numerical Accuracy of Regression Algorithms" at the National Applied Simulation and Modelling Conference, in Montreal, June 1985.

William B. Jackson, biological sciences emeritus, presented a paper at the 12th International Symposium on Controlled Release of Bioactive Materials, in Switzerland.

Joan M. Repp, Jerome Library, made a presentation on library security systems, to the Buildings and Equipment Section of the Library Administration and Management Association, at the American Library Association Annual Conference, in Chicago, Ill., July 7, 1985.

Joan M. Repp, Jerome Library, delivered a paper entitled "Library Automation and the Reorganization of Technical Services: One Institution's Response," to the Technical Services Administrators of Medium Sized Research Libraries Discussion Group, at the

Douglas Neckers, chemistry, \$69,000 from the National Science Foundation to continue his study of the synthesis of UV stable polymers.

Sandra Packard and **Donald Chase**, education, \$324,460 from the Ohio Dept. of Education to continue activities designed to maintain compliance with "Standards for Colleges or Universities Preparing Teachers."

Ernest Pancsofar, special education, \$18,000 from the Ohio Department of Education, to support technical assistance, curriculum development activities, instructional technology workshops, implementation of general case programming and integration with existing master's level graduate coursework for the preparation of teachers to transition students with severe handicaps into community employment options.

The Social Philosophy and Policy Center, \$1,000 from the Master Chemical Corporation. The grant was coauthored by **Fred D. Miller Jr.**, **Ellen Frankel Paul**, **Jeffrey Paul** and **John Ahrens** of the center staff.

Jaak Panksepp and **Robert Conner**, psychology, \$5,223 from the National Brain Research Association to study the possible anti-aggressive properties of diphenylhydantoin (DPH).

John Sampson, music performance studies, \$1,409 from the Arts Commission of Greater Toledo and \$350 from the Great Lakes Arts Alliance to support an International Saxophone Workshop held on campus in June.

Rex D. Filer, career development, "Implementing the Affective Skills of the High School Counselor in the Classroom," in the *Journal of Counseling and Development*, May 1985.

James Ostas, economics, "Reduced Form Coefficients, Structural Coefficients, and Mortgage Redlining," in the *Journal of the American Real Estate and Urban Economics Association*.

Warren Hauck, management, co-authored "PERT/CPM: A Tool for Managing Projects," in *Industrial Management*.

Jerry Auten, economics, co-authored "Tax Policy and Its Impact on the High Income Giver," in the *Research Forum Working Papers of the Public Policy and Its Impact on Giving and Volunteering Panel*, Spring 1985.

Bevans Mabry, economics, co-authored "Labor Relations Under Martial Law: The Thailand Experience," in *Asian Survey*.

Robert H. Byler, journalism, "A Visit with Gunther Schuller," in *Traditional Jazz Today*, May 1985.

James Sullivan, applied statistics and research, and **Michael Rastatter**, communication disorders, co-authored "Some Effects of Congenital Spasticity on Fundamental Frequency," in *Perceptual and Motor Skills*.

James Lesage, economics, and **Stephen Simon**, applied statistics and operations research, "Numerical Accuracy of Statistical Algorithms for Microcomputers," in *Computational Statistics and Data Analysis*.

American Library Association Annual Conference, in Chicago, Ill., July 6, 1985.

Victor Norton, mathematics and statistics, presented two papers entitled "On Lattice Consensus Methods" and "Consensus on Partitions with Applications to Other Structures" at the annual meeting of the North American Classification Society, in Newfoundland, Canada, July 11-13, 1985.

Cliff Long, mathematics and statistics, gave a talk entitled "Parabolic Blending Yields Piecewise Cubics for Interpolating Curves" at the Mathematics Association of American Ohio Section meeting, in Akron, April 13, 1985.

Charles Applebaum, mathematics and statistics, presented a paper entitled "PVS-Design of a Practical Verification System" at the National Meeting of the Association for Computing Machinery, in San Francisco, October 1984.

William B. Jackson, biological sciences emeritus, presented three papers entitled "Bromethalin Use in Urban Areas" (jointly authored with A. Dan Ashton of the Rodent Research Laboratory), "Comparative evaluation of LD50 values for various anticoagulant rodenticides" (jointly authored with A. Dan Ashton and Helen Peters of the Rodent Research Laboratory), and "Comparison of warfarin resistance and pivalyl resistance in Norway rats using non-destructive techniques" (jointly authored with A. Dan Ashton and Hidenore Fukui of the Biological Sciences Department) at the Fourth International Theriological Congress, in Edmonton, Canada, Aug. 13-20, 1985.

Ronald Partin, educational foundations and inquiry, presented the keynote address "Who are the A-Plus Teachers?" at the opening day meeting of faculty and staff of the Patrick Henry School System, Aug. 26, 1985.

Donald Scherer, philosophy, \$2,000 from the Martha Holden Jennings Foundation, continued support for the Ohio High School Philosophy Contest.

Marilyn Shrude, College of Musical Arts, \$2,023 from the Arts Commission of Greater Toledo (\$1,398) and the Great Lakes Arts Alliance (\$625), to support the 6th Annual New Music Festival.

Larry Smith, English/Firelands, \$900 from the Ohio Arts Council for operation of the Firelands Writing Center in 1985-86.

Edward G. Stockwell and **Jerry W. Wicks**, sociology, \$90,472 from the Dept. of Health and Human Services to study the socioeconomic correlates of infant mortality.

Ronald Stoner and **Roger Ptak**, physics and astronomy, \$2,990 from the National Aeronautics and Space Administration to continue research on the emission profiles of Seyfert I galaxies.

Duane Tucker, WBGU-TV, \$243,849.58 from the Northwest Ohio Educational Television Foundation, to provide salary and wage support, together with funds for program transmission and associated facilities and services, for 900 hours of instructional television broadcasts to be provided to boards of education holding membership in the NWOETV Foundation.

Douglas Ullman, psychology, \$981 from Allergy and Asthma Consultants, funding for a summer assistantship for an advanced graduate psychology student.

Hassoon Al-Amiri and **Josef Blass**, mathematics and statistics, co-authored "Univalent Functions Whose Coefficients are Integers in Complex Quadratic Fields," in the *Houston Journal of Mathematics*, vol. 11, no. 1, 1985.

Arjun K. Gupta, mathematics and statistics, co-authored "On the Distribution of the Determinant of Sample Correlation Matrix From Multivariate Gaussian Populations," in *Metron*, vol. 41.

Michael Marsden, popular culture, "The 1984 Louisiana World Exposition And The World's Fair Tradition," in a double issue of *Visions In Leisure And Business*, vol. 3, no. 4 (Winter 1985) and vol. 4, no. 1 (Spring 1985).

Robert H. Byler, journalism, "Gunther Schuller Wants To Help," in *International Association of Jazz Record Collectors Journal*, July 1985.

Martha Rogers, marketing, co-authored "UnMarketSpeak: Some Services Marketers Veil Strategies with Euphemisms," in *Marketing News*, vol. 19, no. 17.

Leslie Chamberlin, educational administration and supervision, "Writing for Professional Publication," in *American Secondary Education*, vol. 14, no. 2.

Shirley Langham-Johnson, educational foundations and inquiry, "Active Learning and Mathematics Teaching — Some Aspects of a Japanese Approach," in *Educational Review*, vol. 8, no. 1.

Ernest Pancsofar, special education, "Community-Based Living Facilities," a chapter in *Functional Living Skills For Moderately and Severely Handicapped Individuals*.

WBGU offers information service

The closed circuit television system located at WBGU-TV is now offering an information service for all faculty, administrative and campus-related organizations.

Any administrative and academic notices and announcements or information about campus-related events and activities can be sent through campus mail to Karen Mason (2-7020) at CCTV. A two-week notice should be allowed prior to the proposed broadcast date.

The new information service can be seen wherever CCTV monitors are located on campus — classrooms, residence halls and other locations.

The service is not to be used for advertising purposes, but as an informational network.

Three join Friends board

Three area residents have been elected to the board of the Friends of the Libraries and Center for Archival Collections at the University.

Ramona Cormier, dean of continuing education; **Christopher Cullis**, a 1979 graduate of Bowling Green and editor of the *Bryan Times*; and **Jonathan Orser**, a consultant who lives in Perrysburg, have been chosen to serve three-year terms on the board.

The Friends organization, which has about 100 members, offers financial assistance and support to library activities outside normal budget restrictions.

Officers of the organization's board for the coming year are president Dawn Glanz, associate professor of art, and secretary-treasurer Kathryn Thiede, administrative assistant at the Jerome Library.

Minority grad students coming to campus

The University will sponsor its second annual minority graduate scholars' visitation program on Nov. 5.

The program is intended to address minority graduate student under-representation at Bowling Green. The goal of the conference is to improve minority enrollment at the University.

Participants are expected from Dyke College, Oakland University, Ohio University, University of Toledo, Central State, Western Michigan, Wilberforce, Bowie State, Fayetteville State, Fort Valley State and Kentucky State universities and the University of the District of Columbia.

Participating in the program will be conference coordinator Peace Champion, director, Project Search; Winifred O. Stone, associate dean and director of graduate admissions; Mary M. Edmonds, vice president for student affairs; Jack Taylor, assistant vice president for minority affairs; and Angela Brown, president, Third World Graduate Student Association, as well as members of the faculty.

DeCrane directs seminar

The October Students Organizations Leadership Workshop will be held on Wednesday, Oct. 30, at 7:30 p.m. in 110 Business Administration.

This workshop is mandatory for the treasurers of all student organizations with University accounts as well as treasurers and budget administrators of student organizations funded by the Advisory Council on General Fee Allocation. The workshop will be directed by Gregg DeCrane, assistant vice president for students affairs.

Yellow pages available

Copies of the new Toledo vicinity yellow pages are available free to University employees. According to Maxine Allen, telecommunications services, the University was given a limited number of the yellow pages directory. They will be distributed as long as the supply lasts and can be obtained from the telecommunications office from 8 a.m.-noon and 1-5 p.m.

History *From Page 1*

"It's been time consuming," said Dr. Givens. "The problem is the bulk of material. The volume of material increases proportionally to the increase in enrollment."

He credited the University's archival system with keeping good records of matters important for a historical overview. But by necessity of space limitations everything is not going to be included in the book.

Dr. Givens takes a historian's view of the need to record the University's history. "People who don't know their history don't have an understanding of who they are, where they came from or where they are going," he said.

Dr. Givens explained that even though rules have changed over the years, it is important to know what standards were set in previous administrations because those regulations may "influence where we are today."

"There are things people should know about our history," he said. "The material should be preserved and occasionally you should bring it together."

Dr. Givens said he expects the University to continue its steady growth in the future. "I see us continuing to become a more important regional university with some increased national recognition," he said.

At the same time, Dr. Givens said people shouldn't expect Bowling Green to become the Harvard of the midwest. "We're not going to get the financing or the people needed for that," he said. "You're not going to get Nobel laureates by paying them \$30,000 or \$50,000."

"We're a better university academically than we were 25 years ago and certainly from 35 years ago. And we are going to get better every year."

Music *From Page 1*

Chambers, Edward Miller and Marilyn Shrude.

Several smaller chamber works will be performed by Bowling Green's College of Musical Arts faculty brass and woodwind quintets as well as the Tower Brass and the graduate saxophone quartet. These will include compositions by David Stock, Ruth Lomon, M. William Karlins and Lou Coyner.

Most of the remaining works represent the vast body of literature for solo instruments with and without piano. Compositions for clarinet, flute, harp, harpsichord, piano, saxophone, trombone, violin and cello by William Albright, Roger Briggs, Marc-Antonio Consoli, Sydney Hodkinson, Byong-kon Kim, Jo Ann Kuchera-Morin, Eric Moe, Janice Misurall Mitchell, Diane Thome and George Balch Wilson will be performed by University faculty.

Two works for instruments and tape by John Biggs and Cleve Scott, a piece for instruments and dance by John Corina and works for various instrumental combinations by Jeff Halsey, Darrell Handel, Richard Hervis and Robert Hall Lewis complete the program.

Other festival events include panel discussions with the guest composers and a lecture-demonstration by the Percussion Group.

The schedule of events on Nov. 8 includes concerts at 10:30 a.m., 2:30 p.m. and 8 p.m. and a panel discussion at 4 p.m.

Events for Nov. 9 include a 9 a.m. lecture-demonstration and concerts at 11 a.m., 3 p.m. and 8 p.m.

Insurance report approved

After taking a week to review recommended changes to the University's insurance policy and its benefits, the Classified Staff Council voted Tuesday, Oct. 22, to approve the University's insurance committee report.

The changes will affect classified employees to some extent, but should the changes be put into effect, the administrative staff and faculty would benefit most.

The council also voted to endorse a corrective disciplinary policy for classified employees. The policy was developed to clarify the procedures for disciplinary action. It is meant to correct improper performance of

employees and to establish forms which will simplify and standardize the application of the procedure.

Even though council did not suggest any changes, members said they hoped the policy would encourage supervisors to follow through when disciplinary procedures are begun. They said front-line supervisors need support from their supervisors when dealing with disciplinary issues.

In other matters, the council appointed a committee to review the University's severe weather policy. It also urged that a list of participants in the Toledo Industrial Recreation and Employee Service Council, Inc. (TIRES), of which the University is a member, be published and provided to employees so they can frequent the area businesses that give discounts to employees.

Computer *From Page 1*

Brewer, registrar; Donald Chase, College of Education; James Corbitt, operations; Comer Duncan, physics and astronomy; Joseph Frizado, geology; Timothy King, Graduate College; Ronald Lancaster, computer science; Richard Lineback, philosophy; Clifford Long, mathematics and statistics; Conrad McRoberts, financial aid and student employment; Paul Nusser, treasurer; Robert Patton, College of Business Administration; Fred Pigge, College of Education; Everett Piper, alumni and development; Joan Repp, Jerome Library; Chris Reilly, graduate student representative; and Daniel Shelley, undergraduate admissions.

Suggestions should be filed no later than Nov. 15.

On another computer issue, a second committee has been formed to determine whether to and how to

replace the DEC-2060 computer system.

The DEC-2060 has been the backbone of interactive instructional computing at the University for nearly seven years, Dr. Eakin said. But because of the difficulty and expense of maintaining the system, the University is considering purchasing a replacement in 1986.

Dr. Eakin said the committee is looking for suggestions from the University community. Suggestions should be made by Nov. 15.

Members of the committee include Charles Applebaum, mathematics and statistics; Keith Bernhard, instructional media center; Ron Lancaster, computer science; James Lesage, economics; Joe O'Loughlin, Firelands College; Robert Reed, education-foundation and inquiry; John Sinn, College of Technology; Elmer Spreitzer, Graduate College; John Tisak, psychology; and Floris Wood, University libraries.

Faculty/Staff Positions

The following faculty positions are available:
Biology: Microbiologist. Contact chair of search committee (2-2332). Deadline: Dec. 20, 1985.

Biology: Plant molecular geneticist. Contact chair of search committee (2-2332). Deadline: Dec. 20, 1985.

College of Education: Dean. Contact Norma Stickler (2-2915). Deadline: Nov. 1, 1985.

Computer Science: Instructor. Contact faculty search committee (2-2337). Deadline: Nov. 4, 1985.

Educational Administration and Supervision: Assistant professor (two positions). Contact Richard Carlson (2-7377). Deadline: Feb. 1, 1986.

Educational Administration and Supervision: Associate professor. Contact Richard Carlson (2-7377). Deadline: Feb. 1, 1986.

English: Assistant professor (two positions). Contact Lester Barber (2-2576). Deadline: Nov. 20, 1985.

Ethnic Studies: Assistant professor. Contact Ernest Champion (2-7117). Deadline: Dec. 20, 1985.

Geography: Part-time instructor. Contact Joseph C. Buford (2-2926). Deadline: Dec. 1, 1985.

Home Economics: Assistant professor, institutional food service administration. Contact Deanna Radeloff (2-7823). Deadline: Jan. 15, 1986.

Home Economics: Assistant professor, textiles, clothing and interior design. Contact Deanna Radeloff (2-7823). Deadline: Jan. 15, 1986.

Home Economics: Chair. Contact Gerald Saddlemire (2-7403). Deadline: Oct. 28, 1985.

Library: Head, Popular Culture Library. Contact Paul Yon (2-2411). Deadline: Jan. 31, 1986.

Library: Music cataloger. Contact Stephen Slovasky (2-2106). Deadline: Nov. 15, 1985.

Performance Studies: Teacher/performer in viola, assistant/associate/full professor. Contact Paul Makara (2-2625). Deadline: Dec. 15, 1985.

Political Science: Professor and chair. Contact Roger C. Anderson (2-2921). Deadline: Oct. 31, 1985.

The following administrative staff positions are available:
College of Arts and Sciences: Executive assistant to the dean. Contact Kendall Baker (2-2015). Deadline: Oct. 28, 1985.

Upward Bound: Counselor. Contact Patricia Lloyd Hicks (2-2381). Deadline: Nov. 4, 1985.
