Karl Menninger

Menninger to speak in Moore series

Karl Menninger, considered by many as the major American psychiatrist of the 20th century, will deliver the second Hollis A. Moore President's Lecture at 3:30 p.m. Thursday, April 26, in Kobacker Hall of the Moore Musical Arts Center.

Dr. Menninger is co-founder and chairman of the board of trustees of the Menninger Foundation, one of the nation's foremost psychiatric research centers. He also founded in 1919 the widely-known Menninger Clinic in Topeka, Kan.

The topic of Menninger's lecture, which is free and open to the public, is "Man Against Himself."

The Moore Lecture Series was established in memory of former President Hollis A. Moore who died in April 1981. Funded by memorial gifts, the series annually features nationally known speakers on subjects that were of special interest to Dr. Moore during his 10-year administration at Bowling Green.

The 90-year-old Dr. Menninger is no stranger to the campus, having received an honorary doctor of public service degree during commencement exercises in June 1982.

He is also well known to Lawrence J. Friedman, history, who is currently writing a book on the history of the Menninger Clinic and was the first historian to be granted unrestricted access to the Menninger Foundation archives.

An American pioneer in the field of psychiatry, Dr. Menninger earned bachelor's and master's degrees at the University of Wisconsin and received his medical degree from Harvard University in 1917.

The Kansas native has written nearly a dozen books and is a founder and/or charter member of the Menninger School of Psychiatry, the Kansas Psychiatry Society, the Topeka Psychoanalytic Society and the American Orthopsychiatric Association.

He holds professorships of psychiatry at six university medical schools in the Midwest and is a member of several dozen professional, scientific and humanitarian organizations, reflecting his lifelong interests in medicine, psychiatry, mental health, prison reform, music, archaeology, art, conservation, ecology and American Indians.

From costumes to computers Lintner alters career

As a theater costumer, Mildred Lintner is accustomed to wearing many different hats.

As a faculty member in both the computer science department and School of Speech Communication she has also had the opportunity to wear several different "teaching hats," and although her assignments in the two departments seem unrelated at first, Dr. Lintner thinks they blend rather well.

"I don't think of it as unusual that I teach in two very different departments," she said. "It seems perfectly natural to me. Being able to switch from one discipline to the other keeps me alert."

Changing faculty roles draws upon nearly every one of Dr. Lintner's faculties, however, she said, noting that costume design is an art requiring creativity and informality while computer science is organized and practical — a true science.

But her role as a costumer naturally led to computers, she recalls.

She first became interested in computers when a theater faculty member told her about the possibilities of using a computer for acting and directing. She liked the graphic capabilities the computer had for costume design and began to experiment with the computer in that capacity.

Now she uses computers in her history of costume class in the School of Speech Communication, projecting a human figure on the screen and programming the computer to dress that figure with costumes from a particular period of time. She also has worked on several

other theater programs, including one which stores standard-size patterns in the computer memory and then makes changes in the pattern size to make alterations easier.

And, she has written a Costume Shop inventory program which would classify the more than 3,000 garments in the shop according to their period, size and age and whether they would be appropriate for a man or woman. But entering the data for that program is a task which has not yet been completed.

In the meantime, she has been working on a master's degree in computer science, a task she hopes to complete by 1985.

Now in her-third year as a computer science faculty member, Dr. Lintner said her career goals are definitely changing but not through any willful action. "I was always happy as a costume designer," she said, adding that she never really planned to teach computer science.

But knowing computer science opens up definite career opportunities, she said. "Realistically, I have to acknowledge that there's not much call for theater professors and costume designers now. But theaters around the country are excited by computers and computer jobs in general are available almost everywhere."

The re-training has not been without its pressures, however, she said. "Teaching full-time and taking one course per semester toward another degree is overwhelming," she noted. "But it is also very healthy as a faculty member to take classes as a student. It reminds you of the pressures your students face."

Mildred Lintner, known to most people on campus as the theater costumer, has done some re-training in her profession and is now doing double faculty duty in the School of Speech Communication and the department of computer science. Dr. Lintner says the switch was actually very natural and has really helped keep her "alert."

Phi Kappa Phi initiates five faculty

Five faculty were initiated into the campus chapter of Phi Kappa Phi scholastic honor society April 15.

The newly elected members are Dawn Glanz, art; Paul F. Haas, economics and director of the Honors Program; Mildred D. Lintner, theater/computer science; Bernard Linden, music performance studies, and Bette J. Logsdon, health, physical education and recreation.

Founded in 1897 to promote the pursuit of excellence in all fields in higher education, Phi Kappa Phi

recognizes outstanding achievement by students, faculty and others. In addition to the faculty, 120 juniors and seniors also were inducted into the society.

Faculty are nominated for membership and elected by the local chapter. Juniors must be in the upper five percent and seniors in the upper 10 percent of their respective classes. Approximately 58 current faculty and 19 emeriti faculty are members of Phi Kappa Phi.

Steve Bell

Newsman to speak at spring graduation

Steve Bell, anchorman for "ABC News This Morning" and the news segments of "Good Morning, America," will be the speaker at commencement exercises May 12.

About 2,000 students are expected to graduate during the 10 a.m. ceremonies scheduled at Doyt L. Perry Field.

Bell's regular weekday morning newscasts and interviews of newsmakers with "Good Morning, America" host David Hartman have made his face familiar to millions of Americans.

He joined ABC News in 1967 as a correspondent based in New York. During the 1969 campaign he covered the major primaries and conventions for ABC Radio, and he was on the scene when Sen. Robert Kennedy was assassinated.

While a combat correspondent in Vietnam in April 1970 he and his camera crew were captured and held briefly by the Viet Cong in Cambodia. Although held at gun-point, he managed to tape record a report on the incident.

After spending 1972 back on the U.S. political campaign trail, he returned to Asia as chief correspondent and bureau chief for ABC News in Hong Kong. He was one of the few journalists allowed into Hanoi for the final release of American POWs, and in January 1974 he headed a news team that spent a week in the Viet Cong-held area of South Vietnam, reporting on life in a so-called "liberated zone."

He also spent nearly two months in China in 1973 where he was a co-correspondent for the documentary, "The People of People's China." His regular news reports from China were nominated for an Emmy Award.

In addition to two Emmy nominations, Bell also has received an Overseas Press Club Award and a Headliner's Award for his reporting.

Bell returned to the United States in April 1974 as a White House correspondent, covering the final months of Watergate and the first year of the Ford administration before taking the morning news assignments for "Good Morning, America."

BUILDING DEDICATION TODAY. The new \$7.2 million Physical Sciences Laboratory Building will be officially dedicated today (April 16) with a ribbon-cutting ceremony at 1:30 p.m. at the entrance to the new building.

At 8:15 p.m. Fred Basolo, immediate past president of the American Chemical Society, will speak in 210 Math-Sciences Bldg.

The 90-seat planetarium in the building will be dedicated at special ceremonies on April 27.

SURPLUS ON DISPLAY. University surplus will be displayed at the Pike Street Warehouse from 9:30-11 a.m. and 1:30-3 p.m. Wednesday (April 18).

This will be one of the last opportunities for departments and offices to select from available surplus before the annual public auction scheduled on Wednesday, May 16.

All surplus not claimed by Friday, May 4, will be offered for sale at the auction.

The warehouse will be open May 2, 3 and 4 for those interested in selecting from surplus before it is committed for auction.

Departments and offices are encouraged to give up any items not in use for the May 16 sale. Pick-up can be arranged by calling inventory management at 372-2121 any time before Monday, April 30.

Nominations underway for annual Ferrari Award

Nominations are now being accepted for the 1984 Ferrari Award which will honor a University administrator for exceptional performance on the job and ability to relate to the campus community.

Faculty, staff and students are invited to nominate individuals for the award, which will be presented as part of the fall semester opening day activities.

All administrative staff (non-faculty, contract) who have been an employee of the University for at least one contract year are eligible for the award. Selection, to be made by a committee of administrative staff, will be based upon the following criteria:

- Innovation and initiative, including the formulation and implementation of creative new ideas designed to improve the work environment, save time and/or money and, in general, contribute to the better overall efficiency and effectiveness of the University;

- Emphasis on the human dimension, demonstrating genuine sensitivity to others;
- Performance, above and beyond that required by the position and including the acceptance of special projects, additional responsibilities, service in professional organizations or recognition brought to the University through receipt of grants or through publications;

- Relationship with the University community and ability to effectively interact with faculty, staff and/or students in a respective area and on campus in general.

Nomination forms are being mailed to all administrative staff and also

are available in the Office of Registration and Records, 405 Student Services Bldg., University Bookstore, Graduate Student Senate Office, University Union and Faculty Senate Office.

Nominations must be submitted to Gregg DeCrane, chair of the award committee, 405 Student Services Bldg., before May 11. An award recipient will be selected by June 15.

The Ferrari Award was created by the Board of Trustees in spring 1982 to recognize Michael Ferrari, an administrator at the University for 10 years and interim president in 1981-82.

Suzanne Crawford, affirmative action, received the first Ferrari Award last fall.

Questions about the nomination or selection procedures for the 1984 Ferrari Award should be directed to DeCrane.

Clinic offers summer preschool program

The Speech and Hearing Clinic will offer language and speech stimulation groups for toddlers and young preschoolers during the 10-week summer session from May 21-July 27.

The groups will meet for one hour three times per week and will be designed to provide language experiences that will stimulate normal development of vocabulary, conceptual and social skills in young children.

In addition to the language groups for small children, the clinic will offer a full range of diagnostic and individual treatment programs for children and adults of all ages who would like to improve their communication skills.

Help is available to correct such things as articulation errors (pronunciation of words and sounds), stuttering (difficulty maintaining the fluency of speech), voice problems (hoarseness due to voice quality), language problems (resulting from developmental delay, stroke or foreign dialect), and any hearing problems.

Additional information about the summer program can be arranged by contacting the clinic at 372-2515 from 8 a.m. to 5 p.m. Monday through Friday.

Math department hosts state meeting

Approximately 250 mathematicians and college students from around the state were on campus April 13-14 for the spring meeting of the Ohio Section of the Mathematical Association of America. The Ohio Section is one of 26 subdivisions of the national association.

Internationally known Swiss mathematician Peter Henrici, currently a visiting professor at the University of North Carolina at Chapel Hill, was the keynote speaker at the event, which was hosted by the department of mathematics and statistics.

Speakers at the two-day conference included V. Frederick Rickey, Victor T. Norton and James H. Albert, mathematics and statistics, as well as math student Douglas Meade.

Faculty to lead Amazon excursion

Stephen Vessey and Roger Thibault, biological sciences, will lead an excursion through the Amazon River basin, one of the world's largest remaining wilderness areas, this winter.

The Amazon tour, co-sponsored by the biological sciences department and the Office of Continuing Education, will take place Jan. 5-12, 1985. An informational meeting about the tour, which is open to the public as well as to students, will be held at 7 p.m. Tuesday (April 17) in the McFall Center Assembly Room.

The river's basin, which occupies more than 2.5 million square miles, including portions of nine South American countries, contains almost half of the world's 8,600 species of birds as well as some 4,000 species of butterflies, 2,000 species of fish and more than 25,000 kinds of plants.

The approximate cost of the trip is \$1,650, which includes round-trip air transportation from Detroit and all scheduled transportation in Peru by

land and river; jungle excursions with experienced guides; all accommodations and all meals, taxes and tips.

Specific tour details will be discussed during the April 17 informational meeting. In addition, Ray Grob, who has visited the Amazon, will give a slide presentation and talk about what travelers to this area of South America can expect.

Mortar Board hosts scholarship ball

Tickets are available now to the Mortar Board Senior Honor Society's second annual Scholarship Ball to be held at 8:30 p.m. Friday, May 4, in the Grand Ballroom of the University Union.

Designed to raise enough money to establish an endowed Mortar Board scholarship at the University, the dance is also one opportunity for faculty, staff and students to meet socially on campus, according to Daniel Blinn, a member of Mortar Board and chair of the dance committee.

Mortar Board is an organization of University seniors chosen for membership on the basis of scholarship, leadership and community service. The dance is open to faculty, staff and junior and senior undergraduates who have maintained a minimum 3.5 grade point average.

Tickets for the scholarship dance are \$20 per couple. Checks, made payable to the BGSU Foundation, should be mailed to Mortar Board, 305 Student Services Building, before April 25.

History students compete on campus

Some 175 students from more than a half dozen Lucas and Wood county schools participated in the Ninth Annual District II History Day competition April 7 on campus.

The theme of this year's contest was "Family and Community in History." Entry categories included historical papers, individual and group projects and performances.

Gary Hess, history, coordinated the event, which is sponsored each year by the history department for students in grades six through 12.

Computer Bits

'Computer Awareness Day' scheduled

A Microcomputer Awareness Day has been scheduled on Wednesday, April 25, in the lounge area of Prout Hall.

Sponsored by University Computer Services, the program will begin at 9 a.m. with an overview on microcomputers to be presented by computer services staff. They will discuss things to consider when buying a microcomputer, terminology and running diagnostics.

The remainder of the morning will be devoted to 20-minute presentations by various faculty and staff on specific applications of microcomputers. The following schedule is planned:

10:30 a.m. — Lloyd Buckwell, accounting and MIS, will demonstrate using LOTUS 1-2-3 on the IBM PC for budgeting;

10:50 a.m. — Charlotte Scherer, Education Clinical Lab, will discuss software used in the lab and

demonstrate educational software for the APPLE IIe;

11:10 a.m. — BREAK

11:20 a.m. — Steve Simon, applied statistics and operations research, will discuss various statistical packages available for microcomputers and the attributes of those various packages. He will demonstrate the DAISY package on the APPLE IIe;

11:40 a.m. — Mike Fitzpatrick, WBGU-TV, will discuss networking APPLE microcomputers, sharing WBGU's experiences, problems and results.

During the afternoon (1-4 p.m.), representatives from various computer vendors will exhibit APPLE, COMMODORE, IBM, RADIO SHACK and DEC microcomputers.

All faculty, staff and graduate students are encouraged to attend any part of the day's activities.

Graphics, statistics seminars offered

Two seminars on computer applications will be given by University Computer Services this month.

On Friday (April 20) the topic will be "Introduction to SAS (Statistical Analysis System on IBM)." Another seminar will be offered the following Friday, April 27, on "Introduction to GRAPHICS at BGSU," with emphasis on SAS/GRAPH software.

Both seminars will be held from

2:30-4:30 p.m. in 330 Math-Science Bldg.

Anyone interested in the GRAPHICS seminar should plan to attend the SAS seminar as well if they have no previous experience with SAS.

Both seminars are open to faculty, staff and graduate students. Advance registration is requested. Contact the secretary in 238 Math-Science, 372-2102.

Huntley to direct STEP program

Sylvia Huntley, an assistant professor of educational curriculum and instruction, has been appointed director of the Summer Transition Program, effective this summer.

In that position she will be responsible for coordinating the curriculum for incoming freshmen who enter the program and for supervising a graduate internship program for high school teachers who assist with tutoring and counseling the freshmen enrolled in STEP.

The STEP program is designed to ease the transition from high school to college for new freshmen by giving them the opportunity to begin their college careers during the more relaxed summer term. The freshmen also receive additional help with their coursework from the high school teachers who serve as tutors and counselors while receiving academic credit for themselves.

Dr. Huntley will continue during the regular academic year in her College of Education assignment.

She joined the University staff in 1968, working in the regional office of Project Head Start. Since 1971 she has supervised College of Education students in their student teaching experience.

A former public school teacher at both the elementary and secondary levels, she received a bachelor's degree from Bluefield State College and earned both master's and doctoral degrees from the University of Toledo.

BUGGED BY BUGS? Spring is traditionally the season for the return of bugs. If your building is bothered by roaches, ants, fleas, mice, rats, crickets, silverfish, wasps, bees or any other pest, the place to call is environmental services, 372-2171.

A local pest control company responds to all reports phoned to environmental services and takes action to bring pest problems to a halt.

BOOKS ARE DUE. If you have borrowed books from the University libraries this semester, it's not too soon to think about renewing or returning them.

Faculty and administrative staff are reminded that all materials currently on loan from the libraries must be returned to the circulation desk in the library from which they were borrowed by May 11, even if renewal is

desired. Five or fewer books will be renewed immediately. Anyone wishing to renew more than five books must leave them at the library for 24 hours.

Everyone who has books on loan will receive a letter reminding them of renewal and return procedures. Questions should be directed to the Jerome Library at 372-2051 or the Ogg Science Library at 372-2591.

Faculty & Staff

Publications

Susan Arpad, women's studies, *Sam Curd's Diary: The Diary of a True Woman*, published by Ohio University Press.

Steven Dunn, health, physical education and recreation, "Profiling: A Means of Communicating," in the winter issue of *Future Focus: Ohio Journal of Health, Physical Education, Recreation and Dance*.

Carl Holmberg, speech communication, "Stray the Course: Technology's Impact upon the Representative-Elector Artifact," in *Communication Quarterly*, spring 1984.

Also, "Rhetorical Terrorism and the Torture Shift," in *Ohio Speech Journal Golden Anniversary Issue*, vol. 21, 1983.

Also, "Sir Joshua Reynolds' Non-literary, Pre-Romantic Rhetoric," in *Southern Speech Communication Journal*, spring 1984.

Brian H. Lee, speech communication, a review of Peter Arnott's *Theatre in Its Time*, in *Theatre Journal*, March 1984.

James McKenzie, education, "Using Computers for Health Instruction," in the winter issue of *Future Focus: Ohio Journal of Health, Physical Education, Recreation and Dance*.

Ronald Partin, educational foundations and inquiry, "A Case Study: Evaluating Faculty at Bowling Green State University," in the April issue of *Change*, a journal for higher education.

Michael Rastatter and **Cheryl Rivers**, speech communication, "The Effects of Short-term Auditory Masking on Fundamental Frequency Variability," in *The Journal of Auditory Research*, vol. 23, 1983.

Articles by **Patricia Reed**, educational curriculum and instruction, **Conrad Pritscher**, educational foundations and inquiry, and **Ellen Williams**, special education, have been cited as

recommended readings in *Annual Editions, Education 84-85*, a publication of the Dusking Publishing Group, Inc. The articles originally were published in a special issue of *American Secondary Education*, December 1982.

Dr. Reed's article is titled "Mainstreaming: Expectations and Realities;" Dr. Pritscher's article is titled "A Holistic View of Mainstreaming," and Dr. Williams' article is titled "Mainstreaming: Is It Secondary at the Secondary Level?" Dr. Williams' article was co-authored by graduate students Isabel Hansen and Barbara Jackson.

F. Scott Regan, speech communication, "The Power of the Story," in *The Puppetry Journal*, March 1984.

Michael H. Robbins, philosophy, "Practical Reasoning, Commitment, and Rational Action," in *The American Philosophical Quarterly*, January 1984.

Recognitions

Bruce L. Edwards Jr., English, has been appointed program chair of the Midwest Conference on Christianity and Literature to be hosted on campus Oct. 26-27.

Mary Biggs, library, has been appointed managing editor of *The Library Quarterly*, published by the University of Chicago Press. Her term will begin in July. She will assume the duties of editor following the retirement of the current editor, Howard W. Winger.

Biggs was an editorial assistant for the journal in 1979-81 and was appointed to the editorial board in 1982. She also is the editor of *Publishers and Librarians: A Foundation for Dialogue*, published by the University of Chicago Press.

Joan H. Gordon, WBGU-TV, received a Great Lakes Regional Communicators' Award from Women in Communications, Inc., for the promotional campaign she planned and

implemented for WBGU-TV's first "Quiet Campaign."

Fujiya Kawashima, history, presented a paper on "Elite Kin Groups in the Countryside: The Tansong Hyangan in Mid-Yi Dynasty Korea" at the annual meeting of the Association for Asian Studies March 25 in Washington, D.C.

Frank McKenna Jr., political science, has been appointed by the Bowling Green City Council and mayor to a three-year term on the Bowling Green Cable Television Commission.

Service

William Benoit and **David Ostroff**, speech communication, have been selected to judge the Doctoral Honors Seminar on Political Communication sponsored by the Speech Communication Association.

Dr. Ostroff also is a judge in the competitive papers program sponsored by the History Division of the Broadcast Education Association.

F. Scott Regan, speech communication, was a member of the Theatre Advisory Board of the Ohio Arts Council which met recently to determine award funding for the coming year.

Presentations

Thomas Anderson, geography, was invited to participate in a panel discussion of "The Kissinger Commission and the Future of Central America" during a forum April 9 in Miami, Fla. The forum was sponsored by The Cuban American National Foundation of Washington, D.C.

Susan Arpad, women's studies, presented a paper, "Midwestern Women: Naming Experience through Domestic Arts," at the annual convention of the Popular Culture Association Convention in Toronto.

Tina Bunce, musical arts, performed the role of Elisa in the Toledo Opera production of "Lucia da Lammamoor" March 17.

Christopher Geist, popular culture, presented "The Tragedy Joke: A New Genre in Folk Humor" at the annual meeting of the Popular Culture Association in Toronto.

G.R. "Dick" Horton, technology, conducted the afternoon workshop at a conference entitled "Leadership: A Matter of Image" March 25 in Columbus. The conference was co-sponsored by the American Council for Industrial Arts Teacher Educators and Epsilon Pi Tau honorary fraternity.

Jim Karpen, English, presented a paper entitled "Reconceptualizing the English Composition Program for the Age of Computers" at the 35th annual meeting of the Conference on College Composition and Communication March 29 in New York City.

Julius T. Kusan, art, Firelands, presented a lecture/slide/workshop on "Copper Enameling" at the 24th annual convention of the National Art Education Association April 2 in Miami, Fla.

Brian H. Lee, speech communication, presented a paper entitled "Mail-Order Theatrical Spectacle: The John B. Rogers Company of Fostoria, Ohio" at the annual convention of the Popular Culture Association March 30-April 1 in Toronto.

Barbara Lockard, music performance studies, presented a master class in acting and a voice recital at Celina High School March 18. Her accompanist at the recital was alumnus David Tilburg.

Eloise J. McKittrick, home economics, spoke on "Bankruptcy: A Consumer Solution?" at the fourth annual Northwest Ohio Consumer Economic Education Conference April 4 in Perrysburg.

She also spoke April 6 on "The Elderly, A Generation Facing Limited Resources" at the annual conference of the Ohio Council on Family Relations in Columbus.

F. Scott Regan, speech communication, presented workshops on characterization for the *Rainbow Children's Theatre* in Las Vegas, Nev., and for the *Pickwick Players of Midland, Tex.*, March 22 and 24.

Patricia Remington, ethnic studies, chaired a session and presented a paper, "B.A. Baracus: Ethnic Folk Hero or Villain?," at the American Culture Association convention March 29-April 1 in Toronto. The paper was co-authored by Kriemhild Omelas.

Marilyn L. Solt, English, presented a paper, "Anne of Green Gables in the United States," at the Popular Culture/American Culture Association Convention March 31 in Toronto.

Faculty revise education text

Three faculty members in the College of Education have collaborated with three former colleagues to produce the second edition of the college text, *Principles of Social Studies*.

The text, originally released in 1980, is published by University Press of America, Inc., Lanham, Md. It is designed for students preparing to teach elementary and secondary social studies.

The revision process brought current faculty Larry Wills, Jacquelin Stitt and Sheila Wineman back in contact with colleagues James Barth and Kenneth Craycraft, now on the faculty at Purdue University, and Perry Marker, who is pursuing doctoral studies at Indiana University.

"The first edition was developed because we could not find text books suited to our needs," Dr. Wills said. The second edition reflects the changing environment in school classrooms and discusses such topics as teaching gifted and talented children; coping with mainstreaming in the social studies classroom; multicultural education and problem-solving in the classroom.

According to Dr. Wills, the text is used at Bowling Green and at several other major universities in the country, including Cleveland State and Sam Houston in Huntsville, Tex.

Dr. Wills is assistant to the dean for international studies and Drs. Stitt and Wineman are assistant professors of educational curriculum and instruction.

Undergraduate Council

Following is the agenda for the Wednesday (April 18) meeting of Undergraduate Council to begin at 1:30 p.m. in the Alumni Room of the University Union:

- Call to order
- Review of minutes
- Announcements
- Discussion of guidelines for the approval of program proposals (Kendall Baker)
- Other business
- Adjournment

Foundation headed by new officers

The University Foundation, Inc., the nonprofit group which seeks and manages private gifts to the University, is being led this year by 1954 graduate William R. Bittner of Westfield Center.

The Foundation accepts gifts to the University in the form of money and gifts-in-kind.

Bittner, a certified life underwriter and manager of W.R. Bittner, CLU and Associates, presides over a 21-member Board of Directors.

The Foundation's first vice president is H. Ann Greene, a 1949 graduate from Bryan. Harold O. Davis of Toledo is in his second year as Foundation treasurer. He is a 1956 graduate of the University and vice president-treasurer of the Toledo Blade Co.

Wallace R. Jones, a 1955 graduate from Waite Hill Village near Cleveland, is vice president of the Foundation.

Datebook

Exhibits

Sculpture by California artist John Paul Jones, through April 22, McFall Center Gallery. Gallery hours are 8:30 a.m. to 5 p.m. weekdays and 2-5 p.m. Sundays.

Student Art Show, through May 4, Fine Arts Gallery, School of Art. Gallery hours are 8:30 a.m. to 5 p.m. weekdays and 2-5 p.m. Sundays. Many of the works displayed are available for purchase.

Monday, April 16

Ribbon-cutting and dedication ceremonies for the new Physical Sciences Laboratory Building, 1:30 p.m. at the entrance to the new building.

"**Anna and Toto**" and "**Small Change**," Modern European Film Series, 7 and 9 p.m., Gish Film Theater, Hanna Hall. Free.

"**The Morality of Nuclear Weapons**," The Day After the Day After lecture series, 7:30-8:30 p.m., 114 Business Administration Bldg.

Poetry and fiction reading by George Looney and Doug Smith, 7:30 p.m., Commuter Center Lounge, Moseley Hall. Free.

Graduate Recital Series concert, 8 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

"**Contributions of Chemistry and Chemicals to the World**," a lecture by Fred Basolo, immediate past president of the American Chemical Society, 8:15 p.m., 210 Math-Science Bldg. The lecture is part of the official dedication of the new Physical Sciences Laboratory Building.

Tuesday, April 17

Cafe Francais, French pastry bake sale, 10 a.m. to 4 p.m., French House.

Faculty Senate, 2:30 p.m., McFall Center Assembly Room.

Wednesday, April 18

"**The Feminist Novel**," Women's Studies Colloquia presentation by Judi Roller, registration and records, 12:30-2 p.m., Faculty Lounge, University Union.

Undergraduate Council, 1:30-3 p.m., Alumni Room, University Union.

Classified Staff Advisory Committee, 2-4 p.m., Taft Room, University Union.

Travels and Studies in Russia

presentation by Liuda Aissen, German and Russian; Margit Heskett, ethnic studies, and Joe Buettner, senior in the College of Education, 7 p.m., Alumni Room, University Union.

"**A Funny Thing Happened on the Way to the Forum**," University Theater production, 8 p.m., Main Auditorium, University Hall. For ticket information call 372-2719.

Thursday, April 19

Intermedia Ensemble, a program of computer-generated tape, dance and visuals, 8 p.m., Kobacker Hall, Moore Musical Arts Center. Free.

"**A Funny Thing Happened on the Way to the Forum**," University Theater production, 8 p.m., Main Auditorium, University Hall. For ticket information call 372-2719.

Friday, April 20

Concert Band I, 8 p.m., Kobacker Hall, Moore Musical Arts Center. Free.

"**A Funny Thing Happened on the Way to the Forum**," University Theater production, 8 p.m., Main Auditorium, University Hall. For ticket information call 372-2719.

Saturday, April 21

Dance Exchanges, an improvisation group from Antioch College, 2-5 p.m., Eppler Center.

"**A Funny Thing Happened on the Way to the Forum**," University Theater production, 3 and 8 p.m., Main Auditorium, University Hall. For ticket information, call 372-2719.

Monday, April 23

"**Restlessness and Early Sorrow**," and "**Viva Italia**," Modern European Film Series, 7 and 9 p.m., Gish Film Theater, Hanna Hall. Free.

Poetry and creative writing readings, by Beri Moore and Paul Beaudoin, 7:30 p.m., Commuter Center, Moseley basement. Free.

Contemporary poet Donald Hall, 8:30 p.m., 210 Math Science Bldg. Free.

FOR SALE. The department of English has for sale to departments and offices a used DEC LA-36 terminal, priced at \$250, and one ComData acoustic coupler, priced at \$75.

For further information contact Suzanne in the English department, 372-2576.

PARENTS DAY 1984. Doc Severinsen, the "music man" of the "Tonight Show," will return to the campus for a Parents Day performance set for Nov. 10 in Anderson Arena. Severinsen also headlined the 1977 Parents Day Show, which was a sellout for the sponsoring Alumni Association.

Tickets for the concert, priced at \$11 for chairback seats; \$8 for bleacher seats and \$5 for bleacher seats at

the upstairs, south end of the arena, are on sale now.

Tickets may be ordered by mailing a check (add \$1 for postage and handling with each order) to: Doc Severinsen Show, Miletic Alumni Center. Checks should be made payable to the BGSU Alumni Association.

Orders will be filled on a first-come, first-served basis, and tickets will be mailed in early September.

Outstanding juniors, Master Teacher to be named at April 23 banquet

The tenth annual Outstanding High School Junior Awards program will bring 111 juniors, each representing a northwest Ohio high school, to campus on Monday, April 23.

The high school students will be recognized for their scholastic achievement at an evening banquet in the Grand Ballroom of the University Union.

Two of the students who attend will receive four-year scholarships to the University — one a full-fee award

and the other a half-fee grant. In addition, every other student in attendance will receive a \$150 book scholarship to be used during the freshman year if the student chooses to enroll at Bowling Green.

The students, from 16 area counties, and their parents will be the guests of the Undergraduate Alumni Association at the banquet. They were nominated to attend the awards program by their high schools on the basis of scholastic record, extracurricular activities and community involvement.

In addition to the scholarships, the Alumni Association's annual Master Teacher Award will be presented at the banquet.

Phyllis A. Johnston

Willa M. Spears

Two to receive 30-year awards

Banquet to recognize long-term service

Two employees who each have accumulated 30 years of service at the University will be among those recognized at a Staff Awards Banquet May 3.

Phyllis A. Johnston, postal services, and Willa M. Spears, laundry, both 30-year employees, will be honored at the banquet along with staff who had accumulated 25, 20 and 15 years of service at the University as of Dec. 31, 1983. Spouses/friends will be invited guests at the 6:30 p.m. banquet to be held in the Grand Ballroom of the University Union.

This is the first year that full-time employees are being honored for total service to the University rather than years of continuous service. All employee records have been reviewed and current full-time employees have been given credit for prior full-time service and any part-time or temporary service, pro-rated on the basis that a year's work is equivalent to 2,080 hours.

The service of permanent part-time employees also has been pro-rated on that same basis.

Staff with questions about the amount of service credited to them should call the Office of Personnel Support Services, 372-2225.

In addition to Johnston and Spears, the following employees will be recognized at the May 3 banquet:

25 years: Haven C. Boyer, public safety/parking and traffic; Harold D. Dean, inventory management; F. Fredrick Fether, materials management; Nettie J. Frank, custodial services; Esther Gonyer, Union food services; Dorothy Kerr, Union; Arlene A. Layman, auxiliary support services; Merlyn O. Michaelis Sr., maintenance; Raymond H.
