I found out there's a Dr. Seuss movie coming out in March about the Lorax, who speaks for the trees. Maybe he could be our Earth Day "mascot" for recycling this year. We could also give away some of the Dr. Seuss books on the story as prizes. I've attached a website with the movie trailer so you could see what it's all about.

It may be good to publicize for Earth Day.

Jennifer Gerrald

- I have an idea for the earth day theme. We could feature "Upcycling" ideas. Crafting and repurposing using what we already have seems perfect for this financial climate. For instance, I have an acquaintance who etches glass from drink bottles. She also makes wind chimes. There are many other ideas online and some are very simple.
- A friend of mine found lumber and shingles by a dumpster from the end of a building project. He used my nails and bought a little paint. Now I have a beautiful bird feeder in my front yard!
