Safety and Security on Campus

2019 Annual Security and Fire Safety Report for the University of Minnesota Morris

Message from the President

Campus safety is critical to keeping the University of Minnesota a place where students, faculty, staff, and visitors from throughout Minnesota and around the world can work together to achieve our goals and advance discovery and impact.

Our University of Minnesota Police and Security Departments do an extraordinary job of helping the University of Minnesota remain a safe place to learn, work, and live. Officers patrol our buildings and grounds, get to know our community, and work in conjunction with both campus and metropolitan units committed to safety. This report details their efforts.

We are also working through policy and united action to improve public health on campus. The President's Initiative to Prevent Sexual Misconduct, now in its third year, continues to proceed with its comprehensive public health approach, consistent with research on effective prevention among populations as large and diverse as ours.

We are beginning to work as well in the public health area of student mental health. This is a national crisis that affects many of our own students, and we need our best and brightest minds to focus on this issue. We are clearly positioned to be leaders in the area of student mental health, and as a first step, I have charged three of our senior leaders to complete a systemwide inventory of all activities, resources, and programs related to mental health, so that we know where we stand, where we have gaps, and where to move forward.

Positive culture change is a community effort and shared responsibility. Each of us can contribute to a safer campus by keeping our eyes and ears open, and immediately reporting all crimes and public safety problems or concerns by calling 911.

Thank you for helping to keep our University safe.

Joan T. A. Gabel
President

Message from the Chancellor

Safety and security are important issues for the members of the University of Minnesota Morris community. UMN Morris's peace officers are committed to ensuring the well-being of all of us who live and work on this beautiful campus. These officers have strong relationships with the University of Minnesota Twin Cities police department, the Morris police department, and the Stevens County sheriff's office.

Ensuring that we are able to continue to live, work, and learn in a safe environment requires more than an able police force: it requires the active cooperation of all of us.

We can each do our part in promoting campus safety by being observant and by reporting all crimes and public safety issues to the proper authorities.

Thank you for helping to keep this university safe.

Michelle Behr
Chancellor

Annual Security and Fire Safety Report

Preparing the Annual Security Report and Disclosure of Crime Statistics

This report has been prepared in compliance with the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” (informally known as the “Clery Act”). This report includes information for the Morris campus of the University of Minnesota.

This report is published annually by the University and made available to all current and prospective students, staff, and faculty.

Statistics are compiled by the Clery officer on each campus in cooperation with the local law enforcement agencies with jurisdiction over University of Minnesota Clery Geography. Additional crime information is collected from a wide range of University personnel who have been identified as Campus Security Authorities (CSAs) under the Clery Act.

The Clery Compliance Director and campus Clery officers review and update the information contained in this report annually.

This report is prepared and presented in compliance with Clery Act requirements. For further information on the Clery Act visit: www.ed.gov/admins/lead/safety/campus.html

Crime Statistics reported in this document reflect specific crimes that occurred in specific geographic locations established by federal law and were reported to University of Minnesota Campus Security Authorities. Statistics reflect reports of crime and not criminal charges or convictions.

Definitions of Terms Used in this Report

Campus Security Authorities

Campus Security Authorities are individuals on campus who are required to report any allegations of crimes that they receive to the Clery Compliance Coordinator or UMPD for inclusion in the Annual Statistical Disclosure.

The Clery Act defines four categories of Campus Security Authorities as stated below:

- Any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department (e.g., an individual who is responsible for

monitoring the entrance into institutional property). Include individuals such as those who provide security at a campus parking kiosk, monitor access into a campus facility, act as event security, such as for sporting events or large, registered parties, or escort students around campus after dark (including other students).

- Any individual or organization specified in an institution's statement of campus security policy as an individual or organization to which students and employees should report criminal offenses.
- An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.

Report a Crime to a Non-Police Campus Security Authority

The University of Minnesota encourages all reports of crime to be made to the University of Minnesota Police Department or appropriate local law enforcement agency; however, crimes may also be reported to individuals on campus who have been identified as Campus Security Authorities. The intent of including non-law enforcement personnel as campus security authorities is to acknowledge that some individuals may be inclined to report such incidents to other individuals on campus.

Campus Security Authorities include but are not limited to: Residence Hall Directors, Assistant Residence Hall Directors, Community/Resident Advisors, Advisors to student organizations, athletics coaching staff and others who have significant responsibility for student and campus activities.

Campus Security Authorities have been trained to act as a resource for anyone who wishes to report the occurrence of a crime. Crime reports made to Campus Security Authorities are forwarded to the appropriate campus department for inclusion on the Daily Crime Log and to be evaluated for the need to issue a Timely Warning Notification.

While there are many non-police Campus Security Authorities on each campus, the University of Minnesota prefers reports be made to the following non-police CSAs:

<i>Student Affairs</i>	309 Behmler Hall	320-589-6013
<i>Human Resources</i>	201 Behmler Hall	320-589-6021
<i>Residential Life</i>	74 Gay Hall	320-589-6475

Voluntary, Confidential Reporting

If you are the victim of a crime and are unsure if you would like to pursue action through the University or the criminal justice system, you may want to consider speaking with a Campus Security Authority.

Campus Security Authorities can explain the different reporting options available to help you decide which option is best for you.

Police reports are public records under state law. University Police cannot hold reports of crime in confidence.

In many cases, a non-police CSA may be able to assist you in making a confidential report that would not initiate any additional action through the University or the criminal justice system. A confidential report is forwarded directly to the University of Minnesota Morris Police Department to be added to the Daily Crime Log, evaluated for the need to issue a Timely Warning Notice, and for inclusion in the Annual Statistical Disclosure. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the safety of yourself and the campus community.

With this information, the University of Minnesota can keep an accurate record of the number of incidents occurring on campus Clery Geography, determine crime patterns, and alert the campus community of potential danger.

All reports of dating violence, domestic violence sexual assault, and stalking that are made to University employees who have an obligation to report the occurrence of such crimes will be forwarded to the Title IX office or its designee. Per University policy mandated reporters are required to provide the following information to the Title IX office or designee in cases of alleged dating violence, domestic violence, sexual assault and stalking:

- The names of the complainant(s), respondent(s) and possible witnesses;
- The date, time and location of the alleged prohibited conduct; and
- Other relevant details about the alleged prohibited conduct that the University would need to determine what occurred and address the situation.

After receiving a report of alleged dating violence, domestic violence, sexual assault or stalking the Title IX coordinator will contact the complainant to provide resources for personal support and information about the investigation process. In cases involving a student respondent, the campus Title IX office or its designee will only begin investigating the report after receiving verbal or written confirmation that the complainant wishes to initiate an investigation.

When a complainant requests that their identity be kept confidential or that the University refrain from conducting an investigation, the campus Title IX office or its designee will make an individualized determination of whether to conduct an investigation, including consideration of the complainant's wishes, the University's responsibility for providing a safe and non-discriminatory campus environment, and whether the University possess other means to obtain relevant evidence. In making this determination, the campus Title IX office or its designee will consider the following factors, among others; whether the respondent is alleged to have used a weapon while committing prohibited conduct; whether the respondent is alleged to have used force while committing prohibited conduct; and whether the respondent has been alleged or found to have committed prohibited conduct against other complainants.

Professional Mental Health Counselors and Pastoral Counselors Exemption

Campus professional mental health counselors and pastoral counselors, when acting in their professional capacity, are not required to report crimes for inclusion in the annual disclosure of crime statistics.

The Clery Act defines a Professional Mental Health Counselor is defined as an employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of the counselor's license or certification.

A Pastoral Counselor as an employee of an institution, who is associated with a religious order or denomination, recognized by that denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Professional Mental Health counselors at the University of Minnesota are encouraged if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion in the annual statistical disclosure.

Professional counselors can be found at the following campus locations:

Student Counseling

235 Behmler Hall

320-589-6060

University of Minnesota Police Department

University of Minnesota Morris Police Department (UMMPD)

Authority

University Police are licensed as peace officers by the State of Minnesota. Minnesota State Statute 629.40 gives peace officers statewide arrest powers while acting in the course and scope of employment.

Jurisdiction

UMMPD is responsible for all property owned by the University in the Morris area. UMMPD officers provide services in directed, proactive patrol, crime prevention, investigation, law enforcement, and emergency response.

Relationship with other Law Enforcement Agencies

UMMPD has a mutual aid agreement with the City of Morris, which includes the sharing of law enforcement resources. UMMPD collaborates with the Stevens County Sheriff's Office, Morris Police Department, the Stevens County Attorney's Office, Stevens Community Medical Center, Stevens County Human Services, and Someplace Safe as members of the Stevens County Violence Prevention Task Force to reduce the incidence of and provide a coordinated response to sexual assault, relationship violence, and stalking. The Task Force provides for the coordinated investigation of the crimes of sexual assault, dating violence, domestic violence, and stalking. The University of Minnesota Morris does not currently have a Memorandum of Understanding (MOU) for the investigation of any other criminal offenses other than those listed above. UMMPD works closely with federal, state, and local police agencies including the Morris Police Department and Stevens County Sheriff's Office. When UMMPD receives information about an off-campus crime that requires secondary investigation, it forwards the information to the proper local police department.

Monitoring of Noncampus Locations

The University of Minnesota Morris Police Department works cooperatively with the Morris Police Department and other area law enforcement agencies to share information about criminal activity that occurs off-campus but may affect members of the UMM community. Students accused of criminal misconduct may additionally be subject to the University student conduct process. This process neither substitutes for nor interferes with the outside legal processes. The Student Code of Conduct outlines the jurisdiction the University has to apply disciplinary action in these cases.

University of Minnesota Morris does not have any non-campus residential property owned or controlled by recognized student groups.

Response to Reported Crime or Emergencies

Crimes reported to the UMMPD and to non-police CSAs will be considered for the need to issue a Timely Warning Notification, documented on the Daily Crime Log, and all applicable crimes will be included in the annual statistical disclosure. These public disclosures will not include any personally identifying information of any reporting parties, witnesses or victims.

UMMPD will investigate all criminal allegations reported to the police. These investigations may be done in conjunction other law enforcement agencies involved in the matter.

Students accused of criminal misconduct may additionally be subject to the University student conduct process; this process neither substitutes nor interferes with the outside legal processes. The major objective of the disciplinary system at the University of Minnesota is to maintain standards of conduct and order commensurate with the educational goals of the institution.

Daily Crime Log

UMMPD maintains a Daily Crime Log which available for public viewing at 6 Behmler Hall during regular business hours.

The daily crime log includes crime information for crimes which have been reported to directly to UMMPD and to UMMPD by non-police Campus Security Authorities which occurred within the University of Minnesota Morris campus Clery geography.

The Daily Crime Log includes; case number, nature of the offense, the reported time and date the offense occurred, the date the incident was reported to UMMPD, a general description of the location in which the incident occurred, as well as the disposition of the case, if known. Crimes initially reported to non-police CSAs are classified according to Clery crime definitions, while crimes reported directly to the police are classified according to Minnesota State Code.

Entries in the Daily Crime Log do not include personally identifying information of the victim, witnesses or reporting party.

Timely Warning Notification

The University of Minnesota issues Timely Warning Notifications, called Crime Alerts on the Morris campus, to the campus community for reported Clery Act crimes that occur within the Morris campus Clery Geography and are believed to pose a serious or continuing threat to the University community.

Timely Warning Notifications are designed to give the University community information which may aid in the prevention of similar crimes.

Incidents reported to UMMPD will be evaluated on a case-by- case basis by the Chief Law Enforcement Officer or designee to determine if a Timely Warning Notification is warranted.

When the Chief Law Enforcement Officer or designee determines that a reported crime poses a serious or continuing threat and a Timely Warning Notification is warranted, the Chief Law Enforcement Officer or designee, in consultation with the Chancellor and/or Vice Chancellors for Student Affairs and Finance and Facilities, will compose the warning. The Chief Law Enforcement Officer or designee will approve the draft and it will be forwarded to the Office of Communications and Marketing for review and distribution.

Timely Warning Notifications will be electronically distributed to all Morris Campus students, staff and faculty via the University of Minnesota email system.

Timely Warning Notifications may include the following details (if available):

- Date and time of the incident
- Location
- Type of crime
- Description of the incident
- Physical description of suspect, including a photograph (when available)
- Apparent connection to previous incidents, if applicable
- Pertinent crime prevention tips

Personally Identifying Information of victims and reporting parties will not be disclosed in a timely warning. Except in instances where the information is relevant to the crime— for example, in crimes which are motivated by Bias the victim's inclusion in a protected class may be released if this information is not determined to be explicitly personally identifiable.

UMMPD works closely with the Morris Police Department and Stevens County Sheriff's Office and is routinely made aware of crimes which have been reported to these agencies which may warrant the issuance of a timely warning notice.

Emergency Response, Notification & Testing

Emergency Response

Emergency response operations include coordination of campus and community resources to save lives, protect property, and provide for the continuity of University operations.

The University uses the National Incident Management System (NIMS) as its standard for responding to incidents. UMMPD police officers and University administrators who have responsibility during an incident have been trained in NIMS. Depending on the incident, other University departments and/or other local or federal agencies may be involved in responding.

When an incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually from UMMPD. The Morris Police Department, Morris Fire Department, and Stevens County Sheriff assist UMMPD as the situation requires. These agencies have been asked to inform the University of Minnesota regarding any situations that are reported to them which may warrant a campus emergency response.

Emergency Notification Systems

The University of Minnesota Morris has several methods for communicating important safety information quickly in the event of a significant emergency or dangerous situation that poses an immediate threat to the health and safety of the campus community. The situation will dictate which notification methods are used, in some situations multiple notification systems will be used.

SAFE-U

SAFE-U is the University's emergency mass notification system. SAFE-U is used specifically to notify University students and employees of emergency situations which are likely to impact campus as a whole or impact University operations. Students, faculty, and staff who have provided contact information are automatically registered to receive SAFE-U notifications. Only University of Minnesota students, faculty, staff and those with a legitimate need are registered for SAFE-U.

Campus Email

In an emergency situation, campus email may be utilized to communicate important safety information. Generally, emergency notifications which are sent via SAFE-U are accompanied by a corresponding email with the same information.

Campus-Wide Emergency Alert System (CWEAS)

CWEAS is the University of Minnesota's outdoor emergency notification system. CWEAS is not a tornado siren; it is an outdoor warning system that can convey both an alert tone and voice messages. If you hear the outdoor warning system, it means go inside and seek more information.

Tone Alert Radio

The University uses Tone Alert Radios strategically placed throughout campus to add another layer of alert coverage. At the Morris campus, Tone Alert Radios receive emergency broadcasts directly from Stevens County dispatch. Stevens County dispatch will activate the radios when there is urgent information that needs to be

transmitted (e.g., severe weather, building evacuation). Tone Alert Radios also provide emergency notification that can be received in areas that are out of cellular service.

Fire Panel Annunciation

The University of Minnesota Department of Emergency Management has equipped some buildings with an annunciation capability that can be set off by the PSECC in case of an emergency. The annunciation system allows the fire alert system to communicate the source of the emergency, which will allow for a quicker and more efficient response. These panels also help control emergency communications systems where they are installed. As existing systems reach the end of their lifecycle, additional capacity in this area is being added.

Social Media

Emergency information may also be communicated on University of Minnesota Morris Facebook and Twitter accounts.

Digital Signs

Most digital signs on campus can be updated quickly to include an emergency message.

Web Announcements

Weather-related closings and other emergencies may be announced by placing an announcement on the University of Minnesota Morris website.

On-Scene Emergency Personnel

On-scene emergency personnel may be able to provide valuable emergency communication depending upon the emergency situation.

Activation of Emergency Notification Systems

Prior to issuing an emergency notification, UMMPD in collaboration with the Chancellor, Vice Chancellor for Facilities and Finance and Vice Chancellor for Student Affairs, will confirm the existence of an emergency or dangerous situation via dispatched officers or other emergency professionals on the scene, video monitoring, or notification from the National Weather Service. Information obtained from these sources will be used to determine the scope and content of the notification.

Upon confirmation of an emergency or dangerous situation, Campus Police, in consultation with the Chancellor or designee and the Emergency Lead—Designated Authority (ELDA) will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system.

In the event of a potential emergency or dangerous situation, that poses and imminent threat to the campus community, the Chief Law Enforcement Officer or Designee has the authority to initiate the appropriate notification system(s) immediately.

A notification may be delayed if issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

SAFE-U notifications will consist of basic information about the type of emergency or dangerous situation and information on how to avoid danger. Updated information will be disseminated as it becomes available and as time allows or when the immediate threat has been mitigated.

SAFE-U notifications can be authorized by the following individuals: Chancellor or designee; Chief Law Enforcement Officer or designee; Vice Chancellor for Student Affairs; and Vice Chancellor for Finance and Facilities, Director of Communications and Marketing or designee or Director of Residential Life or designee, and Public Safety Emergency Communication Center.

Dissemination of emergency information to the larger community (i.e., parents, the Morris community) will take place at the discretion of the University's Incident Response Team and as time allows. Campus Police will work with the Incident Response Team to determine how much information is appropriate to disseminate at different times. Depending on the nature of the incident, the University could utilize such avenues as the University home page <https://www4.morris.umn.edu/> or the media. The first concern of the University will be to disseminate information to those people directly affected by the emergency.

Emergency Response Testing

The University Department of Emergency Management, in conjunction with UMMPD, conducts an annual exercise to test the emergency response and evacuation procedures of the Morris campus. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution. This test is often announced to the campus community and publicized via campus email.

The Department of Emergency Management is responsible for documenting and analyzing the effectiveness of each test. The Department of Emergency Management retains documentation of each test including a description of the test, the date and time of the test, and whether the test was announced or unannounced.

At least once a year the University community will be notified of emergency response and evacuation procedures and where these procedures can be found.

The most recent test was completed in June 2019. During this test, University of Minnesota Morris Emergency Management group participated in a tabletop exercise along with other first responders from Stevens County. The exercise simulated a response to a cyber-security attack on infrastructure. Also included was a test of campus-wide evacuation procedures in response to a bomb threat on the UMM Campus.

Emergency and Evacuation Plans

The Department of Emergency Management coordinates the development of emergency plans. The Department of Emergency Management tasks each area of the University to develop and maintain emergency procedures and guidelines for their buildings and employees. The following are general evacuation procedures, for building specific evacuation procedures consult that buildings Building Emergency Plan.

General Building Evacuation Procedure

At the sound of the emergency alarm, it is the responsibility of all building occupants to evacuate immediately and proceed to predetermined assembly points, away from the building.

Building occupants are also responsible for ensuring that their visitors, customers, and contractors in their department follow the evacuation procedure described herein and leave the building along with all other occupants.

Faculty and instructors are responsible for dismissing their classes and directing students to leave the building by the nearest building exit upon hearing the building alarm or being notified of an emergency.

Designated essential personnel needed to continue or shut down critical operations, while an evacuation is underway, are responsible for recognizing and/or determining when to abandon the operation and evacuate themselves.

Evacuation Instructions

Whenever you hear the building alarm or are informed of a building emergency:

- Do not panic.
- Do not ignore the alarm.
- Leave the building immediately, in an orderly fashion.
- Do not use elevators.
- Classes and meetings in session must be dismissed and students directed to leave.
- Follow quickest evacuation route from where you are (see posted floor evacuation diagram/map).
- Do not go back to your office area for any reason.
- Proceed to the designated emergency assembly point for your area. If the designated assembly point/area is unsafe or blocked due to the emergency, proceed to the alternate assembly point.
- Report to your Building/Work Area Rep at the assembly point to be checked off as having evacuated safely; also report any knowledge you may have of missing persons or those located in an Area of Refuge.
- Return to the building only after emergency officials or building coordinator give the all-clear signal. Silencing the Alarm doesn't mean the emergency is over.

Chemical Spill Lab Evacuation instructions

In the event of the release of hazardous chemical substances which threaten human health and the immediate lab needs to evacuate, but other building occupants are safe, please follow the steps below:

- Notify other lab occupants in immediate area
- Everyone who can safely leave, should leave lab away from spill
- While exiting, close double doors leading into other labs
- A lab occupant leaving the lab should immediately call 911 (or head to area of refuge button (near freight elevator on each floor) if applicable)
- Notify operator of spill and location
- Operator can remotely activate fire alarm (for some buildings) and send emergency personnel
- Evacuate building according to general evacuation procedures

Building Emergency Instructions

In the event of a loss of power, water leak or flood, elevator failure or other building emergency:

- Call the Facilities Management at 320-589-6100 notify them of the emergency. Call 911 for emergencies with injuries.
- Notify staff that is located near the emergency so they may take appropriate precautions.
- Follow evacuation instructions, if evacuation is necessary.

Shelter Emergency Instructions

In the event of notification of severe weather, safely discontinue work and go to the nearest designated safe shelter location.

Active Threat Instructions: Run, Hide, Fight

The guidelines below should be considered during this type of emergency, but your specific situation may require deviation from these suggestions.

Run

- Have an escape route and plan in mind.
- Leave your belongings behind.
- Keep your hands visible.

- There is strength in numbers; work together against the active threat.

Call 9-1-1

- Call ONLY if safe and with information about the active threat.
- Clarify you are on the University of Minnesota campus and where you are.
- Give the location of the active threat(s).
- Provide physical description of active threat(s).
- Describe type of weapons held by the active threat(s).
- Notify the dispatcher of victims and their location.

How to React When Law Enforcement Arrives:

- Remain calm; follow officers' instructions.
- Keep your hands up and out in front of you, assuring your hands are empty.
- Keep hands visible at all times.
- Avoid making quick movements towards officers such as attempting to hold on to them for safety.
- Avoid pointing, screaming and/or yelling.
- Move quickly towards the nearest exit or where directed to by police.
- Do not stop to ask officers for help or directions when evacuating.

Once in a Safe Place

Once you are in a safe place, DO NOT LEAVE. Emergency responders need to account for everyone. As the event unfolds and is better understood, law enforcement will provide additional instructions as to where you should be or when you will be able to leave. Please be patient. Your safety is our most important concern.

Security of and access to campus facilities

Access to Campus Facilities

There are three distinct levels of access to buildings, public hours, university hours and restricted hours. Building hours vary according to building use.

Public Hours

During Public Hours, buildings will remain open to everyone in the University community and to the general public. Public Hours will generally coincide with the standard business day of 7 a.m. to 5 p.m. For classroom buildings, Public Hours will generally be 7 a.m. to 7 p.m. to accommodate evening classes. Libraries, museums, galleries, and the like will have public hours that match their business hours.

University Hours

University Hours are the hours just before and just after Public Hours in the morning and the evenings. As an example, University Hours in a classroom building would typically be 6 a.m. to 7 a.m., and 7 p.m. to 10 p.m. During University Hours, a U Card will be required to enter the building.

Restricted Hours

During Restricted Hours, buildings are closed to the general public and to the general University community. Only people who have been previously granted permission to enter the building are allowed to do so. Typically, the people granted access during Restricted Hours are the people who would logically have permission to enter a

building when it is locked, for example, faculty who teach or staff who work in a specific building. Again using a classroom building as an example, the Restricted Hours would be between 10 p.m. and 6 a.m.

For information on specific building hours, go to <https://www4.morris.umn.edu/maps> and select a building to learn more.

Security of Campus Facilities

The University controls and monitors access to its space by using traditional key systems, electronic card reader systems, and intrusion alarm systems. Outside doors of all University buildings are equipped with electronic card access control systems.

Campuses, departments and units are required to manage all keys and access control devices held by their employees. Each campus, department or unit has a Department Facilities Representative to enforce this policy at the local level.

Individuals are prohibited from unauthorized possession, use, duplication and changes to keys or access control devices. Individuals are also prohibited from bracing open doors equipped with access control devices. Violators of this policy will be subject to disciplinary actions for the University or criminal charges where appropriate.

Students, faculty and staff are required to carry their University issued UCard when in University buildings outside of public hours. The UCard must be presented upon request by law enforcement or security personnel, or by a University employee acting within the purview of their job responsibilities. Anyone in a University building that is unable to present their UCard outside of public hours may be asked to leave. Additional restrictions may apply to areas deemed to have a higher security standard.

Access & Security in Student Housing Facilities

The University of Minnesota Morris has six traditional dormitory-style student residential facilities and one apartment-style student residential facility.

All exterior residence hall doors, except Gay Hall, are locked 24 hours a day, seven days a week. Gay Hall-NS Blakely Hall exterior doors are unlocked from 8:00 a.m. to 4:30 p.m. to provide access to the offices of Residential Life, Health Service, and education classrooms. In these buildings, however, access to living areas remain locked 24 hours a day and require card access. Guests and visitors may access residence hall living areas only when escorted by a resident of that hall, or with prior approval from the Office of Residential Life. Residents are encouraged not to open doors for anyone other than their guests.

On-call CAs are available every night from 8 p.m. until 7 a.m. to ensure the safety and security of each residential building during the evening and night hours. All residence halls have published policies for guests. A residence director is available 24/7 for emergencies.

Security Considerations used in the maintenance of campus facilities

Facilities Management is responsible for the maintenance of campus facilities and grounds. Facilities Management has departmental standard procedures and practices that are aligned with the Board of Regents Policy “Health and Safety” to address security considerations used in the maintenance of campus facilities. For example, Facilities Management employees fix problems with lighting identified by Campus Police. Grounds and Custodial teams ensure safe and accessible exterior environments through regular ground maintenance, snow removal, and cleanliness.

Campus Police completes weekly checks of outdoor lighting and emergency call boxes, as well as daily checks of building access. Campus Police completes daily work orders for Facilities Management to address any concerns reported.

To report a building or facility issue contact:

Crime Prevention and Safety Programming

The following units offer annual programming to inform the campus community about campus security procedures and practices, to encourage the campus community to be responsible for their own security and the security of others, and to inform students and employees about methods of crime prevention.

University of Minnesota Morris Police Department

The University of Minnesota, Morris Police Department emphasizes crime prevention by minimizing crime opportunities and encouraging students and employees to be responsible for the security of themselves and others.

Personal Safety Training

Campus Police personnel facilitate programs for students, parents, faculty, staff, resident advisers and directors, student organizations, and community organizations. They provide a variety of educational strategies and tips on how to protect one’s self from theft, sexual assault and other crimes.

Campus Police, Residential Life, Peer Health Educators, Student Counseling, and the violence prevention coordinator often collaborate in presenting crime prevention awareness sessions on sexual assault, relationship violence, stalking, alcohol and drug abuse, as well as educational sessions on personal safety and residence hall safety.

Rape Aggression Defense

Consent does not mean the existence of a prior or current social relationship between the actor and the complainant or that the complainant failed to resist a particular sexual act.

A person who is mentally incapacitated or physically helpless as defined by this section cannot consent to a sexual act.

Corroboration of the victim’s testimony is not required to show lack of consent.

Dating Violence

Minnesota law does not define dating violence.

Sexual Assault

The term sexual assault is not defined by Minnesota Law. The comparable crimes of rape, fondling, statutory rape, and incest are generally coded as criminal sexual conduct in the state of Minnesota.

“Minnesota law classifies the crime of criminal sexual conduct into five categories: first- through fifth-degree criminal sexual conduct, with first-degree carrying the most severe penalties and fifth-degree the least. Minn. Stat. §§ 609.342 to 609.3451.”

“Generally speaking, the first-degree and third-degree crimes apply to sexual conduct involving sexual penetration of the victim; the second-, fourth-, and fifth-degree crimes apply to sexual conduct involving sexual contact with the victim without sexual penetration.”

“Criminal sexual conduct in the first and second degree typically apply to conduct involving personal injury to the victim; the use or threatened use of force, violence, or a dangerous weapon; or victims who are extremely young.”

“Criminal sexual conduct in the third, fourth, and fifth degree typically address less aggravated conduct and apply to other situations in which the victim either did not consent to the sexual conduct, was relatively young, or was incapable of voluntarily consenting to the sexual conduct due to a particular vulnerability or due to the special relationship between the offender and the victim.”

The above information is from the following source: <http://www.house.leg.state.mn.us/hrd/pubs/ss/ssovrcsc.pdf>

Stalking

MN 609.749 Subd. 1

“stalking” means to engage in conduct which the actor knows or has reason to know would cause the victim under the circumstances to feel frightened, threatened, oppressed, persecuted, or intimidated, and causes this reaction on the part of the victim regardless of the relationship between the actor and victim.

Affirmative Consent as defined by University of Minnesota Policy

A determination about the existence of consent is a critical element in the investigation of a sexual assault. University policy requires affirmative consent between individuals engaging in sexual activity.

Affirmative consent is freely and affirmatively communicated words or actions given by an informed individual that a sober reasonable person under the circumstances would believe communicate a willingness to participate in the sexual contact. This definition of consent does not vary based upon an individual’s sex, sexual orientation, gender identity, or gender expression.”

The following factors will be considered when determining whether affirmative consent was given.

- Each individual who wishes to engage in sexual contact is responsible for obtaining consent from the other individual or individuals who intend to be involved in the sexual contact.
- A lack of protest, the absence of resistance, and silence do not by themselves indicate consent.

- The existence of a present or past sexual, dating, or other romantic relationship between the individuals involved does not by itself imply consent to sexual contact.
- Consent must be present throughout the sexual contact and may be given and withdrawn at any time.
- When consent is withdrawn, all sexual contact must stop. Where there is confusion about the state of consent, sexual contact must stop until the individuals have verified the affirmative consent of all individuals involved.
- Consent to one form of sexual contact does not by itself constitute consent to another form of sexual contact.

Consent is not obtained where:

- An individual is compelled to engage in unwanted sexual contact through the use of coercion. Coercion may consist of physical force, intimidation, threats, or severe or persistent pressure that would reasonably cause an individual to fear significant consequences if they refuse to engage in sexual contact.
- An individual involved in sexual contact is incapacitated due to the influence of drugs or alcohol, and a reasonable person would know of this incapacitation. Incapacitation due to the influence of drugs or alcohol is a state beyond mere intoxication or impaired judgment. Some indicators of incapacitation due to the influence of drugs or alcohol may include:
 - A lack of control over one's physical movement (for example, an inability to walk or stand without stumbling or assistance).
 - An inability to effectively communicate (for example, where one's speech is heavily slurred, incomprehensible, or nonsensical).
 - A lack of awareness of one's circumstances or surroundings (for example, a lack of awareness of where one is, how one got there, who one is with, and how or why one became engaged in sexual contact).
 - If there is any doubt as to whether another individual is incapacitated, one should assume that the individual does not have the capacity to give consent.
- An individual involved in sexual contact is unable to communicate or understand the nature or extent of the sexual situation because of a physical or mental condition.
- An individual involved in sexual contact is asleep, unconscious or involuntarily physically restrained.
- An individual involved in sexual contact is not of legal age to give consent pursuant to Minnesota state law.

Education and Prevention Programs

The University engages in and is in the process of developing additional comprehensive, intentional, and integrated programming, initiatives, strategies, and campaigns intended to end dating violence, domestic violence, sexual assault, and stalking that:

Are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research, or assessed for value, effectiveness, or outcome; and

Consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.

Primary Prevention and Awareness Programming

The University utilizes online educational primary prevention and awareness programs, developed by EverFi, for all employees and incoming students. All incoming first-year and transfer undergraduate students, post secondary enrollment options (PSEO) students, and graduate and professional students must complete a sexual assault prevention course. Students take one of the following, depending on their status: “Sexual Assault Prevention for Undergraduates,” “Sexual Assault Prevention for Graduate Students,” or “Sexual Assault Prevention for Adult Learners.” Employees must complete a training titled “Preventing and Responding to Sexual Misconduct.” Each of these trainings were developed to be compliant with the requirements of the Clery Act and to educate individuals about the following topics:

- Values, Identities, and Relationships
- Gender Identities and Stereotypes
- Sexual Harassment and Stalking
- Consent, Coercion, and Stepping In
- Reporting Options and Responding to a Survivor

Additionally, these courses cover:

- Identify domestic violence, dating violence, sexual assault and stalking as prohibited conduct;
- Use definitions provided both by the Department of Education as well as state law to define what behavior constitutes dating violence, domestic violence, sexual assault, and stalking;
- Defines what behavior and actions constitute consent to sexual activity in the State of Minnesota and/or using the definition of consent found in the Student Code of Conduct if state law does not define consent
- Provides a description of safe and positive options for bystander intervention. Bystander intervention means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.
- Bystander intervention includes recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene
- Information on risk reduction. Risk reduction means options designed to decrease perpetration and bystander inaction and to increase empowerment for victim/survivors in order to promote safety and to help individuals and communities address conditions that facilitate violence.

Ongoing Prevention & Awareness Education

UMN Morris’s Violence Prevention and Response Program (UMN Morris Offices of Student Affairs, Campus Police, and Title IX/Equal Opportunity) strengthens campus and community victim/survivor advocacy and services. The program supports the work of UMN Morris’s Violence Prevention and Response Team, campus offices, and programs, and the Stevens County Violence Prevention Task Force in providing a coordinated, effective response to sexual violence, relationship violence, and stalking. The program provides staffing and resources to build a comprehensive education and prevention effort on the UMN Morris campus. Program leaders are working collaboratively to create a campus culture that addresses the roots of gender and relationship violence while fostering healthy relationships.

- Rape Aggression Defense (RAD) is offered for credit each semester by Campus Police. It is a comprehensive course that begins with awareness, prevention, risk reduction and avoidance while progressing on to the

basics of hands on defense training. Certified RAD instructors teach the courses provided in basic, advanced and keychain defense techniques.

- Residential Life floor programs presented by Campus Police and the Violence Prevention Program include: Alcohol Awareness, Sexual Assault, Risk Reduction and Awareness.
- Take Back the Night, the Clothesline Project, and the Stevens County Violence Prevention and Response Task Force Speak Out in the Park build awareness and engage students in preventing sexual assault, domestic violence and stalking.
- Student Affairs, Campus Police, and the Violence Prevention Program provide annual training for student paraprofessionals on sexual violence, relationship violence, and stalking prevention, safety and risk reduction, and response. These Student Affairs paraprofessionals include Residential Life Community Advisers, Orientation Group Leaders, STELLAR and Gateway summer bridge program peer mentors, and International Ambassadors.
- The Violence Prevention Program and Campus Police also provided classroom presentations on domestic violence, alcohol and sexual assault.
- Campus Green Dot trainers introduced Green Dot violence reduction and bystander strategies in presentations with New Students during Orientation, Residential Life staff and residents, STELLAR students, the Queer Issues Committee, faculty and staff in multiple presentations.

Safe and Positive Options for Bystander Intervention

“Bystander intervention” means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.

Bystander intervention includes:

- recognizing situations of potential harm
- understanding institutional structures and cultural conditions that facilitate violence
- overcoming barriers to intervening
- identifying safe and effective intervention options
- taking action to intervene

Active bystanders recognize emergency situations (sexual assault, alcohol abuse, safety) and non-emergency situations (noticing a friend is depressed, gambling, academic problems) and have the skills to intervene directly or indirectly.

How Do I Prevent Violence?

Be a good bystander. If you recognize an emergency or non-emergency situation happening, use the “3 Ds” to determine how to act.

Direct	Distract	Delegate
<ul style="list-style-type: none">• If you feel safe, confront the situation directly• Be calm, confident and respectful- the main goal is to stop the behavior• Ask if the involved parties are okay, seek to help	<ul style="list-style-type: none">• Diffuse the situation- interject humor• Change the subject- ask the parties involved about a class assignment or current event• Interrupt the flow of the behavior- spill a drink, create noise, any action which will interrupt the negative behavior	<ul style="list-style-type: none">• Ask others for help when you don't feel safe or comfortable approaching the situation alone• There is strength in numbers, enlist the help of friends• Call 911

Risk Reduction

These are tips that can provide you with low risk options for safeguarding your life against a predator. Do not look at them as ironclad rules. If a particular tip conflicts with things you need or want to do, try to find other options to protect yourself in that situation.

The victim is never to blame for a crime committed against them. Predators and perpetrators must be held accountable for their own choices and actions.

ON THE STREET

Predators identify targets.

- Cross the street if you see anything on your side that makes you nervous.
- To get off the street, use public transportation – sit near the driver.

Predators use isolation as a weapon.

- If possible, use the buddy system: walk with a friend/s.
- Walk on well-illuminated streets; avoid doorways, shrubbery, dark areas near buildings and other places where an attacker might hide.
- If you have taken a ride in a cab or from a friend, ask the driver to wait until you are safely inside your house before leaving.
- Avoid deserted laundromats or apartment building laundry rooms.

Predators identify vulnerabilities in targets.

- Be alert in crowded buses, streets, malls, etc.; pickpockets work best in these environments. It is safer to carry money or wallets in an inside or front pocket.
- Be cautious about revealing cash or credit cards.
- Purses and book bags are safest carried close to the body with flaps, zippers, or clasps closed turned toward the body. Keep your hand on your purse or bag. Do not set it on the floor or counter in restaurants, restrooms, or theaters, or leave it in your grocery cart while shopping.

IN YOUR CAR

Predators know when and where people may be vulnerable or isolated.

- Keep car doors locked and windows rolled up most of the way.
- Avoid traveling at night if you are having car trouble or are low on gas. Park your car in well-lighted places and lock all doors.
- Check the back seat and floors before you get into your car to be sure no one is hiding inside. Keep car keys in hand when approaching your vehicle so that you may enter it with ease.
- If security or an escort is available, have them walk you to your car. If possible, carry a cellular phone, and keep it charged.

Predators take advantage of people's good will and trust.

- If you must leave car keys with garage or parking lot attendants, leave a ring with only your car keys, not house keys, which can be easily duplicated.
- Don't pick up hitchhikers.

Predators are brazen.

- If someone tries to break into your car while you are in it, honk the horn in repeated short blasts.
- If you are being followed, do not go home. Drive to the nearest police station, fire station, hospital emergency room, or an open gas station or convenience store – any safe place with people visibly present.

IN YOUR HOME

Predators know when and where people may be vulnerable.

- It is safer using a first initial and last name on mailboxes and in phone directories.
- Be cautious around elevators. Do not get on if you are feeling uncomfortable or unsafe. Get off if a fellow passenger seems odd or threatening.

Predators may take advantage of people's trust and may display warmth and concern.

- Change old locks when you move to a new residence.
- Make sure your doors have dead bolts, security chains, and peepholes. Use them.
- Always check identification when repair people, salespeople, police, or meter readers come to your home. Do not hesitate to call and check their identification and refuse admittance if you do not feel comfortable letting them into your home.
- Instruct children and babysitters not to give out information about who is home.

Predators are brazen and resourceful planners.

- If you suspect your home has been broken into, do not go inside. Go to a neighbor and call the police.
- Lock your doors and windows, draw shades/blinds at night, and leave a light on implying that someone is home. Lock the doors to your home or apartment when you are in the yard; take a portable telephone outside with you. Do not hide spare keys outdoors. They are too easy to find.
- Do not hesitate to call 911 if you suspect someone is outside your home or apartment.

REMEMBER! It is the perpetrator, not the victim, who is to blame for the crime(s) they choose to commit!

Advocacy Support, Safety, Medical Assistance & Evidence Preservation

Advocacy

If you would like assistance and support from a victim's advocate you can

Safety

Contact the Police by calling 911. Even if you do not want to file a report, police will arrive on scene, ensure your safety and provide you with additional resources and can transport you to the hospital to seek medical attention, if requested. Officers can complete a police report if you would like.

Medical Assistance

If you have been the victim of a sexual assault, you should consider seeking medical attention as soon as possible. In cases of sexual assault, having a Sexual Assault Nurse Examination and the Sexual Assault Forensic Examination (SANE/SAFE) ensures that a specially trained nurse who is sensitive to the victim/survivor's needs will treat the victim/survivor. It also ensures the proper collection of forensic evidence and protects the chain of custody of that evidence should a case be brought to trial. The SANE/SAFE examinations are paid for by the county per Minnesota Statute 609.35.

Victim/survivors are encouraged to seek treatment at a medical facility of their choice.

In Morris victim/survivors can be treated at:

Stevens Community Medical Center

400 E 1st St

Morris, MN 56267

320-589-1313

Evidence Preservation

It is important that a victim of sexual assault not bathe, douche, smoke, change clothing, or clean the bed/linen/area where they were assaulted if the offense occurred within the past 168 hours (7 days), so that evidence may be preserved that may assist in proving that the alleged criminal offense occurred/is occurring, or may be helpful in obtaining a protection order.

Victim/survivors of dating violence, domestic violence, sexual assault and stalking are encouraged to preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs, or other copies of documents. These documents can be helpful in proving the alleged crime and are helpful in obtaining court orders for protection.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more

difficult. If a victim/survivor chooses not to make a complaint regarding an incident, they nevertheless should consider speaking with law enforcement to preserve evidence in the event that the victim changes her/his mind at a later date.

Reporting Options

Victim/survivors of dating violence, domestic violence, sexual assault, or stalking are encouraged to report the incident promptly to the University of Minnesota Police Department or Title IX office. While all University employees are required by University policy to forward reports of dating violence, domestic violence, sexual assault, or stalking of which they are made aware to the Title IX office; victim/survivors are encouraged to report directly to the Title IX office. The University of Minnesota Morris Police Department and Title IX office are the best locations on campus for victim/survivors to directly report crime information and obtain appropriate resources and support.

Victims have the right to:

- **Notify proper law enforcement authorities; including on- campus and local police**
- **Be assisted by campus authorities in notifying law enforcement, if the victim chooses**
- **Decline making a report to law enforcement**

Police

Victim/survivors of dating violence, domestic violence, sexual assault, or stalking are encouraged to file a report with the University of Minnesota Morris Police Department.

***University of Minnesota Morris
Police Department***

6 Behmler Hall

911
320-589-6000

UMMPD will assist any victim/survivor with notifying local police, when appropriate, upon the request of the victim/survivor.

After contacting UMMPD, an officer will meet with you to learn more about what occurred. The officer will inform you about what your next steps could be. If you choose to report the incident to us, the officer will ask you about what happened in order to make a report.

If evidence needs to be collected, such as bedding or clothing, the officer may make arrangements for that to occur. In addition, the officer will help you evaluate whether you need to go to a hospital to meet with a specially trained Sexual Assault Resources Service nurse. This will assist us in obtaining forensic evidence as well as assure you are provided with proper care and treatment. Officers will not be present during the exam, but you are welcome to bring someone of your choosing.

Once the report is completed and any evidence is gathered your case will be assigned to a specially trained UMMPD sexual assault investigator and they will contact you. The investigator will obtain any necessary additional information as well as provide you with information on the potential next steps in the investigation, which could include further investigation by our department and the eventual submission of the case to a prosecutor's office for review.

Although the University strongly encourages all members of its community to report violations of this policy to law enforcement it is the victim/survivor's choice whether or not to make such a report to law enforcement, and victims have the right to decline involvement with the police.

If a victim/survivor chooses not to make a complaint regarding an incident, they nevertheless should consider speaking with law enforcement to preserve evidence in the event that the victim changes her/his mind at a later date. As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more difficult. Timely reporting and a medical examination within 168 hours (7 days) is critical in preserving evidence of sexual assault and enhances the effectiveness of an investigation. While timely reporting aids the University of Minnesota in responding to crimes of sexual assault, dating violence, domestic violence, and stalking an individual can report an incident at any time.

Title IX Coordinator

Victim/survivors of dating violence, domestic violence, sexual assault, or stalking who are interested in pursuing action through the University should report the incident promptly to the Title IX coordinator.

For concerns involving students:

Student Affairs

309 Behmler Hall

320-589-6013

For concerns involving employees:

Human Resources Director

201 Behmler Hall

320-589-6021

Making a report to this office will initiate an investigation by the University of Minnesota as well as the institutional disciplinary process. The Title IX Coordinator can offer assistance in filing a police report if the victim/survivor chooses to report to law enforcement.

Confidential Reporting

If you are the victim of a crime of dating violence, domestic violence, sexual assault or stalking and you do not want to pursue action through the University disciplinary process or the criminal justice system, you may still want to consider making a confidential report to an advocate enter. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the University of Minnesota can keep an accurate record of the number of incidents occurring on campus, determine crime patterns, and alert the campus community to potential danger.

Reports filed in this manner are counted and disclosed in the annual statistical disclosure, considered for the need to issue a Timely Warning, and are included on the University of Minnesota Police Department's Daily crime log. These public disclosures will not include any personally identifying information of any reporting parties, witnesses or victims.

All reports of dating violence, domestic violence sexual assault, and stalking will be forwarded to the Title IX office or its designee. Per University policy, all University employees (excluding those who are exempt from reporting under University policy) are required to provide the following information in cases of alleged dating violence, domestic violence, sexual assault and stalking:

- The names of the complainant(s), respondent(s) and possible witnesses:
- The date, time and location of the alleged prohibited conduct; and

- Other relevant details about the alleged prohibited conduct that the University would need to determine what occurred and address the situation.

After receiving a report of alleged dating violence, domestic violence, sexual assault or stalking the Title IX coordinator will contact the complainant to provide resources for personal support and information about the investigation process. In cases involving a student respondent, the campus Title IX office or its designee will only begin investigating the report after receiving verbal or written confirmation that the complainant wishes to initiate an investigation.

When a complainant requests that their identity be kept confidential or that the University refrain from conducting an investigation, the campus Title IX office or its designee will make an individualized determination of whether to conduct an investigation, including consideration of the complainant's wishes, the University's responsibility for providing a safe and non-discriminatory campus environment, and whether the University possess other means to obtain relevant evidence. In making this determination, the campus Title IX office or its designee will consider the following factors, among others; whether the respondent is alleged to have used a weapon while committing prohibited conduct; whether the respondent is alleged to have used force while committing prohibited conduct; and whether the respondent has been alleged or found to have committed prohibited conduct against other complainants.

UReport (Anonymous reporting)

Reporting incidents of dating violence, domestic violence, sexual assault and stalking can be difficult. You can make an anonymous report through UReport, a resource that was established by the University of Minnesota for reporting such matters in a way that is protective of your concerns and identity.

When utilizing UReport, you are not required to provide your name or other information that might identify you. However, if you choose to remain anonymous, the University will be limited in the scope of its investigation and response. The reporting website will not track the identity of the computer you use.

If you do provide your name, or if your identity becomes known during an investigation, the University might become obligated to use your identity in the process of investigating any alleged misconduct. However, the University forbids retaliation against people who make good faith reports of violations of law or University policy. Therefore, if you experience retaliation or other negative consequences as the result of providing information through UReport or having your identity revealed in the process, you should report it. Information you provide will be used to help determine whether there has been a violation of law or policy.

Information may be shared with persons within the University if they have a need to know. Other persons, organizations, or agencies may obtain access to this information if they have statutory or judicial authority to do so.

For more information or to make a report, go to: <https://compliance.umn.edu/report>

Do not use the UReport site to report immediate threat to life or property. Reports submitted through this service may not receive an immediate response. If you require emergency assistance, please call 911.

Public Reporting and Disclosures and Personally Identifying Information

Crimes reported to Campus Security Authorities at the University of Minnesota (Including, EOAA, OCS, and UMPD) are recorded on a publicly available crime log and if applicable are included in the campus annual statistical disclosure. If it is determined that the alleged incident presents a serious and/or continued threat to the campus community, a Timely Warning Notice may be released according to policy. However, information included in these

public disclosures will not include any personally identifiable information of the survivor or witnesses, unless it presents relevance to the case (particularly for bias motivated crimes).

Victims may request that directory information on file to be removed from public sources.

Process for Resolving Sexual Assault, Dating Violence, Domestic Violence, and Stalking Complaints

The complainant will also receive written notification about how to request changes to academic, living, transportation and working situations or protective measures and detailed information about the University's investigation process.

Protective measures which may be offered to the victim/ survivor following a reported allegation of dating violence, domestic violence, sexual assault and stalking include:

- No-contact directives that prohibit complainants and respondents from contacting one another;
- Increased monitoring or supervision at location or activities where the prohibited conduct is alleged to have occurred
- When exceptional circumstances warrant, interim disciplinary suspension of a student
- When exceptional circumstances warrant, suspension or pre-disciplinary leave (with or without pay) of an employee from employment

Student Respondent

In cases involving a student respondent, the campus Title IX office or its designee will only begin investigating the report after receiving verbal or written confirmation that the complainant wishes to initiate an investigation, except in limited cases where campus safety is threatened.

Employees or Third Party Respondents

In cases involving an employee or third party respondent, the Title IX office or its designee will assess whether the report should be addressed through an informal resolution process or a formal investigation process.

Informal Problem Solving Process

After receiving a formal or informal report of prohibited conduct, the campus Title IX office or its designee will assess the report to determine how to respond to the report, including whether to respond to the report through an informal problem solving process or a formal investigation process. In making this determination, the campus Title IX office or its designee may consider, among other factors: (1) the nature and severity of the reported conduct; (2) whether the conduct has been previously addressed with the respondent; (3) academic freedom and free speech protections; (3) the potential for recurrence of the conduct; (4) the actual and potential impact of the conduct; (5) the potential impact of using investigative or problem-solving approaches to address the report; (6) the preferences of the complainant; and (7) whether the respondent is an employee, student or third party. Informal problem solving processes are more likely to be applied in cases involving sexual harassment or retaliation by employee or third party respondents than in cases involving other prohibited conduct or student respondents.

Among other things, informal problem solving may include: (1) conducting an initial inquiry to gather additional information about the report; (2) providing education or coaching to the respondent or complainant; (3) providing resources or recommendations to the respondent, a supervisor, or human resources representative; (4) providing relevant information to the individuals involved; (5) making changes to an employee's workflow or work location; or (6) establishing a plan for monitoring for future misconduct. In an informal problem solving process, the campus Title IX office or its designee does not determine whether the respondent has violated University policy. However, the campus Title IX office or its designee may provide resources to help resolve the conflict and make recommendations for responsive action, including actions aimed at preventing conflict or misconduct from occurring.

Formal Investigation Process

Investigations into reports of dating violence, domestic violence, sexual assault and stalking will be conducted by the Campus Title IX office or its designee. Except, investigations into stalking of a non-sexual nature will be conducted by the campus office or official that investigates non-sexual Student Conduct Code complaints for students or a human resources representative or a supervisor for employees.

If an investigation into reports of dating violence, domestic violence, sexual assault and stalking reveals other possible misconduct the campus Title IX office or its designee will forward this information to the campus office responsible for investigating that possible misconduct. However, amnesty is provided for certain drug and alcohol related offenses that come to light during a dating violence, domestic violence, sexual assault and stalking investigation.

STANDARD OF PROOF

The University applies the preponderance of the evidence standard when determining whether this policy has been violated. "Preponderance of the evidence" means that it is more likely than not that a policy violation has occurred.

EXPECTATIONS, OPPORTUNITIES, AND OBLIGATIONS OF AND FOR COMPLAINANTS AND RESPONDENTS

Complainants and respondents can expect the following in connection with reports submitted under this policy:

Initial Assessment:

When a campus Title IX office or its designee receives a report of dating violence, domestic violence, sexual assault or stalking it will promptly work with other appropriate University offices as necessary to complete an initial assessment of the report and any immediate health or safety concerns raised by the report. The initial assessment process will include the following tasks:

- Determine whether the report identifies conduct that, if it occurred as described, would violate this policy;
- Determine whether the report provides names or other information that identifies the complainant, the respondent, or any other person with knowledge of the reported incident;
- When applicable, inform the complainant of the right to seek medical treatment and provide the complainant with written notification about the importance of preserving evidence that may assist in proving that the alleged offense occurred in a legal or campus disciplinary proceeding or may be helpful in obtaining a protective order;
- As appropriate, provide written information to the complainant about their right to contact law enforcement, to decline to contact law enforcement, to be assisted by campus authorities in contacting law enforcement, and to seek a protective order.
- Provide information about available resources to the parties, including, as appropriate, providing complainant students who are transferring to another post-secondary institution with information about resources for victims of prohibited conduct at the institution to which they are transferring;

- Provide information to the parties about how to request accommodations or protective measures, such as changes to their academic, living, transportation, and working situations;
- Inform the parties about the University’s prohibition against retaliation, and that the University will take prompt action in response to any act of retaliation; and
- When applicable, communicate with appropriate University officials to determine whether the report triggers Clery Act obligations, including entry of the report in the daily crime log or issuance of a timely warning.

ADVISOR PARTICIPATION

Cases involving student respondents

Complainants and respondents may be accompanied to meetings and hearings in the investigation and adjudication process by two advisors of their choice. An advisor may be an attorney, union representative, advocate, support person, or other individual. In limited circumstances, other individuals may be permitted to attend these meetings for good reason, such as to accommodate a disability, at the discretion of the University official conducting the meeting.

Cases involving employee or third party respondents

Complainants and respondents in dating violence, domestic violence, sexual assault or stalking cases may be accompanied to meetings in the investigation and adjudication process by an advisor of their choice. An advisor may be an attorney, union representative, advocate, support person, or other individual.

Complainants and respondents in sexual harassment and retaliation cases may be accompanied to meetings in the investigation and adjudication process by one of the following advisors: an attorney, victim’s support advocate, or union representative.

Other individuals may be permitted to attend these meetings for good reason, such as to accommodate a disability, at the discretion of the University official conducting the meeting.

Additional information about advisor participation

To protect the integrity of the investigation and adjudication process, individuals who are witnesses with information about facts material to the underlying case may not serve as advisors.

INVESTIGATION PROCESS

The nature and scope of an investigation will be determined based on the report and any additional information gathered during the investigation, and will typically include the following elements:

- One or more interviews of the complainant, where the complainant will have the opportunity to describe the conduct giving rise to the report, provide evidence, and identify witnesses;
- Written notice to the respondent of the allegations constituting potential prohibited conduct, including sufficient details and with sufficient time to prepare a response before any initial interview;
- One or more interviews of the respondent, where the respondent will have the opportunity to respond to the allegations, provide evidence, and identify witnesses;
- Witness interviews and gathering of other evidence; and
- Review and analysis of the evidence.

- The University strives to complete dating violence, domestic violence, sexual assault and stalking investigations within 75 days. However, depending on the complexity of the investigation, the number of witnesses, the availability of evidence and other factors, some investigations may take more than 75 days.

POST-INVESTIGATORY PROCESSES

Cases where the respondent is a student

The campus Title IX office or its designee completes an initial findings report.

Upon completion of a prohibited conduct investigation, the campus Title IX office or its designee will make an initial finding as to whether this policy was violated. The campus Title IX office or its designee will prepare an initial findings report that summarizes the reported conduct, the information gathered during the investigation, and the initial finding.

Parties receive the initial findings report and any proposed informal resolution.

The complainant and respondent will be given access to the initial findings report and, when applicable, to a written proposed informal resolution to the prohibited conduct report. If both parties agree to the informal resolution, the University's process ends.

Either party can request a hearing before a panel.

Both parties will receive written information about how to request a hearing. A party who disagrees with the initial finding or proposed informal resolution may request a formal hearing before a panel.

During the hearing process, the complainant will not be required to appear in the same room with the respondent. Advisors will be allowed to be present throughout the hearing. The parties will be given an equal opportunity to present evidence.

Parties receive the hearing panel's decision.

Both parties will receive written notice of the hearing panel's decision on responsibility and, if the respondent is found responsible, the sanctions that will be imposed.

Either party can request an appeal.

Both parties will receive written notice of their right to appeal the hearing panel's decision to an impartial appellate officer.

Parties receive the appellate officer's decision.

In the case of an appeal, both parties will receive the appellate officer's written decision. The appellate officer will strive to render a decision within 30 calendar days of the notice of appeal and will provide the decision to both parties.

Cases where the respondent is an employee or third party

At the close of a prohibited conduct investigation, the parties will be afforded a five-day period in which they can review and respond in writing to a report containing preliminary factual findings. Subsequently, the campus Title IX

office or its designee will provide the parties with a final written report that includes factual findings and a decision on responsibility. The campus Title IX office or its designee will send this written report and recommendations for responsive action, if any, to the responsible University Authority. The University Authority for an employee respondent is the respondent's supervisor and/or human resources representative. The University Authority for a third party is the University official responsible for retaining or overseeing the third party, as designated by the responsible Senior Vice President.

The University Authority will decide whether responsive actions are to be implemented and, if so, what the responsive actions will be. The University Authority will notify the respondent of any responsive actions to be taken that directly impact the respondent, document those responsive actions in the respondent's University file, and notify the campus Title IX office of those responsive actions. The University Authority will monitor compliance with any responsive actions, and address any compliance failures by the respondent.

Either party may seek review of the written findings of the campus Title IX office or its designee by providing concerns in writing to the office that made the findings. In addition, employees may consult with their campus Title IX office and other applicable policies or offices to determine whether other review or grievance procedures are available to them related to the written findings including, for example:

Bargaining unit employees should contact their union representative and/or refer to the applicable collective bargaining agreement.

Faculty members should refer to Chapter 14 of Board of Regents Policy: Faculty Tenure. Faculty members may contact the Office of the Executive Vice President and Provost for more information about processes under this policy:

Civil Service and Professional and Administrative employees should refer to the University's conflict resolution process for employees and/or contact the Office for Conflict Resolution.

Cases where a respondent is alleged to have engaged in prohibited conduct in the course of performing duties as a student-employee

In these cases, the University will apply the post-investigatory process that applies to student respondents as described above. In addition, the University Authority for the student-employee respondent may take responsive action, including the possible imposition of sanctions, based on the outcome of the process. As a result, the respondent may be subject to sanctions as an employee by their employer and as a student as a result of the student conduct process.

SANCTIONS

Sanctions are actions intended to eliminate prohibited conduct, prevent its recurrence, and promote accountability while supporting the University's educational mission and legal obligations. University sanctions may include educational, restorative, rehabilitative, and disciplinary components.

University sanctions for students may include any one or a combination of the following:

- an oral or written warning;
- informal and formal coaching;
- probation;
- required compliance with work assignments, community service assignments, or other discretionary assignments;
- restitution;
- restriction of privileges;
- University housing suspension or expulsion;
- suspension or expulsion from the University;
- withholding of a diploma or degree; and
- revocation of admission or a degree.

University sanctions for employees may include any one or a combination of the following:

- informal and formal coaching;
- probation;
- progressive disciplinary action;
- transfer of position;
- removal of administrative appointment;
- demotion;
- salary reduction; and
- termination of employment, consistent with the applicable University disciplinary policies and procedures.

The following factors will be considered in determining the appropriate sanctions to address a finding of responsibility for prohibited conduct:

- the severity, persistence, or pervasiveness of the prohibited conduct;
- the nature of the prohibited conduct;
- whether the prohibited conduct included acts of violence;
- any incidents of prior misconduct by the respondent, including the respondent's disciplinary history, at the University or elsewhere;
- the impact of the prohibited conduct on other members of the University community;

- an assessment of the respondent’s potential for development, including whether the respondent has accepted responsibility for the prohibited conduct;
- the maintenance of a safe, nondiscriminatory, and respectful work and learning environment; and
- any other mitigating, aggravating, or compelling factors.

Requesting accommodations

The University will provide accommodations designed to promote all parties’ safety, well-being, and continued access to employment and educational programs and activities, to the extent these accommodations are reasonably available and requested. These accommodations may be temporary or permanent and may be implemented to remedy the harm caused to an individual by sexual misconduct. These accommodations may be implemented because an individual has requested them, the campus Title IX office or its designee has recommended them, or a local unit or department has identified a need for them. Accommodations and protective measures are available regardless of whether a complainant makes a prohibited conduct report to the campus Title IX office or pursues an investigation under this policy.

Possible accommodations include the following:

- residence modifications;
- academic modifications;
- support and counseling;
- work schedule or location modifications;
- assistance in making a report to law enforcement or obtaining a protective order; and
- transportation modifications.

As appropriate, the University will take protective measures that are designed to protect the parties and other University members from future harm. These protective measures may be implemented because a party has requested them, the campus Title IX office or its designee has recommended them, or a local unit or department has identified a need for them.

Possible protective measures include:

- no-contact directives that prohibit complainants and respondents from contacting one another;
- increased monitoring or supervision at locations or activities where the prohibited conduct is alleged to have occurred;
- when exceptional circumstances warrant, interim disciplinary suspension of a student (Board of Regents Policy: Student Conduct Code, Section VI. Interim Suspension); and
- when exceptional circumstances warrant, suspension or pre-disciplinary leave (with or without pay) of an employee from employment.

Parties may seek these accommodations and protective measures by contacting the campus Title IX office or its designee. Parties may also seek accommodations directly from the departments or individuals with the ability to provide the requested accommodations, such as the campus housing and residential life office or the appropriate faculty member, supervisor or human resources representative.

The departments or individuals with the ability to provide the requested accommodations will determine which accommodations and protective measures to take depending on the circumstances of each case. In doing so, they will consider the specific need expressed by the party, the severity or pervasiveness of the reported conduct, any

continuing impact on the party, and whether the complainant and the respondent share the same residence hall, classes, transportation, or job location. The University will maintain the confidentiality of any accommodations or protective measures to the extent possible. The campus Title IX office staff are also available to meet with University members to address questions or concerns about the provision of accommodations or protective measures.

The University of Minnesota is obligated to comply with a student's reasonable request for academic, living, working or transportation accommodations following an alleged sex offense. EOAA will supply victim/survivors with written notification regarding the options for and available assistance in requesting such accommodations or other protective measures. These accommodations will be provided if the victim/survivor requests them and they are reasonably available, regardless of if the victim/survivor chooses to report the crime to law enforcement.

Requests for accommodations can be made at the following locations:

Sexual Offender Registration

Certain felony level sex and other predatory offenders are required by law to keep law enforcement agencies apprised of their current residence, employment, and school address, as well as any changes to that information. Some of these offenders have demonstrated by their past behavior that they are part of a group who pose the greatest risk to the public when released.

This does not mean that they will commit a new crime, just that they are part of a group of persons who might.

The website does not contain information regarding predatory sex offenders who live or work near, but not on, University of Minnesota property. A list of such offenders may be found on the Minnesota Department of Corrections website <https://coms.doc.state.mn.us/publicregistrantsearch>

Release disciplinary outcome to victims of crimes of violence or non-forcible sex offenses

The University of Minnesota will, upon written request, disclose to the alleged victim of a crime of violence (as that term is defined in Section 16 of Title 18, United States Code), or a non-forcible sex offense, the results of any disciplinary proceeding conducted by the University of Minnesota against a student who is the alleged perpetrator of the offense. If the alleged victim is deceased as a result of such of the offense, the next of kin of the victim is permitted to make the request.

Housing & Residential Life Missing Person Policy

The Residential Life Missing Person Policy establishes procedures for the University of Minnesota Morris' response to reports of missing students. This policy applies to students who reside in University owned housing facilities.

Under the policy, a student may be considered a "missing person" if the person's absence is suspiciously different from his/her usual pattern of behavior and/or unusual circumstances may have caused the absence.

Procedures for Student Designation of Emergency Contact Information

Students age 18 and above and emancipated minors:

Student residents will be given the opportunity to designate an individual or individuals to be contacted by the University no more than 24 hours after the time that the student is determined to be missing in accordance with the procedures set forth below. The designation will remain in effect until changed or revoked by the student or at the time the student is no longer a resident of University housing (or under the age of 18).

Students under the age of 18 who are not emancipated:

Student residents under the age of 18 who are not emancipated are required to provide contact information for a custodial parent or guardian. The University is required to notify a custodial parent or guardian no more than 24 hours after a student resident is determined to be missing in accordance with the procedures set forth below. The custodial parent or guardian contact information will remain in effect until the student reaches the age of 18 or is no longer a resident of University housing.

This contact information will be registered confidentially and will only be accessible to campus officials and will only be disclosed to law enforcement personnel in the furtherance of a missing person's investigation.

To Report a Missing Student

In the case of a missing student resident, individuals should notify the University of Minnesota Morris Police Department, the Office of Residential Life, or the Office of the Vice Chancellor for Student Affairs.

If a report of a possible missing person is made to a Residential Life staff member or to The Office of the Vice Chancellor for Student Affairs, UMMPD will be contacted immediately. Cooperative efforts to locate the student resident may include:

- Conduct a life safety/wellness check on the resident,
- Attempt to make contact via cellular phone, email, or other means,
- Contact other students who may be aware of the missing person’s whereabouts (e.g., roommate, friends, classmates).
- UMMPD will gather all essential information about the student resident from the reporting person(s) and other individuals who may provide information that will assist with the investigation.
- No later than 24 hours after determining that a University housing student is missing, the Chief Law Enforcement Officer or designee will notify the emergency contact (for students 18 and over) or the parent/guardian (for students under the age of 18) that the student is believed to be missing.

Housing Regulations Regarding Portable Electrical Appliances, Smoking, and Open Flames

Electrical Appliances

Residents may use electrical appliances in residence halls if the appliance does not have an open heating element, use grease or cooking oil, or have an open flame. Appliances with automatic turn-off timers are highly encouraged.

Items that are not allowed include, but are not limited to: electric grills, hot plates and toaster ovens. Residents may use the items listed above in designated kitchen or utility areas only. Space Heaters are not allowed.

The residence hall rooms are not wired to support the use of large electrical appliances (air conditioners or large fridges). Major appliances, including air conditioners or portable dishwasher units, are not permitted in any hall.

Students may bring one (1) refrigerator per residence hall room. The refrigerators must be 4.4 cubic feet or smaller.

All appliances brought to campus must be in good working order.

Extension cords must be UL approved.

Due to potential for fire, concealed extension cords and multiple outlet adapters are also prohibited. Residents may possess multiple strip outlets that are fused with at least 14-gauge wire, are UL approved, and are grounded.

Cooking

Residence hall rooms are not equipped for students to safely and sanitarily cook. For the safety of all students, cooking is NOT permitted in residence hall rooms. Cooking is permitted only in University-designated kitchen or utility areas where appliance outlets are provided.

Smoking

To create a healthier, cleaner, and more inclusive environment for everyone, smoking any substance or creating smoke is not permitted in resident rooms or apartments, on apartment patios, apartment balconies, and/or public areas within residence halls and apartments. This includes electronic cigarettes, vaporizers and tobacco, hookahs or any smoking paraphernalia that has the potential for an open flame.

Open Flames

For the safety of all students living in the halls, it is prohibited to have open flames or other materials that constitute fire hazards on University housing property including candles, candle warmers, incense, or other materials (such as live fresh cut evergreen trees, and wreaths). Any candles or incense found may be confiscated or destroyed.

Residence life staff will not store these items for you.

Prohibited Lighting

Due to hazardous materials in various lighting devices, and the potential for fire, and chemical safety hazards, the following items are not allowed: halogen lamps, torchiere lamps, neon lighting, black lights, strobe lights, and lava lamps. Lighting fixtures and devices must be UL listed, in good working condition per original manufacturing, and of no greater than 75 watts.

Evacuation in case of a fire

In the event of a building alarm, fire departments cannot begin their job until everyone is out of the building. Failing to leave the building puts others at risk. In compliance with Minnesota State Fire Code and state law, everyone is required to leave the building in the event of a building alarm.

- Upon activation of a fire alarm, immediately proceed to the nearest, safest exit
- Before opening doors, feel the door; if it is hot do not proceed through the door. If the door is cool, open the door slowly and proceed to nearest, safest exit
- If on upper floors of a building, do not use elevators, proceed down stairwells to exit, if heavy smoke or fumes are present, use an alternate exit route
- Exit the building and move a safe distance away from the building
- Housing staff will assist exiting residents to a nearby safe location
- Do not re-enter the building for any reason. Emergency Responders or Housing and Residential Life Staff will notify residents if and when it is safe to return to the building

Steps to Be Taken in Case of Fire

In a fire emergency:

- Pull the fire alarm if able.
- Call 9-911.
- Remain calm and act quickly.
- Wear protective clothing such as a coat and shoes, and carry a damp towel for use in heavy smoke.
- Close your room door and windows.
- Walk in an orderly manner to the nearest exit. Never use an elevator.
- Move a safe distance away from the building and out of the way of fire department personnel.
- Remain outside until you are told to return by the staff.
- If you think there is a fire in the hallway, feel the door before you open it:
- If the door does not feel hot, open it slightly, holding your head away and brace the door with your foot.
- Put your hand across the opening to test the heat of the air.
- If the door is hot and the hallway unsafe, plug any opening or cracks through which smoke may enter your room using wet towels, sheets, blankets, etc.
- If smoke does enter the room, open the window for ventilation; break it if sealed.
- DO NOT JUMP.
- Make your presence known.
- Wait for rescue

In case of minor fire:

- Pull the fire alarm if able.
- Call 9-911.
- Use a fire extinguisher located in the hallway cabinets or a blanket to smother the fire.
- Call the Lake Superior Hall Information Desk at 218-726-7381.
- Never risk your personal safety!

Fire Safety Education & Training

Each September, the Office of Residential Life offers fire safety programming. Each hall has a fire safety presentation and informs residents of actions to be taken in case of a fire.

Each residence hall has evacuations procedures on-site. These procedures are covered yearly with residents and are practiced each year in scheduled fire safety drills.
