P02-32-1

OP50A AND OP50B

TUESDAY MORNING

TODAY SUBOB A AND B FOR ~~STRUCTURE~~^{OP} 50 WAS COMPLETED BY GEORGIN THORN AND MYSELF BY 9:05 AM. OP50A RUNS EAST-WEST AND IS LOCATED IN THE CENTRAL PART OF ~~STRUCTURE~~^{OP} 50 - IN WHICH THE TRENCH STOPS ON TOP OF THE ~~STRUCTURE~~^{OP} DUE TO STEEP INCLINE ON THE EAST SIDE OF ~~STRUCTURE~~^{OP} 50. OP 50A CONSISTS OF 8 SQUARE METERED UNITS, WHICH WAS STAKED AND ROPED OFF THIS MORNING. OP50B CONSISTS OF ~~12~~¹² SQUARE METERED UNITS, THAT RUNS^{CENTRALLY} NORTH-SOUTH OVER THE STRUCTURE AND WAS ALSO STAKED AND ROPED OFF THIS MORNING.

COLUMNAR BASALT IS PRESENT IN FAIRLY LARGE QUANTITIES ON TOP OF STRUCTURE 50 - VARYING IN SIZE BUT FAIRLY LARGE (OFTEN 1 1/2 FOOT LONG).

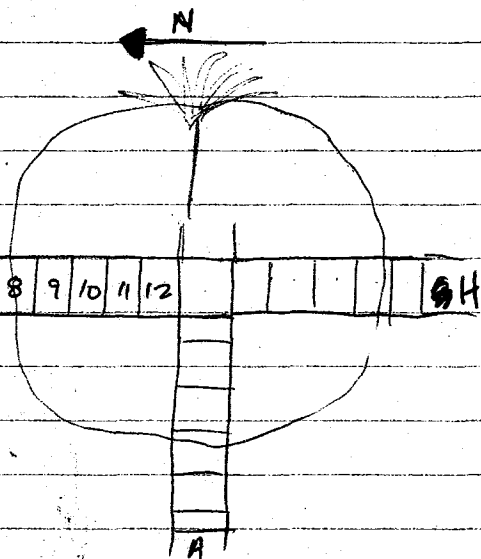

EACH UNIT CONSISTS OF 1 METER X 1 METER. 50A = 8

50B = 12

50G = 1

STRUCTURE 106

⊗ SUBOB^H PICKS UP FOR ^{SUB} OP B STARTING AFTER ^{SUB} OP B'S FINAL UNIT = 12.

⊗ 50B UNITS ARE NUMBERED CONSECUTIVELY STARTING WITH # 1.

⊗ THE LOT #'S START WITH 001 - @ 20 cm DEPTH.

5 FEB 2002, Joni Handeck

PO2-32-02

~~503-100~~

503-~~100~~/001: 0-20 cm ^{BASE AS MEASURED FROM SE CORNER OF} of UNIT 1 ←

- TOPSOIL AND TERMINAL DEBRIS - IS ROCKY SO MAYBE PULL 1 M.

UNIT ~~2~~ NORTH OF UNIT 1 IF ROCKS CONTINUE.

- POTTERY SHARDS, ~~A~~ PIECE OF OBSIDIAN, AND A PIECE OF CHERT =

IS INCREASING AS DEPTH INCREASES.

- FINDING MORE SHARDS, OBSIDIAN, AND CHERT

⊛ CHERT ^{BIFACE} ~~REAR PART~~ - ABOUT 6-8 CM THICK - 3 TO 4 CM WIDE
DISTAL END BROKEN OFF.

- ABOUT 15 CM DOWN AND COMING ON TOP OF ROCKS - LARGE
ROCKS COVER SW AND ~~SW~~ AREAS AND ARE ALSO PRESENT
ON EAST SIDE. NOW WE'LL MOVE 1 M. UNIT NORTH TO
TRY AND COME IN FRONT OF THE "ROCK STRUCTURE" TO FIND
OUT IF 1) ROCKS ARE ARBITRARY - JUST NATURALLY THERE OR
2) IF PART OF STRUCTURE OF STRUCTURE 106 OR
TERRACE.

11:50 AM: FINISH UP WITH UNIT 1 - 0-20 CM.

THE MEN HAVE CLEANED UP MUCH OF THE ROCK SITUATION. THE
ROCKS SEEM TO BE SMALLER THAN ORIGINALLY EXPECTED.

- DEPTH LIES @ 15 CM ON SOUTH EAST SIDE

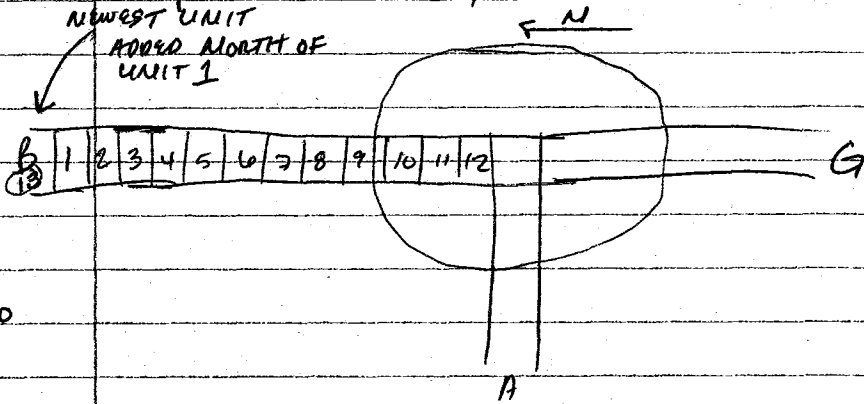

AND 10 CM ON NE SIDE.

10 FEB 2002, Joni Harbeck

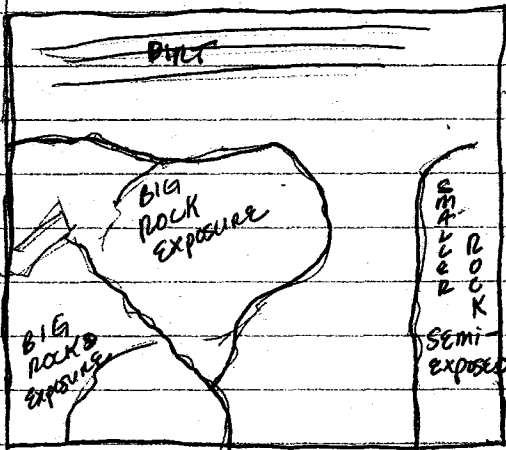

P02-32-03

7:42am

I HAVE JUST FINISHED MEASURING OUT ANOTHER METERED UNIT TO THE NORTH OF UNIT 1 - WHICH WILL BE NAMED UNIT 13 - DUE TO ROCK EXPOSURE IN 50B/001 OF UNIT 1. THE IDEA OF BACKING IT UP FOLLOWS ~~AS~~ ~~IS~~ IN HOPES OF COMING IN FRONT OF THE ROCKS PRESENT IN UNIT 1/001 TO UNDERSTAND BETTER THE ROCK PRESENCE.

DRAWING OF STRUCTURE 100 AND TRENCHES - UNITS

DRAWING 50B/001 OF UNIT 1

MAURICIO } my workers
JUSTINO }
JUSTINO

50B/002 OF UNIT 13

THIS UNIT HAS LESS ROCK PRESENCE - ALTHOUGH A FEW LARGE ROCKS ARE PRESENT IN THE SOUTHERN SECTION OF UNIT 13 - LOT 002. POTTERY SHARDS, OBSIDIAN, AND CHERT FLAKES ARE PRESENT, AS WELL.

6 FEB 2002, Jani Hancock

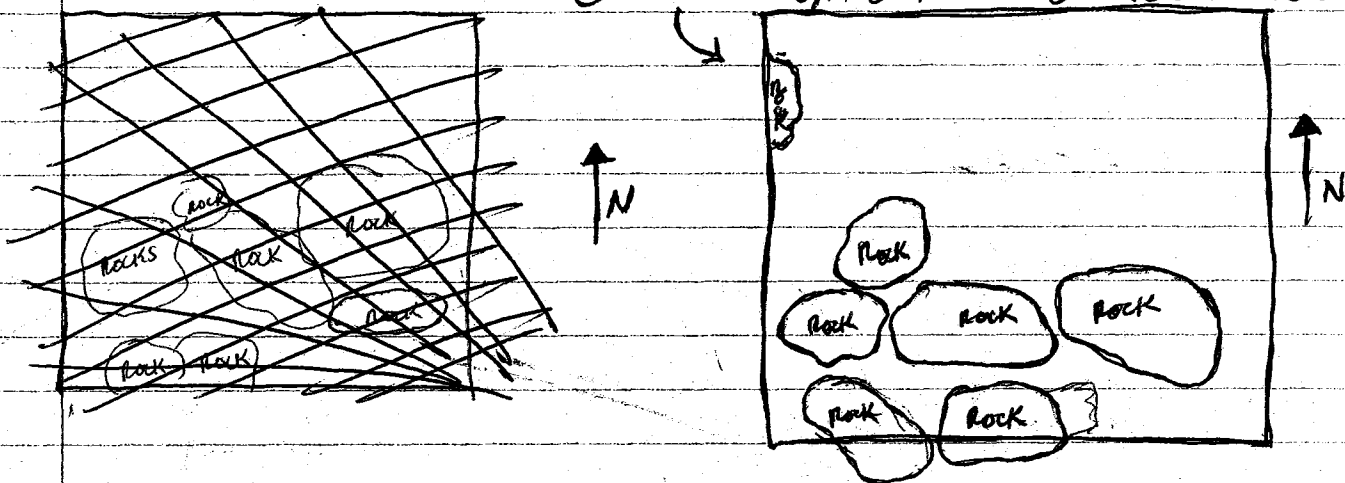

P02-32-04

2

[CENTRAL MEXICAN CHERT = CAN'T SEE THROUGH AND FEELS LIKE PLASTIC]

A GOOD SELECTION OF CHERT AND OBSIDIAN FRAXES ARE TURNING UP IN 50B/LOT 002 IN UNIT 13 - SO NOW WE'LL SCREEN THE REST OF THE LOT, HOWEVER THAT'S ONLY ^{THE PORT FROM} 15-20 cm. SCREEN SIZE IS 1/4 INCH.

MAP OF 50B/LOT 002 OF UNIT 13 @ 15cm BGS

TWO PIECES OF BONE HAVE BEEN FOUND ALREADY - BOTH SMALLER THAN 5 cm. HUMAN OR NOT - PROBABLY BUT UNKNOWN TIL FURTHER EXAMINATION.

11:30 AM WE HAVE FINISHED WITH 50B/LOT 002 IN UNIT 13 -

THE SOUTH SIDE - THE SIDE WITH THE ROCKS - IS NOT 20cm DEEP IN ORDER TO KEEP THE ROCK LINE.

- HOWEVER THE NORTHEAST HALF OF THE UNIT IS 20cm DEEP BGS.

MUCH MORE LITHICS WERE FOUND IN THIS LOT VS. IN LOT 001 (UNIT 1)

AND SHEARS WERE STILL NUMEROUS.

THE ~~FRAXES~~ ^{LITHICS} CONSIST OF NUMEROUS TYPES OF ROCKS - A PIECE OF COBALTITE (SP?)

A BEAUTIFULLY BRIGHT lime green-yellow ~~rock~~ WAS FOUND - ALONG WITH MULTIPLE KINDS OF OBSIDIAN AND CHERT.

HAVE CAJON MUCHO MAY - pero es BICAL DIA.

TOMORROW I NEED TO OBSERVE WITH PAT AND ED WHAT THE NEXT MOVE IS - WHETHER TO DROP ANOTHER 20 cm IN UNIT 13 OR TO DROP 20cm MORE IN UNIT 1. I THINK FURTHER EXCAVATION OF UNIT 13 IS NEEDED.

7 FEB, 2002, Joni Harbeck

902-32-05

7:30 AM

WE STARTED ON LOT 003 IN UNIT 13 WHICH CONSISTS OF TAKING OUT THE ROCKS IN THE SOUTHERN SECTION OF UNIT 13 - WHICH WAS LEFT ~~YESTERDAY~~ AND CLEARING THE DIRT FROM UNDER THE ROCKS AS ANOTHER LOT (003). Right off we pulled a partial mano (from a mano and metate ^{10cm} set).

MANO = VARIES IN LENGTH FROM 145cm - 160cm

- AND 60-90 cm IN WIDTH

- WITH THICKNESS AROUND 80 cm, AS WELL.

IT LOOKS NOT UTILIZED

- ~~IT IS~~ ~~THE~~ ~~MANO~~ - many POTHOLES AND LOOKING DARK grey IN COLOR.

- I WILL BAG IT, WITH THE "50B/003 FROM UNIT 13" TAG AND CALL IT GOOD.

- LOOKS LIKE THE MANO WAS SHAPED BUT NOT USED SINCE IT LACKS A SMOOTH SURFACE. ~~AND~~ POSSIBLY IT BROKE DURING MANUFACTURING AND WAS THEN DISCARDED.

- Overall 50B/003 IN UNIT 13 IS STILL GIVING UP POTTERY SHARDS AND LITHICS (OBSIDIANA & CHERT).

- THE SOIL COLORATION IS CONSISTENTLY DARK BROWN

- WILL CONTINUE TO SIFT/SCREEN THE DIRT FOR SMALLER LITHIC PIECES AND WILL CONTINUE TO DIG FURTHER DOWN - 10cm AT A TIME - UNTIL THE LITHICS AND SHARDS CEASE IN NUMBERS.

7 FEB 2002, Joni Harbeck

P02-32-06

SARAUOA

- THIS LOT, 50B/004, IS GOING FROM 20cm - 30cm BGS IN UNIT 13. WE ARE CONTINUING TO EXCAVATE FURTHER UNTIL THE PRESENCE OF LITHICS AND POTTERY SHARDS CEASE.
- CONTINUING TO SIFT/SCREEN, AS WELL.
- GREEN OBSIDIAN (ONE FLAKE) WAS FOUND IN THIS LOT 004.
- SOME ROCKS TURNING UP AGAIN - IN THE SOUTHWEST CORNER 2 Large LIMESTONE ROCKS ARE PRESENT AND OTHER ROCKS ARE STILL COMING UP BUT NOT AS INTENSIVELY AS IN 50B/002 AND 50B/003.
- LITHICS, POTTERY SHARDS, AND SOME CHARCOAL ARE STILL COMING UP.
LITHICS - MORE SO IN SOUTH AND IN THE EASTERN PART OF UNIT 13.
EVIDENCE OF TUMBLE - SMALL STUFF FLOWS DOWN AND ROCKS FALL ON TOP OF.

11:30

- FINISHED WITH LOT 004 IN UNIT 13 (20-30cm BGS) - STILL SCREENING.
- WILL CONTINUE 10cm MORE DOWN TOMORROW IN UNIT 13 - MAKING IT LOT 005.

8 FEB 2002, Joni Hamrick

PO2-32-07

5DB/OD5 IN UNIT 13 - [30-40cm BGS]

PAVO = WOOD
STICK

CLOUDS ARE OUT TODAY - CAN'T BE MADE AT THAT.

POTTERY SHEARDS, LITHICS (OBSIDIAN AND CHERT) ARE STILL COMING UP.
PULLED A FEW SAMPLES OF CHARCOAL, AS WELL (ABOUT 34cm BGS).

- ALMOST DONE WITH THIS LOT OF 5 AND FINDING POTTERY SHEARDS AND
LITHICS (OF OBSIDIAN & CHERT), AS WELL.

- FOUND A PARTIAL MAMMO AT \approx 40cm BGS.

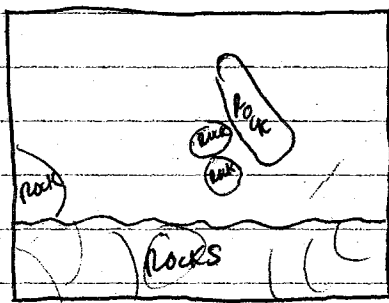

Length: 5cm

Width: 3.5cm

THE MAMMO IS WORN DOWN SOME BUT SOME POTHOLEES ARE STILL
PRESENT.

- ROCKS ON THE SOUTHERN WALL OF THIS UNIT HAVE NOT BEEN REMOVED YET - TRYING
TO SEE IF A WAY MAY EXIST. PROBABILITY IT IS JUST TUMBLE, AS WELL.

- WILL CONTINUE ANOTHER 10cm BGS (40-50cm) EXCEPT FOR WHERE THE SOUTHERN
ROCKS LIE.

* 2 pieces of CUT STONE - BOTH BROKEN
PIECES AND TURNING GREENISH OVERALL.

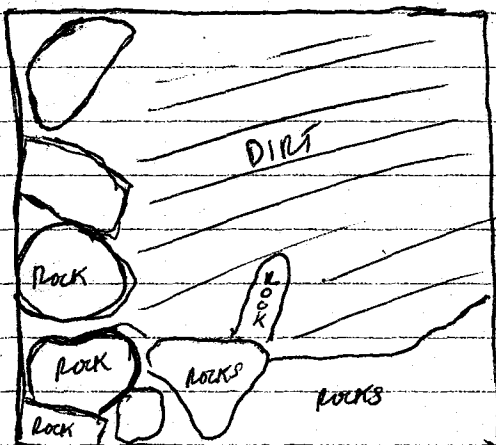

* THE STRATIFICATION IN UNIT 13 SHOWS
MANY CERAMICS IN THE WALLS - PIECES -
BUT SHOWS THE PLANTITUDE OF THE SHEARDS

8 Feb 2002, Joni Hancock
50B/000

P02-32-08

11:30

WE ARE TAKING THE UNIT DOWN ANOTHER 10cm BLAS (40-50cm)
THE ROCKS ON THE WEST AND SOUTH SIDE ARE BEING LEFT ALONE WHILE THE
SOIL IN THE REST OF LOT 000 IS BEING TAKEN OUT AND SCREENED.

⊗ SINCE BEGINNING TO EXCAVATE
THIS LOT - WE HAVE BEEN
HITTING LARGE ROCKS AFTER LARGE
ROCK IN THE "DIRT SECTION" ON
THE MAP.

- ED HAS SUGGESTED TO STOP IN DEPTH WHERE ORIGINAL SOIL WAS - WHICH
HAS NOW BECOME BIG ROCKS ABOUT 50 CM BLAS - ED THINKS IT'S
POSSIBLY A WALKWAY - OR PATHWAY OF SOME SORT AND I FEEL TO
AGREE.
- SO NOW WE WILL START ANOTHER LOT WHICH CONSISTS OF REMOVING
THE SOUTHERN ~~AND~~ ROCK SECTION ^(TO 50 CM BLAS) TO SEE IF THIS ROCK PATHWAY CONTINUES.

8 Feb 2002, Jani Harsick

P02-32-09

- THIS LOT (P07) IN UNIT 13 CONSISTS OF THE ARTIFACTS FOUND UNDERNEATH ROCKS, WHICH WE ARE NOW PULLING, FROM THE SOUTHERN SECTION TO EQUAL OUT WITH THE REST OF THE UNIT @ 50cm BLKS.
- WITH THE ~~LOTS~~ ^{SOIL} SCREENING - BILL HAS SUGGESTED TO ONLY SCREEN THE NORTHEAST SIDE OF EVERY LOT FROM HERE ON OUT - DUE TO CONSISTENT QUANTITIES OF SUCH LITNCS AND POTTERY SHEDS.

IN THIS SMALL SECTION ~~THESE ARE~~ POTTERY SHEDS ARE STILL PRESENT IN NUMBERS, HOWEVER THE LITNCS ARE DOWN TO ~~2-3~~ ³ SMALLER QUANTITIES.

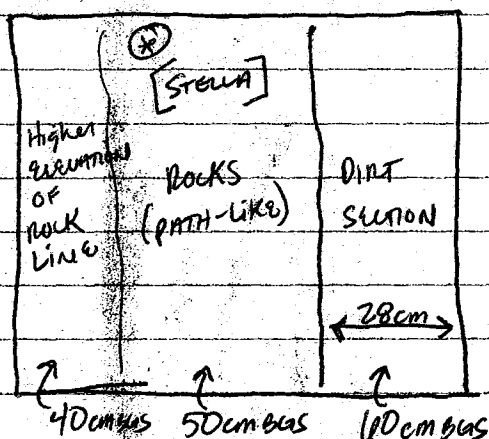

11 FEB 2002, Joni Handeck

P02-32-10

50B/00B OF STRUCTURE 10L [50-60 cm BGS]

7:30 am

WE ARE REMOVING ONLY THE EASTERN PART OF THE UNIT - TRYING TO SEE IF LARGE ROCKS EXIST UNDERNEATH THIS DIRT SECTION.

WE WILL GO DOWN 10 cm MORE - TO 60 cm BGS - IN DIRT SECTION AND THEN POSSIBLY MOVE UP TO UNIT 1 AND CONTINUE EXCAVATING TO SEE IF ROCK PATH AND LINE CONTINUES.

FEATURE 1:
STELLA

THE ROCK PATHWAY APPEARS TO BE A SMALL ROCK DENSITY PATH WHICH I HAVE NAMED STELLA.

THE DIRT SECTION WE REMOVED SHOWS VARIOUS ROCKS UNDERNEATH. SO NOW WE HAVE A ³⁻TIERED ROCK LAYOUT.

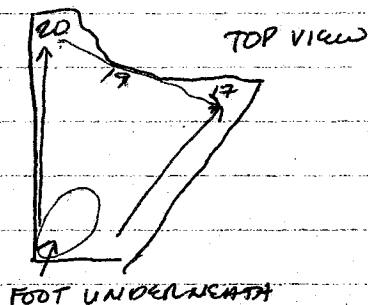

WE WILL CONTINUE TO UNIT 1, WHICH IS IMMEDIATELY SOUTH OF UNIT 13 - AND YOU ARE REMOVING DIRT, ROCKS, ARTIFACTS FOR 15-35 cm BGS SINCE WE ORIGINALLY EXCAVATED UNIT 1 15 cm BGS BEFORE MOVING NORTH TO UNIT 13 TO FURTHER UNDERSTAND THE ROCK LAYOUT OF UNIT 1

11 Feb 2002, Jenni Harbeck

P02-32-11

50B/009 OF STRUCTURE 10L0

- DIGGING IN UNIT 1, LOT 009, FROM 15 cm TO 35 cm BLS.
RE-STARTING WITH 15 cm BECAUSE PREVIOUSLY EXCAVATED 0-15 cm BLS
BEFORE HAVING TO MOVE 1 UNIT NORTH (TO UNIT 13) TO BETTER
UNDERSTAND THE ROCK TUMBLE.
- A ~~LA~~ SEMI-LARGE PARTIAL METATE WAS REMOVED AT 15 cm BLS
 - * WAS THOUGHT TO BE ROCK BUT THEN REANALYZED AND THOUGHT
A METATE WHICH PROVED CORRECT.
 - * IS A CORNER PIECE WITH ONE STUBBY LEG.
 - * LARGE POCKETHOLES - DOESN'T SEEM TO SHOW MUCH USAGE -
NOT SMOOTH.
 - * 20-17 cm IN LENGTH
 - 10-19 cm IN WIDTH
 - 4.5 cm THICKNESS
 - THE LEG IS \approx 9.0 cm LENGTH

- ANOTHER SMALLER PIECE OF A METATE WAS FOUND, AS WELL.
8 cm x 6 cm

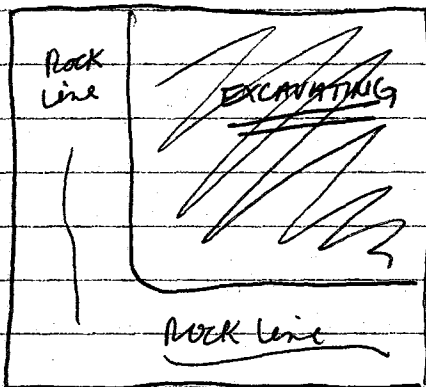

* I MARKED BOTH METATE PIECES WITH 50B/009 IN WHITE OUT.

11-FEB-02, Joni Hancock

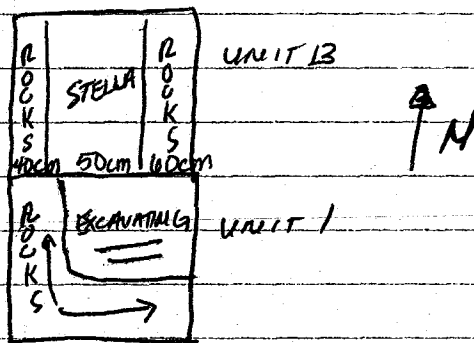

102-32-12

50B/O/D OF UNIT 7 IN STRUCTURE 10L [30cm - 50cm] BLAS

WE HAVE EXCAVATED THE NORTHEASTERN SIDE ONLY DUE TO ROCK LINE EXPOSURE.

WE ARE DROPPING DOWN TO 50cm BLAS TO SEE IF THE ROCK FLOOR OF UNIT 13 - THE UNIT NORTH OF UNIT 7 - NAMED STELLA CONTINUES.

AT 2:45pm: WE HAVE REACHED 45cm BLAS ON THE NORTH EAST CORNER BUT WILL FINISH UP THE ENTIRE SECTION TOMORROW.

12 FEB 2002, Joni Harbeck

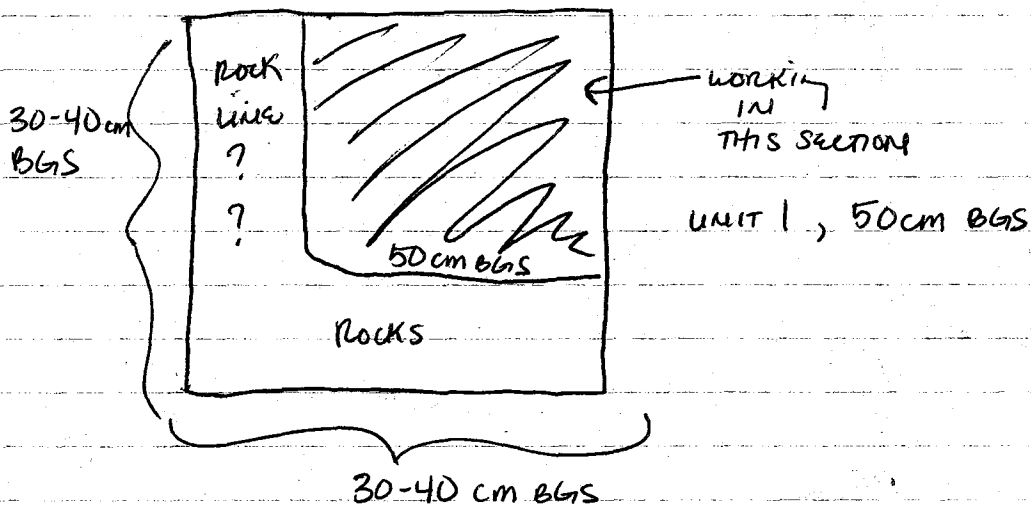

P02-32-13

50B / ~~010~~ 010 OF STRUCTURE 106 - FINISHING UP LOT 010 (30-50cm BGS)

7:30 AM

- WE ARE FINISHING UP THE LAST 2-5 CM OF LOT 010, WHICH COMBINED IS ARTIFACTS FROM 30-50 CM BGS.
- WE ARE WORKING ONLY WITH THE NORTHEASTERN PORTION OF THE UNIT DUE TO A POSSIBLE ROCK WALL. WE WILL SLOWLY BE CUTTING TO THE WEST AND SOUTH TO PULL OUT ROCKS IN ORDER TO SEE IF A ROCK FLOOR OR WALL (THAT HYPOTHETICALLY EXISTS IN UNIT 13) CONTINUES.

WE FINISHED AT 50cm - NOW GOING DOWN 5cm MORE TO MAKE EQUAL WITH STEWA - STILL WORKING IN NORTH EAST SECTION

12 FEB, 2002, Joni Harbeck

PO2-32-14

50B / 011 OF ~~SEA~~ STRUCTURE 10L

8:10 AM

WE ARE EXCAVATING ANOTHER 5 CM IN UNIT 1, ~~SE~~ WHICH IS 50-55 CM BGS. WE ARE TRYING TO PULL THE ROCKS THAT ARE TUMBLE AND LEAVE THE UNIT TO SEE IF A ROCK FLOOR OR WALL, THAT HYPOTHETICALLY EXISTS IN UNIT 13 (THE FLOOR = STELLA), EXISTS IN UNIT 1.

- ONLY 1 PIECE OF BARRID (BJ) WAS FOUND.
- A SMALL SAMPLE OF LITHICS WERE ~~SE~~ FOUND - OBSIDIAN AND CHERT
- ~~A~~ MULTIPLE POTTERY SHARDS - ALWAYS.
- A MAND WAS FOUND, AS WELL, AT 53 CM BGS (COMPLETE)

10 cm Long

5.5 cm ~~TH~~ WIDE

4.5 cm THICK.

IT IS SMALL ENOUGH TO FIT COMFORTABLY IN MY HAND (17.5 cm LONG).

POCKET HOLES ARE PRESENT - NOT WELL WORN DOWN.

13 Feb 02

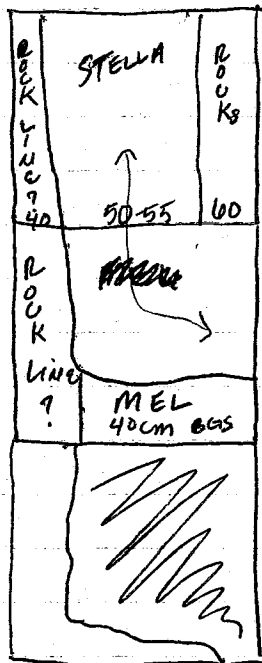

12 Feb 02, Joni Hambeck

POZ-32-15

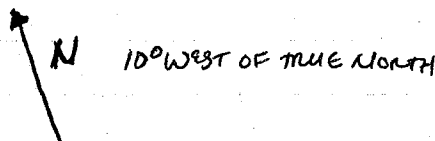

5DB/012 OF STRUCTURE 10L

10:32 am

WE HAVE STARTED ON UNIT 2, WHICH IS 1 UNIT SOUTH OF UNIT 1. WE WILL EXCAVATE 0-~~50~~⁴⁰ CM IN THIS LOT, IN ORDER TO TRY AND GET DOWN TO THE ROCK FLOOR AS SEEN IN UNITS 13 AND 1.

UNIT 13

⊙ NAMED MEL IN UNIT 1 @ 40cm BAGS

UNIT 1

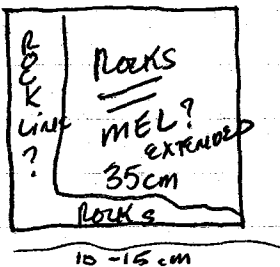

- WE DID NOT FINISH THE LOT TODAY, SO WILL HAVE 2 SETS OF BAGS (LITHICS, SHEARDS, BS)
- DOWN TO \approx 15 cm BAGS.

UNIT 2

7:30 am
13 Feb 02

WE ARE FINISHING UP TAKING MOST OF UNIT 2 DOWN TO 40cm BAGS, WHICH IS EQUAL WITH MEL IN UNIT 1, TO SEE IF MEL CONTINUES OR NOT.

9:00 AM
10-15 cm

UNIT 2

DOWN TO 35 cm BAGS

WE WILL CONTINUE ONE UNIT SOUTH (UNIT 3) TO SEE IF MEL CONTINUES - OR NO.

13 Feb 2002, Joni Hancock

50B/013 OF STRUCTURE 100

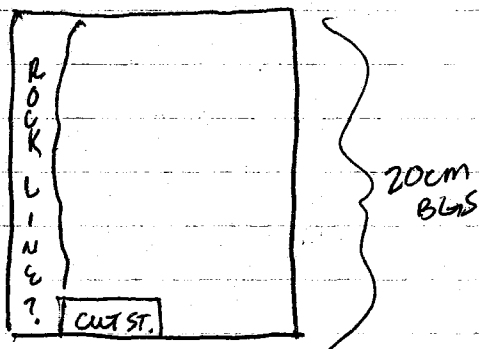

P02-32-110
CHIFLATL: TO WHISTLE

~~SCALE~~ cielo: SKY

9:10 AM - WE HAVE NOW STARTED ON UNIT 3 GOING 0-20 CM BGS - WHICH IS LOT 013. AGAIN LOOKING TO SEE IF MEL CONTINUES INTO THIS UNIT AND IF THE POSSIBLE ROCK LINE CONTINUES OR BECOMES MORE OBVIOUS.

- WE ~~ARE~~ ARE FINDING LESS LITHICS, BUT STILL GOOD QUANTITIES OF POTTERY SHARDS AND ALSO SOME BERRIES.

- A PIECE OF CUT STONE HAS SHOWN UP ON THE SOUTH (MIDDLE TO WEST) EDGE OF UNIT 3

13 FEB 2002, Joni Harbeck

P02-32-17

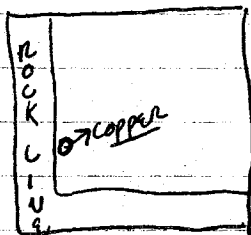

50B/014 OF UNIT 3 IN STRUCTURE 100

11:25 am

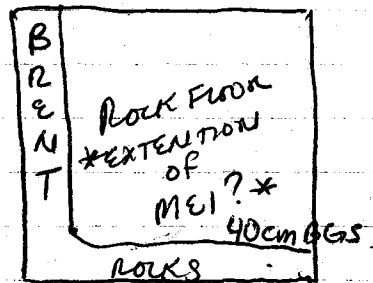

WE ARE NOW PULLING OUT MOST ROCK FROM 20cm LEVEL - LOOKS LIKE TUMBLE AND NOT WALL OR FLOOR. ALTHOUGH WE WILL KNOW MORE THE FURTHER DEEP WE GO. GOING TO 40cm BGS.

FOUND A GOOD PIECE OF ^{grey} OBSIDIAN BLADE IN THIS LOT. (\approx 25cm BGS)
5 cm IN LENGTH
1.5 cm IN WIDTH.

FOUND COPPER SAMPLE (BEAUTIFUL GREEN AND BLUE) @ 35cm BGS IN CENTRAL WEST SIDE OF UNIT 3 (JUST TO THE EAST OF THE ROCK LINE)

→ 2:30 pm

FOUND ANOTHER THICK PIECE OF POTTERY SHEAR @ \approx 40cm BGS.
THICKER THAN OTHER SHEARS FOUND IN 50B.
 \approx 1.5 cm THICK.

MOST RATHER FROM $\frac{1}{2}$ cm OR LESS. (MAYBE 1cm)

THE ROCK LINE ON THE WESTERN SIDE HAS BEEN CONFIRMED BY ED TO BE A WALL. SO THE NAME = BRENT.

14 FEB 02, Joni Harbeck

P02-32-18

50B/015 OF UNIT 4 IN STRUCTURE 10L

7:30AM

- WE HAVE STARTED ON UNIT 4, LOT 015, WHICH WILL CONSIST OF ARTIFACTS/SAMPLES FROM 0-20 CM BGS. THERE ARE ROCKS ON THE NORTH SIDE OF UNIT 4 (SOUTH SIDE OF UNIT 3) THAT APPEAR TO BE TUMBLE - SO WE WILL PULL THOSE WITHIN THIS LOT ~~AND~~ AND CLEAN TO SEE IF ANY OTHER PATTERN BECOMES APPARENT.
- 10 CM BGS WE FOUND A PARTIAL OCARINA.
MOSTLY CHAMBER - HEAD IS GONE - THREE HOLES.

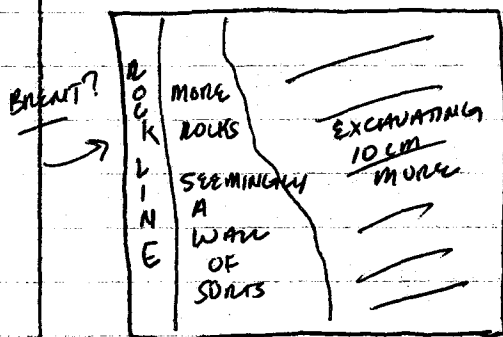

18 FEB 02, Joni Harbeck
509/D10

P02-32-19

800mm

WE ARE CONTINUING TO EXCAVATE UNIT 4 - (20cm-30cm BLK)

- HOWEVER ONLY ON THE EAST SIDE, DUE TO A POSSIBLE
CONTINUED ROCK LINE / ~~WALL~~ WALL ON THE WEST SIDE.

THE WORKERS ACTUALLY DUG TO 35cm, IN WHICH WE
FOUND POTTERY SHARDS, LITHICS (OBSIDIAN AND CHERT) -
~~HORNBLAND AND BARNOLITE GRANITE~~. BARNOLITE AND CHERT.

RATHER LARGE ROCKS - WHICH APPEAR TO BE SUPPORTED BY
ROCKS UNDERNEATH - ON THE WEST SIDE.

CONTINUING ANOTHER 10cm DEEP (TO 40cm) WILL BE THE
NEXT LOT, IN ORDER TO SEE IF THIS NEW WALL CONSTRUCTION
CONTINUES. AFTER THAT WILL BE MOVING 1 UNIT SOUTH - TO
UNIT 5 AND EXCAVATING DOWN TO SEE IF EXTENSION OF
FEATURES CONTINUES.

18 FEB 02, Joni Harbeck

P02-32-20

5DB/017 UNIT 4

NOTHING MUCH DIFFERENT FOR THIS LOT -

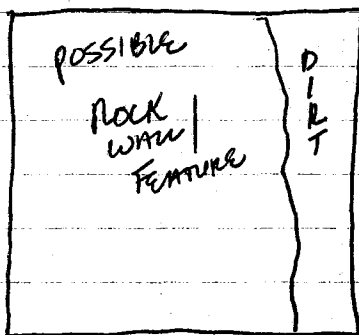

POTTERY SHARDS, LITHICS, CHARCOAL, BARRO.

NO MORE ROCKS (large) TO SPEAK OF IN THE EAST SIDE.

SOME LARGER ROCKS ARE CREEPING UP AT THE VERY BOTTOM - WHICH
IS NOW AT ^{MORE OR LESS} EQUAL LEVEL WITH THE EXTENSION BEHIND MEL (40cm BLS)
AND THE ~~LOT~~ LOT 017 (45cm BLS).

WILL MOVE UP TO UNIT 5

AND BEGIN TO EXCAVATE 20cm BLS TO TRY AND SEE IF POSSIBLE
ROCK LINE ~~IS~~ IN UNIT 4 CONTINUES.

- * LITHICS - UNPOLO
- 2 FLAKES (OBSIDIAN)
- 1 POSSIBLE CHERT CORE
- * POTTERY SHARDS
- * BARRO
- * CHARCOAL

LITHIC PRESENCE HAS MEANING CHANGED - SUGGESTING THE POSSIBLE
LITHIC WORK STOP OCCURRED IN THE NORTHERN PART OF 5DB AND
NOT THE FURTHER SOUTH INTO STRUCTURE 10L. YOU GO.

18 FEB 02, Joni Harbeck

P02-32-21

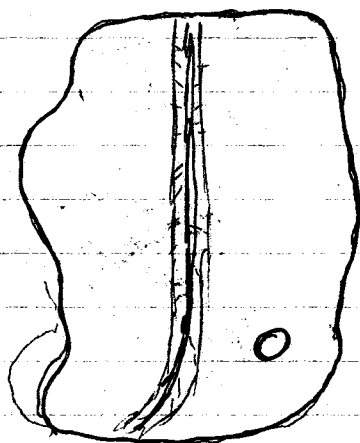

10:00AM

STARTED UNIT 5 AND AM EXCAVATING 0-20 CM BGS

AT A 5-10 CM BGS A PIECE OF A CANDLER WAS FOUND -
THE BOTTOM SIDE PIECE WITH A VENT HOLE

5 cm LENGTH X 3.5-4 cm WIDTH.

IN THE CENTER OF THE PIECE IS A PROTRUDING "WAX" THAT
EXTENDS 1 cm IN HEIGHT AND RUNS THE LENGTH OF THE PIECE.

- CANDLER PIECE FOUND -

I HAVE ALSO DECIDED TO NAME A FLOOR FEATURE AND A STEP
FEATURE, AS WELL: ERIC = FLOOR, CHELLE = STEP

⊗ A FULL PICTURE WILL BE DRAWN (OF THE ENTIRE EXCAVATED PART OF TRENCH)
AT END OF DAY. ⊗

• GRADUALLY OVER THE SUCCESSION OF UNITS - POTTERY SHEARS
HAVE BEEN GETTING LARGER.

• JUST FOUND A SHEAR: 14 cm LENGTH X 10-12 cm WIDTH.

A PIECE JUST BROKE OFF, AS WELL. - TOP PORTION - BROKE HORIZONTALLY

• PULLED THE THIRD SAMPLE OF ~~ERIC~~ COPPER FROM TRENCH 50B
THIS WAS FOUND 20 CM BGS, IN THE SOUTH (SOUTH CENTRAL/WEST) PORTION
OF UNIT 5.

COPPER ⊗

• LITHIC PRESENCE HAS RISEN SUBSTANTIALLY FROM LOT 017 (LESS THAN 5 PIECES)

LITHIC PRESENCE.

18 FEB 02, Joni Hamrick

P02-32-22

50B/019 OF UNIT 5 IN STRUCTURE 106

WE ARE EXCAVATING ANOTHER 10 CM BGS (25-35) - POSITED
UP 5 CM BECAUSE OF WORKERS' EXCITEMENT AND OVER EXCAVATION
FOR LOT 18.

19 FEB 02

AT 25-30 CM BGS A SEEMINGLY FLAT ROCK FLOOR HAS APPEARED.
WE WILL CLEAN THE AREA A LITTLE MORE AND THEN MOVE TO
UNIT 10 AND DROP DOWN 25-30 CM TO SEE IF ROCK FLOOR CONTINUES.

CHUNKS FOUND 30 CM BGS ON SOUTH SIDE OF UNIT.

19 FEB 02, Joni Harbeck

P02-32-23

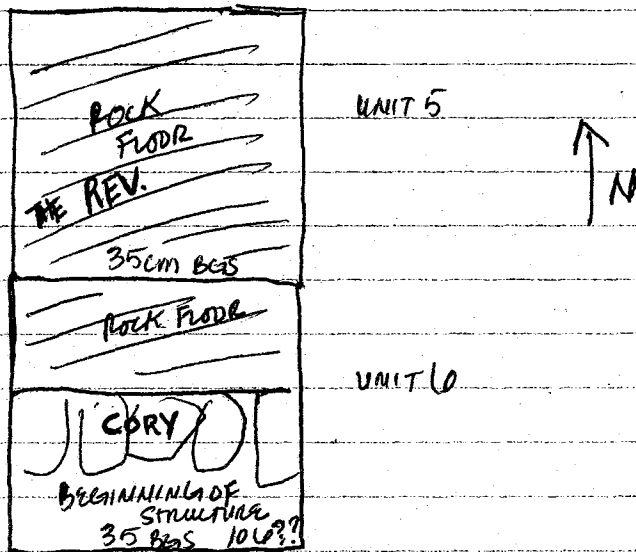

8:00am 506/020 OF STRUCTURE 106 (0-35cm BGS)

LARGE PIECES OF POTTERY SHARDS ARE COMING OUT OF THE SOUTHWEST AREA OF UNIT 6.

2 LARGER PILES: 12 x 12cm & 12 x 17cm (MEASURING LONGEST POINTS LENGTH - WIDTH).

SOME PIECES HAVE RED PAINT

FOUND CHARCOAL SAMPLE: 25-30cm BGS
35 cm BGS

- (*) NAMED ROCK FLOOR = THE REV.
- (*) NAMED LINE STRUCTURE = CORY

NOW MOVING UP TO UNIT 7
AND EXCAVATING DOWN AT
LEAST 25cm BGS (POSSIBLY 35cm)
TO SEE WHAT IS THERE -
HOPING FOR FURTHER STRUCTURE
EVIDENCE, I.E. STEPS

19 FEB 02, Joni Harbeck

PO2-32-24

50B/021 OF STRUCTURE 100

1:15 pm

SUNNY IS A BLAZIN' TODAY. WHEW!

STARTING ON UNIT 7 - GOING DOWN AT LEAST 25 cm BLAS $\frac{1}{2}$
(~~possibly 35 cm blas~~) TO HOPEFULLY FIND CONTINUED STRUCTURAL
CONTEXT.

UNIT 10, ON THE SOUTH END OF THE UNIT, HAS SHOWN A PROBABLE
BEGINNING OF STRUCTURAL CONTEXT - MEANING THE FIRST ROCK
ALIGNMENT THAT IS REPRESENTATIVE OF THE STRUCTURE - VS.

A FLOOR OR WALL OR TERRACE THAT HAS ~~not~~ BEEN
EVIDENT IN UNITS 13-10. THIS IS NAMED CORV. (STRUCTURE LINE)

THE FLOOR IS NAMED THE FEN.

PULLED THE LARGEST PIECE OF BARRO (BAJARQUE) @ 20cm BLAS
IN NORTH WEST CORNER = 10cm x 8.9cm x 5cm

PULLING SHEDS WITH RED AND WHITE PAINT. FIRST TO FIND WITH
WHITE PAINT. (25cm BLAS).

- * SHEDS PULLING OUT OF THIS LOT APPEAR TO BELONG TO SAME POT.
- (*) NEEDS TO BE ANALYZED - POSSIBLE TO RECONSTRUCT VASE PAINTING FROM
FRAGMENTS (*)

20 FEB 02, Joni Harbeck

P02-32-25

50B/022 OF UNIT 7 IN STRUCTURE 106

(25-~~50~~⁵⁰ CM BGS)

7:45 AM

- I HAVE INSTRUCTED THE WORKERS TO PULL OUT SOME TUMBLE LOCATED ON THE NORTHERN SIDE OF THE UNIT.
- WE ARE STARTING AT 25 CM BGS AND DIGGING TO EITHER THE EQUAL DEPTH OF Cory, WHICH IS THE ~~START~~ SUSPECTED BEGINNING OF THE STRUCTURE - OR UNTIL WE FIND ANOTHER WALL OR STEP FEATURE.
- ON THE SOUTHERN WALL OF THE UNIT (HELD ~~UP~~ VERTICALLY IN THE WALL OF UNIT 8 - NOT YET EXCAVATED) ARE 2 TO 3 FLAT YELLOW LIMESTONE ~~OR~~ SLABS - SUGGESTING THE PRESENCE OF A WALL OR STEP OF THE STRUCTURE. WE HAVE PULLED 2 OTHER PIECES OF SIMILAR, FLAT LIMESTONE PIECES IN THE SAME UNIT (LOT 021) THAT CLEARLY BELONGED WITH THE REMAINING PIECES BUT ~~WERE~~ FELL TO TUMBLE STATUS; NEEDED TO BE PULLED.
- PULLING OUT LARGE QUANTITIES (AND IN SIZE) OF POTTERY SHARDS. LITHICS ARE PRESENT - BUT NOT ~~ANY~~ LITHIC COAL BAND IS PRESENT
WALL
- THERE SEEMS TO BE ~~THE~~ A WALL (A ~~WALL~~ BACKSIDE OF A SMALL CONSTRUCTION, PERHAPS. WE WILL EXCAVATE 20 CM MORE BGS = 50-70+ CM.

20 FEB 02, Joni Hancock

P02-32-210

50B/023 ~~OR~~ IN UNIT 7 OF STRUCTURE 100

- WE ARE EXCAVATING DOWN TO EQUAL LEVEL WITH UNIT 6 -
NOT AS DEEP AS ~~UNIT 6~~ ^{ARMY} - PERHAPS THOUGHT IF STRUCTURAL CONTEXT
IS ~~STILL~~ STILL NOT PRESENT.

(*)

- FOUND BONE - PROBABLY ANIMAL - ABOUT 100 CM BGS IN THE
SLIGHTLY SOUTHWEST CORNER. BARRAGE IN PAPER | WILL WRITE IN Lab.

1:15 PM

- WE ARE CONTINUING TO EXCAVATE TO LEVEL OF ARMY - WHICH
WILL END UP AROUND 80 CM BGS IN UNIT 7.

- SO FAR FROM THE NORTHERN PART OF THE UNIT TO CENTRE ~~OF~~
THERE IS NO STRUCTURAL CONTEXT - WILL RUN INTO LARGE ROCKS
BUT SEEM TO BE TUMBLE ORIENTED.

IT IS VERY HOT RIGHT NOW - LET ME TELL YOU - FEELING SLEEPY.

ASSUMING WE GET 80 CM DOWN AND NO CLEAR ROCK FLOOR - WE WILL
STILL MOVE SOUTH TO UNIT 8 AND EXCAVATE 10-20 CM BGS - STARTING
SMALL SINCE LIMESTONES (VENTURE) & THIN SHEETS ARE IN THE SOUTHERN
WALL OF UNIT 7 - PERHAPS ^{IT} STANDING ON FLOOR OF SOME SORT WON'T BE
TOO DEEP.

(*)

FOUND A COMPLETE STAMP - OF A PERSON STANDING w/
A CURVED ROD ON THE LEFT. FOUND IN UNIT 6/5 BORDER -
JUST SOUTH OF ARMY.

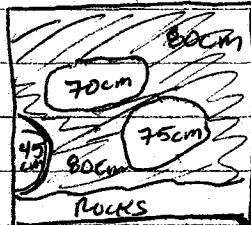

21 Feb 02, Joni Hamrick

P02-32-27

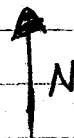

7:40am

STAMP
NAMED
INDIA

- WE HAVE STARTED ON UNIT 8 - GOING ~~0-20~~ ⁰⁻⁴⁰ CM DEEP.
- UNIT 7, LOT #23 GAVE A COMPLETE STAMP YESTERDAY AND AT THE BOTTOM (80cm BGS) HAS SHOWN A LAYER OF LARGE ROCKS - IT'S quite messy - ROCKS AT 80cm WITH ONE LARGE ROCK SITTING ON TOP OF THE POSSIBLE FLOOR.

UNIT 7 @ 80cm BGS

(PARTIAL)

- RIGHT OFF - LESS THAN 10 CM DEEP - A LARGE MAND WAS PULLED FROM UNIT 8 - LOT #24.

IT IS quite large and heavy - NOT EASILY held in one hand.

IT DOES SEEM SLIGHTLY USED - NOT EXTREMELY POTHOLED.

THE SHAPE IS INTERESTING - ALMOST OVAL IN DIAMETER - FLAT ON THE 2 MAIN SIDES - SO UNSURE WHAT THE CONNECTION IS.

PERHAPS THIS MAND, MUCH LIKE THE FIRST LARGE MAND I FOUND IN THIS TRENCH, WAS BROKEN DURING MANUFACTURING AND THEN DISCARDED - ALTHOUGH IF THIS WERE THE CASE, ONE WOULD EXPECT TO SEE THE "MAND" FURTHER NORTH IN THE TRENCH - NOT NEARLY ON TOP OF THE STRUCTURE.

27cm x 13cm x 8cm.

I WILL MARK WITH WHITE OUT (50B/024) AND SEND IT LAB-BOUND.

- PULLED A pigment stone 30cm BGS ~~40cm BGS~~. 3cm x 3cm [PINK/WHITE COLOR]

PUT IN BAG WITH LITHICS

- WILL CONTINUE TO EXCAVATE IN UNIT 8 - going 40-60cm.

21 FEB 02, Joni Hancock

P02-32-28

5DB/025

- RIGHT NOW I HAVE THE GUYS EXCAVATING 10cm +, WHICH IS EQUAL WITH ~~THE~~ THE WASH LEFT ON UNIT 7 = ~~50cm~~ 40cm BGS FROM THE SOUTHWEST CORNER OF UNIT 7.
- WORKING IT DOWN SLOWLY IN HOPES OF NOT EXCAVATING PART OF THE STRUCTURE THAT MAY JUST BE BADLY PRESERVED VS. BEING TUMBLE.
- FOUND A PARTIAL METATE AT 100cm BGS ON THE CENTER-EASTERN SIDE OF THIS LOT.
IS SOMEWHAT POT HOLE.
20cm x (5-10)cm
WILL MARK 5DB/025 AND SEND IT TO LABS.
- THE UNIT HAS GOTTEN REALLY MESSY. THERE APPEARS TO BE A POSSIBLE FLOOD - HOWEVER THEY ARE JUST SLIGHTLY UNFLAT - ENOUGH TO POSSIBLY BE JUST TUMBLE.
- I WILL WAIT FOR ED'S GUIDANCE - MEANWHILE MOVE 1 UNIT SOUTH TO UNIT 9 AND EXCAVATE 0-20cm BGS IN HOPES OF CLARIFYING WHAT IS GOING ON IN UNIT 8.

21 FEB 02, Joni Harbeck

P02-32-29

508/026 ^{IN} UNIT 9 OF STRUCTURE 106

- WE HAVE STARTED EXCAVATING 0-20 CM BGS AND I HAVE LEFT UNIT 8 UNTIL I GET FURTHER ADVICE FROM ED. THIS UNIT (8) IS QUITE COMPLICATED - MANY ROCKS AND NO CLEAR DISTINCTION, ~~THE~~ HOWEVER IF THE STRUCTURE JUST DIDN'T PRESERVE WELL THEN CLEAR LINES AND WHIMS MAY NOT BE APPARENT - HENCE ED'S ADVICE.

* FOUND A TOOTH \approx 10 CM BGS - ~~IS~~ MOLAR, PROBABLE HUMAN ORIGIN.

- HAVE TALKED WITH ED AND HAVE DECIDED TO FINISH 0-20 CM BGS IN UNIT 9, THEN WE WILL RETURN TO UNIT 8 AND EXCAVATE THE ^{PART OF THE} NORTHEAST UNIT WHERE TURNER IS EVIDENT TO CORY / AMY DEPTH - WHICH SHOULD BE \approx 40, maybe 50 CM MORE.

SO - IN OTHER WORDS - WILL FINISH LOT 026 AND START ANOTHER LOT (027) TO FINISH UP UNIT 8.

• ~~FOUND~~ FOUND PIECE OF OBSIDIAN BLADE - GOOD SIZE = 6 CM?

• FOUND A PARTIAL MAND - 20 CM DOWN (FROM SOUTHEAST CORNER).

LITHICS / POTTERY SHARDS - NO BJ OR CHARACT.

BOTH SMALL AMOUNTS

21 Feb 02, Joni Hancock

P02-32-30

50B/027 in unit 8 of structure 10D

- WE ARE CLEANING UP UNIT 8 BY TAKING OUT THE REST OF THE TUMBLE TO LEVELS EQUAL WITH CORY/AMY. HOWEVER SINCE THIS TRENCH - AS IT TRAVELS SOUTH - MOVES INTO A STEEP INCLINE THE DEPTHS WILL BE DEEPER TO GET TO EQUAL DEPTH WITH PREVIOUS LOTS.

THE NORTH CENTRAL PART OF UNIT 8, WHICH WE ARE CONTINUING TO EXCAVATE, STARTED AT 40CM BGS AND WILL CONTINUE TO

• FOUND BONE 80 CM BGS IN LOT 027.

22 FEB 02, JONI HANBERG

P02-32-31

50B/02B IN UNIT 8 OF STRUCTURE 106

7:45am

- WE ARE CONTINUING TO EXCAVATE DOWN ANOTHER 5-10 CM (80CM BAS IN NE CORNER AND BASICALLY EQUIVARIANT OUT WITH CORY/AMY DEPTH.
- A WALL OF THE STRUCTURE - A MAIN WALL LINE OF STRUCTURE 106 - HAS BEEN FOUND - IN THE CENTER/SOUTH SIDE OF THE UNIT. IT WILL BE NAMED "ROOTS CREW".
- A TOOTH (DEER?) WAS FOUND @ 80CM BAS ON THE NORTH/NORTH CENTRAL SIDE OF THE UNIT. I BAGGED IT IN PAPER & WILL SEND IT LAB BOUND.
- AN ANIMAL BONE WAS ALSO FOUND @ 80CM - PUT IN SAME BAG AS TOOTH.
- WE HAVE CLEARED THE AREA DOWN TO DESIRED DEPTH - ROCKS ARE PRESENT ~~on~~ ON BOTTOM BUT NOT DENSELY DIRT STILL MAIN PART OF BOTTOM, AS WELL.
- NOW WE HAVE MOVED BACK TO UNIT 9 AND WILL CLEAN IT - maybe 5cm-10cm more depth - BUT TRULY JUST CLEANING SINCE HEIGHT OF WALL STRUCTURE WAS DETERMINED BY STRATIFICATION FOUND/NOTICED IN UNIT 8 ON WEST WALL.

22 FEB 02, Joni Harbeck

PO2-32-32

5DB/029 ^{OF} ~~THE~~ UNIT 9 IN STRUCTURE 10L

- JUST CLEANING UP THIS UNIT - 20-25 CM BGS.
- THERE IS SURFACE TUMBLE THAT WE REMOVED -
FOUND SOME POTTERY SHELDS & FEW LITHICS. - BJ.

• NOW MOVING TO UNIT 1D AND EXCAVATING DOWN
20+CM BGS POSSIBLY -

22 Feb 02, Joni Hancock

P02-32-33

508/030 OF UNIT-6 IN STRUCTURE 106

- WE ARE DIGGING 5-10 CM ~~DEEPER~~ DEEPER IN BETWEEN ⁽⁴⁵⁻⁵⁵~~50-60~~ CM BGS) AMY AND CORY TO SEE IF ANY STRUCTURAL CONSTRUCTION IS EVIDENT.
- THIS IS THE AREA WHERE THE FIRST COMPLETE STAMP (INDIA) WAS FOUND.
- JUST NOW A PARTIAL STAMP, WITH THE BACK KNOB BROKEN OFF, AT 50 CM BGS.
- HAVE FINISHED SOME JOB ON AREA BETWEEN CORY / AMY. SOME LARGER ROCKS BUT NO CLEAR DISTINCTIONS TO BE ASSESSED.

22 FEB 02, Joni Harnack

POZ-32-34

1:30 pm

- WE HAVE STARTED ON UNIT 10 AND WILL EXCAVATE POSSIBLY AS FAR DOWN AS ~~200cm BGS~~ ¹⁰⁵ 105 CM BGS.
- WE HAVE FOUND POTTERY SHARDS, LITHICS, AND BARRO.
- ANOTHER LINE - maybe well HAS PRESENTED ITSELF.
- WE WILL FINISH UP AND CLEAN UP - THEN DINE FOR TODAY - START AGAIN ON MONDAY.

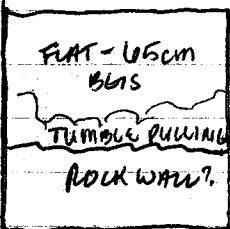

ACTUALLY WENT TO DEPTH IN NORTH PART OF UNIT = 105 CM BGS

27 FEB 02, Joni Hancock
506/032 IN UNIT 10 OF STRUCTURE 10L

P02-32-35

10:20 AM

- WE ARE EXCAVATING SOME TUMBLE FROM UNIT 10 - THAT OF WHICH STARTS AROUND A DEPTH OF 35-40 CM BBS AND WE WILL BRING TO EQUAL DEPTH AS THE NORTH PART OF THE UNIT = 0.5 CM BBS.
- THE SOUTHERN HALF OF THE UNIT IS LEFT AT A DEPTH NO DEEPER THAN 5 CM BBS BECAUSE A POSSIBLE WALL HAS SHOWN.
- (*) • THE ROOTS LAW APPEARS TO BE WHAT IS LEFT OF THE NORTH BASAL WALL OF STRUCTURE 10L.
- FOUND BONE FRAGMENT 0.5 CM BBS IN CENTRAL WESTERN SIDE OF UNIT ABOUT 25 CM EAST OF WEST LINE.
- FOUND SOFT PURPLE SUBSTANCE 0.5 CM BBS ON EAST SIDE JUST UNDERNEATH WHERE PULLING TUMBLE. - maybe just decomposing rock.

UNIT 10

(*) PULLING TUMBLE THIS LOT.

- FOUND A SHELL 0.7 CM BBS IN AREA PULLING TUMBLE FROM. PARTIAL SHELL USED FOR COOKING.
- RED PIGMENT STONE - 0.5 CM BBS - UNDER TUMBLE. BATTERED WITH LITHICS.
- A ROCK - PART OF THE QUESTIONABLE ROCK WALL ON SOUTHERN SIDE OF UNIT - FELL OUT. PUT NEXT TO TRENCH.

LITHICS

POTTERY SHEARS

BBS

27 FEB 02, Joni Harbeck

P02-32-36

• 5DB/033 IN UNIT 11 OF STRUCTURE 10L.

WE ARE EXCAVATING UNIT 11 - STARTING ONLY 10 CM AT A TIME.

• FOUND A RED PLACEMENT STONE ON ~~THE~~ CARVED SURFACE.

ENTANGLED WITH LITHICS.

ALSO EXCAVATING UNIT 12: STARTING W/ ONLY ^{5 CM} 10 CM BGS
POSSIBLE CARBON SAMPLE - (3-5 CM BGS) IN UNIT 11.

CONTINUING ON ²⁸ FEB 02 -

FINISH UP ~~THE~~ CLEANING THE SURFACE TO SEE WHAT WORKS
NEED TO BE PULLED.

• WE WILL PULL THE SURFACE TUMBLE FROM UNITS 11-12 AND
CLEAN IT.

• VERT A LINE OF ROCKS (WHICH RUN EAST/WEST) LOCATED ON NORTHERN
LINE OF UNIT 11

• WILL START NEW SUB OP OFF OF UNITS 13 AND 1 (2 MOST NORTHERN
UNITS IN 5DB) TO THE WEST (1 UNIT WEST A PIECE) TO FOLLOW STEVEN
AND MEL.

28 Feb 02, Joni Harbeck

P02-32-37

VITRALS AND POTTERY SHARDS AND BT FROM
CLEANING UP 5DB FOR PICTURE TIME.

HELPED ED MAP PART OF TRENCH 5DB.

28 FEB 02, Joni Harbeck

P02-32-38

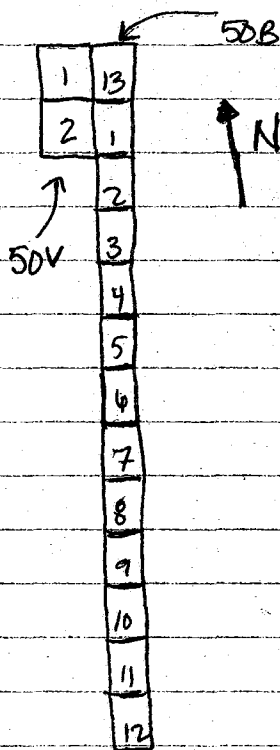

50V/001 IN UNIT 1 OF STRUCTURE 106

2:00pm

STARTED ANOTHER SUBOP = 50V

THIS RUNS NORTH/SOUTH - WITH UNIT 1 BEING THE MOST NORTHERN UNIT AND FOLLOWS CONSECUTIVELY NORTH TO SOUTH.

THIS NEW SUBOP IS DIRECTLY PARALLEL TO 50B AND DIRECTLY TO THE WEST OF 50B.

- EXCAVATING 50V/001 IN UNIT 1 FROM 0-20 CM BES AT FIRST.
- TRYING TO FIND IF STELLA (UNIT 13-50B) CONTINUES & IF A POSSIBLE WALL/TUMBLE THAT IS LOCATED WEST OF STELLA IN 50B & UNIT 13 IS ACTUALLY A WALL STRUCTURE/CONSTRUCTION OR NOT.
- STOPPED EXCAVATING TODAY BECAUSE MAPPING OF SOIL FOR TRENCH 50B STILL NEEDS TO OCCUR BEFORE 50V - UNITS 1 AND 2 BREAK DOWN THE WALLS IN BETWEEN UNITS 1 (50V) AND UNIT 13 (50B) AND UNIT 2 (50V) & UNIT 1 (50B).

MARCH 11, 2002, Joni Hancock

PO2-32-39

5DV/002

7:40 AM

- STARTING ON UNIT 2 IN SUBOP 5DV - LEAVING UNIT 1 ALONE AT THIS POINT SO I CAN DO SOIL ~~TYPE~~ DESCRIPTIONS FOR TRENCH 5DB.
- UNIT 1 IN 5DV IS EXCAVATED 10-20 CM BGS.
- UNIT 2 IN 5DV IS BEING EXCAVATED DOWN TO THE LEVEL OF THE UNNAMED WALL IN UNIT 1 OF 5DB THAT IS THE SAME LEVEL AS MEL.
- ⊗ GREEN OBSIDIAN ^{FILTERED} BLADE FRAGMENT.
 - 5 cm BGS
 - UNIT 2 OF 5DV
 - PO2-32-39
- CHARCOAL, SHELLS, LITHICS, BJS

10-15 CM BGS ROCKS (LARGE) HAVE COVERED MOST OF UNIT.

11 MAR 02, JONI HANSEN

P02-32-40

50V/003

UNIT 3 - GOING DOWN 10-20 CM BBS TO SEE IF WAVE OF BRENT
CONTINUES - OR IF M⁴ CONTINUES WEST

• BS, VITRUS, SHEPHERD FOUND.

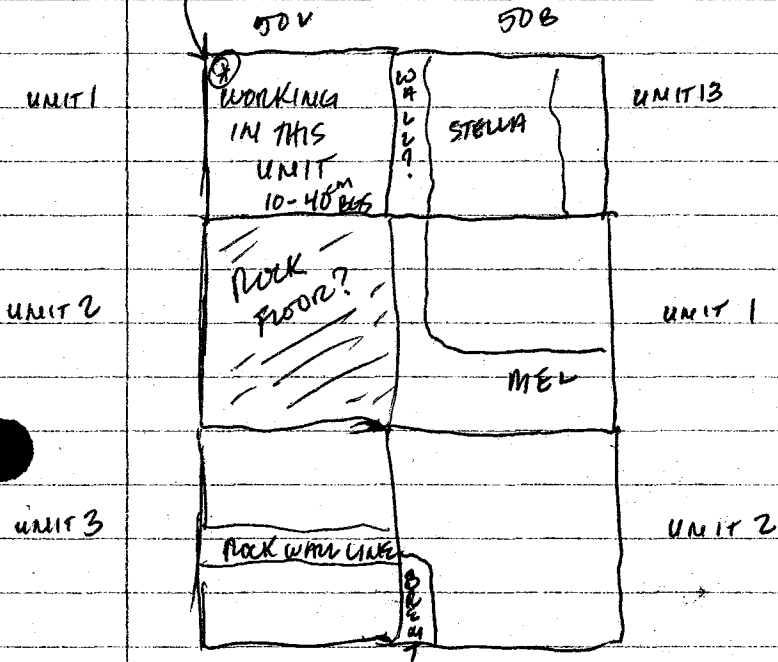

• FOUND A WAVE, WHICH MOVES EAST-WEST IN CENTER OF UNIT 3 -
MOVING ONE UNIT WEST OF UNIT 3 (NAMED UNIT 4) TO
SEE IF WAVE CONTINUES.

11 MAR 02, JONI HARVEK

P02-32-41

UNIT 1 OF 50V - 50V/004

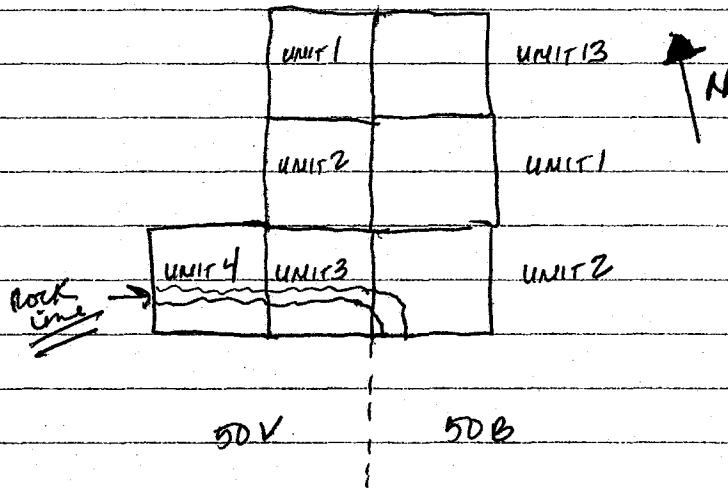

- WORKING WITH UNIT 1 IN 50V - TAKING IT DOWN FROM 10 CM BGS TO EQUAL WITH QUESTIONABLE WASH THAT STW EXISTS IN UNIT 13 OF 50B.
- maybe 10 cm - 40/50 cm BGS.

- FOUND INCREASED AMOUNTS OF LITHICS - MUST LIKE WHEN EXAMINING UNIT 13 IN SUBOP 50B.
- POTTERY SHEETS

11 March 02, Tomi Harbeck
50V/005 of unit 4

P02-32-42

A WAVE LINE HAS EXTENDED INTO UNIT 4 @ 15.20cm BLS
