MARCH / 1969

Founders Week at Rollins / 1969 — story on page 4

Warren C. Hume  
National Chairman

# Warren Hume Charts New Course

In keeping with all that's new at Winter Park, the 1969 Rollins Alumni Fund has been reorganized and expanded to achieve greater participation and increased dollars.

The general campaign will run from March through June. It will be based on the Class Agent system used so successfully by many other colleges and universities. Each class will have a Chairman who will be assisted by one Agent for every ten classmates. It will be the Agents who will be responsible for the general solicitation.

Leadership gifts will be a vital factor in increasing dollars contributed. Under the Chairmanship of John C. Myers '42 the leadership gift phase of the campaign will be expanded. Alumni who contribute \$100 to the Fund become regular members of the Hamilton Holt Club. Those who contribute \$250 or more become Bronze Star Members. Silver Stars are awarded to those giving \$500, and Gold Stars to those contributing \$1,000 or more. Not only are we counting on many new members of the Hamilton Holt Club, but we also hope that former members will advance to one of the three new categories within the Club.

The importance of annual giving to the future of Rollins College cannot be overstated. Like all other colleges and universities, Rollins' operating costs have soared beyond the income from tuition fees and endowments. It will become increasingly more difficult for Rollins to provide competitive faculty salaries, supply new and improved equipment and facilities, maintain a stimulating curriculum, and offer increased scholarship aid. Annual giving is a necessary answer to budget balancing.

My personal thanks go to each of the Class Chairmen and Class Agents who will give their time and interest to Rollins this Spring. I would also like to express my appreciation to all of you who have supported the Fund in the past, and I hope we can count on each and every Alumnus to give to the 1969 Fund.\*

A handwritten signature in blue ink that reads "W. C. Hume". The signature is fluid and cursive, with a long horizontal stroke at the end.

Warren C. Hume '39

\*Please remember that only unrestricted gifts are credited to the Alumni Fund.

**ABOUT THE COVER:** Silhouetted against a magnificent Cape Kennedy sunrise, the mighty Saturn-Apollo 8 spacecraft is shown here as the United States prepared to launch man's deepest penetration into space last December. Aboard the craft on December 21, 1968, were U.S. Astronauts Frank Borman, James A. Lovell, Jr., and William A. Anders. In an historical circumlunar mission lasting seven days the eyes and ears of the world focused upon the unprecedented technology and teamwork which had made this feat a reality. For the role Rollins College has played and will continue to play in endeavors such as these you are invited to read the account of Founders Week/1969 beginning on the following page. Dr. Wernher von Braun, designer of the Saturn rocket, appeared as a contributor to Rollins' 1969 Animated Magazine during Founders Week.

"Small colleges with well-equipped and staffed schools like this one at Rollins are the hope of technology in this country," states von Braun, as

pre-med students John Anderson '71 (back to camera) and David McCarley '71 explain their clinical centrifuge in a chemistry student lab.

# FOUNDERS WEEK ... 1

"Yes, I believe there are life forms on Mars," von Braun tells interviewer Todd Persons as they stroll through the Bush Science Center."

## *Wernher von Braun Headlines Brilliant Animag Contingent...*

by TODD PERSONS '58

*Todd Persons received his Bachelor of Arts Degree from Rollins in 1958. He received an Algernon Sydney Sullivan Award in his senior year.*

*For nine years he was a news writer for the Orlando Sentinel-Star. In 1965 he was cited by a Congressional subcommittee investigating land fraud for a series of articles on illegal land sales' practices in Central Florida.*

*In 1967, Persons was named managing editor of the Cupboard News, a bi-weekly newspaper in Orlando. The Florida Press Association judged an article he wrote on racial tensions as the best single news story in the state.*

*Persons is married to a former Rollins student, Janet Corliss. They have three children and live in Maitland.*

"The atmos rocket warm-covers embryo appara

Here von Braun is shown on the steps of the Bush Science Center. The Center was made possible by a \$1.1 million gift from Mr. and Mrs. A. G. Bush, a \$1.2 million grant from the government and a \$1.5 million government loan.

Before delivering his speech at the Animated Magazine, Wernher von Braun sits in the audience and chats with Clarence J. Bassler, Jr., Director of the Bush Foundation.

# 1969

"The drudgery is removed from learning in an atmosphere like this," says the world's foremost rocket engineer as he 1) examines experimental warm-blooded animals in a biology lab, 2) discovers a "missing stage" in an anatomy and embryology display, and 3) studies evaporation apparatus in a chemistry lab.

# FOUNDERS WEEK...1969

"He doesn't look like a scientist."

The elderly woman in the yellow dress and hat meant it as a compliment, and that's probably the way the smiling man who just bustled past her into the new \$3½ million Archibald Granville Bush Science Center on the Rollins campus would have accepted the remark.

Dr. Wernher von Braun looks and sounds more like an urbane corporation president than the stereotyped, frizzy-haired, white-smocked, bug-eyed theoretical babler that Hollywood has often projected as the typical scientific genius.

A scientist he most assuredly is, but he would be the first to decry the patented image of the pure theorist.

Dr. von Braun, the father of modern space technology, is a down-to-earth visionary, a man who can convince you in a gusher of scientific terms that there is intelligent life in the reaches of the Universe, and with the next breath capsule U.S. Moon flight achievements as "delivering the goodies."

von Braun was the front-page speaker at Rollins' 42nd annual Animated Magazine, part of the college's most successful Founders Week (Feb. 16-23), ever.

He visited the college ten years ago when he received the Hamilton Holt Award from Rollins benefactor, the late A. G. Bush, and predicted man would journey to the Moon within a decade.

"We had to deliver the goodies before I dared show my face back here," he said.

He has a handsome, expressive face, topped by a shock of white hair, neatly combed. He was self-assured and witty as he tried to politely peel away from a group of well-wishers who surrounded him in the lobby of the magnificent new science center.

"I am a victim of the Establishment," he quipped, only half in jest.

As the National Aeronautics and Space Administration's most proficient and influential spokesman,

von Braun has had to shuck his lab coat for Madison Avenue grays to tell NASA's story to the public and sell the space agency's budget to a Congress that may appear conservative to the doctor only when it relates to space-spending.

"It's a billion-dollar headache," he admitted as we began an exclusive interview-tour of the science center with Dr. von Braun for the ALUMNI RECORD.

Once away from his friendly, but persistent aides, von Braun noticeably relaxed. He was obviously enjoying the brief respite from a whirlwind of responsibilities.

Our student guide, Biology major Jack McKallagat led the way down long, carpeted hallways and into laboratories bustling with students, rustling with caged white rats and stuffed with "scientific goodies," as von Braun would say.

As we walked, the doctor talked about a lot of things.

"Small colleges with well-equipped and staffed schools like this one at Rollins are the hope of technology in this country," von Braun commented. It was just what the Rollins administration would love to hear, but the doctor was being sincere. "More attention is paid to the individual student here," he continued. "The drudgery is removed from learning in an atmosphere like this. Brilliant students can do their thing faster, better."

We passed a particular artist's print hanging on a wall, one of hundreds that graced the building during the Founders' Week opening.

It was a Pop Art photo of Marilyn Monroe — and it startled von Braun for a second.

"Ummmm," was all he said.

He shifted mental gears.

"Yes, I believe there are life forms on Mars. Only a manned venture to the surface will tell for sure. An unmanned probe might land in sand ten feet from life and report there was none. Man is the best explorer."

On scientists: "There is a communication gap. I believe scien-

tists enjoy talking in abstract terms to confuse the public. Even doctors. It used to be you had a cough. Now it's still a cough, but you can't understand that it is from listening to a doctor."

On his job: "I enjoyed working in a laboratory a helluva lot more than what I'm doing now. Now, I try to get money for other people so they can have the fun."

On Russia's development of an orbiting bomb: "We must develop a system to detect them in the orbit. We build our lines of defense at great cost, and sometimes by the time they are finished, they are already obsolete. The DEW Line is often referred to as the MILDEW Line."

A student rushed up to remind the doctor he was already late for another interview and the Animated Magazine was less than an hour away from going to press in the spacious science center auditorium.

(This year's Magazine followed an entirely new and highly successful format. Contributors appeared in various halls throughout the campus at different times during the afternoon. Their speeches were also interspersed by choral music, organ vignettes, an Instant Education Course, which awarded 60-minute "Degrees," and other activities.)

We passed a middle-aged woman in a hallway. She turned, recognized Dr. von Braun and bubbled, "You're fabulous."

von Braun smiled, and replied, "She should tell my wife."

The tour stopped in a lab filled with students working.

von Braun's eyes brightened. He was back in his element.

"Hello," he said to one student.

"How you doing?" the student replied casually, without looking up from his experiment.

von Braun didn't seem to mind at all. "My daughter let me read a science book she is studying in college. Believe me, I learned some things," he said.

We walked on. Time was running out. von Braun wasn't hurrying. "This building is wonderfully

equipped," he said. Our guide nodded, proudly.

How much government pressure does NASA get to rush its space experiments?

"The government has never made any timetable for us. We have resisted the pressure. NASA makes the final decisions. When we say no, that's that. The government realizes the total risk involved with landing a man on the Moon. It's untried. That's why we can circle the Moon with our landing module and still not land. That final step is a big one."

We entered a biology lab, filled with skeletons, plasticized specimens and other experimental gear.

This was McKallagat's world and he suddenly became more animated. Dr. von Braun was a willing pupil, listening intently and asking questions as the guide described the lab.

"We used to have an old skeleton rattling around in a closet back in our German college," von Braun recalled.

von Braun, the developer of the V-2 rocket that nearly changed the course of World War II, made few references during the interview to the days when he was Germany's leading scientist. He didn't avoid the subject of his war days, but he preferred to talk about the present.

"We did develop a team, there," he said. It was the first "team concept" for space technologists. It is an accepted plan of attack on space now.

An aide appeared at the door of the lab. He had the doctor's speech clutched in his hand, and wore a worried look.

As von Braun was moving dutifully after him, he suddenly paused and looked at a display case of plastic models showing the cellular development of the tadpole.

His first glance was cursory. He turned away, but hesitated again.

Something in his brain had clicked. Something was wrong in the display.

He looked harder and longer at the case. All the globular plastic balls looked about the same to

this English major.

"There is one stage missing," von Braun said.

McKallagat was surprised, impressed.

"Yes, sir," he agreed. "We just discovered that." NASA's mental space traveler looked as pleased with his little discovery as if he had just received news an astronaut had stepped on the Moon's surface for the first time.

"Now, we can go," he smiled.

An overflow crowd was waiting for Dr. von Braun when he entered the lecture hall.

Rollins' President Hugh F. McKean gladly sat on the carpeted

floor for want of a seat. One was offered, but the vivacious president was reveling in the standing-room-only audience.

Thongs also greeted British Playwright Peter Shaffer at the Annie Russell Theatre and Cartoonist Al Capp who wowed them with pithy commentary and barbed humor in the Knowles Chapel.

Shaffer's "Black Comedy" was the Rollins' Players offering during the week. Shaffer commented that it was the best presentation of the play he had ever seen.

Thousands of people also toured the Bush Center on Saturday and Sunday.

# science and the invasion of the monomaths. an alumnus speaks.

by WILLIAM R. SHELTON

*Born in North Carolina on April 9, 1919, William Roy Shelton was educated in North Carolina and in 1948 received an A.B. Degree from Rollins College where he later served as Assistant Professor of English for three years. In 1962 he was awarded Rollins' Decoration of Honor.*

*Formerly Miami Bureau Chief and space affairs correspondent for Time and Life magazines, he is the author of five well-known books in the space field. He is also a contributor to major national magazines and recipient of national writing awards. His stories and articles have appeared in the Atlantic, Fortune, Reader's Digest, Saturday Review, Life, Saturday Evening Post and other magazines, as well as in the O'Henry Prize Story Collection, Best Post Stories and other anthologies.*

*During World War II he was a bomber pilot and squadron leader. He flew seventy missions over Europe, received the Distinguished Flying Cross and the Air Medal with eight oak leaf clusters.*

*He has written, directed or produced over three dozen documentary and educational films for the National Aeronautics and Space Administration, the U.S. Air Force, the U.S. State Department, educational institutions and private industry.*

*He is married to the former Toby Turner of Orlando and has one son, Dana, age 18, now attending Rollins and two stepdaughters, Michelle, 9, and Melanie, 7. The Sheltons live in Houston, Texas, home of the Manned Spacecraft Center. Following the circumlunar Flight of Apollo 8, NBC interviewed him twice on the Huntley-Brinkley show, "Apollo—Journey To The Moon."*

*"How do you recognize a monomath? His appearance is not forbidding..."*

During the decade that I have lived and worked in some of the nation's scientific-engineering communities, I have met at least one male **monomath** a week. One plush apartment complex just across the street from Houston's Manned Spacecraft Center is thick with single monomaths, married monomaths and, worst of all, even male monomaths married to female monomaths.

How do you recognize a monomath? His appearance is not forbidding: The male of the species appears to have a perpetual fresh haircut, is clean, neat and wears white shirts, dark ties and virtually patternless dark coats and trousers. Because he makes a good salary, he usually drives a new Corvette, Mustang or Camaro on wide ovals to the windowless, air conditioned, cybernetics "clean room" in which he works. He lives as he drives, quite comfortably. His apartment furnishings look as if they were all bought in a single day based on the suggestions of a clever department store salesman, a sort of wall-to-wall Grand Rapids conservative, with prints and reproductions on the walls. Mute, almost genderless, bookless except for "Playboy," "Newsweek" and still fresh college texts on science. The one touch that could not be seen in a department store mock-up, is usually a B.S. or M.S. from a major university with a large and popular science division.

The female monomath also shuns extreme clothes, and drives similar cars and lives in similar surroundings. Each, when asked a question requiring a conceptual or cross disciplinary answer will immediately excuse himself by defining his or her precise area of scientific specialty—be it information retrieval programmer or high

temperature aerosol inorganic colloid chemist. Each has a quiet air of stolidity like a plumb bob dangling in a bank vault. A monomath is quite used professionally to being wanted, wooed, promoted, insured, protected and guaranteed by one of the major American welfare corporations.

What exactly is a monomath? First of all, "mathematics" does not exactly mean mathematics; it means science. Perhaps the definition becomes clearer if we first define a polymath. That great wizard of the ancient world, Archimedes, was one of the first polymaths of which we have record. This restless variegated multidimensional genius discovered much more than the principle of moments. When he exclaimed "Give me a place to stand and I will move the world," he revealed the polymath's characteristic confidence in his intellectual equipment and his ability as a self starter.

Leonardo was the multiplex and brightest star in the constellation of polymaths who brought forth the Renaissance, and after Leonardo came the Newton's, Wren's, Edison's, Kepler's, Einstein's and Marconi's who were not forever straitened by the confines of a single specialty.

Among some of today's polymaths I have seen operate at close range are the chemist-extraordinary, 74 year old Harold Urey, the astro-geologist Eugene Shoemaker, the engineer Wernher von Braun, the geophysicist F. Gordon McDonald and Buckminster Fuller. A few are on the Rollins faculty.

In short, a polymath explores in multifarious areas and directions; he scintillates. While a monomath gravitates to and thus becomes the captive of that particular area, fad,

direction, fashion, commodity or vogue that is in current demand in science; he pinpoints.

Today, when the age of cybernetics is combined with the age of affluence, the one-letter monomaths and pinpoint technocrats are on the march as never before. Why worry about monomaths? They don't beat their wives, drive on the left side of the road, work for the overthrow of the U.S. Government, or initiate whispering campaigns that Bob Hope is a Communist. They pay rent and taxes just like the rest of us and do their duty on school boards and juries; as a matter of fact, they relish the committee approach and group problem solving, especially if a monomathic computer can be consulted to reconcile diverging facts and viewpoints.

Then, what's wrong with a monomath? Dullness, insufferable, opaque, stolid dullness is the monomath's monolithic giveaway trait. Like an involuntary sphincter muscle, he restricts imagination, depresses exploration, subdues emotion, mistrusts initiative and is usually jealous of talent. His limited range and shallow frame of reference makes him a one track thinker and a precedential doer. Because a sense of humor requires, above all, an awareness of paradox, the monomath has trouble laughing, especially at himself; his radar is simply not sensitive to even broad paradox, much less to the more delicate awareness of the absurd, the ironic and the ludicrous.

But the world has survived vegetative dullards and security sucklings before. It is in how the monomath influences science, culture, humanity and man's philosophy at large that lies the chief danger. For,

like it or not, a careful monomath is quite capable of accumulating the seniority necessary to become what Eric Hoffer calls a "dangerous intellectual"—whether in the area of education, government, industry or labor. In such capacity his decisions are frequently the decisions of expediency and his practiced "coolness" at last often emerges as deep freeze anti-humanitarianism. For like the articulate computer, Hal, in Stanley Kubrick's timeless space odyssey, the pinpoint mentality finally converts icy objectivity and studied understatement into digital imperialism and statistical tyranny. For, as he worships electronic legerdemain and soulless dexterity, the monomath gradually loses his conscience. And without conscience all men are fearful.

The monomaths, unfortunately, are not straw men. At this moment, on both sides of the iron curtain, monomaths are advocating that the senseless and uncurtailable arms race be extended into the non-circumscribed frontier of space. It is the monomaths who would mine the void and fuse the moon. Other monomaths are blindly or politically restructuring cities, proliferating and concentrating pollutant industries in the name of profits, despoiling the precious halo of air in which resides our planet, or, almost as sinful, polluting the sweet breath of selflessness wherever man attempts to solve the contradictions of modern life through reasoned discourse and charitable and humanitarian compromise.

I thank my stars that the college of my family, in strengthening its dedication to science, will—through its breadth, range and according to its splendid charterage in the liberal arts—produce more polymaths than monomaths.

## HOMECOMING WEEKEND

Nearly two hundred returning Rollins lettermen and their wives enjoyed the Homecoming Weekend, November 29 and 30. The weekend activities started with a banquet when lettermen who had earned special honors while at Rollins were presented Rollins tie bars by President Hugh McKean and Athletic Director Joe Justice. On Saturday, the former athletes were treated to two victories by Rollins teams, the soccer team defeating Stetson 7-0 in the afternoon and the basketball team defeating the Hatters 77-72 in an exciting game, the first to be played in the Enyart-Alumni Field House. Pictured are three of Rollins football All-Americans, Joe Justice, June Lingerfelt and Mel Clanton swapping stories of the "good old days."

## FORMER NEWS DIRECTOR HEAD IN WASHINGTON

Ed Wren, former director of the Rollins News Bureau, has joined the staff of Lou Frey, Republican Congressman for Florida's 5th Congressional District, as legislative assistant and public relations director.

## CRUMMER FINANCIERS ON EDUCATIONAL TOUR

A month-long study program in Europe, headed by Dr. Rufus Burr Smith, is a portion of the 1968-69 curriculum for the graduate students of the Roy E. Crummer School of Business and Finance Administration. Eighteen students left February 1 for a demanding schedule which will take them to Geneva, and Basel, Switzerland and Brussels, Belgium, where the problems of international financing will be studied. U. S. Corporations partaking in the novel program are Chrysler International, First National City Bank, Caterpillar International, Dupont International and International Business Machines. The trip is self-financed by the students.

## ROLLINS ARTISTS HAVE UNUSUAL ASSIGNMENT

Professor John Hubbard and Rollins Junior Steve Althouse established a "first" for the local news media and themselves when they covered the Orlando trial of a 13-year old boy charged with murder. As cameras were forbidden in the courthouse, Hubbard and Althouse attended the trial, sketching the highlights for use on Orlando's WDBO-TV news programs.

# tar topics...

## SINGERS SWING INTO EUROPE!

Fourteen Rollins students, members of the Rollins Singers, accompanied by Dr. William K. Gallo, of the music faculty left in January for Europe where they are entertaining U.S. Military installations in Europe. The amount of enthusiasm they are generating during their visit is typified by a quote from a letter written by Gordon G. Gartner, Supervising Principal of the Brussels American School: "I was personally impressed with the Rollins Singers as young college students; they certainly represent you well. They proved to be warm and friendly and reciprocal to an appreciative audience. After chatting with a few members of the group, I find that our sometimes misplaced lack of faith in our young college people should definitely be dispelled. Your students here showed energy, good conduct, enlightening conversation, showmanship, and that certain 'something' that sets apart a young confident college student. Thanks for sending the singers."

## FACULTY TRAVEL FELLOWSHIPS

The H. H. Powers Educational Trust awarded the College a three-year grant for faculty foreign travel in

November, 1966. The grant provides \$3,000 each year to award faculty fellowships for the purpose of "encouraging younger faculty to broaden their horizons, help to mature their abilities, and advance their careers as teachers." Breadth of experience through foreign travel is emphasized; a condition of the grant lending assistance to development of the freshman Foundation Courses. Six faculty members have received fellowships for foreign travel during the past two years. Three members of the faculty have been awarded fellowships for travel during the summer of this year, the final year of the grant.

The fellowships were awarded to Dr. Robert E. O'Brien, Dr. Fred W. Hicks and Mr. Ross Rosazza during the first year of the program, as reported in the June 1968 ALUMNI RECORD.

The second year grants were made to Dr. George T. Cochran, Assistant Professor of Chemistry, Dr. William K. Gallo, Assistant Professor of Music, and Dr. David Epley, Assistant Professor of Economics. Dr. Cochran visited Sweden, Denmark, and Germany to study the life and accomplishments of Tycho Brahe, Danish Astronomer. Dr. Gallo visited Mexico to study Mexican music and musicians in their cultural setting. Dr. Epley traveled to Columbia and Ecuador to observe their economic systems and conditions, and to develop management projects.

Hundreds of students, faculty, and central Floridians have benefited from these travel projects by attending lectures and seminars, classroom discussions, and even a public recital.

Faculty members awarded fellowships under the final year of the program are Dr. Edward H. Cohen, Assistant Professor of English, Dr. Elinor S. Miller, Associate Professor of French, and Mr. Vito P. Caggiano, Associate Professor of Art. Dr. Cohen plans to travel to England to develop a winter term course and attempt to discover clues to the identity of Ebenezer Cooke, eighteenth century poet. Dr. Miller will visit France to "rejuvenate" her fluency in the language and study the history and culture of that country. Mr. Caggiano will travel to Holland to study the culture of that country and to collect photographs and facts on its paintings, sculpture, and architecture.

### ROLLINS BASKETBALL

The many Rollins Alumni who contributed to the building of the new Enyart-Alumni Field House would feel rewarded for their efforts if they could see the basketball team in action. They ended the 68-69 season with a 16-10 record. The student so-called "apathy" has disappeared with the 2,500-seat Field House well filled with wildly cheering students every game. If you are visiting the campus, a visit to the Field House should be a "must." Also, those of you who contributed \$100 or more toward a "brick" or a "seat" . . . do not get discouraged. The "bricks" are in process and should be mounted in the Field House lobby within a few months.

## Where Are They Now?

**Did the president of your class make it to the top in the business world?**

**Did the star pitcher for the Rollins Tars go on to a brilliant career in the major leagues?**

**Did that cute couple on campus get married and raise a fine family?**

**And what about the one who always played the lead in those Rollins plays. Did he make it to Broadway and to showbusiness stardom?**

**Learn the answers to these and many more revealing questions at this year's Rollins College Alumni Reunion!**

**Make your plans now to climb aboard the 1969 Rollins Alumni Express for a never-to-be-forgotten trip into the past, the present, and the future . . . the date, April 25, 26, and 27, 1969 . . . the place, Rollins College, Winter Park, Florida!**

**Get your tickets now for a wonderful weekend of good old-fashioned fun and frolic . . . ALL ABOARD!**

# CLIMB ABOARD THE 1969 ALUMNI REUNION EXPRESS

## 1969 ALUMNI REUNION SCHEDULE

### FRIDAY — APRIL 25

- 9:00 a.m. - 5:00 p.m. REGISTRATION  
— Alumni House
- 3:30 p.m. BASEBALL  
— Rollins vs Florida Southern  
Harper Shepherd Field
- 6:00 p.m. - 7:00 p.m. LUAU DINNER  
Enyart-Alumni Field House
- 7:00 p.m. - 8:00 p.m. STUDENT TALENT SHOW  
— SENIOR AWARDS  
Enyart-Alumni Field House
- 9:00 p.m. - 1:00 a.m. CLASS PARTIES  
— Dubsdread Country Club

### SATURDAY — APRIL 26

- 8:30 a.m. - 9:30 a.m. COMPLIMENTARY BREAKFAST  
— Rose Skillman
- 9:00 a.m. - 3:00 p.m. REGISTRATION  
— Alumni House
- 10:00 a.m. - 11:00 a.m. GUIDED TOUR  
— Bush Science Center
- 11:00 a.m. - 11:45 a.m. SCIENCE DEMONSTRATIONS
- 12:30 p.m. PRESIDENT'S LUNCHEON  
— Rose Skillman Hall
- 1:30 p.m. - 2:30 p.m. ANNUAL MEETING
- 5:30 p.m. SOCIAL HOUR  
— Maitland Civic Center
- 7:00 p.m. - 8:00 p.m. REUNION DINNER
- 8:00 p.m. - 1:00 a.m. DANCE  
— Buddy Morrow's "Night Train" Band  
Maitland Civic Center
- REUNION THEME  
— "All Aboard the Rollins  
Dinky Line"

### WASHINGTON, D.C. CLUB

The newly organized Washington, D.C., Club got off to a successful start with a meeting at the Shoreham Hotel on December 6. Over seventy area Alumni made reservations and heard Alumni Director Walter Hundley speak. New officers of the Club elected that evening and pictured above are: Mrs. Paul (Dottie Aubinoe) Griffith, Jr. '48, president; Ambassador Olcott H. Deming '35, vice-president; and Bernard Bralove '34, secretary-treasurer.

### BREVARD COUNTY CLUB

Alumni Association president Ben Aycrigg was the guest speaker Saturday, January 25, at a dinner meeting of the Brevard County Alumni Club, with over thirty area Alumni in attendance.

### SOUTHERN CALIFORNIA CLUB

Athletic Director Joe Justice was guest speaker at an informal dinner meeting of the Southern California Alumni Club. Coach Justice was in the area attending the annual meeting of the N.C.A.A. Coaches Clinic. Like the New York Club, the Southern California Club has plans to charter a plane to return to the April, 1969 Reunion. Those interested contact Mrs. Thomas (Roberta Marling) Morris '58, 5420 Bothwell Road, Tarzana, California 91356.

### NEW YORK CLUB

Nearly 200 New York area Alumni attended a December 13 meeting of the New York Alumni Club. Admissions Director Dick Stabell was the guest speaker, and Alumni were treated to a film clip showing the first quarter of the first basketball game in the new Enyart-Alumni Field House (Rollins 77, Stetson 72!) The New York Club has plans to charter a plane to return to the April '69 Reunion. If you are interested, contact club president Jim Levy, 500 Fifth Avenue, New York, New York 10036.

### ATLANTA CLUB

A kickoff meeting of the newly organized Rollins Alumni Club of Atlanta was held on Friday, January 24 at Yohannon's "Across-the-Street" Restaurant in Buckhead. Nearly fifty Alumni of the 130 in the area attended the meeting, at which Alumni Director Walter Hundley spoke.

Officers elected for the coming year, and pictured above, are: Michael Dioguardi '66, president, Donald R. Nesbitt, Jr. '63, vice president, and Roxie Hagopian '37, secretary-treasurer. The organization of this club makes it the eleventh club in action.

### GAY 90's

Sympathy is extended **EDA BREWER** Woolley in the death of her daughter, Hope.

**DR. GEORGE R. GLEASON** was recently honored by the presentation of two gold medals and two diplomas from the University of Guadalajara (Mexico). The medals are in recognition of his 45 years as a member of the faculty of the university's dental school. The two diplomas are for the university's appreciation for **DR. GLEASON's** efforts in establishing the school of dentistry, as well as his role as a professor of orthodontics. **DR. GLEASON**, now retired, and his wife, Lillian, formerly on the Rollins' faculty, make their home in Las Vegas, New Mexico.

### 1918

Mr. and Mrs. A. C. Hawkes (**LILLIAN SAWYER**) have spent time in and around Reno, Nevada, this winter, making their home with their youngest daughter while there.

### 1919

#### 50th Anniversary Reunion April 25-27, 1969

Friends of **WINIFRED "TINY" HANCHETT** Flood will be saddened to learn of the death of her husband, Paul, on December 30.

### 1924

#### 45th Anniversary Reunion April 25-27, 1969

**DOROTHY "DOLLY" DARROW** retired last June as head of the Central Cataloging Department of Library Services, Dade County, Florida.

### 1927

Sympathy is expressed to **MIRIAM BOYD** Thomas on the death of her mother, Mrs. Mary Jane Boyd of Orlando, Fla.

### 1928

**SIDNEY T. H. CARLSON** has been especially recognized by Florida's Gov. Claude R. Kirk, Jr., for "long and distinguished service" to the State of Florida. He is a senior appeals referee in the FIC Unemployment Compensation Division. **CARLSON** has served 30 years as an appeals referee, longer than anyone in FIC history.

### 1929

#### 40th Anniversary Reunion April 25-27, 1969

### 1930

**RALPH C. LASBURY, JR.**, retired in November, 1968, as Executive Director of The Shade Tobacco Growers Agricultural Association, Inc. He has been one of the nation's best known agricultural officials, a pioneer in better labor standards for farm workers and a leader in Connecticut's shade tobacco industry. A prominent horseman, **RALPH** was active in popularizing the Morgan horse and has trained and exhibited several champions of this breed. He presently owns the national champion Morgan gelding, Windcrest Fireball. His hobbies are hunting and fishing, and his collection of duck decoys, including specimens which date back to the early 1800's, is one of the most outstanding in the nation. He and his wife, Cecilia, are parents of four married children and have eleven grandchildren.

### 1931

**ILLENE HALL**, who retired last year as chief medical record librarian of Florida Sanitarium in Orlando, spent two months last fall as a volunteer Medical Record Consultant at the Seventh Day Adventist hospital at Mayaguez, Puerto Rico.

**GEORGE C. HOLT** serves as Executive Director of the Greenville Clark Institute for World Law. He found 1968 a bumpy year, with two major operations, but is on the way to a good recovery.

**H. GORDON ROBINS** submitted the winning entry for naming the campus newspaper of the newly opened Florida Technical University near Orlando. The chosen title is "FuTure." **GORDON** is in the insurance business in Orlando.

### 1934

#### 35th Anniversary Reunion April 25-27, 1969

### 1936

Mrs. Gerald Tyrrell (**VIRGINIA LEE GETTYS**) was the official representative of Rollins College for the inaugural of Woodrow M. Strickler as President of the University of Louisville (Ky.), Nov. 18, 1968. **VIRGINIA** commented that it takes about as long to install a university president as it does the president of the United States.

**REGINALD CLOUGH** was recently named publisher of the Book Division of American Education Publications, Middletown, Conn.

### 1937

**DICK ALTER**, class chairman, visited campus during Founders Week and is hard at work recruiting class agents.

### 1938

Mrs. Horace E. Allen (**RUTH MELCHER**) is Associate Professor of Music at the University of Missouri. She is second violinist for the University professional resident string quartet, the Esterhazy. The group recently presented a concert at the state convention of the Missouri Music Teachers Association in Jefferson City. She is included in the new "Who's Who in the Midwest," 1969-70 (11 Vol.).

### 1939

#### 30th Anniversary Reunion April 25-27, 1969

### 1940

Sympathy is extended **MARGERY CHINDAHL** Greene in the death of her husband, The Rev. Dr. George L. Greene.

### 1941

Col. **RALPH H. HARRINGTON** has been named chief of the directorate of production administration at the Air Force contract management division in Los Angeles.

Mrs. Thomas B. Hooker (CHARLOTTE STOUT) is Tennessee State Alumni Recommendation Chairman for Kappa Kappa Gamma. Her daughter, "Mimi," is a junior at Rollins; Martha is 16 and Tim 11. She and her husband, Tom, make their home at Lookout Mountain, Tenn.

## 1943

Sympathy is extended to Mrs. Frederick D. Sharp (EUGENIE VAN de WATER) in the death of her father, Stephen R. Van de Water.

## 1944

### 25th Anniversary Reunion April 25-27, 1969

News from the IRA YOPP ("SAMMIE" McFARLAND) household in Charlotte, N. C., indicates interests in all directions. IRA is a distributor for Lloyd Fry Roofing Products and "SAMMIE" teaches at Charlotte-Mecklenburg Kindergarten Committee and is working on the rough draft of a kindergarten guide book for teachers. In addition she has been taking graduate courses. All this with only five children to care for! Now less than five since Sally, the eldest is married and teaching school in Louisville, Ky. Tom is a senior at East Carolina University; Ed is a senior in high school; Amy is an eleventh grader and Robert is in the ninth grade.

JOHN M. HARRIS is now Executive Vice President of Occidental Chemical Co., a division of Occidental Petroleum Corporation, and makes his home in Houston, Texas. JOHN and MARGARET (PARSONS '45) have three children. The oldest is John, Jr., 21 years old and a senior at Stanford University; William D., 19, a sophomore at Southwest Jr. College in Houston; and Donna, 16, is a junior in high school.

MARGARET JANE WELSH is working with the United Community Services Rehabilitation Council in Boston, Mass. She has received extensive training for occupational therapy and rehabilitation counseling.

RICHARD SEWELL is a member of the faculty at Seminole Junior College, Sanford, Florida. "Dick" is an instructor in mathematics.

JOHN A. BISTLINE, JR., is at the Knolls Atomic Power Laboratory and is busy with his duties as Class Chairman.

PATRICIA FULLER KINSEY (Mrs. Lewis P., Jr.) artist-writer, has had a children's book published by Funk and Wagnall in 1968. The two Kinsey daughters are Pam, 17, and Jenny, 14.

ELAINE RACHLIN LEBOVITZ (Mrs. Arthur) is past president of local, county and national Jewish women's organizations. Her son, Alfred, attended Rollins '66 and '67 and daughter, Ellen, is in high school.

## 1947

JAMES A. BLALOCK is coaching and teaching in Ft. Pierce, Fla. He writes, "My best regards to all who remember me at Rollins and I'm still one of your best public relations men."

## 1948

KAYE HAENICHEN Benson has moved to Pompano Beach, Fla., where she is teaching and coaching swimming. She also attends Florida Atlantic University.

## 1949

### 20th Anniversary Reunion April 25-27, 1969

Mr. and Mrs. Joel Hillman (CAROL BERKLEY) have purchased a 1760 "salt box" on 100 acres in New Salem, Mass. where they plan to "spend the next twenty years restoring it to its original condition." Carol is teaching part-time in the first grade at Fieldston Lower School.

Mr. and Mrs. Thoralf Durkop, Jr. (VIRGINIA ANN ATKINSON) are currently host family for an AFS foreign exchange student.

DR. and MRS. WARREN F. KUEHL (OLGA LLANO) are both college faculty members. WARREN is Professor of History and Department Chairman at the University of Akron. He is also author of four books, including a recent publication, "Seeking International Order: The United States and International Organization to 1920." (Vanderbilt University Press, 1969). OLGA is Instructor of Piano at Kent State University, a concert pianist, and soloist with the Chicago Symphony Orchestra. She has also presented a solo recital in New York's Carnegie Hall.

MARTHA McDONALD, M. D., is a practicing physician in internal medicine with a subspecialty in endocrinology. She is in charge of the nuclear medicine department at Campbell Clinic, and served during 1967-68 as Director of the teaching program in internal medicine at Baroness Erlanger Hospital. Both are located in Chattanooga, Tenn.

Mrs. Barry B. Spacks (PATRICIA ANN MEYER) has been named Chairman of the English Department at Wellesley College (Mass.).

## 1950

KENDRICK E. FENDERSON, JR. has been appointed Director of Advertising and Public Relations for Florida Power Corp.

MR. and MRS. RICHARD KNOTT represented Rollins at the November inauguration of the University of Chicago's new president. Their daughter, Diana, entered Rollins last fall.

## 1951

Capt. DON BRINEGAR (USAF) will receive his Master of Business Administration degree in June from the University of Missouri.

CAROLYN ALFRED Espich and family have moved to Corunna, Michigan. CAROLYN keeps busy with substitute teaching.

Mrs. Paul Johnson (ALICE SMITH) wrote a colorful news letter to her friends at Christmas describing the family events of the past year. They are living in North Canton, Ohio, where her husband, Don, is Vice President in Charge of Marketing for the Western Division of Glen-Grey Corp. Their year included a delightful trip to Puerto Rico and a visit with ALICE'S brother in St. Croix.

Now that "DOT" STONE McGee's husband is back from Viet Nam, they are moving to Schenectady, N.Y., where Lt. Col. McGee will have R.O.T.C. duty. Their daughter, Katherine, is in the 7th grade and Tim is a 4th grader.

## 1953

MRS. JAMES A. BRYSON (MAE WALLACE) had an article printed in "Dental Survey," July, 1968, a publication for dental assistants and hygienists. MAE tells of experiences teaching "Preventative Dentistry Through Art" to school children in Winter Park and the surrounding area. MAE works with Dr. Edwin Crenshaw, an orthodontist, and is active in the local and state dental assistant societies. Last summer she was chosen as one of eighteen dental assistants to speak at the national meeting in Miami of the American Dental Association. Her husband, JIM '51, is a math teacher at Edgewater High School in Orlando. They are parents of three children.

HAROLD "HAL" SUIT has been promoted to News Director of station WSB-TV at Atlanta, Georgia.

## 1954

### 15th Anniversary Reunion April 25-27, 1969

Mrs. Richard K. McGee (JEAN CLARK) is working at the Student Mental Health Center, University of Florida, as a Psychological Assistant. She and her husband co-authored a chapter in a newly published book, "The Suicidal Individual: Diagnosis and Management." They have also written several other publications in connection with suicide prevention.

VIRGINIA DARWIN Sellner and family are living in Cheyenne, Wyoming, where her husband is a Photogrammetrist with the Wyoming Highway Comm. They are parents of three boys: Rick, Eric and Paul.

## 1955

"PEGGY" SIAS Lantz was recently featured in a newspaper series on home-bound career women, published by the Star Advocate, Titusville, Fla. Peggy has a variety of interests. She teaches piano to a few private students, is a published writer, directs the church choir, and makes leathercraft articles which she sells. All this in addition to caring for four children and husband Donald!

#### BIRTHS

Mr. and Mrs. Jimmy Milligan, Jr. (YVONNE OLIVER), a son, James Manely III, November 25, 1968.

## 1957

MR. and MRS. RICHARD WILLIAMS (LAMAR WRISLEY '56) have another Kappa member in the family. Their daughter "Gray" is an FSU Kappa. DICK is teaching and coaching at Edgewater High School in Orlando.

## 1958

BRUCE A. BEAL is Treasurer of Beal & Co., Inc., Boston. He and his wife, Enid, are parents of two: Christopher Loring, 2, and Alexandra Simpson, born July 1, 1968.

DR. KARL F. POMPER, Fulbright exchange student at Rollins '54-55, is now Sales Manager for East Europe, dealing in laundry and catering equipment.

LEE F. JERANE has been promoted to Department Head, Mathematics Dept., Winter Park High School. Lee is also in the citrus business.

#### BIRTHS

Mr. and Mrs. Harris Walker (ANNE PONTIOUS), a daughter, May 16, 1968.

## 1959

### 10th Anniversary Reunion April 25-27, 1969

LORRAINE ("RAINY") ABBOTT has had two golf instruction articles published; one appeared in "USGA Junior Golfer" magazine and the other in the "1969-71 DGWS Golf Guide." She is a staff writer and educational consultant for National Golf Foundation, conducting instructional clinics/workshops for schools, colleges, and universities throughout the United States.

#### BIRTHS

MR. and MRS. M. WESLEY HATTON, a daughter, Lisa Kay, October 15, 1968.

MR. and MRS. WILLIAM PICKARD, a daughter, Rebecca Christine, August 11, 1968.

MR. and MRS. KAYE YEULL (SUZANNE RUELLE), a son, Graeme Robert, October 15, 1968.

## 1960

JOHN J. ADAM has joined the Account Executive training program of Francis I. duPont and Company, members of the New York Stock Exchange. He began his training in Memphis, Tenn., and was to go to New York for formal training.

In November BRUCE McEWAN was named industrial claims judge for Orange and Osceola Counties (Fla.) by Gov. Claude R. Kirk.

Mrs. Russell Leone (SANDRA WHITTINGTON) is thankful to have her husband home from Viet Nam. Capt. Leone returned in October on a medical evacuation flight. A full, but slow, recovery is expected.

#### MARRIAGES

LYNN EGRY and Richard McIntyre, January 18, 1969.

#### BIRTHS

MR. and MRS. DAVID L. VAN SCHAIK, a son, Pieter Trout Van Schaick, May 11, 1968.

## 1961

J. JAY MAUTNER was among those who attended the N.Y. Alumni Club meeting in December. He was recently visited by JOHN and Graceann REESE who reside in Napoleon, Ohio. JOHN is in the highway and bridge construction business.

#### BIRTHS

MR. and MRS. RICHARD A. BISHOP (SANDY LOGAN '60), a son, Richard Byron, April 3, 1968.

## 1962

J. GERRY SHEPP is purchasing agent for Kissam Builders' Supply Company in Orlando. Kissam's has supplied most of the materials used in the construction of the new Fieldhouse and Bush Science Center at Rollins. GERRY is very active in civic activities, serving a second term as Chairman of the Art Commission for the city of Winter Park, whose annual project is the Winter Park Sidewalk Art Festival. He was recently elected a Director for the Council of Arts and Sciences for Central Florida, and is advisor to the Ocala Art Group, the Coconut Grove Art Assn., the University of South Florida at Tampa, the Ybor City Chamber of Commerce, and the University of West Florida at Pensacola on the formation and organization of Art Festivals. In recent months, GERRY has served as advisor to several business concerns in Central Florida on purchase of art objects for their offices and board rooms.

Mrs. Thomas Hinte (MARY FRANCES AMICK) is Head of the Foreign Language Department of the J. H. Rose High School, Greenville, N. C. Husband Tom owns a delicatessen-gourmet foods shop.

TERENCE MURPHY

MR. and MRS. TERENCE MURPHY (MARY MILLS) have recently moved to Florida from California. TERENCE has taken a position with Northeast Airlines as a pilot. He was previously a Navy pilot and completed two tours in Viet Nam for which he received outstanding honors, including the Distinguished Flying Cross, two Air Medals, three Navy Unit Commendations, the Air Gallantry Medal presented by Premier Ky, the Viet Nam Service Medal with two bronze stars, and the Medal of the Republic of Viet Nam.

NATHAN R. TRACY has entered Oklahoma University to study for his Master's degree in archaeology.

1964  
5th Anniversary Reunion  
April 25-27, 1969

**WALTER HUBBARD** is the new Curator of the Vermont Historical Society. He previously taught at Harwood Union High School in South Duxbury, where he and his family live.

Charles Martin, husband of **ELKE ARNDT** Martin has returned to school to complete requirements for a PhD in Physics.

**BIRTHS**

Mr. and Mrs. Michael Nagi (**CAROLINE MORSS**), a son, Robert Lawrence, September 10, 1968.

Capt. and Mrs. Monte W. Hartzell (**BARBARA DILLER**), a daughter, Kimberly, November 7, 1968.

MR. and MRS. **ROLAND L. ACKER**, a son, Ronald Lee, Jr., September 15, 1968.

Mr. and Mrs. Tom P. Galloway ("**KATHE**" **STONE**), a daughter, Karen Kathleen, June 12, 1968.

MR. and MRS. **GEORGE W. MOROSANI (FREDALYN CAR-MICHAEL '65)**, a daughter, Katherine, November 14, 1968.

**MARRIAGES**

**ADA MARIE HORTON** and David Donald Prill, January 20, 1969.

1965

"**ROD**" **EASON** is a 1st Lieutenant stationed at Fort Campbell, Ky.

**JOHN CALDER** and **JIMMY BROOKS** have opened a restaurant in New York. It is "The Ravelled Sleeve," located on Third Avenue at 79th Street.

**GARY E. MALTERER** is Assistant Professor of Business Administration at Central Piedmont Community College, Charlotte, N. C.

In October **JEAN CHRISTY** passed her preliminary oral exam for a PhD in British history, and is working on the dissertation, "The United States' Influence on the Dissolution of the British Empire, 1915-60." She hopes to go to England this summer to do research.

Mr. and Mrs. Alvert "Blade" Hearn (**ANN JOHNSTON**) hope to attend the reunion this year. They were transferred to Long Beach, Miss., last October.

**BIRTHS**

MR. and MRS. **JAMES C. AGNEW, III (LANA TEMPLIN '64)**, a son, James Carson IV, Nov. 9, 1968.

Mr. and Mrs. T. Christopher Jenkins (**BARBARA LINKOUS '64**), a daughter, Elizabeth Blair, January 1, 1969.

Mr. and Mrs. Robert C. Pickett (**MARY CAMP**), a son, Joseph Nicholas, September 11, 1968.

1966

**MARY CAROLINE LOWERY** attended O.S.U. after leaving Rollins and received a B.A. in Sociology and certificate in dental hygiene. She is now married to Ronald S. Bogdasarian and they have a daughter, Caroline.

**TOM MILLER** received his B.S. degree in Electrical Engineering from M.I.T. in 1967. He is presently enrolled in the graduate program at Harvard University to earn a master's degree in acoustics. When not in school he is employed at the U.S. Naval Ordnance Laboratory, Silver Springs, Md.

PFC. **BOB KIROUAC** is stationed at Fort Belvoir, Va., and will be commissioned a lieutenant on March 3rd.

**DAVID LEGGE** has been named News Editor of the Washington Evening Star (D.C.). David was previously with the St. Petersburg (Fla.) Times.

**CARL JENTER** completed two years active duty in the army in September. He and his wife, Sharon, make their home in Harrison, N.Y. Carl is associated with Jenter Exhibits, Inc., in Mount Vernon, a company that designs and manufactures three-dimensional advertising.

MR. and MRS. **MICHAEL DIOGUARDI (DIANE DAVIDSON)** are making their home in Atlanta where **MIKE** is a stockbroker for J. C. Bradford and Co. They are parents of a young son, Michael William.

**BIRTHS**

Mr. and Mrs. Douglas Barden (**VIRGINIA MENDINHALL**), a son, Willis Harrington, November 21, 1968.

MR. and MRS. **DYER MOSS**, a daughter, Jennifer Newton, April 12, 1968.

1967

**JEFFERY P. FISHER** was commissioned an Army second lieutenant after graduation from the Infantry Officer Candidate School, Ft. Benning, Ga., in November.

**B. T. HEINEMAN** has been named assistant vice president of the Commercial Bank at Winter Park.

**NORMAN FRIEDLAND** is teaching in the Peace Corp in Ethiopia. He may be contacted at U.S. Peace Corps, Bonga, Kofia Province, Ethiopia.

**PAUL BIRTCH** is attending law school at the University of North Carolina.

**MICHAEL NOURI** has featured billing in a new Broadway show, "Forty Carats," which opened in December at New York's Morosco Theater.

**DAN PINCETICH** is attending the University of Georgia for graduate studies in history.

**ALLAN CURTIS** is stationed at Fort Holabird, Maryland.

**JOHN NEWBOLD III** is in O.C.S. training at the U.S. Naval Air Station at Pensacola.

Ensign **BILL HOWARD** is stationed at the Naval Base in San Diego.

**BILL MacLENNAN** has been named a Peace Corps Volunteer after completing twelve weeks of training at Teachers College, Columbia University. Bill is one of 140 volunteers who will teach academic subjects in Kenya's secondary schools.

**BILL MacLENNAN**

**KIRBY MORGAN**, plagued most of his life by a severe case of rheumatoid arthritis, faces a new crisis that will involve three operations and at least six months of hospitalization. He has enrolled at Michigan State University for graduate studies, where he has been granted a NDEA Fellowship for graduate study in theoretical physics. A school-to-home telephone connection allows Kirby to participate in his classes from his home in Charlotte, Michigan. He hopes to arrange a leave of absence on the fellowship during his hospital confinement. A recent newspaper article in the Lansing, Michigan "State Journal" featured Kirby and told of his remarkable accomplishments, which include graduation from Rollins with highest honor. A card or letter can be sent to Kirby at Henry Ford Hospital, room 512, 2799 West Grand Boulevard, Detroit, Michigan, 48202.

**JIM OPPENHEIM** is stationed at Fort Dix, New Jersey.

**BILL BLACKBURN** replaces **BOB FARWELL** as National Class Chairman, as **BOB** is now serving in the Army (Fort Dix).

**MARRIAGES**

**RONALIE I. CLEMENT** to Thomas F. Peterson, December 21, 1968.

**ALLAN G. CURTIS** and **BETH SHERRERD '69**.

**NICKIE LOUISE NORD** and Nicholas C. Lindahl.

1969

**ROSS HOLLISTER** is married and living in Vancouver, Washington. He is working for the J. C. Penny Co. as a management trainee.

**MAT**

**CHARLES V. DEDRICK '66** is currently working on his doctorate in educational psychology at the University of Florida. He also is Instructor in Psychology at St. Johns River Junior College, Palatka, Fla.

**MBA**

**BIRTHS**

MR. and MRS. **OLIVER B. CHILSON ('64, '65)**, a daughter, Julia Louise, December 20, 1968.

**BGS**

**ROGER D. ENLOS '68** is an engineer in the Technical Support Directorate at Cape Kennedy and had a key role in the launch of Apollo 8 last December. He serves as Chief, Reliability Branch, responsible for reliability of Apollo/Saturn V space vehicle support systems.

Captain **JOHN VAN HERPEN '63**, a medical administrative officer in the 414th Fighter Group at Oxnard AFB, Calif., has been recognized for helping his unit earn the U.S. Air Force Outstanding Unit Award.

In Memoriam

**F. ELLISON ADAMS**, 1913, deceased January 5, 1969.

**PAUL F. ANDERSON**, 1951, deceased June 23, 1967.

**DR. U. T. BRADLEY**, faculty, deceased November 25, 1968.

"**GUY**" **COLADO**, 1925, deceased February 14, 1969.

**WILLIAM CONSTABLE**, faculty, deceased December 14, 1968.

**ROBERT ERSKINE CURRIE**, 1933, deceased November, 1968.

**ERNEST GEORGE FRITZ**, 1945, deceased.

**MISS RUTH H. GOLD**, 1962, deceased.

**MISS SUSAN ANN GOULD**, 1969, deceased December 22, 1968.

**WILLIAM I. HUFFSTETLER**, Gay 90's, deceased December 31, 1968.

**DR. HOWARD F. LOWRY**, Honorary 1955, deceased July 4, 1967.

**HAROLD MUTISPAUGH**, Purchasing Agent, Rollins College, 1937-68. Deceased February 22, 1969.

**HAROLD C. NEWMAN, Jr.**, MBA 1962, deceased November 18, 1968.

**WILLIAM E. SCHEU**, 1939, deceased February 18, 1969.

**LESLIE I. TAYLOR**, 1927, deceased October 8, 1968.

ROLLINS COLLEGE  
MILLS MEMORIAL LIBRARY  
Book-A-Year Club

*One of the most enduring and rewarding traditions at Rollins is the endowment of a book, in perpetuity, in memory of each alumnus who has passed on.*

*Classmates and other friends, as well as the family concerned, are invited to send remembrances for any amount and thus participate in the BOOK-A-YEAR CLUB Memorial Program which provides for the Library an urgently needed book in the name of an alumnus.*

EVELYN J. DRAPER

# Remember the CLOVERLEAF!

Yes, CLOVERLEAF, the long-remembered women's residence hall built in 1891, was torn down on January 28, 1969, to make room for a new \$1,700,000 high-rise women's residence hall with 198 beds.

Now, as a one-time offer, you can have a nostalgic memento of CLOVERLEAF! As pictured here, we salvaged 150 porcelain doorknobs from CLOVERLEAF and had them mounted on Italian marble for use as paperweights.

These are not for sale! But the first 150 Alumni who make gifts of \$50 or more (exclusive of the Alumni Fund) to the Rollins College Alumni Association will receive CLOVERLEAF DOORKNOB PAPERWEIGHTS. Your name and class will appear on an engraved plate on the side. Important: Your gift must be noted as requesting a doorknob. Should the supply be depleted, you will be given the option of having your gift returned.

TO: Rollins College Alumni Association  
Box 50, Winter Park, Florida 32789

Please mail me one Cloverleaf Doorknob as described on the back cover of the March ALUMNI RECORD. Enclosed is my gift of \$ \_\_\_\_\_ (\$50.00 or more) to the Rollins College Alumni Association.
