## WELCOME TO DES MOINES AREA COMMUNITY COLLEGE

On March I8, 2006, Des Moines Area Community College (DMACC) celebrated its 40 th Anniversary. Our board, faculty and staff used this celebration as a time to reflect upon our many successes, and reaffirm our core goals for the next io years, taking DMACC to 2016, when we will celebrate our golden anniversary.
DMACC is committed to providing outstanding service and educational excellence to our students and our communities. To achieve this, we have created three "FIRST Goals" to be implemented over the next io years. In comparison to other Iowa community colleges and similar award-winning colleges nationally, we intend to be:

- FIRST in Quality, making sure our students are the most successful;
- FIRST in Service, making a DMACC education accessible to all Iowans in our district; and,
- FIRST in Affordability, making DMACC the most affordable choice for our students.

We are making excellent progress toward meeting all three goals. In Quality, our students and graduates do extremely well after leaving DMACC, whether they transfer to a four-year college or university or go directly into the workforce. In Service, there are only a few areas in our district that need better access to DMACC, and we will meet their needs soon. In Affordability, this year DMACC will have the secondlowest tuition of all i5 Iowa community colleges.
In our 40th anniversary year, DMACC enrolled 26,800 students with unique needs and aspirations in credit programs. We appreciate your support, we're pleased that you are considering DMACC, and we are eager to help you achieve your career goals.

Our winning DMACC team welcomes you!

Sincerely,

Robert Denson, President

## PROFILE OF DMACC

## HISTORY OF DMACC

Des Moines Area Community College is a publicly supported two-year institution serving the Des Moines metropolitan area and surrounding counties. The College District includes all or major portions of Audubon, Boone, Carroll, Dallas, Guthrie, Jasper, Madison, Marion, Polk, Story and Warren Counties and minor parts of iI adjacent counties. It encompasses 6,560 square miles or about in percent of the land area of the state. Approximately 20 percent of the state's population resides within the district.
Des Moines Area Community College was officially created March 18, i966, and was designated as Merged Area XI. A nine-member Board of Directors was elected and formally installed that same year.
The College was established after extensive studies had indicated the need for such an institution. Leading figures throughout the College's District combined their talents and resources to assure proper planning for the College.
In ig68, the Board of Directors adopted Des Moines Area Community College as the official name of the institution. The first classes were held at the new Ankeny Campus location in ig68. Administrative and operational control of Boone Junior College was assumed in 1969 and Carroll Campus in Carroll, Iowa, was initiated in 1979. The Urban Campus began operation in metropolitan Des Moines in 1972, and a new facility was constructed at Seventh and Laurel in 1980. The first classes were held in the fall of i993 at Newton as a result of the cooperative effort of the Maytag Corporation, Iowa State University, the City of Newton and the DMACC Foundation. In October 200I, the state-of-the-art technology facility, West Campus, opened in West Des Moines. Paul Lowery was the first superintendent/president of the College. Dr. Joseph A. Borgen served 20 years as the president from 1981 until his retirement in 2001. David England was the president of Des Moines Area Community College from 200I to 2003. Robert Denson became our current president in November 2003.

## MISSION AND GOALS

It is the mission of Des Moines Area Community College to offer quality programs and courses to meet the different community interests, student abilities and personal objectives of citizens of all ages and levels of education, for the purpose of improving the quality of life, the economic conditions and the public welfare of our state.
Therefore, the Board of Directors, faculty and staff are committed to providing a variety of educational options on a nondiscriminatory, open-door basis.

## DMACC EXISTS TO:

- Prepare or retrain students for employment and advancement in their chosen occupation through career education.
- Prepare or retrain students for employment and advancement through occupationally oriented associate degree programs.
- Assist students in becoming active, responsible citizens in our democratic society through a program of practical education.
- Provide effective assistance to students in exploring their interests, identifying their aptitudes and selecting the programs of study that best meet their needs and interests.
- Provide counseling and other support services that improve students' chances for success in their educational endeavors.
- Provide learning experiences and cocurricular activities that promote personal, social, academic and vocational development of students.
- Prepare students for transfer, typically as juniors, to four-year colleges and universities.
- Provide placement services for all students seeking full-time or part-time employment.
- Provide opportunities for adults to complete their high school education.
- Provide off-campus adult and continuing education programs as needs and interests are expressed.

## NONDISCRIMINATION POLICY

Des Moines Area Community College shall not discriminate on the basis of race, color, national origin, creed, religion, gender, sexual orientation, age, disability or status as a U.S. veteran. Inquiries may be directed to the EEO/AA Officer, or the ombudsperson on any campus. Persons who wish additional information or assistance may contact the EEO/AA Officer, Executive Director, Human Resources, Bldg. I, 515-964-630I.

## STUDENT RIGHT TO KNOW

Institutions are required to provide students with information regarding campus security, alcohol and drug use, crime prevention, reporting of crimes, sexual assaults, Equal Employment Opportunity and Affirmative Action, college policy regarding HIV/AIDS, graduation rates and transfer data, drug-free schools and campus information. This data can be obtained at the Information Center on the Ankeny Campus and from the Provosts at all other campuses. It is also available on DMACC's website, under DMACC Consumer Information. Des Moines Area Community College students are expected to be familiar with policies and procedures affecting their activities. Ignorance of policies and procedures will not excuse violations.

## DMACC CATALOG

The Des Moines Area Community College Catalog is an annual publication of information regarding fees, curricula, policies and procedures. Statements set forth in the catalog are for informational purposes and should not be construed as the basis for a contract between the institution and the student. Every effort has been made to make the catalog accurate as of the date of publication; however, the catalog is not intended to be a complete statement of all procedures, policies, rules and regulations. The College reserves the right to change by appropriate action of the faculty, college administration, Board of Directors of Des Moines Area Community College or the State of Iowa, without notice to individual students, any academic or other requirement, course offerings, programs, rules, regulations or fees.

## PROFILE OF DMACC

NEWTON CAMPUS
600 N. 2nd Ave. W., Newton, IA 50208-3049
641-791-3622 or toll-free in Iowa: 800-362-2127
FAX: 641-791-1728

## THE CAMPUSES

ANKENY CAMPUS is located on a 304 -acre site six miles north of Des Moines within the city limits of Ankeny. The campus is easily accessible from both Interstates 35 and 80 . A directory of campus facilities is located at each entrance.
BOONE CAMPUS is located on a 37 -acre site, at the southeast edge of the city of Boone, just north of Hwy 30. Constructed in 1968, the campus was renovated and expanded in 1995 and 2005.
CARROLL CAMPUS is located on a 9 -acre site at 906 North Grant Road in the city of Carroll. The Carroll Campus was started in 1979 and finished construction of a new building in 2004.
URBAN CAMPUS is located north of I-235 at 7th and Laurel in Des Moines. The campus opened two new buildings in 2003 and opened the Charles H. Betts Building in 2004.
NEWTON CAMPUS is located at 600 N. 2nd Ave. West in Newton and began operation in the fall of 1993.
WEST CAMPUS is located west of Interstate 35 at 5959 Grand Avenue in West Des Moines. The campus opened in the fall of 2001.
Credit classes have been offered on the basis of need in other locations throughout the area and in many area high schools. Community services and continuing education classes are offered in many additional communities within the College District.

## URBAN CAMPUS

1100 7th St., Des Moines, IA 50314-2597
515-244-4226 or toll-free in Iowa: 800-362-2127
FAX: 515-248-7216

## WEST CAMPUS

5959 Grand Ave., West Des Moines, IA 50266-5302 515-633-2407 or toll-free in Iowa: 800-362-2127
FAX: 515-633-2409

## ACCESS TO CAMPUS FACILITIES

The DMACC campuses are generally open to students and the public from 7:30 a.m. to 9:00 p.m., Monday through Thursday and from 7:30 a.m. to $4: 30$ p.m. on Friday and 7:30 a.m. to 12:30 p.m. on Saturday (Saturday hours may vary on individual campuses). The campuses are closed during other times and holidays. Visit our website: www.dmacc.edu.

## DES MOINES AREA COMMUNITY COLLEGE CENTERS

In addition to the six campuses that comprise Des Moines Area Community College, the college participates in the Des Moines Higher Education Collaborative at 1200 Grand Ave. in downtown Des Moines and operates two centers:

## SUCCESS CENTER

The DMACC Success Center opened its doors in October of 2002. Located on Porter Avenue on Des Moines' south side, this center provides programming for Youth-at-Risk (YAR), English as Second Language (ESL) and Adult Basic Education (ABE) populations from the metro area and surrounding communities, and college credit courses. More information is available on the website for the Success Center at www.dmacc.edu/success/. The telephone number for the Success Center is 515-287-8700.

## PROFILE OF DMACC

## DMACC AT PERRY CAREER ACADEMY

A new career academy is scheduled to open in the summer of 2011 in Perry, Iowa. It will be located at Second Street and Otley Avenue. DMACC at Perry Career Academy is being built and will be operated in partnership with Perry Community Schools and Perry Industries Inc.

## DMACC CAREER ACADEMY, HUNZIKER CENTER

The $\$ 5$ million DMACC Career Academy, Hunziker Center opened its doors August 14, 2006. The center is located at the northwest corner of Interstate 35 and U.S. Highway 30 in Ames. Through a partnership with Story County's seven school districts, the Academy offers career and technical programs to high school students during the day. Some of the high school educational programs include state-of-the-art labs for building trades, culinary arts, information technology, health careers, automotive technology and manufacturing technology. In the afternoon and at night a wide variety of college-credit liberal arts courses are offered through the Boone Campus. The telephone number for the DMACC Career Academy, Hunziker Center is 515-663-6700.

## ACCREDITATION

Des Moines Area Community College is accredited by the North Central Association of Colleges and Schools, 30 N. LaSalle St., Suite 2400, Chicago, IL 60602-2504. The College is also approved by the Iowa State Department of Education and the Iowa Board of Regents. College transfer curricula meet the requirements of four-year colleges and universities.
Both career option and college transfer curricula carry the approval of the United States Department of Education and are approved for veterans' benefits. The College also holds membership in the American Association of Community Colleges.

## ADMISSIONS

Des Moines Area Community College is dedicated to helping individuals to reach their educational and vocational goals. Admission to the College is open to all who apply and can benefit from courses and programs offered by the College. The College does reserve the right to guide the course placement of students on the basis of counseling, examination, preenrollment interviews and past academic achievement. Admission to the College does not guarantee acceptance into all courses or programs offered, and enrollment in some programs and courses depends on basic skill levels and/or available space.

DMACC operates under a continuous admissions process, so acceptance of applicants is granted when admissions procedures and requirements have been completed. Therefore, applicants will find it to their advantage to apply as soon as they have decided to seek admission to a program. After meeting program entrance requirements, those students who apply to a program already at enrollment capacity will be placed on standby status until an enrollment opportunity occurs.
Each program establishes the minimum entrance requirements for applicants. Proficiency in reading, writing and/or mathematics may be required for enrollment in selected courses within a program in addition to the program admission requirements.

## APPLYING FOR ADMISSION

1. Complete an admission application and submit it online or at a DMACC campus nearest you. You may request a form by calling any DMACC campus. To apply online, visit the DMACC website at www.dmacc.edu. There is no fee for applying for admission to DMACC.
2. Complete any required assessment. Assessment guidelines can be found under the heading, Guidelines for Required Assessment.
3. Complete any program entry requirements for the specific program for which application has been made.
4. Submit a copy of your high school transcript or GED scores if either is needed for entry to a specific program. For admission requirements to any specific program, refer to the Program Entry Requirements in the informational material that accompanies each individual academic program. After applicants have met all admission requirements, they will be notified. DMACC accepts students on a first-come, first-served
basis. If a program is filled to capacity at the time all admission requirements are met, the applicants will be placed on standby and so notified.

## GUIDELINES FOR REQUIRED ASSESSMENT

DMACC requires a skills assessment of all new, full-time students. Full-time is defined as 12 credit hours or more during Fall and Spring semesters and 8 credit hours or more during the summer semester. This assessment provides information about students' academic skills in reading, writing and mathematics.

Assessment information is used to assist with course selection and schedule planning.

The assessment requirement may be met by completing any one of the following options:

1. Complete COMPASS testing at any DMACC campus. The COMPASS tests in math, reading and writing are given to students who do not qualify under options 2 or 3 .
2. Submit ACT Scores. ACT scores of 19 or above in reading, math and English can be used to meet DMACC's assessment requirement. ACT scores must be mailed to the Admissions Office. If the ACT scores are more than three (3) years old, it is recommended that students complete Option 1-COMPASS testing.
3. Provide evidence of successful college experience. An official college transcript from each prior college attended must be mailed to the Admissions Office. The following criteria are used to grant assessment waivers:

Writing—grade of C or higher in a collegelevel writing course.
Reading—grade of C or higher in 6 hours of college-level academic course work such as psychology, sociology, economics, etc., and/or vocational technical course work requiring comparable reading skills.
Math—grade of C or higher in a collegelevel mathematics course.
If college experience is older than five (5) years, students are strongly encouraged to take the COMPASS test.

Assessment is especially important in the following instances:

1. A mathematics assessment before enrolling in a math class or a course with a math prerequisite.
2. A writing assessment before enrolling in any course that has writing expectations or requirements.
3. A reading assessment before enrolling in a course with substantial reading assignments.
COMPASS testing is provided on all DMACC campuses. Call one of the numbers listed to make a testing appointment at the campus of your choice:
Ankeny: 515-965-7337 or
1-800-362-2127, ext. 7337
Boone: 515-432-5096 or
1-800-362-2127, ext. 5096
Carroll: 712-792-1755 or
1-800-622-3334
Newton: 641-791-3622 or
1-800-362-2127, ext. 3622
Urban: 515-248-7218 or
1-800-362-2127, ext. 7218
West: 515-633-2408 or
1-800-362-2127, ext. 2408

## ESL TEST IN COMPASS

DMACC offers English as a Second Language ESL Test in COMPASS for students whose native language is not English. All full-time and part-time students whose native language is not English are required to take and pass the ESL Test in COMPASS as a requirement for admission. This requirement may be waived in certain circumstances based on TOEFL, ACT or IELTS scores or previous college course work. Placement in ESL courses, college preparatory courses or college-level courses is based on minimum scores. Please contact the DMACC Assessment Center at the campus nearest you for more information.

## STUDENTS WITH DISABILITIES

Students taking the COMPASS test who need an accommodation because of a disability must provide documentation of the disability to the Special Needs Coordinator prior to the test and make the necessary accommodation arrangements with the testing center in advance of the testing date.

## ADMISSIONS

## ADMISSION OF HIGH SCHOOL STUDENTS

DMACC offers the opportunity for high school students to enroll in credit courses. Juniors and seniors must complete steps 1 and 2 below if enrolling as a part-time student, steps 1,2 and 3 if enrolling full-time. Freshmen and sophomores must complete all four steps and are limited to no more than two credit courses each semester.

Admission steps:

1. Submit a completed Application for Admission.
2. Submit written approval from a parent/ guardian and from a high school counselor or principal on the Permission Form for High School Student.
3. Complete COMPASS testing or submit ACT scores. Course placement is mandatory based on the COMPASS or ACT scores.
4. Meet with a DMACC advisor or counselor prior to registration.
This procedure does not apply to high school age students enrolling under the Postsecondary Enrollment Options Act, Career Advantage or other special contractual agreements except that full-time students must meet the Guidelines for Required Assessment.

## ADMISSION OF PRE-HIGH SCHOOL STUDENTS

In limited circumstances, DMACC may allow pre-high school students to enroll in credit courses. Completion of all the steps listed below is necessary before the College will make a decision about admitting and enrolling any person who is not at least a freshman in high school:

1. Approval of the school counselor or principal.
2. Approval of the parent or guardian.
3. COMPASS testing or submission of ACT scores. Students not meeting minimum scores for placement in college-level courses will not be allowed to enroll. Course placement based on test scores will be mandatory.
4. Any specific course or program prerequisite must be met.
5. Students are limited to no more than two credit courses per term.
6. Students must meet, without the parent being present, with the appropriate instructor, program chair, or dean for an evaluation of readiness for each desired course. A determination that a student is not ready, either educationally or emotionally, will prohibit enrollment in that course.

## ADMISSION OF HOME-SCHOOLED STUDENTS

Home-schooled students may apply for admission by following these guidelines:

1. Complete a DMACC Application for Admission.
2. Provide a written statement of approval from a parent or guardian on the Permission Form for High School Student.
3. Complete COMPASS testing or submit ACT scores of 19 or better in the English, Mathematics and Writing tests.
Note: Course placement is mandatory based on COMPASS or ACT results.
4. The student must meet with a DMACC advisor or counselor prior to registration.

## ADMISSION OF GUEST STUDENTS (SUMMER ONLY)

Students who have been accepted for admission at another college or university or whose primary enrollment is at another college may enroll as a "guest student" at DMACC. Guest student status allows an individual to enroll as a full-time student for summer semesters only without meeting the assessment requirements.

Guest students complete a DMACC Application for Admission and supply proof of enrollment such as an acceptance letter or a valid student ID from their primary school of attendance. Guest students who decide to enroll for a fall or spring semester must meet DMACC admission and assessment requirements.
Note: Guest students are not eligible for financial aid.

## ADMISSION OF INTERNATIONAL STUDENTS

International students are persons in the United States who have a nonimmigrant visa including an F-1 visa. Specific requirements must be met before being admitted to Des Moines Area Community College.
No admission decision will be made until the International Student Office receives all required documents.

## Deadlines for New International Students

All Applications for Admission and supporting documents must be received NO LATER THAN 30 days prior to the first day of the semester.

## Semester Deadline

Fall $2010 \quad$ July 15, 2010
Spring 2011 November 16, 2010
If the paperwork is received after the deadline, DMACC will process the application for the next semester.
Example: For students who apply to attend school for the fall semester and the documentation arrives after July 15, DMACC will process the application for the spring semester.

## Deadlines for International Transfer Students

## Semester Deadline

Fall $2010 \quad$ July 29, 2010
Spring 2011 December 2, 2010

## INTERNATIONAL STUDENT APPLICANTS

## New Full-Time International Student Applicants

New full-time international students need to obtain a Certificate of Eligibility form I-20 to receive a student visa through the U.S. Consul or Embassy in their country. The I-20 indicates that all admission requirements have been met to enter the College. This document is issued through SEVIS, the Student Exchange Visitor Information System. The U.S. Consulates make the final decision regarding whether students will be allowed to enter the United States to study.

## ADMISSIONS

All international students must report to DMACC on or before the date stated in the I-20 forms. Late-arriving students will not be allowed to register for class.

International students requesting admission and issuance of an I-20 must provide:

1. A completed and signed DMACC International Application for Admission. Do not apply online.
2. A completed International Student Information Form.
3. A Financial Resource Statement verifying the ability of the student or the student's sponsor to meet all educational and living expenses for one year while attending DMACC. This must be signed and sealed by a notary public and accompanied by a letter or bank statement dated within six months of the application. Financial support of approximately $\$ 18,000$ (USD) is needed per year. (A refundable deposit of \$4,000 (USD) is required in addition to this. Refer to \#7 for more deposit details.) Students who are issued an F-1 visa to study in the United States are not permitted to work offcampus unless they receive authorization from the government. There are very few opportunities to work on campus.
4. A payment of a $\$ 100$ processing fee. This may be sent in the form of a bank draft or an international postal money order. Payment must be made before an I-20 will be issued.
5. An official transcript that provides evidence of graduation from a secondary school and transcripts from all postsecondary institutions attended. Photocopies may be accepted if they are properly notarized as true copies. Transcripts must be translated into English.
Students who wish to transfer credits from a college or university from outside the United States to apply toward degree requirements at Des Moines Area Community College must have transcripts reviewed by a commercial service. The review must be completed at the subject analysis or catalog level. Students are responsible for the additional fees. Contact the International Student Office for further information.

The college issues an I-20 Certificate of Eligibility form after students complete the steps above and qualify for admission.
The following items must be provided upon the student's arrival at DMACC to complete the admission process:
6. Official evidence of English proficiency. All full-time and part-time students whose native language is NOT English are required to take and pass the ESL Test in COMPASS as a requirement for admission. This test is available at the assessment centers located on each DMACC campus. This requirement may be waived by providing any of the following:
a. TOEFL (Test of English as a Foreign Language) score of 173 on the computer test, 500 on the paper test, or 61 on the iBT internet-based version ( 45 if speaking not completed) in order to enroll in credit courses. The code for DMACC is \#6177.
b. Official transcripts from an accredited United States college or university showing successful completion ('C' or better grade) of a college-level writing course and 6 hours of college-level academic course work requiring reading.
c. ACT score of 19 or higher in Reading and Writing. The ACT code for DMACC is 1272 .
d. IELTS (International English Language Testing System) score of 5.0.
7. A refundable deposit of $\$ 4,000$ (USD) is required for new or transfer F-1 students at DMACC and must be paid before course registration. It may not be used to pay educational expenses until the last semester the student is enrolled.
8. Proof of medical insurance. Students who purchased their own medical insurance must provide proof of insurance within the first 15 days of the semester. If no proof of insurance is provided, insurance will be provided and a fee of approximately $\$ 850$ per year will be assessed to the student.
9. Completion of the "Guidelines for Required Assessment" and any additional entry requirements for the program of study.

## Transfer International Student Applicants

Students who apply to Des Moines Area Community College as a transfer student from a college or university within the United States must provide the same items as new students listed as 1-9 above. In addition, transfer students must submit:
10. A transfer release signed by the Designated School Official (DSO) or Alternate Responsible Officer (ARS) from their most recent school of attendance.
11. A completed DMACC International Student Transfer Form, completed by the current school's International Student Advisor.
12. Copies of passport including the VISA pages, I-94 forms and all previously issued I-20 forms.

## New Part-Time International Student Applicants

Students who are enrolled full-time at another college or university within the United States and wish to enroll part-time at DMACC must provide items 1,6 and 12 from above, plus a copy of their student ID card from the primary school. Students should designate "Liberal Arts" as their major program of study.
All other types of applicants should contact the International Student Office.

## RESIDENCY

Students may be considered for Iowa residency for purposes of determining in-state tuition if they are permanently domiciled in Iowa and have resided in the state for a period of not less than ninety (90) days prior to the start of the academic term. When residency is in question, the burden of proof of domicile is on the student. The student must apply for reclassification from nonresident to resident status prior to the start of the term for which the change is requested.

To apply for reclassification from nonresident to resident status, students must complete a "Request for Determination of Residency Status" form and submit it along with two (2) additional documents evidencing Iowa residency.

## ADMISSIONS

## Examples of acceptable documents include:

- Iowa driver's license
- Iowa vehicle registration card
- Iowa voter registration card
- Iowa state income tax form
- Written and notarized documentation from an employer that you are employed in Iowa
- Proof of Iowa Homestead Credit on property taxes
- Other indicators of Iowa residency, such as rent receipts, utility bills, bank statements, etc.

No two documents may come from the same source.

Requests for change in residency must be submitted prior to the start of the semester for which students are registering. Reclassification of residency is not retroactive.

Noncitizens must submit proof of legal immigration status by submitting a copy of their Permanent Resident Card or I-94 page from their passport showing approved resident status by the U.S. Citizenship \& Immigration Service (USCIS). International students cannot establish residency while studying in this country on a temporary visa.

Residency questions and documents should be submitted to the Registrar on the Ankeny Campus.

## READMISSION

In general, students who are in good standing and have not enrolled for one or more consecutive semesters do not need to apply for readmission to the College. Prior to registration, students must verify the accuracy of their existing information. It is recommended that students visit with a counselor/advisor to review their academic records

Students accepted to a limited enrollment or selective admission program and who did not start when planned or withdrew for one or more semesters must contact the department chairperson to request enrollment as a
"Restart" student.
Students who have been suspended due to failure to meet the College's academic standards must meet the requirement for readmission as found in the Academic Standards section of the catalog before reenrolling.
Students who have been suspended for a disciplinary reason may not reenroll until they have met all requirements imposed at the time of suspension.

## TRANSFERRING CREDIT TO DMACC

## Evaluation of Previous Training and Education

Students must request that a transcript bearing the official seal and signature of the official in charge of the records be sent directly to the DMACC Admissions Office by each college or university previously attended. Transcripts that have been in the student's possession will not be considered official documents. Transcripts must be sent from each previously attended institution even though all previous records may be summarized on one transcript. DMACC will accept credit from an institution only when submitted by the institution where the credit was earned.
Students submitting an official transcript in a language other than English must also submit and pay for an English translation of this transcript. Contact the International Student Office for more details. Upon receipt, the Admissions Office will forward official transcripts to the Credentials Office for evaluation.
A maximum of 43 semester credit hours of transfer credit is applicable toward associate degree requirements. The total grade point average of credits transferred to DMACC must equal 2.0 or higher. Some programs may require a minimum grade of "C" in each course that fulfills a degree requirement. Since the student's DMACC grade point average is calculated from course work taken at DMACC only, grades earned at other colleges or universities will not be used in the computation of the student's GPA at DMACC.

Upon completion of the transfer credit evaluation, students can access their DMACC transcript using the web information system to view transfer award.

The acceptance and use of transfer credit is subject to limitations in accordance with the educational procedures of the College.

## CREDIT FOR EDUCATIONAL EXPERIENCE IN THE ARMED FORCES

Credit earned through educational experiences in the armed forces can be validated and accepted by the College. Credit is accepted based on statewide policies at Iowa colleges and universities and based on its applicability toward meeting the requirements in the student's program of study. An American Council on Education (ACE) publication,
"Guide to the Evaluations of Educational Experiences in the Armed Services," is generally used in making these determinations.

Credit is awarded only for significant learning experiences as recommended by the ACE guide. No credit will be awarded based on the Military Occupational Specialties (MOS) evaluation program.

Credit may be awarded for course work completed via correspondence, classroom study and/or examination through the United States Armed Forces Institute. Credit may also be granted on the basis of scores earned on the Subject Standardized Test of the Defense Activity for Non-Traditional Educational Support (DANTES). Copies of transcripts showing such work will be evaluated by the Credentials Office.

## CAMPUS TOURS

Prospective students are invited to visit any or all of the DMACC campuses during "Discover DMACC Day." Individual tours may be arranged by calling 1-800-362-2127 and selecting the campus of your choice, via the website at www.dmacc.edu and clicking on the "visit DMACC" link, or by calling the individual campus at:
Ankeny Campus 515-965-7100
Boone Campus 515-432-5025
Carroll Campus 712-792-8332
Newton Campus 641-791-3622
Urban Campus 515-248-4226
West Campus 515-633-2408

## REGISTRATION PROCEDURES

## New, Full-Time Students

All new full-time students ( 12 credits or more Fall and Spring semesters or 8 or more credits Summer term) should plan to attend orientation. New students who have been accepted for admission will be notified when to report for orientation and registration. Counselors and advisors will be available to assist with registration.
To help students make a successful transition to college, DMACC offers The College Experience course, SDV108. The course uses short lectures, demonstrations, guest speakers and practical exercises to help students understand the entire college experience from classroom expectations to learning resources. SDV108 is strongly recommended for students who fit these guidelines:

- Enrolled in a liberal arts, preprofessional or general education program and
- Enrolled full-time and
- Have no previous college experience

Students may register for courses during the times and dates listed in the schedule of classes published prior to the beginning of each semester. Registration is not complete until students have paid their tuition and fees or when payment has been officially authorized by the Financial Aid Office or Business Office. Students with past-due obligations to the College will not be permitted to register for classes until the obligations are resolved. Students may register by calling 1-800-362-2127, ext. 7100 or via the web at www.dmacc.edu/discover.asp.

## New, Part-Time Students

New part-time students ( 11 or fewer credits Fall and Spring semesters, 7 or fewer credits Summer term) are encouraged to participate in orientation/registration, but are not required to do so. Registration during the time and dates published on the DMACC website and in the Credit Schedule of classes can be completed in person, by telephone, fax or via the internet.

## Continuing Students

These students may register in person, by telephone, fax or via the internet in accordance with the times and dates published on the DMACC website and in the Credit Schedule of classes or via the internet.

## ADDING A COURSE

Students may add a credit course through the first five days of the full-length semester. Students who add courses during this time period are advised that classes have already begun and missed classes are the same as any absence. Course adds can be made in person, by phone, fax or via the internet. Students are not permitted to attend a course unless officially registered for the course.

## DROPPING A COURSE

Students may drop a full term credit course through the 50th class day of the Fall and Spring semesters and the 30th class day of the Summer term. The last day to drop a course that does not run the full length of the Fall, Spring and Summer semesters depends on the beginning and ending dates of the course; the applicable date is published in the DMACC Credit Schedule and is also available by contacting the Registration Office on any campus. Courses dropped during the first week of the semester will not appear on students' transcripts.

Deadlines for dropping courses are different than refund deadlines. Information about refund deadlines is published in the DMACC Credit Schedule and is also available by contacting the Registration Office on any campus.
Students who have withdrawn from a course will not be permitted to continue attending the course.
Students who have a "hold" on their records due to unpaid financial obligations will be permitted to withdraw from credit courses, but will not be permitted to obtain transcripts, and graduation awards will not be conferred. In addition, students who have indebtedness may be prohibited from enrolling in courses as long as the indebtedness remains. Unpaid debts may be referred to a collection agency and/or a credit bureau. Students should contact the Student Accounts Office to resolve their debt.
Students may be administratively dropped from courses for nonattendance. Information on this procedure is contained in the Academic Information section of this catalog under "Attendance and Enrollment."

## Dropping or Adding Courses After the Deadlines

Students who miss the deadline for dropping a course, receiving a refund of tuition and fees or adding a course may file an appeal asking that the deadline in question be waived. In order to appeal, students complete a Petition for Policy Waiver and submit it to their campus Student Services Office. Students must have exceptional extenuating circumstances that precluded compliance with the deadlines. Documentation must be submitted in support of the petition. Students must meet with an ombudsperson before submitting a petition. Petitions must be submitted no later than the last day of the semester immediately following the semester of enrollment. The Petition for Policy Waiver Committee reviews the petitions and notifies students of the final disposition of petitions in writing.

## NONCREDIT COURSE REGISTRATION, ADDS AND DROPS

Registration during the time and dates published in the Continuing Education schedule of classes can be accomplished in person, by telephone, mail, fax or via the internet. Payment is due at the time of registration.

## EDUCATIONAL EXPENSE/STUDENT ACCOUNTS

## TUITION AND FEE CHARGES

The DMACC Board of Directors establishes tuition and fee charges. Tuition is charged on a per-credit basis. Additional supplemental fees are described below under "other fees."

Nonresident tuition, not including fees, is twice the amount of resident student tuition. See the chart on the following page of tuition and fees. The DMACC Board of Directors has the authority to change tuition and fees after the charges are published in this catalog.

## OTHER FEES

Additional fees, including, but not limited to, supplemental course fees, lab fees, music fees, TV class and internet fees are also Boardapproved. These fees are market-driven.

## DMACC ONECARD/ STUDENT ID

All currently enrolled credit students will receive the DMACC OneCard from Higher One. This new student photo ID card not only serves as a picture ID confirming college enrollment and on-campus privileges such as using the library, but when used in tandem with the OneAccount, the OneCard also has all the purchasing power of the debit MasterCard ${ }^{\circledR}$ network. The DMACC OneCard also provides students a choice in receiving any financial refunds from DMACC, allowing them to get their money quicker and easier with new electronic options.

- The DMACC OneCard will be mailed to you by Higher One at your current mailing address on file with DMACC. Please verify that your address is correct on the DMACC Web Info System at www.dmacc.edu/ WEBINST.asp.
- Student photos will be taken on all campuses. Please have your photo taken at one of DMACC's campus photo sites.
- The DMACC OneCard should be activated at www.dmacconecard.com.
- Lost cards will be replaced for a fee of $\$ 20$ assessed to your DMACC student account.
- Students must register their OneCard with the DMACC Libraries in order to have access to library resources. Please contact your campus library for more information.

## INDEBTEDNESS POLICY

Students who have a balance due to the College should contact Student Accounts to resolve their debt. Unpaid debts may be referred to a collection agency and/or a credit bureau. DMACC uses the State of Iowa Offset Program, which allows us to collect funds from tax refunds or other payments made by the State. Students with unpaid financial obligations may have a "hold" put on their record. The hold may permit students to withdraw from credit courses provided the withdrawal deadline is met, but will prohibit students from enrolling in courses, obtaining or sending transcripts, and graduating.

## DEPOSITS

International students are required to pay a $\$ 4,000$ deposit prior to admission to the College. This is coordinated through the International Student Office.

Students must notify the Business Office when they have deposited money available to pay tuition. At the student's request, additional deposit money may be released for the purchase of books at the college bookstore.
Students are encouraged to deposit money prior to each semester of enrollment. Call the International Student Office at the Ankeny Campus for information.

## REGISTRATION PLUS+

Students who qualify by registering early may make a nonrefundable deposit of $\$ 200$ as one of the options under the registrationplus+ program. Making this deposit will postpone the due date for the payment of tuition by as much as one month.

## CAMPUS BOOKSTORE PURCHASES

Bookstores are located at each DMACC campus. Students should purchase books at the campus they will be attending. Online class books are available ONLY at the Ankeny Campus bookstore. Financial aid credits may be used at the bookstore after the authorized aid has been released to accounts.

## BILLING POLICY

DMACC students will receive their DMACC bills electronically via the students' DMACC email address. Statements may also be viewed at any time on the DMACC WebInfo System.

## PAYMENT POLICY

Payment for credit class enrollment must be made by the published due date. If fees are paid by a third party or employer, it is the student's responsibility to make sure the documentation is provided to Student Accounts prior to the payment due date. Financial Aid may hold your enrollment if all of the proper documents have not been provided to that office. A payment plan is available online with Nelnet Business Solutions (formerly FACTS). Please refer to the current Credit Course Schedule for payment due dates and payment plan options.
Important: Credit classes enrollment MAY be canceled if payment or payment arrangements are not made by the payment due date. STUDENTS are responsible for dropping classes if they DO NOT plan to attend. Please refer to the current Credit Course Schedule for payment due dates, payment plan options and the refund policy each term.
Payment for Noncredit Continuing Education classes is required when registering.

## PAYMENT BY CHECK

When you provide a check as payment, you authorize DMACC to use information from your check to process a one-time Electronic Funds Transfer (EFT) or draft drawn from your account, or to process the payment as a check transaction. When DMACC uses information from your check to make an EFT, funds may be withdrawn from your account as soon as the same day you make your payment, and you will not receive your check back from your financial institution.

If your payment is returned unpaid, you authorize the collection of your payment and a return fee of $\$ 30$ by EFT(s) or drafts(s) drawn from your account.

## EDUCATIONAL EXPENSE/STUDENT ACCOUNTS

## REFUNDS

Important considerations before
dropping classes:

1. Students should consider consulting with an advisor or counselor.
2. Students should consider insurance issues affected by dropping classes.
3. Students should consider a possible reduction of financial aid. See the Financial Aid Recipients section of this catalog.
Student refunds are computed by using:
4. The date the Student Registration Office receives a formal drop form from the student or
5. The date the Student Registration Office receives a phone call or fax from the student requesting a class drop or
6. The date the student initiates a drop via the internet.
NOTE: Student refunds will be disbursed by Higher One according to student preference or a refund adjustment to their previous MasterCard/ VISA or Discover payment.

## REFUND SCHEDULE

(normal/full-length term classes only)
First Week of term. 100\%

Second Week of term ................................ $100 \%$
After Second Week of term. $\qquad$ No Refund

## Important:

1. Refunds for classes other than the normal full-term length will be prorated. A complete copy of the refund policy for all semesters is available at all campuses in the Business/ Student Accounts Offices.
2. Refunds for TV classes are based on the published class/term dates-NOT the viewing dates.
DMACC reserves the right to change the Refund Schedule at any time.
3. If a student makes a $\$ 200$ deposit as part of the registrationplus+ option and attends DMACC, the deposit will be applied toward tuition. If a student decides not to attend, the deposit is nonrefundable.

## EDUCATION TAX CREDITS

Federal income tax credits are available to persons who pay higher education costs. The amount of credit is determined by the amount of qualified tuition and related expenses paid for a student and the amount of the tax filer's adjusted gross income. For more information concerning how to qualify for these credits, call the IRS Help Line at 1-800-829-1040 or call 1-800-829-3676 and ask for IRS publication 970, Tax Benefits for Higher Education. Details are also available on the internet at www.irs.gov/individuals/students/index.html.

## EDUCATIONAL EXPENSE

## STUDENT TUITION RATE FOR CREDIT OFFERINGS

Full- or Part-Time Enrollment (per credit) Resident ..... \$ 125.00
Full- or Part-Time Enrollment (per credit) Nonresident ..... \$ 250.00

Littering, Reckless Driving, Driving in Unauthorized Area ..... \$ 50.00

Des Moines Area Community College reserves the right to change tuition, fees and fines.

## HOW TO APPLY FOR FINANCIAL AID AT DMACC

Financial aid at DMACC is need-based. The College believes that the financing of an undergraduate education is a partnership between the student and college, and students should pay to the extent they are capable.

Students apply for financial aid at DMACC by filing a Free Application for Federal Student Aid (FAFSA). Eligibility for funds is based on a federal formula and each student's financial situation, as well as DMACC's cost of attendance. The following topics provide basic information concerning the financial aid awarding process at DMACC.

## Budget Allowances

In addition to tuition and fees, allowances are made for room and board, personal expenses, books and supplies, child care and transportation in determining financial need.

## Cost of Attendance

Estimated costs for a full-time undergraduate student, based on the 2009-2010 budget, are as follows:

|  | Iowa Resident | Nonresident |
| :--- | :---: | :---: |
| Tuition and Fees | $\$ 3,450$ | $\$ 6,900$ |
| Books and Supplies | $\$ 1,160$ | $\$ 1,160$ |
| Room and Board | $\$ 5,462$ | $\$ 5,462$ |
| Personal/Misc. | $\$ 1,922$ | $\$ 1,922$ |
| Transportation | $\$ 2,320$ | $\$ 2,320$ |
| Total | $\mathbf{\$ 1 4 , 3 1 4}$ | $\$ 17,744$ |

Current cost of attendance can be found at www.DMACC.edu/fin_aid/finstudentexpense.asp.

## FILING REQUEST FOR SPECIAL CONSIDERATION

There are times, after receiving the award notification from the DMACC Student Financial Aid Office, that a student/ family may find it difficult to finance their expected contributions due to changes in their financial circumstances. If this is the case, a student/family may file a Request for Special Consideration. If a student/family has new or additional information concerning their financial circumstances, it should be submitted in writing and sent to the attention of the Director of Student Financial Aid, Ankeny Campus. Any supporting documentation should be sent with the Request for Special Consideration.

## FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

One application is all it takes. FAFSA worksheets are available at all campuses. Students must access the Free Application for Federal Student Aid (FAFSA) on the Web at www.fafsa.gov. Students may access the Web by using computers available in the Student Financial Aid Office located in Building 1 on the Ankeny Campus.

Students may apply on the Web at www.fafsa.gov.

## WHEN TO APPLY

It is necessary to file a FAFSA each year. Priority consideration will be given to students who apply by April 1 prior to the fall term.
1.Complete the FAFSA as soon after January 1 as possible.
2.Make sure the appropriate signatures are on all forms.
3.Review all data before submitting the FAFSA. Check the student's Social Security number and birth date. ESTIMATED tax data may be used, but it is preferred that taxes be completed before filing the FAFSA, when possible.
4.Submit the FAFSA online.
5. You can obtain a PIN to electronically sign the form by visiting www.pin.ed.gov. It may be necessary to print the signature page and mail it to:

Federal Student Aid Programs<br>P.O. Box 4008<br>Mt. Vernon, IL 62864-8608

## FINANCIAL AID UPDATES ON THE WEB

Once students have enrolled at DMACC and applied for financial aid, they may check on the status of their financial aid by reviewing DMACC's student website at www.dmacc.edu. Students will need their DMACC student PIN numbers.

## TO OBTAIN A DMACC PIN

To request a PIN number, or if the student has forgotten his/her PIN, contact:

1-800-362-2127, ext. 6800, or 515-964-6800 or email to: info-sys@dmacc.edu.

## Helpful hints section:

1. Keep together copies of all forms, letters, award notices and financial aid-related documents.
2. Include student's name and Social Security number on all correspondence.
3. The student will be contacted by the DMACC Financial Aid Office if additional documents, such as tax returns, are needed.

## TYPES OF AID (GRANTS \& SCHOLARSHIPS)

## Federal Pell Grants

These grants are awarded based on financial need and are available if the student has filed a FAFSA, shows financial need and does not have a bachelor's degree. Students should contact the DMACC Financial Aid Office concerning their eligibility.

## Federal Academic Competitiveness Grant

This is grant assistance for students who have completed rigorous high school coursework. First-year students are eligible for \$750 and second-year students are eligible for $\$ 1,300$.

Students who are Federal Pell Grant-eligible, are enrolled full-time, have completed rigorous high school coursework and completed high school after January 1, 2006, for the first year or January 1, 2005, for the second year. Second-year students must also meet the GPA requirement of 3.0 and have a total of 32 credit hours.

## Federal Supplemental Educational Opportunity Grants (SEOG)

SEOG is available for undergraduate students who have completed and filed a FAFSA, are enrolled at least half-time and show exceptional financial need. The maximum amount is $\$ 500$ for a full-time student.

## Iowa Vocational-Technical Tuition Grants (IVTTG)

IVTT Grants are available for students enrolled in vocational-technical programs. The Iowa College Student Aid Commission through notification by DMACC makes IVTTG awards. The maximum annual award is $\$ 1,200$.

## Iowa Grant

These grants are available to undergraduate students enrolled at least half-time who have applied for financial aid and show exceptional need. The maximum amount offered is $\$ 1,000$ per academic year

## FINANCIAL AID

## TEACH Grant

The College Cost Reduction and Access Act (the CCRAA), Pub. L. 110-84, created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program. This program provides up to $\$ 4,000$ a year in grant assistance to students who plan on becoming a teacher and meet certain specified requirements. If a student who receives a TEACH Grant does not complete the required teaching, the grant must be repaid as a Direct Unsubsidized Loan under the William D. Ford Federal Direct Loan Program.

## State of Iowa Scholarship Program

This program was established by the Iowa Legislature to provide recognition and monetary awards to Iowa's top high school students. To be considered a state scholar, a student must: (1) meet the state's requirements and be a designated State of Iowa Scholar, (2) be entering as a freshman at DMACC and (3) plan to enroll full-time. Students should see their high school counselor for assistance. The maximum amount is $\$ 400$ for the freshman year only.

## Miscellaneous Scholarships

Scholarships available from off-campus sources are posted on the Financial Aid bulletin boards on each DMACC campus.

## APPLYING FOR DMACC AND OUTSIDE SCHOLARSHIPS AND GRANTS

## DMACC Scholarships and Grants

The DMACC Foundation provides funds for DMACC students as scholarships and grants. Every year, the DMACC Foundation receives generous gifts from individuals, corporations and foundations. Fundraising efforts combined with earnings from Foundation investments provide student scholarships to hundreds of students annually. These awards are awarded through a competitive application process.
Most awards are based on both financial need and academic achievement, with a few that are based solely on academic achievement. A full listing of Foundation scholarship awards available college-wide can be found on the Foundation's website:
www.dmacc.edu/foundation.

## DMACC Foundation Scholarship Program

Criteria and Conditions for DMACC Foundation Awards

- Completed DMACC Admissions Application must be on file-OR—applicant must be enrolled as a current DMACC student.
- Minimum of a 2.0 cumulative GPA for most recent coursework. Applicants with no recorded grade within the last 10 years will be exempt from this requirement.
- If awarded a scholarship, the applicant will be required to complete at least six DMACC credits and maintain at least a 2.0 GPA during the semester(s) of award.
*Some awards may have higher requirements, which will be communicated at the time of award notification, if applicable.

## HOW DMACC

 AWARDS ARE PAIDUnless otherwise stated, all awards will be applied directly to a student's DMACC account and may be used for tuition and/or book charges at DMACC for the semester for which the award is given. Some awards are renewable for the following terms. If a recipient fails to maintain his/her original enrollment criteria or drops out before the term ends, he/she may be required to repay the DMACC Foundation.

## DMACC Foundation's Scholarship Application Process

By applying once with the general online application, eligible applicants could be chosen to receive one of more than 65 available scholarships at our six campuses. The application may be found after January 10 each year at: www.dmacc.edu/foundation/scholarships.asp. The application deadline is March 1 , for the subsequent academic year. Applicants will be notified of their award status by mail, no later than June 1.

Application Components Include:

- Online form detailing personal, academic and financial information.
- One-page essay describing the applicant's educational and career goals, volunteer involvement, achievements and financial need. Applicants should explain how they would personally benefit from receiving scholarship support, and how they value a college education.
- Grade verification.

Application Scoring will be based on:

- $50 \%$ Essay
- 25\% Financial Need
- $25 \%$ Cumulative Grade Point Average

## Outside Scholarships and Grants Websites

FASTWEB: www.fastweb.com
CollegeQuest: www.collegequest.com
CASHE: www.cashe.com

## Tips for Applying for

Outside Scholarships and Grants

- Focus on scholarships/grants with criteria that closely match the student.
- Send a self-addressed, stamped envelope when requesting applications and information about scholarships/grants.
- Be aware of deadlines.

## EMPLOYMENT

## Federal College Work-Study Program (CWSP)

The College Work-Study Program is for students who are enrolled and show financial need. The College Work-Study Program offers part-time jobs on- and off-campus. Students should contact the DMACC Student Employment Assistance Office for available positions.

## Community Service

Students who are College Work-Study eligible may be employed as tutors for children in reading and math. As tutors, students may work in a child care center, a school, an afterschool program or a library. Community Service opportunities are listed in the Employment Assistance Offices on all DMACC campuses.

## STUDY ABROAD

A student in a study abroad program is eligible for aid if the program is approved for credit by an eligible school and the student is enrolled as a regular student at the eligible school. DMACC will accept the study abroad coursework for credit. The coursework does not have to be required for the student's degree program. DMACC must have a contractual agreement with the foreign school or a single written arrangement with a study-abroad organization to represent agreement between DMACC and one or more foreign schools.
A financial aid advisor will assist you with obtaining financial aid for study abroad. Visit the Financial Aid Office on the Ankeny Campus or call 515-964-6283.

## LOANS

## Federal Direct Student Loan Program-Subsidized and Unsubsidized:

Subsidized loans are need-based, fixed 6.8 percent interest rate loans available to assist students for educational costs. Students must file a completed Free Application for Federal Student Aid (FAFSA) and be enrolled at least half-time to apply for a loan. The government pays the interest on the subsidized loan during periods of enrollment and the six-month grace period. The student pays all interest after receiving an unsubsidized loan

Repayment for both loan types begins six months after terminating enrollment or dropping to less than half-time. The maximum annual subsidized/unsubsidized Direct Loan amounts are $\$ 3,500$ for freshmen and $\$ 4,500$ for sophomores. Independent students may be eligible to receive additional unsubsidized loans. Entrance and exit counseling are required.

## Federal Direct Parent Loans for Undergraduate Students (PLUS)

A PLUS loan is a fixed 7.9 percent interest rate loan that is available to parents of dependent students. Students must be enrolled at least half-time. Parents can borrow the cost of the dependent student's education minus any financial aid the student receives. Parents apply through the DMACC Financial Aid Office.

## ALTERNATIVE LOANS

Alternative loans provide low-interest loans to students and families who would not otherwise receive adequate amounts of student aid. Students may obtain additional information by calling the Financial Aid Office.

## Entrance Counseling

All first-time borrowers at DMACC are required to attend an entrance counseling session.

Students may use the internet Entrance Counseling-tutorial at www.dl.ed.gov or visit the Financial Aid Office.

## Exit Counseling

Students leaving or graduating from DMACC must complete the Exit Counseling requirement. It is important for students to know the amount of their loans, as well as repayment options and requirements and loan cancellation provisions. Students may use www.dlservicer.ed.gov to complete the Exit Counseling requirement or visit any DMACC campus for Exit Counseling.

## VETERANS EDUCATIONAL BENEFITS

The DMACC Veterans Services Office assists students in applying for veterans' educational benefits, acts as a liaison between the student and the federal Department of Veterans Affairs (DVA) and serves as a resource to other DMACC departments and services.

Students who could be eligible for veterans educational benefits through the VA are: former full-time-active-duty U.S. military veterans, current members of the Iowa National Guard, current members of U.S. military reserve units, participants in the VA vocational rehabilitation program, and surviving dependents and spouses of servicerelated disabled or deceased veterans.

Application for veterans' benefits should be completed when applying for admission to DMACC. Forms are available from the Veterans' Office on the Ankeny Campus. The application process for new claims takes a minimum of eight weeks to complete by the DVA. Therefore, appropriate paperwork should be completed as early as possible.

DMACC is an SOC-Service members Opportunity College-and career and degree programs are approved by the DVA for VA benefits. Monthly pay rates are set by Congress and the DVA. They vary according to students' benefits categories and are based on credit hour enrollment for each term. Further details may be obtained at the Office of Student Financial Aid/Veterans Services, Ankeny Campus, 515-964-6284, or toll-free number 1-800-362-2127 or on the Web at www.dmacc.edu/veterans.

## Iowa National Guard

The Iowa National Guard Educational Assistance Program may pay up to 100 percent of an eligible student's tuition (not additional class fees) Fall and Spring semesters at DMACC. Eligible students must be active members of the Iowa Army or Air National Guard. Individuals must apply for this grant through their Guard unit commander each spring for the coming academic year. TAG notifies the Iowa College Student Aid Commission (ICSAC) of approved application. That agency notifies DMACC of the student's eligibility and authorizes payment of the funds to DMACC.

## Iowa New Choices

The Iowa New Choices Program located at the Boone, Urban and West Campuses provides support to single parents who have full or joint custody of minor children, single pregnant women, or low-income Iowans receiving public assistance or preparing to enter the job market.

The support services include academic advising, career assessment and planning, referral services to various community agencies and the promotion of nontraditional occupations. Financial assistance may be provided in the following forms: Bus passes on a first-come, first-serve basis; mileage allowance to the Ankeny and Urban Campuses if the student lives outside Polk County; childcare assistance if not eligible for State block grant. All financial assistance depends on availability of funds. Details may be obtained from the Iowa New Choices Office on the Urban Campus, 515-248-7520.

Similar services are also available at the Boone and Carroll Campuses.

## Dislocated Workers

Adults whose jobs are being eliminated through downsizing or business closing should contact the Dislocated Worker Center in their county.

## Strive

The STRIVE (Selected Training Received in Vocational Education) Program provides vocational education to special needs students from high school. Details may be obtained at www.dmacc.edu/strive.

## Vocational Rehabilitation

Through a special agreement with the Iowa Vocational Rehabilitation Services division of the Department of Education, a vocational rehabilitation staff person is assigned to each DMACC campus. Agency services are available to eligible clients. As a part of an individual written plan requiring training to meet a student's vocational goal, financial assistance may be available per Agency guidelines.

## REQUIREMENTS FOR CONTINUED FINANCIAL AID ELIGIBILITY

## Satisfactory Academic Progress (SAP)

Federal regulations require that students maintain satisfactory academic progress in the program of study they are pursuing in order to receive financial aid. At DMACC, students must earn and maintain a minimum cumulative grade point average of 2.00 . Students must also earn a minimum number of credits per semester to continue receiving aid. Financial aid includes all federal and state grants, college work-study and loans, including the Federal Direct Student Loans. Academic records will be reviewed every semester.

## FINANCIAL AID ACADEMIC PROGRESS STANDARDS

Financial Aid Academic Progress Standards are established to encourage students to successfully complete courses and progress satisfactorily toward program completion. Students shall maintain the following academic standards to continue receiving financial aid:

## 1. Qualitative Measurement:

a. During the first term a student is enrolled and receiving financial aid at DMACC, he/she must earn a minimum grade point average of 2.00 .
b. Subsequent terms will require the student to earn a cumulative GPA of at least 2.00.
c. Acceptable grades to maintain a cumulative 2.00 GPA are: A (superior), B (above average), C (average), P (pass), $T$ (credit by testing). A grade of $D$ (below average) will be acceptable only from the standpoint that it is figured into the cumulative GPA.
d. If a student receives an I (incomplete), W (withdraw or dropped), X (repeats), or F (failing), he/she may receive financial aid as long as the student completes the required minimum hours for each calendar year and maintains a cumulative 2.00 GPA.
2. Quantitative Measurement:
a. If receiving aid as a full-time student (registered for 12 or more credits), a minimum of 8 credits must be earned each regular semester ( 16 credits per calendar year).
b. If receiving aid as a 3/4-time student (registered for 9,10 or 11 credits), a minimum of 6 credits must be earned each regular semester ( 12 credits per calendar year).
c. If receiving aid as a $1 / 2$-time student (registered for 6,7 or 8 credits), a minimum of 4 credits must be earned each regular semester ( 8 credits per calendar year).
d. Minimum credits not earned will result in deficit credits. The number of deficit credits must be eliminated the next term of enrollment.
e. Summer credits earned will be included when totaling minimum credits completed for each calendar year.

## 3. Warning Status

Students will be placed on Warning Status if either the qualitative or quantitative criteria are not met. During the next term of enrollment, the student must increase his/her grade point average to a cumulative 2.00 GPA if the qualitative measurement was not met or not go deficit. If the student does not earn the minimum required credits, he/she must earn the deficit credits the next term that he/she is enrolled in addition to the minimum credits required by the next term while maintaining GPA. (Example: If a full-time student is deficient by 4 hours Fall semester, a total of $4+8$ credits with an appropriate GPA must be maintained Spring semester.)

## 4. Cancellation of Eligibility

The second consecutive term a student fails to meet one or more of the minimum progress standards, he/she will have his/her eligibility for financial aid cancelled.

## 5. Regaining Eligibility

To regain eligibility for financial aid, the student will be required to regain cumulative 2.00 GPA at his/her own expense. If the student did not earn the minimum credits for which he/she received aid, the student must earn the number of deficit credits, as indicated in point 3 above, at his/her own expense. If the student is reenrolling after an absence of one or more terms and has had financial aid cancelled, the minimum qualitative and quantitative standards to regain eligibility must be met. If he/she feels extenuating circumstances prevented these standards from being maintained, an appeal may be made in writing to the Financial Aid Appeal Committee.

If the student is reinstated for financial aid as a result of an appeal, attendance and compliance with the committee's instruction letter will be monitored. If the student is reported as not attending classes or not complying with the terms of the appeal, any subsequent financial aid will be cancelled.
6. Transfer Students

Students transferring to DMACC may have credits accepted at DMACC, but accepted credits will not be figured into the cumulative GPA. Students will be held responsible only for academic progress made at DMACC.
7. Appeals of Cancellation of Eligibility A student may submit a written appeal documenting extenuating circumstances that prevented him/her from meeting minimum standards. Appeal forms will be mailed with the cancellation letters. The deadline for a written appeal will be indicated on the appeal form included with the letter of cancellation. Additional forms are available at the Financial Aid Office, Ankeny Campus, and the Business Offices at the Boone, Carroll, Newton, Urban and West Campuses.

A student may be required to meet with an academic counselor before aid is finalized. Following the Appeal Committee's meeting, students may call the Financial Aid Office concerning the Committee's decision. In addition, a written summary of the Committee's decision will be mailed to the individual student.
8. Duration of Eligibility

Students who have earned two (2) Associate Degrees at DMACC will need to seek the advice of an academic counselor before receiving further financial aid.
Students who have earned 150 percent of the number of credits required to graduate in their program will need to seek the advice of an academic counselor before receiving further financial aid. (Example: The student's program requires 64 credits for completion; the student has earned 96 credits without completing the program, he/she will need to seek advice from an academic counselor.)
NOTE: The student's program of study may require more credit hours than the minimums stated by this policy.

## FINANCIAL AID

## REPEATING CLASSES

Financial Aid will monitor students with excessive retakes and this may result in a financial aid warning or cancellation.

When students retake a class that has a grade higher than an " F ," the credits are reduced in the semester the original class was taken. This could result in the student being short credits.

## Example:

A part-time student enrolled in 7 credits gets a " $D$ " in a 4-credit class and a B+ in a 3-credit class in the Fall and maintains a GPA of 2.00. His status is satisfactory. If he retakes the 4 -credit class in the Spring, those 4 Fall semester credits will be removed and his status will be deficit one credit and would be on warning, even if the Spring semester credits and grades were satisfactory. The credits you earn for a class you have already passed will not be counted toward the number of credits required in the Quantitative Measurement for Satisfactory Academic Progress.
A retake of a class that has been passed will not make up deficit credits because it only replaces the grade for credits you have earned.

## NEVER-ATTENDING PROCESS (10th day-NA)

Prior to the 10th day of class, instructors can view their class lists online and must identify students who have never attended their class. Students will receive an email indicating the classes that were reported. If they have been reported as never-attending, the student is dropped from enrollment, and the student's financial aid is adjusted accordingly. If a balance is due, a letter is sent to the student, indicating the amount and a due date. If an error was made, the student may obtain a signature from the instructor and submit the signed email to the Registrar's office to reenroll.

## QUIT-ATTENDING PROCESS (Midterm-QA)

Instructors are asked to report students who have quit attending. An email is sent to the student showing what classes have been reported as QA. The student must obtain the instructor's signature and submit the signed email to the Financial Aid Office. If all instructors report a student as QA, a Return of Title IV calculation is completed. The student is dropped from his classes and receives a letter telling him of any amount he may owe to the

College or Department of Education and the methods of repayment. Those students who are reported in some, but not all of their classes as QA should consider dropping those courses in order to avoid receiving a failing grade.

## LEAVE OF ABSENCE

A leave of absence may be granted to a student who leaves DMACC for military reasons or for jury duty. Only one leave per academic year will be allowed. The student must return by the end of the leave of absence or the student is treated as a withdrawal.

## FINANCIAL AID RECIPIENTS

If any amount of tuition is paid with funds from a Title IV Program and the student withdraws during the established refund period, the Title IV program funds will be adjusted and any unearned aid will be returned in the following order: Loans: Federal Unsubsidized, Federal Subsidized and Federal Plus. Grants: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant and Other Title IV programs. Under federal law, DMACC must return the funds as soon as possible, but no later than 45 days after DMACC determines the student's withdrawal date.

## RETURN OF FINANCIAL AID

## Title IV Funds

A student's financial aid is based on the number of classes the student is enrolled in and the number of days the student is enrolled in classes. When a student initiates a withdrawal from one or more classes, the amount of financial aid the student is eligible to receive is affected.

The Return of Title IV funds to the federal government is based on a calculation that determines how much aid the student is eligible to receive and how much the student is no longer eligible for, because he/she is no longer enrolled in school. This calculation is applicable until the student has completed more than 60 percent of the semester. Once the student has completed more than 60 percent of the semester, all financial aid is considered earned.

## For example:

If a student completed 10 percent of the semester, the student will have earned 10 percent of the financial assistance awarded for the semester. Any aid above and beyond the 10 percent is considered unearned and must be returned to the federal government.

## Who Is Responsible for Returning the Unearned Funds?

As prescribed by federal law, DMACC is required to return the lesser of:

- The unearned amount of the financial aid; or
- An amount equal to the student's total institutional charges for the semester, multiplied by the percentage of unearned aid.

As prescribed by federal law, the amount the student must return is:

- The unearned amount of Title IV assistance minus any funds DMACC returned.

If the student is required to repay unearned loan funds, these funds will be repaid in accordance with the terms of the promissory note. That is, through scheduled payments to the holder of the loan over a period of time.
If the student is required to repay unearned Pell and/or SEOG Grant funds, the law provides that the student is only required to return grant funds if the final grant overpayment amount exceeds 50 percent of the total grant assistance the student received for the payment period.

Any unearned grant money must be repaid by either making arrangements with DMACC or with the U.S. Department of Education.

## Example:

Bill Dollar is a returning student from Des Moines who was disappointed to have to withdraw from DMACC during the semester, particularly since he is doing very well in the 12 credit hours he is taking. Bill has to withdraw for personal reasons.

Bill was awarded the following
financial aid, which was credited
to his student account:
Federal Direct Student Loan
Federal Pell Grant
Federal SEOG 250

## Total Financial Aid Awarded

Bill completed only 11 days of classes or 10 percent of the semester. Bill's tuition and fee charges for the full semester are $\$ 1,500$.* (2010-2011 tuition rate is estimated. Please visit www.dmacc.edu for current tuition and financial aid information.)

## FINANCIAL AID/ACADEMIC INFORMATION

To determine how much money must be returned by DMACC and Bill, the financial aid staff must first determine how much financial aid Bill did not earn. Since Bill only attended 10 percent of the semester, he only earned 10 percent of his financial aid. Therefore, the unearned percent of his financial aid is 90 percent.

| Total Financial Aid Awarded | $\$ 2,981$ |
| :--- | ---: |
| Multiply Percent of Unearned Aid | x 90 |
| Amount of Unearned Aid | $\$ 2,682.90$ |

Per federal requirements, DMACC and Bill must repay a total of $\$ 2,682.90$.
DMACC is required to return the lesser of the unearned amount of financial aid, or the amount of total institutional charges multiplied by the percent of unearned aid.
In this example, DMACC would be required to pay back the amount of institutional charges, because it is the lesser amount.

| Total Institutional Charges | $\$ 1,500.00$ |
| :--- | ---: |
| Multiply Percent of Unearned Aid | x.90 |
| Amount to be Repaid | $\$ 1,350.00$ |
| Bill is required to return the remaining <br> unearned amount. |  |

Total Unearned Aid
\$2,682.90
Subtract Percent of Unearned Aid
-\$1,350.00
Amount Bill Must Repay
\$1,332.90

## Amount and Order of Repayment

In the example, both DMACC and Bill must return loan funds. After completing the calculations and following the repayment guidelines, it was determined that DMACC should repay $\$ 1,350.00$ to Bill's loan. Bill will be required to repay $\$ 383.00$ to the Federal Direct Student Loan Program, through a repayment plan in accordance with the terms of his promissory note. In addition, based on the calculations, \$949.90 of Bill's Pell Grant was unearned. As DMACC has already paid the total amount it owes to the loan program, Bill is responsible for paying back $50 \%$ of the Pell Grant.

Unearned Pell Grant
$\$ 949.90$ x. 50

Amount Bill Must Repay
\$474.95

## Title IV Grant Overpayment

If a student is required to repay an unearned grant (overpayment), the student will remain eligible for Title IV aid up to 45 days after the student has been notified of the overpayment. The student may resolve the overpayment by repaying the overpayment in full to DMACC, by making satisfactory repayment arrangements with DMACC, or by making satisfactory repayment arrangements with the U.S. Department of Education.

## ACADEMIC INTEGRITY

Academic integrity, doing one's own work in course assignments and in tests, is one of the most important values in higher education. Receiving credit for plagiarizing or cheating violates that value. It is unacceptable for students to submit another person's work as their own.

If students quote, summarize, paraphrase or use an author's idea, they must acknowledge the source; otherwise they are plagiarizing. Allowing others to accept credit for work not their own in tests or in written and oral reports is also cheating. Students who plagiarize or cheat will be held accountable by their instructor and are subject to the sanctions outlined in the Academic Misconduct Procedure.

## ACADEMIC RECOGNITION

Dean's/Provost's List: Students who have earned 6 credits in any term with a 3.50 to 3.99 grade point average are honored by being named to the Dean's/Provost's List. Students are mailed a certificate from their respective Dean or Provost and the names of students on the list are sent to their "hometown" newspaper for publication.

President's List: Students who have earned 6 credits in any term with a 4.00 grade point average are honored by being named to the President's List. Students are mailed a certificate from the president and the names of students on the President's List are published in their "hometown" newspaper.

## ATTENDANCE AND ENROLLMENT

Students have the primary responsibility for dropping courses or withdrawing from the College if they decide not to attend. The College, however, has administrative procedures whereby students may be dropped.
At the beginning of the semester, instructors are asked to report the names of students who do not attend class. Students are notified
and dropped from those courses. If they wish to reenroll in class, they must obtain their instructors' written permission by an established date. Financial aid may be adjusted for students who are administratively dropped.
When approximately one-third of the term has passed, instructors are asked to report students who quit attending class and/or who have grades below 2.00 . All students on the report are notified. Those students who quit attending all courses and have financial aid may be dropped. Students may be required to repay financial aid under the federal repayment formula and will be notified. (For information on the Return of Title IV Funds, please see the Financial Aid section.) The students will have the established options to appeal in writing to the Financial Aid Appeals Committee or the Petition for Policy Waiver Committee. Students are required to meet with the ombudsperson before filing a petition for policy waiver.

## AUDITING COURSES

Students may enroll in most courses on an audit basis with instructor approval. Audit enrollment may be denied in select courses based on prerequisite knowledge or skills, high demand or other criteria. For example, a course with a practicum or clinical experience may not be appropriate for audit participation.
The same amount of tuition is due for audited courses as students pay to take the courses for credit. Audited courses appear on students' records with no credit and marks of "N."

Students auditing courses are not required to complete regular assignments or examinations, though attendance is expected. Instructors may exclude students who are auditing from participation in portions of the course, such as special projects. Enrollment on an audit basis does not qualify for financial aid or insurance purposes.
The deadline for changing a course from credit to audit is the same as the deadline for dropping a course. The completion of a Drop/ Add form with the instructor's signature is required. If a course has been placed on audit, it cannot be changed back to credit unless the semester has not begun and the late registration period has not passed for the course.

## ACADEMIC INFORMATION

## GRADE REPORTS

Final grade reports are available approximately one to two weeks after the end of a term. Students may view their grades on the Web. Progress grade reports are issued prior to midterm and the deadline for dropping classes. This report notifies students who are not progressing satisfactorily (receiving F, D-, D, D+ or C- grades) of services available to help them improve their academic performance. Students who have been reported as quit attending class are also notified.

## GRADING SYSTEM

## Grading Scale

The grading scale and designations for DMACC coursework are listed below. Please note that it is the option of each faculty member whether or not to incorporate the plus/minus values into their grading scale. The course syllabus should specify the grading scale.

A
A.

B+
B
B-
C+
C 2.00
C- 1.67
D+
1.33

D $\quad 1.00$
D- . 67
F
.00

## Other Grade Designations:

W
Withdrawn/Dropped
Incomplete
Audit
Pass
Testing
Life Experience

## COMPUTING GPA

The method of computing grade point average (GPA) is as follows:
a. Multiply hours of credit in each course by the appropriate numerical value of the grade to find the quality points.
b. Total the quality points earned.
c. Divide the total quality points earned by the total number of semester hours taken (excluding courses in which a "W," "I," "N," "P," "T" or "L" was received).
Example:

|  | Semester <br> Hours | Quality <br> Grade | Points |
| :--- | :---: | :---: | :---: |
| Composition I | $3 \times$ | B+ (3.33) $=$ | 9.99 |

| Fund. of Oral Communication | 3 | $x$ | A (4.00) $=$ | 12.00 |
| :---: | :---: | :---: | :---: | :---: |
| Finite Mathematics | 4 | $x$ | (- $(1.67)=$ | 6.68 |
| Intro to Computer Literacy | 3 | $x$ | $c+(2.33)=$ | 6.99 |
| Elementary Spanish I | 5 | $x$ | D $+(1.33)=$ | 6.65 |
| TOTAL | 18 sem | ter |  | 42.31 |

Divide 42.31 points by 18 semester hours $=2.350$

## REPEAT COURSEWORK

Students may repeat a course previously taken at DMACC if the course is currently being offered.

Students who fail a required course may repeat and pass that course at Des Moines Area Community College in order to fulfill graduation requirements. The repeated course must be the exact course that was taken earlier in order for the repeat procedure to apply. This privilege does not pertain to courses failed while in attendance at other colleges and universities. If a student transfers a course and then completes the equivalent course at DMACC, the DMACC course will remain on the transcript and will be included in grade point average calculation. The transfer credit will be forfeited. Des Moines Area Community College cannot make changes in the grades issued by other institutions. When a course is repeated, only the hours and the grade point value of the last grade earned will be included in calculating the grade point average. Earlier grades recorded for the repeated course will remain on the transcript record, but will be excluded from the GPA calculation. Withdrawing from a course that is being repeated and receiving a grade of "W" does not constitute a course repeat.

## Repeat Symbols

I Grade value included in the GPA calculation

E Grade value excluded in the GPA calculation

The repeat symbol will be noted in the far right column on the transcript record next to the respective course.

## Example:

| FL 06-07 | PSY 111 | D | 3.00 E |
| :--- | :--- | :--- | :--- |
| SP 07-08 | PSY 111 | A | 3.00 I |

## GRADE APPEALS

Students should first attempt to resolve questions about grades with their instructors. If students wish to proceed further, they should follow the steps outlined in the Appeal of the Final Grade procedure. A copy of this procedure is available in any DMACC Student Service office. Students begin the process by meeting with an ombudsperson on their campus.

## Incomplete and Failing Mark Policies

Students unable to complete some portion of assigned course work during the regular term may sign a contract with an instructor approving an "I" (Incomplete) grade. In such cases, the students must complete the course by the midterm date of the following term. Incomplete grades are generally not approved by instructors unless there are extenuating circumstances such as serious injury or illness. An extension of time to complete the work for the course may be granted by the instructor until the end of the term. "Incomplete" grades automatically change to " $F$ " grades if the course work is not satisfactorily completed within the time period specified.

## OTHER CREDIT OPTIONS AND SPECIAL OFFERINGS

## Advanced Placement (AP)

This program allows students, while still in high school, to take examinations for credit at the college level. DMACC awards credit for advanced placement through the Advanced Placement Program in art, computer science, English, foreign languages, history, mathematics, music and sciences. AP credit will be applied to the student's permanent record as test ( T ) credit after a minimum of 12 semester hours of credit have been successfully completed at DMACC.

## ACADEMIC INFORMATION

## Advanced Standing Credit

A maximum of 30 semester hours of credit may be earned through proficiency examinations, military credit, national standardized tests and employment experience. Advanced Standing credit with the exception of transfer credit will be included on the student's permanent record after 12 semester hours of credit have been successfully completed at the College. Credit will not be granted if students have successfully completed college courses representing the same content.

## Alternative Methods for Obtaining Credit

Students may obtain college credit for competencies gained through formal training, work experience or certain approved examinations. Some alternative methods available include:

- Converting DMACC continuing education coursework to credit.
- Converting DMACC corporate training to credit.
- Earning credit for experiential learning through portfolio development or skills demonstration.
- Earning credit through the assessment of work experience.
- Converting certification or licensure from a state or national examination to credit.
Students should first examine the competencies for courses to determine which course or courses provide instruction in the subject area. Course competencies are available on the internet via the DMACC homepage. "Student Application for Alternative Credit" forms are available in the Dean's or Provost's office. Students then contact the dean or department chairperson in that subject matter area, who will determine if there is a possibility of obtaining credit and the method of assessment that may be available and appropriate for that course. Students may be required to complete a challenge test, develop a portfolio and/or provide documentation. There is a charge for awarding alternative credit. Credit for employment experience is limited to courses that meet program requirements for internship, career courses, practicum, clinical experiences, field experiences and seminars related to these types of courses.

Any credit awarded through alternative means will be posted to the transcript with marks of "T" or "L." These marks are not included in the grade point average.

## Challenge Tests (DMACC Local Department Examinations)

Students who have met the entrance requirements of the College and who are matriculating in a program of study leading to a degree, diploma or certificate may take locally constructed departmental examinations for credit in certain specified areas for which they and the department feel they have the necessary preparation.

- Students may challenge test a course only once. This can occur at any time prior to formal registration in that course or, if the students are enrolled in the course, by the designated drop date for the course.
- If the examination is requested prior to formal registration in a class, a nonrefundable fee equal to one-half the tuition for that course shall be charged. If the examination is unsuccessful, that fee may NOT be applied if student subsequently, formally registers for that course.
- A course that is a prerequisite to a course that has been successfully completed cannot be challenged.
- A challenge test cannot be used as a course repeat.
- Credit earned by challenge testing is entered on students' permanent records only when students have earned 12 credit hours at DMACC. A "T" mark is used andis not included when computing grade point average.
Students interested in taking a Challenge Test should contact the appropriate academic department for specific information on tests available and fees for testing.

## Credit for Educational Experience in the Armed Forces

Educational experiences in the armed forces can be validated and accepted for credit by the College. Credit is granted based on statewide policies at Iowa colleges and universities and based on the applicability of the educational experiences toward meeting the requirements in the student's program of study. An American Council on Education (ACE) publication, "Guide to the Evaluations of Educational Experiences in the Armed Services," is generally used in making these determinations.

Credit is awarded only for significant learning experiences as recommended by the ACE guides. No credit will be awarded based on the Military Occupational Specialties (MOS) evaluation program.

Credit may be awarded for course work completed via correspondence, classroom study and/or examination through the United States Armed Forces Institute. Credit may also be granted on the basis of scores earned on the Subject Standardized Test of the Defense Activity for Non-Traditional Educational Support (DANTES). Official copies of transcripts showing such work are required for credit evaluation by the Office of Credentials.

## College Level Examination Program (CLEP)

Des Moines Area Community College will award credit based on scores obtained on the General examinations and Subject examinations. CLEP credit will not be granted if it duplicates credit for a course already taken.
A minimum of 12 semester credit hours must be successfully completed at DMACC before the CLEP credit will be applied to the student's permanent record.
CLEP testing is available on the Ankeny Campus. Contact the Ankeny Campus Assessment Center for more information.

## Cross-Enrollment

Under a special agreement, a limited number of students may enroll, tuition-free, in one course at Drake University, Grand View University or Iowa State University during the Fall or Spring semester, provided they are taking at least 12 semester hours at DMACC, have earned 12 semester credits (including transfer credit) and have a cumulative 2.00 GPA . This credit will be added to the DMACC transcript according to transfer credit guidelines. This agreement does not apply to Summer session.
For more information on Cross-Enrollment, contact the DMACC Registration Office at 515-964-6800.

## High School Articulated Courses

DMACC has entered into joint enrollment agreements with some of the high schools in the district. Specific courses are offered in the high schools under curriculum guidelines jointly approved by DMACC and the high school. Credit earned through these agreements is recorded as transfer (TFR) credit.

Articulated credit is recorded on the student's permanent record after the student has applied for admission, earned 12 credits at DMACC and paid the required fee for each course being articulated.

## ACADEMIC INFORMATION

## Independent Study

Independent study provides an opportunity for the above-average student to do independent research in areas not covered in the regular curriculum or to explore in greater depth a topic covered in a course. Each independent study project must be arranged in advance through a supervising faculty member. The standard tuition charge will be made. Independent study may not be used to earn credit for any courses listed in the College catalog or substitute for any required or option courses in a program. Each independent study may be for one to four credits. A maximum of four hours of elective credit in any one term and eight hours in total may be earned through independent study.

Students may register for course work in independent study at any time during the term.

## International Travel/Study Courses

DMACC faculty in a range of disciplines have traveled extensively, lived or studied in countries around the globe. Wishing to share their interest in and expertise of a particular country or region of the world, these faculty members arrange international travel and travel/study opportunities for students. Since the tours are educational travel, students may receive academic credit on designated trips. These international travel/ study programs permit students to spend one or two weeks exploring a country, with additional time spent at home reading, writing and reflecting about the country they have experienced. Most travel/study courses are independent study credits issued under a global studies (GLOS) acronym.

For information on the Study Abroad in England program or international travel/study courses, please contact the Global Studies chairperson at 515-965-7032.

## Postsecondary Enrollment Options Act

Eligible high school students may be accepted for admission to DMACC under Iowa's Postsecondary Enrollment Options Act.

Approval by the high school is mandatory before high school students may be accepted under this program. If the students are approved and accepted, the high school will pay up to $\$ 250$ per course of the cost of the tuition, fees, books, materials and supplies. Students enrolled under this program take DMACC courses and credit is earned as DMACC credit. For more information, contact the DMACC Registration Office at 515-964-6800.

## Semester Abroad

DMACC offers students an opportunity to take selected classes in English, speech, history and humanities during a Spring semester Study Abroad in London program. The program is offered by DMACC as part of the Iowa Community College International Association's Study Abroad Consortium. Students from all 15 of Iowa's community colleges spend 10 weeks in London studying with an Iowa community college instructor. A British professor at the University of London teaches British Life and Culture, a mandatory course in the curriculum. Classes are held on the University of London campus. Students reside with families in local homes. In addition to lectures and class discussions, students are able to take advantage of an expanded classroom as they tour museums and historic monuments and attend live theatre performances in London and the surrounding area. Students are expected to enroll for 12 credits, which may include some independent study work. Program arrangements are made by the American Institute for Foreign Study, which specializes in study abroad programs for colleges and universities. Financial aid is available for study abroad.

## SATISFACTORY ACADEMIC PROGRESS

The following applies only to credit enrollment at DMACC.

Passing grades are required in all courses outlined in the program of study. The cumulative grade point average of 2.00 in all course work applicable to the degree, diploma or certificate of specialization is required for satisfactory completion or progress. With appropriate approvals, a program of study at Des Moines Area Community College may establish academic progress standards higher than those specified above.
Students who have attempted 12 or more credits with grades of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F or P at Des Moines Area Community College are subject to the following academic progress standards:

1. Satisfactory academic progress is indicated by a cumulative grade point average (GPA) of 2.00 or higher.
2. Guidelines for placing a student on "ACADEMIC PROBATION":
a. A student whose cumulative GPA falls below 2.00 at the end of any term will be placed on ACADEMIC PROBATION for the next term of enrollment.
b. Students on ACADEMIC PROBATION who are assigned more than one grade of C - or less at progress report time will be restricted from registering for future credit coursework until they have developed an Educational Achievement Plan with a counselor, advisor and/or program chairperson and obtained the appropriate signatures for approval.
c. A student on ACADEMIC PROBATION will return to a status of "good academic standing" when his/her cumulative GPA is raised to 2.00 or higher.
d. A student on ACADEMIC PROBATION will continue on probationary status if his/her term GPA for the term following his/her placement on probation is 2.00 or higher but the cumulative GPA remains below 2.00. This same rule will apply for the next term of enrollment.
e. The College will not award a Certificate of Specialization, Diploma or Degree to a student who has a GPA below 2.00 in his/ her chosen program of study. Only grades for coursework applicable to the chosen program of study will be calculated in the program GPA.
3. Guidelines for placing a student on "CONDITIONAL ENROLLMENT":
a. A student on probation who earns a term GPA of less than 2.00 will be placed on CONDITIONAL ENROLLMENT for the next term of enrollment.
b. If the student is registered for the following term and is placed on CONDITIONAL ENROLLMENT for that term, he/she will be required to meet with a counselor/ advisor no later than the first day of the CONDITIONAL ENROLLMENT term to review his/her course selections. Failure to comply will result in canceled classes.
c. If the student placed on CONDITIONAL ENROLLMENT is not registered for the next term, he or she must meet with a counselor/advisor prior to reenrolling in credit coursework.
d. A student on CONDITIONAL ENROLLMENT who is assigned more than one grade of C - or less at progress time will not be allowed to register for the following term until his/her conditional enrollment term final grades are recorded.

## ACADEMIC INFORMATION

e. A student on CONDITIONAL

ENROLLMENT who earns a term GPA of 2.00 or higher, but the cumulative GPA remains below a 2.00 , will be placed on ACADEMIC PROBATION.
f. A student on CONDITIONAL ENROLLMENT who earns a term GPA and a cumulative GPA of 2.00 or higher will be placed in good standing.
4. Guidelines for placing a student on "ACADEMIC SUSPENSION": A student on CONDITIONAL ENROLLMENT who earns a term GPA of less than 2.00 will be placed on ACADEMIC SUSPENSION and will not be allowed to enroll in credit coursework for a period of one term.
5. Guidelines for REENROLLMENT OF SUSPENDED students:
a. After the nonenrollment period, a student on ACADEMIC SUSPENSION may apply for reenrollment. Students who are placed on academic suspension at the end of the Spring semester may not reenroll until the following Spring semester.
b. In all instances, a readmitted student will be placed on CONDITIONAL ENROLLMENT.
c. A student seeking reenrollment must develop an Educational Achievement Plan with a counselor/advisor and/or program chairperson and obtain the appropriate signatures for approval.
d. A student on Academic Suspension for a second or subsequent time may reenroll only after receiving written approval of the Director of Student Development.
e. Individual programs may impose additional reenrollment requirements.
6. A student placed on ACADEMIC SUSPENSION may appeal. Students wishing to appeal should contact the Director of Student Development, Ankeny Campus, 515-964-6222.

## STUDENT RECORDS— CONFIDENTIALITY

Student Records-ConfidentialityFamily Educational Rights and Privacy Act (FERPA)
Des Moines Area Community College complies with the laws of the State of Iowa and the United States in the maintenance of, access to and release of student records. All procedures conform to the Family Educational Rights and Privacy Act (FERPA), sometimes referred to as the Buckley Amendment.

At its discretion, DMACC may provide certain information designated as "Directory Information" to the public unless students have requested that their Directory Information not be released. Directory Information is defined as: student name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, most recent educational institution attended, participation by the student in officially recognized activities, weight and height of members of athletic teams, email address, and photograph.
With the exception of the Directory Information items listed above, all student records are considered to be confidential and are only open to designated school officials with a legitimate educational interest in the records, and others as designated in the College's FERPA procedure. Except as provided for within the Act, personally identifiable information about students will not be released without the student's written permission.
Under FERPA, students also have certain rights to inspect and review their education records, request amendment of their records, consent to disclosure of personally identifiable information contained in education records, and file a complaint with the U.S. Department of Education concerning an alleged failure to comply with FERPA.

To obtain copies of the procedure and more detailed information, contact the Registrar's Office on the Ankeny Campus or refer the DMACC Student Handbook.

## TRANSFER CREDIT

A maximum of 43 semester credit hours of transfer credit is applicable toward associate degree requirements. For diploma and certificate programs, a max of two-thirds of the program credits may transfer into DMACC (one-third of the credits must be earned at DMACC.) The total grade point average of credits transferred to DMACC must equal 2.00 or higher. Some programs, e.g., Health Service programs and Accounting Specialist, may require a minimum grade of " $C$ " in specific courses that fulfill a degree requirement. Grades earned at other colleges or universities will not be used in the computation of students' grade point averages at DMACC. Refer to the Admission section on the Evaluation of Previous Training and Education for more details on transcript processing and transfer credits.

## TRANSCRIPT REQUESTS

Des Moines Area Community College will send or issue a transcript when students or former students submit a signed, written request or submit a request via the DMACC Web Info System.

Students can email or fax requests to the Office of Academic Records. Transcript request forms are available at each campus, but a letter requesting a transcript will be honored.

Transcript requests should include the student's name, Social Security number or DMACC I.D., telephone number, dates of attendance and the address to which the transcript should be mailed.
Except during peak periods, transcripts are sent within two working days after the receipt of the request. During peak periods, transcript requests are processed in the order they are received. There is no fee for transcripts unless special services are requested. In order for the transcript to be official, it must be sent directly to the receiving institution. Any copies of transcripts that are issued to students are considered to be unofficial. Transcripts will not be issued for students who have unpaid financial obligations to Des Moines Area Community College.
Students who have access to the DMACC Web Info System can view unofficial copies of their transcripts on the internet.

## TRANSFERRING FROM DMACC TO ANOTHER INSTITUTION

- Students considering transfer to another college or university should contact an admissions or transfer counselor at that institution early in the planning process.
- The transferability of Des Moines Area Community College courses to other colleges and universities is determined by the receiving institution.
- Official college or university transcripts and high school transcripts are required during the application process. Students should request these documents from all prior schools be sent directly to the transfer institution.
- A financial aid transcript may be required from each college or university attended in order to receive aid at the transfer institution.
- Students should keep a copy of all the catalogs of colleges attended. These may be needed when discussing transfer credit.

## ACADEMIC INFORMATION/PROGRAM REQUIREMENTS \& GRADUATION

- Copies should be kept of all documents completed, as well as a record of names and phone numbers of people contacted at the transfer institution. This will help if there is a need to clarify information in the future.
- Applications for most major Iowa colleges and universities and information on colleges and universities throughout the United States are available in the Career Resource Center in Building 1, Ankeny Campus.

## PROGRAM REQUIREMENTS \& GRADUATION

## PROGRAMS OF STUDY

Instruction is offered in a variety of courses and programs to meet the diverse needs of DMACC students. Students may engage in areas of study that emphasize:

## Liberal Arts

- General Education curriculum is designed for students intending to transfer to a fouryear institution. Students may also take these courses for enrichment or with the intent of concluding their education with an associate degree.
- Paraprofessional curriculum prepares students for employment in a variety of public service fields. Students may also transfer to a four-year institution.
- Preprofessional curriculum provides the recommended courses for the first two years of study in various professions.

## Vocational Education

- Vocational/Technical programs are designed to teach the essential skills and operational theory needed to ensure occupational competency. Vocational/Technical programs are designed to fulfill the employment needs of the community.

## Continuing Education

- Continuing Education is designed for vocational training, professional advancement, personal enrichment, physical fitness or just the pleasure of learning. Classes, workshops and seminars are designed for those to whom academic credit is not required. These courses have no tests, grades or homework.

## Pre-College Programs of Study

- College Preparatory courses are designed to aid students whose educational background requires strengthening to achieve success in regular college-level courses.
- Adult Basic Education (ABE) is designed to provide individualized instruction to adults who need development or review of basic reading, language or mathematical skills. ABE services are provided to adults who are seeking high school completion, vocational advancement, further training, English as a Second Language and general improvement of everyday living skills. Classes are offered in many locations throughout the College District.
- The Adult High School Diploma program is designed for adult students seeking a high school diploma. Courses required of all students enrolled in the program are:
- Two credits in American History
- One credit in American Government
- Three credits in Mathematics
- Two credits in Science
- Six credits in English
- 18 credits of elective courses to meet the minimum requirement of 32 credits.
- Iowa High School Equivalency diploma is awarded by the State of Iowa through the Iowa Department of Education. Eligible adults may earn this Diploma by achieving passing scores on the General Education Development (G.E.D.) test administered by the College.

## TRANSFER INFORMATION

DMACC offers the first two years of most baccalaureate degree programs. Students can attend DMACC for their first two years and earn an Associate in Arts (AA) or Associate in Science (AS) degree.
Articulation agreements and major transfer plans have been developed to assist students in transferring. Four-year colleges and universities vary in the required number and nature of preprofessional and general education courses that should be completed at DMACC.

The information included in the AA degree will change as four-year colleges/universities change their degree requirements, so students should contact the admissions office at the fouryear institution they expect to attend as soon as possible after beginning at DMACC. Because
other colleges can change their requirements, articulation agreements and transfer plans cannot be considered an agreement or contract between students and DMACC or its staff.

Transfer plans are available for some vocational programs to selected colleges and DMACC partners with other institutions. For example, DMACC is working with Grand View University on a business administration program that will be offered with accelerated courses in the evening.
The advisors and counselors at each DMACC campus are available to work with students in planning their programs and assisting them in making decisions for a successful transfer. The following information is available for students:

- Transfer Plans for different majors at various colleges/universities
- General articulation agreements between DMACC and colleges/universities
- College/university catalogs
- Admission applications for some colleges/universities
- Dates of visits from college/university admission representatives
- Transfer scholarship information
- Admissions Partnership Programs (APP)

For more detailed information and program requirements, contact any DMACC counselor or advisor.

## COURSE SUBSTITUTIONS

On a limited basis, students may request course substitutions in their programs of study. Course substitution is defined as "the replacement of one course with another." Course substitutions will be allowed only:

- In clearly warranted situations, such as a scheduling conflict beyond the student's control.
- When the student clearly demonstrates knowledge/competency in the subject area for which the substitution is requested and when such knowledge/competency is accurately assessed through measures such as testing, documentation of prior coursework, or certification.
- When the substituted course reflects similar or complementary content/skills.
- As a reasonable accommodation for a student with a disability. (See the procedure titled Reasonable Accommodations for Applicants for Admission and Students with Disabilities.)

## PROGRAM REQUIREMENTS \& GRADUATION

Noncore courses may not be substituted for courses designated as core requirements for a particular academic award. Adjunct courses may not be used to meet degree requirements other than electives. In programs exceeding twenty-four (24) semester credit hours, no more than one-eighth $(1 / 8)$ of the total number of credits may be substituted. In programs of fewer than twenty-four (24) semester credit hours, only one (1) course of up to four (4) semester credit hours may be substituted.
Students who wish to request a course substitution should contact the program chairperson in their area of study.

## GRADUATION REQUIREMENTS

Students must satisfy the requirements in effect at time of enrollment in their program or the requirements in effect at the time of graduation.
If program requirements are not satisfied within five years of the first term of enrollment in their program of study, students can no longer use those requirements effective at the time they initially enrolled in their program and must complete the program requirements effective at the time of their graduation.
All requirements of the chosen program must be satisfied, although adjustments may be made where program curriculum has changed and courses are no longer available. It is the responsibility of the students to know and to observe the requirements of their curriculum and the rules governing academic work.

If students have an unpaid debt to the College, graduation awards will not be conferred.

## Degree Audit

Students may visit the credentials/graduation office or mail requests to receive reports of their progress toward completion of requirements for their programs of study. Students are encouraged to request a Degree Audit at least one semester prior to their planned graduation date to assist with planning their final semester. Some programs' degree audit reports are available via DMACC's Web Info System.

## Application for Graduation

Candidates for graduation must complete applications for graduation in order to receive their academic awards. Students who do not complete requirements for graduation in the term for which they applied must submit new applications. Students who plan to participate in one of the annual commencement ceremonies indicate their intent on the application for graduation. There is no graduation fee. Students who plan to receive more than one associate
degree, diploma or certificate need to complete a graduation application for each program.
Candidates for graduation should submit their applications to the credentials/graduation office, using the online application, or at the Ankeny Campus or the Student Services Office at the other DMACC campuses by the following dates:

| Fall | October 1 |
| :--- | :--- |
| Spring | February 1 |
| Summer | February 1 |

(if students plan to participate in the annual commencement ceremonies)

Summer June 1

## Commencement Ceremonies

Students who graduate at the end of Fall, Spring or Summer terms are invited to participate in the annual commencement ceremonies in May. Participation in commencement ceremonies is free.
Ankeny, Newton, Urban and West Campuses have a combined commencement ceremony. The Boone and Carroll Campuses have individual ceremonies.

## Diplomas and Academic Awards

Diplomas are mailed to students approximately three to four weeks after final grades are posted. Students seeking degree verification may request a copy of their transcripts showing the degree and date awarded from the Transcript Office. Transcripts may be ordered prior to the end of the term to be sent once grades and graduation status are finalized. There is no charge for transcripts unless
special services are requested.

## GRADUATION HONORS

## Phi Theta Kappa

Phi Theta Kappa is a national scholastic honor society for students at two-year colleges. There are chapters on all DMACC campuses. Membership may be conferred upon students who have completed at least 12 semester hours of course work with a 3.50 grade point average in courses that apply toward a two-year associate degree program. In addition, potential members must have high moral character and desirable qualities of citizenship and leadership. Interested students should contact the Phi Theta Kappa advisor at their campus for details about their campus chapter.

## Graduation with Program Honors

Candidates for graduation who earn a cumulative grade point average of at least 3.50 in course work applicable to their program of study will graduate with program honors.

## GENERAL EDUCATION

General Education integrates curricula in all degree and diploma programs at DMACC. It focuses on the knowledge and skills necessary for the understanding and effective application of many fields that include written/ oral communications, pure/applied science, mathematics, social/behavioral sciences and humanities. The essential importance of general education remains a central principle in curriculum development at Des Moines Area Community College. Students will acquire skills for lifelong learning by:

1. Understanding and demonstrating effective communication.
a. Write organized, clear and grammatically correct English, appropriate to purpose and audience.
b. Read a document and demonstrate an understanding of its content, such as drawing inferences and distinguishing between major ideas and supporting detail and between fact and opinion.
c. Present an organized oral message, appropriate to purpose and audience, using correctly spoken English.
d. Listen attentively, respectfully and sensitively to a message and demonstrate an understanding of the message.
e. Work collaboratively.
f. Use technical communication effectively.
2. Understanding and demonstrating logical and critical thinking.
a. Develop reasoned and thorough arguments.
b. Analyze the arguments of others, distinguishing fact from opinion and identifying assumptions and inferences.
c. Recognize and value the existence of different points of view.
d. Analyze the conditions of a given problem and design solutions to it.
e. Develop research techniques and acquire knowledge of bibliographic citation.

## PROGRAM REQUIREMENTS \& GRADUATION

3. Developing an understanding of fundamental scientific principles and their application.
a. Demonstrate an understanding of basic scientific principles.
b. Apply scientific principles to analyze and solve problems in nature, culture and society.
c. Make informed decisions, as citizens, on matters of public policy related to science.
4. Developing an understanding of fundamental mathematical principles and their application.
a. Obtain correct mathematical results with or without technological assistance.
b. Develop logical thinking skills that permit the selection of models appropriate to problems.
c. Express models numerically, graphically and symbolically.
d. Identify, interpret and manipulate relevant data.
5. Developing an understanding of human society and cross-cultural variation and perspective.
a. Demonstrate an understanding of social and behavioral sciences and their application to the study of cultural diversity.
b. Demonstrate an understanding of social and behavioral sciences and their application to the study of global cultures.
6. Developing a knowledge of and appreciation for the human condition as expressed in works of human imagination and thought.
a. Demonstrate a fundamental knowledge of history, philosophy, literature or the arts.
b. Demonstrate an understanding of the impact of human expression on culture and of culture on human expression.
c. Recognize the significance of historical context to culture and human expression.

## DEGREES AWARDED

DMACC awards the Associate in Arts (AA), Associate in Science (AS), Associate in Applied Science (AAS) and Associate in General Studies (AGS) degrees plus Diplomas, an Advanced Standing Diploma and Certificates of Specialization. Course availability varies by campus.

## Degrees

The requirements for the AA, AS, AAS, AGS degree, the Diploma, the Advanced Standing Diploma and the Certificate listed below represent the minimum content and grade point averages required in any program offering these degrees at Des Moines Area Community College. Specific programs may and often do require additional course work. Students must refer to the programs of study, which are approved by the State Department of Education and published in this college catalog. For specific programs, see the program section for course and grade point average requirements.

## Associate in Arts Degree (AA)

To receive an AA degree, students must:

1. Maintain a 2.00 grade point average on all work applicable for the AA degree.
2. Earn at Des Moines Area Community College a minimum of $1 / 3$ of the semester credit hours applicable to the degree being pursued. No more than 43 transfer semester credit hours may be applied toward the degree.
3. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
4. Complete a minimum of 64 semester credit hours.
5. Include at least 48 semester credit hours of core courses.

- Communications $\qquad$ 9 credits
- Social \& Behavioral Sciences.... 9 credits
- Math \& Sciences $\qquad$ 9 credits
- Humanities 9 credits
- Distributed Requirements...... 12 credits
- Diversity Requirement $\qquad$ * 3 credits
*The course taken to fulfill the Diversity Requirement may be "double counted" in any of the categories above.

6. Include at least 16 semester credit hours of elective credit.
a. Students may include no more than 16 semester credit hours of vocational/ technical credit.
b. Students may have up to 8 semester credit hours of independent study courses; a limit of 4 semester credit hours of independent study may be earned in any single semester.

For specific programs, see program section for program requirements and course listing.

## Associate in Science Degree (AS)

To receive an AS degree, students must:

1. Maintain a 2.00 grade point average on all work applicable for the AS degree.
2. Earn at Des Moines Area Community College a minimum of $1 / 3$ of the semester credit hours applicable to the degree being pursued. No more than 43 transfer semester credit hours may be applied toward the degree.
3. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
4. Complete a minimum of 64 semester credit hours.
5. Include at least 28 semester credit hours of core courses.

- Communications 9 credits
- Social \& Behavioral Sciences.... 6 credits
- Math \& Sciences $\qquad$ 6 credits
- Humanities .3 credits
- Distributed requirements $\qquad$ .4 credits
- Diversity Requirement $\qquad$ *3 credits *The course taken to fulfill the Diversity Requirement may be "double counted" in any of the categories above.

6. Include at least 36 semester credit hours of elective credit.
a. Students may include no more than 16 semester credit hours of vocational/ technical credit.
b. Students may have up to 8 semester credit hours of independent study courses; up to 4 semester credit hours of independent study may be earned in any single semester.

For specific programs, see program section for program requirements and course listing.

## Associate in General Studies Degree (AGS)

To receive an AGS degree, students must:

1. Maintain a 2.00 grade point average on all work applicable for the AGS degree.
2. Earn at Des Moines Area Community College a minimum of $1 / 3$ of the semester credit hours applicable to the degree being pursued at DMACC. No more than 43 transfer semester credit hours may be applied toward the degree.
3. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).

## PROGRAM REQUIREMENTS \& GRADUATION

4. Complete a minimum of 12 semester credit hours at DMACC after the effective date of the AGS degree (January 1, 1992).
5. Complete a minimum of 64 semester credit hours.
6. Complete the following AGS degree requirements:

- Communications. $\qquad$ 3 credits
- Social \& Behavioral Science/ Humanities $\qquad$ 3 credits
- Math \& Sciences $\qquad$ 3 credits
- Distributed Requirements $\qquad$ 3 credits

7. Electives. 52 credits

Students may include no more than 8 semester credit hours of Independent Study courses; no more than 4 semester credits of Independent Study may be earned in any single semester.

## Associate in Applied

## Science Degree (AAS)

Programs of study that lead to an Associate in Applied Science degree include specific courses required for the degree in addition to the AAS degree education requirements listed below. Refer to individual AAS programs of study in this catalog to learn the courses required in addition to these general requirements. Students must complete a specific program in order to receive the AAS degree.
To receive an AAS degree, students must:

1. Maintain a 2.00 grade point average on all work applicable for the AAS degree.
2. Earn at Des Moines Area Community College a minimum of $1 / 3$ of the semester credit hours applicable to the degree being pursued at DMACC. No more than 43 transfer semester credit hours may be applied toward the degree.
3. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
4. Complete all required courses in a particular program of study. (Minimum of 64 semester credit hours.)
5. Satisfy the following AAS degree requirements:
a. Communications- 3 credits

ENG 105, 106, 108
COM 703
ADM 157
b. Social \& Behavioral Sciences/ Humanities- 3 credits

AGB 101

## Diploma

To receive a diploma, students must:

1. Maintain a 2.00 grade point average on all work applicable for the diploma.
2. Earn at DMACC a minimum of $1 / 3$ of the semester credit hours applicable to the degree being pursued.
3. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
4. Complete all required courses in a particular program of study. (Minimum of 30 semester credit hours.)
5. Complete the following general requirements:

- One Communications course
- One Social \& Behavioral Science or Humanities course
- One Math or Science course

Course options for the above general requirements are listed in specific programs of study.

## Advanced Standing Diploma

To receive an advanced standing diploma, students must:

1. Prior to entry into the program, complete

- An associate degree or at least 64 semester credits of college-level course work from an accredited institution of higher education.
- One Communications Core course
- One Social \& Behavioral Science or Humanities Core course
- One Science Core course
- One Math Core course

2. Maintain a 2.00 grade point average in all work applicable to the advanced standing diploma.
3. Earn at DMACC a minimum of $1 / 3$ of the semester credit hours applicable to the advanced standing diploma being pursued.
4. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
5. Complete a minimum of one general education course as part of the program of study.
6. Complete all required courses in the particular program of study, which will include a minimum of 30 semester credit hours.

## Certificate of Specialization

To receive a certificate, students must:

1. Maintain a 2.00 grade point average on all work applicable for the certificate.
2. Earn at DMACC a minimum of $1 / 3$ of the semester credit hours applicable to the certificate being pursued.
3. Complete the number of semester credit hours required in a particular program of study.
4. Complete all required courses in a particular program of study.

## PROGRAM REQUIREMENTS \& GRADUATION/STUDENT SERVICES

5. Complete the final 10 semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).

## Certificate of Completion

A certificate of completion is issued to signify that a student has satisfactorily completed a program of instruction other than those listed above. Certificates are normally issued to students at the completion of a specific short-term program of study offered through the Continuing Education Department or the Transportation Institute.

## STUDENT SERVICES

## ACADEMIC ACHIEVEMENT CENTERS

The Academic Achievement Centers located on each campus are available to all full-time and part-time students in the following categories:

1. Students seeking homework help, especially in the areas of math, science, English, reading and study skills.
2. Adults working toward high school completion (GED or adult high school diploma) or completing a program of basic literacy skills (ABE).
3. Students pursuing noncredit studies for academic upgrading, prerequisites or enrichment.

Computer-assisted instruction is also available in many academic areas. Contact the Academic Achievement Center at each campus for additional information.

## ALUMNI ASSOCIATION

Des Moines Area Community College has an active Alumni Association. Headed by a volunteer Board of Directors, the Association strives to maintain contact with and provide services and benefits to alumni and friends. Through annual fundraising activities, the Association provides scholarships to deserving DMACC students. For more information or to get involved, contact the Alumni Association Office at 515-965-7331, via email at alumni@ dmacc.edu or online http://dmacc.edu/alumni.

## ACADEMIC ADVISING

Academic advisors are available to assist students in planning their educational programs, meeting graduation requirements, further developing their academic skills and using resources of the College to meet their educational needs. Assistance is given in selecting a transfer institution and the transferring of credits.

## ASSESSMENT TESTING

The COMPASS assessment is available for current and prospective students at each of the six DMACC campuses.

| Ankeny Campus | $515-964-6595$ |
| :--- | :--- |
| Boone Campus | $515-433-5096$ |
| Carroll Campus | $712-792-8303$ |
| Hunziker Center | $515-663-6700$ |
| Newton Campus | $641-791-3622$ |
| Success Center | $515-287-8700$ |
| Urban Campus | $515-248-7218$ |
| West Campus | $515-633-2408$ |

DMACC offers English as a Second Language ESL Test in COMPASS tests for students whose native language is not English. All full-time and part-time students whose native language is not English are required to take and pass the ESL Test in COMPASS test as a requirement for admission. Placement in ESL courses, college preparatory courses or college-level courses is based on minimum scores. Please contact the DMACC Testing Centers at the campus nearest you for more information concerning other tests for program entry requirements or check the website at www.dmacc.edu.

In addition, the Ankeny Assessment Center offers ACT, LSAT, MPRE, PRAXIS, Medical Assistant and Medical Office Specialist typing test, Veterinary Technology biology test, mechanical reasoning aptitude test, Iowa Dental Board test.

## CAMPUS SECURITY

Law enforcement and security are provided to help ensure the safety and security of our campuses. DMACC provides 24-hour/7-day security officer patrol of the Ankeny Campus. At the Urban Campus, security officer patrol is 7 a.m. to 10:30 p.m., Monday through Thursday; 7:00 a.m. to 5:00 p.m. Friday; and 8:00 a.m. to 3:00 p.m. Saturday. Security measures may include uniformed security guards, closed-circuit television, building security systems, exterior lighting, courtesy phones and attention to landscape materials. In addition, the Ankeny, Des Moines, Boone,

Carroll, Newton and West Des Moines Police Departments patrol and assist the College in their respective jurisdictions. DMACC Security personnel administer traffic and parking regulations, ensure safety and security, and provide assistance to the College community.

## CAREER AND TRANSFER RESOURCE CENTER (CTRC)

The CTRC on the Ankeny Campus offers assistance and informational resources to students, prospective students and career changers, for all stages of career planning. The CTRC has up-to-date information about hundreds of occupations. There are many resources available about Iowa's two-year and four-year colleges and universities, as well as information on colleges throughout the United States. Students will find tips and information for transfer planning. CHOICES, a computerized career-guidance system, is an excellent resource.

Appointments are preferred, but walk-in assistance is also available.
The CTRC resources will enable students to learn about job requirements, job trends and salaries. Students will be better prepared for making decisions about school majors and costs. Career planners will organize personal interests and skills for making better choices. Call for appointment at 515-964-6474.

## CHILD CARE

The DMACC Child Development Center on the Ankeny Campus provides child care for the children of students, staff and faculty. Children ages 2-5 are eligible for child care during normal College business hours. Children must attend on a full- or part-time, regularly scheduled basis. The child care center is open year-round on student contact days only.

There is generally a waiting list. To request an application or for more information, call 515-964-6588.

Children should not be brought to class or left unattended at any time in a classroom, at clinical sites or on College property.

## COLLEGE BOOKSTORES

The College bookstores are located at all DMACC campuses to serve students, faculty and staff.

In addition to course requirements, the bookstores stock supplemental study aids, paper products, office supplies, calculators,
cassette recorders, computers and computer supplies, imprinted gift items and up-to-date college fashions.

Hours of operation vary at each campus. Check with each bookstore for more information.

During the first week of each semester, hours will be extended to accommodate evening and weekend students. During student breaks, all bookstores will close early and hours will be posted.
A receipt is required for a full refund or exchange of any textbook. Textbooks may be returned within seven days from the beginning of each semester, as long as the textbook is in the same condition as when purchased. Check with the bookstore for further details of the Bookstore Return Policy. Materials purchased with a check require seven days before refund will be processed.
Students whose books do not qualify for a refund are encouraged to use our everyday buyback. Check with the bookstore about further details regarding the Buyback Policy.
Textbook purchases should be made at the campus location of your class. Online orders can be picked up at any DMACC Bookstore location. Please allow two extra business days for the transfer. Online class book purchases may be made through the DMACC website www.dmacc.edu/student_services/bookstore. Online class books are available ONLY at the Ankeny Campus bookstore. MasterCard, VISA, American Express and Discover charge cards are accepted. A picture ID is required when writing a check in the bookstore. Students with prewritten checks from parents must also present a picture ID. Checks must be written for the amount of purchase only and payable to DMACC Bookstore.

Picture IDs are required for all Financial Aid, third-party agency, voucher purchases and buyback transactions.

## COUNSELING SERVICES

The College provides professional counselors to assist students in career and educational planning and in solving problems of a personal nature. Counselors help students make decisions and plan for a successful future. Counselors are available to help students choose an educational program or career direction, recommend and interpret career tests and inventories, examine mid-career options, discuss anticipated academic difficulties and develop an appropriate course of study.

Students who experience difficulty or dissatisfaction with their curriculum are encouraged to make use of the counseling services to explore options or an alternative course of action. Counselors can also provide assistance with study skills, developing satisfying personal and social relationships, solving financial problems and getting through a crisis.

Counseling services are available to assist all students including those in evening classes and at off-campus sites. Contact the most convenient campus for further information.

## COLLEGE PREPARATORY EDUCATION

College Preparatory Education offers a variety of courses to help students succeed in reaching their educational and career goals. The preparatory reading, writing and math courses are particularly designed for students who need to strengthen their academic skills before enrolling in college-level courses. Although credits from the preparatory reading, writing and math courses do not count toward a degree or diploma, they do count toward semester load and are figured into the GPA.

Other preparatory courses, such as SDV 108, The College Experience; SDV 115, Study Strategies; and SDV 130, Career Exploration, do count toward a degree or diploma as elective credits and are transferable.

Preadmission chemistry and preadmission biology are also offered as self-paced, noncredit courses for students who did not complete these courses in high school or who need to strengthen their skills before enrolling in a college-level biology or chemistry course. Enrollment in these courses is through the Academic Achievement Centers.

## FOOD SERVICES

Vending machines are available at each campus. The Ankeny, Boone, Urban/ Des Moines and West Campuses have food services where food is prepared on site. For formal dining, the Culinary Arts students on the Ankeny Campus operate the Bistro, located in Building 7.

## CAMPUS RECREATION PROGRAMS

Fitness and intramural sports opportunities are available for students at Des Moines Area Community College. Facilities are located in Building 5 on the Ankeny Campus and on the Boone Campus. A schedule of intramural
events and rules for participation are available online and in the Campus Recreation Center on the Ankeny Campus. Free fitness classes and discounted personal training services are also available to currently enrolled DMACC students on the Ankeny Campus. All currently enrolled DMACC students as well as card-carrying alumni are eligible to utilize the Campus Recreation Center. Basketball, volleyball and other court sports as well as fitness classes take place on the gym floor. A walking/running track is also available in the gym. The fitness center houses a variety of cardiovascular and strength training equipment. Locker rooms and shower facilities are also available. Locker rentals and towel services are available for a nominal fee per semester. The gym is also available for rentals. See staff for details.

The facility hours are posted online at www.dmacc.edu/campusrecreation and are subject to change. Guests are welcome for a $\$ 2.00$ fee. Family members and other guests are welcome as long as they are accompanied by a valid DMACC student or eligible alumni. No children under 12 years of age are allowed in the fitness center. All patrons must follow all posted facility rules. For more information and current hours of operation, contact 964-6333.

## INTRAMURAL RECREATION

Intramural sports are available for students, faculty and staff on the Ankeny and Boone Campuses. Opportunities exist year-round for both individual and team recreational sports and activities. Applications for participation are available online at www.dmacc.edu/ campusrecreation and in the Campus Recreation Center in Building 5 on the Ankeny Campus.

## INFORMATION CENTER

The main DMACC Information Center is located in Building 1 on the Ankeny Campus. The Center is designed to help students, prospective students and visitors to the College. Material is available on all college programs, current course listings and general DMACC information. Information can also be obtained at the Student Life or Student Development/ Counseling \& Advising offices of the Boone, Carroll, Newton, Urban and West Campuses. Contact 964-6200 or 1-877-TO-DMACC.

## STUDENT EMPLOYMENT ASSISTANCE

Services include: lists of job openings (fulltime and part-time) available in the area; assistance to students wanting to obtain work in the College Work-Study Program; referrals for internship and summer employment; on-campus recruitment and interviews by employers; labor market information, resource videos and books, and a list of helpful websites for research from home.

Individual assistance with resume writing, application letters, interviewing and job-seeking skills is readily available.

Also available is a free online employment service to help students find careers that match their degrees: www.iowacareer.net. To register for assistance, go to,
www.dmacc.edu/student_services/jobplacement.
For further information, contact the Ankeny Student Employment Assistance Office (515-964-6463), or the Student Services Offices on the Boone, Carroll, Newton, Urban and West Campuses.

## LIBRARIES

Library services are provided at the Ankeny, Boone, Carroll, Newton, Urban and West Campuses. The DMACC Libraries' website provides access to information from any computer on the College network at http://library.dmacc.edu. Off-campus access to our electronic resources is available to patrons who have registered their DMACC OneCard with the Libraries.

The DMACC Libraries are full members of the Online Computer Library Center, Inc. (OCLC), an internationally recognized bibliographic utility, which provides important products and services to libraries and their users. DMACC is a member of the Polk County Biomedical Consortium, a group of health science libraries affiliated with the National Library of Medicine. DMACC also participates in the State Library of Iowa's Open Access program, which allows our cardholders to borrow materials from other participating libraries. Materials not owned by the Library can be obtained through InterLibrary Loan (ILL) services at no charge to the user.

## Ankeny Campus

The Ankeny Campus Library has 40,000 volumes in the book collection, 200 periodical subscriptions and 3,000 videos and other audiovisual materials. The collections emphasize subjects related to the College
curriculum, including the humanities, social sciences, natural and health sciences, business and technology. Interlibrary loan service is available at no charge to DMACC students and staff for books and articles not owned by our libraries. Other services include reference assistance, coin-operated photocopiers, group study rooms, video viewing area and library orientation sessions. In addition, at least one section of Library Instruction (SDV 171) is offered on campus each semester.

## Boone Campus

The Boone Campus Library has a collection of approximately 19,000 circulating and reference books, 175 periodical subscriptions, compact discs, audio books and a large collection of videos. Material not owned by the Library can be obtained through interlibrary loan at no charge. It also participates in the Open Access program through the State Library. The Library also provides access to the 40 -station student computer lab at the Boone Campus. In addition, a Library Instruction class (SDV 171) is offered by the staff each semester.

## Carroll Campus

The Carroll Campus Library has a collection of approximately 4,000 circulating and reference books, more than 100 periodical subscriptions and a variety of audiovisual materials, including DVDs, videotapes, compact disks and audio books. In addition, DMACC Libraries Online provides access to all the DMACC campuses' library catalogs, research databases containing full-text reference sources for academic and popular periodical articles and other online information resources, electronic books and audio books. Beyond the DMACC libraries, we provide access to InterLibrary Loan (ILL) to obtain materials not owned by the College. There is a special collection of curriculum materials, especially for use by the $2+2$ Elementary Education program. Additionally, the library provides access to a student computer lab where students can work on assignments using Microsoft Office 2007, search the web or research using library resources.

## Newton Campus

The Interactive Learning Center (ILC) at the Newton Campus houses a growing collection of academic, research and leisure reading books, as well as a number of periodical, newspaper and audiovisual titles. Students may conduct online research via the DMACC Library website (http://library.dmacc.edu) at the computer stations located in the ILC or from their home computers. The ILC also houses instructor reserve materials and is the designated location
for students to take makeup exams and quizzes. Students enrolled in telecourses may view telecourse videotapes for these courses in the ILC. Students may borrow materials housed at any of the other DMACC libraries by processing an interlibrary loan request at the ILC.

## Urban Campus

The Urban/Des Moines Campus Library is a full-service academic library. The print collection supports courses, research and activities at the Urban/Des Moines Campus. Areas of particular strength in our collection include African-American history, multicultural topics, environmental science, surgical technology and paralegal education. In addition to our print periodical collection, patrons with a valid library card have online access to thousands of journals and articles. Items not owned by the Urban/Des Moines Campus Library can usually be obtained through InterLibrary Loan. This service is provided without charge to DMACC students, faculty and staff. Professional librarians are available to provide reference services. Upon instructor request, the librarians are available to provide library orientations or other research-related instruction. A one-credit library instruction course (SDV 171) is offered each semester by the Urban/Des Moines librarians. The library has a self-service photocopier and viewing stations for watching a/v items. In addition to these services, the Urban/Des Moines Campus Library contains a Library Research Lab. When not in use for library instruction, the 25 computers in this room are available for student use.

## West Campus

The Interactive Learning Center (ILC) at West Campus will assist students in accessing the resources available through the Ankeny Campus and other participating libraries.

## SERVICES FOR STUDENTS WITH DISABILITIES

DMACC is committed to providing an accessible environment that supports students with disabilities in reaching their full potential. Support services are available for students who have visual, hearing, mobility, learning or other types of disabilities to ensure equal access to educational opportunities. Specialized software, adaptive equipment, alternative testing, classroom accommodations and sign language interpreting are examples of the support services offered.

DMACC employs a Disability Services Coordinator to work with students to develop and coordinate services based on individual student need.

If you are a student with a disability who requires reasonable accommodation to participate fully at DMACC, follow the steps listed below.

1. Contact the Disability Services Coordinator at (515) 964-6850 V, (515) 964-6809 TTY or the counseling and advising office on any of the six campuses for an Application for Accommodation.
2. Submit the completed application and supporting documentation to:

Des Moines Area Community College Attention: Disability Services Coordinator 2006 South Ankeny Boulevard, Bldg. 6-10b Ankeny, Iowa 50023-3993
3. Schedule a time to meet with the Disability Services Coordinator, counselor or advisor to discuss coordination of these services.
4. Contact the Disability Services Coordinator with any questions during this process.

## STUDENT HEALTH

Student Health Services is located on the Ankeny Campus in Building 24, Room 103, with some services extending to other campus locations.
Student Health Services offers students limited medical care, immunizations, emergency treatment and referrals. The Student Health Specialist is available M-F, 8:00 a.m.-4:30 p.m. during student contact days. A Nurse Practitioner is available two days a week for four hours during the Fall and Spring semesters. Information regarding Student Health Insurance is available along with health education and support materials. Contact (515) 964-6352 for more information.

## STUDENT HOUSING

For student housing options and area apartment information, please refer to www.dmacc. edu/student_services/housing.asp. For more information about student housing at the Boone Campus, contact the housing liaison, Steve Krafcisin, at 515-433-5026. For information about the independently owned and operated housing on the Ankeny Campus, contact the manager of Campus View Apartments at 515-964-7474. The College Information Center in Building 1 of the Ankeny Campus also provides information about other housing options near the Ankeny and Urban Campuses.

Information about housing for the Carroll, Newton and West Campuses is available from the Student Services Offices at the respective campuses or on DMACC's website.

## TESTING CENTERS

The Testing Center provides a site for makeup testing when students have missed class on a test day. The center also serves as a site for administering correspondence tests for courses taken at other institutions and challenge tests for DMACC courses.

Students must arrange with their instructors to have tests sent to a Testing Center. When students arrive to take their exams, they must present a picture identification, such as a driver's license, and know the instructor's last name. For Testing Center hours, students should contact the Information Desk at the Newton Campus, the Assessment Center at the Ankeny Campus, the Academic Achievement Center at the Boone or Urban Campuses or the Learning Resource Center at the West Campus.

## TOBACCO-FREE DMACC

Effective July 1, 2008, Des Moines Area Community College became tobacco-free. For the purpose of promoting a healthy environment and in accordance with Iowa law, the use of tobacco products is prohibited on the grounds of the College, including all outdoor areas, inside any vehicle located on school grounds and including a perimeter area of ten feet beyond the grounds of the College. Violators may be charged penalties in accordance with Iowa statute.

## TUTORING

The Tutoring Office provides peer tutors to assist students who have difficulty with a particular course or courses. Knowledgeable tutors can assist students by reviewing the course material, answering questions and reviewing for exams. Students may be scheduled individually or with a group. For more information, call the Tutoring Office on the Ankeny Campus at 515-965-7004 or stop by Building 6, Room 20. Students interested in tutoring on the Boone, Carroll, Newton, Urban and West Campuses should contact the Academic Achievement Center at the campus attended. The College cannot guarantee the availability of tutors.

## Employment Opportunities

The tutoring offices hire students as peer tutors. Come work in a fun, flexible environment and earn extra money while on campus. Contact the Tutoring Office on the Ankeny Campus at 515-965-7004 or the Academic Achievement Center on the Boone, Carroll, Newton, Urban or West Campuses.

## VOCATIONAL REHABILITATION COUNSELING

Through an agreement with Iowa Vocational Rehabilitation Services, a vocational rehabilitation counselor is assigned to the College to provide rehabilitation services to eligible students with disabilities. Individualized services to help the student achieve his/her vocational goals are identified in a jointly developed written rehabilitation plan. Vocational rehabilitation counseling is provided to eligible students by a professional counselor who has expertise in disability and vocational areas.

## STUDENT HANDBOOK

For more information about services, procedures and policies at Des Moines Area Community College, pick up a copy of the Student Handbook at any Student Services office. The handbook includes information on student rights and responsibilities, student conduct and discipline policies, parking policies, academic appeals, policies regarding tobacco, alcohol and weapons on campus and more.

## STUDENT ACTIVITIES

## GAME ROOM

The Game Room is available for students on the Ankeny Campus. Located in Building 5, the Game Room provides a space for students to relax, study, and play various games in a lounge-like setting. Games include pool, ping pong, and various arcade games. The games are provided by Playin Around Games. For more information, contact Campus Recreation at 964-6333.

## DMACC CHOIRS

The DMACC Music program offers students the opportunity to participate in a variety of choral music ensembles. Concert Choir (MUS 143; 2 credits) is offered on the Ankeny and Boone Campuses. The rehearsal schedule is not the same on both campuses, but is always shown in the current DMACC semester course schedule. Concert Choir is open to anyone without an audition; however, it is expected that students who enroll will have the ability to learn and sing the voice part to which they are assigned. Chamber Ensemble (MUS 150; 1 credit) is offered to everyone on the Ankeny Campus by audition only. Auditions are held the first two days of the Fall and Spring semesters. All students who want to sing in Chamber Ensemble must audition every semester. Students who are accepted into Chamber Ensemble may also sing in Concert Choir. Choral music credits may be used toward DMACC degrees as electives for four semesters, but there is no limit to the number of times singers may register for the ensembles. Volunteer choral ensembles, which are open to any DMACC student who can learn and sing choral parts, are organized on the Ankeny Campus on a semester-to-semester basis. These are promoted on flyers posted in many Ankeny Campus buildings. Anyone wanting more information may contact the choral conductor in Building 5, Room 41 on the Ankeny Campus or by checking with the Student Services Office on the Boone Campus. Ankeny Campus maintains its internet presence at www.dmacc.edu/music/.

## DMACC DRAMA

The DMACC Drama program offers students the opportunity to gain practical experience in theatre production on the Ankeny and Boone Campuses. Students can earn college credit in a variety of areas, including acting, lighting, costumes, directing, promotion and scenery work. Annual playwriting contests for students may allow them to see their work produced on campus.

## INTERCOLLEGIATE ATHLETICS

Student athletes may compete on a national level at the Boone Campus. DMACC is a member of the Iowa Community College Athletic Conference (ICCAC) and the National Junior College Athletic Association. Currently, the College offers women's intercollegiate athletics in basketball, cross country, volleyball and golf, as well as men's intercollegiate athletics in basketball, baseball and golf on the Boone Campus.

## STUDENT ACTIVITIES COUNCIL

The Student Activities Council, as the primary student body representative, is an integral part of the College. Through its work, students are provided an opportunity to participate in the democratic process. Meetings are held on a regular basis. The Council serves as a liaison among the administration, faculty, staff and student body in areas of mutual interest. The purpose of the organization is to promote college spirit, provide a focal point for discussions between students and the College staff and to give students a representative voice in College affairs. Any student, administrator or faculty member may attend meetings of the Student Activities Council and take part in discussion, but only members may vote.

## STUDENT ACTIVITIES

Much of a student's growth is the result of participation in activities and student organizations. It is the philosophy of the College that cocurricular activities complement the academic program. The activities are financed by a portion of the service fee that is charged each term in addition to regular tuition. Student representatives elected to the Student Activities Council are responsible for assessment and disbursement of these funds.

## STUDENT CENTERS

Student lounge and recreation areas are provided for student use during nonclassroom hours. Various types of game equipment are available, and food and beverage facilities are located in or near each of these areas.

## STUDENT ORGANIZATIONS

Students are encouraged to participate in student organizations. Students may form a new organization by contacting the Student Activities Coordinator on their respective campus for information. Most recognized organizations fall into one of the following classifications:

1. Preprofessional and departmental organizations are joined by students wishing to pursue interests that contribute to the development of career fields.
2. Service organizations have as their primary purpose activities that will contribute positively to the College and the community.
3. Scholastic honorary organizations offer membership on the basis of academic excellence and performance.
4. Special interest organizations are planned by students who desire to develop or broaden their interest in some particular aspect of their lives.

## STUDENT PUBLICATIONS

Working on a college newspaper staff can benefit students in any program of study. The teamwork required to produce a student publication regularly throughout the semester provides an educational experience that greatly enhances the classroom experience. Plus you can build your portfolio with work published using professional newsroom standards. DMACC has three independent student publications: The Banner News on the Boone Campus; The Campus Chronicle on the Ankeny Campus; and The Urban Vibe on the Urban Campus. These student news organizations emphasize news, features, entertainment, sports, opinion, photography, graphic design, advertising and new media. No experience is necessary. Training is provided. Opportunities to get involved include enrolling in JOU 125 Newspaper Production ( 3 credits), freelancing or interning. Work study positions also may be available. For more information, contact the faculty advisor at the Ankeny, Boone or Urban Campuses.

## BUSINESS RESOURCES/CONTINUING EDUCATION

## TICKET SALES

Discount tickets to various activities and attractions are available at the Student Activities office at Ankeny, the Advising Office at Carroll, or the Business Offices at Boone, Newton, Urban and West Campuses. The Ankeny Campus offers discount tickets to Civic Center events, Worlds and Oceans of Fun, Adventureland Park, Ankeny Springwood Theater, Copper Creek Theater in Pleasant Hill, Woodland Hills Golf Course, Carmike Movie Theaters, Iowa Energy and Buccaneers hockey in Des Moines. The Carroll Campus offers Adventureland Park, Carroll Community Theatre, Worlds/Oceans of Fun, and Carroll Theater V discounted tickets.

Urban Campus offers discount tickets to Adventureland Park, Carmike Theaters and discounted bus passes for DART. Ticket offerings vary at the Boone, Newton and West Campuses. Check in the main offices for details. Cash and personal checks are accepted at all campuses. Credit cards are accepted at the Urban Campus.

## DMACC BUSINESS RESOURCES (DBR)

Des Moines Area Community College Business Resources (DBR) provides businesses, governmental agencies and nonprofit organizations with the training and consulting they need to optimize performance through improved employee and managerial skills. DBR provides a broad spectrum of training services, including technical training in manufacturing and maintenance, management and supervisory skills, employee workplace skills, organizational change, and waste management and control. From needs assessment to the customized design and implementation of training programs, DBR consultants ensure that schedules and budgets are met. Training can be provided at the business, on one of our six campuses in Central Iowa, online or at any other convenient location.

## CONTINUING EDUCATION AND SPECIALIZED PROGRAMS

## ADULT BASIC EDUCATION ABE/HSE/ESL

The Adult Basic Education program (ABE) provides opportunities for adults in need of literacy skills and refresher basics in reading, writing and math. ABE classes are offered at various locations in and around Des Moines and in cooperation with local schools and organizations.
Individualized instruction allows students to focus on their immediate needs. ABE classes are provided free of charge.
GED classes, or High School Equivalency (HSE) preparation, provide instruction to prepare adults for the General Education Development Test (GED) and earn the High School Equivalency Diploma. Individual and smallgroup instruction allow students to progress through the five subject areas evaluated on the GED exam. These include: Test 1, Writing Skills; Test 2, Social Studies; Test 3, Science; Test 4, Reading; and Test 5, Math.
There are GED Testing Centers on all six campuses and at the Success Center located in south Des Moines.

## ENGLISH AS A SECOND LANGUAGE

English as a Second Language is a program for people who speak, read and write best in a language other than English and desire to improve their use of the English language. DMACC offers English as a Second Language (ESL) COMPASS tests for students whose native language is not English. All fulltime and part-time students whose native language is not English are required to take the ESL COMPASS test as a requirement for admission. Placement in ESL courses, college preparatory courses or college-level courses is based on minimum scores. Please contact the DMACC Assessment Center at the campus nearest you for more information.
For more information, call 515-287-8700 or 800-362-2127, ext. 8700, or check our website www.dmacc.edu/success/.

## CONFERENCE AND EVENT PLANNING SERVICES

The DMACC campuses provide an ideal location for your meetings, workshops or conferences.

DMACC provides event planning services including:

- Experienced conference planning staff
- Documentation of mandatory professional Continuing Education
- Registration services
- Marketing and brochure development
- Facility and meal planning
- Consulting services
- Campuses-Auditorium Seating, AV \& Satellite downlink
- Free parking
- ADA-compliant

Call DMACC for your conference planning needs: 1-800-362-2127, ext. 6214, or
515-964-6214.

## Conference Center-Newton

The DMACC Newton Conference Center is located on the DMACC Newton Campus in Newton, Iowa. Serving groups from 5 to 350, the DMACC Newton Conference Center offers a 325 -seat, state-of-the-art auditorium, a 4,800-square-foot subdividing banquet room, reception area and breakout rooms. Parking is conveniently located at the facility, with access to complete food and beverage service, audiovisual equipment and other conference services.
For further information, please contact the conference center staff at 641-791-3622.

## CONTINUING EDUCATION \& SPECIALIZED PROGRAMS

## CONTINUING EDUCATION

The Continuing Education division provides a wide range of educational experiences. Activities and courses may begin at any time and do not necessarily coincide with the College's academic calendar. A variety of noncredit vocational and avocational classes, seminars, conferences and workshops are offered at various locations to assist individuals in continued professional and personal development. Topic areas may include: business/management, health occupations and personal growth. Specific classes are also designed to meet the continuing education requirements for licensing and recertification of professionals in areas such as child care, insurance, nursing, emergency medical services, cosmetology, real estate, long-term care and social work.

The Continuing Education division works with local businesses, service agencies, institutions, organizations and associations to tailor courses or conferences specifically for employees or members. For more information, call 515-965-6024.

## DISTANCE LEARNING

Distance learning provides alternative delivery of credit classes throughout the district, state and nation. College credit classes are provided via Online Courses utilizing the World Wide Web, the Iowa Communications Network (ICN) and through television courses carried on Mediacom Cable, College Channel 16. For more information, see the Distance Learning Home page at www.dmacc.edu/online or call 515-964-6422.

Noncredit and continuing education opportunities are also available through online classes. For more information regarding noncredit and continuing education classes offered online, call 515-964-6699 or
800-362-2127, ext. 6699.

## EVENING/ WEEKEND COLLEGE

Courses offered evenings and weekends provide opportunities for degree completion, career development/enhancement and cultural enrichment, in both credit and continuing education format, for students who are unable to take classes during the day.

The Evening/Weekend office provides support to the full range of services offered for students, faculty and staff during evening and weekend hours. These include Registration, Student Accounts, Financial Aid, Student Records
and Admissions. Support is also provided for Distance Learning classes and Continuing Education courses. For further information on the Ankeny Campus, call
515-964-6286 or 1-800-362-2127, ext. 6286.
For services available at the Boone, Carroll, Newton, Des Moines Urban and West Campus, call their main campus numbers.

## TRANSPORTATION INSTITUTE/COMMERCIAL VEHICLE

## Commercial Vehicle Operator Program

The Transportation Institute commercial vehicle operator program is one of approximately 80 in the U.S. certified by the Professional Truck Drivers Institute. The 240 -hour, noncredit program uses the U.S. Department of Transportation Model Curriculum. Students may complete the program in the daytime in six weeks or during the evenings in 12 weeks.

The Institute provides customized programs and services to individuals and companies including: remediation and evaluation services, advanced driver programs, Defensive Driving Course (DDC), driver/dispatcher relationships and driver retention programs. It also offers a Train the Trainer program that allows carriers to train their driver finishers, ensuring a higher success rate with their student program and online Web-based course for DOT-mandated entry-level driver certification.

## RV SAFETY AND EDUCATION PROGRAM

RV Safety students become confident when traveling in situations they may encounter in the RV lifestyle after receiving training in all phases of driving, maneuvering and backing a recreational vehicle. The RV program is a total of 8 hours- 3 hours in the classroom and 5 hours hands-on driving. Additional driving time and private lessons are available. The program specializes in safety, respect, patience and confidence in a variety of vehicles of all sizes from class A, B and C motor homes, to fifth-wheel trailers to travel trailers.

We also have RV (Recreational Vehicle) training and educational programs aimed at present and prospective RV drivers to provide the best information and training possible about RVs and the RV lifestyle. DMACC is the second school, nationwide, to offer this RV training.

## MOTORCYCLE/MOPED SAFETY RIDER COURSES

## Basic Motorcycle <br> Safety Rider Course

The MSF Basic Rider Course is based on years of scientific research and field experience. It teaches fundamental skills and it provides basic entry-level skills for a new rider to begin practicing and developing the mental and motor skills important for safe street operation. The Basic Rider course is a combination of 5 hours classroom and 10 hours of onmotorcycle instruction.

## Moped Rider Course

Learn how to operate and care for a moped. Learn about rights and responsibilities as a moped operator. Must be 13 years or older to take this course.

# Choose a Career Path The following steps may help you identify a program of study if you are uncertain of a career path. 

Complete this Personal Career Profile. Check the items from each category listed below that describe you. Understanding your interests, values, skills and talents is helpful information when selecting a successful career and work environment.

## Values

The most important values for the workplace are:
$\square$ To influence othersTo help othersTo competeTo think creativelyTo be flexibleTo acquire knowledge/skills

## Skills

The skill areas I most like to use are:
$\square$ ReasoningCommunicatingInvestigatingHands-onOrganizingManagingAnalyzingTo be physically challengedTo have power/prestigeTo be financially secureOther $\qquad$

Other areas to consider are:
Special awards received Enjoyable work experience Hobbies
Clubs and organizations Special talents

Take the information you circled and write a statement that may help summarize your career profile.

My career profile is:
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
The interest areas I enjoy most are:
$\square$ Business courses
$\square$ Voc/Tech, e.g., construction, mechanicsFamily/Consumer ScienceForeign LanguageOther $\qquad$
$\square$ IdeasOther
$\qquad$
Working with detailsInitiatingWorking under pressureWorking as a teamServing the customer
Other $\qquad$

## School Subjects

The subjects I did well in and enjoy are:
Arts
Computers

## Interests

Office coursesMathEnglishScienceSocial Sciences

## Are you a match?

Skills, values, interests and subjects that are specific to program areas at Des Moines Area Community College are listed below. Use that information with the Personal Career Profile in Step 1 to help you find a match. Continue on your path with Step 3 and Step 4. Complete the "Are You a Match?" activity. Compare the items you identified in your "Personal Career Profile" to the items checked in the "Are You a Match?" activity. If there is a match, you may want to explore programs offered within that division. Select the programs that appear to meet most of the items you checked in both activities.

Arts \& Sciences-College Transfer
$\square \quad$ Need credit in an academic area to enter a four-year plan of study
$\square$ Want to improve your skill in a certain academic areaWant to explore courses to determine areas of interest
$\square$ Interested in problem-solving, decision-making and critical thinking skills
$\square \quad$ Interested in learning about the arts and humanities
$\square$ Interested in learning about people, culture and social issues
$\square \quad$ Want to use written and oral communication skills

## Agricultural/Natural Resources

$\square \quad$ Like to work outdoors
$\square$ Have knowledge in scienceWould enjoy growing and selling horticulture products
Would enjoy managing a farm or livestock operation
Enjoy finding solutions to problems
Prefer physical activity
$\square \quad$ Managing/marketing an ag-related business

## Art

$\square \quad$ Operate computers
Create or copy drawings to use in advertising
Enjoy expressing my feelings
Can visually express ideas
Have good spatial perception
Work well under stress

| Business \& Information Management | $\square$ Have a pleasant, accommodating manner |
| :---: | :---: |
| $\square$ Have organizational and accuracy skills | $\square$ Make creative designs with food |
| $\square$ Operate computers and other business machines | $\square$ Good organizational skills |
| $\square$ Help customers |  |
| $\square$ Work with detailed forms, records and claims | Industrial Technology |
| $\square$ Manage a business | $\square \quad$ Enjoy working with data |
| $\square$ Persuade others | $\square$ Like to install/repair/service equipment |
| $\square$ Enjoy using numerical concepts | $\square$ Enjoy operating equipment |
| $\square$ Enjoy business/office subjects | $\square$ Like math |
| $\square \quad$ Like working as a team member | $\square$ Have good problem-solving skills |
| $\square$ Have good communication skills | $\square$ Like computers |
|  | $\square$ Work alone |
| Health | $\square \quad$ Like vocational technical classes |
| $\square \quad$ Like to help people | $\square$ Customer service skills |
| $\square$ People trust me |  |
| $\square$ Enjoy biology, chemistry or physics | Public \& Human Services |
| $\square \quad$ Like working a flexible schedule | $\square \quad$ Can take the initiative |
| $\square \quad$ Like to work with the sick or injured | $\square \quad$ Be involved in helping people with personal problems |
| $\square \quad$ Think critically and creatively | $\square$ Help people in legal situations |
| $\square \quad$ Can be physically demanding | $\square \quad$ Work with small children |
| $\square \quad$ Like to work with data | $\square \quad$ Persuade individuals to take certain actions |
| $\square$ Use math principles in practical situations | $\square$ Have good communication skills |
|  | $\square \quad$ A team player |
| Hospitality | $\square$ Have flexible schedule |
| $\square \quad$ Enjoy preparing food | $\square$ Like social science courses |
| $\square$ Use math principles in practical situations |  |
| $\square \quad$ Like working with the public |  |
| $\square$ Comfortable working a flexible schedule, sometimes under pressure |  |

Schedule an appointment with the program counselor/advisor at the campus offering the program(s) that interest you. This appointment will provide you with more details about the program and its requirements and will help confirm your program choice.

Contact the counseling/advising staff at the campus you plan to attend for more in-depth career assistance if needed. The Ankeny and Urban Campuses can also provide additional resources and services through their Career Resource Centers.

## Liberal Arts and Sciences

The Liberal Arts and Sciences division of the College offers traditional college freshman/sophomore courses in communications, humanities, math, science and social sciences. It provides liberal arts and preprofessional courses; paraprofessional courses in disciplines such as biotechnology, criminal justice and human services; courses for preprofessional preparation; selected general education courses for vocational programs; and remedial courses in mathematics, reading and writing for students who need academic assistance before undertaking college-level work. Students who graduate with an AA or AS degree are expected to demonstrate the ability to think and to communicate effectively both orally and in writing; to use mathematics meaningfully, not just punch in numbers on a calculator; to understand the modes of inquiry of the major disciplines; to be aware of our culture and of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; to develop the capacity for self-understanding and problem-solving; and finally, to gain sufficient depth in some field of knowledge to contribute to society.

## DMACC students will acquire skills for lifelong learning by:

I. Understanding and demonstrating effective communication.
2. Understanding and demonstrating logical and critical thinking.
3. Developing an understanding of fundamental scientific principles and their application.
4. Developing an understanding of fundamental mathematical principles and their application.
5. Developing an understanding of human society and cross-cultural variation and perspectives.
6. Developing a knowledge of and appreciation for the human condition as expressed in works of human imagination and thought.

## Professional Preparation

Des Moines Area Community College offers a wide range of preprofessional preparation designed to prepare students for their transfer to four-year colleges and universities. Graduates are awarded the Associate in Arts or Associate in Sciences degree with a major in Liberal Arts.

Four-year colleges and universities vary in the required number and nature of preprofessional and general education courses that should be taken during the freshman and sophomore years. The recommended preprofessional curricula listed on the following pages should be used only as suggested guidelines.
Students who have determined which profession they plan to enter should become familiar with the specific course requirements of the four-year institution to which they plan to transfer. Then with the help of an academic advisor or counselor, students can develop a curriculum best suited to satisfy their particular transfer objectives.

## Examples of professional preparation (pre)programs available include:

| Accounting | Engineering | Social Work |
| :--- | :--- | :--- |
| Architecture | Law | Veterinary Medicine |
| Business | Medicine |  |
| Chiropractic | Nursing |  |
| Computer Science | Optometry |  |
| Dentistry | Pharmacy |  |
| Education | Physician's Assistant |  |

## Associate in Arts Degree (AA)

The Associate in Arts degree provides the courses of study equivalent to those offered to freshmen and sophomore-level students attending any four-year college/university. If students receive the AA from DMACC, this degree, in most cases, will meet the lower division requirements of four-year colleges/universities and will admit them to the junior status level. The degree requirements consist of both their general education requirements and elective courses to be used in preparation for a major area of study.
Students should contact the specific institution to which they wish to transfer regarding any unique requirements of that institution. The DMACC Advising and Counseling staff can also assist students with the transfer process. (See transfer tips in the Tips for Student Success section of the catalog.)

## College transfer work is offered in the following disciplines:

Many four-year colleges/universities have joined with DMACC to develop articulation agreements and specific major transfer guides to assist students. Students should visit personnel from each college for the most current information.

| Accounting | English | Nursing |
| :--- | :--- | :--- |
| Anthropology | Environmental Science | Optometry |
| Architecture | Fitness and | Pharmacy |
| Art | Sports Management | Philosophy <br> and Religion |
| Biology | Foreign Language | Physics and Astronomy |
| Business | Geography | Political Science |
| Administration | Global Studies | Psychology |
| Chemistry | History | Physician's Assistant |
| Chiropractic | Humanities | Sociology |
| Computer Science | Journalism | Social Work |
| Criminal Justice | Law | Spanish |
| Drama | Literature | Speech |
| Dentistry | Mathematics | Veterinary |
| Education | Medicine |  |
| Engineering | Music |  |

## AA Degree requirements

To receive an AA degree, students must:
A. Maintain a 2.0 grade point average on all work applicable to the AA degree.
B. Earn a minimum of $\mathrm{I} / 3$ of the semester credit hours applicable to the degree being pursued at DMACC. No more than 43 transfer semester credit hours may be applied toward the degree.
C. Complete the final io semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
D. Complete a minimum of 64 semester credit hours.
E. Include at least 48 semester credit hours of Core courses:

- Communications 9 credits
- Social \& Behavioral Sciences 9 credits
- Math \& Sciences 9 credits
- Humanities 9 credits
- Distributed Requirements I2 credits
F. Include at least I 6 semester credit hours of elective credit.
I. Students may include 16 semester credit hours of vocational/ technical credit.

2. Students may have up to 8 semester credit hours of Independent Study Courses; up to 4 semester credit hours of Independent Study may be earned in any single semester.
G. Complete 3 semester credit hours to satisfy the Diversity Requirement with a minimum grade of " C " or better. The Diversity Requirement does not increase the number of credits required for graduation. The course used to fulfill the Diversity Requirement may also be used to fulfill three credits of Core requirements in Communications, Social \& Behavioral Sciences, Humanities or Distributed Requirements if the diversity course is listed as fulfilling Core requirements in Communications, Social \& Behavioral Sciences or the Humanities. If the course does not fall under any of the Core groups, the course used to fulfill the Diversity Requirement may count as an elective.
Courses that satisfy the Diversity Requirement at Des Moines Area Community College may or may not satisfy diversity requirements at other academic institutions. Students planning to transfer should contact their transfer institutions to verify the transferability of courses.

## Communications

9 Credits
Students must take three courses:
I. ENG io5 Composition I
2. ENG io6* Composition II or ENG io8 Comp II: Technical Writing
*Students who plan to transfer to a four-year institution are advised to take ENG 105 and ENG 106.
3. One speech course from the following list:

SPC ior Fundamentals of Oral Communication
SPC i26 Interpersonal and Small Group Communication
Social \& Behavioral Sciences
9 Credits
NOTE: Students must complete at least 3 courses. Each course must be from a distinct discipline (reflected by a distinct acronym).

64 Credits

## Associate in Science Degree (AS)

The Associate in Science degree is awarded upon satisfactory completion of a program of college-level courses designed to prepare students for transfer to a four-year college/university or for skills preparation for entry-level employment in a specific occupation (Career Option Programs) where a bachelor's degree is usually needed. For advancement in the field, a bachelor's degree is typically required.

Career Option Programs available at DMACC are:

Accounting Information Systems
Accounting Paraprofessional
Aging Services Management
Biotechnology
Business Administration
Early Childhood Education
Criminal Justice

Fitness \& Sports Management
Fire Science Technology Human Services Interpretation \& Translation Legal Assistant Management Information Systems

Information on each program is found in this catalog. See Index for page numbers.

## Associate in Science Requirements

To receive an AS degree, students must:
A. Maintain a 2.0 grade point average on all work applicable to the AS degree.
B. Earn at Des Moines Area Community College a minimum of I/3 of the semester credit hours applicable to the degree being pursued. No more than 43 transfer semester credit hours may be applied toward the degree.
C. Complete the final io semester credit hours at DMACC
(or petition to the Registrar for, and receive, an exception).
D. Complete a minimum of 64 semester credit hours.
E. Include at least 28 semester credit hours of Core courses:

- Communications 9 credits
- Social \& Behavioral Sciences 6 credits
- Math \& Sciences 6 credits
- Humanities 3 credits
- Distributed Requirements 4 credits
F. Include at least 36 semester credit hours of elective credit.
I. Students may include 16 semester credit hours of vocational/ technical credit.

2. Students may have up to 8 semester credit hours of Independent Study Courses; up to 4 semester credit hours of Independent Study may be earned in any single semester.
G. Complete 3 semester credit hours to satisfy the Diversity Requirement with a minimum grade of "C" or better. The Diversity Requirement does not increase the number of credits required for graduation. The course used to fulfill the Diversity Requirement may also be used to fulfill three credits of Core requirements in Communications, Social \& Behavioral Sciences, Humanities or Distributed Requirements if the diversity course is listed as fulfilling Core requirements in Communications, Social \& Behavioral Sciences or the Humanities. If the course does not fall under any of the Core groups, the course used to fulfill the Diversity Requirement may count as an elective.
Courses that satisfy the Diversity Requirement at Des Moines Area Community College may or may not satisfy diversity requirements at other academic institutions. Students planning to transfer should contact their transfer institutions to verify the transferability of courses.

## Core Requirements

28 credits

## Communications

9 credits
Students must take three courses:
I. ENG io5 Composition I
2. ENG Io6* Composition II or ENG io8 Comp II: Technical Writing
*Students who intend to transfer to a four-year institution are advised to take ENG 105 and ENG 106.
3. One speech course from the following list:

SPC ioi Fundamentals of Oral Communication
SPC i26 Interpersonal and Small Group Communication

## Social \& Behavioral Sciences

6 credits

Total AS Degree Requirements. 64 Credits

## Associate in General Studies Degree (AGS)

The Associate in General Studies degree provides students an opportunity to select their course work to meet specific educational goals and interests. The AGS degree is generally not designed to meet college transfer requirements. Students wishing to complete an AGS degree are encouraged to consult with a counselor or advisor on their campus for assistance.

## Associate in General Studies Requirements

To receive an AGS degree, students must:
A. Maintain a 2.0 grade point average on all work applicable to the AGS degree.
B. Earn at Des Moines Area Community College a minimum of I/3 of the semester credit hours applicable to the degree being pursued. No more than 43 transfer semester credit hours may be applied toward the degree.
C. Complete the final io semester credit hours at DMACC (or petition to the Registrar for, and receive, an exception).
D. Complete no more than 8 semester credit hours of Independent Study courses; no more than 4 credits of Independent Study may be earned in a single semester.
E. Complete a minimum of I2 semester credit hours at DMACC after the AGS program approval effective date of January I, 1992.
F. Satisfy the following AGS Degree Requirements:

| - Communications | 3 credits |
| :--- | :--- |
| - Social \& Behavioral Sciences | 3 credits |
| - Math \& Sciences | 3 credits |
| - Distributed Requirements | 3 credits |

## Accounting \& Bookkeeping

The Accounting and Bookkeeping program prepares you for a career in accounting. Many career opportunities exist for you upon completion of the Accounting and Bookkeeping program. You will identify, analyze, summarize, communicate and record business transactions.
You will take specialized courses in accounting including payroll, financial and managerial computers and accounting procedures, equipping you with marketable skills for any business environment. You will receive not only conceptual training but actual "hands-on" training that will provide you with the important abilities needed for success. You will complete an internship in a professional work environment where many of the skills and procedures studied in the classroom are practiced under the combined guidance of a teacher and a cooperating employer. You will find employment opportunities in the profit and nonprofit private and governmental sectors.

## Locations: Boone, Urban

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. ADM IO5 Intro to Keyboarding at DMACC or equivalent is strongly recommended.

## Students start Fall term.

## Graduation Requirements

To earn an Accounting and Bookkeeping diploma, a student must complete the requirements for the degree and maintain a 2.0 grade point.

| Term 1-Select $\mathbf{1}$ Course from Option $\mathbf{1}$ and $\mathbf{1}$ Course from |  |  |  |

Adult Services (see Certificate Section, page 115)

## Aging Services Management

The Aging Services Management program provides students with the opportunity to develop the knowledge and skills needed to perform the duties of a health care administrator in long-term care facilities and residential care facilities; director in assisted living and adult day care programs; or management with adult services agencies. An administrator or director may be responsible for planning, organizing, staffing, directing and budgeting of a facility or agency that works with the older adult population. Students in this program will explore specific administration areas such as management, services, financial, legal regulations and human relations. There are four tracks for students to select a career path. The Aging Services Management programs provide classes on the Web, TV and weekends to meet the needs of nontraditional students.
Students completing the AS degree will have the option of seeking employment in a healthcare-related field, or transferring to a four-year college or university.

IMPORTANT NOTE: Students are strongly advised to contact one of the staff members in Aging Services Management in Bldg. 24, Room 208 A on the Ankeny Campus or call 515-964-6814 or 515-964-6262 regarding additional important information to meet state licensure requirements for nursing home administrator.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students may start any term.

## Graduation Requirements

To earn an Aging Services Management AS degree with an emphasis in either the Long-Term Care Administration track or the Adult Services track, a student must complete the standard core requirements for the degree, plus the required and option courses and maintain a 2.0 grade point average.

## Long-Term Care Administration Track

The Long-Term Care Administration AS degree track provides students with the knowledge and skills needed to perform the duties of a nursing home administrator. To be eligible to be a nursing home administrator in Iowa, students will need to transfer to a four-year college or university and complete a BS/BA degree. Administrators play a vital role in planning, organizing, staffing, directing and controlling the operation of a long-term care facility.

## Required Courses

| Complete | AS Degree Core Requirements | $\mathbf{2 8}$ |

## Long-Term Care Administrator <br> (see Certificate Section, page 125)

## Agribusiness

The Agribusiness program is designed to prepare students for the rapidly expanding food, fiber and natural resources industry. Students are given an option of emphasizing agricultural supply and service or farm management.

This program provides the student with training in the latest developments in technical agriculture in both the classroom and industry settings. The program also includes on-the-job employment experience in the industry. Students who elect to take agricultural supply and service courses will be capable of filling entry-level jobs including agronomist, or livestock, grain and petroleum marketing specialist. Other job opportunities may be found within the seed, chemical, banking and commodity brokerage industry.
Students who elect to take farm management courses may enter production agriculture or find employment as a farm management specialist.
Students should visit with program instructors and counselors for information regarding courses that transfer to four-year institutions.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start any term.

## Graduation Requirements

To earn an Agribusiness AAS degree, students must complete all course work as prescribed and maintain a 2.0 grade point average.

## American Sign Language Interpreter Training

The American Sign Language Interpreter Training program prepares students for a lifetime of commitment to serving the Deaf Community in the capacity of an ally and an interpreter. All four American Sign Language courses satisfy liberal arts core requirements in the Humanities and are widely accepted as foreign language requirements at colleges and universities.

Earning a degree in American Sign Language Interpreting offers many benefits. This demanding and rewarding career offers freelance, part-time and full-time opportunities almost anywhere in the country. Qualified interpreters work in hundreds of thousands of life experience settings. The diversity experienced through serving the Deaf Community is a lifetime of self-journey and discovery.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the required COMPASS assessment.
3. Attend any required information/registration session.
4. Complete the following courses with a grade of C (not C-) or better in each:
ASL i5I (American Sign Language I) or approved equivalent from another college
ASL i8I (American Sign Language II) or approved equivalent from another college
ITP I23 (Intro to ASL Interpreting)
ITP 133 (Deaf Culture and Community)
5. After the COMPASS assessment requirement has been met, initially students will be admitted to the Liberal Arts AA degree program, with a pre-program American Sign Language Interpreter Training major. After term two, applicants will be required to participate in a performance activity with standardized rubrics to demonstrate a minimum level of ASL proficiency. An ASL professor(s) and/or a professor and one qualified representative from the Sign Language Interpreting Community will assess the activity. Students with a minimal level of ASL competency will be admitted to the program.

## Students start Fall term.

## Graduation Requirements

To earn an American Sign Language AA degree, students must complete the standard core requirements for the degree, plus the American Sign Language Interpreter Training required courses and maintain a 2.0 grade point average.

Note: If the student completes ASL 151, ITP 133, ASL 181, ASL 251, or ASL 291 with a grade of "C" or higher, the course will meet the Diversity Requirement. See the AA/AS section of this catalog for more information.

## Architectural Millwork

The Architectural Millwork program will give students the training to produce one-of-a-kind cabinetry, millwork (wood trim) and solid surface products, such as solid surface counter tops. Students will receive classroom instruction as well as hands-on training and experience using modern millwork equipment. Graduates of the program will earn a diploma, which will prepare them for entry-level positions in the architectural millwork field.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.

## Auto Mechanics Technology

The Auto Mechanics Technology program is designed to prepare students for employment in the high-technology automotive service industry and to update those already employed.
The Auto Mechanics Technology Associate of Applied Science (AAS) degree program is a comprehensive training program designed to cover all aspects of automotive repair. Graduates with an AAS degree find employment in dealerships, independent service facilities, corporate repair facilities and automotive parts establishments. They are employed as automotive technicians, insurance claims adjusters, automotive instructors, parts specialists and repair technicians in related fields.
There are three separate diploma options that can be taken individually or in combination. One option prepares graduates for job entry in current automotive technology tune-up and engine repair. Another option prepares graduates to enter the automotive industry trained in the latest power train and chassis repair techniques. A third option prepares graduates to enter the automotive industry as a maintenance and light repair technician. Diploma recipients may receive an AAS degree by completing the additional courses required for the Auto Mechanics Technology AAS degree.

## Location: Ankeny

Selected courses offered at the other campuses.
Auto Maintenance \& Light Repair diploma is available only at the Urban Campus.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
Ankeny Campus students start Fall and Spring term.
Urban Campus students start Fall term.
Graduation Requirements
To earn a diploma in Auto Engines and Tune-Up, Auto Chassis and Power
Train or Maintenance Light Repair, or an AAS degree in Auto Mechanics
Technology, a student must complete all course work as prescribed and
maintain a 2.0 grade point average.

## Auto Engines \& Tune-Up

This diploma option prepares graduates for job entry in current automotive technology tune-up and engine repair.

## Biomass Operations Technology

(see Certificate Section, page 116)

## Biotechnology

The Biotechnology program is designed to prepare students to work as Biotechnology technicians in this rapidly expanding field that spans many different disciplines including: agriculture, environmental products, medical diagnostic tests and treatments, industrial products and criminal investigation. Technicians may work in the areas of laboratory research, product development, quality control, manufacturing and testing. Specific career opportunities could require skills related to genetic engineering of plants or microorganisms, gene therapy to correct human health problems, DNA fingerprinting, vaccine development or production of food, drugs and other consumer products.
The program is structured to allow students to develop marketable job skills while incorporating the requirements for a two-year liberal arts degree. Most of the credits will transfer to four-year institutions. The program includes many lab-based courses, which enables students to apply what they learn in chemistry, math and statistics, biology, microbiology, genetics and molecular biology. Specific skills such as written and oral communications, critical thinking, problem-solving, computer skills and small group collaboration are an integral part of the program. Students participate in internships in cooperation with potential employers.
Students planning to transfer to a four-year program after completion of this program should take CHM I65 and I75 instead of CHM I22 and I32. CHM 263 and 273 may also be taken depending on the program being considered. In addition, many four-year programs will require calculus (MAT 2II and/or 217) and physics (PHY 213 and 223), which can be taken at DMACC. Additional credit hours in humanities and the social sciences may also be helpful. Please check with the program chairperson for Biotechnology or an advisor for additional information or assistance.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Must submit proof of one year of high school chemistry or Academic Achievement Chemistry I \& II or successful completion of CHM I22.
5. Must submit proof of two years of high school algebra or MAT 063 \& MAT 073.
6. Demonstrate satisfactory writing skills on college entrance or assessment exam.

## Students start Fall or Spring term.

## Graduation Requirements

To earn a Biotechnology AS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Building Maintenance <br> (see Certificate Section, page 116)

## Building Trades

The Building Trades program provides students with the skills and knowledge necessary to enter either residential or commercial construction fields.
Classroom work focuses on familiarizing the students with basic knowledge of construction materials. Laboratory activities emphasize practical hands-on skills needed in the building trades.
The last term is devoted to applying classroom theory and lab skills in an actual construction job, either residential or commercial.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start Fall term.

## Business

Students planning to major in business administration or related fields at a four-year college/university can satisfy many of their general education requirements at Des Moines Area Community College. Since degree requirements vary at senior institutions, students should become familiar with the specific course requirements of their selected transfer institution. Students are also encouraged to contact the four-year major advisor as early as possible to develop a transfer plan. DMACC advisors and/or counselors can also help by providing transfer materials and course planning assistance.

## Business Administration-AA or AS

The Business Administration program offers the student a number of career and educational opportunities. The program allows students to choose either an AA or AS degree. Students who plan to transfer to a four-year college or university should consider the AA degree. The AA degree will satisfy most freshman and sophomore Business Administration requirements of four-year colleges if planned carefully with an advisor. The AS degree is designed for students who want to prepare for an immediate career in business.
Unique features of the Business Administration curriculum include: an introduction to American and international business practices, accounting practices and business law concepts. The Student Development Office can provide course check sheets from the various colleges, identifying which DMACC courses should be taken for college transfer. Students planning on transferring to a four-year college should contact a counselor or advisor for course planning assistance.

## PROGRAMS AVAILABLE

## Graduation Requirements

To earn a Business Administration AA or AS degree, a student must complete the standard core requirements for the degree, plus the Business Administration required courses and maintain a 2.0 grade point average.

## AA Degree

| Required Courses |  |  |
| :--- | :--- | :--- |
| ACC 131 | Principles of Accounting I | 4 |
| ACC 132 | Principles of Accounting II | 4 |
| BUS 102 | Intro to Business | 3 |
| BUS 185 | Business Law I | 3 |
| BUS 220 | Intro to International Business | 3 |
| ECN 120* | Principles of Macroeconomics | 3 |
| ECN 130* | Principles of Microeconomics | 3 |

- ECN 120 and ECN 130 are required courses for this program and shall also be used to - fulfill 3 credits of Social \& Behavioral Sciences AA Core and 3 credits of Distributive AA Core.

## Complete Remaining AA Degree Core Requirements as follows:

Communications 9

Social \& Behavioral Sciences
( 6 credits +3 credits for ECN 120 from above)
Math \& Sciences
Check with the four-pear institution before selecting your math and science courses because certain courses are prerequisites for admission into the College of Business at different colleges and universities.)
Humanities ..... 912
(9 credits +3 credits for ECN 130 from above)
(Check with the four-pear institution before selecting your distributive credits because certain additional math courses are required as prerequisites for admission into the College of Business at different colleges and universities.)
Note: If the student completes BUS 220 with a grade of "C" or higher, the course will meet the Diversity Requirement. See the AA/AS section of this catalog for more information.

Note: If the student completes BUS 220 with a grade of "C" or higher, the course will meet the Diversity Requirement. See the $A A / A S$ section of this catalog for more information.

## TOTAL CREDITS REQUIRED TO COMPLETE THE BUSINESS ADMINISTRATION AS DEGREE

 66
## Business Information Systems

The Business Information Systems program is intended for the student who is interested in a programming career in a client/server environment or in the areas of electronic commerce or database applications. This is especially true of the career opportunities in the PC-related programming fields, as well as the newer fields of electronic commerce and databases.
The BIS degree will allow a student to study a variety of different areas related to PC programming and related applications. This program emphasizes flexibility to allow a student to take courses that relate to specific areas of interest. It is also possible for the student to take course work from several different but related areas of study. For example, many electronic commerce applications use databases as an integral part of their business. These combined skills will give the student a more marketable background.
Information Technology careers require more diversity of skills and abilities than in the past. Employers are looking for employees with a variety of skills in related areas. Many projects today require a variety of computer-related skills and business knowledge. This degree will address those demands through flexible course selection and exposure to a variety of programming skills and tools.

## Location: Ankeny, Newton, Urban, West

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Successful completion of CSC iıo or equivalent.
5. Successful completion of ADM io5 or equivalent strongly recommended.

## Students start any term.

## Graduation Requirements

To earn a Business Information Systems AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Chemical Dependency Counseling <br> (see Certificate Section, page 117)

## Civil Engineering Technology

The Civil Engineering Technology program prepares the student for a career as a technician in the areas of design, surveying, construction and materials testing. This is designed to be a two-year degree program.
This program is designed to fill an increasing demand for technically skilled people in the civil engineering technology field, and demand is expected to continue well into the 2ist century.
Career opportunities with this degree are with construction firms; surveying firms; consulting engineering firms; federal, state and local government agencies; materials testing labs and many other areas of the private sector that support the transportation industry.

## Location: Boone

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the required assessment by taking the reading and English COMPASS test or equivalent.
3. Minimum COMPASS test algebra score of 39 or a minimum math score of is on the ACT exam. (Scores may not be more than three years old.) These scores reflect the suggested level of math skills necessary to be successful in the field of Civil Engineering Technology. Students who do not currently meet the minimum scores required must meet with an advisor to develop an action plan for improving their math skills.
4. Attend any required information/registration session.

## This program is designed to start in the Fall semester.

Students who desire to start other terms may be accepted, but may not graduate in four semesters due to the sequencing of course work. If starting other than fall, please contact the Civil Engineering Technology department.
Terms I-3 of the Civil Engineering AAS Degree are identical to Terms I-3 of the Land Surveying AAS Degree. Prior to the start of Term 4, students must choose the Civil Engineering emphasis or the Land Surveying emphasis. Students who were accepted into the Civil Engineering program must contact the Counseling/Advising office to switch their major to Land Surveying.

## Commercial Horticulture

The Commercial Horticulture program provides students with technical training in the broad horticultural field through classroom, greenhouse, turf lab, tree nursery and practical on-the-job employment experiences.
Graduates of the program will be capable of filling jobs in fields such as greenhouse operator and management involving greenhouse production, scheduling and marketing; landscaping involving design, planting and maintaining trees, shrubs, turf and foliage plants for the beautification of home, commercial, public and recreational grounds. Other jobs may include turf management involving establishing, managing and maintaining grassed areas for ornamental and/or recreational purposes; nursery operation and management concerned with the production of trees, shrubs and turf for the purpose of transplanting or propagating them. Employment may also be found in garden center merchandising and management, merchandising of flowers and foliage plants and their design. Certificates of specialization are offered in Greenhouse Production, Landscape Design and Turf Maintenance.
In addition to the required and option courses listed, there are elective courses that may be taken for additional credit. Those courses are AGH 160 Irrigation Systems and AGH 241 Sports Turf.

To earn a Commercial Horticulture AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Required Courses

| AGH 147 | Soil Fertility for Hort. | 1 |
| :--- | :--- | :--- |
| AGH 159 | Landscape Drafting | 2 |
| AGH 221 | Principles of Horticulture | 3 |
| AGH 142 | Construction, Safety \& Maintenance | 3 |
| AGH 123 | Woody Plant Materials | 3 |
| AGH 132 | Introduction to Greenhouse | 3 |
| AGH 111 | Intro to Turfgrass Management* | 2 |
| AGH 154 | Residential Landscape Design | 3 |
| AGH 805 | Horticulture Internship I | 2 |

| AGH 233 | Plant Propagation I |  | 3 |
| :---: | :---: | :---: | :---: |
| AGH 155 | Landscape Design II |  | 2 |
| AGH 251 | Insects and Diseases |  | 2 |
| AGH 120 | Herbaceous Plant Materials |  | 3 |
| AGH 283 | Pesticide Application Certification* |  | 2 |
| SDV 153 | Pre-Employment Strategies |  | 2 |
| AGH 281 | Arboriculture |  | 3 |
| AGH 292 | Garden Center Management |  | 3 |
| AGH 815 | Horticulture Internship II |  | 2 |
| AAS Deg | Core Science Course |  | 3 |
| For the Turf Maintenance Emphasis, the following course is required |  |  |  |
| AGH 211 | Advanced Turfgrass Management* |  | 3 |
| For the Greenhouse Production Emphasis, the following course is required |  |  |  |
| AGH 133 | Greenhouse Production Techniques |  | 3 |
| Option Courses Either Plan-Select 1 Course from Option 1, 2 and 3 |  |  |  |
| MAT 141 | Finite Mathematics | Opt 1 | 4 |
| MAT 772 | Applied Math* | Opt 1 | 3 |
| ENG 105 | Composition I | Opt 2 | 3 |
| COM 703 | Communication Skills | Opt 2 | 3 |
| MGT 145 | Human Relations in Business | Opt 3 | 3 |
| PSY 111 | Introduction to Psychology | Opt 3 | 3 |
| PSY 102 | Human and Work Relations | Opt 3 | 3 |
| Either Plan-Select 2 Courses from Option 4 |  |  |  |
| ACC 111 | Intro to Accounting | Opt 4 | 3 |
| MKT 140 | Selling | Opt 4 | 3 |
| CSC 110 | Intro to Computers | Opt 4 | 3 |
| Either Plan-Select 1 Course from Option 5 |  |  |  |
| AGH 262 | Fruit and Vegetable Science | Opt 5 | 3 |
| AGH 272 | Nursery Production I | Opt 5 | 3 |
| Either Plan-Select 1 Course from Option 6 |  |  |  |
| AGA 154 | Fundamentals of Soil Science | Opt 6 | 3 |
| AGH 146 | Soil Science for Horticulture | Opt 6 | 3 |
| TOTAL CREDITS REQUIRED TO COMPLETE <br> THE GREENHOUSE PRODUCTION EMPHASIS $\qquad$ 71 |  |  |  |
|  |  |  |  |
| TOTAL CREDITS REQUIRED TO COMPLETE <br> THE TURF MAINTENANCE EMPHASIS $\qquad$ 71 |  |  |  |
|  |  |  |  |
| In addition to the courses required for this degree, students may take the following courses to enhance their background or for personal enrichment: |  |  |  |
| AGH 160 | Irrigation Systems* |  | 2 |
| AGH 241 | Sports Turf* |  | 2 |
| AGH 103 | Floral Design I |  | 1 |
| AGH 104 Floral Design II 1 |  |  |  |

## Computer-Aided Design Technology

Computer-Aided Design (CAD) Technology prepares students for a career in a variety of design and drafting disciplines. The CAD technology student will be exposed to and operate different CAD software packages and related equipment. Students will learn how to create CAD models and drawings to meet international and U.S. customary design and drafting standards.

Students can obtain a one-year diploma or a two-year associate degree in CAD technology. Students enrolled in the one-year diploma will be taught basic drafting and CAD practices with emphasis on entry-level drafting job skills. Students enrolled in the associate degree program will complete the first-year diploma requirements and in the second year apply advanced CAD software operations including three-dimensional parametric (solid) modeling, model/ assembly analysis and geometric dimensioning and tolerancing. Associate degree students will also be taught a variety of specialized design and drafting standards that are used in several different industries.
Engineering and manufacturing design and drafting, computer animation, technical publishing and independent CAD contracting are areas where Computer-Aided Design Technology program graduates may find employment.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Successful completion of CSC iло (Introduction to Computers) or equivalent or approval of the program counselor.

## Students start Fall term.

## Graduation Requirements

To earn a Computer-Aided Design Technology diploma or AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

| Term 1-Select $\mathbf{1}$ Course from Option 1 |  |  |  |
| :--- | :--- | :--- | :--- |

(see Certificate Section, page 118)

## Criminal Justice-AA or AS

The Criminal Justice program prepares students for a career in such areas as law enforcement, corrections, security and juvenile justice. The program allows students to choose either an AA or AS degree. All students must complete the basic Criminal Justice requirements, then select other Criminal Justice classes in areas of primary interest.
Note: Students who have a criminal background history may make it through the program, but it is NOT likely that they will find employment in the Criminal Justice field, and students with a criminal history may NOT be eligible for an internship that is required for the AS degree.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start any term.

## Graduation Requirements

To earn a Criminal Justice AA or AS degree, a student must complete the standard core requirements for the degree, plus the Criminal Justice required courses and options and maintain a 2.0 grade point average.
AA Degree-Law Enforcement Emphasis

## Culinary Arts

The DMACC Culinary Arts program has been designated the Iowa Culinary Institute, signifying the world-class prominence of the program. The Culinary Arts program is accredited by the American Culinary Federation. The Culinary Arts program prepares students to enter culinary positions with hotels, restaurants, clubs or institutions and some select jobs in dining room service, catering or management. By the end of the program, graduates will have taken courses in food preparation, nutrition, menu planning, purchasing, garde manger and baking. International cuisine, restaurant management and advanced culinary cuisine are practicum courses and a valuable part of the training. These courses are management designed and offer students practical knowledge of the restaurant industry.
*In order to facilitate student success, the Culinary Arts program offers a learning community where students complete HCM 320 Intro to Hospitality Industry and SPC 101 Fundamentals of Oral Communication (speech) together. Students are required to enroll in the learning community during their first or second semester and will receive details about this when they attend orientation and registration after being admitted to the program. Only students who completed speech at DMACC prior to entering the Culinary Arts program or by transferring credit from another college or university will be permitted to fulfil this requirement with an option course other than SPC 101.
Terms A and B are the first two terms of the program. For the first two semesters, students are divided into groups A and B. Students in group A take the courses listed below under Term A their first semester and then complete Term B in their second semester. Students in group B take the courses listed below under Term B their first semester and then complete Term A in their second semester. All students complete the same courses in Terms 3, 4 and 5.
Upon successful completion of terms A through 5, students will receive a Culinary Arts AAS degree. Students with a shorter-term educational goal may receive a diploma upon completion of terms A, B and 3. The first three terms must be completed before enrollment is allowed in terms 4 and 5 .

## Wait List Processing

The student's position on the wait list will be determined by the number of support courses completed. (MGT I45 Human Relations in Business, COM 703 Communication Skills, any ENG course designated as AAS Degree Requirement, BUS iı2 Business Math, MAT 772 Applied Math and any MAT or BUS course designated as AAS Degree Requirement.) When there is no completion of any remaining support courses for three years from the date the student's name went on the wait list, the applicant will be deleted from the list.

## Location: Ankeny

## PROGRAMS AVAILABLE

## Dental Assistant

The Dental Assistant program prepares the student, as a member of the dental health team, to assist the dentist in all phases of dentistry. The program includes general and specialty dentistry, chairside procedures, radiology and laboratory and business office assisting.
An integral part of the educational program is clinical experience; this is provided by rotation through various dental facilities.
The Dental Assistant program is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council of Postsecondary Accreditation and the United States Department of Education.

Note: Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from.
participating in clinical education experiences. Students unable to participate in
clinical education will be unable to complete the Dental Assistant program.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Keyboard skills of 35 WPM with no more than 5 errors is strongly recommended.
5. Submit proof of high school graduation or GED prior to enrollment.
6. High School biology or equivalent with a grade of " C " or better is required.

## Students start Fall term.

## Graduation Requirements

To earn a Dental Assistant diploma, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Term 1

| DEA 253 | Dental Science I | 4 |
| :--- | :--- | :--- |
| DEA 256 | Dental Anatomy | 2 |
| DEA 424 | Dental Materials Lab | 1 |
| DEA 507 | Principles of Dental Assisting | 6 |

| ENG 105 | Composition I | 3 |

## Term 3

DEA 297 Ethics/Jurisprudence Seminar 1
DEA 577 Dental Assisting Clinic II 4

PSY 102 Human \& Work Relations 3
SPC 101 Fund of Oral Communication 3
Graduates may immediately sit for the National Board exam to become a Certified Dental Assistant.

## Dental Hygiene

The Dental Hygiene curriculum is designed to prepare graduates for positions in general and specialty dental offices, hospitals, schools, public health agencies and industrial agencies.
Students are trained in educational methods and preventive clinical services that qualify them as dental health educators and competent clinicians. Emphasis is placed on the correlation between prevention, education and the clinical phases of dental hygiene practice, as well as basic and social sciences.
The Dental Hygiene program is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council of Postsecondary Accreditation and the United States Department of Education.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Attend a Dental Hygiene program information session.
3. Provide proof of high school graduation or GED completion.
4. Complete required COMPASS testing, obtaining satisfactory scores in reading (8I or above) and writing (70 or above) or ACT scores in Reading (i9 or above) and English (i9 or above).
5. Complete BIO I64 Essential Anatomy/Physiology OR BOTH BIO 733 Health Science Anatomy AND BIO 734 Health Science Physiology with a grade of "C" (not C-) or better.
6. Complete CHM 122 Introduction to General Chemistry with a grade of "C" (not C-) or better.
7. Complete BIO 886 Microbiology OR BIO 732 Health Science Microbiology with a grade of "C" (not C-) or better.
When transferring equivalent courses to DMACC, an official transcript must be sent to the Admissions Office as courses are completed.

## Wait List Processing

Position on the Wait List will be determined by the number of support courses completed. Support courses are:

CHM I32 Introduction to Organic/Biochemistry, PSY iil Introduction to Psychology, SOC iı Introduction to Sociology, ENG 105 Composition I, SPC ioı Fundamentals of Oral Communication OR SPC i26 Interpersonal \& Small Group Communication
When there is no completion of any remaining support courses for three years from the date the student's name went on the Wait List, the applicant will be deleted from the list.

## Graduation Requirements

To earn a Dental Hygiene AAS degree, a student must successfully complete all dental hygiene and liberal arts support courses required in the curriculum, achieving a grade of "C" (not C-) or better in each course. In order to progress to the next term of the Dental Hygiene program, all required courses in the current term must be completed with a grade of "C" or better.
Note: Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may prevent students from participating in clinical experiences. Students who do not participate in clinical education will be unable to complete the program.

## Early Childhood Education

The Early Childhood Education program prepares students for careers working with young children in a variety of settings. Students who successfully complete the program requirements are competent to assume a position of responsibility in early childhood education.
Course work includes child growth and development, guidance techniques, curriculum planning and assessment, infant and toddler care, health, safety and nutrition.

Students will have the opportunity to participate in the Des Moines Area Community College Child Care Center as they develop their competencies in the field of early childhood education.

When course work is completed, students will assume positions in a variety of settings such as child care centers, preschools, child development homes and public and private schools working with infants and toddlers, preschoolers or school-age children. A second degree option, Early Childhood Education Associate, is also available.
DHS criminal history record checks and fingerprinting will be completed for each student. Criminal convictions or documented history of abuse will prevent students from participating in lab and field experiences. Students unable to complete these classes will not receive a degree in Early Childhood Education.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start Fall or Spring term.

## Graduation Requirements

To earn an Early Childhood Education diploma, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Recommended Course of Study

A recommended course of study, listed below, has been created to ensure that each student completes the program in the minimal amount of time required. However, the course of study can be tailored to meet the specific needs of each student.

## Term 1

ECE 103 Intro to Early Childhood Ed 3
ECE 158 Early Childhood Curriculum I 3

*NOTE: Core courses chosen from the AAS Degree list may not be accepted for the Early Childhood Education AS Degree, if students choose to go beyond the diploma to earn the AS Degree.

## Early Childhood Education-Associate

The Early Childhood Education Associate program is designed to build on those skills developed in the Early Childhood Education diploma program and to broaden the student's background in general education. Further competence in early childhood education is developed through course work in building relationships between home, program and community, administration of programs for children and internship.
Students completing the Early Childhood Education diploma program plus the additional requirements listed will earn an Early Childhood Education Associate in Science degree. They may take one of the many jobs available in early childhood education. Students who intend to transfer should contact the Early Childhood Education program chairperson or program counselor regarding important information concerning transfer agreements with four-year institutions. This program is not intended for students who are pursuing a degree in Elementary Education.
DHS criminal history record checks and fingerprinting will be completed for each student. Criminal convictions or documented history of abuse will prevent students from participating in lab and field experiences and internship. Students unable to complete these classes will not receive a degree in Early Childhood Education.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.

## Education

Students planning to major in secondary or elementary education at a four-year college/university can satisfy many of their general education requirements at Des Moines Area Community College. Since degree requirements vary at senior institutions, students should become familiar with the specific course requirements of their selected transfer institution. Students are also encouraged to contact the four-year major advisor as early as possible to develop a transfer plan. DMACC advisors and/or counselors can also help by providing transfer materials and course planning assistance.

## Electrical Construction Trades

The Electrical Construction Trades program prepares students for entry-level positions in residential, commercial and industrial wiring. At the completion of the program, students should be able to install electrical wiring to meet National Electric Code ${ }^{\circledR}$ (NEC code) in residential and commercial settings. In addition, students should be able to install motor-controlled equipment in industrial operations using more complex systems such as Programmable Logic Controllers.

## Electronics, Robotics \& Automation

The Electronics, Robotics and Automation program prepares students for a career as a technician in industrial manufacturing. At the end of the program, students should be able to diagnose and repair industrial equipment ranging from the basic motor control devices used in hard automation to the sophisticated industrial robots and computer-integrated manufacturing cells that utilize microprocessors for programming and servo control.
The curriculum includes both the fundamental technologies and system applications. Upon program completion, students may seek employment with area manufacturers, maintaining plant equipment or with companies that produce process control or robotic devices.

## Electronics Systems Servicing Technology

The Electronics Systems Servicing Technology program prepares the student for a career as a technician for servicing electronic systems. Upon completion of this program, students should be able to diagnose and repair electronic equipment including personal security systems, business machines and medical electronics.

The curriculum includes the fundamental technologies, systems applications and an internship. Upon program completion, graduates may seek employment with local and regional electronic systems servicing companies.
The last term of the ESST program requires an internship (ELT 932). Before students enroll in the ELT 932 Internship course, they will be required to achieve a grade of "C" or higher in the DMACC courses pertaining to their chosen internship area. Students may choose an internship emphasis from one of the following four categories:

Consumer Electronics: Courses requiring a grade of " C " or higher are ELT 474 and 475.

Security Systems: Courses requiring a grade of "C" or higher are ELT 482 and 483 .

Business Machines: Courses requiring a grade of "C" or higher are ELT 478 and 479.

Medical Electronics: Courses requiring a grade of " C " or higher are ELT 484 and 485 .

## TOTAL CREDITS REQUIRED TO COMPLETE THIS DIPLOMA

## Environmental Science

The Environmental Science program is designed to prepare students for a career within the field of environmental science. Students graduating from our two-year program will be immediately qualified for some related employment opportunities, including entry-level positions with local parks and recreation departments, local utilities and field technician/monitoring positions.

Other careers in environmental science include positions as ecologists, environmental chemists, soil scientists, hydrologists, climatologists, environmental microbiologists, data collection/sampling/monitoring/field technician positions, wildlife biologists, public health officials and many others. Most of these positions require a four-year degree. Our program is designed to transfer smoothly to area institutions offering four-year degrees in environmental science and other closely related fields.

## TOTAL CREDITS REQUIRED TO COMPLETE THIS AA DEGREE <br> 68

*NOTE: Students are encouraged to take some of the courses marked with an * during the Summer semesters, to lighten their load in the Fall and Spring terms. But, students are cautioned to make sure they don't take too many credits in the Summer, causing them to fall below the minimum credits needed in Fall and Spring terms for financial aid purposes.

NOTE: One of the Social \& Behavioral Sciences or Humanities courses must meet the diversity requirement. See the AA catalog list of courses for a list of appropriate course options.

## Fashion Certificate <br> (see Certificate Section, page 120)

## Fashion/Design

Challenges and rapid advancement opportunities set in an exciting atmosphere of change, fast-paced business decisions and competition are offered to you in a fashion career. Take part in the action where style becomes a way of expression in apparel and accessories, as well as interior design. A career in the fashion industry could include management, designing, buying, marketing or promotion, sales, customer service or visual merchandising.

The curriculum has been designed with the help of employers in both the apparel and interior design industries. Many students achieve management positions upon graduation or shortly thereafter because of the specialized course work and individual effort. Graduates interested in apparel design or interior design usually transfer to a four-year program.
Instruction is based on lectures, labs, internships, speakers and a variety of conferences and field studies in fashion centers such as New York City. These activities offer the student a chance to interact with key industry professionals and develop an invaluable employment network.
Two awards are offered in the Fashion program. Upon successful completion of the Fashion/Design program, students will receive an AAS degree. Students with a shorter-term educational goal may receive a diploma

Fashion/Design emphasizes career development along with transfer options for students planning on attending a four-year college. Contact a DMACC Fashion/Design instructor, counselor or advisor for transfer planning assistance.

## Fire Science Technology

The Fire Science Technology program provides a fundamental base of knowledge for people seeking career opportunities in the broad field of fire protection.
During the program, students complete general education core requirements and specific fire science courses. The latter examine the causes and behavior of fire and the means of minimizing its destructive effects through design, detection, suppression and prevention.
Students who possess a Fire Fighter I Certification can apply for four elective credits toward the AS degree in Fire Science Technology. Students who possess a Fire Fighter II Certification can apply for three elective credits toward the AS degree in Fire Science Technology. The Certification is based on the National Fire Protection Association Standard NFPA Iooi and accredited by a nationally recognized fire service accreditation agency.

## Fitness and Sports Management

Fitness and Sports Management is designed to give students three different areas to choose from: Fitness Management, Sports Management or Health.
This degree is designed to be a two-year degree. The degree is designed for individuals who would like to pursue a career in the fitness, sports, recreation or health fields.

The Fitness and Sports Management AS degree is a transfer degree, designed to prepare students for a Fitness Management, Sports Management and Health program at a four-year school. Graduates from the program may also be able to find entry-level positions at parks and recreation departments, YMCA/YWCAs, private health clubs, golf courses, schools, hospitals or other facility management positions.

## Graphic Design ${ }_{\text {(previously }}$ commercial Art)

Initially, students will be admitted to the Visual Communications Diploma program. After Term 2 of the Visual Communications Diploma program, students will be required to apply to the Graphic Design AAS degree program. Students must submit a portfolio and obtain a satisfactory score and complete the Visual Communications Diploma or receive program chairperson permission.
If you want to take your passion for art to the next level, the Graphic Design AAS degree program is closely aligned with local business to understand their "real world" needs and develop those skills in our students. Our classes provide students with design skills, software skills and professional work practices needed to get a position in this highly competitive field. Although most graduates who gain employment begin in entry-level positions, hardworking and talented students have started as high-level designers and owners of successful freelance businesses. The Graphic Design program prepares students to find employment with advertising agencies, corporate design departments, book and magazine publishing, digital media companies, graphic design firms, printing companies, newspapers and marketing firms. Upon completion of the program, graduates will have taken courses in communication design, web design, typography, illustration, digital imaging, page layout and digital file preparation.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement by taking all three sections of the COMPASS test and:
3. Obtain a minimum score of 6 I in Reading and

## Health Information Technology

## (pending Department of Education approval)

The Health Information Technology AAS degree is designed to meet growing demands for trained health information specialists and data managers in the health IT industry. Graduates may pursue work in a variety of settings including hospitals, clinics, long-term care, insurance companies, government agencies, quality improvement programs, etc.
Course work combines elements of business, computers, health sciences and health IT with practical computer lab and on-site internship experiences. Students learn skills in areas such as coding, billing, electronic health records (HERs), registries, data analysis and reporting, quality improvement, legal compliance and other technical processes.

Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participation in health IT education experiences. Students unable to participate in health IT education will be unable to complete the Health Information Technology program.

 TO COMPLETE THIS DIPLOMA38
## Hotel and Restaurant Management

The Hotel and Restaurant Management program prepares students for a career in the hospitality field. Most graduates will enter the industry either in cooking positions or line management positions with hotels, restaurants and clubs.
Students who complete the program will have taken courses in sanitation, dining room fundamentals, business math, food preparation, marketing, purchasing, hotel services, menu planning and hotel administration. These courses are management designed and offer the student practical knowledge of either the restaurant management industry or the hotel management industry, depending on the student's chosen emphasis. Terms I, 2 \& 3 must be completed before entry is allowed into terms $4 \& 5$ to receive the AAS degree. Students planning on transferring to a four-year college should see an advisor or the program chairperson before registration.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start Fall term.

Graduation Requirements
To earn a Hotel and Restaurant Management AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Human Resource Management <br> (see Certificate Section, page 121)

## Human Services

The Human Services program prepares students for entry-level jobs or for transfer to a four-year degree program. By the end of the program, students will be able to interact effectively with clients in a human services agency.
The program emphasizes skills needed in working with clients such as interviewing, determining eligibility for services, making appropriate referrals and assisting with counseling. A supervised field experience allows students to apply their skills in a work setting.
A specialization certificate is offered in chemical dependency counseling.
When the program is completed, students may find employment in a wide variety of settings, including public and private social services agencies, treatment centers, group homes, hospitals, supported living and work programs and state or county departments of social services.

## Locations: Ankeny, Newton, Urban

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Information Technology/ Network Administration

The ITNA program will provide students with a foundation in the basic technologies of computer networking, both as an objective and measurable skill set, as well as a preface to certification. In addition, students may also prepare for CISCO certification by choosing to take the CISCO option courses. The modular design of the core/certification integration is designed to allow the future addition of other professional certifications.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Attend any required information/registration session.
3. Satisfy the required assessment by taking the reading and English COMPASS test or equivalent.
4. Complete the required COMPASS testing, obtaining a satisfactory score in pre-algebra ( 44 or higher) or ACT scores with a math sub score of i9 or higher, or completion of MAT 053 with a grade of " C " or better.
5. Successful completion of CSC ino Intro to Computers or equivalent; or approval of the program counselor.

## Students start Fall term.

## Graduation Requirements

To earn an Information Technology Network Administration AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## All students take the first three terms.

## Interpretation \& Translation

The Interpretation \& Translation program prepares functionally bilingual students for entry-level employment in the rapidly expanding language Interpretation \& Translation field or for transfer to a four-year degree program in translation/interpretation studies. At the completion of the program, students will be able to provide basic interpreting and translation service between English and their other language(s) in general contexts, as well as in at least one specialty area: judicial or healthcare. The program is designed for students who wish to add Interpretation \& Translation skills to their current set of job skills, as well as those students who wish to prepare themselves for the certification exams and further academic studies that are necessary to become professional interpreters and translators. Students in the program complete general education core requirements, a generalist track in interpretation/translation and one of the following emphases in interpretation/translation: judicial or healthcare. All students complete an internship under the supervision of a professional interpreter/ translator, during which they use the skills and apply the knowledge gained in the classroom. Interested applicants who hold a prior college degree may seek the Certificate in General Interpretation \& Translation, plus one or both of the following: Certificate in Judicial Interpretation \& Translation or Certificate in Healthcare Interpretation \& Translation.
A program chairperson and a program counselor are available to assist students with educational and career planning.
Graduates of the Interpretation \& Translation program may find employment in the courts, law enforcement agencies, healthcare institutions, social services agencies, educational institutions, nonprofit organizations, government agencies and businesses. The program also prepares students for certification exams or for further studies in the field.

## Location: Urban

Selected courses in this program may be offered at other campuses or through distance learning.

## Program Entry Requirements

I. Complete an application for admission.
2. Attend any required information/registration session or a program conference.
3. Provide evidence of proficiency in English with one of the following: a. ACT score on the English subtest of ig or above
b. A minimum COMPASS writing score of 70
c. Completion of ENG IO5 with a grade of "C" or better
d. TOEFL score of I 73 on the computer test or 500 on the paper test
e. Completion of two years of college study with a minimum GPA of 2.0 (or equivalent) at an institution where English is the medium of instruction
f. Other evidence demonstrating English proficiency may be approved by the program chairperson
4. Show proficiency in a second language with one of the following:
a. Evidence of completion of high school in a country where the language is spoken
b. Two years of college study with a minimum GPA of 2.0 (or equivalent) at an institution in a country where the language is spoken
c. Completion of a college minor in the second language with a minimum grade of "C" for all courses taken in the second language
d. Proficiency may be demonstrated with other evidence, but must be approved by the program chairperson
Note: Students will need computer skills to be successful in the program. If students do not have these skills, completion of CSC 110 or BCA 212 is strongly recommended.

## Students start any term; however, close contact with an academic advisor is recommended for planning, because many courses are offered only once per year.

## Graduation Requirements

To earn an Interpretation \& Translation AS degree, a student must complete the standard core requirements for the degree, plus the Interpretation \& Translation required courses and options, maintain a 2.0 grade point average and receive a grade of "C" or above in all ITR course work.

## Required Courses

| ITR 101 | Introduction to Interpretation \& Translation | 3 |
| :---: | :---: | :---: |
| ITR 102 | Tools for the Interpreter and Translator | 3 |
| ITR 111 | Fundamentals of Interpretation | 3 |
| ITR 115 | Fundamentals of Translation | 3 |
| ITR 910 | Emphasis Seminar | 3 |
| ITR 120 | Ethics for the Interpreter/Translator | 1 |

In addition to the required courses, students are required to select one of the following Emphasis Options:

## Judicial Interpretation/Translation Emphasis (17 credits)

| PRL 103 | Introduction to Law | 3 |
| :--- | :--- | :--- |
| ITR 128 | Legal Terminology \& Sight Translation | 3 |
| ITR 130 | Judiciary Interpreting I | 3 |
| ITR 132 | Judiciary Interpreting II | 3 |
| ITR 137 | Judiciary Translation | 3 |
| ITR 800 | Judiciary Interpreting/Translation Internship | 2 |
| Electives |  | 3 |

Students in the Judiciary Interpreting/Translation Emphasis are encouraged to take POL III or POL II2 as part of their core requirements, and PRL iI2 as their elective choice.

## Healthcare Interpreting/Translation Emphasis (17 credits)

| BIO 156 | Human Biology w/Lab | 3 |
| :--- | :--- | :--- |
| ITR 150 | Healthcare Interpreting I | 3 |
| ITR 152 | Healthcare Interpreting II | 3 |
| ITR 148 | Healthcare Terminology \& Sight Translation | 3 |
| ITR 158 | Healthcare Translation | 3 |
| ITR 810 | Healthcare Interpreting \& Translation Internship | 2 |
| Electives |  | 3 |

Students in the Healthcare Interpreting/Translation Emphasis are encouraged to take CHM IO5 as part of their core requirements, and BIO 733 or BIO 734 as their elective choice.
Note: If the student completes ITR 101 with a grade of "C" or higher, the course will meet the Diversity Requirement. See the AA/AS section of this catalog for more information.

TOTAL CREDITS REQUIRED TO COMPLETE THIS AS DEGREE

# Interpretation \& TranslationGeneralist, Healthcare \& Judiciary Certificates (see Certificate Section, page 122) 

## Land Surveying

The Land Surveying program prepares students for a career as a land surveyor in the state of Iowa. This program is designed to fill an increasing demand for technically skilled people in the land surveying field, and demand is expected to continue well into the 2ist century. A graduate of this program may be eligible to sit for the Iowa Professional Land Surveying exam after completing state licensing board requirements.
Career opportunities are with surveying firms; construction firms; consulting engineering firms; federal, state and local government agencies; and many other areas of the private sector that support the surveying industry. Many licensed surveyors own and operate their own surveying firms.

## Location: Boone

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the required assessment by taking the reading and English COMPASS test or equivalent.
3. Minimum COMPASS test algebra score of 39 or a minimum math score of is on the ACT exam. (Scores may not be more than three years old.) These scores reflect the suggested level of math skills necessary to be successful in the field of Civil Engineering Technology. Students who do not currently meet the minimum scores required must meet with an advisor to develop an action plan for improving their math skills.
4. Attend any required information/registration session.

This program is designed to start in the Fall semester. Students who desire to start other terms may be accepted but may not graduate in four semesters due to the sequencing of course work. If starting other than Fall, please contact the Land Surveying department.

Terms 1-3 of the Land Surveying AAS Degree are identical to Terms 1-3 of the Civil Engineering AAS Degree. Prior to the start of Term 4, students must choose the Land Surveying emphasis or the Civil Engineering emphasis. Students who were accepted into the Land Surveying program must contact the Counseling/Advising office to switch their major to Civil Engineering.

## Graduation Requirements

To earn a Land Surveying AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Required Courses

Term 1

## Law

Students planning to major in pre-law or go to law school after receiving a bachelor's degree at a four-year college/university can satisfy many of their general education requirements at Des Moines Area Community College. Since degree requirements vary at senior institutions, students should become familiar with the specific course requirements of their selected transfer institution. Students are also encouraged to contact the four-year major advisor as early as possible to develop a transfer plan. DMACC advisors and/or counselors can also help by providing transfer materials and course planning assistance.

## Legal Assistant

Legal Assistants perform a variety of legal tasks under the supervision of an attorney. Legal Assistants are also known as Paralegals. They work for attorneys in private practice, state agencies and public service organizations. Legal assistants work with the attorney in virtually every area of legal practice. They do not give advice or represent clients since that would be the actual practice of law.
Our objective is to educate students to become legal assistants who are capable of performing a variety of legal tasks. Graduates of the program should be able to provide a broad spectrum of services needed by attorneys. This objective is met by providing intensive and practical instruction by attorneys with experience and expertise in their fields of instruction. This program is approved by the American Bar Association.
Students in the program complete general education core requirements and legal specialty courses. Course offerings include torts and litigation, family law, business law, probate and income tax. All students complete an internship, under the supervision of an attorney, during which they use the skills and apply the knowledge gained in the classroom. Interested applicants who hold a prior college degree may seek the Legal Assistant Certificate.
A program chairperson and a program counselor are available to assist students with educational and career planning.
Graduates of the Legal Assistant program are employed in private law firms, the courts, public agencies and legal departments of large companies. Additionally, some students work in law-related jobs such as investigation, collections and bank trust departments.

## Location: Urban

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Students entering the program need satisfactory computer skills. BCA 212 Intro to Computer Business Applications is highly recommended.

## Students may start any term.

## Graduation Requirements

To earn a Legal Assistant AS degree, a student must complete the standard core requirements for the degree, plus the Legal Assistant required courses and options, maintain a 2.0 grade point average and receive a grade of " C " or above in all PRL course work.

## Management

The Management program offers students a number of career and educational opportunities. The program allows students to choose either an AA or AAS degree. Students who plan to transfer to a four-year college or university should consider the AA degree program. The AA degree will satisfy most freshman and sophomore Management requirements of four-year colleges if planned carefully with an advisor.
The AAS degree is designed for students who want to prepare for an immediate career in business. This degree will prepare you with people skills and organizational systems knowledge to succeed and earn promotions in the company or institutional environment of your choice. Experience and leadership skills are gained through on-the-job training and participation in professional development activities.
Course work in the Management AAS program includes communications and human relations, management and supervision, information processing, problem-solving and computer applications, team-building and leadership development, and organizational and human resource development. Graduates of the program have found positions as general managers, supervisors, assistant personnel managers, office managers, manufacturing and distribution managers, production supervisors, parts and inventory managers, business owners, customer service representatives, training coordinators, sales managers, buyers and purchasing agents. Advanced management positions are available to those who enter the work force and demonstrate strong, individual skills and knowledge.

 TO COMPLETE THIS AS DEGREE
## Manufacturing Technology

The DMACC Manufacturing Technology program prepares applicants for a wide variety of manufacturing tasks in industry. Successful applicants will learn the basic elements of welding, automation, computer numerical controlled machine operation, computer-aided drafting and design, machining and workplace skills. Graduates will be positioned for employment by a wide variety of manufacturers throughout the state and nation.

At completion of this two-year Associate of Applied Science degree program, graduates will be prepared for a large number of skilled careers in the manufacturing industry. Opportunities exist in many different types of manufacturing.
To apply for this program, call 515-964-6277 during business hours to request information.

| Marketing |  |  |
| Looking for a growth-oriented career? Something fast-paced, ever-changing and challenging, with opportunities for advancement and pay to match? Today, a career in Marketing offers all of this and more. You could be working for some of the fastest-growing companies and brightest leaders in business. By using your skills and creativity, you will become part of the future in American business. |  |  |
| The program allows students to choose either an AA or AAS degree. Students who plan to transfer to a four-year college or university should consider the AA degree program. The AA degree will satisfy freshman and sophomore Marketing requirements of four-year colleges if planned carefully with an advisor. |  |  |
| Course work is designed with the help of successful marketers who know what it takes to succeed. Classroom instruction is based on lectures, labs, speakers, internships and study tours. Major areas of study include marketing, sales, advertising, promotion and understanding buyer behavior in small business, retail and business-to-business marketing environments. The Marketing Program also offers many opportunities to develop and demonstrate leadership skills. |  |  |

Many graduates of the Marketing program have gone on to become marketing managers, regional marketing supervisors, professional sales and customer service representatives. Some have gone on to own their own businesses and others have found careers as managers, merchandisers and buyers in the retail community. Graduates from the Marketing program are responsible for creating and/or executing marketing strategies, hiring, training and supervising employees. They are also responsible for buying and selling product offerings and planning promotions and advertising campaigns. The employment outlook in marketing is likely to be steady as marketing is vital to a business because of the high level of competition for customers. Research indicates that about one-third of the labor force is now employed in marketing. Marketing careers offer flexibility, mobility and pay to match your ability.
The Marketing program emphasizes career development along with transfer options for students planning on attending a four-year college.
Contact a DMACC Marketing instructor, counselor or advisor for transfer planning assistance.

## Medical Assistant

The Medical Assistant program is designed to prepare students to be employed in a private physician's office, a clinic, hospital or laboratory. As multiskilled health professionals, medical assistants perform a variety of clinical procedures and administrative functions in these settings.
Students gain a basic knowledge of anatomy and physiology, laboratory procedures, administrative procedures and patient care techniques. These subjects are presented in the classroom, through laboratory experience and in a io-week supervised practicum experience in the field. The students will not receive pay during the practicum rotation.
The DMACC Medical Assistant program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), www.caahep.org, i36i Park Street, Clearwater, Florida 33756, phone 727-210-2350, upon the recommendation of the Medical Assisting Education Review Board (MAERB), of the American Association of Medical Assistants Endowment (AAMAE), 20 North Wacker Drive, Suite 1575, Chicago, IL 60606 (phone: i-800-228-2262). DMACC graduates are eligible to take the certification examination (CMA (AAMA)) given by the Certifying Board of the American Association of Medical Assistants. Graduates are also able to take the State of Iowa Limited Radiographer examination upon completion of the program.
Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participating in practicum education experiences. Students unable to participate in practicum education will be unable to complete the Medical Assistant program. A felony conviction may prevent applicants from being eligible for the AAMA Certified Medical Assistant examination.

## Medical Insurance and Coding <br> see Certificate Section, page 126)

## Medical Laboratory Technology

The Medical Laboratory Technology program prepares the student to perform complex laboratory procedures with a limited amount of supervision. This training includes a six-month hospital laboratory assignment.
The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 N. River Road, Ste. 720, Rosemont, IL 6ooı8, info@naacls.org, www.naacls.org.
Graduates are eligible to take national certification examinations. Job opportunities are found in hospitals, clinics, doctors' offices, public health laboratories, veterinarians' offices and industrial laboratories.

Background checks for criminal history may be done by clinical affiliates. This may prevent placement for clinical/practicum courses, which will affect successful program completion.

## Medical Office Specialist

The Medical Office Specialist program is designed to prepare the student to work in a variety of medical settings, including hospitals/medical centers, clinics, health insurance companies and other health-related businesses. The office specialist works with administrative areas in the practice including front office, transcription, insurance and billing and is often the first contact with the patient; however, this program is not designed to prepare the student for direct patient care.
The student is responsible for obtaining their internship site and must submit for faculty approval. Internship sites may require a background check for criminal history. Failure to pass the background check may prevent successful completion of the degree program.
Upon successful completion of all four terms, the student is eligible to receive an AAS degree. A student completing only the first three terms is eligible to receive a diploma.

## Location: Ankeny

Selected courses in this program are offered at other campuses.

## Program Entry Requirements

I. Complete an application for admission.
2. Attend any required information/registration session.
3. Satisfy the required assessment by taking the reading and math COMPASS test or equivalent.
4. Complete the required COMPASS testing obtaining a satisfactory score in Writing ( 70 or higher), ACT writing score of is or higher, completion of ENG 060 with a grade of " B " or higher or program chairperson approval.
5. Keyboarding speed of 40 nwpm or above as demonstrated by a five-minute test.

## Students start Fall term.

## Graduation Requirements

To earn a Medical Office Specialist diploma or AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Medicine

Students planning to major in pre-med or go to medical school after receiving the bachelor's degree at a four-year college/university can satisfy many of their general education requirements at Des Moines Area Community College. Since degree requirements vary at senior institutions, students should become familiar with the specific course requirements of their selected transfer institution. Students are also encouraged to contact the four-year major advisor as early as possible to develop a transfer plan. DMACC advisors and/or counselors can also help by providing transfer materials and course planning assistance.

## Microcomputers (see Certificate Section, page 126)

## Mortuary ScienceAdvanced Standing Diploma

The Mortuary Science program will prepare students who have earned a minimum of an Associate degree to work within the funeral service profession. The Mortuary Science program is a field of human and community services that prepares an individual to become a mortuary science practitioner or funeral director.

The Mortuary Science program at Des Moines Area Community College is accredited by the American Board of Funeral Service Education (ABFSE, 3414 Ashland Ave., Suite G, St. Joseph, MO 64506, www.abfse.org).

## The Aims and Purposes of the Mortuary Science program at DMACC:

The central aim of each graduate of the DMACC Mortuary Science Program is to recognize that they are community members who are sensitive to their responsibility for public health, safety and welfare in caring for human remains. As members of the human services profession, each graduate must be knowledgeable of and compliant with federal, state and local regulations, as they participate in the relationship between themselves and the bereaved families they serve.

## The Mortuary Science purposes are:

i. To enlarge the background and knowledge of students about the funeral service profession.
2. To educate students in every phase of funeral service and to help enable them to develop the proficiency and skills necessary of the profession.
3. To educate students concerning the responsibilities of the funeral service profession to the community at large.
4. To emphasize high standards of ethical conduct.
5. To provide a curriculum at the postsecondary level of instruction.
6. To encourage research in the field of funeral service.
7. To provide students the business and legal knowledge, philosophical/ ethical principles and specific techniques and skills to enable them to be successful within the funeral service profession.
8. To educate and prepare individuals for active contribution to the service and welfare of their communities.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy DMACC's general assessment requirement.
3. Attend any required information/registration session.
4. a. Submit a transcript of all completed college work that indicates the awarding of a minimum of an Associate degree (AA, AS, AAS, AGS) from a regionally accredited college or university, or
b. Submit a transcript of all completed college work that indicates having earned a minimum of 64 college credits from a regionally accredited college or university with a grade point average of "C" or above.
5. Submit evidence of a minimum of 15 credits earned in general education core; that includes one communications course, one mathematics course and one Social \& Behavioral Sciences course. A list of courses that meet general education core requirements can be found in the DMACC catalog or linked from the Mortuary Science program website at http:// funeral.dmacc.edu.
6. Each student must submit an admission recommendation from a licensed funeral director on a form approved by the Mortuary Science program.

## Classes start Fall term only.

## Graduation Requirements

To earn a Mortuary Science-Advanced Standing Diploma, a student must complete all course work as prescribed, maintain a 2.0 grade point average, and earn a grade of " C " or above in all courses in the program.

To complete the program in the minimum number of semesters allowed by accreditation standards, students should complete a required anatomy course (BIO 733 or BIO I64), a required accounting course (ACC iII or ACC 13I) and MOR 215 Funeral Law I prior to admission to the Mortuary Science program. If these courses have not been taken prior to admission to the program, the student will register for an anatomy course and Funeral Law I during the first semester of the program. During the spring semester, if needed, the student will register for accounting.

## Required Courses-Select 1 Course from Option 1 and Option 2

TOTAL CREDITS REQUIRED TO COMPLETE THIS ADVANCED STANDING DIPLOMA
*During MOR 390 Professional Review, each student is required to take the National Board Exam as a graduation requirement.
The annual passage rate of first-time takers on the National Board Examination (NBE) for the most recent three-year period for this institution and all ABFSE-accredited funeral service education programs is posted on the ABFSE website (www.abfse.org).
State licensure requirements vary from state to state. Applicants must meet all state requirements. For complete licensure requirements, contact the State Board of Professional Licensure in the state in which you intend to practice. In Iowa, call 515-28I-4287.

## Network Security Manager <br> (see Certificate Section, page 127)

## Nursing-Advanced Standing

This program offers the opportunity for current Iowa Licensed Practical Nurses to complete an Associate degree in Nursing. Students enter the third term of the Associate degree Nursing curriculum. Upon successful completion of Terms 3, 4 and 5, students are eligible to take the NCLEX exam for Registered Nurse Licensure (NCLEX-RN). The program is approved by the Iowa Board of Nursing and accredited by the National League for Nursing Accrediting Commission (NLNAC), Inc., 6i Broadway-33rd Floor, New York, NY iooo6, 2І2-363-5555.

## Locations: Ankeny, Boone-Summer and Fall term. Carroll-Summer term only.

Evening (part-time) option may be available on select campuses. Liberal arts courses may be taken on any campus where they are offered.

## Program Entry Requirements

I. Complete an application for admission to the Advanced Standing Nursing program.
2. Attend a required Nursing information session, a registration session and a Nursing program orientation.
3. Provide proof of completion of an approved Practical Nursing Program comparable to DMACC Practical Nursing as determined by the Director of Nursing Education and with a cumulative GPA of 2.0 or above.
4. Provide a copy of current Iowa LPN licensure (or other state licensure, recognized by Iowa pursuant to the Nurse Licensure Compact).
5. Complete DMACC's Assessment Requirement.
6. Complete Nursing program admissions testing with satisfactory minimum scores in reading, writing and mathematics.
7. Meet the minimum established score on the required PN-to-ADN Assessment Test.
8. Complete the following courses with a grade of "C" (not C-) or better in each: BIO 733-Health Science Anatomy
BIO 734-Health Science Physiology
ENG IO5-Composition I
PSY iii-Introduction to Psychology
PSY 12I-Developmental Psychology
9. Provide proof of high school graduation or GED completion.

Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participating in clinical education experiences. Results of the criminal record/child and adult abuse registry checks will be released to the Department of Human Services, which will determine if the crime or founded abuse warrants prohibition from clinical education experience. Students unable to participate in clinical education will be unable to complete the Nursing program. In accordance with DMACC's contract with affiliated agencies, results of the criminal record/child and adult abuse registry checks will be released to contracted agencies only upon their request.
Proof of immunizations and annual TB testing is required of all nursing students. A physical exam must be completed within one year prior to program entry. Completion of the Student Health and Immunization Record form and current certification by either the American Heart Association CPR for the Health Care Provider or American Red Cross CPR for the Professional Rescuer are required prior to beginning clinical rotations. Proof of a current flu vaccination is required of all nursing students by January of each year. Further information is available on the Nursing program website at www.dmacc.edu/programs/nursing.

## Graduation Requirements

To earn an Associate degree (AAS) in Nursing, a student must complete all course work as prescribed and have a grade of "C" or above in all ADN and support courses in the curriculum. In order to progress to the next term, courses must be successfully completed in the term identified or in a previous term.
In addition, completion of the Associate degree (AAS) in Nursing requires the successful completion of the required standardized exit exam taken during Term 5 of the curriculum.

## Nursing Programs

## Practical Nursing and Associate Degree Nursing

The Nursing program is designed as a career ladder program. The first two semesters provide a common core of nursing theory and skills for both the Practical Nursing and Associate Degree Nursing students.
The student who completes Term I and 2 of the Practical Nursing program is prepared to become a Licensed Practical Nurse (LPN). LPNs provide nursing care under the supervision of a Registered Nurse or a physician. The LPN is prepared to provide basic therapeutic, rehabilitative and preventive care for individuals of all ages, primarily in a structured care setting such as hospitals, long-term care facilities or clinics.
Upon successful completion of two terms, the student is eligible to take the National Council Licensure Exam for Practical Nurse Licensure (NCLEX-PN).
An Associate Degree in Nursing and a career as a Registered Nurse are available to students who continue in the program and successfully complete Terms 3, 4 and 5. As members of the nursing profession,
registered nurses are accountable for their own nursing practice. The Associate Degree Nurse (ADN) utilizes more complex nursing knowledge and skills to assess, plan, provide, evaluate and manage nursing care for patients in hospitals, long-term care facilities and a variety of community-based healthcare settings.
Upon successful completion of Terms I-5 of the nursing curriculum, the student is eligible to take the National Council Licensure Exam for Registered Nurse Licensure (NCLEX-RN).

Program Locations: Ankeny, Boone, Carroll, NewtonPractical Nursing only, Urban-Evening (part-time) option
Selected liberal arts courses in this program are offered at other campuses.
The Nursing program is approved by the Iowa Board of Nursing and accredited by the National League for Nursing Accrediting Commission (NLNAC), Inc., 6I Broadway-33rd Floor, New York, NY 10006, 212-363-5555.

## Program Entry Requirements

I. Complete an application for admission to the Nursing program.
2. Attend Nursing information session, registration meetings and a Nursing program orientation for PN and ADN levels.
3. Complete DMACC's Assessment Requirement.
4. Complete required Nursing program admissions testing with satisfactory minimum scores in reading, writing and mathematics.
5. Successfully complete HSC i72 plus HSC i82 or an equivalent i20-hour (or more) Certified Nurse Assistant course from an approved program-January 1992 or after.
6. Submit proof of successful completion of Nurse Aide written (NRAO 858 ) and skills (NRAO 859) tests for placement on the Direct Care Worker Registry.
7. Complete the following courses with a grade of "C" (not C-) or better in each:
BIO 733-Health Science Anatomy
PSY iii-Introduction to Psychology
8. Proof of high school graduation or GED completion.

Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participating in clinical education experiences. Results of the criminal record/child and adult abuse registry checks will be released to the Department of Human Services, which will determine if the crime or founded abuse warrants prohibition from clinical education experience. Students unable to participate in clinical education will be unable to complete the Nursing program. In accordance with DMACC's contract with affiliated agencies, results of the criminal record/child and adult abuse registry checks will be released to contracted agencies only upon their request.
Proof of immunizations and annual TB testing is required of all nursing students. A physical exam must be completed within one year prior to program entry. Completion of the Student Health and Immunization Record form and current certification by either the American Heart Association (CPR for the Health Care Provider) or American Red Cross (CPR for the Professional Rescuer) are required prior to beginning clinical rotations. Proof of a current seasonal flu vaccination is required of all nursing students by January of each year.

## Practical Nursing starts:

Ankeny, Boone-Fall and Spring terms; Carroll, Newton-Fall term only; Urban-Evening (part-time) option, Fall term only in even-numbered years

## Associate Degree Nursing starts:

Ankeny, Boone-Summer and Fall terms; Carroll-Summer term only; Urban-Evening (part-time) option, Summer term only in evennumbered years.
In both the Practical and Associate Degree levels of the program, all nursing and liberal arts support courses must be successfully completed with a grade of "C" or above. In order to progress to the next term, these courses must be successfully completed in the term identified or in a previous term.
Continuation in the Associate Degree program at the Ankeny, Boone, Carroll and Urban Campuses requires successful completion of the following progression requirements: Term I courses at $78 \%$ or better and successful completion of all Term 2 courses (PNN 605, PNN 606 and PNN 35I) at $80 \%$ or better OR successful completion of the required standardized progression exam taken during Term 2. Students who successfully complete the Practical Nursing program at Newton Campus and satisfy the progression requirements may apply to special start into the ADN program on a different campus pending space available. Further information is available on the Nursing program website at www.dmacc.edu/programs/nursing.

## Graduation Requirements

To earn a Practical Nursing diploma, a student must complete all course work as prescribed in Terms I and 2 and have " C " or above in all Nursing and support courses in the curriculum.
To earn an Associate Degree (AAS) in Nursing, a student must complete all course work as prescribed in Terms I-5, meet the progression requirements and have a grade of "C" or above in all PNN, ADN, support courses in the curriculum and successfully complete the required standardized exit exam taken during Term 5 of the curriculum.

## Practical Nursing

Students should take required liberal arts support courses in advance of the PNN courses when possible.
In the Practical Nursing level of the program, all nursing and liberal arts support courses must be successfully completed with a grade of "C" or above. In order to progress to the next term, these courses must be successfully completed in the term identified or in a previous term.
Continuation to the Associate Degree program requires successful completion of all Term i nursing courses at $78 \%$ or better and all Term 2 nursing courses at $80 \%$ or better OR successful completion of the required standardized progression exam taken during Term 2 of the Practical Nursing Curriculum.

## Optometric/Ophthalmic Technician

An optometric/ophthalmic technician works in eye care to provide quality vision care services to patients. Technicians conduct unique eye testing procedures and implement special patient instruction. Technicians may work in optometry practices; ophthalmology practices or medical clinics; optical dispensaries; optical laboratories; medical and optical equipment businesses; lens, frame or contact lens companies;, pharmaceutical companies; research laboratories or in academia.

This program is designed to prepare students with the skills necessary to assist practitioners of optometry, ophthalmology and opticianry to provide a full scope of vision care and prepare them to pass national certification exams Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participating in clinical education experiences. Students unable to participate in clinical education will be unable to complete the Optometric/ Ophthalmic Technician program.

## Paramedic Specialist Certificate <br> (see Certificate Section, page 127)

## Paramedic Specialist <br> (pending Department of Education approval)

The Emergency Medical Technician-Paramedic Specialist AAS degree prepares individuals to use critical thinking skills to provide medical treatment for patients with illness or injury-related disease. The Paramedic Specialist provides medical care for patients, performing skills in a variety of settings including pre-hospital, emergency departments, critical care units and cardiac catheter labs. Course content includes anatomy and physiology, pathology and the identification and initial diagnosis of disease and injury in a variety of populations. Paramedic Specialists use advanced medical and surgical skills that may include initiation of advanced airway management techniques, interpretation of electrocardiograms and advanced cardiac and trauma life support protocols. Instruction in rescue operations, crisis scene management and patient triage is included.
In addition, the AAS program provides an avenue of specialized study in one of three categories: public administration, fire science or advanced clinical knowledge. Graduates will sit for the EMT-PS National Registry Certification as well as meet the requirements for the AAS degree.
Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participation in paramedic specialist education experiences. Students unable to participate in paramedic specialist education will be unable to complete the Paramedic Specialist program.

## Pharmacy Technician

A pharmacy technician is an individual who, under the supervision of a pharmacist, assists in the performance of activities of the pharmacy department not requiring the professional judgment of a pharmacist. Pharmacy technicians assist and support licensed pharmacists in providing health care to patients. Pharmacy technicians have been called pharmacy clinicians, pharmacy support personnel and various other titles, depending on their location. In all parts of the country, pharmacy technicians must have a broad knowledge of pharmacy practice and must be skilled in the
techniques required to order, stock, package and prepare medications, but they do not need the advanced college education required of a licensed pharmacist. Pharmacy technicians may perform many of the same duties as a pharmacist; however, all of their work must be checked by a pharmacist before medication can be dispensed to a patient.
This program will prepare students for entry-level pharmacy technician positions. Medical and pharmaceutical terminology will be introduced along with pharmaceutical calculations. The basic anatomy related to the pharmacology of medications will be a major component of the course work. This program will provide students with necessary preparatory courses for seeking certification. Certification will require a passing score on a nationally recognized certification exam such as the PTCE (Pharmacy Technician Certification Exam) or ExCPT (Exam for the Certification of Pharmacy Technicians).
As a part of the Pharmacy Technician diploma, students will be required to perform two clinical rotations. Clinical rotations will include both retail experience and a hospital or custom experience. The students will choose institutions to complete this requirement. The instructor will help each student locate local facilities where they can do their clinical rotations.
Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participating in clinical education experiences. Students unable to participate in clinical education will be unable to complete the Pharmacy Technician program.
Proof of immunizations is required of all Pharmacy Technician students. Completion of the Student Health and Immunization Record form and current certification by either the American Heart Association CPR for the Health Care Provider or American Red Cross CPR for the Professional Rescuer are required prior to beginning clinical rotations. Proof of current flu vaccination is required of all Pharmacy Technician students by January of each year.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Attend any required information/registration session.
3. Submit to the Admissions Office evidence of high school graduation or GED completion.
4. Obtain COMPASS test minimum score of 39 in Mathematics.
5. Obtain COMPASS test minimum score of 70 in Writing.
6. Obtain COMPASS test minimum score of 8I in Reading.
7. Obtain a score of at least 35 NWPM with five errors or fewer on the typing/word processing skill test. Students who do not achieve a 35 NWPM score on the typing test must meet with the program chairperson.
8. Completion of one year of high school algebra with a "C" or better or take MAT o63 in their first semester.
9. Completion of one year of high school biology or chemistry or equivalent with a "C" or better is strongly recommended.

## Students start Fall or Spring term.

## Graduation Requirements

To earn a Pharmacy Technician diploma, a student must complete all course work as prescribed and maintain a 2.0 grade point average. A grade of 2.0 (C) or better is required in all PHR courses. To remain in the program, a student must maintain a grade of "C" or higher in each required course.

## Retailing

Retail organizations are constantly recruiting individuals with training in the areas of retailing, sales, store management and customer relations. Retailing provides a dynamic and exciting work environment that rewards high performance with rapid job promotions and pay increases to match.
Retailing is a growth industry with an almost endless number of career opportunities available to graduates of the program. Past graduates are now in careers that include store managers, department managers, visual merchandisers, chain store supervisors, professional sales of automotive, home improvement and computer products and owners of their own businesses.
Personal, professional and leadership development is provided through lectures, study tours, labs and speakers. Practical experience is gained through a paid internship with leading retail companies.
Students completing the Retailing program can transfer all of their credits into any of DMACC's two-year Marketing or Management programs.

## Sales and Management

The Sales and Management program offers sales and management skill development. Many opportunities exist for the highly motivated, peopleoriented, goal-setting individual who wants to quickly move into a sales or management industry-sponsored training program.
Specific benefits of the program include rapid development of sales and management skills, total transferability into any of DMACC's two-year Marketing and Management AAS degree programs and the satisfaction of gaining self-confidence as marketing skills are acquired.
Students will have the opportunity to enroll in the program for either day or evening classes at the beginning of each term. In addition, the program offers opportunities to earn as you learn through on-the-job training, opportunities to gain advanced standing with prior occupational experience (after evaluation by the program chairperson) and leadership training at local, state and national levels through involvement in the Sales and Management Club.

## Supervision <br> (see Certificate Section, page 128)

## Surgical Technology

The Surgical Technology program is designed to prepare students to be employed in a hospital or surgery center. As a skilled health professional, the surgical technologist is able to circulate with a Registered Nurse and scrub independently for a variety of specialties and procedures.
Students gain a basic knowledge of anatomy, physiology, microbiology, aseptic technique, surgical techniques and procedures, and patient care techniques. These subjects are presented in the classroom, through laboratory experience and in a supervised clinical setting.
Prior criminal records may prevent applicants from being eligible for the National Exam. Most employers perform criminal history and dependent adult/child abuse background checks.

## Location: Urban

## Telecommunications

(see Certificate Section, page 129)

## Tool \& Diemaking

The Tool \& Diemaking program prepares students to meet the demands for qualified personnel in either the conventionally controlled or computer numerical controlled (CNC) tooling industry.
There are two separate diploma options available: Machinist Technology or Diemaking.
ist Year: Machinist Technology graduates should have the skills required to work in a general machine shop.

2nd Year: Diemaking graduates should have the skills necessary to work as tool planners, tool makers, die makers, etc. By completing the core courses required for all students plus the courses in the two diploma options, students may receive a Tool \& Diemaking AAS degree.

## Location: Ankeny

Program Entry Requirements: Machinist Technology Diploma
I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Students start Fall term.

## Program Entry Requirements: Diemaking Diploma

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Submit proof of Machinist Technology Diploma or equivalent.

Students start Fall term.

## Graduation Requirements

To earn a Machinist Technology or Diemaking diploma, or a Tool \& Diemaking AAS degree, a student must complete all course work as prescribed and maintain a 2.0 grade point average.
(Note: For those students who only wish to complete the CNC Operator Certificate, the 10 courses bolded below are the courses needed to complete the CNC Operator Certificate.)

All Students Must Complete the Following AAS Degree Core Requirements:

## Required Courses

| MAT 772 | Applied Math | 3 |
| :--- | :--- | :--- |
| MAT 773 | Applied Math II | 3 |

| Select $\mathbf{1}$ Course from Each Option |  |  |  |
| :--- | :--- | :--- | :--- |
| COM 703 | Communication Skills | Opt 1 | 3 |
| ENG 105 | Composition I | Opt 1 | 3 |
| MGT 145 | Human Relations in Business | Opt 2 | 3 |
| PSY 111 | Introduction to Psychology | Opt 2 | 3 |
| PSY 102 | Human and Work Relations | Opt 2 | 3 |
| SOC 110 | Introduction to Sociology | Opt 2 | 3 |

## Machinist Technology Diploma

Students Who Choose the Machinist Technology
Diploma Option Must Complete the Following Courses:

## Term 1

| MFG 276 | Hand \& Bench Machine Tools | 1 |
| :--- | :--- | ---: |
| MFG 121 | Machine Trade Printreading I | 2 |
| MFG 105 | Machine Shop Measuring | 3 |
| MFG 250 | Engine Lathe Theory | 1 |
| MFG 251 | Engine Lathe Operations Lab | 2 |
| MFG 260 | Mill Operations Theory | 1 |
| MFG 261 | Milling Operations Lab | 2 |

## Turf Maintenance (see Certificate Section, page 129)

## Veterinary Medicine

Students planning to major in pre-veterinary medicine or go to school to become a veterinarian after receiving the bachelor's degree at a four-year college/university can satisfy many of their general education requirements at Des Moines Area Community College. Since degree requirements vary at senior institutions, students should become familiar with the specific course requirements of their selected transfer institution. Students are also encouraged to contact the four-year major advisor as early as possible to develop a transfer plan. DMACC advisors and/or counselors can also help by providing transfer materials and course planning assistance.

## Veterinary Technology

Veterinary technicians provide professional technical support to veterinarians, biomedical researchers and other scientists. As a veterinary technician, you will care for hospitalized animal patients; assist the doctor in surgery; perform physical exams, lab work and technical procedures (blood draws, IV catheter placement); take health histories and X-rays; give and monitor anesthesia; provide client education; and perform reception duties. There will be opportunities to work with a variety of animals including dogs, cats, horses, cows, pigs, sheep, birds, snakes, guinea pigs, hamsters and rats.
Most Veterinary Technician graduates find work in small-mixed or largeanimal practices. Other opportunities exist in humane societies, animal shelters, zoos, specialty veterinary practices, pet shops, biological research labs, animal control agencies, veterinary teaching hospitals, and state and federal agencies.
An Associate of Applied Science (AAS) degree will be awarded to those students who successfully complete the Veterinary Technology curriculum. This program is accredited. Students who have successfully completed the program will have the opportunity to sit for the Veterinary Technician National Examination (VTNE) and the Veterinary Technician State Examination (VTSE).

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Students will be expected to have developed word processing skills or may be required to enroll in a keyboarding course prior to taking the Veterinary Office Procedures course.
4. Submit evidence of grade "C" or better in one year of high school Biology or equivalent (DMACC Academic Achievement Center Biology I \& II or BIO i56).
5. Submit evidence of grade "C" or better in one year of high school Chemistry or equivalent (DMACC Academic Achievement Center Chemistry I \& II or CHM I22).
6. Biology Competency Exam: All applicants must take this exam and receive a minimum score of 25 out of 50 on the exam to qualify for a seat in the starting Fall class. This score does not guarantee that a seat is available to you. Your biology score and the application date as processed by the College Admissions office will determine the 30 students who will receive an invitation for the program interview, orientation and registration.

At the time the College formally processes your admission application, you will receive additional information regarding all required assessments for this program.
7. Program Conferences: Applicants as determined by biology scores and admission dates will be invited to a program conference with the Veterinary Technology program chairperson or the chairperson of the Agriculture and Natural Resources Department.
8. Attend any required information/registration session.

## Students start Fall term.

## Visual Communications

This diploma program explores the exciting and challenging field of visual communications while focusing on both the creative and technical aspects of the industry. During the program, students will receive hands-on instruction in the fundamentals of design for print and web, typography, specialized computer software packages and basic printing and production methods. A current and inclusive curriculum prepares students to meet industry standards and expectations for a variety of entry-level positions in the visual communications industry.
The Visual Communications diploma program offers:

- A no-nonsense design and technical education.
- Classes taught by professionals with real-world experience.
- State-of-the-art computer labs with industry standard hardware and software.
- Small class sizes.

Upon graduation with the Visual Communication diploma, students may choose to pursue an AAS degree in either Graphic Design or Graphic Technologies. Interested students must apply for acceptance into the Graphic Design or Graphic Technologies program during the second semester of the Visual Communications program.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement by taking all three sections of the COMPASS test and:
3. Obtain a minimum score of 6 I in Reading and
4. Obtain a minimum score of 25 in Math and
5. Obtain a minimum score of 42 in English.
6. Attend a required information/registration session.
7. Basic keyboarding skills are recommended or ADM 105.

## Students start Fall term. This is a full-time program. To complete this program, students must take daytime classes; not all classes are offered at night.

## Graduation Requirements

To earn a Visual Communications diploma, a student must complete all course work as prescribed and maintain a 2.0 grade point average.

## Term 1 (Fall)

Viticulture (see Certificate Section, page 129)

## Welding

Welding is a joining process that produces coalescence of materials by heating them to the welding temperature, with or without the application of pressure or by the application of pressure alone, and with or without the use of filler metal. It is used to make welds. A weld is a localized coalescence of metals or nonmetals produced either by heating materials to the welding temperature, with or without the application of pressure, or by the application of pressure alone and with or without the use of filler material. Coalescence refers to the growing together or growth into one body of the materials being welded.
Ferrous and nonferrous metals are joined using the oxy-acetylene, shielded metal arc, gas tungsten arc and gas metal arc welding processes. Free-hand and machine flame cutting are also taught.
Classroom theory, blueprint reading and technical math are part of the instructional program. The listed sequence of course offerings may be altered.
The Welding program offers open-entry and open-exit courses. Students will be allowed to enroll in these open-entry/open-exit courses as long as there is space available.

## Location: Ankeny, Newton

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.
4. Students must meet with the program chairperson before admission to the program can be confirmed.

TOTAL CREDITS REQUIRED TO COMPLETE THIS CERTIFICATE
These credits are applicable to the AAS degree in Accounting Specialist. The majority of these credits are also applicable to the AS degree in Accounting Paraprofessional and the Accounting and Bookkeeping diploma.

## Accounting Payroll

Payroll is a specialized area of accounting that requires in-depth knowledge of federal and state tax rules and regulations, pension plans, benefit plans, garnishments and stock options. The Payroll certificate will provide students with this type of knowledge.
The Accounting Payroll certificate will also prepare students for the Fundamental Payroll Certification exam administered by the American Payroll Association. This certification provides external verification of payroll skills and knowledge.
The Accounting Payroll certificate is designed for the part-time student and can be accomplished online. It is expected that many students will have completed ACC i3I Principles of Accounting I before they enter the certificate program. Those students will be able to complete the certificate in two terms. A beginning student will need three or more terms to complete the certificate because of the sequential nature of accounting courses.

## Required Courses

| ACC 131 | Principles of Accounting I | 4 |
| :--- | :--- | :--- |
| ACC 161 | Payroll Accounting | 3 |
| ACC 311 | Computer Accounting | 3 |

## PROGRAMS AVAILABLE

## Chemical Dependency Counseling

This certificate is designed for individuals with a Graduate, Bachelor's, Associate in Arts, Associate in Science, or Associate in General Studies degree who wish to update or develop skills in chemical dependency counseling.

## Entry Requirements:

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend a chemical dependency certificate informational meeting that is offered in the Fall and Spring or view a recording of the meeting online. Contact the Human Services program chairperson once this step has been completed.
Students must participate in a chemical dependency practicum. Students can contact the program chairperson of the Human Services program for possible practicum site options, or information is also available on the DMACC website. Practicums may have additional costs to the student.

## Required Courses

## Early Childhood Education

The Early Childhood Education certificate prepares the student for an entry-level position in a child care program. This program meets the requirements for clock hours of formal child care education required for the Child Development Associate (CDA) credential. Upon completion, the successful candidate will be able to practice appropriate guidance techniques, recognize and carry out appropriate activities for young children, maintain a healthy and safe setting, and be able to communicate effectively with children and families.
DHS criminal history record checks and finger printing will be completed for each student. Criminal convictions or documented history of abuse will prevent students from participating in the required lab experience. Students unable to complete these classes will not receive a certificate in Early Childhood Education.

## Required Courses

## Emergency Medical Technician-Basic

The Emergency Medical Technician-Basic certificate is designed to provide an introductory learning experience for persons interested in the field of emergency medicine. This course includes practical and written testing in the classroom, as well as clinical experience in area hospitals and with local ambulance services. National Registry Certification tests will be available at course completion in both the written and skill areas. Area ambulance units and some hospital emergency departments utilize EMT-Bs.
Prerequisite: Proof of successful and current completion of either American Heart Association Health Care Provider CPR or Red Cross Professional Rescuer CPR training.

Required Course
EMS 210 Emergency Medical Tech Basic 6

## Enology

The Enology Certificate offers a broad range of practical skills required to work in the wine industry. It emphasizes the procedures to effectively process fruit and handle wine in the cellar. In addition, the certificate will introduce basic wine laboratory analysis. Students will attain a foundation in viticulture, allowing them to scout vineyards and assess fruit quality and potential yield. Finally, the certificate program will examine how wines are produced in other major world growing regions.

These credits are applicable to the Fashion diploma or the AAS degree in Fashion/Design.

## Interpretation \& Translation-Generalist

The Interpretation \& Translation Generalist certificate is a vocational credential for preparing functionally bilingual students for entry-level employment as general, nonspecialized interpreters or translators. Upon completion, students should be able to provide basic interpreting and translation services between English and their other languages(s) in nonspecialized contexts. The program is designed for students who wish to add general interpreting and translation skills to their current set of job skills.
Certificate students complete basic courses in Interpretation \& Translation, as well as ethics. All students complete an internship under the supervision of a professional interpreter/translator, during which time they use the skills and apply the knowledge gained in the classroom. Some credits earned for the Interpretation \& Translation Generalist certificate can also be applied to the Judiciary Interpretation \& Translation certificate program, to the Healthcare Interpretation \& Translation certificate program or to the AS degree in Interpretation \& Translation.
A program chairperson and a program counselor are available to assist students with education and career planning.
Employment opportunities for general Interpretation \& Translation interpreters and translators are currently found in all industries and businesses where nonspecialized Interpretation \& Translation services are needed. There are also many volunteer opportunities.
Note: Interpretation \& Translation employment in specialized areas, including legal, medical, social services, education fields and many businesses, requires additional specialized training and/or certification. Students interested in those fields should consider the Judiciary Interpretation \& Translation certificate program, the Healthcare Interpretation \& Translation certificate program or the Interpretation \& Translation AS degree.

## Program Entry Requirements

r. Complete an application for admission.
2. Attend any required information/orientation or a program conference.
3. Provide evidence of proficiency in English with one of the following:
a. ACT score on the English subtest of i9 or above
b. Minimum COMPASS score of 70
c. Completion of ENG 105 with grade of "C" or better
d. TOEFL score of I 73 on the computer test or 500 on the paper test
e. Completion of two years of college study with a minimum GPA of 2.0 (or equivalent) at an institution where English is the medium of instruction
f. Other evidence demonstrating English proficiency may be approved by the program chairperson
4. Show proficiency in a second language with one of the following:
a. Evidence of completion of high school in a country where the second language is spoken
b. Two years of college study with a minimum GPA of 2.0 (or equivalent) at an institution in a country where the second language is spoken
c. Completion of a college minor in the second language with a minimum grade of "C" for all courses taken in the second language
d. Proficiency may be demonstrated with other evidence, but must be approved by the program chairperson
e. Students will need computer skills to be successful in the program. If students do not have these skills, completion of BCA 212 or CSC 110 is strongly recommended, but the course will be an extra course and will not apply toward program requirements.

## Students may start any term; however, students should contact an academic advisor for planning, as many courses are only offered once per year.

## Required Courses

| ITR 101 | Intro to Interpretation \& Translation | 3 |
| :--- | :--- | :--- |

| AGH 146 | Soil Science for Horticulture |  |
| AGA 154 | Fundamentals of Soil Science | Opt 1 |

## TOTAL CREDITS REQUIRED TO COMPLETE THIS CERTIFICATE

The majority of these credits are applicable to the AAS degree in Commercial Horticulture.

## Legal Assistant

The Legal Assistant certificate is for students with a Bachelor's degree, Associate in Science or Associate of Arts degree who wish to work as a legal assistant. A legal assistant performs a variety of legal tasks and provides a broad spectrum of services for attorneys in private practice, state agencies and public service organizations. The legal assistant works with the attorney in virtually every aspect of the legal profession except giving advice or representing clients in court (the actual practice of law).

## Graduation Requirements

To earn a Legal Assistant certificate, a student must submit proof of having earned a prior degree. Students must receive a grade of "C" or above in all PRL course work.

## Required Courses

## PROGRAMS AVAILABLE

## Medical Insurance and Coding

Medical Insurance and Coding is one of the fastest-growing medical office specialties and promises to increase in importance. Students learn to transform medical diagnoses and procedures into numbers or codes for purposes of reimbursement and recordkeeping. This certificate program is designed for those who choose to work in a variety of medical settings including hospitals and medical centers, government facilities, insurance companies and home offices. It is ideal for the individual who is currently working in the medical setting and wants to develop skills that are "best of practice." Courses are offered online or late afternoon and evening. In addition, this certification can be earned in coordination with the Medical Office Specialist program.

## Program Entry Requirements

I. Complete an application for admission.
2. Complete the required COMPASS testing, obtaining a satisfactory score in writing skills ( 70 or higher) or an ACT writing score of i9 or higher or completion of ENG 060 with a grade of "B" or higher or program chairperson approval.
3. Keyboarding speed of 40 nwpm or above as demonstrated by a five-minute test.

*Challenge test available. Must earn 74\%.

Note: Graduates may sit, at their own expense, for the Certified Coding Associates designation through the American Health Information Management Association.
Majority of credits listed above are applicable to the AAS degree in Medical Office Specialist.

## Medical Transcriptionist

The purpose of the Medical Transcriptionist certificate is to provide a course of study for medical office specialist students to concentrate in the area of medical transcription. This certificate is best suited for people who have a background in medical/business work experience. Employment opportunities are numerous in a variety of settings: hospitals and medical centers, clinic and group practices, radiology and pathology offices, government facilities, private and temporary agencies and in home offices. In addition to a choice of work settings, the medical transcriptionist can usually choose part-time or full-time employment and frequently, flexible scheduling. Students should start Fall term.

The majority of these credits are applicable to the AS degree in Accounting Information Systems and the AAS degree in Business Information Systems.

## Network Security Manager

The purpose of the Network Security Manager certificate is to provide students who are already employed in the area of information technology, with knowledge and skills needed to prepare for careers as security systems analysts, security business analysts, database administrators or system development managers. Students learn basic concepts and terminology in computer networks and data communications, as well as project initiation, fact gathering, procedures, forms, system implementation and evaluation. They also study legal and ethical issues, security technologies, risk management, network and system security, cryptography and information security maintenance. Students learn to detect and analyze data stored or hidden on computer systems and to implement database security and auditing in order to protect data.
Prior to enrolling in the Network Security Manager certificate courses, students must successfully complete the following courses: CSC iıo Intro to Computers, CIS 125 Intro to Programming Logic w/Lang, CIS 402 COBOL or equivalent courses or have instructor approval.

Required Courses

| BCA 113 | Computer Network Literacy | 3 |
| :--- | :--- | :--- |
| CIS 303 | Introduction to Data Base | 3 |
| CIS 505 | Structured Systems Analysis | 4 |
| NET 612 | Fundamentals of Network Security | 3 |

## TOTAL CREDITS REQUIRED TO COMPLETE THIS CERTIFICATE 17

These credits are applicable to the Administrative Assistant AAS degree and the Office Assistant diploma.

## Paramedic Specialist

## (pending Department of Education approval)

The Paramedic Specialist certificate prepares individuals to use critical thinking skills to provide treatment for medical, trauma and cardiac emergencies in the pre-hospital setting. The Paramedic Specialist transports patients to and between hospitals using ground and air ambulances, and performs skills in a variety of settings including emergency departments, critical care units and cardiac catheter labs. Course content includes anatomy and physiology, pathology and the identification and initial diagnosis of disease and injury in a variety of populations. Paramedic Specialists initiate IVs, perform endotracheal intubation, read electrocardiograms and provide cardiac defibrillation. Instruction in rescue operations, crisis scene management and medical triage is included.
Upon successful completion of the program, the student will be prepared to take the National Registry Exam for Certified Paramedic.
Criminal background checks will be completed on each student. Criminal convictions or documented history of abuse may delay or prevent students from participation in paramedic specialist education experiences. Students unable to participate in paramedic specialist education will be unable to complete the Paramedic Specialist program.

## Location: Ankeny

## Program Entry Requirements

I. Complete an application for admission.
2. Satisfy the assessment requirement.
3. Attend any required information/registration session.

## Commercial Vehicle Operator Program

The Transportation Institute commercial vehicle operator program is one of approximately 80 in the U.S. that has been certified by the Professional Truck Drivers Institute of America. The 240 -hour, noncredit program uses the U.S. Department of Transportation Model Curriculum. Students may complete the program in the daytime in six weeks or during the evenings in 12 weeks.

The Institute provides customized programs and services to individuals and companies including: remediation and evaluation services, advanced driver programs, Defensive Driving Courses (DDC), driver/dispatcher relationships and driver retention programs. It also offers a Train the Trainer Program that allows transportation carriers to train their driver finishers, ensuring a higher success rate with their student program and online web-based course for DOT-mandated entry-level driver certification.

## Features

I. Placement with companies prior to beginning of training.
2. Extensive in-truck training with two-students-per-instructor ratio.
3. Student loan availability for students who qualify.
4. Graduation with a Commercial Drivers License (CDL).
5. Earning potential of $\$ 25,000-\$ 40,000$ the first year.

6 . Excellent career opportunities within the industry.

## Required Courses

Basic Operations
Safe Operational Practices
Advanced Operating Procedures
Vehicle Maintenance
Non-Vehicle Activities

## RV Safety and Education Program

RV Safety and Education Program students become confident when traveling in situations they may encounter in the RV lifestyle after receiving training in all phases of driving, maneuvering and backing a recreational vehicle. The RV program is a total of 3 hours in the classroom and 5 hours of hands-on driving. Additional driving time and private lessons are available. The program specializes in safety, respect, patience and confidence in a variety of vehicles of all sizes from class A, B \& C motor homes, to fifth-wheel trailers to travel trailers.
We also have RV (Recreational Vehicle) training and educational programs aimed at present and prospective RV drivers to provide the best information and training possible about RVs and the RV lifestyle. DMACC is the second school, nationwide, to offer this RV training.

## COURSE DESCRIPTIONS

## HOW TO READ OUR COURSE DESCRIPTIONS

The following are standard, approved subjects. Availability of any subject depends on the scheduling, program and student needs at the time. The receiving college or university determines the transferability of courses.

ADJUNCT Adjunct courses may be temporary or experimental and may be used to fulfill elective credit in programs that lead to a degree or diploma. Adjunct courses may not be used to fulfill or substitute for required or option courses in any degree or program.
GENERAL Noncore courses identified as freshman-sophomore courses.
OPEN Occupationally specific courses corresponding to courses in certain professional programs at four-year institutions.

VOC/TECH Occupationally specific courses. Transferability is generally limited. Only 16 credits can apply to the AA/AS degree.

CORE Traditional liberal arts courses in the first two years of a baccalaureate degree.

## Example:

Course - ACC 222

COLLEGE PREPARATORY (COLL PREP) College preparatory and skill building courses. College Preparatory courses cannot be used to fulfill degree requirements.
(P/F) Indicates courses taken pass/fail.
PREREQUISITES Successful completion of a course or other criterion necessary for a student to succeed in a higher level course.
COREQUISITES A course that must be taken concurrently or prior to the course.
*An instructor may deny enrollment in or drop a student from a specific course if a course prerequisite has not been met.

## ACC 11133000 OPEN <br> INTRO TO ACCOUNTING

An introductory course in accounting fundamentals and procedures. Includes capturing and analyzing business data and financial statement preparation.

## ACC 12433000 VOC/TECH

 ACCOUNTING PROFESSIONALISMCovers all aspects of accounting career goal-setting, developing prospective accounting employer lists, resume writing, job application forms, employment tests, personal appearance, interviewing and follow-up. Instructs in meeting protocol according to Roberts Rules of Order. Covers meeting presentation skills and report writing. Discusses the duties of an accounting professional to the community. Reviews office etiquette and common professional courtesy.
(P/F)

## ACC 13144000 GENERAL PRINCIPLES OF ACCOUNTING I

Introduces the student to the principles of accounting with emphasis placed on the users and uses of accounting information. The doubleentry bookkeeping system is presented with a focus on the end result of the accounting cycle, the financial statement.

ACC 13244000 GENERAL PRINCIPLES OF ACCOUNTING II
A continuation of Principles of Accounting I. Introduces accounting procedures related to corporations, manufacturing and branch operations. Course also includes an introduction to capital budgeting, analysis of financial statements and decision-making by managers.

## ACC $161 \quad 33000 \quad$ VOC/TECH PAYROLL ACCOUNTING

Covers payroll laws, state and federal withholding taxes, state and federal forms, salary deductions including cafeteria insurance plans and pension plans and computerized payroll software packages.
Prerequisite: ACC 131 or ACC 111

## ACC 16522000 VOC/TECH PAYROLL CERTIFICATION REVIEW

Covers fundamental payroll calculations and applications. Provides students with the basic knowledge and skills required to prepare for the Fundamental Payroll Certification (FPC) exam administered by the American Payroll Association. Recommended for payroll professionals.

## ACC 19133000 VOC/TECH

## FINANCIAL ANALYSIS

An analytical study of accounting information and
financial statements. The course focuses on financial ratio analysis that is used to interpret data and reports for financial decision-making.
Prerequisite ACC 131
ACC $193 \quad 33000$ VOC/TECH ACCOUNTING PROCEDURES/MGMT
Generally Accepted Accounting Principles (GAAP) are emphasized. Topics include receivables, payables, banking records, document flow, internal control, planning, organizing, leadership, human relations and business communications.
Prerequisite: ACC 131

## ACC 22244000 COST ACCOUNTING

An introduction to accounting concepts of product costing systems. Topics include classification of costs, process costing, job order costing, joint and by-product costs, and standard cost systems with variable analysis.
Prerequisite: ACC 132
ACC 23144000 OPEN INTERMEDIATE ACCOUNTING I
Emphasis on theory, standards and principles-the "why" of accounting. The framework goes beyond the procedural level to the conceptual level. Topics include preparation of income statements, balance sheets and related footnotes. Applicable FASB pronouncements are presented.

Prerequisite: ACC 132

## ACC 232 <br> 44000 <br> OPEN <br> INTERMEDIATE ACCOUNTING II

Continuation of Intermediate Accounting I. Topics include long-term debt, investments, equity, pensions, leases, accounting changes, earnings per share and accounting for inflation.
Prerequisite: ACC 231

## ACC $241 \quad 33000 \quad$ VOC/TECH

 TREASURY \& CASH MANAGEMENTIntroduces the requisite skills and knowledge for entry-level positions in the treasury and cash management operation. Utilizes case studies and articles relevant to treasury management practice. Relates directly to accounting and financial management topics.

## COURSE DESCRIPTIONS

ACC $251 \quad 33000$ OPEN GOV'T \& NONPROFIT ACCOUNTING
An introduction to the accounting and reporting principles, standards and procedures applicable to federal, state and local government. Also includes nonprofit institutions such as hospitals and universities.

Prerequisite: ACC 131
ACC 261 OPEN INCOME TAX ACCOUNTING
An introduction to personal income tax. Emphasizes computation of federal and state income taxes and preparation of tax forms.
Prerequisite: ACC 131 or ACC 111

ACC $268 \quad 33000$ VOC/TECH BUSINESS TAX
Business Tax focuses on federal income tax associated with the three principal business forms: corporations, both S and C partnerships and limited liability companies. Tax aspects affecting the determination of taxable income and loss as they apply to businesses are covered.

## ACC 27244000 VOC/TECH ACCOUNTING INFORMATION SYSTEMS

Identifies the information required by accountants as it relates to financial and managerial accounting. It provides an overview of systems design and development process.
Prerequisites: ACC 132, CSC 110 or equivalent or instructor approval

ACC $281 \quad 33000$ VOC/TECH AUDITING
An introduction to auditing concepts, internal control procedures, preparation of audit programs and working papers, application of methods and procedures for conducting an audit. The legal and ethical responsibilities of auditors. Preparation of audit reports.
Prerequisite: ACC 231

## ACC 311 <br> 32200

COMPUTER ACCOUNTING
Emphasizes application of computerized financial software used in business. Topics include setting up a company, receivables, payables, inventory control, payroll, time tracking and job estimating.
Prerequisite: ACC 131 or ACC 111

ACC 36132200 VOC/TECH ACCOUNTING SPREADSHEETS
Microcomputer operations with an emphasis on managerial uses. Includes topics in spreadsheet modeling, spreadsheet commands, manufacturing systems, budgeting and profit analysis.

Prerequisite: ACC 131, CSC 110 or equivalent or instructor approval

## ACC 85032200

 TAX ASSISTANCE INSTITUTEAn opportunity to participate in a volunteer income tax assistance program by applying classroom skills to actual experience. Includes training to provide community service of free tax assistance and preparation of basic tax returns for older, handicapped and low-income taxpayers.
(P/F) Prerequisite: ACC 261

## ACC 93234000 VOC/TECH

 ACCOUNTING INTERNSHIPAn opportunity to gain practical experiences through on-the-job training in an approved business or governmental office. May be taken for 3 or 4 credits.
(P/F) Prerequisite: Successful completion of 11 hours of ACC courses. Corequisite: ACC 946

## ACC 94611000 VOC/TECH

ACCOUNTING CAREER SEMINAR
Designed to provide in-depth discussion of Accounting/Bookkeeping/Accounting Specialist work experiences. Prerequisite: Successful completion of 11 hours of ACC credit courses; permission of the department and demonstrable job readiness with computer literacy.

Corequisite: ACC 932
ADM $105 \quad 10200 \quad$ VOC/TECH
INTRO TO KEYBOARDING
Basic instruction on a personal computer to learn
the touch system for the alphabetic keyboard,
number keyboard and ten-key numeric pad.

ADM 13110200 VOC/TECH OFFICE CALCULATORS
Electronic calculator operations. Emphasis on speed and accuracy. Includes topics in addition, subtraction, multiplication and division; also the use of constants, chain computations and prorations.

## ADM 13830600 VOC/TECH DATA ENTRY

Competency-based course to give students an introduction to current practices, equipment and various job-related applications in data entry. The main focus is on speed and accuracy in entering data in a terminal. Recommend keyboarding skills of at least 30 NWPM.

## ADM 1543000 VOC/TECH BUSINESS COMMUNICATION

Principles and procedures of effective business communication. The student is required to be computer-literate as computer software programs are used to develop communication skills for office correspondence and presentations. Recommend keyboarding skills of at least 25 NWPM.
Prerequisite: ADM 157 with a "C-" or better and BCA 212 with a "C-" or better.

ADM 157 VOC/TECH BUSINESS ENGLISH
The fundamentals of proofreading, grammar, spelling, punctuation, word usage, capitalization, abbreviations and number usage.

## ADM 1623200 <br> VOC/TECH

 OFFICE PROCEDURESOffice Procedures is the integration of knowledge and skills needed to function in an office environment. Topics include telecommunication techniques, components of customer relations and various responsibilities of the administrative assistant.
Prerequisite: ADM 157, BCA 133

## ADM 16432200 VOC/TECH

 ADMINISTRATIVE OFFICE APPLThis course incorporates simulated office activities into realistic workplace integration. Students use integration software to complete specialized tasks. Workplace basic skills including interpersonal skills, communication, teamwork, creative thinking and problem-solving will be developed.

Prerequisite: ADM 162, BCA 213
ADM $168 \quad 21200 \quad$ VOC/TECH
VETERINARY OFFICE PROCEDURES
Integration of knowledge and skills needed to
function in a veterinarian office environment.
Topics include ethics, customer relations,
telecommunications techniques, scheduling and
management software and compliance.
ADM 208 VOC/TECH
LEGAL TERMINOLOGY
Provides training in spelling, defining and
pronouncing terms common in the legal field.

ADM 21533000 VOC/TECH MEDICAL OFFICE PROCEDURES
This course presents basic administrative skills in a medical facility. Study includes identification of medical specialties, medical law, ethics and professionalism. Administrative skills and responsibilities are studied to include telephone techniques, appointment scheduling and management of medical records. Government regulatory agencies for healthcare facilities are identified, to include HIPPA and mandate reporter. Students are introduced to medical office computerized management software.
Prerequisites: HSC 120 and BCA 137.

## ADM 259 VOC/TECH

 PROFESSIONAL DEVELOPMENTDesigned to make students aware of their personal strengths and identify areas for improvement. Concentrates on helping students develop marketable personal and professional skills. Presents strategies to assist students in maintaining employment and in demonstrating a professional image and work behavior.

## COURSE DESCRIPTIONS

ADM $265 \quad 20008$ VOC/TECH
SUPERVISED PRACTICAL EXPERIENCE
Practical experience through on-the-job training
in an approved business setting. Tasks will be
consistent with students' career objectives, skills
and knowledge.
(P/F) Prerequisite: ADM 157, BCA 133, 212 Corequisite: ADM 937

ADM 30011000 VOC/TECH CPS REVIEW SEC. I ECONOMICS \& LAW
Section I assists students to pass Part 1 of the Certified Professional Secretary Examination by reviewing economic, accounting and business law fundamentals. In addition to one hour of credit, students will be awarded 1.5 CEUs.

ADM 30511000 VOC/TECH CPS REVIEW SEC. II OFFICE SYSTEMS
Section II assists students to pass Part 2 of the Certified Professional Secretary Examination by reviewing office technology, administration and communication. In addition to one hour of credit, students will be awarded 1.5 CEUs.

ADM 310 VOC/TECH CPS REVIEW SEC. III MANAGEMENT
Section III assists students to pass Part 3 of the Certified Professional Secretary Examination by reviewing behavioral science in business and human resource management. In addition to one hour of credit, students will be awarded 1.5 CEUs.

ADM 93711000 VOC/TECH
PROF OFFICE CAREERS SEMINAR
An examination of topics relevant to the office internship experience, sharing workplace problems encountered and the solutions found to those problems.
Prerequisite: ADM 157, BCA 133, 212.
Corequisite: ADM 265

## ADN $126 \quad 21200$ VOC/TECH PASSPORT TO ADN NURSING

Assists preparation for a successful transition to the ADN program. Focuses on curriculum design, knowledge components, student expectations, study/time management skills, PN to RN role changes, application of nursing process with emphasis on health assessment and nursing skills across the lifespan.
Prerequisite: Acceptance into the Advanced Standing Nursing program

ADN 41653060 OPEN

## FAMILY HEALTH NURSING

Provides an in-depth study of family health nursing, including childbearing, parenting and illnesses of children and adolescents. Concepts of acute and chronic illness, disability and dying are included.
Prerequisite: PNN 605, 606, 351, ENG 105, SPC 126, BIO 732 or 187. Corequisite: ADN 611

## ADN 47453060 MENTAL HEALTH NURSING <br> Provides an in-depth study of mental health nursing, including mental health needs, mental illness and addictive disorders. Communication and principles of group process are emphasized. <br> Prerequisite: PNN 605, 606, 351, ENG 105, SPC 126, BIO 732 or BIO 187. Corequisite: ADN611

## ADN 551 <br> 74090 <br> OPEN

## ADULT HEALTH NURSING

Provides an in-depth study of nursing care and therapeutic interventions for adults with complex health problems. The student applies management, collaboration, and clinical decision-making skills.

Prerequisite: ADN 611, 416, 474, SOC 110

## ADN 61121200 <br> PROFESSIONAL NURSING PRACTICE

Introduces the role of the professional registered nurse, including comprehensive planning, client care management, collaborative relationships and performance of complex skills.
Prerequisite: PNN 605, 606, 351, ENG 105, SPC 126, BIO 732 or BIO 187

## ADN 82131060 OPEN NURSING SEMINAR

Emphasizes the transition from nursing student to entry-level professional nurse. Clinical preceptorship occurs in a variety of healthcare settings.

## Prerequisite: ADN 551

AGA 11433000 VOC/TECH PRINCIPLES OF AGRONOMY
An introductory course in the general principles of crop production and management. Major areas of study are food production, crop classification, plant growth factors, seed production and variety selection.

## AGA 1543300 VOC/TECH

 FUNDAMENTALS OF SOIL SCIENCEAn extended course in soils and fertilizers. A study of the physical, chemical and biological properties of soils. Also includes the study of fertilizers, their composition, manufacture and use.

Corequisite: AGA 157

AGA 15710200 VOC/TECH SOIL FERTILITY
An introductory course in soils and nutrients. A study of the physical, chemical and biological properties of soils. Also includes the study of nutrients, land measurement and environmental concerns and soil management.
Corequisite: AGA 154

## AGA 21133000 VOC/TECH GRAIN AND FORAGE CROPS <br> An advanced course using the problem-solving approach to crop management. Principles and practices of agronomic science are used in the discussion of management problems related to corn, soybeans, forage, small grain, sorghum and alternative crops. <br> Prerequisite: Permission of Instructor or AGA 381, 114, 154

## AGA 2222000 VOC/TECH

 GRAIN MANAGEMENTDesigned to acquaint the student with the complete cycle of grain from the farm to the country elevator. Major areas of study are the management of facilities, equipment, personnel and finances, warehouse requirements, grain grading, grain conditioning and grain inventory management.

## AGA 28433000 VOC/TECH

 PESTICIDE APPLICATION CERTIFICCommon features of pests, methods of control, how pesticides work, pesticide labels, application equipment, calibration, Iaws, and regulations governing pesticide use.

## AGA 3813200 VOC/TECH CROP SCOUTING

The course develops an understanding of the factors that affect plant growth. Plant nutrients are considered as students gain experience in identifying major and micronutrient deficiency symptoms in plants by means of soil tests, plant tests and observations.

## AGB $101 \quad 33000$ VOC/TECH AGRICULTURAL ECONOMICS

The study of economic principles and the application of these principles to the distribution of agricultural supplies.

## AGB 23533000 VOC/TECH INTRO TO AGRICULTURAL MARKETS

Focus on the futures market and how it can be used as a marketing tool. Major areas of study include hedging, speculation, price forecasting, spreading, technical and fundamental analysis. The use of options as an economical marketing tool will be covered.

## AGB 330 VOC/TECH

 FARM BUSINESS MANAGEMENTIncludes management problem identification and solution using business and economic principles, enterprise and total farm budgeting, adjusting to uncertainty, investment decisions, farm business organization, farm records and business analysis.
AGB $331 \quad \mathbf{3} \mathbf{3 0 0 0}$ VOC/TECH
AGRIBUSINESS MANAGEMENT
A study of the role and organization of several
aspects of agribusiness including financial
management and control, marketing, operation and
resource management in agribusiness.

## AGRIBUSINESS MANAGEMENT

A study of the role and organization of several aspects of agribusiness including financia resource management in agribusiness

## COURSE DESCRIPTIONS

## AGB 8020008

 AGRIBUSINESS INTERNSHIP IStudents will have the opportunity to experience an agricultural career through participation in an internship experience. The internship will provide career exploration through a structured evaluation.
Prerequisite: AGS 113 or AGA 114
AGB $812 \quad 20008 \quad$ VOC/TECH AGRIBUSINESS INTERNSHIP II
Students will have the opportunity to participate in an internship within the agribusiness industry. The internship may provide experiences within the agronomic, animal science, management, sales and service sectors that affect the food, fiber and environmental sciences

## Prerequisite: AGB 802

## AGH 10310200 VOC/TECH FLORAL DESIGN I

Construction and mechanics of merchandising flowers and plants at retail.

AGH $104 \quad 10200$ VOC/TECH FLORAL DESIGN II
An advanced class in commercial floral design, flower shop organization and management. Advanced wedding work, funeral work and commercial flower arrangements will be taught. Prerequisite: AGH 103

## AGH 11122000 VOC/TECH INTRO TO TURFGRASS MANAGEMENT

The study of soil and turf relationships as to planning, seed bed preparation, seed selection, fertilization, sowing and establishing of turf and lawn. The student receives practical experience in starting and maintaining new lawn areas.

Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 221

AGH 120 VOC/TECH HERBACEOUS PLANT MATERIALS
The identification, morphology, landscape use and culture of native and nonnative plants of the Upper Midwest. Emphasis on early and mid-season perennials and annuals.

The following courses should be completed or taken currently: AGH 155, 123

## AGH 123 VOC/TECH WOODY PLANT MATERIALS

The identification, morphology, landscape use and culture of native and nonnative woody plants of the Upper Midwest. First 10 weeks, emphasis on deciduous plants. Last 5 weeks, emphasis on evergreens.

Corequisite: AGH 159
AGH $132 \quad 32200$ VOC/TECH INTRODUCTION TO GREENHOUSE
An introduction to greenhouse structures, heating and environmental control systems and watering. Winter and spring commercial pot plants, cut flowers and bedding plant crops will be explored vocationally in the college greenhouse. Prerequisite: AGH 146 or AGA 154, AGH 147, and AGH 221

## AGH 1332200

 GREENHOUSE PROD TECHNIQUESGreenhouse maintenance, nutrition, watering, cooling systems and pest control shall be developed further in college greenhouse facilities. Summer and fall crops will be grown by students.
Prerequisite: AGH 132

## AGH 1423200 VOC/TECH

 CONSTRUCTION, SAFETY \& MAINT.Principles and practices of residential landscape construction. Encompasses process from initial client contact to installation of plant material and hardscape. Laboratory work involves landscape installation using landscape materials and techniques.

## AGH 1463000 VOC/TECH SOIL SCIENCE FOR HORTICULTURE

A study of the management and properties of soils and rooting media for horticulturalists. The course will study the physical, chemical and biological aspects of soil management. This course also includes the study of soil amendments for fertilization, pH and salt control.
Corequisite: AGH 147

## AGH 147 VOC/TECH

 SOIL FERTILITY FOR HORTICULTUREThis course provides a study of the practical application of soil management to the various aspects unique to soil and potting media management in horticulture

Of the following corequisites, AGH 146 is the recommended corequisite. Corequisite: AGH 146 or AGA 154

## AGH 154 VOC/TECH RESIDENTIAL LANDSCAPE DESIGN

Fundamentals of landscape design for homes are presented. Introduction to principles of landscaping as they apply to residential landscaping. Students are given opportunities to draw basic residential landscape plans.

Prerequisite or Corequisite: AGH 159, 123 must be taken with or prior to this course.

## AGH 155 21200 VOC/TECH LANDSCAPE DESIGN II

Course will include design of residential, commercial, public areas and annual and perennial flower beds. Use of landscape construction materials in design and materials and labor estimates will be developed.

Prerequisite: AGH 154, 159, 123. Corequisite: AGH 120
AGH $159 \quad 22000 \quad$ VOC/TECH
LANDSCAPE DRAFTING
Introduction to landscape drafting and associated
drafting equipment and materials.
Corequisite: AGH 123

## AGH 16021200 <br> VOC/TECH <br> \section*{IRRIGATION SYSTEMS}

A study of the design, installation, use and maintenance and repair of the different types of irrigation systems used in the production of a wide variety of horticulture crops. Irrigation system components, materials and estimates of installation, maintenance and operation costs will be discussed.
Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 111

## AGH 21132200 VOC/TECH

 ADVANCED TURFGRASS MANAGEMENTTurf management practices on golf and recreation areas with practical experience in maintaining turf on outdoor campus facilities.

Prerequisite: AGH 111

## AGH $221 \quad 33000 \quad$ VOC/TECH PRINCIPLES OF HORTICULTURE

A course designed to introduce the student to the principles of botany that are basic to plant life. Topics covered include plant cell chemistry, cell structure, functions, photosynthesis and transpiration.

## AGH 2332200 VOC/TECH

 PLANT PROPAGATION IAn introduction to plant propagation with emphasis on grafting, herbaceous and hardwood cuttings, and greenhouse and nursery seeds. Propagation schedules, equipment, structures and growth regulators will be discussed.
Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 221

## AGH 241 <br> 21200 <br> VOC/TECH

SPORTS TURF
Introduction to the variety of sports contests played on turfgrass fields. Students will study the sport, site selection and preparation, turfgrass species selection, establishment and maintenance of the field. Pre-competition practices of field layout along with post-competition practices of repair and field recovery will be discussed.
Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 111

## AGH 25122000 VOC/TECH INSECTS AND DISEASES

Identification of diseases and insects that frequently infest horticultural crops and plant materials. Structures, functions and life cycles of these pests will be studied with environmental conditions favoring development. Chemical, organic, biological and mechanical control methods will be presented. A collection will aid in the ID process

AGH 2623200 VOC/TECH FRUIT AND VEGETABLE SCIENCE
A study of tree fruits, small fruits and vegetable culture, including varietal selection, planting, pruning, fertilizing, disease and insect control programs.
Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 221

## COURSE DESCRIPTIONS

AGH 27232200 VOC/TECH NURSERY PRODUCTION I
Introduces the student to site selection, equipment and supplies with an introduction to field production, harvesting and marketing. Basic nursery and landscape skills will be developed on- and -off campus. Prerequisite: AGH 146 or AGA 154, AGH 147, AGH 221

## AGH 28132200 VOC/TECH

 ARBORICULTUREA study of tree culture with emphasis on propagation, pruning, transplanting, pest control, urban environmental concerns, and recognition of hazards and liabilities. Methods of evaluation of values also studied.

Prerequisite: AGH 147 or AGA 154, AGH 147, AGH 221
AGH 28322000 VOC/TECH PESTICIDE APPLICATION CERTIFIC
Types of chemicals will be identified and how to use and apply them properly will be studied. The safe handling of chemicals and calibration of spray equipment will be covered. Includes study of core manual and category for commercial pesticide license.

AGH 2923000 VOC/TECH GARDEN CENTER MANAGEMENT
Display, promotion and merchandising in the modern garden center will be stressed. Problems of distribution functions of marketing and their costs will be studied. Management's role in organizing a business and financial planning will be discussed.

## AGH 805200010 VOC/TECH <br> HORTICULTURE INTERNSHIP I

Experience in a business setting related to the student's career objective. Taken over a fiveweek period
(P/F) Prerequisite: AGH 132, 111, 123
AGH 815200010 VOC/TECH HORTICULTURE INTERNSHIP II
An opportunity for the student to gain employment experience in their specialization. In many instances they will continue as full-time employees upon completion of the program. Taken over a fiveweek period.
(P/F) Prerequisite: AGH805

## AGM 33533000 VOC/TECH PETROLEUM PRODUCTS IN AG

Designed to acquaint students with the petroleum industry and its terminology. Major areas of study will be fuels and lubricants with emphasis on applications and selection, equipment operations, storage and handling procedures and federal regulations.

AGP $333 \quad 3220$ VOC/TECH PRECISION AGRICULTURE APPL.
This course is an introduction to the general principles of Precision Agriculture. Major topic areas will include Global Positioning Systems (GPS), yield mapping, Geographic Information Systems (GIS) and remote sensing equipment.

## AGS 113 <br> 33000 <br> VOC/TECH

 SURVEY OF THE ANIMAL INDUSTRYAn analysis of the livestock industry with emphasis on reproduction, inheritance, performance testing, selection and marketing.

## AGS 22232200 VOC/TECH

 SURVEY OF AQUACULTURE INDUSTRYA study of the ecology and management of aquaculture systems with emphasis on fish production. A focus on environmental issues relating to water quality will be implemented through laboratory exercises.

## AGS 22533000 VOC/TECH

SWINE SCIENCE
The practical application of technical information to life-cycle swine production including production systems, breeding and genetics, herd health, housing, marketing, management and nutrition. Required: Permission of Instructor or AGS 319, 113

## AGS 226 <br> 33000 <br> VOC/TECH

 BEEF CATTLE SCIENCEThe practical application of technical information to life-cycle beef production with emphasis on cowcalf production and feedlot management.
Prerequisite: Permission of instructor or AGS 319, 113

## AGS 24233000 VOC/TECH

 ANIMAL HEALTHA survey of diseases of large domestic animals, including discussion of causes, transmission, prevention and control.

## AGS 24511000 VOC/TECH INTRODUCTION TO ANIMAL DISEASE

This course covers the disease processes, primary and contributing causes, treatments and prevention of common medical and surgical diseases in domestic animals.
Prerequisite: AGV 120
AGS $319 \quad 33000$ VOC/TECH

## ANIMAL NUTRITION

The identification and study of feed ingredients, nutrients and additives. Determine feed requirements of various livestock classes. Ration balancing and feed formulations are computed.

## AGS 3233000 VOC/TECH ANIMAL NUTRITION II <br> The practical application of feeding principles. An in-depth study of the various nutrients, their requirements and uses. An analysis of research feeding trials, research procedures and manufacturing terminology. <br> Prerequisite: AGS 319

[^2]AGV 12410200 VOC/TECH INTRO TO VETERINARY TECHNOLOGY
This course introduces the basics of animal identification, husbandry, behavior, safety and healthcare to the student. Career opportunities in animal-related fields are explored. The student will also complete the American Red Cross Animal First Aid and CPR certification.
Prerequisite: Acceptance into the DMACC Veterinary Technology program.

```
AGV 129 33000 VOC/TECH VETERINARY PHYSIOLOGY
Physiology with a veterinary clinical emphasis. Provides the basis for study of confirmation, production and pathological processes of diseases of dogs, cats, horses, sheep, cattle, swine and laboratory animals.
Prerequisite: Acceptance into the DMACC Veterinary Technology program.
```

## AGV 133 VOC/TECH

 VETERINARY CLINIC PATHOLOGY IThis course covers parasite identification and testing and various sample collection, procedures and interpretation for common diagnostic testing performed in the veterinary laboratory.

Prerequisite: Acceptance into the DMACC Veterinary Technology program.

## AGV 13432200 VOC/TECH

 VETERINARY CLINIC PATHOLOGY IIContinues Veterinary Clinical Pathology I with emphasis on coagulation studies and clinical chemistry. Selected serological tests will also be covered.
Prerequisite: AGV 120, 124, 129 and 133

AGV 138 VOC/TECH CLINICAL PATHOLOGY LAB
A review of current clinical laboratory practices in veterinary pathology.
Prerequisite: AGV 134

AGV 139 VOC/TECH INTRO VETERINARY PHARMACOLOGY
This course covers the laws regarding medication use in the United States and discusses the basic groups of pharmaceuticals and their use in veterinary medicine. This includes dosage calculations, proper labeling, storage, inventory control, recordkeeping, and dispensing of medications.
Prerequisite: AGV 120, 124, 129 and 133

## AGV 14122000 VOC/TECH

ADV. VETERINARY PHARMACOLOGY
This course is designed to provide advanced knowledge in specific medication classification, usage and effects.
Prerequisite: AGV 139

## COURSE DESCRIPTIONS

## AGV 151 <br> 32200 <br> VOC/TECH INTRO VET TECH CLINICAL SKILLS

This course introduces the students to the basics of radiology, anesthesia, surgical preparation, veterinary customer service, veterinary computer programs, veterinary recordkeeping and other skills the students will use during their internship.

Prerequisite: AGV 120, 124, 129 and AGV 133

## AGV $160 \quad 42400$ VOC/TECH ANESTHESIA/ SURGICAL ASSISTANCE

This course is designed to introduce the student to the common surgical procedures performed in the veterinary clinic. Emphasis is placed on sanitation, patient observation, surgical preparation, assisting in anesthesia, and postoperative patient management.
Prerequisite: AGV 120, 124, 141

## AGV 16421200 VOC/TECH CLINICAL MGMT DOMESTIC SPECIES

This course covers the management and husbandry of animals housed in a hospital or shelter situation. Proper kennel cleaning \& disinfection, recordkeeping, monitoring of health parameters, nutrition, bathing, administration of common medications, and diagnostic sampling

Prerequisite: AGV 120

## AGV 16521200 VOC/TECH CLIN MGMT LAB/ EXOTIC SPECIES

This course is designed to introduce the common species, husbandry procedures and basic nutrition, restraint and handling, common diseases, diagnostic procedures and medications used in various laboratory and exotic pet settings.

Prerequisite: AGV 120

## AGV $166 \quad 31400 \quad$ VOC/TECH VETERINARY NURSING CARE

Introduces the fundamentals of animal nursing, including handling, restraint, patient history and admissions. Emphasis will be placed on preparation and administration of vaccines and medications for hospitalized animals.

Prerequisite: AGV 120, 124, 129 and 133
AGV 1723200 VOC/TECH LARGE ANIMAL MEDICINE/SURGERY
This course is designed to introduce common species, husbandry and management procedures, proper restraint and handling, common procedures, medication, administration and surgical concerns for common species of domestic large animals.
Prerequisite: AGV 160
AGV 180 $2120 \mathbf{0} \quad$ VOC/TECH
VETERINARY RADIOLOGY
This course is designed to introduce the student to
radiologic imaging. Topics include safety, patient
positioning, processing of film, proper machine use
and quality control.
Prerequisite: $A G V 120,124$

## AGV 266 <br> 21200 <br> VOC/TECH

 ADV VETERINARY NURSING CAREContinues Veterinary Nursing Care with emphasis on advanced veterinary nursing procedures.

Prerequisite: AGV 166

## AGV 932400020 VOC/TECH VET TECHNOLOGY INTERNSHIP <br> Internship experience within a veterinarian-related business with an emphasis on animal care procedures. <br> Prerequisite: AGV 134, 139, 151 and 166

## ANT 100 <br> 33000 <br> CORE INTRODUCTION TO ANTHROPOLOGY

This course is an introduction to the comparative study of humankind from biological and cultural perspectives. It surveys anthropological theory, methods and major findings regarding human origins and variations, cultural development and change, cultural systems, and cross-cultural comparisons of people throughout the world.

## ANT $105 \quad 33000$ CULTURAL ANTHROPOLOGY

The study of human cultures and their diversity. Those who take this course should develop some understanding not only of the differences that people all over the world experience in their ives and in their perceptions of others, but also those elements that are common to the human experience. This course will entail application of principles and theory to various aspects of field work. Completing Introduction to Anthropology would be helpful; however, it is not a requirement.

## ANT 110 <br> 33000 <br> GENERAL

 FACES OF CULTUREA television course in cultural anthropology that presents culture as the expression of human values, behavior and social organization existing in unique and varied forms throughout the world. The course focuses on culture as an adaptive mechanism that provides for the survival of the species.

## ANT 1253000 GENERAL

 APPLICATIONS OF ANTHROPOLOGY Applied anthropology uses anthropological and interdisciplinary theory and research to address social issues. This course introduces students to basic concepts in four-field anthropology, with an emphasis on cultural anthropology, and it provides an overview of major specializations and current research topics. Students will engage in primary, community-based research through a course project on a topic of choice within one applied specialty. Students in all programs of study at DMACC may benefit through better understanding of qualitative research processes, the broad array of social issues that applied anthropologists study, and critical thinking and writing that are necessary to problemsolving and understanding of culture and society.Prerequisite or corequisite: ANT 100 or 105 or instructor approval

## ANT 14021200 GENERAL CULTURE \& ENV OF BOREAL FOREST

The class is an intensive on-site, six-day course taking place in the Boundary Waters Canoe Area (BWCA) of Superior National Forest in Northern Minnesota. BWCA is a designated wilderness area, accessible in the spring, summer and fall by nonmotored canoe or kayak only. Students will learn how the cultural groups residing there for the past 9,000 years have interacted with the local environment, discussing the environmental exploitation strategies of the various indigenous populations and the historic Euro-American groups in the Boreal Forest. The environment of the Boreal Forest will also be studied and encompass geology, ecology, botany and zoology. The students will use wilderness minimal-impact camping skills and travel from 35 to 50 miles via canoe. Wilderness living skills and safe and effective canoeing techniques will be taught.

## ANT 15033000 GENERAL GLOBAL ISSUES-LOCAL PERSPEC

Examines a variety of ways in which global connections affect cultural groups. Introduces the concepts and historical backdrop needed to understand global processes with specific cases from anthropological research that illuminate ties between local effect and general changes. The concept of "culture" is explained from critical and historical perspectives, along with recent shifts in theorizing and applying anthropological knowledge. The uses of qualitative field research in studies of globalization are emphasized. Students conduct a small topic-focused research project to see how globalization affects local processes in lowa.
Prerequisite or Corequisite: ANT 100 or 105 or instructor approval

## APP $11133000 \quad$ VOC/TECH

 VISUAL MERCHANDISING \& DESIGNFocus will be learning design principles and design elements in visual merchandising and merchandise display. An emphasis is placed on planning and designing successful interior store or business displays and windows with the six components as well as implementing all of the design principles.

## APP 211 <br> $33000 \quad \mathrm{VOC} / \mathrm{TECH}$ TEXTILES

Focus will be on an application-oriented study of natural and manufactured fibers. Popular weaves, technologies used to produce, qualities achieved, and costs incurred will be analyzed. Printing and dyeing processes, in addition to the finishes available today will be studied.

## APP $230 \quad 33000 \quad$ VOC/TECH

 FASHION COORD \& PROMOTIONFocus is on researching, analyzing and forecasting fashion trends. Information on emerging fashion trends is communicated through a PowerPoint computer presentation. Use of this information results in creation of a promotional plan to establish fashion leadership

Prerequisite: APP 260

## COURSE DESCRIPTIONS

APP $250 \quad 33000 \quad$ VOC/TECH DESIGN CONCEPTS
Includes a study of the history of fashion design, the effective use of design principles and analysis of future fashion trends. New industry-based computer design software will be used to design contemporary fashion apparel for women, men or children.

## APP $260 \quad 33000 \quad$ VOC/TECH FASHION ANALYSIS AND DESIGN

Emphasis is placed on all phases of the apparel business planning process that includes strategic planning, merchandise planning, creative planning, technical planning and production planning as well as discussions on the various types of retailers that sell the apparel products to the consumer. Design elements and design principles are applied to apparel design analysis. Basic garment styles are studied. Fashion forecasting and sources of inspiration are discussed. Current trends are prepared by the student in a research project. Students will learn how to develop a successful group line. Designer history and concepts are researched and shared in a project prepared by the student. Becoming aware of the wide variety of fashion-related careers is also covered in this course.

## APP 270 <br> $33000 \quad$ VOC/TECH

## FASHION BUYING

Fashion moves quickly and the buyer must be in tune with current trends and suppliers who can provide the best quality merchandise, delivery and pricing. Vender analysis, open-to-buy and timing are studied, including the development of a six-month merchandise plan.

APP $291 \quad 10200 \quad$ VOC/TECH FASHION STUDY TOUR
The student will participate in a supervised study tour, location to be announced, in which a concentrated time will be spent touring a market center and researching a variety of fashion businesses from manufacturing and marketing to merchandising, promoting and selling apparel.
Prerequisite: APP 260

## ARC 11452600 VOC/TECH

 ARCHITECTURAL DRAFTING IPractical application of the basic skills of drafting involving the necessary thought process. A complete set of residential drawings will be developed by hand-involving plans, elevations, sections and details.

## ARC $116 \quad 22000$ VOC/TECH CONSTRUCTION ESTIMATING

An orderly process of accounting for the items involved in the construction project.

## ARC 12752600 VOC/TECH

ARCHITECTURAL DRAFTING II
This course will apply practical application of the basic skills of drafting involving the mechanics and the necessary thought process.
Prerequisite: ARC 114 and CAD 119

## ARC 128 <br> 52600 <br> VOC/TECH

 ARCHITECTURAL DRAFTING IIIDrawings will be developed of a small commercial building using Building Information Modeling software. Prerequisite: ARC 127

## ARC 16533000 VOC/TECH MATERIALS \& ASSEMBLIES I

An introduction to building materials and assemblies through the Construction Specifications Institute's MasterFormat accounting and management system.

## ARC $167 \quad 33000$ VOC/TECH

 MATERIALS \& ASSEMBLIES IIAn introduction to building materials and assemblies through the Construction Specifications Institute's MasterFormat accounting and management system. Prerequisite: ARC 165

## ARC $169 \quad 33000$ VOC/TECH

## MATERIALS \& ASSEMBLIES III

An introduction to building materials and assemblies through the Construction Specifications Institute's MasterFormat accounting and management system. Prerequisite: ARC 167

ARC $180 \quad 22000$ VOC/TECH BUILDING CODES
A look into building codes and their interpretation.

## ARC 18122000 VOC/TECH

 CONSTRUCTION DOCUMENTS TECHAn investigation into the Construction Specification Institute's Construction Documents Technologist certification material and examination.

ARC $190 \quad 31400 \quad$ VOC/TECH PRESENTATION GRAPHICS
Exploration into architectural presentation graphics, schematic and finish presentation styles. Students will have an option of media to produce presentation graphics for their portfolios.

Prerequisite: ARC 127 or instructor permission
ART 1013000 CORE ART APPRECIATION
A general survey course that explores in chronological sequence many artists, their lives, styles and media. The student will use art to recognize global cultural diversity and connect to universal human experience as expressed through art.

ART 1023200 GENERAL ARTS FOR ELEMENTARY EDUCATION
Designed for students in education and recreation to assist them with design, construction and planning for multi-art forms and materials for instructional situations.

## ART 133 <br> 30600 <br> GENERAL DRAWING

Lab study of tools and techniques necessary for entry-level visual arts in drawing. Emphasis on still life using gesture, contour, shape, plane, volume and value/tonal techniques. Basic drawing skills with pencil, charcoal and eraser are explored.

ART 13630600 GENERAL LIFE DRAWING
Drawing and painting a live model. Emphasis on structure, movement and expression.
ART $143 \quad 30600 \quad$ GENERAL
PAINTING
Acrylic painting with emphasis on still life, landscape

Acrylic painting with emphasis on still life, landscape and individual composition.

ART 14830600 GENERAL LANDSCAPE PAINTING
Landscape painting using any water-based media. Study of the elements of art to aid in composition and development of a personal painting style. Field trips will be required.

ART 173 GENERAL CERAMICS
Comprehensive "hands-on" introductory experience working clay. The discovery "process" of finding one's unique sense of touch is stressed. Fundamental techniques demonstrated in handbuilding and wheel-throwing. Concepts in ceramic art discussed, connecting cultures, artists and contemporary objects.

## ART 17430600 GENERAL CERAMICS II

Series of forms, individual help from a professional artist. Topics in ceramics: the "figure," large-scale works, architectural terra-cotta restoration, outdoor clay bodies, building slide portfolio, photographing work, shows, and galleries. Kiln firing.
Prerequisite: Instructor permission

## ART 17630600 GENERAL

 TILEMAKINGDesign and fabricate tiles for specific applications, while emphasizing critical processes of working with clay. Transforms two-dimensional drawings to pieces in three dimensions. Study new theories in "Visual Communication."

## ART 18432200 <br> OPEN

 PRINCIPLES OF PHOTOGRAPHYStudents will learn the basic principles of photography. Topics will include basic camera operation, film developing, darkroom techniques and special effects. The camera will become an instrument to explore and communicate ideas, goals and visions effectively.

## COURSE DESCRIPTIONS

#### Abstract

ART 1863200 OPEN PRINCIPLES DIGITAL PHOTOGRAPHY Students will learn the basic principles of digita photography. Topics will include basic camera operation, composition, metering, computer tips and tricks, and shooting tips and tricks. The digital camera in conjunction with the computer will become instruments to explore visual communication effectively. This course requires an SLR digital camera, minimum 5.0 megapixels, capable of interchangeable lenses.

```
ART 190 3 3000 GENERAL
HISTORY OF PHOTOGRAPHY
```

Students will study the history, language and meaning of photography, including its evolving technology, notable contributors and reflection of our changing culture. Students will also learn about the social impact of photography as a news medium, the principles of photographic aesthetics and contemporary issues.

## ART 1953000 GENERAL

 DESIGN: EXPLORING ART MEDIAAn introduction to basic techniques in media such as paper-making, clay, fibers and soft sculptures. Students will explore variety of traditional approaches to express a contemporary vision.

## ART 22532200 OPEN

 PHOTOSHOP FOR PHOTOGRAPHYWhether you shoot film or digital, this hands-on course teaches you everything you need to know to scan, process, manipulate and print high-quality photographs digitally from Adobe Photoshop, the industry-standard software for the digital darkroom.

## ART 22632200 OPEN

ALTERNATIVE PHOTO PROCESSES
For students who have mastered the basic photographic principles and process. This class will be a guide that demonstrates a variety of alternative processes, encompassing both traditional and nontraditional techniques. Topics include Litho Printing, EIR Film, HIE Film, Spray Developing, Fotodye, Tone Zone, Sun-printing and Photograms.
Prerequisite: ART 184, ART 186

## ART 28932200 <br> OPEN

## PHOTOJOURNALISM

Students will learn basic visual and technical aspects of photojournalism using a digital camera while photographing a series of general news, feature, performing arts, sports and community events.
(This course uses digital cameras only.)

| ART 291 | 3200 | OPEN |
| :--- | ---: | :--- |
| TRAVEL PHOTOGRAPHY |  |  |

Advanced principles of image making, printing and presentation will be explored with spirit and knowledge that is expected to engender an appreciation for photography, travel and the state of lowa.
Prerequisite: ART 184

## ART 292 <br> 32200 <br> VOC/TECH

 STUDIO PHOTOGRAPHYStudents learn to arrange and compose a photograph in a deliberate process. Students learn to analyze the elements in a scene, arrange them and use artificial light for the desired effect. Projects test student imagination, creativity, technical skills and willingness to experiment while improving their photographic expertise.
Prerequisite: ART 184, ART 186

## ART 929 2-6 00 6-18 0 INDIVIDUAL PROJECTS

Students will have the opportunity to further develop their photographic expertise in one or more of the following photography classifications: Architectural, Banquet, Postcards/Marketing Publications, Business Portraits, Fine Arts, Fashion, Furniture, Industrial, Illustrative, Photojournalism, Public Relations, Conventions/Special Events, Education or Weddings. Students meet with instructor for project review once a week until project is completed. This course is repeatable up to 6 credits.

Prerequisite: ART 226, ART 289, ART 291, ART 292

## ASL 15154200 CORE AMERICAN SIGN LANGUAGE I

This course is designed for students who have no knowledge of American Sign Language. Topics to be introduced include: ASL Linguistic features, cultural protocols and core vocabulary enabling students to function in basic ASL conversation: asking/ answering questions, introductions and exchanging personal information, discussing family, friends and surroundings

ASL 15542400 CORE AMER SIGN LANG II: NON-MAJORS
This course expands the basic principles presented in ASL I and is designed for the intermediate study of ASL for non-majors. It provides students with the opportunity to increase their ASL competence and to use ASL in a variety of discourse and narrative settings. The following skills will be emphasized: semantic awareness analysis, exploring ASL grammar and complex uses of space, ways of making transitions between ideas, use of classifiers and determining appropriate perspective in specific contexts.

Prerequisite: ASL 151 with a "C" or better

## ASL 181 <br> 54200 AMERICAN SIGN LANGUAGE II

This course expands the basic principles presented in ASL I. ASL II teaches students to use linguistic features, cultural protocols and core lexical items to function in basic ASL conversations that include ASL grammar for giving directions, describing, making requests, talking about family, occupations and routines and attributing qualities to others.
Prerequisite: ASL 151 or instructor permission

#### Abstract

ASL 25154200 CORE AMERICAN SIGN LANGUAGE III This course expands the basic principles presented in ASL II. ASL III focuses on features of time, subject/ object, classifiers, nonmanual behaviors and finger spelling (including numbers and loan signs). In addition, ASL semantics and syntax (including conversational regulators) will be introduced. Prerequisite: ASL 181 or instructor permission

ASL 29154200 CORE
AMERICAN SIGN LANGUAGE IV
The course focuses on different registers of ASL discourse and the use of space in discourse. Most of the work in this course will involve students production of appropriate, accurate ASL discourse. Areas of vocabulary development include: contextually sensitive vocabulary (eg. human sexuality, AIDS), national and world events and politics.

Prerequisite: ASL 251 or instructor permission

## ASM 150 OPEN

 COMMUNICATION WITH THE ELDERLYThis course will introduce strategies and concepts to improve communication with the elderly population. Prerequisite: Instructor approval

## ASM 15511000 OPEN IMPACT OF DEMOGRAPHICS

This course will address demographic changes in the elderly population and the impact on society.

Prerequisite: Instructor approval

| ASM 160 | 11000 | OPEN |
| :--- | ---: | :--- |
| ASPECTS OF AGING |  |  |

## ASPECTS OF AGING

This course will examine the physiological, biological and psychological changes as they relate to the aging process.
Prerequisite: Instructor approval

## ASM 16511000 OPEN

 HEALTHY AGINGThis course will examine the research of healthy aging and the results of improving the quality of life in advancing years.
Prerequisite: Instructor approval
ASM $180 \quad$ OPEN 11000 DIVERSITY
CULTURAL DIV
This course will explore cultural diversity as it relates
to race, national origin, gender and culture in the
aging population.
Prerequisite: Instructor approval
ASM $200 \quad 11000$
DEPRESSION, DEATH \& GRIEVING OPEN

This course will cover depression, death, loss and the grieving process for both the family and the professional caregiver
Prerequisite: Instructor approval

## COURSE DESCRIPTIONS

#### Abstract

ASM 2383000 OPEN FINANCIAL MANAGEMENT IN AS Emphasis on financial practices in organizations that provide health services to seniors. Review cost and labor hour controls. Excel spreadsheets, evaluation of profit/l oss and fiscal reports will be addressed. It is suggested that the student have taken ACC 111 or ACC 131 prior to this course.

## ASM 23922000 OPEN

 INFO SYSTEMS IN HEALTHCAREEmphasis will be placed on the analysis of healthcare information needs and the development of methods to meet these needs. Fundamental components of computers and computer systems will be examined, including specialized information management systems in healthcare.

## ASM 2512000 <br> GOVERNANCE OF NF/SNF

Emphasis on the changing dynamics of long-term care and the regulatory system. Special attention will focus on the federal and state regulations that govern the long-term healthcare services. This will include the agencies that originate, implement and monitor the regulations.

ASM $252 \quad 22000$ OPEN
GOVERNANCE OF SUPPORTED LIVING
An introduction to the assisted living facility mission, tenant care issues, management,
staffing and organization. Includes topics in legislative changes and updates, governance, funding, grant writing, landlord/tenant law and licensure exam preparation.

ASM $253 \quad 20009$ OPEN LTC PRACT: PSYCHOSOCIAL NEEDS
During this practical experience, the student will investigate the policies, procedures and techniques used to meet the psychosocial needs of clients residing in nursing care facilities. Special emphasis will be placed on the role and responsibilities of the administrator in assuring client psychosocial needs are met.

## ASM 254 OPEN

 LTC PRACT: PHYSICAL NEEDSDuring this practical experience, the student will investigate the policies, procedures and techniques used to meet the physical and environmental needs of clients residing in nursing care facilities. Special emphasis will be placed on the role and responsibilities of the administrator in assuring client physical and environmental needs are met.

## ASM $255 \quad 20009$ <br> LTC PRACT: ADMINISTRATION

During this practical experience, the student will investigate the policies, procedures and techniques used to meet the administrative and business needs of nursing care facilities. Special emphasis will be placed on the administrative style used by the administrator in carrying out his/her roles and responsibilities.

## ASM 25620008 AGENCY EXPERIENCE

During this practical experience, the student will investigate a senior services agency. The student will identify the purpose of the business, client needs, funding and techniques to evaluate the service delivery system. In addition, the student will pay special attention to the role and responsibilities of the administrator or manager in the operation of the agency.

## ASM 257 OPEN ASM CAPSTONE

A capstone is a culminating project that incorporates a student's learning from both classroom and practical experiences. The capstone should include a project of substantial administrative focus and be adapted to meet the student's own learning needs. Students will investigate potential capstone projects with instructor.

ASM 274 OPEN LAW \& ETHICS IN HEALTHCARE
An introduction to law and its relationship to senior healthcare services. The course is designed to provide a basic background in law and ethics by defining the law, the court structure and its procedures and exploring various legal and ethical issues relating to long-term healthcare services.

## ASM 2783000 OPEN MANAGEMENT IN SENIOR CARE SERV

Relates fundamental management principles in the senior care setting. Focuses on management processes and organizational behavior in senior care organizations, healthcare facilities and other senior health services agencies.

## ASM 279 OPEN

 HEALTHCARE HUMAN RESOURCESStudy of policies, procedures and the processes in human resource planning. This would include securing, developing and maintaining human resources, labor laws, and employee/management rights in healthcare services settings.

## ASM 280 OPEN

HEALTHCARE DELIVERY SYSTEMS
Provides a comprehensive overview of the healthcare delivery systems and services. Includes studies in access and financing healthcare services and evaluating the delivery of care.

## ASM 2822000 OPEN

 AGING SERVICESAging Services relates physical, psychological and sociological needs of seniors to services provided in the continuum of care setting. Includes the services in a therapeutic milieu creating a home environment that includes nursing, dietary, environmental concerns, activities and social services.

## ASM 2832000 <br> OPEN

 AGING POLICIES \& GOV PROGRAMSClass examines aging policies and government programs at the federal and state levels. Various agencies, advocacy groups and funding sources are investigated.

## ASM 2914008 ACTIVITY COORDINATOR

OPEN
This course is designed to prepare persons to work as activity coordinators in the continuum of care communities. This would include the following settings: skilled care, healthcare, assisted living programs, adult day and residential care. Topics will include understanding residents' needs, rights and choices and providing appropriate activities. The course will also address resident-centered care, regulatory requirements and the survey process. The course has been approved by the lowa Department of Health and meets their requirements.

## ASM 295 OPEN DEATH AND DYING

An examination of death and the dynamics relating to the grief process, its foundational components, its varied characteristics and its impact upon the bereaved, with special emphasis upon appropriate resolution and adjustment.

## ASM 800 <br> 11000 <br> OPEN

## SEMINAR I

The seminar will meet twice to discuss topics, issues and methods for applying the knowledge acquired from the modules as they relate to the elderly population.
Prerequisite: Instructor approval
ASM 80511000 OPEN SEMINAR II
The seminar will meet twice to discuss topics, issues and the application of knowledge from the modules as they relate to the elderly population.
Prerequisite: Instructor approval

## ATC $320 \quad 300018 \quad$ VOC/TECH

 TECHNICAL INTERNSHIP IThe technician will work in a participating dealership. The work will be full-time approximately 40 hours per week. The tasks will be consistent with the technician's ability and previous course work. A task list will be issued to each dealer.
ATC 328 and ATC 329 are required the same semester.
ATC $328 \quad 4 \mathbf{4 2 0}$ VOC/TECH
CHRYSLER ELEC SYSTEMS REPAIR
Instruction in the diagnosis, repair and service
of electrical and electronic components and
accessories used on current Chrysler vehicles.
Prerequisite: ATC 312, MAT 772
ATC $330 \quad 300018 \quad$ VOC/TECH
TECHNICAL INTERNSHIP II
Work experience at a participating dealership. The
tasks will be consistent with the technician's ability
and previous course work.
Prerequisite: ATC 328, 329

## COURSE DESCRIPTIONS

## ATC 335 <br> 53400 <br> VOC/TECH

 SERVICE/REPAIR CHRYSLER ENGINEPrinciples and operations of Chrysler engines Service procedures and engine component repair or replacement will be emphasized. Diagnosis of engine problems will also be covered.
Prerequisite: ATC 317
ATC $336 \quad 31400 \quad$ VOC/TECH CHRYSLER FUEL SYSTEMS
A course designed to acquaint the student with basic fuel system principles. Instruction will be offered in the theory, service, repair and adjustment of automotive fuel systems.
Prerequisite: ATC 328

## ATC $340 \quad 300018 \quad$ VOC/TECH

 TECHNICAL INTERNSHIP IIIWork experience at a sponsoring dealership. The tasks will be consistent with the technician's ability and previous course work.

Prerequisite: ATC 335
ATC $346 \quad 53400 \quad$ VOC/TECH CHRYSLER ENGINE PERFORMANCE
Diagnosis and service of microprocessor-controlled fuel and injection systems. Oscilloscopes, engine analyzers, digital meters and other high-technology instruments will be used.
Prerequisite: ATC 335, 336

## ATC $347 \quad 31400 \quad$ VOC/TECH

CHRYSLER HEATING \& AC
Theory and operation of Chrysler air conditioning systems leading to the diagnosis, service and repair of current models of Chrysler vehicles.

Prerequisite: ATC 312, 317
ATC $350 \quad 300018 \quad$ VOC/TECH TECHNICAL INTERNSHIP IV
Work experience at a participating dealership. Tasks will be consistent with the technician's ability and previous course work.
Prerequisite: ATC 340
ATC $354 \quad 42400$ VOC/TECH CHRYSLER MANUAL DRIVETRAINS
Provides an understanding of the principles of operation in manual drivetrains including manual transmissions, transaxles, front and rear differentials, driveshafts and transfer cases. Proper diagnosis, service and repair procedures of these systems are studied and practiced.
Prerequisite: ATC 340
ATC $355 \quad 42400$ VOC/TECH CHRYSLER AUTOMATIC DRIVETRAINS
Provides an understanding of the principles of operation in automatic transmission and transaxles including electronic controls. Proper diagnosis, service and repair procedures of these systems are studied and practiced.

Prerequisite: ATC 317,346

ATC 3565400 VOC/TECH ADVANCED CHRYSLER SYSTEMS
Instruction in techniques and procedures required to diagnose and service current vehicles. New systems developed by Chrysler will be included.
Prerequisite: ATC 346
ATC $360 \quad 200012$ VOC/TECH TECHNICAL INTERNSHIP V
Work experience at a participating dealership. Tasks will be consistent with the technician's ability and previous course work.
Prerequisite: ATC 350
ATF $280 \quad 41600$ VOC/TECH FORD STEERING/SUSP/BRAKES
Instruction in the theory of operational service procedures used in the maintenance and repair of Ford Motor Company's base steering, suspension and brake systems
Prerequisite: Admission to ASSET program.

## ATF $290 \quad 21200 \quad$ VOC/TECH

 ADV. FORD STEERING/SUSP/BRAKEInstruction in the theory and operation of advanced Ford Motor Company steering, suspension and brake systems.
Prerequisite: Admission o Automotive Student Service Education (ASSET) Program, AFT 280 and AFT 328

## ATF $3125300 \quad$ VOC/TECH

FORD AUTOMOTIVE ELECTRICAL
A study of the electrical systems used in Ford Motor Company vehicles. The instruction will include fundamentals of electricity, series and parallel circuits, schematics, wire repair, diodes, transistors, microprocessors and digital displays.
Prerequisite: Admission to Automotive Student Service Ed Training

## ATF $3172200 \quad$ VOC/TECH

 FORD SHOP FUND \& MINOR SVCA study of dealership organizational structure as it relates to the technician. Use of service manuals, electronic troubleshooting manuals and service bulletins are practiced. Also provides entry-level automotive task competencies.

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

## ATF 320 VOC/TECH

 TECHNICAL INTERNSHIP IWork experience at a sponsoring dealership. The tasks will be consistent with the technician's ability and previous course work.

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

## ATF 326 <br> 32200 <br> VOC/TECH

## FORD AUTOMOTIVE CLIMATE CTRL

Theory and operation of Ford Motor Company air conditioning, heating and air distribution systems leading to the diagnosis, service and repair of current models of vehicles.
Prerequisite: Admission to Automotive Student Service Ed Training (ASSET) and ATF 328 or AUT 652

## ATF $328 \quad 53400 \quad$ VOC/TECH FORD ELECTRONIC SYSTEMS DIAG

Instruction in the operation and diagnosis/repair of electronic components and systems used on current Ford Motor Company vehicles. Required: Admission to Automotive Student Service Ed Training.

Prerequisite: ATF 312

## ATF 330 VOC/TECH

 TECHNICAL INTERNSHIP IIWork experience at a sponsoring dealership. The tasks will be consistent with the technician's ability and previous course work.

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

## ATF 33342400 VOC/TECH

FORD ENGINE DIAGNOSIS/REPAIR
Principles and operation of Ford Motor Company engines. Service procedures and engine component diagnostics, repair and/or replacement will be emphasized.

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET) and ATF 317 or AUT 114

ATF $3362200 \quad$ VOC/TECH FORD FUEL SYSTEMS \& INJECTION Introduction to the different types of fuels and theory of basic fuel delivery systems including diagnosis, repair and/or replacement of components in Ford electronic engine control systems.
Prerequisite: Admission to Automotive Student Service Ed Training (ASSET) and ATF 328 or AUT 652. Corequisite: ATF 337

ATF 33743200 VOC/TECH FORD DRIVEABILITY \& EMISSIONS
Diagnosis and service of microprocessor-controlled fuel and ignition systems. Computer-based scan tools, digital meters and other high-technology instruments will be used.

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET) and ATF 328 or AUT 652. Corequisite: ATF 336
ATF $\mathbf{3 4 0} \mathbf{3 0 0 0 1 8} \quad$ VOC/TECH
TECHNICAL INTERNSHIP IIII
Work experience at a sponsoring dealership. The
tasks will be consistent with the technician's ability
and previous course work.
Prerequisite: Admission to Automotive Student
Service Ed Training (ASSET)

## COURSE DESCRIPTIONS

ATF 34421200 VOC/TECH FORD DRIVELINE \& 4X4 DIAG/RPR
Students will study rear axle and differential design and operation, driveshaft construction, transfer case design and operation. Students will also perform diagnosis and repair operation of each.
Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

## ATF $345 \quad 21200$ VOC/TECH

## FORD MANUAL TRANSMISSIONS

This course is the study of Ford manual transmissions design and operation and clutch systems. It will include diagnosis and repair of clutches and transmissions

Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

ATF $346 \quad 43200$ VOC/TECH FORD TRANSMISSION \& TRANSAXLE
This is the study of Ford automatic transmissions and transaxles including design, operation, diagnosis and repair.
Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

## ATF $350 \quad 300018$ VOC/TECH TECHNICAL INTERNSHIP IV

Work experience at a sponsoring dealership. The tasks will be consistent with the technician's ability and previous course work.
Prerequisite: Admission to Automotive Student Service Ed Training (ASSET)

ATF 3545300 VOC/TECH FORD ADV ENGINE CNTRLS, ELECT
Instruction in techniques and procedures required to diagnose and service current vehicles. New systems developed by Ford Motor Company will be included.
Prerequisite: Admission to Automotive Student Service Ed Training and ATF 333
ATG 31243200 VOC/TECH GM SPECIALIZED ELECTRONICS TRN
A study of the electrical and electronics systems used in General Motors vehicles. The instruction includes fundamentals of electricity, series and parallel circuits, schematics, wire repair, diodes, transistors and microprocessors.
Prerequisite: Admission to Automotive Service Educational Program (ASEP)

ATG 31642400 VOC/TECH GM SHOP FUND \& MINOR SERVICE
A study of dealership organizational structure as it relates to the technician. Students use service manuals, electronic troubleshooting manuals and service bulletins. Also provides entry-level automotive task competencies.

Prerequisite: Admission to Automotive Service Educational Program (ASEP)

ATG 320 VOC/TECH ATG 42400 VOC/TECH GM BRAKE SYSTEMS
Instruction in the theory of operation and service procedures used in the maintenance and repair of General Motors brake systems.
Prerequisite: Admission to Automotive Service Educational Program (ASEP)

## ATG $322 \quad 31400$ <br> VOC/TECH

GM STEERING \& SUSPENSION
Instruction in the theory of operation and service procedures used in the maintenance and repair of General Motors steering and suspension systems.

Prerequisite: Admission to Automotive Service Educational Program

## ATG $326 \quad 32200$ VOC/TECH GM AUTO AC SYSTEMS

Theory of operation of General Motors air conditioning systems leading to the diagnosis, service and repair of current models of GM vehicles.

Prerequisite: Admission to Automotive Service Educational Program, ATG 312, 316

## ATG $327 \quad 32200$ VOC/TECH MINOR SVC/REPAIR/ GM ENGINES

Course will provide instruction in the theory and operation of General Motors 4-stroke cycle engines. Emphasis will be placed on both design and proper disassembly/reassembly procedures.
Prerequisite: Admission to Automotive Service Educational Program, ATG 316

ATG $328 \quad 32200 \quad$ VOC/TECH DIAGNOSIS/REPAIR-GM ELECT SYS
Instruction in the diagnosis, repair and service of electrical and electronic components and accessories used on current GM vehicles.
Prerequisite: Admission to Automotive Service Educational Program, MAT 772, ATG 312, ATG 316

## ATG $329 \quad 300018$

 TECHNICAL INTERNSHIP IThe technician will work in a participating dealership. The work will be full-time approximately 40 hours per week. The tasks will be consistent with the technician's ability and previous course work. A task list will be issued to each dealer.

Prerequisite: Admission to Automotive Service Educational Program, MAT 772, ATG 312, ATG 316, ATG 320, and ATG 322

## ATG $330 \quad 300018$ TECHNICAL INTERNSHIP II

Work experience at a participating dealership. The tasks will be consistent with the technician's ability and previous course work.
Prerequisite: ATG 329, 328

## MAJOR SERVICE PROC/GM ENGINES

Evaluating, reconditioning and replacing of major components of GM engines. Instruction will also include diagnostic routines.
Prerequisite: ATG 327
ATG 336 VOC/TECH

## GM FUEL SYSTEMS

A course designed to acquaint the student with basic fuel system principles. Instruction will be offered in the theory, service, repair and adjustment of automotive fuel systems.

Prerequisite: Admission to Automotive Service Educational Program and ATG 328

## ATG 337 VOC/TECH GM TUNE-UP PROC \& EMSSN CNTRL

Diagnosis and service of microprocessor-controlled fuel and ignition systems. Oscilloscopes, engine analyzers, digital meters and other high-technology instruments will be used.
Prerequisite: ATG 336

## ATG $340 \quad 300018$ VOC/TECH TECHNICAL INTERNSHIP III

Work experience at a sponsoring dealership. Tasks will be consistent with the technician's ability and previous course work.
Prerequisite: ATG 330, 344, 345

## ATG 3442400 VOC/TECH

 GM MANUAL DRIVETRAINSProvides an understanding of the principles of operation in manual powertrains including manual transmissions and transaxles, front and rear differentials, driveshafts and transfer cases. Proper diagnosis, service and repair procedures of these systems are studied and practiced.

Prerequisite: ATG 317, AUT 109
ATG $345 \quad 42400$ VOC/TECH GM AUTOMATIC DRIVETRAINS
Provides an understanding of the principles of operation in automatic transmissions and transaxles. Proper diagnosis, service and repair procedures of these systems are studied and practiced.
Prerequisite: ATG 317, AUT 109
ATG $350 \quad \mathbf{3 0 0 0 1 8} \quad$ VOC/TECH
TECHNICAL INTERNSHIP IV
Work experience at a participating dealership. Tasks
will be consistent with the technician's ability and
previous course work.
Prerequisite: ATG 340

## ATG $354 \quad 5300 \quad$ VOC/TECH ADVANCED GM MOTORS SYSTEMS

Instruction in techniques and procedures required to diagnose and service current vehicles. New systems developed by GM will be included.
Prerequisite: ATG 350

## COURSE DESCRIPTIONS

AUT $114 \quad 42400$ VOC/TECH SHOP FUND \& MINOR SERVICE
A study of the organizational structure in a dealership/ repair facility as it relates to the technician. Students use service manuals, electronic troubleshooting manuals and service bulletins. The course will also develop competencies in entry-level tasks required when working in a dealership or repair facility.

## AUT 14020400 VOC/TECH WELDING FOR AUTOMOTIVE MECHANI

 Skills will be developed in oxy-acetylene fusion and braze welding, shielded metallic arc welding as well as oxy-fuel flame cutting. Safety is emphasized and basic welding theory is discussed. Warnings concerning the danger and liability involved in welding high-strength steels will be stressed (auto body and chassis, etc.). Safety is emphasized.
## AUT $163 \quad 32200$ VOC/TECH

 AUTOMOTIVE ENGINE REPAIRCourse will provide instruction in the theory and operation of 4-stroke cycle engines. Emphasis will be placed on both design and proper disassembly/ reassembly procedures.
Prerequisite: AUT 109
AUT $173 \quad 31400 \quad$ VOC/TECH ADV AUTOMOTIVE ENGINE REPAIR
Provides instruction in proper diagnosis of engine malfunctions and repair or replacement of defective components and assemblies. Diagnosis procedures, repair and adjustment will be emphasized.
Prerequisite: AUT 163

AUT 24263600 VOC/TECH BASIC AUTOMOTIVE POWERTRAIN
Principles of operation and construction of automotive power trains. Includes instruction in the theory of hydraulic and mechanical systems used in automatic transmissions.

AUT 24362800 VOC/TECH ADV AUTOMOTIVE POWERTRAIN
The student will study powertrain and driveline systems. Proper diagnosis procedures, service and repair will be emphasized through hands-on experience.
Prerequisite: AUT 242
AUT 40442400 VOC/TECH BASIC SUSPENSION \& STEERING
Instruction in the theory of operation and service procedures used in the maintenance and repair of automotive steering and suspension systems.

## AUT 52442400 VOC/TECH AUTO BRAKE SYSTEMS \& SERVICE

Instruction in the theory of operation and service procedures of automotive brakes.

## AUT 535 <br> 52600 <br> VOC/TECH

## ADV AUTO BRAKES \& ALIGNMENT

The student will study advanced brakes and alignment theory, practice proper diagnosis, service and repair procedures through handson experience.
Prerequisite: AUT 503, 404

## AUT 61542400 VOC/TECH

 AUTO ELECTRICITY/ELECTRONICSProvides instruction in theory and operation of automotive electrical circuits. Safety, meters and service information will be emphasized.

## AUT $652 \quad 31400 \quad$ VOC/TECH ADV AUTOMOTIVE ELECTRICITY

Provides instruction in the diagnosis, repair and service of electrical and electronic components found on current vehicles.
Prerequisite: AUT 615

## AUT 70442400 VOC/TECH

 AUTO HEATING \& ACProvides instruction in the theory of operation of auto air conditioning and heating systems, as well as diagnosing and servicing automotive air conditioning and heating systems.

## AUT 82342400 VOC/TECH

 ADVANCED AUTOMOTIVE TUNE-UPProvides instruction in testing, diagnosis and repair of the automobile's ignition, electrical and fuel systems. Modern test equipment, procedures and technology are utilized.

Prerequisite: AUT 844

## AUT 83442400 VOC/TECH AUTOMOTIVE FUEL SYSTEMS

A course designed to acquaint the student with basic fuel system principles. Instruction will be offered in the theory, cleaning, repair and adjustment of automotive fuel systems.

## AUT 84242400 VOC/TECH

 AUTO COMPUTERIZED ENG CONTROLSThis course builds upon the knowledge and skills learned in previous automotive courses to prepare the student to service On-Board Diagnosis 2 computer controlled vehicles. The theory and operating principles of automotive computers, sensors and control devices will be emphasized. Lab instruction on late-model cars will be included.

Prerequisite: AUT 834
AUT $84521200 \quad$ VOC/TECH ELECTRICAL SYSTEMS DIAGNOSIS
Instruction in techniques and procedures required to diagnose and service microprocessor-controlled body electrical systems.

Prerequisite: AUT 615, AUT 652

AUT 87021200 VOC/TECH AUTOMOTIVE SERVICE MANAGEMENT
Provides instruction in customer relations, service sales, shop management and business practices in the automotive shop.

AVI 130 VOC/TECH PRIVATE PILOT GROUND SCHOOL
Provide aeronautical knowledge to meet the prerequisite in FAR Part 61 for the FAA Private Pilot Exam.

## AVI 172 <br> 21200 VOC/TECH

## PRIVATE PILOT FLIGHT TRAINING

This course provides supervised dual and solo flight instruction that meets the required hours to qualify as a candidate for a FAA Private Pilot check-ride. Areas covered in flight training include preflight operations, flight maneuvering by reference to ground objects, flight at critically slow air speeds and recovery from stalls, takeoffs and landings, control and maneuvering an aircraft, cross-country flying and emergency operations.

Prerequisite: Third-class physical, completion of or concurrent registration in AVI 130

## AVI 213 <br> 33000 <br> VOC/TECH

## INSTRUMENT FLIGHT THEORY

To provide the student with the necessary aeronautical knowledge to meet the prerequisites specified in FAR Part 61 for the FAA instrument pilot written examination.

## AVM 10010200 VOC/TECH

 CLEANING/CORROSION CONTROLThis course encompasses cleaning and prevention of corrosion on the aircraft. Units of instruction will include identifying and selecting materials, inspecting, removing aircraft corrosion and performing aircraft cleaning.

## AVM 1031200 VOC/TECH

 AIRCRAFT-MATERIALS/PROCESSESThis course involves basic materials and processes associated with aircraft. Areas of study will include precision measurement, testing of materials, inspection performance, heat treating, identification and installation of aircraft materials.

## AVM 10421200 VOC/TECH

 REGULATIONS AND PUBLICATIONSAircraft maintenance forms and records will be units of instruction. Additional units will include manual utilization, FAA regulations, airworthiness directives and mechanic privileges and limitations.

AVM 107 VOC/TECH WEIGHT AND BALANCE
The student will be given instruction concerning aircraft specifications, aircraft weight and balance records, weighing procedures, jacking and leveling, moment arms, reading scales, recording weights, nomenclature and algebraic signs.

## AVM 1110200 VOC/TECH

 GROUND OPERATIONS \& SERVICINGThis course will cover aircraft ground operation and servicing. Units of instruction will include fuel selection, ground operation, servicing and securing aircraft

## COURSE DESCRIPTIONS

AVM 11242400 VOC/TECH AIRCRAFT ELECTRICAL SYSTEMS
Electrical systems of aircraft will be covered in this course. Areas of study will include servicing of wire, controls, switches, indicators, protective devices, AC/DC electrical systems, constant speed and integrated speed drive generators, crimping, wiring inspection, repairing pins and sockets of aircraft connectors.

## AVM $121 \quad 11000$ VOC/TECH WEATHER AND WARNING SYSTEMS

The course will cover systems associated with positioning, warning and weather control. Topics covered will include inspection, servicing, configuration, electrical brakes, anti-skid systems, landing gear indicators, warning systems and airframe ice and rain control systems.

## AVM 124 VOC/TECH

## AIRCRAFT ASSEMBLY/RIGGING

This course will involve the study of aircraft components to include the following: Aircraft wing configuration, flight theory, landing gear, aircraft maneuvers, structure alignments, assembly components, rigging, primary flight control surfaces, secondary flight control surfaces and aircraft jacking.

AVM 12553400 VOC/TECH AIRFRAME STRUCTURE AND REPAIR
A course for students in aviation that covers materials associated with the structure of the aircraft. Utilization of proper materials, repair, replacement, testing, finishing of metal and nonmetal materials will be included in this course.

AVM 12921200 VOC/TECH LANDING GEAR \& BRAKE SYSTEMS
The course involves a complete study of the landing gear and brake systems associated with aircraft. Areas of study include inspection, service, repair, troubleshooting and replacement of various types of landing gear and brake systems

AVM 13221200 VOC/TECH AIRFRAME/POWERPLANT INSPECTION
The course covers inspections related to aircraft engines and airframes. Airframe and engine conformity and air-worthiness inspections will be units of instruction.

AVM 133 VOC/TECH HYDRAULIC/PNEUMATIC POWER SYS
This course will involve a complete study of the hydraulic and pneumatic systems contained within aircraft. Components of each area will be covered to include identification, installation, repair, inspection, troubleshooting and replacement of the systems.

AVM 13910200 VOC/TECH INSTRUMENTS/FIRE PROTECTION-PP
The course will cover aircraft instrument systems, engine fire protection systems and smoke and carbon monoxide detection systems.
AVM 141
10200
VOC/TECH CONTROL SYSTEMS
The course covers heating, cooling, pressurization, air cycling and oxygen systems.

## AVM $142 \quad 42400$ VOC/TECH AIRCRAFT TURBINE ENGINES

Course covers turbine engine overhaul, repair of turbine engines, installation of turbine engines, troubleshooting of turbine engines.

## AVM 14510200 VOC/TECH AIRCRAFT WELDING <br> The course covers applicable welding procedures associated with materials used to construct aircraft. Proper welding methods for various types of materials will be covered during the course.

## AVM147 20400 VOC/TECH

 AIRFRAME FUEL SYSTEMSThis course covers fueling systems throughout the airframe of the aircraft. Topics include inspection, service, troubleshooting, repair and replacement of the system components.

## AVM 14810200 VOC/TECH ENGINE LUBRICATION SYSTEMS

The course covers engine lubrication systems associated with aircraft. Students will study lubrication systems while performing inspections, service, troubleshooting and repair of the system. System components will be repaired and serviced according to FAA regulations.

## AVM 15121200 VOC/TECH

 ENGINE FUEL/METERINGA course designed to cover the fuel metering system of aircraft. Topics include inspection, service, trouble- shooting, repair, replacement of various types of fuel metering systems.

## AVM 154 VOC/TECH

 AIRCRAFT ENGINES: RECIPROCATING Aircraft engines that are reciprocating will be covered extensively. Units of instruction will include inspection and repairing of a radial engine, overhauling a reciprocating engine, service and repair of a reciprocating engine, engine installations, troubleshooting and removing reciprocating engines.
## AVM 155 VOC/TECH

 AIRCRAFT PROPELLER SYSTEMSAircraft propellers will be the topic of the course. Units will include repair, types of propellers, governing systems, installation, removal, troubleshooting, repairing, synchronizing, lubricating, ice control systems and control system components.

[^3]
## AVM 16020400 VOC/TECH AIRCRAFT ELECTRICAL SYSTEMS

The course is a study of electrical systems of the aircraft engine. Units to be covered include troubleshooting, wiring controls, switches, indicators, protective devices and component repair.

## AVM 16131400 VOC/TECH

 AIRCRAFT IGNITION SYSTEMSThe course will provide a foundation in aircraft ignition systems and aircraft starting systems. Units will cover the magneto, ignition harness, reciprocating ignition systems and turbine ignition systems.
Prerequisite: AVM 112

## AVM 16521200 VOC/TECH

 COMMUNICATION AND NAVIGATIONBasic units will involve study of autopilots, systems, servos systems, approach coupling systems, navigation systems, electronic communication systems, antenna systems, static pressure systems, flight instrument systems and all position indicating systems.

## AVM 16811000 <br> VOC/TECH FLUID LINES AND FITTINGS

Aircraft fluid lines and fittings will be covered in this course. Units of instruction will include rigid and flexible lines, fittings and their fabrication and installation.

## AVM 17021200 VOC/TECH AIRCRAFT DRAWINGS

A course to develop understanding of aircraft drawings, symbols, and schematics. Blueprint information, graphing, charting and drawing will be topics covered as they relate to aircraft.

## BCA 11133000 VOC/TECH EMERGING TECHNOLOGIES

Students will explore changing trends in peripheral equipment and software, review technology within the framework of today's business environment and analyze the future of hardware and software usage in various business fields.

## BCA 1132200 <br> VOC/TECH

## COMPUTER NETWORK LITERACY

This course is an introduction to basic concepts and terminology in computer networks and data communications. Topics include data communications equipment and media network basics and the Internet. Students will develop a personal web page.
Prerequisite: CSC 110

## BCA 12210200 VOC/TECH

 BASIC WORD PROCESSINGHands-on instruction using WORD in the Windows environment. Special features include working with Windows, speller, Thesaurus, merge and sort.

## COURSE DESCRIPTIONS

## BCA 13342400 WORD PROCESSING SKILL DEV.

Review of alphabetic and numeric keyboard reaches using a computer. Develop a strong keyboarding foundation using the touch method while utilizing correct techniques. Introduces fundamental word processing functions. Instruction covers word processing concepts, terminology, features and other related skills.

Must key at 25 NWPM for three minutes.
BCA 137 VOC/TECH WORD PROCESSING SKILL DEV. II
Emphasis on developing speed, accuracy and proofreading techniques in preparation of business documents using word processing software. Students develop a broader understanding of software capabilities as they continue to study concepts, vocabulary and additional features. Continued development of speed and accuracy is emphasized.

Prerequisite: BCA 133 with a grade of "C-" or better.
BCA 14610200 VOC/TECH

## BASIC SPREADSHEETS

Orientation to Excel. Topics include spreadsheet layout and terminology, charting, enhancing a worksheet and chart. Designed for beginning users of Excel.

BCA $164 \quad 10200 \quad$ VOC/TECH

## BASIC DATABASES

Introduction to relational database management software. Topics include creating, editing, querying, using forms, reports, customizing and managing data and files.

## BCA 17410200 VOC/TECH

 BASIC PRESENTATION SOFTWAREIntroduction to presentation software. Topics include creating, enhancing, embellishing and illustrating a presentation with charts, graphs, special effects; converting existing material, printing presentations, speaker's notes and handouts.

## BCA 2123200 VOC/TECH INTRO COMPUTER BUSINESS APPL

The focus of this course is to use computer hardware and software as business productivity tools. Training includes a hands-on introduction to computer applications vital in today's business and industry. Course covers operating system, e-mail, internet, word processing, spreadsheet, database and presentation applications.

BCA $213 \quad 32200$ VOC/TECH INTERMED COMPUTER BUSINESS APP
Develop a proficiency in decision-making using computer software applications. Producing final documents for real business applications such as file integration, online forms, linked spreadsheets and desktop publishing are emphasized.
Prerequisite: BCA 212 with a grade of "C-" or better OR CSC 110 with a grade of " $\mathrm{C}-$ " or better

## BCA 214 <br> 32200 <br> VOC/TECH

 ADV COMPUTER BUSINESS APPLCovers post-advanced applications using Microsoft Office. Working with master documents, creating index and table of contents from long reports, creating online forms, learning to use auditing and data validation tools, customizing forms and administering a database and creating complex presentations are emphasized.

Prerequisite: BCA 213

## BCA 25032200 VOC/TECH DESKTOP PUBLISHING

In a PC environment, use image enhancement software such as Adobe Photoshop to manipulate photo and graphic files. Apply principles of desktop publishing in the development of publications using software such as Microsoft Publisher. Convert files into Web-ready format.
Prerequisite: BCA 212 or CSC 110

## BIO $100 \quad 11000$ <br> GENERAL

 OPPORTUNITIES IN BIOLOGYAn exploration of careers and advanced educational opportunities in the biological sciences at the local, state and national levels.

## BIO 10432200 CORE

 INTRODUCTORY BIOLOGY W/LABIntroduction to basic concepts in biology. Topics include biochemistry, cell structure and function, metabolism and energetics, classical and molecular genetics and the diversity of life at the organismal level. Biology, as an experimental science and biotechnology will be explored through
laboratory experiences.

## BIO 1124320

GENERAL BIOLOGY I
First semester of biology for majors. Topics covered include: Chemistry of life, cells, bioenergetics, genetics, evolution, viruses, prokaryotes and protists.

Prerequisite: H.S. biology \& H.S. chemistry or equivalent

## BIO 1134320

## GENERAL BIOLOGY II

Second semester of biology for majors. Topics covered include: fungi, plants, animals and ecology. It is recommended that BIO 112 be taken prior to this course.

Prerequisite: H.S. biology and H.S. chemistry or equivalent

## BIO 138 <br> 32200 <br> CORE

FIELD ECOLOGY
Field and laboratory studies of native plants and animals of Iowa. Emphasis is placed on ecological relationships. Selected field trips are conducted to forest, prairie, marsh and riparian habitats in the local area.

## BIO 1453000 <br> GENERAL

 ECOLOGY OF IOWASurveys the major landforms of lowa including the Mississippi River Valley, Northern Prairie Lakes Region, Loess Hills and Southern Hills Area. Landforms are emphasized from the standpoint of climate, soils, geology, water resources, forestry, wildlife and environmental concerns. One Saturday field trip.

## BIO 146 <br> 33000 <br> OPEN

GENETICS
An introductory genetics course for Biology and Biotechnology majors. Topics covered include DNA and chromosome structure and function; Mendelian genetics; molecular genetics in eucaryotes, prokaryotes and viruses; recombinant DNA technology; gene expression and the genetic basis of immunology.
Prerequisite: BIO 112 or BIO 187

## BIO 156 <br> 32200 <br> CORE

HUMAN BIOLOGY W/LAB
A study ofbiology that emphasizes the human body. Topics such as the cell, basic chemistry, basic genetics and human ecology are included. Designed for the non-science and inadequately prepared health science major.

## BIO 1643400 CORE

 ESSENTIALS ANATOMY/PHYSIOLOGYA classic integration of human anatomy and physiology at the cellular level and organ/system level. Includes cat dissection.

Prerequisite: H.S. biology and H.S. chemistry or equivalent.
BIO 16843200 CORE

ANATOMY \& PHYSIOLOGY I
Anatomy \& Physiology I covers the structure and function of the human body from the cellular level to organ systems. Topics at the cellular level include the fundamental basics of chemistry, cell structure and cellular metabolism, genetics and histology. The organ systems studied are the skin and integumentary system, the skeletal and muscular systems, the nervous system and the senses. Lecture and lab must be taken concurrently.

Prerequisite: A grade of "C" or better in BIO 156 Human Biology or a "C" or better in high school anatomy within the last five years

## BIO 1733200 ANATOMY \& PHYSIOLOGY II

CORE
Anatomy and Physiology II is a continuation of Anatomy \& Physiology I. The following organ systems are covered: the endocrine system, blood and the cardiovascular system, the lymphatic system and immunity, the respiratory system, the urinary system, the digestive system including nutrition and the reproductive system. Other topics included in the course are: the body's balance of water; electrolytes and acids and bases and an introduction to human growth and development. Lecture and lab must be taken concurrently.

Prerequisite: A grade of "C" or better in BIO 168 Anatomy and Physiology I

## COURSE DESCRIPTIONS

BIO 18643300 CORE MICROBIOLOGY

A general microbiology course with laboratory designed for the science major. Emphasis is placed on morphology, physiology, microbial genetics, virology and basic immunology and applications.
Prerequisite: one semester of any college-level biology

## BIO 22543200 <br> MARINE BIOLOGY I

Students will study polar, temperate and tropical marine organisms and their environmental and ecological relationships. They will also examine the structure and function of marine flora and fauna using preserved and live specimens. The course includes hands-on laboratory activities, comparative anatomy, field observations, marine aquarium care, snorkeling, kayaking and introductory scuba.

Prerequisite: High school or college Biology
BIO 227 GENERAL MARINE BIOLOGY II
This course is the second in a series of two courses. The students will continue the study of polar, temperate and tropical marine organisms and their environmental and ecological relationships. They will also examine the structure and function of marine flora and fauna using preserved and live specimens. The course includes hands-on laboratory activities, comparative anatomy, field observations, marine aquarium care, snorkeling, kayaking and introductory scuba.
Prerequisite: BIO 225
BIO 243 OPEN TOPICS IN BIOTECHNOLOGY
An exploration of recent advancements in biotechnology as well as current practices in research and development, manufacturing, quality control/quality assurance and safety.
Prerequisite: BIO 250

## BIO 24930012 <br> OPEN

 BIOTECHNOLOGY INTERNSHIPThis internship is the final requirement for the completion of the Biotechnology AS degree requirements. It will be conducted in cooperation with potential employers. During this period, students will be expected to demonstrate their technical skills and practicum competencies in a professional manner, showing progressive independence, greater efficiency and confidence.

Prerequisite: Permission of instructor

## BIO 2505260

CELL \& MOLEC BIO-NUCLEIC ACIDS
This course is designed to provide training in requirements for biotechnology majors. Topics will include DNA and RNA structure, function and regulation. Strategies and tools used in genetic engineering will also be included. The lab component of the course will include lab safety, media preparation, cell culture techniques, solution preparation and other basic lab skills. Students will get hands-on training in the isolation, characterization and manipulation of nucleic acids, as well as PCR and Southern blotting.
Prerequisite: BIO 104 and 112. Corequisite: BIO 186

## BIO 25152600 <br> OPEN

## CELL \& MOLECULAR BIO-PROTEINS

This course is designed to provide training in techniques related to protein chemistry and is a requirement for biotechnology majors. The course will focus on processes related to synthesis, control of synthesis and trafficking of proteins within the cell. Protein structure and function will be studied with special emphasis on enzymes and immunoproteins. The study of differential protein expression and regulatory mechanisms will also be included. The lab component of the course will train the student in purification, characterization, handling and storage of proteins, enzyme mechanisms and kinectics, immunoassays and twodimensional gel electrophoresis.
Prerequisites: BIO 104, BIO 250, CHM 132, MAT 157. Pre- or Corequisite: BIO 112

## BIO 260 GENERAL BIOLOGY OF AGING

This course is designed for individuals planning to work with the elderly population. It covers changes that occur in body systems during the normal aging process as well as some of the most common dysfunctions and diseases associated with aging. Furthermore, environmental factors, effects of diet and exercise in the aging process will be discussed.

## BIO 29543200 GENERAL GENERAL ECOLOGY AND LAB

General ecology is intended for biology and related majors. Topics addressed by lecture/discussion and laboratory include historical development and scientific method, physical environment, organisms and species, communities and ecosystems and theory. Lab activities include written reports and oral presentations.
Prerequisite: BIO 112; BIO 113; ENV 115 and ENV 116 or BIO 138; or with instructor's permission

## BIO 7324200 OPEN

HEALTH SCIENCE MICROBIOLOGY
Basic concepts and applications of medical microbiology. Topics include morphology and physiology of microorganisms, pathology, epidemiology and immunology. Designed for the health science major. It is recommended that high school Chemistry be taken prior to this course.
Prerequisite: H.S. Biology or equivalent

## BIO 7332200 <br> OPEN

 HEALTH SCIENCE ANATOMYOffers the student basic concepts in human anatomical structure with relation to body functions. The course covers all major body systems with emphasis on structure. This accompanying lab will reinforce lecture with cat dissection.

Prerequisite: H.S. Biology \& Chemistry or equivalent

## BIO 7342200 OPEN

 HEALTH SCIENCE PHYSIOLOGYDetailed explanation of human physiology including the nervous, cardiovascular, respiratory, digestive, urinary, lymphatic, skeletal, muscular and reproductive systems.
Prerequisite: BIO 733, 164, or equivalent

## BIO 922 1-4 00 3-12 0 OPEN

 FIELD STUDIESThis course is designed to give the student an opportunity to study science outside of the typical classroom setting. Students will investigate an area of the biological sciences through research and other activities in a supervised environment that meets the requirements of the investigation. This course is repeatable up to 4 credits.
Prerequisite: Permission of the instructor

## BMA 16511000 VOC/TECH BOILER ROOM MAINTENANCE

Boiler accessories, fittings, controls, water treatment and fundamentals for beginners.
BMA $167 \quad 22000 \quad$ VOC/TECH
STEAM PLANT OPERATIONS
High-pressure steam boilers, operation, controls,
burning equipment instruments.
Prerequisite: BMA 165

## BMA 1752000 VOC/TECH

 BASIC PLUMBINGPlumbing, plumbing components, plumbing codes and reading blueprints.

## BMA 1772200 VOC/TECH

 INDUS. PLUMBING \& PIPEFITTINGA course in fundamental plumbing and pipefitting. Topics covered include the properties of torque, the use of torque and the application of torque; the development and use of piping schematics; elementary pipe layout and joint construction with various materials; the purpose, use, construction and operation of valves and process control equipment used in manufacturing.

BPT 10222000 VOC/TECH INTRO TO BIOMASS PROCESS TECH
This course describes the standard roles and responsibilities of the process technician to include mastering an understanding of basic equipment, design, operation and maintenance of a process control plant.

## COURSE DESCRIPTIONS

## BPT 111 <br> 32200 <br> VOC/TECH BIOMASS EQUIPMENT AND SYSTEMS

Biomass Equipment and Systems is designed to cover the basic equipment and technologies associated with the processing of renewable energy fuels in the biomass industry.

## BPT 11232200 VOC/TECH BIOMASS TECH HEALTH/SAFETY

This course is designed to focus on the key elements that contribute to the subject of Process Safety, Personnel Safety, Occupational Health and Safety, Transportation and Movement of Process Materials, and safety in general.

## BPT 1252000 VOC/TECH

 PIPING \& INSTRUMENT DIAGRAMSThis course is designed to provide the basic fundamentals of how to read a Piping and Instrumentation Diagram (P \& ID) beginning with symbols of individual components, numbering systems and line diagrams.

BPT $128 \quad 32200$ VOC/TECH OPERATOR BIOMASS LAB PROCESS
Biomass Laboratory Process and Techniques is designed to cover the different laboratory testing processes, sampling techniques and quality control requirements required for both the internal lab technician as well as the process plant operator.
BUS 10233000 GENERAL INTRODUCTION TO BUSINESS
An overview of the ever-changing world of business. Provides information in the areas of ownership, management, marketing, insurance, economic systems and finance, as well as the role of government.
BUS 11233000 OPEN

BUSINESS MATH
Mathematical computations are reviewed and strengthened with emphasis on facility and accuracy. Includes topics in the mathematics of buying and selling, banking, payroll, markups and markdowns, discounts, interest, consumer math and other related business applications.

BUS $131 \quad 33000$ VOC/TECH SMALL BUSINESS MGMT STRATEGIES
Emphasizes human resource concepts and their applications to small business operations. Leadership development, management styles and decision- making strategies are stressed.

## BUS 138 <br> 33000 <br> VOC/TECH

 SMALL BUSINESS MARKETINGDiscussions and focus are on marketing applications. Workshops and strategies such as market research, product development, pricing, distribution, promotion, marketing campaigns and budgets.

## BUS 141 <br> 33000 <br> vOC/TECH SMALL BUSINESS START-UP

This course includes information, examples, forms and activities needed for business startup and for development of a successful business operation. Topics include market research and assessment; naming your business; finding a location; determining asset needs and forecasting sales; identifying job tasks and determining human resource needs; and writing a business plan.

## BUS 148 OPEN

 SMALL BUSINESS MANAGEMENTExamines introductory business applications and strategies needed to start and operate a small business. Topics include entrepreneurship preparation, idea feasibility, business plan content, introductory marketing, management and finance concepts for small business.

## BUS $150 \quad 33000$ VOC/TECH E-COMMERCE ON THE WEB

This course will introduce the student to the basic elements of electronic commerce. It will focus on business and technical issues faced by a company that enters into the e-commerce marketplace. Topics include products, advertising, resource requirements, third-party options, technical and operational issues.

## BUS 18122000 VOC/TECH BASIC LAW FOR ENTREPRENEURS <br> This course is designed to acquaint business students and those currently involved in operating small businesses with the general areas of law that may be problematic for the entrepreneur and create risks resulting in lawsuits.

## BUS 185 <br> 33000 <br> GENERAL

## BUSINESS LAW I

Provides introductory overview of the sources of law of the American legal system, the structure of the court systems, torts, contract law and sales law.

BUS 18633000 GENERAL BUSINESS LAW II
Provides for overview of negotiable instruments, debtor/creditor law (collecting judgments), secured transactions, agency relationships, and selecting the right business formation.
Prerequisite: BUS 185

## BUS 21144000 <br> CORE

## BUSINESS STATISTICS

Tabular and graphical presentation, measures of central tendency and variability, standard elementary procedures involving the binomial, normal, student's T's, chi-squares and F distributions, correlation, regression, analysis of variance, and several nonparametric procedures. Same content as MAT 157. Credit will not be granted for both BUS 211 and MAT 157.
Prerequisite: 2 years of H.S. Algebra or MAT 073 or department permissio.

## BUS 21322000 STATISTICAL BUSINESS APPL. <br> This is the second course in the statistics sequence. Course content includes application and interpretation of probability and statistics as applied to business situations by using sampling, confidence intervals, control charges, simple linear regression analysis, multiple regression analysis, correction analysis, data analysis, time series analysis, hypotheses testing, and computer analysis. Same content as MAT 160, credit will not be granted for both. <br> Prerequisite: BUS 211 or MAT 157

## BUS 21511000 <br> OPEN INVESTING IN REAL ASSETS

This course analyzes procedures in residential real estate purchases. An evaluation of residential home, mobile home and condominium purchasing versus renting is discussed. Additional topics include investments in REITS, commercial property, undeveloped land, limited partnership, collectibles and gold.

## BUS 216 <br> 11000 <br> OPEN

 ESTATE PLANNINGThe goal of this course is to establish a desirable and efficient dissolution of one's assets and liabilities at death. Course includes identifying goals for estate planning, both pre-death and postmortem. Estate tax and gift tax issues are examined.

## BUS 218 <br> 11000 <br> OPEN

## LONG-RANGE FINANCIAL PLANNING

This course is designed to increase awareness of the need for identifying a desired retirement lifestyle within the context of the anticipated financial retirement inflows. Assessment will be made of retirement resources from employee, business and government sources. Individual retirement resource strategies are investigated. Healthcare and housing issues are examined.

## BUS 22033000 OPEN INTRO INTERNATIONAL BUSINESS

The International Business course is designed for students to understand the dynamics of global trade. This course examines the cultural, economic, legal, political, social and technological environment of international business. The course also provides an overview of marketing, management, distribution and job opportunities available for business students.

BUS 23144000 GENERAL QUANTITATIVE METHODS/BUS DECNS
An introduction to management research methods used in business. Topics include probability, breakeven analysis, inventory control, statistics and transportation models.

Prerequisite: MAT 073 or intermediate Algebra or 2 years of high school Algebra or department permission

## COURSE DESCRIPTIONS

#### Abstract

BUS 240 VIRTUAL BUSINESS FIRM The Virtual Business Firm is a virtual business enterprise, set up and run by students to prepare them to work in a real-world business environment. With the instructor playing the role of facilitator, students determine the nature of their business, incorporating all of the elements of a business plan, including company description, management and organization structure, products and/or services, marketing and sales strategies and financials within a global context. Students engage in daily operations running the virtual business, as if it were a real business, via a closed worldwide network of virtual business firms

Prerequisite: All Business Administration or Entrepreneurship program required courses or permission of instructor

BUS 250 OPEN PRINCIPLES OF REAL ESTATE
Fundamental principles, economics, law, working concepts and terminology. Focuses on real estate law and assists those preparing for the apprentice salesperson examination.

## BUS $260 \quad 33000$ INTRODUCTION TO INSURANCE

OPEN
An introduction to managing risks and making the best use of insurance. Various forms of personal and property insurance coverages are introduced. Insurance coverages as they relate to both business operations and personal situations are discussed.

## BUS 278 <br> 33000 <br> EMPLOYMENT LAW

Emphasis is on the principles of business law as it pertains to the human resource function. The course covers laws applicable to selection, testing, hiring, discipline, personnel policies and procedures. The course also covers Equal Employment laws and related discrimination issues. The Occupational Safety and Health Act, Family and Medical Leave Act, and workers compensation topics are discussed as they relate to the business environment.
Prerequisite: BUS 185
BUS 90211000 VOC/TECH CAREER SEMINAR
Weekly examination of topics relevant to the business internship experience, sharing workplace problems encountered and the solutions to address those problems. This course also covers aspects of the job search process and preparing for the employment interview.
(P/F) Prerequisite: Instructor Permission. Corequisite: BUS 932

## BUS 904 <br> 10200 <br> VOC/TECH <br> LEGAL STUDY TOUR

The student will participate in a supervised study tour in which time will be spent touring a government center to view how the government runs, including the history of this country to current legal policies and procedures.

Prerequisite or Corequisite: BUS 185 or POL 111 or CRJ 132 or instructor permission

## BUS $932 \quad 20008$ VOC/TECH

 INTERNSHIPPractical experience through on-the-job training in a business setting approved by the DMACC Business Department. Tasks will be consistent with student's career objectives, skills and knowledge.
(P/F) Prerequisite: Instructor Permission. Corequisite: BUS 902

## CAD 1193200 VOC/TECH

 INTRO COMPUTER-AIDED DRAFTINGThis course will introduce the student to computeraided drafting and design. Basic computer hardware, software and operating systems will be discussed. Basic two-dimensional CADD drawing creation and editing techniques will be covered. Drawings will be created and plotted.

Prerequisite: Basic computer literacy

## CAD 12532200 VOC/TECH INTERMEDIATE CADD-MECHANICAL

This course will introduce the student to advanced computer-aided drafting and design applications. Program customization, file manipulation/translation and library creation/usage will be covered. Threedimensional concepts will be discussed.

Prerequisite: CAD 119

## CAD 1263200 VOC/TECH INTERMED CADD-ARCHITECTURAL

This course will apply architectural drafting practices to the CADD environment. Two-dimensional plans (including plumbing, HVAC, electrical, etc.) will be developed. Site plans and presentation are some of the topics that will be discussed
Prerequisite: CAD 119

## CAD 1393200 VOC/TECH INTRO TO CAD/CAM <br> The objectives of this course will be to apply computer-aided design software and computeraided manufacturing software for numerically controlled (CNC) machine tools.

## CAD 1482200 VOC/TECH

 INTRO TO FINITE ELEMENT ANALYSThis course will introduce CAD students to the analysis of simple structures. Analysis will be examined then verified using computer analysis software in conjunction with CAD. Basic engineering statics will be taught.

Prerequisite: CAD 152, 153, 246, MAT 773

## CAD 151 <br> 64400 <br> VOC/TECH CAD GRAPHICS I

Drawing formats, geometric construction and lettering will be taught on computer-aided drafting (CAD) software. Drafting standards will be covered. CAD operations and commands will be addressed. Sketching and fundamentals of orthographic projection are stressed. Prints will be prepared.
Prerequisite: CSC 110 or equivalent

## CAD 15264400 VOC/TECH CAD GRAPHICS II

Advanced geometric description applicable to all fields of drafting will be emphasized. Auxiliary views will be created. Descriptive geometry principles will be examined. Intermediate and advanced dimensioning techniques will be covered including dimensional tolerance analysis. CAD applications will be taught.

Prerequisite: CAD 151, MAT 772

CAD 1532200 VOC/TECH CAD APPLICATIONS I
Mechanical components and processes that are used in product design will be covered. Geometric dimensioning and tolerancing will be taught. Preparation of welding drawings will be presented with the emphasis on proper usage of American Welding Society symbols. Precision bending of sheet metal will be covered

Prerequisite: CAD 152, MAT 773

## CAD 1542200 VOC/TECH CAD APPLICATIONS II

Precision bending of sheet metal will be covered. Students will gain knowledge of heating, ventilation and air conditioning (HVAC) applications and HVAC CAD symbology. Hydraulic systems and applications will be covered. Hydraulic symbology will be covered. Mechanical power transmission will be a subject of study. Bearings, bearing seals and sealing systems will be addressed.
Prerequisite: CAD 153, MAT 773

## CAD 15532200 VOC/TECH

 NETWORKING SYS INVOLVING CADNetwork system key features and functionality will be covered. System file management will be addressed. Operating systems and hardware will be examined. Relationships between computer hardware and software will be taught.

## CAD 16232200 VOC/TECH

 INTRO TO MULTIMEDIABasic three-dimensional concepts and applications are covered. Rendering, animating and application of basic color manipulation are discussed and used. Prerequisite: CAD 119

## COURSE DESCRIPTIONS

## CAD 18232200 VOC/TECH

 SOLIDWORKS CAD IParametric solid model (3D) CAD basics will be taught using SolidWorks. Parametric concepts will be covered. Solid CAD models will be built and edited in SolidWorks. Assemblies of solid parts will be examined. Part drawings will be created and plotted.
Prerequisite: CAD 152, CAD 240, MAT 773

## CAD 1843200 VOC/TECH

 SOLIDWORKS FOR DIE DESIGNParametric solid model (3D) CAD basics will be taught using SolidWorks. Parametric concepts will be covered. Solid CAD models will be built and edited in SolidWorks. Assemblies of progressive dies will be examined. Part drawings will be created and plotted.

Corequisite: MFG 402, MFG 403
CAD 19632200 VOC/TECH ENGINEERING DISCIPLINES \& PRAC
Types of engineering disciplines and their application of drawings will be examined. Drawing styles, engineering units and professional standards (ANSI, ASME, etc.) will be covered.
Prerequisite: CAD 151

## CAD 21532200 VOC/TECH MECHANICAL SYSTEMS

Standard and nonstandard fastening systems will be examined. CAD part libraries and applications will be covered. Basics of power train/mechanical components will be introduced. Mechanical bearings and hydraulic/pneumatic sealing systems will be addressed.

Prerequisite: CAD 152, MAT 773

## CAD 22032200

 MICROSTATION CADThis course will introduce the student to MicroStation CAD software. Basic two-dimensional CAD drawings will be taught. Drawings will be created and plotted.

Prerequisite: CAD 151 or equivalent

## CAD $240 \quad 32200$ VOC/TECH

 APPLIED MATERIALS \& PROCESSESStandard industrial raw materials and forming processes will be examined. Students will see various machining, forming and welding operations. Field trips to industry will be offered.

## CAD 2423200 VOC/TECH

 MANUFACTURING INTERFACESComputer interfaces between manufacturing and engineering will be the primary focus of the class. File exchange formats, data compilation and machining interpretation of the model file will be addressed. Tool path generation and robotic controls will be discussed. Manufacturing system integration will be covered.
Prerequisite: MAT 772

## CAD 246 <br> 32200 <br> VOC/TECH

 PARAMETRIC CAD IParametric solid model CAD basics will be taught. Parametric concepts with design intent will be covered. Solid CAD models will be built and edited. Mechanical assemblies will be created. Part and assembly drawings with parts lists will be created and plotted.

Prerequisite: CAD 152, 240, MAT 773

## CAD $248 \quad 32200$ VOC/TECH

## PARAMETRIC CAD II

Parametric solid model CAD intermediate commands will be taught. Parametric concepts with design intent will be covered. Solid CAD models will be built and edited. Mechanical assemblies will be created. Part and assembly drawings with parts lists will be created and plotted.
Prerequisite: CAD 153, 252, MAT 773

## CAD 25242400 VOC/TECH

 DESIGN PROJECT IDetailing individual parts, types of assembly drawings and parts lists will be covered on an individual basis. Design process and procedures will be discussed. The student will conform to industry standards for their design project.
Prerequisite: CAD 152, 196, 240, MAT 773

## CAD 2545600 VOC/TECH

 DESIGN PROJECT IIContinuation of CAD 252, Design Project I. Detailing individual parts, types of assembly drawings and parts lists will be covered on an individual basis.
Design process and procedures will be discussed. The student will conform to industry standards for their design project.
Prerequisite: CAD 153, 215, 252

## CAT $430 \quad 42400$ VOC/TECH CATERPILLAR FUEL SYSTEMS

The student will be introduced to basic Caterpillar fuel system principles and theory for mechanical and electronic engines. General repair and diagnostic procedures will also be covered. Experienced individuals may contact the instructor to gain admittance to this course.
Prerequisite: DSL 366, 546, 605, 145

## CAT $43121200 \quad$ VOC/TECH CATERPILLAR FAILURE ANALYSIS

The student will determine the root cause of failure, how to properly prepare the parts for inspection and determine what is normal and abnormal wear. Experienced individuals may contact the instructor to gain admittance to this course.
Prerequisite: DSL 366, 546, 605

## CAT $43221200 \quad$ VOC/TECH

 CATERPILLAR LS/PC HYDRAULICSThis course will cover the design and theory of LS/PC hydraulic systems. This course will cover the function, operation and diagnostics of LS/PC hydraulics. Experienced individuals may contact the instructor to gain admittance to this course.
Prerequisite: DSL 605, 145

## CAT 43322000 VOC/TECH CATERPILLAR SERV INFO SYSTEM

Instruction covers basic computer skills related to Caterpillar computer systems. Students will learn how to operate SIS, Parts Integrator, DBS Parts orders and work orders.

## CAT $434 \quad 400016 \quad$ VOC/TECH CATERPILLAR INTERNSHIP

Work experience at a local Caterpillar dealership. The work experience will be compatible with the student's ability and previous course work.

Prerequisite: DSL 366, 546, 605, 145

## CAT $435 \quad 20400$ VOC/TECH CATERPILLAR MULTI-MEDIA

The student will complete Caterpillar computerized tests and review modules

Prerequisite: DSL 366, 546, 605, 145

## CET 1023000 VOC/TECH FUND OF CIVIL ENGINEERING

This course introduces concepts of the civil engineering technician field, including career opportunities, the engineering industry and basic engineering principles. The student will learn to read and understand road and bridge plans and be introduced to all the elements that make up a highway construction project.

## CET 1192200 VOC/TECH SURVEY I

This course will develop working knowledge of surveying fundamentals. Topics will include introduction to surveying instruments and equipment, measurement of distances and angles, determining elevation, note keeping, traversing, triangulation, mapping and the researching of monuments and benchmarks.

Prerequisite OR Corequisite: MAT 773
CET 135
$33000 \quad$ VOC/TECH MATERIALS I
Students will develop a working knowledge of sampling and testing basic materials used in the highway construction industry (aggregate and concrete). Iowa Department of Transportation materials certifications (AGG I, AGG II, and PCC I) will be given to students upon successful completion of state certification exams given during the course.

## CET 138 VOC/TECH CONSTRUCTION I

This course will develop a working knowledge of construction inspection fundamentals. Topics will include an introduction to construction reviews, preconstruction planning, permits processes, embankment construction, drainage solutions, stabilization methods, equipment used in construction, placement work, paving procedures and estimating time and materials.
Prerequisite: CET 102 or department approval

## COURSE DESCRIPTIONS

## CET 169 SURVEY I

A continuation of Survey I. Topics will include construction control surveys; topographic surveys; construction site layout; coordinate systems (i.e., state plane); elementary horizontal curves; real property descriptions; right of way. Electronic data collection and global positioning will be utilized, as well as data downloading and editing using CAD programs.
Prerequisite: CET 119 or department approval
CET 17344000 VOC/TECH HIGHWAY DESIGN I
This course will introduce the student to highway design. Topics will include an overview of the highway development process, design criteria and standards, horizontal alignments, vertical alignments, cross-sections, earthwork, construction details, specifications and estimates of quantities. A final highway design project will be completed.
Prerequisite: CET 102 and CET 178 or department approval

## CET 178 V 4000 VOC/TECH AUTOMATED DESIGN I

This course will introduce the student to computeraided drafting (CAD) utilizing Microstation software. Microstation fundamentals will be taught including drawing formats, placing and manipulating elements, measurements, cells, patterning, dimensioning, reference files and three-dimensional modeling. Drawings will be created and plotted.
Prerequisite: CET 102 and CSC 110 or
department approval
CET $192 \quad 44000 \quad$ VOC/TECH
STATICS
This course is designed to acquaint the student with basic structural concepts. Emphasis is placed on the use of free body diagrams in understanding the forces acting on a structural member.
Prerequisite: MAT 773 or instructor approval
CET 21943200 VOC/TECH SURVEY III
Application of survey concepts to Boundary and Route Surveying. Topics will include: real property descriptions; research, route surveying, horizontal curve calculation and layout, vertical curve calculations; closed and open loop survey, bench level circuit; subdivision survey and construction surveying. Electronic data collection and global positioning will be utilized.
Prerequisite: CET 169 or department approval

## CET 22232200 VOC/TECH

 SOILS AND FOUNDATIONSThe student will learn to recognize soil relationships with landforms and the effect on engineered construction. Concepts of geology and engineering properties including soil type, classification, strength and deformation will be covered. Principles of soil mechanics and construction observation techniques will be learned and applied to real world examples.
Prerequisite: MAT 773 or instructor approval

## CET 235 <br> 33000 <br> CONSTRUCTION II

This course will teach a student to define, interpret and utilize construction contract documents and contracting methods. Topics covered are bonds, contracts, bidding documents, construction insurance, subcontracts and subcontractors, dispute resolutions, ethics, safety and labor relations.
Prerequisite: CET 138 or department approval
CET 244 VOC/TECH MATERIALS II
This course will develop a working knowledge of hot mix asphalt and Portland cement concrete plant operations, plant control, sampling and testing. Iowa Department of Transportation materials certifications (PCC II, HMA I) will be given to students upon successful completion of state certification exams given during the course.
Prerequisite: CET 135 or department approval

## CET 278 44000 VOC/TECH AUTOMATED DESIGN II

This course will introduce the student to automated civil engineering design utilizing GEOPAK software. GEOPAK fundamentals will be taught including the project manager, digital terrain models, coordinate geometry, alignment tools, the design and computation manager, criteria files, cross-section creation, labeling, sheeting, reports and quantity output. A complete highway design project utilizing GEOPAK will be performed.

Prerequisite: CET 178 or department approval

## CET 28344000 VOC/TECH HIGHWAY DESIGN II

This course will introduce the student to additional highway design topics. Topics will include hydrology and drainage design, intersection and interchange design, roadside design, jointing, pavement design, parking design, highway capacity and traffic engineering.
Prerequisite: CET 173 or department approval

## CET $2913300 \quad$ VOC/TECH STRUCTURE DESIGN \& CONST

This course is an introduction to the understanding of load and resistance factor design (LRFD) method. Topics considered include material properties, tension, compression, bending, beam columns, simple connections, base plates and bearing plates. Prerequisite: CET 192

CET 305 VOC/TECH

## FIELD COOP

Practical experience through on-the-job training in an approved civil engineering technician setting Tasks will be consistent with students' career objectives, skills and knowledge.
Prerequisite: Successful completion of 32 credit hours of CET credit courses and/or department approval. Same content as SRV305. Credit will not be granted for both CET 305 and SRV 305

## CET 3072000 <br> VOC/TECH FIELD ORIENTATION

This course is required for students who do not take the Field Coop. It will acquaint a student with field operations. The role of the superintendent and project manager will be discussed as well as the relationship between the contractor and owner. Visits will be made to local projects to observe construction procedures.

Prerequisite: Successful completion of 32 credit hours of CET credit courses. Written permission from the CET faculty is required to substitute this course for 2 credits of the 5-credit CET 305 requirement.

## CHM 10532200 CORE SURVEY OF CHEMISTRY

An introduction to chemical topics with little mathematics. Topics include energy, food chemistry, air and water pollution, agricultural chemicals, detergents and drugs. The course is for students who need one semester of laboratory science.

## CHM 12243200 CORE

 INTRO TO GENERAL CHEMISTRYA study of the concepts of general chemistry including atomic structure, bonding, reactions, stoichiometry, gas laws, solutions, acids and bases, equilibrium, nuclear chemistry and an introduction to organic chemistry. Problem-solving is emphasized. For non-science majors and students in health-related programs.

Prerequisite: 1 year H.S. Algebra or MAT 063

## CHM 13243200 CORE INTRO TO ORGANIC/BIOCHEMISTRY A continuation of the study of organic chemistry and a study of biochemistry. Organic topics include the structure of organic molecules, the nature and reactions of functional groups, and stereochemistry. Biochemistry topics include carbohydrates, proteins, lipids, nucleic acids, enzymes and metabolism. <br> Prerequisite: CHM 122 or equivalent

## CHM 165 <br> 43300 <br> CORE

GENERAL/ INORG CHEMISTRY I
A thorough treatment of general chemistry including atomic structure, stoichiometry, chemical bonding, states of matter, solutions, acids and bases, reaction rates, equilibrium, thermodynamics and electrochemistry. This course is intended for science, engineering, pre-vet, pre-med, pre-dental and preoptometry majors.
Prerequisite: 1 year H.S. Chem. or CHM 122 \& 2 years H.S. Algebra or MAT 073

```
CHM 175 43300 CORE
```

GENERAL/ INORG CHEMISTRY II
A continuation of General and Inorganic Chemistry I.
Prerequisite: CHM 165 or equivalent

## COURSE DESCRIPTIONS

CHM $263 \quad$ CORE
ORGANIC CHEMISTRY I
A study of the principles of organic chemistry
including the nomenclature and chemistry of
the various organic functional groups. Structure,
bonding, synthesis, reaction mechanisms and
spectroscopy are emphasized. The sequence
is designed to satisfy the one year of organic
chemistry required by most medical schools.
Prerequisite: CHM 132 or 175 or 1 year college-level
general chemistry
CHM 273 CORE ORGANIC CHEMISTRY II
A continuation of Organic Chemistry I.
Prerequisite: CHM 263 or equivalent

## CIS 12533000 OPEN

 INTRO TO PROGRAMMING LOGIC W/LThis course provides students with a firm foundation in problem-solving methods in computer programming and facilitates the development of good structured programming skills for solving business problems. Students will define and analyze problems, design computer solution algorithms and prove the correctness of the solution.

## CIS $130 \quad 33000$ VOC/TECH COMPUTER PROGRAMMING

Basic programming techniques such as writing algorithms, drawing of flow charts and developing programs that include loops and subroutines.

## CIS $140 \quad 32200$ VOC/TECH

 INTRO TO GAME DESIGNIdentify and discuss the concepts and technologies of computer game design and development. Discuss the gaming industry and its expectations and opportunities. Design and develop your own computer games using a variety of software tools.

## CIS 1523000 OPEN

## DATA STRUCTURES

An object-oriented programming language will be used to introduce commonly used data structures. Programs using these data structures will be developed, written, tested and debugged.

Prerequisite: CIS 125 or equivalent

## CIS 154 OPEN <br> \section*{COMPUTATIONAL STRUCTURES}

Relates mathematics as a tool and language to the computer. An object-oriented language will be used to acquaint students with application areas in computer science.

Prerequisite: CIS 125

## CIS 161 <br> 33000 VOC/TECH

C++
Students will examine the structure of typical C++ programs, explore the concepts of object-oriented programming and design business applications in C++
Prerequisite: CIS 125 or equivalent

CIS $164 \quad 33000 \quad$ VOC/TECH ADVANCED C++
Review and extend the concepts of class hierarchies, encapsulation, inheritance and polymorphism.
Explore class libraries, templates, streamable classes and exception handling. Develop a code for both DOS and Windows applications.

Prerequisite: CIS 161

CIS 169 VOC/TECH
C\#
This course is an introduction to the C\# language. Object-oriented programs will be developed by students.
Prerequisite: CIS 125
CIS $171 \quad 33000$ VOC/TECH
JAVA
Students will learn the basic features of the Java programming language and explore the concepts of object-oriented programming, event handling, user interface programming and graphic techniques. Gain practical experience creating and modifying Java applications and applets, and embedding Java applets in web pages.

## Prerequisite: CIS 125

## CIS 1782000 VOC/TECH JAVA PROGRAMMING I

Learn Java programming techniques related to information technology and network administration.

## Prerequisite: NET 223, 623, 628

## CIS 17922000 <br> VOC/TECH

 JAVA PROGRAMMING IILearn advanced Java programming techniques related to information technology and network administration. Prerequisite: CIS 178

## CIS $182 \quad 33000$ VOC/TECH

## JSP AND SERVLETS

Students will learn server side features of the Java programming language and explore the concepts of enterprise development. Gain practical experience creating and modifying Java servlets. Java Server Pages (JSP) and Enterprise Java Beans (EJB). Database connectivity will also be examined. Prerequisite: CIS 171, CIS 207

## CIS $204 \quad 33000$ VOC/TECH

 INTRO TO WEBSITE DEVELOPMENTIntroduces HTML and DHTML concepts and technologies. Includes HTML, XHTML, CSS, JavaScript and the Document Object Model (DOM). Students will use a variety of current software development tools to build and publish businessoriented website applications.
Prerequisite: CSC 110
CIS $207 \quad \mathbf{3} 2 \mathbf{2 0 0}$ VOC/TECH
FUND OF WEB PROGRAMMING
This course introduces the student to basic
concepts, languages and tools used in the
development of an e-commerce website. Student
will identify effective design concepts and
characteristics of successful websites. They will use
current tools and techniques to design and create
e-commerce websites.
Prerequisite: CSC 110 or BCA 212

## CIS $210 \quad 33000$ VOC/TECH WEB DEVELOPMENT I

This course is designed to teach students how to install, configure and maintain a Web Server with an emphasis on web page creation and website authoring. Students will learn to use state-of-the-art technology and software in this course. Students are introduced to relational databases and how to use SQL to access them. Students will learn to install a Web Server, a Relational Database, and create dynamic web content containing text, graphics, hyperlinks, tables, forms and frames.
Prerequisite: NET 223, 623, 628

## CIS 21133000 VOC/TECH WEB DEVELOPMENT II

This course is designed to teach students how to create a website where customers can purchase products over the internet (e-commerce). Students will learn to work with the most widely used server side scripting languages and Common Gateway Interfaces including, SSI, ASP, JSP, C, Perl and PHP. After completing this course, students will be able to install a Web Server, a Relational Database and create dynamic web content for e-commerce.
Prerequisite: CIS 210

## CIS $215 \quad 33000$ VOC/TECH <br> SERVER SIDE WEB PROGRAMMING

This course introduces the students to a current selection of application-programming languages referred to as "scripting languages." These languages are used to create small, self-contained programs that are used to add unique functions and special handling capabilities to website applications. The students will learn the basic concepts and applications of these languages and how they can be included within a website.

Prerequisite: CIS 207 or BCA 113
CIS $240 \quad 33000$ VOC/TECH E-COMMERCE WEBSITE II
Introduces Dynamic HTML, cascading style sheets, and XML, work with advanced features of FrontPage and will introduce another website development tool.

Prerequisite: CIS 207
CIS $247 \quad 3 \mathbf{0 0 0}$ VOC/TECH
INTRO TO XML
Introduces XML concepts and coding requirements.
Students will create, display, transform and transfer data
in XML format as part of an Internet-based application.
Course includes XML, XHTML, XSL and XSLT.
Prerequisite: CSC 110

## COURSE DESCRIPTIONS

CIS $303 \quad \mathbf{3 0 0 0} \quad$ VOC/TECH
INTRODUCTION TO DATA BASE
This course provides a comprehensive foundation
that enables students to understand and use
commercially available relational DBMS
products effectively.
Prerequisite: CSC 110 or instructor approval

## CIS 33232200 VOC/TECH

 DATA BASE AND SQLThis course is an introduction to SQL as a database programming language to those already familiar with basic relational database concepts. Students will write executable SQL statements to create and maintain database objects.
Prerequisite: CIS 303

## CIS 338 VOC/TECH SQL/ORACLE

Students will use advanced techniques to retrieve data, format reports and create script files to generate SQL. The course also provides the opportunity to students to write COBOL programs that utilize embedded SQL statements.

Prerequisite: CIS 332
CIS 346 VOC/TECH DATA BASE DESIGN
Students learn a systematic approach to database development using entity-relationship models, normalization and relational database design. Students will use this approach to identify and define business information requirements, create entity relationship models and transform the requirements into an initial database design. Prerequisite: CIS 303

| CIS 402 | 33000 | OPEN |
| :--- | :--- | :--- |

COBOL
Introduces the programming language COBOL. Topics include move, logical testing, control, page breaks, totals and others. Emphasis is given to business applications.

CIS 413 OPEN COBOL II
Introduces advanced COBOL programming techniques. Emphasis is given to the SORT verb, multiple level tables and ISAM file access techniques. Prerequisite: CIS 402

## CIS 42143200 VOC/TECH

 COBOL-INTERMEDIATECOBOL VSE structured programming involving sequential disk, table processing and file update processing, using IBM ICCF text editor, VSE/ESA JCL on an IBM ES/900 Mainframe.
Prerequisite: CIS 402

## CIS 431 <br> 32200

COBOL-ADVANCED
ANS COBOL involving advanced editing programs, table processing, VSAM file process, programs linkage and report writer.
Prerequisite: CIS 593, 421

## CIS 435 <br> 33000 <br> VOC/TECH

 COBOL ON THE WORLD WIDE WEBApply COBOL to the WWW using NetExpress from Merant. Topics include CGI Programs. Data access on the Web Server, GUI development for HTMLbased applications.
Prerequisite: CIS 402

## CIS 463 <br> 44000

CICS
Provides theory and working knowledge of telecommunication programming. Students will code programs using CICS.

Prerequisite: CIS 431

## CIS 48564400 VOC/TECH PROGRAMMING PROJECTS-MAINFRAME

Individual projects are assigned that require the student to apply the programming knowledge gained in prerequisite courses to the design and implementation of assigned business applications. Prerequisite: CIS 463
CIS 505 $\mathbf{4 0 0 0} \mathbf{0} \mathbf{O}$ VOC/TECH
STRUCTURED SYSTEMS ANALYSIS
Designed to acquaint the student with the
various considerations in the design of a system.
The course considers project initiation,
fact gathering, procedures, forms, system
implementation and evaluation.
Prerequisite: CSC 110, CIS 402

CIS $583 \quad 43200$ VOC/TECH ASSEMBLER
An introductory course in the syntax rules of Assembler language programming. Business problems are analyzed and programmed.
Prerequisite: CIS 402 Corequisite: CIS 593

## CIS $588 \quad 33000 \quad$ VOC/TECH COMPUTER ORGANIZATION

This course focuses on the relationship between computing hardware and machine language instruction sets. Computer system and microprocessors will be examined along with supporting hardware and the organization of their instruction sets. Programming in assembly language is studied in detail.

Prerequisite: CIS 125 and CIS 154

## CIS $593 \quad 43200$

## MAINFRAME OPERATIONS

Provides an individual with a working knowledge of Disk Operating Systems/Virtual Storage Extended (DOS/VSE) job control language.
Prerequisite: CIS 402

## CIS $604 \quad 33000 \quad$ VOC/TECH

VISUAL BASIC
An elementary course in the use of the Visual Basic.NET programming language. The various commands will be presented. Students design, code and test several programs.

Prerequisite: CIS 125 or equivalent

## CIS 612 <br> 33000 <br> GENERAL

## ADVANCED VISUAL BASIC

An applications approach developed around data file programming. Manipulation of string variables, data entry, formats, error checking routines, SQL data based processing.
Prerequisite: CIS 604

## CIS $720 \quad 33000 \quad$ VOC/TECH HELP DESK OPERATIONS

The purpose of this course is to provide students with a comprehensive understanding of the helpdesk environment and the knowledge, skills and abilities to work in the user support industry. Students will learn problem-solving and communication skills that are very valuable when providing user support. Through hands-on exercises and case projects, students will learn how to apply their knowledge and develop their ideas and skills. They will also learn how to work individually and in teams, which will prepare them for a team-oriented environment. Prerequisite: CSC 110

## COM $703 \quad 33000$ VOC/TECH COMMUNICATION SKILLS

Reading, writing, speaking and listening are studied as methods of exploring and evaluating technological advances in trades and industry. Adapting communication for different audiences, evaluating industry-related literature and basic business writing are emphasized.

## CON $3335000 \quad$ VOC/TECH MATERIALS/CONSTRUCTION THEORY

An introduction to the materials used in the construction industry and the methods involved in the application of these building materials.

## CON 334 701500 VOC/TECH CONSTRUCTION TECHNIQUES

A practical hands-on introductory experience that covers the construction process including rough and finish carpentry.

## CON $336 \quad 10200 \quad$ VOC/TECH

 CARE/USE OF HAND/POWER TOOLSProper care, use and selection of hand and power tools with an emphasis on maintenance and safety.

## CON 337 VOC/TECH

 CONSTRUCTION BLUEPRINT READINGFundamentals of blueprint reading designed to allow the student to translate plans into practical job experience.
CON $338 \quad 10200 \quad$ VOC/TECH
MATERIALS TAKEOFF
A study of the techniques needed to create a
materials list by reading a blueprint.
Prerequisite: CON 337 should be taken concurrently
or prior to this course

## COURSE DESCRIPTIONS

CON $341 \quad 21200 \quad$ VOC/TECH CONSTRUCTION DRAFTING \& DESIGN
An introduction to the fundamentals of design and basic drafting methods. Includes the preparation of the blueprint used to construct the student-built project.
Prerequisite: CON 337

CON 342 VOC/TECH INTERIOR TRIM PRACTICES
Advanced lab experience that emphasizes complex finish skills. The student will be able to demonstrate the skills and work habits necessary to complete tasks in a safe manner and to adapt previously learned skills to complete more complex building tasks.
Prerequisite: CON 334
CON 34641600 VOC/TECH CONCRETE SYSTEMS \& FORMING
An introduction to concrete as a material and to concrete design, placement and finish. Identification and application to forming systems will be studied in the classroom and applied in the lab.

Prerequisite: CON 336
CON $480 \quad 501000 \quad$ VOC/TECH CONST PROCEDURE/APPLICATION I
This course includes footings, drainage, foundation, basement insulation and decking. (5-week session)

Prerequisite: CON 333, 346, 342

CON $481 \quad 501000$ VOC/TECH CONSTR PROC \& APPLICATIONS II
This course includes exterior wall construction, interior wall construction, ceiling joist framing, rafter framing, exterior trim, window installation and roofing. (5-week session)

Prerequisite: CON 480
CON 482501000 VOC/TECH CONSTR PROC \& APPLICATIONS III
This course includes concrete flatwork, insulation, drywall application, cabinet work and interior trim. (5-week session)
Prerequisite: CON 481
CON 949 VOC/TECH SPCL TOPIC: GREEN BLDG CONCEPTS In this special topics course, students will examine green building concepts, concerns and material characteristics as well as selection. Students will also be introduced to current Leadership in Energy and Environmental Design (LEED) Building certification standards and processes. Theory will be provided that will help the students understand the reasoning behind the green concepts and practices. Students will learn the basic concepts of a cost benefit analysis when selecting environmentally friendly or energy-saving housing systems.

CRJ 100
33000
GENERAL INTRO TO CRIMINAL JUSTICE
An in-depth examination of the three components of the criminal justice system and the roles they play in society.

## CRJ 101 <br> 33000 <br> OPEN

 ETHICS IN CRIMINAL JUSTICEFocuses on philosophical and theoretical issues and analyzes research findings to determine their implications for future practice. The student will learn how to identify and confront difficult ethical decisions they are likely to face in their daily routines.

## CRJ 1072200 OPEN

## SURVEY CRIM JUSTICE AGENCIES

Study of the criminal justice system through an examination of actual agencies, focusing on theoretical vs. real roles and functions of the agencies. Includes on-site visits.

Prerequisite: 24 Hours of CRJ Courses or instructor permission

CRJ 1093000 OPEN THEORIES OF INTERVIEWING
The process of gathering information from others: the interviewee, the setting, types of questions, nonverbal communication, deception and theories of communication.

## CRJ 11133000 POLICE AND SOCIETY

An examination of the role of the police and corrections in American society, and a discussion of prominent issues. The course will examine the various eras of policing and correctional agencies. The structure and style of various policing and correctional agencies will also be covered. Agency application of internal and ethical issues including use of force will be examined. Strategies and policies to improve policing and correctional work environment will also be discussed.

## CRJ 12833000 OPEN

 VICTIMOLOGYThis course is an overview of the study of victims. The course covers the history of victimology, the plight of crime victims, society's changing view of victims, and the role of law enforcement, the courts and corrections in dealing with victims. Victim groups with special needs, such as police officers/ correctional officers who are injured or killed in the line of duty, are also examined.

CRJ $130 \quad 33000$ GENERAL CRIMINAL LAW
An examination of the elements of offenses and the procedural safeguards in the criminal process.

## CRJ 13233000 GENERAL

## CONSTITUTIONAL LAW

A study of the application of constitutional principles to social and political questions including the powers of the national government vs. state government through focus on the incorporation issue and examination of the evolution of civil liberties guarantees.

## CRJ 136 <br> 33000

OPEN CORRECTIONAL LAW
Law in the field of corrections: procedural and substantive rights of both convicts and the state, "good time" detainers, multiple sentences and double jeopardy. Emphasis on sentencing and classification; efforts to reduce sentencing disparity.

## CRJ 137 GENERAL

 JUVENILE LAWThe social and legal aspects plus theories of juvenile delinquency, examination of procedures, legislation, juvenile court and prevention programs.

## CRJ 14133000 OPEN

 CRIMINAL INVESTIGATIONRudiments of criminal investigation: techniques, principles, problems, sources of information, and evidentiary processes.

## CRJ $167 \quad 32200$ <br> OPEN

## OPERATING SYS. FOR FORENSICS

This course provides a comparative study of popular PC-class operating systems. Upon completion of this course, students will be familiar with the interface, file management, resource allocation and common administration procedures of various popular operating systems. Additionally, the course describes data organization and file properties that contribute to forensic investigation. Many discussion topics are reinforced with hands-on exercises and assignments.

## CRJ 1762200 OPEN

 COMPUTER FORENSICS IThis course serves as a technical introduction to the search, seizure and processing of electronic evidence. Topics covered in the course include a strong emphasis on investigative documentation, recognition of potential evidence sources, sterile evidence acquisition and analysis and data recovery methodologies. State-of-the-art hardware and software will be used in hands-on labs and case studies
Prerequisite: CRJ 167

## CRJ 1783000 OPEN E-CRIME INVESTIGATIVE METHODS <br> This course identifies electronic crime, instructs the student on current laws, and teaches the investigative methods used in law enforcement today to gather evidence to prosecute and testify regarding these criminal acts.

## CRJ 19540800 <br> OPEN

## CRIME SCENE INVESTIGATION

An in-depth study into the nature of physical evidence including descriptions of forensic analysis, techniques for proper collection and preservation of evidence and interpreting the significance of scientifically evaluated evidence.
Corequisite: CRJ 141

## COURSE DESCRIPTIONS

## CRJ 222 <br> 33000 <br> OPEN

 CORRECTIONAL TREATMENT METHODSInstitutional options for preventing recidivism. Introduction to therapeutic techniques. Comparison of punishment, Freudian treatments and behavior modification systems. Student presentation required.

| CRJ 229 |  |
| :--- | :--- |
| PENOLOGY |  |
| 3000 | OPEN |

The social organization and goals of correctional programs. Principles of institutional corrections and the social structure within institutions. Examination of noninstitutional alternatives including probation and parole.

## CRJ 2483000 OPEN SCIENTIFIC INVESTIGATION

An introduction to investigative techniques that stresses the identification and examination of physical evidence from the time of its discovery until a final disposition by the courts.

## CRJ 276 <br> 32200 <br> OPEN COMPUTER FORENSICS II

This course is a continuation of study relating to computer forensics and data recovery topics. Topics discussed in this course include the investigation and analysis of password-protected and encrypted data, slack space, swap files and portable data storage/communication devices including PDAs and mobile phones. Software and hardware tools are widely used through various case studies and exercises to reinforce discussion topics.
Prerequisite: CRJ 176

## CRJ 27742400 OPEN

ADV DIGITAL FORENSIC METHODS
This course provides a forum for discussion and experimentation with contemporary topics relating to digital/computer forensics. Topics include evidence analysis specific to networked environments and nonconventional data devices, low-level data recovery procedures, advanced cryptography and steganography and "live" analysis and recovery of server-oriented storage technologies. Software and hardware tools are widely used through various case studies and exercises to reinforce discussion topics.

Prerequisite: CRJ 276
CRJ 932 $300012 \quad$ OPEN
INTERNSHIP

Involves 150 hours of active internship for students in an agency other than one where they may be employed. Synthesis paper required.
(P/F) Prerequisite: Criminal History Background Check to determine eligibility

## CRR 10120400 VOC/TECH

 SHEET METAL WELDINGBasic skills will be developed in oxygen-acetylene fusion welding and flame cutting. Gas metal arc (MIG) welding equipment and basic understanding of procedures related to auto collision area. Safety is emphasized

## CRR 150 <br> 11000 <br> VOC/TECH

 BASIC SHOP SAFETYA course designed to acquaint the student with the hazards in an auto collision facility. Emphasis on EPA regulations, OSHA guidelines and personal health and safety in the shop area.

## CRR 2023200 VOC/TECH PLASTIC REPAIR

The wide variety of solid plastics, flexible panels, plastic compounds and reinforced plastic panels now used in automobile manufacturing require separate repair procedures. Repair, replacement and refinishing of the substrates will be studied in classroom and the lab

Prerequisite: CRR 841

## CRR $3252600 \quad$ VOC/TECH SHEET METAL FUNDAMENTALS

Automobile design, the materials used in construction, collision, corrective forces, procedures for repair and services are analyzed through class and lab study.

Prerequisite: CRR 101 must be taken concurrently or prior to this course

## CRR $502 \quad 21200 \quad$ VOC/TECH

 FRAME DAMAGE ANALYSISUnibody design and construction has created a need for methods of damage analysis, gauging, measuring and sequencing total collision repair. This course emphasizes new technologies.

## CRR 655 5 1800 VOC/TECH

 ADVANCED COLLISION REPAIRThis course builds upon the knowledge and skill in previous auto collision courses to prepare the student to diagnose and repair conventional frame and unibody structural components. The theory and operating principles of unibody structural components will be emphasized. Lab instruction on late model vehicles will be included.

Prerequisite: CRR 502, 101

## CRR $742 \quad 21200$ VOC/TECH

 ESTIMATING THEORYVehicle damage estimating skills are needed to provide a written report. This report can then be used as a repair guide, a legal document, an analysis report and for business evaluation. Ability to use estimating guides and write estimates accurately will be emphasized.

## CRR 76022000 VOC/TECH

 ADVANCED ESTIMATINGEstimating, customer relations and service selling are all important skills of ownership and managership. Hand and computer estimates will be written. Labor, parts and material costs and profits will be studied. Customer and employee relations will be studied

Prerequisite: CRR 742

## CRR 8415340 <br> VOC/TECH <br> \section*{PRINCIPLES OF REFINISHING}

This course will give the student an overall understanding of the complexities of today's auto refinishing. Developing industry standard preparation habits and spray-painting skills with various chemicals will be studied

## CRR 87663600 VOC/TECH REFINISHING PRODUCTION

Industry application of colors and clear coats require the latest information on repair and refinishing of today's vehicles. This course covers the latest manufacturers' preferred methods for repair using current colors and chemicals. Color matching will be emphasized.
Prerequisite: CRR 877, 202

## CRR $877 \quad 73800 \quad$ VOC/TECH

 REFINISHING APPLICATIONSThis course covers the application techniques and equipment used in auto collision repair shops for refinishing and will deal with potential problems with chemicals. Sheet metal and plastic parts repair and replacement in preparation for painting will also be studied in the lab. Shop and personal safety will be emphasized.
Prerequisite: CRR 841

## CSC $110 \quad 32200 \quad$ OPEN INTRO TO COMPUTERS

Presents the basic concepts of computers and the effect that computers are having and will continue to have in the future. Incorporates theory as well as hands-on practice. Includes an introduction to Windows, Word, Excel, Access and the internet.

## DEA 2534000 VOC/TECH

 DENTAL SCIENCE IIntroduction to the various sciences necessary for the dental assistant. Microbiology and oral pathology are covered.

Prerequisite: DEA 256 must be taken concurrently or prior to this course

## DEA 25622000 VOC/TECH

DENTAL ANATOMY
The study of head, neck and dental anatomy is combined to give the student background information for application in dental assisting courses.

DEA 2632000 VOC/TECH DENTAL SCIENCE II
A continuation of Dental Science I. Emphasis on effects of drugs and emergency procedures

Prerequisite: CPR certification, DEA 253, 256

```
DEA 297 11000 VOC/TECH ETHICS/JURISPRUDENCE SEMINAR
Continuation of DEA 591. Also includes the study of the ethics and legal responsibilities of the dental profession as well as the functions and jurisprudence of the auxiliary personnel.
Prerequisite: Second semester standing in Dental Assisting program. Corequisite: DEA 577
```

## COURSE DESCRIPTIONS

DEA $321 \quad 21200$ VOC/TECH DENTAL RADIOGRAPHY II
A continuation of Dental Radiography I. Weekly seminars for basic interpretation of radiographics and laboratory experience to develop student competence in making oral radiographic surveys. Prerequisite: DEA 253, 256, 507, DHY 161

DEA 42410200 VOC/TECH
DENTAL MATERIALS LAB
Through laboratory experience the student learns techniques in preparation and utilization of dental materials.

Prerequisite: DEA 256
DEA 50764400 VOC/TECH PRINCIPALS OF DENTAL ASSISTING
Basic concepts of chairside assisting are covered with emphasis on the role of the team in delivery systems. Terminology, instruments, equipment and basic procedures are covered.
Prerequisite: DEA 253, 256, 424; DHY 221 must be taken concurrently or prior to this course

DEA 576 VOOO 30 VECH DENTAL ASSISTING CLINIC I
Application of knowledge and skills as students rotate through dental offices, clinics and hospital clinics. General and specialty practices are included in rotations.

Prerequisite: Current CPR Certification, DEA 253, 256, 507, 424, DHY 221, 167. Corequisite: DEA 591

DEA $577 \quad 400016$ VOC/TECH DENTAL ASSISTING CLINIC II
Continuation of DEA 576.
Corequisite: DEA 297
DEA $591 \quad 11000 \quad$ VOC/TECH DENTAL ASSISTING SEMINAR
Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

Prerequisite: DEA 253, 256, 507, 424; DHY 221, 161. Corequisite: DEA 576

## DEA 61553400 VOC/TECH

 CLINICAL DENTAL ASSISTINGA continuation of Preclinical Dental Assisting (DNA 507) with emphasis on operative dentistry, dental specialties and advanced functions. The laboratory phase develops students' competencies in clinical assisting.
Prerequisite: DEA 253, 256, 507, 424, DHY 221, 161

## DEA 702 <br> 22000 <br> VOC/TECH

 DENTAL OFFICE PROCEDURESCovers the business aspects of the dental office: patient relations, appointment book management, financial records, telephone communications, credits and collections, dental insurance, tax records, supply and inventory systems.

Prerequisite: 35 WPM keyboard skills and computer literacy

DHY 11444000 OPEN DENT HYG ANATOMICAL SCIENCE
Programmed dental anatomy supplemented by lectures, quizzes and discussions on the development, morphology and functions of the teeth. Anatomy and physiology of the head and neck including mastication.
Prerequisite: BIO 164

## DHY 12122000 OPEN

ORAL HISTOLOGY \& EMBRYOLOGY
General and oral histology beginning with a consideration of cytology that is followed by a study of the fundamentals of oral embryology and the normal microscopic anatomy of oral tissues.
Prerequisite: BIO 164

DHY 133
33000
OPEN
PHARMACOLOGY
The study of drugs and their action on living tissue including their use as an aid in the diagnosis, treatment and prevention of disease or to control or improve any physiological or pathological condition

Prerequisite: CHM 132, DHY 114, 181, 182

## DHY 1413300 <br> OPEN

## GENERAL \& ORAL PATHOLOGY

Basic concepts of disease process and the ora manifestations of inflammation, degenerative changes, neoplasms and developmental anomalies of the oral cavity

Prerequisite: BIO 164, DHY 121, 114

## DHY 16132200

OPEN

## ORAL RADIOLOGY

Lecture includes radiation physics; biological effects; radiation safety and protection; properties of x-ray film and techniques of exposing; processing, mounting and evaluating film. Laboratory experiences develop competence in exposing, processing, mounting and evaluating radiographs. Corequisite: DEA 256 and DEA 507 or DHY 114
DHY 16421200 OPEN

## ORAL RADIOLOGY II

A continuation of Dental Radiography I. Weekly seminars for basic interpretation of radiographs and laboratory experience to develop student competence in taking oral radiographic surveys.

Prerequisite: DHY 161. Corequisite: DHY 182

## DHY 17022000 <br> OPEN

## PRINCIPLES OF DENTAL HYGIENE

Basic principles of clinical dental hygiene are introduced. The etiology of deposits and their effect on oral tissue and the theory and techniques of instrumentation in removal of deposits are emphasized in the practicum portion. Prerequisite: BIO 154, CHM 122. Corequisite: DHY 171

## DHY 17130600 OPEN

 PRINCIPLES OF DENTAL HYG PRACT See DHY 170.Prerequisite: BIO 164, CHM 122. Corequisite: DHY 170

```
DHY 181 22000 OPEN
```

DENTAL HYGIENE I

A continuation of instrumentation techniques Emphasis is placed on patient assessment and principles of patient education in chairside instruction. Topics include polishing techniques, topical application of fluoride and supplementary procedure. Prerequisite: DHY 170, 171. Corequisite: DHY 182
DHY $182 \quad 40800$
CLINICAL DENTAL HYGIENE I OPEN
See DHY 181.

Prerequisite: DHY 170, 171. Corequisite: DHY 181, 164
DHY 21122000 OPEN PERIODONTOLOGY
The clinical characteristics, histopathology, etiology and treatment of periodontal diseases are presented. Special emphasis is placed on the role of the dental hygienist in the prevention and management of periodontal diseases.
Prerequisite: DHY 121, 181, 182. Corequisite: DHY 282

## DHY 22122000 <br> OPEN

DENTAL MATERIALS
A study of materials utilized in the practice of dentistry. Properties of dental materials and ADA requirements are presented.

Corequisite: DEA 256 and DEA 424 or DHY 114 and DHY 223 must be taken concurrently or prior to this course

## DHY 22310200 OPEN <br> DENTAL MATERIALS LAB <br> Through laboratory experience, the student learns techniques in preparation and utilization of dental materials. <br> Corequisite: DHY 221 <br> DHY 2324000 NUTRITION/PREVENTIVE DENTISTRY OPEN

## NUTRITION/PREVENTIVE DENTISTRY

Lecture-discussion course relating the nutrients and their effects on general and oral health throughout the life cycle. An introduction to the principles of counseling and instruction in preventive dentistry necessary to maintain optimum oral health.

Prerequisite: BIO 164. CHM 132

## COURSE DESCRIPTIONS

## DHY 234 OPEN

 NUTRITION/DENTAL COUNSELINGA combined teaching, learning and practice course emphasizing the identification and analysis of diet as it relates to dental health. Students will evaluate caries and periodontal disease risk levels and perform counseling and instruction in elements of nutrition as they relate to the prevention of dental disease.
Prerequisite: BIO 164, CHM 132, HCM 236

## DHY 25132200 OPEN

 COMMUNITY ORAL HEALTHThe course relates the concepts of dental public health and preventive dentistry including principles of biostatistics, epidemiology, dental manpower and delivery systems. Students plan, implement and evaluate a community dental health project.
Prerequisite: DHY 261

## DHY 26132200 <br> DENTAL HEALTH EDUCATION

OPEN
An introduction to the principles of instruction in healthcare. The course will include developing, presenting and evaluating dental health education programs for public schools and community groups.
Prerequisite: DHY 170, 171

## DHY 28122000 OPEN

DENTAL HYGIENE II
A continuation of clinical practices. Further instruction and application in techniques for a complete oral prophylaxis and Phase 1 therapy.
Topics include smoking cessation, intraoral photography, sonic scaling and air polishing.
Prerequisite: DHY 181, 182. Corequisite: DHY 282
DHY 282 OPEN CLINICAL DENTAL HYGIENE II See DHY 281.

Prerequisite: DHY 181, 182. Corequisite: DHY 281
DHY 2912000 OPEN DENTAL HYGIENE III
A continuation of clinical practices. Topics include dental hygiene care for individuals with special needs, care planning, third-party payment applications, substance abuse and dependent adult abuse.
Prerequisite: DHY 281, 282. Corequisite: DHY 292
DHY 292 OPO 50150 OPE CLINICAL DENTAL HYGIENE III See DHY 291.
Prerequisite: DHY 281, 282. Corequisite: DHY 291

DHY 30122000 OPEN

## DENTAL HYGIENE IV

A continuation of clinical practices. Legal, ethical and management aspects of the dental care system are considered. Career alternatives and job-seeking skills are demonstrated.

Prerequisite: DHY 292, 291. Corequisite: DHY 302

DHY 30200150 OPEN CLINICAL DENTAL HYGIENE IV See DHY 301
Prerequisite: DHY 292, 291 Corequisite: DHY 301

## DRA 1013300 <br> CORE

## INTRODUCTION TO THEATRE

A survey of the elements and techniques of theatre with emphasis on acting, directing and playwriting. Attendance at dramatic production encouraged.

## DRA 1303000 GENERAL <br> ACTING I

Training of the body, voice and mind as acting instruments. Course includes acting exercises, scene analysis and performance.

## DRA 1473000 GENERAL

 CREATIVE DRAMA SCHOOL/RECElements of improvisational acting. Students will learn approaches for participating in as well as leading creative drama activities.

## DRA 945 <br> 20400 <br> GENERAL

PRACTICUM I
Practical experience in acting, directing and stage design. Students will be involved in all stages of production, from auditions to final performance. May be repeated for up to eight semester hours of credit.

## DRA 946 GENERAL

 PRACTICUM IISee DRA 945
DRA 94840800 GENERAL

PRACTICUM III
See DRA 945.

## DSL 1451800 VOC/TECH

## BASIC ELECTRICITY

An introduction to basic electricity and electronic principles that apply to diesel-powered equipment. Systems and components covered include starting, charging, lighting and accessories.

## DSL 15541600 VOC/TECH ADVANCED ELECTRICITY <br> The electrical circuitry on diesel-powered equipment is covered. Included are troubleshooting, diagnosing and repair procedures. Experienced individuals may contact the instructor to gain admittance to this course. <br> Prerequisite: DSL 145

DSL 330 VOC/TECH DIESEL ENGINE TUNE-UP
Information on preventative measures to eliminate failures and diagnose engine problems. Instruction related to tune-up procedures.

## DSL 356 <br> 611000 <br> vOC/TECH

 DIESEL ENGINES IInstruction provided in the technical and nontechnical aspects of diesel engines. This information will give the students the basic understanding needed to continue in the Diesel Mechanic program.

DSL $366 \quad 611000$ VOC/TECH DIESEL ENGINES II
Instruction in diagnosing problems and the nature of repairs needed. Information on preventative measures to eliminate failures.
Prerequisite: DSL 356
DSL $407 \quad 611000$ VOC/TECH
DIESEL FUEL SYSTEMS
The student will be introduced to basic fuel system principles and operational theory of some commonly used systems, as well as general repair and diagnostic procedures.

Prerequisite: DSL 366
DSL $409 \quad 52600$ VOC/TECH DIESEL ELECTRONICS
A study of electronic fundamentals, lab work with electronic components and testing equipment. Diesel engines that are computer-controlled are used in lab to demonstrate applications of electronics on diesel power that meet the demands of the future. Experienced individuals may contact the instructor to gain admittance to this course.

Prerequisite: DSL 145

```
DSL 546
62800
VOC/TECH POWER TRAINS I
```

Class and lab activities in the design and operation of drivetrain components including clutches, manual transmissions, drive lines, rear axles and wheel bearings.
DSL 555 51800 VOC/TECH
POWER TRAINS II $\mathbf{5 0}$
Instruction will include the basics of automatic
transmissions, power shift transmissions, final drives
and hydrostat drives.
Prerequisite: DSL 546, 605
DSL $605 \quad 51800$ VOC/TECH HYDRAULICS AND BRAKES
The study of basic mobile hydraulics. Introduces principles, components, fluid systems and circuits of hydraulic systems. Vehicle braking includes study of hydraulic and air brake systems.

DSL $733 \quad 31400 \quad$ VOC/TECH AIR CONDITIONING
A course on basic air conditioning theory and design. Emphasis will be placed on various system controls and on service operations.
DSL $830 \quad$ 51800 VOC/TECH
OPERATION \& MAINTENANCE
Instruction in the proper methods of maintaining
all equipment. Safety will be emphasized.

## COURSE DESCRIPTIONS

DSL $845 \quad 51800$ VOC/TECH HEAVY EQUIPMENT REPAIR
Instruction in the repair and service of equipment relating to the heavy equipment industry. This includes all phases normally done in a general repair shop. Instruction is given under structured lab and field conditions. Experienced individuals may contact the instructor to gain admittance to this course. Prerequisite: DSL 366, 546, 605, 145

## DSL 855 <br> TRUCK REPAIR

Instruction in the repair and service of equipment relating to the trucking industry. This includes all phases normally done in a general repair shop. Instruction is given under structured lab and field conditions. Experienced individuals may contact the instructor to gain admittance to this course.

Prerequisite: DSL 366, 546, 605, 145
DTM $350 \quad 11000 \quad$ VOC/TECH HEALTH FIELD
Roles of dietary personnel in health facilities and state and federal guidelines. Explore managerial aspects within facilities

DTM 35110200 VOC/TECH FOOD PREPARATION
Basic principles and development of techniques as they apply to preparation of each food group and the criterion for evaluating product quality. Laboratory experience.

DTM 35222000 VOC/TECH SANITATION/MEAL SERVICE
Methods of efficiently serving safe, pleasing food An awareness of sanitation will be created for all areas of food service.

## DTM 353 VOC/TECH

 NUTRITION LIFE CYCLEAn in-depth study (social, physiological and psychological need) of residents from infancy to geriatric. Explore the therapeutic role of food.

DTM $354 \quad 11000 \quad$ VOC/TECH MODIFIED DIETS
An assessment of special diets, using the approved diet manual, a review of food guidelines and hints for making modified diets more appetizing.

## DTM $355 \quad 11000 \quad$ VOC/TECH

## FOOD PRODUCTION MANAGEMENT

Total production needs, equipment layout, work methods, food storage, food preparation, service, sanitation and use of computers in food service.

## DTM 35622000 VOC/TECH

 FOOD SERVICE MANAGEMENTThe management functions required to organize and maintain an efficient, quality, dietary
department are developed

## DTM 361 <br> VOC/TECH

 FOOD PREP FIELD EXPERIENCEApplication and evaluation of food preparation in a healthcare facility. Practical experience in a selected healthcare facility supervised by a registered dietitian. (P/F)

DTM $362 \quad 10004$ VOC/TECH SANITATION/MEAL SRVC FIELD EXP
Application and evaluation of sanitation and meal service in healthcare facilities. Practical experience in a selected healthcare facility supervised by a registered dietitian.
(P/F)

## DTM $363 \quad 10004$ VOC/TECH NUTRITION LIFE CYCLE FIELD EXP

Application and evaluation of nutritional aspects in healthcare facilities. Practical experience in a selected healthcare facility supervised by a registered dietitian.
(P/F)

## DTM $364 \quad 10004$ VOC/TECH

 MODIFIED DIET/FIELD EXPERIENCEApplication and evaluation of modified diets in healthcare facilities. Practical experience in a selected healthcare facility supervised by a registered dietitian.

## ECE 1033000 OPEN INTRO TO EARLY CHILDHOOD ED

Gives students an historical and philosophical foundation of the field of early childhood education Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

ECE 130 OPEN EMERGENCY CARE
Cardiopulmonary resuscitation according to lowa Heart Guidelines. Childhood diseases, immunization laws and environmental safety for children are discussed. Designed for day care personnel. Certification for first aid and CPR are awarded upon successful completion. Course may be repeated for a maximum of 3 credits.

## ECE 1333000

OPEN

## CHILD HEALTH, SAFETY \& NUTRITION

Provision of a safe and healthy environment for young children in a group setting. Specifically covered are nutrition analysis, menu planning, indoor and outdoor safety principles and assessments, health assessments and policies, and the care of children with chronic health problems

## ECE 1583000 <br> OPEN

EARLY CHILDHOOD CURRICULUM I
Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's developmental stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

## ECE 1593000 OPEN

 EARLY CHILDHOOD CURRICULUM IIFocuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's developmental stages and developing appropriate learning opportunities, interactions and environments in the following areas: emergent literacy, math, science, technology and social studies.

Prerequisite: ECE 158 or instructor approval. Corequisite: ECE 359 or instructor approval

## ECE 17033000 <br> OPEN CHILD GROWTH \& DEVELOPMENT

Reviews typical and atypical development of children from conception to adolescence in all developmental domains. Presents interactions between child, family and society within a variety of community and cultural contexts. Examines theories associated with our understanding of children.

## ECE $215 \quad 33000$ <br> OPEN

## HOME, SCHOOL \& COMM RELATIONS

Focuses on current understanding of supporting children and families in relation to home, school and community contexts. Emphasis is on building respectful, culturally sensitive relationships with families, utilizing community resources and working with diverse families.
ECE $221 \quad$ OPEN
INFANT/TODDLER CARE AND EDUC.
Focuses on care, education and assessment of
children from birth to 36 months. Prepares students
to utilize developmentally appropriate practices
including responsive caregiving, routines as
curriculum, importance of relationships with diverse
families and a focus on the whole child in inclusive
settings.

## COURSE DESCRIPTIONS

#### Abstract

ECE 243 OPEN

\section*{EARLY CHILDHOOD GUIDANCE}

Focuses on effective approaches and positive guidance strategies for supporting the development of all children. Emphasizes supportive interactions and developmentally appropriate environments. Uses assessment to analyze and guide behaviors. Studies impact of families and diversity on child guidance. Corequisite: ECE 343 or instructor approval

## ECE 262 OPEN

EARLY CHILDHOOD FIELD EXPER
Supervised experience in selected early childhood setting. Includes integration of theory, research and reflective practice. Provides an understanding of developmentally appropriate practices and the developmental stages of diverse populations of young children and families. Emphasizes professional relationships and behavior, appropriate adult/child interactions, basic curriculum planning and program routines.

Prerequisite: ECE 103, ECE 133, ECE 159, ECE 170, ECE 243; "C" or better in ECE 343 and ECE 359; 2.0 program GPA; or instructor permission. Current CPR/ First Aid Certification. Prerequisite OR Corequisite: ECE 221

## ECE 281 OPEN

 PRACTICUMPlacement in a community-based program for young children. Emphasis is on the development of competencies necessary for employment in a similar setting.

Prerequisite: completion of 10 credits in Early Childhood Education with a minimum of a 2.0 GPA or permission of instructor

ECE 290 OPEN EARLY CHILDHOOD PROGRAM ADMIN
Course covers basic principles involved in setting up and administering an early childhood program. Emphasis placed on licensing regulations, bookkeeping, insurance, enrollment and record-keeping. Designed for second-year students and persons interested in becoming a program administrator.
Prerequisite: Accepted into the Early Childhood Education program and a minimum of 12 credits in ECE or instructor permission

## ECE 343 OPEN EARLY CHILDHOOD GUIDANCE LAB

Focuses on effective approaches and positive guidance strategies for supporting the development of all children. Students observe for and utilize strategies taught in ECE 243.

Corequisite: ECE 243 or instructor approval

## ECE 35910200

 ECE CURRICULUM II LABStudents practice the selection and use of assessment techniques, plan and set up age, individually and culturally appropriate learning centers, activities and group experiences for young children. Emphasis is on understanding children's developmental stages, identifying and participating in appropriate learning opportunities, interactions and environments in the following areas: emergent literacy, math, science, technology, social studies, creative art, music and movement, dramatic play, fine and gross motor play and outdoor experiences.

## Prerequisite: ECE 158 Corequisite: ECE 159

## ECE $932 \quad 200010$ OPEN

 EARLY CHILDHOOD INTERNSHIPStudents apply skills and knowledge related to children, families and the profession in a selfselected community-based setting. Students are encouraged to identify a placement that reflects their individual interests in the field. Emphasis on professional expectations and behavior, appropriate interactions, planning, implementation and assessment and exploring multiple facets of overall program operations.

Prerequisites: ECE 103, ECE 133, ECE 159, ECE 170, ECE 243; "C" or better in ECE 343 and ECE 359; ECE 343 and ECE 359; instructor recommendations; 2.5 program GPA; or instructor permission. Current CPR/First Aid Certification. Internship application is required the semester prior to enrollment in the course. Prerequisite OR corequisite: ECE 215, ECE 221, ECE 290

## ECN $120 \quad 33000$ CORE

 PRINCIPLES OF MACROECONOMICSThis course is an introduction to basic macroeconomic concepts and principles. It deals with problems of resource allocation, supply and demand, national income, employment, price levels, fiscal and monetary policy, money and banking systems and elements of global finance. ECN 120 is not a prerequisite for ECN 130.

## ECN 130 CORE

## PRINCIPLES OF MICROECONOMICS

Course covers survey of demand and supply conditions, cost structure, market structure and how these elements affect individual household, business firms, government and global trade. ECN 120 is not a prerequisite for ECN 130.

## EDU 213 <br> OPEN

## INTRO TO EDUCATION

Presents a broad overview of the field of education including foundations of American education, roles of teachers and students, history and philosophy and curriculum. Students will complete a 40-hour practicum at the elementary, middle or high school level. Recommended for students who plan to major in education.

## EDU 21821004 <br> OPEN

 INITIAL FIELD EXPERIENCECourse will provide opportunities to enhance understanding of the teaching profession and assist with decisions to pursue a career in education. Time spent observing, assisting and teaching in a classroom with a licensed educator. Various opportunities for interacting with students, learning instructional strategies and collaborating with teachers. Students will gain a greater understanding of the daily expectations of a teacher.
Prerequisite: EDU 213

## EDU 24533000 EXCEPTIONAL LEARNER

OPEN
A survey of exceptional learners in the classroom will be explored. History, philosophy, current issues, trends and mainstreaming will be discussed.

## EGR 10011000 <br> OPEN <br> ENGINEERING ORIENTATION

Introduction to the engineering disciplines and the engineering profession. Considerations in choosing an engineering curriculum. Information concerning college policies, procedures and resources. Opportunities to interact with engineering departments at a four-year institution.

## EGR 15022000 ENGINEERING FORTRAN

The FORTRAN language in batch and interactive modes with an emphasis on solutions to engineering problems.

Prerequisite: MAT 130 must be taken concurrently with or prior to this course

## EGR 155 <br> 22000 <br> OPEN ENGINEERING C/C++

Learn to solve engineering problems by computer using the $C / C++$ language. Emphasis is placed on program logic, organization and numerical methods.
Prerequisite: MAT 130 must be taken concurrently with or prior to this course

## EGR 16122000 <br> OPEN <br> \section*{ENGINEERING COMPUTATIONS}

This course includes the organization, solution and presentation of engineering problems. Topics include S.I. units and selected engineering topics.
Prerequisite: MAT 130 must be taken concurrently or prior to this course

## EGR 16642400 OPEN ENGR GRAPHICS/CONCPTL DESIGN

An integration of conceptual design, engineering graphics and computer-aided design. This course includes orthographic projection applied to threedimensional geometry and engineering drawing. Instrument and freehand application to an open-ended project that includes a formal engineering report. Prerequisite: MAT 130 must be taken concurrently with or prior to this course

## COURSE DESCRIPTIONS

| EGR 180 | 33000 | 22000 | VOC/TECH ELT 181 | 11000 | VOC/TECH |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

This course includes the vector and scalar analysis of coplanar and non-coplanar force systems, equilibrium concepts, friction, centroids, moments and products of inertia. Mohr's circle, radius of gyration, internal forces, shear and bending moment diagram.
Prerequisite: PHY 213. Corequisite: MAT 217 must be taken concurrently with or prior to this course

ELE 14132200 VOC/TECH ADVANCED MOTOR CONTROLS
Additional topics in industrial motor controls. Course includes wiring of AC \& DC motors, power distribution, solid-state controls, proximity controls and frequency drives.
Prerequisite: ELT 303, 134

## ELT 09311000 COLL PREP CONCEPTS ELECTRONICS/COMPUTERS

This course is designed for students who need additional practice and technical skills to succeed in electronics and computer networking programs. Skills that will be developed include learning how to approach problems and manipulating formulas to solve problems. College preparatory courses cannot be used to fulfill degree requirements.
Corequisite: ELT 108

ELT 10633000 VOC/TECH

## BASIC MATH FOR ELECTRONICS

Mathematics related to basic electronics. It includes basic algebra, right triangle trigonometry, scientific notation, with applications to DC and AC circuitry.

## ELT 10844000 VOC/TECH

MATH-ELECTRONICS \& COMPUTERS
Introduction to mathematical skills needed by electronics/computer technicians.

## ELT 1192200 VOC/TECH

 PROGRAMMABLE LOGIC CONTROLLERSThis course covers PLC operation and programming techniques to include relay logic, timers, counters, sequencers, discrete I/O, analog I/O, networking, remote I/O, workstations, advanced programming techniques and interfacing with personal computers Prerequisite: ELT 134

ELT 12532200 VOC/TECH ADVANCED PLC
This course is designed for the student who is already proficient with ladder logic and loading programs into PLCs. The course will introduce the student to both hardware and software operator control panels, analog sensor interfacing, analog programming and exchange of data over networks. A hands-on lab component will give the student the opportunity to install, program and troubleshoot networked PLC hardware.

ELT 12622000 VOC/TECH INDUSTRIAL ELECTRONICS
The devices and circuits used in thyristor control of machines are presented. It includes phase control of DC motors, triac control of AC motors as well as various speed control circuits.
Prerequisite: ELT 134

## ELT 1343200 VOC/TECH

 MOTOR CONTROLSAn introduction to industrial motor controls. During this course, students will use ladder diagrams and control devices to implement practical control systems.

## ELT 143 VOC/TECH MECHANISMS

This introductory course covers linear and angular displacement, velocities, and accelerations of linkages, gear trains and belt and friction drives. Included topics are vectors, simple and complex machines and toggle and intermittent motion mechanisms.

ELT $158 \quad 33000$ VOC/TECH NEC RESIDENTIAL
The basic principles of the NEC for layout and construction for residential wiring systems. Apply code rules to house wiring installations. Discuss security systems, fire and smoke detectors, lowvoltage and remote controls.

## ELT 159 VOC/TECH

## NEC RESIDENTIAL LAB

Utilize the basic principles of the NEC for layout and residential electrical wiring systems. Apply code rules, using hands-on approach for residential electrical installations from simplistic to complicated circuit wiring.

ELT 1723000 VOC/TECH NEC COMMERCIAL/INDUSTRIAL
The basic principles of the NEC for layout and construction for commercial wiring and industrial wiring systems. Apply basics of wiring into the planning of typical commercial and industrial installations. Configure how load requirements are converted into branch circuits then into feeders, and into main electrical services.

## ELT 17341600 VOC/TECH NEC COMMERCIAL/INDUSTRIAL LAB

 Utilize the basic principles of the NEC for layout of commercial and industrial wiring systems. Apply code rules, using hands-on approach for commercial and industrial electrical installations from simplistic to complicated wiring.| ELT 174 | 22000 | VOC/TECH | ELT 368 | 33000 | TECH |

## COURSE DESCRIPTIONS

## ELT 369 VOC/TECH DC \& AC FUNDAMENTALS LAB <br> This laboratory will enable the student to analyze basic L-C-R circuitry. Basic test equipment usage will also be presented. <br> Prerequisite: ELT 368 must be taken concurrently with or prior to this course

ELT $385 \quad 44000$ VOC/TECH ELECTRIC CIRCUIT ANALYSIS I
An analytical introduction to direct and alternating current fundamentals essential in all phases of electricity and electronics. Topics covered include Ohm's law, Kirchhoff's law, Thevenin-Norton and Superposition theorems, impedance, resonance, series and parallel circuits, resistors, capacitors, inductors, batteries and meters.
Corequisite: ELT 386

## ELT $386 \quad 20400 \quad$ VOC/TECH

 ELEC CIRCUIT ANALYSIS I LABBasic experiments in AC and DC circuit analysis including familiarization with basic test instruments, series and parallel circuits (using resistors, capacitors, inductors, batteries and power supplies) and applications of electrical laws and theorems.
Corequisite: ELT 385

## ELT 387 VOC/TECH

 ELECTRIC CIRCUIT ANALYSIS IIDeals with principles and electrical properties of semiconductor diodes, transistors, integrated circuits and integrated circuit amplifiers complete with mathematical analysis of equivalent circuits and their evaluation.
Prerequisite: ELT 385, 386. Corequisite: ELT 388

## ELT $388 \quad 20400$ VOC/TECH ELEC CIRCUIT ANALYSIS II LAB

An analysis of solid-state circuitry. It includes both transistor and integrated circuit experiments. Linear amplifiers and active filters are evaluated. Students will attend a minimum of three industrial tours, which may take place outside of regular class time. Prerequisite: ELT 385, 386. Corequisite ELT 387

ELT 389 VOC/TECH FABRICATION TECHNIQUES
Rendering of isometric and orthographic projection drawings. Soldering techniques, fabrication of sheet metal enclosures and production of printed circuit boards using photographic and etching methods.

ELT 47044000 VOC/TECH BUS IMAGING \& SECURITY APPLIC.
This course provides student opportunities to analyze imaging systems, which include video monitoring, copying and printing and to analyze security systems, including fire alarm and intruder alarm. Equipment includes laser printers, copiers, fax machines, scanners, monitors, cameras, LCD displays and related accessories such as document feeders and sorters.

Prerequisite: ELT 134, ELT 143. Corequisite: ELT 471

## ELT 471 <br> 30600 <br> VOC/TECH BUS IMAGING \& SECURITY APP LAB

This course provides students practice in the installation, maintenance and troubleshooting of various security systems, as well as experience in troubleshooting, servicing and repairing copiers, laser printers, fax machines, scanners and peripherals.
Prerequisite: ELT 134, ELT 143. Corequisite: ELT 470

## ELT 47433000 VOC/TECH COMMUNICATIONS SYSTEMS

The analysis of communications systems including transmission and reception of AM and FM radio, television, satellite and microwave including antenna and transmission line theory.
Prerequisite: ELT 387, 388. Corequisite: ELT 475

## ELT 475 VOC/TECH

 COMMUNICATIONS SYSTEMS LABLaboratory experiments in radio, television, satellite and microwave systems including the construction and alignment of a broadcast radio receiver.
Prerequisite: ELT 387, 388. Corequisite: ELT 474

## ELT $478 \quad 33000$ VOC/TECH

## BASIC IMAGING DEVICES

An analysis of various imaging systems including laser printers, copiers, fax machines, scanners and accessories such as document feeders and sorters, monitors, cameras, LCD displays.
Prerequisite: ELT 387, 388. Corequisite: ELT 479

## ELT 47930600 VOC/TECH

 BASIC IMAGING DEVICES LABExperience in troubleshooting, service and repair of copiers, laser printers, fax machines, scanners and peripherals, monitors, cameras, LCD displays.
Prerequisite: ELT 387, 388. Corequisite: ELT 478

## ELT $482 \quad 33000$ VOC/TECH

## SECURITY SYSTEMS

Analysis of video monitoring systems, fire and intruder alarm systems, climate control systems. Prerequisite: ELT 781, 782. Corequisite: ELT 483

## ELT $483 \quad 40800$ VOC/TECH

## SECURITY SYSTEMS LAB

Installation, maintenance and troubleshooting of various security systems.
Prerequisite: ELT 781, 782. Corequisite: ELT 482

## ELT 48444000 VOC/TECH

 MEDICAL ELECTRONICS SYSTEMSThis course trains the student in electrical safety testing and the repair, calibration and preventative maintenance of patient monitoring equipment such as ECG, blood pressure, defibrillators, ICN, CCU central station monitoring systems and the respiratory instrumentation. Included will be a selfpaced study of medical terminology.
Prerequisite: ELT 134, ELT 143. Corequisite: ELT 485

ELT $485 \quad 30600$ VOC/TECH MEDICAL ELECTRONICS SYSTEM LAB
This course covers repair, calibration and preventive maintenance of critical care, diagnostic and life support equipment in a hands-on, lab environment.
Prerequisite: ELT 781, 782. Corequisite: ELT 484

## ELT 61122000 VOC/TECH

 MICROPROCESSORSThis course covers two major areas of microcomputers and microprocessors. The first is an investigation of the specific architecture of microprocessors and fundamental microcomputer hardware. The second area is software and studies specific assembly language instructions for common routines and program structures.
Prerequisite: ELT 307, 308. Corequisite: ELT 612

## ELT 61230600 VOC/TECH MICROPROCESSORS LAB

Includes experiments that exercise microprocessor instruction sets and microcomputer central processing units, memory and I/O devices. Routines and subroutines are written in assembly language, assembled, downloaded and tested. Students will participate in a minimum of four, two-hour jobshadowing experiences that may take place outside of regular class time.
Prerequisite: ELT 307, 308. Corequisite: ELT 611

## ELT $614 \quad 31400 \quad$ VOC/TECH

 MICROPROC. \& MICROCONTROLLERSThis course covers two major areas of microcomputers and microprocessors. The first is an investigation of the specific architecture of microprocessors and fundamental microcomputer hardware. The second area is software and is concerned with the assembly level and high-level instructions for common routines and program structures. The course includes hands-on practice programming and interfacing microcontroller devices. Students will participate in a minimum of four, two-hour job shadowing experiences that may take place outside of regular class time.

Prerequisite: ELT 325, ELT 326

## ELT 64333000 VOC/TECH PROCESS CONTROL INSTRUMENT

A comprehensive study of process control characteristics such as elements, modes and stability along with detailed knowledge of measurement technique, control mode implementation and final control element functions. In keeping with modern trends, the digital aspects of process control technology are stressed.
Prerequisite: ELT 611, ELT 612. Corequisite: ELT 644
ELT 644 VOC/TECH
PROCESS CONTROL INSTR LAB

20LINSTR LAB
This lab includes experiments on transducers used in process control, as well as experiments on proportional, integral and derivative control.
Prerequisite: ELT 611, 612. Corequisite: ELT 643

## COURSE DESCRIPTIONS

ELT $652 \quad 42400 \quad$ VOC/TECH COMPUTER REPAIR \& NETWORKING
This course is designed for the student who is already proficient with computers and electronic circuitry. The course follows the recommendations of CompTIA on the subjects and materials to assist the student in learning about computer hardware and functions needed to pass the A Plus exam. A detailed study and hands-on lab component give the student the opportunity to install and troubleshoot computer and networking hardware. Prerequisite: ELT 387, 331

## ELT 721 <br> 31400 ROBOTICS

The course provides an introduction to robotic fundamentals. The student will examine parameters of robot operation and program robots for various applications.

## ELT $72521200 \quad$ VOC/TECH

 INTRO FLEXIBLE MANUFACTURINGThis course introduces the student to aspects of a flexible manufacturing cell. It will familiarize the student with cell software and hardware. It includes labs on cell components.

Prerequisite: ELT 721
ELT 78122000 VOC/TECH ELECTRO-MECHANICAL SYSTEMS
The basic theories, concepts and principles of electro- mechanical devices such as relays, contactors and $D C / A C$ motors will be covered, as well as the basic principles of mechanical relationships including gears, pulleys, belt drives, wheel and axle, inclined plane, screw, wedge and levers. Pneumatic devices such as compressors, motors, valves and actuators are covered. Also covered will be basic sensors.
Prerequisite: ELT 387, 388. Corequisite: ELT 782

## ELT 78220400 VOC/TECH

 ELECTRO-MECHANICAL SYSTEMS LABApplication of the basic theories, concepts and principles of electro-mechanical devices. Projects are applications of principles used in business machines, security systems and medical electronics systems including construction of various examples of compound machines using wheel and axle, gears, levers and belt drives. Projects using basic sensors, pneumatic valves, cylinders and actuators will be constructed. Students will participate in a minimum of four, two-hour job-shadowing experiences that may take place outside of regular class time.

Prerequisite: ELT 387, 388. Corequisite: ELT 781

## ELT $7913000 \quad$ VOC/TECH HYDRAULICS \& PNEUMATICS

The basic principles of fluid power and the operation and application of fluid power components are introduced. Devices such as valves, linear and rotary actuator are evaluated in the laboratory. In addition, pneumatic position control servomechanisms are evaluated
Corequisite: ELT 792

## ELT 792 <br> 20400 <br> VOC/TECH

 HYDRAULICS \& PNEUMATICS LABThe basic principles of fluid power and the operation and application of fluid power components are introduced. Devices such as valves, linear and rotary activators are evaluated in the lab.
Corequisite: ELT 791

## ELT 793 <br> 32200 <br> VOC/TECH

 ADVANCED FLUID POWERAn advanced course that includes demonstrations of pressure compensated pumps and valves. Electronic controls and monitoring of hydraulic systems, evaluating various fluids for hydraulic systems, describing and observing the operation of fluid power in various industrial/mobile situations will be covered.
Prerequisite: ELT 791, ELT 792

## ELT $816 \quad 22000 \quad$ VOC/TECH SYSTEMS TROUBLESHOOTING

A study of electronic systems troubleshooting theory, methods and techniques.
Prerequisites: ELT 478, 479, 474, 475, 482, 483. Corequisite: ELT 817

## ELT 817 VOC/TECH SYSTEMS TROUBLESHOOTING LAB

A hands-on experience troubleshooting and repairing a variety of electronic equipment such as copiers, security monitors and cameras, radio, television and satellite systems.
Prerequisite: ELT 478, 479, 474, 475, 482, 483. Corequisite: ELT 816

## ELT $870 \quad 31400$ VOC/TECH ELECTRONICS CAPSTONE PROJECT

This course provides hands-on experience in a significant design project involving technological competence, open-ended problem-solving, teamwork and both written and oral communication skills.
Prerequisite: Successful completion of requirements of first 4 terms of the Electronics, Robotics and Automation Program or instructor permission

## ELT $932 \quad 300012 \quad$ VOC/TECH INTERNSHIP

A semi-structured experience in the student's chosen field working as an intern with a sponsoring organization. The student has the opportunity to network with professionals and employees in his/ her field. The student will write a resume suitable for employment applications.
Prerequisite: Earn grades of "C" or higher in courses pertaining to the student's chosen internship area. The courses pertaining to the internship areas are as follows: ELT 474; ELT 475 or 470; ELT 471 or 484; ELT 485.

## EMS 10510200 VOC/TECH

 IA LAW ENFORCEMENT EMERG CAREDesigned to help lowa Law Enforcement personnel gain the knowledge, skills and attitudes necessary to be a competent, productive and valuable member of the Emergency Medical Services team.

## EMS 112 <br> 32200 <br> VOC/TECH

 FIRST RESPONDERA 60-hour emergency care course that emphasizes life-threatening emergencies, wounds, fractures, medical and environmental emergencies and other emergency situations as outlined by the U.S. Department of Transportation.

## EMS 21064400 VOC/TECH EMERGENCY MEDICAL TECH BASIC

Prepares rescue personnel for the role and responsibilities of an EMT-B. Includes specific patient assessment and emergency treatment procedures. Students should be 18 years of age prior to course completion. State Health
Department Certification Exam after successful course completion.

## EMS 31142430 VOC/TECH EMT INTERMEDIATE 85

An advanced EMT training program developed by the Iowa Department of Public Health, Bureau of EMS, that covers techniques of emergency medical care within the scope of responsibilities of the lowa EMT Intermediate.

Prerequisite: Current certification by State of lowa as EMT Basic, high school diploma or GED, and evidence of successful completion of recognized healthcare provider CPR

## EMS 42964400 VOC/TECH EMT IOWA PARAMEDIC I

An advanced care EMT training program developed by U.S. Department of Transportation and approved by the Iowa Department of Public Health. Course covers techniques and emergency medical care within the scope of responsibilities of the lowa EMT Paramedic.

Prerequisite: Current certification by State of Iowa as EMT Basic or EMT Intermediate. High school diploma or GED. Evidence of successful completion of BCLS Healthcare Provider CPR

## EMS $433 \quad 75400$ VOC/TECH EMT IOWA PARAMEDIC II

Continuation of EMT Iowa Paramedic I with emphasis on respiratory emergencies, diabetic and allergic reactions, poisonings, environmental, OB/GYN, neonatal and pediatric emergencies.
Prerequisite: Successful completion of EMS 429 and current certification by State of Iowa as EMT Basic or EMT Intermediate. Current CPR Healthcare Provider course completion

## EMS $438 \quad 600018$ VOC/TECH EMT IOWA PARAMEDIC III

Clinical and field experiences that emphasize skills, knowledge and theory acquired in EMS 429 and EMS 433.

Prerequisite: Successful completion of EMS 433 and current certification by State of Iowa as EMT Basic or EMT Intermediate. Current CPR Healthcare Provider course completion

## COURSE DESCRIPTIONS

EMS $440 \quad 65200$ VOC/TECH ROLE OF THE PARAMEDIC<br>This course covers Module I of the DOT National Standard Curriculum for EMT Paramedics and prepares students for their role and responsibilities. The lab component includes review of EMT-Basic skills using skills checklists.<br>Prerequisite: Admission to the Paramedic Specialist program.

## EMS 44165200 VOC/TECH MEDICAL/ETHICAL/LEGAL ISSUES

This course covers Module I of the DOT National Standard Curriculum for EMT Paramedics and prepares students for their roles and responsibilities. Areas of medical, legal and ethical issues are covered, as well as promotion of injury prevention and how it pertains to the paramedic. The lab component includes review of the EMT-Basic skills using skills checklists.
Prerequisite: EMS 440

## EMS 44264230 VOC/TECH PRINCIPLES OF PATHOPHYSIOLOGY

The course covers Module II of the DOT National Standard Curriculum for EMT Paramedics and prepares students for their roles and responsibilities. General principles of pathophysiology, medication administration and emergency pharmacology will be provided in a classroom setting. Advanced airway management provides for physical assessment, field assessment, clinical decisionmaking, documentation and the assessment and management of respiratory emergencies.
Prerequisite: EMS 441

## EMS $443 \quad 64230$ VOC/TECH

 PATIENT ASSESSMENTThis course covers Module III of the DOT National Standard Curriculum for EMT Paramedics. This course includes history taking, techniques of physical examination, patient assessment and clinical decisionmaking. Students will learn to follow an accepted format for dissemination of patient information in verbal form, either in person or over the radio. Documentation of the essential elements of patient assessment, care and transport are covered. The lab component includes skills in history taking, techniques of physical examination, patient assessment, clinical decision-making and communication.
Prerequisite: EMS 442
EMS 44464230 VOC/TECH TRAUMA
This course covers Module IV of the DOT National Standard Curriculum for EMT Paramedics. Students will predict the likelihood of injuries to the trauma patient based on mechanism of injury. Skills and management of soft tissue and burn injuries, as well as head, neck, chest and abdominal injuries are included. The lab component includes assessment and management of the patient with shock and hemorrhage, spinal cord and musculoskeletal injury using the paramedic skills checklist.

## EMS 44564230 VOC/TECH MEDICAL EMERGENCIES

This course covers Module IV of the DOT National Standard Curriculum for EMT Paramedics. Content includes the skills and knowledge necessary to assess and manage medical emergencies specifically for pulmonary, cardiac and neurological emergencies. This course includes techniques of physical examination on the medical patient, patient assessment and clinical decision-making. Documentation of the essential elements of patient assessment for the medical patient, care and transport is covered. The lab component includes skills in history taking, techniques of physical examination, patient assessment, clinical decisionmaking and communication.
Prerequisite: EMS 444

## EMS $446 \quad 620120$ VOC/TECH SPECIAL CONSIDERATIONS <br> This course covers Modules V and VI of the DOT

 National Standard Curriculum for EMT Paramedics. Assessment and management of specific age groups including neonatal, pediatric and gerontologic patient are identified. Chronically ill patients, those who have been victims of abuse and culturally diverse patients are addressed. The practicum component will be the assessment and management of special situations, including resuscitation of infants and children. Students will assume the role of team leader while managing common medical emergencies. Paramedic skills checklists will be used to assist in completion of the course.Prerequisite: EMS 445

## EMS 447 VOC/TECH <br> <br> OPERATIONS

 <br> <br> OPERATIONS}This course covers Modules VII and VIII of the DOT National Standard Curriculum for EMT Paramedics. Guidelines for safe medical transport, general incident management, rescue and crime scene management will be covered. The practicum component will include the principles of triage, rescue operations and hazardous materials incidents. Paramedic skills checklists will be used to assist in completion of the course.

## Prerequisite: EMS 446.

## ENG 06033000 COLL PREP COLLEGE PREPARATORY WRITING I

Introduces students to writing at the basic sentence and paragraph levels including grammar, punctuation, spelling and editing techniques. Students then compose 3-4 essays. Preparation for ENG 061 and 105.

## ENG 06133000 COLL PREP

 COLLEGE PREPARATORY WRITING II Prepares students for college-level writing while reviewing sentence and paragraph patterns, mechanics and essay development. Explores writing purposes, audience and editing based on assignment criteria. Students write 4-6 essays. For students who have taken ENG 060 or met course's objectives. Preparation for ENG 105.
## ENG 10433000 GENERAL RESOURCES FOR COMPOSITION

This course provides a college-credit composition environment that stresses the resources and reinforces the skills necessary for negotiating college writing.

## ENG $105 \quad 33000$ CORE COMPOSITION I

Designed to help students read and write effectively. Exploration of the relationship of audience to writer and material. Emphasis on developing concrete detail to support main ideas.
Prerequisite: Satisfactory writing skills

## ENG 106 <br> 33000 <br> CORE

COMPOSITION II
Expository and persuasive writing developed through critical reading. The course explores structure, style, research and documentation. Prerequisite: ENG 105
ENG $108 \quad 3 \mathbf{3 0 0 0}$ CORE
COMP II: TECHNICAL WRITING
A study of technical/business communication
with emphasis on writing in the workplace. Course
material includes written and oral communication to
a variety of audiences in different situations. There
will be special focus on individual career goals.
Prerequisite: ENG 105

Prerequisite: ENG 105
ENG 2213000 GENERAL CREATIVE WRITING
An introduction to the techniques of writing poetry and fiction. Students will read the works of professional writers and apply the principles of imaginative writing to their own work.

## ENG 22533000 GENERAL CREATIVE WRITING: POETRY

A course devoted to the advanced study and writing of poetry, emphasizing the development of poetic techniques and an expanded understanding of contemporary poets and their work.

## ENG 230 <br> 33000 CREATIVE WRITING: FICTION

GENERAL
A course devoted to the advanced study and writing of fiction, emphasizing the development of narrative techniques and an expanded understanding of contemporary fiction writers and their work.

## ENG 23533000 GENERAL

## PLAYWRITING AND SCREENWRITING

A course devoted to the advanced study and writing of stage-worthy plays and/or marketable screen plays emphasizing appropriate techniques to each dramatic form and expanded understanding of contemporary practitioners.

## COURSE DESCRIPTIONS

#### Abstract

ENV 103 SUSTAINABLE LIVING This class provides an up-close-and-personal look at the sustainability movement. Develop an understanding of the environment you live in. Learn more about the role you can play in creating a sustainable lifestyle for yourself and your family at home, work and school.

$\begin{array}{ll}\text { ENV } 115 & 33000 \\ \text { ENVIRONMENTAL SCIENCE }\end{array}$
CORE
This course combines the basic principles of ecology with current environmental issues. Includes energy, land use, pesticides and pollution. Wildlife, fisheries, forestry, soil and water conservation practices are emphasized. Designed for the non-science major.

## ENV $116 \quad 10200$ ENVIRONMENTAL SCIENCE LAB

This lab supplements discussion in ENV 115 Environmental Science. Lab includes laboratory and field work related to environmental science. Emphasis is placed on scientific methodology and investigation.

Prerequisite: Enrollment in or prior completion of ENV 115 or equivalent

## ENV 14543200 CORE CONSERVATION BIOLOGY

This course presents a broad overview of the patterns and processes influencing biodiversity on multiple scales, as well as practical approaches to resource management. We will examine issues causing loss of biodiversity, reserve design and management, ecological and population monitoring techniques and conservation approaches on varying levels.
Prerequisite: ENV 115, ENV 116

## ENV $160 \quad 32200$ GENERAL

 RESTORING PLANT COMMUNITIESIntroduction to restoration of native plant communities in Iowa. Identification of common native prairie, savanna, forest and wetland communities, common plants and animals. Identification of invasive plants. Field techniques for reestablishment and maintenance of native plant communities. Supervised field work at actual restoration sites.

Prerequisite: ENV 115, 116, 138 or instructor permission

## ESL 0932200 COLL PREP HIGH INTER ESL LISTENING/CONV

For intermediate-level students to improve the accuracy of their pronunciation and to develop the listening and speaking skills needed to communicate in diverse settings. Classroom activities are supplemented by individualized listening and pronunciation exercises. College preparatory courses cannot be used to fulfill degree requirements.

ESL 09432000 COLL PREP ADV ESL LISTEN/CONVERS SKILLS
For advanced students to develop fluency in English and to improve the listening and conversation skills needed for careers and academic study. Classroom activities are supplemented by individualized listening and pronunciation exercises.

## ESL 095 <br> 32200 <br> COLL PREP

 COMMUNICATIVE GRAMMAR FOR ESLThis course provides nonnative speakers of English with intensive practice in advanced English grammar while promoting the development of communicative skills. Areas of instruction include tenses, passive voice, reported speech, conditions, etc. This course cannot be used to fulfill degree requirements.
Prerequisite: Minimum scores on the TOEFL or Michigan Test

## ESL 0963200 COLL PREP READ ENGLISH AS A 2ND LANGUAGE

This course is designed for nonactive speakers of English. Reading comprehension skills are developed through vocabulary work, guided reading activities and discussion. Reading material is intellectually stimulating but not beyond the student's level of comprehension. Cannot be used to fulfill degree requirements.
Prerequisite: Minimum scores on the TOEFL or Michigan Test

## ESL 09733000 COLL PREP INTRO TO WRITING SKILLS-ESL

An introduction to the mechanics of word order and sentence patterns of English. Writing skills are designed to meet the needs of ESL students preparing to take Basic Writing.

## ESL 10344000 GENERAL ADVANCED ACADEMIC ESL GRAMMAR

This is an advanced-level academic English grammar course for students whose first language is not English. This course emphasizes the usage of systematic functional grammar through the practice of studying complex grammatical structures as used in authentic academic settings integrated with writing skills. This course addresses the linguistic and instructional needs of nonnative English speaking students. It may be taken concurrently with carefully selected college courses.

Prerequisite: 84 or above on ESL Test in COMPASSGrammar Usage

## ESL 104 <br> 33000 GENERAL ADVANCED ACADEMIC ESL WRITING

This course develops academic writing skills for students whose first language is not English. The course emphasizes familiarizing students with writing academic essays in the traditional modes: observing, describing, informing, explaining process and/or classifying, and explaining cause(s) and/or effect(s). This course addresses the linguistic and instructional needs of nonnative English-speaking students. It focuses on sentence expansion and modification, the writing process and developing research skills. It may be taken concurrently with carefully selected college courses.

Prerequisite: 84 or above on ESL Test in COMPASSGrammar Usage

ESL $160 \quad 33000$ GENERAL

## ESL MULTICULTURAL LITERATURE

This course addresses academic needs of advanced nonnative English language students by exposing them to engaging traditional and multicultural literary works to further immerse them in a scholarly environment. Through appreciation and interpretation of a culturally diverse range of fiction, poetry and drama, students relate their immigrant experiences to the literary world while working at an advanced level of academic English.
Prerequisite: 84 or above on Reading ESL COMPASS test

## FIN 10133000 OPEN PRINCIPLES OF BANKING

This course surveys the banking functions. It provides a comprehensive introduction to the diversified services offered by the banking industry today.

## FIN 121 <br> 33000 <br> OPEN PERSONAL FINANCE

This course emphasizes family financial planning including financial statements, budgeting, taxes, risk management and retirement.

## FIN 180 OPEN INTRODUCTION TO INVESTMENTS

Provides basic information to familiarize students with various investments including securities, options, commodities, tax shelters and other investment alternatives. Topics include analyzing investment opportunities, review of risks and returns, averages and indexes and analyzing securities.

## FIN 214 <br> 11000 <br> OPEN <br> STOCKS, BONDS AND INVESTMENTS

This course explores personal investment in financial assets. Investing in stocks, bonds and mutual funds is the focus of investigation. Concepts, techniques and strategies related to realizing financial goals with these types of assets are considered.

## FIR 12433000 OPEN BUILDING CONSTRUCTION <br> Study of building materials, components and design features with regard to their reactions under fire conditions. Course also includes interpretation of Life Safety Code and its application to proposed and existing structures.

Prerequisite: FIR 230

## FIR $138 \quad 33000$ OPEN PRINCIPLES OF FIRE PREVENTION

This course is a survey of the principles of fire prevention. Students will learn to interpret and apply complex fire prevention regulations. Course covers traditional regulatory aspects and functions associated with fire prevention, the fire code process, plan review, inspections and fire protection systems testing. The investigation process from the fire scene to the courtroom and state and federal agencies involved in fire investigation is also covered. Other topics are the importance of fire prevention records and recordkeeping, personnel and financial management.
Prerequisite: FIR 230, 152, 220

## COURSE DESCRIPTIONS

FIR $152 \quad 33000$ OPEN FIRE PROTECTION SYSTEMS
An examination of devices and systems installed and utilized to support the fire service in the detection and suppression of fire.
Prerequisite: FIR 230
FIR 1823000 OPEN HAZARDOUS MATERIALS
This course concentrates on principles of response planning for incidents involving the manufacture, transportation, storage and use of hazardous materials with the objective of minimizing harm to people, property and the environment.
Prerequisite: CHM 122 and FIR 230

## FIR 20033000

 OCCU S/H IN EMERGENCY SERVICESThe firefighting profession is one of the most dangerous endeavors undertaken in the name of public service. The goal of this course is to enable firefighters to perform assigned tasks in a safe and effective manner through an understanding of key Occupational Safety and Health Administration (OSHA) regulations and National Fire Protection Association (NFPA) standards.

## FIR 2123000 OPEN EMERGENCY SCENE MANAGEMENT

Covers emergencies and incident command systems to maintain control in emergencies of fire suppression, mass casualty and hazardous materials. Information, logistics, press, finance and other areas are addressed in incident command system.

## FIR 2203000 OPEN

PLANNING FOR FIRE PROTECTION
This course is designed to help develop strategic plans for fire protection of an area, community, multiple building complex and single building. Through the use of data collection systems and other management tools, the student will be able to identify and analyze fire problems and develop alternative solutions.

FIR 2303000 OPEN FIRE BEHAVIOR \& INVESTIGATION
Course covers the behavior of fire in confined structures and the methods used to determine point of origin, cause and travel of fire within a structure.

FIR 2323000 OPEN PROPERTY INSURANCE-FRAUD INVES
Covers principles of property insurance and investigation of incendiary fires with an emphasis on the investigation of insurance fraud fires.

## FIR $290 \quad 400016$

 FIRE FIGHTER I CERTIFICATIONThis course is a survey of the basic principles of firefighting as they relate to fire fighter professional qualifications. Especially emphasized are the basic skills needed to become accredited as a Fire Fighter I based on the National Fire Protection Association Standard NFPA 1001. Certification requires successful completion of approximately 120 contact hours of Fire Fighter I training, a written exam, a practical (skills performance) exam and local documentation, all certified by a nationally recognized fire service accreditation agency.

## FIR 291 OPEN FIRE FIGHTER II CERTIFICATION

This course is a survey of the basic principles of firefighting as they relate to fire fighter professional qualifications. Especially emphasized are the basic skills needed to become accredited as a Fire Fighter Il based on the National Fire Protection Association Standard NFPA 1001. Certification requires successful completion of approximately 86 contact hours of Fire Fighter II training, a written exam, a practical (skills performance) exam and local documentation, all certified by a nationally recognized fire service accreditation agency. Prerequisite: FIR 290

## FLA 1414000

 ELEMENTARY ARABIC IThis course is an introduction to learning the Arabic language, with emphasis on acquiring basic skills in reading, writing and conversational communications. Thus, recognizing the Arabic alphabet will be strongly dealt with during the class as a basis for future Arabic classes.

## FLA 14244000 <br> ELEMENTARY ARABIC II

Continue to acquire an elementary level of Arabic language skills of reading, writing, grammar and conversational communications. Reading and conversation will be emphasized.
Prerequisite: FLA 141 or permission of instructor

## FLA 241 <br> 44000 <br> INTERMEDIATE ARABIC I

CORE
Continue to acquire a higher level of Arabic language skills of reading, writing, grammar and conversational communications. Writing, grammar and conversation will be emphasized.
Prerequisite: FLA 142 or permission of instructor

[^4]
## FLC 14144000 <br> CORE ELEMENTARY CHINESE I

Development of the basic skills of understanding, speaking, reading and writing Chinese. Grammar analysis, classroom conversational practice and some exploration of the Chinese culture.
FLC $142 \quad$ 44000 CORE
ELEMENTARY CHINESE II
Continued practice of the four basic skills and
grammar analysis. Introduction of short prose
selections with conversational emphasis.
Prerequisite: FLCl41 or instructor permission

## FLC 24144000 CORE INTERMEDIATE CHINESE I

Review of essential grammatical construction emphasizing major areas of difficulty for English speakers. Use of Chinese cultural and literary materials to develop conversational skills.

Prerequisite: FLC142 or instructor permission

## FLC 24244000 CORE

 INTERMEDIATE CHINESE IIContinued review of grammatical constructions using Chinese cultural materials. Reading, writing and conversation will be emphasized in the context of cultural issues and current events.
Prerequisite: FLC241 or instructor permission

## FLF 15155000 CORE

 ELEMENTARY FRENCH IAn introduction to the basic skills in understanding, speaking, reading and writing French. Grammar analysis, classroom conversational practice and some exploration of French culture.
FLF $152 \quad$ 5 5000 CORE
ELEMENTARY FRENCH II
Continued practice of the four basic skills and
grammar analysis. Introduction of short prose
selections with conversational emphasis.
Prerequisite: FLF 151 or instructor permission
FLF 24144000 CORE INTERMEDIATE FRENCH I
Review of essential grammatical constructions emphasizing major areas of difficulty for English speakers. Use of cultural and literary materials to develop conversational skills.
Prerequisite: FLF152 or permission of instructor
FLF 242 COROO
INTERMEDIATE FRENCH II
Continued review of grammatical constructions
using cultural materials. Reading, writing and
conversation will be emphasized in the context of
cultural issues and current events.
Prerequisite: FLF 242 or permission of instructor

## COURSE DESCRIPTIONS

FLG 14244000 CORE

## ELEMENTARY GERMAN II

Continued practice of the four basic skills and grammar analysis. Introduction of short prose selections with conversational emphasis.
Prerequisite: FLG 141 or instructor permission
FLG 24144000 CORE

## INTERMEDIATE GERMAN I

Review of essential grammatical constructions emphasizing major areas of difficulty for English speakers. Use of German cultural and literary materials to develop conversational skills.
Prerequisite: FLG 142 or instructor permission
FLG 24244000 CORE INTERMEDIATE GERMAN II
Continued review of grammatical constructions using German cultural materials. Reading, writing and conversation will be emphasized in the context of cultural issues and current permission.
Prerequisite: FLG 241 or instructor permission

## FLI 14144000 CORE

## ELEMENTARY ITALIAN I

Development of the basic skills of understanding, speaking, reading and writing Italian. Grammar analysis, classroom conversational practice and some exploration of the Italian culture.

## FLI 14244000 CORE

 ELEMENTARY ITALIAN IIContinued practice of the four basic skills and grammar analysis. Introduction of short prose selections with conversational emphasis.
Prerequisite: FLI 141 or instructor permission

## FLI 24144000 <br> INTERMEDIATE ITALIAN I

Review of essential grammatical constructions emphasizing major area of difficulty for English speakers. Use of Italian cultural and literary materials to develop conversational skills.
Prerequisite: FLI 142 or instructor permission
FLI 2424400 CORE

## INTERMEDIATE ITALIAN II

Continued review of grammatical constructions using Italian cultural materials. Reading, writing and conversation will be emphasized in the context of cultural issues and current events.
Prerequisite: FLI 241 or instructor permission
FLJ 14144000 CORE ELEMENTARY JAPANESE I
Development of the basic skills of understanding, speaking, reading and writing Japanese. Grammar analysis, classroom conversational practice and some exploration of the Japanese culture.

## FLJ 142 <br> 44000

ELEMENTARY JAPANESE II
Continued practice of the four basic skills and grammar analysis. Introduction of short prose selections with conversational emphasis.
Prerequisite: FLJ 141 or instructor permission

## FLJ 24144000 CORE

 INTERMEDIATE JAPANESE IReview of essential grammatical constructions emphasizing major areas of difficulty for English speakers. Use of Japanese cultural and literary materials to develop conversational skills.

Prerequisite: FLJ 142 or instructor permission

## FLJ 24244000 CORE INTERMEDIATE JAPANESE II

Continued review of grammatical constructions using Japanese cultural materials. Reading, writing and conversation will be emphasized in the context of cultural issues and current events.

Prerequisite: FLJ 241 or instructor permission

## FLS $151 \quad 55000$ <br> \section*{ELEMENTARY SPANISH I}

This course addresses the skills of listening, speaking, reading and writing. The language is based on themes of everyday life. Speech will be modeled by instructors who will monitor and correct for pronunciation and accent. Students will be asked to engage in simple conversations on a controlled basis using the themes presented in the curriculum. Much class time is spent practicing speech. Students will also be expected to use software available with texts to hone listening and speaking skills.

## FLS 15255000 CORE

## ELEMENTARY SPANISH II

Emphasis is on the understanding and production of oral and written Spanish presented in culturally appropriate settings. The language learned is based on themes of everyday life. Students will be asked to engage in more complex conversations using the themes presented in the curriculum. Speech will be monitored for pronunciation and accent and much class time is devoted to practicing speech.
Students will also be expected to use the software accompanying the text to hone listening and speaking skills.
Prerequisite: FLS 151 or instructor permission

## FLS 181 CORE

 SPANISH FOR HERITAGE SPKRS IThis course is designed to address the needs of Hispanic/Latino students who can communicate in Spanish but need to develop their reading, writing and speaking skills in a more accelerated environment than a traditional Spanish course. It will provide students the grammatical tools they need to write effectively with respect to register of language. Students become more familiar with accentuation rules and develop improved spelling skills through grammar drills and directed composition.

Prerequisite: Instructor permission

## FLS 24144000 <br> CORE INTERMEDIATE SPANISH I

Review of essential grammatical constructions emphasizing major areas of difficulty for English speakers. Use of Hispanic cultural and literary materials to develop conversational skills.
Prerequisite: FLS 152 or instructor's permission

## FLS 242 <br> 44000 <br> CORE

 INTERMEDIATE SPANISH IIHaving studied most of the grammar in previous courses, time will be spent reviewing the more difficult and troublesome concepts including a continuation of the study of the subjunctive mood. Comprehensible input now includes more extensive readings in Spanish literature, newspapers, web sites or other print as well as visual media. While serving to increase vocabulary and knowledge of grammar, they also serve as a source of cultural information.
Prerequisite: FLS 241 or instructor's permission.

## FLS 28144000 CORE

 SPANISH FOR HERITAGE SPKRS IIThis course is the continuation of FLS 181 and is intended for students who can communicate in Spanish, but need to further develop reading, writing, and speaking skills in a more accelerated environment than a traditional Spanish course. It provides further practice of writing and speaking with respect to language register. This course further develops the Spanish speaker's skills in intermediate reading and writing through a series of more extensive readings, grammar drills, and directed compositions and continues study of more formal Spanish.

Prerequisite: FLS 181 or FLS 152 or permission of instructor
GEO 11133000 CORE INTRO TO GEOGRAPHY
This course utilizes the basic concepts of cultural geography (area, landscape, ecology, diffusion and integration) in a systematic examination of the contemporary world. The course is intended to provide an elementary acquaintance with the field of geography.
GEO 124 CORE
REG GEOG OF THE NONWEST WORLD
This course systematically surveys the peoples,
cultures, resources and problems of the cultural
realms commonly designated as the Third World
(Latin America, Black Africa, the Islamic World, India
and China).

## GEO 1253000 CORE

 REGIONAL GEOG OF THE DEV WORLDThis course systematically surveys the peoples, cultures, resources and problems of the cultural realms commonly designated as the Developed World (Anglo-America, Europe, Russia, Japan and Australia).

## COURSE DESCRIPTIONS

## GLS 1992000 <br> GENERAL JAPAN: THE CHANGING TRADITION

Focuses on history and changing cultural traditions of Japan's modern era and the brief period during which Japan has developed its own distinctive urbanized, industrialized and democratic society.

GLS $200 \quad 33000$ GENERAL COUNTRY STUDY
Course is a single and specific study of a selected country, its culture and people in respect to historical, geographic economic, political and societal development. The country study course offering is dependent upon instructor selection and student interest. This course may be repeated for a maximum of 6 credits provided that each study is of a different country.

GLS 2203000 GENERAL THE MIDDLE EAST AND ISLAM
This course surveys the civilization of the Middle East from Muhammad and Islam to the Islamic caliphate and civilization, Ottomans, modernism, Western empires, Arab-Israeli conflict, contemporary Islamic revival, instability and terrorism, Muslim diaspora and the strategic importance of the Middle East to the United States and world economy.

GLS $230 \quad 33000$ GENERAL
LATIN AMERICA
This course examines the varied history, diverse peoples and cultures of Latin America and the Caribbean beginning with the geography, preColumbian peoples, the European intrusion, colonial societies, independence, modernization, American influence, economic, political, cultural and social developments in the recent past and the present.

GLS 23533000 GENERAL INTRO TO INTERNATIONAL STUDIES
This course provides an introduction to international issues and globalization from the perspective of different continents and countries. The course will cover basic historical, geographical, political, cultural, economic, health, human rights, gender and ethnic communities around the world.

## GRD 301 VOC/TECH INTRO TO DESKTOP PUBLISHING

Find out for yourself if the Mac does what a PC does, only better! This course uses the world's most advanced operating system to introduce you to a suite of graphic design industry standard software. Learn basic digital illustration, imaging and page layout techniques in a state-of-the-art Macintosh computer lab.

Prerequisite: ADM 105 or equivalent

## GRD 401 <br> 32200 <br> VOC/TECH

## GRAPHIC DESIGN ORIENTATION

Immerse yourself in the dynamic digital design environment. Discover employment options and trends. Examine the work ethic and foundation skills of today's graphic design professionals including print, web and color management. File formats, Mac OS X, Windows OS, file servers, networking, crossplatform issues, font management and presentation skills are some of the hot topics covered.
Prerequisite: Acceptance into the Graphic Design program
GRD $403 \quad \mathbf{3 2 2 0 0} \quad$ VOC/TECH
COMMUNICATION DESIGN I
Learn fundamental design elements and principles.
Explore how to ignite your creative spark! Study
color theory and learn how to follow the design
process to visually communicate an idea or message
to a target audience.

## GRD 40432200 VOC/TECH

## TYPOGRAPHY II

Advanced exploration in the application and theory of typographic principles. Students strengthen skills in systems, typographically expressive layouts and using typographic relationships by creating dynamic grid hierarchy to organize information. Students will be expected to conceptualize and execute a variety of typographic solutions across media platforms.
Prerequisite: GRD 405

## GRD 40532200

TYPOGRAPHY I
This course explores the history, structure and fundamental principles of typography as it relates to graphic design. Topics include: typeface identification, study of typeface design, designing with type and typographic grid systems. Students build skills with the basic elements of typography.
Prerequisite: GRD 415, GRD 459

## GRD 410 <br> 32200 <br> VOC/TECH ILLUSTRATION I

Expand and refine your creative drawing skills using traditional materials and the leading digital painting software, Corel Painter. Digital painting allows you to experiment with the creative possibilities of a wide range of art tools-felt pens, ink, charcoal, chalk, airbrush, watercolors, acrylics and oils-quickly and affordably. The skills learned will apply to a wide range of graphic design applications as you use industry-relevant media, techniques and software.
GRD $411 \quad 32200 \quad$ VOC/TECH
COMMUNICATION DESIGN II
Use fundamental principles and elements learned
in Communication Design I as a guide to make
effective design decisions. Learn how to combine
images, color and type to create high-impact
layouts. This course encourages creative thinking
and problem-solving.
Prerequisite: GRD 403

GRD $414 \quad 32200$ VOC/TECH

## ILLUSTRATION II

Unleash your creativity with a complete digital art studio-Corel Painter software and a pressuresensitive graphics tablet. Unlimited undo's allow you to experiment quickly and affordably with the creative possibilities made possible by a wide range of art tools-felt pens, ink, charcoal, chalk, airbrush, watercolors, acrylics and oils. The skills learned will apply to a wide range of graphic design and fine art applications as you use industry-relevant media, techniques and software.

Prerequisite: GRD 410 or permission of instructor

## GRD 415 <br> 32200 <br> VOC/TECH INDESIGN I

This course combines basic desktop publishing skills with the specifics of how to use Adobe InDesign to create visual communications. You will learn page layout tools as you are introduced to the software interface. This course teaches fundamental skills, basic commands and procedures used to create professional documents.

## GRD $419 \quad 20400 \quad$ VOC/TECH

 LETTERING AND SIGN ARTThe study of traditional letter forms, typography, hand lettering skills and design principles for the production of posters, signs, logos and other graphic images.

## GRD $421 \quad 33000 \quad$ VOC/TECH INTERNSHIP PREPARATION

Are you the best candidate for the job? Learn how to prepare for a successful interview that will land you the graphic design internship job you want. Plan an effective job search strategy by developing the materials needed such as a resume, cover letter and portfolio. This course will identify real-world workplace behavior and expectations.

GRD $424 \quad 31008 \quad$ VOC/TECH GRAPHIC DESIGN INTERNSHIP
Internship is an opportunity to work in a Graphic Design environment under the guidance of a design professional. In this course, you'll work toward securing an internship that will provide you with the experiences you need to succeed in your career. Students must earn a "C" or better on the evaluation of their portfolio. The portfolio evaluation will be a part of the Graphic Design Internship course grade. Prerequisite: GRD 421
GRD 4263200 VOC/TECH COMMUNICATION DESIGN III
Combine creativity with critical thinking skills to design expressive, compelling and thoughtprovoking graphic design solutions. Analyze creative briefs and learn to collaborate with others to solve visual communication design challenges.

Prerequisite: GRD 411

## COURSE DESCRIPTIONS

## GRD 430 INDESIGN II

Adobe InDesign is the page layout application of choice for many designers. It contains a host of advanced layout features not found in any other application. Now you can centralize your workflow by integrating seamlessly with the other Adobe applications. In this course you will learn about advanced application features necessary to the design professional.
Prerequisite: GRD 415

## GRD 437 VOC/TECH COMMUNICATION DESIGN IV

Blend creativity and technology with advanced level problem-solving and research strategies to create effective multichannel design solutions.
Prerequisite: GRD 426, GRD 430, GRD 471
GRD 44942400 VOC/TECH AIRBRUSH I
The fundamental principles of airbrush techniques and application to advertising design and use of airbrush as an illustrative tool.

GRD 45142400 VOC/TECH AIRBRUSH II
Advanced course in airbrush techniques as necessary for portfolio samples. Emphasis in utilization of advanced skills learned in Airbrush I. Prerequisite: GRD449

## GRD $459 \quad 32200$ VOC/TECH ILLUSTRATOR

Explore Adobe Illustrator's extensive toolbox and menu commands in a state-of-the-art Macintosh computer lab. Experiment with explosive color while discovering a variety of techniques using Illustrator's powerful drawing tools.

## GRD 46231400 VOC/TECH

 COMPUTER GRAPHICS IIStudents will learn the tools and workflow necessary to create a website from the initial visual design and user interface to going "live" on the web. Students will use industry-standard software to create web pages, optimize images and generate HTML and JavaScript. This course includes instruction and practice creating media-rich animation and web pages with Macromedia Flash.
Prerequisite: Permission of instructor

## GRD $463 \quad 32200$ VOC/TECH PHOTOSHOP

Adobe Photoshop is the ultimate playground for bringing out the best in your digital images and transforming them into anything you can imagine. Gain a solid foundation of basic functions to create and enhance visually dynamic images in a state-of-the-art Macintosh computer lab.

## GRD 464 <br> 32200 <br> VOC/TECH

 DIGITAL ARTISTRYLearn the hottest tips, tricks and techniques to create eye-catching digital illustrations by combining the best of Adobe Photoshop and Adobe Illustrator. Use advanced-level methods to create stellar artwork that will leave others saying "WOW!"

Prerequisite: GRD 459, GRD 463

## GRD 470 <br> 32200 <br> VOC/TECH

 INTERACTIVE MEDIA ILearn a professional workflow using Fireworks, Flash and Dreamweaver to create a website from the initial visual design to going "live" on the web. Going beyond just teaching software, this course focuses on the workflow and the skills needed in each software package to get your site actually up and running on the web

Prerequisite: GRD 463 or instructor permission

## GRD 47132200 VOC/TECH

## INTERACTIVE MEDIA II

This hands-on course teaches how the pros plan, design and produce complete websites using professional web authoring and site management software. Learn to use database-driven Open Source Content Management Systems such as WordPress and Joomla as well as Dreamweaver, Fireworks and Flash.

Prerequisite: GRD 470

## GRT $400 \quad 42400$ VOC/TECH INTRO TO PRINTING METHODS

A prerequisite for all graphic technology courses as an introduction to printing technology. Course will involve lecture and hands-on lab work in areas of lithography, screen printing and flexography. Bindery and finishing methods will also be covered.

## GRT $401 \quad 33000 \quad$ VOC/TECH

 INTRO TO GRAPHIC COMMUNICATIONA prerequisite for all graphic technology courses. Students will explore the graphic communications industry, technology, terminology and related areas through instructor lecture and student activities.

## GRT 40320400 VOC/TECH

 PRODUCTION METHODSIn this continuation of Introduction to Printing Methods, students will learn production methods of multicolor, multipanel products for screen, offset and digital printing.

## GRT 40422000 VOC/TECH

 INTRO TO VISUAL COMMUNICATIONSImmerse yourself in the dynamic Visual Communications industry. Students will explore various industry fields and career opportunities, orient themselves with the Macintosh computer and Adobe applications environments, learn the basics of color as it applies to graphics projects and gain knowledge in legal issues specific to the visual communications industry.

## GRT $40933000 \quad$ VOC/TECH

 PROJECT PLANNING \& MANAGEMENTA planning and management course specifically for print communications. Cost estimating, ordering, inventory, quality control, job scheduling and management will be covered
Prerequisite: GRT 400, GRT 403 or instructor approval

## GRT 41042400 VOC/TECH

 PRINTING METHODS IA continuation of Introduction to Printing Methods, students will produce various products using screen, flexography and offset printing. This course will focus on production techniques of multicolor, multipanel products.

Prerequisite: GRT 400, 401

## GRT 41542400 VOC/TECH

 DIGITAL IMAGING IStudents will learn digital image capture including use of a professional-grade digital camera. Students will then use Adobe Photoshop to adjust and prepare images for professional print production and other media. Throughout this course, students will learn the principles of digital imaging, including image adjustment tools, color science and color management.
Prerequisite: GRT 406

## GRT $420 \quad 42400$ VOC/TECH ADVANCED PRINTING METHODS

A specialization course in offset lithography. The student will do advanced work in multicolor printing. This class will also cover all bindery operation including folding, cutting and stitching.
Prerequisites: GRT 400, GRT 403

## GRT 424 <br> 42400 <br> VOC/TECH

 DIGITAL IMAGING IIThis course is an advanced digital imaging course for students pursuing a digital publishing emphasis in the Graphic Technologies program or the Digital Publishing certificate. Students will work primarily in Adobe Photoshop to develop advanced digital imaging skills for print and web. Color management and digital image correction will be emphasized.

## Prerequisite: GRD 463

GRT $426 \quad 42400 \quad$ VOC/TECH DIGITAL PUBLISHING III
This course is an advanced desktop publishing course for students pursuing a digital publishing emphasis in the Graphic Technologies program or the Digital Publishing certificate. Students will work primarily in Adobe InDesign to develop advanced skills in layout, text formatting and digital production for print and web.
Prerequisite: GRD 415, GRD 430

## GRT 42742400 VOC/TECH

 SPECIALTY PRINTING METHODSA course in specialty printing focusing on flexography and screen printing. The student will work in a lab environment to complete multiplecolor printed projects, advancing their skills in both printing technologies.

## COURSE DESCRIPTIONS

## GRT $430 \quad 32200$ VOC/TECH EMERGING TECHNOLOGIES

This course explores advanced and emerging technologies in the graphic communications industry. Students will be exposed to equipment and software applications that are new to the industry and learn new publishing techniques from hands-on projects. Topics include interactive projects, color management, PDF workflow, variable data publishing and multi-channel marketing.
Prerequisite: Completion of terms 1, 2 and 3 of the Graphic Technologies program or instructor approval

## GRT 45342400 VOC/TECH

 PRINTING METHODS CAPSTONEThis is the final course for students pursuing an emphasis in printing technologies in the Graphic Technologies AAS degree program. Students work collaboratively to produce a capstone project, utilizing their skills developed in previous courses. In conjunction, students enter completed projects in a statewide professional competition and prepare both hard-copy and digital portfolios.
Prerequisite: Completion of the Visual Communications diploma and Term 4 of the Graphic Technologies program.

## GRT 45542400 VOC/TECH

## DIGITAL PUBLISHING CAPSTONE

This is the final course for students pursuing an emphasis in digital publishing in the Graphic Technologies AAS degree program. Students work collaboratively to produce a capstone project, utilizing their skills developed in previous courses In conjunction, students enter completed projects in a statewide professional competition and prepare both hard-copy and digital portfolios.
Prerequisite: Completion of the Visual Communications diploma and Term 4 of the Graphic Technologies program.

## GRT $932 \quad$ 3-4 100 8-12 VOC/TECH INTERNSHIP <br> On-the-job training for Graphic Technologies students. Included is a weekly seminar for the exchange of information review and evaluation. <br> Prerequisite: Completion of the Visual <br> Communications diploma and Term 4 of the Graphic Technologies program

HCM 10022000 VOC/TECH SANITATION \& SAFETY
Principles and methods of sanitation safety and equipment. Equipment selection and facilities planning. Also includes preventive maintenance.

## HCM 10410200 VOC/TECH

## SANITATION \& EQUIPMENT LAB

The lab consists of sanitation practices. The student will carry out the practice of table service for international cuisine dinners and apply sanitation measures.
(P/F)

## HCM 110

 BAKING (LAB)This course offers instruction in the baking fundamentals and procedures as applied to bread, rolls, cakes, pastries and cake decorating. Practical experience in sanitation, safety and the use of large equipment is also emphasized in this course.

Prerequisite: HCM 143, 144 or instructor permission

## HCM 12420400 VOC/TECH

 ADV BAKING/BUFFET DECORATINGAdvanced principles and procedures of producing baked goods, decorative work and display pieces.

Prerequisite: HCM 110, 270

## HCM 1433000 <br> VOC/TECH

 FOOD PREPARATION IIntroduces the student to the scientific principles used in food preparation. Involves preparation procedures and techniques to be used with fruits, vegetables, starch products, cheese, eggs, meat, poultry and fish. Establishes criteria needed to produce a standard product
Corequisite: HCM 144

## HCM 144 VOC/TECH

 FOOD PREPARATION I LABPreparation of small servings of salads, starch, cheese, egg, meat, poultry and fish products using the techniques studied in lecture. Oral and written evaluation of each product.
Corequisite: HCM 143

## HCM 1522000 VOC/TECH FOOD PREPARATION II

The study of the principles and procedures of quantity food production as they apply to salads, soups, vegetables, entrees and desserts. Emphasis is on organization and recipe standardization.

Prerequisite: HCM 143, 144

## HCM 153 20400 VOC/TECH FOOD PREPARATION II LAB

The production of quick breads, desserts, salads, vegetables, soups and main entrees to be sold to the public. Time is spent on an individual recipe production project.
Prerequisite: HCM 143, 144

## HCM 167 VOC/TECH

 CULINARY SKILLS DEVELOPMENTStudents produce and serve meals for the public in an actual restaurant experience. Emphasis is on the various management functions required to serve quality foods efficiently and intermediate culinary preparation techniques.

Prerequisite: HCM 152, 153

## HCM 1682000 VOC/TECH ADVANCED CULINARY CUISINE <br> Discussion of the more intricate and difficult cooking principles and techniques of classical cuisine and planning for advanced culinary cuisine.

Prerequisite: HCM 167. Corequisite: HCM 169

## HCM 1690800 <br> VOC/TECH <br> CULINARY CUISINE LAB

Preparation of intricate and difficult classical cuisine dishes. Students will rotate through the cooking stations of the traditional brigade kitchen and then prepare food for service to the public. A la carte preparation is emphasized.

Prerequisite: HCM 167. Corequisite: HCM 168

## HCM 17230600 <br> VOC/TECH

## INTERNATIONAL CUISINE (LAB)

Application of gourmet cooking through actual quantity preparation of eight-course international dinners. Four evening gourmet dinners will be prepared and served during the semester.

Prerequisite: HCM 152, 153. Corequisite: HCM 173
HCM 1732000 VOC/TECH INTERNATIONAL CUISINE
Students research and plan international dinners. Emphasis is on menu and production planning for eight-course gourmet dinners. The lecture will also focus on the pronunciation and definition of French terms.

Prerequisite: HCM 152, 153. Corequisite: HCM 172
HCM $17530600 \quad$ VOC/TECH INTERNATIONAL CUISINE LAB II
Application of gourmet cooking through actual quantity preparation of eight-course international dinners. Four evening gourmet dinners will be prepared and served during the semester.
Prerequisite: HCM 172, 173

## HCM 20020400 VOC/TECH

 DINING ROOM SERVICEA dining room service course in an actual restaurant experience with emphasis on using sound management techniques and quality customer service.

## HCM 2102000 VOC/TECH

## DINING MANAGEMENT

Students will plan menus and meal service in actual restaurant experience. Emphasis is on using sound management techniques for producing high-quality food and service to the public.

Prerequisite: HCM 152, 153

## HCM $231 \quad 22000$ VOC/TECH NUTRITION

An overview of nutrition-related topics including the psychology of eating and evaluation of food intake.

## HCM 2402000 VOC/TECH

 MENU PLANNING \& DESIGNThis course applies the principles of menu planning and layout to the development of menus for a variety of types of facilities and service.

## COURSE DESCRIPTIONS

## HCM 250 PURCHASING

Principles and methods of food purchasing with emphasis on specifications and grading of various food products. Includes financial procedures and controls used in the food service industry.

HCM 27020400 VOC/TECH GARDE MANGER
Application of techniques used in preparation of hot and cold hors d'oeuvres, decorative food displays and ice carvings. Emphasis is placed on aspics, galantines and buffet presentations.
Prerequisite: HCM 143, 144

## HCM $3002000 \quad$ VOC/TECH

 BEVERAGE MANAGEMENTThis course will familiarize the student with all aspects of beverage service including wine and alcohol laws. The basic mechanics of beverage preparation, sales and promotion will be covered.

HCM 3202000 VOC/TECH INTRO TO HOSPITALITY INDUSTRY
Course introduces students to the broad world of hospitality while preparing them for careers in the field. Discussed will be three primary areas of hospitality-food and beverage, lodging and tourism, along with an introduction to business basics.

HCM $510 \quad 300012$ VOC/TECH WORK EXPERIENCE
An approved program of experience in one of the many hospitality areas: restaurant, hospital, club, school food service, hotel or motel

## (P/F)

HCM 550 VOC/TECH FOOD AND WINE SEMINAR
This introductory course involves flavor profiles of both food and wine with a focus on culinary principles. This course is not for Culinary Arts/ Hospitality Careers majors.

## HCM 60022000 VOC/TECH

 INTRO TO LODGING OPERATIONSAn in-depth look at the management and operations of key services within hotel properties. Included are guest services, housekeeping, maintenance and security. Course will examine the intricacies of these services from a management perspective.

HCM 604 500020 VOC/TECH HOTEL SERVICE INTERNSHIP
An approved program of work experience in one of the many hotel/motel properties in the area.
Prerequisite: HCM 320. Corequisite: HCM 600
HCM 6052000 VOC/TECH HOTEL ADMINISTRATION
A management course that introduces the student to advanced studies of property management, catering, sales, legal aspects, security and maintenance of all departments of the hotel.

## HCR 25352600 VOC/TECH RESIDENTIAL HEATING \& AC

Residential heating and cooling basics. Study of installation and service procedures through class and lab practices.
Prerequisite: HCR 307
HCR 2565200 VOC/TECH APPLIED HEATING \& AC
This course covers installation and troubleshooting techniques dealing with residential heating, cooling and refrigeration systems.
Prerequisite: HCR 253

## HCR $260 \quad 31400$ VOC/TECH

HVAC TRADE SKILLS I
This course covers all types of soldering and brazing used in the heating, air conditioning refrigeration industry.

## HCR $270 \quad 52600$ VOC/TECH

## ADVANCED HEATING \& AC

This course covers installation, advanced troubleshooting, maintaining and repairing of geo-thermal heat pumps, gas, fuel oil and electric heating systems.
Prerequisite: HCR 256

## HCR 290 VOC/TECH

 COMMERCIAL HVAC/REFRIGERATIONCourse covers basic commercial refrigeration systems, components and their use, applications, methods of installation, maintenance, diagnosis and repairs
Prerequisite: HCR 270, 506

## HCR 3075600 VOC/TECH

 FUNDAMENTALS OF REFRIGERATIONThis course consists of the principles of refrigeration, domestic systems and equipment.

## HCR 40452600 VOC/TECH ELECTRICITY

A study of basic electricity principles: Onm's law, series and parallel circuits as applied to HVAC \& refrigeration. Course also includes hands-on practice with training boards in the lab.

## HCR 44052600 VOC/TECH

 ELECTRICAL CONTROLS \& CIRCUITSThe application of motor control circuits used in industrial application, in particular in the HVAC/R field. These applications include contactors, starters, starting relays, interlocks, relays, thermostats, split phase, shaded pole, capacitor start motors and three-phase motors.

Prerequisite: HCR 404

## HCR 5063200 <br> VOC/TECH

## AIR DISTRIBUTION

Involves the study of fans, blowers and dampers; the design of duct systems for proper air delivery; and allows for final system balancing. Includes lab practice.
Prerequisite: HCR 256
HCR $515 \quad 31400$
SHEET METAL FABRICATION VOC/TECH
This course covers all types of sheet metal
fabrications pertaining to the HVAC profession.
Prerequisite: HCR 260

HCR 71732200 VOC/TECH BLUEPRINT READING
A study of blueprint reading related to the HVAC/R trade. Drafting symbols and terminology will be covered, along with skills needed to make simple scaled drawings

## HCR 8035200 VOC/TECH

 ENVIRONMENTAL CONTROLSThis course covers basic understanding of building environmental and energy management systems, computerized (DDC), pneumatic and electromechanical controls.
Prerequisite: HCR 307, 440, 506. Corequisite. HCR 290

## HCR 84021200 VOC/TECH COMPUTER LOAD CALCULATIONS

Course is designed to deliver instruction in the area of heating/cooling load calculations, air flow and air supply/return layout. Extensive use of computers and CAD systems will be incorporated to enhance student productivity.

Prerequisite: HCR 506

HCR 932400016 VOC/TECH INTERNSHIP
On the job training for Heating, Air Conditioning, Refrigeration program students who have a "C" average or better in the program. Must have valid driver's license.

Prerequisite: HCR 253, 440, 515

## HIS 11244000 CORE

 WEST CIV: ANCIENT TO EARLY MODThe student surveys the great civilizations from Greece and Rome through the rise of Christianity, to Europe in the Middle Ages, the Renaissance and Reformation, the modern state, the new science and the secular outlook, parliamentary government in England and political absolutism in France and Eastern Europe.
HIS 113 CORE
WEST CIV: EARLY MODERN TO PRES
Survey of political, economic, social and intellectual
developments from the 18th century to the present.
Enlightenment, revolutions and reactions, national
unifications, national rivalries, world wars and post-
war developments.

HIS $150 \quad 44000$ CORE U.S. HISTORY TO 1877

A survey of main themes of American history from 1492 to 1877 with emphasis on the political, social, economic, religious and intellectual aspects of the presettlement, Colonial, Revolutionary, Antebellum Civil War and Reconstruction eras.

## COURSE DESCRIPTIONS

## HIS 153 <br> 44000

## U.S. HISTORY SINCE 1877

A survey of main themes of American history from 1877 to the present with emphasis on political, social, economic, religious and intellectual aspects of the Gilded Age, the Progressive Era, WWI, the Roaring Twenties, the Great Depression, WWII and post WWII Era.

HIS $201 \quad 33000$ GENERAL IOWA HISTORY
A broad survey of lowa history from Indian cultures and pioneer farming through modern agriculture, gradual social changes and long-term political trends.

## HIS 21644000 GENERAL HISTORY OF MODERN RUSSIA

Students survey the history of Russia from the reign of Nicholas (II) Romanov through the presidency of Dmitry Medvedev. Students will study political change from absolutist to parliamentary, the rise of the Communist Party, the struggle for control of the Communist Party, the harsh rule of Stalin, the impact of WWII, post-WWII international influence of the Soviet Union, Soviet Union's involvement with lowa, downfall of the Soviet Union and the rise of post-Communist Party Russia.
$\begin{array}{lrl}\text { HIS } 257 & 33000 & \text { CORE } \\ \text { AFRICAN-AMERICAN HISTORY }\end{array}$
A survey of the history of the African-American community with emphasis on the role of individuals, institutions and ideas in the development of the community from its origins in West Africa to the present.

HIS 266 GENERAL THE CIVIL WAR
This telecourse covers the causes, key events, major participants and the long-term impacts of the Civil War using Ken Burns' widely acclaimed TV series. This course vividly captures the entire sweep of America's most significant war.

## HIT $120 \quad 11000$ VOC/TECH PHARMACOLOGY FOR HIT

This course provides an introduction to common medication, medication therapies and drug effects relevant to the subject of health IT. Students will learn the basics of electronic prescribing (e-prescribing), the role of health IT in drug safety and the current pharmacology environment in the U.S.

## HIT $125 \quad 21200$ VOC/TECH

 ESSENTIALS OF HEALTH RECORDSThis course familiarizes students with the origin, uses, content and format of health records, including both paper and electronic health records. It covers required standards for health records, organization of records and analysis of health record data. The role of health information management professionals is also introduced.

## HIT 162 <br> 22000 <br> VOC/TECH

## DATA SECURITY FOR HEALTH IT

This course provides knowledge of current data security issues in the healthcare environment.
A high-level emphasis is placed on identifying vulnerabilities and protection schemes. Additionally, the confidentiality, integrity and availability of protected health information will be discussed.
Prerequisite: BCA 113

## HIT 29032200 VOC/TECH

 REIMBURSEMENT METHODSThis introduction to health insurance and reimbursement studies payment systems for all types of healthcare systems and managed care. Changing trends in the reimbursement of healthcare services are reviewed. Topics include prospective payment systems, charge master maintenance, DRGs, APCs, ASC Groups, RBRVs, third-party payers, EOB, Quality Improvement Organizations, managed care/capitation and compliance. Students practice completing claim forms for a variety of medical scenarios and learn the importance of accurate coding and medical necessity to ensure proper reimbursement.
Prerequisites: All first-year HIT courses (HIT 120, 125, 162, 360, 450, 520)

## HIT 31522000 VOC/TECH ELECTRONIC APP FOR HEALTH DATA

This course provides an overview of health informatics and explores the impact of IT on the healthcare industry. Students will use electronic spreadsheet and database applications to analyze and format data for presentations and decisionmaking. A variety of electronic applications are reviewed in a computer lab and/or field trip setting. Prerequisite: HIT 125

## HIT 33922000 VOC/TECH

 QUALITY MANAGEMENTThis course provides a basic understanding of the principles of clinical quality measurement, TQM/ CQI, effective management practices and evidencebased medicine. It covers the tools of healthcare quality management and the organizational context in which management practices are applied. Students will learn how systems can be used to improve organizational performance.
Prerequisite: Completion of all first year HIT courses (HIT 125, HIT 450, HIT 162, HIT 120, HIT 360, HIT 520) or instructor approval

## HIT $360 \quad 33000 \quad$ VOC/TECH

## INTRODUCTION TO HIT

This course covers the basics of health information technology (HIT) and electronic health information exchange (HIE). Current and emerging e-health applications will be discussed, including electronic health records (EHRs), registries, clinical decision support tools, etc. Other topics include current federal and state e-health initiatives, the clinical value of health IT and the potential impact on the healthcare system.

## HIT 420 <br> 22000 <br> VOC/TECH

 LEGAL ASPECTS OF HEALTH INFOThis course focuses on the legal aspects of health information and health records, including access and use of both paper and electronic information. Topics covered include confidentiality, release of health information, liability issues, patient rights, fraud and abuse and ethics. Students will study federal and lowa-specific laws and regulations related to protected health information.
Prerequisites: Completion of all first-year HIT courses (HIT 120, 125, 162, 360, 450 and 520) or instructor's approval

## HIT $430 \quad 32200 \quad$ VOC/TECH QUALITY IMPROVEMENT

This course covers outcomes-based quality improvement methodologies for healthcare organizations. Students learn how to measure customer satisfaction, implement quality management programs and apply best practices and standards. It also covers patient safety and how to create a culture of safety in the organization.
Prerequisite: HIT 360

## HIT $450 \quad 22000$ VOC/TECH HEALTH STATISTICS

This course covers the collection, analysis, verification and display of health statistics. Students will learn uses for health statistics, basic statistical principles, commonly computed rates, vital health statistics, uniform reporting requirements and effective data display.

## HIT 520 VOC/TECH INTERNSHIP I

This course is a supervised 120-hour professional practice experience that introduces the student to basic functions in a health IT setting. The student will observe daily operations and apply knowledge and skills learned in the classroom as applicable. Students will be required to meet objectives, submit a written report of the experience and undergo a job performance evaluation. Site to be arranged by the instructor.
Prerequisites: HIT 125, HSC 120, or instructor approval

## HIT $521 \quad 400016$ VOC/TECH INTERNSHIP II

This course is a supervised 240 -hour professional practice experience designed to further develop and build upon the experiences of Internship I, at the same or a different organization. The student will observe daily operations and apply knowledge and skills learned in the classroom as applicable. Students will be required to meet objectives, submit a written report of the experience and undergo a job performance evaluation. Site to be arranged by the instructor.
Prerequisite: HIT 520

## COURSE DESCRIPTIONS

HIT 605 MEDICAL TRANSCRIPTION SURVEY
This course familiarizes students with the profession of medical transcription and how the data is utilized in health IT systems.

HSC 10211000 VOC/TECH EMERGENCY CARE
Learn to perform care for medical emergencies: fractures, burns, resuscitation, basic CPR (cardiopulmonary resuscitation, American Heart Level II Standards) Certification.

HSC $10511000 \quad$ VOC/TECH SURVEY OF HEALTHCAREERS
This course introduces both the variety and requirements for healthcare careers. Basic core knowledge and professional expectations common to all healthcareers are explored. Workplace safety and an overview of the health system and current trends are also covered.

HSC $109 \quad 33000 \quad$ VOC/TECH
INTRO TO HEALTHCAREERS
Students will discover the many options available, including roles and responsibilities in healthcareer options. This course is designed to provide the student with the information necessary to make their healthcareer choice.

HSC 120 VOC/TECH MEDICAL TERMINOLOGY I
Builds a medical vocabulary through an understanding of anatomic roots for words denoting body structures, prefixes, suffixes and body functions.

HSC $121 \quad 33000$ VOC/TECH MEDICAL TERMINOLOGY II
Continues to build a medical language vocabulary by studying body systems such as musculoskeletal, endocrine, nervous and integumentary systems
Prerequisite: HSC 120 with a grade of "C-" or better.
$\begin{array}{lrl}\text { HSC } 172 & 32030 \quad \text { VOC/TECH }\end{array}$
NURSE AIDE 75 HOURS
Entry-level skills to seek employment in lowa skilled facilities. Meets OBRA87 standards.

HSC $182 \quad 32030$ VOC/TECH ADVANCED NURSE AIDE
A continuation of Nurse Aide to provide additional skills and clinical to work in hospital.
Prerequisite: A DMACC-sponsored 75-hour Nurse Aide class or HSC 172

## HSC 18311000 VOC/TECH CCDI-DEMENTIA ILLNESS TRAINING

This 15-hour course has been developed to meet the training requirements for Intermediate Care Facilities by providing basic knowledge about Alzheimer's disease and other chronic dementia illnesses. Emphasis is on the physical and psychological changes that take place in the Alzheimer patient and the importance of appropriate communication. Explanation of the stages of Alzheimer's disease and appropriate interventions will be introduced.

## HSC 231 <br> 21004 <br> VOC/TECH

 MEDICAL SCIENCE OBSERVATION ISupervised experience in a medical healthcare agency. Enable students to learn about the field of the student's interest area of medical health, accumulate site hours for admission into graduate programs, and apply their skills and knowledge by working directly in the professional field.

## HSC 23221004 VOC/TECH

 MEDICAL SCIENCE OBSERVATION IIExtended supervised experience in a medical science area. Enables students to learn about the field of their interest in medical science. Accumulate site hours for admission into graduate programs and apply their skills and knowledge by working directly in the professional field.

Prerequisite: HSC 231
HSC $240 \quad 33000$ VOC/TECH HUMAN NUTRITION
Understanding and implementing present day knowledge of nutrition, the use of food for health and satisfaction of the individual and family.

## HSC 28154030 VOC/TECH

## LIMITED RADIOLOGY

IBN\#22 State-required course for people employed in a clinic to take chest and extremities, sinus or spinal $x$-rays.

## HSV 10933000 GENERAL INTRO TO HUMAN SERVICES

History and introduction to the social welfare institution. Theoretical perspectives, concepts, values and intervention strategies are examined. Systems theory is used to explore legislation and services designed to meet client needs.

## HSV 130 OPEN INTERVIEWING/INTERPER RELATION

Study of interviewing theories including roles and relationships between the interviewer and the interviewee. Methodology of developing questions, conducting interviews, recording data and analyzing it, and writing assessments and histories are emphasized.

## HSV 133 <br> 33000

OPEN
CONFLICT RESOLUTION
This course is designed to study the history, components and process of conflict resolution and to examine the implications for the use of conflict resolution within the human services, psychology and social work fields. This course will provide students with the opportunity to develop conflict resolution skills as well as to examine their own comfort with conflict and how conflict is presented in the media. The course will also focus on the application of mediation in terms of social justice issues, in particular on child welfare, juvenile problems and restorative justice.

## HSV 135 <br> 33000

OPEN WOMEN'S ISSUES
This course explores selected concerns that women are likely to bring into a counseling situation. Topics include sex roles, gender and socialization, and their impact on women's lives.

## HSV $185 \quad 33000$ OPEN DISCRIMINATION AND DIVERSITY

This course will address theoretical and historical perspectives on racism, sexism, other forms of discrimination; applications to social work, culturally competent practice, change strategies, and intercultural communication strategies. Students will explore and process their own personal prejudices and biases in class. Students will learn skills to increase cultural competency and work effectively with persons from diverse backgrounds.

## HSV 22033000 <br> OPEN INTRO TO COUNSELING THEORIES

Introduction to major counseling theories including psychoanalysis, gestalt, existential, family systems, reality therapy, behavioral therapy, and personcentered therapy. Applications in mental health and social services settings are considered.

## HSV 2303000 OPEN

 COMMUNITY ORGANIZATIONA study of various theories, methods and techniques to bring about needed and desirable changes in political, economic, social and bureaucratic structures and processes. Emphasis is placed upon application of learned skills.
Prerequisite: 6 hours of Social Sciences

## HSV 25533000 <br> OPEN

## ADDICTIVE DISEASE CONCEPTS

A historical and theoretical background to current concepts of addiction. A variety of addictive behaviors are examined with special focus on psychoactive drug dependency.

## HSV 28633000 OPEN

 INTERVENTION THEORIES/PRAC IStudy of several management and planning theories and practices that are used to assess client needs, establish goals, identify resources and make appropriate referrals. Community resources are explored. Only offered Fall and Spring semesters.
Prerequisite: HSV 109, 130
HSV $288 \quad \mathbf{3 4 0 0 0}$
INTERVENTION THEORIES/PRAC II OPEN
Theories and values of the social sciences,
including human services, are used to interpret
and respond to client behaviors. Written analysis
is emphasized. Evaluation theory and its
applications are also stressed. Only offered
Spring and Summer semesters.
Prerequisite: HSV 130, HSV 286 (with minimum grade
of C). Corequisite: HSV 802

## COURSE DESCRIPTIONS

HSV 802 INTERNSHIP

Supervised experience in a human services agency enables students to apply their skills and knowledge by working directly with clients. Only offered Spring and Summer semesters.
Prerequisite: HSV 130, HSV286. Corequisite: HSV288
HSV 811 OPEN PRACT: CHEM DEPEND COUNSEL I
Supervised experience in three of these treatment programs for chemically dependent people: inpatient, outpatient, follow-up care, halfway house and family therapy.
Prerequisite: Acceptance at an approved practicum site

## HSV $812 \quad 300012$ <br> OPEN

PRACT: CHEM DEPEND COUNSEL II
Supervised experience in one of these treatment programs for chemically dependent people: inpatient, outpatient, residential, adolescent dual diagnosis or family services.
Prerequisite: Acceptance at an approved practicum site

## HUM 1163000 ENCOUNTERS IN HUMANITIES

An interdisciplinary course exploring the human condition through literature, painting, sculpture, architecture, music and dance. The course examines the cultural context of individual works and movements, the thematic relationships between the arts and the relevance of the arts in our lives today.

## HUM 120 <br> 32200 <br> INTRODUCTION TO FILM

An introduction to the conventions, scope, purposes and techniques of films. Includes viewing and writing about a variety of films.

## HUM 1213220 AMERICA IN THE MOVIES

An interdisciplinary course that combines the insights of history and literature by examining popular American movies. The course explores the social, cultural and ethical questions raised in such films.

## IND 1242000 VOC/TECH CONTROL SYSTEMS OVERVIEW

An overview of control systems in an industrial environment including hydraulic, pneumatic and electrical/electronic systems. Topics include valves, actuators, motor starters, relays, timers and programmable controllers.

IND $144 \quad 43200$ VOC/TECH PUMP OVERHAUL AND REPAIR
Overview of internal parts, principles of operation and maintenance of positive displacement and centrifugal pumps.

IND $146 \quad 32200$ VOC/TECH MECH POWER TRANSMISSION I
A course in fundamental mechanical power transmission used in manufacturing. Topics covered include the inspection, maintenance and repair of chain- and belt-driven equipment. This will include the sizing of belts and pulleys, determining speed ratios and the importance of proper sizing for process control.

## IND 147 VOC/TECH MECHANICAL POWER TRANS II

A fundamental course in the principles of mechanical power transmission. Topics include the use of gears to effect speed changes, the identification and use of bearings, clutches, couplings and brakes.
Prerequisite: IND 146

## INT $1243000 \quad$ VOC/TECH INTERIOR DESIGN ANALYSIS

Acquiring knowledge and expertise to create pleasing and effective interior design will be emphasized. Focus will be on space planning, furniture styles, color schemes, wall coverings and floor and window treatments. Also includes exploration of the interior design profession and related career areas.

## INT 1253000 VOC/TECH INTERIOR DESIGN PLANNING

Focuses on the development of interior design plans and the execution of these plans. Builds upon knowledge acquired in Interior Design Analysis through analyzing client needs and creating design boards and presentations to meet those needs.
Prerequisite: INT 124

## ITP 123 VOC/TECH INTRO TO ASL INTERPRETING

This course is an overview regarding the field in sign language interpretation for the Deaf Community. The course provides a basic historical framework related to the principles, ethics, roles, responsibilities and standard practices of the sign language profession.
Prerequisite: Admission to the American Sign Language Interpreter Program or permission from the department chair

## ITP 1333000 VOC/TECH DEAF CULTURE AND COMMUNITY

This course provides students with the opportunity to explore American Deaf Culture and community: its existence, characteristics, institutions, organizations, key historical figures and events, contemporary leaders and contributions to the larger society. Diversity within the community and realities of life as a cultural minority will also be discussed. The course takes a comparative approach by integrating concepts of American Deaf Culture to the students' own experiences with culture and community plus a comparison and contrast between American Mainstream Culture and American Deaf Culture.

ITP $146 \quad 33000 \quad$ VOC/TECH ASL INTERP VOICE TO SIGN I
This course is organized to provide tools to the students for effectively demonstrating an accurate interpretation of meaning from spoken English to American Sign Language. Objectives include developing signing skills with a focus on chunking, dynamic equivalence, concept selection, register receptive skills, proper location of sign interpreters, team interpreting, the use of a Certified Deaf Interpreter (CDI) and other aspects of signing. Special requirements of sign interpreting will also be included, such as methods and techniques of signing for Deaf individuals who are members of the Deaf Community and use ASL, as well as Deaf individuals who may not use ASL and use an English Code Variation.

Prerequisite: Admission to the American Sign Language Interpreter Program or permission from the department chair

## ITP $148 \quad 33000 \quad$ VOC/TECH

ASL INTERP VOICE TO SIGN II
This course is organized to provide tools to the students for effectively demonstrating an accurate interpretation of meaning from spoken English to American Sign Language. Objectives include developing signing skills with a focus on chunking, dynamic equivalence, concept selection, register receptive skills, proper location of sign interpreters, team interpreting, the use of a Certified Deaf Interpreter (CDI) and other aspects of signing. Special requirements of sign interpreting will also be included, such as methods and techniques of signing for Deaf individuals who are members of the Deaf Community and use ASL, as well as Deaf individuals who may not use ASL and use an English Code Variation. Voice to Sign in American Sign Language Interpreting II is unique from VSASLI in that it provides a broader base of basic elements acquired and learned previously. The challenging and detailed nature and expectations of this course build on Level I understanding and skill sets.
Prerequisite: Admission to the American Sign Language Interpreter Program or permission from the department chair

## ITP $1523300 \quad$ VOC/TECH ASL INTERP SIGN TO VOICE I

This course is organized to provide tools to the students for effectively demonstrating an accurate interpretation of meaning from American Sign Language to spoken English. Objectives include developing voicing skills with a focus on chunking, dynamic equivalence, word selection, register receptive skills, proper location of voice interpreters, team interpreting, the use of a Certified Deaf Interpreter (CDI) and other aspects of voicing. Special requirements of voice interpreting will also be included, such as methods and techniques of voice-over, voicing for Deaf individuals who use ASL, as well as Deaf individuals who may not use ASL.
Prerequisite: Admission to the American Sign Language Interpreter Program or permission from the department chair

## COURSE DESCRIPTIONS

## ITP $1543000 \quad$ VOC/TECH ASL INTERP SIGN TO VOICE II

This course is organized to provide tools to the student for effectively demonstrating an accurate interpretation of meaning from American Sign Language to spoken English. Objectives include developing voicing skills with a focus on chunking, dynamic equivalence, word selection, register receptive skills, proper location of voice interpreters, team interpreting, the use of a Certified Deaf Interpreter (CDI) and other aspects of voicing Special requirements of voice interpreting will also be included, such as methods and techniques of voice-over, voicing for Deaf individuals who use ASL, as well as Deaf individuals who may not use ASL. Sign to Voice in American Sign Language Interpreting II is unique from SVASLI in that it provides a broader base of basic elements acquired and learned previously. The challenging and detailed nature and expectations of this course build on Level I understanding and skill sets.
Prerequisite: ASL Interp Sign to Voice I and admission to the American Sign Language Interpreter Training Program or permission from the department chair

## ITP 190 VOC/TECH ETHICS IN ASL INTERPRETING

This course will set forth standards toward principles of ethical behavior and professional interpreting practices in regard to general guidelines, ideals and/or expectations that need to be taken into consideration regarding an interpreter's professional behavior. Particular circumstances are inherently unique to the American Sign Language interpreter culture, a variety of situations will be examined, discussed and analyzed.
Prerequisite: Admission to the Interpreter Training Program or permission from the department chair

## ITP 932600024 VOC/TECH

## ASL INTERPRETING INTERNSHIP

This course provides real-time experience within the professional field of interpreting. The experience will include 360 hours of real-time experience with an established interpreter and/or agency. The student will self-select an internship site and submit weekly journals and evaluations regarding participation, activities and other assigned and experiential learning moments of related interpreting contact. Other requirements specific to internship site may apply. Students will be evaluated on their ability to carry out professional responsibilities, to apply knowledge and skill in working with various groups of people across the lifespan, to identify and accommodate various language preferences and to apply various service delivery models reflective of current practices in the profession.
Prerequisite: Satisfactory completion of the DMACC ASL-ITP program or completion of program equivalence of the DMACC ASL-ITP program and authorization by the department chair. This course is Pass/Fail.

## ITR 101 <br> 33000

 INTRO INTERPRET \& TRANSLATIONA general introduction to the field of oral language interpreting and translation (I/T) including linguistic theory of communication, translation approaches, problems and processes, cultural competency and ethics, the role of the interpreter, modes of interpretation and interpreter errors. Taught in English; students need not be bilingual in other languages to take this introductory course.

## ITR 1023000 OPEN TOOLS INTERPRET \& TRANSLATE

In-depth training in the research and technological tools that interpreters and translators use in their field. Extensive use of monolingual and bilingual dictionaries and thesauri. Features of Microsoft Word and Excel for language work and glossary development. Internet tools for vocabulary research and enrichment. Interpretation equipment. Digital recorders for modified consecutive interpretation. Introduction to TRADOS translation memory program.
Corequisite: ITR 101 or permission of instructor

## ITR 11133000 <br> OPEN

 FUNDAMENTALS OF INTERPRETATIONStudy and practice of the basic theory and techniques of language interpretation, applied to general topics of current events. The modes of interpreting. Simultaneous Interpreting, Consecutive Interpreting, Sight Translation. Introduction to Lexicography and Vocabulary Development. Students are required to be functionally bilingual in English and at least one other language to take this course.
Corequisite: ITR 101 or instructor permission

## ITR 115 OPEN

## FUNDAMENTALS OF TRANSLATION

Study and practice of the basic theory and techniques of language translation, applied to general topics of current events. Basic concepts. Translation as product. Translation as process. Cultural problems. Denotative vs. connotative meanings. Formal properties of texts. Language variety. Glossary development.
Prerequisite: ITR 101 or instructor permission and a functional proficiency in English and a second language

## ITR 120 OPEN

## ETHICS FOR THE INTERP/TRANS

This course provides an introduction to basic interpreter and translator ethics, including accuracy, representation of qualifications, avoidance of conflicts of interest, professional demeanor, confidentiality, maintaining a proper role, competency, reporting ethical violations, professional development, disputes with clients, collegiality and contracts. Model scenarios are used for developing and applying ethical judgments.
Prerequisite: Minimum of " $C$ " in all ITR courses and complete minimum of three ITR courses

## ITR 12833000 LEGAL TERM \& SIGHT TRANSLATION

OPEN
Identification of the origins of legal terminology. Advanced sight translation training focusing on court/law enforcement documents. Lexicographical training in locating, understanding and using frequently used legal terminology in criminal proceedings. Intensive practice in sight translating the following types of court/law enforcement documents: warrants, trial information, indictments, waivers of detention hearings, plea agreements, informal letters, presentencing reports and pro se pleadings.
Prerequisite: Complete the six ITR required courses with a grade of "C" in each course. Corequisite: PRL 103 or instructor permission

## ITR 130 OPEN JUDICIARY INTERPRETING I

Advanced consecutive interpreting traininglistening, analysis, memorization and interpretingas applied to court/law enforcement situations. Intensive practice in interpreting for the following events: police interrogations, attorney-client interviews, proffer interviews, witness testimony. Advanced use of note-taking techniques.

Corequisite: ITR 128
ITR $132 \quad 3000 \quad$ OPEN JUDICIARY INTERPRETING II
Advanced simultaneous interpreting trainingdual tasking, shadowing, paraphrasing, and interpreting-as applied to court proceedings. Intensive practice in interpreting for the following court proceedings: initial appearances, bail/ detention hearings, change of plea hearings, trials and sentencing hearings. Advanced use of simultaneous interpreting equipment.
Prerequisite: ITR 130
ITR $137 \quad$ OPEN
JUDICIARY TRANSLATION
Advanced written translation training focusing
on legal documents. Advanced lexicographical
training in legal terminology in criminal and civil
proceedings. Intensive practice in translating
the following types of legal documents: plea
agreements, birth certificates, contracts, wills.
Prerequisite/Corequisite: ITR 128

## ITR 1483000 <br> OPEN

 HEALTHCARE TERM \& SIGHT TRANSIdentification of the origins of healthcare terminology. Advanced sight translation training focusing on healthcare/medical documents. Lexicographical training in locating, understanding and using frequently used legal terminology in healthcare environments. Intensive notifications, patient letters, instructions for taking medication.
Prerequisite: Complete the six ITR required courses with a minimum grade of " $C$ " in each course. Corequisite: BIO 156 or instructor permission

## COURSE DESCRIPTIONS

ITR 150 OPEN
HEALTHCARE INTERPRETING I
Advanced consecutive interpreting training--
listening, analysis, memorization and interpreting-as
applied to healthcare situations. Intensive practice
in interpreting for the following events: admitting
interviews, well baby visits and standard doctor
visits. Advanced use of note-taking techniques.
Prerequisite: ITR 148

## ITR 15233000 OPEN <br> HEALTHCARE INTERPRETATION II

Advanced simultaneous interpreting traininganalysis, prediction, shadowing, decalage and interpreting-as applied to healthcare settings in which the interpreter should be more invisible to allow for a better rapport between providers and patients. Intensive practice in interpreting for the following healthcare proceedings: emergency room (cardiovascular, trauma, childbirth, sexual assault, infectious diseases) and mental health consultations/interventions. Continued development of healthcare terminology. Proper positioning and situational control for simultaneous interpreting. Advanced use of simultaneous interpreting equipment.

Prerequisite: ITR 150

## ITR $158 \quad 33000$ OPEN HEALTHCARE TRANSLATION

Advanced written translation training focusing on healthcare/medical documents. Advanced lexicographical training in healthcare terminology. Intensive practice in translating the following types of documents: discharge information, living will, patient educational materials.
Corequisite: ITR 148
ITR 1683000 OPEN

## HUM SERV TERM \& SIGHT TRANS

Identification of the origins of human services terminology. Advanced sight translation training focusing on human/social services documents. Lexicographical training in locating, understanding, and using common human services terminology in social services contexts. Intensive practice in sight translating selected human services applications/ financial affidavits, release of information forms, informational materials, and notice of decision letters.

Prerequisite: Complete the 6 ITR required courses with a minimum grade of "C" in each course; HSV 109 or instructor permission

## ITR 1703000 <br> HUM SERV INTERPRETATION I

OPEN
Advanced consecutive interpreting traininglistening, analysis, memorization, note-taking, and interpreting-as applied to common human services situations. Intensive practice in interpreting for client/social worker interviews in the following areas/programs: Iowa Dept. of Human Services, HAWK-I, WIC, General Relief, Title XIX (Medicaid), Child Support Recovery Unit, Bureau of Refugee Affairs, and substance abuse treatment facilities.
Corequisite: ITR 168

## TR $800 \quad 21030$ <br> OPEN JUDICIARY I/T INTERNSHIP <br> Application of the knowledge skills and attitudes gained in the classroom by interning under qualified/certified interpreters and translators in a variety of court/law enforcement situations. Interns will begin by shadowing their mentor and then move into actual interpreting/ translating assignments in appropriate monitored situations. <br> (P/F) Prerequisite: Minimum grades of " $C$ " in all ITR courses. Corequisite: ITR 132 or ITR 137 <br> ITR $805 \quad 21030$ OPEN GENERALIST I/T INTERNSHIP

Application of the knowledge, skills and attitudes gained in the classroom by interning under qualified interpreters and translators in a variety of general work and volunteer situations. Interns will begin by shadowing their mentor and then move into actual interpreting/translating assignments in appropriate monitored situations.
(P/F) Prerequisite: Minimum cumulative GPA of 2.5 in all Interpretation and Translation Generalist Certificate coursework. Corequisite: ITR 120

## ITR 81021030 OPEN HEALTHCARE I/T INTERNSHIP

Application of the knowledge, skills and attitudes gained in the classroom by interning under qualified/certified interpreters and translators in a variety of healthcare environments. Interns will begin by shadowing their mentor and then move into actual interpreting/translating assignments in appropriate monitored situations.
(P/F) Prerequisite: Minimum grades of " $C$ " in all ITR courses. Corequisite: ITR 152 or ITR 158

## ITR 820 <br> 21030 <br> OPEN

## HUM SERV I/T INTERNSHIP

Application of the knowledge, skills and attitudes gained in the classroom by interning under qualified/certified interpreters and translators in a variety of human services situations. Interns will begin by shadowing their mentor, and then move into actual interpreting/translating assignments in appropriate monitored situations
(P/F) Corequisite: Minimum of "C" in all ITR courses; ITR 172 or ITR 177 or instructor permission

## ITR 910 <br> 33000 <br> OPEN

 EMPHASIS SEMINARA survey of specialized fields of judiciary interpretation/translation, healthcare interpretation/ translation, human services interpretation/ translation, educational interpretation/translation and business translation/interpretation. Introduction to typical texts and interpreting situations in each specialty area. Students must take this course before enrolling in a specialty emphasis plan.
Corequisite: ITR 111 or ITR 115, bilingual or instructor permission

## JOU $110 \quad 33000$ INTRO TO MASS MEDIA

OPEN
An introduction to mass communication in a global marketplace. Emphasizes print and electronic media, advertising and public relations, ethics and new technology.

## JOU $121 \quad 33000$ <br> OPEN

 BASIC REPORTING PRINCIPLESDesigned to provide students with experiences in gathering, organizing and writing news stories.

## JOU $125 \quad 31400$ <br> OPEN NEWSPAPER PRODUCTION <br> Special work in journalism. Students will produce a DMACC newspaper on one of the campuses and will gain experience in writing, copy-editing, layout and design. May be repeated for three additional semesters.

## JOU $163 \quad 33000$ OPEN ADVANCED REPORTING: POLITICS

Designed to provide experiences in producing news stories on political candidates, campaigns and elections. The role of the news media in American electoral strategy and outcomes and the relationship between reporters and public officials will be examined. Emphasis is placed on the most recent general election and its coverage.

Prerequisite: JOU 110. Corequisite: POL 127

## JOU 16533000 PRINCIPLES OF ADVERTISING

Course explores advertising as a tool and socio-economic force.

## LIT 10133000 CORE INTRO TO LITERATURE

Introduction to the study and appreciation of poetry, fiction and drama. Basic critical approaches are emphasized, and a broad range of authors from a variety of cultural and ethnic groups and a wide span of historical periods is presented.
LIT 105 GENERAL CHILDREN'S LITERATURE
Study historical, sociocultural contexts surrounding children's literature; examine current trends and issues in the field; analyze and evaluate children's literature; and develop an awareness and appreciation for the variety of literature available.
LIT $110 \quad 3 \mathbf{3 0 0 0}$ CORE
AMER LITERATURE TO MID 1800S
In-depth study of works of selected major writers
(including Native American) particularly from
Puritan times to 1865. Basic critical approaches are
emphasized.

LIT 1113300 CORE AMER LITERATURE SINCE MID 1800
Examines American literature from early 20th century through contemporary America. Emphasizes major literary works and their social and cultural contexts.

## COURSE DESCRIPTIONS

| LIT 130 | 33000 | CORE |
| :--- | ---: | :--- |
| AFRICAN AMERICAN LITERATURE |  |  |

Introduction to the study and appreciation of literature written by African-American writers. A broad range of Black American authors will be presented.
LIT 1423000 CORE MAJOR BRITISH WRITERS
Introduction to the study and appreciation of major British writers particularly from the postRenaissance through the contemporary period. Basic critical approaches are emphasized.

## LIT 1663000 CORE SCIENCE FICTION

A survey of speculative fiction from Frankenstein to literature of the 21st century. Examines major influential works in their literary, social and cultural contexts. Critical analysis is emphasized.

LIT $180 \quad 33000$ GENERAL MYTHOLOGY
An introduction to world mythology. The course explores Classical, Nordic, Eastern, African and American/British myths.

LIT $185 \quad 33000$ CORE CONTEMPORARY LITERATURE
Introduction to the study and appreciation of significant contemporary writers and literary movements since 1945. The relationship of current literature to society and basic critical approaches are emphasized.

## LIT 188 CORE

 DETECTIVE FICTIONIntroduction to the study and appreciation of detective fiction. A literary investigation of the components of detective fiction and basic critical approaches are emphasized

## LIT 190 CORE WOMEN WRITERS

Introduction to the study and appreciation of literature written by women. Examines major influential works from a variety of historical, social and cultural contexts. Critical analysis is emphasized.

## LIT 1933000 CORE HUMOR IN LITERATURE

Introduction to the study and appreciation of humor as literary genre. An investigation of origins, types, techniques and purposes of humor and basic critical approaches are emphasized.

[^5]
## MAP 118 <br> 43200 <br> VOC/TECH MEDICAL OFFICE MANAGEMENT II

Study of health insurance, HMOs, Workers' Compensation, Medicare, Tri-care and Medicaid. Students will use critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains including insurance filing, CPT, ICD and HCPCS coding, posting of charges/payments both manually and with computer applications, telephone techniques, fax machine, appointment scheduling and chart audits. Students keep financial records and utilize both EMR and traditional charts to manage patient records. Psychomotor skills include inventory control, purchasing, quality control, quality improvement and management of facility, equipment and supplies. Students utilize policy, procedure and safety manuals.
Prerequisite: Grade of "C" or better in MAP 110.

## MAP $129 \quad 10200$ VOC/TECH MEDICAL TERMINOLOGY

Basic prefixes, suffixes and root words related to all body systems are studied. Spelling, pronunciation and definitions are included.

## MAP 14133000 VOC/TECH MEDICAL INSURANCE

This course provides a practical approach in medical insurance billing. Emphasis will be placed on current procedural codes (CPT-4) and international classification of diseases codes (ICD-9-CM) used to facilitate proper coding in submitting claims. Pertinent billing tips will be offered for each type of insurance.
Prerequisite: HSC 120

## MAP $150 \quad 32200 \quad$ VOC/TECH ADV. MEDICAL BILLING/CODING

This course provides a practical approach to expanding the knowledge of specialty specific coding issues. Emphasis will be placed on identifying the specific circumstances and rules for coding in the specialty physician practices.
Prerequisite: MAP 141 with a grade of " C -" or better.

## MAP 22543200 VOC/TECH MED LAB PROCEDURES I

Introduction to the medical laboratory. Students will use critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains during practice of giving patient instructions, obtaining specimens, following ethical guidelines, performing routine urinalysis, immunology testing, microbiologic testing and quality control procedures. Adhering to standard precautions, disposing of biohazardous materials, performing routine maintenance of clinical equipment (microscope and centrifuge) and using methods of quality control are also covered. Includes study of OSHA, CLIA, MSDS sheets, warning labels, the metric system and laboratory personnel.
Corequisite: MAP 347

MAP $228 \quad 32200$ VOC/TECH MED LAB PROCEDURES II
Students will use critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains during skill development in venipuncture, capillary puncture, hematology testing, blood chemistry analysis, EKG acquisition, patient education activities, compliance with OSHA, CLIA and quality control requirements including use and routine maintenance of standard laboratory equipment.
Prerequisite: Grade of "C" or better in MAP 225. Corequisite: MAP 348

## MAP $250 \quad 22000 \quad$ VOC/TECH DIAGNOSTIC RADIOGRAPHY I

Course includes radiological principles and encourages the use of critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains during practice in the areas of film evaluation, processing techniques, positioning of patients and radiation protection of patients and workers. Introduction to digital radiography concepts. This course with MAP 252 meets the requirements for students to take the State of lowa exam to become a "Limited Diagnostic Radiographer" in the areas of chest and extremities.
Prerequisite: MAP 225
MAP $252 \quad 22000 \quad$ VOC/TECH
DIAGNOSTIC RADIOGRAPHY II
Continuation of Diagnostic Radiography I. Course
emphasizes the use of critical thinking skills to
incorporate cognitive knowledge in the performance
of taking patient films under direct supervision
in the physician's office. Includes evaluation of
films exposed by the student. Incorporates state-
approved component on pediatric radiography.
Prerequisite: Grade of "C" of better in MAP 250 .
Corequisite: MAP 624

## MAP 3472200 VOC/TECH

 MEDICAL OFFICE PROCEDURES IIntroduction to medical office clinical skills. Students will use critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains during practice of patient communication, obtaining vitals, measurements, vision, hearing, pulmonary function testing, patient preparation, assisting physician, patient histories, documentation, medical and surgical asepsis, sterilization techniques, minor surgical procedures, compliance: OSHA, HIPAA and ADA. Patient education will include wellness, stress reduction, preventative medicine and treatment compliance with instructions according to patient needs.
Corequisite: MAP 225

## COURSE DESCRIPTIONS

## MAP 348

 OFFICE PROCEDURES IIStudents will use critical thinking skills to incorporate cognitive knowledge in the performance of psychomotor and affective domains during practice of giving patient instructions according to their needs, including instruction for health maintenance and disease prevention, patient education, preparing and maintaining treatment areas, assisting with minor surgical procedures, wound care, hemoccult testing, Holter monitor, scheduling procedures, using insurance referral information, administering oral and parenteral (excluding IV) medications and vaccines. Procedures for emergency preparedness.

Prerequisite: Grade "C" or better in MAP 347. Corequisite: MAP 228

MAP $423 \quad 33000 \quad$ VOC/TECH PROFESSIONAL DEVELOPMENT
General competencies including professional behavior, responsibilities of the certified medical assistant in identifying and responding to issues of confidentiality as governed by HIPAA, serving as a patient advocate, performing within legal and ethical boundaries and demonstrating knowledge of federal and state healthcare regulations. Students will incorporate critical thinking skills based on knowledge of medical specialties, basic first aid principles, medical law and ethics. Competencies include the ability to recognize and respond to verbal and nonverbal communication and to respect individual diversity.

## MAP 5323000 VOC/TECH

 HUMAN BODY-HEALTH \& DISEASEDesigned to provide specialized knowledge of the human body relating to disease processes and possible methods of treatment. Drug terminology is added as well as basic knowledge of symbols and abbreviations.

Prerequisite: HSC 120

## MAP 5444000 VOC/TECH

 HUMAN BODY-HEALTH \& DISEASE IStudents will incorporate critical thinking skills based on knowledge of course competencies to identify human anatomy and physiology including inter-relationship of organ systems and homeostasis in the healthy body. Also covered will be common pathology, diagnostic aids and treatment options including pharmacology related to each body system. Study of the interaction that occurs between systems and changes to the structure and function that occur across the lifespan as well as patient education procedures. Safety procedures will be reviewed with each unit. Internet research will be used for a variety of health topics. Units studied are structural organization, disease process and integumentary, skeletal, muscular, blood and circulatory. Remaining systems studied in MAP 554

## MAP 554 <br> 44000 <br> VOC/TECH HUMAN BODY-HEALTH \& DISEASE II

Students will incorporate critical thinking skills based on knowledge of course competencies to identify human anatomy and physiology including interrelationship of organ systems and homeostasis in the healthy body. Also covered will be common pathology, diagnostic aids and treatment options including pharmacology related to each body system. Study of the interaction that occurs between systems and changes to the structure and function that occur across the lifespan as well as patient education procedures. Safety procedures will be reviewed with each unit. Internet research will be used for a variety of health topics. Units studied: Iymphatic, respiratory, digestive, nutrition, nervous, sensory, endocrine, urinary, reproductive, common childhood diseases and end of life care.

Prerequisite: Grade of "C" or better in MAP 544

## MAP 60311000 VOC/TECH EMPLOYMENT SEMINAR

Students identify job opportunities, update resumes, compose cover letters and complete paper and online employment applications. Mock interviewing, guest speakers and application processes assist students in securing employment. Mandatory reporter training is also included.
Corequisite: MAP 624

## MAP 60610200 VOC/TECH

 PROFESSIONAL DEVELOPMENT IIICourse provides an opportunity for students to discuss situations that arise in the practicum experience. Weekly time sheets and activity reports are reviewed by the practicum coordinator to ensure that the student has adequate opportunity to utilize cognitive knowledge in the application of psychomotor and affective skills while working in all areas of the clinic. Oral reports are given by the students to incorporate critical thinking skills. Students are made aware of a wide variety of community services available to patients.

Corequisite: MAP 624

## MAP $624 \quad 500021$ VOC/TECH PRACTICUM

This course provides the student a supervised practicum in an ambulatory healthcare setting A minimum of 280 hours is obtained. Onsite supervision is provided by an individual who has knowledge of the medical assistant profession. Students will not receive compensation/payment, monetary or otherwise, from the practicum site. The practicum experience allows the student to demonstrate critical thinking by incorporating cognitive knowledge in the performance of psychomotor and affective domain skills in the administrative, clinical and laboratory areas.
Prerequisite: Satisfactory completion of all courses in first two terms. Corequisite: MAP 25

## MAP 803 <br> 300012 <br> VOC/TECH

 INTERNSHIP-MEDICAL OFFICE SPECThis course includes 180 hours of experience in an approved medical facility plus a weekly onehour seminar class. Emphasis is on the technical, interpersonal and team skills required to be successful in the medical office environment. P/F Prerequisites: HSC 121, MAP 532, MTR 121, ADM 215

## MAT 034 <br> 33000 <br> COLL PREP ARITHMETIC

A review of the fundamental operations of arithmetic including addition, subtraction, multiplication and division of whole numbers, decimals and fractions This is a college preparatory course designed for those students who need to review and improve their knowledge of the fundamentals of mathematics. College preparatory courses cannot be used to fulfill degree requirements.

## MAT 05344000 COLL PREP PRE-ALGEBRA

A review of arithmetic and an introduction to algebra. This is a college preparatory course designed to strengthen arithmetic skills and introduce basic concepts of algebra in preparation for MAT 063. College preparatory courses cannot be used to fulfill degree requirements.

## MAT 06344000 COLL PREP ELEMENTARY ALGEBRA

A beginning algebra course covering most elementary topics of algebra. This includes the real number system, solving equations and inequalities, polynomials, fractional equations and radical expressions. This is a college prep course designed for students with no algebra background or for students who need review. College preparatory courses cannot be used to fulfill degree requirements.

## MAT 0734000 COLL PREP ELEMENTARY ALGEBRA II

A review of elementary algebra along with the new topics including exponents and radicals, functions and graphs, quadratic equations, inequalities and systems of equations. This course cannot be used to fulfill degree requirements.
Prerequisite: One year H.S. algebra, department permission or MAT 063
MAT $093 \quad 11000 \quad$ COLL PREP
MATH STUDY SKILLS
Provides students with the study techniques
necessary for successful completion of their college
preparatory or college credit math courses. It also
addresses feelings and attitudes that might block
math learning and offers strategies and techniques
designed to overcome these feelings. College
preparatory courses cannot be used to fulfill
degree requirements.

## COURSE DESCRIPTIONS

## MAT 1103000 CORE MATH FOR LIBERAL ARTS

The student will begin to think critically by studying logic, sets and statistical reasoning. The student will examine problem-solving and decision-making by studying probability, application of statistical data, modeling and financial mathematics. The student will become aware of possible abuses of mathematics. Finally the student will understand the broad usefulness of mathematics by studying history of mathematics and application of mathematics in art, music, business and/or politics.

Prerequisite: One year of high school Algebra or MAT 063

## MAT 1143200 <br> CORE

 ELEMENTARY EDUCATORS MATH IThis is the first of two courses focusing on math concepts taught in $K-6$. Topics will be covered from both a practical and theoretical standpoint, with an emphasis on practical understanding using concrete examples. Course content includes problem-solving, systems of whole numbers, numeration, algorithms for computation, topics from number theory, and topics from geometry including measurement, polygons, polyhedra, congruence and transformations. This course is for students in education fields and is not appropriate for students majoring in other areas. This is not a methods course.
Prerequisite: Two years of H.S. Algebra or MAT 073 or department permission
MAT 1163200 CORE

## ELEMENTARY EDUCATORS MATH II

This course is a continuation of MAT 114. Course content includes basic 2D and 3D geometry and measurement, elementary probability, data analysis and statistics, operations and algorithms for computing with fractions, decimals, percents and integers.
Prerequisite: MAT 114 with a grade of " C -" or better

## MAT $121 \quad 44000$ GENERAL COLLEGE ALGEBRA

This course provides an intensified study of algebraic techniques and prepares students for future study in mathematics. The central theme of this course is the concept of a function and its graph. Topics include functions, exponents, logarithms, systems of equations, matrices, polynomials conic sections and probability.
Prerequisite: Two years of high school algebra or MAT 073

## MAT 129 <br> 55000 PRECALCULUS

Polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, analytic trigonometry, vectors, complex numbers, elementary theory of equations, linear systems, matrices and analytic geometry.
Prerequisite: MAT 130 or Equivalent or department permission

## MAT 130 <br> 33000 <br> CORE TRIGONOMETRY

Circular functions and their inverses, trigonometric identities, trigonometric equations, solving triangles and graphing.
Prerequisite: Two years H.S. Algebra, department permission or MAT 073

## MAT 14144000 CORE <br> \section*{FINITE MATH}

A general education course in practical mathematics for those students not majoring in mathematics or science. This course will include such topics as set operations and applications, methods of counting, probability, systems of linear equations, matrices, geometric linear programming and an introduction to Markov chains.
Prerequisite: One year H.S. Algebra or MAT 063

## MAT 14844000 GENERAL

## LINEAR ALGEBRA W/APPLICATIONS

A study of the use and application of matrices in the solution of systems of linear equations, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, bases and projections. Linear algebra is a core course in many engineering, physics, mathematics and computer science programs. This course makes heavy use of computing technology. Graphing calculators required.
Prerequisite: MAT 211 or equivalent
MAT 15744000
CORE
STATISTICS
Tabular and graphical presentation, measures of central tendency and variability, standard elementary procedures involving the binomial, normal, student's $T$, chi-square and $F$ distributions, correlation, regression, analysis of variance and several nonparametric procedures. Students will not receive credit for both MAT 157 and BUS 211
Prerequisite: Two years H.S. Algebra, department permission or MAT 073

## MAT 1602000 OPEN

 STATISTICAL BUSINESS APPL.This is the second course in the statistics sequence. Course content includes application and interpretation of probability and statistics as applied to business situations by using sampling, confidence intervals, control charges, simple linear regression analysis, multiple regression analysis, correlation analysis, data analysis, time series analysis, hypothesis testing and computer analysis.
Prerequisite: BUS 211 OR MAT 157
MAT 16243200 CORE PRIN. OF BUSINESS STATISTICS
Make inferences about population parameters. Conduct regression inferential analyses. Obtain, present and organize statistical data using measures of location and dispersion; the Normal distribution; sampling distributions; estimation and confidence intervals; inference for simple linear regression analysis. Use computers to visualize and analyze data.
Prerequisite: MAT 141 or MAT 157 or equivalent

## MAT $166 \quad 44000$ CORE CALCULUS FOR BUSN/SOCIAL SCI

Functions, graphs, differential calculus, integral calculus, introduction to max-min theory for functions of two variables. Emphasis on application of calculus to business problems. Not a substitute for MAT 211 and MAT 217.

Prerequisite: Two years H.S. Algebra and MAT 141; or MAT 073 and MAT 141.

MAT 211
55000
CORE

## CALCULUS I

Absolute values, inequalities, functions, limits, continuity, differentiation, definite integral, exponential and logarithmic functions.
Prerequisite: MAT 129 or equivalent or department permission

## MAT 2175000 CORE

 CALCULUS IIContinuation of Calculus I. Topics include applications of integration, integration techniques, L'Hopital's rule, improper integrals, infinite sequences, series, Taylor and Maclaurin series, the calculus of plane curves, parametric equations and polar equations.
Prerequisite: MAT 211
MAT 219 CORE
CALCULUS III $4000 \quad$ Continuation of Calculus II. Topics include vectors
and vector-valued functions, tangent and normal
vectors, arc length and curvature, vector fields,
line and surface integrals, Green's theorem, the
divergence theorem and Stokes's theorem, multi-
variable functions, partial derivatives, directional
derivatives and gradients, optimization of multi-
variable functions.
Prerequisite: MAT 217 or equivalent

## MAT 227 CORE DIFF EQUATIONS WITH LAPLACE

Ordinary differential equations, systems of ordinary differential equations, Laplace transforms, numerical methods and applications.
Prerequisite: MAT 217 or equivalent must be taken concurrently or prior to this course

## MAT 772 <br> 33000 <br> VOC/TECH

## APPLIED MATH

A course in elementary mathematical skills for technicians. Topics covered include fundamental operations with whole numbers, fractions, decimals and signed numbers; percents; geometric figures and basic constructions; area and volume formulas; English/Metric systems; measurements; and the interpretation of graphs and charts.

## MAT 773 <br> 33000 <br> VOC/TECH

APPLIED MATH II
A course in algebra and trigonometry for technicians. Topics covered include polynomials, equations, systems of linear equations, factoring, quadratic equations, trigonometry, powers, roots and logarithms.

## COURSE DESCRIPTIONS

## MFG 10532200 <br> VOC/TECH

 MACHINE SHOP MEASURINGA study of measurements as used in industry. Units of instruction include tools, gauges, comparators, gauge blocks and inspection practices.

MFG 12120400 VOC/TECH MACHINE TRADE PRINTREADING I
A beginning and intermediate blueprint reading course covering basic visualization of shapes and sizes and freehand sketching of objects. Includes section lining, print alterations and projections.

MFG $132 \quad 31400 \quad$ VOC/TECH MACHINE TRADE PRINTREADING II
An advanced blueprint reading course involving study of industrial metal work drawings as they apply to planning and laying out of jigs and fixtures.
Prerequisite: MFG121
MFG 140 VOC/TECH GEOMETRIC DIMENSION/TOLERANCE
A basic course explaining the GD \& T system and the symbols used within it.

MFG $15211000 \quad$ VOC/TECH REL WELD BLUEPRINT-MFG TECH
Basic skills will be developed in reading welding blueprints with emphasis on welding symbols.

MFG 17120400 VOC/TECH MANUFACTURING WELDING I
Basic skill will be developed in welding beads and buildup surfacing in the flat position, welding with oxy-acetylene equipment along with an introduction to GMAC welding

MFG $1720600 \quad$ VOC/TECH
RELATED WELDING-INDUST MAINT
A related welding course for industrial maintenance technicians to include the following topics: Theory and operation of welding equipment, related safety issues, metallurgy and related properties.

MFG $200 \quad 33000 \quad$ VOC/TECH INTRO TO SAFETY SCIENCE
This course will cover the introduction to safety in business and industry. It will familiarize students with terminology and economics, social, environmental, ethical and regulatory pressures of today. Overview of physical safety, protection and chemical, biological and mechanical hazards.

MFG $250 \quad 11000 \quad$ VOC/TECH ENGINE LATHE THEORY
An introductory level course explaining the theory of the basic operation and care of an engine lathe.
Corequisite: MFG 251
MFG $251 \quad 20400$ VOC/TECH ENGINE LATHE OPERATIONS LAB
An introductory level course for the metal cutting lathe. During this course, students will become familiar with the basic setups as well as safe operation and care of a lathe in a lab environment. Prerequisite: MFG 250

## MFG 260 VOC/TECH

MILL OPERATIONS THEORY
An introductory level course explaining the theory of the basic operation and care of vertical milling machines.

Prerequisite: MFG 261
MFG 26120400 VOC/TECH MILLING OPERATIONS LAB
An introductory level course for the vertical mill. During this course, students will become familiar with basic setups as well as safe operation and care of a milling machine in a lab environment.
Corequisite: MFG 260
MFG 270 VOC/TECH GRINDERS THEORY
Theoretical explanation of procedures in surface grinding.
Corequisite: MFG 271
MFG $271 \quad 30600 \quad$ VOC/TECH

## GRINDERS LAB

During this course, students will become familiar with basic setups as well as safe operation and care of a surface grinder in a lab environment. Corequisite: MFG 270

## MFG 273 <br> 22000 <br> VOC/TECH

## MILL OPERATIONS II

An advanced course for the vertical and horizonta milling machines. During this course, students will become familiar with advanced setups and machining concepts as well as safe operation and care of milling machines.

Prerequisite: MFG 260. Corequisite: MFG 274
MFG 27430600 VOC/TECH MILL OPERATIONS LAB II
An advanced course for the vertical and horizontal milling machines. During this course, students will become familiar with advanced setups and machining concepts as well as safe operation and care of milling machines.
Prerequisite: MFG 261. Corequisite: MFG 273

MFG 330 VOC/TECH
CNC MILL OPERATIONS THEORY
An introductory level course explaining the theory behind the basic operation and programming of a CNC vertical machining center.

Corequisite: MFG 331

## MFG 33121200 <br> VOC/TECH

 CNC MILL OPERATIONS LABAn introductory level course for programming and operating a CNC milling center in a lab environment. Corequisite: MFG 330
MFG $340 \quad 10200$ VOC/TECH

## BASIC LATHE OPERATION

Course covers setup and operation of the metal lathe, including lathe parts, materials and safety procedures
MFG $341 \quad 10200 \quad$ VOC/TECH
VERTICAL MILL OPERATION
Vertical mill operation is explained and
reinforced with practical experience using
vertical milling machines.

## MFG 350 11000 VOC/TECH

 CNC LATHE OPERATIONS THEORYAn introductory level course explaining the theory behind the basic operation and programming of a CNC lathe.

Corequisite: MFG 351
MFG $351 \quad 2120$ O VOC/TECH
CNC LATHE OPERATIONS LAB
An introductory level course for programming and
operating a CNC lathe in a lab environment.
Corequisite: MFG 350

MFG $381 \quad 32200$ VOC/TECH EDM FUNDAMENTALS
Operation of both conventional and wire EDM machines. Construction of EDM electrodes.
MFG $402 \quad 4400 \mathbf{O} \quad$ VOC/TECH
BASIC DIEMAKING THEORY
Introduction to diemaking principles covering
die sets, die components, cutting and forming
applications and material utilization. Experienced
individuals may contact instructor to gain
admittance to this course.
Prerequisite: MFG $270,271,350,351,330,331$.
Corequisite: MFG 403 BASIC DIEMAKING THEORY
Introduction to diemaking principles covering sets, die components, cutting and forming plicatuls may mantact ustructor to gan

Prerequisite: MFG 270, 271, 350, 351, 330, 331 .
Corequisite: MFG 403

## COURSE DESCRIPTIONS

## MFG 403601200 VOC/TECH

 BASIC DIEMAKING LABIntroducing the student to basic diemaking procedures as they construct a blank die, piercing die and a forming die.
Prereqquisite: MFG 270, 271, 350, 351, 330, 331.
Corequisite: MFG 402

## MFG $411 \quad 31400$ VOC/TECH PROGRESSIVE DIE DESIGN

Hands-on drafting experience in the design, drawing and detailing of a progressive die using computeraided design (CAD).

Prerequisite: CAD 184. Corequisite: MFG 412
MFG 41244000 VOC/TECH ADVANCED DIEMAKING THEORY
Complex die-making procedures, including CAM actuated dies and exposure to cost estimating and quoting.
Prerequisite: MFG 402
MFG $413 \quad 601200 \quad$ VOC/TECH ADVANCED DIEMAKING LAB
Constructing a more complex stamping die, including a progressive die that has been partially designed and detailed by the student.
Prerequisite: MFG 403. Corequisite: MFG 412
MFG 4523200 VOC/TECH MOLDMAKING
The student is presented with the basic fundamentals of plastic mold construction and molding processes. Experienced individuals may contact instructor to gain admittance to this course. Prerequisite: MFG 402 \& MFG 403

## MFG 50233000 VOC/TECH

INTRO STATISTICAL PROCESS CNTL
Introduction to the concepts of variability and statistical process control. The student will develop the ability to utilize the basic SPC tools, monitor and interpret charts and exercise statistical methods for continuous improvement.

MFG $510 \quad 33000$ VOC/TECH PRACTICES-CONTINUOUS IMPROVE
Provide understanding of the theories, methods and concepts of continuous improvement. Includes detailed, in-depth study of the current theories and practices used in business and provides the student with the knowledge to implement these techniques. Prerequisite: MFG 507

MFG 51233000 VOC/TECH INTRO QUALITY CONTROL MGMT.
This course provides the student with an in-depth knowledge of the skills, tools and management techniques unique to supervising and managing a quality function within an organization.
Prerequisite: MFG 502, 510

## MFG 521 <br> 11000 <br> VOC/TECH

 MEASURING DEVICES-SPCAn introduction to quality-control measuring devices, their use and application of data in Statistical Process Control

## MFG $522 \quad 33000 \quad$ VOC/TECH

## APPL OF STATISTICAL METHODS

An in-depth study in applying the concepts of MFG 502. Additional areas of concentration include sampling plan theory, FMEA study, alpha and beta calculations, reliability, values and applying these concepts in case studies.
Prerequisite: MFG 502

## MFG 52322000 VOC/TECH CONTROLLING MFG BUSINESS COSTS

The purpose of this course is to provide an understanding of the principles and concepts of production and work costs, the cost impact of shop floor activities and the various contributions company employees have on costs and profitability. Emphasis is placed on the effect an individual has on costs on a day-to-day basis.

## MFG 52433000 VOC/TECH

## PM \& DIAGNOSING MECH/ELEC SYS

Provide understanding in the concepts and methods of preventative maintenance. Includes the development of a maintenance and documentation system. Provide fundamental troubleshooting methods and concepts.

## MFG $818 \quad 500020$ VOC/TECH

IMT INTERNSHIP
Supervised work experience with employer based upon individual training plan that enables student to apply skills and knowledge.

Prerequisite: Successful completion of courses in terms 1, 2 and 3 of the Integrated Manufacturing Technology program.

## MFG 932 VOOO16 VOC/TECH

 INTERNSHIPStudents enrolled in this course will work in a manufacturing facility as a machinist. Emphasis will be on the integration of academic skills with practical work experience.
Prerequisite: Complete terms 1 and 2 and instructor permission

## MGT 1013000 GENERAL

 PRINCIPLES OF MANAGEMENTExplore basic management principles, concepts and practices in the areas of planning, organizing, leading and controlling. Paradigm shifts include motivation, leadership, group dynamics, job design, organizational structure, decision-making, social responsibility and global competition.

## $\begin{array}{ll}\text { MGT } 115 & 3 \\ \text { ADMINISTRATIVE MANAGEMENT }\end{array}$

Introduces concepts of office management aimed at increasing efficiency and productivity in operation of the office. Areas covered include: planning and organizing, leadership and human relations and controlling office operations.

## MGT 12833000 VOC/TECH ORGANIZATIONAL BEHAVIOR

This course introduces the basic concepts, methodologies and techniques used in the field of organizational development. Topics covered include fundamental concepts, leadership, organizational environment, social environment, group process and operating activities.

## MGT 1303000 OPEN

 PRINCIPLES OF SUPERVISIONA unique view of organizational structure, the managerial function and the role of the supervisor as it relates to the human relationship between supervisors, peers and subordinates and the practice of sound personnel techniques.

## MGT 1453000 HUMAN RELATIONS IN BUSINESS

OPEN
Emphasizes the importance of the development of proper attitudes toward self, others and organizational settings. Stresses the development of a good self image and the relationship this has to energy levels, emotions, verbal and nonverbal communication and defensiveness.

## MGT 147 VOC/TECH LEADERSHIP DEVELOPMENT

The central focus of this course is the development of leadership ability. The course provides a basic understanding of leadership and group dynamics theory, assists participants in developing a personal philosophy of leadership and an awareness of one's own ability and style of leadership.

## MGT $1643000 \quad$ VOC/TECH TOTAL QUALITY MANAGEMENT <br> The basis of this course is to provide an understanding of the principles and concepts of continuous improvement and the ability to apply them to an organization. Team concepts and the tools of SPC are also discussed.

## MGT $1703000 \quad$ VOC/TECH HUMAN RESOURCE MANAGEMENT

This course studies the role of human resource management as it applies to the challenges, problems, techniques, opportunities, ethical considerations and social dynamics in organizations. Emphasis on human resource activities of both managers and human resource specialists.

## MGT 19422000 VOC/TECH

 RELATIONSHIP STRATEGIES IN BUS Includes the awareness of communication styles and how to manage successful interpersonal and organizational relationships.MGT 248 3 3000 VOC/TECH
SYSTEMS \& INFORMATION MGMT.
An introduction of managing information for
decision-making. Planning what information
to obtain, sources and methods of collecting
information; interpreting and analyzing; presenting
and using information for decisions.

MGT 248 VOC/TECH

An introduction of managing information for decision-making. Planning what information information; interpreting and analyzing; presenting and using information for decisions.

## COURSE DESCRIPTIONS

MGT $800 \quad 600024 \quad$ VOC/TECH BUSINESS INTERNSHIP I
One semester of full-time successful introductory on-the-job training in a cooperating retail training station. Emphasis is placed on customer service and sales promotion strategies.
(P/F) Corequisite: MGT 802
MGT 8021200 VOC/TECH BUS. INTERNSHIP SEMINAR I
Field experience problems will be discussed, new occupational information will be presented and business people will speak on the functions, institutions and products found in the field of sales promotion.

Corequisite: MGT 800
MGT 805400016 VOC/TECH BUSINESS INTERNSHIP II
Sales promotion training of the level prescribed in the individual training plan. Exposure will be given to merchandising techniques. The training will be scheduled in an approved cooperating training station. Supervision of the training plan will be made by an instructor/coordinator.
(P/F) Corequisite: MGT 807
MGT 80711000 VOC/TECH BUS. INTERNSHIP SEMINAR II
Students are exposed to areas of sales promotion through guest speakers, visual aids and discussion of business.
Corequisite: MGT 805
MKT $110 \quad 33000 \quad$ GENERAL PRINCIPLES OF MARKETING
Marketing effectively and efficiently results in better customer loyalty, higher share of customers, relief from margin erosion, and higher customer satisfaction. Explore strategies used to get, keep, and grow customers. Theoretical concepts blend with real world applications in the areas of planning, decision-making, consumer behavior, ethics, product, price, distribution, promotion, service and international marketing

MKT 115
33000 OPEN BUSINESS TO BUSINESS MARKETING
Presents functional methods of business-tobusiness marketing. Examines all forms of wholesaler service and manufacturer-type marketing activities

## MKT $120 \quad 33000 \quad$ VOC/TECH E-MARKETING

Study of the Internet as a marketing tool. Investigation of the relevant issues and uses of Webbased marketing including influence on traditional marketing mix topics such as product, place, price and promotion. Focus will be on the use of technology rather than the technology itself.

MKT 1403000 OPEN SELLING
Emphasizes the "consultative style" of personal selling. Covers the importance of establishing good relationships, finding prospect needs, providing a solution to these needs, and closing a high percentage of sales interviews.

## MKT $1413000 \quad$ VOC/TECH ADVANCED SELLING STRATEGIES

Explores strategies related to working effectively with high-level decision-makers. Focuses on the individual adding value to the transaction to become the supplier of choice. Examines sales automation in depth.
Prerequisite: MKT 140
MKT 1453000 OPEN SALES MANAGEMENT
Expands on the selling process by training the trainer in functional aspects of sales force management. Emphasis on recruitment, selection and training procedures, motivation, group presentations and meeting management; compensation plans, territory management, forecasting and performance evaluation.

## MKT 150 OPEN PRINCIPLES OF ADVERTISING

The area of promotional communication is studied to achieve an understanding of the marketplace, the various advertising media and the development of an effective promotional message.

## MKT $160 \quad 33000 \quad$ VOC/TECH

 PRINCIPLES OF RETAILINGCourse examines development of retailing, organization of retail institutions, the merchandise handling process, understanding the retail customer, and future directions in retailing.

## MKT 1653000 VOC/TECH <br> RETAIL MANAGEMENT II

A problem-solving approach to the operating principles and methods in the retail field.
Management decision-making is emphasized.

## Prerequisite: MKT 160

## MKT $1823000 \quad$ VOC/TECH CUSTOMER RELATIONSHIP MGMT

Customer Relationship Management provides an overview of a business process used by over half of all retail organizations. This course outlines the steps in the process, the technology and marketing components included, and explains the fundamental benefits to a business with an effective CRM program.

Prerequisite: MKT 160

## MKT 1843000 <br> VOC/TECH CUSTOMER SERVICE

Designed to make students aware of the value and reliance that a company places on their Customer Service Representative. Emphasis is placed on developing skills that enable students to effectively work with external as well as internal customers. Self-management techniques are also included to enhance the retention of a positive attitude in the workplace.

MKT $1993000 \quad$ VOC/TECH SPORTS/ENTERTAINMENT MKTG.
Exploration of the essentials of effective sports/ entertainment marketing. Topics incluce application of the marketing principles in the sports/ entertainment area, licensing issues, sponsorships and endorsements, stadium and arena marketing, broadcasting and media considerations, public policy and the unique challenges for sports/ entertainment, specific products (concerts, special events, concessions, football, basketball, baseball, motor sports, etc.).

## MLT 1153220 <br> CLINICAL LAB FUNDAMENTALS

OPEN
A course designed to acquaint the student with the field of laboratory medicine. Basic lab math, testing methods, and quality control are presented. This course also incorporates an introduction to blood collection, and the study of common blood cells and blood cell disorders.

Prerequisite: Acceptance into the Medical Laboratory Technology program

MLT 1203200 OPEN URINALYSIS
This course includes the study of urine formation and the methodology of determining the physical, chemical and microscopic properties of urine in normal and abnormal states. Basic lab skills, safety and quality control in urinalysis are presented.
Prerequisite: Acceptance into the Medical Laboratory Technology program
MLT $180 \quad$ OPEN
CLINICAL LAB PRACTICUM I
Students report to a local hospital to join the
phlebotomy team to practice patient approach and
to draw blood specimens.
Prerequisite: MLT 115

MLT 2325300 OPEN ADV. HEMATOLOGY \& COAGULATION
A review of basic procedures followed by a study of normal and abnormal blood and bone marrow smears as they relate to anemias and leukemias. Hematology instrumentation, quality control, coagulation, and body fluid analysis are studied. This course includes an in-depth study of various anemias, leukemias and other hematological and coagulation disorders.
Prerequisite: Grade of "C" or higher in both MLT 115 and MLT 120

## COURSE DESCRIPTIONS

## MLT 24286400 OPEN

 CLINICAL CHEMISTRYStudy and analysis of electrolytes, proteins, lipids, enzymes, hormones, drugs and various other biochemical compounds found in the human body. Test results are correlated with patients' conditions. Laboratory math, statistics and quality control are presented.
Prerequisite: Grade of "C" or better in MLT 115/ and MLT 120. Successful completion of the following courses: BIO 164 or equivalent; CHM 122 or equivalent and CHM 132 or equivalent

## MLT 25164400 <br> OPEN

CLINICAL MICROBIOLOGY
A study of clinically important microorganisms. Students learn and practice techniques used to isolate and identify pathogenic bacteria, parasites and fungi.
Prerequisite: Grade of "C" or higher in MLT 115 and MLT 120. Successful completion of the following courses: BIO 164 or equivalent; BIO 732 or equivalent; CHM 122 or equivalent and CHM 132 or equivalent.

MLT 2615400 OPEN IMMUNOHEMATOLOGY
Principles of immunohematology with the practices of blood banking are presented. ABO grouping, Rh typing, and transfusion testing procedures are performed. Blood group antigens and antibodies are studied.
Prerequisite: Grade of "C" or better in MLT 232; MLT 270 must be taken prior to or concurrently and Serology must be taken prior to or concurrently with MLT 261. Successful completion of the following courses: BIO 164 or equivalent; BIO 732 or equivalent; CHM 132 or equivalent.

## MLT 270 OPEN

 IMMUNOLOGY \& SEROLOGYImmune reactions of the body will be studied. Reactions between antigen and antibodies will be used as a means to detect diseases such as hepatitis, infectious mononucleosis, and rheumatoid arthritis.

Prerequisite: Grade of "C" or higher in MLT 232
MLT $282 \quad 1200048$ OPEN CLINICAL LAB PRACTICUM II
Students rotate through the various departments (Hematology, Chemistry, Microbiology, Blood Bank and Urinalysis) of the hospital laboratory, applying the knowledge and skills learned in the classroom.
Prerequisite: Completion of first 4 terms of MLT program with a GPA of 2.0 or higher. Corequisite: MLT 290

## MLT 290 <br> 22000 <br> OPEN

 CLINICAL SEMINAR AND REVIEWStudents review medical laboratory subjects, share experiences in the clinical area, and present case studies. Job-seeking skills, continuing education opportunities, legal responsibilities, and professional organizations are also discussed. A mock
certification exam is given.
Prerequisite: Successful completion of first four terms in the Med Lab Tech program with a GPA of 2.0 or higher. Corequisite: MLT 282

## MLW $440 \quad 32200$ VOC/TECH

## BLUEPRINT READING AND LAYOUT

An introduction to blueprint reading and layout and the application of this knowledge with the use of specific tools.

## MLW 44132200 VOC/TECH

 MATERIAL IDENTIFICATION/USAGEAn introduction to the materials used in making architectural millwork products.

## MLW 4423200 VOC/TECH

 INTRODUCTION TO PORTABLE TOOLSAn introduction to safe use and the proper care and selection of power tools.

## MLW 443 VOC/TECH STATIONARY EQUIPMENT

The purpose of this course is to train the student in the identification, operation and the maintenance of stationary equipment.

## MLW 4442200 VOC/TECH ADVANCED EQUIPMENT TECHNIQUES

Advanced Equipment Techniques gives the student the opportunity to become proficient on the following equipment and associated software: CNC router operation and programming; Point-toPoint Machine Center operation and programming; Molder operation including template making, setup and maintenance; Beam saw programming, operation and maintenance; Edgebander operation programming and maintenance.
Prerequisite: MLW 440, MLW 441, MLW 442 and MLW 443

MLW 4453200 VOC/TECH MILLIMETER CABINET TECH
This course is an introduction to the rationale of cabinet making and millwork.
Prerequisite: MLW 440, 441, 442, 443
MLW 446 $42400 \quad$ VOC/TECH
MILLWORK TECHNIQUES
An introduction to the initial steps of applying
various millwork techniques to projects.
Prerequisite: MLW 440, 441, 442, 443

Prerequisite: MLW 440, 441, 442, 443

MLW 447 VOC/TECH INTRODUCTION TO APPLICATION
This course will allow students to begin combining their knowledge of the previous courses in Architectural Millwork to produce mock-up projects. Prerequisite: MLW 440, 441, 442, 443

MLW 448 VOC/TECH ADV MILLWORK APPLICATION I
This course will combine the skills learned from the previous courses to begin producing completed projects.
Prerequisite: MLW 444, 445, 446, 447

## MLW $449 \quad 51800 \quad$ VOC/TECH

 ADV MILLWORK APPLICATION IIThis course will combine the students' previous courses to produce a completed project from beginning to installation.
Prerequisite: MLW 448

## MOR 215 VOC/TECH

 FUNERAL LAW IA survey of the basic principles of business law as they relate to funeral service. Especially stressed are the bodies of law and the judicial system found in the United States including contracts, sales, bailment (including carriers), commercial paper, agency, employment and business organization.
Prerequisite: Admission to the Mortuary Science or Pre-Mortuary Science program

## MOR $300 \quad 21200$ VOC/TECH

 INTRODUCTION: FUNERAL SERVICEStudents will trace the history of funeral service from ancient times with an emphasis on the development of funeral practices in the United States, to include current practices in funeral service and contemporary issues affecting funeral service.
Prerequisite: Admission to the Mortuary
Science program

## MOR 3052000 VOC/TECH

 HISTORY OF FUNERAL SERVICEStudents will trace the history of funeral services from ancient times through current practices with emphasis on the development of funeral practices in the United States. Students study the customs of various cultures throughout the world including customs in the United States
Prerequisite: Admission to the Mortuary Science program

## MOR $310 \quad 33000 \quad$ VOC/TECH

 PATHOLOGY FOR MORTUARY SCIENCE Students will be introduced to the study of the cause, course and effects of diseases upon the human body, with stress on ways in which tissue changes affect the embalming process. Pathologic conditions that require special treatment and terminology associated with the causes of death.Prerequisite: Admission to the Mortuary
Science program

## MOR 315 <br> FUNERAL LAW II

33000
VOC/TECH
Deals with the statutory laws and practices pertaining to funeral services. The student will study the laws that govern the funeral director and the embalmer and their legal responsibilities to the consumer.
Prerequisite: Admission to the Mortuary Science program

## COURSE DESCRIPTIONS

## MOR $320 \quad 33000 \quad$ VOC/TECH THANATOLOGY

Designed to acquaint the student with an overview of psychology in funeral service as applied to death, grief and mourning. Students will be taught specific counseling procedures used when counseling the bereaved family. Pre-need and after-care services will be explored
Prerequisite: Admission to the Mortuary
Science program

## MOR $325 \quad 32200$ VOC/TECH FUNERAL DIRECTING

Surveys the principles related to funeral directing customs, religious and nonreligious ceremonies, human relations, relations with clergy and the professional behavior required of funeral directors. In addition, this course will give the student an understanding of the principles of the operations of a funeral home, including funeral services forms and vital statistics.

Prerequisite: Admission to the Mortuary
Science program

## MOR 330 VOC/TECH FUNERAL MERCHANDISING

This course is designed to give the student an understanding of the various products available through funeral homes and competing industries. Topics of study will include merchandising, casket, urn and vault construction.
Prerequisite: Admission to the Mortuary
Science program
MOR $335 \quad 33000 \quad$ VOC/TECH EMBALMING I
Basic techniques of embalming through disinfection, preservation and restoration of deceased human remains. Included are instruments, treatment planning and the practical application of modern embalming theory.
Prerequisite: Admission to the Mortuary Science program and BIO 733 or BIO 164

MOR $336 \quad 10200$ VOC/TECH
EMBALMING I CLINICAL
This course is a study of basic techniques of embalming through disinfection, preservation and restoration of deceased human remains. Included are instruments, treatment planning and the practical application of modern embalming theory.
Prerequisite: BIO 733 and Admission to the Mortuary Science program. Corequisite: MOR 335

## MOR 340 <br> 33000 VOC/TECH EMBALMING II

This course is a continuation of MOR 335. Theories and principles of embalming, embalming chemicals, cavity treatments and disaster management will be studied with an emphasis on application to specific cases.

Prerequisite: Admission to the Mortuary Science program and MOR 335

## MOR 341 <br> 10200

EMBALMING II CLINICAL
This course is an advanced study of embalming techniques. Included in the study will be the embalming of difficult cases.
Prerequisite: MOR 335 and admission to the Mortuary Science program. Corequisite: MOR 340

## MOR $345 \quad 33000$ VOC/TECH RESTORATIVE ART <br> Students will develop knowledge of anatomical modeling, facial expressions, color, cosmetics, display lighting, instruments and materials and techniques necessary to rebuild the human face that has been destroyed by traumatic and/or pathological conditions. <br> Prerequisite: MOR 335 and admission to the Mortuary Science program

## MOR $346 \quad 10200$ VOC/TECH RESTORATIVE ART LAB

This course is designed to provide the student with the theories applied in restorative art procedures. The student will study the anatomical structure of the cranial and facial areas of the human skull, facial proportions and markings, methods and techniques used to restore facial features destroyed by traumatic or pathological conditions and color and cosmetology theory.
Prerequisite: MOR 335. Corequisite: MOR 345

## MOR 350 21200 VOC/TECH FUNERAL HOME OPERATIONS

This course is designed to give the student an understanding of the principles of the operations of a funeral home. Topics of study will include funeral services forms, death benefits and vital statistics. In addition, this course will study the role and function of the funeral director as an effective manager. Emphasis is placed on small business management functions of planning, organizing, motivation, direction and controlling in the funeral home setting and introduces students, through a hands-on approach, to the basic computer applications that are part of the day-to-day operations of a funeral home.
Prerequisite: Admission to the Mortuary Science program. Corequisite: MOR 325

## MOR 35410200 <br> VOC/TECH <br> \section*{FUNERAL HOME OPERATIONS I}

This course is designed to give the student an understanding of the principles of the operations of a funeral home. Topics of study will include the role and function of the funeral director as an effective manager, with emphasis placed on small business management functions of planning, organizing, motivation, direction and controlling in the funeral home setting. In addition, the role of inventory knowledge, management and presentation will be addressed.

Prerequisite: Admission to the Mortuary Science program. Corequisite: MOR 330

## MOR 355 <br> 10200 <br> VOC/TECH

 FUNERAL HOME OPERATIONS IIThis course is designed to give the student an understanding of the principles of the operations of a funeral home. Topics of study will include funeral services forms, death benefits and vital statistics; an introduction, through a hands-on approach, to the basic computer applications that are part of the day-to-day operations of the funeral home; and conducting nonreligious funeral ceremonies.
Prerequisite: Admission to the Mortuary Science program. Corequisite: MOR 325

## MOR 36022000 <br> VOC/TECH

 THANATOCHEMISTRYThis course is a survey of the basic principles of disinfection and preservation as they relate to embalming. Especially emphasized are the chemical principles involved in sanitation, disinfection and embalming practice. The development and use of personal, professional and community sanitation practices is addressed, as well as use and precautions related to potentially harmful chemicals that are currently used in the field of funeral services.
Prerequisite: Admission to the Mortuary Science program or instructor permission. Corequisite: MOR 335

## MOR $36522000 \quad$ VOC/TECH

 SURVEY OF INFECTIOUS DISEASESThis course provides a survey of infectious disease processes, nonspecific and specific defense mechanisms and principles of infection control and epidemiology. Safe handling of infectious materials and personal protective equipment are emphasized.

Prerequisite: Admission to the Mortuary
Science program

## MOR 3902000 VOC/TECH

 PROFESSIONAL REVIEWStudents will study the professional standards and ethics to which funeral directors adhere. Students will also be exposed to test-taking strategies for the National Board Exam and discover the licensure process for funeral directors.
Prerequisite: Completion of all Mortuary Science courses, required general education courses, business core courses and consent of program chair. Corequisite: MOR 941

## MOR $941 \quad 400120$ VOC/TECH

 PRACTICUMStudents will be assigned to a college-approved funeral home to learn procedures and policies of the funeral home and perform duties directly relating to the practice of funeral service as assigned by the preceptor, licensed funeral home staff and faculty members.
Prerequisite: Completion of all Mortuary Science courses, required general education courses and business core courses and consent of the program chairperson. Corequisite: MOR 390

## COURSE DESCRIPTIONS

MTR $120 \quad 32200 \quad$ VOC/TECH MEDICAL TRANSCRIPTION I
Designed to prepare the student to transcribe from physician dictation. The course covers the various medical specialties and introduces the student to a variety of formats for medical materials.
Prerequisite: ADM 157. Corequisite: HSC 120 and BCA 133
32200
MTR 121 VOC/TECH

This course is a continuation of Medical Transcription I.

Prerequisite: MTR 120 with a grade of "C-" or better
MTR $122 \quad 32200$ VOC/TECH MEDICAL TRANSCRIPTION III
A continuation of Medical Transcription II. Concentrates on transcription of case histories and physicals, discharge summaries and operative reports with a variety of dictating styles.
Prerequisite: MTR 121
MUA 101 GENERAL
APPLIED VOICE
Individual instruction in voice. Weekly half-hour lessons in tone production, breath control, diction, literature and stage presence. May be repeated for a maximum of 4 credits.

MUA 12010200 GENERAL
APPLIED PIANO I
Individual instruction in piano. Weekly half-hour lessons. Beginning, intermediate and advanced students accepted. May be repeated for a maximum of 4 credits.

MUA 12121200 GENERAL APPLIED PIANO
This course is especially for the beginner in piano Students will be introduced to the fundamentals of piano playing, including beginning note reading for the keyboard, technical development and appropriate repertoire.

MUA 14710200 GENERAL APPLIED INSTRUMENTAL
Individual instruction in all instruments. Weekly half-hour lessons. May be repeated for a maximum of 4 credits.
MUS $100 \quad 33000$ CORE MUSIC APPRECIATION
A survey of the development of western arts music through study of representative compositions of many periods and styles. Includes definitions of musical terminology and a major emphasis on listening

## MUS 10233000 CORE MUSIC FUNDAMENTALS

This course introduces students to the elements of music through performance on recorder and piano. Includes instruction in teaching the elements of music to preschool and elementary school children

## MUS 10643200 MATERIALS OF MUSIC I

All aspects of music theory will be introduced and explored with the experienced music student. Activities will include ear training, sight singing, keyboard training and written theory assignments.

## MUS 107 <br> 43200 <br> GENERAL MATERIALS OF MUSIC II

As a sequel to Materials of Music I, this course will examine music theory in greater complexity and will emphasize the harmonic aspects of music. Activities will include ear training, sight singing, keyboard skills and written theory assignments.

Prerequisite: MUS 106

MUS 14321200 GENERAL CONCERT CHOIR
The concert choir is open to all students. Varied literature is chosen. May be repeated for a maximum of 8 credits.

## MUS 150 <br> 10200 <br> GENERAL CHAMBER ENSEMBLE

This course is open by audition with the conductor to any DMACC student. The Chamber Ensemble (Choir) performs music that represents a variety of musical styles; the music is generally more difficult than the music Concert Choir performs, so prior choral experience is most helpful. Performances serve as the midterm and final exams. There is no limit on the number of times a student may register for this course. However, only four semesters of credit for this course may be used as elective credit toward a DMACC degree.
Prerequisite: audition with the conductor

## MUS 202 <br> 33000 <br> CORE

## WORLD MUSIC

This course is a survey of musical styles from countries whose music is primarily based on concepts that are not part of the Western culture music tradition. The list of cultures whose music will be studied includes, but is not limited to, African, Chinese, Japanese, Indian, cultures from the Near East, and indigenous cultures from the Americas.

NET 12342400 VOC/TECH COMPUTER HARDWARE BASICS
This course follows the recommendations of CompTIA on the subject and materials to assist the student in learning about computer hardware and functions needed to pass the A Plus exam. A detailed study and hands-on lab component give the student the opportunity to install and troubleshoot computer hardware. It is recommended that the student have a basic understanding of computers, their use and operation.

## NET 1243000 VOC/TECH

 MICROPROCESSOR INTERFACINGA study of microprocessor/microcomputer interface methods. It includes parallel interfacing using the 8255 PPI and serial interfacing using UART and USARTs. Digital-to-Analog and Analog-to-Digital converters are also examined.

Prerequisite: ELT 611, 612. Corequisite: NET 125

NET 12540800 VOC/TECH MICROPROCESSOR INTERFACING LAB
An evaluation of microprocessor interface techniques. The experiments include parallel devices such as 8255 Programmable Peripheral Interface chip, UART and USART serial devices, $D / A$ and $A / D$ converters.

Prerequisite: ELT 611, 612. Corequisite: NET 124

## NET 1262000 VOC/TECH

 NETWORKING TECH-MAINFRAMETo provide a technical level of understanding in the areas of mainframe networking connectivity, data communication concepts and protocol communication concepts

## NET 1272000 <br> VOC/TECH

SERVICE \& SUPPORT
Provides technical level of competence installing network interface cards, replacing hard drives, installing communications software and hardware and troubleshooting 3.X and 4.X systems.
Prerequisite: NET 488

## NET 12844000 VOC/TECH NETWORK COMPATIBILITY PRODUCTS

Concepts of the software and hardware used to link various computers and operating systems.

Prerequisite: NET 443, 444. Corequisite: NET 129

## NET 12920400 VOC/TECH NETWORK COMPATIBILITY PROD LAB

Course covers installing and configuring compatibility software and hardware. Use of software to share data between dissimilar system types.

Prerequisite: NET 443, 444. Corequisite: NET 128

## NET 13943200 VOC/TECH MICROSOFT DESKTOP OPERATE SYS

This course covers the current Microsoft curriculum for the Microsoft Windows desktop operating system. For detailed information, contact the Advanced Technology Center or www.dmacc.edu/programs/itna (ITNA program).

## NET 1443200 <br> VOC/TECH

 DIGITAL \& COMPUTER ELECTRONICSIn the context of today's computer technology, this class studies digital electronic circuits concentrating on gates, counters, registers and memory. Also included is the study of data communications by bus structure, parallel and serial ports and microprocessors.
Corequisite: NET 145

## NET 14530600 VOC/TECH

 DIGITAL \& COMPUTER ELECT. LABIn the context of today's computer technology, this class continues the study of digital electronic circuits concentrating on gates, counters, registers and memory through hands-on lab experiments. Also included are lab tasks involving data communications by bus structure, parallel and serial ports and microprocessors.
Corequisite: NET 144

## COURSE DESCRIPTIONS

NET $213 \quad 42400$ VOC/TECH CISCO NETWORKING
This course provides the student with a technical level of understanding in the areas of PC and mainframe networking connectivity, data communications and protocol communication.

NET 22342400 VOC/TECH
CISCO ROUTERS
This course includes network standards, LANs, WANs, OSI models, routers, router programming, Ethernet and IP Protocol addressing and decisionmaking and problem-solving techniques.
Prerequisite: NET 213
NET 23342400 VOC/TECH CISCO SWITCHES
CISCO training includes learning the basics of setting up, configuring and maintaining a switch, bridge and router. Additional areas cover layer 1, 2 \& 3 network designs, IP addressing scheme, VLANS, IPX compatibility, access lists, TCS and TBC design. Prerequisite: NET 223

NET 24342400 VOC/TECH CISCO WIDE AREA NETWORKS (WAN)
CISCO training involves WAN design, point-topoint protocol, ISDN, frame relay and network management. Part of this course is involved with extensive review of semester one through semester four material in preparation for the CCNA.
Prerequisite: NET 233
NET $324 \quad 43200$ VOC/TECH WINDOWS NETWORK MANAGEMENT
This course is designed to meet the requirements of MCSE test \#70-218. It covers the basic, entry-level, Windows networking materials and skills.

Prerequisite: NET 123
$\begin{array}{ll}\text { NET } 333 & 3000 \text { VOC/TECH } \\ \text { IMP WINDOWS NETWORK INFRAS }\end{array}$ IMP WINDOWS NETWORK INFRAS
This course concentrates on the specifics of network infrastructure administration, including setting up, maintaining and administering the network. The content is geared toward preparation for the associated Microsoft certification test.
Prerequisite: NET 223, 623, 628

## NET 3432200 VOC/TECH WINDOWS DIRECTORY SERVICE

This course concentrates on the specifics of active directory administration. Course includes setting up, maintaining and administering the active directory services of current Windows server products.

Prerequisite: NET 223, 623, 628

## NET 36533000 VOC/TECH DESIGN MS ACTIVE DIR \& NETWORK

This course covers the current curriculum for designing MS active directory services and network infrastructure.

## NET 3763000 <br> VOC/TECH

 DESIGNING SECURITY FOR MS NETProvides knowledge and skills to design a secure network infrastructure, to design security policies and the operations framework. Topics include assembling the design team, modeling threats, analyzing security risks in order to meet business requirements for securing computers in a networked environment, designing an acceptable use policy, designing policies for managing networks, and designing an operations framework for managing security.
Prerequisite: NET 333, NET 343, NET 664

## NET 40232200 VOC/TECH

 LINUX NETWORK ADMINISTRATIONThis is the first in a series of ITNA Linux courses. This course covers the basic installation and administration of Linux operating system. For more information, contact the program chairperson of the ITNA Department.

Prerequisite: NET 623 or instructor permission

## NET 41232200 VOC/TECH

 LINUX SYSTEM ADMINISTRATIONThis is the second in a series of ITNA Linux courses. This course covers administration of the Linux operating system. For further information, contact the program chairperson of the ITNA Department.
Prerequisite: NET 402 or instructor permission

## NET 42232200 VOC/TECH

LINUX SYSTEM PROGRAMMING
This is the third in a series of ITNA Linux courses. This course covers system programming for the Linux operating system. The final project for the course will be creating your own Packet Sniffer/ Intrusion Detection System/Firewall. For more information, contact the program chairperson of the ITNA Department.

Prerequisite: NET 412 or instructor permission

NET 43232200 VOC/TECH LINUX SYSTEM SECURITY
This is the first in a series of ITNA Security courses. This course details how to protect your network from malicious users and how to choose and configure a Firewall for Microsoft Windows, Novell, Linux and Cisco. For further information, contact the program chairperson of the ITNA Department.

## Prerequisite: NET 623 or instructor permission

## NET 43432200 VOC/TECH

LINUX SYSTEMS \& CERTIFICATION
This course provides the student with a thorough study into various Linux/Unix systems available, the advantages and disadvantages, installation techniques and management functions. A significant amount of time will be spent loading, operating and contrasting the various operating systems.

Prerequisite: NET 402, 412, 432

NET 43532200 VOC/TECH LINUX PROGRAMMING FOR ADMIN
This course includes the study of creating and installing bash and Perl scripts, as well as a detailed study of their uses and power controlling a Linux or UNIX environment. The student will also create, compile and link C code and explore the UNIX/Linux kernel.
Prerequisite: NET 422

## NET 4363200 VOC/TECH

 LINUX NETWORK PROGRAMMINGThe purpose of this class is to familiarize the student with the functions and program skills to successfully support Linux in a network environment. The course will include a major project of programming and installing a successful Linux network service. Prerequisite: NET 435
NET $443 \quad 22000 \quad$ VOC/TECH
UNIX OPERATING SYSTEM
Concepts of the UNIX operating system
commands. Use of shells, shell scripts, facilities
and management commands.
Corequisite: NET 444

NET 44410200 VOC/TECH UNIX OPERATING SYSTEM LAB
Course includes working with UNIX commands. Students will work with shells, write shell scripts, run facilities and work with management commands.

Corequisite: NET 443

## NET 48443200 VOC/TECH

 NETPLUS CERTIFICATIONThis course is a comprehensive study for learning, mastering and practicing the concepts required to pass the CompTIA Net+ Certification Exam. The student will have a significant amount of reading and studying as well as skill-building lab time. This course is intended for the student seeking certification

## NET 48822000 VOC/TECH NETWARE 4.X ADMINISTRATION

Course covers the knowledge and skills needed to perform Netware 4.x network administration or system management tasks effectively.

## NET 51232200 VOC/TECH

 LINUX ENTERPRISE ADMIN IProvides knowledge and skills to perform competently in the role of Network Administrator or System Manager for NetWare 5.

Prerequisite: NET 213, 223

NET 52122000 VOC/TECH NOVELL SYSTEM ADMINISTRATION
Work as a design team using a case company.
Create a design document for Intranet Ware and create an implementation schedule.
Prerequisite: NET 512, 532

## COURSE DESCRIPTIONS

NET $532 \quad 32200 \quad$ VOC/TECH LINUX ENTERPRISE ADMIN. II
Provides advanced administration skills to design, configure and administer a complex NetWare 5 network
Prerequisite: NET 213, 223

NET 54122000 VOC/TECH NOVELL SYSTEM PROGRAMMING
The two main goals of the service and support course are NetWare installation and upgrade and basic network troubleshooting. After completing this course, you will be able to install file servers and workstations, configure and install network boards and cables and isolate and diagnose common network problems.
Prerequisite: NET 512, 532

NET 6123000 VOC/TECH FUND OF NETWORK SECURITY
The course prepares students to recognize the threats and vulnerabilities present in existing information systems and to learn to design and develop the secure systems needed in the near future. It also prepares students for the role of decision-maker in the area of information security. Topics include legal and ethical issues, security technologies risk management, network and system security, cryptography and information security maintenance.
Prerequisite: BCA113 or instructor approval

## NET 62344000 VOC/TECH NETWORK APPLICATIONS

This course will provide the student with an understanding of the software systems and applications that provide network services across differing networks and operating system platforms.

Prerequisite: NET 213. Corequisite: NET 628

## NET 628 <br> 20400 <br> VOC/TECH

 NETWORK APPLICATIONS LABThis course will provide the student with hands-on experience in installing and configuring the software systems and applications that provide network services across differing networks and operating system platforms.
Prerequisite: NET 213. Corequisite: NET 623

NET 65343200 VOC/TECH MICROSOFT EXCHANGE SERVER
This course covers the current Microsoft Curriculum in the Microsoft Exchange Server Series.

## NET 66452600 VOC/TECH MS WINDOWS PROF/SERVER

This course includes the curriculum for the current Microsoft versions of professional and server products. The content is geared toward preparation for the associated Microsoft certification tests.
Prerequisite: NET 223, 628, 623

## NET 680 <br> 33000 <br> VOC/TECH

 TCP/IP FOR NETWORKINGConcepts of the TCP/IP protocol suite. Includes protocol formats, usage and network commands. Concepts of design, installation and management are introduced.
Prerequisite: NET 443, 444. Corequisite: NET 681

## NET $681 \quad 10200 \quad$ VOC/TECH

 TCP/IP FOR NETWORKING LABHands-on command manipulation of a TCP/IP network. Also includes installation and management.
Prerequisite: NET 443, 444. Corequisite: NET 680
NET 71133000 VOC/TECH
SQL DATABASE
This course covers the current curriculum for implementing a database in Microsoft SQL Server. For more information, contact the program chairperson of the ITNA program.
Prerequisite: NET 333, 664, 343

## NET 71533000 VOC/TECH

 DATABASE SECURITY \& AUDITINGThis course is intended for students preparing for careers as developers, systems analysts, business analysts, database administrators or system development managers working with database applications. Students learn to implement database security and auditing in order to protect data.
Prerequisite: CIS 303

## NET 73032200 VOC/TECH COMPUTER FORENSICS \& INV.

An introductory course intended for system administrators providing training in detecting and analyzing data stored or often hidden on computer systems. The course prepares students to use computer forensics tools to uncover violations of company policy, embezzlement, e-mail harassment, leaks of proprietary information, and criminal activity.
Prerequisite: NET 612
NET $932 \quad 300012 \quad$ VOC/TECH INTERNSHIP
A semistructured experience in the student's chosen field of information technology working as an intern with a sponsoring organization. The student has the opportunity to network with professionals and employers in his or her field. The student will write a resume suitable for employment applications.

## OPT 11021200 VOC/TECH OPHTHALMIC PRETESTING

This course covers the relationships between optometry, ophthalmology and opticianry and various paraprofessional careers in vision care. The course involves the study of and practical experience in patient pretesting such as: case history, visual acuity, color vision, pupil evaluation, depth perception, as well as the specialized testing procedures of keratometry and blood pressure measurement.
$\begin{array}{lrl}\text { OPT } 112 & 32200 \quad \text { VOC/TECH }\end{array}$ OPHTHALMIC SPECIALTY TESTING
This course provides the student experience and knowledge in the areas of special vision care procedures: subjective refraction, tonometry (non-contact and Goldmann), visual field testing, slit lamp, basic concepts of orthoptics, and the treatment of eye diseases. This course also prepares the technician to assist the doctor in advanced office techniques in the area of ultrasound and in-office surgical procedures. Also covered are medications commonly prescribed for systemic conditions. Patient instruction and assistance are emphasized in laboratory sessions.
Prerequisite: OPT 110, OPT 120, OPT 123

## OPT 12032200 VOC/TECH

 BASIC OPTICAL CONCEPTS/OPTICSThis course covers the properties of light and the function of a lens in vision correction. This course begins the study of the neutralization and verification of spectacle lens powers, to include spherical, cylindrical and prism lenses.
Corequisite: MAT 772

## OPT 12321200 VOC/TECH

 OCULAR ANATOMY AND PHYSIOLOGYThis course is intended to familiarize the technician with the form and function of the human eye. The foundation of the lecture material is the anatomy of the eye, but we will discuss the physiology and function of the eye as much as possible. We will also discuss the actions and uses of diagnostic pharmaceutical agents, as their function is based on interference with normal ocular physiology. This course also covers optometric terminology.
Corequisite: BIO 733

## OPT 13021200 VOC/TECH

 OPHTHALMIC DISPENSING IThis course covers frame definition, parts and types of frames, measurement of frames and lenses, alignment of frames, inserting and removing lenses and an introduction to dispensing of eyewear and frame repairs.

## OPT 13221200 VOC/TECH

 OPHTHALMIC DISPENSING IIThis course assists the student in developing a mastery of the alignment, adjustment of eyewear and lensometry. It also covers the various lens materials, multifocal styles and lens tints.
Prerequisite: OPT 130, OPT 120

OPT 1402200 VOC/TECH CONTACT LENSES
This course gives the student in-depth exposure to the technical aspects of a clinical contact lens practice. Lecture and laboratory experiences emphasize lens verification, patient education and evaluation.
Prerequisite: OPT 120, OPT 110, OPT 123

## COURSE DESCRIPTIONS

Students participate 40 hours per week for 12 weeks of assigned clinical experience in clinical settings. The student is expected to achieve specific educational objectives determined for this experience.
Prerequisite: Completion of all program courses with a minimum grade of " $C$ " in each

## PEA 1020200 OPEN

## AEROBIC FITNESS I

Introduces aerobic concept of physical fitness. Includes aerobic activities, aerobic exercising and aerobic dance. Course designed for men and women.

## PEA 110 <br> 10200 <br> OPEN

## BADMINTON I

Introduction to basic skills (serve, clear, drop, drive and smash) and basic knowledge of game play.

PEA 117 OPEN BOWLING I
Beginning skills only.

PEA 134 OPEN
GOLF I
Beginning skills only.
PEA 144 OPEN

## PHYSICAL FITNESS/CONDITIONING

Development of personal fitness using a variety of conditioning and exercise techniques, including weight training, aerobics and aquatic fitness. Instruction on acute and chronic responses to exercise, and the role of exercise in health promotion and weight management.

## PEA 146 <br> 10200 <br> OPEN

## PHYSICAL FITNESS I

Various exercises and activities to improve physical fitness.

PEA 164 OPEN

## SWIMMING I

Recreational swimming at Heartland Health Center. Some swimming experience expected.

## PEA 1740200 OPEN

 TENNIS IIntroduction to basic skills (forehand, backhand, service and volley) and basic knowledge of game play.

PEA 176 OPEN
VOLLEYBALL 1

PEA 184 OPEN
WATER SAFETY INST/LIFEGUARD TR
Provides the studen with lifeguarding and the necessary skills to conduct/ instruct all levels of Red Cross swimming and water safety lesson programs. Upon satisfactory Certification in Lifeguarding and Water Safety Instructor.

## PEA 18710200 <br> WEIGHT TRAINING I

Introduction to basics of weight training.
Emphasizes increasing physical capacity, i.e., increased muscular strength and power.

PEA 23410200
OPEN
GOLF II
Expansion of basic golf skills.
Prerequisite: PEA 134 or equivalent skill

## PEA 284 OPEN

ADVANCED LIFESAVING
Purpose is to provide the student with the skills/ techniques to successfully rescue a person in need. Focus on water safety, personal and self rescue, swimming rescues and artificial resuscitation. Upon satisfactory completion, the student will receive Red Cross Certification.
Required: Students must pass a swim test

## PEC $110 \quad 11000$ OPEN

COACHING ETHICS, TECH \& THEORY
Course covers techniques and theory of coaching in addition to sports physiology, preparation for competition, and issues in coaching.

## PEC $161 \quad 33000$ <br> OPEN <br> SPORTS OFFICIATING

Study of the rules and official's mechanics for high school football, basketball and baseball. Provides guidelines for students to become licensed officials in lowa for these sports.

| PEH 102 | 33000 |
| :--- | :--- |
| HEALTH |  |

OPEN
HEALTH
Physical, emotional and social factors as they relate to our state of personal health. To better understand and aid in the alleviation of communicable and chronic diseases, drug use and environmental problems.

## PEH 110 <br> 22000 <br> VOC/TECH <br> PERSONAL WELLNESS

This course will aid in the enhancement of knowledge, skills, and attitudes necessary to promote positive, lifelong wellness decisions. Students will look at the physical, social, intellectual, emotional, occupational and spiritual components of wellness.

## PEH 1203000 <br> OPEN PRINCIPLES PERSONAL TRAINING I

Entry-level course designed to introduce the field of personal training. Basic exercise assessment and prescription concepts will be used to discuss and demonstrate safe and appropriate fitness programs with an emphasis on preparing students for taking a nationally recognized certification exam.

## PEH 141

22000
GENERAL
FIRST AID
Discussion and application of the basic techniques in administering first aid will be covered in this course. Cardiopulmonary resuscitation will be covered and other emergency situations will be discussed. Red Cross certification will be awarded to those who qualify.

## PEH 1623000 OPEN

 INTRO TO PHYSICAL EDUCATIONHistory of physical education. Careers and professional leadership in physical education with emphasis on teaching. Examines the four areas of most vital concern to the physical educator: recreation and leisure, sports, curriculum, and research and evaluation.

PEH $1783000 \quad$ VOC/TECH SPORTS DIVERSITY
This course examines diversity in sports and in sports organizations: how individuals differ, how differences influence organizations, how to manage diversity in the workplace, how to understand legal issues and manage diversity training.

## PEH $190 \quad 22000$ VOC/TECH SPORTS NUTRITION

Basic principles of human nutrition and nutritional needs for athletes and/or physically active populations. Issues discussed include ergogenic aids, carbohydrate loading/manipulation, eating disorders, protein supplements and hydration. Practical application will include dietary analysis and composition for people in various activities and conditions.

## PEH 2553000 OPEN PRINCIPLES-SPORTS MANAGEMENT

The foundation and principles of sport management. Theory, ethics and practice of management are discussed in relation to the fitness and sport industries.

PEH 2623000 OPEN WELLNESS PROG/PLANNING/ORGANIZ
The purpose of this course is to familiarize the student with wellness programs in the workplace. Emphasis will be on program design, health assessment, corporate management issues and promotion.

## COURSE DESCRIPTIONS

PEH 265 OPEN
LEADERSHIP TECH FITNESS PROG LEADERSHIP TECH FITNESS PROG
Development of exercise leadership skills for a variety of activities. Includes the planning and promotion as well as the teaching techniques for developing fitness in others using a variety of exercise modalities. Aerobics, weight training and aquatic fitness are included.
Prerequisite: PEA 144
PEH 920 OPEN FIELD EXPERIENCE
Supervised experience in fitness or sports management agency. The student will be able to apply their own knowledge and skills in a professional setting.
PET 11021200 OPEN INTRO TO ATHLETIC TRAINING
Entry-level course designed to introduce the potential coach or athletic trainer to the field of athletic training. Basic care and prevention of athletic injuries will be dealt with in order to equip the coach or trainer with the knowledge to make intelligent decisions regarding common athletic injuries.

## PEV 11510200 OPEN VARSITY BASEBALL

Provides experience and instruction in men's baseball. Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit 1 credit per year with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.

Prerequisite: Permission of the head coach

## PEV 1210200 OPEN <br> VARSITY BASKETBALL, MEN

Provides experience and instruction in men's basketball. Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit 1 credit per year with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.
Prerequisite: Permission of the head coach

PEV 12210200 OPEN VARSITY BASKETBALL, WOMEN
Provides experience and instruction in women's basketball. Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit 1 credit per year with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.
Prerequisite: Permission of the head coach

## PEV 13010200 <br> VARSITY CROSS COUNTRY

Provides experience and instruction in cross country Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit 1 credit per year, with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.

Prerequisite: permission of the head coach.

PEV 140
10200
OPEN
VARSITY GOLF
Provides experience and instruction in golf. Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit of 1 credit per year, with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.

Prerequisite: Permission of the head coach

## PEV 170 OPEN

 VARSITY VOLLEYBALLProvides experience and instruction in women's volleyball. Course is designed for the varsity athlete in terms of conditioning, practice, game preparation and weight training. Limit 1 credit per year, with a maximum of 2 credits total. Credit for a sport course may not be applied toward graduation if credit is also received for any skill technique course in the same sport.

Prerequisite: Permission of the head coach

## PEV 190 OPEN

VARSITY SPIRIT SQUAD
Men and women desiring to be basketball cheerleaders for varsity basketball season.

## PHB 1133200 VOC/TECH PRINCIPLES OF PHLEBOTOMY

An orientation course designed to give students a thorough background in blood collection, including demonstrations of and practice performing venipuncture and skin puncture techniques. This course is required for students who wish to obtain certification in Phlebotomy. Students must also enroll in the Phlebotomy Clinical course (PHB 280).

Corequisite: PHB 280

## PHB 28020035 VOC/TECH PHLEBOTOMY CLINICAL

Students report to a local hospital to practice patient approach and collect blood specimens from hospital patients. The 120-hour clinical includes both supervised experience and independent clinical learning experiences.
Students MUST also take PHB 113.

## PHI 1013300 INTRODUCTION TO PHILOSOPHY

CORE

Exploration of basic questions in epistemology, metaphysics and ethics. Emphasis on western philosophy tradition.

## PHI 10533000 <br> CORE INTRODUCTION TO ETHICS <br> Comparative study of different traditional moral theories. Application of moral theories to different contemporary moral problems.

## PHI 11033000 <br> CORE

 INTRODUCTION TO LOGICLearn to recognize and construct good arguments. Study of deduction including categorical and truth functional arguments. Study of induction. Examination of informal fallacies.

## PHR 10022000 VOC/TECH PHARM TECHNICIAN ORIENTATION

This course is designed to provide the student with an overview of the pharmacy profession, pharmacy law and the role and function of the pharmacist, the pharmacy technician and the pharmacy clerk. A large component of this course will focus on learning the importance of interpersonal communication skills and confronting communication barriers.

## PHR 10133000 VOC/TECH

 PHARMACY OPERATIONS IThis course simulates daily activities in the pharmaceutical practice settings. Topics include: order entry processes, medication distribution systems, inventory, prescription processing, billing, repackaging, cart fills, floor stock, robotics, controlled substance distribution, pharmaceutical computer systems, utilization of drug information resources and proper communication techniques.

PHR 10233000 VOC/TECH

## PHARMACY OPERATIONS II

This course emphasizes the expanded responsibilities of pharmacy technicians. Topics include: insurance processing, inventory control, investigational drugs, clinical pharmacy technician activities, chart reviews, quality assurance, herbal medication, robotics/automation, immunizations, managed care pharmacy, home care pharmacy, long-term care, home monitoring units, patient compliance, physical assessment monitoring, technician organization membership and medical/ surgical supplies.
Prerequisite: PHR 101 or permission of program chairperson

## PHR 1233000 VOC/TECH

## PHARMACOLOGY I

This course provides practical knowledge of pharmacology including pharmaceutical nomenclature and classification, mechanisms of drug actions, interactions, indications and contraindications, side effects, and methods of administering therapeutic agents primarily in the nervous, endocrine, skeletal, muscular, cardiovascular, respiratory and gastrointestinal systems.
Corequisite: BIO 733

## COURSE DESCRIPTIONS

```
PHR 124 33000 VOC/TECH
PHARMACOLOGY II
```

This course provides practical knowledge of pharmacology including mechanisms of drug actions, interactions, indications and contraindications, and medication side effects in the following therapeutic categories: dermatology, sensory (eye and ear), immunology, hematology, urinary/renal, infectious disease, oncology, nutrition, toxicology, recombinant technology and over-thecounter medications.
Prerequisite: PHR 123 or permission of program chairperson

## PHR 135 <br> 33000 <br> VOC/TECH

 PHRM CALC \& COMPOUNDINGPharmaceutical calculations and compounding will include reading, interpreting and solving calculation problems encountered in the preparation and distribution of drugs. Specific compounding topics include medication and parenteral administration, facilities-equipment-supplies utilized in admixture preparation, techniques utilized in parenteral product compounding, parenteral medication incompatibilities and quality assurance.

## PHR $140 \quad 11000 \quad$ VOC/TECH

PHARMACY LAW
This course reviews the laws affecting pharmacy practice. Course highlights include the Food, Drug and Cosmetic Act and various federal and state controlled substance acts.

## PHR 80120008 VOC/TECH

## PHARM TECHNICIAN INTERNSHIP I

This course provides the application of basic pharmacy technician concepts in a community pharmacy setting with rotation options in a long-term care pharmacy or a home healthcare pharmacy. Internship requires 150 contact hours.
Prerequisite: Approval of program chairperson

## PHR $802 \quad 31008$ VOC/TECH

PHARM TECHNICIAN INTERNSHIP II
This course provides an advanced-level internship rotation in a pharmacy setting such as community hospital or medical center, intravenous home healthcare facility, drug information center or a customized rotation based on a student's previous experience. Internship includes 16 hours of seminar. Internship requires 150 contact hours.
Corequisite: Approval of program chairperson

## PHS 15243200 CORE

## ASTRONOMY

The student is introduced to a scientific overview of stars, planets, galaxies and other inhabitants of the universe and the forces that determine their behavior. The history of discovery and the methods used to study distant objects are included.

## PHY 10643200 <br> CORE

 SURVEY OF PHYSICSThe student is exposed to the scientific method with an emphasis on elementary problem-solving. Along with a review of basic mathematics, the topics of weights and measures, mechanics, heat, gas laws, electricity, magnetism, sound, light and modern physics are covered.

## PHY 16054200 CORE

## GENERAL PHYSICS I

This course is the first semester of a two-semester sequence in non-calculus physics. Topics include forces, linear and rotational motion, energy, momentum, fluids, gases and heat.

Prerequisite: MAT 130 or HS equivalent

## PHY 16154200 CORE GENERAL PHYSICS II

This course is the second semester of a twosemester sequence in non-calculus physics.
Topics include electricity, magnetism, optics and modern physics.

Prerequisite: PHY 160 or instructor's permission

## PHY 2136500 <br> CORE

CLASSICAL PHYSICS I
This course is calculus-based and intended for engineering and science majors. Topics covered include statics, dynamics, kinematics, fluid behavior, wave motion, vibrating systems, heat and thermodynamics.

Corequisite: MAT 211 or equivalent must be taken concurrently with or prior to this course

## PHY 2236500 CORE

CLASSICAL PHYSICS II
This course is a continuation of Classical Physics I. Topics covered include static electricity, electrical circuits, magnetism, time-dependent electric and magnetic fields, optics and modern physics.

Prerequisite: PHY 213 or equivalent. Corequisite: MAT 217 must be taken concurrently or prior to this course

## PHY $710 \quad 32200 \quad$ VOC/TECH

 TECHNICAL PHYSICSA physics course for students of technology. Topics include forces, work, energy, heat, electricity and magnetism with a strong emphasis on practical applications.

Prerequisite: MAT 772 or equivalent

## PNN 15142400 OPEN

 FUNDAMENTALS OF NURSINGIntroduces the concepts of health assessment, safety, critical thinking, pharmacology, teaching/ earning and communication. Associated skills are performed in the laboratory setting

PNN 152
42230
OPEN NURSING PRACTICE I
Introduces nursing care of clients with common health problems with a focus on health assessment, standardized plan of care, therapeutic interventions, safety and basic communication. Includes lab and practicum applications.

Prerequisite: PNN 151 and PNN 153

PNN 15322000 OPEN SUCCESS IN NURSING
Explores the art and science of nursing practice including nursing history, roles and legal/ethical practice issues for the professional practical nurse. Healthcare settings and health/illness/ hospitalization will be discussed. Strategies for success in nursing will be applied

## PNN 35111000 <br> OPEN

PRACTICAL NURSING ROLES
Examines roles and responsibilities of the licensed practical nurse including client response to acute and chronic illness and individual readiness to practice nursing
Prerequisite: PNN 151, 152, 153, PSY 121, BIO 734

PNN 6055300 OPEN NURSING PRACTICE II
Theory and practicum in caring for clients with predictable health needs involving sexuality, reproduction, sensory/perception/cognition, health promotion, illness prevention, self concept, mobility and bowel elimination alterations
Prerequisite: PNN 151, PNN 152, PNN 153, PSY 121, BIO 734

```
PNN 606
53060
OPEN NURSING PRACTICE III
```

Theory and practicum in caring for clients with predictable health needs involving comfort, circulation, oxygenation, nutrition, endocrine and urinary alterations.
Prerequisite: PNN 151, 152, 153, PSY 121, BIO 734

## POL 11133000 CORE

 AMERICAN NATIONAL GOVERNMENTA study of the American political system and how and why the citizenry relate to the government as they do. Emphasis is placed upon the organization and functioning of the presidential, legislative and judicial subsystems.

## POL 1123300 CORE

 AMER STATE \& LOCAL GOVERNMENTA study of the organization, operations and politics of state and local governments. Emphasis on an analysis of the legislative, executive and judicial roles and processes

## POL 1213000 <br> CORE <br> INTERNATIONAL RELATIONS

The international system is examined from several perspectives including the United States, Russia and China. Emphasis is placed upon ideology, national interest, the use of power, international law and organization.

## COURSE DESCRIPTIONS

POL $125 \quad \mathbf{3 0 0 0}$
COMPARATIVE GOV'T \& POLITICS CORE
Examination of the government and politics of such
countries as Great Britain, Mexico, Germany and
Russia. Each nation is viewed in terms of its political
culture, party system, executive, legislative and
legal organization.

POL 1273000 GENERAL NEWS MEDIA-ELECTORAL POLITICS
Course will examine the role the news media play in electoral strategy and outcomes. Focus will be on the relationship between the voting public, television and print media, and public officials. The most recent election will be assessed. The course is designed for prospective journalism and political science majors.

Corequisite: JOU 163

## POL 1293000 GENERAL POLITICS OF TERRORISM

An interactive course analyzing the philosophy and methodology of prominent extremist groups in the USA and the world. Focus will be on definitions, conditions, media response and prospects for future terrorist activity. Assessments will be studentcentered and emphasize research and composition.

## POL $171 \quad 33000$ <br> CORE

INTRO TO PUBLIC ADMINISTRATION
Study of the theory and practice of public administration examining alternate organization theories and practices, personnel administration, problems of communications within organizations, and styles of leadership. Course emphasizes the interrelationships of professional and political influences on decision-making.

## PRL $103 \quad 33000$ <br> OPEN

 INTRODUCTION TO LAWA general introduction to the American legal system including case briefing, court structure, and civil, criminal and administrative procedure. An examination of ethical and professional practice standards applicable to the legal profession. Understanding of the roles of the judge, jury, attorney and legal assistant.

## PRL 112 <br> 33000 <br> OPEN

LEGAL RESEARCH \& WRITING I
The nature of legal authority and tools and techniques of basic legal research and writing. Emphasis will be on Iowa law. Degree Students: If transcript has not been submitted you, must contact the registration office to register for this course.
Prerequisite: ENG 105
PRL 1133000 OPEN
LEGAL RESEARCH \& WRITING II
Advanced application of principles of legal research. Preparation of interoffice memoranda and demand letters. Out-of-state and federal law.

Prerequisite: PRL 103, 112

## PRL 1143000

 ADV LEGAL RESEARCH \& WRITINGResearch and analysis of complex and multiple factual and legal issues. Preparation of legal documents using analysis and application of legal research. Use of specialized research sources. Prerequisite: PRL 113

## PRL 11811000 <br> COMPUTERIZED LEGAL RESEARCH

OPEN
Introduction to computer-assisted legal research. Training in legal research search strategies using both the Lexis and Westlaw systems.

Prerequisites: PRL 103, PRL 112 and PRL 113

## PRL 1253000

 EVIDENCE: THEORY \& PRACTICEA study of the substantive and procedural laws of evidence. Introduction to the rules of evidence. Methods of discovering, preserving and presenting evidence in civil and criminal trials.

Prerequisite: PRL 131 or instructor permission

## PRL 13133000

OPEN TORTS \& LITIGATION I
A study of the basic law relating to personal and property damage. Topics include intentional tort, negligence, nuisance, strict liability and automobile law. Principles of trial practice including drafting basic pleadings and organization of materials for trial.

Prerequisite: PRL 103, 112 or instructor permission

## PRL 132 <br> 33000

TORTS \& LITIGATION II
A continuation of Torts \& Litigation I. Areas of concentration will be premise liability, family torts, defamation, governmental immunity, malpractice, and wrongful death. Advanced trial practice including drafting of pleadings and discovery documents.
Prerequisite: PRL 131

## PRL 137 <br> 33000 <br> OPEN

DEBTOR/CREDITOR LAW
Procedures in nonbankruptcy debt collection. Fundamentals of bankruptcy law and bankruptcy procedure. Examination of alternatives to formal bankruptcy proceedings.

Prerequisite: PRL 103, 112 or instructor permission

## PRL 141 <br> 33000

BUSINESS \& CORPORATE LAW I
A study of the fundamentals of the law of contracts, the uniform commercial code and the rights of creditors in transactions.

33000
PRL 142 BUSINESS \& CORPORATE LAW II
Continuation of Business \& Corporate Law I. Survey of rights of debtors and creditors in collections and bankruptcy. Formation of proprietorships, partnerships and corporations, and a survey of the law applicable to each. Preparation of documents necessary to the organization and operation of each.

Prerequisite: PRL 141

PRL 15133000
OPEN
REAL ESTATE LAW
A study of the law of real property and a survey of the more common types of real estate transactions. Emphasis is on the preparation of the instruments necessary to complete various real estate transactions.

Prerequisite: PRL 103, 112 or instructor permission

PRL 16133000 OPEN FAMILY LAW
The legal aspects of the family relationship. The rights and duties of the parties in marriage, annulment, divorce, child custody and adoption. The course will emphasize the use of domestic law forms.

Prerequisite: PRL 103, 112 or instructor permission

## PRL 167 <br> 33000 <br> OPEN

PROBATE PROCEDURE
A study of wills including validity requirements, modification and revocation. Formation of trusts and the characteristics and requirements of each type. Laws of testate and intestate succession Forms and procedures for probating an estate.

Prerequisite: PRL 103, 112 or instructor permission

## PRL 1693300 <br> OPEN

 WILLS/ESTATE PLANNING/TAXATIONBasic principles of estate planning in order to minimize estate and gift tax consequences.
Preparation of federal estate, gift tax returns, and lowa inheritance tax returns. Drafting of wills designed to carry out estate plans.

Prerequisite: PRL 167
PRL 17133000 OPEN ADMINISTRATIVE PRACTICE
A study of administrative law and procedures for administrative hearings in various governmental agencies. Drafting and researching administrative rules and regulations will be covered
Prerequisite: PRL 103, 112 or instructor permission

## PRL 182

33000
OPEN MEDIATION
Classroom study of mediating legal disputes Students will study the purposes of mediation using "objective" criteria, impediments to resolution, moving beyond impasse and reaching an agreement.

Prerequisite: PRL 103, 112 and/or instructor permission

## PRL 280 <br> 410015 <br> OPEN LEGAL INTERNSHIP \& ETHICS

Application of the theoretical knowledge gained in the classroom by interning in a private law office, governmental agency or private business that utilizes attorneys. Students will participate in seminars concerning their internship experiences and legal ethics. Total internship requirement is 225 hours.
(P/F) Prerequisite: Minimum grades of " $C$ " in all PRL courses and complete a minimum of eight PRL courses

## COURSE DESCRIPTIONS

## PSY 10233000 GENERAL HUMAN AND WORK RELATIONS <br> Emphasizes an awareness of the factors inherent in human relationships and psychological adjustment patterns of individuals and groups. Effort is made to develop the techniques of interpersonal relations and coping.

## PSY 11133000 CORE INTRODUCTION TO PSYCHOLOGY

A survey of psychology including theoretical and experimental findings and applications from areas such as neurobiology, learning, memory, personality, social, abnormal and therapy.

## PSY 12133000 CORE

## DEVELOPMENTAL PSYCHOLOGY

The study of factors that affect human development from conception to death, with emphasis on topics such as physical, cognitive and social changes, methods of study and current issues.

## PSY 14033000 GENERAL

 EXPLORING MENTAL HEALTHExplores the basic causes, manifestations and treatment of common psychological disorders. The course introduces mental illness along a continuum from functional to dysfunctional.

## PSY 1723300 GENERAL

 STRESS \& STRESS MANAGEMENTThis course provides basic instruction in understanding stress reactions, their causes and effects and the theory and application of stress management techniques. Includes theories of stress and stress reduction, physiological/ psychological reactions to stress, measurement of stress reactions, and application of stress reduction.

## PSY 24133000 CORE

 ABNORMAL PSYCHOLOGYAn introduction to the study of abnormal behavior, with emphasis on anxiety, depression, schizophrenia and personality disorders. The course includes understanding the personal dynamics of mental disorders and biopsychosocial factors involved in assessment, etiology and treatment.

Recommend PSY 111 be taken prior to this course.

## PSY 25133000 SOCIAL PSYCHOLOGY

This course surveys selected topics in social psychology including social perception, social influence, attraction, altruism, aggression, persuasion, attitude formation, group processes, and applications of research to everyday situations.
PSY 261 CORE

## HUMAN SEXUALITY

This course provides students with definitive and precise information about the nature of human sexuality and gender roles. An interdisciplinary approach will be used to present a more comprehensive view, stressing the biological, social, and psychological aspects of sexuality and gender roles.

## PSY $281 \quad 33000$ GENERAL EDUCATIONAL PSYCHOLOGY <br> The principles of psychology applied to classroom teaching, with emphasis on such topics as development, learning, motivation, evaluation, adjustment, and educational techniques and innovations. <br> PSY 291 GENERAL PRIN. OF BEHAVIOR MODIFICATION

The principles of learning theory with a major emphasis on operant conditioning will be studied. Emphasis will be on the practical application of these principles to the areas of mental health, mental retardation and education.

## RCP 10033000 <br> OPEN INTRO TO RESPIRATORY CARE

This initial course in the Respiratory Therapy program emphasizes the assessment and evaluation of patients. Also included will be a history of healthcare, medical specialties, communication skills, and medical terminology. Students must demonstrate skill in the assessment of patient vital signs.

Prerequisite: BIO 733 or BIO 164

## RCP 24043200 OPEN RESPIRATORY THERAPEUTICS

This course introduces the student to basic therapeutic techniques utilized in respiratory care. Major topics include medical gas therapy, humidity and aerosol, cylinder systems and physical principles of gases and liquids. Students will be required to demonstrate competence in the techniques to receive a passing grade in the course.

Prerequisite: RCP 100 must be taken concurrently or prior to this course

## RCP 250 OPEN

## CARDIO/PULMONARY THERAPEUTICS

Students will learn basic patient care techniques of hyperinflation therapy, secretion clearance, airway care, patient assessment, pulmonary rehabilitation, subacute respiratory care and assessment of effectiveness of therapies. Students will be required to demonstrate competence in procedures to succeed in this course.

Corequisite: RCP 100 must be taken concurrently with or prior to this course. Corequisite: RCP 240

## RCP 3605000 OPEN

CARDIO/PULMONARY RENAL PATHOPH
An in-depth study of the normal functioning of the cardiovascular, pulmonary and renal systems, emphasizing their interactions, is presented. Progresses to study of the common adolescent and adult diseases affecting the three systems. Interpretation of the results of arterial blood gas pH data will be taught.
Prerequisite: RCP 250 and BIO 734 must be taken concurrently with or prior to this course

## RCP 40033000 <br> OPEN

 RESP THERAPY PHARMACOLOGYThis course provides a study of the actions and interactions of drugs with and within the body. Theories of drug action, pharmacodynamics and methods for drug administration will be taught. Drugs affecting the cardiovascular, pulmonary and renal systems will be emphasized.
Prerequisite: RCP 250 and BIO 734 must be taken concurrently with or prior to this course

## RCP $410 \quad 33000$ <br> OPEN

CARDIO/PULMONARY DIAGNOSTICS
Principles and techniques of testing of cardiovascular and pulmonary function will be learned with an emphasis on the evaluation and interpretation of the results of the tests. Integration of test results with clinical picture with emphasis on therapeutics, and principles of polysomnography will be learned
Prerequisite: BIO 734 or 164, RCP 360, 400

RCP 50054200 OPEN ADVANCED RESPIRATORY THERAPY
Techniques of initiation, monitoring, maintenance and discontinuation of mechanical ventilation in a variety of care settings will be learned Students will develop skill in ABG analysis and electrocardiography. Adjuncts for the advanced life support will be learned. Students will become proficient in the analysis of arterial blood gases and basic techniques of electrocardiography. Students will learn the use of adjuncts for the treatment of cardiopulmonary arrest.

Prerequisite: BIO 734 or BIO 164, RCP 360

## RCP 60143200 VOC/TECH

 NEONATAL/PED RESP THERAPYCourse will begin with embryonic development of the respiratory and cardiovascular systems and progress to teaching normal function, as well as teaching the common neonatal and pediatric diseases, including therapeutic techniques and monitoring of the patients.
Prerequisite: BIO 734 or 164, RCP 360

## RCP 70042080 OPEN RESP THERAPY PRACTICUM I

This initial hospital experience consists of supervised care of patients with respiratory disorders. Students will administer IPPB, aerosol, postural drainage and incentive breathing therapies. Other therapeutic modalities that have been learned will be introduced as well.

Prerequisite: RCP250. Corequisite: RCP 360, 400

RCP 705520110 OPEN RESP THERAPY PRACTICUM II
This practicum will continue the supervised experience in provision of basic patient care techniques to therapies from Practicum I. Arterial puncture, arterial line sampling and analysis of blood samples will be introduced. Suctioning of airways will be emphasized.
Prerequisite: RCP 700

## COURSE DESCRIPTIONS

RCP 710 OPEN RESP THERAPY PRACTICUM III
The practicum continues supervised experience in basic therapeutic techniques with emphasis on increased speed and efficiency. Neonatal intensive care will be introduced. Students will continue development of skills in sampling and analyzing arterial blood. ECG and other cardiac diagnostic tests will be observed.
Prerequisite: RCP 601, 705

## RCP 715720150 OPEN RESP THERAPY PRACTICUM IV

Hospital respiratory care with the addition of mechanical ventilation and care of patients in critical care units will complement the techniques from the prior practicums. Observation and performance of pulmonary function testing will be learned.

Prerequisite: RCP 500, 710, 410 must be taken concurrently with or prior to this course

RCP 720520110 OPEN RESP THERAPY PRACTICUM V
The fourth clinical experience with emphasis on the care of patients in critical care areas of the hospital. All techniques and procedures previously performed will continue to be administered to patients.
Prerequisite: RCP 410, 715
RCP $800 \quad 33000$ OPEN RESP THERAPY MGMT \& ETHICS
Begins with study of the organization and management of a respiratory therapy department. Consideration of issues of jurisprudence and medicolegal aspects of healthcare. Tactful interactions and ethical practices will be emphasized. Will also serve to review much of what has been assimilated in the program.

Prerequisite: RCP 710

RDG 03833000 COLL PREP COLLEGE PREPARATORY READING I
The first in a series of two courses designed to help students succeed with college-level reading assignments. Emphasis will be placed on vocabulary development and basic comprehension skills, particularly the skill of recognizing the main idea and supporting details. College preparatory courses cannot be used to fulfill degree requirements.
Prerequisite: Compass reading score of 35 or higher or instructor permission based on alternative test

RDG 0393000 COLL PREP COLLEGE PREPARATORY READING II
The second in a series of courses designed to help students succeed with college-level reading assignments. Emphasis is on strengthening vocabulary and comprehension skills including annotating, summarizing, making inferences and reading critically. College preparatory courses cannot be used to fulfill degree requirements.
Prerequisite: Grade of "C" or higher in RDG 038 or COMPASS score of 61 or higher on the Reading section or instructor approval based on an alternative test

## RDG 163 <br> 33000 <br> GENERAL SPEED READING

An advanced reading course designed to improve reading speed and comprehension. Emphasis on adapting to varying content and levels of difficulty and reading purposes.
Prerequisite: Grade of "C" or higher in RDG 039, ACT reading score of 19 or higher, COMPASS score of 81 or higher on the Reading section or instructor permission based on alternative test

## REL $101 \quad 33000$ SURVEY OF WORLD RELIGIONS

Study of major living religions, their commonalities and contrasts. How these religions enrich human lives.

RRO 10122000 VOC/TECH RAILCAR SAFETY
A fundamental course in the safe and proper operation around railroad operations on industrial property. Topics include work area hazards, railcar equipment components, safety equipment, proper and safe loading and unloading of railcars and federal (FRA) regulations.

## SDV 108 <br> 11000

 THE COLLEGE EXPERIENCEThis course is designed to introduce students to college resources, services and expectations and to assist them in gaining maximum benefit from their college experience.

## SDV 11522000 OPEN STUDY STRATEGIES

Provides students with study/reading strategies for independent learning and academic success. An examination of college policies and procedures is also included.

## SDV 13011000 GENERAL CAREER EXPLORATION

Provides help in choosing a career goal. Emphasis will be placed on how to access labor market information, interests, abilities and values, explore options and make decisions that will lead to career satisfaction and success.

## SDV 15322000 VOC/TECH PRE EMPLOYMENT STRATEGIES

Covers all aspects of professional job placement procedures including career goal setting, developing prospective employer lists, resume writing, job application forms, employment tests, personal appearance, interviewing and follow-up.

SDV $157 \quad 11000$ VOC/TECH BUILDING A PROFESSIONAL PORTFO
This course provides the writing and research skills necessary to compile a professional portfolio highlighting abilities, experiences and accomplishments. The portfolio will include a resume, reference letters, certificates, sample demonstrations of work performance, documentation that shows knowledge of subject area and other applicable items.

SDV $164 \quad 21200$
ELECTRONIC PORTFOLIO DEV
Students will receive instruction in creating an electronic portfolio of work. Emphasis will be on selecting artifacts, reflecting on choices, formatting and displaying a web-based portfolio for career or college transfer.

## SDV 16511000 GENERAL TRANSFER PLANNING

Provides students with the information, resources and tools necessary to plan a successful transition from a community college to a four-year college or university. Special emphasis will be placed on developing individual transfer plans.

## SDV 17111000 <br> GENERAL

 LIBRARY INSTRUCTIONThis course will provide students with practical knowledge of information literacy skills: specifically the process of conducting information research for academic assignments and lifelong learning. Students will learn and be able to articulate and perform the research process.

## SDV 17211000 GENERAL INTERNET RESEARCH TECHNIQUES <br> Students will learn how information resources are organized on the internet, and how to reference, search and evaluate information on particular topics. <br> Prerequisite: Basic computer literacy

## SDV 19710030 GENERAL SAC EXPERIENCE

Students will have experiential opportunities for leadership skill development through participation in the Student Activities Council as an at-large member. Open only to SAC members. This course can be repeated each semester student is a member of SAC, to a maximum of 6 semesters.
(P/F) Corequisite: Must be an appointed member of a DMACC campus Student Activities Council

## SDV 21211000 VOC/TECH COOP CAREER SEMINAR

Examination of topics relevant to the internship experience, sharing workplace problems encountered and the solutions found to those problems. This course may be repeated for a maximum of 4 credits. Corequisite: SDV 222 or 223 or 224 or 225 or 226 or 227

## SDV 22210004 VOC/TECH COOP CAREER EXPERIENCE I

Supervised work experience with employers that enables students to apply their skills and knowledge. Work experiences will relate to the students' academic programs of study.
(P/F) Corequisite: SDV 212
SDV $223 \quad 20008$ VOC/TECH
COOP CAREER EXPERIENCE II
Practical experience through on-the-job training in
an approved business setting. Tasks will be consistent
with student's career objectives, skills and knowledge.
(P/F) Corequisite: SDV212 COOP CAREER EXPERIENCE II
Practical experience through on-the-job training in an approved business setting. Tasks will be consistent (P/F) Corequisite: SDV212

## COURSE DESCRIPTIONS

## SDV 28833000 GENERAL

 LEADERSHIP DEVELOPMENT STUDIESThis course provides emerging and existing leaders the opportunity to explore the concept of leadership and to develop and improve their leadership skills. Students will gain a basic understanding of the concept of leadership theory while developing a personal philosophy of leadership, an awareness of the moral and ethical responsibilities of leadership and an awareness of their own ability and style of leadership.

## SOC $110 \quad 33000$ <br> CORE

## INTRODUCTION TO SOCIOLOGY

The study of human interaction, groups and society. Topics included are culture, socialization, organizations, deviance, inequality, institutions, health, population, ecology, social change and research methods.

SOC 115 CORE
SOCIAL PROBLEMS
The course is an analysis of the nature, dimensions, causes and characteristics of selected social problems of major interest. Consideration is given to theories research and programs for prevention and treatment.

SOC $120 \quad 33000$ CORE

## MARRIAGE \& FAMILY

This course analyzes the sociological, physical, psychological, legal and economic aspects of the American family. Included are investigations of courtship and marriage relationships, preparation for marriage, family, parenthood, interpersonal relationships and marital adjustment.

## SOC 16533000 GENERAL

 GROUP DYNAMICSThe study of group behavior including leadership, interaction, team building, decision-making, cooperation, cohesion, power, problem-solving, and conflict between and within groups.

## SOC 2003300 <br> CORE MINORITY GROUP RELATIONS

This course is the study of the relations between racial, ethnic and gender categories. Focus on stereotypes, prejudices, discrimination and exploitation. Major emphasis upon group relations in the United States.

## SOC 110 is recommended

## SOC 22544000 <br> OPEN SOCIAL GERONTOLOGY/APPL

The influence of social factors on the aging process and experience including family, gender, ethnicity, retirement, living environments and health/elder care services. Students will complete an older adult service learning project.

SOC 22622000 OPEN ISSUES IN AGING
This course will address the issues of aging: in transition, explore the conflicts of change, and examine the needs and strategies to best meet the demands and challenges presented to this fastgrowing segment of our population.

## SOC $230 \quad 33000$ GENERAL

## JUVENILE DELINQUENCY

An investigation of juvenile delinquency in American society, sociological theories and research of delinquency, impact of groups, juvenile justice system and prevention programs.
Prerequisite: SOC 110 or instructor permission
SOC $240 \quad 33000$ GENERAL CRIMINOLOGY
The nature and extent of crime and criminality, society's efforts to control crime, theories of causation, emphasis on social processes, systems and methods of correction.

Prerequisite: SOC 110 or instructor permission

## SOC 28233000 GENERAL

 ENVIRONMENTAL SOCIOLOGYThis course examines the relationships between society and the natural environment. It focuses upon human understanding of nature, the use and abuse of natural resources and what can be done to improve the relationship.

It is recommended that students take SOC 110 prior to this course.

## SPC 101 <br> 33000 <br> CORE

 FUND OF ORAL COMMUNICATIONExplores the fundamentals of speechcommunication through the study and practice of interpersonal and small group communication and the composition and delivery of short speeches.

## SPC 12033000 GENERAL

 INTERCULTURAL COMMUNICATIONAn introduction to theories and implications of intercultural communication as applied to the workplace and interpersonal relationships. Topics and activities are directed toward improving skills in intercultural competence.
SPC 12633000 CORE INTERPERSONAL \& SMALL GRP COMM
An introduction to interpersonal and group communication theories and their application in relationship development, conflict resolution, group problem-solving, and group presentations.

## SPC 170 GENERAL

 PROFESSIONAL COMMUNICATIONCommunication theory applied to organizational settings in such forms as interviewing, group work, conflict resolution and public, impromptu and ceremonial speaking. Topics: organizational perspectives, leadership, power, intercultural diversity, nonverbal communication and perception.
Prerequisite: SPC 101 or SPC 126 or permission of instructor

SRV $110 \quad 33000 \quad$ VOC/TECH

## SURVEY DRAFTING

This course includes the application of manual and computer-aided techniques in survey drafting. The topics include plat maps, topography, field notebook sketches and property descriptions. Third-party software will be utilized.
Prerequisite: CET 178

## SRV $120 \quad 54200 \quad$ VOC/TECH

 US PUBLIC LANDS SURVEY SYSTEMThis course will develop a working knowledge of the United States Public Land Survey System and its application in lowa surveying. Topics will include: the general plan; methods of survey; the system of rectangular surveys; monumentation; restoration of lost or obliterated corners; resurveys; special surveys and special instructions; field notes and plats. Prerequisite: CET 119, CET 169

## SRV $210 \quad 11000 \quad$ VOC/TECH

 SAFETY IN THE WORK ENVIRONMENT This course will address the various safety hazards and causes of illness and injury in the work environment. Topics will include acceptable safety conduct and positive safety attitudes and practices, basic first-aid techniques; proper traffic control procedures; avoiding the effects of temperature extremes; recognizing and avoiding hazardous materials; potential hazards from poisonous plants and animals and ergonomic principles to prevent musculoskeletal disorders.
## SRV 21522000 VOC/TECH

 INTRO TO LAND INFORMATION SYSAn introduction to Land Information System and Land Records Research. Mapping information analysis compiled from country records for environmental protection, land uses, land values and the responsibility of the professional surveyor to a land information system will be covered. An introduction to LIS software will be included.

## COURSE DESCRIPTIONS

## SRV 220 <br> 31400

 BOUNDARY SURVEYINGThis course will develop a working knowledge of land boundary surveying including liability, professional stature, original surveys, apportionment procedures and description writing. Field work in both urban and rural settings will be performed.

Prerequisite: SRV 120, CET 119 and CET 169

SRV $225 \quad 22000$ VOC/TECH SURVEYING ETHICS
Introduction to ethical and business issues involved in the surveying profession. Case studies and problems included.

## SRV $230 \quad 33000$ VOC/TECH

LAND SUBDIVISION
Covers different phases of the land development process: study financing of the project, site analysis, design of preliminary plat and a final plat.

Prerequisite: CET 119 and CET 169

## SRV 235 VOC/TECH INTRODUCTION TO GEODESY

This course deals with concepts of astronomy and geodesy that are relevant to the practice of surveying. They include theory, field techniques, coordinate systems, gravity and leveling; control surveys and networks; GPS surveying, an introduction to the figure of the Earth and its geometric and physical characteristics; solar and Polaris observation and computations involved in the determination of true north.
Prerequisite: SRV 120, CET 119 and CET 169

## SRV 24044000 VOC/TECH BOUNDARY LAW

This is an in-depth course dealing with evidence and procedures used in the determination and location of property boundaries and recognized landlines. Laws and administrative rules relating to land surveying in the State of lowa will be addressed. The role of the surveyor in issuing opinions regarding boundary locations and in resolving boundary disputes will be examined.

Prerequisite: CET 119 and CET 169

## SRV $305 \quad 500020$ VOC/TECH FIELD COOP

Practical experience through on-the-job training in an approved surveying setting. Tasks will be consistent with students' career objectives, skills and knowledge.
Prerequisite/Corequisite: Successful completion of 32 credit hours of SRV program courses and/ or department approval. Same content as CET 305. Credit will not be granted for both SRV 305 and CET 305.

## SUR 130 <br> 22000 <br> VOC/TECH INTRO TO SURGICAL TECHNOLOGY

Introduces the field of surgical technology. History of the profession, roles and responsibilities will be covered. Hospital administration, standards of conduct, working as a team, ethical issues, safety, laws, scope of practice and the physical environment will be reviewed. This course includes one operating room shadowing experience.

## SUR $140 \quad 53400$ VOC/TECH

 FUNDAMENTALS OF SURGICAL TECHThis course teaches the skills needed to work as a surgical technologist. It includes instruction on sterilization as well as sterile technique, surgical case management and instrumentation. This course also discusses diagnostic procedures including specimen care.

## SUR 15022000 VOC/TECH

 MED TERMINOLOGY FOR SURG TECH This course is designed to help students gain the knowledge needed to communicate clearly with other healthcare team members. Instruction starts with a foundation of word parts, prefixes, suffixes and word roots, and then builds words by combining the parts. The course also covers terms not built from word parts and includes specialized vocabulary for surgical technologists. Exercises are included to help recognize and define new medical terms.
## SUR 20053400 VOC/TECH SURG PROCEDURES/TECHNIQUES I

This course teaches the student about the aspects of common surgical procedures. Minor and major cases in a variety of surgery areas will be discussed including general, obstetric and gynecological, ophthalmic, otorhinolaryngologic, plastic and reconstructive, urologic and orthopedics.

## SUR 2023000 VOC/TECH SURG PROCEDURES/TECHNIQUES II

This class will compare and discuss surgical procedures and emergency cases. The specialty areas that will be included are oral and maxillofacial, cardiothoracic, peripheral vascular and neurosurgery. This course will prepare the student to discuss the relevant anatomy and physiology, preoperative preparations, instrumentation and equipment used in the specialty areas of oral and maxillofacial, cardiothoracic, peripheral vascular and neurosurgery.
Prerequisite: SUR 200 with a grade of "C" or better

## SUR 42022000 VOC/TECH

 PHARMACOLOGY FOR THE SURG TECH In this course the student will review basic math skills. The student will learn a framework of pharmacological principles to apply in surgical situations. Commonly used medications by category, with frequent descriptions of actual surgical applications, will be identified. The student will also learn basic anesthesia concepts to function more effectively as a surgical team member.
## SUR $805 \quad 500150$ <br> VOC/TECH CLINICAL PRACTICUM I

This course will develop the skills needed to work as a surgical technologist. This includes instruction with a preceptor on preoperative, intraoperative and postoperative surgical case management at the clinical facility. The student will scrub on a variety of surgical cases
Prerequisite: SUR 130 and SUR 140 with a grade of "C" or better, BIO 733

## SUR $810 \quad 500150 \quad$ VOC/TECH CLINICAL PRACTICUM II

This course will further enhance the skills needed to work independently as a surgical technologist. This includes instruction with a preceptor on preoperative, intraoperative and postoperative surgical case management at the clinical facility. The student should feel comfortable assisting in the circulating role and independently scrubbing for a variety of surgical cases

Prerequisites: SUR 200 and SUR 805 with a grade of "C" or better

## TEL 1113300 <br> VOC/TECH

BASIC ELECTRICITY/ELECTRONIC I
For beginners to solve basic electronic problems involving voltage, resistance and power. Relationship between electricity and magnetism, operation of resistors, meters, switches, relays, capacitors, inductors and batteries will be explained

## TEL 1122000 VOC/TECH

BASIC ELECTRICITY/ELECTRON. II
For those who have an understanding of volts, ohms, amps and series parallel circuits. Explain the difference between alternating current (AC) and direct current ( $D C$ ), the $A C$ generator; analyze simple AC currents, transformer action, series and parallel resonant circuits. May also be taken as a study course.

## TEL 116 <br> 22000 <br> VOC/TECH

 ELECTRONIC CIRCUITSBasic and operational amplifiers, power supplies, oscillators, pulse circuits and modulation. Must have prior knowledge in electricity/electronics.

Prerequisite: TEL 112

## TEL 1183000 <br> VOC/TECH SEMICONDUCTOR DEVICES

N-type, P-type, PN junctions, diodes, zener diode, transistors, bipolar characteristics, field effect, thyristors, integrated circuits and opto-electronics. Should have knowledge in AC/DC electronics.

## TEL $210 \quad 33000 \quad$ VOC/TECH TELECOMMUNICATIONS I

Provides an overview of telecommunications and covers basic telecommunications circuits, equipment and diagnostic procedures for lines, basic key systems, and an understanding of the telecommunications industry.
Corequisite: TEL 213

## COURSE DESCRIPTIONS

TEL 213 VOC/TECH INTRODUCTION TO TELEPHONY LAB
Provides hands-on experience in installation and fault isolation of telephone lines and basic key systems, basic cable counts, cable splicing and cable termination procedures.
Corequisite: TEL 210

## TEL 220 VOC/TECH TELECOMMUNICATIONS II

Covers basic telecommunications equipment used by businesses and its connection to a switched public or private network. Covered subjects include electronic key systems, private branch exchange systems (PBX), trunks and associated equipment. Analog and digital communications and associated equipment are also covered. Experienced individuals may contact the instructor to gain admittance to this course.
Corequisite: TEL 223
TEL 22240800 VOC/TECH TELECOM OUTSIDE PLANT
Provides hands-on training in the telecommunications outside plant field. Topics covered include: basic installation and repair troubleshooting, fiber and copper cable repair and troubleshooting, outside plant cable splicing and design, ladder safety, working aloft and pole climbing.
Prerequisite: TEL 210. Corequisite: TEL 220

## TEL 223 VOC/TECH TELECOM TRANSPORT LAB

Provides hands-on training on a private branch exchange system, user data modification for a digital central office switch, digital key systems and associated equipment. Experience includes wiring, soldering, call routing, fault isolation and modular splicing.
Prerequisite: TEL 210, TEL 213. Corequisite: TEL 220

## TEL $230 \quad 44000 \quad$ VOC/TECH ADVANCED TOPICS IN TELECOM

Covers advanced digital switching principles and practices, system configuration, and diagnostic procedures common to digital central office switching systems and private branch exchanges. Advanced topics using high-speed broadband links and fiber optics are introduced. Experienced individuals may contact the instructor to gain admittance to this course.
Prerequisite: TEL 220, 223. Corequisite: TEL 233

## TEL 23233000 VOC/TECH

 DATA COMMUNICATIONSAn introduction to data communications and data networks. Includes digital communications, analog communications and interfaces. Networks including both LAN and WAN operation and common test techniques.
Prerequisite: TEL 210, 213

## TEL 233 <br> 30600 <br> VOC/TECH

 ADVANCED TOPICS IN TELECOM LAB Provides hands-on learning experience with broadband fiber circuits, digital multiplex systems and high-speed transport devices. Focus on system configuration and diagnostics are also presented. Prerequisite: TEL 220, 223. Corequisite: TEL 230
## TEL 240 VOC/TECH

 TELECOMMUNICATIONS MANAGEMENT Telecom management course covering new and emerging technology and implementation in the business environment. Discussion covering technology management and leveraging of telecom assets.Prerequisite: TEL 230, 233. Corequisite: TEL 243

## TEL 243 VOC/TECH INTERNETWORKING LAB

Provides hands-on lab experience configuring and troubleshooting networks. Internetworking is the primary focus using various software tools and test equipment to connect and analyze differing networks. Voice-over IP, ATM, xDSL, ISDN and other technologies are used and implemented in the lab setting.

Prerequisite: TEL 230, 233 . Corequisite: TEL 240
VIN 10143200 VOC/TECH INTRO TO STARTING A VINEYARD
Introduction to selecting and preparing successful vineyard sites, economics of vineyards, and cultural practices for nonbearing vineyards.

## VIN 10243200 VOC/TECH

 INTRO TO BEARING VINEYARDSIntroduction to management of bearing vineyards: cultural practices, fertility and economics.

VIN 10343200 VOC/TECH INTRO TO VINEYARD PEST MGMT
Introduction to pests that affect vineyards, pest management and proper use of control methods. This course will also involve preparation for students to take the test for commercial pesticide applicator's license.

## VIN 10432200 VOC/TECH

 VIT. FOR WINE PRODUCTIONThis course is an introduction to the grape and wine industry in short-season regions and worldwide. It investigates grape origins and growth habit, the vineyard factors that can impact wine quality, the process of fruit development, terrior and growerwinery relations. Prior to taking this course, students should have a basic understanding of grape production.

## VIN 12122000 VOC/TECH PRE-PLANT DECISIONS

This course is an introduction to selecting and preparing successful vineyard sites, cultivar selection and trellis installation.

## VIN 12222000 <br> VOC/TECH

## PLANTING AND EARLY CARE

This course is an introduction to vineyard training systems, economics of vineyards and cultural practices for nonbearing vineyards
Prior to taking this course, students should have a basic understanding of vineyard site selection, grape cultivars and trellis installation.

## VIN 1232000 VOC/TECH PRUNING AND CANOPY MANAGEMENT

This course is an introduction to pruning and the canopy management of bearing vineyards.

Prior to taking this course, students should have a basic understanding of vineyard establishment leading up to the years of vineyard fruit production.

## VIN 1242000 VOC/TECH CROP MANAGEMENT

This course is an introduction to vineyard crop management, fertilization, harvest issues and the sale of grapes.

Prior to taking this course, students should have a basic understanding of vineyard establishment leading up to the years of vineyard fruit production and an understanding of the pruning and canopy management of bearing vineyards.

## VIN 12522000 VOC/TECH

 PEST IDENTIFICATIONThis course is an introduction to the identification of vineyard pests, the factors that impact successful infections and methods of vineyard scouting. This course will, in part, assist in preparing students to take the test for a commercial pesticide applicator's license.
Prior to taking this course, students should have a basic understanding of vineyard establishment and the management of mature vineyards.

## VIN 12622000 VOC/TECH

## PEST MANAGEMENT

This course is an introduction to the different methods of controlling vineyard pests, the different products available for pest control, developing a pest control program, proper pesticide application, safety concerns and the rules and regulations involved with pesticide application. This course, in part, will assist in preparing students to take the test for a commercial pesticide applicator's license.

Prior to taking this course, students should have a basic understanding of vineyard establishment, management of mature vineyards and the life cycles of vineyard pests.

## VIN 14943200 VOC/TECH GRAPE AND WINE SCIENCE

This course introduces the grape and wine industry worldwide and in the Midwest. It investigates grape origin, vine growth habit, wine production and winery quality control.

## COURSE DESCRIPTIONS

VIN $150 \quad 33000$ VOC/TECH INTRODUCTION TO WINE
This course presents introductory information on wine appreciation, focusing on sensory analysis, production, classification and culture of wine.

## VIN 151 <br> $43200 \quad$ VOC/TECH

 CELLAR TECH. AND OPERATIONSThis course presents winery technology and provides practical instruction on grape processing equipment.
Prerequisite: VIN 150 or industry experience
VIN 15243200 VOC/TECH INTRO TO WINE SCIENCE
This course examines the basic scientific principles of wine production and provides instruction of wine laboratory analysis equipment

Prerequisite: VIN 150 or industry experience
VIN 153 VOC/TECH INTRO. TO WINE REGIONS
This course presents introductory information on wine regions.

Prerequisite or corequisite: VIN 150

## VIN $175 \quad 21200 \quad$ VOC/TECH WINE SERVICE OPERATIONS

Students will investigate the role of a wine program in a restaurant context and implement wine service principles for formal dining experiences.
Prerequisite: VIN 150 or instructor permission
VIN 18522000 VOC/TECH INTRODUCTORY SOMMELIER PREP.
This course relates information required to assist students in pursuing the Introductory Sommelier accreditation.

Prerequisite: VIN 150 or instructor permission
VIN $189 \quad 21200$ VOC/TECH
WINE MICROBIOLOGY
This course examines beneficial and spoilage unicellular organisms specifically related to wine production.

Prerequisite: BIO 187
VIN $190 \quad 43200 \quad$ VOC/TECH
WINE SCIENCE

This course focuses on principles of enology and wine laboratory analysis focusing on the most common evaluation methods utilized in a successful winery quality control program.

Prerequisite: CHM 122 and VIN 149

## VIN $201 \quad 43200$ VOC/TECH VITICULTURAL SCIENCE

Advanced concepts in the science of viticulture Prerequisite: VIN 149 or instructor permission

VIN 20243200 VOC/TECH VINE HEALTH
Advanced concepts in the identification, life cycles, management and control of vineyard pests.
Prerequisite: VIN 201 or instructor permission

## VIN 20343200 VOC/TECH VINEYARD ESTABLISHMENT <br> Advanced concepts in vineyard establishment. Prerequisite: VIN 201 or instructor permission

## VIN $204 \quad 43200$ VOC/TECH

 ENGINEERING IN AGRIA study of engineering principles that relate to agricultural industries.
Prerequisite: Instructor permission
VIN $248 \quad 10200 \quad$ VOC/TECH

## HORT/BOTANY LAB

Laboratory exercises designed to introduce the principles of botany.
Corequisite: AGH 221 or instructor permission

## VIN $249 \quad 43200$ VOC/TECH

 PLANT PHYSIOLOGYA study of how plants function and interact with the environment.
Prerequisite: AGH 221 or instructor permission

## VIN $250 \quad 33000 \quad$ VOC/TECH

WINE REGIONS OF THE WORLD
This course will investigate the grape varieties and wine styles produced throughout the world.
Prerequisite: VIN 150 or instructor permission.

## VIN 27544000 VOC/TECH

 SENSORY SCIENCEThis course presents applied information on wine sensory analysis required to recognize personal sensory biases and evaluate wine types and styles critically and scientifically.

Prerequisite: MAT 157 and VIN 150 or instructor permission.

## VIN $290 \quad 43200$ VOC/TECH COMMERCIAL WINE PROD

This course presents applied enology and industry topics related to the production of commercial grade wines.

## VIN 2952000 VOC/TECH CERTIFIED SOMMELIER PREP.

This course relates information required to assist students who are pursuing the Certified Sommelier accreditation.
Prerequisite: VIN 150 or instructor permission

## VIN 920 VOC/TECH

 FIELD EXPERIENCEThis course provides viticulture work experience. The student will maintain employment at a vineyard working in the production of grapes and gain experience/proficiency conducting vineyard operations.
Prerequisite: VIN 150 or instructor permission

## VIN $932 \quad 300014$ <br> VOC/TECH INTERNSHIP IN ENOLOGY <br> This course provides enological work experience. The student will maintain employment at a commercial winery working in the production of wine and gain experience as a cellar worker, laboratory technician or logistic coordinator. Prerequisite: VIN 150 or instructor permission

## WEL 11133000 VOC/TECH WELDING BLUEPRINT READING

The basic skills needed to read shop drawings (including welding symbols) will be learned.

Prerequisite: MAT 772

## WEL 120 VOC/TECH

 OXY FUEL WELDING/CUTTINGSkills will be developed in oxy-acetylene welding, cutting and repair. Safety is emphasized.

## WEL $150 \quad 20400$ VOC/TECH ARC WELDING I (SMAW)

Skills will be developed in welding beads and buildup surfacing in the flat position. Safety is emphasized

## WEL $165 \quad 30600 \quad$ VOC/TECH

## ARC WELDING II (SMAW)

Skills will be developed in welding multiple pass tee fillet welds in the horizontal position. Safety is emphasized.

Prerequisite: WEL 150
WEL $166 \quad 20400$ VOC/TECH ARC WELDING III (SMAW)
Skills will be developed in welding corner fillet joints, weld arounds, and sheet metal weldments in the flat positions. Safety is emphasized.
Prerequisite WEL 165
WEL 167 VOC/TECH ARC WELDING IV (SMAW)
Skills will be developed in welding beads, buildup surfacing, and fillet weldments in the horizontal position. Safety is emphasized.
Prerequisite: WEL 166

## WEL 168 VOC/TECH

ARC WELDING V (SMAW)
Skills will be developed in welding fillet joints in the vertical downhill and vertical uphill position. Safety is emphasized.

Prerequisite: WEL 167
WEL $169 \quad 20400 \quad$ VOC/TECH
ARC WELDING VI (SMAW)

## ARC WELDING VI (SMAW)

Skills will be developed in welding fillet joints in the overhead position. Air carbon arc gouging and plasma arc cutting will also be practiced. Safety is emphasized
Prerequisite: WEL 168

## COURSE DESCRIPTIONS

WEL $176 \quad 20400$ VOC/TECH ADV ARC WELDING I (SMAW)
Skills will be developed in welding and testing vee groove joints in the flat and horizontal positions. Safety is emphasized.
Prerequisite: WEL 169

WEL 1773060 VOC/TECH ADV ARC WELDING II (SMAW)
Skills will be developed in welding and testing in the vertical and overhead positions. Safety is emphasized.
Prerequisite: WEL 176

## WEL 18120400 VOC/TECH

 GAS METAL ARC WELDINGPractical application in the use of the gas metallic arc welding process including submerged arc and flux cored arc. Safety is emphasized.

WEL 19020400 VOC/TECH GAS TUNGSTEN ARC WELDING
A course to develop skills in the gas tungsten arc welding process using mild steel, stainless steel and aluminum. Safety is emphasized.
Prerequisite: WEL 120

## WEL 303 VOC/TECH

 PIPE WELDING/SMAWWelding practice and testing on open grove plate weldments in the 1G, 2G, 3G and 4G positions, and, as time permits, on pipe weldments in the $2 \mathrm{G}, 5 \mathrm{G}$ and 6G positions. Safety is emphasized.
Prerequisite: WEL 177

## WTT $103 \quad 33000$ VOC/TECH INTRODUCTION TO WIND ENERGY

To provide the student with knowledge of common terminology and general information related to the wind industry. The student will become familiar with the various types of turbines, the technology, sectors, jobs and organizations, as well as an outlook on the future of the wind industry.

## WTT $114 \quad 54200 \quad$ VOC/TECH <br> FIELD TRAINING \& PROJECT OPER

Course includes information corresponding to industry practices and standards of safe operation of a wind power generating facility, including the techniques of proper ascent and descent of wind turbine generators, day-to-day operations and the infrastructure that is in place as part of a typical power plant. Course also includes tools and equipment used and teamwork, as it applies to operations and maintenance of the facility.
Prerequisite: WTT 103

## WTT $1332200 \quad$ VOC/TECH

WIND TURBINE MECHANICAL SYS
Course includes the nomenclature and terms common to metals and metallurgy. Instruction will also include gears and gear failure analysis techniques, gear structures, inspection of gears and analysis of lubricants. Course includes discussion of the application of lubricants and proper procedures for acquiring lubricant samples and the effects of friction, gear damage and wear.
Prerequisite: WTT 103

## WTT 21632200 VOC/TECH POWER GENERATION/TRANSMISSION

This course will serve as an introduction to the generation of electrical power with a wind turbine generator, moving that power through a local transmission system to a substation where a customer will purchase the generated power. This course will cover all aspects of working with components of a high-voltage transmission system.

Prerequisite: ELT 303, ELT 134

## WTT $223 \quad 32200$ VOC/TECH

 AIRFOILS AND COMPOSITE REPAIRThis course will enable the student to more efficiently inspect, repair and move/transport wind turbine blades. Students will understand common industry terms used in the manufacture and repair of wind turbine blades.
Prerequisite: WTT 103
WTT 22542400 VOC/TECH DATA ACQUISITION \& ASSESSMENT
This course will give students information on how wind resource data is collected and analyzed for use in the development of wind-powered generation of electricity. Students will also learn how to access power production of individual wind turbines.
Prerequisite: WTT 103, ELT 303, ELT 134, ELT 141, ELT 119, WTT 216, WTT 245

## WTT 24542400 VOC/TECH

 ELECTRICAL PRACTICAL APPThis course will provide students with practical wiring exercises involving installation, wiring and troubleshooting of electrical devices and equipment used in, but not specific to, wind turbine control systems. Students will study electrical diagrams, design of electrical systems, and electrical safety.
Prerequisite: ELT 303, ELT 134, WTT 133

## FACULTY AND STAFF 2010-2011

ABBOTT, MATTHEW A., 2007, Biology. B.A., Grinnell College; Ph.D., Iowa State University
AGINSKY, VERA, 2005, English as a Second Language. M.A., Minsk Pedagogical University; M.A.T., Drake University; Ph.D., Middlebury College
AGYEMAN, AHMED, 2004, Academic Advisor. B.S., M.Ed., Iowa State University

ALBERHASKY, MATTHEW J., 2008, English. B.A., M.A., Iowa State University

ALBERTSON, MARCIA, 1974, P.C. Applications. B.A., University of Northern lowa
AMDAHL, MAYNARD, 1978, Tool \& Die. Diploma, Dunwoody Industrial Institute; Certificate, U.S. Department of Labor Journeyman Tool \& Diemaker

AMLING, STACY L., 2006, Spanish. B.A., University of Northern Iowa; M.A., M.A., Michigan State University

ANDERSON, GARRETT L., 2007, Electronics/Information Technology. A.A.S., Des Moines Area Community College

ANDERSON, ROBERT L., 1974, Hospitality Careers. A.O.S., Culinary Institute of America; Mankato Area Vocational Technical Institute; C.C.E.; Order of the Golden Toque Society

ANDERSON, RON D., 1999, HVAC. A.A., Arapahoe Community College; B.S., University of Colorado-Denver
ARNE, COURTNEY L., 2007, Credentials/Graduation Specialist. B.S., Eugene Bible College
ATAL, HADI., 2002, Academic Advisor. B.A., Grinnell College
AUKES, SHIELA R., 2006, Counselor. B.A., St. Cloud State University; M.S.W., University of St. Thomas
AUSTIN, JEREMY C., 2007, Academic Advisor. B.A., M.S., Pittsburgh State University

BADGER, BARBARA J., 2006, Financial Aid Advisor. B.A., University of Northern lowa

BAILEY, GREG A., 2000, Industrial Electromechanical Technology Assoc., National Institute of Technology
BAKARI, ROSENNA, 2008, Psychology. B.S., Cornell University; M.S., State University of New York; Ph.D., University of Northern Colorado
BAKER-BRODERSEN, BETH M., 2005, English/Academic Achievement Center. B.A., Northwest Missouri State University; M.A., Iowa State University

NOTES

The DMACC Foundation was created to assist educational excellence through charitable giving. Gifts to the DMACC Foundation provide scholarships, assist the college in acquiring new instructional equipment and provide capital support for new and existing facilities. Contributions also build the college endowment funds, so essential to the future. Gifts of all sizes help us realize our mission. Contributions are solicited from individuals, corporations, foundations and alumni.

## How to Make a Gift

The Foundation accepts many forms of giving. Donors have the opportunity to contribute to specific funds or to establish their own fund. Giving can be cash, tangible personal property, securities, real estate, gifts-in-kind, preferred or planned gifts. To learn more, contact the DMACC Foundation at 515-964-6447.

## DMACC Foundation Scholarship Program

The DMACC Foundation awards scholarships to DMACC students on every campus and throughout many programs of study. Scholarships are based on financial need and academic performance. Donors have also specified funds to improve the workforce needs in Iowa.

## How to Apply

Any current or prospective DMACC student who is registering for at least 6 credit hours and has a verifiable GPA of at least 2.0 is eligible to apply for a scholarship. The application is available online from approximately January 15 through March 1 for Fall awards and from September 15 to October 15 for Spring awards. Apply online at www.dmacc.edu/foundation.

For more information, call the DMACC Foundation at (515) 965-7105.

## Reasons to Support the DMACC Foundation:

- DMACC is an essential part of the community-we are of, by and for the residents of the local areahelp us and you help your neighbors and yourself.
- DMACC is a stable educational force in the local community—we are here to stay—invest in us and we will be here tomorrow.
- DMACC builds the community's workforce-the students we train come from and typically remain in Iowa.
- DMACC can leverage your gifts-through private, local, state and federal matching programs.
- DMACC is a good investment-even small gifts are significant and substantial gifts can directly guide and influence positive future programming.
- DMACC has a talent for teaching and emphasizing learning—help fund our programs and your efforts will be recognized by satisfied employers and positive word-of-mouth from graduates.
- DMACC is a quality alternative to high-cost undergraduate education. We provide an effective and affordable route to the baccalaureate degree through transfer programs-support for us ensures outreach to underserved populations and expanded access to postsecondary education.
- DMACC emphasizes a mission to support student success.
