Boone Campus Gymnasium

Office staff there to help students

By **BUNNY REED.**

The administration — office staff at Boone Campus is supported by nine people and supervised by Boone Campus Dean Kriss Phillips.

Phillips lives in Carroll, Iowa, with his wife, Joan. They have three children: Doug, 19, currently serving in the U.S. Navy; Susie, 17; and B.J., 9.

Phillips was appointed Dean on Feb. 9, 1982, and has been working with DMACC since 1974. For three years prior to coming to the Boone Campus, Phillips was director of the Western Attendance Center at Carroll. Phillips has a B.S. degree in education from NE Missouri; a M.A. in City School Administration from that college; and has done some graduate work in administration and guidance counseling.

Phillips enjoys car travel, and has traveled to all the states except Alaska, to Mexico, and to most of the provinces in Canada. Phillips also enjoys the farm owned by his parents in Van Buren County, Iowa.

Donna Peterson works as a secretary on the Boone Campus. She is a widow and has two children: Kent, in Boone; and Mrs. Judith Collison of Dallas Center. Donna also has three grandchildren: Katie, 5; Nick Collison, 2; and Tyler Collison, 7 months. Donna has been working for DMACC 12 years.

Donna is a Boone native, although she did live in southern California for a short time. She enjoys travel, knitting, needlecrafts and acting. Donna has been an actress in three DMACC plays.

Mrs. Sandi Johnson works as a secretary in the front office. Sandi is married to Harold Johnson, biology teacher and athletic director at the Boone Campus. The Johnsons have two children: Chad, 12; and Angela, 10. Sandi has been working at Boone Campus since 1968, after she graduated from this DMACC campus with an A.A. in business.

Sandi enjoys a number of activities including free-lance photography, sewing, knitting, crochet, organ music and sports. She is president of the Soroptimist Club, and a member of the Boone Community Concert organization, which has planned cultural events for the community. Sandi also teaches 8th grade Sunday school classes at the Augustana Lutheran church.

Linda Hammer, a Boone native, has been a secretary for DMACC since July, 1975. For slightly more than a year Linda worked on the Ankeny campus, but returned to Boone in 1982. She works with a church youth group and she enjoys traveling when she has the opportunity. Linda is single and living in Boone.

Discussing her role in working with DMACC students Linda commented, "Deadlines are very important to the efficiency of organizing campus records. When one person misses a deadline it has a ripple effect on the entire office operation. When this happens my job becomes more complicated."

Linda added, "I hope the students don't find me rude or abrupt at times, but I must try to maintain the schedule we have set to best serve everyone. We are here to help the students, and it is the student's responsibility to be aware of the schedules for registration and graduation."

Mrs. Chris Carney is the bookkeeper at the Boone Campus. She lives in Boone with her son, Steve, a graduate of Boone High School, and her daughter, Brenda, a sophomore at Boone High. Chris has been working at DMACC for six years. She enjoys bridge, activities with her family, walking and swimming. Chris has recently taken classes at DMACC and may continue in the future.

Martha Ballantyne is a part-time assistant in the business office at Boone Campus. She lives in Boone and has five children: Julie Smith, 25; Jim, Jr., 23; Beth, 20, attending UNI; Mike, 17, a senior at Boone High School; and Susie, 13, an 8th grader at Sacred Heart. Martha is the president of Top and Body Repair in Boone, a business begun by her late husband, Jim Ballantyne.

"I enjoy working in this college atmosphere," Martha stated, "I look forward to taking classes at DMACC in the future." Martha is a Boone native.

Richard Finnestad is the Coordinator of Student Services at the Boone Campus. Finnestad and his wife Carolyn have four children attending schools in Boone: Krista, 15; Jennifer, 14; Gwen, 13; and Shelly, 11.

Finnestad acquired his undergraduate degree at Buena Vista College in 1960, and went on for a degree in business administration and education at UNC at Greeley, Colo. Finnestad taught at Indian Lakes Community College, Crescent and Coon Rapids in Iowa. Finnestad is a native of Laurens, Iowa and currently lives in Boone. He enjoys fishing, golf, gardening, hunting, snow skiing and spectator sports.

George Silberhorn is Director of Student Activities at the Boone Campus and has been at the campus since 1972. He is married to Jinny Silberhorn, an instructor in the Learning Center and Cheerleading Advisor. The Silberhorns have three children: Christopher, 13; Jennifer, 9; and Stephanie, 7.

George enjoys hunting, tennis and travel. While in the U.S. Air Force, George was stationed in Maine, where he enjoyed deer hunting. George was also stationed in Calif. for some time, as well as Southeast Asia.

Mrs. Karen Wagner, a Boone resident, has been working for DMACC parttime as a secretary to the faculty for five years. Karen is the wife of Lou Wagner, and they have one child, Chad, 10. A native of Colo, Iowa, Karen enjoys reading, camping and latch hook creations.

BOONE CAMPUS DEAN KRISS PHILIPS is always on the go!

DONNA PETERSON is the "right hand" to the campus Dean, Kriss Phillips.

CHRIS CARNEY is the person students always talk to about their tuition. She always has a ready smile for everyone.

A BIG SMILE is the hallmark of George Silberhorn.

SANDI JOHNSON'S is the smile that first greets students and visitors to the main office of Boone Campus.

SHARON BLASKEY checks the mail for the nursing department.

Nursing secretary enjoys her job

By BUNNY REED

Coordinating office work in the Nursing Department at Boone Campus is the responsibility of Mrs. Sharon Blaskey, Nursing Department secretary.

Blaskey is married to Harold Blaskey, a foreman with the Boone Water and Sewer Treatment Department. They live in Boone and have four children: Pam, 20; Debbie, 16; Curt, 13; and Nicole, 4.

Blaskey has been working at DMACC for 10 years. Originally from Fort Dodge, Iowa, she now enjoys living in Boone.

In her spare time, Blaskey enjoys gardening, biking and bowling in a league. She also enjoys working near the students who are in the nursing program.

"We have a very good group of young people going through this program," Blaskey said. "It is interesting to see changes in male-female roles reflected in our students, too. We do have one male student currently enrolled in the ADN program, and a few more are applicants for next fall."

Tell her who you are when you visit campus bookstore

By BUNNY REED

Every student eventually finds a chance to visit the Boone Campus Bookstore, but few take the opportunity to introduce themselves to the bookstore clerk, Mrs. Doris Wickman.

"I enjoy the students at this campus," Wickman commented, "and I find this a pleasant place to work. I'm often quite busy and I can't give all of the students individual attention, but I do get to know some of them over the months, and I like that very much."

Wickman is married to Bob Wickman and they have five children and 12 grandchildren. Their children are Monica Pearson of Boone; Mike of Boone; Mary Jo, currently living in Tanzania, East Africa; and Max and Marty, both in Boone. Wickman herself is a Boone native.

Though working at DMACC for seven years, Wickman has found time for a number of interesting hobbies, including singing in the church choir at the Sacred Heart church, cooking and watching spectator sports.

She's who you see in library

By BUNNY REED

The task of organizing the Boone Campus Library is under the guidance of Mrs. Louise Payton, DMACC Library Technician.

Louise has been with the Boone Campus administrative office staff since 1976. Louise has also taken college-level courses at DMACC, as well as ISU in Ames.

Louise is married to Lyle Payton, CNW railroad's Mechanic-in-Charge. They have five children: Linda Schuller, in Ankeny; Cindy Marquardt, in Omaha with husband Mike and two children; Jeanne Eibes, in Omaha with husband Mark and daughter; John, in Omaha as a civil engineer with the UP railroad; and Lori Schnelle, a newlywed in Duluth and an ISU accounting graduate.

Although she is originally from South Dakota, Louise and her husband Lyle have lived in Boone for twenty years. Louise worked for the Boone High School library for seven years before coming to the Boone Campus.

"I do not work during the summer months," commented Louise, "so I enjoy rose gardening, fishing, and traveling in our mini-home during the summer."

Louise mentioned that there are library pamphlets available on the counter which detail some of the library services.

"Few people notice the pamphlets when they come into the library," Louise added. "Apparently, though, many

LOUISE PAYTON is always willing to help students find materials in the library.

students find the library both enjoyable and helpful. We do try to keep the atmosphere in here relaxed."

Financing needs planning

By KELLY PENNER

One of the questions many DMACC students ask themselves is, "How will I have enough money for next quarter?" With many students struggling to pay for school, it is hard to concentrate on assignments.

It seems that to have enough, we need to work. Of course, working is not enough because we have to live, and by working we reduce our chance for financial aid.

The financial aid program at DMACC may be able to help you more than you think!

The best first step to take would be to walk into the office and pick up an FFS (Family Financial Statement). Filling out the FFS is definitely another story, because it is not extremely simple. Just remember that you're a college student and give it your best shot.

The FFS provides a Need Analysis through American

College Testing, ACT for short. A copy of the Need Analysis goes to each of the following:

First, a copy goes to the Federal Government. This copy makes you eligible for the Basic or Pell Grant.

Secondly, another copy will go to the State Government of the college attended. In this case, Iowa. This will make you eligible to receive help from the Iowa College Aid Commission and the Iowa Vocational-Technical Tuition Grant Program.

Finally, a copy is received at the college you plan to attend. In this case, DMACC Boone Campus. You are now under consideration for various college scholarships or work-study programs.

The types of aid available at DMACC include scholarships, grants (Pell and Supplemental Vocational or Technical), loans and work-study.

There are some 44 different organizations and individuals that donate to the Boone Campus Foundation. The money received from these organizations and individuals is returned to the students through various scholarships. These scholarships are based on need, academic ability, area of study or skill area (a type of athletic ability). This only takes one application above and beyond the FFS. There were 120 students who received scholarships from the Boone Campus Foundation during the 1982-83 school year. Applications for these scholarships can be obtained in the admissions office for summer or the 1983-84 school year.

Grants and scholarships are a type of gift aid. They do not need to be paid back.

DMACC has several ways of providing work-study jobs. Usually a set amount of money is received for working a certain number of hours each week. Some of the work-study jobs at the Boone Campus are as follows: central office help, science and computer science lab assistants, librarians, custodial assistants and physical education assistants.

Remember, aid is determined by the Need Analysis from ACT based on your Family Financial Statement. Many aspects of need are considered, including the cost of your school's attendance (tuition). Keep your grades up, because a student must maintain a 2.0 GPA to be eligible for financial aid.

DORIS WICKMAN is the smiling face you see in the campus bookstore.

Intramurals thrive under Patti Long

By DOROTHEA SCOTT

Signs, ranging from a small notice to large, professional-looking posters, invite student participants to a wide range of intramural activities.

This program is under the direction of Patti Long, DMACC Recreation graduate, and former ISU and UNI student, who now juggles this and her other part-time job at the University Book Store in Ames.

"Sometimes it seems like I live in my car," she said.

The poster proclaiming the pool tournament is eye catching, a characteristic she attributes to a class in calligraphy she has recently taken.

Intramurals are spread throughout the school year, with co-ed softball and golf in the fall. Tim Scott was this fall's golf winner.

Winter students participated in basketball, without benefit of the regular intramural players. The winning team included Brett Anderson, Mike Kraft, Lester Nelson, Larry Schroeder, Terry Marquardt, and Bill Frakes.

One-on-one winner was Mike Kraft.

Winter is a good season for cribbage. One tournament has finished with Dan Burns as the Singles winner, and Tim Scott and Jerry Delebreaux, Doubles winners.

Another cribbage tournament is currently being played, with battles to be fought at times set by the warriors according to their schedules. As with most intramurals, the players set their own dates, and turn in their own results to Long.

John Vachris topped the pool tournament over the weekend of Feb. 19.

Table tennis is another popular sport--Singles winner was Khalil El-Shakra and doubles winner were Khalil and Doug Miller.

A volleyball tournament is being played currently.

With spring, there will be softball, tennis, golf, tug-of-war, badminton and Frisbee golf.

Also planned are a free-throw contest, darts, bowling (one-day), three-player volleyball and whiffleball.

The snow-softball tournament faded away as quickly as the snow melted. It would have been played with brightly-colored balls and plastic bases.

The gym is open some nights for intramurals; many Sundays and Tuesdays for students to play basketball or just shoot, volleyball or badminton, or to use the weight machine. Open nights are usually posted in the halls and lounge by Long.

There is no additional charge for intramurals--the activity fee covers expenses.

BUILDING THE SETS is only one of the many jobs associated with producing a play. The above students work on some of the backdrops. In the background is John

Rand, and in the foreground is Carl Walding. (Photo by Linda Ensley)

Hagar and Night Ranger a hit

By JEFF FORSTER

On Wednesday, March 16, Sammy Hagar hit Des Moines and hit it hard. Sammy and his band really painted the Civic Center red (as did the "true" Hagar fans who were decked out in red clothing).

Night Ranger was warm-up band for this show. They performed nearly every song from their "Dawn Patrol" album including "Don't Tell Me You Love Me," "Sing Me Away," "Can't Find Me A Thrill," "Night Ranger," "Penny," and others. Their vocals were clear and sharp with most of the leads falling on the shoulders of bass player, Jack Blades. Drummer Kelly Keagy took front

seat on a couple of songs. Guitarists Brad Gillis and Jeff Watson took turns on lead guitar while adding their voices for backup. Does Brad Gillis sound familiar? Of course, he played in that band (replacing Randy Rhoads after his death) that is headed by that one guy. What's his name? Oh, yeah, Ozzy Osbourne.

Gillis is no doubt the best musician in the band, but he did not try to steal the spotlight from anyone, nor did he try to put us over with some big "star" image. Keyboardist Alan "Fitz" Gerald was more heard than seen, but one wonders where they would be without him. Getting back to Brad, why did he quit Ozzy? Replied Gillis, "I was heavy-metalead out!" Being a heavy metalurgist is just one step above a hard-rocker, such says the Book According to the Headbangers. (I guess Brad prefers to keep it hard.)

All three guitarists were using radio control modules with their guitars. (This leaves them free to run rampant on stage.) Their energy, looseness, and professionalism rocked the audience. I found it hard to imagine that Sammy could beat them out.

But, beat them he did! Even at their own game. After Night Ranger left the stage, about one hour after they hit it, Sammy and his band took total control of the stage for over two hours. Hagar came flying out complete with a headset-microphone that was radio controlled. (His guitar was set up the same way.) This gave Sammy the chance he wanted. The 33-year-old guitarist, singer, songwriter ran wild. I've not seen too many musicians in this kind of shape. He was up and down ramps, running to the front of the stage shaking hands, and jumping on top of a red Trans Am to perform a couple of songs including an old Montrose tune called "Space Station No. 5."

Sammy, bassist Bill Church, guitarist Gary Phil, drummer Denny Carmassi and the aforementioned keyboard player ran through Sammy's hits, such as "Red," "I've Done Everything For You," (original Sammy version, not Rick Springfield), "Rock 'n' Roll Weekend," "Reckless," "Bad Motor Scooter," numerous tunes from his two previous albums including "Three Lock Box," "Your Love Is Driving Me Crazy," and "Heavy Metal." During "H.M.," Hagar coaxed the audience into singing the chorus. The best part, though, came during his encore, which featured Sammy doing a tribute to "The Who" that included his version of "My Generation," which lasted nearly ten minutes and consisted mostly of jams between Hagar and guitarist Gary Phil. Keyboardist Alan "Fitz" Gerald used to play with Hagar's band during the late '70s and early '80s. So is he playing with two bands now or does he have a clone? Either way, "Fitz" is going to be rich and famous. All in all it was a great show, and when Sammy said to "Keep Rockin'," you just knew that everybody said they would. As long as Sammy comes back to rock with them.

Letter to Editor

By EBERE ANYANWU

Homecoming at Boone Campus, held Monday, Feb. 14, was not an unqualified success in the minds of some instructors, staff and even some students.

The problem was the day of the week the event was scheduled.

The majority of those interviewed regreted that some students missed their classes the next morning, thus hindering the continuity of their studies.

In addition, many of the students were unable to attend because they had school work to do, causing them to have to stay at home.

A majority of those contacted suggested that homecoming could be scheduled any Friday or Saturday to enable all the students to take part in the activity. This would also help to keep students who attended in good shape for the rest of the school week.

Those who had set the date for this year's homecoming were also contacted. They explained that a school day was chosen because they believe this type of event should be held on a school day.

They also indicated that it is hard to rent a suitable place for such an event on a weekend, as these places would have to close their regular business for it. This is something that most would be unwilling to do. In addition, they said that the same space on a weekend would cost the school too much money.

If, on the other hand, the activity is held in the school lounge, school equipment could be broken or stolen by some of the guests who might overindulge in the festivities.

Looking at the two sides, it is obvious that each side has reasons for their stands. I would like to suggest that before the next homecoming celebration, a solution could be found.

The Bear Facts

THE BEAR FACTS is the official student publication of the Boone Campus of the Des Moines Area Community College. The staff welcomes suggestions and contributions which should be submitted to the editor or assistant editor. The paper is published nine times a year and is distributed free to the students, faculty, staff and friends of the campus.

'God's Favorite'

Comedy chosen for spring play

By TIM SAUER

God's Favorite, a comedy by Neil Simon, has been chosen for the drama department's spring production at Boone Campus.

A dress rehearsal of the show will be presented Friday, April 29, at 8 p.m. with admission free to students. Regular performances will be held Saturday, April 30, at 8 p.m., and Sunday, May 1, at 2 p.m. Admission is \$2.50 for adults and \$1 for students. All performances will be held in the DMACC auditorium.

The play is the story of Joe Benjamin, a successful New York businessman. He and his rather eccentric family live in a mansion on Long Island. One night he is visited by Sidney Lipton who claims to be a messenger from God. He tells Joe that to test his faith, some really unpleasant things are going to happen to him and the only way to prevent them is to renounce God. Joe refuses and calamity follows.

The cast of the play includes:

Susan Ellis, who plays the part of Mady, a maid in the Benjamin household. She has previously appeared in "Murder in the Magnolias," another DMACC production. She is a native of Stuart, Iowa and is majoring in Human Services. She said that she tried out for the play to get experience speaking in front of large groups and for some fun.

Jeff Forster portrays Morris the butler. He is a Liberal Arts major from Boone and would someday like to work with a promotional company. Jeff has appeared in "Oklahoma!", "1984," and "Murder in the Magnolias." He said, "I enjoy participating in plays; it's a load of fun and lets you be someone else for a while."

Kathy Hanson appears in the role of Sarah Benjamin. Originally from Stratford, she is working toward an Associate of Nursing Degree. After graduation she plans to move to Arizona to pursue a nursing career. "I enjoy acting and was interested in polishing my skills." She has appeared in such shows as "Harvy," "Brigadoon," and "My Fair Lady."

Rose Benjamin is played by Dodie Holt. A native of Ames, she is majoring in Business Administration and plans to work in a private law office. She has been in several church plays and says "I enjoy acting and I'm a very dramatic person. The part of Rose fits me to a tee."

John Rand of Crookston, Minn. has the part of David Benjamin. He is majoring in tele-communicative arts and plans to go into acting or broadcasting. His acting experience includes high school drama as well as two plays with the Boone Community Theater. He summed up his participation simply by saying, "I enjoy acting."

Joe Benjamin is played by Steve Russell. He is from Boone originally and although he has no previous acting experience, he plans to attend ISU and major in broadcasting. "I've always wanted to participate in a play and my schedule finally permitted it."

Blake Soder portrays the part of Ben Benjamin. "I like acting and I love any play by Neil Simon," he said. Blake's hometown is Stratford, Iowa and other plays he has been in include "Lady Dracula," "The Silver Whistle," and "Twain by the Tale." He is a Liberal Arts major and plans to transfer to Drake.

Sidney Lipton, messenger, will be played by Carl Walding of Sioux City, Iowa. He plans to finish at DMACC next year and then attend either ISU or U of I. Other plays Walding has participated in include "Murder in the Magnolias," "Don't Drink the Water," and "Fiddler on the Roof."

"I tried out for the play for the fun of the practices and because I love to perform," Walding said.

"God's Favorite" is under the direction of drama and speech instructor, Jan Aurelius.

The Bear Facts: A result of cooperation

By **TIM SAUER**

The Bear Facts is the result of weeks of planning and the efforts of the editor, faculty, photographers and reporters.

Every month the staff delivers another issue designed to entertain and inform Boone Campus students about

OH MY GOSH! says Bunny Reed as she is caught by the camera as she sets type for this issue of The Bear Facts. In the foreground is Kelly Penner, also setting type.

events and people of interest to students. Few, however, are aware of the many steps required to produce this paper, so here comes some internal publicity.

The process begins on campus with the editor, Darla Dixon. Her job is to assign stories, set copy, decide on pictures to be used, and to generally organize all aspects of the paper and get it ready for printing.

Bunny Reed is the assistant editor and advertising manager. Her duties include writing stories, paste-up and typesetting, but primarily she is in charge of selling ads and laying them out.

The faculty advisor is Rosemary Westphalen. She assists with the entire production and helps to make sure everybody knows what they're doing.

Story ideas come to the paper from students, faculty members and staff members. The editor must sort through these ideas and choose those that are of the greatest interest and importance to the readers.

The stories that are chosen are assigned to a reporter to be written. It is the reporter's responsibility to arrange interviews, keep appointments, do research and trace any other possible source of information that could be useful in writing their story.

When the story is finished, it is turned over to the editor for copy reading. In this process the story is read and all errors in spelling, punctuation or grammar that the reporter may have made are corrected. The story is also reviewed for accuracy and fairness and if any re-writing is needed it is done then.

When the story has been fully corrected and put in the form in which it will appear in the paper, it is ready to typeset.

For this process the operation moves to the Boone News Republican office. Using equipment there, the story is set in the proper font (style of type) for the Bear Facts. This is done on a video display terminal. The story is typed out on a typewriter-like keyboard, and as this is done it appears on a small screen above the keyboard.

When finished, the story is quickly scanned for mistakes and corrections are made. The stored material is then sent to a machine that converts it into a punched-paper tape.

This tape is inserted into a computer which decodes the pattern of punched holes, setting the type according to the instructions on it. The story comes out of this device wet and on a film similar to photographic paper.

After it has dried, the story is proofread for any errors that may have made it through the various steps. When the story is corrected, it is in the form in which it will appear in the paper.

Photographs undergo a much different evolution. First,

the photographer is assigned a specific picture to take much like the reporters. The photo is then processed in the campus darkroom. The prints that come out of there, however, can not go into the paper directly.

At the News Republican, the pictures are re-photographed through a screen. This process is called PMT (for photo-mechanical transfer) or halftone. This converts the pictures into a tiny series of dots. These may be seen by looking closely at a picture in any newspaper.

In addition, some pictures may have to be enlarged or reduced from their original size. This is done using a type of camera that re-shoots the picture at some percentage of its original size. This allows it to fit in the space that is available in the paper.

These re-shot photos are processed and come out on a film similar to the stories.

With the stories set and the pictures sized and screened, layout of the Bear Facts can be accomplished. This is done on dummy sheets on which the advertisements have already been placed.

The ads are sold to local businesses to help offset the cost of publication. Ads must be set and placed on the pages first because the advertisers purchase a particular amount of space in the paper. The number of photos and stories that appear in the finished paper is determined by the space left open after placement of the ads.

For the layout process, the stories and pictures are measured and this is compared to the amount of space that is available. If the material is too long, entire stories may be held for future issues, parts of stories may be cut off, or pictures may be trimmed in an effort to make things fit. All this is done on a dummy sheet (a rough sketch of the finished pages), not on the page that will go to the printers.

When it looks like everything will come out even, the paste-up of the actual pages begins. The backs of all stories and pictures are coated with a thin layer of wax, which allows them to be stuck down and then lifted off later if necessary without damaging the copy.

During the paste-up phase, space must be left for the headlines and cutlines (information under the pictures) which will be set and added later.

After the paste-up is complete and the heads and cutlines have been added, the pages are sent again to the Boone News Republican for printing.

The printing process used for the Bear Facts is called offset printing. It begins by photographing the finished pages and turning them into a large negative image. This is then shot onto an aluminium plate and the image is burned onto the surface using various chemicals. This makes a positive image on the plate.

The plate is put on the press and the image is transferred to a rubber drum inside. The ink will only adhere to the part of the drum that has type or pictures on it. The paper comes in contact with the drum and the image is printed.

The paper is finished and waiting to be distributed to and read by DMACC students. Meanwhile, the staff is preparing for the next issue.

BEAR FACTS STAFF members are responsible for all the functions of putting the student newspaper together. Some of the staff are, front row from the left, Jay Sawyer, Dan Burns, Jeff Forster and Tim Sauer. Back row from

the left are Kelly Penner, DeeDee Verplank, Darla Dixon, MacMaurice Ijeaku, Linda Ensley, Laura Stoll and Nathan Ajoku. Staff members not pictured are Allen Lee, Lori McGee, Basil Nwonwu and Bunny Reed.

TIM SAUER WORKS on a layout design for an issue of The Bear Facts.

LINDA ENSLEY focuses an enlarger in the school darkroom as she prints pictures for the Bear Facts.

DARLA DIXON sets headlines on the 7800 headsetting machine at the Boone News-Republican.

What does your summer hold?

By LINDA ENSLEY

Beach towels, bathing suits and suntans are images brought to mind when thoughts of summer surface, but another image—books—is beginning to dominate the scene for many.

Reasons for attending summer school vary, but finishing up sequence courses before next fall's semesters set in is prompting students to devote part of their summer indoors. A more relaxed atmosphere replaces the recognizable run-of-the-mill grind prevailing through the rest of the year as shorts, T-shirts and sandals replace jeans, sweaters and boots.

While some of the classes boast smaller class rolls making individual attention from instructors easier, many students find themselves in different classes with the same classmates, producing a more unified student body and the potential for more student-helping-student study.

Now's the time to start thinking about summer school. Students should ask themselves if they have any classes left to take before the semester schedule takes over. Each one should check the list, see if there are any gaps in his or her curriculum to be filled this summer. Each should remember with summer's more condensed quarter, a full load is considered to be 8 hours, and classes meet for longer hours or more days per week. If students manage their time right, however, they should have plenty of time for school and summer both.

Summer session begins May 31 and continues through July 25 for Arts and Sciences students, and until August 10 for Career Education students.

Rotary-Rotaract host student dinner

By MACMAURIC IJEAKU

An International Dinner was held at the Boone Campus lounge on Monday, March 21, under the sponsorship of the Rotary Organization and the Rotaract Club of DMACC.

Approximately 30 foreign students from Laos, Lebanon, Malaysia, Indonesia, Nigeria, Philippines, Vietnam, and Venezuela attended the dinner. American dishes were cooked and served by the wives of the Rotary Club members.

After eating, there was a series of introductions. The foreign students introduced themselves and Mr. McNair announced the Rotaract members. Maria Malag, from the Philippines, entertained the people by doing a lamp dance.

The dinner was to honor the international students who are studying at Boone Campus and to give foreign students and members of the Rotary and Rotaract clubs an opportunity to get to know each other better. The function of both clubs is to promote international understanding.

8
Are you motivated?

By JAY STOFFERS

What methods can students use to motivate themselves to study? Discipline, isolation, music and optimism for the future are four common ways among Boone Campus students.

Disciplining one's mind to concentrate on what needs to be done and then doing it is quite a feat in itself. If a student could accomplish this, he would be his own motivation.

"I go to the library and concentrate on the things I have to do and get them done," remarked Alan Fischer.

The library is frequently used by a sizeable proportion of the students and is one place where a student can go and complete the necessary assignments.

Isolating one's self from all other people gives the student an opportunity to sit down and break himself back in for studying.

"I seclude myself from parties and people who will influence me. I hibernate," said John Jewell.

Music motivates the mind. The mind is then able to tell the student what the student must get done. Music enables one to finish homework without a struggle.

"Music puts me in another dimension, a place where I can concentrate on my homework and get it done," said Jana Kennedy.

"I just slap on my headphones, and I don't have any problems with studying," she added.

Jeff Poppengo says the future holds the motivation factors in his quest for a degree.

"I think about how studying now will pay off for me in the future," Poppengo said. "I want to be successful and by working hard in school, I hope to achieve that success later."

If one is the type of person who just can't get in the groove of studying, he or she should lock his or her self in a closet with a favorite book; listen to the theme song from Rocky I, II, or III; and think about what one may be doing 10 years from now.

Off to Minnesota

A group of rec majors will board "Ol' Blue" and head north to Minneapolis to the National American Alliance of Health Physical Education and Recreation Congress April 7, 8 and 9.

MIKE THOMAS is a valued player for both the Bears basketball and the Bears baseball teams.

Mike Thomas-
Sparks Bear team

By JAY SAWYER

Mike Thomas, is the Athlete of the Month for the Boone DMACC Bear Facts. Mike was born in Jamaica and lived there for eight years before his family moved to England. In 1970 his family moved to Winnipeg, Manitoba, in Canada.

He graduated from St. John's High School in Winnipeg where he played basketball. As the teams leading scorer, Mike averaged 21 points per game, while shooting 58 percent from the floor.

Mike has come to Boone to play basketball and baseball. He has already had a successful season on the men's basketball team, averaging 17 points and seven rebounds per game.

Even though Mike excels in basketball, baseball is the main reason he has come to the Boone Campus College. He was sent here by a baseball scout and is very much looking forward to a good season with the team under the coaching of John Smith.

Last year Mike led the Manitoba Junior League for players from age 18-23. Mike hit a booming .464 at the plate, while playing outfield and pitching positions.

Mike is taking business courses at DMACC and says he wants to keep playing baseball at a high level of competition. He would also like to attend a four year college.

Mike says he likes the Boone Campus School because it isn't very big and it's easy to get along with the students and teachers.

As for this years team, Mike sees the team as having strong points in hitting and speed, as well as some good pitching. Mike hopes to help the team out this year so they can again go to the Junior College World Series!

Lady Bears begin softball season

By LORI MCGEE

The 1983 Boone Campus Women's softball season got underway March 21 with 11 players showing up for practice.

Workouts, under the guidance of Coach Larry Hughes, have consisted of fielding, throwing and hitting.

Although the team returns just one letterman, Julie Johnson, from last year's 14-11 season, Coach Hughes seemed optimistic about the team's ability. The team is seeking to better the school team record of 18-11.

"The team looks good defensively at this point; however, we lack another pitcher," Hughes commented.

"Julie Johnson will do fine, but won't be able to pitch all the time if the weather is good and we play several days in a row."

"Our hitting ability is unknown at this time until we get outside and face other pitchers," he added.

The season schedule consists of 32 doubleheader games. Regional tournaments will be held May 6 and 7 at Kirkwood at the conclusion of the regular season.

BOONE CAMPUS SOFTBALL ROSTER

Karen Thompson, United Community; Connie Bassett, United Community; Tammy Crispin, United Community; Robin Westrum, Stratford; Lisa Bell, Gilbert; Carol Godfrey, YJB; Anna Sayre, United Community; Sherry Fisher, Nesco; Chris Knight, Boone; Lisa Rimathe, Ballard; Julie Johnson, Emmetsurg.

Is this spring?

THE CALENDAR may say that spring has arrived, but for those in the central Iowa area, the weather conspired to cast doubt on this. Following a 12 inch snowfall, a multitude of snowmen, snowrabbits, snowwomen, snow balls and snow forts made their appearance. At the left, one of the snowmen stands ready to sweep the sidewalks of Story Street, above. The snow didn't last long, though, as warmer temperatures arrived to turn the snow into more mud and rivers of water. (Photos by Linda Ensley)

Insurance available

By DAN BURNS

A student accident and sickness insurance plan is available to any DMACC student who wishes to acquire it.

The plan is for participation on a voluntary basis. The plan will cover serious illness or injuries requiring hospital treatment. It provides a financial assistance to the student when unexpected medical costs provide a problem.

The coverage is provided at a low cost in comparison to the benefits involved. While being a policy that can help those without coverage of any other sort, it also serves as a valuable supplement to any insurance the student might already have. The policy will pay regardless of any other insurance that the student has.

DMACC is concerned with the health of its students;

Apply for aid

Any student desiring to apply for financial assistance for the 1983-84 school year is urged to do so as soon as possible.

The students should know that the sooner they apply for assistance, the higher priority their application will receive. The applications are handled on a first come, first serve policy.

Nurses choose officers

By DEE DEE VERPLANK

Tuesday, March 15, the Nursing Students Union held a meeting for the nomination of officers.

Nominees for president include Deb Smith Terrones and Zoe Pederson.

Nominees for Vice President include: Vicki Lemke, Marian Anderson and Sandy Day.

Secretary nominees were Diane Myers and Carla Pies.

Nominees for treasurer include: Katie VanGundy, Kim Sullivan and Carolyn Zepp.

The nursing students will cast their votes by secret ballot.

Other activities discussed at the meeting included an Alumni Picnic. This picnic will be held June 5th, at McHose Park. The NSU will donate the beverages that will be served.

The students also debated the possibility of having a Welcoming Party for new students coming from Carroll. This party is still pending, but may be a good ice breaker for new students.

There will also be a Blood Drive for the ISU Union. This will be April 11-14. A group of the nursing students have volunteered to give blood.

however they are able to offer the coverage on the assumption that a large percentage of the student body will enroll. Any student interested in acquiring this insurance is urged to pick up the forms provided for them in the office. Enclosed in the forms are the answers to any question the student might have.

Transfer students sought

By PHILIP C. O'GARA

Boone Campus students interested in transferring to Morningside College in Iowa should contact the school's Transfer Student Center.

The Center was initiated in 1980 to ease transfer for students from community colleges, as well as from other two and four year colleges and universities.

Services provided by the Transfer Student Center include articulation agreements with two-year community colleges, academic counseling, transfer orientation, transfer luncheon, evaluation of transcripts, financial aid counseling, student advising, tutoring in math or reading, and the development of new publications to attract transfer students to Morningside.

Numerous faculty members from Morningside have taken the opportunity to visit area community colleges. They plan a visit to the Des Moines Area Community College, Boone Campus, next year.

Seek more activities

By DEE DEE VERPLANK

Being new is a problem we all face one time or another in our lives. First year nursing students find this to be very true.

Where do we go? What do we do? Who do we ask? How do we get there? Where was that meeting? At what time? Getting around seems to be the problem that new students are constantly contending with.

First year nursing students would really like to do more things with the second year nursing students. After talking with four of the thirty-four first year students, I discovered there are many things they could do. Why not combine a class? Go on a picnic? Have a dinner in the student lounge for all nursing students? Plan a party? Have a volleyball or softball game?

The only activity the students have together are the meetings for which they elect nominees for officers. The students would like it if they could get together and get to know each other better.

The first person interviewed was Zoe Pederson from Nevada, Iowa. She is in the ADN program and has a BS from ISU. Zoe is a flight instructor and has 13-year-old twin boys. She is still living in Nevada so she commutes everyday.

Also in the ADN program is Vickie Lemke. Vickie comes from Guthrie Center where she graduated from high school. She is married and has four children to care for. Vickie also teaches first grade Sunday School, plays softball, does aerobics, loves to read, is in a book club and is also a member of the Newcomers Club.

Diana Meyer is another student with ADN. She is from Washington, Iowa, and graduated from Kirkwood High School in Cedar Rapids. Diana is married and has two children, a 12-year-old and a 10-month-old. She enjoys aerobics and takes care of plants.

Last, but definitely not least, is Marian Anderson. Marian lives in Grand Junction where she graduated from East Greene High School in 1972. Currently, she is working at the Jefferson Manor. Marian is married and has a 3 year old daughter and is expecting another child. Some of her hobbies include sewing, knitting and reading.

Intramural events

By LAURA STOLL

The Boone Campus intramurals include a wide range of activities.

Most recently, participants are trying skills of strategy at Backgammon. Although the tournament isn't over yet, it should prove the winner a master of strategy, or maybe one of just plain luck. Whichever one it does, it could be a fun and challenging experience.

On Monday, March 28, guys and gals participated in the basketball free throw contest. Tim Scott was the winner of the men's division with an impressive 20 out of 25 tries. at the hoop. Laura Stoll won the womens division.

Some other intramural activities being planned are softball and tennis. The tennis entries are due April 22. Other activities planned are a golf tournament, Frisbee golf, volleyball and a tug-o-war scheduled for the annual end of the year pig roast.

Everyone is encouraged to try their skills in intramurals and have fun...fun...fun!!!

Are you hungry? Hog Roast is coming

By LINDA ENSLEY

Deep breath.

Nostrils flare to capture more of the aroma. Another deep breath.

Salivary glands are tickling and trickling now. Stomachs grumble. Noses zero in like radars to the source.

Ears detect the grinding, whining sounds in the distance. Feet scurry forward, closer to the sounds and smells that are tantalizing the imagination.

Another sound, but this one is more like pumping up a fiat bicycle tire. Eyes see people, lots of people. What are they doing?

What they are doing is indulging in one of the finest springtime traditions Boone's DMACC offers — the annual "serve it up, quick, hot, and plentiful" pig roast and kegger.

Through the years this rite of spring-turning-to-summer has grown from a noontime event with a hog feeding around a hundred people to including bands or disc jockeys at a party continuing long into the night.

The little roaster of the early years has been replaced by a larger, custom made roaster capable of accommodating over 200 pounds of green ham and loins on its spit.

The cost of the bash has also risen, currently approaching the \$1200-\$1500 mark with the purchases of the buns, chips, beer, and the guest of honor—the hog—as well as outlay for rent, bands or disc jockeys and other incidental items.

Making the arrangements requires a lot of advance planning and cooperation.

Weather and available space at the chosen site are only a couple of the considerations involved. Other factors include working around scheduling conflicts with any involved businesses to find a place to hold the roast and dance, whether students prefer the less expensive route of having a disc jockey or would rather spring for a band, the time of day to begin the festivities, and if the roast is held

during the week, the obvious problem of conflicts with regularly scheduled classes.

Tentative plans now call for the roast to be held May 9 or May 11 (Monday or Wednesday) as many local businesses are unwilling to accommodate the crowd during their normally busy weekends.

As outdoor facilities have always been preferred for the roast itself, the weather is an issue. This early in May the nights are still nippy, making an outdoor dance inappropriate.

To approach this problem, the best solution suggested so far has been to hold the roast in the afternoon while the weather is still warm and comfortable, and move the dance indoors in the evening, perhaps to someplace like the Trestle or My Place Lounge where people can imbibe their favorite beverages. In case of rain, another date for the roast will be announced.

There is still the hurdle of classes to overcome. This is where the real cooperation shows. Instructors are legitimately reluctant to allow partying to interfere with their classes, but in many ways the pig roast is more than just a party.

It is time for students, staff and alumni to get together one last time before graduation and summertime lives take over — a last get-together with friends made, lessons learned and futures dawning. In this spirit it could be made for alternative scheduling of tests or classes requiring attendance.

Of course, as is always the case with any DMACC party, if students, faculty, and staff know about it, so do Boone's Men in Blue, and they are guaranteed to be watching.

The participants must take responsibility for monitoring their own people, making sure that no one gets too rowdy or that anyone who steps over the line of intoxication doesn't drive home.

Moderation is the oft-ignored key word, but a vital one. If everyone exercises a little self-control, all concerned can have a great time, and the grand tradition of the annual pig roast can live on.

Ideas are still being accepted for details concerning the roast and can be conveyed by talking to Darla Dixon, Linda Essert, Terry Marquardt, Steve Russell, or any Student Senate member.

Campus students to PBL conference

Nineteen DMACC students and one advisor attended the 37th annual Phi Beta Lambda State Leadership Conference which was held in Clinton, Iowa at Clinton Community College on March 25 and 26.

Members from the local chapter joined 200 business students from throughout Iowa in competition against other Iowa Chapters to represent the state at the National Leadership Conference in San Francisco, California, July 5-8.

Phi Beta Lambda is the college's professional business organization and the college counterpart of Future Business Leaders of America.

At the state conference, students competed in various

events against other four-year and community colleges in the state of Iowa. Following are the results for Boone Campus students at this year's conference:

Junior Typist-Connie Steffenson, 4th place.

Poster Event-Diane Baetz and Rena Mills, honorable mention.

Junior Secretary-Missy Monen, 1st place; Chris Knight, 2nd place.

Business Communications-Connie Steffenson, 2nd place.

Executive Typist-Pam Hagemann, 4th place; Connie Stewart, 5th place.

Corresponding Secretary-Robin Sanders, 4th place.

Ms. Future Business Executive-Roxanne Barenz, 3rd place.

Ms. Future Business Teacher-Robin Sanders, 4th place.

Office Procedures-Missy Monen, honorable mention.

Data Processing I-Diane Baetz, 4th place; Terri Ruhde, 2nd place; and Roxanne Barenz, 1st place.

Data Processing II-Alan Swanson, 4th place; John Harper, 3rd place.

Chapter Activities Report-Prepared by Terri Ruhde and Pam Hagemann, 5th place.

Largest Local Chapter Membership-Boone, 5th place.

Lloyd v. Douglas Outstanding Chapter of the Year-Boone PBL, 4th place.

Those who won first place at state are eligible to compete at the National Conference.

Other DMACC students attending the conference were: DeeAnna Bechtel, Lori Lind, Loni Johnson, Lorrie Nootz, Sam Wheller, Debbie Ford and Judy Heimerman.

Rec majors to travel

A number of recreation majors will be traveling to Springfield, Ill., April 10, 11 and 12 to attend the National Therapeutic Recreation Symposium.

Professionals in the therapeutic persuasion from throughout the Midwest will be present to address issues and trends unique to the therapeutic recreation specialist.

Diana Ross scores high

By LINDA ENSLEY

Charging through the audience like a hungry lioness released from her lair, Diana Ross exploded onto the stage at Hilton Coleseum March 11.

Promising that there "Ain't No Mountain High Enough (to keep me from you)," she delivered a two hour musical autobiography travelling along the early Motown sounds with Florence Ballard and Mary Wilson of the Supremes, through her jazzy Billie Holiday "Lady Sings the Blues" and softer "Mahogany" movie scored, on up to selections from her currently released album, Silk.

With shimmering intensity, Diana performed "in the round," interjecting as much personal contact with the audience as possible.

Turning the house lights up and threading her way through the crowd, she encouraged the audience to participate with her in "Reach Out and Touch Somebody's Hand" and a medley of other tunes. Intermission brought her back, a skin-tight spangly bodysuit replacing her gown, with a set geared toward the current physical fitness phase. A short course on aerobics took her into "(I Want) Muscle," visually aided by several men from the audience who came on stage to exhibit their brawn.

During her not-quite-spontaneous encores she transformed the show from borderline naughty to family-

oriented, asking that all the children under the age of seven (the age of her eldest child) join her on stage. Almost 30 kidlets climbed or were carried into the spotlight with her and demonstrated that they could boogie too.

With two dynamite background vocalists, Sharon Wade and Bobbie Glenn, and a 12 piece band directed by Joe Guercio providing the background arrangements, Diana performed the songs that brought her from Detroit's black ghetto where she learned about the three R's-rats, roaches and rhythm and blues. "Keep Me Hanging On," "Somebody, We'll Be Together," "Touch Me in the Morning", "Stop! In the Name of Love", "Why Do Fools Fall in Love?", and more recently "Work Your Body" and "Muscle" are a few of the reasons Diana has stayed on the top hits lists since the early sixties with the release of "Baby Love". After twenty years of finely honing her musical talents, she has developed the style of a seasoned professional who doesn't want to lose contact with her roots or the audiences that helped her rise from the storeclerk to one of the most popular singers of the seventies and eighties.

DIANA ROSS held her audience captivated during her performance. Photo by Linda Ensley

A guy to know: Fred Chesney

By JEFF FORSTER

Are you one of the folks who think that Steve Martin is a wild and crazy guy? Then you have yet to meet our April student of the month-Fred Chesney.

Fred came to DMACC from Newell, to major in Recreation and lounge. He stated that, "The recreation program gives me a wide range of choices for jobs that fit my abilities."

The classes that have interested him most have been anatomy, physiology and all of his rec classes. Fred anticipates graduating in the spring of 1984 and would like to further his education possibly at UNI, the University of Utah or Wisconsin, but he is still checking into other schools.

Now that we know of Mr. Chesney's life of study, what of his life of leisure? What does Fred Chesney do in his spare time to overcome boredom? "Eating and playing my guitar!" Fred is a good acoustic guitar player and also plays piano and drums. Of course, Fred does other things besides studying, eating and playing his guitar. So tell us Fred, just what else do you do? "Well, my love life is pretty good, but I still am working for perfection. My favorite pastime, though, is partying — if I have the money!"

Now here's a tough one for Fred. How do you handle a boring Monday? "I like to go to the Trestle to see friends, but I especially enjoy the free beer!"

I hope you now know a bit more about this extremely funny, but intelligent and talented student named Fred Chesney. See you Monday night Fred.

FRED CHESNEY is this month's "Student of the Month"

MASH winners and answers told

By DAN BURNS

So here it finally — the answers to all of that MASH trivia.

Out of all of the entrants, there were three winners chosen. The first place winner was Jeff Ford. Coming in with a second place award was Linda Ensley and Bill Reed ran a close third.

Congratulations winners!

- 1) Hawkeye's full name was Benjamin Franklin Pierce.
- 2) Klinger was from Toledo, Ohio.
- 3) Gary Burghoff played Corporal Walter "Radar" O'Riley.
- 4) Col. Potter's wife was named Mildred.
- 5) Trapper's wife's name was Louise.
- 6) B.J. was from Mill Valley, California. (Not San Francisco.)
- 7) B.J.'s wife and child were named Peg and Erin.
- 8) Colonel Blake was from Bloomington, Indiana.
- 9) Colonel Blake and Klinger were the only two MASH members to not make it home.
- 10) Goodbye, Farewell, Amen was the name of the final episode.
- 11) Frank Burns was played by Larry Linville.
- 12) Hawkeye was from Crabapple Cove, Maine.
- 13) Honolulu, San Francisco, Death Valley, Fort Worth, Tokyo, Seoul, Boston, Toledo and Coney Island.
- 14) Spearchucker Jones.
- 15) David Ogden Stiers played Winchester.
- 16) Charles Emerson Winchester III was Winchester's full name.
- 17) "Suicide is Painless" is the name of the theme song.
- 18) Col. Potter's horse was named Sophie.
- 19) Sally Kellerman played Hot Lips in movie.
- 20) Robert DuVall played Frank Burns in movie.
- 21) The motor pool attendant was named Rizzo.
- 22) Klinger made Sergeant by the final episode.

Rec majors to conference

Approximately 50 recreation majors from the Ankeny and Boone campuses will be attending the annual Iowa Parks and Recreation Conference in Cedar Rapids, April 4, 5 and 6. The conference will be held at the Five Seasons Hotel and will be attended by 450-500 professionals and students from throughout the state.

Rec hosts tourney

A group of recreation majors hosted the Iowa Park and Recreation Class B Basketball Tournament at the Boone Campus gym March 19 and 20. The tournament sported teams from throughout the state as final action saw Lee County Savings from Ft. Madison nip Uncle John's Record of Sioux City 56 to 54 in the championship game.

- 23) Col. Flagg was the crazy C.I.A. man.
- 24) Sydney Freedman was the psychiatrist.
- 25) Elliot Gould played Trapper John in movie.
- 26) Donald Sutherland played Hawkeye in movie.
- 27) Hawkeye's favorite rib joint was Adam's Ribs in Chicago.
- 28) Winchester's sister was named Anoria.
- 29) Rosie's was the name of the local bar.
- 30) The swamp was the name of Hawkeye's tent.
- 31) They raffled a nurse and a pass to send a houseboy to college.
- 32) Ho Jon was the houseboy's name.
- 33) Richard Hooker wrote the book MASH.
- 34) Henry Morgan played Col. Potter.
- 35) Loretta Swit played Hot Lips on TV.
- 36) Mrs. Donald Penopscott was her married name.
- 37) The initials B.J. stood for just B.J.
- 38) Mike Farrell played B.J.
- 39) Klinger was trying to get a Section Eight or a discharge.
- 40) Col. Potter was from Independence, Missouri.
- 41) The letters MASH stood for Mobile Army Surgical Hospital.
- 42) Best Care Anywhere was the MASH motto.
- 43) Nurse Kelly was from Honolulu, Hawaii.
- 44) Charles was stationed at Tokyo General before the MASH unit.
- 45) Radar traded with Sparky over the radio.
- 46) William Christopher played Father Mulcahy.
- 47) Father Francis John Patrick Mulcahy was the priest's full name.
- 48) Wayne Rogers played Trapper in the TV show.
- 49) Klinger's favorite baseball team was the Toledo Mudhens.
- 50) Trapper spent his residency at Boston General Hospital.
- 51) Igor was the name of the cook.
- 52) Trapper's full name was John F. McIntyre.
- 53) Radar was from Ottumwa, Iowa.
- 54) Radar's uncle was named Ed.
- 55) Winchester was from Boston.
- 56) Winchester graduated from Harvard Medical School.
- 57) Col. Potter's full name was Sherman T. Potter.
- 58) Zale was the name of the supply sergeant.
- 59) Boxing was Mulcahy's favorite sport.
- 60) A hanger was put on the door if the supply room was still being used by another couple.
- 61) Klinger's first name was Maxwell.
- 62) Gary Burghoff was the only actor to be in both movie and television version.
- 63) The MASH number was the 4077th.
- 64) MASH was on TV for 11 seasons.
- 65) Robert Altman directed the movie, MASH.

OUCH! IT MAY have hurt, but Theresa Hadaway was glad to avoid the measles. Giving the injection is Gertrude Schultze from the Ankeny Campus.

Measles shots given

By BUNNY REED

The threat of a measles epidemic in colleges and universities throughout the country prompted 44 people at Boone Campus to have vaccinations Feb. 17 and Feb. 22.

"Those who have never had the measles, or who had the vaccinations prior to 1968 or before they were one year of age, would not have developed a permanent immunity to the disease," said Gertrude Schultze, school nurse at Ankeny Campus.

Schultze was in charge of the program to administer vaccinations at all DMACC campuses. "Overall, we gave 266 shots at the four DMACC campuses," she commented. "At this time, we do not expect the program to be repeated."

The fear of an epidemic began with the measles outbreaks at Purdue Campus in Indiana, the University of Illinois, and isolated cases in Kentucky just prior to the spring break for campuses on the semester system. During that spring break, students from many schools across the country travel to Florida for "rest and relaxation."

Schultze explained that, "We were concerned primarily with the two to three week period after this spring break. By April 18 we should know if the outbreak of measles is under control." The incubation period for the virus is two to three weeks after contact.

Less than five percent of the country's population has the virus each year, except in the state of Pennsylvania, which has a slightly higher percentage. There are no immunization laws for school age children in that state.

What they say...

By DEE DEE VERPLANK

What is the social activity you enjoy most, was asked of several DMACC students and teachers?

- 1) Lisa Rima-the softball
- 2) Cheri M.-parties
- 3) Blake Soder-read, write, science fiction, sleep
- 4) Ding Siew Lee-pop music
- 5) Kelly Penner-dying my hair blue (in groups!)
- 6) Carol Godfrey-eating after football games
- 7) Robert Kluckman-same as Carol
- 8) Kathy Hansen-playing poker and smokin' cigars
- 9) Larry Johnson-training and riding horses
- 10) Cindy Pio-dancing
- 11) Trent King-singing, cooking, and reading
- 12) Julie Ahrens-partyin'
- 13) Jeff Brown-same as Julie
- 14) Scott Porter-theater
- 15) Julie Dunkleburger-dancing, sports, going out with friends
- 16) Colette Gunnink-tennis and partyin' with friends
