End of personal car era 6 years away, says prof

In the year 1990, your automobile will be parked permanently. You won't be able to buy any more gas.

That rather significant idea was developed on campus the evening of Thursday, Nov. 30, for an audience of less than 20.

The thought—not even original with him—was expressed by Dr. John F. Christman, director of research and graduate studies at Loyola University, New Orleans. He appeared as a touring speaker, sponsored by the American Chemical Society, at an Orlando chapter meeting, held in the Chemistry Building.

The authority he quoted was Marion King Hubbert, geologist for Shell Development Co. in 1952, at which time he predicted the world's oil supply would run out in 1990.

Hubbert made a couple more predictions in 1952 that add to his credentials. "He said that in 1968 production of oil would exceed discovery and in 1978 oil consumption would reach its peak. And he was right on target on both dates," Christman said.

The biggest oil source in the U.S., Prudhoe Bay, Alaska, will go dry in 1987, he continued. "The only way the Alaskan pipeline will run after that is back north, down the Alaskan slope."

To assure that he and King Hubbert were not alone in forecasting the end of

the world's oil supply, Christman said Mobil Oil predicts the end will come in 2000, the National Academy of Sciences picks 2003, the National Petroleum Council, 2007, and the US Geological Survey, 2028.

None of the alternative fuels, either for mobile power, or generating heat and electricity, can supply the void that will be left when the supply of oil is gone, he indicated.

Eventually, man will have to go back to where he was in 1700, to an agrarian economy, when most of the population produced food. In his own classes students suggest the best strategy of survival is to move people out of cities onto land, under a new homestead act.

"The one big difference between the future and 1700 is that we will still be able to communicate around the world in a matter of seconds because that does not require much power," he said. But without private transportation, people will revert to that era when 90 percent of the population never traveled beyond 25 miles in their lives.

The end of oil could be postponed, he said, if consumption were cut in half. In 1978-79 US fuel consumption peaked at 81 quads (million billion BTUs) and that figure is now 78 quads, he said.

But the problem is worldwide; communist and third world nations are

DR. JOHN F. CHRISTMAN
...observer of world's fuel supply

"You're out of gas...
by 1990!"

increasing oil consumption at a rapid rate. Unless all nations agreed on restraint, trying to stretch the supply would not work.

Christman named alternative power sources, such as solar, geothermal, biomass, nuclear fission, nuclear fusion, shale, tar sands and tidal, saying none promised to maintain today's life style.

Without posing as a strong advocate, Christman indicated a preference for nuclear generated electric power, by

calling it the safest of present sources and saying nuclear waste disposal would not be a problem if it had not become an emotional public issue.

As the oil supply dwindles, there will be a critical period when wars might be fought over what is left, he said.

There is one silver lining on the horizon, he said.

"When we run out of fossil fuels we will reach a point where we will not have enough energy to fight a world war!"

Foundation, faculty, donors fete 200 scholarship winners

Nearly 200 scholarship winners will be recognized Friday, Dec. 9, by the UCF Foundation, faculty and area donors.

Scholarships for UCF students funded from private sources total close to \$125,000, while the number of awards and number of donors doubled, said James A. Donovan, executive director of the non-profit foundation.

The keynote speaker at the campus luncheon will be Edwin Beschler, president of Grune and Stratton, Inc., the medical publications division of Harcourt Brace and Jovanovich, Inc.

Highlights will include a joint

announcement by UCF President Trevor Colbourn and Orlando City Commissioner Nap Ford, establishing the John T. Washington endowed memorial scholarship, honoring the late UCF sociologist. Contributions will go to assist qualified and deserving minority students in the social sciences.

Scholarship aid over the past year stemmed from private sources that included the UCF Alumni Association, the MAgruder Foundation, Selby Foundation, NCR Foundation, Ben Moss, Mrs. Marilyn Strohbehn, Citrus Golf Tournament Fund, Overstreet Foundation, Polasek Foundation and the estate of the late Julia B. Beensen.

Solar Center has dedication and two workshops in a week

Florida Solar Energy Center has a two-day workshop on Thursday and Fri-

Twin bill graduation on Dec. 16

Fall commencement Dec. 16 will follow the successful "twin bill" first tried in August, with both morning and afternoon ceremonies.

The 9 a.m. and 2 p.m. events in the UCF gymnasium will honor 930 students who will be awarded baccalaureate, masters or doctoral degrees.

David Burgin, editor of *The Orlando Sentinel*, will speak at the morning ceremonies, when degrees will be conferred to students in the arts and sciences, education and liberal studies. Peter Barr, Orlando advertising executive and incoming president of the Greater Orlando Area Chamber of Commerce, will speak at 2 p.m. to graduates of the College of Business Administration, Engineering, and Health.

Families and other guests of graduates are asked to arrive on campus at least one-half hour before the scheduled time of either ceremony.

day of this week on the subject of photovoltaics, plus a Friday dedication at which the U.S. Department of Energy's undersecretary of energy, Pat Collins, will speak.

The solar research branch of UCF, located at Cape Canaveral, will dedicate the Photovoltaic Southeast Residential Experiment Station Friday from 10:30 a.m. until noon. Talks will be given by Collins, U.S. Rep. Bill Nelson and State Sen. Clark Maxwell.

Also, UCF President Trevor Colbourn will speak on the subject "Research and Higher Education." FSEC Director David Bloch will give the introductory remarks.

The two-day workshop discusses the fundamentals of PV definitions and terminology, basic device physics, manufacturing processes, solar resource data, system and storage options.

Paul Maycock, president of Photovoltaic Energy Systems, Inc., will discuss the PV industry and market during the workshop.

The following week FSEC will hold another two-day workshop on design and installation of solar heating for commercial pools and spas. The course will be given Dec. 13-14 with Doug Root as director.

Messiah sing-a-long on Dec. 7

Bathub baritones and shower sopranos will have their day Dec. 7 at the University of Central Florida by joining in the Third Annual Sing-a-Long "Messiah."

Co-conductors John Whitney and Dale Voelker, who have the UCF orchestra and UCF choir, have issued a blanket invitation to local singers and string players to participate.

Copies of Handel's classic will be available to all, amateur or professional, young and old, experienced or not.

The annual event will begin at noon in UCF's music rehearsal hall.

AMI plans hospital on 50, near campus

American Medical International (AMI) Monday announced plans to build a privately financed, full-service hospital on Highway 50, 1,000 feet east of Alafaya Trail.

The application to Florida's HRS calls for a 175-bed, three-story facility close to Central Florida Research Park. The proposal requires a certificate of need from the state.

Robert L. Bohlman, senior vice president and director of AMI's Eastern U.S. office in Atlanta, said the full-service hospital will cost \$32 million and take 14 months to build, after a certificate is issued.

Next heart talk on pump failure

Florida Heart Institute's next lecture will be by Rolf Gunnar, Loyola University, on "Management of Pump Failure in Acute Myocardial Infarction."

The talk will be in the Loch Haven Medical Building, 500 E. Rollins St., on Dec. 14, at 7 p.m. Lectures are free to people in the health fields, with credits available.

Women's Club plans Christmas coffee

UCF Women's Club will hold its annual Christmas coffee at the Winter Park home of Mrs. Trevor Colbourn at 10 a.m. on Tuesday, Dec. 13.

Members may invite guests and everyone attending is asked to take a toy for a boy or girl between the ages of three and five. As is traditional with the Women's Club, the gifts will be donated to the Head Start program at the University United Congregational Church of Orlando.

Tots trim tree, party with Santa

Creative School preschoolers will trim the president's Christmas tree on Wednesday, Dec. 7, between 9:30 and 11 a.m. at the President's Dining Room.

Decorations will be ornaments the children themselves made.

Mrs. Trevor Colbourn will be the hostess, providing favors and refreshments furnished by the UCF Women's Club.

On Friday, between 9 and 11, Santa Claus will visit the school and party with the small children.

University Ticket Agency
Subject: **Men's Basketball Tournament**

The 14th Annual Citrus Bowl/Red Lobster Classic is being held at the Orange County Civic Center on December 29th and 30th. Tickets are \$7 each night and are available at the Ticket Agency located in the Athletic Facility, Bldg. 3.

The schedule is as follows:

Thursday — December 29
7 p.m. Stetson University vs. UCF
9 p.m. U. of S. Carolina vs. U. of Cincinnati
Friday, December 30
7 p.m. Consolation Game
9 p.m. Championship Game

UCF will be reimbursed \$1 for each ticket sold through our Ticket office, so why not plan on a fun-filled evening of Basketball, and help support UCF. Any questions please call the Agency at 275-2139.

Director of Libraries
Subject: **Library Hours for Semester Break**

November 30, 1983

The library will observe a shortened schedule of hours for the period December 16, 1983 — January 4, 1984:

Thursday, December 15 — 7:45 a.m.—8:00 p.m.
Friday, Dec. 16 to Wednesday, Jan. 4—8 a.m. — 5 p.m.

The Library will be CLOSED the following days:

Saturday and Sunday, Dec. 17—18,
Saturday, Sunday and Monday, Dec. 24—26
Saturday, Sunday and Monday, Dec. 31—Jan. 1-2.

The Library will resume the normal operating schedule on Thursday, January 5, 1984.

POTPOURRI

Wednesday, Dec. 14—The Meal Plan ends with Dinner and the Cafeteria will close.
Wednesday, January 4—Lunch, 11:30 am-1:30 pm;
Dinner, 4:45 pm-6:30 pm.

UNIVERSITY CLUB

Tuesday, Dec. 15—Will close at 1:30 pm and re-open Tuesday, January 3 on a regular basis.

KNIGHT'S DEN

Monday, Dec. 12-14 — 7 am - 7 pm
Thursday, Dec. 15 — 7 am - 7 pm
Tuesday, Jan. 3 — 9 am - 7 pm
Wednesday, Jan. 4 — 9 am - 7 pm
Thursday, Jan. 5 — Resume regular service 7 am - 11 pm.

FAST BREAK

Friday, Dec. 9 — Will close at 2 pm and resume regular service Jan. 5.

GREAT ESCAPES

Monday, Dec. 12-15 — 8 am - 3 pm
Friday, Dec. 16 — 11:30 am - 1:30 pm
Saturday, Dec. 17-18 — ALL FOOD SERVICE CLOSED
Monday, Dec. 19-23 — 11:30 am - 1:30 pm
Saturday, Dec. 24-26 — ALL FOOD SERVICE CLOSED
Tuesday, Dec. 27-30 — 11:30 am - 1:30 pm
Saturday, Dec. 31-Jan. 2 — ALL FOOD SERVICE CLOSED
Wednesday, Jan. 4 — 11:30 am - 1:30 pm
Thursday, Jan. 5 — RESUME REGULAR SERVICE 8 am - 3 pm.

Gerald Schiffhorst (associate professor/English) gave a paper, "Patience and the Education of Adam in *Paradise Lost*," at the South Atlantic Modern Language Assn. meeting in Atlanta, Oct. 28.

Schiffhorst has an article, "Satan's False Heroism as a Perversion of Patience" in the forthcoming issue of *Christianity and Literature*.

David B. Slaughter (Public Service administration) presented a lecture/seminar on Constitutional Law at the Central Florida Criminal Justice Regional Training Center in Orlando on Oct. 8. The lecture dealt with constitutional law issues most commonly encountered by law enforcement personnel.

Harvey A. Miller (professor/Biological Sciences) spoke to the Central Florida Chapter of the Explorers Club of New York on Nov. 19. His talk, "Of Moss and Men," was based on his research from the Arctic to the tropics.

CANDIDATE SPEAKS

David P. Bergland, Libertarian Party's candidate for President in the 1984 election, spoke briefly on campus Thursday, Dec. 1.

The Costa Mesa, Calif., attorney, talked from a platform in the open at the north side of the Student Center during the lunch hour. After saying his party stood for a maximum of personal freedom and a minimum of government interference, Bergland answered questions from the audience.

University's first fulltime AD Jack O'Leary dies at 54

Jack O'Leary, 54, UCF's first fulltime athletic director, died last Friday, Dec. 2.

He was appointed to the AD post by President Trevor Colbourn in the summer of 1976 and led UCF through the pangs of growth in its then new football program.

In earlier coaching years, he worked at Alabama under Bear Bryant, and at Tulane. He was both coach and athletic director at St. Mary's College, Dodge City, and was AD at Colorado State University from 1974 until his UCF appointment.

Since 1981 he had been a member of the physical education faculty in the College of Education.

"The university has lost a loyal colleague and I feel I've lost a good friend," said Colbourn. "Jack O'Leary never gave less than 100 percent to any endeavor he undertook.

"Under his direction, athletics at UCF made significant strides, pacing the growth of the institution. It can be truly said he laid the foundation of UCF's present and future aspirations in intercollegiate athletics.

"He will be widely missed and I am sure many will join us in extending our sincerest sympathy to Ann at this very difficult time," he said.

In addition to his wife, Ann, of Maitland, Dr. O'Leary is survived by sons, Mike and Tommy, and daughter, Jackie.

The funeral was held Tuesday at Portsmouth, N.H., where he was born.

JACK O'LEARY

James Garrison, storekeeper, dies

James H. Garrison, 48, (storekeeper I/ Building Services) an Oviedo resident, died on Nov. 21.

Garrison had been a student at UCF and worked part-time until Jan. 22, 1979, when he took a full-time custodial job. He was promoted to storekeeper on July 18, 1980.

Burial was at Union, S.C., where his father, Robert, lives. He is also survived by a sister, Mrs. Virginia Allen, Kissimmee.

'TJ Day' is tradition honoring December employee of month

By Wendy Pennington

He's never been president of anything, but Thomas Jefferson — custodian at the Creative School for Children and December Employee of the Month — has his own special fame.

Back when UCF was still FTU and Jefferson worked in the library, representatives of the faculty and staff started what was to become a yearly tradition: celebrating Jefferson's birthday, or as it was called, "TJ Day."

According to Barth Engert, Undergraduate Studies, Jefferson first distin-

THOMAS JEFFERSON ...a tradition at UCF

guished himself in 1968 by his excellent workmanship and friendliness. "He exhibited more good qualities than you would expect to find in a gentleman than anyone I've ever come across," explained Engert, who has participated in the celebrations from the beginning. "He always had a greeting for everyone, always was genuinely interested in their welfare. And back before carpeting, he kept the floors so polished you had to wear sunglasses.

"When he retired in 1973 to open a general store in Oviedo, Uncle Tom's Cabin, he had the biggest retirement party I've ever gone to. I guess if a person can become a tradition," Engert said in sum, "Jefferson's become a nice one."

He and his late wife Geneva ran the store for several years. When it closed down, Jefferson still wasn't ready to retire for good. He worked for awhile at Jackson Heights Elementary School and Nelson Company in Oviedo, then decided to "come back to UCF and start over again," he said.

The day he interviewed for his position at the Creative School for Children, he was in for a surprise. "I expected to see a bossman and had no idea it was a woman. I asked where the boss was and Mrs. Burghard said, 'I'm the boss,' and I about dropped back. A woman! But I've taken a different idea since then. She's the best boss you could have. She runs this place better than anyone." He paused for a moment, then added proudly, "In fact, I guess you could say I like the whole thing — the people, the surroundings, the children — especially the children. They're all my children."

The admiration is mutual. Mrs. Burghard, director of the center, explained that "the children just love him. They petitioned for him to be employee of the month, sending in little drawings. You could say it was a full school effort. We all signed a memo for it."

The drawings weren't a first, for the children — on their own initiative — often make special drawings for him. He has them plastered all over his house. "They just have a fit when Mr. Jefferson comes on campus," says Jefferson with a laugh. "I guess you couldn't wish for much more than that."

The Georgia native — who describes himself as "an old country boy raised on a farm" — has worked since he was eight years old. He had to quit school then to care for his grandmother. "I did turpentine work," he said. "We'd chip the pines with a hack and the gum would come down into a cup. We'd fill it up and haul it into a barrel." This work eventually led him to an area south of Lake Okechobee, where he lived and worked with the Indians. "I'd watch them in the woods, with their strange clothes and carrying rifles. I couldn't understand their language," he reminisced. In 1937 he moved with his bride to Oviedo. "It was just a fruit town then," he said. "And come to think of it, still is — with a few stores and houses added." For many years, he made his living working in the citrus groves and vegetable fields, until, he said, "this school opened up. And I've been here ever since."

Jefferson has no intentions of leaving. Retirement is out of the question as far as he is concerned.

"I don't have any idea of quitting," he said emphatically. "These people out here are nice to me, very friendly. I love them. I'm going to stay as long as I'm able to give service — as long as they're happy and I'm happy."

Health Facility low bid \$154,000

On a rebid of the projected Health Facility last week UCF succeeded in getting four valid bids, all below the \$180,000 budgeted for design and construction.

Engineering and Management Group Inc., Orlando, jointly with Kellan Corp. of Jacksonville, had the low bid of \$154,000. Others ranged up to \$168,000.

The low bidder specifies design and construction of the 2,500-square foot building will be completed by Aug. 1, 1984.

The facility, to be located west of the Health Center, will include a teaching conference room, four offices and two dental examining rooms.

By nature all men are alike, but by education widely different.

—Chinese Proverb

Personnel duo merge records

Linda Haynes, personnel technician in employee processing, and Gary Meiseles, manager of wage and salary administration, were married at the Temple of Liberal Judaism, Orlando, the afternoon of Sunday, Nov. 27.

Lois Hilliman, staff assistant in student affairs, was the matron of honor.

After a reception in the grand ballroom of the Harley Hotel, the couple left for a week's honeymoon in Florida.

ELLER RECUPERATING

Jim Eller (director/Environmental Health and Safety) went home from Winter Park Memorial Hospital Monday to recuperate from surgery. He was admitted on Nov. 30. Eller has been a UCF employee since 1968.

Dessert from the Gene Burns/Charley Reese Roast & Toast is the big \$11,000 check held between Barbara Fingerman, president of the Florida Public Relations Association, that staged the dinner, and UCF President Trevor Colbourn. The Roastees, Burns (left) and Reese, got to take home framed cartoons of themselves.

Final course

Grant opportunities

Exemplary Projects in Undergraduate and Graduate Education (NEH) — Supports development, testing, and dissemination of exemplary approaches to the teaching of the humanities. Due January 6.

Institutes for Teachers (NEH) — Funds 4-6 week summer institutes for high school humanities teachers to enable them to learn more about their fields and the most effective ways of teaching them. Due January 6.

Folk Arts (NEA) — Supports efforts to preserve and strengthen folk arts through exhibits, recordings and celebrations. Due January 9.

Faculty Summer and Academic Year Programs (U.S. Department of Energy) — Provides opportunities to participate collaboratively in established DOE research programs relating to energy production, utilization, conservation, and their societal implications. Appointments are tenable in the life, physical, and social sciences; mathematics; and engineering. Due January 9.

Fossil Energy Summer Program (DOE) — Due January 9.

Facility Research Participation (Argonne National Laboratory) — Faculty research projects in summer 1984 in basic physical and life sciences, mathematics, computer science, and engineering, as well as in a variety of applied research programs relating to coal, conservation, environmental impact and technology, fission, fusion, and solar energy. Due January 13.

Cooperative Research Associateships (NRC) — Opportunities for basic and applied research in the laboratories of the Naval Research Laboratory. Due January 15.

Summer Faculty Research and Engineering Program (U.S. Army) — Summer associateships in engineering, mathematics, physics, chemistry, computer science, medical and health sciences, behavioral science. Due January 16.

Summer Faculty Research Programs — U.S. AIR FORCE conducted by the Southeastern Center for Electrical Engineering Education; AMERICAN SOCIETY FOR ENGINEERING EDUCATION with U.S. Navy; U.S. DOE in solar thermal research and development; NASA in aerospace research. Due February 1.

For further information, please contact Nancy Morgan, x2671.

Education was once viewed as a qualified privilege. It now seems to be looked on as a right. But I suggest that it should be viewed as a duty—the "penalty" for living in a democratic society, which must assume an informed citizenry as the base of its existence.

—Charles H. Koelling

The UCF Report

The UCF Report is the University of Central Florida's official publication, whose purpose is to inform the University community through announcements, official memoranda and items of general interest. Publication and announcements and official memoranda about University policy and procedures in The UCF Report constitutes official notice to faculty and staff. The UCF Report is a weekly publication most of the regular academic year and biweekly during the summer sessions, at a cost of \$180 per issue, or 7.5 cents per copy, paid for by the Office of Public Affairs, ADM 395-J, x2504.

Copy submitted on or before Thursday noon of the week before publication receives handling and space priority. Copy is accepted after this deadline but is subject to editing or delay until the succeeding publication date.

Employment Opportunities

UCF is an Equal Opportunity/Affirmative Action Employer.

For resume of current openings,
call Career Opportunity Line, 275-2778

Personnel Services lists the following vacancies, by title, department, minimum qualifications, annual salary range, bi-weekly salary, and closing date. It is the responsibility of the applicant to successfully complete any required performance and/or written exams prior to being considered for a specific job opening. For information on any required exams, as well as further details on these positions, contact Personnel, x2771. A listing of available faculty positions within the SUS is available on request at the receptionist's desk (ADM 230).

Administrative & Professional

ASSISTANT ATHLETIC COACH (Athletics, 3 positions). Bachelor of Science/Arts degree and one year coaching experience at the university, college or the high school/preparatory school level. Successful experience as a graduate assistant or intern in an athletic program for one year or more is appropriate experience. Prefer defensive line, offensive line and linebacker experience. \$13,020.00-21,700.00, \$498.85, 12/09/83.

VISITING ASSISTANT UNIVERSITY LIBRARIAN (Library). Master's degree in library science from an American Library Association accredited institution. Three years experience in Special library and online searching experience. Must qualify for security clearance at secret level. \$10,740.00-17,900.00, \$411.49, 12/30/83.

ASSISTANT DIRECTOR (Intercollegiate Athletics). Bachelor's degree and three years direct experience in university athletics or five years of combined experience in high school and university athletics. Prefer degree in accounting and experience in managing the business of a large intercollegiate athletic program. \$22,140.00-36,900.00, \$848.28, 12/30/83.

Career Service

TRAINING MANAGER (Police Department). Four-year degree and three years of professional experience in personnel, training, education, or program experience in the area of training. Prefer a background in crime prevention and victim advocate programs. \$16,307.28-21,882.24, \$624.80, 12/22/83.

COMPUTER SYSTEMS & PROGRAMMING MANAGER (Computer Services). Four-year degree and three years of progressively responsible experience in systems analysis and programming work, one year of which must have been at the Computer Systems Analyst II or Computer Programming II level or above. Computer systems analysis or programming experience may be substituted for the required education on a year-for-year basis. Prefer knowledge of COBOL, OS/MVS, JCL, CICS, EASYTRIVE, TRANS V, VSAM AND PANVALET. \$20,859.12-28,417.68, \$799.20, 12/22/83.

COMPUTER SYSTEMS ANALYST I Bachelor's degree in Computer Science; or four-year degree and one year of experience in computer systems analysis and/or programming. Prefer knowledge of IBM VM/CMS and MICROCOMPUTERS, technical writing experience desired. \$16,307.28-21,882.24, \$624.80, 12/22/83.

SECRETARY IV (Arts and Sciences, Management Inst.) Graduation from high school and three years of secretarial and/or clerical experience. Written and typing exams. Arts and Science position prefers shorthand. \$10,419.12-13,572.00, \$399.20, 12/16/83.

GROUNDSKEEPER I (Physical Plant). Ability to follow written and oral instructions. \$7,809.12-9,938.88, \$299.20, 12/16/83.

CARPENTER (Physical Plant). Graduation from high school and three years of carpentry experience. \$11,609.28-15,242.40, \$444.80, 12/09/83.

OPS Temporary

CLERK IV (Financial Aid). Graduation from a standard high school and three years of progressively responsible clerical experience. Written exam. Data entry experience required, also experience on the V.D.T. computer and printer. \$4.52/HR, 12/16/83.

One role open for Mack and Mabel

Auditions for the role of William Desmond Taylor in the UCF production of Mack and Mabel will be held Monday, Dec. 12 from 7-9 p.m., on the main stage of the newly expanded University Theatre.

This is a non-singing, non-dancing role, for a sophisticated, urbane, 1920's film actor, from 28-35. For further information call 275-2862 until 5 p.m., Monday through Friday.
