July 10, 2000 Hotel Human Resource Association of Central Florida

July 10, 2000

Dear General Manager and Human Resource Manager:
Thank you for participating in the Hotel Human Resources Assoclation of Central Florida's 2000 Wage and Benefit Survey. It is our pleasure to provide you with your copy of the final report. This year, 353 survey questionnaires were sent to human resource managers in the Central Florida hospitality community. Personalized letters encouraging participation were also sent to the general managers of properties whose surveys we did not receive by the cut-off date.

We received 65 usable responses from hotels and companies that provided data on Central Florida hospitality industry employees. This is the seventh year that the School of Hospitality Management's Dick Pope Sr. Institute for Tourism Studies at the University of Central Florida has compiled these data. We are confident that the Total Central Florida data and most of the subgroup (e.g. location and size) data are representative of the wages and salaries earned by employees in the industry.

However, certain sub-groups (e.g. location and size) and particular job positions may not fully reflect accurately specific wages and salaries where there is a low number of properties responding within a specific sub-group for a particular position. Therefore, some of these data should be interpreted with caution.

The Dick Pope Sr. Institute for Tourism Studies at the University of Central Florida is available to prepare "custom" reports in summary form for a specific group of comparies as defined by the participant, provided that the defined group consists of at least five companies. As with all other information, under no circumstances will individual property data be disclosed to anyone. No data will be reported on individual job titles for these "custom" reports if the number of respondents to the particular position is less than three.

It certainly was enjoyable to work with you again this year on this project, and should you have any questions, or wish to order a "custom" report, please feel free to call us at (407) 823-5641.

Sincerely,

## EXECUTIVE SUMMARY

## INTRODUCTION

During the summer months of 1994 through 2000, the Dick Pope Sr. Institute for Tourism Studies at the University of Central Florida has conducted a survey of Central Florida hospitality industry properties regarding wage rates and employee benefits. This ongoing project has been sponsored by the Hotel Human Resource Association of Central Florida and has been supported by the Central Florida Hotel Motel Association. This comprehensive study solicits and reports data on wages and benefits from 353 hospitality organizations covering 120 occupational/hourly job titles and 46 management/supervisory positions. The first final report in 1994 summarized data from 32 companies. The 2000 report includes data from 65 reporting organizations. An attempt was made to collect data on vacation ownership positions, including the methods and bases for computing commissions, however due to insufficient response this information is not being reported.

## METHODOLOGY

On May 10, 2000 questionnaires and instructions were sent to the Director of Human Resources at each of the 353 hotels and hospitality companies in the sample along with a personalized letter explaining the project. The database for this project includes all members of the Hotel Human Resource Association of Central Florida, all member properties of the Central Florida Hotel Motel Association, and all other Central Florida lodging properties identified in the November 1999 BellSouth Greater Orlando Yellow Pages.

To help stimulate participation, some hotels and hospitality companies received multiple packets of the survey addressed to employees other than the Director of Human Resources. A separate personalized letter, also dated June 7, 2000 was mailed to each property's General Manager, informing them of this important undertaking and requesting their support and participation. Both letters referenced the fact that the survey was sponsored by the Hotel Human Resource Association of Central Florida and supported by the Central Florida Hotel Motel Association.

Data were collected on 120 occupational/hourly job titles for: entry, average and maximum position rates as well as the percentage of total compensation that was incentive based or bonuses. A series of questions were also included on other forms of compensation for occupational/hourly employees such as: provision of meats, and payment of a shift differential.

For the questions on the provision of meals, respondents were asked to indicate "yes", "no", or "partial". These data were recoded by us combining the "yes" and "partial" responses. The responses to the Meal question are summarized only for the Total Central Florida Area. For questions on shift differentials and bonuses, respondents were asked to indicate "yes" or "no". These results are also reported in each size and location section.

Data were collected on 46 management/supervisory salary positions for annual: entry level rates; average rates; and maximum position rates. A series of questions were also included on other forms of compensation for management/supervisory employees.

For the question on bonuses, respondents were asked to estimate the percentage of total compensation that were paid in the form of bonuses or incentive compensation. Respondents were asked to identify other forms of compensation for management personnel as either having 1) an automobile provided; 2) having an automobile allowance; 3) having an expense allowance; 4) being provided free dry cleaning; 5) having a special separation agreement; or 6 ) some other form of compensation.

The benefit portion of the questionnaire divided employees into three categories: full-time hourly employees; part-time hourly employees; and management/supervisory employees. Data were
collected on paid holidays, vacation, sick, and personal time; health care coverage; the employer and employee share of health care costs; medical benefits offered; retirement options, and other benefits. Demographic information (e.g. size, type of hotel, market segment, location, and number of employees) on each hotel or hospitality company responding was also gathered.

In order to insure that these data remained confidential, the data were accessed by only one researcher of the Dick Pope Sr. institute for Tourism Studies, who compiled the results. The individual responses will be destroyed one month after the issuance of this final report.

## RESULTS

There were 65 properties responding to the survey for a usable response rate of $18.4 \%$. Although this percentage is small, it is the result of an attempt on our part to be inclusive, giving an opportunity for every hospitality operation to participate. What is encouraging is that many fulltime hourly employees, part-time hourly employees, and management/supervisory employees working in the hospitality industry are represented in this report. Data were reported for each job classification: full-time hourly employees, part-time hourly employees, and management/supervisory employees, provided there were at least three respondents to the particular employment position. Data not provided were treated as missing values. In addition to presenting average rates of pay and other wage information on the total Central Florida area, we have included tables on average rates of pay and other wage information by four categories of property size, and geographic areas. The questionnaire provided four choices for respondents to self determine their size. These choices are shown below.

Hotels With up to 300 Rooms;
Hotels With 301 to 500 Rooms;
Hotels With 501 to 750 Rooms; and
Hotels With Over 750 Rooms.
We found that we had 25 properties with less than 300 rooms; 14 properties sized between 301 and 500 rooms; 12 properties with between 500 and 750 rooms, and 14 properties with more than 750 rooms.

The questionnaire provided nine choices for respondents to self determine their geographic area. These choices are shown below.

Lake Buena Vista \& Disney Area;
International Drive;
Airport Area;
Kissimmee;
Downtown Orlando;
South Orange Blossom Trail;
Maitland \& Winter Park;
Seminole County;
Other.
We are reporting wages for the total Central Florida area, and three individual geographic areas. These are:

International Drive Area; 17 properties
Lake Buena Vista Area; 21 properties
Kissimmee Area; 16 properties

## ORGANIZATION OF THE REPORT

There are three major sections of the report: Average Rates of Pay; Benefits, and Respondent Information. The Average Rates of Pay tables for each job title show the number of properties responding to the particular job category under the Valid column; an average of the reported entry rates of pay; the average of the "average" rates of pay; an average of the maximum reported rates of pay; and the average percentage of total compensation that is paid in bonuses or incentive. The average shift differential paid is also shown for hourly employees. These tables are presented for the total Central Florida area, and the four categories of property size and three different geographic areas. The section on the total Central Florida area also shows the percentage of properties that provide paid or partially paid meals to employees.

The Benefits section includes data for the total Central Florida area only. Each component of this section addresses benefits for full-time employees, part-time employees, and management and supervisory employees. The Respondent Information section provides demographic data on the participants, an analysis of employee turnover, and a complete list of all of the contributors to the study.

## INTERPRETATIONS AND USE OF THESE DATA

The recipient of this report is cautioned in the interpretation of the tables where the job category was reported by a small number of hotels or hospitality companies. The reported average data may not be valid due to special wage situations where a person is not paid at a rate consistent with the position, and this may cause the reported average to be higher or lower than the population average. There are also situations where all the data for a specific question may not have been reported by all of the respondents to a particular job category. This can also affect the average for that rate.

The tables presented represent simple averages and are not affected by the number of persons employed by a particular hotel or hospitality company for the specific position. This eliminates the possibility of the data being distorted to give more weight to the larger properties.

## IDENTIFICATION OF THE CONTRIBUTORS

A complete list of all participating properties is included in the Respondent Information section. In addition, for each property size and location subset, the names of the individual hotels that comprised the specific subset are listed.

Under no circumstance will any individual property information be disclosed to anyone. In order to further protect the anonymous nature of each property's response, no data were reported where less than three properties responded to a particular job position. Respondents to the survey were requested to mail under separate cover the last page of the questionnaire, which identified the property. These responses were kept separate which provided further security of the data.

Recognizing that the groupings for size and location may not satisfy the needs of each participant, the Dick Pope Sr. Institute for Tourism Studies will prepare on request "custom" reports for participants who would like specific summary data of a particular group of hotels or hospitality companies, provided that this subset includes at least five hotels or hospitality companies. In order to further protect the anonymous nature of each property's response, no data will be compiled where less than three properties responded to a particular job position. The cost of these "custom reports" will be individually agreed upon between the individual property and the Dick Pope Sr. Institute of Tourism Studies.

Identification of responding properties, availability of "custom reports", and other reporting issues were explained in the cover letter that invited Human Resource Directors to participate in the
study. These same parameters were also explained to the General Managers in the letter addressed to them.

The final report was completed on July 10, 2000, and it was mailed with an invoice only to those properties responding to the survey. One copy was also provided to the Central Florida Hotel Motel Association. All proceeds from the sale of this report, or the custom reports belong to the Dick Pope Sr. Institute for Tourism Studies.

## Employee Benefits Total Central Florida Area

The survey requested information on the types of medical, health and other benefits offered. It provided participants the opportunity to respond to coverage questions for full-time, part-time, and management and supervisory employees. Companies were asked to respond with a "yes" if they offer any specific benefit listed in the questionnaire by employee type. It is important to note that "offering" is different from "paying". These questions were designed to determine whether a particular benefit was available. The results in the tables below represent the percentage of hotels and other companies that responded "yes" when asked if they offer any portion of the specific benefit listed in the questionnaire.

## Medical Costs and 401K Plans Total Central Florida Area

Since availability does not necessarily mean providing financial support, the questionnaire asked respondents to indicate how much the company pays monthly towards the coverage and how much the employee pays towards the premium.

The tables on the following page show the monthly cost for the employer and the employee under a single plan, single plus one plan, and a family plan. The dollar amounts are shown for full-time, part-time, and management/supervisory employees.

Costs for part-time employees, both the company portion and the employee portion should be interpreted with caution due to the small number of respondents who offer benefits to the parttime work force.

| Medical Benefits Cost Single Coverage | Full-Time <br> Hourly <br> Employees | Part-Time <br> Hourly <br> Employees | Management <br> Supervisory <br> Employees |
