## SG Plans Birth Control Manual

By William Lee Hidden

MEMBERS of the Student Government (SG) began their work in the later part of the summer quarter and completed the first draft of what may be FTU's first birth control pamphlet in early October.

The purpose of the pamphlet is, as stated in the introduction, "to compile, in an easily available pamphlet, information that may not be generally known." The first part of this draft dealt with birth control methods, their advantages and disadvantages and their effectiveness.

The pamphlet also informs people of venereal disease, its symptoms, treatment and where to go for treatment. Pregnancy and how to detect it in its early stages is the next written subject.

THE FINAL part of the pamphlet concentrates on the concepts and methods of abortion from a medical viewpoint. The pamphlet also mentions self-abortion methods,

## Migrant Programs Continue

By William Lee Hidden

For the past three years the Newman Center has been helping migrant workers at the Plymouth and Zellwood camps. The Newman Center, besides being the center for campus ministry, also deals with volunteer programs for college students.

This year the Newman Center will continue its recreational and tutoring programs for migrant families. A migrant worker center has been set up at the Plymouth camp.

"We didn't have enough volunteers to go around last

(Continued on Page 9)

illegal abortions and the steps to follow in a legal abortion.

The 11-page draft has recently been reviewed by both Dr. Edward W. Stoner, director of Student Health Center, and Dean of Women Carol P. Wilson.

Both Stoner and Dean Wilson, although not collaborating on reviewing the pamphlet, brought to attention many of the pamphlet's short-comings.

THEY both made the suggestion of deleting the self-abortion methods from the text, adding counseling and aid services in the area and clarifying

the effectiveness of birth control methods in regard to prevention of venereal disease or pregnancy.

Stoner, in studying the pamphlet said he felt the order of sequence in effectiveness of the birth control methods was not quite accurate.

While the pill, for instance, is considered the most effective as far as preventing unwanted pregnancy, it is not the best means of preventing venereal disease, he said.

I THINK this pamphlet is an essential part of the college learning process," Dr. Stoner added, "and so it should give the

most concise and accurate accounting that is possible."

One major addition suggested by Stoner was the new "Day After Pill" which was recently approved by the U.S. Food and Drug Administration (FDA) for marketing.

While Stoner reviewed the pamphlet for medical accuracy, Dean Wilson went over it to see whether it was professionally worded and well presented. Dean Wilson felt that a better presentation was still needed in order to lend credibility to the pamphlet. In addition accuracy and professional wording she

said she felt the pamphlet should also be in good taste.

"THE MORE accurate and responsibility worded the pamphlet is, the more helpful it will be," Dean Wilson said, "For instance, the disadvantages of the pill were so vaguely worded that they almost appear as advantages. There are also places where the advantages of various methods are not obvious enough and should be listed separately."

The introductory paragraph on birth control was one example cited by Dean Wilson as needing improvement in presentation.

As it stands now, the birth control pamphlet is being rewritten. The earliest possible publication date is December. The next draft will be reviewed by both Stoner and Dean Wilson and then by Dr. Rex Brown, vice president of Student Affairs or sent back to SG.

## Hike Not Planned

There will be no tuition hike in the 1973-74 academic year, according to John P. Goree, vice president of Student Affairs, and Joseph Gomez, comptroller.

The outcome of state legislature action in the coming spring concerning tuition hikes is difficult to predict at this time, said Gomez.

Continuing education program courses now cost an extra \$3.00 per hour program but this affects few students, he said.

According to Judith E. Monroe, research analyst, there were 615 FTU students on the continuing education program last year. At press time figures on students currently enrolled under the program were not available.

Recent recommendations for increased tuition charges which would require middle and upper class students to pay higher percentages of their total college costs have created an uproar nationally.

## Faculty Senate President Wants Uniform Calendar

Faculty Senate president Phil Taylor responded favorably to the semester system because he said he believes it satisfies the need for a synchronization of systems state wide.

"I don't care how we do it, we need a consensus," said Taylor.

"The problem with the system now is we have students

graduating from junior college who have to sit out for half a quarter waiting for our classes to end. Students graduating in the middle of the year from high school have to wait until the next quarter begins before they can start classes. We're just out of phase with everyone else," Taylor added.

Taylor said the national trend is toward the semester system. Last year 2,475 institutions in the US. responded to a poll. Of these, 860 favored the modified semester plan, 637 favored the traditional semester system and 542 colleges liked the quarter system.

The Faculty Senate voted

their next projects is to start a garden. (Photo by Marlene Richmond)

# Colombian Group Tours FTU Facilities

The People's Cultural Action Organization, (ACPO), of Colombia, South America, will be visiting the FTU campus today. This is one stop on its tour of five state universities in Florida.

The ACPO, an organization begun in 1974 by Father Jose Joaquin Salcedo, broadcasts

basic education and community improvement programs to rural Colombia residents. Since 1968, they have also broadcasted these programs on TV.

The first stop on their tour of FTU will be a practice teaching session which they will video-tape for further analysis. Then the group will proceed

to the Engineering Building to learn how to more effectively broadcast basic environmental control information.

After a luncheon with President Charles N. Millican the group will tour the math self-help center, the computer center and the WFTU radio-TV station.

A seminar with Dr. C. B. Gambrell, vice president of Academic Affairs, is the final item on the agenda.

Gambrell visited the ACPO broadcast point in Sutatenza, Colombia, last January as part of the exchange program between Florida universities and the ACPO.

"This is a two-way communication," said Dr. David E. Hernandez, who is assisting Gambrell in coordinating the visit.

## Strike Ends By Plumbers

After coming to a halt because of last week's plumber's strike, construction has resumed on FTU's Biology Building, according to John Phillip Goree, vice president for Business Affairs.

Union plumbers struck the subcontracting Harper Heating and Plumbing Company, a non-union organization, in order to force it to pay union wages.

Goree said to the best of his knowledge negotiations between the union and the contractor have either been successfully concluded or are still going on.

The Biology Building is scheduled for completion in the fall of 1974.

## FTU Student Runs For Commission Seat

An FTU student will be on the ballot in next month's city commission race in Winter Park. John Brooks, 21-year-old political science major has qualified as a candidate for commissions.

City clerk Gene Davis said a primary election is slated for

Nov. 6 since three candidates are seeking the position. The general election will be held Dec. 4.

Brooks, who was defeated in the primary last year, said this year he plans to "concentrate on a walking, door-to-door campaign. My intention is to bring the issues to the people,

and the people's ideas and opinions to City Hall."

"And if I am elected I intend to continue walking door to door to achieve the same goals," he said, adding it was his contention that the city commission is not "as sensitive as it should be."

Brooks made an unsuccessful bid for the Student Government presidency last spring at FTU, losing the election to Lee Constantine.

## AFROTC Students Get Flight Training

Three FTU seniors in the Air Force ROTC program will soon begin their flight training under the ROTC pilot training program. These cadets, Tommy Denton, Jerry Walker and Lawrence Manfredi, will be receiving 36½ hours of flying time and instruction from a private flight training school.

Upon completion of this program the cadets involved can be eligible for their private pilot's licenses.

There are actually five senior cadets in the pilot category but two are ineligible for the flight training since they already have their private pilot's licenses.

The Arnold Air Society is a

professional honorary service organization of Air Force ROTC cadets, both male and female. It supports the social functions of the cadet corps, and is of service to the community, state and nation.

The AAS, through its various programs, including social activities, provides members with an opportunity to talk informally with other cadets and regular Air Force officers.

The Brig. Gen. Robert M. White Squadron of the Arnold Air Society, named for the present National Air Force ROTC Commandant, has 16 members since it was formally recognized in February 1973.

## Scholarships Offered Grads

Grants for graduate and post-graduate study abroad are offered under the Fulbright-Hays Act. The 1974-75 competition for these grants will soon be closing.

Only a few weeks are left in which qualified graduates may apply for one of the 590 awards which are available. The grants are not limited to one field but are open to all areas of study.

Applicants must hold a bachelor's degree or its equivalent by the beginning date of the grant, be a U.S. citizen at the time of application, have language proficiency sufficient to carry out the proposed project and be in good health.

Full grants which provide round-trip transportation, tuition and maintenance are available in 33 countries.

Application forms and further information may be obtained from campus Fulbright Program Advisor, Dr. Anthony V. Cervone in the Administration Building 395-C, ext. 2641. Application deadline for the European programs is Nov. 1 and the deadline for the other programs is extended to November 15.

Cervone said he urges all juniors to participate in this program and begin planning for next year's application.

## Village Center's Pegasus Pub Set

The first "Pegasus Pub" will be tonight at 9:30 in the snack bar following the VC movie "Butterflies Are Free."

Dick Brunning, coordinator for the pubs, said the atmosphere will be of the "rascellar" type with spotlights, great entertainment and

munchies. Beer, soda and sandwiches, standard snackbar fare, can be purchased.

Tonight's entertainment is to be a surprise said Debbie Wheatly, Village Center program director.

Other "Pegasus Pubs" will be Nov. 9 and Dec. 7.

## VC Sponsors 1950's Dance

Time machine on! Reverse cycle to 20 years!

FTU students will take a trip back in time at the first "Nostalgia of the Fifties" dance-concert next Friday, Oct. 26, at 8:30 p.m. in the Multi Purpose Room.

"Big Slick and the Greasers," formerly "Patch of Blue," will be headliners for the affair. 'Big Slick' has played at many Orlando night spots including The Back Door, The Other Door, and The Hospital and are currently touring southeastern U.S. colleges.

This guitar playing, finger-snapping, rock and roll evening is sponsored by the Village Center. Tickets can be purchased at the door for 50 cents.

# Grant Aids Computer Plan

With a \$40,000 grant from the National Science Foundation, Dr. Benjamin W. Patz is in the final stages of developing a program of study which would give students a good understanding in computer programming and the integration of a computer with other mechanical systems.

Patz has purchased a programmable logic system or mini-computer. The mini-computer is the heart of the program.

The program is designed in trying to understand electrical signals used to communicate with the computer and the programming involved to get the

computer to follow a set of instructions.

Students will learn assembly language programming, methods of communicating with the computer and the use of the computer in conjunction with other information gathering machines.

The computer, about the size of a suitcase and valued at \$6,000, is designated to monitor and/or control other machines. The computer can be used with traffic lights to detect and control rush hour traffic or monitor several scientific experiments at once. It can also work with other computers and coordinate and up date records.

Patz said several other pieces of machinery have been bought in addition to the mini-computer.

These include:

\* A disc memory system which stores facts for the computer in much the same way a library stores facts.

\* A teletype unit which communicates with the computer.

\* A high speed paper tape reader that can be asked to feed information into the computer.

\* Two Cathode-Ray Tube displays that show information from the computer on a television screen.

Patz said the use of the computer is becoming popular in industry.

DR. PATZ shows the new mini-computer purchased as part of a study to give students an understanding into computer control systems.

THIS PAINTING, from the Bryant West Indies Exhibit shown in the library, was reported stolen recently. Any information on the theft should be reported to FTU Campus Police.

## Library Work Stolen

One of the paintings of the West Indies collection which was on display in the Library lobby was reported stolen Oct. 4.

Investigating FTU security officer Jim Jordon said the painting was last seen Oct. 3 and was noticed missing at 2:30 p.m. the next day.

The painting was hanging on one of the portable walls in the center of the lobby.

Jordan said Tuesday, if the painting is returned, no

questions will be asked and there will be no repercussions.

The original oil painting was included in the series of the William Bryant Foundation West Indies collection.

The painting was done by Haitian artist J. Chery and titled "Children Carrying Pear."

Library director Lynn Walker said the painting is only valuable as part of the collection. The 13 x 17-inch painting is insured by the Library for \$75.

## Master Of Arts Approved

The Florida Board of Regents has approved the 12th and 13th master's degree programs for FTU in English and economics, according to FTU's public information department.

The English master's will be inaugurated winter quarter with a core of required courses and two optional courses for a total of 45 quarter hours. No master's thesis will be required.

The degree is geared to serve high school teachers and community college instructors and can be used as preparation for further graduate study.

Although originally scheduled to begin next quarter, the

economics master's degree program has been delayed until the fall of 1974 to allow for adequate planning, said Economics and Finance Department Chairman, Dr. Robert Hicks.

The economics program will require a master's thesis and will feature 24 hours of required courses and 18 hours of optional courses. The general program will adapt itself to projected future needs for particular skills.

Any interested area resident with a baccalaureate degree from an accredited college or university may contact the FTU Admissions Office for more information. (Phone 305-275-2511)

## Debaters Win At Stetson

The FTU Debate Team took second place in the Stetson University Invitational Debate Tournament last weekend, bettering 48 other debate teams including top name universities.

Pat Jerome, one member of the FTU two-man team, was named best debater for the tournament. His teammate was Richard Bloomquist.

FTU went undefeated through 11 rounds of preliminary and semi-final competition before losing to the University of Miami in the final round.

"We lost by the toss of a coin," said Jerome, "in the final round we lost the toss and had to take the affirmative side of the debate. If we had taken the negative side, I think we would have had a better chance."

The topic of the tournament was the energy crisis and the question was whether or not the government should control the supply and utilization of energy supplies.

Debate coach Jeff Butler said he was pleased with the school's showing and hopes the youths can go on to national competition.

If the team is selected one of the top four there, they can proceed to the national tournament next spring.

Elliot Pood, a graduate assistant with the debate team, accompanied them to Stetson where he served as one of the three critic judges. The competing teams voted Pood best critic judge for the tournament.

## Veteran's Holiday Date Changed

FTU students and faculty will not have Veteran's Day Holiday on Oct. 22 as stated in the FTU catalog.

Monday, Nov. 12, is the

correct date according to the Student Affairs Office and the Thanksgiving holiday will fall on Nov. 22 and 23, as originally planned.

## Deadlines

The FuTure news deadline is noon every Monday. Although many news sources are accustomed to last year's Tuesday cutoff, the earlier deadline has been set to meet this year's printing deadline. News of interest to the FTU community should be called in to 275-2606.

Display advertising must be received by noon Tuesday to be published Friday. Classified advertising deadline is Wednesday noon. All ads should be brought by LB 215 or called in to 275-2865.

## Corrections

In last week's FuTure, we incorrectly reported in a story on page two a "Meet the Candidates" forum in connection with the Student Government Senate elections. No such meeting was planned or held.

Last week the FuTure incorrectly labeled Dr. John J. Brennan as an engineering professor. It has been brought to our attention that Dr. Brennan is in the physics department in the College of Natural Sciences.

## Campus Glances

### CHRISTIAN FELLOWSHIP

The FTU Christian Fellowship, now in its second school year, meets on Tuesday and Thursday at 5 p.m. in LB 239.

The fellowship welcomes believers and nonbelievers alike and offers friendship, Bible studies, prayer groups, opportunities to share faith and recreational activities.

## Cops' Topics

On Monday, October 8, at 10:00 a.m. there were 4400 cars parked on Campus. Lots No. 1 and No. 5 in the new parking area were empty. Parking rows in the temporary lots are delineated by poles. Parking outside or beyond these poles narrows the roadway (and costs \$1.00).

Student/Staff Motorcycle parking areas are located east of Lot No. 2 and west of Lot No. 6. Faculty motorcycle parking areas are designated on the islands in Lots No. 3 and No. 5.

## Gridiron Special

### On Mideast War

Good evening football fans, live, via satellite, we bring you this Yom Kippur another special seasonal football classic from the Golan Heights.

The play-by-play action will be called as it happens by Israel's UN Ambassador Abba Eban and Egypt's President Anwar Sadat.

There will be five referees on the field chosen from the United Nations Security Council. Anyone of the referees can stop the clock by yelling "VETO" at the top of his lungs.

As the action starts, the Arabs win the toss and elect to deploy their defense. Meanwhile, the five referees argue their positions and are having problems coming up with an agreement.

The referees have finally chosen sides the action is to begin shortly. The Russian referee has called the first penalty. The preliminary signal indicates illegal use of hands on Golda Meir' and Moshe Dayan.

From the announcers' booth a protest from UN Ambassador Eban who says the near sighted referee cannot call a penalty on members from the same team.

Back on the field the Arabs' offense is making use of the long bomb against the stunned Israeli defense.

There's a flag on the play. The French referee has called back flipped in motion in connection with the Israeli Ladies Auxiliary Corps.

However, there's another flag on the play and the preliminary signals indicate a penalty on the Arabs offsetting the Israeli penalty.

Ladies and gentlemen the casualties on the field are tremendous but neither side is making an accurate public report of injuries until the team physicians are consulted after the "game."

Another injury has happened on the field. This time it's a referee. The U.S. referee has slipped on a gigantic puddle of Arabian oil.

Well, the battle is on! The sad part about it is that no matter what the final scoreboard indicates both sides will be the losers. Those who intervene will be condemned for doing so. Those who don't will be condemned for not caring.

# Hidden Thoughts

By William Lee Hidden

IF YOU want to compare the student body of FTU to a bunch of little townships in which everyone knows everyone else and hates the intruding stranger--well, that sounds like a perfect analogy to me.

A few years ago a social-psychological study concerning this same situation was done at Bennington College in Vermont.

The only difference was that students' attitudes changed because, the study observed, the university became more a part of the community itself and the educational process opened up beyond the classroom.

BENNINGTON College, however, had only 600 students in a town of 20,000. FTU's current distance from civilization (Orlando?) hinders its acceptance into the community.

One very interesting theory on our unfriendliness was expounded upon by Dr. W. T. Austin, professor of sociology, who offered the explanation that "the campus, both the topographical and architectural design, may not be conducive toward student interaction."

More details on the theory that architecture as well as natural environment influences human behavior are the subject of the book "The Hidden Dimension" (just coincidence, folks) by Edward T. Hall. It certainly provides for an interesting hypothesis into FTU's shortcomings.

YOU want another reason? The majority of FTU students take their academic education much too seriously. It's get up, go to class, and go home---that's it.

The student here is usually a little older and has many other responsibilities (occupation, family and parents, even marriage). Those who live with their parents feel more of the pressure for academic performance. Thus the total educational experience is lacking.

It also seems there is a vicious circle affecting the FTU athletic program, Village Center (VC) activities and Student Government (SG).

ALL face the old problem of student apathy which stunts the growth of the athletic program, throttles a successful VC activities program and generally weakens SG.

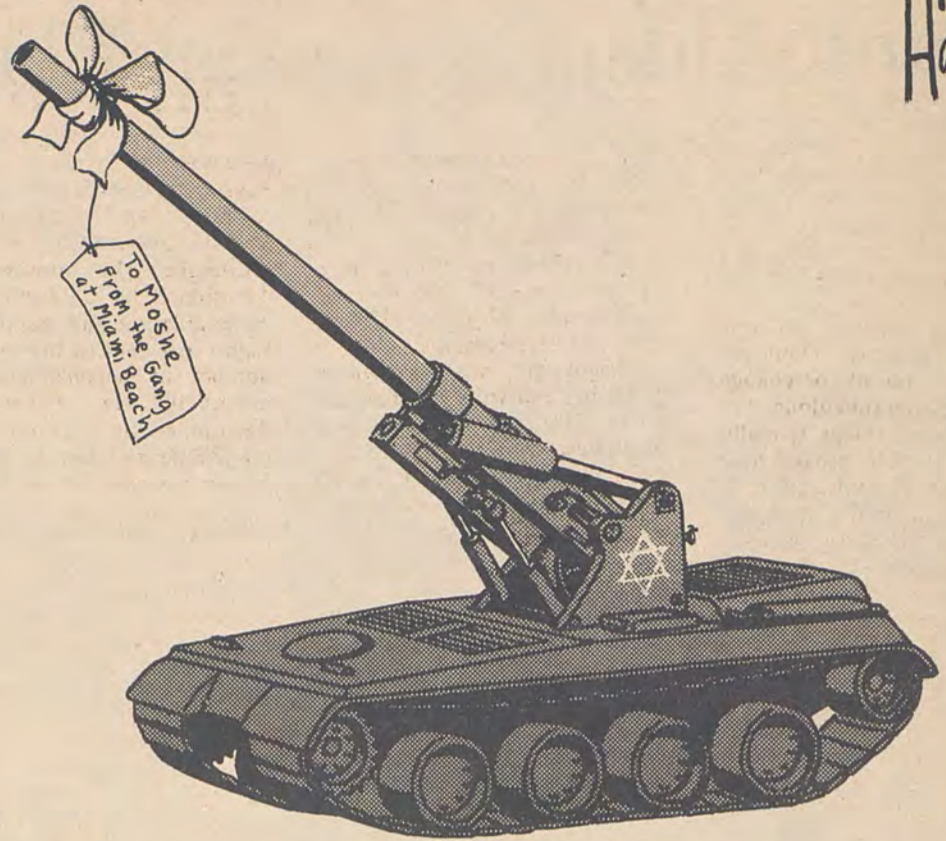

With more student support in athletics, by just good turnouts at games, the athletic program would undoubtedly gain moral, monetary and physical growth.

I'm sure the VC would likewise like to increase and enlarge its activities, but budgets prohibit too many diverse activities. An increase in student participation would bring an even better activities calendar.

NOW for poor, old SG sitting in the VC, filled with students who are taking an interest in FTU. There must be moments they feel they are working for themselves. Certainly the administration thinks so, judging by SG's overwhelming influence (what influence?). They lack the influence because they lack support. Boy, isn't that simple?

What is not so simple is solving the campus apathy and cold shoulder.

(Next: a look at the administration and faculty, the name change and the failings of the FUTURE.)

## Degree Major Easy Enough

Editor:

In regard to the recent degree policy change, I feel this decision is both repugnant and uncalled for. The majority of students was not consulted in the least, nor was Student Government and the news media even aware of this "slight-of-hand" by the administration.

Having had much experience with the workings of the registrar, I know from first-hand information that the time required to add to the diploma the major of the student is very minimal.

On the student's intent to graduate form the student writes what his college is an what his major is. Then the registrar compiles a list of these students and sends it to their respective colleges, asking the confirmation of these students and their majors.

The colleges then send back a list of the students who have met the degree requirements and are entitled to receive their diplomas. The registrar then types up a revised list of each college and the students who have been confirmed by that college, placing the major area beneath each person's name.

It takes one more push of a typewriter button to turn the cylinder one line below the name and then just a few seconds to type in the student's major area.

After the lists are compiled, they are checked for spelling accuracy. One of the time-consuming problems is the registrar rereads and again rereads these lists for spelling.

A form is given then to each student who brings it to his advisor, who fills in all classes the student has taken and signs it. From there it goes to the dean of the student's college and the registrar, both of whom verify it.

The registrar types the names on a list which reads, for

example, "College of Business, Business Administration" and all the students whose majors are business administration are put on this list. A different list for each major in each college is typed out.

Now the registrar would like to type a list which reads, for example, "College of Business" and then list all those students who are graduating from the College of Business. This new way of doing it does not save enough time to warrant all the long and hard years we students have put into get our diploma with our major on it.

These lists are sent away to a private firm which prints out the diplomas and mails them back to the university. It is the printer who prints the major area on the diploma.

There are very few double majors and even fewer triple majors (almost non-existent) and this does not create a problem when the student writes down on his intent to graduate form what his college is and what his major is.

To repeat again, the time to include the major on the diplomas is very minimal. I feel, after studying out here and working hard for a diploma, the students are entitled to have their area of specialization on the diploma. "Accent on the Individual" sure looks good on paper, too bad it is only there.

A Concerned Student

## Change Fever Hits Quarters

Editor:

All my life people have subjected me to change. First from old math to new math, then from English to new English.

Now the "top bananas" are at it again. First with the name change, then the diplomas, now with the quarter to semester system change. Well I've had it!

Less an approximate annual revenue of \$9,065, this document is circulated for an annual net cost to the state of approximately \$17,660, or 8.5 cents per copy.

"In war, whichever side may call itself the victor, there are no winners, but all are losers."

Neville Chamberlain

LETTERS

(Continued from Page 4)

All my life my father has pounded it into my head: "get an education, go to college, absorb from the educated ones."

Well, I can tell you this, all I have absorbed is confusion and frustration!

The "top bananas" of this campus are "bananas." Don't get me wrong, I am all for change but this is getting ridiculous.

The diploma things is really ridiculous. It just proves how uncaring the administration is about the graduating students. Well after all they're leaving the school can't suck their blood anymore.

Now about the semesters. What a mess it will be. Talk about total chaos! Will a change such as this really be helpful?

I mean we don't really understand the system now, what a hassle the change will be. I don't want semesters, I want to get out of this place - and fast.

Big deal, we'll get out a week earlier. Will it make up for the extra five weeks in the environmental studies you hate?

All I hear is "It will help the school." Well the hell with school, what about us?

We pay \$190 per quarter to go here and the administration is here to serve us. We pay them their bread money. Why won't they look at our point of view? Are they blind? Are professors and administrations really a programmed computer to cause students pain?

Well, I'm tired and I think that THE STUDENTS OF FTU SHOULD UNITE. CRUSH THESE EGOTISTICAL MONEY GRABBERS. MAKE THIS YOUR COLLEGE, YOU PAY ENOUGH FOR IT.

Don't get me wrong - I love FTU. I'm just a

"Grouch"

Physical Plant Faces Manpower Shortage

A manpower shortage has hit FTU's Physical Plant, bringing employment down to 60 per cent in some departments.

"This area of Florida is a laborer's market," said Richard Neuhaus, Physical Plant administrative assistant.

Although state agencies invariably run with less than full staffs, FTU is feeling more of a pinch because of this market.

"Why should they (laborers) work for state wages when they can work construction?" asked Physical Plant director R.N. Peruf.

Employment figures for the Physical Plant are set by the state. Employees are hired through the university's

Campus Glance

VENEREAL DISEASE MOVIE

The Preprofessional Medical Society of FTU will sponsor the presentation "VD-A New Focus," a film narrated by James Brolin of "Marcus Welby, M.D.," at 8 p.m. on Thursday in the VC Assembly Room.

The film is being provided by John Harwell of the VD control unit in the Orange County Health Department and has no admission charge.

personnel department and the Physical Plant itself tries to recruit men. The optimum number of persons needed to maintain the university is determined by a formula based on population and campus size. Eighty per cent of this optimum number of persons needed to maintain the university is determined by a formula based on population and campus size. Eighty per cent of this optimum

CO-OP

Having trouble getting the courses you need? The Co-op Office may now be able to help you with this problem.

Fred Haddad, first vice president of the Student Co-op Council, is in charge of this service. If having schedule problems for winter quarter, bring your course request to the Co-op Office, Administrative Building 118. The more students requesting a particular class, the better the chance of getting the class for the quarter requested.

THE HOSPITAL

Let our Nurses give you a shot

figure is allocated for actual employment.

One reason the Physical Plant is having a hard time keeping up, said Nauhaus is it is called upon to perform both "support and maintenance" and "improvement and alteration" work.

Eleven men, including the

supervisor, now man the grounds department instead of the usual 19 men. This may be one reason sprinkling is done during the day instead of at night. Other departments combatting thinning ranks are the utilities, maintenance and custodial divisions.

# Dorm Arrangements

Photos by Pete Wilcox

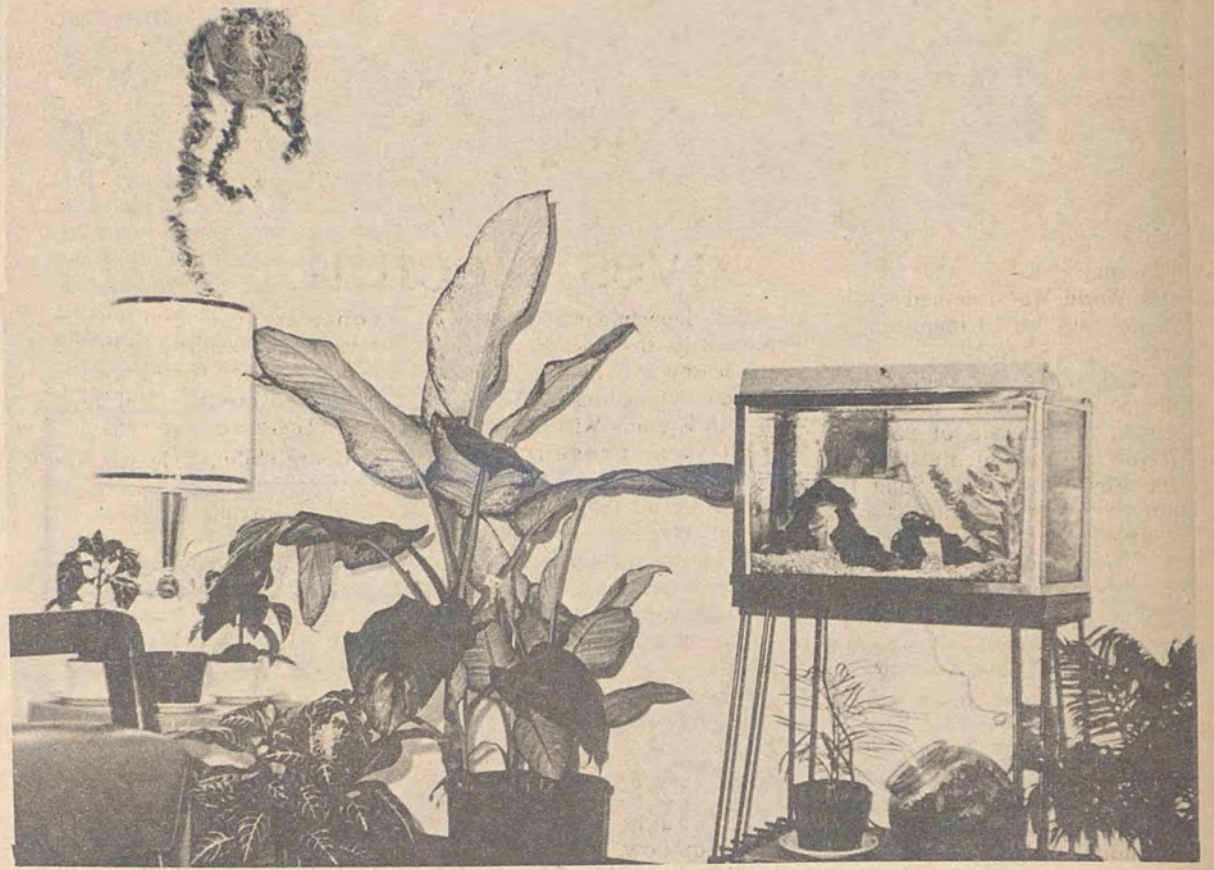

Room transfers for dormitory students were authorized Oct. 10 to allow residents a chance to find their "ideal" roommates. Housing Director Leo Goff said 26 free room transfers were authorized and 12 men and 16 women took advantage of this opportunity.

Some residents were too busy making their rooms "homey" to worry about changing suites, however. The women's dorms show the most imagination and effort toward this end, but some otherwise sparsely-decorated men's rooms show an occasional decorative touch with equally-sparsely clad Playgirls strategically placed.

The 18-year-old majority rights law caused many students problems when "no visitation" areas were given visitation privileges and roommate preferences were no longer the first consideration.

Goff said this mix-up shouldn't happen again and plans to have confirmation notices sent to residents who have specified roommate preferences during late Spring quarter for Fall 1974.

# Student Orchestra 2 Strings Strong: Looking For More

For the first time since FTU opened its doors, an all-student orchestra has been organized by the department of music. The new musical group is open to students from all colleges on the campus.

Only two string players have elected membership in the orchestra. Jolene Davis, sophomore in music education,

and Charles Flory, junior in music education, are playing violin and double bass respectively.

The university orchestra, as are all of the department of music's student groups, is organized as an academic course (MUS 305-01) carrying one quarter hour credit. These groups are basic to the curriculum for music and music education majors.

FTU does not have orchestra just because the department of music announces a course by that name, even though 24

FTU STUDENT ORCHESTRA REHEARSES

performers, the orchestra simply does not exist.

The problem of meeting these special instrumentation requirements is greater in the newer institutions, according to FTU's department of music.

Any student who plays violin, viola, cello or bass is urged to visit a rehearsal as soon as possible (12:00 - 12:50 MWF in VC 166) or to talk to the director, Gale Sperry, at VC 135 (275-2867).

## Theater Dept Sets Tryouts

"We're looking for a few good men," Director David Mays said Thursday about the coming tryouts for the FTU University Theatre's second production, "Journey's End." Casting for this World War I comedy-melodrama calls for 11 men, ranging in age from 50 to 18.

"Help make the world safe for democracy," Mays went on, caught in the grip of patriotic fervor that was such a staple of the First World War, "and try out for the production."

The auditions are open to all and will be held in AD 110 Monday, at 4 and 8 p.m., and again Tuesday at 8 p.m.

Scripts are available in the University Theatre office, LB 230 for examination.

## 'Basically Baroque' Gives Recital

The department of music will present its first faculty recital of the season at 8:30 p.m. Tuesday in the Engineering Auditorium.

"An Evening With Telemann" will be presented by "BASICALLY BAROQUE," consisting of Sabina Micarelli, violin; Patricia Stenberg, oboe and recorder; Gary Wolf, piano; Lee Eubank, string bass; and Cynthia Curtis, bassoon.

The appointments this year of Miss Stenberg and Eubank have made it possible to present this new faculty ensemble in

concerts for audiences of students, faculty and local concert goers. The group's first public performance will be Oct. 23. There is no charge.

Georg Philipp Telemann was a contemporary of Bach. The German composer's production included 40 operas, 12 complete cycles of cantatas and motets (about 3,000 pieces), 44 Passions and a large number of oratorios and other church compositions. He also wrote hundreds of orchestral and chamber works.

Office Area 23, those not registered are in violation of the law.

## Selective Service Requires Registration

All 18-year-old males are reminded to sign up for selective service in a 60 day period which is 30 days prior and preceding their birthday.

Although there is no induction now, and will be none in the foreseeable future, said, Mrs. Henrietta Briggs, executive secretary of Selective Service

Office Area 23, those not registered are in violation of the law.

Selective Service offices in the Central Florida area are located at 1011 E. Colonial Drive in Orlando, the supervisor of elections office in Seminole Plaza and at the Seminole County Courthouse in Sanford.

Other offices are in Kissimmee at the county Veterans Service office in the Osceola County Courthouse, 309 Oak Ridge Blvd. in Daytona Beach, and 111 Maryland Ave. in Cocoa Beach.

Office hours are 8:30 a.m. to 4 p.m. Monday through Friday.

## Library Shows Circle

By Weber Ivy

Not everyone believes that the mandala can help him attain cosmic bliss, but few would deny its prime element, the circle, lends itself to endless variation and ornamentation by man and nature. It is difficult to tell whether human or divine hands have embellished this geometric form so skillfully in the exhibit of "Yantras and Mandalas" now gracing the library lobby.

The earth, mandala-like itself, is a treasure house of spherical improvisation with its snowflakes, microscopic crystals, full moons, mushrooms and morning glories. It is no wonder men soon discovered the exciting possibilities of symmetry.

It was in the ancient East, particularly India, where this simple natural form became invested with psycho religious significance and arrayed in splendid, mind bending designs.

The exhibit includes some exquisite examples of the consciously used mandala. They swarm with visual activity. Their feames honeycombed with rich mazes, their stylized beings aflame with reds, yellows, greens, and blues. This fierce optical overload somehow submits to the discipline of perfect symmetry and the relentless repetition of patterns.

At the same time in the West came unconscious echoes of the mandala in the haloes of Christ and the rose windows of Chartres Cathedral.

This peculiar fascination with the mandala persists and grows today. The jewelry of Virginia Barra-Johnson, the large painting by Steve Lotz, the sculpture of Eyfells and other art works give contemporary expression to a

symbol whose origins go back at least two thousand years.

Even the scientific investigation of atomic and molecular structure yields mandalas under microscopes, reaffirming their universality and providing insights into the reality of matter.

Open: 10-6 Mon. - Sat.; Fri. 'til 8 P.M.

The day begins as area high school students sign in. Education has its share of paperwork.

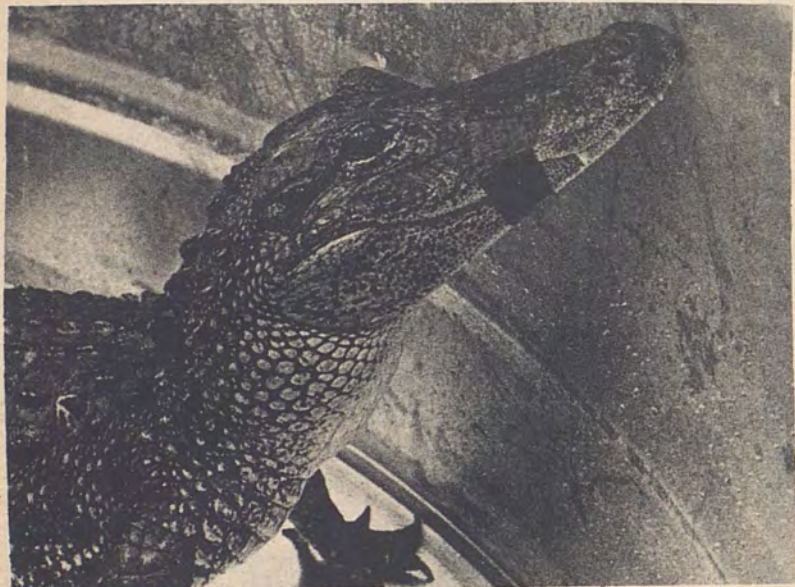

ECA DAY

FTU's wide sidewalks were packed Wednesday with over 800 area high school seniors participating for the first time in ECA (extra curricular activities) Day.

The seniors, who represented 14 area high schools, and FTU students enjoyed themselves despite the short shower in the late afternoon which dampened an otherwise bright and sunny day.

"You talk into this and watch the screen. . ."

"Now if I could only decide which one. . ."

Delta Sigma Pi and Phi Chi Theta, the men's and women's business fraternities sponsored a carnival where students could take aim and win prizes ranging from small plastic toys to large stuffed animals.

FTU's own radio station, WFTU, broadcasted from the front lawn of the library and had on-the-spot interviews with the seniors.

A mini-fraternity now was on the sidewalk between the dorms and the Village Center and many students took time out to throw eggs at various Kappa Sigma members.

Local television stations also got in on the act, and all three had crews covering the occasion.

Everyone involved would probably agree with Brenda Williams, an Edgewater senior, who said she would go to all Activities Days if every college in the area had them.

Photos by

Alan Geeslin

Ed Burton

Pete Wilcox

"And we're supposed to believe this floats?"

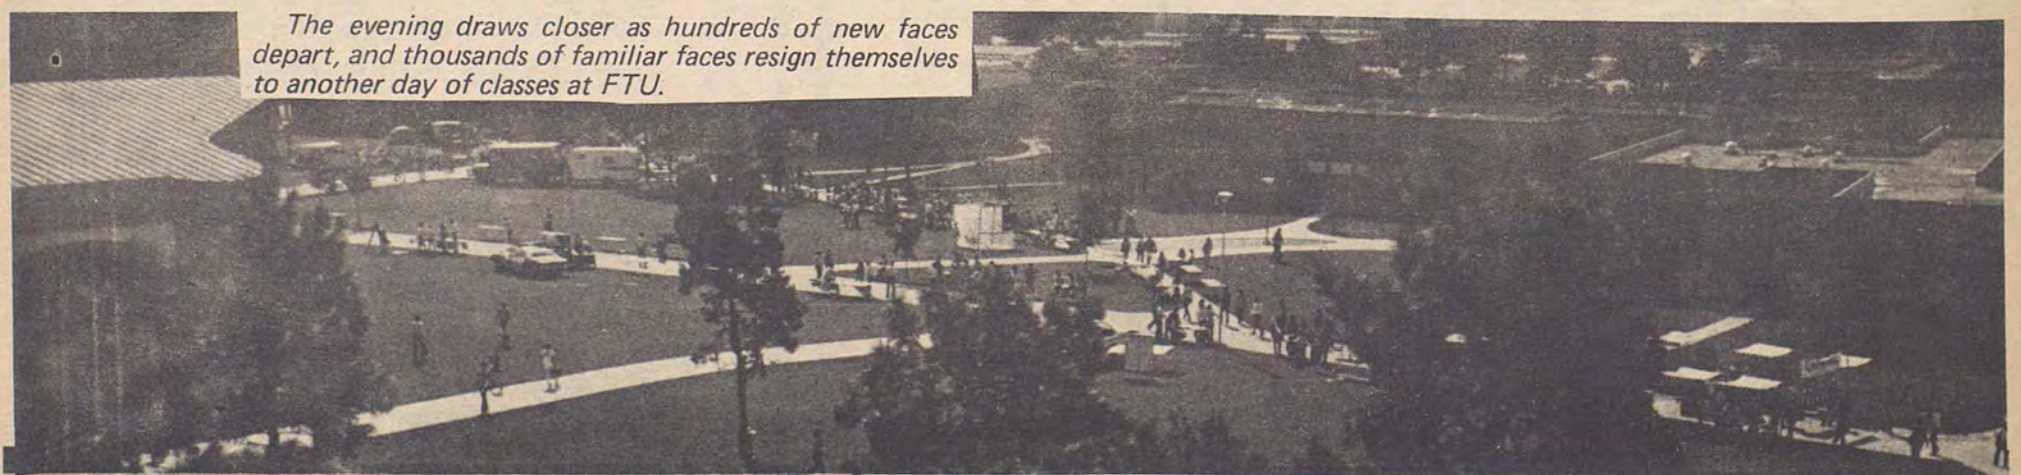

"The first mistake in public business is the going into it." --Benjamin Franklin

"Is nothing sacred around here?" WFTU and the Physical Plant provided rock sounds for the seniors.

The evening draws closer as hundreds of new faces depart, and thousands of familiar faces resign themselves to another day of classes at FTU.

## Quarter

- 1) The system allows students to take a variety of classes
- 2) The quarter system supposedly reduces the amount of yearly time spent in classes.
- 3) The quarter system allows students to take a break during any time of the year.
- 4) The quarter system allows the university to educate more students yearly because students are spread out over four quarters, and are not grouped into two semesters.

### DISADVANTAGES

- 1) The student must take 20 more hours of instruction under the quarter system than under the semester system.
- 2) Under the quarter system, the student spends a week more in class (two groups of 15 weeks of class and one finals week each is 32 weeks for the semester system while three quarters of 10 weeks with one finals week each is 33 weeks for the quarter system.)
- 3) Students can only take a break when the quarter is over.
- 4) Student enrollment has statistically never been spread out over four quarters.
- 5) The quarter system is out of synchronization with high schools and junior colleges and transfer students must wait until a new quarter begins.

- 1) It is economically more feasible, because it saves \$30,000 that would be needed for a third registration period under the quarter system.
- 2) Schools would be under a common system, eliminating the need to translate semester hours from the junior college level to quarter hours.
- 3) Professors would have to spend less time in preparation for classes.
- 4) Courses now being offered under the quarter system would have to be re-evaluated and

## Semester

(Continued from Page 1)

last week to send delegates to the Florida State Council of the Faculty Senate meeting in November, which in turn will make its recommendation to the Florida Board of Regents and Chancellor.

The Board of Regents will ultimately decide whether state colleges and universities will be on the semester or quarter system, Dr. Taylor said.

Lee Constantine, Student Government president, replied to Taylor's comments by saying he favors the quarter system because he believes most students find it more convenient.

"We ran surveys and held a referendum last year and found 88 per cent of the students wanted to keep the quarter system for one reason or another," said Constantine, "they find it convenient for their schedules, they have a multitude of available courses, and if they get a course they don't like, it's not that long."

Constantine said the rationale behind synchronizing the system was wrong.

"The Board of Regents can only determine the system for the state university system. It is the Florida State Board of Education which can help them synchronize their courses. Doing it this way I don't think they'll ever get everyone together. Besides, a lot of schools are adopting the trimester which will again put schools out of phase," Constantine added.

combined, forcing departments to analyze their curricular offerings.

- 5) The semester system would reduce the total number of courses a student would have to take.

### DISADVANTAGES

- 1) The semester system, from the student point of view, would allow less variety in the courses available.
- 2) The semester system makes the school year seem longer.

## Migrant Camp

(Continued from Page 1)

year," said migrant program director, Marlene Richmond, "therefore we are putting our emphasis on one camp center at Plymouth."

The recreational program will be held only one Sunday a month and will consist of large field day activities in an attempt to encourage the parents to participate.

One of the houses on the camp is being rented to serve as an information and tutoring center and is in the process of being painted and repaired.

What is really needed, said Richmond, is volunteers to help keep the center open two nights a week to inform camp residents on nearby health facilities and where to go for food stamps.

## Planetarium

### Exhibits Free

The John Young Museum and Planetarium has announced its plans to show three exhibits during October.

The first exhibit on Egypt features a mummy. The second exhibit, titled "From the Earth with Love," explores the world of gems and minerals.

The last exhibit, "Archaeology in Central Florida," shows tools used by archaeologists and a cross section of a dig (area being excavated). It also explains methods of classifying and cataloging artifacts.

A new planetarium show "Journey Beyond the Stars," explores deep space in the region of pulsars, super galaxies and black holes.

The museum and planetarium are located at 810 E. Rollins St. in Orlando. The museum is open free to the public from 10 a.m. to 5 p.m. daily.

Planetarium shows are held Saturday and Sunday at 2 p.m., Tuesday at 3:30 p.m., Friday at 8 p.m. and Wednesday and Thursday at 3:30 p.m.

"We need volunteers to spend some time with the migrant workers rather than just leaving material donations with us," Richmond added. So many of the black migrant workers feel we just leave them what we don't really need and don't really care. We hope by spending more time with them we can prove to them we do care."

At present the Newman Center is out of funds and is in need for money for rent and other expenses.

The center has started a "Sponsor of the Month" program in hope of getting Greek organizations and other college and community organizations to help on a monthly basis.

It takes only \$70 a month to keep the center and Project Care going.

The Newman Center is located at 40 E. Lyman Ave., Winter Park.

# Miss Orlando Attends FTU

Joy Jones, a student at FTU since September, also goes by another name, Miss Orlando. The brown haired, brown eyed beauty won a \$5,000 scholarship in the 1973 Miss Orlando pageant.

Joy, age 24, has won seven beauty pageants, ranging from Miss Family Frolics of Green Cove Springs to Miss Greater Jacksonville Fairs, which she had to forfeit in order to be crowned Miss Orlando.

She was also victorious in the Miss Florida Rural Electrification Pageant and won a trip to Dallas, Texas, where she met President Johnson.

Born and raised in Jacksonville, Joy attended Florida Junior College where she received an associates degree in nursing. She moved to Orlando a year ago and worked in the

nursery at Holiday Hospital until she started school this fall. She now works parttime at a local modeling agency.

Joy is currently taking courses in theater and music and has a small part in the upcoming FTU theatre presentation of "The Miracle Worker." Joy said she wants to take an active part in local stage and theatre productions.

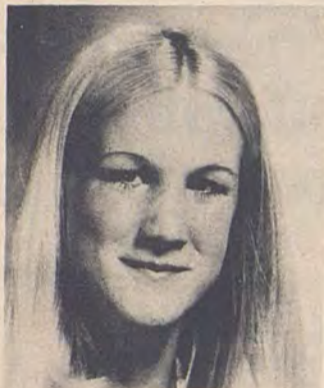

Active in student government at Jacksonville Junior College, Joy was a senator and a member of the Student Services Committee. Her name also appears in "Who's Who In American Junior Colleges."

She arranged a medley of Disney tunes which she played in the Miss Orlando Pageant while dressed in a self designed costume resembling Minnie Mouse.

JOY JONES, MISS ORLANDO 1973

## THROCKMORTIMER

LAURA ELIZABETH APPLEBY

## FTU Coed To Try Winning "Jeanie" Title

Laura Elizabeth Appleby, a sophomore at FTU, will be representing Orange County in the 23rd annual statewide "Jeanie With The Light Brown Hair" contest.

The competition is open to Florida women between the ages of 18 and 21 who are advanced vocalists, capable of giving creditable radio, television and concert performances.

Entrants compete for the title as well as a top scholarship award of \$2,000. The event is sponsored by the Florida Federation of Music Clubs and the Stephen Foster Memorial board of trustees.

Four scholarships of \$500 are also awarded to runners-up designated as "Jeanie Maids." Winners are selected by a panel of out of state judges on the basis of musical performance, poise, beauty and personality. "Jeanie" represents the Foster Memorial with appearances and performances in Florida and other states.

Laura, who will be sponsored

in the auditions by the Wednesday Music Club of Orlando and Winter Park, is a talented vocalist as well as a trained pianist and flutist. She will be competing with 17 other Florida girls, all sponsored by Federated Music clubs.

The competition scheduled for Oct. 25-27, will be held at the Stephen Foster Memorial, White Springs.

The first event on the program is the annual "Jeanie" ball, held for contestants and their escorts on Thursday night, Oct. 25. Friday is spent in private interviews and individual auditions with the panel of judges, of judges.

Formal concert appearances are open to the public from 10 a.m. to 1 p.m. on Saturday, Oct. 27, on the outdoor veranda stage of the Stephen Foster Museum building.

The crowning of "Jeanie" and the announcement of other scholarship winners will take place at 3:00 p.m.

## Financial Aid Used More

A record number of FTU students will be utilizing financial aid funds during the 1973-74 academic year, according to Don M. Baldwin, director of student financial aid.

He predicts approximately 2,800 students, or over 40% of the student body, will be receiving financial assistance during the coming year.

Loans, grants, scholarships and on-campus part-time employment are available through this office.

Students who do not qualify for financial assistance may take federally insured loans, which provide up to \$2,500 per year at an interest rate of 7 per cent. If a student is qualified for financial assistance, the federal government will pay the interest.

Financial aid applications for those who desire aid prior to the 1974 fall quarter are available in the Student Affairs Suite in the Administration Building room 282.

Applications for the 1974-75 academic year will be available in November. The official application period is November through April for the following fall quarter.

# News In Brief

Persons 18 years of age or older may now hold the office of notary public provided that they are citizens of the U.S. and have been permanent residents of the state for one year.

The Adult Rights Law which became effective last July 1, gave all persons 18 years old or older the rights and responsibilities of adults. This law provides that:

"The disability of nonage is hereby removed for all persons in this state who are 18 years of age or older and they shall enjoy and suffer the rights, privileges and obligations of all persons 21 years of age or older except as otherwise excluded by the Constitution of the State of Florida immediately preceding the effective date of this act."

The Chess Club of FTU, in cooperation with the Village Center (VC), will sponsor the 1974 Championship Chess Tournament Nov. 5-9.

A simultaneous chess tournament, where one or two persons play many others, will be played Wednesday, Oct. 31, on the VC patio from 10 a.m. to 3 p.m.

Junior Mark Keller, 1973 FTU chess champ, and Harold Alford, former Florida State Amateur Champ and a senior at FTU, will alternate moves on 20 boards.

Keller, who is also president of the Chess Club, said there are quite a few positions open on the team. All persons interested in being on the team should play in the tournament.

Lessons will be given by Keller and Alford every Tuesday from 6 p.m. to 10 p.m. in VC room 200.

Those interested in playing on the team but who can not participate in the tournament should contact Kellar at 293-2668.

A Country-Western Democratic Fall Round-Up will be held today at 6:30 p.m. The event, sponsored by the Orange County Democratic Executive Committee, will include special guests U.S. Senator Lawton Chiles, State Senator Mallory Horne, and Jon Moyle, chairman of the Democratic Party of Florida.

Admission to the round-up, which will be held at the

Sheraton Jetport Inn, is \$1 per person. Box suppers will be auctioned but picnic boxes will also be available for \$2.

Other activities include square dancing and a cake walk. The public is invited to attend and to dress in country-western fashion.

But Drops 2-1 Decision To The Citadel

# Tech Drops Carolina

By Larry McCorkle

"WE outthusted them, we outmuscled them. They were running around like chickens with their heads cut off."

Sounds encouraging, huh? Unfortunately, Soccer coach Jim Rudy was describing how his soccer team lost last Friday in Charleston, S.C. to The Citadel, 2-1.

"We had them on the run the entire game," said a disbelieving Rudy. Indeed, Rudy's testimony seems to bear witness. FTU outshot The Citadel by an amazing 28-10 count. But the ball would only go in once, on a shot by sophomore Dean Andreadis.

ONCE, senior Bob Steadman took a shot which bounced off the top crossbar. Three times FTU blew one-on-one situations.

Even The Citadel's scoring came unusually. Tim Hartnett, an FTU fullback, took a chance at a fake tackle and suddenly his knee popped out, the second time it's happened this season. While Hartnett lay on the ground helpless, a Citadel forward easily dribbled by him leading to the first score.

"The Citadel had nothing to cheer about," said Rudy. "They knew they had been in a game."

FTU RETALIATED the next day with four second half goals to defeat the University of South Carolina in Columbus, S.C., 4-0.

FTU did not dominate the game (meaning time of possession) as they did against The Citadel, but the Knights did not have as much trouble penetrating.

Sensational goalkeeping by freshman Winston Dubose saved two South Carolina attempts. Dubose, from Trinity Prep, modestly attributes his outstanding defense to the play of FTU's fullback. It was his second shutout of the season.

THE FULLBACKS most responsible for stopping the South Carolina offense were Brey Arnn, Dennis Jessen and Tony Smith.

FTU scored four goals in the second half against the Gamecocks. The scoring went like this:

The first goal came after a

corner kick by Ron McDuffie. Bob Steadman, charging the goal, just missed the ball, but intimidated the goalie, causing him to drop the ball. Donn Brown kicked the rebound through for a goal.

MARK Johnston, who hurt his knee the day before, squared the ball across the field to Andreadis who pushed it through for the second goal.

The third goal came on an individual effort by Bob Steadman.

After Steadman received the ball at midfield, he immediately faked out the first defender and then outraced two others to the goal and beat the goalie.

The fourth goal came when right wing Dave Black, usually a reserve goalie, centered the ball to Tom Barber who pushed it through.

BESIDES Dubose, Rudy had glowing accolades for several of his athletes after the weekends games.

"Ron McDuffie really set us on fire against Carolina," said Rudy. We weren't penetrating before, but he gave us a lot of control, he added.

Dean Andreadis scored twice already giving him four goals on the year, his total output for last year. "Andreadis played his best

two games. Not by his scoring, but by his overall play. He's matured very much since last year," said Rudy.

FRESHMAN Don Brown played two excellent games despite a 102 degree temperature.

And, of course, senior Bob Steadman. "He's super," said Rudy.

FTU now stands 3-2 on the year. Tomorrow the Knights travel to FIT in Melbourne.

WINSTON DUBOSE (left) and Mark Johnston (right) are two freshman that have been key performers for Jim Rudy's 1973 soccer squad. Dubose, a goalkeeper from Trinity Prep, has notched two

shutouts in four games, Johnston, from Naples, has earned the praise of Rudy for his overall play and hustle. (Photos by Mike Johnston and Edward C. Burton)

## New Grapplers Boost FTU Program

By Fred Cay

A desire to come to Florida, plus a growing reputation for FTU wrestling has brought seven promising out-of-state recruits for the Knights '74 state collegiate drive.

Three from Virginia, in addition to two each from Ohio and New York (including two state champs) are seven good examples of FTU's drawing power in the rapidly growing collegiate sport.

Certainly the lure of Florida is a big come-on for high school athletes in the North, but Gerry Gergley's building of FTU's program from a club sport into state title contenders in three years cannot be overlooked either.

"He (Gergley) has done so much for this program the last three years, it's really great," said Richard Guerra, one of the Virginia men. "This year I think the team is just going to be unreal."

Last year's FTU contingent placed a strong second in the state behind the University of Florida. The year before they were third and before that they were simply a struggling extramural club.

Don Carrithers, of Newport News, Va., is one of the state champs. The 167-pounder met Gergley at last year's Virginia state high school championships.

"From what he told me about FTU wrestling and just talking to him about wrestling, I

knew he must be a darn good coach," Carrithers stated.

Carrithers realizes the upcoming schedule is a tough one, to say nothing of the competition on the team just to win the honor of wrestling in his weight class for each match. However, he welcomes the challenge as does Guerra, the 118-pounder from Norfolk.

"It's a chance to wrestle," Guerra stated. "It's going to be tough. Joe Gicobbe has more experience than I do. Sure, it

would be rough not being able to wrestle but all I can do is try my best and hope."

Mike Wareing has a special problem from the rest in that he is coming back to wrestling after a year off from the sport.

"I really missed it last year," explained the friendly youngster who played football at Ferrum Junior College as a freshman. Wareing was '72 Virginia state champ as a 158-pounder and had a 23-1 record in each of his last two years in high school.

## Cagers Begin Practice

By Larry McCorkle

Six new cagers joined forces with nine returning veterans at FTU basketball practice began last Monday at Oviedo High, but a bit of tradition was missing.

The missing tradition is Mike Clark, son of Coach Torchy Clark. After starting four years for his father and scoring over 2,000 points, young Clark has graduated.

But during his tenure at FTU, Mike Clark was able to see the team rise from club status, to varsity status and even further to its present level as a respectable intercollegiate team.

But capable replacements still leave Torchy Clark optimistically smiling for the upcoming year.

High scoring Arnett Hall, rebounding John Smith, Pete

Haas and Willy Belotte return from last year's team with experience. Also back are Bob Jones and guards Angelo Callins, Jeff Kernaghan, Don Sisemore and Steve Armitage.

Tod Danen, the 6-10 center from Wisconsin, teams up with fellow Wisconsinite Mike McDaniel and Floridian H.L. Coleman to strengthen FTU rebounding, while guards Calvin Lingelbach from Orlando's Evans, Ben Sanford from Winter Park and David Thompson, a transfer from Atlanta Baptist, will provide depth.

All home games will be played at the Oviedo High School gymnasium instead of Lake Highland Prep. FTU will open its 1973-1974 season on Monday, Dec. 3, against an outstanding team from South Florida in Tampa.

## Cheerleading Squad Picked

C-H-E-E-R-L-E-A-D-E-R!  
What's that spell?  
Cheerleader!

The 1973-1974 FTU cheerleaders were chosen last Thursday by a panel of judges representing both students and faculty. Approximately 18 men and women attended the three days of clinic in preparation for the final tryouts.

Mrs. Mona Crissey, Dr. Eugene E. Teeple, Student Government President Lee Constantine, Nancy Heaton, a residential advisor, Ron Nebgen and Pete Haas, a varsity basketball player, participated in judging.

The 1973-1974 FTU cheerleaders are: Heidi Afflebach, Barbara Dunnebacke, Carolyn Kerkow, Kathy Richardson, Mary Richardson, Jack Sirianni, Betty Towry, Steve Ware and Debbie Woodward.

## Basketball Schedule 1973-1974

DATE	OPPONENT	PLACE
Mon. Dec. 3	University of South Florida	Tampa
Wed. Dec. 5	St. Leo College	Oviedo High School
Fri. Dec. 7	North Georgia College	Oviedo High School
Sat. Dec. 8	Clearwater Christian	Oviedo High School
Wed. Dec. 12	Florida Institute of Technology	Oviedo High School
Fri. Dec. 14	Transylvania University	Oviedo High School
Sat. Dec. 15	University of West Florida	Pensacola
Mon. Dec. 17	Spring Hill College	Mobile, Alabama

### STETSON TOURNAMENT

Wed. Jan. 2	University of North Carolina (Charlotte)	Deland
Thurs. Jan. 3	Stetson or St. Francis	Deland
Sat. Jan. 5	Aquinas College	Oviedo High School
Tues. Jan. 8	Massachusetts Institute of Technology	Oviedo High School
Sat. Jan. 12	Biscayne College	Oviedo High School
Wed. Jan. 16	New York Tech	Oviedo High School
Thurs. Jan. 24	Fort Lauderdale University	Oviedo High School
Sat. Jan. 26	Rollins College	Oviedo High School
Fri. Feb. 1	Florida A&M University	Oviedo High School
Tues. Feb. 5	Clearwater Christian	Clearwater
Sat. Feb. 9	Florida Institute of Technology	Melbourne
Tues. Feb. 12	St. Leo College	Dade City
Sat. Feb. 16	University of West Florida	Winter Park, H.S.
Wed. Feb. 20	Baruch College	Brooklyn, N. Y.
Thurs. Feb. 21	Medgar-Evers College	Brooklyn, N. Y.
Sat. Feb. 23	New York Tech	Westbury, L.I., N. Y.

OOPS! FTU soccer players are not noted for their underhanded tactics, but accidents do happen. Bob Steadman (left) seems to let nothing get in his way of the ball. (Photo by Edward C. Burton)

# ATO Surges Past LXA; Faces Rival TKE Monday

By Fred Cay

ATO vs. TKE is traditionally THE game on campus—especially in flag football. This year's clash is no exception.

Monday at 5 p.m. Alpha Tau Omega and Tau Kappa Epsilon will match their spotless 4-0 records in the battle which probably will decide the fraternity title. It could be billed as the classic struggle between the league's top offense (ATO) and stingiest defense (TKE) but both squads are quite well-balanced. As last year when ATO won 21-12, mistakes could decide the outcome.

ATO already has one obstacle behind it. Tuesday's penalty-plagued, often rough, contest which saw ATO emerge winners over Lambda Chi Alpha by a closer-than-it-sounds 36-18 score.

The halftime count was 18-18 and matters still stood that way at the second-half two-minute warning. At that point, ATO was at the LXA one. Two plays later quarterback Jim Pietkiewicz fired over the middle to Fred Maust for what proved to be the winning score. It also provoked a lively rumble when Maust was hit hard from the back.

For a few moments the fight was on as players from both sides vented their frustrations. But the officials, who had maintained complete control to that point, quickly broke up the participants and the game continued without further incident.

The fight apparently was taken out of LXA's team at this point, though. John Hinman's first pass after the kickoff was intercepted by Steve Ware and a Pietkiewicz-to-Greg Gavel aerial boosted the score to 30-12. Another interception, followed by another ATO score, resulted in the final 18-point margin.

The first half, was the spectacle in this matchup. It produced the best and closest football witnessed in the past two seasons, starting with Randy Blankenship's 60-yard kick-off return and concluding with a Pietkiewicz-to-Kevin Powers scoring bomb with five seconds to go.

In between, Blankenship caught a 6-yarder from Hinman for a 6-0 lead before Pietkiewicz hit Bill Whidden to tie. ATO took the lead when Nate Smith got far behind the defense to haul in a 45-yard TD.

A momentum switch—in LXA's favor—occurred soon after when ATO's Rick Sparkman ticked a Hinman pass into the hands of LXA's Tim Batchelor, who raced untouched for the tying score. Another Batchelor score, set up by a long bomb to Ron Kerner, gave LXA a 18-12 edge.

An unusual number of penalties slowed the game—it took about one-and-a-half hours to finish.

But ATO's perfect record remained intact, leading to Monday's game-of-the-year.

### Potent Offense Tests Top Defense

ATO's strength is in its offense—Pietkiewicz throwing to Powers, Smith and Gavel. Defensively, the rushing tandem of Larry Johnston and Kurt Wolfe is the strength.

TKE's forte is pass defense. Middle linebacker Larry McCorkle anchors the group with cornerbacks Howie Vandewater and Rod Rodriguez and safeties Mike Murdock and Mac McClendon.

On offense, Mark Denno and Steve Jackson have split the quarterbacking chores, throwing to Mike Murdock, McCorkle and Dale Wise.

### FS&S Bombed, 41-12.

Beulah's Bombers jumped into the frontrunner position in independent Black League football with a lopsided 41-12 win Tuesday over Faculty-Staff-and-Students, defending independent champs.

Mike Thomas fired six touchdown passes and ran for an additional score. Herb Washington caught two of the scores.

FS&S trailed only 14-6 at the half as John Consider and Washington took in Thomas passes and FS&S' Jim Brown grabbed a TD from John Davis.

However, in the second half the Bombers simply blew it open as Thomas marched his team down the field with a startlingly accurate passing display.

Also on Tuesday Mafia improved to 2-0 with a 33-13 romp over the Cavaliers with Jay Adams hauling in two TD and two extra-point passes.

Buf's and Mafia were tied for the Gold League lead after Tuesday's action.

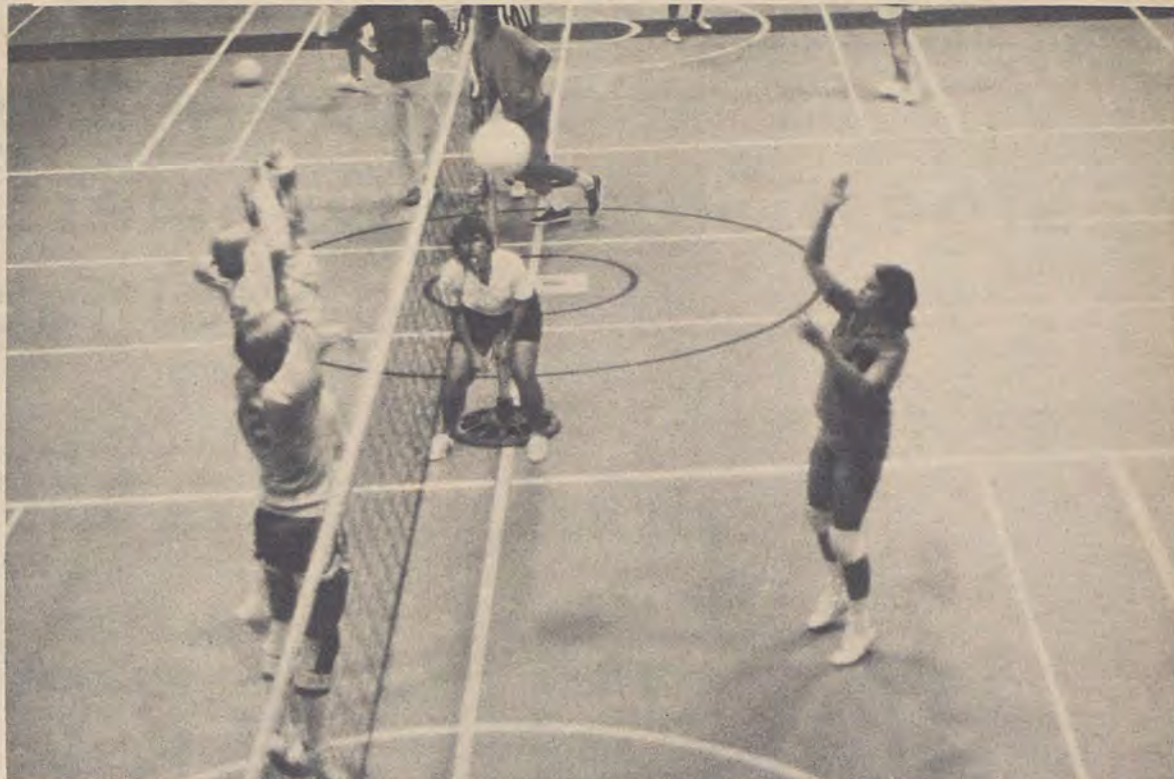

The Dudes topped TKE II, 20-6.

### Tyes Lead Volleyball

Tyes continue to pace women's volleyball. They dumped TEP Leftovers Monday to up their record to 3-0. Bookies, who also beat TEP Tuesday, stand 3-1. Their only setback was a season-opening, three-set loss to Tyes. Tri-Delta, also losers to Tyes last week, were third at 2-1 after Tuesday's games.

### Pool Hours Change

New swimming pool hours begin Monday. On week days the pool will be open from 12-2 p.m.; Saturdays and Sundays from 1-4 p.m.

FTU'S KAMMY Morsley (right) returns a volley over the net to the Flagler team in last Wednesday's match at Rollins. FTU

defeated Flagler, last year's state champions, 11-15; 15-12, and 15-9. (Photo by Jim Matthews)

### FTU Women Defeat '72 State Champs

## V-Ball Team Wins Again

The women's volleyball team got a good idea where they stand among state volleyball team's when they defeated Flagler, last year's state champs, last Wednesday at Rollins Enyart - Alumni fieldhouse.

"It was a good team effort," Coach Pam Burke said after the match. FTU lost the first game but came back to take the next two games and the match. Flagler won the first game 15-11; FTU took the final two, 15-12 and 15-9.

Flagler had three of six

starters returning from last year's team, including their best spiker. However, FTU, with two key transfers in their present lineup, has greatly improved over last year.

The two transfers are Kammy Morsley and Shahla Khonsari. Morsley, from Rollins, and Khonsari, a member of the Teheran and Iranian National Volleyball teams, make up what Burke calls "the two best setters in the state."

These two with the addition of returning starters Judy Hall, Judy Eller, June Fortney and Anne Kennedy, all spikers, form the starting team. This is Kennedy's third year as a starter. In addition, Kitty Ing, a transfer from Stetson, and Maria Mora, another outstanding setter, have already provided invaluable relief for the starters.

It was Mora, according to Burke, who got us going against Flagler in the final game. Khonsari then finished off the St. Augustine school with four straight service points for the game.

The win over Flagler was a big one for FTU. It assured FTU that it can compete with the best in the state.

Florida State which beat FTU in a match last year (the first game went 16-14) returns their entire team. Burke rates them as the team to beat although as she added, "We're not sure of the caliber of junior college ball."

A good example is Miami-Dade South which has won the state tournament two of the last four years. FTU will not play in junior colleges until the state tournament.

This weekend FTU will play in the Jacksonville Blastoff Tournament in Jacksonville. Stetson, Rollins, Miami, Florida State and Jacksonville will participate also.

### Intramural

#### Women's Volleyball Schedule

Monday — 4:10 — Tyes vs. Alpha Chi Omega; 4:45 — Bookies vs. Tri-Delta

Tuesday — 4:10 — Tyes vs. Crew Team, Alpha Chi Omega vs. Zeta Tau Alpha; 4:45 — TEP Leftovers vs. Tri-Delta

Wednesday — 4:10 — TEP Leftovers vs. Zeta Tau Alpha; 4:45 — Bookies vs. Crew Team

LAMBDA CHI Alpha's Joe DeSalvo (right) maneuvers for yardage in last Monday's game against Alpha Tau Omega, but ATO's Fred Maust (left) had other ideas. Maust and ATO went on to defeat LXA, 36-18 after an 18-18 first-half struggle. (Photo by Jim Matthews)
