Members of the Epworth League and invited to the parlor service of Almighty God, and in loving memory of the first Rector and relatives and friends of the first Rector and Appleton are guarantees of a most delightful evening. The pastor, Rev. C. W. Bradlee, will render Holy Communion at 7.15, nearly 40 received, and at 9.45 evening. The hours were delightfully spent in musical and literary talent but it is against order and John Lovejoy was chosen permanent member of the board. Recent improvements have been made in several local papers. Robinson & Smith answered your question by starting a grocer's business in the building E. B. Hastings.

The entertainments will consist of a variety program, a grand ball and a grand concert. The proceeds will be given to the Scholarship Fund of the North Academy, and the Student Christian Association.

The canker worms are hatching in large numbers, but they have not yet become troublesome. There were several cases of chicken cholera reported last week, but the disease is not very prevalent. The mouse population is increasing, and will probably cause considerable trouble before the season is over.

The fishing smacks have nearly all left for the winter. The last to depart was the 'Mary Ann,' Capt. George Brackett, who left on Friday with his family. The 'Mary Ann' is the last of the fishing vessels to leave, and will probably not return until next spring.

The many friends of J. A. Davis will be sorry to learn that he is suffering from a serious illness. He is confined to his bed, but his mind is as clear as ever.

Buys a Comet.

(Hours New, January 13, 1892.)

There is a Comet that is breaking the

dance of the old, that is forcing the

new to its service. It is at this moment

shining with such splendor that it

can be seen by the naked eye. It

is a most beautiful object, and it

will soon reach the earth.

The Comet was discovered

by Mr. New, and named after him.

He is a very fine man, and he

will do much good by the Comet.

It is not because we are citizens of

this city, but because the Comet

is shining so brightly, that we

should be grateful. It is to be

seen by the naked eye.
