JANUARY, 1877. Quiet CARD to our Friends!

Four weeks ago we felt the necessity of reducing our immense Wholesale Stock of OVERCOATS AND WINTER CLOTHING, and to accomplish this we knew a

SACRIFICE

would have to be made, and we made it. December is the best and busiest month to the year for the Clothing business, and instead of waiting for New Year, when the majority of people are supplied, to MARK-DOWN SALE,

as is customary with the trade, we decided to devote the entire one, to reduce our Surplus Stock.

The other, to establish our House as Headquarters in MAINE for First Class Clothing at the very bottom prices. We are satisfied with

NOW,

upon taking account of stock we find we have on hand many broken lots, consisting of odd suits and parts of suits, small lots of OVERCOATS, PANTS, VESTS, &c., which it would be useless to send back to Headquarters, and which must be disposed of before New Goods begin to arrive, and in order to clear our counters of these goods we have inaugurated to-day, January 1st,

A GREAT JOB LOT SALE

at prices that will make the hearts of Bargain Hunters "beat with joy." During this great sale we shall sell our regular unbroken lines of OVERCOATS and WINTER CLOTHING for Men's, Young Men's, Boys' and Children's wear at

STATE TEMPERANCE CONVENTION.

TO THE PEOPLE OF MAINE. As the time approaches for our Annual Temperance Gathering, in reviewing the past we see abundant reason to 'thank God and take courage'."

The success of the various Femperance Organizations, both male and female, has been truly wonderful. The principle of total abstinence, and we may add prohibition, was never more strongly intreached in the hearts of the people than to-day. This should enceurage us to work on till victory crowns our efforts.

Therefore, the men, women and children of Maine, of all temperance organizations, and of no temperance asso lations, of all religious denominations and political parties, total abstainers, prohibitionists, and those who have doubts with reference to prohibition, are invited to meet in Mass Convention at

GRANITE. HALL, IN AUGUSTA,

On Tuesday, at 9 o'clock P. M., Jan. 23, 1877. Let us come together to pray, consult and plan for the future.

The "Woman's Christian Temperance Union" will hold their Convention in connection with this.

The Convention will probably continue until Thursday night.

The usual reduction of fare may be expected on the railroads.

of this State will hold a MASS CONVENTION IN AUGUSTA, commencing on Wednesday, Jan. 24, 1877, at 10 A. M., the day after the opening of the State Convention. We hereby extend a cordial invitation to all temperance ladies to be present and unite in carnest efforts to make this meeting of the State Union—as well as that of all the friends of Temperance—a mighty power through God in pulling down the strongholds of the enemy. For this let us pray and labor. Entertainment by the Augusta Union will be furnished to ladies attending the Convention.

MRS. W. G. SARGENT, President.

MISS MARIANA GAINES, Cor. Sec'y Weman's State Christian Temperance Union.

The Place-Hunters. The only thing that will satisfy a patriot, says Junius, is a place. Patriot as here understood by the English satirist is synonomous with the modern American Democrat, We have put up and sold this article for years and CAN SAV IN CONFIDENCE AND TRÜTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of bighest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after years of experience AND PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE OECLARE. In almost every instance where the intant is sufferwhom nothing but office will satisfy. All the threats of revolution, the cries of injustice, the accusations of fraud which proceed from the Democracy mean office. Were it once understood that Mr. Tilden could not disossess the place-holders and make a new distribution of official favors the clamor would die away. But so long as food is in sight the cry of the glutton will be heard in the land.

thing but fat salaries will assua

office-hunger of the Democracy. The Democratic outcry is not terrifying, but it is very annoying to those who long for quiet lives. The Democrats though a noisy are a peaceful set (the Northern ones at least) and though they will beg and bluster, whine and threaten, they will not fight. They may steal an office in an emergency, but they will not attempt highway robbery-their will is good but their courage is wanting. Still this continual cry of theirs is distressing to hear. There are among them common scolds to whose billingsgate we have been subjected for many years. It is a serious question how we shall rid ourselves of the nuisance. If the American people "walley peace and quietness" as highly as did Punch's organ-grinder they will be willing to pay a considerable price to quiet the Democratic patriots. Were not the number of claimants so large offices might be created to satisfy them. Or it might be whispered about that in some foreign land three million offices with large salaries attached await occupants and that none but Ameriawait occupants and that none but Americans need apply. Then Government might make a contract with the steamship companies to carry the swarm. In consideration of the large number of passengers the carrying rates would of course be made reasonably low. But this remedy for the evil would be only temporary. The whole hungry throng, maddened by disappointment, would be back upon our shores m a few weeks. After all the only effectual and lasting remedy seems to be a reformed civil service. The effecting of that could not of course be entrusted to the men whose only interest is to get into

office. It must be entrusted to the party, the Republican, which has effected all the great reforms in our late history. THE Constantinople conference is held in one of the rooms of the Russian Embassy, which is situated in Pera, on the other side of the hill at the base of which lies Galata. The salon is comparatively small; ten armchairs upholstered in green surround a table of medium size, which is covered with reda departure from diplomatic tradition, for "autour du tapis vert" is an established locution. Another table is covered with writing materials, and green-covered sofa and chairs are placed along the wall. Above the marble mantel is a mirror; the only picture on the

wall is a portrait of the Czar. The view from the windows is exquisite. THE House proposition relating to the electoral vote amounts to this: "The House of Representatives shall have sole power to open the votes and to count them, and in case the House is not satisfied with the result so obtained, it shall be entitled to declare that there has been a failure to elect a President, and shall thereupon proceed to elect somebody else." The House when it is so minded can reject electoral votes enough to prevent a choice and then go to work and choose the President. It can do so at every election if it wish, and so take the choice altogether

from the people. DEMOCRATIC lawyers in New Orleans juestion the legality of the appointment of the judge named by Nicholls, and hesitate to advise him to act upon the assumption that the law is with him. But what cares he for the law? No man ever more clearly usurped authority, and, like all usurpers, he is conscious that his only hope is in the law of force. If he should take his case, just as postoffices in the United States, a list of money it stands, into any impartial court in the order offices (including the Canadian), tables country, he couldn't stand for a moment. of domestic and foreign postage, hours of ar-These Democratic lawyers are evidently wiser

THREE grand Te Deums will be sung in Rome this year, those of Canossa, Venice | the rulings of the Postoffice Department on and Rome-the first in celebration of the doubtful and disputed points during the last eighth centenary of the submission of the three months, and a revised list of the salaries Emperor Henry IV. to Gregory VII.; the now paid to postmasters of offices of the first, second for the seventh centenary of the day when Frederick Barbarossa implored the forgiveness of Alexander III., and rendered homage to him at Venice, and the third for & Co; Boston. the fifth centenary of the re-establishment of the Papal See at Rome, after seventy years of exile at Avignon.

THE unanimous Republican vote in the Legislature for Mr. Blaine is another proof of the high esteem and warm affection in which he is held by a majority of the people of Maine. In him the Republican party of this State has the highest confidence and it sends him to Washington, knowing that in these perilous times, as in times past, his course will be that of a wise statesman and devoted lover of his country. The election was but the formal record of its will, made

manifest long since. THE whirligig of time brings in his revenges. By the revocation of the Edict of Nantes France lost a great proportion of her Huegenot population, but eighty-nine of the descendants of those Huegenots returned in 1870 as officers of the German army, among them being the following generals; De Colmier, de Berger, de Papa, de Gros, de Bories, de Montbary, de Malaise, Mulzer, de la Roche, de Colomb, Girard de Gaudy, de

Ruville, de Jarrys. JUST fancy the intense horror which would have fallen upon the Democracy if Hayes had directed his banker to send \$8,000 to Orregon to buy up a bogus vote! The changes they would have rung upon the cry of "corruption" would have out-pealed the chimes in any church-tower on this continent. But since Tilden, through his confidential secretary and bank cashier, is the delinquent, they

are dumb as ovsters. Ir begins to dawn upon the diplomatic minds of Europe that the Porte is simply playing with the Conference. It is not remarkable that Europe should reach such a

Kindergartens and Common Schools. It is the "occupations,"-the work of the kindergarten that distinguishes it from the purely mental training given in the primary schools to young children. It teaches them from the first the dignity of labor; from the first they do things for themselves and rejoice in their work. Not alone the head, but the hand has been trained. But the kindergarten does not stop here. It educates the heart also. In the common schools the children rise from class to class, silence being the inflexible rule, each child working for itself. In the kindergarten the little artists work like grown men and women, happy and absorbed in their work, but ready to help a neighbor, to drop casual

remarks, even to sing at their work. Besides this, the "occupations" never last long. They alternate with "games" which are really calisthenics and object lessons in disguise. In all these, children and teacher are guise. In all these, children and teacher are together, associating freely, politeness constantly inculcated, and the golden rule of society enforced by example. The kindergarten has but one punishment, but that is all sufficient. The salky, selfish and disob-dient child is doomed to idleness, sent away from his comrades, and not allowed to play with them or work with them. This method has never been known to fail in reformation. The philosophical reader who has followed us through the general features of the system will doubtless have perceived ere this that the gifts and works are founded on the constitution of the human mind. The discipline is founded on the laws of human society, which constitute its happiness. The rudest child, brought up by slovenly and ill-mannered parents, learns in the kindergarten the true basis of politeness, the grea est good of the greatest number, and gives way to its companions for its sake.

In the public schools as a rule, the children either above to diverse the content of the side of the greates in the side of the greates of the sake.

In the public schools as a rule, the children either go home to dinner or bring their lunchboxes and eat their contents as best they can, much as a savage gnaws the bone he snatches from the fire. Let them go to the kindergarten and the atmosphere changes. Each child takes its lunch in a little basket, and at recess the same table at which they have played is spread, a plate and a cup of water to each child's place, and the lunches are earen as a civilized lunch should be, at the table, in company, seasoned with cheerful conversation, good manners, incurated by good example. The effect of this and other apparently trifling features of the kindergarten is, that the children who enter it little untaught savages leave it polite little ladies and gentlemen. They know how to speak to stravgers without bashfulness or forwardness, and especially how to behave at table, baving learned at the most impressionable age. In the public schools as a rule, the childre

table, having learned at the most impressionable age.

We have now shown in a brief sketch of the work of the kindergarten what it does for the child. It does it slowly and in the midst of a variety. The different occupations alternate with each other daily, and with the plays. Even the smallest child begins to work at folding, stick laying, drawing and modelling, from the first, beginning with the simplest forms, and going gradually to the highest, and stimulated to exercise invention and make things "out of its own head." The kindergarten leaves the trained child at seven a skillful little workman, deft in finger and brain—an embryo artist or sculptor, as its tastes dictate, and free to show the natural bias of its mind.

The question remains, What advantage is all

Of Norumbega and the Samoed shore,
Bursting their brazen dungeons arm'd with ice
And snow, and hail and stormy gust and flaw,
Boreas and Caccius and Argestes loud,
And Thrascias, rend the woods and seas upturned. How he must have rolled the strong, sonorous word like a sweet morsel over his tongue before setting it in his verse at the head of his windy battalions. He knew well enough, that. pendant from every roof in the city, were "rubles six inches long" and pecks of the pearliest hailstones about the streets, and we may believe with him that the old city must hav, blown away. I am not sure about Thrascias, but all those other winds are there to-day. It is still a flawy place and a gusty, and there be even now "medicinal and arometic drugs," liquid and solid in its nooks and corners, but Norumbega could not be tolerated for a name in the modern city, and so it has become Norombega in spite of Milton or the "veracious chroniclers."

MAINE SLEIGHS .- The Boston Journal of Commerce, in speaking of sleighs at the Centennial says: There were numbers of handsome vehicles of this kind sent by makers all over the country, but the one that attracted my attention most was built and shown by Hugh Smith, of Gray, Maine This sleigh was metalic studded, and very solidly constructed throughout, combining both strength and beauty in a high degree. This sleigh has been manufactured for the last five years, and during which time thousands have been built, and they are becoming more and more popular both with manufacturers and consumers. They are simple in construction, can be made at much simple in construction, can be made at much less cost than the ordinary sleigh, and will do less cost than the ordinary sleigh, and will do fully twice as much business. Being put together entirely without mortices and tenons, they are not hable to split or break, while in case of any acc dent happening a part can easily be replaced by a duplicate section at much less cost than an ordinary sleigh. The sleigh has taken the premium at every fair where it has been exhibited, and has now won its crowning triumph, being awarded by the United States Centennial Commission a diploma of the highest merit and the medal of honor.

"Sam" Barger got word one evening while at dinner thatCommodoreVanderbilt would like to see him. Hastily partaking of a little food, he repaired to the old gentleman's residence, forgetting in his hurry to put a cigar in his pocket. After the business was finished Sam said: "Commodore, you brought me away from my dinner in such a hurry that I didn't get my smoke! I believe I would like to try a cigar," (The Commodore was smoking a delightfully fragrant Havana.) "All right Sam", he replied, "you will find a match on the mantlepiece." Sam smoked when he got home.

As a contribution to the statistics of literary renumeration in this country, the following facts will be of interest: "Mr. Bayard Taylor not only received no fee for the 'National Ode', delivered at Philadelphia on the Fourth of July, from the centennial commission (as a few journals carpingly asserted), but he secured no copyright for the work. It has since been republished in various forms. Messrs. James R. Osgood & Co., without any legal obligation, paid the author a copyright for their fac-simile edition in heliotype. Mr. Wm. F. Gill publishes an expensive illustrated edition, and does not even send the author a specimen copy; and Mr. E. B. Treat, including the Ode in his work, "The National Jubilee," kindly invites the author to subscribe for a copy, at the rate of \$3.50, bound in "elegant cloth." Here is an incident illustrative of one of Nye's well known defects. Just before Secre-

"Just this," answered the journalist. "I've known Nye for a good many years. He's always borrowing money, and I've never known him to pay a dollar back. Now, if he could be in the Treasury, he'd keep borrowing in his old way, while nobody could ever get anything out of him, and the result would be that the Treasury would be full all the timeand the treasurer would be 'full', too-and things would go on swimmingly."

If we take 123456789 as the multiplicand, and interchanging the figures of 45, take 54 as the multiplier, we obtain another remarkable product 6,666,-666,606. Returning to the multiplicand first used, 987654321, and taking 54 as the multiplier again, we get 53,333,333,334-all threes except the first and last figures, which read together 54, the multiplier. Taking the same multiplicand and using 27, the half of 54 as the multiplier, we get a product of 26,666,666,667-all sixes except the first and last flyures, which read together give 27, the multiplier. A Bold Forgery—\$64,000 Stolen from the Union Trust Company.

New York, Jan. 17.—Wall street is excited today by the report that the Union Trust Company had been defrauded of about \$64,000 by a skillful forger. Morris Franklin, President of the New York Life Insurance Company, makes the following statement:

the following statement:
Yesterday morning while balancing the bank accounts of the Trust Company our cashier discovered two checks bearing the same number, one for \$150,000 and the other for \$64,000, drawn one for \$150,000 and the other for \$64,000, drawn by the Union Trust Company. Upon examining the latter check it was pronounced a clever forgery. Mr. Franklin's signature was so cleverly done as to surprise even himself. The officers of the Trust Company were notified of the forgery immediately, and the cashier stated it was presented the second of the month, and he supposing it regular certified it. After the stranger accomplished his object he presented himself at the office of George L. Maxwell, a broker of Broad street, purchased \$4000 in gold, and after obtaining the treasure and the difference less the commission of the broker, disappeared, Mr. Maxwell accepting the check in payment. The loss will fall upon the Union Trust Company.

FIFTY-SIXTH LEGISLATURE. Forty-Fourth Congress-Second Session. SENATE.

WASHINGTON, Jan 17. Mr. Morton, from the Elections Committee reported the funds for the expenses of the investigating committees exhausted, and that a bill appropriating \$25,000 was delayed in the House, and the Senate Committee was now unable to proceed in Louisiana for want of

money.

After the passage of several private bills,
Mr. Morton made a speech in response to those
of Johnston and Withers on the occupation of
Petersburg by a company of military on elec-NEW ORLEANS, Jan. 17 -The following is Gen. Augur's reply to Gov. Packard's letter of HEADQUARTERS OF THE DEPT. Mr. Morton said he was somewhat surprised

Mr. Morton said he was somewhat surprised at reading the two elaborate speeches of the Senators from Virginia, containing the formal indictment of the President for sending troops to Petersburg last fall. These troops were sent there on the requisition of the U.S. Marshal, and to carry out the circular of the Attorney General and acts of Congress. The troops were quartered in the custom house. They were not in the neighborhood of the polls and took no part in the election whatever. There were but twenty four soldiers, with a captain and lieutwenty four soldiers, with a captain and lieu-tenant. He entirely dissented from the view of the law as expressed by the Senator from Virginia.

He then argued the President had a right He then argued the President had a right under the law to send troops into any istate for the purpose of enabling the officers of the United States to enforce the law of the land and the fourteenth amendment. The law authorized the President to have troops at the polls if necessary to keep the peace, but at Petersburg they were not at the polls and took no part in the election. He had then read affidavits of Geo. T. Marble, Moves Norman, Wm. Whyte, Daniel R. Butts, Edward Everett and Wm. Freen, to show that violence and intimidation existed in Petersburg at the election in the spring of 1876, and argued that the President was justified in sending troops there President was justified in sending troops there to prevent a recurrence of the bloody outrages. No one was punished for these outrages. A balf-dozen Republicans were nearly killed in the streets of Petersburg, but that was not considered violence.

Mr. Johnston of Virginia said if he was satisfied that outrages had been committed in

Mr. Johnston of Virginia said if he was satisfied that outrages had been committed in Petersburg, he would be as quick to denounce them as the Senator from Indiana, but he (Johnston) denied that violence existed in that city as detailed by Mr. Morton. The testimony he read was false. It had been manufactured. The Senator h mself, who was a great receptacle for all reports of outrages, never heard of any outrage in Petersburg in the spring of 1876 until the resolution of Mr. Withers, calling upon the President to know why troops were sent to that city, was introduced at the present session. Mr. Johnston argued that the object of Mr. Johnston argued that the object of U.S. Marshal Ramsdell in having troops sent to Petersburg was not to prevent ary antici-pated outbreaks, but was to influence voters in the interest of the Republican candidate. Mr. Morton said the Senator (Johnston) was Mr. Morton said the Senator (Johnston) was not in Petersburg in the spring of 1876, and therefore did not know that violence did not exist. The trouble in regard to all outrages in the Southern States was that they were denied. The evidence of them was piled up mountain high, and yet they were denied.

Mr. Withers said unfortunately he had been called out of the Senate chamber oa business and did not hear all of the remarks of the senator from Indiana. He would, however, ex-

ator from Indiana. He would, however, ex-amine them in print and reply tomorrow. He desired to say, however, that while the people desired to say, however, that while the people of Virginia were opposed to negro suffrage at the time it was conferred upon the negroes, when the amendments to the Constitution were adopted the people of Virginia accepted them and they did not expect to have the right of suffrage taken from the negroes. He argued that the colored people were even now beginning to vote with the white people of the South and this fact was observed by the Republican party. He (Withers) noticed from the measures presented here and from the expressions, notably of the senator from Indiana, (Morton,) and the senator from Ohio (Sherman,) a latent purpose on the part of the Reman,) a latent purpose on the part of the Re-publican party to divest the colored people of the right of suffrage given them by the Con-Mr. Sherman of Ohio said the senator had

Mr. Sherman of Ohio said the senator had imputed to him an idea which had never entered his nead. He denied that he desired to deprive the colored people of suffrage. If left to themselves, the colored people would naturally vote for that party which gave them liberty and the right of suffrage. The history of the whole South showed that the colored people would so vote. They had only been induced to vote the Democratic ticket by means which would compet the white people to give up the freedom of the ballot. The time would come when the negroes would have the force and power to assert the freedom of the ballot box. Let the negroes exercise their intelligence and the Republicans would abide the result.

Mr. Withers—So will we.

Mr. Sherman, resuming, said if the whites of the South sought the vote of the negro against his will, he Republicans would resist. He then referred to the occupation of Petersburg by the military and defended the action of the President in that matter.

Mr. Withers said the authorities of Virginia were fully competent to control the present in the reason with

Vithers said the authorities of Virginia Mr. Withers said the authorities of Virginia were fully competent to control the peace within the borders of the state, and until they called upon the United States for aid it was unlawful to send troops there.

Mr. Morton also denied that he desired to withdraw the right of suffrage from the negro and any lively evidence of that fact.

After some further discussion the subject was laid aside.

Mr. Sargeut, from the Committee on Appropriations, reported back the Hopse bill making

priations, reported back the House bill making appropriations for the consular and diplomatic service for the year ending June 30th, 1878, with various amendments. Placed on the calendar. He gave notice that he would call it

The report of the Committee on Rules was taken up.

An amendment was adopted compelling the attendance of absent Senators to make a An amendment was also adopted that the Vice President may by his vote determine the question when the Senate is equally divided.

The report was then adopted, and after the

executive session the Senate adjourned HOUSE. A resolution was adopted permitting E. W. Barnes to repair at once to New Orleans in the custody of the Sergeant-at-arms for the purpose of procuring certain telegrams, and requiring him to return to Washington with such telegrams within ten days.

The resolution of the Judiciary Committee to compel the attendance af the Louisiana returning board was taken up.

Mr. Hoar of Massachusetts, addressed himself to the simple question of the constitutional power of the House to require a state to give up its archives. He was struck with amazement that it should have ever fallen to his lot to defend the rights of an American state against a Democratic House of Representatives. He laid down this proposition, that whatever power the House had to compel the authorities of the state to deliver up the records of that state and bring them to the House to be kept according to its will, that same authority the Legislature of a state had over United States officials within its jurisdiction.

in its jurisdiction.

Mr. Bland asked if the committee of the House had not the power to examine the ballots in cases of contested elections for members f Congress.

Mr. Hoar replied that the records which were Mr. Hoar replied that the records which were now singht for were records of local elections and records which related to the existence of the government of the state. Nobody doubted there was a certain class of records to which the principles he had laid down did not apply, but the records of the election of Presidential electors were records essential to the preservation of the government and the sovereignty of the state itself, and Congress had no right to lay hands on them and bring them out of the territory of the state.

isy hands on them and bring them out of the territory of the state.

A long debate succeeded, in which Mr. Banks of Massachusetts declared that Louisiana ought not to yield up her papers except to an overwhelming force, and that the United States ought not to permit her to yield them.

Debate was closed by Mr. Cox of New York, showing the miserable condition of Louisiana under federal bayonets, and declaring that now the voice of Louisiana was given for liberty, for peace, for Democracy and for Samuel J. Tilden.

Tilden.

The resolution was adopted by a party vote.

The Senate amendments to the contingent deficiency bill were reported by Foster of Ohio, and acted on by the House, some being concur-

and acted on by the House, some being concurred in and some rejected.

The Speaker presented the resignatior of Spencer of La, as a member of the House, he having accepted the appointment of Judge of the Supreme Caurt of La.

The Speaker announced his decision of the parliamentary point raised some days ago as to whether a member reporting a measure from a committee, had the right, after occupying an hour in opening to occupy another hour in closing the debate. The Speaker had then given his opinion against the right and he saw no reason, after a consultation with the committee an rules, to change that opinion. He gave his reasons for it at considerable length. The matter is to be open to the further consideration of the House. Adjourned.

Hon. S. B. Packard, State House,
Dear Sir—Your letter dated the 16th inst.,
which you had published; in the newspapers and
telegraphed north, before it was possibte for
me to see it, is received. Though addressed to
me, I understand very well that it is not particularly intended for me, and but for some errors
affecting me personaily, should not think it
necessary to make any reply. You state that
"orders had been issued early on this day (the
9th), by the Hon. Secretary of War, directing
that unauthorized armed bodies should be required to desist, &c. I considered this order of that unauthorized armed bodies should be required to desist, &c. I considered this order of the Secretary of War as virtually commanding a maintenance of the status quo. Consequently the State forces in charge of different positions outside of the capital, were directed to make such resistance as would compel a manifestation of force and a breach of the peace on the part of their opponents, It was my understanding that neither side should be permitted to interfere with the status of the other side." In reply to this I would state that the time In reply to this I would state that the time of day at which this order was issued, is imma-It was not received here until some time after the surrender without resisatnce of the Supreme Court room, the arsenal and all of the police stations, and it is quite a new thing to me to hear that you ever considered that order as commanding a maintenance of the status quo. Yourself and the officers in command immediately under you, have repeatedly stated that it was your intention to p-atedly stated that it was your intention to seize any favorable opportunity to recover the court room, and you have repeatedly sent your sheriff to demand that room, and have twee since that time made written applications to me for troops to assist in such recovery.

This does look as though it was your noderstanding that neither side should be permitted to interfere with the status of the other side. It was the fact of these threats to recover lost greund whenever a favorable opportunity presented itself that has furnished an excuse for the Nicholls party to keep a force in readiness to resist them, and it was in view of this very condition of affairs that yesterday morning I directed two of my staff, one to see you and one to see Gen. Nicholls to inquire, not request, if some agreement or understanding could not be entered into by which the status quo could be guaranteed until such time as the President about my hard the decision. guaranteed until such time as the President should make his decision. Such an arrange-ment would do away with the supposed necessi-ty of keeping up a body of armed men on eith er side, and diminish very greatly the chances for violence and bloodshed I made no request in the matter. I had no right to make any rein the matter. I had no right to make any request; it was simply a suggestion in the interest, as I thought, of peace and to give moments of quiet to the citizens of this excited city. Neither Gen. Nicholls nor yourself theught it advisable to adopt it and there it ended.

An error was made too in the ferm of a memorandum left you by Major Russell last night, though of no particular moment still I prefer to be reported correctly. In directing the staff efficer last night to deliver to you and General Nicholls each a copy of the despatch of the 16th, from the Secretary of War, he was told to say to each that I hope they will give assurances that the President's wishes shall be respected. I made no request for such assurances.

The committee insisted, but he declined, also to say whether he sent telegrams from Florida to members of that committee about money or troops. He was not sure that the letters to Mr. Keogh, shown yesterday, were ever sent to that gentleman. were ever sent to that geutleman.

No formal action was taken on his refusal to answer, but it is likely that the committee will report him to the House to-morrow to compel him to answer or be punished for contempt.

The Printing Bureau. Secretary Morrill was before the House Committee to-day, to give information concerning the work of the Printing Bureau. He said in substance that under the act of Congress directing him to have the engraving and printing of revenue stamps done by the bureau, instead of by a bank note company, in case it could be done as cheaply, he had the question carefully investigated by experts, who reported that it could be done more cheaply in New York than by the department, and he therefore continued the bank note company contracts for revenue stamps and brought to Washington the work of printing the national currency in order to avoid discharging a large number of bureau employes, this class of work being done here to equal advantage. On induiry of the members of the two committees to-night, it is learned that all of them pledged themselves not to speak of the details of the proposed plan for counting the electoral vote, this caution being taken in order that the public might not be misled by verbal statements apart from the exact phraseology of the official report. They say that for the last two weeks the committees of the two Houses, acting either separately and in joint meeting, have devoted their best energies and judgment, and nearly all their time to efforts to arrive at an accommodation; that the proceedings have uniformly been marked by courtesy and a patriotic spirit, all striving to allay whatever partisan feeling existed, and to promote the public good. They are very hopeful that both parties and the country at large will be satisfied with the result of their labor.

The bill embodying the plan agreed upon will be accompanied by a brief report setting forth the principles upon which it is based, and will be presented to both Houses to-morrow, though it will not probably be acted upon immediately. The intelligence that a report had been agreed upon calculated to satisfy both parties occasions very general satisfaction.

There has been no important movements in domestic Wool, but prices are steady and firm for all fine fleeces, and for desirable Wools of all kinds there is no indication of any pressure to sell at reduced prices. There is quite a large stock of fall California on hand, but as this description is mostly of very ordinary quality and an outlet only among a comparatively few buyers, it is saleable only at low and unsatisfactory prices.

Imports from January 1 to Jan. 13.

Excelent balos.

Bleeding at the Lungs.

PUTNAM, Conn., March, 20, 1869.

Gentlemen—I avail myself of this oportunity to say a word in behalf of Dr. Wistar's Balsam of Wild Cherry, which I have made use of in my family for several years, and always with the most beneficial results. My wife being of delicate habits, has always been recorded with a hard dry backing cough troubled with a bard, dry, hacking cough, whenever taking a little cold, and has employed various specifics without obtaining any relief, until prevailed upon to test the virtues of Wistar's Balsam, the effect of which has been

Wistar's Balsam, the effect of which has been truly astonishing.

More than a year since a young man belonging in this place was taken with bleedings at the lungs, in connection with a most severe cough, and was finally given over to die by our best physicians, and it was evident that Consumption was claiming him as a victim. Learning these facts, my wife sent him a bottle of the Balsam, which he took, and, in due time, to the great astonishment of his friends, was at his accustomed occupation. Santched as was at his accustomed occupation, snatched as it were, from the very jaws of death. In many other cases we have administered the Balsam to the consumptive, and always with the best of success. These statements are simple facts, and can be vouched for at any time by calling on me at my store.

SAMUEL THURSTON,

General Agent. SCHENCK'S PULMONIC SYBUP, SEA WEED TONIC AND MANDRAKE PILLS .- These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science. The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease. and patients afflicted with it reconciled themselves to death without making an effort to escape from a

doom which they supposed to be unavoidable. It is now proved, however, that Consumption can be cured, and that it has been cured in a very great number of cases (somes of them apparently desperate ones) by Schenck's Pulmonic Syrup alone; and in other cases by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one r both, according to the requirements of the case. Dr Schenck himself, who enjoyed uninterrupted good health for more than forty years, was supposed, at one time to be at the very gate of death, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and, since his recovery, many thousands similarly affected have used Dr. Schenck's tained several local hits which took the house | preparations with the same remarkable success. Full directions accompany each, making it not abplutely necessary to personally see Dr. Schenck un-

less patients wish their lungs examined, and for this purpose he is professiodally at his principal office, orner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be address ed. Schenck's medicines are sold by all druggists.

THE WORLD'S CHOICE. A CENTENNIAL DECISION.

Competent judges representing the civilized people of the world, appointed for the knowledge of particular arts or sciences, convened at Philadelphia for six months, to decide upon the comparative merits of the various inventions of mankind, awarded to the manufacturers of Benson's Capcine Porous Plaster, after a careful test and comparison of this remarkable remedy with ordinary porous and other kinds of plasters, the highest and only medal, above all foreign and a merican competitors, on the ground of its great superiority over other pi-ster, and its wonderful pain relieving, strengthening, and curative properties Remember that this decision was made by four practical and skilled physicians.

Remember that no nostrum was allowed to be exhibited at the Centennial. Remember when you are suffering from any ache or pain that Benson's Capcine Plaster is the best reme y ever devised for all external difficulties. Sold everywhere. Price 25 cents. THE National Diseases. IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may: for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs and serious and frequently larial affections of the lungs follow, in many cases of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eye-sight and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED. IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications, the ulceration and inflammation subdued and healed; the entire membranous limings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the acid poison, the destructive agent in catarrh diseases.

SANFORD'S RADICAL CURE IS a local and constitutional remedy, and is supplied to the nasal passages by insuffiation with Dr. Sanford's Improved Inhaling Tube, which accompanies each bottle free of charge; and internally, or constitutionally, where, by its action on the nucous coatings of the throat and stomach, it frees the system from the poison generated by Catarrh. Until this good result is effected no permanent cure can be made. Thus the united action of this remedy is superior to all others or combinations of others.

SANFORD'S RADICAL CURE HAS worked a revolution in the treatment of Catarrh. It has demonstrated beyond all doubt that this disease, even in its severest forms, is curable, and that comfort and happiness may be made to follow years of misery, years of suffering, by a persistent use of it. The method of treatment originated by Dr. Sanford, viz, the local and constitutional, by a remedy prepared by distillation. is the only one ever offered to the public that will bear the test of time.

SANFORD'S RADICAL CURE is Prepared by Distillation. EVERY plant and herb that yields its medical essence to it is placed in an improved still, and there mingied with a solvent liquid, which, by heat, is made to pass over into a receiver, bearing with it the healing essences or juices of these plants and herbs, free from every contamination, pure and colress. Thus the active medical constituents of thousands of pounds of herbs may be condented into a very small compass. In this way SANFORD's RADICAL CURE is divested of the nauseating, worthless features of all other remedies, white its carative properties are increased tentold. It is positively the greatest medical triumph of the age.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price \$1.00. For ale by all wholesale and retail druggists throughout the United States. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston. COLLINS' Au Flettro-Galvanic Battery combined with the Celebrated Medicated Porous Strengthening Plaster forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY. As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster. BALSAM and PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, sootbing, and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy their healing and strengthening properties are increased teniold. In this respect our Plaster is the best in use without the aid of electricity. TWO IN ONE. Thus combined we have two grand medical agents in one, each of which performs its function and unitedly produce more cures than any liniment, lotion, wash, or plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all druggists, and sent on receipt of 25 cents for one, \$1.25 for six, or \$2.25 for twelve, carefully wrapped, and warranted, byWEEKS & POTTER, Preprietors, Boston, Mass ja5S&W2w

CENTAUR

The lame can be healed and the wounded made whole We now know just what the Centaur Liniments will do. They will not mend broken bones or cure Cancer, but they will extract soreness, allay pain, cure Rheumatism and a larger range of flesh, bone and muscle allments than any articles ever before discovered.

Scientific skill cannot go beyond the effects of these remarkable preparations. Chronic Rheumatism of many years' standing, Neuralgia, Weak-Back Fever, Sores. Weeping-Sinews, Sciatica. Caked-Breasts. Distorted Joints and Sprained Limbs of the worst kind are cured by the White Centaur Liniment.

It will destroy the pain and heal without a scar all ordinary Burns and Scalds. It will extract the poison of Bites and Stings, and the frost from Frozen Limbs. It is very efficacious for Ear-ache, Tooth-ache, Itth and Cutaneous Eruptions.

Mr. Josiah Westake, of Marysville, O., writes: Mr. Josiah Westake, of Marysville, O., writes: "For years my Rheumatism has been so bad that I have been unable to stir from the house. The first three bottles of Centaur Liniment enabled me to walk without my crutches I am mending rapid ly. I think your Liniment simply a marvel."

"My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure and I considered him worth'ess until I commenced to use Centaur Liniment, which rapidly cured him. I heartly recommend it.

"REV. GEO W FERRIS.

"Manorville, Schoharie Co., N. Y." "DEAR SIRS,—I have used your Centaur Liniment in my family, and find it to be of great value Please send me two dollats worth one for the nules and horses.

"Falls Station, Woyming Co., Pa." It makes very little difference what the case is, whether it be Wrench, Sprain, Poll-Evil, Rin-bone. Scratches or Lameness of any kind, the effects are the same. Liverymen, Stage proprietors, Farmers, &c., should never be without the Yellow Centaur Liniment. It is sold everywhere, and warranted in its effects.

It is a mistake to suppose that Castoria is not adapted to grown persons as well as Children. They only need to increase the quantity. But children have so many complaints for which Castoria is adapted—like Wind Colic, Sour Stomach, Worms, Tetter, Teeth ing and Croup, that it is especially recommended for them.

Its effects are more certain than Castor Oil. It contains no alchohol and is as plea-ant to take as honey. It never gripes. By regulating the stomach and bowels the Castoria cools the blood, expels worms and prevents feverishness, quiets the nerves and produces health—then of course children can sleep in quiet and mothers can rest.

Castoria is recommended by all physicians and nurses who have tried it, and it is having a rapidly increasing sale. It is prepared with great care after the reci, e of Dr. Samuel Pitcher, of Mass., at the Laboratory of J. B. Rose & Co., 46 Dey Street, New York. STEAMSHIP LINES. FOUR STEAMERS PER WEEK.
