A&A, 430, 471–480 (2005), DOI:10.1051/0004-6361:20041089

**Key words.** open clusters and associations: individual: Stock 16 – errata, addenda – stars: imaging – stars: luminosity function, mass function

Figure 7 is incomplete. It should be:

**Fig. 7.** The distribution of members (filled circles) and probable pre main sequence stars (crosses) in the area of Stock 16. The scale is the same used in Fig. 1.
