Classification of Company Performance using Weighted Probabilistic Neural Network (Conference Paper) [\(Open Access\)](#)

Yasin, H. ✉, Basyiruddin Arifin, A.W., Warsito, B.

Department of Statistics, Faculty of Science and Mathematics, Diponegoro University, Jl. Prof. Soedharto, SH, Tembalang, Semarang, 50275, Indonesia

Abstract

↕ View references (11)

Classification of company performance can be judged by looking at its financial status, whether good or bad state. Classification of company performance can be achieved by some approach, either parametric or non-parametric. Neural Network is one of non-parametric methods. One of Artificial Neural Network (ANN) models is Probabilistic Neural Network (PNN). PNN consists of four layers, i.e. input layer, pattern layer, addition layer, and output layer. The distance function used is the euclidean distance and each class share the same values as their weights. In this study used PNN that has been modified on the weighting process between the pattern layer and the addition layer by involving the calculation of the mahalanobis distance. This model is called the Weighted Probabilistic Neural Network (WPNN). The results show that the company's performance modeling with the WPNN model has a very high accuracy that reaches 100%. © Published under licence by IOP Publishing Ltd.

PREFACE

The 7th International Seminar on New Paradigm and Innovation on Natural Sciences and Its Application (ISNPINSA-7) is annual conferences organized by Faculty of Sciences and Mathematics (FSM) Diponegoro University and has been successfully conducted since 2011. The aims of ISNPINSA are to facilitate brain storming and state of the art information in field of sciences and mathematics; to increase innovation of technology that can be applied in industries; to contribute in formulating strategy to increase the role of science for community; and to stimulate collaboration between industries, researchers and government to increase community welfare. The theme of 7th ISNPINSA in 2017 is “*Science and Data Science for Sustainable Development Goals*”.

The scope of the field of participants comes from various fields including biology, physics, chemistry, statistics, mathematics, informatics, environment, public health, and relevant fields that contribute to sustainable development. The conference was held in Semarang, Indonesia on October, 17th, 2017. There were three keynote speakers and three invited speaker who came from Japan, Italy, Malaysia, Philipines and Indonesia. The number of participants of this seminar were more than 200 consist of researchers, lecturers, postgraduate and undergraduate students from various universities and after the selection process there are 132 articles selected to be published in the present conference proceeding.

THE MINISTRY OF RESEARCH, TECHNOLOGY AND HIGHER EDUCATION
THE REPUBLIC OF INDONESIA

DIPONEGORO UNIVERSITY
FACULTY OF SCIENCE AND MATHEMATICS

CERTIFICATE

Decree of Dean Number : 1440/UN7.5.8/HK/2017

This is to certify that

Hasbi Yasin

as

PRESENTER

In the 7th International Seminar on New Paradigm and Innovation of Natural Science and Its Application (ISNPINSA-7) held on 17 October 2017 at Grand Candi Hotel Semarang Indonesia

with paper entitled as follows:

Classification of Company Performance using Weighted Probabilistic Neural Network

DEAN OF FSM UNDIP

Prof. Dr. Widowati, S.Si, M.Si.
NIP. 196902141994032002

7th ISNPINSA COMMITTEE,
CHAIRMAN

Dr. Budi Warsito, S.Si, M.Si.
NIP. 197508241999031003
