## BOARD OF TRADE Monthly Meeting

At the regular monthly meeting of the Board of Trade, held on Tuesday evening in Raymer's Small Hall, there was a very good attendance, including Messrs. A. W. Bowser, President; G. A. Fisher, Secretary; P. DuMoulin, H. G. Pangman, D. H. Rattenbury, S. T. Elliott, R. S. Hall, C. C. Jeaselyn, J. C. Curtis, T. G. Speer, H. W. Raymer, G. C. Rose, J. H. Thompson, W. D. Walker, H. J. Williams, N. Gregory, R. H. Stubbs, M. Heron, A. H. Bell, K. MacLaren, W. A. Pitcairn, C. T. Rogerson, H. G. Doe, R. L. Dalgleish, F. H. E. DeHart, R. B. Kerr, J. Leathley, L. E. Taylor, J. W. Jones, F. A. Taylor, J. B. Knowles, H. F. Boes, W. G. Johnson, H. H. Millie, Geo. S. McKinnon, Dr. Dickson and Dr. Thayer, and two or three visitors.

Correspondence was first dealt with. The Pentteton Board of Trade wrote to the effect that they were not yet able to guarantee a contribution of \$100 towards the expense of a survey of the Nanamata-Okanagan Mission wagon road.

Mr. Elliott was of the opinion that the Pentteton Board would not be able to subscribe the sum mentioned, as they did not have the money. Motor car owners at Pentteton were interested, however, and had collected part of the money and would probably get the balance.

The Secretary was instructed to write and hurry up the Pentteton Board, if possible.

Later on, Dr. Dickson introduced Mr. Dufresne, of Pentteton, who stated he was present at a recent Board of Trade meeting in Vernon, when the question of contributing to the survey expenses was discussed. The funds of the Vernon Board were apparently very low and they could not see their way clear to subscribe. A motion was passed to the effect that the Secretary write to ascertain if the Government would be willing to build the road, if a survey established the fact that it could be constructed at a considerably smaller sum than Mr. Burnyeat's estimate, in which event the Vernon Board might see their way clear to subscribe something. The speaker had interviewed Messrs. Billings and Duncan, President and Secretary of the Vernon Automobile Club, and they had promised \$50, but even then the Vernon Board could not put up the other \$50.

President Bowser stated that Mr. Billings had promised to put up the balance of \$50 himself, if the Vernon Board could not do so. (Applause.) The speaker thought there would be no trouble in raising \$100 in Pentteton.

In response to the request of the Board for a station on the Kettle Valley line within reasonable distance of Okanagan Mission, the engineering department of that railway wrote that a sidetrack would be put in about one mile from Priest's Creek crossing, which would be the nearest convenient point to Okanagan Mission. The altitude of the railway at that point would be about 4,080 feet as against about 1,100 for the Mission.

A letter from the C. P. R. stated that it would not be practicable to operate the Shuswap and Okanagan line on Mountain time. This was in connection with the daylight-saving proposal, and read by the Board.

Mr. A. W. Lee, route agent of the Dominion Express Co., wrote asking for particulars in regard to complaints made as to non-delivery of express parcels in Kelowna within the delivery area.

In this connection, the Secretary stated that he had obtained sufficient data from Mr. DuMoulin to support the complaints made. Any other members who had complaints were asked by the President to give particulars to the Secretary.

Mr. W. E. Scott, Deputy Minister of Agriculture, wrote asking the co-operation of the Board in making successful the meeting to be held here on April 26th by Mr. R. Robertson, of Vancouver, the special commissioner appointed by the Government to investigate fruit marketing problems.

On motion, it was decided to refer Mr. Scott's letter to the Secretary of the Farmers' Institute.

Letters were received from Mr. Bryan Williams, Provincial Game Warden, and the Attorney-General, in reference to the question of protection of game in the country traversed by the Kettle Valley Railway. The Attorney-General stated that Mr. R. D. Sullivan had been appointed a game warden for the west side of the lake and the southern Okanagan.

Mr. Walker expressed the opinion that the letters of Mr. Williams and the Attorney-General did not convey any assurance or adequate patrol, as the district covered by Mr. Sullivan was altogether too large. He thought the Board should have asked for a patrol from the Summit to Pentteton instead of from Carmi to Pentteton.

Mr. Heron stated that game was more plentiful in the district than for many years past, especially deer, and he thought the Government was adequately coping with the situation.

Mayor Jones thought the Board should make strong representations both as to game protection and fire protection, the latter being especially important, in view of the need of conserving the timber on the water-shed in connection with its bearing on irrigation. He believed it possible that the Government might appoint a joint fire and game warden for the district through which the Kettle Valley railway runs.

Several members expressed the opinion that a joint appointment would not be feasible, as one man could not properly cope with the work.

Mr. Knowles said he had been over the Summit recently, and there was little doubt in his mind that all that country would be burned over this summer if precautions were not taken in time. Many roads and trails to railway construction camps—away from the track itself—had been cleared out of the jack pine, which was very inflammable, and if a fire once started in the tops and branches lying beside the trails, it would be very hard to stop it.

Mr. Heron said the remedy would be to have the matter brought to the attention of the Government, so that they could have the forest brush burned before the dry season set in.

Finally, a motion was passed, proposed by Messrs. Jones and Walker, asking the Hon. Peter Elliott, in view of the danger from fire, to secure the appointment of extra fire wardens to patrol the Kettle Valley line. It was decided to again write to the Attorney-General, urging the appointment of additional game wardens.

The Secretary of the Railway Commission wrote stating that the C. P. R. had been written to in regard to the dockage charges levied by them at Kelowna, and a reply should be to hand shortly.

The Superintendent of Government Telegraphs stated that nothing could be done to improve the telegraphic service to Okanagan Mission, as the Government had no line to that point. As the letter was lengthy one, covering a number of matters the President referred it to a special committee, consisting of Messrs. Walker and Thompson, of Okanagan Mission, and Mr. DuMoulin. Later, the committee reported, through Mr. Thompson, that they considered it advisable to submit the letter at a meeting of the Okanagan Mission Progress Association before coming to a decision as to the action to be taken.

Mr. Hamilton Lang, Road Superintendent, acknowledged receipt of a letter from the Board on the ever-present question of Mission Creek. He said the Board probably knew by this time that the Government had decided to carry out the usual yearly amount of work in clearing out the bed of the creek.

The subject was discussed at length, the first speaker being Mr. Hall, who said the usual emergency appropriation made for cleaning out the creek was a long way short of meeting their wants. He thought the best thing to do would be to get the Minister of Public Works to look at the creek and see for himself the urgent need of permanent work. He moved, seconded by Mr. Elliott, that the Board write to the Minister, asking him to inspect the creek personally, owing to the urgent nature of the case. Carried.

During the discussion on the resolution, Mr. Elliott said there was more chance of a flood this year than for many seasons past, owing to the amount of snow in the mountains and the backward spring.

Mr. Heron confirmed the statements of the previous speakers. There were places in Mission Creek that could not carry one-quarter of the flood water that was likely to come. He had two places particularly in mind where work should be done at once. There was just about a month in which to work, as high water in the creek generally started between May 20th and June 1st.

Mr. Elliott favoured re-appointment of a standing committee on Mission Creek, and he moved to that effect, seconded by Mr. DeHart. Carried. Messrs. Hall, Heron and Elliott were chosen as the committee.

The following accounts were referred to the Finance Committee, to be paid if found correct:

Telephone rent	.....\$ 1.50
Postage and Petty Cash	.....10.00
Heaton's Agency, balance of advertising account	.....51.00
G. H. E. Hudson, photos	.....4.00
"Vancouver Province," advt. for Publicity Commissioner	.....2.70
"Calgary Herald," advt. for Publicity Commissioner	.....2.40
H. W. Raymer, rent of hall for meetings, Jan. to April	.....20.00

The Secretary read a report of the proceedings of the Executive Council in connection with the choice of a Publicity Commissioner. They had held three or four meetings, and had considered 72 applications, which they sifted down to three. Their first choice was unable to come through illness, while their second choice, Mr. Chas. W. Stokes, of Calgary was expected to arrive that day but had not done so.

## CITY COUNCIL Weekly Meeting

At the regular meeting of the City Council on Friday, the Mayor and Aldermen Sutherland, Copeland, Thompson, Casens, Calder and Taylor were present.

A letter was received from the Secretary of the Board of Trade, complaining of certain obstructions on the streets, mentioning in particular a telephone pole at the corner of Lake Ave. and Pendozi St. The guy wires of this pole could not be seen on a dark night and a person might easily be injured by running into it while cycling or riding.

Ald. Taylor reported a similar condition at the corner of Abbott St. and Lake Ave., and Ald. Copeland stated that the street committee would meet shortly and go over the ground to investigate the matter.

A tender on a new boiler for the Power House was received from the Fairbanks-Morse Co. and laid on the table.

A letter was received from the Montreal Standard Publishing Co., stating that the company was considering the issue of special editions descriptive of various districts in Canada desiring such high-class advertising, and wished to know if the City cared to consider the matter.

Mayor Jones suggested that the communication be handed over to the Board of Trade secretary. His proposal was accepted.

A letter was received from an American firm engaged in the handling of bonds and debentures, asking for details regarding the City's debentures, and stating that they might be able to sell same.

The Mayor remarked that the Americans were certainly invading Canada with a view to securing all the bonds they could get hold of, whereupon Ald. Taylor suggested that "they are welcome to all we can give them."

A request was received from the Canadian Bank of Commerce for permission to construct a coal chute in the cement sidewalk in front of their proposed new building between the Palace Hotel and the "Record" office.

The request was granted, providing that the usual city regulations be complied with.

A letter from the Studebaker Co., a firm engaged in manufacturing gasoline street wagons, sprinklers, dump carts, etc., was read, and it was decided to send for the catalogue issued by them. Ald. Sutherland suggested that it would be a good idea, in the near future, to secure a traction engine and train of dump-cars for hauling gravel on the city streets, and for other miscellaneous work.

The request of the Kelowna Garage & Machine Works Co., Ltd., to install a Bowser gas line tank under the sidewalk at the front of their garage, was granted. Another request by the same firm, for placing of a light in front of the garage, was not considered very favourably by the Council, as Lawrence Ave. from Abbott St. to Water St. has now three lights.

A letter was received from Mr. C. Gowen, quoting a price on his house and lot, which at present is situated in the way of the proposed extension of Levee Ave. from Ellis St. to Richter St. The Council considered that it would be more advisable to try and secure just the strip necessary to complete the extension from Mr. Gowen, instead of purchasing his entire property.

As very few petitions have been received from ratepayers for new sidewalks to be constructed under the Local Improvement By-law, it was decided to consider an extension of the time limit for receiving such requests at the next meeting. By-law 180, a by-law to provide for proceedings to be taken for the construction of a work undertaken as a local improvement, was read a first time.

A letter was received from the Chairman of the Board of Investigation under the Water Act, stating the final hearing of all claims to the waters in the Kelowna district will be held at Kelowna on May 2.

The Mayor remarked that the City was being represented in the matter, and the City Solicitors had been instructed to prepare an application for a licence to take water from Okanagan Lake for its water works system.

A letter was received from the Grolier Society of London, asking the Council to name some reliable firm who might act as their delivery agents in Kelowna. It was decided to recommend Max Jenkins & Co.

Applications for water connections from six residents on Stockwell Ave. were received and referred to the Light and Water Committee.

Mr. N. D. McTavish submitted a plan of subdivision of Block 84, and South half of Block 83, Registered Plan 202, to be resigned. On motion, the request was granted.

It was moved by Ald. Sutherland, seconded by Ald. Taylor, that the plan of subdivision of Lots 8 and 9, Block 54, Map 262, submitted by E. M. Collett, be approved, provided

## FARSIGHT IN CAR SELECTION

THE measure of your pleasure in motoring depends on the discrimination you use in purchasing your car.

Not alone should you investigate the worth of the car itself. You should be particular about the firm that makes the car. Look a little ahead—ask yourself whether the car you're about to purchase is likely to have a factory at all behind it six months hence.

There's sure satisfaction in the choice of a McLaughlin Car—not only are McLaughlin Cars trustworthy in themselves, but they come from a factory that has been producing high-grade cars for five years, and was making high-grade carriages nearly half a century before that—a factory that is the keystone of a big organization, with completely-equipped sales depots all over Canada.

## WRESTLING

## Training for the World's Championship

The wrestling match which will  
take place on Monday, April 21, in  
the Opera House, will decide the  
light-heavyweight championship of  
the world, as Pat Connolly is now  
holder of that high-sounding title.  
Since his first visit to Kelowna,  
Pat has met the best of the Amer-  
ican light heavies, John Berg, and  
the result was not very conducive to  
the physical well-being of Berg.  
Connolly had previously defeated  
Adolph Ernst, a former mat partner  
of George Hackenschmidt and a  
strong contender for the title. Fred  
Beall, the only other dangerous  
man in the class, will have nothing to  
do with Pat, who is just a little  
too strenuous for any of the Amer-  
ican grapplers at his weight. In  
fact, judging by Pat's showing  
against Zhyzsko, the Polish giant,  
the Irishman could give most of the  
heavyweights a good workout and  
then some.

Despite the above record, Pat  
has not yet been able to convince  
Bob Sutherland that the conquer-  
or of Berg can have an easy victory  
over the Kelowna grappler. By  
his recent defeat of Clarence Ekland,  
one of the best, Bob showed that he  
is still in the game as a contender  
for championship honours, and if  
he had only had the training during  
the past year which Connolly has  
been able to secure, the local man  
would show that he possesses speed  
as well as muscle and bull-dog ten-  
acity. But Sutherland is doing the  
best he can under the adverse cir-  
cumstances, and will step on the  
mat next Monday in pretty good  
shape.

A walk in the fresh morning  
hours, lung exercises with a spirom-  
eter, general physical culture gym-  
nastics, rope skipping and a good  
workout on the mat in the evening,  
is the programme mapped out by  
the big Chief of Police, and as a  
consequence he is fast losing any  
superfluous flesh and improving his  
speed and endurance. Pat will have  
to travel some to beat him.

Connolly has his quarters near  
the Lake View Hotel, and is doing  
a little light conditioning every day,  
toning up his muscles and practicing  
the holds and locks that have made  
him one of the greatest wrestlers  
that ever stepped on a mat. He will  
fiddle with a toe hold and then  
clamp on a hammerlock before the  
victim realises what is going on.  
Or he works laboriously for a half-  
hour and then slips over a head-  
lock, until the pressure on the re-  
bellum makes one hear the little  
birds singing on the old farm.

Pat has got strength in the neck,  
arms and shoulders, science and  
speed, and an uncanny sense of di-  
vining what the other fellow is  
working for.

Bob has got great defensive  
ability, the knack of using his chest  
and shoulders when sparring for a  
hold, and thus giving his "grip," a  
fine all-round knowledge of the  
game, including a few locks of his  
own particular patent, and a tremen-  
dous "pulling strength" in  
breaking bad holds, a sort of power  
that only wrestlers develop, as the  
sets of muscles involved are not so  
widely used in any other sport.

The approximate measurements of  
the two athletes are as follows:

Connolly		Sutherland	
5 ft. 9½	height	5 ft. 11½	
180 lbs.	weight	180 lbs.	
18 in.	neck	17½ in.	
45 in.	chest	43 in.	
33 in.	waist	34 in.	
23 in.	thigh	24 in.	
15 in.	calf	16 in.	
13½ in.	biceps	15 in.	
13½ in.	forearm	14 in.	
320 cu. in.	lung capacity	300 cu. in.	

It would be hard to find two bet-  
ter developed athletes than these  
men, although it is interesting to  
note that their lung capacity is be-  
low the normal proportion, in com-  
parison to bodily weight, matched by  
several young fellows tested on the  
same day. The majority of great  
athletes have the same weakness; as  
a result of not giving the lungs the  
same attention as the biceps, or  
depending solely on physical exer-  
cise for lung development.

Great interest is being shown in  
the coming bout, and a packed  
house is assured when the big  
grapplers shake hands on Monday  
night, and commence their battle  
for the Championship of the World.

## HANDLING NURSERY STOCK

## Before Planting

(By the Riverside Nursery, Grand  
Forks.)

Do not allow your shipment of  
trees to lie at the railway station or  
express office. Go and get them im-  
mediately they arrive. When you  
have brought them home, if it is pos-  
sible, plant at once. If, however,  
this is not possible, follow the direc-  
tions below.

IF IN PALES—Place bums in the  
cellar or a shady place; stand up-  
right, remove the straw around the  
tops but not the sacking around the  
roots; then saturate the roots with  
water and keep them moist until  
ready to plant. A watering can is  
the best to use, as it distributes the  
water more evenly. The sacking  
around the roots should always be  
kept wet.

IF IN BOXES—Place in a shady  
place. Remove the cover and water  
the ends of the boxes where the  
roots are. A pile is best for this.  
Keep wet until ready to plant.

HEELING-IN PROCESS—Dig a  
trench two feet deep, throwing the  
earth forward so as to form a sloping  
bank to put the trees on, with  
the roots in the trench. Cut the  
branches open, shake out the picking  
and lay the trees in the trench in a

### Local and Personal News

Mr. Johnson left on Wednesday for

Mr. A. B. Knox is a visitor in town this week from Vernon.

Mr. F. E. H. Wollaston returned this morning from a trip down the lake.

The annual meeting of the Polo Club will be held in Mr. W. G. Benson's office, at 7:30 p.m. on Saturday, April 19.—Com.

Messrs. Source and Bellamy, general agents, have dissolved partnership, and the business in future will be conducted by Mr. Source.

The courts of the Kelowna Tennis Club will be opened on Thursday, May 1. Members will please note that, under the rules of the Club, they must pay their subscription before using the courts.—Com.

The local Oddfellows are holding their anniversary service on Sunday, April 27, in the Presbyterian Church, at 11 a.m. All visiting brethren are cordially invited to attend. Brothers will meet in the lodge room at 10 a.m.—Com.

Mr. Wm. Mills was a passenger to Nelson on Wednesday. Billy is a great mat fan and his last request was to a friend to "go up and root your darndest for Bob Sutherland next Monday." Billy will return with the snowbirds.

Mr. L. McMillan left on Monday for Nelson, where he will join the surveying staff under H. F. Mourling. Len will probably play on the Nelson lacrosse team this season, and his departure is a distinct loss to the local twelve.

The famous Juvenile Bostons will appear in the Opera House next week for two evenings, Friday and Saturday, April 25 and 26. The Juveniles are the only all-girl organization in the world, and their main effort here will be the presentation of the famous New York success, "Princess Chic," an original comic opera. Press reports of the recent tour of the company are uniformly good and the local theatre-goers may be assured of two nights of solid entertainment.

MARRIED.—On Wednesday, at 8:30 a.m., in St. Michael and All Angels Church, by Rev. Thos. Greene, Mr. Harold Arthur Willis to Miss Grace Madeline Hudson. The groom was supported by Mr. O. St. P. Aitkens, and the bride was given away by her brother, Mr. G. H. E. Hudson. A number of friends attended the wedding, which was a quiet one. The happy couple left by motor car for Vernon to spend the honeymoon. They will reside in Kelowna, where they have hosts of friends.

We learn that the Rev. H. P. Thorpe, who was the first pastor of the Baptist Church of this city, and is now pastor of Douglas Street Baptist Church, Victoria, has suffered the loss of his mother, who died at Teignmouth, England, on April 10. The deceased lady was 73 years of age on the day of her death. Besides the Rev. Mr. Thorpe, she is survived by two other sons, both of whom are Baptist ministers, and by a daughter. Mrs. Thorpe was predeceased four years ago by her husband.

The plans of the hydrographic surveys made by order of the Board of Investigation during the last two years have been open for inspection here during the last week, the members of the Board being present to explain them to all interested parties. Many persons have availed themselves of the opportunity and objections have been filed against certain of the claims that have been made. The Board has set Friday, May 2, at 10 a.m., as the date for final hearing. A representative of the Board will be in Kelowna on May 1, and will give any further information required.

While working on one of the electric light poles on Fuller Ave. on Tuesday, Mr. E. Fowler, a lineman on the power house staff, was nearly electrocuted. A slight slip caused him to overbalance and in falling he grasped one of the "live" wires and received a severe shock, before falling to the ground. The voltage was pretty high and that he came out of the accident with no more damage done than is at present evident is marvellous. He was strong enough to walk home after the shock and fall, but will have to rest very quietly for a few weeks to completely restore the shocked and disordered nervous system.

The Women's Auxiliary of St. Michael and All Angels are holding a sale of work on Saturday, April 20, in one of the new stores behind the Bank of Montreal. It is hoped that a sufficient sum of money will be raised to defray the cost of placing the windows in the new church. Good many pretty and fancy articles, aprons, etc., have been sent out from the Old Country, and all are intending to send in donations are asked to do so as soon as possible. Afternoon tea will be served and a homemade candy stall will be among the many attractions. It is hoped that all will make an effort to make the bazaar a financial success.—Com.

MARRIED.—On Tuesday, at 7 a.m., at the home of the bride's parents, by the Rev. A. Dunn, Mr. Samuel John Currie to Miss Jean Harvey. The bride was given away by her father, Mr. W. D. Harvey. Mr. and Mrs. Currie left for New Westminster the same morning, being escorted to the dock by a crowd of well-wishers, who sprinkled the newly united pair liberally with rice and confetti. Both Mr. and Mrs. Currie are very well known in this city, Mr. Currie having at one time been a member of Lequime Bros. & Co.'s staff, and is now connected with one of the leading dry goods houses of New Westminster. The "Courier" joins with their friends in wishing them long life and prosperity.

### HANDLING NURSERY STOCK

Continued from Page 2

thin layer. Then throw a good layer of earth on the roots and also on the whole length of the trees to the very tips. Work the soil in well, packing it firmly. Then dig the trench back further and put in another layer of trees, covering all deep with soil. Add in this way, as many layers as are necessary. Smooth the sides so as to turn off water and dig a trench entirely around the mound, with a ditch to carry off the surface water. To those who will not take the trouble to do this properly, the safest way is to adopt the watering plan as above, for the trees can safely be kept in their original packages for a week or ten days, if the above instructions are carefully followed.

PLANTING—When ready to plant the trees or bushes, trim off the ends of the roots, making a slanting cut with a sharp knife, cutting from the under side so the cut surface will rest against the soil. Any long tender roots should be cut back to about eight inches, the ends of any bruised roots cut off and any dry, fibrous roots trimmed off.

Puddle the roots, laid on a wagon or stone bat, cover them with old blanket or carpet and draw to the planting ground.

Dig the holes large enough to receive the roots easily without crowding or bending and to all for the trees to be planted four inches deeper than they were in the nursery rows. (If in heavy clay soil, plant only two inches deeper.) In digging the holes, keep the top soil separate from the bottom soil.

In planting, one man should hold the tree in position, firming the earth which the other man throws in the hole. Firming the earth around the roots is of great importance. Lack of firming properly is largely responsible for the failure of many trees to live. Therefore, holding the tree well in position, throw in some of the best top soil and work it in well, around the roots. Leave in air pockets. Tramp and pound the soil in well until the hole is three-quarters full. Then, if the soil is very dry, pour in several gallons of water. Let the water sink in, and then fill up the hole with loose earth, but do not tramp it in after watering.

Never put manure in the hole with the tree, because it will make air pockets and cause the roots to dry out.

PRUNING—Trees should be pruned and bush fruits cut back immediately after planting.

TO MAKE A PUDDLE—Dig a hole two feet deep and two feet across; fill it with water and stir in the soil (clay preferred) until you have a stiff batter. When ready, dip the roots of the trees in the puddle, and they are ready to plant. As you use it, renew the earth and water.

#### Allen Players Pleasing Good Audiences

The well-known favourites, Miss Verna Felton and the Allen Players, opened their engagement at the Opera House Monday evening in a sparkling comedy, "That Girl From Texas." This presented Miss Felton in a most delightful role, infectious in its vivacity. Miss Ella Hudis drew hearty applause with her contralto solo. The Royal Hungarian Quartette of native players, who are great favourites here, filled in the waits between the acts most enjoyably.

Tuesday the entire company was seen to most pronounced advantage in "The Girl in the Taxi," a comedy from the French, that has lost none of its tone of smartness in the translation.

On Wednesday evening Miss Felton created a splendid impression in "The Easiest Way," a drama of modern life that has created a furor both in this country and in England. To-night, Mrs. P. R. Allen will be featured in a comedy dealing with the suffragette question, "A Contented Woman," which should prove to be the funniest possible presentation of a lively subject.

Friday night, Miss Felton will be presented in her most ambitious emotional role, "Madame X." This sensational drama from the French is well known in book form and will doubtless interest a large gathering. For the matinee on Saturday afternoon, a late comedy success, "The Counterfeiter," is scheduled, and the closing performance will be given Saturday night, in a hilarious farce, "The Widow From Tokio."

A group of Italian laborers went down to Naramata on the s.s. "Aboldeen" on Tuesday. One of the bunch was pretty well "jagged" when he stepped on the boat and his hat fell overboard. He remained peacefully unconscious of the fact until informed by a compatriot, when he marched down the gangplank, removed his coat and made a Kellermann dive into the lake to recover his lost headgear. He was soon fished out, and although he had been swimming strongly, he was fairly chilly when hauled back on deck. However, the hydrophobic treatment proved very successful in its way, for Antonio was nearly sober when rescued.

## BOARD OF TRADE

Continued from page 1

For the Publicity Committee, Mr. Pangman had nothing to report, as it had been deemed advisable to await the appointment of a Publicity Commissioner.

Mr. L. E. Taylor drew attention to the number of European sparrows in town, and expressed the opinion that the Council should be asked to get rid of them. There were only a few hundred at present, and it should be possible to clear them out without much difficulty. If not now, there would be cause for regret later. He moved, seconded by Mr. Hall, That the attention of the City Council be called to the number of English sparrows in town, with a view to their extermination, and that the matter also be brought to the notice of the Associated Boards of Trade, in order to endeavour to have the birds destroyed in the other Okanagan towns that they have reached. Carried.

Mr. Leathley said he understood the Board had a Civic Improvement Committee and suggested that they bring to the notice of the City Council the need of cleaning up the back lanes. The main streets were fairly tidy, but some of the back lanes were filthy and littered with empty cans and other rubbish, which constituted a menace to health.

Mr. L. E. Taylor, for the Committee, promised to take the matter up with the Mayor the following day.

Several other members also had suggestions to make in reference to matters of public welfare.

Mr. Bowser pointed out the danger caused by telephone poles being located at certain corners.

Mr. Pitcairn drew attention to the amount of waste paper which every strong breeze blew on to the streets. He did not think it was the fault of the business men, but it was due to the lack of an incinerator, as waste paper piled up waiting for the scavenger to remove it and blow it about the streets.

Mr. Keor thought measures should be taken to combat the mosquito nuisance by some preventive work.

Dr. Thayer urged that a By-Law should be passed by the City Council, providing for the inspection of animals slaughtered locally. The Dominion Government did not undertake inspection except in large abattoirs, and when animals were brought to Kelowna for slaughter, there was the danger of diseased meat being sold.

The Civic Improvements Committee undertook to give their attention to the matters brought up.

Mr. Benson submitted a copy of a German illustrated paper containing a write-up of Kelowna, and at the request of the President, he gave some information as to the proposed arrangements for the reception here on 28th July of a party of 70 prominent German capitalists and business men. They would arrive by special boat from Okanagan Landing in the morning and would be met with motor cars and shown over this district. They would be brought back to Kelowna for lunch, say in the Aquatic pavilion, and they would have an hour or two to themselves afterwards to spend in town, finally being taken back to Vernon late in the afternoon, by motor cars.

On motion, it was decided that the matter be left in the hands of the Executive, to report at next monthly meeting as to details of arrangements.

The meeting then adjourned

James Clarke,

Building Contractor.

Estimates furnished on all kinds of work. Jobbing promptly attended to.

## Some New Arrivals of Crompton Corsets

The average woman doesn't give enough time and thought to the selection of her corsets. It is one of the most important items in their wardrobe and the greatest care should be given to the fitting. The real reason why Crompton Corsets are so generally liked is because of their extreme comfort. The following are a few of the many models--

**1.25** --Medium low bust, long hip and back, nicely trimmed with lace and ribbon bow, four laces, supports. Suitable for medium figures. Sizes 19 to 26.

**1.75** --Made of a good quality coutil, extra well boned, medium low bust, long hip. Suitable for slight figures. Sizes 18 to 26.

**2.00** --Medium bust, long hip, closely wave good quality French coutil, suitable for full figures. Sizes 18 to 27.

**2.50** --High bust, long hip, closely woven good quality French coutil, with lace supports, suitable for medium figure. Sizes 19 to 26.

## The Curtaining Fabrics one can buy at Lawson's for 35c per yard

We have more reason to be proud of this showing than at any time since we first opened a curtain department. There is greater variety here than in all other stores in Kelowna put together, and the values are better. What greater inducements could any woman want?

The New Scrims at 35c Yard include delicate fine voile effects, such as last season cost 50c a yard. Handsome bordered designs; also more robust weaves, in bordered and all-over designs, in white and cream grounds.

Bungalow Nets at 35c Yard include a splendid new lot of heavy conventional nets in cream and ecru. These are artistic and it is practically impossible to wear them out.

New Madras Muslins at 35c Yard, in bordered and plain effects. A lovely lot with dozens of choice patterns to choose from.

Cretonnes at 35c Yard--The choicest of two continents--American and English designs. Dozens of patterns for every purpose. See the new shadow cretonnes at this price--something quite unique for the money.

**Thos. Lawson, Ltd.**

Sold by Kelowna Farmers' Exchange, Ltd., Kelowna, B.C.

## QUAKER FLOUR

Never heard of it?

Did you ever hear of Quaker Oats?

Now We've got you!

Did you ever hear anyone say that they were disappointed in Quaker Oats?

We Never have, NOT ONCE

Nor will anyone ever say they are disappointed in Quaker Flour. Made at Saskatoon, from the finest wheat, at an up-to-date mill, by expert millers, and manufactured under a brand that is unexcelled throughout Canada, this flour is daily tested to see that the bread making qualities are continually maintained at the highest possible point.

It at least merits a trial from you.

**The McKenzie Company, Ltd.**

## Canada Cement

which Canadian farmers use, with their own sand, stone and gravel to make concrete, is the only ingredient you have to buy.

We have, by reason of our large output and scientific methods, been able to bring the price of "Canada" Cement so low that it is within the reach of everyone.

An increase in demand results in a greater economy of production, and when conditions have warranted it, we have, from time to time, shared this saving with the consumer by reducing the price of Canada Cement. This demand will continue to increase--as fast as farmers learn of concrete's superiority over other materials.

When you buy cement, see that you get "Canada" Cement; by so doing you will assure the complete success of all your concrete work.

Send a post card for our book "What the Farmer Can do With Concrete." It is free.

There is a Canada Cement dealer in your neighborhood.

Canada Cement Company Limited

If this label is not on every bag it is not Canada Cement.
