

Volume 4  
Supplement 1  
2010

# Chemistry Central Journal

## CONTENTS

- I1  
**The CAESAR project for in silico models for the REACH legislation**  
Emilio Benfenati
- S1  
**Assessment and validation of the CAESAR predictive model for bioconcentration factor (BCF) in fish**  
Anna Lombardo, Alessandro Roncaglioni, Elena Boriani, Chiara Milan, Emilio Benfenati
- S2  
**An open source multistep model to predict mutagenicity from statistical analysis and relevant structural alerts**  
Thomas Ferrari
- S3  
**New public QSAR model for carcinogenicity**  
Natalja Fjodorova, Marjan Vračo, Marjana Novič, Alessandra Roncaglioni, Emilio Benfenati
- S4  
**CAESAR models for developmental toxicity**  
Antonio Cassano, Alberto Manganaro, Todd Martin, Douglas Young, Nadège Piclin, Marco Pintore, David Bigoni and Emilio Benfenati
- S5  
**Global QSAR models of skin sensitizers for regulatory purposes**  
Qasim Chaudry, Nadège Piclin, Jane Cotterill, Marco Pintore, Nick R Price, Jacques R Chrétien and Alessandro Roncaglioni

*Chemistry Central Journal* is an open access, peer-reviewed online journal that encompasses all aspects of research in chemistry. Chemistry Central Journal's (ISSN 1752-153X) articles are tracked/indexed by PubMed Central, Thomson Reuters (ISI), CAS, Scopus and Google Scholar..
