SW 488 Practicum Seminar
Instructor: Birch
Spring 2003
Tuesday, 3-5 PM

PURPOSE: *The goal of this seminar is to enhance the practicum experience by integrating classroom learning and field work. Students will gain a better understanding of the roles of the social worker in their agency setting and an understanding of professionalism, social work process, social policy and ethics.*

GRADING: *Pass/Not Pass*

ATTENDANCE: *Students are expected to attend classes regularly. Students are allowed to miss only one class session during the semester. Additional absences must be made up during summer session. If a student misses any sessions, he/she will complete a make-up paper on a topic appropriate to the student's professional development.*

***READING MATERIALS:** *Several articles pertinent to professional development and completion of the competency exam are on reserve in the library. Students are expected to come to class prepared to discuss weekly topics by completing designated written assignments and reviewing recommended readings.*

CONFIDENTIALITY: *Given the nature of this seminar and the fact that there will be discussions of concerns and issues faced by students working with real clients in real agencies, it is critically important that client confidentiality be protected. Do not reveal the name of a client or provide descriptive information that might identify the client. Consult with your instructor prior to the class if you are unsure how you can discuss an important question or issue and still protect confidentiality.*

SEMINAR FORMAT: *Seminar sessions are devoted to discussion of topics relevant to the practicum experience and to exploring issues relevant to the social work profession. Students are expected to bring examples from their practicum experience to stimulate discussion related to weekly topics.*

WRITTEN ASSIGNMENTS: *Written assignments are designed to promote communication skills and to prepare for the competency exam. Please type written assignments.*

STUDENT PRESENTATIONS: *Several seminar sessions are set aside for student presentations related to their practicum experience.*

COMPETENCY EXAM: During the semester, students will discuss competency exam questions and prepare drafts of several questions.

Please note that your comp exam is to be handed in on the established due date. If it is late, the overall score will be lowered by .5.

Those who expect to graduate at the end of the semester in which they finish their comp exams must have their comp turned in during that semester. Students planning to graduate later, can choose a due date during the semester after they have finished practicum.
