May 16 10:10-12:10 Exam 3 (Chapters 8, 10, Appendix A & B) Section 2

Grading: The three exams will each count 25% of your final grade. The remaining 25% of your final grade will be earned through a case study involving systems implementation in a business. A detailed format for these case studies will be made available early in the semester. Students should begin thinking about a business that recently installed an information system that can serve as a basis for their case. The case study is due May 9.
