This Syllabus is brought to you for free and open access by the Course Syllabi at ScholarWorks at University of Montana. It has been accepted for inclusion in Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.

Biology 101: Discover Biology

Fall 2013 Syllabus

Class Meets: M & W 9:10am - 10:00am at MonTEC conference room

Lab meetings: M (section 1) or W (section 2) 10:10-12:00 at MonTEC in room 129 **Instructor**: Greg Peters. Contact: greg.peters@mso.umt.edu or (406) 207-6154

Office hours: Mon-Thurs, 12:30 - 1:30 in HB02 at Missoula College

Required texts:

Lecture: Essential Biology 5th ed. By Simon, Reece & Dickey. 2010.

Laboratory: Custom Lab manual available through Missoula College bookstore only

Course Content:

We will explore topics such as the chemical and cellular bases of life, evolution, and human impacts on the living world. Important course objectives include developing a deeper understanding of the fascinating features of the living world and helping all of us make well-informed decisions about issues with a biological component.

How to succeed in this course:

Regular attendance in both lecture and lab is critical. Many lab activities cannot be prepared to accommodate one person, and cannot be made up under any circumstances. Reading textbook assignments before lecture will ensure the best understanding of classroom content. Reading lab instructions before lab will help lab move more smoothly and will better prepare students for lab quizzes. Working in groups during lab exercises and in discussions of lecture material can be helpful to your understanding, and is encouraged. Students are expected to work alone during all exams and quizzes.

Make-up exams will be permitted only for extreme and documented reasons. No early final exams will be given, so make any travel plans accordingly. Students registered with DSS will be given disability accommodation during exams. Please contact me one week before each exam if you require any service through DSS. Instructor office hours are time reserved for helping students; come to office hours with any questions. Your NetID will provide access to an online Moodle supplement to this course that includes portions of the presentations used in class and access to course documents and grades.

Adds, drops, and changes of grading:

University policies on drops, adds, changes of grade option, or change to audit status will be strictly enforced in this course. Please note that after the 45th day of the semester, such changes are NOT automatically approved. Requests to drop a course or change the grade basis to benefit a student's grade point average will not be approved. A grade of C or higher will be considered passing for the P/NP option.

Laboratory overview:

The laboratory is an essential component of this course, and will make up 1/3 of your course grade. There is one final grade for class and lab integrated together. The laboratory component of this course provides an opportunity for hands-on learning that expands on topics introduced in lecture. Students are expected to read the relevant lab activity before coming to lab each day.

Grading:

Exams (4)	400 pts	90-100% = A- to A
Quizzes (highest 10 of 11)	100 pts	80-89% = B- to B+
Presentation	30 pts	70-79% = C- to C+
Plant Growth Lab Report	30 pts	60-69% = D- to D+
Lab Manual	40 pts	<60% = F
Total	600 pts	

Exams:

There will be 4 exams covering the material presented in each of the four main units of the course. The fourth exam is offered during finals week and includes some core concepts from the entire semester.

Quizzes:

There will be quizzes at the beginning of most labs (don't be late) covering material from the previous week's lab.

Presentation:

Near the end of the semester, students will give presentations on current research in Biology. Details will be offered as the project approaches.

Plant Growth Experiment & Lab Report:

The plant growth lab will be evaluated with a formal, written lab report in addition to a lab quiz. Expectations and suggestions are provided in the lab manual.

Lab Manual:

Students will be expected to record lab activities through written observations, sketches, records of findings, and personal reflections throughout the semester in their lab manual.

BIOB 101: Lecture Outline

Date	Lecture Topic	Reading (focus)
8/26 8/28	Course Introduction Biology; Science as process	Ch. 1 (4-5, 14-8)
9/2 9/4	Labor Day Holiday Chemical basis of life	Ch. 2 (24-31)
9/9 9/11	Molecules of life A tour of the cell	Ch. 3 (38-50) Ch. 4 (58-70)
9/16 9/18	Cell functioning Exam I	Ch. 5 (76-86)
9/23 9/25	Cellular respiration Photosynthesis	Ch. 6 (92-101) Ch. 7 (108-15)
9/30 10/2	Cell division Intro to genetics	Ch. 8 (122-9) Ch. 9 (146-59)
10/7 10/9	DNA function Genetic engineering	Ch. 10 (174-87) Ch. 12 (220-5)
10/14 10/16	Exam II Evolution	Ch. 13 (244-51)
10/21 10/23		Ch. 13 (252-5, 260-4) Ch. 14 (270-9)
10/28 10/30	Classification of life Prokaryotes and protists	Ch. 14 (285-9) Ch. 15 (299-311)
11/4 11/6	Plants and Fungi Animals	Ch. 16 (316-32) Ch. 17 (338-60)
11/11 11/13	Veterans Day Holiday Exam III	
11/18 11/20	Ecosystem function Human impacts on ecosystems	Ch. 18 (374-7, 380-90) Ch. 18 (392-7)
11/25 11/27	Population biology Thanksgiving Day Holiday	Ch. 19 (408-11, 417-20)
12/2 12/4	Living systems Energy flow & course wrap up	Ch. 20 (425-32) Ch. 20 (432-9)
12/12	Final Exam; Thursday, 8:00-10:00am, same room	

BIOB 101: Lab Outline – section 01 (Mondays)

Date	Lab Topic	Quiz/ Assignment due:
8/26	No Lab	
9/2	Labor Day Holiday	
9/9	1. Intro; microscopes	
9/16	2. Cells	Quiz 1
9/23	3. Pondwater	Quiz 2; Notebook review
9/30	4. Diffusion & respiration	Quiz 3
10/7	5. Photosynthesis & Begin Experiment	Quiz 4
10/14	6. Cell division & genetics	Quiz 5
10/21	7. Experiment	Quiz 6
10/28	8. Evolution	Quiz 7
11/4	9. Microbes; conclude experiment	Quiz 8
11/11	Veterans Day Holiday	
11/18	10. Classification	Quiz 9; Report due
11/25	11. Ecology	Quiz 10; Notebooks due
12/2	12. Presentations	Quiz 11

BIOB 101: Lab Outline – section 02 (Wednesdays)

Date	Lab Topic	Quiz/ Assignment due:
8/28	No Lab	
9/4	No Lab	
9/11	1. Intro; microscopes	
9/18	2. Cells	Quiz 1
9/25	3. Pondwater	Quiz 2; Notebook review
10/2	4. Diffusion & respiration	Quiz 3
10/9	5. Photosynthesis & Begin Experiment	Quiz 4
10/16	6. Cell division & genetics	Quiz 5
10/23	7. Experiment	Quiz 6
10/30	8. Evolution	Quiz 7
11/6	9. Microbes; conclude experiment	Quiz 8
11/13	10. Classification	Quiz 9; Report due
11/20	11. Ecology	Quiz 10; Notebooks due
11/27	Thanksgiving Day Holiday	
12/4	12. Presentations	Quiz 11
