## Overview

The goal of this class is to give you a sound introduction to classical experimental physics. This will include studying some basic concepts in physics, development of problem solving skills, laboratory techniques and some basic programming skills for data analysis. It is essential that you keep up from the start as the concepts in this course build on each other. Co-requisite to this course is PHSX 217.

## Learning Objectives

The goals of this course are:

- To learn how to properly take measurements and record data.
- To learn how to interpret results both statistically and graphically.
- To experimentally confirm theories presented in lecture.

## Laboratory

There will be 13 two-hour labs during the semester. 12 of those labs will count towards your final grade. You will be required to attend the labs, take measurements, and then write up a full report or take a quiz/turn in brief writeup for each lab. *Each student must hand in their own lab report written in their own words (no duplicates!)* Two of the thirteen labs will require a lab report. The remainder of your lab work will be assessed with Moodle quizzes and brief writeups. *Important: Quizzes are to be done individually.*

Each week, a few days before your lab, you should read the current lab. Students are expected to have read the instructions prior to arriving at the lab, and will be asked to take a brief pre-lab quiz on Moodle.

There will be no make-up labs. If you will miss your lab, contact your instructor *ahead of time* about attending another section that week. Labs are held Wednesday and Thursday 3:10-5:00pm

## Lab Report and Quiz due dates

- Pre Lab Quizzes: On Moodle, open on Friday at 8am and close at 11:59pm the day before your lab section. 60 minutes allowed to take quiz.
- Lab Quizzes: On Moodle, open on Friday at 8am and close on Monday at 11:59pm for all sections. 30 minutes allowed to take quiz.
- Lab Reports: Due at beginning of the following lab meeting.

- Late Penalties for Lab Reports: Late lab reports will be penalized 10% per day late, excluding holidays and weekends. Labs will not be accepted more than one week after their due date.
