LVHN Shared Governance Model

LVHN Peer Case Review

- Scholarly approach
- Identification/analysis of quality of care issue(s) in response to a question about nursing care of specific patient

Goals

- Critically examine untoward patient events
- Generate awareness of gaps in care from a systems perspective
- Ensure action planning focused on legitimate root causes
- Stimulate performance improvement initiatives, inclusive of outcomes monitoring until improvement is sustained
- Provide a forum to share learnings throughout the organization
