Jury Instructions: A Bibliography Part II: Criminal Jury Instructions

ABSTRACT. Pattern jury instructions are used by trial judges to explain the law to jurors in language that they can understand and that provide consistency from one trial to another. This criminal jury instructions bibliography of 169 entries is a companion to a previous bibliography on civil jury instructions. An index to acronyms for both criminal and civil jury instructions is also included.

In instructing the jury in the law, a trial judge must phrase the instructions in language that is both understandable to the jurors and nonprejudicial to the litigants. Pattern jury instructions, also described as model, uniform, approved, and standardized, are carefully drafted tools designed to simplify this judicial duty and to encourage consistency among judges. Prepared under the sponsorship of bar associations and the courts, compilations of criminal jury instructions have been published for almost every state and for the federal courts.

This bibliography of criminal jury instructions is a comprehensive list of recent and dated jury instructions and as such builds on the work of others, including:

Cheryl Rae Nyberg and Jane Williams are Assistant Law Librarians and Assistant Professors of Library Administration at the University of Illinois. Law Library, Champaign, IL 61820.

Carol Boast is Director of Agriculture Library and Professor of Library Administration at the University of Illinois, Urbana, IL 61801.

This is the second in a two-part series. Part I, "Civil Jury Instructions," appears at 6 *Legal Reference Services Quarterly*, 5-32 (1986).

- J. Alfini, *Pattern Jury Instructions 22-47* (American Judicature Society Report No. 6, 1972).
- R. McBride, *The Art of Instructing the Jury* 387-429 (1969).
- R. Nieland, *Pattern Jury Instructions: A Critical Look at a Modern Movement to Improve the Jury System* 55-116 (1979).

The Nieland book in particular lists several titles that are not verifiable in OCLC. Those titles do appear in the present bibliography with a note that such titles are taken from Nieland and were not verified. Many of the other titles listed were not available to the authors, but the above bibliographies, other printed acquisitions tools, and OCLC served as authorities.

The entries are arranged first by state and within each state by date, beginning with the most recent title. References to earlier editions of a title immediately follow the entry for the latest edition. Criminal jury instructions for the federal courts, general jury instruction titles, and criminal antitrust jury instructions are listed next. An index to acronyms for both criminal and civil jury instructions, keyed to the bibliographies by entry numbers, concludes this bibliography. Entries have been numbered consecutively from the first civil jury instructions bibliography to the present bibliography. Some entries have been repeated to provide one-step use of the bibliographies.

An entry may include all or some of the following information:

- a. standard bibliographic information: author(s), title, edition, compiler(s), editor(s), place of publication, publisher, date of publication, collation, and in the case of multivolume sets, the volume number in which criminal jury instructions appear.
- b. update information: date of latest pocket part, looseleaf release, or supplement, derived from inspection of the item, information from the 1985 *Legal Looseleafs in Print*, or a recent publisher's catalog. Some entries for which this information was unavailable may be updated.
- c. call numbers: Library of Congress-assigned Library of Congress call numbers, Dewey Decimal call numbers, Library of Congress card numbers, OCLC numbers, and (one title only) Superintendent of Documents (SuDoc) call number.
- d. acronym.
- e. notes: other information about the publication.
