Avian Species Observed at the Gordon Natural Area

— Data from eBird (through 3/23/2018) and from the 2004 West Chester Bird Club Survey of the GNA

Summary Data

Number of Surveys: 74 'Site Visits' by 13 Birders. Note: this does not count the birders who participated in the 2004 West Chester Bird Club Survey as they were not identified on the species checklist.

Number of Taxa: 113 Species, in 84 Genera and 38 Families.

PBS Status— Pennsylvania Biological Survey Status

CR: Candidate Rare; **PT:** Pennsylvania Threatened; **PE:** Pennsylvania Endangered; **PX:** Pennsylvania Extirpated

Abundances

The color of each month's 'box' represents the average number of individuals observed during all surveys during that month (see key at the bottom of the page). The first number within the 'box' for each month represents the number of days in which that species was observed; the second number represents the total number of days of surveying for that month.

| Common Name | Scientific Name | Month | | | | | | | | | | | | |

Toxostoma rufum

Years Observed: 2004; 2016; 2018

Most Recently Observed: 1/3/2018

Starlings (Sturnidae)

European Starling

Sturnus vulgaris

Years Observed: 2004; 2006; 2014; 2015; 2016; 2017; 2018

Most Recently Observed: 1/3/2018

Waxwings (Bombycillidae)

Cedar Waxwing

Bombycilla cedrorum

Years Observed: 2004; 2015; 2016; 2017

Most Recently Observed: 9/15/2017

Wood-Warblers (Parulidae)

Kentucky Warbler

Geothlypis formosa

Years Observed: 2004

Most Recently Observed: 7/4/2004
