PERMISSION TO USE

In presenting this thesis in fulfillment of the requirements for a Post Graduate degree from the Universiti Utara Malaysia (UUM), I agree that the Library of this university may make it freely available for inspection. I further agree that permission for copying this thesis in any manner, in whole or in part, for scholarly purposes may be granted by my supervisor or in her absence, by the Dean of Othman Yeop Abdullah Graduate School of Business Universiti Utara Malaysia. It is understood that any copying or publication or use of this thesis or parts of it for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to the Universiti Utara Malaysia (UUM) in any scholarly use which may be made of any material in my thesis.

Request for permission to copy or to make other use of materials in this thesis in whole or in part should be addressed to:

Dean of Othman Yeop Abdullah Graduate School of Business
Universiti Utara Malaysia
06010 UUM Sintok
Kedah Darul Aman

ABSTRACT

Previous studies on performance management system focus on one or two of its dimensions with little insight in the public sector, so also studies on human resource management practices did not attempt to use all the practices comprehensively. This study examined both individually and comprehensively the relationship between the six human resource management practices and all the four dimensions of performance management system among academics in higher educational institutions in Nigeria. The dimensions of performance management system as operationalized by this study are, organizational objective, individual objective, performance development and employee satisfaction. Human resource management practices also as operationalized by this study are procurement, development, compensation, integration, maintenance and separation. Furthermore, this study also investigated the mediating effects of employee behavior and information and communication technology (ICT) adoption on the relationship between human resource management practices and performance management system among academics in higher educational institutions in Nigeria. Data was collected from five Federal universities in the North Western Nigeria using a cross sectional study design and multimode survey strategy. 800 questionnaires were distributed to the respondents who were sampled using a multi stage sampling technique. SmartPLS SEM was used in testing the study hypotheses. The results obtained indicated that majority of the hypothesized relationships thirteen (13) out of twenty (20) direct relationships were supported. Additionally, the results of the mediation tests provided that five (5) mediating hypotheses out of twelve were significant. The outcome of this study provides a very sound insight of the study on performance management system in the public sector particularly higher educational institutions. It will also benefit the government, the policy makers and other concerned agencies in Nigeria. More so, information and communication technology and employee behaviors have been proven by this study as strategic tools that could be efficiently used by managers to effectively manage performance of their employees. This study encountered limitations such as inability to include other types of higher educational institutions like the polytechnics and colleges of education, unable to cover all the six regions in Nigeria instead focused on only one region the North West region.

Keywords: performance management system, human resource management practices, employee behavior, information and communication technology

ABSTRAK

Kajian terdahulu tentang sistem pengurusan prestasi hanya memberi tumpuan terhadap satu atau dua dimensi tanpa meneliti sektor awam dengan terperinci. Kajian tentang amalan pengurusan sumber manusia juga tidak meneliti semua amalan secara menyeluruh. Kajian ini menyelidik secara individu dan secara menyeluruh hubungan antara enam amalan pengurusan sumber manusia dengan empat dimensi sistem pengurusan prestasi dalam kalangan ahli akademik di institusi pengajian tinggi di Nigeria. Dimensi sistem pengurusan prestasi yang diguna pakai dalam kajian ini ialah objektif organisasi, objektif individu, pembangunan prestasi dan kepuasan pekerja. Amalan pengurusan sumber manusia yang turut diupayakan pula ialah perolehan, pembangunan, pampasan, integrasi, penyenggaraan, dan pemisahan. Selain itu, kajian ini turut meneliti kesan perantaraan tingkah laku pekerja dan penggunaan teknologi maklumat dan komunikasi (ICT) terhadap hubungan antara amalan pengurusan sumber manusia dengan sistem pengurusan prestasi dalam kalangan ahli akademik di institusi pengajian tinggi di Nigeria. Data dikutip daripada lima buah universiti Persekutuan di Barat Laut Nigeria dengan menggunakan reka bentuk kajian silang bahagian dan strategi tinjauan berbilang mod. Sebanyak 800 borang soal selidik diedarkan kepada responden yang dipilih berdasarkan teknik persampelan pelbagai tahap. SmartPLS SEM digunakan untuk menguji hipotesis kajian. Hasil dapatan memperlihatkan bahawa tiga belas (13) daripada dua puluh (20) hubungan terus yang dihipotesiskan telah disokong dalam kajian ini. Hasil ujian pengantaraan pula menunjukkan bahawa lima (5) daripada dua belas hipotesis perantaraan adalah signifikan. Hasil kajian memberikan maklumat yang mendalam tentang sistem pengurusan prestasi di sektor awam, khususnya di institusi pengajian tinggi. Selain itu, kajian ini turut bermanfaat kepada kerajaan, penggubal dasar dan agensi berkepentingan di Nigeria. Kajian ini juga memaparkan bahawa teknologi maklumat dan komunikasi dan tingkah laku pekerja merupakan alat strategik yang boleh diupayakan secara berkesan oleh pihak pengurus untuk mengurus prestasi pekerja dengan efisien. Batasan kajian termasuklah kegagalan untuk melibatkan institusi pengajian tinggi lain seperti politeknik dan kolej pendidikan dan ketidakupayaan pengkaji untuk meneliti kesemua enam wilayah di Nigeria.

Kata kunci: sistem pengurusan prestasi, amalan pengurusan sumber manusia, tingkah laku pekerja, teknologi maklumat dan komunikasi

ACKNOWLEDGEMENTS

Glory be to Allah the most High, the most Patient and the most Merciful, may His peace and pleasant blessings be upon our sacred prophet, our model, Muhammad (S.A.W) the last and the leader of all the spiritual teachers sent to the earth. Alhamdulillah without Allah's grace, my dreams would have turned to illusions.

My journey towards PhD wouldn't have been easy without the constructive criticisms, quality contributions and tutelage of my industrious supervisor, Associate Professor Nor Hasni Osman from start to finish. She is not only a supervisor; she is also like a mother to me, Ma, I am and will forever remain indebted.

To my late father, Abubakar Allumi, who sacrificed and invested a lot in me, he sent me to the best of schools; he had high hopes in me but did not live to see this date. I pray for him for Allah's mercy and May Jannat al Firdausi be his final abode. I cannot appreciate enough the paternal love and care of my "mothers", Asma'u and Asma'u Abubakar Allumi, they did and are still doing the greatest job of all- praying for my continuous success, to them, I am still a baby that needs a tender care.

To my elder brothers, Muhammad Sada Abubakar and Muhammad Munir Abubakar, and their families, I am glad that I did not disappoint you. They took upon my responsibility and took care of me; indeed, there are few brothers of your kind. To my younger brother Muhammad Aminu Abubakar and my elder sister Umaimat Abubakar and their families, I say, your valuable words of advice are second to none; I will never stop thanking you. For all the kids in our family from Yuhanazu to Yusuf, I thank you all.

To my loving wife, Maryam Aminu; indeed there is no enough words to describe you. Prophet Muhammad (S.A.W) said "***The whole world is a provision, and the best object of benefit of the world is the pious woman***" Maryam you are that kind of a woman that the prophet refers to. You are simply one wife too many. To our children, Al'Ameen and Adnan, you made our stay in Malaysia very lively, May Allah bless you.

To my in-laws, Alhaji Aminu Abdulmunminu and Hajiya Safiya Garba Abdullahi and their entire family, I appreciate your valuable words of wisdom, I cannot thank you enough.

My gratitude goes to a number of people who in one way or the other played a part in this history making journey such as Dr Sanusi Ahmad who facilitated my admission in to UUM; Dr Abdullateef Olayemi for putting me through the practical aspect of data analysis, Professor Dileep Kumar who never get tired of my bothering him and Dr. Kabiru Jinjiri Ringim for his support and guidance. My colleagues at UUM Dr.

Gusman Nawanir, Dr. Kabiru Kura, Dr. Habibu Umar, Dr. Ibrahim Yaro, Dr. Garba Ibrahim Tanko, my colleagues in the STML postgraduate reading room who inspired me alot and hosts of others all of whom I cannot mention; may Allah bless you all. I never forget the tireless efforts of Professor Bello Abdullahi Bada, the tutelage of Dr. M.U. Alti, the concern of Dr. Bayero Kasim, the assistance of Dr. Muhammad Musa Kirfi, good wishes of Muhammad Musa Lawal, the encouragement of Othman Yakubu Adamu, the constant update of Mal Fodiyo Garba, industrious effort Mal Saidu Idris, the promising support of Mal. Nura Koko and the ever growing friendship of Mal. Tabiu Abubakar, the number keeps growing. To those names that I did not mention, you are equally important and I hug you all with my prayers.

ALHAMDU LILLAH.

CHAPTER ONE

INTRODUCTION

1.1 Background to the Study

The concept of higher education is often used interchangeably with tertiary education, institutions of higher learning and post-secondary education. Precisely, as Adeniyi and Taiwo (2011) argued, HEI's in Nigeria are largely conceived to mean universities, polytechnics and colleges of education. In whichever way and with whatever concept used, it can be interpreted as that phase of education that is obtainable after the secondary education (Adeniyi & Taiwo, 2011). Again, in whatever form higher education is acquired, the aim is to usher in development (physical, technological, mental, economical and socio political) ranging from the individual, to organizational to societal and such development as Obanya (2000) argued will be used in solving day to day problems. Similarly, HEI's (HEI's) as argued by Oddetunde (2004) inform future leaders and build up the high-level technical capacities that strengthen economic growth and development.

The importance of HEI's world over and Nigeria in particular cannot in any way be underpinned. This is perhaps because they are saddled with the tedious task of preparing the youth to living a purposeful life in the course of fitting arrangement and execution of the institutions' core curriculum. The management and administration of HEI's entails the collaborative efforts of the management, the teachers and non-teaching staff to achieve the desired aim and objectives. The educating aspect and perhaps research that are very prominent, play fundamental roles in national
