PERMISSION TO USE

In presenting this dissertation in partial fulfillment of the requirement for a postgraduate degree from University Utara Malaysia (UUM); I agree that the University Library may make it freely available from inspection.

I further agree the permission for copying this thesis in any manner. In whole or in part, for scholarly purposes may be granted by my supervisor or, in absence, by the Dean of Graduate School. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain should not be allowed without my written permission.

It is also understood that due recognition shall be given to me and University Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Request for permission to copy or take other use of materials in thesis, in whole or in part, should be addressed to:

ABSTRACT

The purpose of this study is to examine the adoption level of the international financial reporting standards (IFRSs) in Iraqi companies. Data in the form of descriptive financial results taken in the year 2015 of 32 companies listed on Iraqi stock exchange were used in this study. It is found that the level of IFRS adoption in Iraq is less than 50%. Regression result indicates a positive and significant relationship between IFRS with the firm size and net profit and board size. However, the effect of foreign ownership on the adoption of IFRS in the Republic of Iraq is discovered to be insignificant.

Keywords: IFRS adoption, Iraq, Firm size, Net profit, Board size and firm foreign ownership.

ABSTRAK

Tujuan kajian ini adalah untuk mengkaji tahap penggunaan piawai pelaporan kewangan antarabangsa (IFRS) dalam syarikat tersenarai di Iraq. Kajian ini menggunakan data untuk satu tahun kewangan 2015 daripada 32 syarikat yang disenaraikan di bursa saham Iraq sebagai sampel. Hasil kajian mendapati tahap pemakaian piawai pelaporan kewangan antarabangsa (IFRS) di Iraq kurang daripada 50%. Hasil regresi menunjukkan hubungan signifikan yang positif di antara pemakaian IFRS dengan saiz syarikat, keuntungan bersih dan saiz lembaga pengarah. Namun begitu, pemilikan asing didapati tidak signifikan dengan pemakaian IFRS di Iraq.

Kata kunci: IFRS, pemakaian, Iraq, saiz syarikat, keuntungan bersih, saiz lembaga pengarah dan pemilikan asing.

ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

IN THE NAME OF ALLAH THE MOST GRACIOUS THE MERCIFUL

First of all, I would like to express my appreciation to Allah, the Most Merciful and the Most Compassionate who has granted me the ability and willing to start and complete this study. I do pray to His Greatness to inspire and enable me to finish this study on the required time. Praise be to God, the Lord of the world and prayers and peace upon Mohammed, His servant and Messenger.

I would like to express my gratitude to Prof. Madya Dr.Siti Zabedah bt Hj Saidin, for her invaluable advice, constant guidance, understanding, kindness and encouragement throughout my study. The supervision and support that she has given truly helped me to finish this study successfully.

My sincere appreciation goes to Prof. Madya Dr. Engku Ismail Engku Ali for his role as a Reviewer Master Thesis Oral Examination (Viva) and his support that given truly helped me, May the Almighty Allah (SWT) guide, bless and guard you all. I appreciate.

I wish to thank my father, Salman, and my late mother, NorAlHuda, for their utmost assistance and prayers, may her soul continue to rest in perfect peace, Ameen. my heartfelt appreciation and thanks to my lovely wife Sarah who has faithfully accompanied and supported me in completing this research and my sons, Fahad, and Abdul-Aziz and my daughter Fadak, for their love, care, support and patience to the assistance during the completion of this study.

I remain yours forever. Express grateful to IRAQ, especially the Federal Board of Supreme Audit, for giving me the opportunity, and Efforts and guidance of the

academic staff of school of accountancy and the university library in providing conducive atmosphere for leaning and research throughout the period of my study should not go unacknowledged. Last but not the least, is to thank my course mates and friends both local and international in University Utara Malaysia (UUM).

Thank you to all of you.

CHAPTER ONE

1.0 INTRODUCTION

This chapter displays thesis overview which consists of seven sections. First section presents the background of study. The second section highlights the problem statement while the third and fourth sections include the research objective and research questions. The next section illustrates the significance and scope of this study. The last section describes the whole organization of study.

1.1 Background of the Study

International Accounting Standards Board (IASB) has developed accounting conceptual framework in order to provide recognition, measurement, presentation and disclosure of requirements relating transactions and events that are reflected in the financial statements of businesses (Adetoso & Oladejo, 2013). A financial statement should provide information about the financial position, performance and changes of an entity in a standardized and accurate form for investors, regulators, financial analyst and other users for economic decisions (IASB Framework) making. Accounting standards are a set of rules that companies should comply with when preparing and presenting financial reports of an entity in order to ensure uniformity of the standards across the market. Companies listed on stock exchanges must publish financial statements in accordance with the relevant accounting standards (Hung & Subramanyam, 2007).

Accounting standards aim at providing creditors and investors with relevant, reliable and timely information consistent with IASB accounting conceptual framework for the preparation and presentation of financial statements (Outa, 2011). Accounting quality is the extent to which financial statement information reflects the underlying economic
