

CHART ROOM AND LIBRARY.

BY DIRECTOR J. M. PHAFF.

CHART ROOM.

THE States Members continued to send copies of new hydrographic charts and publications and also of those with large corrections.

A full set of charts was received from Portugal, and Egypt presented a set of maps of its coasts and of the Nile valley.

Norway sent a special chart for night navigation in the vicinity of Kristiansund, and Sweden sent one of the Kattegat and Skagerrak, specially constructed to facilitate fixing positions by means of radio-bearings (*see* article on page 117 of this Review).

Meteorological, current and tidal charts include now nearly the complete sets published by Germany, Great Britain, Japan, the Netherlands and also of the East Indian Archipelago.

The following Pilot charts are received regularly : —

North Atlantic from Great Britain and the U. S. of America,
South Atlantic, South Pacific and Central American waters from the
U. S. of America,

North Pacific from Japan and the U. S. of America,
Indian Ocean from Great Britain, Japan and the U. S. of America.
