DR. LOGAN ADDRESSES CONVOCATION TUESDAY

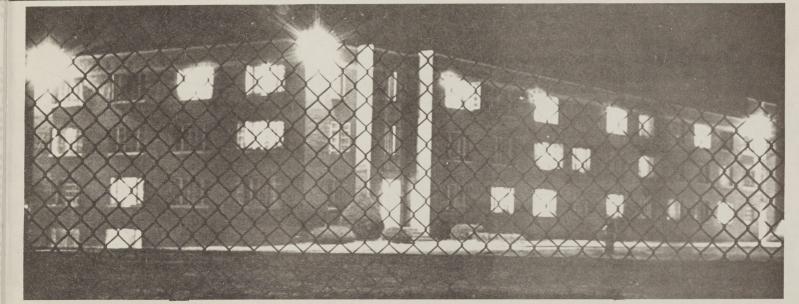

PRESIDENT'S ADDRESS Dr. John A. Logan will deliver "State of the Institute" address Tuesday, November 9, at 10:30

a.m. in the auditorium, and any-one who is interested in being in-formed about Rose-Hulman's fu-ture should be sure to attend. Dur-

ing this convocation, which was arranged by the Student Activi-ties Board, Dr. Logan will relate the recent developments, changes,

and improvements which have taken place in the Rose community, as well as inform the listeners as to any future curriculum changes,

and facilities expansion. Be sure to attend this informa-tive convo so you will be "in the know."

QUESTIONING RITUAL IN EDUCATIONAL STRUCTURE

by O. P. Lee I had for some minutes been wandering through the halls of one of the giant urban high schools of the midwest trying without result to find an office when a young

man, obviously a student at the school, stopped me. "Will you listen to me," he said. His face and his voice were tense. "I care, I really care, but no-body here will listen to me," he continued

"I care, I really care, but no-body here will listen to me," he continued. Before I had time to answer him, an official adult in the hall rudely demanded his hall pass. Having none he was hustled away under protest. In the past the white, middle class—which makes up most of the public school establishment—has explained away such behavior as this boy's with words. The kids who refused to go through school like robots, looking upon the au-thority of the teacher and the ad-ministration as divinely inspired, were labeled "culturally deprived" if the term obviously did not fit, they were called by that other term, the gift of the behavioral scientists, "alienated." These were the "sick" kids, the "bad" kids, the "dumb" kids. They were the ones we really did not want in the system at all, but because of laws and the American value system it was felt that they should "have a chance," too. All the time, how-ever, the school people knew that these kids would fail. They just could not help it. Today not only minority group youth are rejecting values held by the school; but large numbers of youth from the middle class itself are rejecting such values. The relevance of the whole edu-cational system in tdday's wordd comes into question. If we look at our society at all objectively we can see a major shift in values not only coming, but already well under way. The basis of the old value sys-tem has been, at least during the

not only coming, but already well under way. The basis of the old value sys-tem has been, at least during the past several hundred years, achievement through privation or sacrifice. The Medieval Christian view was that one only reached a heavenly after life by foregoing the bodily pleasures of this earth-

y life. The Protestant ethic mod-ified this view in many ways, but one important change was the em-phasis on economic achievement as a vital human activity. In the 20th century, after the shock of Darwin and Freud, the older Christian idea of heavenly reward in the after life has virtually dis-appeared, and in its place has been substituted an economic coun-terpart—retirement at sixty-five. After a life of frugality and hard work one has enough to retire on for the last few years of his life. There actually has been little change in the basic structural framework of the value system from medieval times to the pres-ent. Change has come only with the components that make up the (Continued on Page Three)

InPIRG!!

by David Vail Something absolutely new is happening in Indiana: Indiana Public Interest Research Group. And Rose promises to be a funda-mental part of this statewide group. Imagine! Rose actually wanted by the rest of the state! What is InPIRG? It is "an or-ganization, founded by Ralph Na-der, to educate consumers about environmental issues, corporate environmental issues, corporate and deceptive marketing practices. And, beyond education, they will investigate possible legal violations and protect consumers—in the courts if necessary—from unethi-centicely a student organization— organized by students, run by stu-dents, and financed by students.

dents, and financed by students. This financing by students is perhaps the most interesting and exciting idea. Imagine! A \$3-a-year refundable fee from every Indiana student, collected with tui-tion by the university. When this has been arranged (a target date for next February has been set), InPIRG will hire a dozen or so "disenchanted brains:" lawyers, engineers, and scientists sick and tired of lying and cutting corners engineers, and scientists sick and tired of lying and cutting corners (Continued on Page Three)

GROOVE TUBE RETURNS

SELLADS for the student Activities of the vision called Groove Tube to the favorable reception Groove Tube to the sevent the s.A.B. has decided to bring it, and its sequel Groove Tube II, back to Rose on Monday, November 8. Showings will be continuous from 9:00 a.m. to 9:00 p.m. in the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the "Mind Garden" (for those unfortunate enough not to know what the word of warning if you are easily offended by dirty you are easily offended by dirty

SELL ADS FOR THE THORN

This is a deal you won't want to miss! Sell ads in your spare time, and earn one-fourth the price of the ad every time it's run. This means that if you sell a \$100 ad, you get \$25 for each week's is-sue in which the ad is run. If it runs 10 weeks you get \$250 in cash. For further details about how you can earn good money in your spare time, while helping out the naper, contact the Advertising Staff of the Thorn. Do it now!!

Think what it would be like to be a trash collector in the Hima-layas with all those abominable snowmen around.

HIGHLIGHTS OF by Doug HOMECOMING '7 Hileman

One of the highlights of Rose's homecoming this year was the bonfire. The bonfire itself was all right, but the preparations turned

right, but the preparations turned into a fiasco. The Saturday before the bon-fire, approximately 200 ties were burned, presumably by the sopho-mores. Charges have been made, and money is to be taken from the sophomore treasury to pay for the truck rental for transporting those ties.

sophomore treasury to pay for the truck rental for transporting those ties. Sunday night rain quieted things down for a bit, but Monday the action started anew. A mudball shattered a window in Sharpen-burg Hall. The money for the window is to come out of the fresh-man treasury. Tuesday night was a nightmare. First floor BSB, second floor Blumberg, and a floor in Scharp-enburg were flooded. Someone turned on the showers, plugged the drains, and left the showers run-ning all night. One inch of water flooded BSB. One stereo was damaged. The most extensive damage, however, occurred in the upperclassmen dorms. New ceil-ing tile that was installed in May was ruined in Blumberg. The

determined, but it could be heavy capeting. The damage as it stands now is several hundred dol-found, but both freshmen and sophomore classes are suspected and the money will probably come out of both treasuries. No sopho-mores live on the damaged floor in Bumberg. White the state students. Fresh-men put it out with fire extin-guishers from the dorms. This also occurred on the previous Sat-urday. Here they repeatedly vio-lated a state law which stipulates that fire extinguishers are not to be removed from the dormitories or tampered with in any way. Tershmen will pay to have the extinguishers recharged. Thursday night there was an automobile accident on the road dorms as a freshman reportedly waterballooned a car. The car solved down and a car hit it from behind. The drivers tried to press-harges to make the freshman class pay for damages, but they are not expected to succeed.

Letter To The Editor

Contribution

<text>

Contribution by Stan Baker Two men at IU who have done a business report called UNIDEX have taken a large number of cam-pus opinion polls on an extensive with rather surprising results. When Henry Copeland and Daniel Beggs asked students about Spiro Agnew, one out of five replied they thought he was doing a good plot and admired him for it. One half of those polled admitted their spitchell viewpoints differed only slightly from that of their par-ents. Almost 90 per cent thought the use of LSD and "speed" should rome from the Rose campus where the student body was virtually spitch in last Spring's vote on the possibility of a "Coed" Rose. Al-thin there is no such thing as a typical college student, they feel than students are more moderate than they are generally made out to be. The biggest difference be-tivents is one of degree of toler.

SUICIDE

HOAX by Ron Selby Old Deming Hall has undoubt-edly seen many bizarre pranks in its davs, but attempted "suicide" on Sunday, October 10, was sure-by the best hoax ever perpettated

on Sunday, October 10, was sure-ly the best hoax ever perpetrated there. It started with a joking comment, and with the help of a little sinister planning it turned into a tangled mess. A and B were engaged in a bull session around 11:00 p.m., and when A accused B of being in love with his father, B got angry and left. A followed, intending to apologize, but B told him to "get." A disappeared down the hall, mumbling something like "well, you'll never have to worry "well, you'll never have to worry about seeing me again." A's roommate, C, and another friend, D, knowing that A had been de-pressed earlier in the day, con-vinced themselves that A was committing suicide. They started a frantic search throughout the dorm, hoping to prevent the im-pending disaster. E helped by giv-ing everyone a running commen-tary on the progress of said search. B, fearing that he had caused the problem, set out for Indiana State, hoping that A had gone to see his girl friend. While these activities were go-ing on, the "victim" accompanied by several friends, F, G, H, I, and J, who were planning his suicide. A made his dramatic appearance about midnight. He was being carried by four distraught friends, C. J. F and H. and his wrist well, you'll never have to worry

J, who were planning his suicide. A made his dramatic appearance about midnight. He was being carried by four distraught friends, G, J, F, and H., and his wrist was covered with bandages and ketchup. He added to the effect by screaming "Leave me alone! Leave me alone!" He was lugged down the stairs and into I's wait-ing car, which took off, with squalling tires, to the nearest hos-pital. When it reached the Rose gate, A jumped out and sneaked up to his room, via the back door of the dorm. Meanwhile, C and D, shaken by the whole episode, went roaring out, also headed for the nearest hospital. After an hour of run-ning red lights, speeding, and learning about the back streets of Terre Haute, they called the dorm,

Haute, they called the dorm, rying to find A. Counsellor

QUESTIONING RITUAL IN EDUCATIONAL STRUCTURE

ied from Page On system (retirement substituted for

heaven). The school in Western society has been and essentially is today a ritual enactment of the old val-ue system in which hard work, sacrifice and privation must come before salvation. In the case of the school, salvation is the diploma or decrea

before salvation. In the case of the school, salvation is the diploma or degree. Within this view of the school, learning itself is only incidental to the function of the ritual. We continually hear advice from the mass media that one should get a high school diploma or college de-gree. Little advice is given to acquire knowledge. Little advice is given because most of the learn-ing in school actually is not im-portant outside of its ritual func-tion. The entire educational sys-tem seems to be more or less en-veloped with this ritual. How thoroughly the old ritual currently dominates all levels of conventional education was dem-onstrated to me not long ago while I was taking part in a seminar for doctorel agnididates. What head

onstrated to me not long ago while I was taking part in a seminar for doctoral candidates. What had actually been learned by these peo-ple over their years of study was apparently, by itself, of little im-portance for the doctoral examina-tions which were being discussed. What was regarded as important by those in attendance, professors and students alike, were such se-rious topics as "how to 'psych' out the examining professors" or "how to go about last minute cramming" so that one might come out of his doctoral examina-tions with a maximum score. The

Mark "Mean Mother" Murnan, by then quite angry about the little escapade, told them it was a joke. It was about that time that some-one noticed that B was missing, and another search party was or-ganized. He finally came drag-ging in at 3 a.m., having run the five miles from State barefoot. With his arrival, Deming finally settled down for the night.

Editorial Comment: The paper urges the Judicial Council to re-view this incident as soon as pos-sible.

DO YOU KNOW

THE THORN

symbolic significance of the exam-ination score of the degree seemed to have acquired a meaning apart from anything it might repre-

from anything it might repre-sent. We have, to our own satisfac-tion, demonstrated that the diplo-ma or degree is a necessity in our super-technological society. We have done this by showing on our charts and graphs the remarkable increase in expected lifetime earn-ings of one who has such diplomas as opposed to one who does not. In showing this we have conveniently left out at least two factors that might change the picture some-what. One is the fact that em-ployers have been conditioned by educators to give the better jobs to high school graduates—ignor-ing for promotion those who have not completed the diploma ritual, regardless of the ability of the not completed the diploma ritual, regardless of the ability of the non-graduates. Therefore, as W. I. Thomas said back during the 1920s, the negative attitude toward non-graduates becomes real in its results not because of any lack of knowledge that these people might or might not have, but be-cause we have symbolically de-

of knowledge that these people might or might not have, but be-cause we have symbolically de-fined the non-high school or col-lege graduate as somewhat lower in ability than the graduate. Another factor involved here is the remarkably different value sys-tem that many of the "so called" school dropouts might operate un-der. Many of these people find more interesting things to occupy their time than to pursue the dol-lar and thus they cannot see learning within the money frame of reference that the older value system necessitates. An example of this kind of be-havior is found among many of the American Indian groups. They find relating to the group to be much more important and satisfy-ing than economic gain. As a result they will go to some lengths not to achieve more than the other members of their group economi-cally—refusing raises and promo-tions at their jobs. This same group sensitivity occurs in reser-vation school where children many times ignore competitive grading systems to the frustration of their middle class, white teachers. In considering the new value system that is growing up all around us, particularly among the

system that is growing up all around us, particularly among the

youth, we find a radically differ-ent approach. Within the new system economic acquisition and achievement seem to be only inci-dental to another goal—that of "groupness." One seems to desire total immersion within a group. He wants to be a member of a group in which he can become enditionally involved in a coopera-tive rather than a competitive way. Sharing one's wealth with the group rather than hoarding it for oneself becomes the value. Property is not status as it seems there, property is used for needs and is held by the group rather than by the individual. The growing number of com-munes in both rural and urban America is a dramatic indication of the value shift that is occurring throughout the country. Another indication, probably even more im-diparent need for sensitivity groups in the United States. Such aparent hee those eres that thus far seem to have received little used and systems—cries that thus for the value system.

positive response. Is there any wonder that the youth and the older people of to-day find it difficult to communi-cate with each other? Many of the youth have given up the dream of the "hollow house" in the sub-urbs and a "nice" retirement for the fulfillment of emotional needs in a positive, personal group re-lationship. The old status based on where one lives and what kind of job one has, as understood by the old value system, have little

on where one lives and what kind of job one has, as understood by the old value system, have little or no meaning under the new. The old educational system is apparently so tied up with ritual that there seems to be little action it is capable of—faced with the new values. Schools continue to support the validity of the old sys-tem through the mouths of edu-cators who may well doubt their own words. The difficulty comes because the system as it now stands was built to satisfy pri-marily the ritual needs of a so-ciety that no longer exists. Be-cause of the dramatic shift in values, the function of the ritual is not only no longer needed but not even desired by many. Minor modifications in the system will

not suffice. The system must be changed in almost every detail in order to be functional under the new set of values! (Continued next week)

JUR DIAMONDS IF YOU DO, IT COULD BE WORTH A QUARTER CARAT DIAMOND, OR ANY OTHER OF FIFTEEN PRIZES AWARDED IN ELLIOTT'S DIAMOND GRADING CONTEST.

HOW TO ENTER

Elliott's will have on display three virtually identical diamonds – proportion differences are negligible, and they possess the same weight and color. The only differences are in clarity, and because of this, the three diamonds vary in price from \$185 to \$300. All you have to do in order to become eligible for the quarter carat diamond is to be able to correctly match the three diamonds with their given prices. If you're right, your name will be placed with other correct entries, and a drawing will determine the winners.

PRIZES

1st PRIZE)
2nd PRIZE SEIKO WATCH	
3rd PRIZE	
4th - 15th PRIZES	;

CATCHES

Only one entry per person, and identification will be necessary in order to receive an award. No magnification will be allowed, and diamonds must remain in their mountings. Also, you must be 18 years old in order to enter.

CONTEST BEGINS NOVEMBER 1st AND WILL CONTINUE THROUGH THE 18th, WITH THE DRAWING TO BE HELD ON FRIDAY, NOVEMBER 19th, AT 3:00 P.M. NOW AT RUSS WINNERS WILL BE NOTIFIED.

-wanna do another song or two?" Head: "Thanks, but no, we're beat." Long awaited for Frank Zappa and the Mothers of Invention tuned their two moogs and other instruments for a good 15 minutes before starting. Their hit of the evening had to be their own, *King Kong*. If you've heard this on one of their latter albums (I forget which) you know it's tremendous. This song is also done quite well on Jean Lupont's album (if you're in the know, he's a famous French jazz violinist). The song was originally written by Zappa for Lupont, however Zappa's version (30 min.) seemed to me to be an improvement on the original. Having finished my photography for the evening I sat in the rear of the coliseum (acoustics were better) and I noticed how the

whole place settled down into a city of sorts-groupies flocked around the stage (density-seven groupies provides files include around the stage (density—sev-en groupies per cubic yard), the lost souls were walking round and round the concessions and back again, the heads (stoned) were dancing in the back of the arena and in the halls, and the straights just were. In the entire place the dark arena looked like a pasture in the summer — with fireflies glowing for a few seconds and moving on—there was a lot of "smoking" going on. It's quite hard to mistake *that* smell of "in-cense" (besides, two rows down these kids were having a real go go keeping this strange pipe go-ing). That's 30.

SNUS IM CHAMPS

SNUS IM CHAMPS Sigma Nu, led by head coach Rick Flowers, a veteran of nine years in SN football, successfully defended its IM crown in the MA-JOR division last Wednesday by defeating ATO 13-6. The Snus fell behind in the early going when ATO, on their second possession, marched right down the field by means of quick down-and-outs from their quarterback Joe Pog-nant. During the drive, the Sig-ma Nu defense was playing deep, undoubtedly remembering the ear-lier game between the two when an ATO bomb burned them for the on this drive with ATO holding that 6-0 lead. From this point on, though, the Snus were as good as any of the past SN powerhouses, dominating the game with a fero-cious defense and a lightning-quick, driving offense. SN quar-terback Rob Skitt threw for both back, Steve Powell, who was in at a wide receiver spot for this game.

a wide receiver spot for this game. With ATO in the lead, 6-0, Skitt dropped back and hit Powell with a 40 yard touchdown strike to tie the game ,then passed to Doug Kneller for the tie-breaking extra-point. Kneller made a circus catch for the completion. SN was not done, however, and as the defense riddled ATO's offense, Skitt was driving the Snus to an-other score, finally coming on a 15 yard pass to Powell, for a 13-6 lead.

lead. ATO had one more opportunity when in the fourth quarter a poor SN punt gave them the ball on the Snu 15 yard line. However, the defense, led by linebacker Jeff Jones, turned them back and the game was over.

and to my horror the response was a man's voice saying "Say there you savage, were you just on Hot Line too?" Slamming down the receiver, I ended my first and last experience with Hot Line. The somewhat feeble theory about Hot Line goes that there is only one busy signal for the Terre Haute area, and therefore all lines are connected to that busy line. So, there is a kind of second connec-tion established where the voices are faint but discernable. So if you've nothing better to do on a Saturday night, there's al-ways "Hot Line calling."

HOMECOMING SUCCESS

ROSE 18, IOWA WESLEYAN 16
The Engineers pulled out a rousing homecoming victory over undefeated Iowa Wesleyan last Saturday to help add to a most enjoyable homecoming. The Tigers struck first and held a 7-0 lead early in the second quarter when their ground game was working well. At this point, the Rose offensive unit began to clock and in the next series Rose took the ball all the way back for their first score. The P.A.T. Was no good, however, and the Tigers took a 9-6 lead into the dressing room at halftime.
The second half began with a fired up Engineer team kicking off to Wesleyan. After two plays Kominiarek intercepted a Tiger pass and the "Big O" took over. The drive did not end until Bertram, behind the fine blocking of to UWC. an after Joe Zumar caught a Tiger back behind the line of scrimmage forcing a fumble. McCleary fell on the ball giving Rose the ball on Wesleyan's 35 yard line. The drive was stopped at the five and the Engineers settlef for a field goal making the score 15-9. After an exchange of punts, the Tigers drove down to the 15 yard line before Mark Gudorf picked for a pass over the middle. The drive was stopped at the five an ublified when Rose was called offsides.
With a 4th and 13 situation, Wesleyan had to go for the touchdown and got it on a desperation as the Tigers a 16-15 lead.
With a 4th and 13 situation, we to be to be ball on the ball own desperation and the ficials ruled it a fight for the Cleary for the touchdown and got it on a desperation at heir 20 yard line and immediately when the defensive, Bury, and Manuszak. On the heir a war bulk fiel share, their 20 yard line and immediately with the score 35 seconds left, More, McCleary, Gudorf, Banion, Murphy, and Manuszak. On their own on the 5 yard line. At this point there were 35 seconds left. After trying a sweep right and yon the ball out of bounds with 12 seconds left. Shoat came in and split the uprights thus giving Rose an 18-16 lead and time ran out on the Tigers.

18-16 lead and time ran out on the Tigers. This was undoubtedly the best victory for the Engineers this year. Next week they will travel to Richmond to take on the Earl-ham Quakers and continue their winning ways. LET'S GO ENGI-NEERS!

Virgilian Quote: Pure women re only those who have not yet are only the been asked.

ROSE RIFLES

The Rose Varsity Rifle Teams competed in two Postal Rifle Matches during the week 25-30 Oct. A postal match is conducted as follows: each school fires a five man team at their own school under match conditions. Upon completion of the match the scores are sent to the opposing school. Results of the matches are as fol-lows: lows

5th Rose No. 4 1038 The matches produced 8 new in-dividual school records and 4 rec-ords tied, 2 new team scores for 4 and 5 man teams. The Varsity Team is 3 wins, 0 loses in postal competition and is 0 wins, 2 loses in shoulder match-es, having lost to Purdue by 14 points. The Rose team has ex-tremely good depth this year and should place in the top ten in all invitational matches. The 116 members of the Rifle Club have produced the additional needed shooters for a strong team and provide the needed competition to improve our scores.

Horace Mann was an Ameri-can educator noted for his re-forms in the Massachusetts school system.

FRIDAY, NOVEMBER 5, 19 **ROSE FINISHES**

ROSE FINISHES *B*.2. From the DePauw paper: "The first meet will be this Tuesday against the Harriers from Ros Hulman Institute. The Rose run ners boast one good runner, be very little in depth elsewhere. The Tigers are heavily favored to com-home with a victory." This what the team read sitting in the DePauw student center savoring 27-28 victory and a hot mea-thinking about the the 7-1 season DePauw must be tired of seein Rose show up on the schedul They compete with the be-schools in the state and undoubled by schedule Rose for an easy victory. But Rose arrives and he-the audity to beat DePauw to basketball and whe look on the saketball as well as cross country DePauw no longer plays Rose basketball and the look on the tace of the cross country coad explained his feelings about the whole matter. There are fe-sporting feats more exciting the playing David and watching Guith Edu. The Big-Little State, Ros

whole matter. There are fe-sporting feats more exciting the playing David and watching Ge-liath fall. In the Big-Little State, Ros-had one of its best placings in long time, taking seventh out o-a field of fourteen in the littl state division. Seventh may no sound good, but look at the com petition. The first three placing were competition for the big un versities (Vincennes, Taylor, Va paraiso). The next three (Indi ana Central, Butler, Wabash were teams within reach but field ing good small school teams. Ros beat Wabash during the regula season, but in a big meet the first two superstar runners mad the difference as they placed mor than 40 positions between them selves and Denny Dierckman an Steve White. The entire team ra well and the spirit was exceller as it has been all year. The et the season was one of satisfac as it has been all year. The er tire season was one of satisfac tire

tire season was one of satisfac-tion. The team placings in the littl state were very similar to pas-races, which shows consistenc that is very important in running They were: Denny Dierckman Steve White, Tom Hans, Cec Whitaker, Capt. Bob Schach Mark Oakley and Mark Kirsche The pleasant surprise was Cap Bob finishing his career in gram style placing fifth instead of hi usual seventh. Thanks to Capt. Bob for cot tributing four years of hard wor and friendship to Rose athletics.

A chemist invented a syrup yc can pour on pancakes and use a model airplane glue.

For the swinging man desiring a col-orfull addition to mugs, blazers, or gift to that special girl. Be one of the first to obtain this metallic, en-ameled shield of your school in liv-ing red and white. First run quanti-ties will be limited so place your order today on the form below.
