37°

9 A.M.

1973 1st day - 364 days follow

New Year's Day

A beautiful, fair day. Bill brought me breakfast in bed around 10, then I got up around 11 and dressed. Feeling shaky, but I only "puttered" around.

Bill did some roof patching since it warmed up to 65° - a good day on the roof!

Gary came down awhile, returning vacuum cleaner. Phoned Anthea a "Happy New Year" and got CS lecture in return - having made error of mentioning a virus! (CS Christian Science)

lovely, lovely day. Sat in sunshine near bedroom windows - viewing people on beach - and mending, sewing, etc. to keep busy.

Had a nice bath and shampoo in late afternoon, "dressed" for dinner and evening, but didn't stay up much beyond 10. Went to bed to read.

Woke up to rain - and the 1973 2nd day - 363 days follow  
 telephone at 8:30 - Jamie Clarke! Got busy  
 after breakfast phoning people about Ex Com  
 meeting Friday night.

Took down Xmas decorations and did  
 some cleaning up and re-arranging in the  
 attic. Bill also worked at making  
 order out of chaos - throwing away magazines  
 and going through "ancient" boxes of stuff -  
 long stored.

Gary here briefly a couple of times.

Dave dropped by on way to town in A.M.,  
 then showed up again at 8 and then  
 promptly spent hours - and hours -  
 on telephone. Morris' phoned from  
 Weaverville to inquire about Humboldt Co. action  
 on Trinity Alps proposal - (They did not  
 oppose - but were somewhat negative).

Rain stopped after lunch, then it  
 turned quite cold, dropping to 39°  
 at dinnertime. Kept a small fire  
 going most of day.

"P.C." brought in a Townsend's  
 chipmunk - first we have ever  
 seen around here.

1973 3rd day - 362 days follow up at 8:30. Cold, clear.

Began typing SC newsletter. Dave arrived before 9  
 to write his conservation items. At 10:15 I  
 went to Arcata for quick dental appt., a quick  
 stop at Van Kishes, the post office, the  
 stationery store and the Env. Center to bring  
 mimeo. machine home - where it would  
 be warmer - to work properly.

Gary came in to help me assemble, count,  
 stamp and staple finished (2 page) work.  
 Dave showed up briefly, too, then went  
 home to work on resolution for Arcata City Council  
 meeting at 8 o'clock.

Jean came in around 5 with story of having  
 to move out of Big lagoon area - too cold - Laid  
 down with pneumonia - they're now at Ocean  
 Grove Lodge's warmer cabin on advice from  
 Hank Frank, M.D.

Dave in again around 7-7:30 - and  
 then he called from Bill Devall's at 10:30  
 to announce 3-2 for study area (minimum) and  
 that Morris should be informed.

Made cookies before midnight.  
 Cold - 32° at 12 (Midnight).

JANUARY

4

THURSDAY

32° at 8 AM - 36° at 8:00 P.M.

A beautiful, cold day! 1973 4th day - 361 days follow

Phone rang 8 A.M. Mr. Williams, plumber. Raced about dressing and grabbing some breakfast before his arrival at 8:30 or so. For 3 hrs. he worked at draining and replacing totally clogged fittings, silted in tank, and replacing element. I helped whenever possible.

Jean brought Sud down for change of scenery while she did errands and washing.

Once I had clean - and hot - water again, I started some washing. Glen Berry came down at 4 to pick up 2 chairs from Jean.

Bathed and fixed - and ate dinner hurriedly so I could get into Court House by 7:30 for County Planning Commission meeting. Controversial Downs Prairie subdivision plans were held over until July 8. Developer Fulda had hostile opposition - and I added a few words - denied last time.

Home by 9:30 or so.

Wrote letter to Ernst (Chris) Christensen at Everglades N. Park in behalf of Gary Williams, plumber job hunting.

(Heard TV interview (of me) on channel 3 at 11 o'clock - words on a few spaces.)  
In bed by midnight.

FRIDAY

5

JANUARY

36°

1973 5th day - 360 days follow

up by 8:15. Increased cloudiness - forecasts of rain or snow showers at sea level late evening. Bied to office at noon.

Did some house cleaning after lunch - after Dave had been in to do phoning around noontime - Duff - and Barry Fisher had showed earlier.

Sud came in awhile, then went on up road to Kutler for some wood. Meanwhile Mike arrived from there at 4 with a load for us.

Dinner at 6:30. Left at 7, picked up Harriet Gray in Elk. and went to SC ExCom meeting I had scheduled for 7:30 in Arcata. We used Friendship Room of Humboldt Fed. "Old" & "new" ExCom members on hand, with exception of Bill Devell.

Jane Clark made special presentation regarding proposed freeway in or around Eureka - we wait entire issue reconsidered.

Meeting broke up around 10. 4 of us stayed on, talking. Home at 11:45.

Have stopped for a beer on way home. Raining when we left Arcata.

A lovely day. Clear, cool 1973 6th day - 359 days follow  
 up by 8:45. After cleaning up kitchen Bill  
 and I took a brisk walk to Sufferbats  
 and back - right at mid-day. Ocean calm  
 today and beautiful - so clear!

Made large amount of GORP for the  
 potluck (to include guests). John Hagood  
 phoned - and put GREG (!) on the line.  
 He, and 2 friends stopped in briefly on  
 way down to Acreta. We would see  
 them again later.

Hedy Gibson arrived at 5:30 - to ride in  
 with me to open church - at 6:14.

Great attendance - about 70.

The Ashworths (3) and Diane Meyer  
 from Rague Group in Oregon, arrived  
 at 6:30 - prepared to give program on  
 "Red Butte - Wilderness or White Land?"  
 Home by 11. Put 3 year old on  
 couch, then talked until after  
 midnight. They were good scouts  
 and rolled out sleeping bags in  
 living room and dining room.

1973 7th day - 358 days follow

Epiphany

Overcast much of day.  
 Household stirring around 9.  
 Ashworths took brief walk down to  
 beach after breakfast and got away  
 around 11. Forgetting a map and  
 some brochures (in my car) I caught  
 them as about to leave Davis place.  
 Much time spent cleaning up  
 dishes. Sonja in awhile - returning  
 vacuum cleaner which Gary had  
 borrowed earlier.

Busy phone! Calls about Downs  
 Prairie development opposition and  
 evening meeting.

Dave came down around 4:30 to  
 start writing comments on TA FIS.

At 7:20 I dashed off to the Presby-  
 terian Church in McK. for the property  
 owners meeting. It lasted 2 hours.  
 County people on hand to answer  
 zoning questions.

Dorcy here when I returned.  
 He and Dave left around 10.

Typed up material Dave  
 had prepared so far.

Very cold tonight - and clear.

Raining. Dave showed 1973 8th day - 357 days follow up about 8:30. He spent day writing comments on IES by F.S. on Trinity Alps. I typed it up - not complete until 6 PM.

Greg, friend Bob and Dave here for dinner. Vic and Carol could not come out. Bill Deval and Doug didn't make it for dinner, either, but came in later to see Greg's slides of Colombia and Peru. We stayed up until after 1.

Typed 7 pages, single space!

1973 9th day - 356 days follow

Bill up 7:15, then I was up by 7:30. Raining. Dave here 8:25. Met Div. of Highways men near Arleta. Over to Willow Creek we went - snow on mountains. Coffee in Willow Creek, met other highway people, went on to project area out of Hoopa on 96, high above Trinity River. Reviewed plans and suggested things in regard to 3 1/4 mile widening project to be funded in 1974. Light rain as we walked the route. Lunch in Willow Creek, then back in Arleta by 2:20. Did shoe shopping at a sale - Dave found a good buy - I was less fortunate. Bumped into Jeanne Kirby there.

Dave stayed for dinner, then I drove him home around 9. Still raining.

Sonja and Maureen were in to use phone. Had long wilderness discussion with Luis Deland over phone.

Up at 7:30. Raining. Dave 1973 10th day - 355 days follow

phoned that his car would not start. I picked him up at 8:15. We drove to Bill Devall's to meet Greg & Bob for breakfast. At Uniontown we also had Dean Freeland there to join us - which was a nice unexpected addition - he was sitting close by.

After saying goodbye to Greg we did errands and stopped to leave SC things at Van Kirk's.

Home before 12, but then had to drive Dave up the hill in Westhaven to meet a man staying with Ann and Scott Long.

Spent afternoon doing washing. By my error "P.C." got tumbled a few times in the clothes drier!

Jud came in as we were finishing dinner, remaining until 10:20 or so.

Wrote a few letters, including a long one to Mike Moore.

1973 11th day - 354 days follow

Up by 7:30. Raining. Bill: 9 o'clock class. I had jury duty to report for by 9 in Create Justice Court - and I was one selected to serve. Recess for lunch 1 1/2 hrs. Did errands, walking in light rain.

Case (shoplifting) went to jury around 3 PM. 5 ballots and 1 hour later we agreed on a not guilty verdict, due to lack of evidence - though at first we were split straight down middle.

Went to Leo's to look at Afghan sample. Home shortly after 5. Still raining.

Felt "wiped out", so ate little dinner and rested on couch.

Dave came by, briefly, made phone call and returned home.

Gorja came in to take a phone call from Maureen. We talked about the "case".

In bed, early, to read. Still raining, sometimes quite hard.

Up by 9. Walked to 1973 12th day - 353 days follow  
 Dave's place before 11 - then he walked  
 back with me - and NT. Bill went to office.

Cut his hair after he took care of  
 phone calls, then I drove him home  
 and dropped in briefly at Becky  
 Coleman's.

Dave came down for dinner, then  
 Doug arrived in time so we could all  
 go together to hear Audubon program  
 by wildlife biologist Ed. Roberts, Jr.  
 from BLM (Akiah) on Cache Creek Tule Elk  
 Herd and their future, which is uncertain.  
 Home by 10.

Finished typing clean copy of  
 No. Group by-laws, ready to take to  
 tomorrow's meeting - clear, cold.

Raining all afternoon and  
 evening - hard at times.  
 Rivers rising.

1973 13th day - 352 days follow

Up at 5:30. Phoned Bill D.  
 He would drive his car. We left his place shortly after  
 6 - in new Dodge ~~Front~~ "Colt", (small station wagon).  
 Dawn gave hint of clearing storm. Rivers swollen,  
 creeks raging, loads of plunging run-offs.  
 Breakfast in Laytonville at 8:40. Reached Jr. College  
 at 11. Meeting underway with Sec. Jim O'Loughlin chairing  
 in absence of Charlotte Stephens and myself - Then I took  
 over as vice-chairman to do election of officers.  
 → Bob White, new chairman; Charlotte V-Ch. Jim - again  
 Sec. + Ken Lyth, treasurer.

Lovely day - much sun at times - and meeting  
 went smoothly. Adjourned 3:30.

Stopped in Garberville 6:45 for quick, light  
 bite - home by 9 - (Moonstone).

Watched TV - Marlene Dietrich "special"  
 from 10-11 - then quickly to bed. Bill  
 phoned shortly after 11 from Pattons -

Up by 9. Variable cloudiness, increasing as day went on. Made a batch of choc. chip cookies before leaving on SCouting at 12:15.

Picked up Holly Gibson in Trinidad at 12:30, drove to overlook north end Fresh-water Lagoon. Don Tuttle and others already there. Now "car caravaned" ~~was~~ (5) sixteen people over proposed hike and siding trail, utilizing where possible old, old routes, one dating back to survey of 1867.

We ended up walking (first locating) an old roadbed, in dis-use since 1922.

Little had grown back - alders, Salix, a few redwood and spruce seedlings, but little else. We returned to cars by 4:20. We had enjoyed spectacular views from high points earlier overlooking Big Lagoon & Stone Lagoon.

1973 15th day - 350 days follow

Up by 8:30. Cloudy. Went for brick walk to Trinidad, leaving at 9:23 - back at 10:55. Dave passed me about 3/4-mile from his home and turned around to get MT and then met me again along the way. I kept MT until he returned from town around 3 to make series of phone calls.

Spent hours ironing - catching up. Picked up Becky Coleman shortly af 4 to get her to Trinidad Post office. Rains began mid-afternoon and continued through evening - and night.

Bill came home feeling low - so went to bed early to read.

I got to bed around 12:30.

Up by 7:40. Raining. 1973 16th day - 349 days follow

Fixed breakfast (in bed) for Bill, then went to Jacoby Creek School to talk about Sierra Club to a 5<sup>th</sup> grade class of Ariel Souligny Graham's (Student teaching).

Saw June V.K. - came home for lunch. Bill had gone! To meet 11 o'clock class and stay for a committee meeting.

At 2 I was in Dan Hansen's Eureka office, waiting for Dave, so we 3 could go over Div. of Highways project plans on SR 96.

Dave phoned - car trouble - he couldn't make it, but discussed matter over phone.

Shopped for shoes (got 2 pr. !!!) and exchanged a Xmas gift shirt of Bill's. Picked up Dave at garage in Orinda at 5 - drove him straight home - raining, hard - again.

Bill got home at 6 - watched TV news along with dinner and went promptly to bed.

1973 17th day - 348 days follow

Up by 8. Cloudy - high cirrus. Left at 9 to walk scenic drive. Seas rough and wild and beautiful, especially at Sufferbatty and Baker's beaches. No one home at Dave's + Doug's place, so I wheeled about and waded briskly until reaching Sufferbatty Creek. There I walked down the fishermen's trail to almost edge of creek. Tide high - pushing logs up creek, then all surged back - beautiful to watch the ease with which the ocean's power moved huge logs about. Home again by 10:45. (Had seen one red tailed hawk, 1 varied thrush, robins, seven-tits, kinglets and perhaps a hermit thrush and great flocks of maybe pine siskins. Gary Williams back from 2 week jaunt to Pine Crest - He was in a few times.

Took Donna Hankins to M.D. at 1:30, then took her back home around 3.

Bill got up a few times - lunch + dinner, but otherwise stayed down mostly.

Bill Devall came in after 7. We watched some special TV programs on wildlife and night creatures.

Rain began around 5. Moon peeked through clouds - evening showers and wind.

Awake around 7- to heavy rain. 1973 18th day - 347 days follow

Bil up early, feeling better, ready to go to the college at 8:30. I got up shortly after 7:30 and by 8:15 was ready to go walking. Aramed Gary - and he got ready quickly - but no breakfast under his belt.

Below us the spit was all awash. Little River was "alive" with drift material, being buffeted back and forth as tide rose. We got pelted with rain and wind driven hail after about 10 min. out. We watched the wild, wild ocean at the mouth of Luffenholz Creek - from neat place at fork of trail. The whole ocean in sight was a beautiful frothing, riotous "mass" of power. We watched the banging, crashing waves from various spots - Home again at 11:45. Dave and MT showed up 12:15 - having walked down.

Took "P.C." to vet for treatment of bad gas on left leg - perhp. result of late last night fracas in neighborhood.

Rained late afternoon - after Dave, Doug, MT and I had walked about  $1\frac{1}{2}$  miles at Big Lagoon. More hail.

Went to Planning Com. meeting in Eureka 7:30 - Council over Downs Prairie zoning Application withdrawn. No public hearing. Hon. 1/9.

1973 19th day - 346 days follow

Up by 8:15. Only 34°. Our deck still coated with white stuff from last night's heavy hail storms. Built a fire and spent most of morning at typewriter in living room, working on newsletters material. 2 Townspeople walk here today, is Donna Handkins phoned - wanted ride to M.D. in Arcata at 1. Bil went into school before noon. Little River, high tide and spit awash was photographed before he left. Sunshine was lazy, but nice. Variable cloudiness throughout day.

Saw Susie Van Lick a few minutes before leaving Arcata. After leaving Donna at home I continued north to look over the Mead property at south end of Stone Lagoon, where they propose to develop overnight camping facilities. Mrs. Mead took me around the place, explaining their plans. When Mr. Mead arrived around 5 he discussed new design for less density per acre.

Stopped by Dave's place around 6. He came home with me, had dinner, then wanted to return home again - to get ride to town to watch some basketball game on cable TV. We had had some harsh words beforehand regarding SC stand on Mead's proposal. A quiet eve. Phone talked briefly with Jim O'Loughlin.

Awake for a phone call at 1973 20th day - 345 days follow

8:30 - Maurien Brandman - message to Sonja - so I got up and raced up the hill - Sonja already gone. Typed final page for Newsletter, then dressed to go to Coastal Commission meeting at Eureka City Hall at 11. Dave came in just before I left to type up his part of newsletter.

Meeting brief - election of Chairman, vice-ch. and member to serve on State Com. (it was Dwight May). Home by 1:30 after taking SC material to Judy Bradford. Rains kept me from going for walk. Made a stew for dinner. Dave arrived around 3:30 or so, stayed awhile, went home, came back at 6 with Dang - for dinner.

Gary came down awhile -

Played one line of Yatzyce, then Dang and Dave headed home around 9:30 -

(Dave going to have first lesson on skis tomorrow on Horke Mt.)

Rained most of evening.

1973 21st day - 344 days follow

Up before 8. Variable cloudiness - FAIR all day. After 10 sometime Bill and I drove to old stage coach road above Big Lagoon. Parked Jeep and walked over county road to private (L-P) timberlands. Great views, but too misty for photographs. Bird watched returning to car - 1 Hawk, several wren-tits, a few (?) sparrows, and many warblers, either Kinglets or Audubons. Then, around noon we drove down to Big Lagoon park to walk along the spit. Ocean beautifully rough (normal), but not wild like in storms. Home again by 1:40 for lunch.

Spent rest of afternoon and much of evening taking care of Sierra Club correspondence.

Dave returned from his first ski-touring lesson on Grouse Mt., tired and muscle weary, around dinner time - and remained until 9:30.

Ken Lytle phoned with report of SC Council meeting. North Group boundary changes tentatively approved.

In bed to read - after  $\frac{1}{2}$  hr. of exercises and a shampoo - at 12:30.

Bill up before 8. I followed <sup>1973</sup> 22nd day - 343 days follow at 8:20. A lovely day - clear, bright, cool until afternoon - when the sun felt good and warm. Tree trimming of lovely, tall Douglas firs on neighbors land commenced early and lasted most of day. Small limbs fell over our shrubbery - not too much damage. Dave and MT showed up, on foot, before noon.

Around 12:40 I walked back with them.

I helped Dave take part of chimney pipe off in order to resolve a question of size and for constriction - long in his mind. A dirty, sooty job. Headed home 2:50, saw pileated woodpecker fairly close to Dave's place - at close range - working on an old fence post. After he flew I tried to locate him in nearby woods, but no luck. Did more bird watching on way, and it was nearly 3:45 when I finally walked into house. Meanwhile, Dave had passed me in car and was in our house with Gary.

Jan and Ted showed up as we were just finishing dinner. They remained until nearly ten. (Dave tea for dinner).

John Klupp phoned, then came out for remainder of evening.

<sup>1973</sup> 23rd day - 342 days follow Up at 8:20 after coffee in bed! Variable cloudiness - rain predicted for late evening - also small crest warnings, then gale warnings in early evening, but wind only slight here.

Dave showed up - and so did P.G. & E, who cut power for over 3 hrs. so as to replace badly worn aluminum wire for copper (service to houses in area). Dave worked on comments for Hwy. 96 highway improvement proposal, then went home - to return later. Very warm. Gary chain sawed one large limb that toppled over into our property from the tree trimming job at neighbors yesterday. At 1 Dave, Gary and I headed for Eureka - only we dropped Gary at HSD intersection. Dave did errands while I attended public hearing regarding Humboldt Bay Concession and Development proposal - and Harbor District Formation - county-wide. Spoke briefly for S, in favor.

Home before 4:30. Changed clothes quickly in order to go walking before dark along Big Lagoon spit. We stopped to pick up MT. Home again by 6.

Typed up comments, then after getting some washing started we drove up to Dave's - to listen to Wagner music and for Dave to read over the rough draft for additions or corrections.

Up by 8. Raining. Started some washing before water system got riled up again. Dave - and Doug - both came by for brief moments around 10 w so.

Bill went into school for afternoon (no <sup>but</sup> classes) Rain extremely heavy at times, with gusty winds. Watched Johnson "went" on TV.

Finished washing, finally around 4. (Phone calls were disruptive). Kept a fire going all day. Got some typing done before doing anything about dinner.

After dinner Bill drove up to Dave's with a message - later, about 8:40 Dave came down.

Before he left (after going over Hwy 96 draft letter) we all played 2 lines of Yahtzee.

Pres. Johnson's death ~~the~~ plus cease-fire progress in Vietnam war, pre-empted usual radio and TV timed programs.

1973

25th day - 340 days follow

Up by 8:15. Variable cloudiness. Bill got up around 10. Dave was in briefly. Bill and he were to meet before 1 to talk job possibilities with P.M.E. in Eureka.

Left at 12:40 to work to Trinidad. Had to get away from not one, but two Chain Saws - working on the fallen limbs at Markwick, just above us.

Chilly wind at times. Took camera, field glasses and bird book - and didn't get home again until 3. Warm enough to have bedroom window open while ironing, but had to endure terrible noise of chainsaws.

Dave here for dinner. Gary in awhile. Bill Devall dropped by. Anthe phoned. David (Bartlett) phoned.

All federal, state, county and city offices closed - day of mourning for Pres. Johnson.

Typed up ExCom agenda for Feb. 1.

35°

up around 8. Clear and frosty. Bill Kortum phoned at 9 to see if 'water dogs' would be at Coastal Commission meeting. I assured him of myself, Dave + (Bill D.) being there. Dave breezed in and out again - in his own car. The meeting began at 10:30 - broke for lunch and resumed at 1:30 - adjourning after 2:30 - which is when I left.

Ate lunch at Taco Time with Dave, Ray Hart and Dwight May.

Drove to NPS Orick Headquarters to pick up "Redwoods" film. Saw Jean Hagood briefly over cup of tea, then raced home, expecting Vern Korh at 4 to get film.

Found note on door from Wally Lagorio, phoned him in Eureka and he appeared around 6. Meanwhile Dave came in, then Bill, then Jean and Sud.

Dave left at 7 for Env. Center Directors meeting. Wally returned to Eureka - Sud & Jean went home.

After dinner I drove into Orick to sit in on meeting at the Center.

Took Harriet + Gray home - stayed for tea and freshly popped corn. Home by 12:30.

1973 27th day - 338 days follow

up at 8 - A quick breakfast, then off to Eureka. Did errands and shopping - [with a muffin and coffee break at Stanton's around 11.]

Home again by 1:15, after passing Bill near airport road - on this way to Eureka and errands. Did a pile of dishes. Gary here briefly to look at local paper. Many phone calls. Left at 3:30 to go to Dave's to relay phone messages. All cloudy now. Walked briskly - until Jake and Rhea Houch came by - time out for talk - then home by 5:30.

Quick bath; dressed up to go to dinner with Jean and Sud - by 6:30. Anita and Pete and other relatives unable to join us.

Clear again ~~over~~ when we headed home around 11:30.

Lovely, warm day - 1973 28th day - 337 days follow

with cloudiness increasing as afternoon progresses. Did some washing and worked outside - chopped wood, trimmed branches, etc.

Dave came by around 2:30 with story of an intruder at 2:30 a.m. when he and Doug were both awakened by footsteps. Bill Devall brought SC mail.

Drove up to Dave's around 3:30, then Doug's car was used to go to Big Lagoon for a walk on the Spit.

Saw my first water pipit as we walked back on Lagoon side.

Stopped at Patton's long enough for me to watch finale of Crosby golf tournament, which went to sudden death for 3 top players. Jack Nicolau won.

Quick dinner, then we picked up the senior Devalls and attended the Audubon film at 7:30 in Eveha - "Acadian reflections", filmed and narrated by (NPS) Robert Fritz.

Stopped by Dave's and Doug's for coffee on way home.

Some light rain.

1973 29th day - 336 days follow

Up before 8. Raining. Did a rather thorough housecleaning job in our bedroom (included a near-mummified tiny mouse, found between rug and rug pad UNDER the desk in corner. Many phone calls interrupted work. Dave here briefly around noon. Went to Becky Coleman's from 1-2. Stopped awhile at Dave's as he wanted ideas about "security" changes. He came down at 6:60 for dinner - leaving again around 8:20. Gary was in to borrow a book before dinner, returning it later. Raining lightly, still.

Jan and Lud were here just before lunchtime - only long enough to drop off Tasha for the day and night and tomorrow while they were in Red Bluff.

In bed by midnight - after a nice bath - and shampoo.

Up by 8. Raining.

1973 30th day - 335 days follow

Bill off for school at 8:30. Becky Coleman phoned before 9, setting off a chain of events that involved many persons. Fogging near her property sparked calls to Water Quality Board; Don Tuttle, then to Div. of Forestry, then Fish + Game. Spent a little time with Becky (Dave along, too), then Holly Gibson. Stopped at Dave's.

Cleaned min. co., then cleaned oven.

Dave came down to use phone - around 3:30. Rained hard at times.

Jean phoned from Big Lagoon - car had problems - they would get Tasha tomorrow.

Wrote a letter (SC) about noise ordinance procedure to an Oregon County.

In bed by 12.

1973 31st day - 334 days follow

Social Security Tax Return Due

Up by 8. Fairly clear and quite cool. Went to dentist at 10 to have teeth replaced in upper plate. Bud took car and got part for his car while I waited for lab work. Bill also had dental appt. at 10. After errands and shopping I got back home around 1:15. Found one doug. fir down, 3 men bucking it up - trampling over shrubbery. I tearfully informed Bill; could not eat much and headed out to walk Scenic Drive. Dave passed me, asked me to stop in. Then promptly, so I could keep last tree from coming down before talking to neighbor Markwell about restoring lost privacy (by plantings), Dave drove me home to place phone call. The cable was already on the tree, but the men were gone - waiting for word, I presumed, from Markwell.

Jean + Lud came by. Duke Cairns dropped in. Dave stopped on way to Arcata and Gary came in awhile.

We had dinner at 9:45 - after everyone left.

In bed by 12.

Fair. Worked around 1973. 32nd day - 333 days follow  
house and got SC material together for  
ExCom meeting at 12.

At 11 I was informed by tree fallers that  
I should leave the house for 5 minutes - just  
in case the 2nd beauty to go down did some-  
thing strange. (50 years to grow 150' tall and  
only 5 minutes to sever its life's ties.)

I was heartsick. The noise of chainsaws  
as 2 men bucked it up, lying all across  
our ivy covered bank and shrubs was too  
much. I stayed away all afternoon - our  
meeting, it turned out, was lengthy.

Everyone there except Judy and she planned.  
Dave & Donna Hansen, in a lovely old  
home on 10th St., Cresta, were our kind  
hosts. When the meeting adjourned at 4:30  
a few of us got a house "tour".

Once home, I started making a  
birthday (30) cake for Dave. It was  
3 hrs. later when we drove up to  
his place to try the cake.

Home again by 11.

1973 33rd day - 332 days follow  
up around 8. Slightly  
cloudy all day - fairly warm. Able to go  
to Sen. Alan Cranston luncheon at Encke  
Luncheon at noon without wait. 300 people  
on hand to hear the Senator - a fine speaker.  
Strong on Congress getting the bills again -  
strong for getting out of southeast Asia.  
Here to learn about log exports to Japan and  
elsewhere - a problem to mill owners and  
persons in need of steady mill jobs, etc -  
plus the problem of private lands not sustaining  
as much as they harvest - going to public lands, etc.  
Gary Williams went with us since Dave claimed  
slight illness on brief visit earlier.

Once home again, clothes changed, and  
ready to get outside, I started some washing  
and then towed logs off the bank. Gary  
split a lot of wood for us as we  
started clearing the destructive mess  
away.

Hal (Wiedman) and friend (student) Phil  
arrived around 5. We had fresh crab  
for dinner. I brought Dave down to  
join us at 6 or taking him home again  
around 10.

up before 8. Lovely 1973 34th day - 331 days follow  
 warm morning. Started in moving tree  
 debris right after breakfast. (Bill got into  
 the act for a couple of hours also. We  
 worked with our shirts off until after  
 12. It began to cloud up, remaining  
 quite warm and by 5 o'clock it was  
 raining. Dave in briefly.

Made a large macaroni salad to  
 take to SC potluck at 6:30.

Small dinner crowd (about 25), but  
 over 50 at meeting. (Competition on  
 campus, with concert). Duke & Sandy  
 Cairns gave slide show of peace corps years  
 in Niger (Africa).

Went to Davis' place around 11,  
 had coffee - took last chunk of  
 birthday cake along. Home by 12:30

1973 35th day - 330 days follow

up at 8. Raining.  
 Left at 10 for Big Lagoon with brief stop at  
 Davis to leave SC material. SC outing on Big  
 Lagoon Spit; Phil Kirby leader. Bob Kirby and  
 Mary Mae Arthur only other brave ones. We  
 worked length of Spit in rain, but it was  
 beautiful. Turning back because of ocean  
 spill-over into lagoon (far north end) we stopped  
 for snack lunch around 1 - rain let up only  
 briefly. Breaks in clouds gave us a  
 bit of sunshine as we reached cars  
 around 3.

Lud stopped to say he would be down  
 with dinner stuff.

Again, stopped for moment at Davis. Bill  
 gone when I got home around 4.

Lud arrived around 6.

Gary here for a sec (dinner).

Jeannie Kirby's phone 1973 36th day - 329 days follow

call got me wide awake at 8:35. Bill brought me cups of coffee. Breakfast later. Began house cleaning - in living room.

Dave came by around noon to make phone calls.

Bathed and dressed at 2 in order to pick up Becky Coleman for a visit to her lawyer (Truitt) in Aristo at 3.

Went on to Eureka to get late car licenses (due last Friday), at AAA.

Ate snack type dinner, leaving Bill to his own devices.

Dave came down at 8 with tale of house entered again - he + Doug out 20 min. only on beach - and I told of finding sliding door open earlier - just after 5.

Bill DeWall came in briefly. Dave made a series of phone calls, then left just around 10.

1973 37th day - 328 days follow

up at 8:15. Variable cloudiness - warmed up to 54°. Worked on "wood pile" (!) most of day - moving as many large logs as I could handle - off the ivy. Gary came in briefly - and the phone was more than busy all afternoon.

Bill moved a few logs when he got clothes changed - and we worked with a lovely sunset until 5:45.

In morning I worked minus shirt - it was so lovely.

Frank Hendricks and I discussed repair and restoration of privacy along our mutual fence lines.

Dave came in around 8 - as we were finishing dinner.

Watched Elizabeth Taylor and Richard Burton in Part 1 of movie *Divorce: His, Divorce: Hers*, in mid-evening.

Answered 5:45 alarm in 1973 38th day - 327 days follow

order to meet Jean on 6:09 Greyhound in Trinidad  
Put her on couch and went back to bed until  
8:30. Sud came in for her at 9:30.

Variable cloudiness all day - warm 54°  
Picked up SC books at Jacoby Creek School,  
and talked with librarian there. Did a couple  
of errands, then dropped by Jeannie Kirby's for  
lunch and talk. Home by 2:30. Gary  
busily cutting up wood. I took him  
newly purchased wedges and the loaned  
Kirby 8# Pledge Hammer. As he split  
chunks down the bank, I hauled them  
up and piled same.

A Div. of Highways investigator (Cahill)  
was here at 4 to get information on road  
conditions in Del Norte Co. where fatal  
accident had occurred in winter of '72.

No sign of Dave - who had gone (early)  
to land use program meeting in Ukiah.

Mrs. Brandman came in awhile to  
talk - before dinner.

Watched part of Devorce his;  
Divorce Pers.

Light rain began in  
early evening.

1973 39th day - 326 days follow

Awake before 7 to phone Les  
Titus about replacing broken living room window. Dave  
showed up before Bill left - about 8:30 - on way to do errands  
in Eureka. One errand for me was to pick up new traverse  
rod for kitchen window. Les arrived before Dave left.  
He could get window in by tomorrow evening.

Cleaned living room and changed things around, in-  
cluding rugs, book cases, etc.

Gary did a little wood splitting, then was  
stopped by rain.

Re-potted a few house plants.

Dave came in with new curtain rod after  
dinner (around 8), but did not stay very long.

After dishes were done, drainboard cleared, so  
we could stand on it, Bill helped put up  
traverse rod.

Rained rather steadily during evening.  
In bed before 12:30.

Up by 8. Cloudy.

1973 40th day - 325 days follow

Went to (North Coastal Region) Coastal Commission meeting from 10:30 - 4. Lunch at Stanton's with Bill Deval. Made a quick trip to Div. of Highways office before heading home - just as light rain began falling. Dave came by briefly - after dinner - with plans to go to Santa Rosa with me at 5:45 tomorrow morning.

Fixed<sup>a</sup> lunch, packed a briefcase, and finally got to bed at 12:30.

Many phone calls had prolonged preparations for Chapter ExCom meeting.

1973 41st day - 324 days follow

Up at 5:15. Left home 5:45. Heavy rain began as Dave and I pulled away from his place at 6. Stopped for breakfast in Garberville and for gas in Willits. Arrived at meeting place (S.L. Jr. College) shortly after 11. It had rained entire time! Picked up lunch materials from nearby market, since I had left mine in refrigerator in last minute rush.

2 So. Calif. developers took nearly 1 hr. of early afternoon agenda time to present a horrendous plan for restoration of Actua Springs resort. They were bombed with questions, but we took no action. More information needed.

Dropped Al Whitney off at "big E" in Coddington. Bought a pair of red tennis shoes there before heading home. Dave drove to Piercy. We stopped in Willits for hamburgers for dinner. Ran away from rain as we reached Humboldt County. Home by 10:20. Watched Carol Burnett show on TV with Bill.

Up by 8:20. Rained hard during night. Let up all morning.

1973 42nd day - 323 days follow

Dave phoned around "to have me join him and Doug on short jaunt on Big Lagoon spit. We got Jean away from her late breakfast to join us for an hour or so.

Chili and beer and/or coffee back at Pattons. Home by 2. Late lunch.

Put wood filler on walnut table leaves. Late dinner - Gary came down - and we watched some TV "specials" for about 2 hours - one, ice skating; the other "Duke" Ellington.

David phoned from Santa Cruz - with Gerry at his place, but ready to leave for Saudi Arabia in the morning. (Rocks) wanted him to inspect some transmission lines.

Bruce Stephens (Saratoga) phoned about Coastal Coordinators' new program - long talk.

Dave popped in briefly around 10.

1973 43rd day - 322 days follow

Up by 8:15. Worked Lincoln's Birthday around home, then after lunch took typewriter (and self) to Dave's place to finish rough draft of his Pacifica article on Forest Practices. He had, earlier, dropped off about 8 pages to type.

Home again around 5.

Phil and Dave went to a meeting at Env. Center at 7:30 re. ASBS (Area of Special Biological Significance) - a hearing on same coming up on 28<sup>th</sup>.

They were back by 10.

Meanwhile Gary was in - returning things, looking into cook books, etc.

In bed by midnight.

up before 8. Lovely morning. Ocean across spit again. Heard some birds this morning - a welcome sound - last to some extent since tree falling episode.

Went to Board of Supervisor's meeting at 1:50 -- first stopping to pick up SC statement regarding Eureka freeway proposal) from Sueie Can Kirk in Arcata. Jamie Clarke made request to re-open study; I followed requesting "look at" new approach to transportation needs around Eureka area: "Skip" City followed with plea to keep freeway away from city. Got a "reorient" response from board.

Bought new "walking" shoes - (Adidas). Dave Lee for dinner, then we took him home around 10, listened to a couple of records - home again by 11.

Raining.

Power went off at 11:40 - for 3 hrs. 15 min.

1973 44th day - 321 days follow

1973 45th day - 320 days follow

up by 8:30. Nice day.

Valentine's Day

Did washing of 2 bedsprings by noon - Went up to Dave's around 1 to do typing. Left car for him to get manuscript to Arcata - I walked home - with MT, making distance in 40 minutes easily - new shoes excellent. Dave Lee for quick dinner so we could all go hear Justice William Douglas, guest lecturer at C.S.U.H (mens gym) at 8.

Place full - even with heavy rain fall ~~for~~ hitting right after dinner. Bill Devall sat with us - Jo Finen, too.

Bill drove Dave home while I did dishes.

Up by 8. Lovely day. 1973 46th day - 319 days follow

Warmed up to 66°. Only a few clouds. Several phone calls regarding everything from freeways to water districts.

At 10:30 Dave arrived with re-type job on forest practices article. Finishing by noon. He met deadline.

At 3 I picked him up at Come and we walked most of Big Lagoon Spit. Stopped to see Jean + Lud briefly. They later came by - around 7:15 and remained until about 8:40 when our dinner was ready.

Gary W. here also. He had bicycled to Redwood Park (Bald Hills Rd.) - tired, he left early.

Tony Fork phoned. So did Mary MacArthur - about weekend tree planting schedule.

Huge, beautiful full moon

1973 47th day - 318 days follow

Up by 8. Dressed to leave by nine to get to KTEM-TV by 9:30. Lovely day; needed only a sweater - dressed like summertime. Read in news room while waiting for Janie Clarke - delayed because of brief power outage (drunk hit pole), who showed up around 10. Walt Noon asked us a few pointed questions regarding re-opening Eureka freeway issue, taping 5 minute "Look At" program - a public service program.

Did some parcel name checking (below Trinidad) at assessor's office, then deviated home for lunch.

Changed clothes quickly in order to get to work done in "garden" - what a mess!

After dinner I packed things in readiness for camping out on the "tree plant" at Bull Creek.

In bed by 12:30 or so.

Up at 8. Packed last minute <sup>1973</sup> 48th day - 317 days follow items for overnight camping and headed south at 9 o'clock. Scattered clouds. Reached Preachers Gulch tree planting area sometime after 11, having made leisurely drive along Avenue of the Giants. Many people on slopes. Worked with girl ranger in test plot with 50 doug. firs. Found Mary Mac Arthur at lunch time and arranged to camp with her. Went back on slopes and ridge to plant another 50 douglas fir. Beautiful afternoon - no need for a jacket!

Some people from So. Tahoe had a pet (1 yr.) racoon, on leash, and it had a "picnic" exploring the area.

Found Howard King and Tony Cook in late afternoon. They had been planting (KQED) SF. donated (5 gal) seedling redwoods along Bull Creek - on flat in Rockefeller Forest.

Went to Mary's trailer, with her, to pick up her overnight things -- this in Redcrest -- then back at dark to our previously selected campsite at Burlington Campground.

Program re Bull Creek - logging, fire, flood and then restoration program given by Corky Allen (State Park) at Rec. Hall at S.P. Pl. Fell into sleeping bag after 9 some time.

Fog in early morning.

<sup>1973</sup> 49th day - 316 days follow

Septuagesima Sunday started, waking Mary by cutting kindling. Got away by 9:45, going back to Preachers Gulch area. Picked up members of SC family stranded with baby car in Rockefeller Forest. Mary took some with her, too, to planting site.

Put in gal. size redwood seedlings between creek and road, working until lunch time. Talked with Howard and Tony once more, then headed home at 1:30. Went by road to Petrolia, since the beautiful weather demanded a look at the coast. Stopped briefly with Martha and Don Graham. Watched Steelhead fishermen along the Mattale. Home by 5:30. Started some washing immediately. Bill went up to Anthas for short time.

up by 8. Lovely day. 1973 50th day - 315 days follow

Washington's Birthday (In District of Columbia and most States)

Bill off to school by 9. Went up to Becky Coleman's for seedling Bishop pines. Stopped one minute at Dave's place. Put trees in about (1 doz 3 yr. olds) the place before roots could dry out.

After lunch I split wood. Bill worked with me from 5 to 6, when it got dark.

Jean phoned - Lud's brother died so they would be leaving for Milwaukee tomorrow.

1973 51st day - 314 days follow

up by 8. Jean and Lud came by around 10:30, just after Howard King arrived. Dave popped in briefly to leave some outing material. Jean borrowed heavy coat, mittens, boots for snow and a train case. They would drive to bedding, then fly to Wisconsin later.

At 2 (PM) Gary and I walked, briskly, to near Dave's place. Very warm and very beautiful - Home again by 3:30. Worked outside and also started some washing - working through dinner time. We will "baby-sit" Tasha.

Up before 8 - beautiful 1973 52nd day - 313 days follow  
 warm morning. Drove to Davis at 8:30 for

quick message regarding field review with Dir. of Highways along Hwy. 36 tomorrow.

Around 10 I returned to Davis to get him and ALT for walk on Big Lagoon spit - We left car at 10:15. Went all the way, past the usual outflow spot. Headed back at 12, reached car 1:15.

Beautiful - warm. Only 2 persons on entire spit - one a skin-diver - or surfer - or both.

Worked outside - (around 60°F.) pruning shrubbery, then began splitting wood. Worked until dark.

Bill Deval came in around 7. John Krupp came by around 8:30. Dave came by to dry his laundry. Doug was in at 5 to pick up Dave's adding machine.

1973 53rd day - 312 days follow Up around 7:15. Picked up Dave at 8:20 - at Dir. of Highways office in Eureka at 7-min. to 9-- on time to talk with planners re Rt. 36 (and 96). Then, around 9:30 we piled into a car with 3 "highway-men" and drove to Bridgeville area where small project is proposed. A beautiful, warm, nearly windless day. Back in town at 1:30. Quick lunch at Red Barn.

Saw Delphine Fountain in Camera Shop; - talked with Dwight May. Saw Bill Peters. Went to F.S. offices. Talked with Tom Beard. Saw Dan Hauser at home - Home by 5:30.

A quick dinner, a few phone calls, then Dave & I headed for Ray Peart's Meet the People meeting. Harriet Gray went with us. Subject for discussion was Harbor District. Home by 11:15 - after coffee at Stanton's.

Clear + cool.

up by 8 o'clock. Fair 1973 54th day - 311 days follow  
and quite warm. Dave showed up to  
make phone calls around 10. Bill  
went into school. Sometime after 11  
Dave and I and (after picking her up,) MT  
went to Big Lagoon to walk the length of  
the spit. Took nibbles along. Ocean  
relatively quiet. Lagoon high. Spit well  
built up. Cloudy, looking like rain,  
so we waded back around 2. Dave jogged  
about 2 miles. MT and I took more  
time - looking for agates and/or jades  
and enjoying crashing surf.

A few o'clock I took one chair  
and high stool to a Mr. Bantz in  
Arcata - to have missing rungs re-  
placed. Home by 5. Bill came in  
right behind me.

Holly Gibson dropped in before  
six, remaining for about  $\frac{1}{2}$  hr.

Worked on the old bookkeeper's desk -  
sanding and sealing a part of the top  
to see how it might look.

Light rain began around 11.  
In bed to read at 12:40 after  
routine exercises.

1973 55th day - 310 days follow up by 8:15. Began  
working on big desk and kept at it during  
day - between phone calls and errands.  
Bill went into his office awhile.

Bob + Margie Kirby came by in mid-  
afternoon.

Watched some late TV shows.  
At 1 A.M. (while in midst of exercise  
routine) 2 law officers knocked  
on door - inquiring about 'Bud'  
Merrymon's residence.

Spent 2 hours, after dinner,  
working over precinct lists for  
Klip Ridenour's election to  
possible Harbor District Comm.

Rained much of day and  
evening.

Awake at 8:45. Warm <sup>1973</sup> 56th day - 309 days follow

and cloudy. Around 10 went to Ruppert's Ranch, north of Trinidad, to leave precinct lists with Joan.

Stopped by Dave's + Don's - left car; walked home. Some rain and strong wind hit as I got within 1 mile of home.

Bill began work on book shelves for our bedroom. At 2:15 I walked to Hegy's to consult with Elizabeth over Tuesday hearing on underground utility district along Jennie Drive. Home again by 4. Dave came down in my car and then we all drove to Big Lagoon to walk along spit.

Bill and I walked; Dave + MT jogged. Home again as rain began lightly at 6, after highball with Dave.

Dave came down around 8:30 to start writing ORV remarks for Monday eve. meeting of County Parks + Rec. Com. He left around 10:30.

Raining off and on.

1973 57th day - 308 days follow

Up by 8-

Prepared statement (for SC) - after Dave wrote it out - regarding ORV on County Park beaches through access of same.

Gary went with me to Parks and Rec. meeting at Court House, 7:30. Big issue was possible ban on motorized vehicles using County parks as access to beaches.

I had prepared SC statement and presented excerpts. Room overflowed with ORV people and horse people.

Stayed on for Heryman and Rickett properties beach access negotiations. Mr. Rickett there with lawyer.

Up by 8. Dave came 1973 58th day - 307 days follow  
by at 8:30 to pick up his camera gear for  
the "wolverine" snowmobile, snowshoe trip  
into the Siskiyou with F&G, USFS and 2  
female students on project - to be gone overnight  
near Big Flat (So. Fr. Smith River).

Light lunch, then off to Eureka to do a  
little work in Assessor's office, then to Board  
of Supervisors at 1:30. Elizabeth Hegy and I  
were on hand for agenda item regarding under-  
grounding of utilities, scenic drive, but it  
was postponed one week. Other controversial  
items before board - zoning north Trinidad was  
almost a Hatfield-McCoy comedy. After  
2 hrs. the Board, at 6:30 P.M. decided to  
have an FIS prepaud for area.

Home by 7. Gary here briefly

1973 59th day - 306 days follow

Up at 7:30. Started typing  
2nd draft immediately after breakfast - letting  
everything else go - After Bill did ~~proof~~ last  
corrections I put the final draft into shape,  
finishing around 11 - after some phone calls  
that interrupted, but one that was important.  
Like - could I present the Audubon  
statement, too?

Met Harriet Gray at Xerox machine in  
Univ. Center at noon. Bill met us with an  
additional page. Lunch at Stanton's at 1:  
Gave both presentations after county and  
state agencies had been heard. Went well.  
Brad Sandborg chaired meeting. Coffee  
later with one Henry Horton, gardener, living  
within King Range - who had also spoken.

North group Ex Com meeting at Environ.  
mental Center from 4:30 - 6:00. Everyone  
present but Dave. (Jean phoned from Corning.)

Quick dinner around 7, then with Gary  
along, attended "water" meeting from  
7:30 - 10:00 at Westhaven Fire Hall re.  
annexation to HBMSWD. Bill went to  
a PMK meeting at Rasmussen's home,  
getting home around 11:30.

Showers throughout day.

Up at 8. Clouds broken - 1973 60th day - 305 days follow

Lovely day - up to mid 50's. Did nothing except what I felt like doing - all morning - phone calls, clipped papers, etc. Dave showed up around noon, though he had phoned around 9. We arranged to go walking at Big Lagoon at 3. After light lunch I walked and jogged to north of Sufferbottle Beach.

Picked up old chair + stool from Mr. Britz in Aeste, then went to Dave's. Talked with Doug, taking the sun, until Dave arrived - around 4.

Lovely on the spit - no wind. Home by 6.

Dave came down around 7:45.

Mary MacArthur arrived shortly. They worked on wet outing schedule - until 10:30. Then we 3 played Yahtzee - Clear and Starry - cooler.

1973 61st day - 304 days follow

Didn't get up until nearly 8:30. Lovely morning - warm and clear. Gary came down to split wood, working a couple of hours before lunch and a couple of hours after lunch. Bill went into school in mid-morning. Started some washing. Dave came by, briefly - made phone calls, then went home. Around 3:30 I picked up Dave and AT for walk on Big Lagoon spit. Sky clouding up fast. Dave jogged length of spit; I walked most of it. 6:30 before I got home. Sud and Jean had returned.

Dave came down for dinner - around 7:30 - Pattons headed home around 8:15.

Played some Yahtzee, then Dave went home around 11:30. Raining now.

Bill Ashworth (Red Brites Committee) phoned from Ashland.

Up at 8:45. Apparently **1973** 62nd day - 303 days follow  
 much rain during night. Did some  
 washing before noon. Bill did  
 some errands and went to the school  
 in early afternoon. Fixed salad  
 for potluck. Dave would not go to  
 meeting -- feeling woozy, so at 6:20  
 with Hollie Gibson and Gary Williams  
 aboard, we swung by Dave's to pick up  
 his conservation notes - on way to  
 potluck (SC) dinner meeting.

Program scheduled did not materialize.  
 Vern Kost saved the evening with a  
 film he worked on - Indian mainstream -  
 good account of Tom Parson's work  
 in retaining remnants of early  
 culture.

Mary MacArthur came out to spend  
 the night.

Bill and I went up to Dave's owlite -  
 had coffee and looked at photo  
 strips - home by 11:45.

**1973** 63rd day - 302 days follow

Lovely morning.  
 Gary put in a couple of hours  
 work on the woodpile. Dave came  
 by. I walked Scenic Drive with RT.  
 Jeanne Kirby picked me up, then  
 we got Dave + RT and went to Big  
 Lagoon to look for rocks for table  
 top - and agates.

Saw Jean and Bud. Home by  
 5:30. Hollie arrived at 6. At  
 6:30 we 3 went to Audubon Wildlife  
 film at 7 at Eureka High Auditorium.  
 Fascinating film by Britisher Jeffrey  
 Boswell on Ethiopian Safari -  
 Home again before 10. Ate a bit,  
 then went up to Dave's for short time.

up by 8. Lovely morning, 1973 64th day - 301 days follow  
 lovely day. Took Becky Coleman's old dog to Animal Clinic before noon - to be put to sleep. Dropped some letters in Becky's lawyer's office, then on to Susie's to leave some SC material, then home for lunch around 1:45. Worked around house - close to typewriter - and phone. Bathed and dressed before starting dinner, which had to be early, since Dave and I would be attending a Harbor District campaign forming coalition at Eureka City Hall at 7:30. Jean and Lub arrived - Pat with us - Gary came in, also. At nearly 7 o'clock Dave and I headed out. The meeting was weird - and we came home by 10. Dave did some more writing re: forest practices and I typed until nearly midnight.

Clear + cool tonight; then cloudy and by bed time we heard thunders - and had rain.

1973 65th day - 300 days follow hp around 8. Went up to Dave's (after early phone call) to pick up more written material, but typed a rough few pages before leaving. Finished his 3-4 page letter to Zberg's consultant (Rod Tuttle) by 12:15. Meanwhile Gary came down to split wood. Dave picked up letter at 12:30. At nearly one I headed for the Supervisor's afternoon session at 1:30. Spoke up on Eureka freeway issue - and the Scenic Drive utilities underpinning. Home by 5.

A lovely day - warm 52° - no sweater needed - wished rather to be out walking than remaining inside. Beautiful thunderheads.

Dave and Doug came in around 9:30 after Doug had finished a seminar on pelicans and cormorants. They stayed until midnight.

Up by 8. Cloudy. Dave 1973 66th day - 299 days follow

Ash Wednesday  
phoned from Arcata around 9:30 - his car gave out near Mad River bridge. I phoned 3A, then drove in to "rescue" him and subsequently was stuck with him all day. The Saturn was towed to the "Bug House" in Arcata.

Took chair and stool to be stripped by BIX in Eureka. Did other shopping and errands after lunch at Stanton's at 12:30. Light rain.

Got Dave back home around 3. We worked on set of questions to put to USFS, then, with MT, came back to Moovstone - and they stayed for dinner.

Bill Devall came in at 7:45 and remained about 3/4 hr. Took Dave home (raining, yet) around 9:30.

Talked with an NR Student about Sierra Club positions on various issues - for about one hour.

1973

67th day - 298 days follow -

Lovely day. Up at 8. Left at 10 to walk to Beck's and get back home by 1:30. Beautiful along same drive.

Dave came down awhile after dinner - in Doug's car.

Up at 7 in order to leave <sup>1973</sup> 68th day - 297 days follow  
at 8:20 to pick up Dave and leave his place  
at 8:30 and get to Eureka by 9. Raining  
lightly. Left list of questions to be used at a USFS  
I+I (Inform & Involve) session by Sec. Andrea Peck.  
Dave took pack of stuff to be Xeroxed at Dan Hansen's  
office, while I attended Coastal Commission  
meeting at City Hall.

Met Dave around 12:30 - we had a quick lunch  
in town, then headed straight to his place to get materials  
ready for ExCom Meeting and display at Chapter  
Annual Dinner. Dave remained for dinner so we  
could work on captions for photographs later.  
Bill drove him home around 10 and I  
worked until 12:30. In bed around 1.

<sup>1973</sup> 69th day - 296 days follow Jumped up at 5:15. Dusk  
and rainy. Left home at 6. Picked up Mary MacA.  
at Redwood at 7:15. Breakfast in Garberville. Rained  
all the way to Santa Rosa. Arrived ExCom meeting at  
Los Robles Lodge 11:15. Lunch in coffee shop  
at 1:15. Bill there same time, after working in  
room he secured for night. Meeting went on  
until 5. Mary, Bill Devall and I quickly put up  
the photo display in the dining room - before the  
"happy hour" got underway at 6. Raced, then,  
to room to put on dinner dresses. (Both wore  
long skirts). Large dinner crowd for ex-  
cellent buffet.

Dr. "Reggie" Rood M.C.'d. the event. I gave  
comments about No. Group (as Chairman) and  
brought attention to our photos showing  
wilderness potential, redwood park boundary  
clearcutting, coastline and forest practices  
that needed changing.

Nick Clinch was featured guest with his  
marvelous film of the Antarctic expedition  
which he led in 1966-67 under the auspices  
of the Nat. Geographic Society and the Nat.  
Science Foundation.

Got in room with Bill Devall -  
then to bed! by midnight.

Up to a clear, cool 1973 70th day - 295 days follow

First Sunday of Lent  
morning at 7 o'clock. Got paper and had coffee while waiting to be joined by Bill, then Mary.

Left Santa Rosa at 9. Everything clean and special spring green after yesterday's rain. Enjoyed a tuna sandwich with Mary when we dropped her off at her trailer. Home around 2:30.

Scattered clouds, wind and rough ocean near home.

Jean and Lued came in around sunset and stayed until nearly 8.

Gary was in briefly (same time). Buffed the old deck and did some sanding on legs. In bed after midnight.

1973 71st day - 294 days follow

Up by 7:30. Lovely in early part of day - wanted to go walking, but instead did some washing and cut Gary's hair before he takes off tomorrow - for a week in Lassen park, then on to a job where his hair could not be longer than collar! Bill went into his office before noon.

At 2:15 I left for Eureka. First stop - Co. counsel's office in Court House, then on to Dan Hansen's office to Xerox material for SC and Audubon. Then back to Court House with original. Bumped into Dwight May, talked many minutes. Home by 4:45.

Very cloudy, looking like rain.

Fixed dinner for Bill by 7, then took off for the Court House - again! This time to ~~have~~ attend informal "workshop" by Corps of Engineers (Col. Lammie) regarding study of deep drop harbors to accommodate paper tankers bring oil from proposed Alaska pipeline. The place was full. I made comments and asked questions which Col. Lammie fielded ~~smoothly~~ smoothly and efficiently.

Home by 10. Light rain falling.

Up by 8. Everything wet! 1973 72nd day - 293 days follow

Left at 9:30, taking chance without raincoat, and walked to Trinidad. Stopped at Dave's place, had coffee, admired new doors, told of weekend, listened for certain bird call with Dang.

Walked home again, with MT, joined by young man on bicycle last  $\frac{1}{2}$  mile - arrived at noon.

At 1:30 drove up road to get Dave so he could check on progress on his car and do other errands in Arcata. I saw Susie, Xeroxed stuff at HSD library, + took table and new legs for same to Mr. Bintz. Home by 3:30 or so. Took

Dave home ~~tho~~ around 4:30, after we had worked a little on freeway statement prepared by Susie. Jon Krupp arrived for dinner.

Grabbed soup for dinner, left for Eureka at 7:20. Core Area Dev. Plan + Eureka freeway design were up for public hearing from 8-11:30.

Clear and cold when I drove home.

Jon and Bill still pitting around over a bottle of wine.

1973

73rd day - 292 days follow

Up by 8. Took some water to Becky Coleman. Arranged with Dave, to be picked up after lunch, for errands in Eureka. At 2:30 we met again and drove to College of the Redwoods to speak about the Sierra Club to a wildlife ecology class. We had short time, but stayed to answer questions.

Home by 5:30. Dave had dinner with us, then, after a phone call to Larry Gray, I took him home around 10 to meet Larry there to pick up 2 pr. snow shoes. Larry and friend going to Canyon Creek for day's outing - in morning. Home again before midnight. Clear + cool.

Awake by 7, up by 7:30. 1973 74th day - 291 days follow

Lovely morning, <sup>Fast of Esther</sup> About 40°. Filled water containers and delivered to Becky Coleman around 9:30. Stopped by Dave's on return trip and he then decided to go to town with me. He checked his car repair first in Arcata, then on to Eureka for errands. Lunch in car near Red Barn, since there was time left on parking meter. Dropped Dave off in Arcata on return trip, and got home by 2:30.

Started some washing and did some sanding on newly built book shelves; also on old chair + stool, which had just been "stripped."

Dave and Norm Allen showed up around 10:45 - as we were watching end of "Special" TV show, starring Lauren Bacall in "Applause." In bed by 1.

1973 75th day - 290 days follow

Up before 8. Cloudy. Had thought of going to Big Lagoon at high tide around 9, but got busy on other things. Took some drinking water and fresh batch of cookies to Becky.

~~Typed~~ <sup>Wrote</sup> up a super-tanker list for Econews. Mary MacArthur phoned from HSO and came out for dinner - and the night.

Rain began around noon and didn't let up rest of day and night.

Dave and Dang phoned up as we were finishing dinner. Around 10 everyone took off for Dave's place, including Bill. I typed up the first draft for Econews. Bill staggered in around midnight.

There was much unpleasantness since he was staggering drunk and yelling. I remained rather calm because I was so disgusted. Nothing he said or did made much sense.

Rain quite heavy at times.

Up around 8. Made a <sup>1973</sup> 76th day - 289 days follow

St. Patrick's Day

batch of cookies after breakfast, then began working on went to Arcata to pick up the walnut cocktail table from Mrs. Bantz's Shop - all ready for refinishing with new legs. Bill worked around the place - even split some wood! Dave came down with Mary around noon and helped Bill try to fix rear window in jeep, which wouldn't go either up or down. After a nibble of crackers, cheese and milk, Mary headed home - around 1.

I took Dave home and borrowed some walnut stain for the new table legs and continued working on shelves, table, chair and stool - until 5 o'clock. We got clean and dressed in time to go with Doug and Dave to a <sup>staple</sup> program by Dr. Hemphill (PVC) - all of the 93 lakes in the Marble Mts. wilderness. This was at 5:30 at the new 7th Day Adventist Church in Mck. (we took a bit of church-y stuff before the program).

Marvelous coverage of the Marbles. Doug had met his man during the summer <sup>while</sup> wilderness patrol. We had something to eat at Stanton's Red Bara in Mck. after 7.

Typed finished copy for Ecomer.  
In bed by midnight.

1973 77th day - 288 days follow

Purim

Second Sunday of Lent

Up by 7:10. Cloudy. Left home at 8:30, stopping only in Eureka briefly for gas and arriving at precisely 10 at Dyerwile site for SC outing. Wind was rather fierce around Fortune, but some sun broke through cloud cover. Eureka and bay area was excitingly clear - as was Eel delta. Spring was bursting out all over. "Corby" Allen (Humboldt Redwoods State Park ranger), Joan (girl aide) and Mary MacArthur were the rest of the party - Corby leading. We drove, in 2 cars, to Granddigger Lookout Rd, and took off for our wonderfully full day hike along Bull Creek. A field tripping group (3 cars) from <sup>washing</sup> Wash. State College were also in area, but not hiking the Big Tree trail. Trilliums and Calypso were most prevalent spring flowers. Bull Creek was rushing - milky green - not muddy, and side streams (Squaw Cr., Tepec Cr.) were clear. We had sunshine at lunchtime across from the Big Tree parking area. (no bridge, now).

Light drizzle began after we crossed fast flowing Bull Creek - up to hip bones, then about one mile wack by road to our cars back at Dyerwile.

Home by 6:20. Bill up at Patton's. Dave came in and I typed his material for the Cairns and he then rushed it down to Grayhound before 8:30.

Raining here at bedtime.

MARCH

19

MONDAY

Snow down to 1500'

40°

Up by 7:30. Raining.

Shushan Purim

1973 78th day - 287 days follow

Took water and mail to Becky around 11. Stopped at Davis for toasted cheese sandwich and coffee. (I provided bread + cheese).

Around 2:30 Dave came down to finish putting Ecomer's material in shape to take to Jim Test.

Worked on shelves, table + stool in the cool, damp garage.

Jan and Bud arrived around 6. At 7 I had to leave to pick up Dave and go to County Parks + Rec. meeting at Court House. On the agenda were Merryman's + Rickett's property - action on lease agreement (they didn't go for it) and continued review of ORV issue, re access through County Parks to beaches. We left at 8:45. I took Dave right home and was ready to lie down until once home. After nap I did shoot (20-min.) stint on the exercise routine and got to bed by 12:15.

Bill had to take Jeep into Eureka to have back window repaired. He did braids for me, too.

TUESDAY

20

MARCH

1973 79th day - 286 days follow

Raining, but sun broke through spottily. Bill went to his office before 11.

MARCH 21 WEDNESDAY

Raining - or showery - 1973 80th day - 285 days follow  
 plus hail at 1 PM in Arecibo. Warm  
 in Eureka, where I had an appt.  
 for eye exam. at Vision Center.

Took Dave in to pick up his car  
 at the Bug Home and also stopped  
 briefly to get some mailing materials  
 from Roberta Allen. Home again by 3.

Had a quick dinner, then picked up  
 Dave before 7:30. He ate his dinner while  
 we drove to Eureka for the showing of a  
 film about the Dungeness Crab - a color  
 film by L R Koch Productions - made  
 with help (technical) of Dewayne Blacketer and  
 Dave was "sound man" for the boat scenes.

Sat with Donna Hankins + friends. We all met  
 later for coffee at Stanton's - and got home  
 by 10:30.

THURSDAY 22 MARCH

1973 81st day - 284 days follow

Didn't feel too good,  
 but filled water bottles for Becky and got  
 only as far as the Standard Station in Trinidad.  
 With a great rattle and roar, I badly  
 burned the entire exhaust pipe and  
 muffler were that - rusted out, full  
 of holes, etc. Phoned Bill, who came to  
 my rescue, since car could remain there  
 for installation of new equipment.

We delivered the water to Becky and Bill  
 took a look at ~~the~~ water supply, now  
 undrinkable.

At 4:15, after walking to Trinidad,  
 I got the car. ~~at~~ Saw jeans + Sud there.  
 Spent most of evening lying down.

Up by 7:30. Lovely day. 1973 82nd day - 283 days follow

Feel lousy - headache persisting - 5<sup>th</sup> day now.  
Bill went into Alameda with Dave - both doing errands and Dave doing some washing.  
At 3:15 I started walking to Dave's place.  
Absolutely glorious, but tightness across chest slowed me down - instead of an easy 40-45 minute jaunt, it took me one full hour. I lay down on couch immediately and waited for Dave to return.

He busied himself getting Siskiyou and Trinity wilderness materials assembled for meeting in Yreka tomorrow.

~~At~~ Around 6 he was ready to take me home, dry clothes there, shower, and eat dinner before leaving - to spent night with Morris in Weaverville.

Ron Huntsinger showed up and decided to make the trip with Dave. They departed around 8:30. Bill had fixed some dinner.

Bill Devall showed up. He, Bill and MT went for late walk on beach. I remained on couch.

1973 83rd day - 282 days follow

Bill brought breakfast to me in living room, having remained on couch all night. A nice day - nice enough Bill could split wood shirtless.

Got up after a phone call from Dave Wofford, old school friend of Gerrig's from Santa Cruz. Scrubbed out water container for Becky while waiting for Dave to drive out from Eureka.

Carol Severy (and big black Lab.) showed up. Having spent morning on beach. Dave had to get on to Crescent City, but Carol remained awhile.

Then Jean & Lud showed up while Bill was delivering water to Becky. They stayed until 7:30. Bill D. dropped by briefly.

Bill fixed broiled chicken for dinner. Laid awhile, then fell asleep. Again, remained on couch for night.

MARCH **25** SUNDAY

Up by 7:30. Managed to **1973** 84th day - 281 days follow

Third Sunday of Lent

fix my own simple breakfast, but went back to church to read and nap. Bill worked on income tax material.

A very grey day with slight breeze.

Dave and Ron showed up around 8:30 - after good meeting Sat. and exploding in Trinity Co. on way home - walking in snow for several hours.

MONDAY **26** MARCH

**1973** 85th day - 280 days follow

Very windy, mostly clear.

Bill phoned for appt. for me with Dr. Frank. Then he phoned all ExCom members, canceling 4:30 scheduled meeting - and went off to school.

Dave came by and then planned to return later to take me in. Meanwhile, Bill came back to gather income tax material for 3PM session with Bill Jackson - at his home.

Dr. Frank diagnosed influenza, ordered blood count (at M.P. Hospital - next door) and a slug of anti biotics + pain relief -

Jean + Lud were dewing out as we came in and got the medical report direct.

Went straight to bed (on couch) as directed. Dave fixed soup for me, then went home. He and Doug returned around 6 to view TV basketball game.

Bill returned shortly after 6. I ate a little bit. Bill drank his dinner.

Dave and Doug left around 9:30.

Bill ready for bed at 10 - but was soon up again - sick from drink and no food.

Cloudy with light breeze. 1973 86th day - 279 days follow

Bill fixed my breakfast around 8, and went off to school before 10.

Lynn Lawson phoned - all enthused in new involvement with a new phosphate free soup company.

Tapped off and on - pills always causing sudden drop off.

1973 87th day - 278 days follow Variable cloudiness.

Slept off and on all day, with many, many, diverse phone calls. Bob Kirby popped in (cloudy) before Bill left, then returned at noon, when I was up fixing some soup. He remained almost beyond my endurance. Then Gary W. showed up, returning a guitar and reporting on his 2 wks. away -- first in snow at Lassen, then heat in Death Valley. He was packing to leave for good - tomorrow, early.

Jean came in around dinner time.

Dave came in awhile around 9:30.

I buried myself, between naps, putting green, then blue stamps into appropriate books.

MARCH 29 THURSDAY

Cloudy. Breakfast early - 1973 88th day - 277 days follow before 7:30. Gary was in at 7:30 to say goodbye. Feeling a little better this a.m. Puttered around, built a fire, brought in wood, and settled down to a small lettering job for SC meeting.

Only a few phone calls today, thank goodness. Managed to get some sleep.

Dinner was good - starting with dessert first, as soon as Bill got home with my special request for hand-packed maple nut ice cream. Then a mixed salad, buttered carrots and an exceptional small cut of rib steak - about 4oz - very tasty - first beef steak in a couple of weeks.

Dave came in around 8:30 to dry some clothes and make some phone calls. He would go to USFS Fox planning unit "hearing" in Crescent City tomorrow night.

He went home around 10:30.

Read "American West" article about early visits (1823) to Grand Cañon of the Colorado.

Began raining lightly.

FRIDAY 30 MARCH

1973 89th day - 276 days follow

Breakfast rather late, since I fell asleep after awaking first before 7. Bill had 9 o'clock class, so was away around 8:30. Couldn't stand kitchen, so got up and cleaned up collection of dishes, and by then it was noon. Made myself a simple lunch, after hauling "new" old walnut [snow cocktail] table up from garage. It looks wonderful with new turned legs and all newly ~~of~~ finished.

Dave came in, brought our mail. He began writing comments for tonight's public meeting (by USFS) in Crescent City at 8 P.M. I slept awhile; also had numerous phone calls. Dave dashed back down at 5:20 - could I get up - and would I feel like typing up his comments! Then he dashed back home to meet his ride, returning at 6:20, and I had the thing ready, in duplicate. Regretfully, I did not have time to do any editing or refining. Raining. Put green stamps in 2 books.

Bill fixed dinner around 7 o'clock. I did some writing - worked up agenda for Monday - the meeting which was postponed from last Monday.

Bill took some food stuffs up to Pecky for me. Fell asleep after dinner.

MARCH **31** SATURDAY

Clear at 7, but clouds **1973** 90th day - 275 days follow

began making themselves pretty prominent in an hour or so. Rain began around noon. I got up, got dressed, and stayed up all day - without benefit of a single pill! Did some rearranging in living room, put my "bed" on couch all up stairs.

Dave was in briefly in mid-morning. We saw nothing of him again all day or evening. He was tied up with his work on the floor of the new dark room.

Bill took water jugs to Becky, then went on to do some collecting and get groceries.

I BIXed an old chair and polished up the old stool before fixing a new chicken-pineapple dish for dinner. Bill made a good mixed green salad while I tried whole wheat baking powder biscuits - from "scratch".

A good dinner, but I had to go lie down right away after finishing, because I felt very weary.

At ten I took a deep, hot bath, shampooed my hair and got Bill to scrub my poor, tired, old back - which felt wonderful.

Saw one varied thrush, here.

SUNDAY **1** APRIL

**1973** 91st day - 274 days follow Awake at 7. 37° - clear

Fourth Sunday of Lent

in early part of day, then big clouds, and a wind kept them moving - beautiful. Did a lot of small jobs around house. Even ventured outdoors briefly pruning a few things. Noted that some fuchsias are coming back in good shape, one even flowering.

Bill went collecting in the Clam Beach Lagoon, alone, since I did not think being out in wind a very good idea - yet.

Started some washing around 5:30, but didn't take last thing from dryer until 11 PM. Watched part of Untamed world on TV after having a quick stand-up style dinner.

Made a few phone calls regarding ExLom meeting tomorrow. All ~~by~~ but Judy Bradford could be on hand on short notice.

The hummingbirds were greedily at the sugar water all day - lots of chasing going on. Caught glimpse of a Steller's jay - after first leaving it.

Ready for bed by 11:45.

One my feet almost constantly all day - pretty tired.

sun bows 4:30-6:30 P.M.

APRIL **2** MONDAY

(38°) 7AM

Up around 7. Sun shining brightly, though cool-ly. Made cookies early.

Bill left around 10. Cleaned up kitchen between phone calls. Did some house cleaning after lunch, which was around 12:30.

More phone calls!

Quick bath around 3, then off to Eureka to pick up new eye glasses (bi-focals) at 4, and 30 (minutes) material from Judy Bradford's home. She could not attend 4:30 ExCom meeting at Env. Center.

Absent were Judy, Dave and Bill Jan Fleet. Took Harriet Gray home at 6:30. We saw some fantastic "sun-bows" that remained in sky couple of hours (according to Bill).

A lovely, warm (55°), but windy day. Felt like summer, but needed sweater at 6 o'clock.

Ate dinner near rice fire in living room.

Photographs returned today - not too bad for using wrong ASA number, thinking film to be black + white, when by error in packaging, it was color for prints!

Spent much of evening trying to figure dates of photos - by my daily reminder.

(68°)

TUESDAY **3** APRIL

1973 93rd day - 272 days follow

Beautiful day. Awake, and up early. Bill off for school at 7:40. Worked around house, vacuuming and scrubbing.

Went up to Becky's place in mid-afternoon, after checking Dave's place, but not finding him home.

Worked on contour chair legs, sanding them down for refinishing.

Washed home large bedspreads for Becky.

While macaroni and cheese casserole was in oven, Bill and I walked to Southern Sufferhotty boundary and back. Noticed fence removed!

Carol Fevery came out at 8:50 to start writing a class project paper for Technical Writing (5). She was here until midnight.

I made applesauce - Bill read.

The brief walk, warm day, and long day left me weary. I fell asleep on couch after dinner - before Carol arrived. Otherwise, felt much better today.

Phone calls from Becky, USFS, Vern Kort, Norm Allen - other

67°

APRIL

4

WEDNESDAY

Up at 7:30.

Beautiful day! Better than 1973 94th day - 271 days follow summer! At 9:30 I drove to Davis place to give messages and check his well being, since there had been no sign of him for 3 days. All was well - he was just busy - and confined because the floor in the dark room had not dried yet - after 3 days!

Carol Severy arrived approx. 10:30 to use typewriter and continue working on her project paper. At 2:45 she left for a class, returning here around 5. Meanwhile, I had taken water, food and mail and groceries to Becky. Very, very warm.

Dave stopped briefly on return from Arcata, around 4:15.

Carol joined us for a simple dinner and went back to typing all evening.

Dave came down to go over Coastal area maps for pin-pointing problem areas, then left around 10:30.

No classes for Bill today, but he went into school for most of day - after 10.

THURSDAY

5

APRIL

1973 95th day - 270 days follow

Up by 6:30. Beautiful morning. Put on long shorts. Mostly puttered about the house. Wrote a long one-  
due letter. Dave came in on way to Eureka to talk with USFS.

Went for walk - two miles up Scenic Drive. About I felt like doing.

Fell asleep on couch right after dinner. Jean + Lud arrived around 8:30 - just returning from week away - in Red Bluff and Trinity Lake area. They secured job at Trinity Alps Resort.

Dave came in around 10 to make report on "his day".

Seemed to develop miserable sore throat during evening.

APRIL

6

FRIDAY

up by 8. Throat feeling raw. 1973 96th day - 269 days follow  
 Phoned doctor early, but didn't get call back until after lunch.

Meanwhile, I took some cookies to Dorothy Fuller for the one o'clock tea she had planned for Joy Sundberg. I ended up staying well over an hour. Bill had to make special trip to Arista to pick up a prescription for me.

Dave had been in briefly, then returned for dinner.

HSC Wildlife student Jim Miller came out at 5:30 to pick up some Roadless Area brochures. He stayed for 2 beers and lots of conversation back.

Ron Huntsinger arrived around dinner time and remained into small hours of morning. Dave went home early. I fell asleep on couch.

SATURDAY

7

APRIL

1973 97th day - 268 days follow up by 7:30. Foggy - clearing fairly early. Cleaned up kitchen, finishing when Bill came down for breakfast around 9:30. Feeling better, but light headed.

Started some washing and took all day to finish it - working in "slow motion".

Bob Kirby dropped in briefly.

Lovely afternoon, though cool and breezy. Bill spent some time chopping and splitting wood.

Made huge bowl of coleslaw for the SC pat luck.

Holie went in with us at 6:20. About 26 for dinner, but the room filled for the program by Sam Pennisi on land use and open space planning in Arista - McK. area.

Bill Devoil ran the meeting for me - so I could save my voice and energy.

Ray Peart gave history of Harbor District legislation.

Home by 10:20. Clear, cool.

up early - before 7:30. 1973 98th day - 267 days follow

Nice day. <sup>Passion Sunday</sup> Warm, but also breezy.  
Washed, slowly, around house.

Bill went field tripping in afternoon.

I took some water to Becky around noontime.

Feeling very sniffly, but throat a little less irritated.

Spent evening on couch - relaxing, reading, napping.

1973 99th day - 266 days follow up at 8, but feeling terrible - head stuffy, throat hurting.

As soon as dishes were done and bed made, I lay down on couch in living room. Sometimes after 11 I managed to rouse enough to go to Mc Kinleyville to cash Becky's check, then take it to her.

Dave came in briefly around noon on his way to Eureka.

Nice day - warm - but I just slept, read and wrote a couple of letters. Made a stew for dinner.

Dave showed up, stayed for hour or so, ate some stew, then took off.

Up by 7:30. Bill gone by 7:40. 100th day - 265 days follow  
Variable cloudiness, otherwise warm and beautiful.

Took water and food to Beeky before noon. Rested and read on sun-deck most of afternoon.

Dave came in from 8-9 after long day in town on various projects.

Read and napped, then went to bed around midnight.

Bill "played" with a new adding machine most of evening.

1973

101st day - 264 days follow

Beautiful day. Up by 7 - to phone Les Titus with message from Dave about leaking water heater.

Bill went into school after 10. Split a little kindling simply to be outside.

Feeling somewhat better, but still very sniffling.

Dave was here briefly around 4, then returned for dinner.

Jon and Lued came in around 8:30 with some cakes for us. Dave had already left for an early meeting at 7:30.

Cloudy; warm.

1973 102nd day - 263 days follow

Went to Coastal Commission meeting which began at 9:30 (Eureka City Hall) and was still going on when I left at 5:30. Break for lunch was about 1 hr. 15 min.

2 controversial applications for permits took much "heated" time - a mobile home park and a Holiday Inn, both proposed for open space near Bayside Cut-off. Many spoke against them. I would have joined in, but neither spirit, nor voice, would push me.

1973 103rd day - 262 days follow

Cloudy, with showers. Worked around house. Had numerous phone calls. Put prime coat on 2 book shelves for living room. Brought Becky here to enjoy hot bath with running water for shampoo - we had tea and cookies while her hair dried.

Received phone call from Wash. D.C. regarding forthcoming action on Alaska pipeline rights-of-way.

up by 7:30 because 1973 104th day - 261 days follow

The President Lincoln Assassinated 1865 cat insisted we get up - walking up and down on top of first one, then the other of us and even touching Bill's face.

Spent much of day writing and typing material for the Econews and Redwood Chips.

Dave did his writing here and I typed rough draft.

Bill made sourdough English muffins just before we went to the Pattons - which was a mistake!

Bill Devall dropped in briefly about that time, bringing Sierra Club mail.

We had one drink at the Kay's residence at Big Lagoon, then back to dinner with Jean, Lud, Lydia Dada and John Moorehead. Mary M. went to sleep early.

1973 105th day - 260 days follow

up around 7:30.  
Palm Sunday Variable cloudiness.

Did some typing for Econews, then wrote letter regarding wild + scenic river proposal for the Flathead.

Bill went collecting at the Clam Beach ponds after lunch.

Dave was in twice - once before lunch - then later to use the clothes dryer.

Read and slept most of evening. Bill went up to Pattons, around 7, for the evening. I did not feel good enough to go out. Dong and Dave were also going up.

Up by 8. Raining. 1973 106th day - 259 days follow  
 Bill gone by 10.

At one I went to Dan Hancer's home to pick up S.C. first aid container, then on to Env. Center to leave Econews material. Then to Eureka's Vision Center to have my new bi-focals checked out. Then a visit with Helen Vatcher at her home (also Judy Bradfords) while leaving SC stuff for Judy.

Raining lightly most of day. Dave came in for awhile in evening.

Most of evening spent reading.

1973 107th day - 258 days follow

First Day of Passover

Up by 7:30. Showers today. Went to Trinidad School to vote before noon. Also went to Becky's to get water jars for filling. Stephen Lau, a botany-photographer type came by at 2:15 to discuss support, and get ideas for contacts for possible publication of his work on Redwood Region flora.

At 4 I took water to Becky, then stopped at Davis place to leave some phone messages. He came down later and had a second dinner with us. He spent most of evening, until late, going over USFS roadless area material. [He had copied EHR for 2 hrs!]

Read most of evening. Enjoying "Death of the Automobile" by John Jerome.

Bill Devall phoned Ute to give us report on an election upset in Eureka City Council race.

Awake very early.

1973 108th day - 257 days follow

Snuggled P-C, got up at 7. Cloudy. Bill went to Water Quality meeting in Eureka. Dave showed up briefly on way to Arcata.

Scrubbed gallon jugs for Becky's water supply.

Did a little ironing. Read and napped.

Dave was in a couple of times during day.

Bill went to Water Quality Control Board meeting in Eureka.

1973 109th day - 256 days follow

Maundy Thursday

Variable cloudiness, some light showers. Much big wind. At 9:30 I left for quick trip to Jannie Kirby's to return big pledge hammer, then to Jacques Bake Shop in Uniontown Square for some good whole grain bread - for us and for Becky. Feeling pretty good - for first time in over four weeks. Took water to Becky. Stopped briefly at Dave's place with messages.

After lunch Dave came down to do his writing on the Roadless Areas for Chapter comments to USFS. He stuck with it all afternoon.

I ironed awhile, then painted small book shelves and did other puttery things around house.

Dave here for dinner.

Ron Huntzinger here all evening. Fell asleep awhile after dinner, then wake up to read awhile.

Dave went home quite early - around 10:30.

Up by 7:45. Clear and windy. <sup>1973</sup> 110th day - 255 days follow

Good Friday (45 mph) on coast.

Felt pretty good. Worked around house in morning and did garden clean up during afternoon.

Bill was gone by 10. Dave showed up, but did not work on roadless area statement. Instead, he asked for a haircut, then foaled around with his camera equipment, finally taking off around 11:30. He would meet Ron H. at about 1 and they would head right out.

Took a little sun on my legs, sitting out of wind - in driveway, protected by shrubbery. Holly and her children came down, returning sleeping bag. I gave her some young fox-gloves and some ajuga.

Bill Devall brought in SC mail. Duff La Bayteaux phoned from Club offices regarding Ten Bears and Guides Unit pending Timber Sale - and need to get word from Dave about them.

1973 111th day - 254 days follow

Up before 8. Lovely day, Holy Saturday though still windy.

Began gathering up camp-type equipment and food-stuffs for overnight in Trinity Co. Left before noon. First stop, Grey's Falls Campground, east of Willow Creek. Walked to the very impressive falls down, down, down to the river by good stair stepped trail. A few young people were fishing from rocks high above water. Took a couple of pictures.

Searched out small pond where Bill did some aquatic plant and algae collecting. I took the sun.

Then on to Big French Creek Campground for the night. Early dinner, after collecting some wood. Lovely spot, only people there, and able to be right on the dogwood, maple - dripping fact flowing, clear stream.

Took short walk before going to bed around 9.

woke up to cloudy skies. 1973 112th day - 253 days follow

But comfortable and no wind. Had a good breakfast, leisurely, and cleaned up, <sup>camp</sup> leisurely while Bill took photos of peltaphyllum along creeksides - then I found *Boschniina* right in camp area while watching birds.

Around 10:20 we were ready to take to the trail up Big French Creek, having packed the car and moved it to start of trail. The creek was beautiful! It plunged over big rocks - then into deep, clear pools, snaking around the place with leafy, leafing out trees overhanging both sides. The trail pulled upward through mixed hardwood - softwood forest, but we could still hear the creek below. Took photos of what should have been Open Mtn. - snow covered in distance.

Light lunch when we came out on Brushy Mtn. road near Brooks Ranch. We hiked about 2 hr up - and 1 hr. back. Brief rest and snacks, then headed for Tish Tang Campground near Hoopa to look for a pond. No luck. Home to fog by 5:20. P-C happy to see us back.

Dave came in to report on the New River SC outing at 9:15. He was leg weary and snow burned.

1973 113th day - 252 days follow Fair, but windy after

patchy fog - or low clouds - cleared away. Dave arrived by 8:30 on way to airport to meet SF Examiner writer Carl Irving at 9:02. They returned here to use phone and plan day and to provide Carl with background, history, etc. of Redwood National Park. Then they took off about 10:30 (in rent car) for Bad Hills Road - and viewing of ARCO's logging around Redwood Creek and Skunk Cabbage Creek.

Took water to Becky - home by 12:15. Ocean rough. Small craft warnings out. Did some washing, cut grass, moved wood chunks, leveled ground where 2 big trees had gone down and left holes.

Bill and Dave returned about same time - 4:30 or so. Dave stayed for dinner. Bill Devall and Tina (?) came in awhile, as we were finishing dinner. We cooked "fiddlenecks" (*Woodwardia*) but I found them too bitter. Bill decided to try pickling them.

Carl Irving phoned Bill for professional comments on redwood reforestation problems. Dave went home quite early.

Up by 7. Lovely day - 1973 114th day - 251 days follow

warm (54°) but 30 mph winds in afternoon. Dave came in <sup>about</sup> mid-morning, and decided to do errands in Eureka while I was talking Sierra Club to a NR class at College of the Redwoods from 1 - 2:30.

Home by 4. Took water and groceries to Beeky. Home by 5:30.

Dave returned for dinner and the evening.

I typed roadnotes and comments in rough draft form, then typed long letters to Jim and Linda Walcott, now in Walla Walla.

Ready for bed around 11.

Mrs. Brandman phoned a message of his expected arrival tomorrow, so I pinned a note on the garage door for Sonya to see.

1973

115th day - 250 days follow

Lovely, warm day.

Did a lot of outside work without shirt - picked up some color on arms and back.

Up by 7:15. Lovely day. <sup>1973</sup> 116th day - 249 days follow

Had to prepare statement for Coastal Commission. Meanwhile, Dave helped Harriet Gray on a statement for the Calif. Trails Committee, which I typed in final form after doing errands in Eureka and taking water to Becky.

Raced into City Hall by 7:30 to present statement regarding off road vehicles use before Trails Com. Well attended hearing, mostly motorcycle, dune-buggy crowd, however. Stayed late talking to Com. members and Parks Dept. people, Sacramento-type.

Home by 11:30. Ron Huntzinger here.

<sup>1973</sup> 117th day - 248 days follow up by 7. Lovely morning, though fog was in early.

Dave came in, then took me to Trinidad so I could be picked up by Joan Hess and others - to attend Coastal Commission meeting in Crescent City. Lovely drive - wind high in C.C. Meeting at Court House began at 11, then at 11:45 there was lunch break.

About 8 of us (from Eureka-Arcata area) walked to lunch spot, leaving heavily against wind. Open space between Arcata - Eureka was the controversial subject on agenda. Both issues were put over for discussion until next meeting.

Did errand for Becky at Trinidad post office, after being left there about 4 (we took brief rest in redwood grove ~~on~~ going through Prairie Creek park), then walked to Dave's place. He took me home to start gathering back-packing gear for trip into McComb timber sale area next to Marble Mts. wilderness. We left after quick dinner with Bill. Doug took his car, leaving earlier with rendezvous arranged on Ten Bear Mt. forest road.

Dave + I took many roads before getting on right one. Stopped at 1 a.m.

McLash  
Creek Trip

APRIL

28

SATURDAY

Awake by 7. Cruised back <sup>1973</sup> 118th day - 247 days follow down road to where Doug was and together we found a sunny breakfast spot. A grader was working on the road. At 9:50 we headed out - down the McLash road, having left cars in safe, dry area - slushy snow in many places yet. Lovely day - clear.

Doug felt he should not push his luck with his knee problem - after a couple of miles - and at lunch time decided not to go on. From end of road then, Dave + I headed up ridge, cross country, hitting much snow, climbing, dropping, climbing, through open forest, then to wind swept ridge. Mushing, plucking through snow, my feet were soaked by the time Dave located a campsite over ridge out of wind as much as possible. We dropped our packs around 6 in a large snow covered meadow, next to some large, somewhat protective doug firs. Plenty of dry wood to gather for fire on snow.

Before stopping we photographed - from the ridge top (Sandy Ridge) the great sweep of the Siskiyoun Crest with Preston Peak dominating the entire scene.

Not much time was wasted on dinner. No tent - slept right on snow - C.O.L.D!

SUNDAY

29

APRIL

1973 119th day - 246 days follow

Low Sunday - First Sunday after Easter

Sunshine in our faces at 7:15. The white world sparkled. Breakfast was difficult with wind and balky stove, but we managed. Before heading back on McLash Cr. ridge, we (Dave) took photos from <sup>cold!</sup> wind swept ridge above Monument Lake, just barely visible as snow melt began. Around 10 we began back tracking for an hour or so - then we explored the forest-meadow area as Doug had suggested. Rather slow going in snow, but beautiful! Lunch stop near a large meadow with stream flowing through high snow banks.

In late afternoon we plunged nearly straight down slope through forest and hit the road about a mile or so from car, reaching there about 6.

Dave took me over Ishi-Pishi Rd - my first time. Sandwich and coffee in Willow Creek. Home by 10:30.

Bill phoned from Iris' at 11:30, but didn't get home until 3 or so.

P.C. glad to have someone home.

Bill had gone to Big French Creek with Corinne and Trish - also Gray Falls.

Woke up around 8. **1973** 120th day - 245 days follow

Social Security Tax Return Due

Lovely, clear day. Corinne phoned about 10 to say "hello-goodbye." Bill was just leaving for school.

Dave came in around noon to phone McCash re cutting plan to Sierra Club - S.F.

Took water and mail to Beeby around 1:30. Went to special "Coastal" meeting at Env. Center at 2:30 - 4:30. Result: formation of Citizens for Open Space Committee.

North Group Exec. Committee then met from 4:30 - 6:00. Everyone there.

Took one Jackie Goin home - off Chamwell Road after retrieving car from Arcata station where one new tire was put on.

Mary McArthur, Doug & Dave here for dinner - Bill's 51st birthday.

Bill Devall came in awhile.

Rest left about 10:30 - full of sparkling burgundy & champagne.

I went to bed by midnight - ~~except~~ Bill kept me yelling, so I couldn't read - he was extremely unkind and argumentative.

**1973** 121st day - 244 days follow

Up at 7:45.

Did some washing - as well as a little house cleaning.

Took water to Beeby around 4, then made quick trip into Eureka to have glasses repaired (frame undone) and check items at Blue Chips Stamp Center.

Earlier I stopped to leave messages with Dave and had first "tour" of the completed dark room. (He had just finished developing his first negatives - successfully)

Dave showed up after TV news was over - for short while.

Tired - I fell asleep on couch after light, all alone type dinner. Bill took care of himself.

up before 8. <sup>1973</sup> Bill slept late. 122nd day - 243 days follow

Began day making phone calls regarding Coastal Commission actions on May 10.

Bob Kirby showed up - stayed an hour or so. Dave showed up before Bill left to show us his first black and white print - very good! Bill went into school before noon.

Cleaned house. Made numerous phone calls. Dave showed up again around 3 to make phone calls, and later - again - around 6 on way home from campus errand. He stayed for TV and dinner, leaving by 8:30 to get back to work in dark room.

<sup>1973</sup> 123rd day - 242 days follow up by 7:40. Lovely

morning, though clouds increased during day and wind was cool. Worked around house after making 9:30 dash (in car) to give Dave a phone message of importance.

Worked in driveway most of afternoon - pruning ivy, raking, weeding, cleaning up. Dave was in briefly around 3:30 to check on availability of some slides of Redwood Creek by Don Tuttle - he went to Big Lagoon around 6 to see if "Andy" could locate them. Then he returned with prints to dry and a map to prepare and made a last minute dash to Arcata Greyhound depot to send package off to Carl Irving at SF Examiner.

He continued drying other prints during evening.

Bill showed latest color slides, a collection over winter up to Big French Creek more recently.

Lovely morning.

1973 124th day - 241 days follow

Did ironing. Dave came in around noon.

Strategy meeting - open space - at Env. Center 2:30-4:00. Dave went in with me, but did not attend meeting.

1973 125th day - 240 days follow

Lovely day. Up by 8. Worked around house then took sweats and groceries to Beech. Walked to Dave's place and back.

Made huge macaroni salad for S.C. potluck. Made plane with Dave to leave for Gidea Roadless Area (Stones Valley timber sale) right after meeting. Holly Gibson went in with us to meeting - around 6:15.

While we were at meeting Dave brought work and some laundry to do - and arranged his gear for trip.

Bob Saunders, Recreational Planner, BLM, did the program on King Range management plans. Small group, but all attentive. Home by 11:15.

Quickly gathered pack, bag, food, etc. and Dave and I headed out around 11:45. After some hopeless scouting of side roads and FS Boise Cr. Campground - full - we ended up at nearly 7 AM along side the Bigfoot Golf Course in Willow Creek.

MAY **6** SUNDAY

up by 7. Foggy.

1973 126th day - 239 days follow

Second Sunday after Easter

Breakfast in Willow Creek, then right on to Happy Camp in a couple of hours. Drove up Fryingpan Ridge road. Flat tire and shredded water hose brought us coasting (mostly) 10 miles back down to Happy Camp. Found auto supply place open, for new hose, and had tire repaired, then tried it again. Went all the way to end of road where logging had occurred, but spent some time at vantage point getting oriented - wonderful views of the Siskiyou + Red Butte area.

Fixed dinner before dark. Increased cloudiness during afternoon brought decision to sleep in camper. Much snow left on ground around us. Lots of wood (from logging activities) for small fire.

Big Ridge Marble Mts. Kings Castle photo -

MONDAY **7** MAY

1973

127th day - 238 days follow

Bright, sunny morning. Ready for the trek by 9:45. Headed straight up ridge. Lovely open timber - picturesque in snow mantle - slow going, wet snow, some ups and downs, but beautiful. Came across freshly made bear tracks in a large snow field. Encountered several "sets" of coyote tracks, also on snow. Managed to reach 7036 ft. elev. on Big Ridge, [in the Marble Mts. wilderness] after very steep ridge climb. Had lunch and photo break. Warm enough to enjoy time out on ridge, though much snow clinging northern edges.

View was spectacular - all the Siskiyou crest, all the Red Butte area, Shasta all-dominating, the higher, immediate peaks in the Marble Mts. and bits of Trinity Alps in distance. Went on to near Kings Castle. Took photos there and decided we should return - about 3:30 and a long hike back. Hit part of the crest trail, then plunged back down ridge to car. Drove to Cold Springs to have lunch. Went down Elk Creek Rd. to Hwy. 96 and right on to Willow Creek by 9:40 - 2 hrs. from Happy Camp. Cite there and got home by 11:15.

Cloudy on coast.

Up by 7:30. Lovely morning. 1973 128th day - 237 days follow

Face very sunburned, so I didn't spend much time outside. Walked around house, then about 11 o'clock took mail, groceries and water to Becky. Tried to get her power mower working, but without luck.

Pattons phoned from Ocean Grove Lodge around 4:30 - they would bring fish for dinner. Dave joined us - after working all day with Ven Kort.

Pattons would spend night at Lamberts at Big Lagoon, so they left before 10. Dave went home early, too.

1973 129th day - 236 days follow

Lovely day, though windy. Worked outside and did some washing.

Dave and Bill had dinner together.

Attended NorCoa Environmental Health Committee meeting in Eureka from 7:30 to 9:30.

Home by 10 to find Violet, Deanna and Carollee here - just preparing dinner. Went to bed around 11:30.

1973 130th day - 235 days follow

Up by 7:15. Gals in living room still in sleeping bags in living room when I left around 8:40.

Lovely day to have to spend inside! Attended Coastal Commission meeting from 9:30-12 - 1:30-5. Lunch with Lory a dozen others in downtown Eureka. Two controversial developments were bombarded and held over for two weeks, then decision expected.

Home by 6. Fixed dinner [Goop] for Violet, Deanna and Carolee, who had all been horseback riding up on Fiddle Hill.

Deanna + Carolee, both with cots, napped most of evening. Bill, Violet and I talked until 12, then I went to bed - leaving them to talk as long as they wished.

Wind, gusty during day, died down toward evening - and it was beautiful and warm in early evening.

1973 131st day - 234 days follow

We were stirring by 8. Dave in for phone call at 8:30 - Klamath NF. The Rustings got away around 9. Bill went into school. Dave went with me, around 10:30 or so, into Acreta to get some <sup>SC</sup> materials to Julie Van Kirk, then do a few errands.

Took water and groceries to Beeby around 1:30. Fog hung along shoreline.

Made 4:30 phone call to Harry Taylor, Klamath NF - for Dave, having left him at home after about an hour walk on Big Lagoon beach with him and Doug and MT.

Dave came down for early dinner with us, so we could all go into Eureka together for the Audubon meeting.

Saw FS film "Think Like a Mountain" - about endangered and threatened wildlife. Fine film. Talked with Fu-Flo at Stanton's - over coffee. Cindy and Phil Kay came into Stanton's also, on way to Patricia's Point park.

Up by 7:30. Prepared to **1973** 132nd day - 233 days follow  
leave by 9:20 to pick up Dave and attend Ex-  
Com. (Chapter) meeting at Patricia Pt. State Park  
10-5. The fog played hide and seek with  
us all day - until late afternoon.

Came home for dinner, then Bill  
went back with us to "socialize"  
around a nice campfire.

On hand were Bob + Sandy White + 2 boys,  
Phil and Cynthia Kay, Charlotte Stephens and  
Joan Warner. Ken Lytle and Kay Hudson  
had returned home earlier.

Don Hansen and Mary McArthur  
showed up during afternoon portion of  
meeting, but could not stay on.

Home by midnight.

**1973** 133rd day - 232 days follow

Up before 8:30. Fog on  
Mother's Day shoreline most of day. Dave +  
Third Sunday after Easter MT showed up early, having  
washed down. Morning (local) paper had story of  
"pending" clearcutting of "buffer zone" to Redwood  
Creek park lands.

Waked to Dave's place before noon, returning  
alone by 1-- with both hands full of letters!

Made cookies - and Dave showed up again,  
so I got help moving big desk down into garage  
so I could complete the re-finishing job with  
room to work.

Bill went plant collecting. Dave read and  
I vacuumed catnip from dining-room floor  
- where a catnip mouse had been shredded.

Dave stayed to receive phone call from his  
mother - and for dinner.

After dinner we all went for a walk -  
 $\frac{1}{2}$  hr - 9:00 - 9:30 (getting dark) -- to Sufferholts  
Beach and back. Fog hanging close, but  
still and comfortable air temp.  $\frac{3}{4}$  moon.

Up by 7:30. Fog flirting 1973 134th day - 231 days follow

with shoreline again today - heavy in airport area - warm in Eureka. Took Becky to Bank of America around 11:00 to get account started. Did a couple of quick errands, then headed home. Got some coffee and half an English muffin into Becky before taking her home. Quite shaken, she was not in mood to eat.

Took care of other monetary affairs for her before getting home again at 4.

When Bill returned (4:30) we quickly headed out for a brief walk to Ruffenbatty Beach. Clear + warm enough to sunbathe on deck for short while. Fog moved in again at Moonstone Beach around 6.

Dave came in, brought his dinner (and fed RT here), made phone calls, etc.

Bill DeWall dropped SC mail off around 7:15 as we ate dinner and watched 4 whale spouts from living room.

Dave felt cold coming on, took gobs of vitamin C and went home at 9:15.

Clear moonlight most of evening.

1973 135th day - 230 days follow

up early in order to get  
Becky to Court House in Eureka by 9:15. I was  
allowed to sit in courtroom during very closed  
sessions -- in fact was only an involved person  
there. Becky held up throughout. Fred not changing  
mind - decision by judge pending.

~~Stayed~~ Raced home and got ready to  
leave with Dave - for Ashland - by noon.  
Quick cafe lunch at Hinesville. Very warm  
going up Smith River Canyon. Hot when we  
reached Ashland at 5 PM. Had dinner  
out of doors with Melody and Bill Ashworth and  
children, including Sarah - 6 wks. old!

Set up Siskiyou photos in Medford City  
Hall Council Room 7-7:30. Rogue Group  
meeting lasted until 9:30 or 10:00 with  
Dave doing the major presentation.

Set up a while with Ashworths, then  
put sleeping bags out on lawn. Still  
very warm. It had been up to 90°  
in mid-day.

1973 137th day - 228 days follow

Awake with birds around  
6. We slipped away around 6:30, driving to  
Yreka (about 40 mi.) for breakfast.

Spent nearly 3 hours in Klamath NP  
headquarters, primarily with Harry Taylor.  
Lunch before leaving town. Drove  
~~Forest~~ to Hwy. 3, down through Callahan,  
stopping to collect algae from Etue Creek,  
looking at mountains, and cooling off  
near Dan Rice Creek. A brief stop  
at Trinity Alps Resort, but Ted & Jean not  
there. Brief stop with Leonard Morris  
in Weaverville. Home to fog 8:30.  
Bill had MT.

1973 138th day - 227 days follow

1973 139th day - 226 days follow

Up by 7:40. Dave came  
 Armed Forces Day in early to check weather and  
 plans for flight with Congressman Paul McCloskey  
 over Redwood Creek. It all happened after 1 PM.  
 Taped up Ecorenew material - final draft.

Bill went to Arcata. I took water and  
 picked up groceries for Becky, getting home  
 again around 4:30. Dave came down to go  
 with us to Mad River Symposium at the  
 Moose Lodge in Eureka. Cocktails at 6.  
 Dinner at 7 with McCloskey featured  
 speaker. Buffet dinner ~~sponsored~~  
 put on by Fishermen's Wives Group.  
 Very good! And so was McCloskey!  
 The Congressman thought Nixon should be im-  
 peached if found to have been implicated in the  
 Watergate affair. He agreed redwood forest around  
 park in Redwood Creek area should be pro-  
 tected, but cost of acquisition was high. He was  
 for wild rivers - no dams!

Packed car for quick overnight trip to  
 Twin Lakes. Dave went home at 10. We left  
 at 11:20 - and Bill didn't stop until 2:45.  
 On forest service road west and north of Orleans.  
 Moonlight. We had ALT with us.

Near Twin Lakes - NW of Orleans - 4500' (approx.)

Awake fully around 8. 1973 140th day - 225 days follow

Fourth Sunday after Easter

Quick, easy breakfast at old, hard, dry ground log landing site. Fog deep & thick in valleys below. We had spent night roughly  $\frac{1}{2}$  mile from our <sup>planned</sup> destination - Twin Lakes (which may have been missed in dark).

Interesting lakes - one with floating mat - almost the other - yellow pond lilies all over. We had the area to ourselves. Bill collected at both lakes, though variety of aquatics quite limited. Much bird song, but saw few. Surrounding ridges had, and were, being butchered by logging - the 2 lakes were a real "oasis" amidst all the destruction. Woods very dry. Gathered a few plants for transplanting (prostrate ceanothus, maponia and small cedars).

Sun batted before lunch - on road near car - for full sun. Otherwise, fairly cool.

Very windy driving home. Found Dave in kitchen making sour dough English muffins - Had simple dinner, late. Dave went home about 10.

Clear on coast - ocean was rough before sunset - 2 whales spotted.

1973 141st day - 224 days follow

MAY **22** TUESDAY

1973 142nd day – 223 days follow

WEDNESDAY **23** MAY

1973 143rd day – 222 days follow

Up early in order to get to 1973 144th day - 221 days follow

Coastal Commission meeting at Eureka City Hall by 10. Two controversial developments, North Humboldt Bay Area [Bayside Cut-off] took much time. Ate lunch in town with others concerned over same issues. Decisions to grant permits came at 2:30.

I remained until public time at end of agenda, then spoke of my disappointment over the earlier decisions. It was 6 PM when the meeting adjourned. Home by 6:30. Dave here with Bill watching CBS news with Walter Cronkite.

1973 145th day - 220 days follow

Took weekend water supply to Becky, then packed camping, hiking gear.

Left with Dave around 4 to make camp at Cedar Springs on G-O road. Rhododendrons beautiful everywhere. Dinner very late, having waited for Bill Devore to show up.

A family from Sebastopol camped nearby. Cleared cold.

MAY **26** SATURDAY

Managed to get small fire going to warm feet before sun reached us. Mary McArthur, Barbara Hoodenpyl and son Dean showed up. They had joined us last night and camped farther up road. Dave gave brief orientation at end of road and we began hiking up jeep road at 11. Lunch stop was above a small lake or pond - with frogs singing. Very comfortable temperature. Turned north on a trail that leads into the old Kelley trail and tromped through quite a lot of snowy places. It began to cloud over, so fearless leader Dave located a camp near another pond in heavy forest - with much snow still around - and we all made camp shortly after 3 PM. Sprinkles of rain only, materialized, but everyone was snug with tents up. Everyone took care of his or her own dinner, but with one central, small campfire. In bed - in tent - by 9 o'clock.

1973 146th day - 219 days follow

Buck Camp  
Ridge 6-0 road trip  
SUNDAY **27** MAY

1973 147th day - 218 days follow Up by 7:30 w so. A lovely day - breezy with big clouds passing. Left camp around 9:30, prepared for long day of exploration. Before we left, first Bill D and then Linda Woodruff headed back out - both with other commitments cutting into their weekend. Mary and Dean went with Dave and me up onto Buck Camp Ridge - wonderful views of Preston Peak and other high points. Dave took several photos - some looking across to Sabana Sawtooth Mtn. We looked for ponds, we pushed through manzanita, we scrambled over rocks and through snow. Saw fresh bear prints in snowy patches. Lunch near a small watercourse above huge cedars and fir - lots of trilliums and currant, and violets - and a lovely fragrance that we couldn't figure out. At a trail junction about one mile from camp Dave and I took off up the ridge and "closed a gap" when we hit the ridge trail that goes on to Harrington Mt. Much snow in some spots; found a small lake that we did not see last 4th of July trip. Views of Marble and Trinity. Back in camp by 7. Went over to the Perkins camp to talk while Dave fixed dinner. After dinner the whole Perkins gang brought marshmallows over for us to toast. Clear and cool at bed time.

Awake to blue skies at 7:30. 1973 148th day - 217 days follow

Ready to leave camp by 9:50.  
Memorial Day (In District of Columbia and most States)

We left (big) packs in brush & trees once out to jeep road - around 10:30 - took lunch snacks and walked down into Eek Valley for lunch alongside Blue Creek. The area traversed by the jeep trail was varied - much open forest, some drier areas, and many lovely meadows. Flowers in Eek Valley were popping out, though snow remained around shaded areas. Very warm on the hike back out to the cars. Arrived

at car after Dave and Dean. Mary and Barbara showed up half hour later. We had cool soft drinks, then pulled out. Others left area completely, but Dave and I decided to explore Doctor Rock trail - to above Water Hole - as long as our energy lasted. Hiking without shirts was pleasant. Lovely views, interesting area, trail quite passable, though apparently little used. Returned to Crick for dinner - around 9:30.

Doug and MT at home with Bill.  
~~Dave remained~~

Bill had gone to end of 60 road on Sat. but did not stay overnight.

Doug + MT had gone to Preston Peak area.

1973 149th day - 216 days follow Up by 8. Feeling good - no

sore muscles. Did some washing, then took mail, groceries and water to Becky.

Picked up Dave at Moonstone and headed for Eureka. Left Dave at F & Co office, talking to Gary Monroe, while I went to Coastal Gem office to get appeal forms. Later Dave & I returned to get yet another piece of material from Sah's office, but it wasn't ready.

Home again by 5:45. Dave stayed for dinner.

Up before 8. Foggy all around. <sup>1973</sup> 150th day - 215 days follow

Worked around house. Dave feeling ill, so we left him on living room couch. Bill went out to Murray Dunes with Harriet Gray - to photograph flowers in pinne.

Took water to Becky before 2:30 in order to keep appt. with Dr Frank for a Paps. test at 3. Did errands in Arcata, then dashed to Coastal Com. offices to get proper appeal forms - and had brief talk with Jack Lake. Home by 6.

Dave took only liquids, mostly, and some toast - having lost everything during day.

We played some Yahtzee, then headed for bed around 11:30.

Made up complete bed for Dave on couch.

<sup>1973</sup> 151st day - 214 days follow

Ascension Day

Up by 7. Low fog, but it cleared before noon. Dave feeling well enough to get up after light breakfast.

Up by 8. Dave had slipped out early to go to Hoopa with Vera Korb. Fog cleared early. Worked on final typing of two appeals forms for State Coastal Comm. from 10 until 2. Sun bathed on deck for 35 minutes only - in new bikini. Wind very heavy at times, but flattening out on deck was very nice and warm. Indexed things at University library, then took some to Regional office, mailed others - let Gary Mowse lead it over while dashing through Eureka. Tacked briefly to Bill Hegy in State building - just outside coast.

Took some things to Beedy around 6. Dave came in, reporting day in Hoopa as interesting, but frustrating wind to mess up sound track. He stayed overnight.

1973

153rd day - 212 days follow

Up by 7:30. Beautiful day. MT and I headed for beach - very low tide around 8-2.2. We walked out to ocean edge, around the rocks at north of Moonstone Beach, then crossed Little Pine and walked along edge.

Dave off with Vera again; this time a Powwow at Ferakole. Bill not feeling well.

Did some washing. Got Kelly came in. Took water to Beedy, then hurried home to bathe and make salad for Sierra Club potluck. Bill did not go.

Good meeting. Norm Allen showed slides of 3 yrs. (3 summers) collected in John Muir wilderness - with wood music.

Home again by 10:45. Bill already in bed, reading.

Lovely day - warm 1973 154th day - 211 days follow  
 after fog cleared. Dave popped in  
 for coffee on way to Ferndale - again.  
 Went up to Becky's from 11-1, and  
 got all the mowing done. It got  
 warm enough to work without shirt.

Bill and I sun-bathed on deck for  
 an hour.

Did some sewing after sitting up  
 emachine on little deck - out of wind.

Dave showed up around 6. Bill had  
 just returned from grocery shopping  
 with Outie - and I had spent an  
 hour or so cutting grass around piles of  
 wood.

Dave went home in fighting mood - after  
 a discussion of disposing of pets.

1973 155th day - 210 days follow  
 up before 8. Fog in  
 until early afternoon - did a lot of washing -  
 Bill went into school, but was back early to sun-  
 bathe with me between 3 and 4 o'clock. Took  
 groceries & mail to Becky. Worked in garden  
 awhile - clipped ivy away from roof  
 edges; cleaned rain gutters out.  
 Dinner was late.

Had bath and shampoo quite late.

It was quite warm all evening. Bill  
 and I took a quick walk to Lupper-  
 hoety just as the sun was disappearing  
 into the heavy fog bank - way  
 north now - around Trinidad Head.

Up by 7:30. Quite foggy. <sup>1973</sup> 156th day - 209 days follow  
 All ready to leave for Eureka by 9. Quite warm there - sun out as I did errands and shopping for Becky.

Back to Arcata Transit Authority to pick out a bicycle - 10 speed.

Had done errands in Arcata first - like taking appeals to City Council Hall.

Back home by 2. Still foggy here, so worked in garden awhile. Bill arrived around 3. We sun-bathed when the sun broke through the edges of fog, but then it disappeared and we got dressed again and continued working. Then, later, after 5 the sky was blue and we took the sun until nearly seven o'clock. Had a quick shower.

Bill had to go to an 8 PM meeting. I walked to Dave's place and he + MT returned with me before dark - 9:15.

Bill arrived shortly, then we all went to Dave's place to listen to one of our records. Home again by 10:45 to do dishes and exercise before bedtime.

<sup>1973</sup> 1973 157th day - 208 days follow Foggy until mid-morning, then beautiful and warm.  
 First Day of Pentecost (Jewish)

Lynn Lawson here for a couple of hours - talking phosphates and the environment - relating to cleaning of products - she's pushing Apollo products. Bill went to school at noon after preparing tests and other material all morning. Sun bathed from 12:30 to 1:30, then after phone call from Dave, went to his place to put jumper cables on his car to get it started. Went on up to Becky's place for about 1/2 hr. Returned to work in garden. Bill returned and began sunning himself immediately.

Dave showed up for 6:30 Walter Cronkite news program.

We all went walking after 7:45 dinner. Bill went only to Sufferbally Creek. Dave, MT and I went on, found Gary back home from Woolley Creek on Klamath Forest and he walked back to Moonstone with us.

Foggy in morning. 55° 1973 158th day - 207 days follow

Sam bathed around noon.  
Dave here working on SC stuff.

1973 159th day - 206 days follow Foggy until near noon.

Sam bathed for about an hour.  
Bill went to graduation ceremonies  
10-12, then came home in early  
afternoon.

Dave here much of day and  
evening.

Phoned Bob White that Bill D.  
and I would not be attending  
Chapter Ex Com meeting in Kapa  
tomorrow. (Bob reported 104° at 3 PM.)

Took water and groceries to Pecky  
in late afternoon.

Up by 8:15. Made later 1973 160th day - 205 days follow  
 of cookies while Bill slept late. Found  
 P.C. had cut on throat - arranged to cut  
 her to Vet's before 2. Sun bathed around noon.  
 Dave showed up as we were leaving  
 around 1:30 or so. He stayed at house  
 until we returned.

After 3 I went to Create on errands.  
 Dave with me, but in dreadful "mood"  
 about a SC check and left me to ride back  
 from town with Bill Devall, whom he  
 must have called.

Home by 5:30. Bill and I took  
 short walk after 6.  
 "P.C." had possible claw damage near  
 jugular vein, had antibiotic (temp over 103°)  
 and did nothing but sleep all evening.  
 Did some typing.

1973 161st day - 204 days follow

Whitsunday - Pentecost (Christian)

Up by 8:15. "P.C." went out-  
 side for first time since 2:15 PM  
 shot at betti. Her face badly swollen - uncomfortable  
 for eating, so she settled for lots of milk.  
 Sun bathed from 1-2. Bill's shoulder  
 hurting, but he fiddled around in kitchen making  
 sour dough "jordanes".

Dave arrived around 1 - to receive phone  
 call from Dr. John Lecky, NDPC, who showed up  
 here around 3:30 - with wife Helen. They talked  
 Redwood Park until 5, making flight plan for  
 morning, weather permitting.

Before dinner Dave, MT and I walked to  
 his place. Borrowing Dave's car we got Dave's  
 started with cable jumpers on battery. Drove to  
 Sufferbalty area, left car, walked home.  
 After dinner, in 3/4 moon light, and Bill along,  
 we walked to get car. Did some typing, SC.  
 Dave went home around 10:30 after one  
 Yachtie game. Bill took aspirin and cod liver and  
 went to bed. I did kitchen clean up,  
 then exercises, then a bath and got to  
 bed around 1. "Moonlight now hazy -  
 some clouds."

JUNE **11** MONDAY

1973 162nd day - 203 days follow

TUESDAY **12** JUNE

1973 163rd day - 202 days follow

*Beautiful day!*

Beautiful day! Took 1973 164th day - 201 days follow things to Becky after putting first coat of French polish "on new" cabinet.

Sun bathed from about 12:30 - 1:30, then prepared to leave for Ft. Bragg. Had to complete some phone calls before leaving.

Picked up Shelley Thompson in Manila. Made first trip over Samoa bridge! Amazing views. My "hand out" was foiled, since I didn't want to back track and waste gasoline. Beautiful drive all the way down - cool at gas and "nibble" stop in Garberville in mid-late afternoon.

Checked into Vista House motel, just north of Ft. Bragg. Dinner in town at Tarotino's right above mouth of Kings River. Early dinner - huge crab salad -- while watching fishing boats coming in through small jetties.

Coastal Commission meeting at the motel began around 7:30 or so and lasted until after 9.

We retired fairly early.

1973 165th day - 200 days follow

Flag Day

Up by 7:15. Beautiful, warm, clear morning. Drove into town for breakfast. Ad in open, sunny doorway until time for 9:30 meeting. Shelley went walking above Pudding Creek - fine view of ocean from motel grounds.

Approval was given, with conditions, to two Eureka area projects we did not like. Fish and Game Department had conditions, too. Mal Cousser, Area Mgr. BDO (Likan office) and Bob Saunders, recreational planner, were on tap to cover agenda item regarding ORV use at rocky on Manila dunes. Results would set stage for any future use.

Drove to Pygmy Forest, then had lunch rather hurriedly, just before 1:30 resumption of meeting.

Made some good SC contacts. Left around 4, coming back to 101 by way of winding, interesting Branscomb Rd. to Faytonville. Weather still beautiful - some big clouds around. Home by 9:30.

Beautiful day.

1973 166th day - 199 days follow

Ambathed for an hour mid-day then prepared to leave for King Range outing by 5.

Barbara Hoodenpyl picked me up. Earlier I had taken things to Becky.

Uailaki  
camp

1973 167th day - 198 days follow

Awake to birdsong and a very wet camp, wet sleeping bag, etc. around 7:15. Light breakfast, then we followed Dan's party to pre-arranged meeting place - road junction of Sheltercove and Kings Crest trail road. Raining lightly, the entire time we had on the peak, which is where we had lunch. Visibility zero - we were in the clouds. Trailside vegetation was lush and most interesting. Eleven persons, including Bob Saunders, BLM Recreation planner from Ukiah made up the hiking group. It was a warm rain and though wet, everyone agreed it was a good day.

Barbara + I drove to beach at Shelter Cove. I took some photos of sand removal equipment near beach. Clouds and blue sky were with us the rest of the day as we drove back by way of Eureka King + Petrolia and Farndale. Stopped at Old Mallot's for around 1/2 hr. pie and coffee. Home by 9:15. Bill gone.

George Van der Horst phoned at 10:30. I drove up road, passing Bill en route, to give message to Dave. Bill had had dinner with Doug and Dave.

Dave came down at 11:45 to use phone.

1973 168th day - 197 days follow

Father's Day

Trinity Sunday

1973 169th day - 196 days follow

Fog in early morning, 1973 170th day - 195 days follow  
clearing somewhat later. Had to quickly  
prepare to go to Board of Supervisor's  
meeting for 1945 public hearing on  
Gene & Marie abandonment issue.

Dave went into town with me, but  
did not attend hearing. Home again  
by 5. Presented SC statement to Board.

Early dinner in order to attend  
National Environmental Health Comm.  
meeting in Eureka at 7:30.

Home by 10.

1973 171st day - 194 days follow

Left by 7:30. Dave waked  
down, borrowed Falcon, went to airport around  
9 to pick up George. They were here by 10 -  
very foggy earlier, but clearing was obvious.  
At 10:30 Bill and I headed for Trinity Alps Resort.  
Quite warm along the Trinity River when we  
stopped for lunch at Big Bear Station.

Got to TA Resort around 2:30 - found  
Jean & Sid ready to do anything but had  
store any longer - their "day" off - We drove  
to Mt. Meadow Ranch - sat in sun to  
discuss Patton business. Glaciers, views  
of Alps nearly bare of snow - nearly peaks.  
Beautiful clouds over mountains.  
Returned to TA Resort, where Sid made  
excellent chicken and noodle (and Misc.)  
dish for a late dinner.

Many of resort's young people  
dropped in during evening.

Headed home at midnight. Fog near  
coast - home by 2:30, but I had  
slept most of way, so was really not  
time conscious.

It was 85° at TA Resort at 3:00 AM.  
Kind of sticky-warm but not unbearable.  
Saw quite a few deer.

Up to low dawn, clinging <sup>1973</sup> 172nd day - 193 days follow to Shoreline fog. Bill had to leave without breakfast when phone call alerted him to dental appt. in Enuka.

Dave returned my car around noon and began walking home. I picked him up when I went to Trinidad for things to take to Becky Coleman. George was staying in a motel nearby Patricia's Pt. (allergic to ATT) and was dropped off around 2 o'clock to talk with Bill and me. Dave arrived on scene shortly and we had a long, very long, very emotional (on Dave's part) session about his future. When it was all over we had cocktails and dinner. Baked fish <sup>brood</sup> that Paton's sent home with us. New recipe for me. (from Gourmet book) and very good.

Dave and George left around 10:30 since George had an early flight out in morning.

Bill Devaal dropped by before dinner with a huge mushroom. (a bolete) that his mother had found. worth of Trinidad - it was too far gone for eating.

Fog, drizzly fog again. Worked around house, then went to Arcata on errands before noon. Took things to Becky, stopping at Dave's briefly to pick up my steam iron. Later he came in to use phone. Bill went off to Arcata for Jeep's muffler repair, then earlier he had taken load of stained glass windows from Paton's to go to Anthea's friend Mel Fleming for repairs.

Dave left after five. Then I took off on my bicycle and had a fun ride to Trinidad and back before 6.

Worked on varnish removal from big desk in kitchen part of afternoon and large part of evening.

Fog and low clouds persisted all day and evening. Bill and I walked "briskly", after dinner, to Sufferkottly Beach, getting back at 9:20.

Started out high fog -

Up by 7. Ready to be picked up by Bill Devall at 8:15 to go to Crescent City. Dan Sealy was another passenger to attend the Redwood Nat'l. Park Advisory Committee meeting at the Del Norte fore grounds. The tone of the meeting appeared to change when Sierra Club presence was noted. We had a chance to comment. Very warm in Crescent City.

At noon break we drove to mouth of Smith River to see if anything in the way of open space was left - we found little - and, certainly no further development is necessary! Lunch in Smith River, then back to the meeting from 1:30 - 5:30.

Home by 5. Grabbed bicycle and to Dave's place. Left bicycle and walked home.

Dave rode bicycle down before dark, then we drove home much later.

Worked to remove varnish from deck.

Up by 7:40 - Beautiful morning. Out on my bicycle by 8:20. Rode to Trinidad and back, stopping just for a cup of coffee at Dave's place. Bill and P.C. had late. We abject, while I worked around house and on legs of old deck. Around noon one Lee Smith from Nat'l Geographic books (Washington, D.C.) and son Rod, arrived to discuss the Redwood N. Park - in order to update book. We sat in the sun on the deck with tape recorder going. Dave arrived, so his version of what has and has not happened with the park got taped, too. Bill, meanwhile, was busily packing. Dave later walked home.

At 5:15 Bill and I went to the Devalls for cake and home made ice cream. Very warm. Dinner around 9. Dave showed up to help Bill pack car, then left around 11: - (not taking time)

Bill got away after midnight.

JUNE

25

MONDAY

70 } 72° in Eureka  
 new } record high for this date }

Up around 8. Fog left 1973 176th day - 189 days follow  
 early and it turned very, very hot. Dave  
 was in briefly. Sun bathed after  
 starting to clean in Bill's office.  
 Clouds had gathered, but dispersed in early  
 afternoon. Lots of people on Moonstone  
 Beach.

Went to Arcata from 3-5 - errands,  
 Env. Center and ATA for bike lock  
 and small bag for handlebars.

Walked - took water and groceries  
 to Becky, then stopped for drink with  
 Doug and Dave.

Quick dinner, then into Eureka for  
 8 o'clock meeting at the new Downtown  
 Motel for Apollo Household Products.  
 Lynn & Don Lawson ran the evening.  
 Home by 11. Cooling fog had  
 moved in - after 76° in Arcata.

TUESDAY

26

JUNE

1973 177th day - 188 days follow

U hunk on door at 7:00 A.M. -  
 Dave and M.T. had walked down after Doug left at 6:15 -  
 fog, clinging fog until mid morning. Dave had a bite  
 to eat, then walked back home.

Started some washing. Sun bathed after  
 lunch, with time out before 2 to dash up to  
 Weathaven P.O. for packages. Very, very warm.  
 After thoroughly cooking myself (extra time today)  
 and reading - and finishing the washing, I  
 bicycled to Dave's place around 4 o'clock.  
 Left bike there and walked to Trinidad Post  
 office and picked up some 7-up for Dave.

After a cool drink I walked home, around  
 6:30 TV news. Light dinner, then reversed  
 walk - still warm, but fog moving  
 slowly inland and clinging to Trinidad  
 Head. Arrived at Dave's at 8, then quickly,  
 after a cup of coffee, I bicycled home  
 while still light.

Did some reg cleaning and  
 vacuuming, then bathed and headed  
 for bed around 11:15.

Found one of P.C.'s "Primals" rolled up in  
 Navajo rug, when I took it out on deck to  
 sweep! The poor lizard was tail-less.

Awakened by 7 o'clock 1973 178th day - 187 days follow  
knock on door. Again, in low wet fog. Dave & ST  
had run (jogged) down the road.

I prepared to go to Coastal Commission, leaving  
at 9:00 AM. only to learn city Hall in Eureka, and  
learn it would be evening meeting! Did shopping  
and errands and bumped into Dwight May in  
Court House - a chance to talk "coast". Saw  
Dave Stang at FS office, briefly, on a Claude Mack  
personal thing - Leuzinger. Home by 1:30. Bill  
Devall phoned just when Bob Kirby arrived -  
while I was writing a quick note to Gary  
Williams.

Walked to Trinidad, dropping photo supplies etc  
at Dave's. Foggy until 3 PM. M.T. walked home  
with me. Dave came down to watch TV news at 6:30.  
At 7 I left for the REAK Com. meeting.  
It lasted until after 9, then they went into ex-  
ecutive session. I asked for clarity on issue  
of "relocation" in permit area.

Slippy, like rain, fog in Eureka. Less at  
Trinidad, where I had coffee with Dave  
and talked about the meeting. Home before 11.

1973 179th day - 186 days follow Awakened by cat fight  
in kitchen at 5:45 - just light. PC. scratched me  
badly when I got to her outside. Very low, wet fog.

Dave drove down around 7:30 to make  
phone call to Klamath forest, then returned  
home because a phone was to be installed soon.  
Cleaned Navajo rugs and stacked them until  
living room floor is varnished - sometime.  
Took groceries, mail and walk to Becky around  
3. Stopped at Dave's as Bill Devall was  
there, too - with SC mail.

Began some sewing - and washing.  
The sun poked through in late afternoon.  
Dave worked down around 5:45 to  
watch news of Watergate hearings and to have  
dinner with me. Jean Hagood phoned -  
a lengthy talk, followed soon by Becky,  
also lengthy. Dave went home.  
Phoned Jean at Trinity Alps Resort  
around 9.

Bill phoned from Gellan Bay  
around 10 and we talked a long  
time -

In bed around 11:15 to read awhile.

Awakened by phone call <sup>1973</sup> 180th day - 185 days follow  
 at 8 am <sup>Feast of the Sacred Heart</sup> by from Ed Wayburn - about a  
 TV man due up here to cover redwoods plight near  
 park. Foggy until nearly noon. Took P.C.  
 into Animal clinic shortly after 10 to get worm pills  
 down her throat. Picked up a redwood board to replace  
 splintered one on deck. George Udell phoned.

Dave showed up on foot, wanting to talk to  
 me about conversations with George in past - he  
 was a mess - tearful, wrought up, unwilling  
 to change his notions about his family's offer of  
 helping him out of a financial hole. We went round  
 and round, but meanwhile I took the sun-  
 then he stalked off - nothing resolved. Ran  
 mail up to Trinidad around 4. Visited  
 Lynn Lawson here - at just that time! She  
 phoned later that she had dropped by.

Did a lot of mending during evening.

No word from one Sasha Von Ketter.

PC in good shape, after getting fed at  
 1:30 - having had empty stomach all night  
 and all morning.

<sup>1973</sup> 181st day - 184 days follow

Awake by 7:30. Lovely  
 day after fog cleared. Phone arrangements made  
 for flight over King Range Monday afternoon with  
 Don Clamen - Bill Sevall, too. Walked up to  
 Dave's place around 5:30 after working around  
 house and sunbathing about one hour. Then  
 Dave walked back with me as far as Suffer-  
 lity Creek.

After dinner (between 9:10 - 9:30) I drove  
 back to Dave's place with load of his clean  
 clothes that had been hanging around.

He had before. No word from  
 the TV man expected.

Dave in better spirits after long talk  
 with his mother by phone earlier in day.

1973 182nd day - 183 days follow

Up before 8. A lovely morning. Walked up to south of Luffenbathy Beach boundary and, with MT, explored the beaches at -2.2 tide. Many people out looking, collecting for Marine Lab. and just enjoying the scene. Home again by 9:30 to clean house and make arrangements with Dave about Roger Almetead's visit. Picked up Dave at 1; picked up Roger from 1:20 flight into Arcata Airport; dropped off at home, leaving them with the Falcon for transportation. Had a 2 hr. visit from Mike - talking Coastal problems - he was in Trinidad area. Did some letter writing, reading and sun bathing. Donna Hankins picked me up around 5 to go to Ted & Jo Trichilo's home in Fortuna for a C.C. Com. strategy meeting about Butler Valley Dam hearings on July 18 before Bd. of Supervisors. Picking up others in her van we then had problem of getting gas - Stations closed all over town - one Standard (of Cal.) open, people lined up - limit 10 gals., service slow, attitude - unconcerned. Champagne and buffet supper for about 20 and a very productive meeting. More meetings scheduled. Dropping off at Dave's at 11:30 I brought Roger home for night - Dave would walk down for breakfast tomorrow.

1973 183rd day - 182 days follow

Lphy 7:15. Foggy. Dave + MT arrived shortly after 8. Breakfast in living room. Dave took car so he and Roger could "explore" Redwood Creek and current logging. Bill Devall phoned - would pick me up at 2 o'clock. At 2:30 we were met by Don Clauson's field rep. Elmer Harkin, then Don came in to go over maps of area we desired to look at and we went off for a 2 hour flight over the King Range. Don was piloting a Cessna 182 (part <sup>1st</sup> time), skies were clear (fog out over water) and not bumpy. We had superb viewing of rocky rock and cranny in the range, fabulous viewing of the ocean front - great long stretches of remote wild beach - and the problems. A very worthwhile time in the air & Don seemed most responsive to suggestions on management plans. We discussed protection of coastline - & acquisition. Bill dropped me off - but not until he had completed his final packing at home for his Alaska trip leaving after dinner with his parents. Dave & Roger arrived 6:15 in time to relax a bit before 7:20 plane time. Warm - we sat on deck. Dave & I then had hamburgers at Sam's restaurant, Trinidad Harbor. I walked part way home, and he picked me up down the road - with MT.

First thing - 8:15 phone call from Jean Hagood.

Foggy until "noon-1:30" 1973 184th day - 181 days follow

Breakfast late because PC didn't get me up in time to walk at low tide on beach.

Went to Eureka and Create to do errands and shopping. Had a dance to talk with Chris B. Olson.

Home by 12:15. Took the sun for a few windy minutes, then into jeans and field boots to be ready for inspection of L-P bark disposal site on Somoa peninsula - this with a staff member of coastal commission. The area had already begun the slow process of restoration from use once as logging ponds. Great bird habitat. Agri-metrical lands surrounding it. Took 8 photos - (slides).

Home again by 2:30.

Took groceries, milk + water to Becky. Before 4. Stopped briefly at Dave's with message that I would pick him up in one hour for dinner with Paul Fritz at Hagood's. We reached Creek around 6. Kay + Keith Chaffey there, too. Had a good talk session, then, having <sup>by</sup> mistake, locked PC in house, I headed home around 9 - and was in bed to read by 9:45.

1973 185th day - 180 days follow

Foggy - up late 9:15. Independence Day PC a sleepy head! Worked

around house, trying to lose a headache.

Sun bathed from 1:45 - 3:30. Quite warm on deck. Ocean choppy, but so blue and so beautiful.

At 4 I walked across the Somoa bridge, starting at the Eureka end - closed to all motorized vehicles from 10 A.M. - 11 P.M. - open to walkers and bicyclists. Though clear at home, the fog hung low over the Bay. It was warm and pleasant - no wind. Lots and lots of people. Returned to car around 5:30.

Took a few pictures - and did a lot of viewing of the fantastic egret rookery. Counted over 100 birds in the tree tops and many more scattered around shoreline.

Had dinner with Dave around 6:45. Took MT for brief run on Trinidad beach. Home by 9:30.

Up by 8. Foggy until 1973 186th day - 179 days follow  
mid-morning. Phoned Dave to see if there was anything I could do for him either in Creata or in Enue ka. He promptly brought down some materials to get Xeroxed.

Got Bill's college mail - looked at micro-film of T-S election result stories to send onto a woman writing feature on environmentally oriented political changes - worked in County library over one hour, then back to HSD library for other Xerox jobs. Sunny and warm.

Lay on deck in bikini from 2:45 to 3:15. Lovely. Wind on water, however.

Took trip to Beaky. Met Mary McArthur on way - then saw her again at Dave's - briefly.

Dave brought dinner down here - and his redwood photos, which I put on bus at 8:15 before attending BVD meeting at Env. Centre.

Took Harriet Gray home at 10.

Lovely morning - no fog.  
Up by 7:30 - Left shortly after 8 (after breakfast) on bicycle ride to Tuniad. Stopped at Dave's for coffee, but he + Doug were out for breakfast. Around 10 I picked up Dave and together at HSD library we loaded "historical" redwood park material - 10 cartons - collected by Kay Chaffy. Dave decided to store them and we would go through stuff in time - for keeping with CRAP files, duplicates back to library.

Sun bathed and read - on deck - for two hours after lunch. It was beautiful.

Mavis + Bill Devall, Sr. came in for awhile - thought I would need someone to feel safe if I went backpacking. Trip cancelled. Worked on big desk awhile. Norm Allen + Ken came out to photograph their cabinet, finished, and to take big crosscut saw back to Gwap to put on hauler. Had a few phone calls - Don Graham about fence up again on beach.

Worked on desk again - for hours - after dinner, then deposited refrigerator.

Ready for bed by midnight.

Letter from Bill today.

Beautiful day.

1973 188th day - 177 days follow

Worked on big desk.

Dave heard from Sasha Von Witten.

Seen talked nearly 2 hours.

Took things to recycling center by 3 PM.

Walked to Trinidad and back before dinner.

Dave showed up and went with me to Harriet Gray's after 9 to see slides shown by Bill Van Fleet. Fanny came home quite late from his studio. We stayed to see Bill's slides of flowers on Murray dunes that he had recently sent to Harriet.

Home around 12:30, leaving taking Dave home first.

Rashid  
Sasha  
Annie } camera crew  
1973

189th day - 176 days follow

Up by 8:15. Beautiful day. Dave phoned as soon as Sasha (and Co.) arrived. I drove up to Dave's, then drove my car on to truck with Rashid (from Afghanistan) as my passenger. Dave went in Sasha's van, along with cameraman Annie (from Germany). Leaving Ford in Orick, we all went on in van to Lady Bird Grove. filming trees, standing, Alca white trees ones stood (Berry Glen cut) and beautiful Humboldt lilies along trail. Then on up Bald Hills Rd. Lunching as we drove; more filming (for moving up Redwood Creek canyon) then clear skies, and gray skies depending on where we were. Got Ford in Orick, drove to Foot Man Creek gate; walked into flat beyond the N. 76. Much filming there before Dave and I left them on their own around 6 o'clock.

Met them later - at Dave's, then excellent dinner and good fun at Seascape restaurant on Trinidad Bay.

The crew brought me home around 10:30 and we all quickly headed for our Wilson couch, two on desk.

1973 190th day - 175 days follow

up at 7:40. Clear, but fog hanging close by. Deck sleepers had moat covers. Dave arrived in my car at 8:15 to help cook breakfast for the gang. They got underway around 9:30 and we were sorry to see them go - a great trip.

Dave remained to do some washing, help me clean up kitchen, and then do some quick errands in Astate before lunch - back home. After lunch I got things ready to go to Becky and took Dave home at same time. Left Becky to go to Marine. Feb. - talked with Dr. George Crandall while waiting for one Ed Stephens, who had list of names of trade users on one a south of Suffernbury under dispute.

Dave arrived around 4 to finish his laundry. I sunbathed for about an hour - quite warm from nearly 4 to nearly 5 o'clock. Doug and Dave invited me up for dinner around 7. I walked up. Talked briefly with Elizabeth, Peggy - en route. Dinner out of doors - then a walk on beach below. A pink breasted grosbeak had been spotted close to home oney minutes before my arrival at 6:45. After supper, after beach walk, Dave drove me home - it was nearly 10 - God too dark even with half a moon - to walk, since fog was moving in as one big dark blanket.

1973 191st day - 174 days follow

Awakened early by leave and MT - down to watch Mitchell on TV. They left around 10 when it went off air.

Prepared brief statement to present to Board of Supervisors concerning abandonment of scenic time easement near Suffernbury Beach. Made many phone calls to get other support to retain one in County possession. Geo. Cranston (Marine Lab) and Fred Telonchee provided brief statement, which I added as testimony during public hearing in afternoon. A decision will be made next week - possibility of negotiating with land owner.

Left Emma around 4:30 - picked up Dave to go to Trinidad to vote against annexation to Humboldt Bay Muni. Water District. After getting home to feed P.C. and quickly changing clothes, I hiked back up to Bob's place for a turkey pie - done out of oven at 7:15. After dinner, we walked back to Moonstone, arriving about 9:30. Turned around again and took Dave + old home in car.

Pitted some cherries given to me by Becky. Set pit overnight, sugar and.

Letter from Bill - Card from Pollock. Saw Alan Hance from 1-1:30 to discuss SC projects.

Off and on foggy - often quite windy.

1973 192nd day - 173 days follow

Up by 8. Phoned Dave that "Watergate" on TV was good and he came roving down around 8:30, remaining until they returned. Started some washing - worked on desk legs, preparing to apply 2nd coat of French polish. Made a cherry pie - out of oven by 4 - after I had sunbathed awhile. Took things to Becky, had cocktails and dinner with Dave - who had stayed home - cleaning house and cooking a delicious pot roast.

Got home to feed patty-cat before too late!

1973 193rd day - 172 days follow

Beautiful morning. Up around 7. Early walk beautiful, no traffic. Clouds indicated thunderstorms over mountains. Left a 9 for 9:30 Regional Council Conv. meeting in Eureka. Meeting over by 12:30 - home by 1. Sun bathed between 1:30 - 3:00. Quite warm - breezes on ocean, however.

rote wrote and typed news to Bill, sitting with back in sun, but inside living room. At 4:45 I started bicycling to Dave's place.

Don Tuttle came in around 6 and since he was batching, too, all 3 of us worked on the pot roast and salad.

Around 9:45 Dave washed home - moonlight kind of hazy - with me, but it was warm (both in light shirts), no wind and practically no traffic.

I left my bicycle at Dave's to retrieve in daylight.

up by 8. Again, TV 1973 194th day - 171 days follow  
and "Watergate" took up an hour or so.  
Dene and Art here. Afterwards I walked  
back with them and rode bike home.

Went to town, after doing  
some washing, around 4-5.

Took things to Becky, then took  
some chicken and beer to Dene's  
because Don Tuttle was going  
to have a "batching" dinner  
with us "batchers" again -  
around 6:30.

Walked home after dinner.  
Got a letter off to Bill. Also got  
in a good sun bath in early  
afternoon.

1973 195th day - 170 days follow up by 8. Foggy all  
day. Did some work in garden and  
much pruning, dumping, trimming, cutting.  
I hurt my leg on stepping off ladder  
into sharp woodpile, scraping skin in  
great swath - a mess.

Phoned Dave about dinner. We  
could put enough together for a meal, so  
I ~~washed up~~<sup>ok</sup> with mayonnaise and 2  
artichokes! We finished the pot-herb-

Back home by 10. Pitted cherries  
for pie (6 cups of them) and got to  
bed around midnight.

Awake early. Up by 7. 1973. 196th day - 169 days follow  
 Foggy (high) all day. Walked to Dave's place &  
 back before 11 - watching birds on return trip.  
 Many hawks and american goldfinches. Also  
 saw sea lions (one white) and about 25  
 brown pelicans.

Made 2 cherry pies, then worked  
 on big desk in garage.

Don Tuttle came by to pick up an  
 old range book (1902 - Humboldt & north coast).

Ate dinner around 6:30, then  
 drove to Dave's place to discuss Butte Valley  
 Dam IES (draft) that was brought to me for  
 preparing SC statement.

Home by 10:45 and in tub when  
 phone rang - Bill! We were  
 cut off twice and had a rather  
 noisy connection, but got our messages  
 to each other across finally.

1973 197th day - 168 days follow

P.C. and I were lazy!  
 We stayed in bed until 7:30. High fog all day - warm.  
 Dave dropped by very briefly around 9 on way to Eureka.  
 Spent entire day reading thick Ew. Impact draft for  
 Butte Valley dam. Gary Williams appeared - very briefly,  
 around 11 - then back after six. Took water to  
 Beely around 5:30 and brought Dave + MT  
 down for a "combined" dinner.

Gary left around 7 - staying in neighborhood  
 with Jerry Brown. Dave took off - in my car - before  
 8 to be with Ken Korb + others viewing film.

MT and I took quick walk to  
 Sufferholz Beach before dark. Walked  
 out short trail to overlook. Quite a number  
 of people on the beach - several netting.

Did some more reading - and some  
 writing on BVD project - some ideas  
 for statement.

Wrote a few notes to Bill.

Corinne phoned - back from month long  
 vacation trip to Wash. D.C. Phoned Iris with  
 report. Iris + Lee just back from their trip  
 to Texas.

Up by 7:45. Foggy again. Dave + MT here for breakfast, then Dave began drafting statement for hearing on BVD project - working until nearly 11. Then I typed first round; then we edited.

Went to Arcata and Eureka after lunch. Attended Bd. of Super. meeting from 2-4 to be on tap for decision on abandonment issue on Seismic Drive, then a Eureka apartment project. The Seismic Drive issue is not entirely resolved, but the board acted to deny the request for abandonment of the easement in question. I had Jeff Dave with my car, but as arranged, found him at Swansland, happy with some new purchases.

We shopped for groceries in McK. Then streaked home. Found that MT had located bag of dry cat food and gorged herself.

Decided to have pizza for dinner, so Dave drove into McK. at 7:15 to pick up phone order.

We needed a wash later, so after some phone calls, went to Sufferbilty Place + back before dark. Then I drove Dave and his "boat" home.

Gary Williams come in before noon to say a quick hello and goodbye, before returning to the Sierra foothills and fire fighting chores.

1973 199th day - 166 days follow

Up by 7:30. Foggy, but warm - no wind. Had lots of phone calls as I tried to get statement typed. Finally, around 10:30 I got finished, drove up the road to pick up MT and take water + pie + flashlight to Becky, and also tried out, and timed, the statement with her.

Did the final typing job after lunch and was just finishing when Dave phoned from campus. I worked out that I could give him ride home when I went in to get Xeroxing done at library.

Dave was "bushed". He had left at 5:30 and it was hot in Hoopa. I took him home after he gathered up some stuff here and made a slight correction on his statement.

Tex and a candy bar (after a hamburger in Arcata at 4) took me through 4 1/2 hrs. of hearings at the Eureka High Auditorium.

I was the 4th speaker to be called and the 8 min. statement was received with a hearty round of applause, as was Harriet Gray's for SWAP just before me. Most testimony was in opposition to Butler Valley dam and a wide variety of reasons were given.

Gave Dan Sealy a ride to Arcata. Bill Devall, back from Alaska trip, was at hearing.

Had good talk with Col. Lammie prior to hearing. He is District Engineer for Corps.

Have banged on door at 8<sup>1973</sup> 200th day - 165 days follow  
to get some forgotten gear, on way to meet Vern for  
another day of filming near Hoopa. PC and I  
did not get up until nearly 9 - I had a  
bad headache. Foggy all day - warm 60°.

Foiled around the house, ~~made~~  
took some phone calls and waited for  
Jean & Lud to show up. They didn't get  
here until 3:30 and I had expected them  
by noon. They couldn't stay long - took  
their big TV set out of garage, headed for  
Anthon, then right back to Lewiston.  
They seemed extremely relaxed and happy  
with their newly found "home" in Roycraft  
Gulch, below Trinity Dam.

Worked outside briefly, pruning hedge,  
after they left. Did a little work on  
foot stool, getting ready to refinish it.

Had a fire from the time Lud  
bought one at 4 o'clock.

Louise Renne (Dep. Atty. Gen.) from SF.  
phoned for a sundown on last night's  
Hearings.

1973

201st day - 164 days follow

Late breakfast -  
around 8:30 or so. High fog all day.  
Worked around home until 11:30,  
then took walk to Trinidad. Home  
again by 2 - stopped to chat with  
young couple looking for property.  
Also stopped to view sea lions,  
pelicans, grebes and other critters.  
Went to Aneta around 3. Xeroxed  
BVD things at + SD library, picked up  
Bill's mail, talked with Charlie Bloom,  
went to bank, P.O. and did misc. shopping  
Home by 5. Dave showed up.  
after a high ball he headed home,  
but I would follow with my own  
dinner to cook up there, along with  
Dong.

Bill Devall dropped by and we  
had a chance to hear something about  
his recent trip to SE Alaska.

Home by 10:20. In bed early  
to read - and do a little writing.

PC and I slept in until <sup>1973</sup> 8:30 or so. Foggy until mid morning. Dave

picked me up before 10 and we headed for campus, then Eureka -- he looking for burglar alarm systems -- and we looking for a wall type lamp. No luck. Shopped at Globe Import, then we had hamburgers at the Red Barn. Back to campus briefly and Artata Transit for a minute <sup>or two</sup>. Home by 7 PM. Immediately began sun bathing and reading. Phone call from Sue Van Kik, just returned from vacation trips to Idaho, Montana & Wyoming. Also received call from group rep. in Washington D.C. regarding urgent messages to Don Clausen about an amendment to a bill to keep Alaska pipe line issue under NEPA's wing.

Phoned Dave and told sent my own telegram soon.

Worked on foot stool -- ready for refinishing job -- then began work on TV screen -- new material (burlap, red). Dave showed up briefly around 10 reported Doug not feeling too good.

1973 203rd day -- 162 days follow

Up by 8:30. Sunny -- and big clouds over mountains.

Worked around house all morning.

Put bicycle in car after lunch in order to ride across Samoa bridge. (Open to bicycles, motorcycles, etc. but not pedestrians today). First I explored the peninsula, going all the way out past the Coast Guard station. Loads of people on the dunes, fishing from the jetty, fishing from boats, sailing, riding bicycles, motorcycles -- and many sightseers. Very windy riding from Eureka to Samoa, but not too bad going back -- great viewing of egrets. Home by 3:30.

Did some outside work.

Quite warm in spite of wind.

Put coat of French polish on top part of big desk -- after dinner after working outside until dark.

Up by 8:15. Fog cleared 1973 204th day - 161 days follow  
early - lovely morning. Took to garden.

Picked up pump at Becky's around 11 after taking her groceries & mail up. Then headed for Arcata and a noon meeting at the Env. Center regarding pending lawsuit over proposed Arcata freeway. A large group on hand. Attorney needs 2 more weeks to prepare case.

Got bag put on handlebars of bicycle - securely. Found leather, finally, for pump, and got home around 3. It was warm. Sunbathed until after five - reading new Geographic.

Took pump to Becky around 6 and got some groceries at Trinidad.

Went for walk after dinner - about 2 miles along Scenic Drive.

Talked with both Doug & Dave briefly by phone during day & evening.

Did some BVD typing.

Had phone talk with Cynthia in mid-morning, as I was finishing up a letter to Bill.

PL sunbathed with me.

1973 205th day - 160 days follow  
up around 8. Nice day - Gordon Robinson phoned - would be up here for a couple of days - arriving after dinner. Dave and I did errands in Arcata and Eureka, after meeting with newcomer Ray Rice (US Forest Experiment Station) on campus from 11-12. Lunch together at the Epicurean. Jim Koplin and a friend sat with us.

Lovely and warm. Home by 3, but no time to do anything - no walking, no bicycling. Had dinner with Dave after taking water to Becky. Home before 8 - in case Gordon showed up -

Gordon. Susan Bayle + Alan goes home in around 9:30. Went to Dave's place, then back to be around 12.

Up by 7:15. Dave

1973 206th day - 159 days follow

showered up (MT, also) around 8. Everyone indulged in unhurried breakfast.

All got away by 9:15. Gordon + co. Aps for Eureka + Six Rivers Forest offices. Dave followed me to Arcata (after I took him home) where the Falcon was left for a day's work on it.

Met Dwight May at 10, had coffee - Dave did errands, then joined us. Home by 1. Beautiful, warm day - 64 + °. No time for wash, no time for sunbath. Had a couple phone calls regarding Coastal Comm. meeting.

At 4:15 Dave took me back to Arcata to retrieve car. Gordon + gang returned around 6:30. Bill DeSail dropped by. Dave in also.

On way to Gasquet for dinner we stopped by Steele Watkyns briefly. Dave was there for dinner - Steele alone.

Back home by 9:45 - Alan + Gordon decided to put sleeping bags on deck - Beautiful, clear evening.

Letter from Bill today. Flathead area hot and dry.

Jean returned a bag area with John Hart + others.

Gordon and Alan remained

1973 207th day - 158 days follow

Beautiful morning. Up by Dave's phone call at 7:15. Gordon made his excellent buttered hotcakes for seven of us. Dave walked down, Bill DeSail came out - and Steele Watkyns joined us. Whales spouting! Saw several during day!

The "gang" took off by 10 - Gordon + co. headed for Gasquet Ranger District Off. Bill D. stayed to help me get started on EIS for BVD. Bob Kirby arrived, looking for material on Snow Mt. wilderness.

When everyone left I did dishes, finishing at 2 PM.

Very warm - over 70°. Sunbathed from 2-3, then walked to Trinidad and back just to stretch my legs and get away from house. Back by 5.

Dave phoned that he got his enlarger, finally! Had wonderful bath + shampoo, then rested until Gordon returned - and with him were 3 more people. They had met at District Office - SK also, and arranged to have dinner with Dave along. At 7:15 I picked up Harriet, then Wes + Mike and attended meeting re. BVD at Bill Shepley's.

Up to sunshine at 7:30. 1973 208th day - 157 days follow

Gordon and Alan were leisurely. Dave + MT walked down - we all watched "Watergate" on TV as we had breakfast. Gordon & Alan got away around 10. I walked home with Dave to help him on the basic assembly of the new - and huge - enlarger. Walked back home by 10 o'clock - cool + foggy again - suddenly. Had to walk briskly.

After phone calls and kitchen work I went to Acosta around 3 - then on to Ivan Hess' to work on Coastal Corn. Statement - Warm in Acosta until fog moved in there.

Home by 7 - Phoned Dave. We threw dinner together around 8:30, then I helped him carry enlarger from living room down to dark room.

Took walk on beach before heading home. Fog quite low - and wet.

1973 209th day - 156 days follow

Up by 7:30. Foggy, cool. Walked to Dave's and had to walk back because car battery failed! Breakfast at 9:30, then Dave took package (times to be exchanged) which I had carried down - and wrapped - to mail to SF.

Typed portion of appeal hearing statement, then Dave edited what was written. Sun came through.

Took water + mail to Becky around 3 - then back to statement work. Tom Parsons phoned.

Took ~~quick walk~~ about film Sasha Jon Weller had borrowed. Phoned Sasha's home and got return call at 9:45.

Dinner around 8:15 - Dave + MT here still. Took walk to Supperbottle beach + back right after dinner.

Back to work on statement draft - finishing around 11:30 - very rough.

Up by 7:30. Low fog 1973 210th day - 155 days follow  
 - until mid-day. Took quick walk to  
 Luffenbally Beach. Many colorful  
 linnets and gold finches flitting about.  
 Dave and I worked on the Coastal  
 statement until one John Putnam,  
 writer for National Geographic arrived. He  
 had phoned in morning, then flew up from  
 S.F. to make a trip plan for Monday with Dave.  
 Story on forest resources. I fixed him a  
 quick sandwich and beer and we talked at  
 length until Dave showed up again. (Friends  
 of his brother John had arrived at his place).  
 Around 7:30, after everything had calmed  
 down, Dave and I had dinner at  
 Seascope - no food in his  
 house on this one that appealed  
 to us. We walked in the cool, wet  
 fog from Dave's to the boat basin.  
 Had to wait for table. Had just  
 enough coin to pay for a do-it-  
 yourself hamburger and coffee.

Make plans to work with Ivan Hov  
 and later Bill Devall tomorrow.

1973 211th day - 154 days follow Up by 7:30. Foggy near  
 ocean. Typed up final draft of appeal  
 summary. Had perox copies made at  
 HSO library before 4. Took Dieter  
 Valley Lane IES material to Bill Devall and  
 went over some points with him - I dumped the  
 letter drafting and final comments in his lap.

Dave, who had spent most of day with  
 John Putnam, including flight over Redwood Creek  
 and Klamath River area, reached me by phone  
 at Bill's. I picked him up in downtown Arcata.  
 I was invited to have dinner (with Dave) and  
 Norm Allen around 7.

Took water to Becky before going to  
 Dave's place.

Left Norm and Dave working on photo  
 equipment - home by 10:15 to get ready  
 for trip to bay area.

Dave had helped on final summary  
 before meeting John at 10.

up by 7:30. Foggy.

1973 212th day - 153 days follow

Social Security Tax Return Due

Had to drive up to Dave's place to help him get his car started so he, in turn, could drive me to Joan Hess' in Bayside by 10. Brief stop at HSU library to do more Xeroxing. Hess family (wife Susan, child, dog) all ready to rock. Very, very warm drive to San Leandro. 93° near Richardson Grove around noon. Lunch in Willits. Arrived at Hess residence 5 PM. Very warm - sat inside to cool down a bit, then moved to garden. Joan's father (Bob) did hamburgers on Hi-back.

Pleasant evening - fun people. Bob showed some slides, then we all collapsed shortly after 10.

Very sultry evening -

Shocked by continued big building developments around bay.

\* First Coastal Appeal

1973 213th day - 152 days follow

up by 7:30. Left at 8:15, going via San Mateo bridge to Hyatt House at International Airport. State Coastal Com. meeting began at 9:30. Lunch right there at coffee shop - Our appeal item came up around 2:30. Arrangements made earlier with staff made presentations go smoothly to deal with both projects. Atipak first, then us for 15 min. followed by mobile home developer. Joan showed slides when I finished statement, all pertaining to both proposed developments. Margaret & Nathaniel Curings came in shortly after my presentation and sat next to me. They had appeal going to preserve historic center of Monterey, rather than have modern Convention Center clutter up the town.

Bob Maper & Dan Fallock of Fish & Game were on hand to back us up. Bob answered a few questions regarding wildlife habitat.

Sat with Dwight May on 6:10 Hughes AirWest flight home. Dave & John Putnam picked me up. We all had dinner at Seascope. Didn't get home until 10:30.

Up by 8:30. Foggy in 1973 214th day - 151 days follow

morning; warm and sunny afternoon. Walked to Dave's and he brought me back. After lunch and many phone calls I bicycled to Trinidad & back.

Exercise feet good after much too much sitting last 2 days.

Took mail to Becky & collected her water bottles.

Put some stuff together with what Dave had and had dinner together at his place. Took a walk along beach, stopping briefly at Steek Waddys as we made a loop trip.

Listened to our new records and then headed home at 10:30.

P.C. helped with bath and shampoo and we got to bed at 11:45.

Found BVD material on porch - missed Bill Deoall.

1973 215th day - 150 days follow

Monday were hazy - we didn't <sup>try</sup> think about getting up until nearly 8:30 - listening to news from 8 on.

Fixed 2nd coat of French polish and applied to big desk top - also, small stool.

Worked in garden after lunch - pruning, cutting, watering on way back. Warm enough after fog cleared to take shirt off.

Worked until nearly 4.

Took water to Becky, then stopped at Dave's place - got invited to dinner - some beef and cabbage.

Phone early, but again missed Bill Deoall, who phoned at 11.

Started typing letter to Bill before bedtime.

Up at 7:15. Waked 1973 216th day - 149 days follow

to Trinidad and back before lunch. Foggy in morning, clear afternoon.

Took cans and bottles to Recycling Center and did various errands.

Took photo materials to Dave, who was printing like mad before heading out on wilderness trip.

Worked in garden a couple of hours after dinner, then had a frantic call from Dave about getting his stuff sent to SF. He would be leaving early morning with Steve Watkeys and gang.

I watched him make prints, then dry them, but returned home by 10 because he was not through - and I was tired.

Sent long, long letter to Bill, which was finished after breakfast.

1973 217th day - 148 days follow

Up by 7:15. Foggy. Worked in garden all morning.

Dave dropped package of photos here at 9 - on his way out of town.

Continued working in garden after lunch, then got clean and went up to Aunt's at 3. Her sister, Catherine Holbrook from New York was here for a few days.

I stayed until nearly 8. The sun came through around Moonstone Beach but it remained foggy the whole time at Aunt's.

Packaged up photos and other SC materials for mailing in morning.

Up by ~~7:30~~<sup>6:45</sup>. Foggy. 1973 218th day - 147 days follow

Worked most of day on typing of coastline <sup>small</sup> parkland priorities.

Walked to Davis place (to check it out) and back before 6.

In bed to read by 11 or so after doing some letter writing, (S.C.).

Bill Devall came by to leave some SC materials (for files).

Had to race into Eureka Greyhound by 8 AM to get Davis photos ~~sent~~ off to S.C. office.

1973 219th day - 146 days follow Up by 7:45. Wet, drizzly,

fog. About 52°. Watched "Watergate" on TV from 8 - 9:30.

Checked out Davis's place, then went into Eureka. Spent nearly 1½ hrs. at Coastal Com. office. Picked up tote bag and sleeping bag from Hers; then did some quick errands in Arcata and dashed home. Lunch at 7:30.

Did some writing. Interrupted by phone call at 6:05 - Orr Glen Harris, working on R15 for King Salmon area development. He and Steve Bingham drove out before 7. Went to Seaside for dinner. Home to talk "business" - Sierra Club position on project. They headed for their Eureka motel at 10:50.

Phoned Dave - home - in bed - gave message. (He had been in during my absence to pick up some of his things.)

We watched whales from living room before going to dinner.

Up at 7:15. Waked 1973 216th day - 149 days follow  
to Trinidad and back before lunch.  
Foggy in morning, clear afternoon.  
Took cans and bottles to  
Recycling Center and did various  
errands.

Took photo materials to Dave,  
who was printing like mad before  
heading out on wilderness trip.

Worked in garden a couple of  
hours after dinner, then had a  
frantic call from Dave about  
getting his stuff sent to SF. He  
would be leaving early morning

Up by ~~7:30~~<sup>6:45</sup>. Foggy. 1973 218th day - 147 days follow

Worked most of day on typing of coastline <sup>small</sup> park land priorities.

Walked to Davis place (to check it out) and back before 6.

In bed to read by 11 or so after doing some letter writing, (S.C.).

Bill Nevell came by to leave some SC materials (for files).

Had to race into Eureka Greyhound by 8 AM to get Davis photos ~~sent~~ off to S.C. office.

1973 219th day - 146 days follow Up by 7:45. Wet, drizzly, fog. About 52°. Watched "Watergate" on TV from 8 - 9:30.

Checked out Davis place, then went into Eureka. Spent nearly 1 1/2 hrs. at Coastal Com. office. Picked up tote bag and sleeping bag from Hess; then did some quick errands in Arcata and dashed home. Lunch at 7:30.

Did some writing. Interrupted by phone call at 6:05 - One Glen Harris, working on EIS for King Salmon area development - He and Steve Bingham drove out before 7 - went to Seacape for dinner. Home to talk "business" - Sierra Club position on project. They headed for their Eureka motel at 10:50.

Phoned Dave - home - in bed - gave messages. (He had been in during my absence to pick up some of his things.)

We watched orhalis from living room before going to dinner.

P.C. and I slept in until 8:15. <sup>1973</sup> 220th day - 145 days follow

Foggy. Worked around house awhile, then took groceries and water to Beeky.

Dave spotted me in Saunders Aikt. - asked me to stop by because Luis and Laverne Ireland would be there. Since I wasn't feeling too good I stayed until only about 4 o'clock.

A few rain drops fell around 6. Fog gave way to clouds.

Dave came down for beef stew. Dott Bartlett phoned from Eureka Inn. Passing through on Grange Tour with her 8th yr. old mother - would I come in.

Klave got more photos to go Greyhound. I stopped in Arcata to send them, then spent a couple of hours catching up on family events with Dott.

At 7:18, as Dave and I were both standing in kitchen we felt what was recorded as a 5.1 earthquake - Mendocino escarpment epicent, 40 mi. SW. of Eureka.

Dott said big chandelier in Eureka Inn ballroom swayed recklessly.

<sup>1973</sup> 221st day - 144 days follow

Up by 7:45. A grey day. Dave came by to list camera gear for insurance purposes - on way to Eureka. Rode bicycle to Trinidad around 5 and stopped at Dave's place for a light bill. He expected to have dinner with Steele W. and gang, but ended up eating here, although I was nearly through when he phoned. We walked to Sufferbotts bench and back before dark.

Had news of Regional Coastal Com - not good! Mobile home park exemption was granted. Again, we must appeal. Made many phone calls in that regard.

Went up to Dave's for special coffee brew and listened to a few records. Home by 11:30.

Had spent some time on letter to Congressman Don Clausen regarding King Range - in earlier part of day. Went to library for feroxing and picked up bill's mail before 4. Also spent some time with Lee & Iris and came home with meat, vegetables from their garden and some small redwood 2x4's. 61° and sultry in Arcata.

Up by 7:45. Foggy. 1973 222nd day - 143 days follow

Water problems from broken main short distance away on Scenic Drive. Tried to get typing done, but too many distractions. Safety release on water heater noisy - called in neighbor - shut off water. Went up on highway to see what was happening. We had 140# pressure on line.

Call plumber Don Williams to come to my rescue and he came out after dinner - would have to have regulator! Planned morning work.

At 8:05 I picked up Dave to attend the Emerald Creek Committee's arranged get together with two young women aides to Senators Claiborn & Tunney. Martha Campbell and Anne Wray. Dave took stack of Redwood Creek photos along and left them with Em. G. Corn.

Home by midnight. All water shut off for night.

1973 223rd day - 142 days follow Up by 7. Phone call from Dwight May. Dave arrived by 7:30 to have breakfast, then help me dig out driveway around water pipe connections. Don Williams arrived at 9<sup>am</sup> around 10 to put pressure reducing valve in place. Finished in 1 hr. Got dishes and washing finished as soon as I had enough hot water.

Dave & MT walked down around lunch time. At 1:15 I started to walk back with them, but detoured to Westhaven Post office (got my precious watch back from Bigfork), then located trail off 6<sup>th</sup> Ave that dropped to Scenic Drive. Walked on up to Davis' place, but never caught up with him. Had coffee and walked <sup>weakly</sup> home, but Bill DeWall picked me up at Luffenholts and ~~came~~ <sup>drove</sup> me home (with bag of letters). We had tea and talked at length about concern water issues - [He preparing to go to meetings in Washington and New York, soon].

Worked in garden until after 7. Dave arrived, after phoning, after 8. We went to McK. together to indulge in pizza. Back to his place for coffee and records. Back to bed by 11:15 - wearry.

A grey day, all day.

Up by 7:15. High fog. 1973 224th day - 141 days follow

Finished typing letter to Clauven re. King Range. Took water to Becky. Worked in garden all afternoon - much pruning to be done - and clean up. Dinner alone, late.

~~Have some more~~

Around 9, Dave came in for camera equipment - with Tim(?) from Australia, one of Steele's guests, who was now at Davis.

Polished up big deck and put things back in order.

Had a wonderful deep, deep, bath to relieve sore shoulder and arm muscles. In bed to read by 11:30.

1973

225th day - 140 days follow

Breakfast at 9:30. Got up at 9 - phone call from Dave Strong (USFS) delayed breakfast. Fog began clearing before noon.

Gonja Brandman and friend Paul Tuck were in, trying to locate housing for fall. Subbathed from 2:30-3:30.

Left around ~~7~~ to ~~pick~~ for Arcata and Eureka to get Xeroxing done at HSB library, then on to Coastal Com. offices for about  $\frac{1}{2}$  hr.

After errands for Dave (photo stuff) and grocery shopping, got home again at 6.

Dave did not return in time to go to 7PM Open Space Workshop at Coast House.

He was with Nat'l Geographic photographer Bruce Dale, flying over Redwood Creek, the Klamath River and "chasing" a logging truck in the fog on Arco or L-P lands. They got back around 8.

Home by 10:20. Note from Dave to come and report - had coffee, listened to a record and returned home around 11:30.

foggy - drippy foggy. 1973 226th day - 139 days follow  
 up by 7. Walked to Dave's place and  
 back by 10:30. No sign of sun at  
 Moonstone this day.

Returned to Dave's place shortly  
 after 1 so we could get errands done  
 in Arcata + Eureka. Found some  
 bed sheet material at Brigards in Arcata.  
 Meanwhile Dave took car and picked up  
 photo stuff; just arrived, in Eureka. Waited  
 until nearly 3 at Exer. Center.

Took water to Becky after dropping  
 Dave off at home. Picked 2 cups of  
 luscious blackberries at Becky's place.

Back again to Dave's place for dinner.  
 We each ate different meat - Dave,  
 turkey (ground) and I had small  
 venison steaks. Bill Devall came  
 in and sat with us, took a walk with  
 us to the beach around dark (8:30)  
 and remained until nearly 9:30.

I headed home at 10:30 after  
 writing appeal stuff to Coastal Com.  
 and listening to a couple of records.

Drippy, low fog.

Wine in Arcata during day.

1973 227th day - 138 days follow

Assumption of the Blessed Virgin Mary

Foggy all day. Drippy  
 wet before noon.  
 Worked on Coastal Com. appeal forms for SC  
 (and the Hawkins). Ready to Xerox by 3:30.  
 Saw Ivan Hess - near Library - he ready to do his  
 Xeroxing also. Home again, after doing a few  
 errands, by 5:15.

Dave + RT showed up by 6 - walking -  
 to watch Pres. Nixon on TV.

Dinner with Dave around 8. Bill D.  
 brought King Range (aerial) slides to me.  
 Doug returned - "beaten" after many  
 weeks on fire lines in Klamath N. Forest.  
 Bill, Dave + I went to Sr. Devall's home,  
 where Dave wired Bill's stereo stuff -  
 this while Bill gone for 6 mos. leave of absence.  
 Home again by 10 or so.

Saw a big lumbering  
 porcupine alongside road near  
 Baker's ranch road.

Up before 8. High fog. 1973 228th day - 137 days follow

Did some washing. Got some things ready for mailing in Trinidad when I went up with water and papers for Becky.

Walked up to Davis place by 6:15, had quick dinner, then he drove me home on way to Greyhound depot with photos - by 8.

Watched "Watergate & the President", an hour long CBS feature.

Clipped old newspapers awhile, then headed for bed around 10:15.

1973 229th day - 136 days follow

Up by 7:30. High fog. Left at 9 to attend meeting (in Court House) with Air Resources Board personnel. The session lasted nearly 3 hours. A small group, varied interests, but there to test the Sac. staff the pulp mill order was indeed a public nuisance.

Had lunch with Eve Davis at Stanton's. Back to Court House around 2 - to D.A.'s office to have deposition taken on the pulp mill order issue.

Picked up Bill's mail at the college and returned home by 3:45. Warm, clear.

Went walking at 4:30. Stopped a few minutes with Dave and Doug, then walked rather briskly back home by 6:20.

Began sewing project after dinner about - making bed skirt.

Moonlight and clear at 11 o'clock bedtime.

Up by 7:30. Foggy. 1973 230th day - 135 days follow

Clara worked on bed skirt awhile, then straightened room.

Took water and stuff to Beeky after lunch. Sun shining there.

Got out mower and worked about an hour.

Rode bicycle up to Davis place around 5 and only stayed long enough to view a wet 20x24 print.

Early dinner, then worked to Sassenbrey Creek & back.

A young couple had a missing dog, so I looked carefully for them.

Back to work on bed skirt.

Finished all but bottom ~~two~~ part.

In bed to read around midnight.

Bill phoned at 11:30 (P.S.), just before I stepped into tub. He would head homeward Wednesday.

1973 231st day - 134 days follow

Up by 8. Fog cleared around noon, but it remained cool.

Worked on the bed skirt all forenoon and finished after lunch. Vacuumed room and put old, old, bedspread on - a perfect color match - looks elegant.

Tried sun bathing awhile, after cleaning venetian blinds - but one hour was all I could take - breezy.

New neighbors to west in evidence.

Early dinner, then at 6:40 headed up Senie Drive. Went 2 miles. Talked with Shirley Shelburne about her building plans when she stopped at base of her property to inspect slides in sand - this part wet - but some willows holding.

Building costs "for a package" too high.

Interest rates too high - she may wait until spring. Home by 8.

Up around 8. Foggy 1973 232nd day - 133 days follow  
until nearly noon. Jack Lahr phoned  
about 9 - would bring out letter from  
Accumb. Dunlap (AB332). Alan Sands  
with him.

Worked in garden off and on. Had  
to go up to Davis to help him get his  
car started - around 1. (He stopped  
later, around 3:30, to borrow an old  
iron and to pick up some belongings.)

Early dinner, after sun bathing  
from 4-5.

Left at 7 to attend Parks and Rec.  
meeting at Court House. Last chaiseing  
by Dick Ridenhour, now on Harbor Com.  
Home before 10.

Saw news at 11 on TV - Ch. 3 had  
zeroed in on me - talking about the Moon-  
Stone Beach - Ricketts property - access.

1973 233rd day - 132 days follow Foggy in morning, then  
warm and clear. Prepared a brief statement  
to present to Board of Supervisors in afternoon - after  
helping Dave prepare materials to go with photos  
to S.C. He brought huge paper cutter, borrowed  
overnight, for me to return to Kennedy office  
supply, since I was going to Eureka. Managed to  
get a few Xerox copies made of SC statement on  
AB332 in public library, just ahead of 1:30  
public time - which ended up being at 1:45.

Stayed on to hear some other problems,  
then left at 5 to get a few errands done.

Ended up taking Dave to bus depot to get  
photos off - by 8:15 - and then we had  
hamburgers for dinner at Stanton's Red Barn  
in Mt. Took MT for quick walk at  
low tide near Trinidad - lights around  
Humboldt Bay pretty clear - cool night,  
jacket felt good.

Home again by 10:15.

Up by 8. Fog cleared 1973 234th day - 131 days follow

early. Beautiful day - ocean SO blue!  
Dave and I prepared second big photo package to go to Senators Cranston and Tunney's offices. Much writing and typing involved.

After taking water to Becky, I headed for Arcata. Checked Bill's mail, got Dave's letter Xeroxed at library, then shopped for garden tools, groceries and hardware.

Ended up having to mail package from Trinidad by 5.

Left car at Dave's place - walked home, fed P.C., worked in garden short while, then walked back to Dave's for dinner.

Came home around 10:30.

Letter from Jean today - sounded happy in new place.

Up by 7:30. Variable 1973 235th day - 130 days follow

cloudiness, as predicted. Did some housecleaning, then worked briefly in garden before lunch.

Dressed after lunch, then sun-bathed (quite warm - rain was only a few drops - total) until visitors arrived around 3:30.

Arriving simultaneously were new neighbor Pally McKnight and Greg Krall's mother (Claire) and younger brother (Dewight). Having been "caught" in only bottom part of Bikini, I scrambled back into shorts + shirt and we all talked madly - out on deck - lovely - until the fog moved in rather rapidly around 4:30.

John Stokes, attorney for Alopak Dev. Corp. phoned regarding "talk on agreement".

Washed up road at 7 - met Dave + MT halfway. Came back here (in drippy fog) to have coffee. Gave them a ride home, along with some fireplace chunks.

Slept by midnight - Expecting Riel, anytime now.

Cloudy, turning to light rain, <sup>1973</sup> 236th day - 129 days follow that was just beautiful to watch - so very welcome on our dry lands.

Cleaned house most of day. Bill phoned from Klamath at 3:30 and after a brief stop at Hagood's - came rolling down the driveway around 5. P.C. and I both tearfully happy to see him.

Phoned Dave. Bill would take us to dinner at Seascap in Trinidad.

Bill and I had a few cocktails first, then he relaxed in deep tub bath and we reached Dave's place around 7:45.

Good dinner, but we all ate too much. Got MT and went for short walk on beach.

Norm Allen arrived at Dave's around 10, about the time we were thinking of getting back to the P.C.

<sup>1973</sup> 237th day - 128 days follow

Beautiful morning - after the rain. Up around 8. Let Bill sleep until 10. While I fooled around house and garden, he began unloading jeep onto clean garage floor.

Funny fog come in awhile, then it got clear and rather warm. We sun-bathed from mid afternoon (3) until nearly six. Dave + MT showed up, as did Jan Klupp, on way to dinner nearby.

P.C. spent much time in her "blind", watching hummingbirds in feeder overhead.

Bill BBQ'd chicken thighs. We were able to eat on deck, but jackets were needed as we finished close to dark.

Went for walk to Luffenpotty & back. Listened to stereo cassettes most of afternoon and evening.

Bill took Dave home around 10:30. Clear and starry, so we put sleeping bags out on deck - much to P.C.'s delight.

Up by 8. Left Bill sleeping. <sup>1973</sup> 238th day - 127 days follow

It remained clear all night, but much moisture in air - our bags very damp. P.C. spent most of night curled near my feet, inside bag.

Bill began unpacking things. I began some washing. Fog moved in, as it did yesterday, staying around for longer - - it was if before we could strip down to relax and sun bathe in the garden.

Dave popped in to borrow some paint, so I invited him to return for stew dinner; which I began cooking as soon as he left.

Evening was nice - clear. Went to Dave's place to tape some piano recordings for stereo cassettes.

Home again by 10:30 or so.

<sup>1973</sup> 239th day - 126 days follow

Up by 7:15. Clear and beautiful. At 8:30 Bill and I took cameras and walked along Moonstone Beach at low (0.7) tide. Lots of people - and cars - on Clam Beach.

Got some letters written, then took water to Becky around 1:30 - stopping briefly at Dave's place on way.

Went into Acata to Xerox stuff at HSL library, pick up SC mail, etc. Home by 3. Sunbathed until 5. Very warm.

Went walking - got as far out as Quinn place - after talking with Norm Allen, Mike Diggles + girl, who stopped near Lupperholty Creek.

Dave came along, so I rode back with him, since he was bringing part of his dinner down to join us.

Ate on small deck after dinner. Dave went home fairly early.

We took brisk walk to Lupperholty Beach, leaving at 10.

1973 240th day - 125 days follow

1973 241st day - 124 days follow

Up by 8. Foggy a.m.  
 Did a little outside work, punning, but then  
 spent much of rest of morning with phone calls.  
 Around 2 we dropped chainsaw off at  
 Ruth's, then went on to Gold Bluffs  
 beach. Photographed vehicle access  
 routes to wave slopes - 3 of them - but  
 also photographed and walked the  
 magnificent elk. Foggy at ocean edge.  
 Walked around the Ossagon rocks at  
 end of road + wheel drive vehicles had  
 run all over the beach - though none  
 in evidence today. Had MT with us.

Home again by 6:40. MT and I  
 walked down from Dave's place, after we  
 stopped to return MT. He was leaving  
 for dinner with Taitly.

Spent most of evening writing  
 conditions that exist at Gold Bluffs  
 beach to one Sam Swift, take  
 free (ORV) for Sierra Club.

Dave came in around 10:30  
 to get MT. MT went home with a  
 new pillow I made for her. (an old  
 pillow with a new case).

Up before 8. Foggy in 1973 242nd day - 123 days follow  
 early morning, then warm in afternoon.  
 Met Candace K. in Arcata at 10:30. We  
 talked "environmental problems" on north coast  
 over coffee at the Epicurean, then around 12  
 I drove her to HSW campus.

Home to sun-bathe awhile, after writing  
 long letter re Hold Bluffs Beach.

Dave + MT here for quick dinner,  
 then Doug showed up.

Just before dark Dave, MT, Bill  
 and I began walking Scenic Drive.

1973 243rd day - 122 days follow

Up by 8. Overcast in morning,  
 then clearing, with wind in afternoon. Wrote to  
 Janet Adams re. No. Coast Regional Commission;  
 mailed in Trinidad when I took water, etc. to  
 Becky after lunch.

Car acting up. Doug checked a spark  
 plug for me when I went by.

Beautiful morning. Up by 8:1973 244th day - 121 days follow

Went out on bicycle - to Trinidad & back by 10, hoping to pick up dark glasses at Dave's place, but he ~~was~~ and Doug had gone out for breakfast at Senescape. So clear, so beautiful, I hated to leave, but Bill and I left around noon for Trinity Dam area. Pleasant drive, not too warm. Stopped in Wielaw Creek for lunch. No problem finding Jean & Lud in little Roycroft Gulch, immediately below the dam. It is a remarkable set up and looks as though as soon as trailer is "organized" that they will be com. fortable.

Grace Wallis & a friend were there, leaving for Redding in late afternoon. Very nice outdoors, but dinner was late and we went inside the old cabin, where the cooking went on.

Went for a very late walk - clear & starry - around midnight. Along came a car - Ana and Co. from Red Bluff, heading for Patton's! We rode back with them. Others sat up until after 2:30, but I piled into my sleeping bag much earlier. We slept inside. (Saw deer as we drove in)

1973 245th day - 120 days follow Slept in until 10!

Grace & 2 friends returned - for breakfast, then on to go fishing - 2 canoes stop car. Lovely, warm morning - and so peaceful. Only a plane going over low and fast, as a single disturbance. Late, leisurely meal outdoors. Ana's daughter and friend left around noon for Eureka to go salmon fishing. Lud arranged to meet Grace and pick up canoes.

Jean, Ana, Bill, "Pete" and I went exploring up creek trail to locate a cabin. Much ~~to~~ down timber to crawl over, but we found the neat and clean cabin about a mile away, as Lud had heard. Warm elsewhere, cool in timber alongside tiny stream.

Late dinner. Grace & Co. left, then sometime, probably 10:30 Bill and I headed home, arriving at 2:10 in heavy fog. P.C. glad to see us.

Fog cleared around noon. 1973 246th day - 119 days follow

Labor Day  
Up early to start washing. Bill  
slept late.

Did some sewing - on small deck -  
made 2 pillow cases for M.T.!!!  
Around 4:30 Colinne + Don, Lee  
and Iris arrived. We heard all about  
the Marion Cross-country tour.

Went to Seascapes for dinner before  
9. Dave + Doug There, too - and  
Sonja and Jean Brandman, also.  
All had petrale sole - excellent.

Back home to continue talking  
of many things. In bed by midnight.

1973 247th day - 118 days follow Up by 8. Foggy, after

waking to sunshine, and cool all day. About 53°  
here + 60° in Eureka. Walked to Trinidad, briskly.  
Bill went as far as Luffenholty Beach. Dropped some <sup>small</sup> litter  
off at Dan's + Doug's place, said hello and walked back  
briskly. Picked up a bag full of litter, but still got home  
by 11:30. Bill Devalle came to say goodbye.

Took water to Becky, using Jeep. Falcon misbehaving.  
worked in driveway, cleaning up around neighboring  
house, now empty.

Bill went into his office and did shopping,  
Color slides of Gold Bluffs Beach came out well.

Up by 8, foggy ~~with~~ all day. Dwight May spent morning doing washing - "hanging" on phone, <sup>St. J.</sup> Coastal Com. voting on appeals today in S.F. Jack Lahn called at 1 o'clock with good news. Both appeals upheld by 9-7 and 9-1-1 vote. Immediately phoned other appellants.

At 4 I started on walk to Trinidad. Bill returned about then from shopping and I waited a bit, so he could walk, too. He went to Sufferhatty only - I went on to Dave's place, stayed for cup of coffee, then returned home by 6:15.

Dave came down around dinner time and finally managed to get something to eat - and stayed on until nearly 10. He had been working since 5:30 a.m. in dark room and was exhausted.

Had put in call to Dwight May in SF but no word by bedtime.

1973 249th day - 116 days follow

Up by 7:45. Beautiful day. Bill took jeep in for tune up - by 10. At 10:15 I began walk to Trinidad. Absolutely heavenly! Stopped at Dave's place briefly - looked at all photos he was working on. MT waded back with me - home by 12:20. Went to Eureka by 1:30. A quick dental check at 1:45 - no work. Picked up photo materials for Dave, then stopped briefly at Coastal Regional office. Back to Eur. Center to pick up Harriet, then to Susan's place to go over SC list - for BVD campaign (to stop it).

Left Harriet at Center again before 5. Stopped briefly at Donna Hawkins new venture, Pilot Rock, in North Acre. Took things to Dave and got home at nearly six o'clock. MT still here. Mike Garabidian came out to show me some pictures and stayed until almost 10. Dave grabbed a dinner here, talked with Mike and remained until around 11.

Bounced up around 1973 250th day - 115 days follow  
 7:30 - rushed to get Falcon into Areato for  
 8 o'clock work. Beautiful day - windy +  
 warm, after light showers during night.  
 At Environmental center until 12:30 - a  
 busy place. Doug Glaves from Harris phoned, then  
 came in to discuss next move on Palo Verde Pk. ~~Don~~  
 Grooved sandwiches before going to Hees' for  
 cucumbers.

1973 251st day - 114 days follow  
 up by 7:20. Beautiful  
 morning. Left at 9 for Ft. Bragg area. Saw forest  
 fire west of Garberville - a large mushroom-like cloud  
 of smoke. Nice drive. Snack lunch at a vista point  
 north of Ft. Bragg - mac (above) wild ocean. Smoke cloud  
 drifting southward out over ocean. Arrived Mackinaw  
 State Park 12:45. Meeting began around 1:30, once we  
 had a Quorum - in Bob White's camp site. Bill took  
 off to explore, returning about the time we  
 finished the meeting - around 5.

Went to beach - just over highway (between  
 Bishop pine stand and ocean) and took in the  
 scene until 6:30 or so.

After dinner we campers all went to the  
 campfire talk - all about tide pools of area.  
 Stars bright. 3/4 moon beautiful. We  
 slept out - a gorgeous night!

Beautiful morning. 1973 252nd day - 113 days follow

Admission Day (California)

Awake to birds around 7-  
Breakfast underway by 8. Lovely + warm.

Poked around the tide pools for an hour or so  
after parking up - such a glorious area!

Headed home around 11:30. Very warm  
in Garberville area. Drove Avenue of the Giants  
to try to stay cool among the redwoods. Lunched at  
Federation Grove before turning westward again to  
Petrolia - Ran headlong into a new fire area.

Watched aerial tankers drop borate on fungus-  
king range fire still billowing smoke - still  
out of control. Took pictures along way.

Stopped briefly to talk to Dan and  
Martha Graham.

Home by 7:30. Note from Dave to come  
up. Took part of our dinner along - Very  
warm in Trinidad area - over 80° reported.

Managed a "combined" dinner - listened  
to music, relaxed - and returned home to  
bathe by 11 o'clock - or - about.

P.C. happy to have us back.

1973 253rd day - 112 days follow

A pale lemon-colored sun-  
up by 8 to put away camp things, catch up on  
mail and phone calls. Went up to Dave's to pick up  
materials for mailing (photos), materials for the  
Emerald Creek Cam. (photos), etc. - after  
delivering water, mail and groceries to Becky  
by 11:30. Home at 1. Bill began gathering  
things together to go into Marble Mt. wilderness.

Dave got away (to join Doug in there) around  
5. Bill wanted join all on Wed. eve. Jerry  
Wilgus phoned as we were leaving to have dinner  
with Ivan and Susan Hess. He would go in  
with Bill tomorrow.

Wonderful evening after wonderful  
dinner - all cooked on big wood stove.  
Come home with large bag of  
apples and pears.

fires contained  
today.

up by 7:30. Foggy - 1973 254th day - 111 days follow

Remained foggy until late afternoon.

Went up to Davis' place around 10 to check it out and pick up alpine tent.

Jerry arrived, helped Bill get things loaded and they pulled out around 11:30.

Many phone calls to take care of, then I drove to Arcata for errands, stopping at Env. Center - Read BV dam article by Richard Harris in Golden Gate North magazine.

Home by 5. Went washing - 2 miles along Scenic Drive.

Dinner about 7, then phone calls and I made six quarts of dill pickles.

1973 255th day - 110 days follow

Up around 8:15. Foggy most of day with vague sun in late afternoon.

Worked around house, chopped wood and did a shag of evening before lunch.

Drove into animal clinic to get medicine for P.C.'s ear mites that are bugging her.

Took care of some phone calls regarding coastal com. meeting tomorrow, then walked to Trinidad post office to mail a couple of cards. Checked out Davis' place. Picked up a large bag full of roadside letters and dumped it at Luffenhoety Beach access container.

Worked on agenda items for meeting, to be ready - just in case objections are necessary. Atopak may get postponed.

Up at 6:30 - still almost dark. <sup>1973</sup> 256th day - 109 days follow

Drove to Trinidad before 8. Leon Hill, Ben Allen, Steve Gompertz, Virginia Hall and I (in Leon's car) all attended Regional Coastal Com. meeting at the Del Norte County court house from 9:30-12 and 2-5.

Beautiful day. Atupal ~~was~~ postponed until Oct. Walked at noontime - first lunch, then a look at the new Natl. Park (Hwy 101) Bldg. and the new Cultural-Art Center on Crescent Bay Mall.

Dr. Ade Hatchue successfully objected to a 4-plex on north side bank of Smith River mouth. Logging near Klamath Mouth was successfully objected to by Sierra Club, Redwood Chapter (by me) followed by approval of rancher near Petrolia (T.K. Clark) doing some logging, which I objected to also.

Home by 6:30. Lovely drive home. Ate lightly, read mail, and wrote letters to Al Whitney about BV dam. In bed by 12. Magnificent, clear moonlight.

<sup>1973</sup> 257th day - 108 days follow Up by 7. Lovely morning.

Did some housecleaning before 10, then split wood (with shirt off) until 11.

Took mail and groceries and water to Beby. Talked with Frank Kilmer near Saunders Mkt.

Sun-bathed after lunch, after leaving car at Dave's place and walking home.

At approx. 3:30 I walked to Trinidad for groceries, then drove home. Some fog sweeping Trinidad Head and Murray Dunes areas, then backing off. It got rather windy, but quite nice still.

KINS Radio carried coastal com. news all day and Norm Lee defended Rich Harris' and his Butte Valley dam article in Golden Gate North.

Expected Bill anytime, but finally turned off lights around midnight.

Bill arrived around 2:30 A.M.

After disturbed sleep and 1973 258th day - 107 days follow  
 fitful sleep I got up anyway around 7:30.  
 I let Bill sleep in while I got some  
 writing and typing done regarding tide pools  
 in Crescent City area. It was nearly noon  
 when Bill came downstairs. He had had a  
 splendid time in and around Cliff, Campbell,  
 Summit, <sup>ting</sup> Jewel and Jim lakes. Dave and Dong  
 would be coming out tonight, he thought.

We cleaned up and put away camp &  
 back pack gear. Bill ended up using my pack,  
 having switched with Dave once they met at  
 Summit Lake.

Took a walk around 3:30 to go check  
 out Davis place. Bill went only to Luffenholts.  
 We had a light dinner and were just  
 finished when Dong and Dave arrived -  
 about 9. They were grubby, thirsty,  
 and tired, although they stopped briefly  
 to see Jean & Lud, they had wanted to eat  
 in Willow Creek.

In bed before 12. P.C. glad  
 to have Bill back again.

1973 259th day - 106 days follow  
 Sep by 8 - A beautiful, warm  
 day. Worked around house and garden, then took  
 the sun in early afternoon - from 1:30 - 4:00.  
 Bill "set up shop" on table outside to get  
 some, also.

Around 5 we went to Fieldbrook  
 to have barbecued chicken dinner with  
 grad. student Bill Taylor and wife Karen.  
 Clouds had begun to cover the area,  
 but we could still eat outside.  
 Had fresh sweet corn from their garden.  
 (They were living in a trailer on a 20 acre  
 property with large mobile home).

Clear, starry, cool evening as we  
 drove home after 11.

Up by 8. Began some washing. Clear first, then fog moved in. After lunch fog dispersed and clouds were apparent - high, cirrus.

Bill went into school to check mail and new schedule. Kay Chaffey phoned.

Dave showed up to write a letter to Fish & Game in regard to possibility of increasing water flow in Trinity River. Large fish die off, warm water and sedimentation a problem.

Neighbors (Markwell) busily taking off all vegetation near our property line and Hendricks corner - completing the "clear-cut" that started with the removal of the 2 huge Doug. firs last winter.

1973 260th day - 105 days follow

1973 261st day - 104 days follow

Bill up early. St. General faculty meeting at 9:00 a.m. Prepared letter to Coastal Commission. Picked up Dave - both had X-raying to do. Left letter in Joan's mail box at school. We had had lunch with Harriet and Larry Gray at the Epicurean. Very warm - rain <sup>50% prob.</sup> predicted.

Went shopping in Eureka while Dave was at Forest Service office - got 2 dresses, one long, one short.

~~But~~ Dave arrived to go **1973** 262nd day - 103 days follow  
to Eureka with me by 9 to attend a LAFCO  
meeting regarding annexation of parcel on  
shoreline of bay to city. Then we dashed to  
Coastal Com. office. Spent some time with  
Jack Palm. Also contacted Div. of Highways  
Environmental Dept. about Oct 5 - 199 trip.  
Went shopping while Dave was at Forest  
Service offices. Found shoes, slip  
and 2 dresses. One (short had to be altered.  
Picked up altered short dress and  
left it at cleaners in Arcata.

Went to meeting at Dan Hauser's home  
following Biggs-King tennis match on TV.  
Home by 11:30. Dave discussed Siskiyou.  
Wendell Wood came down from Crescent City.

**1973** 263rd day - 102 days follow Clear - warm. Went  
to Co. State Highways Commission meeting -  
City Hall - Eureka for awhile.  
~~Picked up dress around 3:30, then  
left it at cleaners.  
Dave had dinner with me and  
did washing at late hour.~~  
Dan Sealy came by just after I got  
home from town. Dave borrowed my car to  
dash to early evening meeting. Dan and I  
took MT to Sufferholty Beach to stretch  
my legs and feet.  
Dan's parents had sent Frankoma  
pottery gift - a cookie jar - and we  
don't even know them! (Dan had told  
them about our conservation work.)  
Took Dave home around midnight

Dave arrived to write Siskiyou letters. I typed all I could until time to leave for airport to catch 2 PM plane to SF + San Jose. Lovely day. Warm, with a few clouds. Bill took me to airport. Al met me in San Jose. The short SF-S.J. hop was delayed 40 minutes! Seat mate was Willie Simms. We chatted furiously all the way to SF - making it a really fast flight, it seemed.

Went to rehearsal night dinner at one of Hull's friends home nearby. - after rehearsal at 7 at St. Andrews Episcopal Church in Saratoga.

Much excitement and last minute preparations going on. Subed by 1:30. Very warm - Rain showers predicted.

1973 264th day - 101 days follow

1973 265th day - 100 days follow Up by 8. Some clouds. Al drove to Santa Cruz early to pick up his Aunt Sally (now about 80). Kerry in a tizzy getting ready. Wedding set for 12 noon. We ate leisurely, dressed and left for church around 11. Watched bride and bridesmaid get dressed and ready for photographers. See Spencer also there.

The wedding was lovely. Reception followed at West Valley College nearby. Excellent food - lots of champagne and lots of guests - a over 100 perhaps.

Music, rock (and loud) provided by friend of bridegroom's kid. Dancing on lawn under huge beautiful banyan. Clouds moved in and a few drops of rain fell around 4:30, just before Kerry + kid left for Carmel Highlands.

Hour to relax - but then Al had a birthday - so - a party. Many old Watsonville friends. Dancing on patio until after midnight. Up until nearly 2.

Gayle moved to her new apartment

We all slept in.

1973 266th day - 99 days follow

Breakfast around 9:30-10:00.

Lovely morning. We took Aunt Seely to Santa Cruz - a nice drive, big clouds, and not too much traffic. Back for a very late lunch, then Al drove me to SF airport for 6:10 plane home.

Willie Sims had saved a seat in no smoking section for me. Rain as we landed in Arcata around 7:30 - Bill thurto meet me.

He (we) cooked dinner, but I ate little.

In bed before 12 - Raining steadily here. Bill went up to Dave's place to check it out (he was at Patton's in Trinity Co.)

Done at Patton's  
1973

267th day - 98 days follow Up by 8:30. Big clouds followed light rain. Fair rest of day.

Took water and mail to Becky around 12:30. Spent a couple of hours with Marie Devall - home around 4 for a late lunch.

Dave showed up around dinnertime to go to ExCom meeting with me at 7 at Dan Hauser's home in Arcata.

Meeting lasted until 10:30.

Dave threw his sleeping bag out on living room floor after we took MT for her second evening walk to Sufferbally. Clear and star bright. Bill had walked her earlier.

Up by 7:30. Beautiful day. <sup>1973</sup> 268th day - 97 days follow

Dave went home right after breakfast. Worked around house. Neighbor (Markwells) busily topping trees, cutting out beautiful growth, exposing our house more - ugh!

Bill went into school, collecting on way.

Around 2 - very warm, but breezy, I walked to Trinidad. Stopped briefly at Dave's place, then on to Nevada's to pick up things I had forgotten yesterday (grasses, etc.)

Home by 4. Rested and read, along with P.C. Full home by 6, after doing errand in Eureka for Anthea.

Worked on S.C. stuff - letter writing - after dinner.

<sup>1973</sup> 269th day - 96 days follow Up by 8. A beautiful, beautiful day! Put on light shorts and shirt. Bill off to school - first day of classes - by 9:30 - his class at 11.

Phoned Dave, apologizing for an outburst yesterday.

Took water, groceries + mail to Becky around noon. Left car at Davis, took NT and walked home. Sun bathed (it was very warm) and drafted a long letter to a gal in Ojai regarding bears in parks. Walked back to Davis place by 5:30. Trimmed his hair, then came home - but first picked up a large pile of broken glass dumped to side of Scenic Drive.

Dave came in to work on SC statement regarding Eightmile + Blue Creek planning units - We worked until after midnight, and Dave decided to spend night here to continue in morning.

Up early to start typing <sup>1973</sup> 270th day - 95 days follow

Rosh Hashanah - First Day of Jewish New Year 5734

statement for USFS meeting at 7:30 p.m. After editing, I did second draft. Got my own comments typed up before Dave returned with final draft to type up. I had taken water to Beedy earlier, ~~left~~ Washed up to Dave's place by 3 with typed job, then he brought me home for the final job. Early dinner.

Wd left at 6:45 - picked up Tim McKay at Sue Van Kirk's place and headed for Eureka City Hall. Such a lovely day - and a lovely evening.

Packed home for meeting. Dave gave first comments. I was nearly last. It ended at 11:30. Ken Lang invited us over to his Eureka home for refreshments.

Got home at 1:40!

<sup>1973</sup> 271st day - 94 days follow

Rosh Hashanah - Second Day of Jewish New Year 5734

Up shortly after 5. Another lovely day. Began washing around 11. Bill went in to school awhile. Began gathering things to go car camping and picking around Doctor Lock. Dashed to Arcata to recycling center, got SC mail - and film.

Got away late - about 5:30. Decided to stop at Big Flat camp ground for the night; nearly dark when we got there.

Cooked dinner, discovering we had forgotten utensil box, but managed with one small spoon, pocket knives and a spatula. Very warm. Only 2 other campers in there, in spite of deer season - a surprise. Stars were bright and beautiful. It was peaceful above Huddy Judy Creek.

G-D  
Road area  
photos

SEPTEMBER

29

SATURDAY

Up by 8. Lovely morning. 1973 272nd day - 93 days follow

Leisuredly breakfast. Drove up to Peak 8. On trail by 10:45. Took photos along way. Bill collected from bear wallow in large meadow. Saw 2 hunters near Doctor Rock.

Went on to point beyond "water hole" on map. Got lunch looking into Crescent City, Fork - huge clear cuts, but lovely fall coloring showing in recent areas.

Collected algae in several ponds on return trip. Rather warm at times, but breezes made hike tolerable.

Back to car by 4:40.

Drove to Smith River - tried to locate Wendell Wood. He was not at home, but we found delightful small home-cooking type restaurant and had dinner. Fog on coast.

Home by 10:30. P.C. glad to see us.

4.5 (Richter scale) earthquake at 10:48. Centered around Mendocino escarpment.

SUNDAY

30

SEPTEMBER

1973 273rd day - 92 days follow

Awake before 7. Up and out on bicycle at 7:35 - before breakfast. Misty fog, no wind. Also - no traffic. Went to Trinidad P.O. & picked up Beck's mail. Home again by 8:10.

Worked around house, put away camp gear - made a stew. Typed one long letter to a gal in Ajai, concerned about loss of bears in parks. Sun came out late.

Around 4 or so, while I was cutting Bill's hair, Chris and Joe Allen came in. A bit later, around 5, Dave showed up, but only stayed short time. Joe spotted whale spouts just off beach.

Around 7:30 we went to Peascope for dinner. (It was Chris + Joe's 1st anniversary).

Don Tuttle phoned regarding landfills. Typed up wrote a rough draft of letter to Corps of Engineers.

In bed by 11:30 to read awhile. Clear, starry night.

Up before 8. Lovely day. <sup>1973</sup> 274th day - 91 days follow

High, scattered clouds, winds along shore, heavy Trinidad Head north.

Picked up Dave at 11:30 - his car wouldn't start! We worked diligently on letter to Corps of Engineers. When everything was ready for Xeroxing, I took Dave home and headed for HSO library - around 3.

Took letter to Board of Supervisors and mailed copies to all news media.

Home by 6. Early dinner, then back to Court House for 7:30 meeting of County Parks and Recreation Committee.

Left that meeting (Ricketts Moonstone property the biggest, longest, issue to deal with. A lease agreement will be negotiated to retain public access) and got to Law Collective offices in Arcata, just as they were winding up.

Chatted awhile, then took Harriet Gray home by 10:30.

Lovely, starry and clear at 11:00.

<sup>1973</sup> 275th day - 90 days follow

Up before 8. A lovely day. Like yesterday, small chaps warning from Trinidad Head north. Walked up to Dave's place by 11. Brought MT back with me after listening to noon news.

Took water and mail to Becky, then headed for Eureka. Picked up big paper cutter for Dave, then went to Six Rivers Forest Helgates a few minutes, then to Regional Coast Com. offices, then back to Suise Van Kips with manager. Helped Dave get his car started; home by 6. Went to airport to pick up Celia Clouder Wahl, after preparing dinner.

Dave came in on way to Greyhound with more redwood photos (this time for Ed Warburton) then returned for dinner and the rest of the evening.

We went over wanted problems and finally headed for bed around 11:30.

Up at 6:45. Beautiful day. 1973 276th day - 89 days follow

(Temp. dropped to around 41°) Returned paper cutter to Kennedy's office supply at 8:20 and got to City Hall for 8:30 State Coastal Commission meeting. The Frank & Winston mobile home park appeal was early on the agenda. The appeal was upheld, but there was much discussion over Corps of Engineers possible permit requirement.

Celia and I were joined at lunch by Joe Petrucci of the State's (Com.) legal staff. We stayed for part of the afternoons appeals and decisions, then at 4 I took her down to the Regional office to meet Jack Lake. Home again by six after picking up Dave for a quick dinner. Picked up Dave at 6:45. Took Celia to airport by 7:00.

Dave helped me carry photos and stuff to Faculty Wives Fair on campus, took the car, and returned later with Vern Korb.

The "Fair" was well attended and our Sierra Club display was popular. Dave's photos were main feature, especially his large 30 x 20 Trinity Alps one-all framed.

Home again by 11:30 after getting Vern home, then Dave.

Typed brief statement about Topak.

1973 277th day - 88 days follow up by 7:30. Clear and bright

here at Moonstone, but fog in Arcata and Eureka early morning. Regional Coastal Commission meeting began at 9:30 at Eureka City Hall.

Atopak Development was biggest item on agenda. Several spoke against it and the claim of exemption was granted only after very heated, lengthy discussion. I gave brief A.C. statement asking exemption to be denied. Audubon not present. Citizins for Planned Dev. and Unitarian Fellowship on hand, too.

Meeting ended around 12:30. Lunch was quick - Steve Gompertz joined me for my short time - before picking up some B.V. dam material from John H.

Home around 2:30. Finished huge collection of dirty dishes at 3:30.

Washed to Dave's place. Fog on roadway at times. Dave and OT returned with me - for dinner - while some of his things got washed.

Dave stayed until 10:30. I began hemming a pair of new trousers for him to wear to Denver. Played a couple of games of Lofitzee, then I drove him home.

In bed around midnight.

Up at 7:30. About 44° 1973 278th day - 87 days follow

High clouds, warm. Picked up Dave around 10. Went to Acata for (\$) money & things for Wilderness Conference (for him). Car sputtered badly going home - he had to push it near 6<sup>th</sup> Ave.

Bill went into school - could not reach him - took chances on getting to airport on time.

Put Dave on 2 PM SF plane. At airport at 1:15 to insure he got on oversold flight.

Took groceries, etc. to Becky. We have NT for a few days. Car gave out getting to Becky's place - on bad turn on Quarry Rd. Found young man at Hidden Creek Trailer Park to tow car to Becky's for the night.

MT and I walked home, arriving around 5. Bill had just arrived, too. Took Jeep to go to Becky's for water jugs.

After dinner we walked to Sufferholty in (1/2 full) moonlight. Very pleasant out. In bed by 10:30 to read awhile.

Bill got started on new desert book by Edward Abbey.

1973 279th day - 86 days follow

Yom Kippur - Day of Atonement

Slept late. Breakfast around 9:15. Raining lightly. At 10:30 we met AAA tow truck in Trinidad. Ford got towed to Acata.

Gathered materials for Sierra Club meeting and extended a stew for the potluck.

Holly and children went in with us at 6. We had to get coffee started.

Small turnout for dinner, but good turnout for meeting, including many transferred SC members.

Dan Sealy presented slides on redwoods - A good meeting.

Light rain much of day. Cleaned out gutters in early afternoon.

Jean Hagood phoned a couple of times. (She would not get to meeting).

Up by 7:30. Considerable 1973 280th day - 85 days follow cloudiness, but nice after rain. Worked around house. Did some washing. Bill went collecting at Freshwater Lagoon.

MT and I walked to Trinidad. Went to Deval's to love and brush Prince - the Siamese cat.

Lovely walking. Air very clear. Water calm. Home by 5.

Wrote letters after dinner - - thank you's to Al and Doris; then a long letter to Bill Deval.

Dave phoned at 3:30 from Boulder - he would be home Tuesday.

Jean Hagood phoned a couple or 3 times with messages, questions and comments.

Carol Severy phoned. Her "project", 16 mm movie on the ocean would be shown Monday night on campus.

## Columbus Day

1973 281st day - 84 days follow Up by 7:30. Raining. Columbus Day (In District of Columbia and most States)

Went into college with Bill in order to have transportation. Checked out Dave's place after doing a few errands. Also checked on Falcon. Needed new fuel pump. Did some of Dave's laundry. Clipped papers. Went into Creata in misty rain at 4:30.

Put Falcon at Env. Center, then walked back to Carburator place to retrieve the Jeep.

Did some reading at Env. Center until 6, when it was time to get Bill on campus following staff meeting. Home by 6:30.

Listened to peas and corn of Butler Valley Dam project on KINS radio - from 7:30 - 10:30.

Still raining at late hour.

Up by 7:30. A lovely day. 1973 282nd day - 83 days follow

Sunny and warm - lovely clouds. Went walking with MT after lunch. Went to (Sr.) Deval's to love Prince - Back in time to get Dave at airport at 5:20. Took him home to leave luggage and change clothes, then brought him down for dinner and to spend the night.

We took a picnic after dinner over to Luffenbretz Beach - nice moonlight.

1973 283rd day - 82 days follow Up at 6:45. Clear at doornstone.

Foggy as Dave and I drove to Creek - very low and dense in pockets. Around 9:30 Jean Hagood drove Ed + Peggy and Dave and me to Dolson Hill pine. Prepared to hike all day, we quickly scoured over private land, hitting the brush when a pick-up truck came toward us on the Simpson road. We photographed trees, looked at mushrooms, lichens, snails, etc as we made our way down to Redwood Creek. We could hear the chainsaw and trees thudding to the ground - in the canyon. L-P was backing holes in the Bridge Creek area - the once thickly forested ridge was being gouged by roads and large cut blocks. Beautiful otherwise - sunny, warm, a few scattering high clouds.

Waded creek twice only. Walked up "channelized" Bridge Creek. Sickenin'!

Bill and Jean were waiting at parking area around 6:45 when we finished our day. Lovely pink clouds at sunset - then moon rise above "Creek face".

Wonderful dinner after a relaxer in Wayburns' room.

Dave drove me home. Bill & MT followed. Again, Dave stayed overnight with us.

Up at 8:30. Dave and Bill 1973 284th day - 81 days follow

came Succoth alive around 9. Again, clear here, but foggy to the north. Walked home with Dave and Bill, returning around noon. Worked on Atopad appeal until 3. Stopped briefly at Dave's to leave pack, boots, etc., then got Becky C. to take bus to Arcata to sign a paper at attorney's office. Did a few errands. Stopped again at Dave's to learn his plans and get some help on writing appeal letter. He rode part way, then walked out down here in time to watch TV news at 6:30.

Talked with Jack Lake on phone about Atopad. Doug showed up as we were about ready to have dinner - (he had already eaten in Willow Creek).

Walked to Sappenhoety and back in brilliant moonlight.

Went by Devall's to love Prince. He took his bunking while in his sleeping bag!

1973 285th day - 80 days follow

Up by 7. Picked up Dave at 9 to head to Eureka and Coastal Comm. offices. Did some homework on the Atopad development. Various "clouds" on campus and in Arcata. Home for lunch. Drove to Dave's place to get his car started. Ended up having to tow it. He left it at Trinidad Station for work. Went to Devall's for love time with Prince.

Back to Dave's for a drink and to read while he prepared a meat loaf for dinner. Beautiful and warm. We walked to Moonstone by 4:35, having talked with Bill about dinner plans.

Watched TV news. Pres. Nixon announced designate Gerald Ford as vice-presidential choice. Drove in jeep to Dave's. Doug, (with new Datoun pickup) joined us for dinner.

Bill prepared for overnight trip to Twin Lakes. Dave prepared to make trip to Weed for an Audubon wilderness workshop.

Bill got away around 10.

Up at 4:00 A.M.

1973 286th day - 79 days follow

Quick bath and breakfast and away at 5 for Ukiah. Foggy at times.

Daylight when I reached Laytonville.

Beautiful day - warm. Stopped briefly at Ray Hudson's home - left car, met family; then off we went to Napa. Took about 2 hrs. via Calistoga, which was a lovely route.

Meeting at Kennedy park. Warm enough to be out. Lunch on golf course edge.

Left Napa shortly after 4. Left Ray's place shortly after 6. Picked up gas in Weights, driving in daylight as much as possible. Clear enough - little traffic. Beautiful sunset as clouds showed up.

Dinner before 8 in Garberville.

Home at 10:45. Bill had been home since 4.

Heavier cloud cover as I came north - moon almost obscured.

1973 287th day - 78 days follow

Breakfast late, having had needed long sleep. Began (2) large loads of washing. Walked to Sewalls about 3 to love and lunch eat. Back home by 5.

Dave phoned around 6 from Mck. and brought a pizza to us for dinner. Doug came <sup>down</sup> awhile, but he and Dave both left early, around 9.

I worked on letter to State Coastal Com. then got to bed around 10:45.

Finished a long letter to Ursula B. Also wrote one concerning jetport proposal for Teton National Park - a real howler!

Fair most of day. Some sun, much fog hanging to shoreline.

Nice washing, however.

Bill had to be at school from 8-1. To hear some one's orals, so I could do some much-needed vacuuming without disturbing anyone.

Celia Under Muhl. phoned. Talked later to Bruce Stephan re. Citopak appeal. All was clear to go ahead.

Up by 8. Foggy again, 1973 288th day - 77 days follow  
clearing once in awhile, but briefly.

Did some more work on Atapak  
appeal - rough draft.

Dave came in around 2 to go  
over it and edit or question.

Typed 2nd draft - Learned from Jack  
Liles that 19th was end of appeal period.

Dave, AT and I took brisk walk  
in wet, misty fog to Lupperbalety  
after watching Spiro Agnew on TV.

Been by 5:30. Dave stayed for dinner.

Went to Parks & Rec. Meeting at  
Court House (Eureka) from 7:40 - 9:20.

Home by 10. Very low fog from  
McK. to Eureka.

In bed by 11:45 to read awhile.

Gary Stevens from Crescent City phoned  
regarding conservation matters - talked with Dave.

1973 289th day - 76 days follow

Up by 8. Took water, mail and  
proceeds to Beay by 10. Picked up Dave. Package from Spaine  
Carteret, sent by Glenn Berry! He remembered my one request.  
While Dave talked "highways", I saw Jack Lake at Regional  
Coastal Comm. office. joined Dan Hansen for lunch  
in town. We were all together later at Dept of Transportation  
office to discuss project proposed Scotch South. We  
got out of a field trip by studying Strip maps on  
conference room wall.

After a few seconds, we were home around 4.  
Had time for a quick cocktail with Bill, then  
Dave & I had to leave for Garberville - a meeting called  
by BLM - 8 o'clock - King Range management plan.  
Had a quick hamburger dinner on way through  
Eureka. Had some fog to contend with.

Meeting was almost riotous - CRV people out in  
force. "Hatfield-McCoy" type evening. BLM  
personnel almost hostile to CRV users.

Gary Munnie and Stan Thompson (DFG) from  
Redding in town - had a few drinks after meeting,  
which lasted until nearly 11. We left Garberville  
at 12:45. Drove down to Rio Dell, then gave out.  
Heavy, low fog made next hour home a task.  
Arrived Moonstone 2:30. Dave threw  
sleeping bag on couch.

None of us was up much before 9. Clear awhile, then foggy. Changeable all day.

1973 290th day - 75 days follow

Dave and I went over to topak appeal for last time, getting it into final shape after lunch.

Took Dave home. Helped him get his car to Trinidad Standard station by towing - to have some work done.

Went to HSU library to Xerox appeal and other material. Saw Julie before mailing them. Had to buy new (old) emergency brake for Falcon from MCK. junk yard. Other broke off after being cracked a few years.

At 5:30 I walked to Baker's beach - met Dave + MT coming here for dinner. Foggy and cool.

Played some Yahtzee after dinner. Dave decided to spend night here - in bed by 10:30.

Had good bath + shampoo and got to bed by 11 - to read awhile, cat beside me.

1973 291st day - 74 days follow

Foggy, but warm. Gave Dave a ride home early. Bill off to school by 10.

Left at 10:30 for HSU - Talked about Sierra Club to Andy Karoly's cluster college class - from 11-12.

Dave got brakes fixed on his Subaru by noon, so I didn't have to take him home, as planned earlier. Took <sup>groceries</sup> to Becky.

Could not find him at home so - Left at 2:30 for Trinity Co. Beautiful drive. Fall coloring perhaps at its finest.

Returned home by 8:30. Dave here with Bill watching TV.

Bill went into school all <sup>1973</sup> 292nd day - 73 days follow morning. I began gathering camp gear to get ready for weekend in mountains.

Took water to Berry. Stopped by Dave's place briefly. He said he ~~would not~~ <sup>did</sup> leave for Etna <sup>before when he would</sup> ~~not~~ Receipt of phone call from Ihe Livermore pending. (Earlier phone call from Anita.)

Bill and I went by his place around 4 for a quick drink and to return MT. He was still dubious about weekend plans, except 8 AM meeting time in Etna with Auduboner Jim Eckman - they would do "wilderness" survey of road systems around Mt. Etna. (P.C. to Kennel)

Clouds increasing. Left P.C. at Kennel on way out of town - before 5. Dinner at Big Tree station. Rain began - and it got serious. We pulled into Patton's place around 8:30. No one around. Put our sleeping bags into cabin while reading in deuce Dave! He was 50 surprised to find us there. (We actually expected Hild to beat us there - that's how dubious his plans struck us to be.)

We talked awhile and around 10<sup>00</sup> decided to go to bed. Raining hard. Dave pulled his pick up down the road a bit - in order to sleep away quietly at 5 A.M.

Tasha slept with us - happy for the people around

Hard, hard rain all night.

<sup>1973</sup> 293rd day - 72 days follow

We were up before 8. Fixed break pack on little porch, then left at 9:30 - destination: Dendface lakes. <sup>(7300')</sup> Rain gave way to big clouds, but we carried rain gear - just in case! The maples and dogwood were a blaze of color all the way up to Trinity Center and beyond on Hwy. 3.

Hike to lake was easy. While Bill collected I walked all the way around the larger lake. (we by-passed him on nearby). Found numerous Darlingtonia spreads. After collecting and a bit of lunch we explored farther up slope, until we reached to dried up once-marshy areas, or shallow ponds. As clouds became more threatening looking we headed back to car at parking spot for trailhead, about 2 miles. Arrived at car just as rain began to fall lightly.

On way out I broke tooth, dead center in upper plate - horror! Couldn't eat solid stuff. Bill picked up can of soup in Collihan when we stopped to fuel gas tank. Drove a few miles down 93 to meet Dave, who arrived at certain road turn-off about dark. Rain now heavy. We drove on to make camp for night at Trail Creek (F.S.) campground. Had a small fire.

Slept in tube tent. Drove in Camper nearby.

OCTOBER **21** SUNDAY

Rained hard all night long. <sup>1973</sup> 294th day - 71 days follow

We stayed dry, but it was noisy and sleep was restless. Dave arranged for cooking inside camper with a tarp extension over door. Then wet things in car, loose, and headed for Croaggy Peak area. Dave explored another road then met us at trail head to East Boulder Lake. Meanwhile, I discovered Shaggy Mamas and Bill and I spent an hour picking, then cleaning them in small stream.

Rain was often heavy on 2 mile hike to Boulder Lake, an interesting setting - meadow, few trees. Dave went a little farther to collect samples from 2 ponds, and we turned back, as Bill was soaked to skin (below rain coat).

We had a couple of drinks on way down to Pattons - who were home, arriving about 6:45. I'd added our "Shaggies" to a mushroom bisque for dinner - and that was all I had to eat. Mostly I drank my dinner, since sharp points on teeth caused great discomfort.

We had a long, long, talk session. Have pulled out for home - in heavy rainfall - around midnight. Jean,

Bill and I had heavy discussion regarding Dave. In bed by 2-

MONDAY **22** OCTOBER

<sup>1973</sup> 295th day - 70 days follow Rain continued all night.

Veterans Day (In District of Columbia and most States) Got up around 9:05.

Had leisurely, light breakfast, then left for home around 12. Rain was spotty, sometimes quite heavy.

Got P.C. from Pennel at 2:45. Managed to get car unloaded between heavy showers.

Had very little for dinner - after a bath - and fell into bed before 9.

Too many nights with fitful sleep - too many problems to work out.

P.C. so happy to have her family and her own bed back!

Up before 8. Bill's car 1973 296th day - 69 days follow

wouldn't start, so I gave him ride to school for meeting before 9. Then called 3A. Jeep was flooding, only, so parked it in driveway after 3A made their call (at top of hill). Heavy wind during night had left leaves and small branches scattered widely about. Beach covered with debris, too. Got dental appt. early afternoon to have tooth replaced. Took St. Mary's Dave before hand. We had a rather serious discussion over coffee re recent behavior, rather strange, focusing around visit to Patton's <sup>place</sup> last month, while Bud undergoing tests at Vet. (Hosp. in Wartburg).

Went into town again at 5:15 for get Bill.

Dave phoned later from Vern Korb's office. He came by rather late on his way home.

1973 297th day - 68 days follow

Up before 8. Raining lightly. Several phone calls - one from Janice Rothrock (from Anate - HSU) She and sister Jean Widman from Denver office, Wilderness Society, arrived around 11. Over coffee we got acquainted and talked wilderness problems. I phoned Dave to come down to meet her, although he had seen her briefly in office during <sup>recent</sup> wilderness conference.

Went to Nevada - stopped at Davis. We "shared" dinner - at Moonstone. Rain let up. Turned clear and much colder. Took Dave home, listened to new record. - we had all played a few games of Yahtzee earlier -

Took groceries to Becky around 2. Met Bill about 3, so we could hear Bob Martelli speak on campers. (prop. 1) Stopped briefly at Susan Van Kirk's.

up before 8. Beautiful 1973 298th day - 67 days follow  
morning with scattered clouds.

Went to Arcata before noon, stopping  
at Env. Center briefly - gave Larry Gray &  
friend a ride to his studio.

Got water bottles from Becky's place, then  
left car at Davis and walked home -  
MT with me.

Did some ironing and cleaning, then  
left at 4:45 to walk back to Davis to  
get car. Dave met us at Suspendholtz Creek.  
Took food away from Prince - only  
for tonight.

Dave came down with me for TV and  
dinner. I cooked a roast he had long  
ago put in our freezer.

We played a couple of Yahtzee games, then  
Dave took to couch - ? ? And he had  
previously planned on (USFS) SC work.

I typed up letter to woman in Mendocino  
about roadside spraying.

Took Dave home at 10:30.

Clear and cold.

1973 299th day - 66 days follow up by 8. Fair with only

a little fog for short period in early afternoon -  
with Mrs. (Zelda) Robertson's help I took Prince  
into animal clinic for worm pill.

Took water to Becky later. Spent most of  
afternoon reading old Redwood Chips, sent  
up for HSV archives. Tacked briefly with  
neighbor Polly McKnight re SL election.

Dave came in around 6:30 to watch TV news -  
the President's news conference was highlight.

Prepared to go to adccc meeting in Davis -  
would leave with Dave & MT late.

We got away around 10 and drove  
until about 1, which put us at Sturdick -  
Hickey camp ground for the few  
hours of sleep we could allow ourselves.

Alarm went off early - 1973 300th day - 65 days follow

around to. Breakfast at Redgewood Summit. Lovely morning - warm day.

Arrived Deland's house in Davis around 10:20. Meeting just getting underway. 17 people there. All very interesting as discussions got serious about wilderness use and wilderness "management." Buffet lunch - ate out of doors. Meeting lasted until after 5.

Dave and I had Mexican type food before leaving Davis. Also got gasoline. Had to stop in Williams - emergency - I was "stricken" by something eaten - perhaps the hot sauce! Got to service station in time. Also had to get some toilet paper, since Dave was "out."

Headed for Elk Creek out of Wellows in order to explore Mendocino ~~Park~~ area. Drove - and drove - until nearly 10:30 when we found a spur road with a fairly level spot to spend the night. We were over 4000', but it was not too cold. Very clear, stars really bright and showy.

1973 301st day - 64 days follow

Awake by 7:30. Pleasant morning in the forest. We each had one breakfast square and a 7-up for breakfast and got underway immediately. We wound our way along through the forest, running into snow above 5000' level. Left car awhile - in snowy area near Black Butte, and walked to top of the butte. Visibility, 0! We were in a strange, moist, cloud cover, seemingly over the Butte itself. It was probably 11:30 when we returned to car.  $\frac{1}{2}$  a candy bar and 6oz apple juice was only food. On our Mendocino Pass in foggy cloud - and into the sun finally at Corvids as we dropped into Round Valley.

Lunch at 2 in Laytonville. Air clear and beautiful rest of way home. Arrived Moonstone around 4:45.

Watched TV for Butte Valley Dam project pros and cons, sponsored by LUV. Dave and I had a pizza in McK. and went on into Eureka for Audubon wildlife film "West side Story - Walter Berlet - Baja to Alaska."

Home by 9:30. Dick still busy with his busy work that kept him from going to Audubon movie.

Dave went home before 10. Clear and starry.

Up by 7:15. Started some <sup>1973</sup> 302nd day - 63 days follow  
working. Many phone calls regarding  
Butter Valley project, Palo Verde Estates project,  
SE meeting, etc. - Dave & I were in near-  
constant communication all of forenoon.

Picked up Dave at 2. Met Raul M.  
& Don T. around 3 - discussed Palo  
Verde Rec. Ranch over coffee until 5.  
Home by 6. Left again at 7:15 for  
Arcata. North Group Ex Comm met  
at Dan Hausch's home until 9:30.  
Took Harriet home.

Dave spent night on couch.  
Lovely day, cool, clear evening.  
Sky lab was spotted before 7.

1973 303rd day - 62 days follow

Up by 7 to start reading,  
writing, typing, the draft for statement regarding  
Palo Verde Recreation Ranch in <sup>project</sup> Southern Humboldt Co.  
Dave kept busy until we had a fair second draft  
ready by 11:30. I dropped him at home to get ready  
then went on to Arcata, where I met him (having  
driven his own car that far) and then on to Eureka  
to meet with Raul Munguia over lunch. Statement  
seemed O.K. Dave presented it, but the 1:45  
rescheduled hearing didn't begin until nearly 3.

We left at 4. I dropped Dave in Arcata to  
meet Vern Korb. Went to Env. Center briefly.  
Tried to get into Devall's, but no key. Took  
groceries & mail to Becky by 5:30 or so.  
A quiet dinner. Dave came in  
around 9:30. We played Yatzee awhile.  
He asked to stay all night.

It was a lovely, warm day, but there  
was no chance to get in any exercise.

Lovely, stary night with new moon.  
In bed before 12 to read awhile.

(Had a strange "feeling" before  
dinner. No pain, just feet weird,  
weak and strange.) Bill insisted  
I lie down awhile, which I did.

up by 7:45. Dave went home after  
 having some breakfast. I re-typed  
 the corrected final statement, as given.  
 He came by for it around 10 to go to HSD  
 for copies and deliver back to Board Secretary  
 at Court House.

Rid 2 huge loads of washing. Sunshine  
 turned to fog.

at 3 Dave came by on way home, just  
 as I was leaving to look at a piece of coastal  
 property - after talking to Jack Salvo on phone  
 about Regional problems. I took Dave with  
 me, then dropped him in Trinidad before going  
 up to Becky's to deliver water.

Stopped at Dave's place for coffee after  
 being "Prince" at Devalls.

Fog turned to rain - Dave & MT  
 walked down for dinner.

Talked ~~by~~ with Polly McKnight  
 about St. Ballot.

Took Dave home sometime after 9.  
 Raining rather steadily.

1973 305th day - 60 days follow

All Saints Day after last night's rainfall.  
 A sparkling morning  
 up by 7:45. Several phone calls, some  
 housework, then ironing to do until 1 pm.  
 Walked to Trinidad, saw "Prince", got groceries,  
 stopped briefly at Dave's. MT walked home with  
 me - a lovely, lovely afternoon - brisk wind.  
 Dave brought my groceries down at 4:30 and  
 stayed for dinner. His back was hurting, so  
 we loaned him heating pad.

Left at 7 to attend Planning Comm. meeting.  
 There was public hearing on adoption of open  
 space conservation plan - lasting from 8-10:30.

Stopped by Dave's to report. Dory home.  
 Had a long, tall drink, then headed  
 home at 11:30.

Wake by 7:30 - to rain! 1973 306th day - 59 days follow

All Souls Day

Showers in morning, clearing around noon. Dave was in from 9-10 making phone calls. Bill left around 12:30.

Left for Eureka right after lunch, getting to State Bldg. at 1:30 to meet with Dewight May. Went to Coastal Com. offices to do some "file" work on a couple of projects pending.

Spent some time later, in same bldg. with Bill Hegy, District Engineer. Home by 5:30. Magnificent clouds over area at sunset.

Dave came down for dinner - then we all went to Calif. N.P.S. meeting on campus to hear John Sawyers' program on the Russian Peak botanical area - proposal.

Home by 10. Dave headed out. Watched a TV special for an hour - a woman-comedian type - quite good - Tomlin.

In bed by 11:35 to read and keep PC happy.

1973 307th day - 58 days follow Wake at 7:15 - once again

to rain. Showers widespread all day and evening. Celie Van der Nulld phoned regarding Coastal problems.

Dave and Nonq arrived, glasses in hand, to watch football on TV. Around 2 I took things to Beedy and stopped at Devalls. Bill did shopping in MCK.

Made "Goop" for SC potluck. Picked up Dave at home after 6. Bill did not go.

Small gathering for dinner. Maybe 40 for meeting.

Rev. Phil Hewitt (Lutheran) was guest speaker - covering some phases of the BVD & project.

Home again by 11.

Up early - 7:15. Raining. 1973 308th day - 57 days follow

Worked around house then took water and groceries to Becky around noon. Fed "Prince".

Dave arrived to watch TV ball games, then went home mid-afternoon. Rain steady all day - and all evening. Had a fire going most of day. Cold outside!

Snow down to 3000' level, we heard. Bill went collecting in late afternoon. I vacuumed dirty house!

Dave was back again for dinner. We played Yachtzee later, then he went home before 10.

Had exercise session in fairly warm livingroom before a bath. Lubed to bed by 11:30 - still raining.

1973 309th day - 56 days follow Power off at 6:35 A.M.

Rosed up to Dave's place for breakfast so we could go together to Dept. of Transportation meeting at 8:30 (in Eureka) to discuss new 101 alignment near Richardson Grove, north to Fenbow - S. Fr. Eel. Pouring rain most of day, and some gusty winds. Spent at least 2 hrs. on freeway "thing". Coffee at Stanton's at 11, then out to Sears on the Mall to shop - and order a book.

Met John Sawyer for 12:30 lunch at Union Town (in Arcata). He and Dave discussed Russian Rk. area for nearly 2 hrs. Errands at HSU library, bank, Env. Center, Post Office. Home by 3:30 after dropping Dave near Trinidad P.O.

He (Dave) came by later to leave MT and her dinner as he headed for meeting with Vern Korb, then he was back by 7, joining us for coffee and some Yachtzee.

Later, he began making comments in rough form on the highway projects. Working until nearly midnight, he decided to sleep here, rather than return home.

Bath and Shampoo around midnight for me. Rain still heavy at times.

Up around 7:30. Raining. <sup>1973</sup> 310th day - 55 days follow

Election Day

Typed up comments to DOT and wrote my own comments in regard to the latest project. Dave took everything necessary into the Xerox when, around 2, we were prepared to leave for Arcata. I was dropped at the Law Collective, then picked up later at the Env. Center.

Checked Devore's cat after voting and walked back to Dave's place (he had dropped me at polling place in Trinidad). Rain had let up briefly.

After dinner we three sat "glued" to TV to watch election results. By 12:30 we knew Butler Valley dam project had gone down to resounding defeat. We stumbled to bed. Dave threw sleeping bag on living room couch.

Game

<sup>1973</sup> 311th day - 54 days follow

Awake by 8:30 to more rain. Felt lousy so remained in bed. Dave didn't feel too good either, but he was first one up and brought coffee to Bill and me. I couldn't take anything, however, until much later. The phone rang as early as 8 o'clock. Many, various calls.

Dave was back and forth to his place - brought in T-5 for front page BVD vote results. He cleaned up kitchen for me before leaving at 3:30 to meet with Vern Lorb.

Got dressed around 4 - had tea - stayed up. Polly McKnight came by with ballot material. Dinner around 7. Dave returned later. Played Yahtzee, then everyone wanted to "fold" up again. Dave went home before 9 - Bill took nap upstairs, I napped in living room.

Phoned Terry Johnson in Mendocino that I would not be driving to Guadalupe for regional Coastal Com. meeting tomorrow. We covered items on agenda. A SC spokesman had been secured - so I relaxed a bit.

Marie Stephens phoned from Crescent City in morning.

Up by 7:30. Cloudy all day. <sup>1973</sup> 312th day - 53 days follow

It had rained heavily during night. Very warm. Up to 66° in Eureka, 64° in Arcata and still up to 60° at 5 p.m. here at Moonstone.

Worked around house until 12:30. Took water + mail to Becky by 1. Saw the cat at Devall's also.

Went to Davis place - an "appointment" to give him a haircut, around 1:30.

We went to Arcata together, my car this time, to do some quick errands - saw Jordan Strangler + Steve Gumpertz at law Collective offices in regard to SC "pecats".

After taking Dave home and getting home myself, I grabbed my bicycle and rode to Trinidad and back - from 3:25 to 4:05.

Very warm, still; no need for jacket.

Dave + AST walked down before dark and had dinner with us. We played 3 games of Yachtzee afterwards, then took Dave home and listened to a record.

Raining again around 9.

<sup>1973</sup> 313th day - 52 days follow

Up before 8. Raining. Raining most of day. Followed Bill to Arcata Union Station, where he tried to leave the jeep for new exhaust pipe. Went on to Eureka to do some shopping and to have one new tire put on Falcon at Mont. Wards. Some stops in Arcata - Sweets, P.O. + law offices, then to Trinidad to fill gas tank. Home by 3:00. Ran-hard-at-times!

Bill got home around 5:30. Dave arrived for 6:30 TV news - and stayed for dinner, and Yachtzee, and a TV special film about dying of cancer and tapping the thoughts of a young woman and mother. Film was 2½ hrs.

Dave went home around 11.

Avoid to rain - around 1973 314th day - 51 days follow

7:30. Went walking after cleaning up kitchen, around 10, and Bill joined me as far as Sufferbotty. Stopped at Dave's briefly, then went on to Devalls to feed cat. Returned to Dave's for coffee and some pastry I got at Saunders Market. Got pretty wet as rain hit last 2 miles - above Sufferbotty. Noticed new small landslides, trees and all - and one bad spot, oceanide north of Sufferbotty Creek. MT walked home with me.

Bill went to Euche, shopping, returning around 5. Put roast in oven; had dinner around 6:30, though we were invited to share Mexican fare with Doug and friends and Dave. We joined them around 9. At 10:50 or so we all decided to descend on Ocean Grove Lodge. Played pool, drank and danced until closing time.

Ron Huntsinger spent <sup>rest of</sup> night on our living room couch.

Rain, hard at times.

1973

315th day - 50 days follow

Up by 9:30. Bill and Ron had breakfast around 10. Showery all day.

About 1 Big Lagoon collecting got Bill out. I rode to Trinidad, went to Devalls, ~~then stopped by~~. Meanwhile Dave and Doug came down for TV foot ball games. Ron came by after house hunting in Trinidad area for several hours. Doug left when ball game ended. Dave, M.T., Bill and I walked during "dry" spell! Bill went only as far as Sufferbotty. Dave and I managed to get to his place before dark without even a jacket on - it was so warm. (No rain.) Turned around, walked back as far as Sufferbotty, where Bill was waiting for us. Learned of phone call from Crescent City from Bill Ashworth (of Ashland, Ore.) and family and friends were unable to go over 199 due to landslide. They would spend night with us.

11 people, including 7 mos. old Sarah (Ashworth) spread sleeping gear in living room and dining room.

We washed and dried some things so they could get through tomorrow.

Bill took Dave home around 10.

After a wild storm around 1973 316th day - 49 days follow

12:30 that awakened everyone and scared P.C. we managed to sleep through more heavy rainfalls. Everyone (except Bill V.) was up and getting breakfast as he or she could by S. Phoned Highway Patrol about conditions on 299. All clear. The gang got underway at 9:15, but not before several had washed down to beach.

The sun broke through a few times. Showers were scattered, sometimes rather fierce. Some hail fell in mid-afternoon.

Cleaned house for hours, since all the furniture had been pushed around already. Dave came in - in a rush - on way to town.

Around 3 I took groceries, water and mail to Becky - and visited "Prince".

Read Bill Dewall's article in Boston Law Review (?) about Forest Service - decision making.

Dave brought us lamb chops for dinner and watched Monday night foot ball on TV.

After dinner we played a couple of games of Yahtzee. While Bill corrected test papers

I helped Dave rearrange his furniture. Then he helped Bill correct papers when we returned - from 11:30 - 1.

Dave spent night here.

1973 317th day - 48 days follow

Up by 7:45. Raining. Dave and Bill did some more test correcting. Got letter typed for Legal Defense Fund. Picked Dave up at home around 11:30. We both took washing to Mill. ~~white tubs~~ Had lunch at nearby Red Barn while laundry being done. Quick errands in Arcata, then on to dump wet washes into driers - Dave's in Trinidad.

Went back to Dave's around 6 to have a drink before all of us went to Steck Wayboms for 7 o'clock dinner.

Got town of house - fabulous, watching it <sup>begin to</sup> take shape ~~was~~ was fun. Back to Dave's to hear a record and show Bill the new furniture arrangement.

Headed home around 11:30 - only to find road block just south of Sufferbally - We had to back track to get home.

Had phone call from Lowell Smith regarding Cranston Conservation Comm. Meeting Friday night at Wayboms.

Up by 7:45. Raining. 1973 318th day - 47 days follow

Headed out immediately after breakfast to wade up scenic drive to see where blockade was -- and found large slide only  $\frac{1}{2}$  mile from here - right near McGlynn's place. The sandstone bluff had given way from the top. Equipment and ~~many~~ several men and trucks were busily clearing it away. Went on to Dave's place - rain all the way. Had coffee, then with MT, I walked back home.

Started making fruit cakes, but did not have enough flour - so, back to Trinidad. This time I drove, and deposited MT with Dave, had a glass of milk and peanut butter and jam sandwich. Then on to Revalls - they had returned Mon. night.

Bill had told me on phone, when I called from Davis, that one of our alders had crashed on back road. Dave came down to get some wood. He had to go to Eureka to rent a small chainsaw. I cleaned up small stuff - and stuffed my car! The young Holland couple with pickup offered to take large chunks up to Dave's place - after 4. No rain at all during afternoon, but heavy, gray skies.

Picked up Bill after 5:15 when he left Jeep at Ed's station in Arcata.  
Dave here for dinner. Made fruit cakes later.

1973 319th day - 46 days follow

Up by 7:45. Raining. Took Bill to campus around 10:15, then delivered water to Becky.

At 2:20 I picked up chainsaw from Dave and streaked to COR to talk "Scenic Club" to Natural Resources class from 3:15 - 4:30 - a little late, but I phoned in advance. Returned rented chainsaw on way home, just before 5.

Picked up Dave and MT around 6 to have dinner with us and to contemplate some comments for "Chips" and EXCOR meeting Saturday.

Dave claimed his car was having ignition trouble - he would go to Weaver's, however, on Saturday during daylight hours! What a big story that was for him to put across to me! He couldn't go with us to SF - 20 - but he could drive a faulty car 200 miles! He really 'hunts' to figure up excuses to get over near Trinity dam - he's 50 transparent -- and he thinks his being casual! What a truth stretcher he can be to fit the situation. He gets more "psycho" everyday - WOW.

1973 320th day - 45 days follow

up by 8. Raining.

Put stuff together for travel and overnight in SF. Typed material for Redwood Chips. Took water, groceries, etc. to Becky.

Dave brought Chips news material down when we were ready to leave around 12.

Stopped for snack in Garberville around 2. Following some showers, we had mostly cloudy weather - not too bad. I drove from Rio Dell to Willits. Limit of 10 gals. of gas there at Standard Station.

Arrived at Wayburns around 6:40 - just in time to change clothes before dinner guests arrived. Cynthia and Laurie were at home. The event was the Clearston Conservation Committee (Ab. Calif.), meeting for first time in over a year. On hand were washing ton aide Ray Greenaway, staff Gary Aldrich and Ann Mueller and Calif aide Bob Girard. 16 total (inc. some wives and husbands) for dinner.

Meeting primarily centered on Redwoods - action for expansion and moratorium on cutting until oversight hearings can be achieved.

In bed after midnight.

Raining!

1973 321st day - 44 days follow

(16.94) (S.F.)  
Awake by 8:15. Raining.  
Peggy + Ed had breakfast with us around 8:30-9:00. The "girls" were not yet up!

We left in rain around 9:40, headed for Garberville for Ex Com. meeting (Chapter <sup>Park</sup>) at the Hexagon House near Armitage, Woods State Park. The Russian River was up, but not dangerously. Arrived 1/2 hr. late, around 11:30. Lunch was served where we sat in kind of an enclosed patio. Plastic roof made talking impossible during heavy showers - it got wild. Meeting over by 3.

Very heavy rain as we headed for Healdsburg + 101. Rain continued almost entire trip home. Stopped around 7 for pie and coffee in Garberville. Home by 9.

P.L. so happy to have us back she "barked", howled, and roared around "like crazy".

Read mail in front of warm fire, then headed for bed around 11 - still raining.

Reached Dave by phone (at Morris') regarding aerial photos over Redwood Creek as soon as possible.

Awake to rain again. 1973 322nd day - 43 days follow

Up by 8:30. Too showery to go walking, though clearing looked possible.

Worked around house until it cleared enough to look safe to walk to Trinidad and back - which I did between 3 and 4 o'clock. Air was crispy, then on way home I shed 2 jackets!

Bill went collecting in salt marshes south of Arcata.

Dave phoned from McK. around 5 - would come by - for dinner.

He was behaving strangely - almost morose - not talkative very much of time seemed distracted, argumentative - strange!

We played Yatzee short time, then he headed home around 9:00 - professing to have had <sup>real sleep</sup> ~~had~~ night at Morris. He had also paid visit to Jean and Bud, but told us nothing about them. I believe him to be sick! His mind is doing some strange things - or making him act strangely - making him almost a stranger.

Subed to read around 11. Bill busily typing until late.

38° here; 35° in Eureka at 7:30.

1973 323rd day - 42 days follow

Up by 7:40. Cloudy with quite a bit of blue sky before noon, hazy later.

Left for Arcata 8:45. Met Dave in Union Town coffee shop, then checked on his car. It was ready, but he parked it and rode to Eureka with me to do errands. Left venetian blinds for new tapes + slings, then did smaller errands, arriving back in Arcata by 10:30.

Dropped Dave at his car and headed home - before 11. Phoned Becky as message read from Bill.

Dave showed up around 12:30. We planned material for Ecorows, which he took in to Env. Center before 3. Gari Stephens phoned.

Chopped some wood for the evening fire. Dave was back again about 5. Bill got home about 6. I grabbed some dinner and left them around 7:15. Dwight May phoned as I was about to leave. Dave watching Monday night (TV) football.

Park + Rec. meeting at Court House lasted until 9:30.

Played some Yatzee. Dave left around 11:30.

Rain began shortly after midnight.

Raven Halland left house key for me to check things during Holiday weekend.

up by 7:30. Raining! 1973 324th day - 41 days follow

Phone calls indicated necessity for getting to Board of Super. meeting for 1:45 hearing re. Redwood Motors appeal on denial of sewage disposal permit from Co. Bd. of Health. Snatched Dave at 10'clock to go with me. Whole thing was continued a week on request of Dr. Barry Wolfmann (Pub. Health), after much wrangling. We had coffee and did some quick errands, then returned to Moonstone before 4 hoping to go for walk. Rain got heavy - gave up walk, built fire. Took Dave home to get MT - then returned. About dinner time (7:30) a process server (private investigator from Roseville) arrived with stuff from Winston, the mobile home park developer. I received papers for North Group.

Played Yahtzee in front of fire after dinner. Cold. Some hail.

Moved Yahtzee game to Dave's place, where he built fire and played some new records.

Rain continued. Some thunder and lightning around 11:45.

1973 325th day - 40 days follow

Up by 7:45. It had rained hard during night and then remained cloudy all day - and cool - and rain began again in late evening.

Took groceries and mail to Beedy around 11. Stopped at Dave's and ended up having soup and sandwich for lunch. Went to Eureka around 3 - to Coastal Com. office, and other errands - getting home again shortly after 5. Back at 5. Doug and Dave had pizza here, after a contact by phone with Dave in Altk. We spent evening in front of fire. Anita phoned around 11 to chat

Talked with Legal Defense Fund's Jim Moorman in morning regarding Winston case and papers being served.

Up before 8. Rain for <sup>1973</sup> 326th day - 39 days follow  
 Thanksgiving Day

President Kennedy Assassinated 1963

Overhill then mostly cloudy. Dave and Doug came down to watch TV. Made mince pie before noon, then prepared dressing and got a 12<sup>th</sup> bird into oven around 1:45. Dave, Doug and I walked to their place before 3. Had a drink, then walked back with a glass in hand, arriving by 4:30 to get some dinner things into oven - and Dave was making special dinner rolls (Parker House type, a special recipe of his mother's).

Ron Hintsinger showed up around dark, so asked him to stay for dinner, which he did, happily.

Had a delicious dinner, likewise. At 8:15 I took a sampling up to Becky, then we joined Dave + Doug, again at their place, for records, drinks, coffee, and dancing. Raining again - all evening. Walking earlier had been delightful. Dave and MT had covered 9 miles. I covered about 7 $\frac{1}{2}$ , having walked with Bill in morning to meet Dave when he first came down.

Did a lot of dancing with Dave. Bill was a bit <sup>too</sup> giddy. Home by midnight.

1973 327th day - 38 days follow

Up before 8. Took a few hours to clean up kitchen. Raining during night, but no rain until noon, then rather steady all day and heavy at times during evening.

Couldn't get Dave's pickup started so went for him in jeep around 11. Bill was just up! Dave watched TV football games.

We played Yachtzee before and after dinner, starting new competition.

Cleaned up kitchen after Dave went home around 9:40. It had been a quiet evening - nice fire.

Becky phones that Fred had visited.

1973 328th day - 37 days follow

Up around 8. Some clearing briefly, but rain began again around 9:30, so I put off going for a walk.

Dave and Doug came in to "TV it" on football games.

In late afternoon we walked to Dave's, (Bill went about  $\frac{1}{2}$  way) grabbed a glove, put a sock on it to keep hands from freezing, and immediately started walking back, getting to Moonstone just as darkness set in, around 5:10.

Dave took over in kitchen on my suggestion of waffles for dinner - and he used Gordon Robinson's good buttermilk pancake recipe.

Later we went to D + D's to hear Mahler's 8th Symphony, Solti conducting.

Home again - light rain - by 10:30.

Went to bed to read awhile.

1973 329th day - 36 days follow

Up (to rain again) at 8:10.

Spent most of morning cleaning up kitchen. Dave and Doug arrived before 12 to watch football games on TV. Bill took some office materials into his office. Around 4 Dave, Doug, MT + I started a walk to their place. We got hit by rain when still a mile from home - so were soaked below edge of rain jackets. Had a highball; tried to call Bill. No answer, so we gathered up taco ingredients and returned to Moonstone around 5:45 in Dave's car.

Bill had walked to Suspendalty and back, expecting to meet us.

Watched some "specials" on TV, then Dave and Doug went home separately somewhere between 11 and 11:30.

Had late bath and shampoo, then read for brief time.

Still raining!

Up by 7:45. Raining. 1973 330th day - 35 days follow

Cleaned up kitchen. Stopped at Dave's place around noon - had sandwich and coffee - then on to Beech's with mail, groceries and water.

Went to Arcata for SC mail by way of "speed wash" in MCK. Saw Steve Gompertz very briefly with letter from SC Legal Defense Fund re Winston lawsuit. Home to start drying laundry around 4:15.

Dave phoned, then came down around 5 with load of SC material.

Bill got home after 6. Watched a bit of Monday night football during and after dinner. Also played Yahtzee.

Dave still not feeling too sharp, so he headed home shortly after 9:30.

Cancelled ExCom meeting scheduled for this evening.

1973 331st day - 34 days follow Up before 8. Rain light.

Made many phone calls re. public hearing at Board of Super. at 1:45 -- possibility of continuation for next week -- but attendance indicated.

Picked up Dave around 1. He did errand or two while I went to hearing, which was continued. Home by 3:30. Dave + RT here also - for dinner and until 9:30 when John Hart (SC from San Rafael) phoned from Orick.

Dave + I drove to Dave's place, where <sup>over</sup>night arrangements had been made, to meet and talk briefly. Dave then returned with me - <sup>he</sup> still not feeling too hot - to spend night here, then do typing first thing in morning.

We played Yahtzee awhile, folding up around 11:30 - 12:00.

Raining still.

800  
800 NOVEMBER **28** WEDNESDAY

Up by 8. Raining most of morning. Dave typed material for Vern Korb & self, then took off to deliver it to Vern. Around noon I rough drafted statements for CE public hearing, then took lunch materials up to Dave's place for John, Nick, Dave and me & John & Dave talked to book coverage.

I left before 2:30. Dave came down to edit my material, then I was on my own. He attended Tourism Workshop at 7:00 PM in Eureka. Bill and I met for dinner around 6 in Arcata.

I left for hearing at City Hall, set for 7:30. Bill went to campus to hear Stuart Udall speak on energy crisis at 8. Arrived home around 10:30 - Raining still.

Gave statement for SC opposing granting of permit for existing fill to auto dealerships on 101 stretch between Eureka-Arcata. Capacity audience. TV coverage - watched at 11 - portion of my statement recorded.

Dave came in after midnight to report - then played overnight. Saw him on TV, too.

000  
000 THURSDAY **29** NOVEMBER

1973 333rd day - 32 days follow

Up by 8. Dave feeling somewhat better. We left (in the Falcon) around 9:45 to drive to Smith River to meet with "Friends of Del Norte" at Gail Stephens home. Ada Hatcher and Bonnie Groves also there. Had a good session over snack type late lunch, then left around 2:30. Rain extremely heavy on drive home; arrived 4:45.

Played Yahtzee after dinner, then watched a special movie "Catholics" - Playhouse 90. Excellent. Dave spent night here again.

Up about 8. Dave and <sup>1973</sup> 334th day - 31 days follow

Bill stayed in until nearly 9.  
Raining — 1

Took Dave to dental appt. in Eureka at 11. Did errands like Coastal Com. and photo lab, then picked up Dave at 11:30 and we headed for the Mall. Had coffee and doughnuts, then picked up History of Humboldt County book put aside at Fireside bookshop. Shopping and errands in Arcata; home by 2:30.

Dave put roast in oven (which he had bought) then I took him home when on way to Berdy's with groceries, water, etc. Rain began heavily at 4, and we abandoned idea of taking a walk. Instead, when I dropped back by Dave's, we listened to a new record.

Doug and Dave came down for a late dinner at 8:15. At 7:15 I took ballots to be counted by the Guthries + Phil Kirby. Dave dropped me at Guthries in Ock and went on to Arcata briefly, returning for me in about 20 min.

Results of ballots, phoned later: Vineyard, Jan de Wack, John Herron + Deke Cairns.

Bill played piano awhile, then took out for short walk in rain.

(<sup>now</sup> 30 days with rain)

1973 335th day - 30 days follow

Up by 8:30. Rain - November record set. Drove to Arcata by 10 to be part of group photo for Humb. Women in Art poster use. Rain + hail. Home again at 11:30.

Bill went to office, re-cycling center, got groceries and picked up Dave - after many phone calls back + forth.

At 1:15 I left between showers to walk Scenic Drive. Came upon Richard Harris + wife + a sister at Luffenholty and I walked and talked with them until their turn off at Baker Ranch road. Almost at Dave's place when he drove around bend. Rain began - rode back home, since he was heading down to borrow soldering iron.

Heavy, heavy rain + wind around 4. Some brief spots of sunshine. Got ready for SC potluck meeting. Bill and Dave chose not to go, but Bill went up to Dave's for dinner. Raining most of evening.

Meeting ended around 10. Fairly good attendance. Herbicide use by DOT one topic on program; open space, another. Home at 10:45.

Up by 8:30 - NO RAIN! 1973 336th day - 29 days follow

First Sunday in Advent

Some scattered clouds throughout day. Actually warm enough to enjoy being out. Dave and Doug appeared at 11 to view TV football. At 12:30 we all walked up scenic drive; Bill went only as far as Sufferholty Creek. At Dave's + Doug's we had a couple of drinks, watched birds (Ruby crowned kinglet and Townsends warbler) just outside livingroom windows. Walked back to Moonstone, and noted the number of people out - jogging, bicycling, beachcombing, motorbiking it, or dining, and horses, too. More football on TV. Bill went out collecting. Dave and Doug left around 5:15, but Dave returned for fried chicken dinner, which was rather late.

Played Yachtzee. Dave went home around 11. Bath + shampoo before 12.

(He had stewed all day thinking I had goofed off on SC meeting, after I pretended to have been elsewhere. Finally I told him I had been fabricating the whole story. Doug and Bill knew better and were also amused at his reaction before the real story was told. He acted as though he were jealous!

1973 337th day - 28 days follow

Up before 7:30. Phoned Dave around 9 to see if he could add to my machine load of washing. (He arrived before 10 - then left to get his materials for working on Siskiyoun Creek-Preston Peak Wilderness Study Area. I typed material for next Redwood Chips. Had a small fire going all day.

Dave walked from Sufferholty, having left his car there. After Bill phoned at 5:15 we walked back to (beyond, actually) Sufferholty. Could see Moon shadows with half a moon, somewhat clouded over. Back by 6 - time for Monday night (TV) football. Doug showed up, too, but he had already had dinner.

Dave brought some of his own stuff. At 9:30 we all went walking in the moonlight - to Sufferholty. Doug and Dave left separately sometime around 11.

Most of the afternoon was cloudy, only occasional light drizzle.

Paul Stevens phoned during evening.

0000 - in evening -

DECEMBER

4

TUESDAY

Up at 7:40 - looked like rain <sup>1973</sup> had recently fallen - deck all wet. 338th day - 27 days follow

Panic! Had to phone Dave for coffee rescue mission. He arrived with his own breakfast on plate, stayed for coffee, then returned home.

Around 11 I picked up new record at Westhaven P.O., Took things to Bedy, then stopped at Dave's to hear new record. Ended up having lunch and helping him for several hours on USFS timber sale materials - filing, map marking, etc.

Around 3 MT + I walked to Moonstone. Dave took FS materials on wilderness down to house in Falcon, then walked back to meet us on Scenic Drive.

Cooking contest - "a kitchen caper" followed as we later varied "GOOD" for dinner - 2 baking dishes resulted. After dinner yogurt.

Rains began again as I took Dave home around 11:30.

Celia Vander Mehl phoned - regarding Coastal problems.

WEDNESDAY

5

DECEMBER

1973 339th day - 26 days follow

Alarm set for 6, but Dave <sup>1973</sup> <sup>340th day - 25 days follow</sup> ~~had~~ <sup>tried</sup> to go through with Redding trip. Stars out then. Clouds scattered at 7:45. Dave began working on second topo map - to go to Club office - and rain began around noon, keeping it up most of after-noon and evening -- lightly. Helped trace maps and make corrections. Ready for shipping off about 7 PM - by Greyhound, Crescent.

After dinner Yaltze, then I began typing rough draft of statement for Regional Coastal Com. public hearing tomorrow.

Took many phone calls throughout day to get needed information - State Parks, Crescent and Mendocino residents.

Dave kind of folded up - weary from long day over maps and legend and comments. Marie Devall phoned (AOL) that Bill was expected this weekend, from Vancouver.

Dave stayed here - on couch again.

<sup>1973</sup> 341st day - 24 days follow

Light rain, intermittently. Up at 7:30. Left at 9 to Xerox statement at HSD library on way to Coastal Commission meeting, beginning at 9:30.

Met Peg Frankel from Elk and Norm Devall from Ft. Bragg - Had lunch together following meeting. All were speaking to issue of 6-P logging plans on Big River in Mendocino County.

Bought new Adidas, then headed home. Changed clothes, filled water bottles for Becky and delivered them before 4. Stopped at Dave's, left car and, with MT, walked to Moonstone before dark.

Went to the Blue Sky Mexican Cafe in Blue Lake, but were very disappointed. Home by 9. Played Yaltze again.

Took Dave home around 10:30. Clear, starry, and nearly full moon. In bed by 12:30 with alarm set for 5:45.

Left at 5:45. Foggy. Dave <sup>1973</sup> arrived around 6. <sup>342nd day - 23 days follow</sup>

Feast of Immaculate Conception

Stopped in Garberville for quick breakfast. Clear in Ukiah - arrived at meeting place 10:20. We got lunches from nearby in order to continue without losing too much time - in order to finish as early as possible. Dave covered the Siskiyou wilderness study area proposal; Iva Warner covered the Warm Springs dam proposal in depth.

Left Ukiah around 3. A gasoline stop in Garberville before dark. Big full moon <sup>first moon</sup> near Richardson grove. Home by 7. Relaxed a bit before fixing dinner. Bill reported Doug had been down to water TV.

Young neighbor Joe Van Horn came in awhile as we were having coffee after dinner. Played Yatzee later.

Around 10 or so we headed out - walking - to Davis' place to bear a record. Bill went all the way; then around 12 Dave drove us home.

Moonlight off and on as we walked. Clear, cool.

1973 343rd day - 22 days follow

Second Sunday in Advent

up well before 8. Fair all day, but with fog off and on. Dave + OT arrived on foot around 8:30. After having breakfast Dave, OT and I walked to his place, only to turn around again, after a cup of coffee and return with Doug (in his car) so they could watch football games. Between halves of afternoon game all of us started for Sufferholty. Part way up the road Bill Devall encountered us. He parked and I walked with him as others went ahead. We tried the trail to the beach, but it was badly washed out near bottom, a huge slide - so we took Creek trail to beach; looked for driftwood and then headed back.

Doug went home after games. Bill D remained until after 6:30. We sat in front of nice fire, just talking.

Around 8 Dave, Bill and I went to Angelas (for pizza) in Ukiah.

Walked to Dave's, but Bill only went to Sufferholty, then drove up to Dave's place with refreshments and the Yatzee game. Home again by 11:15. Foggy, but moonlight shined through.

Up before 8. Bill D 1973 344th day - 21 days follow  
 come in around 10. The 3 of us walked  
 to Suspension Beach area to view the 8.1  
 high tide at its best. Too cloudy for good  
 pictures. Home again before 12.

~~Home~~ Went up to Davis to go over some  
 work, then typed a bit - then took things to  
 Becky in late afternoon. Dave & MT  
 worked down - here for dinner, then we  
 walked after dinner - moonlight.

Bill and I went to annual meeting of  
 Westham Water Co. Election time for  
 Board of Directors. Home again by 9.  
 Dave had been watching Monday night TV  
 football.

The 3 of us & MT walked to Davis's place,  
 then Dave brought us home before 12.

1973 345th day - 20 days follow

Cloudy - foggy - rain -  
 heavy wind during night - lightning, thunder!  
 Up twice to check doors & windows for leaks.  
 Alarm ~~went off~~ <sup>spt</sup> at 5:45, but power went off  
 at 4. Postponed trip to bedding with Dave  
 after checking with Weather Bureau & Highway  
 Patrol. Snowing on all summits. Dave came  
 down at 8. Cooked breakfast on camp  
 stove by candlelight. Power on again at 9.  
 Around 11 Dave and I got mailings ready  
 of letters to USFS - copies made at HBU first.  
 On to Eureka - Had lunch at Mexico Cafe,  
 then stopped briefly to shop for a few  
 grocery items in Arcata - Dave planned  
 to make Tacos for us.

At 4:45 I headed up Scenic Drive.  
 Bill would come up later - in car.  
 Dave <sup>and MT</sup> met me about  $\frac{1}{2}$  way, returning  
 immediately in <sup>very</sup> slight drizzle. Had  
 excellent guacamole, and feasted on good  
 Tacos. Bill returned home to correct  
 some test papers - after listening to a  
 couple of records. Dave drove me home.

Bill walked up road to meet us as we  
 had arranged to ~~meet~~ walk back. Then  
 I drove Dave home around 11.

8,0

Up shortly after 8. Windy. <sup>1973</sup> 346th day - 19 days follow

Received phone call from Delphine Fountain regarding possibility of getting SC help on an Indian problem - the Yuroks wanting resources on Hoopa reservation - all now in litigation.

Bill worked on typing of text, but I left before him, around 12:30. Picked up Dave and headed for Court House. Open Space element public hearing - Board of Supervisors.

Had to sit through 2 other hearings before "open space", then we left around 3:30.

Quickly changed into walking clothes once home and walked with Dave to his place.

A light rain began in last mile. Had a highball with Doug & Dave, then, since it was dark, he drove me home - and remained for dinner. I made a beef stew while Bill and Dave watched TV news.

Played Yatzyx later. Rain quite heavy at times.

Hamilton, Hers from Lake County phoned regarding a Water Quality meeting later in month.

Bill and Dave went over some records, then Dave left around 10:40.

<sup>1973</sup> 347th day - 18 days follow

Up by 8. Raining.

1973 348th day - 17 days follow

Took water and stuff to Beeky.  
Did some ironing.

Walked to Dave's place before 5.  
Bill Devoel met me (he was jogging)  
near Sufferholty Creek, then we met  
Dave on return, about another mile up  
road. All had drink at Dave's - Bill D.  
went on to his parents' place; Doug went on  
working on his 'paper'; Dave and I walked back  
down road a bit to west sunset.

Then he drove me home and stayed for  
dinner.

1973 349th day - 16 days follow

Up by 8. Raining.  
Doug and Dave showed up to watch  
TV bad games. Walked between lakes.  
Bill went shopping mid afternoon.  
Had bath and shampoo before leaving  
at 5 for informal supper at Van  
Kirk's in Acreta. Left Doug and  
Dave still watching TV.

Home again at 9 after most  
delightful evening. Fell asleep on  
living room couch and didn't wake  
up until 2 A.M.

up by 8:30. Went walking <sup>1973</sup> 350th day - 15 days follow

right Third Sunday in Advent after breakfast (about 9) in light rain. Went as far as Baker Beach. Got wet on return in gusty winds - back home to clean house by 9:45.

Dave & Doug showed up early to watch tv. Prepared salad dressings, salad, french bread (garlic) and did a lot of "putting in order" type housework. Fair in afternoon.

Doug and Dave and I took quick walk to Sufferbally between halves of ball game. They took off again, separately, but returned for part of another ball game and to stay on for Bill Devall's and my "birthday party". The Devalls arrived after 5. We had much to eat - Bill D.

made spaghetti - and much to drink - cocktails, then champagne. Bill D. showed slides of Vancouver area and N.Y.

Everyone was gone by 11. Bill and I went walking - to Sufferbally.

Did dishes up until 1:15 after getting back. Some light drizzle en route - otherwise, very pleasant.

<sup>1973</sup> 351st day - 14 days follow

Heavy rain and gusty winds during night - probably from 3-7. Awake to a drizzle would at 7:30. Bill had to take exam. grades into campus before 9. Jeep failed, so he took Falcon - only coffee under his belt.

Did ironing. Dave phoned about going to Eureka. Bill back for breakfast around 10:30. About 11 I picked up Dave. Did a couple of errands before eating lunch downtown Eureka - then completed errands by 2. Took Dave home since he had huge, new paper cutter to unload.

Took groceries, mail and water to Becky. Bill arrived loaded with presents and purchases - new five piece tools (for me) new telephoto lens (for him), ice cream + champagne (for us).

Dave came down for dinner. Fair all afternoon.

1973 352nd day - 13 days follow

1973 353rd day - 12 days follow

Up early. Phoned John  
Hannum (Water Quality staff) at Eureka. Saw  
to ask for SC comments to be recognized at  
public hearing scheduled on geothermal  
activities in Lake Sonoma County.

Dave here much of time, and he  
and Doug here for dinner. Dave  
worked late on photographs to  
take with him for X-mas presents for  
his family.

Ground medicinet Bill and I  
took a walk. In bed before 2.

1 Answered 6:30 alarm. 1973 354th day - 11 days follow

First Day of Chanukah

Drove to Dave's place to help him get ready for 8:25 plane. Plane delayed. MT did not go, after all, and after I spent 15 minutes filing down wood screws on his cage. Took Dave's pickup to his place, had coffee with Dave and asked him to come for dinner. We kept music on. Dave threw his chicken pieces in with ours for dinner.

1973 355th day - 10 days follow

Went walking - to Dave's + back -

Took things to Beeby.

Went shopping in Ocala and Eureka between 4 and 5:30.

Up by 8:15.

1973 356th day - 9 days follow

Went to Dave's place - did some roof sweeping - much better.

Home for lunch.

Bill went into town (date) with me.

1973 357th day - 8 days follow

Fourth Sunday in Advent

Up by 8:15. Overcast. Did some sewing, housecleaning - and washing. Bill did late afternoon shopping for me.

Around 5:30 - 6:00 he brought Dutch down for dinner. Pleasant, quiet evening - and Bill took her home again before 10.

At midnight, in light rain, we walked to Sufferbally Beach and back.

Up around 8. A grey day. 1973 358th day - 7 days follow

Light drizzle. Chopped (split) fireplace wood and Bill helped - once he was up! Went walking after lunch. Intercepted UPS at top of driveway - my "cougar" (print) arrived. Bill walked to Baker's beach with me. RT and I went on to check out Davis' place and run his car. While there I cleaned leaves off roof - worked about an hour before heading home. Drizzle turned to light rain, so I was rather wet below the rain coat when I got home at 3:50. Ocean was wild and rough, even around time of low tide.

Took groceries and half of one my fruit cakes to Becky - around 4.

Before 5 Bill and I went to Lee & Lis's to deliver present - a game table.

Stayed for a couple of hot drinks, then back home by 7 for dinner.

Fell asleep on porch while reading, but got to work again around 10. Rain most of evening.

CLOUDY - NO RAIN!

1973 359th day - 6 days follow

Christmas

Up around 8. Cloudy. Made a mince pie for Xmas dinner with Devalls. Bill D. phoned, then came down and the 3 of us + RT went walking on Clam Beach - along the shore and back through dunes. Shocking me by 3 wheeled vehicles racing up and over dunes, over vegetation - horrendous balloon-tired "tricycles" - also a few 2 wheel & 4 wheel dunes about. Great sight when Steve and Mary Metcalf from Moonstone Heights brought their 5 goats and a dog down to the water's edge. The prize goats were leary of the joys of the beach scene - not caring for the foodstuff about! Went to Devalls around 4. Had a very delightful evening - excellent dinner. Home again before 11 - and ready for bed - to bend awhile.

Took new electric blanket off bed - back to using wool!

Breakfast about 8:30, 1973 360th day - 5 days follow

Cloudy; warm 54°. Drove to Davis's place around 10, looked with brooms and cleaning clothes. Worked on roof and upstairs windows until 12:15.

Phoned Bill, who left when MT and I did to work home, leaving car. Bill encountered us at Sufferbally Beach. (He was wearing his new rain coat). Near home the rain began, as it had been forecast - and it didn't let up until late evening.

Garec Stephens phoned around 4. Bill D. was in briefly. Bill & I went to Eureka to leave our Cougar print to be framed. Bought some large floor pillows (on sale), got 2 split log philodendrons at Safeway (one for Dave) and returned home again around 6:15, after waiting in line for gas at a Shell station in Eureka.

Bill D. came by again to dry around a couple of color prints - and to say goodbye. - off for B.C. in morning.

Bill and I mounted photos and prints after dinner.

1973 361st day - 4 days follow Breakfast around 8.

Raining. Joan (Hagood) Martin phoned, then arrived about 11 with brother-in-law Patrick. Pat looking for help to get into Humboldt. Put Joan onto phone to Nat. Res. people. Shortly after they left, in came a real surprise - Roger and Pam Biffle, down from Kitwanga, B.C. Doug came by to pick up recyclables and stayed briefly - to meet the Biffles.

Too rainy to go washing, so settled in to pillow covering and some ironing. Just before dark we drove - in prep - to take clean couch cover and Xmas gift (philodendron) to Davis's place. Stayed long enough to put things in order and have one highball with Doug.

Brought the Ford home to roost. Quiet evening at home, reading, sewing, listening to cassettes. Fell asleep in front of fire, along with MT and P.C. In bed at 12:30. Rain heavy at times during evening.

000  
 up by 8:30. Overcast and 1973 362nd day - 3 days follow threatening. Took chance on walking to Dave's place around 10:30 -- rain caught MT and me at Baker's beach - but it was light and coming straight down - no wind. Ran the Datum to get tire pumped up. Phoned Bill, who would start walking to meet us. Rain heavier around noontime. Bill met us at Sufferbally Beach - home by 1.

Worked around house: Bill took Anita to do errands - gone 3-5. After phone call earlier from Holyoaks, we planned to leave at 5:30 to have dinner there - Paul Fitz to be there for sure.

Dave phoned twice from desert - would be in Sunday, late afternoon.

Magnificent dinner - carrot cake to top it off. Paul showed slides of Alaska and the proposed pack areas.

Headed home at 10. Throat feeling rough. Went right to bed - to read awhile and sip a hot buttered rum.

Raining hard and steadily.

1000  
 20000  
 1973 363rd day - 2 days follow Awoke to wind and rain during night. Up by 8, but did not dress until nearly 11. Throat felt "mugged", but managed breakfast - and did some reading and sewing in front of fire.

Took things to Berky - in a veritable cloudburst - but then it let up and was only steady rain rest of day. Bill left at 2:30 to do errands. Jean Hoyot and Paul Fitz stopped for an hour or so on way home from Eureka.

Bill brought home new Remington book and a George Mikes Sutton book "High Arctic" from a jaunt to bookstore in Eureka.

Read much of evening, then headed to bed early.

Bill took MT for late (11) walk to Sufferbally Beach and reported clear, starry, new moon, kind of dry.

Frost 35°

On my feet, reluctantly, around 8:30 or so. Doug came down around 11 to watch TV ball games - and I also watched occasionally. Between Lakes, in slightly cloudy sunshine, we walked to Sufferhats. Bill split a lot of wood as new storm expected tomorrow.

Doug picked up Dave at airport around 6. At 5:10 our power went off, returning at 6:40, just as they got back. Later they shared in to McK. for pizza - which we ate around the low round table in front of fire.

Watched a TV movie later. At 10:30 everyone ready to fold - I went right to bed - to read but a very brief time.

Increased cloudiness occurred as forecast.

Fair!

1973 365th day - The Last Day

New Year's Eve

up by S. Cool with widely scattered clouds. Dave phone around 11, and walked down with MT. I walked almost to Sufferhats to meet them. Meanwhile, Bill took Falcon (which had gas in tank - more than Jeep -) and went shopping in McK.

Dave prepared yeast rolls. Then took my car and headed for grocery stores since offering to fix dinner for us. Beautiful clouds over ocean in late afternoon. Storm brewing?

Dave + MT walked home before dark. Around 7:15 Bill and I took a few goodies and a couple of records and headed for Diner. A fine dinner, good drinks, good music and superb scenery. The moon lay full through thin clouds, viewed from candlelit room, framed by red woods. Doug + Bill took MT on a very short jaunt --- it had turned extremely cold - suddenly.

we did some dancing to records and finally got home about 2:30.

## PUBLIC HOLIDAYS-1973

In most States when a Holiday falls on Sunday, the Monday following is observed. Holidays in some States are observed only by common consent, or when appointed by the Governor, and not by legislative enactment. At the time this book went to press the District of Columbia by Act of Congress, and most States by legis-

lative act, changed the observance of Washington's Birthday, Memorial Day, Columbus Day and Veterans Day to certain Mondays. These changes, where adopted, are given effect in the table below. States where such changes are under legislative consideration are indicated with an asterisk (\*).
