HOPE COLLEGE CALENDAR 1982-83

Fall Semester (1982)

August 27, Friday
August 28, Saturday
August 28, Saturday
August 28-30, Sat.-Mon.
August 31, Tuesday
August 31, Tuesday
September 6, Labor Day
September 8, Wednesday
October 8, Friday
October 13, Wednesday
October 15-17, Fri.-Sun.
October 20, Wednesday
October 29-31, Fri.-Sun.
November 10, Wednesday
November 25, Thursday
November 29, Monday
Nov. 29-Dec. 3, Mon.-Fri.
December 10, Friday
December 13-17, Mon.-Fri.
December 22, Wednesday
January 28, Friday

Faculty Conference
Residence Halls Open, 8 a.m.
Freshman Orientation Begins
Freshman Orientation
Late Registration 10-12 a.m., Durfee Hall
Classes Begin 8 a.m., Formal Convocation (Evening)
Classes in Session
Last Day to Enroll for Credit; Last Day to Drop Courses
Fall Recess Begins, 6 p.m.
Fall Recess Ends, 8 a.m.; Monday Schedule in Effect
Homecoming Weekend
Mid-Term Grades Due in Registrar's Office, 4 p.m.
Parents' Weekend
Last Day to Withdraw with a "W" Grade
Thanksgiving Recess Begins, 8 a.m.
Thanksgiving Recess Ends, 8 a.m.
Registration for Spring Semester 1983
Last Day of Classes
Semester Examinations
Final Grades Due in Registrar's Office, Noon
Incompletes from the first semester not made up become an "F".

Spring Semester (1983)

January 9, Sunday
January 10, Monday
January 11, Tuesday
January 20, Thursday
February 18, Friday
February 23, Wednesday
March 2, Wednesday
March 3, Thursday
March 18, Friday
March 25, Friday
April 4, Monday
April 5, Tuesday
April 11-15, Mon.-Fri.
April 29, Friday
May 2-6, Mon.-Fri.
May 7, Saturday
May 8, Sunday
May 11, Wednesday
June 17, Friday

Residence Halls Open, Noon
Registration for New Students, 2-4 p.m., Durfee Hall
Classes Begin, 8 a.m.
Last Day to Enroll for Credit; Last Day to Drop Courses
Winter Recess Begins, 6 p.m.
Winter Recess Ends, 8 a.m.; Monday Schedule in Effect
Mid-Term Grades Due in Registrar's Office, 4 p.m.
Critical Issues Symposium Day (Classes not in Session)
Last Day to Withdraw from Courses with a "W" Grade
Spring Recess Begins, 6 p.m.
Residence Halls Open, Noon
Spring Recess Ends, 8 a.m.
Registration for Fall Semester 1983-84
May Day; Classes Dismissed at 12:30 p.m.
Semester Examinations
Alumni Day
Baccalaureate and Commencement
Final Grades Due in Registrar's Office, Noon
Incompletes from second semester not made up become an "F".

May Term (1983)

May 9, Monday
May 9, Monday
May 27, Friday

Registration & Payment of Fees, 8:30-11 a.m.
Registrar's Office, DeWitt
Classes Begin in Afternoon
May Term Ends

June Term (1983)

May 31, Tuesday
May 31, Tuesday
June 17, Friday

Registration & Payment of Fees, 8:30-10 a.m.
Registrar's Office, DeWitt
Classes Begin in Afternoon
June Term Ends

Summer Session (1983)

June 20, Monday
June 20, Monday
July 4, Monday
July 29, Friday

Registration & Payment of Fees, 8:30-11 a.m.
Classes Begin in Afternoon
Classes Not in Session
Summer Session Ends

HOPE AT A GLANCE

In 1851, four years after settlers from the Netherlands founded Holland on the eastern shore of Lake Michigan, a school was established to meet the educational needs of the young colony. Battling hostile forces in an untamed land, the Dutch settlers were sustained by a love of liberty and devotion to God that set the guidelines for their new institution. This Pioneer School evolved into the Holland Academy, which in 1862 enrolled its first college class. On May 14, 1866, the institution was chartered as Hope College, and on July 17, 1866, the first class of eight students was graduated.

Today Hope College is a distinguished and distinctive liberal arts, four-year, undergraduate college, affiliated with the Reformed Church in America. Its great religious heritage is expressed through a dynamic Christian community — students and teachers vitally concerned with a relevant faith that changes lives and transforms society.

The curriculum offers a variety of courses in 36 major fields leading to the Bachelor of Arts, Bachelor of Music, Bachelor of Science, or Bachelor of Science in Nursing degree. The College has long been known for outstanding pre-professional training. Each year many graduates go on to further study in the leading graduate schools here and abroad, or directly enter professions.

Hope College is fully accredited by the North Central Association of Colleges and Secondary Schools, the National Council for Accreditation of Teacher Education, the American Chemical Society, the National Association of Schools of Art, the National Association of Schools of Music, the American School of Classical Studies at Athens, and other agencies.

Hope is a member of the Michigan Intercollegiate Athletic Association and fields varsity teams for men and women in 18 sports. An active intramural program is also offered.

HOPE'S REASON FOR BEING

HOPE occupies a special place in the vast array of educational opportunities in the United States. It makes its contribution to the vitality and diversity of American higher education through the distinctiveness of its educational philosophy and program. For more than a century, Hope has cherished the conviction that life is God's trust, a trust which each of us is called to activate personally by an insistent concern for intelligent involvement in the human community and its problems.

Hope's reason for being is each individual student. Its purpose is the growth and development of each student as a competent, creative, compassionate human being. Its design is to provide full opportunity for the fulfillment of each individual student, not only for his or her self-gratification, but

also for what he or she can give to others in service to God and humanity.

Hope holds that a vital faith is central to education and to life — that faith provides both the incentive and the dynamic for learning and living.

HOPE WELCOMES able men and women of all social and economic levels. It is interested in students who sincerely seek to enlarge their minds, to deepen their commitments, and to develop their capacities for service.

HOPE PROVIDES an adventure in learning and living, not only for knowledge and wisdom, but for understanding, for meaning, and for purpose.

As a partner in this seeking fellowship, Hope students find a faculty of professionally distinguished scholars who have a genuine concern for the total development of each student. Hope's finest teachers teach elementary as well as advanced courses. Independent work on a self-directed basis is encouraged.

Hope's Reason For Being

HOPE OFFERS a well-equipped and friendly environment. Campus life centers around residence halls, which serve as social centers and provide congenial surroundings for students to learn from one another. The diversity of student backgrounds, geographic and ethnic origins, and personal interests adds variety and richness to the group living experience. A recently restored residence hall and most major campus buildings have code-approved accessibility to mobility-impaired students.

Many co-curricular activities and cultural events provide a variety of rich opportunities for learning and personal development.

HOPE PREPARES men and women who are persons in their own rights — uncommon men and women who have a personal dignity based on intelligence, a sense of responsibility, and a deeply rooted faith. For more than a century, Hope has sent alumni to the four corners of the world — alumni who have enriched their professions and humanity far out of proportion to their numbers. Hope graduates aim to go beyond specialization toward a synthesis of all learning into a life of meaning, purpose, and commitment.

HOPE PEOPLE

Hope People

When describing an institution, the tendency is to focus on things which are quantifiable and easily measured, such as enrollment, campus facilities, and academic programs.

An equally important aspect of Hope College is the people who make up the college community. It is through diverse individuals, such as those featured on the following pages, that the vital nature of a Hope education finds expression.

7

HOPE PEOPLE . . . THE FACULTY

The faculty is comprised of men and women of high scholastic attainment who have deep concern for the growth and development of students. Hope's faculty insures the quality education which has long been the hallmark of the College.

Hope's faculty members serve not only as teachers, but also as counselors, advisors, and friends to students. Outside the classroom, they contribute to the intellectual vitality of the campus through evenings with students in their homes, "buil sessions" in residence halls or in the campus coffee shop, colloquia and performances, essays in *the anchor* and many informal contacts with students.

Hope's full-time faculty numbers nearly 150, and each semester approximately 30 individuals serve as part-time teaching associates. This faculty is drawn from approximately 110 different universities and colleges. More than 75% hold completed doctorates or other terminal degrees. The student-faculty ratio is 15:1, assuring students excellent opportunities for learning interaction and personal contact with professors, especially within one's major field of study.

Faculty professional activity is encouraged. Recently Hope's faculty development program was cited in a periodical published by the Association of American Colleges and was included in a book entitled *Effective Approaches to Faculty Development*. Last year members of the faculty, on their own initiative, began conducting semiannual colloquia focusing on selected classic texts, indicating faculty commitment to the improvement of teaching and learning and to the benefits of interdisciplinary learning encounters. Several Hope faculty members achieved special recognition this past year for their scholarly accomplishments: a professor of chemistry was awarded a prestigious national teaching award, an economics professor collaborated with other educators to produce the first comprehensive study of Michigan's fiscal condition within the past two decades, a professor of English was one of 12 selected in nationwide competition to participate in a National Endowment for the Humanities summer seminar, and an art professor was one of a small number of artists selected from throughout the state of Michigan to participate in a special exhibit at the Detroit Institute of Art. In addition, faculty members regularly have presented papers at conferences, and published articles in scholarly journals and West Michigan newspapers and magazines.

**Robert Palma, Associate Professor of Religion
Eleanor Palma, Teaching Associate in Music**

Hope College is all in the family for Robert and Eleanor Palma. He's associate professor of religion and she's a teaching associate in the department of music. Their two daughters are Hope students and their teen-aged son's newspaper delivery route just happens to be the Hope campus!

The couple is quick to point out that their marriage is not the only place where music and religion overlap. "So much music has theological content, from Gregorian chants to major masses," Bob notes. He often integrates his

knowledge of church music into the courses he teaches. "That's one of the really special things about teaching in a liberal arts setting," says Eleanor. "You're able to relate your specialty to what's going on in another area. That can be very enriching, both personally and for your teaching."

Eleanor teaches piano and frequently performs on campus as part of a piano duo. Piano instruction, she says, is a very intimate kind of learning. "I think it's very important to get to know students individually. It's surprising how much students rely on those kinds of special relationships with their professors." Bob also gets his greatest satisfaction as a teacher from one-to-one learning situations, such as those available at Hope through independent study or small seminar classes.

Away from campus, the Palmas also share interests. They particularly enjoy tending their flowers (a rose garden is their special pride) and discovering new "favorite places" in the U.S. and abroad. One of their future goals is to become volunteer missionaries.

Hope People

Stephen Hemenway
Associate Professor of English

Interact. Question. Observe. Scream. Object. Contribute. Be alive. Jive.

These are some suggestions for meaningful class participation which associate professor of English Stephen Hemenway passes along to his students at the beginning of each semester. He, in turn, begins each course by looking for ways to be creative and imaginative in presenting the material for study. Consequently there are frequent surprises for those enrolled in Hemenway's classes, but he contends that just because a learning approach is nontraditional, it isn't necessarily off-the-wall.

10

"Sure, some of the things I do are gimmicky. But the gimmicks attract attention and generate interest, and there's nothing wrong with that — as long as you leave in the substance of the subject."

Among the most infamous of Hemenway's unusual approaches is the nonpaper, a student's nonwritten response to any of many aspects of literature. Nonpapers of many forms clutter his office. Others are less permanent, for nonpapers may be musical, artistic, culinary, choreographic, theatrical or almost anything else — as long as they convey understanding of the subject.

Students come to know Hemenway well, on-campus and off. His culinary talents are celebrated and have been sampled by many a cafeteria-weary student. He also accompanies Hope's Vienna Summer School entourage each summer. "It's great fun to introduce about 30 students to Europe each year," he notes. "The places are the same each year, but the experiences are different. What I love the most is meeting people. That, to me, is so much more than just sight-seeing."

Cynthia Kielinen Director of Nursing

When Cynthia Kielinen came to Hope in the spring of 1981 as the director of the new joint Hope-Calvin department of nursing, she took charge of a program-in-the-making. Her immediate goal was to write a program proposal so that approval could come from the Michigan Board of Nursing. That official go-ahead is now in hand and Kielinen is moving ahead with her goal to create a program that will be recognized and accredited "as one of the best nursing programs in the country."

Until just a few years ago, she reports, there were only a few nursing programs offered by Christian, liberal arts colleges. She thinks that the perspective available at such colleges provides the best preparation for the nursing profession.

"I think students need opportunities to really grapple with their faith, to gain some perspectives on it, and to do that with the support of people who know what they're talking about."

During her career, Kielinen has come to know nursing from many angles. She's been a practicing nurse, a teacher of nursing and now an administrator of a nursing program. She first graduated from a three-year nursing program and later went back to earn a baccalaureate degree. Master's and doctoral degrees followed. It's not surprising that one of her main interests is the development of the nursing profession and the cultivation of professionalism among nurses.

Planning a new academic program has proven to be a time-consuming task. "I don't think I've had time for hobbies," Kielinen mildly laments. "In fact, one of my concerns lately is that I don't get lost in the mishmash of everything that needs to be done. A couple of times since coming to Holland I've gotten half a suit sewn. It was going to be for fall, then it was going to be for winter, then it was going to be for spring. Maybe I'll finish it for next fall?"

Hope People

Michael Doyle
Professor of Chemistry

What does a person who has been nationally recognized as an effective teacher have to say about how students learn?

"I believe very strongly that effective teaching comes only from students' involvement. The learning process takes a student from being a passive viewer of knowledge to becoming a practitioner in the active sport of education," says Michael Doyle, professor of chemistry, who recently received a coveted teaching award from the Chemical Manufacturers Association.

"The teacher should not represent simply a wealth of information or serve as a kind of portable dictionary for the student's convenience. The instructor is the person that sets the example, that defines the course and offers the opportunities. And that instructor had better be exceptionally knowledgeable — otherwise there's no motivation."

12

Doyle supervises one of the largest research groups on campus. Currently, about two dozen Hope students are working with him on two projects: a study of catalytic methods for the production of new materials (research which could have great relevance for more economical use of energy sources) and a study of the biochemical effects of nitrogen oxides and other chemicals present in auto emissions. For most students research projects such as these result in the co-authorship of papers which appear in national journals.

He is active in several national associations, attends many professional meetings and conducts seminars frequently. He believes it's important for liberal arts colleges to maintain a posture of involvement, not only to insure the continuing support of their research but also to heighten their sense of common identity.

Away from labcoat and briefcase, it's tennis and gardening. "Right now, I'm enjoying everything I'm doing," Doyle confesses. "I find few things frustrating — except that I'd like to have more time for everything!"

Robin Klay
Assistant Professor of Economics and Business Administration

"I took my first economics course because I thought that an educated person ought to know something about economics. I had **no** intentions of liking it. In fact, I expected to hate it."

From that erstwhile reluctant economics student, Robin Klay became an expert in the discipline. The reason for her transformation, she says, lies in her discovery that economics has more to do with the choices people make than with the money that passes through their pockets.

"I learned that when you have limited resources, if you're choosing X, that means you're **not** choosing Y. A lot of economic thought has to do with how you rationally make that choice. I discovered an interest in the impact that economic choice has on people, and developed a specialty in labor economics and economic development. I prefer that humane perspective to one that stresses things like technical calculations of rates of return."

Klay's own initial reaction to her discipline serves as a constant reminder to her that economics "is not inherently the most captivating topic and I must, therefore, work hard to make it so for my students.

"When I remember my own great teachers, I'm inclined to think that to be effective a teacher needs a love of learning — combined with a certain capacity to clown a little bit too. For each student, something different is required, but I try always to bring my own interest and enthusiasm into the classroom. Until the students respond with their own questions, however, I don't think that one's teaching can be considered entirely successful."

Klay's research interests include the ethics of economics, using the computer to help teach economics principles, and the writings of John Stuart Mill, who in the 19th century discussed discrimination against women in the marketplace.

Hope People

Lamont Dirkse Professor of Education

Living in Voorhees Hall as head resident, along with his wife, Ruth, has affected Lamont Dirkse's classroom demeanor. The professor of education states:

"As the father of three kids who have gone through college, I thought I had a pretty good idea of what it's like to be a student these days. But since moving into Voorhees, I've become much more aware of the stresses and tensions placed on students. Previously, I think I approached students as their one teacher — I subconsciously assumed that my demands should have unquestioned priority.

Now I realize that each semester students have five or six professors who all schedule exams and papers that often fall due at the same time. Some people might say that because I've become more sympathetic to the student plight, I run the danger of becoming soft as a teacher. I don't think that's so — but I do think I see myself and my students in a new light."

One of Dirkse's principles for teaching is meeting the needs of individuals. He believes his interest in elementary education is based on the fact that the primary-level teacher's emphasis usually is on teaching a child, rather than teaching a subject. College professors as well, he maintains, should consider each student's needs and abilities.

"Too often we approach a group of college students as if they're all at the same level. That's no more true of a group of college students than it is of a group of third-graders. I believe that to be an effective teacher, you have to be a feeling, caring person who has the interests of the student at heart. The only way to do that is to look at students as individuals and not as a total group."

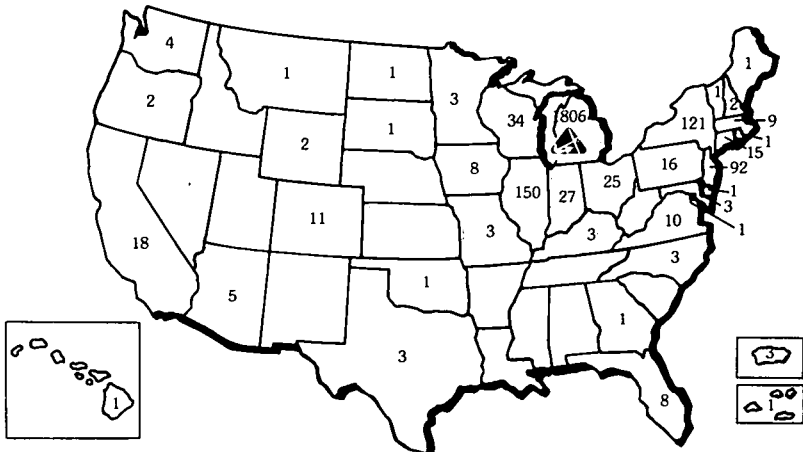

HOPE PEOPLE . . . THE STUDENTS

Hope's student body is comprised of 2,450 men and women, representing 37 states and 26 foreign countries. Approximately 84% are from Midwestern states, 11% from the East, and 5% from the West, South, and foreign nations.

Hope People

Katrina Atkinson '84
Utica, Mich.

“While riding to Hope College for my first semester here, I wondered, ‘Did I make the right choice in deciding to attend Hope?’ My feelings of worry, fear, and inadequacy shouted a reply of NO! Yet, this question started to be answered once my family left Holland for my hometown. Being on my own, I have had to depend on myself to complete my homework, have time for social events, develop new friendships and grow mentally and spiritually.

“I had no need to worry! At Hope I have time for both homework from challenging classes I enjoy plus a social life — attending dances,

concerts, movies and also exercising with friends at Hope’s well equipped health center.

“Secondly, I should not have feared forming friendships since students are friendly and caring. Besides having friends my own age, I have also developed some friendships with various administrators, professors and fellow workers at Phelps Dining Hall.

“Lastly, I should not have felt inadequate in being able to become active in campus organizations. This is the second semester I have been a member of Inter-Varsity, a Christian group which meets for songs, fellowship, prayer, and guest speakers. Recently I became a DJ for the campus radio station. The experience is challenging and worthwhile.”

Lilia T. Colon '85
Cidra, Puerto Rico

17

"Hope has not only given to me an excellent academic education during this first year, but an opportunity to develop myself inside a community of people that care about each other. This closeness is one of the things that makes Hope such a special place.

"I was always told that science departments were the most impersonal ones in colleges. I discovered that it is not like that at Hope. My professors do care about their students. They are available and willing to help when one needs their help. I remember one time when my chemistry lab professor spent almost an hour with me, going over my lab report, trying to figure out what I was doing wrong. Finally, he looked at me and, trying to cheer me up, said: 'Although It is wrong, be glad. You got the highest deviation in the whole class.'

"I am planning to attend graduate school after I finish my four years at Hope. I am sure that, after these years, part of Hope will stay with me regardless of what other things I encounter in my life."

Hope People

Eddie Moriarty '84
Grand Rapids, Mich.

18

“Going to a large university and being a social security number for four years did not exactly thrill me. So after a year of being number 123-45-6789, I transferred to Hope.

“I was looking for a smaller school and a more liberal education — which I found at Hope. I really enjoy being in smaller classes and the personal attitude that the professors take here. I was used to huge lecture halls, teaching assistants, and, of course, most important, my social security number. Here at Hope I feel I can be a person not just some number. The first time a professor called me by name I just about died, but now I really enjoy

being called by the name my parents gave me.

“The value of a liberal education is the fact that it is ‘liberal.’ It gives people a chance to learn more about other areas while discovering more about themselves. It allows someone like me who is majoring in business administration to take other courses in other fields. Also here at Hope, the competition is not as keen, which is something I was glad to leave behind. The classes are just as hard but the ‘cut-throat’ competition is not as great as I experienced elsewhere.”

**Brian Gibbs '84
Union Springs, N.Y.**

"Hope's core requirements insure that students will be exposed to a wide variety of disciplines. Many of the classes which I enjoyed most are ones that I probably would not have taken if they weren't required. As a result of taking German last year, for example, I decided to major in German in addition to my original business administration major. This year I am a German teacher-assistant — what an invaluable experience! I enjoy the small classes, personal attention from

professors and the quality of education for which Hope is so well known. But as most students readily admit, there is more to Hope than academics and book-learning.

"Going to plays, concerts, SAC movies and events, and being actively involved in the various clubs and organizations is an important aspect of Hope. Much of this centers around other people, and it's the people who distinguish Hope most from other colleges. Their openness, understanding, and interest in others give Hope a warm, friendly atmosphere. Broad exposure to others forces you to examine your own beliefs and opinions. Through interaction with foreign students I have become interested in foreign languages and cultures. Eating in the cafeteria or going to the movies with friends from Germany, France, Japan, Costa Rica, and Puerto Rico is an important part of my college experience.

"I've decided to spend my junior year studying in Germany through a Hope program. Hope encourages students to put their classroom experiences to use by participating in off-campus programs in the States and abroad. One of the things I like most about Hope is that it is impossible not to be challenged here."

Hope People

**Kathy Olson '83
Hastings, Mich.**

“ ‘Hope College?? But . . . it’s too small and, besides, Mom and Dad went there and . . . I want to go someplace new and big and different!’

“Boy, have I ever changed my perspective! Right now I wouldn’t trade my good ole Hope College experiences for the world.

20 “There are a lot of neat things about Hope that I’ve really enjoyed, particularly being a member of a sorority. The sororities and frats are all local groups which makes them even more special just because they’re unique to Hope. Being a member of the sorority has really been a growing experience for me — both socially and personally. Within the sorority, I’ve been able to foster and continue many friendships and share some experiences that will definitely be my biggest memories of my years at Hope.

“I’m very happy with the academic part of Hope, too. Because of Hope’s small size, classes are relatively small and the profs are usually more than willing to spend time with us on a one-to-one basis, sometimes whether we have a problem or not. Most profs even call me by my first name around campus.

“Another neat thing that I’ve really enjoyed here is my on-campus job in the Admissions Office. I often give campus tours and also serve on student and parent question-and-answer panels. I just love my job because it gives me so many opportunities to meet people and it’s great to give a tour and then to see them on campus as new students the next year!”

Stephen Kacmar '84 Pompton Lakes, N.J.

"Almost every day, someone asks me why I came to Hope all the way from New Jersey, and to tell the truth, I don't think I've ever given the same answer twice! But, if I had to pick my main reason for choosing Hope, I would probably say it was the general atmosphere of friendliness on campus.

"I remember coming here as a high school senior, expecting the same ho-hum reception I'd received by students during other college visits. Boy, was I shocked! Everyone made me feel welcome, as if I had known them all the time.

"This general feeling of friendliness doesn't end with the students; it includes the faculty and administration as well. The professors don't have that 'I'm the professor, you're the student' attitude. They don't put themselves on pedestals, separated from the students. In fact, most of the professors are almost always available to help with a problem, school-related or personal.

"The students and faculty seem to have a great respect for each other. I think the relationship between the professors and students leads to a comfortable learning atmosphere, which in the long run, seems to help everyone."

Hope People

WHY HOPE?

The question is often asked, "What kind of student chooses Hope College?" A study of last year's freshman class, conducted by the American College Testing Service, resulted in the following summary:

Of this group of 366 students, 167 were men and 199 were women. Twenty-seven percent listed Hope College as their 1st choice, 31% as their 2nd choice, 13% their 3rd choice, 5% their 4th-6th choice, and 23% their residual or supplemental choice. Of the seven college-choice factors, the percentage of time each was chosen as "most important" was: institutional type — 15%, student-body composition — 2%, location — 8%, cost — 6%, size — 4%, field of study — 62%, and other — 4%.

The typical student in this group had an ACT composite score of 23.1 and a high school average of 3.3. This compares to national averages of 18.7 and 3.0, respectively. The student's most typical planned educational major and first vocational choice were in health professions.

A total of 29% were "very sure" of their educational major, while 48% said they were "fairly sure." A total of 35% aspired to a Bachelor's degree, while 61% aspired to at least some graduate school or a professional degree. The largest percentage planned to live in residence hall (81%).

The students in this group identified their race as follows: Afro-American/Black — 1%, Caucasian American — 93%, Mexican American/Chicano — 1%, Oriental/Pacific American — 1%, other — 1%. One student had served in the military.

A total of 42% expressed interest in independent study, 31% in honors courses, 32% in some foreign study, and 60% in some kind of advanced placement. Expectations of working at a job during the school year and expressing need for help in finding a school-year job were held by 55% of the students. Also, 76% expected to apply for financial aid.

HOPE PEOPLE . . . ADMINISTRATION & STAFF

Many people with a variety of academic, business, counseling, and service skills make up the Hope administration. Some are "behind the scenes" people who insure the operations of the College. Many work directly with students to provide services and fulfill needs.

Gordon J. Van Wylen President

During his first decade as president of Hope College, Gordon J. Van Wylen has made student needs and interests one of his main priorities. As one who lives on campus in the historic President's House, he's become particularly sensitive to the cause of improving the overall quality of student life. Several living units have recently undergone extensive renovation and Van Wylen has outlined further steps for improving the campus living environment in the years ahead. These include further facilities improvements, such as more in-dorm study and reading rooms, as well as what he terms "a renewal of spirit" which will strengthen virtually every aspect of community life at Hope.

Keeping abreast of student attitudes as well as their needs is all part of this top administrator's job. It's not unusual to see him lunching with students, asking questions and listening to answers. This first-hand communication affords insights into ways that Hope's mission can be translated anew into experiences. He and his wife, Margaret, also frequently open their home to students.

Van Wylen notes that faculty, students, staff, alumni and friends hold in common a dedication to the development of the whole person. This commitment is complemented by a campus life program which emphasizes the development of mature value systems and free expressions of faith.

Hope People

Phyllis Hooyman
Student Employment Counselor

Student employment on campus is the primary concern of Phyllis Hooyman as she works in the Financial Aid Office. Creating jobs for students, placing workers according to their abilities and/or the college's needs, and forming the school's job placement policies are the major areas of Hooyman's responsibility. Due to this variety of responsibilities, Hooyman explains, "Every year my job changes."

24 Recent years have involved a definite change of perspective in Hooyman's work. Admittedly, the job has gotten tougher as financial aid resources have grown tighter. As she continues to work to distribute available funds to the greatest number of students, she faces new challenges. Recently, for example, her attention has been concentrated on placement policies. New policies prevent any one student from working for an excessive number of hours of work on campus, thus creating more jobs for more students.

As difficult challenges constantly present themselves, Hooyman continues to express her satisfaction in working at Hope. Visits to other campuses have supported her belief that the Hope community provides an unusually warm and caring work environment. She echoes the sentiments of other staff and faculty members: "Hope offers a unique and special experience to both its students and staff. I enjoy both Hope's smallness and sense of community."

She has learned to deal with the concern which families express concerning the financial aspects of education. Her conclusion is that Hope offers a strong balance in its program, and that those who do make their financial commitment have shown that they really value the liberal arts program.

Rob Pocock Associate Director of Admissions

"My biggest goal in life is to help people utilize their God-given gifts," states Rob Pocock. In his work as associate director of admissions at Hope College, Pocock is well able to work toward this goal. Through his off-campus recruiting as well as through the time he spends with students already on campus, his efforts aim at helping Hope people discover their talents and use them as fully as possible.

With a recruiting area primarily based in the Western Michigan area, Pocock is a familiar person to many students before they arrive on Hope's campus. His work with prospective Hope students involves discussing with them their individual talents and goals and analyzing how Hope can meet their needs and capitalize on their talents. Yet he does not forget about those who have already chosen to come to Hope. Interaction with students here — through involvement in campus events, work with student employees at the Admissions Office, and lunches at Phelps food service — allows him to maintain relationships with those he has met, and also "keeps me honest in what I say to prospective students."

At a time when many colleges face decreasing enrollment, Pocock agrees that Hope faces a challenge in its efforts to maintain student numbers. In his own work he meets this challenge in a professional and creative manner — he enjoys developing his own abilities as he creates new programs such as "Exploriantation" or redesigned visitation days. Most importantly, he is ready to meet the challenge on a personal basis with students. His method is to maintain frequent contact with a few people rather than the shotgun approach of contacting several people only once. With his own energy, creativity, and interest in developing others' gifts and talents, Pocock is well prepared to face the challenge presented by today's college enrollment statistics.

Hope People

Dave Vanderwel
Associate Dean of Students

Helping students develop their leadership abilities is the primary goal of Dave Vanderwel, associate dean of students. Student activities and organizations — from the new and growing women's study group to the committee in charge of the traditional Winter Fantasia Dance — all turn to Vanderwel for helpful advice. "I'm a project person and a troubleshooter," he explains.

His work has changed since he was name director of campus life in 1973. At that time the area of leadership in student activities was in early stages of development — and it was the staff, rather than the student body, which was in charge. Since then, students have gained more and more responsibility. Vanderwel sees his job now as that of facilitator rather than organizer. "The fact that I've been around here awhile and know the resources allows me to help others to discover how to use those resources effectively."

Through his involvement in many areas of student life, Vanderwel has also seen Hope students change over the past few years. Today's students, he says, are more selective in the events they choose to attend. They don't simply look for entertainment, but, rather, choose to participate in activities meaningful to them.

The variety of demands made by different student groups each year provides a challenge which Vanderwel seems to thrive on. As he explains, "The thing I like best about my job is that there's a lot of freedom to go where the needs are. It varies from year to year. I do maintain the constant goal of student growth, but how we achieve that goal varies constantly. I believe in a lot of freedom."

Mary Aufderheide Dormitory Head Resident

"Mom" is the name one Van Vleck resident has given Mary Aufderheide. Although a '78 Hope grad and hardly old enough to be mother of 38, this head resident has become the close friend and advisor of the many young women in "her" dorm — Hope's oldest — each year.

From pizza parties to sports tournaments, from a formal dorm dinner to watching T.V. in the basement lounge, Aufderheide's face is rarely missing when Van Vleck residents plan an event. As well as being active in the dorm life,

she also strives to be accessible to dorm residents. "I try to keep my apartment as open as possible and not make people feel like they're intruding," she explains. Encouraging people to come in and sit and talk, and being open to listening to complaints, such as roommate conflicts, is best facilitated with this open door policy, she maintains. The time she spends having fun with residents and the time she is willing to share in counseling situations readily illustrate her concern for the students in her dorm.

The fact that residents recognize and appreciate Aufderheide's time and concern is evident in the fact that once having resided in Van Vleck, students rarely move out to other dorms. (Once exclusively a dorm for upperclasswomen, Van Vleck is now available to all Hope women.) This continuity allows the busy head resident to enjoy her job in a special way as she has the opportunity to watch students change and grow over the years they are at Hope.

ACADEMIC EXCELLENCE

Hope has long been recognized as a leading educator of individuals who have gone on to achieve distinction in their chosen professions. Among Hope's graduates are included such distinguished academic leaders as college, university, and seminary presidents and professors, noted religious leaders, and respected political and business leaders. Over the past six decades, Hope has had an outstanding record of excellence in pre-medical and pre-dental education.

Hope is one of 265 colleges selected as "the best and most interesting 4-year institutions in the country" for inclusion in *The New York Times Selective Guide To Colleges*, published in spring, 1982. A recent article in *The Christian Science Monitor*, describing Hope and several other small colleges, stated: "They attract good students . . . because of what they offer — small classes, dedicated teachers, a protected social environment, and a springboard to the choice graduate schools. The Ivy Leagues offer no more, and the great state universities frequently not as much."

Money magazine featured Hope in its November, 1979, issue as one of ten "good, selective liberal arts schools" which, in Author Lansing Lamont's opinion, were the best U.S. private college bargains.

Hope emerged as top leader in a survey of chemical research activity at U.S. liberal arts colleges during the decade of the 1970's. This study, conducted by professors at Lebanon Valley College and Franklin and Marshall College, gave Hope first-place ranking in seven of a total of nine categories used to measure research activity. Hope placed second in the remaining two categories.

Several years ago, Hope was included in an evaluation and analysis of the productivity of colleges and universities in *Science*, the journal of the world's largest science organization. In all fields studied — physical sciences, social sciences, education, and arts and professions — Hope ranked among the top 60 colleges and universities in the proportion of its graduates who obtained the Ph.D.

Academic Excellence

- 30 Hope has an outstanding record in receiving Undergraduate Research Participation grants from the National Science Foundation. In 1979 Hope was the only college or university in the country to receive three such grants. Hope is one of only seven colleges in the country to participate in the George F. Baker Scholarship Program for students of economics and business administration, and Hope's program has been evaluated as the finest of these. Hope is one of approximately 150 schools in the nation and the only non-public institution in Michigan to be honored with the chartering of a chapter of Pi Sigma Alpha, the honor society for political science majors. Moreover, Hope is one of three private colleges in Michigan which belongs to the National Association of Schools of Music, and Hope is the only college in Michigan to offer a dance minor which is certified for kindergarten-12th grade by the State Department of Education. On three occasions in the past 10 years, the Hope theatre department has had entries selected for regional competition in the American Theatre Festival. The most recent production selected for this honor was the musical "Mack and Mabel," staged at Hope in 1980. Last summer Hope's teacher education program was reaccredited by the National Council for Accreditation of Teacher Education for the maximum time period (through 1987). In Hope's category of private institutions submitting four or more programs for accreditation review, only 53 percent received full accreditation.

Academic Excellence

There is a wide diversity of honor societies at Hope. These organizations, open by invitation, give recognition to superior academic achievement and enable Hope's outstanding students to communicate with each other and discuss matters of mutual interest. Two national honor societies are chartered at Hope. These are Phi Beta Kappa and Mortar Board. Induction into Phi Beta Kappa, which occurs during the spring of the senior year, is the highest recognition of scholastic achievement available to an undergraduate. Hope, having received its Phi Beta Kappa charter in 1971, is one of 228 institutions in the U.S. and only seven in the state of Michigan able to grant this distinction to its deserving students. A complete list of the honor societies at Hope follows:

Phi Beta Kappa (national honorary scholastic)

Mortar Board (national honorary)

Alpha Epsilon Delta (pre-med, pre-dent)

Beta Beta Beta (biology)

Delta Omicron (music-women)

Delta Phi Alpha (German)

Eta Sigma Phi (classical languages)

Lambda Iota Tau (literature)

Omicron Delta Epsilon (economics)

Phi Alpha Theta (history)

Phi Mu Alpha Sinfonia (music-men)

Pi Delta Phi (French)

Pi Kappa Delta (forensics)

Pi Mu Epsilon (math)

Pi Sigma Alpha (political science)

Psi Chi (psychology)

Sigma Delta Pi (Spanish)

Sigma Xi (science)

Nearly one-half of Hope's graduates enter graduate schools to pursue advanced training for careers in medicine, science, business, education, economics, the humanities, psychology, and all areas of the performing and fine arts. Many of these graduates have received national awards for advanced study in fields as diverse as chemistry, psychology, history, English, American Studies, and Byzantine Studies.

Academic Excellence

Academic Excellence

In 1980, approximately 90% of those students registered with the pre-law advisor were accepted into law schools. Among the law schools that these graduates attend are: Harvard, Vanderbilt, Michigan, University of California-Berkeley, Wake Forest, George Washington, Indiana, Ohio State, Emory, and Notre Dame.

More than 80% of the last five years' graduates who were certified and actively seeking teaching positions have been placed. In special education the placement rate has been nearly 100 percent.

Over the past five years all applicants with a grade point average of 3.2 or better were accepted into dental schools.

Hope premedical students have been accepted into medical schools at a rate well above the national average. For example, during the past five years, over 93% of the Hope applicants whose grade point average was 3.4 or above were accepted by medical schools. During that same time period, another 16 students were accepted who had grade point averages below 3.4.

CURRICULUM Hope's educational program offers a variety of courses in 36 major fields. Throughout this educational program, Hope is concerned with developing intellectual discipline and a fellowship in inquiry. (See "The Degree Program," page 82 and departmental listings in "The Curriculum," beginning on page 115.)

Students are given many opportunities to grow and develop within the academic structure. An active performance/exhibition program in the arts provides professional experiences. Science and social science students conduct research side-by-side with faculty members. Humanities students are encouraged to conduct independent study projects, and each year these students present their papers at a divisional colloquium.

For students with unusual academic maturity, several challenging programs have been designed, including honors courses in the freshman and sophomore years, and independent and tutorial study during all four years. (See "Programs for Talented Students," page 105.)

Academic Excellence

Research opportunities for students in all disciplines are available both on campus and off. Cross cultural and language programs at GLCA member colleges permit Hope students to study many foreign cultures and languages both in this country and abroad.

A far-reaching internship program is available to many majors. These internships, available in Western Michigan as well as major U.S. cities, enable students to apply theory to practice and to learn from professionals outside the classroom.

THE HOPE COLLEGE SUMMER SESSIONS ON CAMPUS Hope offers three-week May and June Terms, each for intensive study of one subject, and a six-week regular summer program in late June and July, and one-week concentrated humanities seminars in August. (See "Academic Sessions," page 104.)

DOMESTIC OFF-CAMPUS PROGRAMS Students may enroll in area and language programs at GLCA member colleges, or pursue the arts, government, and urban studies at several locations in the United States. (See "Special Academic Programs," page 105.)

INTERNATIONAL EDUCATION The scope of the College's involvement in international education is broad, offering many opportunities to students. Hope College believes that through exposure to a foreign society, students can expand knowledge of their own cultural heritage, gain facility in a foreign language, and achieve new perspectives on America and on their own individual identity. (See "Foreign Study Opportunities," page 110.)

SCHOLARSHIPS, HONORS, AWARDS Hope's aim is that all deserving students who desire to attend Hope may do so, regardless of their economic resources. A three-fold student aid program has been developed, which includes scholarships and grants-in-aid, loans, and a privately funded Work-Study program. (See "Financial Aid to Students," page 72.)

HOLLAND, MICHIGAN — Hope College is situated in a residential area two blocks away from the central business district of Holland, Michigan. Holland is a community of 30,000, which was founded in 1847 by Dutch settlers. Located on Lake Macatawa and approximately five miles from beautiful Lake Michigan, Holland has long been known as a summer resort area. The community also offers winter sports recreational programs.

The center of Hope's main campus is the Pine Grove, a picturesque wooded area around which the College's original buildings were erected more than a century ago. Nearly all of the campus lies within two blocks of the Pine Grove.

Campus buildings offer a pleasing blend of old and new architectural styles. Most major facilities are accessible to the mobility-impaired.

35

VAN ZOEREN LIBRARY, gift of alumnus Dr. G. John Van Zoeren, serves as a resource center for the academic pursuits of the college community.

The main floor contains the reference desk, card catalogs, periodical indexes and abstracts, reference collection, and Hope College publications. (For location of other books, periodicals, and microfilms — all arranged by the Library of Congress classification system — consult the library directory found on each floor.) The second floor has current periodicals, the Van Zoeren Memorial Room, and the office of the Director of Libraries. The ground floor includes typing facilities, VanderBorgh Memorial curriculum library and instructional materials center, the census collection, the Heritage Room and the archives.

BRANCH LIBRARIES are located in the Peale Science Center and the music building. Each of these has its own separate catalog in the branch as well as being included in the main catalog of the Van Zoeren Library.

The three libraries provide the students and faculty a selective collection of books, periodicals, microfilm, and related materials. They now contain more

The Campus

than 190,000 volumes, approximately 1,150 current periodical subscriptions, 1,200 cassette tapes, and over 25,000 reels and cards of microtext all classified and shelved together on shelves open to all users. The Reference Department on the main floor contains works which locate millions of books and periodicals obtainable from other institutions through interlibrary loan (inquire at the Reference Desk). Other libraries in the community available to Hope College students are the Herrick Public Library and the Beardslee Library of Western Theological Seminary.

THE ARCHIVES is the repository for documentary, photographic, and other materials of historic value to Hope College. The Archives, housed in the lower level of the Van Zoeren Library, is available to scholars interested in the history of the college.

36

VANDER WERF PHYSICS-MATHEMATICS HALL, completed in 1964, has two general physics laboratories, one advanced physics laboratory, a radiation laboratory, an electronics laboratory, four project rooms, darkroom, machine shop, mechanical equipment rooms, conference rooms, library, classrooms, and offices. Two large lecture halls are joined to the main building by a glass-enclosed lobby. Special facilities include electronic calculators, multichannel analyzer and a two million volt accelerator. The building is named in honor of Calvin A. Vander Werf, eighth president of Hope College.

THE COMPUTER CENTER has new headquarters on the main floor of Durfee Hall. User terminals are located throughout the campus. In a number of academic programs, the computer has become an indispensable tool for both teaching and research; it is used by students in the arts, humanities, natural and social sciences.

DIMNENT MEMORIAL CHAPEL, of Gothic design, is a beautiful edifice with stained glass windows. Used for all-college assemblies and convocations, it houses a four-manual Skinner organ and an 18th century Dutch gallery organ. The ground floor is used for classrooms and the offices of the Chaplain.

37

THE DEPREE ART CENTER AND GALLERY, a renovated former factory located on the east side of campus, was completed in the summer of 1982. Special features include a story-and-a-half gallery, a sculpture court and senior art studios, as well as classroom studios and faculty offices. The facility is named for Hugh DePree, former chairman of the Hope College Board of Trustees.

The Campus

THE DOW HEALTH AND PHYSICAL EDUCATION CENTER offers a variety of opportunities for physical activity, including modern facilities for dance and swimming. The gymnasium in Dow Center features a one-tenth mile aerobic running track. The facility also has six racquetball courts, a gymnasium with three playing courts and several activity rooms.

38

THE DE WITT STUDENT AND CULTURAL CENTER includes a modern educational theatre, lounges, a snack bar, study areas, and the Hope-Geneva book store. The DeWitt Center is also the administrative center.

39

LUBBERS HALL — The former science building has been remodeled into a center for the humanities and social science departments. It houses the departments of communication, English, history, political science, philosophy and religion as well as the audio visual department. The center has been named in honor of Dr. Irwin J. Lubbers, President Emeritus of Hope College.

The offices of the economics and business administration department are located in a remodeled facility adjacent to the DePree Art Center on the east side of campus.

The Campus

THE PEALE SCIENCE CENTER houses the departments of biology, geology, chemistry and psychology. The building contains laboratories, lecture halls, a museum, greenhouse, aviary and a library-instructional resources center.

40

GRAVES HALL, built in 1894 and remodeled in 1962, is a beautiful stone building which houses classrooms, the language center, and language laboratory equipped with 72 stations for foreign language study. Winants Auditorium in Graves Hall was extensively remodeled in 1979. The Sociology department and the Henry Schoon Meditation Chapel occupy the ground floor.

NYKERK HALL OF MUSIC AND SNOW AUDITORIUM, constructed in 1956, provides modern facilities for the College's rapidly expanding music program. The Hall has seven teaching studios, fourteen practice rooms, two classrooms, offices, record library, and three listening rooms. Snow auditorium has a seating capacity for 200 persons. The Wynand Wichers addition to the Nykerk Hall of Music, constructed in 1970, includes nine practice rooms, eight studios, a large library, and another small auditorium, holding about 225 persons.

41

DOW HEALTH AND PHYSICAL EDUCATION CENTER, opened in the fall of 1978, is an activity-oriented facility. Emphasis has been placed on multiple use of space. Included are gymnasium areas to accommodate a variety of sports and games, a running track, an L-shaped swimming pool with a diving area, conditioning and exercise rooms, a dance studio, handball courts, wrestling and gymnastics rooms, classrooms, faculty offices, locker rooms and the College's Health Clinic. The Dow Center also houses the Health-Fitness Center, containing sophisticated testing and therapy apparatus for the Hope-Kellogg Health Dynamics Program (see page 228).

LIVING ACCOMMODATIONS — Most of Hope's 2,450 students live on campus, except those residing with their parents or who are married. Residence halls are shown on a map of campus on pages 328-329. Other students enjoy the home-like-atmosphere of the 25 cottages — see "Residence Halls," page 45.

CAMPUS SERVICES

The pages which follow describe some of the formal services which the College makes available to its students to assist them while they are a part of the college community. Members of the faculty and staff stand ready to aid students whenever possible.

ACADEMIC ADVISING

42 Each student is assigned a faculty advisor who will assist in selecting an appropriate schedule, discuss academic progress and future direction, and be of assistance when the student faces academic questions or difficulties.

Faculty advisors are initially assigned, whenever possible, on the basis of academic interest expressed on the application for admission. Unless the student requests a change in advisors, this advisor will continue until the student declares a "major" or field of academic concentration. Upon approval of application for a major, the student is reassigned an advisor by the chairman of that department.

Changes in faculty advisors may be initiated through the Registrar's office prior to declaring a major, and through the department chairman after the student has been accepted as a major. The academic advising program is under the direction of the Registrar.

ACADEMIC SKILLS CENTER

This service is designed to help students improve in study skills, reading rate and comprehension, the mechanics of writing (grammar, punctuation, spelling), organization of papers, footnoting and bibliography form, and preparation for and taking of exams. An individualized program in skills improvement will be developed for the student on a regular schedule, or help will be provided on a one-time, drop-in basis when a particular problem or need arises. The Academic Skills Center is located in Graves Hall.

COUNSELING SERVICES

In addition to academic advising and academic skills improvement, the College provides counseling services to assist students in their personal development. A professional counselor is available to students who wish to talk over a concern in a one-to-one, confidential setting. Some students want primarily information, or help with a situation of immediate concern. Others request an on-going, supportive relationship which may involve a regular meeting with a counselor for several weeks. Still others seek referral to other services on campus or in the community. Also available through the counseling services are personal growth groups and programs that are open to all students. Areas covered in the past have been: sexuality, assertiveness, life style choices, and alcohol education. The Counseling Center is located in the Health Clinic in the Dow Health and Physical Education Center.

CAREER PLANNING AND PLACEMENT SERVICES

The Career Center staff is available to help students who are concerned about their future. Opportunities for assistance in career exploration, job readiness skills development, and placement into full-time employment are available to both students and alumni. Individual counseling, workshops, and Career Library materials are some of the resources available to clarify concerns from career selection to resume writing, job hunting, and interviewing skills.

Students who are in the job hunt process can get information about seeking employment or specific openings or help in preparing a set of credentials which can be sent to prospective employers. The staff will also make arrangements for employers to visit campus to interview students and alumni and provide a credential service, sending a candidate's materials to an employer.

Part-time, off campus, and summer employment possibilities are posted through the Off Campus Jobs office in the front lobby of Phelps Hall.

HEALTH SERVICES

The College's health services are centered at the Health Clinic, located in the Dow Health and Physical Education Center. Out-patient care is offered daily at the Clinic by a nurse practitioner and a registered nurse under the direction of a team of local physicians. A doctor on the staff is in the Clinic each Tuesday morning from 10 a.m. to noon to supervise allergy injections and assist students in need of a physician. At other times, the Clinic staff will arrange an appointment in one of the physicians' offices and provide transportation when needed. Evenings and weekends, the physicians will be on call and may be contacted by calling the physician's exchange. On the first and third Monday afternoons of each month, a gynecologist will be in the Clinic to see students for a small fee.

Medications and supplies when available are issued from the Clinic at a minimum cost to the student. Students are responsible for their own medical expenses incurred through the use of the physician's services and hospital care.

CAMPUS LIFE

Because appropriate medical care demands an awareness of the individual's health history and condition, incoming students will be required to complete an extensive medical questionnaire. Treatment cannot be provided for students who do not have such records on file. Students with chronic conditions are urged to make arrangements with a local physician for care and the transfer of medical records. A health insurance policy is available to students who do not have other coverage.

FOOD SERVICES

The College's cafeteria in Phelps Hall and the Kletz snack bar in the DeWitt Center are under the direction of Western Food Enterprises, Inc. Twenty-one meals per week are served by the food service, though students also have the option to select a board plan at reduced cost allowing them to eat any 10 or 15 meals per week. The food service is closed during Thanksgiving, Christmas, and Spring Vacation.

RESIDENCE HALLS

45

Fourteen residence halls, ranging in capacities from 40 to 300, and 25 cottages (houses on or near campus) provide the home-away-from-home for approximately 1,700 Hope students. The living styles available range from the small group experience which the cottages provide, to the apartment, cluster, and dormitory styles which are available through various residence halls. Four of these residence halls — Phelps, Kollen, Voorhees and the apartments — are coed with men and women either on separate floors or in separate wings. Residence hall accommodations are available for mobility-impaired students.

A staff of Head Residents and Resident Assistants live in the residence halls to assist students in creating a comfortable living environment which is conducive to personal growth. The residence hall staff is trained to assist students in understanding college resources and policies as well as to facilitate students' personal development.

Because of its commitment to the residential concept, Hope requires freshmen, sophomores, and juniors to live on campus unless they are married, commuting from their parents' homes or have special permission to live off campus.

Campus Life

CAMPUS BEAUTIFICATION at Hope during the past few years has been significant. Two historic residence facilities, Van Vleck Hall and Voorhees Hall, have undergone extensive restoration. The Van Raalte Memorial Commons, a landscaped, open area, was developed after one block of a city street which ran through campus was closed. A 1980 fire which destroyed the College's administrative center resulted in a less congested campus core, affording new perspectives on the imposing Dimment Chapel and the beautiful Pine Grove in the center of campus.

46

Summarized below are some of the various dimensions which our life as a community of people takes. Hope College feels that the college experience is more than the academic program which is described on the following pages; an integral part of that experience is the extra- and co-curricular programs which create the sense of community existing on campus.

COMMUNITY GOVERNMENT

Decisions governing the college community are primarily made by Boards and Committees composed of students, faculty, and administrators: Three major Boards (the Academic Affairs, Administrative Affairs, and Campus Life Boards) bear the major responsibility for policy decisions, while subcommittees of each deal with more specific areas.

47

ACADEMIC AFFAIRS BOARD — The AAB examines and acts on policies dealing with the more formal curricular and instructional program and cultural offerings of the college. Subcommittees include: Curriculum, Cultural Affairs, and International Education Committees. Board membership is: four students, eight faculty, Provost.

ADMINISTRATIVE AFFAIRS BOARD — The AdAB examines and acts on policies dealing with patterns of organization and administration, with matters of primary concern for public relations, and with matters of general faculty and student welfare. Subcommittees include: Admissions & Financial Aid, Athletics, and Student Standing and Appeals Committees. Board membership is: two students, four faculty, five administrative heads.

CAMPUS LIFE BOARD — The CLB examines and acts on policies dealing with the co-curricular, social and recreational program and with the regulations for effective living together of students on the campus. Subcommittees include: Extra-Curricular Activities, Religious Life, Student Communications Media, and Residential Life Committees. Board membership is: four students, four faculty, three administrators.

STUDENT CONGRESS — The main body of student government on Hope's campus is the Student Congress. Since most policy decisions are made on the Boards and Committees noted above, students are elected to the Student Congress to represent residence hall units and off-campus students. Following their election to the Congress, members are then appointed to the various boards and committees. A sub-committee of the Student Congress, the Appropriations Committee, is responsible for the allocation of the Student Activities fee.

COLLEGE JUDICIAL BOARD — Much of the responsibility for maintaining high standards of student life in the college community is entrusted to the students. Operating on a basic principle of self-governance, responsibility for the development and enforcement of regulations is centered on residence hall units under the approval of the Campus Life Board. The Judicial Board has jurisdiction in handling infractions of all-college rules. Membership is comprised of: seven students, two faculty and one member of the Student Affairs staff.

COLLEGE REGULATIONS

Hope can only be a true community if its members understand and genuinely accept the responsibilities of living together in a meaningful framework. More than tolerance is necessary. Students should feel that they can honestly uphold the policies affecting campus life. At the same time, the entire college is encouraged to cooperatively seek changes that would better

Campus Life

reflect the desires, goals and values that form the basis of the college's program. Through the structure of community government, students play a vital and influential role in examining and reformulating campus policies. Thus, membership in the Hope community is regarded as a privilege. Absolute order in all aspects of life is tyranny, just as absolute freedom is anarchy. The college desires to find the proper balance in campus life. Hopefully, a community atmosphere can be created which promotes student growth, sharpens desired values and encourages academic pursuit.

In this context, the college community has established certain standards that go beyond those established by civil authority. The college prohibits the possession or consumption of alcoholic beverages on college property or in college housing units. College organizations and groups are allowed to have alcoholic beverages only at events held at off-campus establishments with facilities licensed to sell alcohol.

The *Student Handbook* is prepared annually and contains discussion of the all-college rules and regulations that govern community life at Hope College. It is available through the Office of Student Affairs.

THE RELIGIOUS DIMENSION

51

Hope encourages the development of whole persons as that phrase takes on meaning through a commitment to Jesus Christ. For the Hope community to be a Christian community in action is a goal of the college. Thus the religious dimension is a central aspect of Hope and individual members of the college community are encouraged to live out that dimension as they grow in their relationship to God and their commitment to the Lordship of Christ.

Focal points for understanding the religious dimension of campus life are the Chaplain's Office and the Ministry of Christ's People, the student organization which attempts to centralize the efforts of various religious groups on campus and develop joint programming.

THE COLLEGE CHAPLAIN'S OFFICE — The Chaplain and his staff serve as the primary focus of the college's religious programming, and give leadership to the Ministry of Christ's People. They are also available to meet with students to deal with questions, conflicts or concerns that they face in clarifying their thinking on the essentials of the Christian faith and their role as persons in God's world. The Chaplain's office is in the basement of the Chapel.

Campus Life

THE MINISTRY OF CHRIST'S PEOPLE — As the Christian life is the seeking to live out one's beliefs and one's relationship to Christ, students are encouraged to involve themselves in the life on the campus in a way which expresses the faith they own. The Ministry of Christ's People, organized and directed by students and the Chaplain, is involved in providing leadership and offering opportunities for Christian service in four broad areas — worship, social ministries, evangelism, and personal and interpersonal Christian growth.

Worship — Sunday worship services in Dimnent Memorial Chapel enable the campus community to share together in corporate worship. Sermons are given by the Hope Chaplain, by members of the faculty, or by guest preachers. Informal worship is held elsewhere on the campus at other times. Chapel services are held on Monday, Wednesday and Friday in Dimnent Chapel and on special days on the Christian calendar. Students are involved in leading worship from time to time on campus and in neighboring churches.

Social Ministries — In this area, the Ministry challenges students to be aware of social needs and injustices, to meet human needs within the community, and to speak to critical issues, such as racism, poverty, housing, drug abuse, hunger, and population and ecological crises.

Evangelism — This phase of the Ministry seeks to proclaim and present the person of Jesus Christ and His claims to the community by means of encouraging discipleship and by training people to engage in Christian witness. Various methods of witnessing are utilized through a variety of life styles.

Personal and Interpersonal Christian Growth — Through seminars, retreats, small groups, Bible studies, prayer groups, and leadership training, faculty and students are given opportunity to grow corporately and individually. Fellowship of Christian Athletes and Inter-Varsity Fellowship groups meet regularly on the campus, as does a Christian students fellowship.

CULTURAL AFFAIRS

The process of education involves interaction with other cultures and a developing awareness of the culture in which one lives. Through a wide diversity of opportunities of a cultural nature, Hope aims to broaden the perspective of the individual student.

THE CULTURAL AFFAIRS COMMITTEE — The Cultural Affairs Committee is the student-faculty committee which bears primary responsibility for sponsoring a Young Concert Artists' Series, supports the visits of guest artists and lecturers, and sponsors two major concerts each year, all of which are open to the community of Holland as well as the campus. Past concerts have featured such groups as The National Chinese Opera Theatre, Dave Brubeck, Polish Chamber Orchestra, and Peter Arnott's classical marionette Theatre.

53

THEATRE AND DANCE PRODUCTIONS — Four major productions for public performance, are presented annually by the Department of Theatre. These productions are usually faculty-directed, though opportunity is provided for advanced students to gain directing experience. Participation is open to all members of the college community. Last year's theatre offerings included: The musical adaptation of Studs Terkel's *Working*; *Trojan Woman* as translated by Jean-Paul Sarte; Agatha Christie's *The Mousetrap*; and *Under Milkwood* by Dylan Thomas. Several student-directed one-act plays normally are also presented each year, in addition to the summer season of musicals and dramas by the Hope Summer Repertory Theatre. The dance program, including jazz, modern, and ballet, presents a recital of their works each spring as well.

ART EXHIBITS — In addition to studio classes in the field of art, a variety of outstanding exhibits are hung throughout the year in various campus locations. The college also has a permanent collection which is on loan throughout the campus.

MUSIC PROGRAMS — More than 80 concerts and recitals are given annually through the Music Department and its students and faculty. In addition to performance classes offered by the department, there are numerous musical groups which are open to all students. Some of these vocal groups are: The College Chorus, Chapel Choir and the Women's and Men's Choirs, the Oratorio Chorus and Collegium Musicum; instrumental groups include: the Concert Band, Jazz Ensemble, Orchestra, Symphonette, and various smaller ensembles. The Chapel Choir and the Symphonette take an extensive two-week tour each spring, while others will perform both on- and off-campus throughout the year.

55

CAMPUS COMMUNITY HOUR

Because of its commitment to being a community of scholars, the college has set aside a campus community hour in the weekly academic schedule to encourage the sharing of common concerns and to allow the campus community to examine significant issues. This time is used to bring in significant persons to address the entire campus, as well as to develop symposia along departmental lines or to promote other interaction between students and faculty.

SOCIAL LIFE

During a student's college experience there comes a time when a person needs to relax and enjoy the interaction with other people. The social life on campus is designed to provide those opportunities to be in contact with others as well as to develop one's individual interests.

THE CAMPUS ACTIVITIES OFFICE — Located in the Basement of DeWitt, the Activities Office serves as a resource for the various student organiza-

tions and groups which are planning non-curricular activities, and carries primary responsibility for the overall social life on campus. The director works with the Social Activities Committee and other campus organizations to create an environment in which students can find a diversity of activities as well as a meaningful atmosphere in which to live.

THE SOCIAL ACTIVITIES COMMITTEE — The Social Activities Committee (SAC) bears the primary responsibility for programming social activities of an all-campus nature. Dances, concerts, Weekend Film Series and traditional events, such as Homecoming, Parents' Weekend, Winter Carnival, an All-College Sing, and the frosh-soph competition of the Pull and Nykerk are also sponsored by the committee. The Pull pits a team of men from the

56

freshman class against the sophomore team in a tug-of-war across the Black River, while the freshman women compete against the sophomores in song, drama, and oration in the Nykerk Cup competition.

FRATERNITIES AND SORORITIES — Five fraternities and five sororities of a social nature, all local, exist on Hope's campus. Each of these organizations has a club room in one of the residence halls, or a college-owned residence hall or cottage which serves as their living quarters and center of their activities. Approximately one-fourth of the student body belongs to one of these Greek organizations. The fraternities are governed by the Interfraternity Council, while the Pan Hellenic Board governs the sororities. Rush and pledging take place in the spring semester.

In addition to the social fraternities and sororities noted above, Hope has a national service fraternity, Alpha Phi Omega, which sponsors service projects for the college and community. Membership is open to all students.

CLUBS AND ORGANIZATIONS — A wide diversity of campus organizations allow Hope students to pursue their special interests and experience membership and leadership roles within the community setting. These groups include those of a religious, academic, political, or minority nature as well as those centered around special activities or interests. The Activities Office

Campus Life

58

can give a contact person for each of these organizations, or can assist a student in forming a special club on campus.

Hope students are also involved in the Holland community in organizations such as Higher Horizons, a big brother-big sister program with children of the surrounding community; and the annual March-to-Hope, a week-long camping and hiking experience, pairing a college student with an underprivileged child from the community. The Higher Horizons office is in Carnegie Hall.

59

STUDENT MEDIA — The communications media serve a dual purpose on Hope's campus: to provide news, literary excellence and entertainment to the campus community, and to provide a unique and invaluable learning experience for those involved. Participation in these media is open to all interested students.

Anchor — The weekly student newspaper, the *anchor*, gives students an opportunity to express their views and develop their writing skills while chronicling college events. Coverage of campus activities, issues, feature presentations, critiques and editorials have all been part of the *anchor's* format. The *anchor* office is in the basement of DeWitt.

Opus — This literary magazine gives students an opportunity for expression by presenting their prose, poetry, photography and art work. The *Opus* Board reviews materials submitted to it for publication and publishes them

Campus Life

on a regular basis. In addition *Opus* sponsors poetry reading sessions throughout the year, giving students and faculty a chance to read their works. The *Opus* office is in the basement of DeWitt.

Milestone — As time and seasons change and pass, so does the face of a college community. To the end of preserving a yearly segment of this change the yearbook staff puts forth its time and energy to produce the *Milestone*. In the past years the combination of candid photography and pertinent literary pictures has won for the *Milestone* the Associate Collegiate Press' First Class Honor Rating. The *Milestone* office is in the basement of DeWitt.

WTAS — Currently located in the basement of Kollen Hall, *the anchor station* operates on a closed-circuit basis throughout several dormitories and on FM cable in the city of Holland. Born in the mid-1950's, WTAS student-run radio serves as a source for progressive programming, news and sports. Under the direction of the Student Media Committee, students serve as general manager, program, music, news, and sports directors as well as in a number of other administrative positions. WTAS 610 AM/FM cable 103.3 has a staff of approximately 70 people.

ATHLETICS

Participation in athletics enjoys great popularity among the various forms of extra curricular activity at Hope College. Such participation is open to all members of the college community. The extensive intramural program reaches practically all interest and skill levels. Those seeking an additional challenge in skill development choose one or more of the 18 sports now offered at the intercollegiate level. The purpose of both programs is to provide enjoyment and fulfillment for those who take part. Entertainment for college and community is an important concomitant.

60

Campus Life

ADMINISTRATIVE POLICY AND PROCEDURE — INTERCOLLEGIATE PROGRAM — The college has adopted the following statement describing administrative procedure and general policy:

Hope's commitment of time, money, and personnel to the various sports is predicated on the belief that such experience contributes to the overall development of the individual. The potential for self discovery, self discipline, physical efficiency, and character development can be realized in the proper environment. The college is committed to the maintenance of such an atmosphere for its sports activity.

The intercollegiate athletic program at Hope College is governed by the rules of the National Collegiate Athletic Association and the Michigan Intercollegiate Athletic Association. The Faculty Committee on Athletics under the Administrative Affairs Board advises on all matters of policy. Schedules are arranged in such manner as to incur the least amount of absenteeism from classes.

Financial control of the athletic program is similar to that in other college departments. Athletic funds are handled by the college Treasurer with athletic expenditures and receipts included in the general operating budget of the college.

Scholarships or grants-in-aid are available on the basis of financial need only.

Scholarships or grants-in-aid are available to all students on the basis of financial need only.

VARSITY ATHLETICS — As a member of the Michigan Intercollegiate Athletic Association, which is comprised of seven Michigan colleges, Hope's varsity athletic teams have established a solid reputation for excellence and championship caliber. Ray Smith is the Director of Men's Athletics; Anne Irwin is the Director of Women's Athletics. Coaching staffs are listed below:

MEN'S COACHING STAFF

Baseball - Jim Bultman
Basketball - Glenn VanWieren
Cross Country - William Vanderbilt
Football - Ray Smith
Golf - Doug Peterson
Soccer - Gregg Afman
Swimming - To be named
Tennis - Bill Japinga
Track - Gordon Brewer
Wrestling - To be named

WOMEN'S COACHING STAFF

Basketball - Marjorie Snyder
Cross Country - William Vanderbilt
Field Hockey - Marjorie Snyder
Softball - Anne Irwin
Swimming - To be named
Tennis - Tanya Shire
Track - Gordon Brewer
Volleyball - Tanya Shire

INTRAMURAL ATHLETICS — Intramural athletics are open to all members of the college community. All grouping of students or faculty may form a team to enter competition. Competition in the following sports has been developed for men and women: archery, badminton, basketball, bowling, cross country run, football, gymnastics, racquetball, softball, swimming, table tennis, tennis, track, and volleyball. Men also may compete in golf, racquetball, indoor hockey, soccer and wrestling. There are also club sports including competition in lacrosse, gymnastics and badminton.

ADMISSION TO HOPE

ADMISSION OF FRESHMEN

Hope College encourages qualified students to submit their applications. Admission is selective and based on the secondary school record, including class rank, grades and course selection, data obtained from the application form and national test results.

Students are recommended to apply early in the fall of their senior year. To obtain an application for admission, students should ask their high school guidance counselor or write to:

Office of Admissions
Hope College
Holland, Michigan 49423

To be considered for admission the following items must be submitted:

1. Completed application
2. \$15 application fee
3. High school transcript
4. ACT or SAT scores

The secondary school program should include four years of English, two years of mathematics, two years of a foreign language, two years of social sciences and one year of a laboratory science as well as five other academic courses.

The Admissions Committee will accept either the ACT or SAT as a component of the completed application. However, the ACT Test is preferred by the Admissions Committee for two reasons:

1. The scores of the subsections of the ACT Test are used in waiving portions of the core requirement for students whose score in the sub-test area of English, Math, Social Studies or Natural Sciences indicates a proficiency in that area.
 2. Information provided by the Student Profile Report will be used by the academic advisors when counseling students in course selection and career planning.
- 66

The ACT or SAT should be taken in the spring of the Junior year or the fall of the Senior year. For more information about the ACT (American College Testing Program) students should see their high school guidance counselor or write:

ACT (American College Testing Program)
Box 414
Iowa City, IA 52240
(Hope College's ACT reporting code is #2012)

For information about the SAT (Scholastic Aptitude Test) students should check with their high school guidance counselor or write:

SAT (The College Board)
Box 592
Princeton, NJ 08540
(Hope College's SAT reporting code is #1301)

Hope College should be the direct recipient of test results.

Applications are submitted to the Admissions Committee as soon as all information has arrived. Applicants can expect a decision shortly after submission of the proper forms. The Admissions Committee may withhold a decision for further information; applicants will be notified of such a need and asked to submit the additional information.

Candidate's Reply Date

All accepted applicants are asked to pay a \$200 advance deposit by May 1. \$150 of this amount is applied to the fall tuition and the remainder is used as a security deposit. The \$50 security deposit is refundable, minus any fees owed, upon leaving the college through graduation or withdrawal. All accepted applicants are asked to pay the \$200 fee as early as possible (after acceptance) to insure adequate planning on the part of the college. Students accepted after May 1 are expected to pay this fee within 15 days of acceptance.

FOCUS (Fall Opportunity to Continue Upward Scholastically)

Occasionally applicants to the college have not demonstrated the quality of work during their high school career necessary to gain admission to the Hope College degree program, but their overall record implies latent ability.

The Admissions Committee reserves the right to offer such students enrollment in the FOCUS program. This program allows a student to enroll on a probationary basis in order that he/she may demonstrate that admission to the regular degree programs should be granted. The FOCUS program is not designed to be a remedial program, but rather one which gives the student the additional counsel and support necessary to meet the objective of gaining entrance into the degree program. The basic elements of the program are as follows:

- FOCUS is a full-time program with students enrolling for a minimum of 12 and a maximum 14 hours. English 113, Expository Writing is required of all FOCUS students.
- Limits may be placed on athletics, extracurricular participation, and part-time work activity at the discretion of the FOCUS Director.
- When referred, the student will be required to take advantage of the assistance of the Academic Skills Center.
- Tutors will be available to help in the various subject areas should the student need this assistance.
- Individual advising sessions will be held weekly with each student until midterm. These may be held biweekly from midterm until the end of the semester if progress is satisfactory.
- All credit earned counts toward the baccalaureate degree and is transferable.
- An additional fee will be charged to offset the special demands made on the college staff.
- At the conclusion of the fall semester, FOCUS students will be evaluated for degree admission for the spring semester. At this time, the Admissions Committee also reserves the right to grant conditional acceptance, to continue students on the FOCUS program, or to deny admission.

67

Interviews and Campus Visits

A personal visit to campus, while not a requirement, is strongly recommended and encouraged. Students and parents are welcomed to visit the Admissions Office where campus tours, class visits and faculty conferences can be arranged.

Students are urged to arrange for campus interviews by appointment at least a week ahead of the desired time. The Admissions Office is open Monday through Friday 8:00 — 5:00 (Eastern Time Zone) throughout the year. The Office is also open on Saturday mornings during the fall and spring se-

Admission

mesters by appointment only. The Admissions Office is located on College Avenue at Graves Place and can be reached by phone (616) 392-5111, extension 2200, or by writing Admissions Office, Hope College, Holland, Michigan 49423. Those arriving at Kent County Airport in Grand Rapids may arrange transportation to Hope College through the Admissions Office at a round trip cost of \$15.00. Persons should notify the Admissions Office of transportation needs prior to arrival at the airport. Holland is also serviced by the North Star and Greyhound Bus Lines. Transportation is available for visitors arriving at the Holland Bus Terminal providing prior arrangements have been made with the Office of Admissions.

VISITATION DAYS are held several times throughout the year and provide high school students, transfer students, and their parents an opportunity to experience a day on campus. Activities available include attending classes, pre-professional conferences, eating lunch in the dining hall, and having a guided tour of the campus. Visitors should meet at 9:00 a.m. in the Phelps Dining Hall. Please enter the cafeteria from the main lobby of Phelps Hall located on the corner of 10th and Columbia Streets. Dates for Visitation Days this academic year are:

Friday, October 22, 1982	Friday, January 14, 1983
Friday, November 5, 1982	Friday, February 25, 1983
Friday, November 19, 1982	Friday, March 11, 1983
Friday, December 3, 1982	Friday, April 8, 1983

JUNIOR DAY is scheduled for Friday, April 22, 1983. Students and their parents should arrive at the DeWitt Cultural Center at 9:00 a.m. for an opportunity to learn more about Hope College, Admissions, and Financial Aid, as well as meeting with faculty and students in academic departments of the visiting student's interest.

PARENTS of interested students may also attend Visitation and Junior Days. The College will hold special meetings for parents covering various topics of interest to them.

68

ADMISSION OF TRANSFER STUDENTS

Hope College accepts applications from students in good standing at accredited universities and colleges.

To be considered for admission the following items must be submitted:

1. Completed application
2. \$15 application fee
3. High School transcript
4. College transcript (all previous colleges)
5. ACT or SAT scores

Applications are submitted to the Admissions Committee as soon as all information has arrived and applicants can expect a decision shortly after submission. The Admissions Committee may withhold a decision for further information; applicants will be notified of such a need and asked to submit the additional information. Transfer applicants will be expected to submit final college transcripts before enrolling.

TRANSFER OF CREDIT

The standard for the acceptance of credit toward Hope College degree requirements from institutions of higher learning will be the accreditation of that college by its regional accrediting association as listed in the current

report of the American Association of Collegiate Registrars and Admissions Officers. Exceptions to this general rule may be obtained only by application to the Registrar prior to enrollment.

A maximum of 65 semester hours of credit may be transferred from a community or junior college. A student transferring to Hope transfers only the credit earned but does not transfer grades and honor points. Hope College subscribes to the Michigan Association of Collegiate Registrars and Admissions Officers Articulation Agreement.

Transfer students seeking a Hope College diploma must complete their last 30 hours on Hope College's campus.

ADMISSION OF INTERNATIONAL STUDENTS

Hope College welcomes the interest of international students wishing to study on our campus. To be considered for admission the following items must be submitted:

1. Completed application
2. \$15 application fee
3. Secondary school record
4. Evidence of proficiency in the English language (usually the Test of English as a Foreign Language (TOEFL) or a comparable English proficiency test)
5. The Declaration and Certification of Finances

Applicants should be able to communicate well in English. The TOEFL score should be approximately 550 or above. Financial aid available to international students is extremely limited. While the Admissions Committee may find a student qualified for admission, no acceptance letter or I-20 can be sent to students until they have satisfied the College that they have the necessary funds to finance their education at Hope. When international applicants have been accepted, the acceptance letter and an I-20 will be sent.

69

ADMISSION OF NON-DEGREE STUDENTS

Persons interested in enrolling in Hope College on a part-time, non-degree basis need not complete the formal application for admission. A shorter form is available from the Admissions Office and must be submitted for each semester or term an individual wishes to study at Hope College. This form does not normally require previous high school or college transcripts nor an application fee.

Full college credit is granted for students who pay the regular fees and credit earned is transferable to other colleges. If a student wishes to be admitted as a degree student, the application process outlined in "Admission of Freshmen" or "Admission of Transfer Students" must take place.

AUDITING COURSES

Persons wishing to audit courses at Hope College should follow the same procedure outlined under the section "Admission of Non-Degree Students." These persons are required to pay the audit fee only.

Credit is not granted for persons auditing classes. However, the course will be recorded on the student's permanent transcript.

Admission

SUMMER SESSIONS

Hope College offers a variety of campus summer sessions: the three-week May Term and the three-week June Term allow students to enroll for a maximum of 4 semester hour credits while the six-week Summer School allows enrollment for a maximum of 7 semester hour credits.

Admission to any of the summer sessions is granted to any qualified candidate but this admission does not imply admission to Hope College as a degree seeking candidate. Applications for Single Term Admissions are available by writing to the Admissions Office.

COLLEGE CREDIT BY EXAMINATION

The Hope College faculty believes that a student should pursue his studies at his established level of competence. Tests are available to determine this level and Hope encourages its prospective students to investigate their use. The following tests are available to Hope students:

ADVANCED PLACEMENT PROGRAM (APP) — A program sponsored by The College Board. Generally credit is granted to students that received grades of 4 or 5. Grades of 3 are evaluated by the respective department which determines if credit will be granted.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP) — Hope will generally grant credit for subject area examinations based on the Guidelines as established by The College Board. Hope is a Limited Test Center and students can take CLEP exams on campus. (Please refer to page 101 of this catalog.)

HOPE DEPARTMENTAL EXAMINATIONS — Where CLEP or other nationally normed tests are not available, departmentally prepared examinations can be taken. These are not to be confused with placement exams that some departments offer.

For further information about credit by examination, contact the Registrar's Office. Additional information can be found beginning on page 101 of this catalog.

READMISSION

Students who have withdrawn from the college are not automatically readmitted. Consideration for readmission will include an evaluation of 1) the student's prior record at Hope College, 2) any additional college courses completed at other institutions, and 3) the student's reason(s) for wanting to return to Hope College. An application for readmission must be obtained from the Admissions Office. It should be completed and returned to the Admissions Office at least two weeks prior to registration. A \$10 fee must accompany the application.

Readmitted students are required to pay the same \$200 deposit as outlined under "Candidate's Reply Date" on page 67 of this catalog.

FINANCIAL ASSISTANCE

To determine most equitably the distribution of funds available for financial aid, Hope College requires all students applying for assistance to make application for admission to Hope College and to have forwarded to the college a copy of the Financial Aid Form which is a part of the College Scholar-

ship Service. Students applying for entrance into Hope College should address all inquiries concerning financial aid to the Office of Financial Aid. The Financial Aid Form should be submitted by March 1 to receive consideration for the following school year. Students already enrolled at Hope College should address inquiries concerning financial assistance to the Director of Financial Aid. A renewal form of the F.A.F. must be submitted by May 1 to receive financial aid consideration for the subsequent school year.

THE COLLEGE SCHOLARSHIP SERVICE — More than 1300 colleges and universities, including Hope College, participate in this service. The C.S.S. publishes and distributes the confidential financial statement (F.A.F.) which is to be filled out by parents and students requesting financial aid consideration. The parents indicate on this form all pertinent family information and financial data, so that the college can make decisions that are fair both to the individual and to the student body.

The F.A.F. is distributed through the secondary schools or may be obtained at any college financial aid office. When completed by parents and students, the statement should be returned directly to the C.S.S. with the appropriate processing fee and not sent directly to the college. For incoming freshmen the deadline for filing the F.A.F. is **March 1**; for returning and transfer students the deadline is **May 1**. The College Scholarship Service will evaluate and forward the F.A.F. to the college(s) named on the form.

Hope College also accepts the Family Financial Statement (F.F.S.) provided by the American College Testing Program. However, the F.A.F. is preferred.

FINANCIAL AID TO STUDENTS

The goal of our financial assistance program is to allow families to consider Hope College on the basis of our academic program and family campus preference rather than cost.

To determine most equitably the distribution of funds available for financial aid, Hope College requires all students applying for assistance to complete a copy of the **Financial Aid Form** and have it analyzed by the College Scholarship Service. Our desire is to help in every way possible the qualified student who is in need of financial assistance. Most awards are based upon financial need, but specific funds may have additional eligibility requirements.

Determination of Awards

Most aid dollars are awarded on the basis of a national formula that measures each family's ability to pay college expenses. The formula takes into account factors such as family income and assets, family size, retirement needs of parents, student savings, student summer work expectation, number of children in college, and unusual medical expenses. The "fairness" of the formula is continually reviewed and alterations frequently occur to insure that the results represent a realistic measurement of each family's ability to make college expense payments. The financial need equation is as follows:

$$\begin{array}{rccr} \text{Total College Expenses} & - & \text{Family Contribution} & = & \text{Financial Need} \\ \text{(direct and indirect} & & \text{(national formula} & & \text{(aid eligibility} \\ \text{costs)} & & \text{determination)} & & \text{maximum)} \end{array}$$

The expense budget is set by the college and reflects modest indirect costs (books, travel, clothing, and spending money) beyond the standard tuition, room and board charges. The family contribution is fixed by the national formula, thus "financial need" will be relative to college costs.

72

Applying for Financial Aid

The process of asking for financial aid is not nearly as complicated as you might think. A family can apply for federal, state, and Hope College aid by sending one form to a processing agency. We prefer that you file the **Financial Aid Form** (FAF) with the College Scholarship Service, but we will also accept the **Family Financial Statement** (FFS) processed by the American College Testing Service. Both forms are readily available in all high schools. You still need to file an admission application with Hope College since we cannot act upon your aid request until you have been accepted for admission. Hope College does not require an application for aid in addition to the FAF, but you should apply prior to the deadline dates listed below to insure priority treatment:

Deadlines

Freshmen	—	March 1
Transfers/Upperclassmen	—	May 1

The award letter from Hope College may contain the offer of aid of several types. You may accept or reject parts of the "aid package" without penalty. The aid is normally awarded for the period of one academic year and aid is divided equally between the two semesters.

Financial Aid to Students

Description of Aid Types and Sources

A. GIFT ASSISTANCE — Scholarships and grants are non-repayable forms of aid. Both are normally based upon need and the scholarship normally requires a B average in order to be renewed the following year.

HOPE COLLEGE AID — Each year a number of the scholarships awarded are sponsored by gifts to the college. These scholarships are listed on page 309. Without the generous support of these friends of the college, Hope would not be able to offer the great number of scholarships it does. No special application is necessary since recipients are picked from those students awarded general scholarships.

1. **Scholarship** — Gift aid based upon need plus a cumulative GPA of 3.0 at the time of application. Awarded for one school year and renewable based upon continued need and a 3.0 + cumulative GPA. The award is credited automatically to the student's account each term. Aid is restricted for use toward tuition. Eligibility limited to full-time degree students and normally a maximum of 8 semesters of aid can be received.
2. **Grant** — Same conditions as the scholarship except for the GPA requirement. No GPA requirement established for the grant. Grant assistance is frequently used to replace lost scholarship assistance.
3. **Academic Recognition Awards** — See page 77 for program details.

FEDERAL AID

1. **PELL Grant** — Gift entitlement based upon exceptional need; awarded directly from the federal government. Maximum gift of \$1670 in 1982-83 based upon expected appropriations. Students must be enrolled at least half-time (6 hours) in order to be eligible. **Aid is credited automatically to the student's account upon presenting a valid "Student Aid Report (S.A.R.)" to the aid office.** Grants averaged \$844 in 1981-82.
2. **Supplemental Educational Opportunity Grant** — Gift assistance based upon exceptional need awarded from funds granted to Hope College. Full-time enrollment required by Hope College due to limited funds. Grants averaged approximately \$662 in 1981-82. All grants require that students accept at least an equal amount of other aid offered to them. Grants are credited to student's account, but a check must be endorsed over to the college each term.

73

STATE OF MICHIGAN AID

1. **Michigan Competitive Scholarship** — Gift assistance based upon financial need and ACT test score taken prior to college. Aid is directly credited to a student's account each semester and a 2.0 GPA is required for renewal. Full-time enrollment is required. Maximum number terms of eligibility is 10. Maximum amount per school year is scheduled to be \$1300 in 1982-83.
2. **Michigan Tuition Grant** — Gift assistance based upon financial need only and must be used at a Michigan private college. Aid is directly credited to a student's account each semester and no minimum GPA is required. Students enrolled at least half-time are eligible if need is established. Maximum amount is \$1300. Maximum terms of eligibility is 10.
3. **Michigan Tuition Differential Grant** — Gift assistance program to full or half-time Michigan residents enrolled at private, eligible, non-

Financial Aid to Students

profit Michigan colleges. Financial need is not a basis for eligibility. The estimated award size is \$500 (for full-time enrollment). Awards are renewable based upon State appropriations and continued Michigan residency.

B. EDUCATIONAL LOANS — Long term educational loans are awarded on the basis of financial need and repayment does not begin until after graduation or withdrawal from college. Before deciding whether to accept a loan you should carefully read the section below which describes the loan which may be offered. You are urged not to accept a loan for an amount larger than absolutely necessary, and are encouraged to consider both part-time employment and cutting down on expenses as a means to keep your aggregate loan debt to a minimum.

Loans offered have been made possible by a previous student borrower repaying his or her loan and your repayment will be required to assist future students. You should keep this in mind when it comes time for you to begin repaying your loan.

There have been considerable changes in the interest rates for student loan programs and some students receive funds from more than one program at rates which can vary from 3% to 9%. It has recently become possible to consolidate these loans under a national program that enables the borrower to make single payments monthly over a time period of up to 20 years. The interest rate on the consolidated loan is 7% and the program is generally available to borrowers with indebtedness greater than \$7500. More details can be obtained by writing to the Hope College Financial Aid Office.

In order to provide you with an estimate of the repayment implications of student loans, the following chart demonstrates payment sizes for a ten year repayment plan:

Total Amount Borrowed	Monthly Payments @3%	Monthly Payments @5%	Monthly Payments @7%
\$ 2500	\$30 Minimum*	\$30 Minimum*	\$30 Minimum*
5000	48.28	53.04	58.06
7500	72.42	79.55	87.08
10,000	96.56	106.07	116.11

*Repayment would be in less than 10 years.

HOPE COLLEGE AID

1. **Institutional Loans** — (Hope, Strong, Loan, Dykema, Skillman, Noyes, Crosby, and Yonkman). These Hope College loans are for students who meet various criteria required by the donors. No interest accrues nor is repayment required while the recipient maintains at least half-time student status at Hope College. Interest, at the rate of 5%, begins six months after graduation or termination of student status at Hope. Repayment is to be made in 16 quarterly payments over four years. Deferment of principal payment can be made during graduate study only.

a. **The Henry Strong Educational Foundation** — Provides funds to undergraduate Juniors and Seniors. Interest at the rate of 5% begins to accrue at graduation and repayment is at a specified rate covering a period of four years after graduation.

b. **The John Dykema Loan Fund** — This student loan fund is designed for students who demonstrate excessive need and who may be

Financial Aid to Students

forced to discontinue their studies without the use of such funds. Grades are not to be a determining factor in awarding these loans. Established by Susan M. Dykema.

- c. **The Bing Crosby Loan Fund** — This is a loan program established by the Trustees of the Bing Crosby Youth Fund, for deserving students who are in need of financial assistance to complete their education. The money is to be loaned to students having satisfactorily completed their freshman year.
- d. **The Floyd Long Loan Fund** — This institutionally operated loan program was established to help meet the educational expenses of Hope students who demonstrate financial need and show academic promise.
- e. **Janet Albers Yonkman Loan Fund** — This fund is to be a Student Loan Fund, all loans to be made to students whose scholarship record and potential suggests that they will pursue successful academic careers at and be graduated from Hope College. Primary consideration will be given to music students, but the fund is open to application by all interested students. Loans will be made to worthy, deserving, and responsible students who have given evidence of leadership potential and who have financial need.
- f. **Skillman Loan** — This fund created by the Skillman Foundation for deserving students in need of loan assistance.
- g. **Noyes Loan** — This fund created by the Jessie Smith Noyes Foundation for deserving students in need of loan assistance.
- h. **Mary VanKampen Memorial Loan Fund** — This institutionally operated loan program was established to assist students in need of funds to purchase textbooks. The money is to be loaned without interest for a maximum period of one year. This short-term loan program is limited to students who demonstrate financial need and the ability to repay the loan from campus or summer employment.

75

FEDERAL AID

- 1. **National Direct Student Loan** — This loan program is awarded on the basis of financial need to students enrolled full-time in a degree program at Hope College. Maximum annual amounts are \$1500 and \$6000 total for the undergraduate degree. Repayment of principal and interest begins six months after the borrower ceases at least half-time enrollment and may continue for a period not to exceed ten years. The interest rate is 5% and there is a cancellation provision for enrollment in special areas of teaching or certain types of service in the military.
- 2. **Guaranteed Student Loan** — Educational loans for students enrolled at least one-half time. Financial need is a requirement. The maximum loan is \$2500 per academic year, but not more than \$12,500 for undergraduate study. The interest rate is 9% and the Federal Government pays the interest as long as the borrower maintains one-half time enrollment status. Repayment normally begins 6 months after one-half time enrollment ceases and up to 10 years may be allowed for repayment. Application is normally made to a hometown bank.
- 3. **PLUS (Auxiliary) Loan** — An educational loan available to parents of dependent students not based upon financial need. These loans are obtained from home banks. The parent may borrow a maximum of

Financial Aid to Students

\$3000 per academic year, per dependent at an interest rate of 14%. Payments begin within 60 days of loan disbursement. Parents may have up to 10 years for repayment.

C. STUDENT EMPLOYMENT — During the academic year, 1100 Hope students hold part-time jobs on campus. The average work load is 8-10 hours per week which allows a student to earn approximately \$800-1000 per academic year (based on the hourly rate of \$3.35).

Students are paid on a bi-weekly basis and it is their responsibility to make payments toward any outstanding balance on their account.

If a student is eligible to be employed on-campus, he/she will be advised of such eligibility via their Financial Aid Award Letter. Employment placement is determined by a student's financial aid eligibility with highest priority given to those students with the greatest need. Because of the high degree of competition among students for certain positions, it is sometimes difficult to place each student according to their preference. Every effort is made, however, to accommodate each student's request.

IMPORTANT NOTE: A student accepting certain forms of federal aid (e.g. National Direct Student Loan, Supplemental Grant, College Work Study, or Guaranteed Student Loan) is limited by law in the amount of on-campus work he or she may accept. Should it appear that a student may exceed his/her limit, it will be necessary to decline an amount of aid equal in amount to the projected surplus earnings.

Campus employment is funded both via institutional monies and the federally-funded College Work-Study Program. Through this federal program, Hope College is annually awarded federal funds to pay 80% of eligible student wages. During 1981-82, 22% of the on-campus jobs were funded through this program.

Payment of Financial Aid to Students

76 Most financial aid is directly credited to the student's account each semester. The credit is normally for 50% of the total aid unless otherwise indicated and will appear on the advance billing mailed prior to the semester by the Student Accounts Office. Pell Grant funds cannot be disbursed until the complete triplicate Student Aid Report (S.A.R.) is received and validated. The following aid funds also require a student to endorse a check approximately one month after each semester has started: National Merit Scholarship, National Direct Student Loan (NDSL), and Hope College Institutional Loans. Aid from outside private and community sources is frequently sent directly to the student, but may be sent directly to the college for endorsement. Such funds are not credited to the student's account until they are received. Educational loans also require the execution of a promissory note each semester at the time the loan check is endorsed and a group or individual interview prior to the first disbursement each school year in order to review each borrower's rights and responsibilities.

Renewal of Financial Aid

Renewal consideration for financial aid each year depends upon three factors; satisfactory academic progress, continued demonstration of financial need, and the availability of funds. In order to be eligible for renewal consideration, students must submit the required Financial Aid Form (F.A.F.) by **May 1** or **March 15** for Michigan residents. Each summer, renewal candidates who demonstrate financial need based upon the F.A.F. will be awarded

Financial Aid to Students

financial assistance for the next academic year. The dollar amounts of aid will normally remain constant if a student's need remains the same. Aid increases or decreases are based upon the F.A.F. evaluation. It remains the college's policy to award aid equal to, but not greater than each student's computed need. **It is the student's responsibility to secure a new F.A.F. each year from the Financial Aid Office.**

Satisfactory academic progress means that students are allowed to continue their full-time degree status by the Registrar's Office **plus** they must meet the following minimum standards of credit accumulation in order to be eligible for aid renewal:

Semesters on Aid	Minimum Credit Hours Required to Remain Eligible to Continue on Aid
2	15 hours
3	27 hours
4	40 hours
5	54 hours
6	69 hours
7	84 hours
8	99 hours

*Aid beyond 8 semesters is awarded only if funds are available after meeting the needs of students enrolled less than 8 semesters.

*No aid available beyond 10 semesters.

Academic Recognition Awards

As part of its commitment to academic excellence, Hope College offers the following scholarships to freshmen. Recipients will be selected primarily on the basis of academic achievement in the high school.

Application: All students who have applied to Hope College are automatically eligible. While no special application is required, students are urged to indicate the scholarships for which they consider themselves qualified.

Deadline: Application for admission must be postmarked no later than February 15. Recipients will be notified by mail in April.

Eligibility: Those students in the top 10% of the entering freshman class will be considered. Special qualifications for individual awards are listed below.

- 1. Presidential Scholarships** — The goal of this program is to recognize broad academic achievement, to provide opportunity for intellectual exploration, and to encourage students to fully develop their academic abilities and interests.

Students are selected not only on their superior records of academic achievement and marked intellectual interest, but also on demonstrated leadership abilities.

In addition to the regular award, recipients are given, the freshman year only, a \$50 credit in the bookstore for the purchase of books other than required texts.

Number: Thirty per class

Amount: \$600 per year

Contact: David Marker, Provost

Renewable annually to a maximum of 8 semesters contingent upon academic performance.

Financial Aid to Students

2. **National Merit Scholarships** — Hope College annually sponsors scholarships through the National Merit Scholarship Program.

Consideration is limited to Merit Semi-Finalists who inform the National Merit Scholarship Corporation that Hope College is their first-choice college.

Annual stipends (\$600-2,000) depend upon individual need as determined by the Merit Corporation.

These scholars are included in all special activities that are held for the Presidential Scholar Program.

Number: Twelve per class

Contact: Bruce Himebaugh, Director of Financial Aid

Renewable annually to a maximum of 8 semesters contingent upon academic performance.

3. **Fine Arts/Humanities** — These awards are given to students whose future holds promise in studies in the Humanities or Fine Arts.

While selection is primarily based on academic performance in high school, the applicants in art or performing arts may be asked for a portfolio or audition.

Number: Fifteen per class

Amount: \$500

Contact: Jacob E. Nyenhuis, Dean for the Arts and Humanities

Renewable for sophomore year only, contingent upon academic performance the freshman year.

4. **Music** — Applicants need not plan to be a music major, but must show accomplishment in applied music.

Awards are based on overall academic standing and audition by means of a tape recording.

Recipients are required to enroll in one of the College's performing organizations.

Number: Ten per class

Amount: \$500

Contact: Stuart Sharp, Chairman, Music Department

Renewable the sophomore year only, contingent upon academic performance the freshman year.

5. **Natural Sciences/Social Sciences** — Students who plan to major in any of the academic departments in the Natural Sciences or Social Sciences are eligible.

Selection is based upon the applicant's overall academic record, with special attention paid to performance in classes related to the intended academic major.

Number: Fifteen per class

Amount: \$500

Contact: Sheldon Wettack, Dean for the Natural and Social Sciences

Renewable the sophomore year only, contingent upon academic performance the freshman year.

STUDENT EXPENSES ACADEMIC YEAR 1982-1983

General Fees: ¹	Per Semester	Academic Year
Tuition — 12 to 16 credit hours	\$2,490.00	\$4,980.00
Board - 21 meals per week ²	665.00	1,330.00
Room ³	480.00	960.00
Activity Fee	15.00	30.00
Total	\$3,650.00	\$7,300.00

Laboratory Fees: Certain courses require payment of modest laboratory fees to cover the costs of special materials and activities provided during course instruction. These fees generally range from \$5.00 to \$100.00 per course and are in addition to the general fees.

Applied Music:⁴ Organ, Piano, Voice or Instrument

One thirty-minute lesson per week for one semester	2 hrs. credit	\$ 85.00
One forty-five minute lesson per week for one semester	3 hrs. credit	115.00

Special Fees:

Application (paid by each student upon application for admission)	\$ 15.00
FOCUS Program	125.00
Enrollment Deposit: \$150 applied against general fees and \$50 used as a deposit which is refundable upon graduation or withdrawal if all other fees and charges have been paid in full; effective beginning with students admitted for fall 1983	200.00
Tuition Deposit: ⁵ Payable at time of fall registration which occurs during the spring and applied toward fall tuition	50.00
Tuition above normal 16-hour load (per credit hour)	60.00
Tuition: 8-11 hour load (per credit hour)	155.00
Tuition: 5-7 hour load (per credit hour)	115.00
Tuition: ⁶ 1-4 hour load (per credit hour)	88.00
Audit (per semester hour)	50.00
Tutorial: Per credit hour (by special arrangement)	160.00
Late Payment Service Charge — assessed if full payment is not received by due date	50.00

1. Hope College reserves the right to increase the tuition, room, and board fees at any time.
2. Other board options are: 15 meal plan: \$1,260.00, 10 meal plan: \$1,150.00 per year.
3. All rooms in College housing are contracted for the College academic year. Single rooms and apartments will be made available if space permits at an additional charge.
4. Fees for applied music are in addition to the normal credit hour charge. However, if a student is enrolled in over sixteen credit hours of instruction, including applied music, additional tuition for credit hours in excess of sixteen will be waived.
5. Tuition deposit is not refundable if the student does not enroll for the fall semester.
6. Students enrolled for 1-4 credit hours are not eligible for special College services or allowed to attend College events without purchasing an identification card.

Student Expenses

Payment of College Bills:¹

All bills are due and payable in advance of the beginning of each semester. Bills will be rendered in advance and payments should be directed to the Student Accounts Office. A late payment fee of \$50.00 is made on all accounts not paid in full by scheduled dates approved by the college.

In accordance with standard practice at colleges and universities, students are required to make satisfactory arrangements with the Student Accounts Office for the settlement of all financial obligations before final examinations, graduation, the issuance of transcripts, or registration for a succeeding term. A service charge of 1½% per month (Annual percentage rate of 18%) will be added to the unpaid balance of the accounts of all students who are no longer enrolled at Hope College.

Refunds:²

Contractual arrangements with members of the faculty and staff, and other provisions for education and residence, are made by the college for an entire year in advance to accommodate each registered student for the full academic year; therefore, should a student withdraw before the end of a semester the following rules will apply:

1. **ROOM REFUND** — Enrolled students are required to live in college housing and contract a room for the academic year. Prorated refunds will only be issued to those students who officially withdraw for reasons of health. No other refunds will be issued.
2. **BOARD REFUNDS** for students officially withdrawing from the college will be prorated. No changes in boarding plans may occur after student I.D.'s have been made. Any requests for a late change in board plan should be directed to the Dean of Students Office for consideration.
3. **TUITION REFUNDS**³ for students who officially withdraw from college, or are suspended, will be computed from the beginning of classes as follows:

FALL SEMESTER 1982 —
Aug. 31 — Sept. 8 100%
Sept. 9 — Sept. 15 80%
Sept. 16 — Sept. 24 60%
Sept. 25 — Oct. 1 40%
Oct. 2 — Oct. 8 20%
After Oct. 8 NO REFUND

SPRING SEMESTER 1983 —
Jan. 11 — Jan. 20 100%
Jan. 21 — Jan. 27 80%
Jan. 28 — Feb. 3 60%
Feb. 4 — Feb. 10 40%
Feb. 11 — Feb. 17 20%
After Feb. 17 NO REFUND

1. Special arrangements for payment of part of your college expenses over an extended period can be made by contacting The Hope College Student Accounts Office.
2. Failure to complete a non-returning student form by the end of the fourth week of the succeeding semester will result in the forfeiture of the \$50.00 Enrollment Deposit. See Page 97 for more information regarding withdrawal and non-returning procedures.
3. Students who drop classes after the official drop-add period but remain enrolled in the college will not receive a refund for the dropped classes.

THE DEGREE PROGRAM

The curricular program is based on the concept of four academic years of full-time college work leading to the Bachelor of Arts, the Bachelor of Music, the Bachelor of Science or the Bachelor of Science in Nursing degree. This program is designed to challenge students to explore the broad range of human experience and also to probe deeply into a limited segment of that experience.

The Hope College curriculum requirements are divided into two areas: the Core Curriculum and the Academic Major. The Core Curriculum is designed primarily to enable each student to acquire a broad understanding of various aspects of human activity which will enlarge his/her comprehension of the world in which he lives, help him in disciplining his/her mind, and assist him/her in developing a vital Christian philosophy.

The Academic Major requirement is aimed primarily at ensuring that each student focuses his/her intellectual endeavors on an area of his special interest and competence, in order to acquire the special skills and knowledge needed to contribute in a significant way to the betterment of humanity.

Taken together the Core Curriculum and the Academic Major, along with the various professional sequences, are the curricular means whereby the College seeks to fulfill its two major responsibilities, those of stimulating the growth of the individual as a person and of preparing the individual to take his/her place as a responsible and competent Christian world citizen.

I. THE OBJECTIVES OF THE CURRICULUM AT HOPE COLLEGE

The course offerings of Hope College are designed to promote in the student the following basic attributes of a liberally educated person:

- A. The ability to understand, evaluate and communicate ideas.
- B. A broadened awareness.
- C. The ability to engage in intensive study.
- D. A sense of interrelatedness of knowledge, experience and responsibility.

The curricular requirements established for the bachelor's degree are designed to ensure that the student addresses himself/herself to all of these objectives.

II. REQUIREMENTS FOR THE BACHELOR'S DEGREE

Requirements for the Bachelor's degree briefly stated are:

1. Completion of at least 126 semester hours with a minimum 2.0 cumulative grade point average.
2. Completion of the core curriculum.
3. Completion of a major program with a 2.0 cumulative grade point average in the major.

The Core Curriculum

Qualified students may obtain waivers of certain portions of the Core Curriculum. Consult the listing below for waiver procedures for individual components. ACT-based waivers are granted automatically and no further action is necessary by the student.

The Degree Program

NOTE: Adjustments to the Core Curriculum have been made for the Bachelor of Music and the Bachelor of Science in Nursing degrees. See the Department of Music or Department of Nursing course sections for the core requirements for these degree programs.

The Core Curriculum consists of the following components:

A. Fundamental Skills — 7 semester hours

1. Expository Writing I. (English 113) 4 hours

Rationale and Objectives

Knowledge has little value unless it can be communicated to others; therefore, every course offered in the College should help students improve their writing skills. The freshman rhetoric course is to be viewed as a foundation course, not as an end in itself. The emphasis of this course is placed, therefore, upon rhetoric and the fundamentals of expository writing. Specifically, the course aims at furthering the freshman student's ability to reflect critically, logically, and speculatively on significant topics and ideas and to express his reflections clearly, forcefully and in orderly fashion.

Course Pattern

A four semester-hour course to be taken in the freshman year. Since it may be difficult to learn and to teach the fundamental writing skills without using some issue or topic with its attendant literature to provide focus, model and inspiration, faculty employ such an organizing principle in the teaching of rhetorical skills.

This course assumes that students entering it will have already achieved some understanding of principles of grammar, syntax, and mechanics. To provide help for students who show significant deficiencies in these areas, the Academic Skills Center will provide individualized instruction for any student needing and requesting help in developing writing skills.

Students who present a score of 27 on the ACT-English exam qualify for a waiver of this component of the core.

2. Mathematics (3 hours)

Rationale and Objectives

In a society which depends ever more heavily on quantitative definition and analysis of issues and problems, basic mathematical skills are clearly necessary if a person is to function effectively. The aim of the mathematics requirement is to help the student achieve this facility in using quantitative symbols and methods. All courses eligible for fulfilling the requirement should help students understand better the nature and structure of mathematics.

Course Pattern

Since students enter college with significant differences in their mathematical skills, and since their vocational directions may require specific mathematical skills, no single course is best for all students. Therefore, a variety of course offerings is provided from which the student may choose. Advisors will assist students in making a wise choice, in light of background and major directions.

Students who present a score of 27 on the ACT-Math exam qualify for a waiver of this component of the core.

The Degree Program

B. Cultural History and Language — 19 semester hours

Rationale and Objectives

In order for modern persons to live responsibly in a pluralist society and help shape its future, they need to have some sense of their past and the ways in which the thoughts and actions of the past have shaped their present. In a multi-lingual world they need to deepen their understanding of the unique role of language, including those not native to them, in part to develop an appreciation of the cultural contribution of other peoples. The cultural history requirement introduces students to the chief intellectual developments of the western cultural tradition, by directing their study to significant primary documents and artistic creations in chronological sequence. Second language acquisition enhances the student's ability to gain access to materials not in English and provides a complimentary opportunity for the examination of the western cultural tradition from another vantage point.

Course Pattern — Language (7 semester hours)

Four options can be exercised to satisfy this requirement:

- Option 1 — Complete a course number 102 or 172 in the Department of Foreign Languages and Literatures.
- Option 2 — Be placed in Hope's 200-level course on the basis of a placement test administered by the Department of Foreign Languages and Literature.
- Option 3 — Present a minimum score of 550 on a CEEB Foreign Language Achievement Test (The Reading-Listening Test, if possible). This test is normally taken during the junior or senior year in high school.
- Option 4 — Complete one semester of concentrated study of a foreign language in a country where that language is an official language and under the auspices of a foreign study program recognized by the College and approved by the chairperson of the Department of Foreign Languages and Literatures.

NOTE: A student who speaks natively a language other than English is exempted from the language component of the Cultural History and Language requirement.

Course Pattern — Cultural History (12 semester hours)

To meet the objectives of this requirement, the student must satisfy two components:

Component 1 — Complete one course from **each** of the following disciplines: English, History, and Philosophy. The student must select from the following approved A-Block (ancient period) courses: English 231, History 130, or Philosophy 219 or from the following approved B-Block (modern period) courses: English 232, History 131, or Philosophy 220. Two A-Block courses and one B-Block course or one A-Block and two B-Block courses must be chosen to fulfill this component.

Component 2 — Complete one additional course from the approved courses listed above **OR** complete a 201, 203, or 271 course in the Department of Foreign Languages and Literatures.

The Degree Program

Alternate Course Pattern for Both Language and Cultural History

- A. IDS 123, 124 — Two Souls of Germany. An Integrated language and culture program focusing on Germany from the age of Goethe to the collapse of the Weimar Republic. Prerequisite: German 101. Twelve semester hours. The sequence (German 101, 4 hours, plus IDS 123-124), plus a course elected from Block A, Cultural History requirement completes the 19-hour Cultural History and Language component of the core curriculum.
- B. IDS 133-134 — The Golden Age of Greece. Concentrated study of classical Greek language combined with the study of Greek culture and history, concentrating on Athens in the 5th century B.C. Sixteen semester hours. This program plus a course elected from Block B, Cultural History requirement, completes the 19-hour Cultural History and Language component of the core curriculum.

The college is committed to excellence in written expression. Every course in the Cultural History requirement will include writing and the evaluation of writing.

C. Social Science — 6 semester hours

Rationale and Objectives

This requirement is designed to help the student understand the structure and functions of the major institutions of society and the major patterns of human behavior, and to bring these understandings to bear upon the problems he will face and decisions he will be required to make if he is to live effectively and constructively in his society.

Course Pattern

One course must be chosen from the core-designated courses in the economics or political science areas — courses currently designated to satisfy this portion of the core are Economics 201 and Political Science 101; and one course must be chosen from the core-designated courses in the communication, psychology, or sociology areas — courses currently designated to satisfy this portion of the core are Communication 101, Psychology 100, Sociology 101 and Sociology 151.

Students who present a score of 27 on the ACT-Social Science exam qualify for a waiver of three hours of this requirement. Students with such scores may elect any three-hour course from those approved to satisfy this requirement.

85

D. Natural Sciences — 8 semester hours

Rationale and Objectives

The magnitude of the influence of science and technology in today's world is obvious and raises challenges and problems for modern men and women individually and collectively. The purposes of this segment are to deepen the student's understanding of the scientific interpretation of the natural world, to explore the aims, methods, limitations, and moral implications of the scientific enterprise, and to study the influence of science and technology on society and man's environment.

The Degree Program

Course Pattern

To meet these objectives, the student must:

1. EITHER complete a four-semester-hour introductory course with laboratory in the natural sciences and complete another four hours of science. For the non-science major, the overall objectives are best met with completion of 2 two-semester hour topical courses in the natural sciences (excluding computer science). At least one of these courses must be taken in a department other than the one in which the laboratory course is taken. Total requirement is 8 hours.
2. OR, for students who have good high school preparation in natural science and who present a score of 27 on the ACT-Natural Science exam, complete 6 hours of science courses usually taken as 3 two-hour topical courses in the natural sciences. At least two departments must be represented in the student's choice. A two-hour topical course in computer science is allowed toward fulfillment of this requirement. The total requirement is 6 hours for students who have met the waiver requirement.

E. Performing & Fine Arts — 6 semester hours

Rationale and Objectives

A liberally educated person knows, understands, and experiences those creations of man which speak of grandeur and misery powerfully in a form generally called beautiful and identified as Art.

To develop his aesthetic sensibilities and his awareness of the richness of the arts of the past and present, a student should not only be introduced to the artistic creations of others, but also be involved in the creative process. Part of the arts requirement (three hours) is designed to introduce the student to masterpieces of one or more of the arts and to provide him or her with the background and skills important for an appreciative understanding of them. The other part of the requirement is designed to help the student explore further, but it especially encourages him or her to engage actively in the creative and performing process.

Course Pattern

The student may fulfill these objectives by

1. Completing an introductory course in art, music, theatre, or an interdisciplinary course in the arts. Courses designated to fulfill this requirement are Art 160; IDS 101; Music 101, Theatre 101, 105 (Theatre majors), 153.
2. AND, Completing three hours of course work in one or more disciplines other than the one chosen for the introductory course. Another introductory course may be taken, or any performance or studio course, including dance studio, unless specifically exempted, may be used to fulfill or partially fulfill this three-hour block.

A student with an extensive fine arts background may apply to the chairmen of the individual departments for a waiver of either component of this requirement.

The Degree Program

F. Religion — 6 semester hours

Rationale and Objectives

The Christian faith has had a profound influence on the history of western civilization and is a powerful force shaping the future. The notion that all of life and nature are gifts of God and that man is called to be a faithful steward of these gifts makes the study of the Christian religion an essential part of the curriculum. This segment is designed to aid students to develop a mature understanding of the Judeo-Christian tradition, to acquaint students with the methodological tools used in the study of religion, to sharpen their ability to evaluate their own religious commitments, and to assist them in evolving an integrated world view.

Course Pattern

Three hours are to be elected from the Basic Studies in Religion: Religion 110, 120, 130 or 140. The remaining three hours are to be drawn from an appropriate upper-level religion course. For junior and senior transfer students, a total of 3 hours is required.

Students with extensive religious training may apply to the Chairman of the Department of Religion for a waiver of the Basic Studies component of this requirement.

G. Physical Education — 2 semester hours

Rationale and Objectives

Physical health and fitness have been part of the ideal of the liberally educated person since the time of the ancient Greeks. In this modern mechanized and affluent society, man has tended to forget the importance of physical activity and proper diet. The purpose of this requirement is to help the student understand the principles of proper diet and exercise and establish habits and skills that will enable him or her to reach and maintain good health and physical fitness.

Course Pattern

This requirement is met by completing Phys. Ed. 140, Health Dynamics, a two-semester-hour course.

The first part of this course will focus on the knowledge of diet and exercise as they relate to fitness and health. The second part will deal with the application of the principles established and will involve the student in an activity or activities which best suit his or her physical fitness needs.

Waivers are not granted for this requirement. Transfer students may substitute activity courses for this requirement.

H. Senior Seminar — 3 hours

Rationale and Objectives

Hope College is an institution which professes that life is regarded as God's trust to man. In this context students are helped to discover their individual abilities, and to develop as competent, creative, and compassionate human beings, devoted to serving God in all areas of life. From these aims the Senior Seminar's core requirement was developed.

Through personal assessment of one's education and life view, the Senior Seminar is intended to serve as the capstone to an education at Hope College. The Seminars are designed to help the

The Degree Program

student 1) consider how the Christian faith can inform a philosophy for living, 2) articulate his or her philosophy for living in a coherent, disciplined, yet personal way, 3) to understand secular contemporary values in Christian perspective.

Course Pattern

Senior Seminars are three-hour courses offered both semesters. Courses should be taken by second-semester juniors and seniors unless by special permission. See the Department of Interdisciplinary Studies section for courses approved to fulfill this requirement.

Waivers are not granted for this requirement.

The Major Programs

The bachelor degree requires the successful completion of a major program. The Bachelor of Arts degree may be earned in thirty-six fields of major concentration: art, biology, business administration, chemistry, classical languages, communication, computer science, economics, engineering science, English, French, geology, geochemistry, geophysics, German, history, humanities, international studies, language arts, Latin, mathematics, music, literature and history, music theory, philosophy, physical education, physics, political science, psychology, religion, science, social studies, sociology, Spanish, and/or theatre.

The Bachelor of Music degree may be earned in performance, vocal music education, and/or instrumental music education.

The Bachelor of Science degree may be earned in biology, chemistry, computer science, geology, mathematics and physics.

Nursing majors may elect either a Bachelor of Arts degree or the Bachelor of Science in Nursing (B.S.N) degree.

- 88 A student may formally declare his or her major anytime after the first semester of college work as long as the student is in good academic standing. Normally, the choice of a major program is made by the end of the sophomore year. Every student must declare and be assigned an academic advisor in the major area by the time senior status is obtained (94 semester hours) or he/she may be asked to withdraw from the degree program.

For all those courses counting and required for a particular major program an average grade point of 2.00 or better is required for graduation. (Certain governmentally supervised programs such as teacher certification may require higher grade point averages. Students must be aware of such special criteria.)

1. The Department Major

The departmental major is the most common means by which Hope's students engage in an intensive study in one field of knowledge. Upon deciding in what department to major and after consultation with his or her academic advisor a student makes formal declaration of a major to Department Chairman on the appropriate form from the Registrar's Office. The Department Chairman assigns a new advisor. The student and the new advisor then work out the academic program in line with all the specific requirements of the major program as stated in the course listing section of the catalog. The student should become familiar with all the departmental requirements in order to graduate from the College. The department chairperson will certify to the Registrar that all the criteria for the major

The Degree Program

have been met including the 2.00 gpa required in the major area course work.

2. The Composite Major

The composite major is an alternative to the departmental major. While the composite major seeks to fulfill the same objectives as the departmental major, namely, the ability to engage in intensive, in-depth scholarly inquiry, the composite major allows for special alignment of courses from several departments to fulfill a particular academic or vocational objective. The composite major is just as rigorous as a department major but it allows the tailoring of an academic program to a field or topic of inquiry other than a departmental field.

Guidelines for the Composite Major — The following guidelines are established for those contemplating a composite major and for those responsible for approving such a major:

1. The applicant must present a rationale for his composite major. This must include a definition of his field of inquiry. This field must be more specific than a random collection of courses from several departments in the same division.
2. The composite major should consist of at least 36 credit hours of course work aimed at providing depth in the defined field of inquiry.
3. Of these hours, at least half should be in courses that are not elementary but upperlevel courses (normally courses numbered over 300).
4. As for all applications for majors, the request for a composite major should be made at the close of the sophomore year, and certainly no later than three semesters prior to graduation. Upon acceptance the student will be assigned a major advisor who, in consultation with the student, has responsibility for determining the specific course sequence that must be followed to complete the major, and who certifies to the Registrar that the major has been completed.

Students interested in pursuing a composite major should consult with the Registrar about application procedures.

5. The Composite Major Committee shall consist of a divisional dean and two ad hoc faculty members invited to review a particular application. One of the ad hoc faculty members shall serve as the student's academic advisor when the application is approved.

THE COMPOSITE MAJOR FOR THE ELEMENTARY EDUCATION STUDENT

— Education students planning to seek certification in Elementary Education and not intending to major in one department should plan to follow one of the composite programs already approved. Such a student should consult with the Department of Education by the end of his sophomore year. The composite major leading to certification in Elementary Education consists of a minimum of 36 hours in related academic fields and requires a concentration of at least 18 hours in one academic field. At present, the following composite majors are approved:

- Language Arts (Communication, English Language, Foreign Languages) — Focus is on languages as a communicating art.
- Humanities (Literature, Art, Music)
- Social Studies (History, Political Science, Sociology, Economics, Geography)
- Science (Biology, Chemistry, Geology, Mathematics, Physics)

The Degree Program

PSYCHOLOGY-SOCIOLOGY (SOCIAL WORK) MAJOR is designed for students who are intending to enter professions which require intimate contact with humans and affects human welfare. The major builds upon a broad liberal arts base and examines: 1) the philosophies of social welfare; 2) various theoretical perspectives of Psychology and Sociology.

Requirements include: Psychology 100 or 200, 230, 260, 280 or 330, 370, 380 or 410.

Sociology 101, 232, 241, 242 or 312, 262, 442.

It is strongly recommended that the student take Mathematics 210 for the College mathematics requirement, and Animal Biology or Human Ecology and Principles of Heredity for part of the requirement in science.

Sociology 443 or 446 is recommended for all students.

Students contemplating this major should consult with Prof. James Piers of the Sociology Department by the end of their sophomore year.

Also see "Social Work" listed under pre-professional programs, pg. 278.

THE GEOLOGY-PHYSICS COMPOSITE MAJOR is an integrated curriculum designed to prepare students who are planning to follow a graduate career in geophysics.

Required Courses:

Geology: 115, 241, 242, 251, 255 and 441

Mathematics: 135, 136, 235

Physics: 121, 122, 270, 241, 242, 341, 381, 382.

Three additional courses are required; at least one in the Geology Department and one in Physics. These courses are:

Geology: 332, 371, 453

Physics: 342, 352, 361, 362

Students contemplating the geophysics major should consult with the Chairmen of the Geology and the Physics Departments for additional information.

THE GEOLOGY-CHEMISTRY COMPOSITE MAJOR is an integrated curriculum designed to prepare students who are planning to follow a graduate career in geo-chemistry.

Required Courses:

Chemistry: 111, 121, 221, 321, 322, and 343

Geology: 115, 241, 242, 251, 332, 453

Mathematics: 135, 136, 235, 270

Physics: 121, 122, 225

Students contemplating the geology-chemistry composite major should consult with the Chairmen of the Geology and Chemistry Departments for further information.

THE COMPOSITE MAJOR IN INTERNATIONAL STUDIES is designed for the student intending to enter a profession in which an international focus is of particular importance. This major will serve as preparation for careers in such fields as International Business, Economics, Political Science, Law, History, Sociology, and the Arts.

In addition to the normal sequence of courses taken to satisfy the general requirements at Hope College, eighteen credit hours of required courses

The Degree Program

plus eighteen credit hours of elective courses are needed to complete this major.

Requirements include: Economics 308
Economics 402
History 355
Political Science 251
Political Science 352
Sociology 151

Among the eighteen elective hours of credit students must take:

- one non-U.S. History course
- a Foreign Language 250 course (or a course which comparably stresses a cultural approach to International Studies)
- an Independent Study intended to draw work of this major together.

It is strongly recommended that students participate in an internship with an international focus for at least one semester and preferably for a full year.

Semester Hours and Quality Points

To be eligible for graduation, a student must pass all college required courses and must present a minimum of one hundred twenty-six (126) credit hours of college work. The grade average of all his course work must be 2.0 or higher.

Residence Requirement

Under normal circumstances, the final 30 semester hours of the Hope College degree program must be completed at Hope College or in an off-campus program sponsored by Hope College. This latter category would include the Great Lakes Colleges Association programs, and those of the Institute for European Studies. In certain individual cases, an exception may be granted through the following procedure:

91

1. The Registrar, in consultation with the student's department chairman and divisional dean, may approve the taking of a maximum of 15 semester hours of the final 30 at another educational institution.
2. If the student seeks permission to complete his entire senior year at another educational institution, approval must be given by both the Student Standing and Appeals Committee and a divisional dean. Such requests should be submitted to the Registrar who will forward each request to the appropriate persons.
3. In both of the above exceptions, approval must be granted in advance of the student's enrollment in the other institution and all Hope College academic requirements must be completed by the graduation date. No student will be graduated from Hope College who has not spent a minimum of one full academic year as a full-time student on the Hope College home campus during the period in which he has junior or senior standing.

Minors

While minors are not required for the degree, concentrations of course work in a department may qualify the student to have this minor listed on his/her

The Degree Program

permanent record. Consult the departmental listings for approved minor programs. Minor declaration forms are available at the Academic Records Office.

Minors are required for teacher certification and students who intend to be certified to teach at the elementary or secondary level should consult with the Department of Education.

III. THE CONTRACT CURRICULUM

The curricular design for the A.B. degree at Hope College, as previously outlined, may not be appropriate for all students. The Contract Curriculum is an alternative program for achieving the educational objectives of the College. The Contract Curriculum may replace both the general college requirements and the requirements for the major.

The Contract Curriculum rests on several assumptions. First, there are some students who are not only capable of, but also eager for more self-determination in their education. Second, the current presupposition that students ought to learn broadly at first and then proceed to greater and greater specialization is not necessarily valid for all students. In fact, the inverse of that academic pyramid might be more productive with some students. For some, concentrated studies in the sophomore year in one academic area might be a better approach to the ultimate achievement of the College's educational objectives. Because of the new horizons opened by concentration, intensive study may serve as a more effective tool than the present "Introduction to—" courses in creating the desire for investigation of other areas. Finally, the Contract Curriculum is not to be considered as an honors program. No minimum grade point average shall be established as a prerequisite for the acceptance into the contract curriculum.

To implement this Contract Curriculum proposal, the following guidelines are required to be followed by students and faculty:

1. In order to be admitted into the Contract Curriculum program, a student must have completed two semesters of full-time study (minimally 24 hours) at Hope College. However, a student may apply and complete all preliminary steps for admission to the program at any time after the midterm point of the semester in which he will complete a minimum of 24 semester hours taken at Hope College. (Action on his application will be deferred until he has completed the 24 hour requirement.)
2. It will be the responsibility of the student to provide concrete evidence that he is able and both sufficiently responsible and motivated to pursue such an independent program. (The evidence shall include his past academic record, letters of recommendation, an interview and other appropriate support.) A student entering the Contract Curriculum must accept the contract as his full-time academic program for that semester.
3. The student must seek out one faculty member who will act as his mentor for a period normally not to exceed two semesters. The student and the mentor will propose a contract which outlines the course of study.
4. The writing of the contract is of crucial importance and care must be taken to make it as comprehensive as possible. The contract shall state the educational objectives and means for carrying them out, provide criteria for evaluation, acknowledge educa-

The Degree Program

tional risks involved, and make provisions for "statements of progress" to the Faculty Contract Committee which may include oral examinations and/or the presentation of papers or special projects.

5. The written contract shall be submitted to the Registrar who will convene a Faculty Contract Committee composed of a divisional dean, one faculty member appointed by the Registrar who will serve as chairman of the committee, and two faculty members selected by the student and his or her mentor. The Faculty Contract Committee will evaluate the contract in light of the educational objectives stated above in item 4 and grant approval based upon additional criteria designed to maximize the possibility of the student's successful completion of the contract.
6. Academic credit for students involved in the Contract Curriculum will be recorded on the student's transcript in any of the three following ways:
 - a. As independent study in an existing department;
 - b. As an IDS course specifically designated to cover contract curriculum programs;
 - c. As a course already in existence in the *Catalog*.

In the last instance, the student may arrange with the instructor to fulfill the objectives of the course on an individualized or independent basis. This crediting procedure is not an implicit recommendation that the Contract Curriculum be designed only as a realignment or novel juggling of existing courses. Rather, it is intended to provide a means for recording and assessing the student's effort and, at the same time, translate the student's program into terms meaningful to other institutions who evaluate Hope's transcripts. Provided the student thoroughly understands the risks involved, any or all of the credits may be recorded as Pass or Fail if the Contract Committee so agrees. However, a student under the Contract Curriculum may request conventional grades in some or all aspects of his program. The Chairman of the Faculty Contract Committee shall designate the faculty members (or others) who will assign grades for the student's permanent record.

93

7. The Faculty Contract Committee, having periodically evaluated the student's progress, will certify the fulfillment of the contract according to the terms proposed therein.
8. The period of the contract shall be no less than a semester in duration and may extend to the time of graduation. If the contract shall extend to the time of graduation, which could be as long as three years, the Faculty Contract Committee will have full power and responsibility to determine whether the student's work fulfills the requirements for the Bachelor's degree and whether the student has adequately reached the objectives to receive that degree.
9. Should a student decide to terminate his contract before the time of its fulfillment or at the end of any semester prior to graduation, the Faculty Contract Committee will have the final decision as to how many credit hours of work have been completed and where they shall be applied to the curriculum, after consulting with the chairpersons of the appropriate departments.
10. Faculty members volunteering to serve as mentors will be expected to do so as a part of their normal responsibilities. The

The Degree Program

faculty member will consult with his chairman and with his Divisional Dean on the matter of faculty work load.

11. Special contract applications, registration and credit evaluation forms shall be provided by the Registrar's Office.
12. The Provost will publish each academic year a catalog in permanent format describing each contract proposal approved by the college. The catalog description for each contract shall also include the following:
 - a) a clear statement as to how the objectives in paragraph 4 above have been carried out;
 - b) the names of the mentor, Contract Committee and its chairman, and the student.

Students registered for the Contract Curriculum are assessed regular tuition.

GENERAL ACADEMIC REGULATIONS

System of Grading

Each student receives a grade in his courses at the middle and at the close of the semester. The mid-semester grades, designed to give the student an indication of his progress, do not appear on a student's transcript.

The system of grades is as follows:

<i>Grade</i>	<i>Significance</i>	<i>Quality Points</i>
A	Superior	4.0 per sem. hr.
A-	Superior	3.7 per sem. hr.
B+	Good	3.3 per sem. hr.
B	Good	3.0 per sem. hr.
B-	Good	2.7 per sem. hr.
C+	Adequate	2.3 per sem. hr.
C	Adequate	2.0 per sem. hr.
C-	Adequate	1.7 per sem. hr.
D+	Weak but passing	1.3 per sem. hr.
D	Weak but passing	1.0 per sem. hr.
D-	Weak but passing	0.7 per sem. hr.
F	Failure	0.0 or nothing
P	Pass (Pass/Fail Option)	0.0 or nothing
I	Incomplete	
W	Withdrawal	
IP	In progress	

Quality points, the numerical equivalent of the letter grade, are used to determine the student's rank in class, academic honors, and academic warning, probation or suspension. By way of example, a student receiving an A, B, C, D, or F in a three-semester hour course earns 12, 9, 6, 3, or 0 quality points respectively. The number of earned quality points divided by the number of semester hours attempted (excluding "Pass" hours) establishes the quality point average (GPA) of a student. A quality (or grade) point average of 2.0 shall be required for graduation from Hope College.

95

Grade Reports

Grades are reported by the Registrar both at midterm and at the conclusion of the semester. Final grades become part of the official record of the student. Copies of both midterm and final grade reports are issued to the student.

Incompletes

An incomplete (I) is given only when unusual circumstances beyond the control of the student prevent giving a specific grade. The "I" grade must be removed within six weeks after the close of the session in which the incomplete was given. If not removed within this time, the incomplete (I) becomes a failure (F). Degrees are not awarded to those students who have incomplete (I) grades. A degree candidate whose record shows an incomplete (I) grade(s) at the time of his requested degree date will be moved to the next degree date.

Academic Honesty

The Hope community is bound together by certain mutual trusts. Regarding scholarly activity, the primary and binding trust is that all scholarship shall

General Academic Regulations

be conducted according to the highest standards of honesty and personal integrity. All members shall share the common responsibility for upholding this trust.

Cheating and plagiarism are the two most obvious violations of academic honesty. In brief, plagiarism is the borrowing of ideas, words, organization, etc., from another source or person, and claiming them as original. Any specific questions of a student regarding the nature and various forms of plagiarism should be discussed with individual faculty members.

If any member of the community takes part or acquiesces to any form of cheating, plagiarism, or other academic dishonesty, he clearly demonstrates his lack of personal integrity and his disregard for this mutual trust of the community.

Such activity can result in failure of a specific assignment, an entire course or, if flagrant, dismissal from the College.

Academic Standing

DEAN'S LIST: Full-time, degree-seeking students who have earned a semester grade point average of 3.5 are placed on the Dean's List. This list is compiled at the end of each semester. Notice of this award is sent to the student, to the student's parents or guardian, and to the student's hometown newspaper.

PROBATION: The College requires that its degree students attain a minimum 2.0 cumulative grade point average for the awarding of the A.B., B.S. or B.Mus. degree. A student whose cumulative grade point average indicates that the accomplishment of the degree objective is in jeopardy is placed on academic probation. The following schedule applies:

0-32 sem. hrs. attempted	— below 1.6	cum. gpa — probation
33-50 sem. hrs. attempted	— below 1.7	cum. gpa — probation
51-65 sem. hrs. attempted	— below 1.8	cum. gpa — probation
66-79 sem. hrs. attempted	— below 1.9	cum. gpa — probation
80-95 sem. hrs. attempted	— below 1.95	cum. gpa — probation
96+ sem. hrs. attempted	— below 2.0	cum. gpa — probation

The student is informed by letter of his being placed on academic probation and a copy of this letter is sent to the student, the student's faculty advisor and to the student's parents or guardian.

DISMISSAL: A student may be dismissed from the degree program for academic reasons if, in the judgment of the College, such action is felt to be in the best interest of the student. Such action is possible for a student if he has been on probation for two succeeding semesters, his cumulative grade point average is significantly below the guidelines above, and his academic record shows no trend toward the improvement of his grade point average. A letter informing the student of his dismissal is sent by the Provost and a copy of this letter is sent to the student's faculty advisor and to the student's parents or guardian. The decision to dismiss a student for academic reasons may be appealed, if done so within ten days of receipt of the letter from the Provost, to the Student Standing and Appeals Committee.

If a student is dismissed from the degree program for academic reasons, the earliest he may apply for readmission to the degree program is one academic year from the date of his dismissal. At the time of his application for readmission, the student must present convincing evidence of his ability and desire to complete Hope's degree program. Opportunity may be given

General Academic Regulations

the student to demonstrate this ability and desire to complete the degree program by allowing him to enroll at Hope as a non-degree student.

A student experiencing academic difficulty is encouraged to seek help from his faculty advisor or from the College's staff. The College desires to aid the student in every way possible to attain his degree objective. Questions relative to academic standing may be addressed to the Registrar.

Certification of Veterans

In accordance with federal statutes, students receiving veterans benefits will not be certified for continuation of these benefits if they remain on academic probation for more than two successive semesters. Students who find themselves in this position should contact the Registrar for information as to how certification for veterans benefits can be continued in the future.

Withdrawal from College

In order to assure himself of an honorable dismissal from college, a student withdrawing from college any time during an academic term must obtain a withdrawal form from the Registrar's Office and have it signed by the Dean of Students, Student Accounts Office Manager, and the Registrar. No refunds will be given to a student until the above form is processed.

Non-Returning Students

Students who withdraw from the college after completing the semester in which they are currently enrolled must notify the College by the end of the fourth week of the succeeding semester. All financial refunds will be withheld until the student submits a Non-Returning Student Form. Forms may be obtained at the Registrar's Office in the DeWitt Center.

97

Repeating a Course

No grade may be removed from the student's permanent record but if a student wishes to raise his mark in a course, he may repeat any course at Hope. In computing the student's cumulative grade point average, the original course mark will be replaced by the grade in the repeated course and the record of the original attempt will remain part of the student's record for information purposes only. If the course to be repeated is required for graduation or for a major, it should be repeated the next time the course is offered. A Hope College course may not be repeated for credit at another college or university.

Change of Courses

Students are urged to study the course offerings carefully before registration so that their course program for a given semester need not be changed. The following limitations are placed on changing of courses:

ADDING AND DROPPING OF COURSES — Students may add and drop courses without academic penalty during the first week of classes. Drop/Add forms can be obtained in the Registrar's Office in The DeWitt Center.

General Academic Regulations

WITHDRAWAL FROM COURSES — A student may withdraw from a course after consultation with his instructor and counselor within the first ten (10) weeks of the semester. After the end of the first week in the semester, the notation "W" will appear on his record. Courses withdrawn from after the ten-week period will ordinarily be recorded as failures.

Pass/Fail Option

Each junior and senior, as a part of his regular quota of courses, is permitted to elect and designate in each semester one course for which he will be granted the usual academic credit but will have the grade of this course recorded on his permanent record as a "P" or an "F." This procedure has the following provisions:

1. A student must be enrolled as a full-time student (12 hours or more) in order to qualify for the pass-fail option.
2. The course designated must lie outside the student's major field. It may not be a required course, either by the Department of the student's major or by the College. Because of this requirement, a student should have declared his/her major prior to requesting that a course be designated pass/fail.
3. The student should perform the work, and otherwise fulfill all the regular requirements of the course to the satisfaction of the instructor — having done this, he/she will receive a "P" for pass, if not, an "F" for fail.
4. Any student wishing to elect a course under the pass-fail plan should complete the normal registration procedures and, within ten weeks following the completion of registration, should obtain a special pass-fail form from the Registrar's Office. The student will indicate the course which he/she wishes to elect on a pass-fail plan, have it approved by his academic advisor, who will be responsible for seeing that the course is not an all-college requirement. This form will then be returned to the Registrar's Office where change in designation of this single course from a grade to a pass-fail plan will be made. A student may not change a course either to or from a pass-fail designation at any time other than the period allowed for electing the pass-fail option.
5. The student will, during the semester, receive grades for his work in the course, but at the end, will receive on his record a "P" or an "F." Failures will be computed into the student's cumulative grade point average.
6. The Professor will not be informed of the student's election of the pass-fail grading system for his particular course, but this information will be available to the Professor at his request from the Registrar. The Professor will submit a letter grade for the student to the Registrar's Office where it will be translated to either the "P" or "F" designation.
7. Students seeking admission to some Graduate Schools and some Professional Schools should ascertain the maximum number of P-F courses which schools will accept.

Auditing a Course

Any student may register to take any Hope course on an audit, non-credit basis. Students who desire to audit a course must indicate their intent to the Registrar within the first week of the semester. Changes from credit to

General Academic Regulations

audit and vice versa will not be allowed after the first week of the semester has ended. The fee for courses taken on an audit basis is \$50 per semester hour.

Transfer Credit While Enrolled at Hope

A student currently enrolled at Hope College and wishing to transfer credit earned in a regular term or summer session at another accredited institution must have approval in advance for each course from the equivalent Hope College Department Chairman and the Hope College Registrar. Forms to insure the transferability of these courses are available in the Registrar's Office in The DeWitt Center

The credits for courses with grades of "C" or better will automatically transfer if advanced approval has been obtained. Credit in courses with grades of "C-" or below will transfer only if the student's cumulative grade point average at the institution issuing the credit is 2.0 or above.

Course number, course title, grade earned, credits awarded and the cumulative grade point average are posted on the student's permanent record; however, the grade point average is not computed with the Hope cumulative grade point average. Credit only toward the degree will be awarded.

If prior approval for courses taken at other institutions is not obtained, the College reserves the right to deny credit for any course taken at another institution. Responsibility for forwarding transcripts to the Hope College Registrar lies solely with the student.

Honors Independent Study or Research

Senior students with a cumulative grade point average of 3.0 or better may make application to their major departments to do an independent study or research project of exceptionally high quality. The project, depending upon its nature, may culminate in a meritorious report, essay, thesis, or public performance. Criteria for permission to pursue the project and criteria for the evaluation of the completed project will vary by department. If the department decides that the completed project warrants honors distinction, the course will be listed on the student's permanent record as Independent Study or Research-Honors. Interested, qualified students should make application to their respective departments prior to registration for the project.

99

Student Load

The normal student load is sixteen hours per semester. Regularly enrolled students must carry a minimum of twelve semester hours of course work each semester to maintain full-time status. Veteran students under the G.I. Bill must carry a minimum of twelve hours to be considered full-time students and to receive maximum benefits. Foreign students, in order to maintain their visa status, need to maintain a minimum load of twelve semester hours.

Permission to take more than a normal load is based upon the student's previous academic record. Seventeen hours may be granted by the advisor. Application for more than seventeen hours must be made to the Registrar. Under no circumstances will a student be permitted to take more than nineteen semester hours. Students carrying more than a normal load must pay a fee of \$60.00 for each semester hour in excess of sixteen.

A student's normal summer load is three or four hours in a three-week session and six or seven hours in a six-week session. Overloads must be approved by the Registrar.

General Academic Regulations

Classification of Classes — Eligibility

FRESHMAN — Less than 24 hours of credit

SOPHOMORE — Student must have 24-57 hours of credit

JUNIOR — Student must have 58-93 hours of credit

SENIOR — Student must have 94 hours of credit

Class Attendance

Since class attendance is regarded as an essential part of the educational process at Hope College, the student is expected to benefit by classroom discussions as well as by his daily text assignments. It is the student's responsibility to present an excuse to his instructor and request make-up privileges.

Classwork missed while students are ill or away on faculty-approved business should be made up to the satisfaction of the instructor. Although make-up work will not in all cases remove the full adverse effect of the absence, a faculty member will cooperate with the student in his attempt to make up his loss when such absence is unavoidable. The degree of effect upon grades will vary with the nature and the amount of the work missed and must be measured according to the instructor's best judgment. In case of excessive absences, the instructor may refuse all credit for the course.

Appeals and Requests for Academic Waivers

A student may seek exemption from an academic regulation by appealing in writing to the Registrar. The student must secure the approval of his faculty advisor to waive an academic regulation. If the student's request is denied, he or she may further appeal the decision to the Student Standing and Appeals Committee for final disposition. Appeals must be submitted to the Chairman of Appeals Committee within ten days after notification of the decision.

100 if a student disputes a final course grade given by an instructor, the following procedure should be followed: 1) If the instructor is not a department chairman, the student may appeal to the department chairman, who will act as mediator. 2) If a chairman's final grade is in dispute, the senior member of his/her department shall act as the mediator. The instructor whose grade has been questioned has the final decision in the matter.

Correspondence Credit

Credit for correspondence work is accepted by Hope College provided that these courses are offered by an accredited institution or the United States Armed Forces Institute and are approximate equivalents to Hope College courses.

Credit by Examination While Enrolled at Hope

Credit by examination is available to enrolled Hope students through either the College-Level Examination Program (CLEP) or departmental examinations.

Credit earned by means of any credit-bearing examination approved by the college may be used to satisfy specific core or major requirements. If there is a Hope equivalent course indicated (applies to CLEP listing below) and if

General Academic Regulations

that course meets a requirement, so, too, will the credit earned via an examination for credit.

CLEP: Credit is awarded for most CLEP Subject Examinations; no credit is granted for the CLEP General Examinations. Credit is awarded for scores which meet the guidelines established by the College Entrance Examination Board in its national norming procedures (see table below). Where possible, the CLEP Subject Examinations are equated to existing Hope courses and the examinations can be used to partially fulfill general college requirements. The table below lists the available CLEP Subject Examinations, those acceptable for Hope credit, the minimum score needed for credit, the credit value of the examinations, and, where applicable, the Hope equivalent course.

CLEP Test	Score For Credit	Sem. Hrs.	Hope Equivalent Course
Am. Gov't.	47	3	Poli. Sci. 101
Am. History I: Early-1877	46	3	None at this level
Am. History II: 1865-Pres.	46	3	None at this level

101

Hope has been established as a CLEP Limited Test Center which makes it possible for currently enrolled and prospective students to take the CLEP examinations on campus. Although General Examinations are not given credit, the General Examinations are also available at the CLEP Test Center.

DEPARTMENTAL EXAMS: Where CLEP tests are not available or are not acceptable, departmentally prepared and administered examinations can be arranged.

Contact the Registrar to make such arrangements.

General Academic Regulations

Credit by examination in either of the above programs has the following limitations:

1. Examination credit will be awarded only if the student has not previously registered for the course in question at Hope or in another institution.
2. None of the credit by examination programs approved by Hope may be used to make up failures or replace grades already earned.
3. Credits earned by examination will be listed on the student's record with the note that the credit was earned by examination. Grades and honor points will not be recorded. The credits, while counting toward graduation, will not be used in the computation of cumulative grade point averages.
4. Transfer students with examination credits will be required to submit test scores for all examination credit awarded at another institution.
5. In keeping with the senior residency requirement, the last entries on a student's permanent academic record must be credits earned in residence and can not be by examinations taken after a student's departure.
6. The maximum amount of credit by examination which can be applied toward the 126 hours required for graduation is 32 hours, 8 of which can be in the major area of concentration.

For further information about either the CLEP or departmental testing programs, contact the Registrar.

Sophomore Competency in Writing

Hope College is committed to high standards in writing. Every faculty member shares the responsibility to identify student writing problems and to make formal referrals to the Academic Skills Center for remedial work. When such a referral has been made, the student concerned is obligated to sit for a competency examination in writing administered by the Department of English. **NO MAJOR MAY BE DECLARED UNTIL THE COMPETENCY EXAMINATION HAS BEEN PASSED.** The examination will normally be taken in the second semester of the sophomore year.

Application for Degree

The College awards degrees in December (at the conclusion of the first semester), in May (at the conclusion of the second semester), and in July or August (at the conclusion of the final summer session). Degree candidates must inform the Registrar of their intention to graduate at the student's final registration with the College. Students completing degree requirements in the May Term, June Term, or Summer Session will be considered to be July/August graduates. All degree candidates for degree dates above are expected and encouraged to participate in the May commencement. Degrees are not awarded to those students who have incomplete (I) grades. A degree candidate whose record shows an incomplete (I) grade(s) at the time of his/her requested degree date will be moved to the next degree date.

Academic Records of Transfer Students

The record of a transfer student at the time of admission will be treated the same as that of a Hope College student for purposes of: A) Admittance and class standing (freshman-senior), B) Determining academic probation or good class standing, C) Determination of the satisfactory completion of required courses.

General Academic Regulations

The grade point earned at Hope College is that which is provided the student upon graduation. For all ensuing official purposes, the record of the student shall be that which he obtains at Hope College.

Student Records: Statement of Policy

Records are kept in the various offices of the College in the interest of its students and alumni. To insure the student of the confidentiality of his/her record the College supports The Family Educational Rights and Privacy Act of 1974 with its subsequent legislation and regulations and has prepared a statement of policy on student records to demonstrate compliance with this act. This statement is available in the Registrar's Office.

Transcript of Academic Record

Transcripts of the student's academic record are available from the Registrar's Office. Currently enrolled students are assessed \$1.00 per copy. The charge for multiple copies requested at the same time is \$1.00 for the first copy plus 50c each for the additional copies for official transcripts bearing the signature of the Registrar and the seal of the College. Unofficial copies for student use are available at a nominal fee. For students who are not currently enrolled in the College the charge is \$2.00 per official transcript. The charge for multiple copies requested at the same time is \$2.00 for the first copy plus \$1.00 each for the additional copies. Payment is due in advance. Transcripts will be withheld if the student has a past due account with the College.

In order to insure the confidentiality of its student records, transcripts will be released only upon the written request of the student.

Graduation Honors

Graduation honors will be conferred according to the following regulations:

The degree of Bachelor of Arts, Summa Cum Laude, will be conferred upon such as have met all the requirements and attained an average grade of 3.87 quality points.

The degree of Bachelor of Arts, Magna Cum Laude, will be conferred upon such as have met all the requirements and attained an average grade of 3.6 quality points.

The degree of Bachelor of Arts, Cum Laude, will be conferred upon such as have met all the requirements and have attained an average of 3.3 quality points.

In no case will an honor degree be awarded to any student who has not taken at least two years of full time course work in residence at Hope.

ACCREDITATION

Hope College is accredited by the North Central Association of Colleges and Schools, and has professional accreditation from the National Council for Accreditation of Teacher Education, the American Chemical Society, the National Association of Schools of Art, and the National Association of Schools of Music.

ACADEMIC SESSIONS

The Regular Session

The majority of the curricular offerings are given in the two-semester regular session, beginning in August and ending in May. Classes are held Monday through Friday throughout the day, the first class beginning at 8:00 a.m. and the last (ninth) period ending at 5:20 p.m., with some evening offerings available. The College calendar is listed on the inside front cover of this catalog. Consult the Registrar for a list of course offerings.

The basic program of offerings during the regular academic session is found in the next section under Course Descriptions. Several special programs are offered during the academic year, some on campus and some in affiliated colleges and universities.

May Term — June Term

Students may spend the last three weeks of May or the first three weeks of June by enrolling in one course for three hours credit. This concentrated approach allows for innovation in the nature of the course and the mode of instruction. A few of the College's regular and traditional courses are offered along with several novel courses that can only be approached in this manner. Some of the courses taught are off-campus or made up of one, two, or three-day-long field trips. College facilities are available for dining and housing. By enrolling in May Term, June Term, and the regular Summer Session, a student can accumulate nearly an entire semester's credit at Hope College. For further information about these sessions, contact the Registrar.

The Summer Session

104

Hope College offers a program of summer school study on its campus for Hope students and those from other colleges. The session extends for six weeks, the end of June to the beginning of August.

The courses are undergraduate credit courses which can be applied toward the A.B. degree at Hope or transferred to other universities or colleges. Students regularly enrolled at another college should secure advance permission from the Academic Dean of that college if they wish credit transfer for summer study taken at the Hope summer school. Veterans may apply for full privileges under the G.I. Bill. A few courses are offered which may be acceptable at universities for graduate credit. Enrollment in the summer session does not assure admission as a degree candidate. Admission is flexible and open to high school seniors.

For full details on the regular summer course program, write to the Registrar.

Summer Seminars in Literature and Methods of Teaching English

In August the English Department offers one-week seminars in literature and in methods of teaching English. See English Department listings for information.

Special Academic Sessions

SPECIAL ACADEMIC PROGRAMS ON-CAMPUS STUDY OPPORTUNITIES

Opportunities for Talented Students

Students who come to Hope with exceptional academic backgrounds and/or exceptional high school academic performance may wish to consult with their advisors about ways in which their academic potential may be developed to the fullest extent. Credit by examination via AP, CLEP, or departmental exams or waivers of core courses or introductory-level courses can be gained in order to avoid repetitive learning and in order to insure placement at the proper course level in fields where they may have advanced standing. Further, independent study and research, both at the underclass and upper-class level may be pursued to develop fully a student's interest in a particular topic. In many departments, completely individualized study or upper level tutorials are open to superior students in either the junior or senior years.

In several departments, notably biology, chemistry, geology, mathematics, physics, and psychology, opportunity is provided for talented upperclass majors to participate in summer research carried on by staff members. Students chosen take part in important research and under foundation research grants receive stipends for this work.

Students with excellent academic records and an interest in college teaching as a career may apply for entrance into the Michigan Scholars in College Teaching Program at the close of the sophomore year. Selected seniors in this program participate in a colloquium, "Explorations in College Teaching," and receive several scholarly privileges and opportunities that help them move toward this career.

The Presidential Scholars Program

The Presidential Scholars Program was established to give academically gifted students who also demonstrate strong leadership potential an opportunity to broaden their educational program while at Hope College. 105

The students are invited into this program at the beginning of their freshman year. To continue to be designated as a Presidential Scholar, a student must maintain high scholastic standing. He or she is encouraged to participate in the seminar for freshman Presidential Scholars and in individual study programs as upper-classmen. In addition, the Presidential Scholars are invited to special sessions with faculty and distinguished campus guests and to participate in special forums and off-campus field trips.

The goal of this program is to create opportunities for intellectual exploration and to assist students in finding challenging educational roles.

The Presidential Scholars program is under the direction of the Provost of the College.

Upward Bound Program

Upward Bound is an educational program designed to assist 70 high school students from the Allegan-Ottawa-Van Buren Counties area. To be admitted, students must meet the limited-income criterion established by the Federal Government and have the potential — even though their grades may not reflect it — to undertake a college education, the main purpose of the pro-

Special Academic Sessions

gram is to assist these students to successfully pursue a post-secondary education.

This year-round program consists of two phases:

1. Residential Summer Session

An intensive seven-week academic session offering two different programs:

a. Non-bridge Program

Includes students who have completed grades 9-11. Emphasizes the mastery of basic skills in mathematics, English, and science for students with deficiencies in those areas; however, advanced courses are available in the same areas for better prepared students. The above courses are complemented by electives in social sciences (sociology, psychology, communications, etc.), arts and crafts, photography, and modern languages. High school credit is recommended. Approximately 50 students are admitted to this program.

b. Bridge Program

Designed for students who have completed 12th grade. Up to seven college credits may be earned by each student. English 113 (Expository Writing I) is required for all the students who may complement their schedule with any other course from the summer offerings at Hope College. An average of 20 students can be admitted to this program each year.

2. Academic Year Session

During the school year, students in grades 9-12 attend twice a week, two and one-half hours each night, evening classes in reading, writing, and math, as well as tutorial sessions. Saturday sessions are held every month to foster the cultural and social development of the students along with their vocational education; speakers, study-tours, films, and group communication skills workshops are among the activities featured at these sessions. College testing, placement assistance (admission to college and financial aid) is provided to all the 11th and 12th grade students and their parents. Recreational activities are also part of the program.

Eligible students may participate at no cost; the Upward Bound Program is funded by the United States Office of Education, Hope College, and other local private sources.

OFF-CAMPUS STUDY OPPORTUNITIES

All off-campus programs, independent of length, subject matter, or location, fall into one of the following two categories:

1. Official Hope College Programs

Hope College exercises direct or indirect academic and administrative control over these programs. Students who participate in these programs are screened by the Off-Campus Programs Admissions Committee and they remain on the rolls of Hope College. It is the responsibility of the student to demonstrate to the Off-Campus Programs Admissions Committee that he has made prior arrangement with the campus administrator and/or the academic departments concerned for the awarding of credit. Once the student is off-campus, it is his continuing responsibility to communicate any program changes to the chairman of the department from which credit

Special Academic Sessions

is expected. Students in these official programs continue to receive administrative support and will be regarded as regular Hope College students in all respects. They are entitled to retain financial aid and to have grades and credit earned recorded on the Hope College transcript.

2. Non-Official Programs

Students may, of course, enroll in other programs over which Hope College does not exercise administrative or academic control. In the case of foreign programs, the International Education Office is ready to provide information. It is important to note that students enrolling in one of these programs are, in practical terms, withdrawing from the College. This means that they do not need the permission of the Off-Campus Programs Admissions Committee in order to participate. However, they also lose the right to use Hope College financial aid awards and any credit earned will be treated as transfer credit. Students thinking about participation in one of these programs should consult their departmental advisor in order to determine whether or not transfer credit is likely to be accepted. Upon completion of such a program, students wishing to return to Hope College will need to apply for readmission.

The programs described below and on the following pages are currently included in the first category of official programs.

DOMESTIC STUDY OPPORTUNITIES

Washington Semester Program

The Washington Semester Program enables superior students from all disciplines to study in Washington, D.C., and to apply knowledge of their area as it relates to government and politics. Select junior and senior students will take a seminar on American government and politics, participate in group interviews with congressmen and legislative staff, executives, lobbyists, political party officials, and journalists, intern for two seven-week periods in Congress, the executive branch, or with political interest groups, and prepare extensive research papers based upon their semester's work. For further information contact Professors Robert Elder, Jack Holmes, Renze Hoeksema, or James Zoetewey.

107

Area and Language Programs at GLCA Member Colleges

Hope's membership in the Great Lakes Colleges Association enables Hope students to make arrangements for the study of a number of critical languages. Depending on individual programs, students may transfer for a quarter, semester, year, or longer to one of the member schools and still receive full credit towards graduation at Hope College. The following area and language programs are currently available: Chinese at Oberlin and Wabash, Japanese at Earlham, Arabic at Kenyon, Hindi at Wooster, and Portuguese at Antioch.

The Urban Semester in Philadelphia

The Great Lakes Colleges Association and Hope College sponsor jointly a program designed to give students an opportunity for direct participation in

Special Academic Sessions

an experimental approach to education through involvement as well as a term in an urban setting. Students participate in a city seminar and learn/work four days a week with professionals in placements that are complementary to their academic and future interests. The city will play an instrumental role in the learning experience. Using Philadelphia as a case study, students in this program learn something about what a city is, how it works and doesn't work, how to live in it, what its problems, pleasures and potentials are. At the same time they also learn how to use the city as a resource; whatever their particular career or disciplinary interests, they discover that the city is a treasure trove of people, services and information they can use in developing the knowledge and skills they need. Urban life also means daily contact with radically differing kinds of people, ideas, issues and situations. Stimulated by this contact with the new and unfamiliar, students examine and re-evaluate the attitudes and values they brought with them when they came. GLCA faculty in Philadelphia lead seminars and discussion groups, and direct independent study programs. For further information, consult Professor Tony Muiderman.

Semester at the Chicago Metropolitan Center

The Chicago Metropolitan Center offers students a distinctive opportunity to work in a large metropolitan city and to study problems and issues of metropolitan life in a fully accredited, supervised educational program. The staff of the Metropolitan Center consists of people who combine academic training and experience with years of living and working in the metropolitan environment. The result is an unusual concern for college students and the metropolitan city.

Up to 16 hours of academic credit can be earned through the program in a Work Internship, a Metropolitan Seminar, a Humanities Seminar, a Fine Arts Seminar, and a Values Seminar. A large number of internships is available to students through the Chicago Metropolitan Center. Students with almost any major interest can find work placements that are suitable to their vocational plans. The range of possibilities covers art centers, banks, churches, drama groups, ecology labs, social work, accounting firms, physical therapy, library work, museums, zoos, urban renewal and planning, youth recreation, and x-ray technology. Work internships are supervised on the job and by Metropolitan Center staff members.

The Values Seminar fulfills the Hope College Senior Seminar requirement. All other courses are electives and do not fulfill core or departmental requirements unless special arrangements are made with specific departments.

For further information, consult Professor Harry Boonstra.

The Arts Program in New York

The Great Lakes Colleges Association provides in its New York Arts Semester rich opportunities for the student seriously interested in art, music, dance, communications, English or theatre. The Program gives the student ready access to vast numbers of original works of art, to a variety of dramatic and musical events, and to special collections of research materials. Students participate, through apprenticeships or less formal means, in the milieu of the professional artist to better understand the intentions, the problems, and the means of the arts.

Special Academic Sessions

The more imaginative the student's research project, the more likely it is to engage the attention of those responsible for rare archival holdings. Those with special interest in turn-of-the-century architecture can, for example, profitably study carvings and architectural fragments being collected by the Anonymous Art Society as more and more of the City's brownstones are destroyed. Or a history or economics major working on the Depression can, for instance, utilize photographic documents of the era in the collection of the Museum of Modern Art. Interested students should consult Professor Stuart Sharp.

The Oak Ridge Science Semester

The Great Lakes Colleges Association sponsors this program which allows qualified majors in natural sciences, social sciences, mathematics, or computer science to spend one semester at one of the world's major research centers, Oak Ridge National Laboratory in Tennessee. The students spend 40 hours per week in research as an assistant to an Oak Ridge scientist, take one senior level course, and participate in an interdisciplinary seminar. The courses and the seminar are led by GLCA faculty. Each student receives sixteen hours of credit under Interdisciplinary Studies for participation in this program which provides an opportunity to work with outstanding scientists and sophisticated equipment on important energy-related research. For further information, consult Professors John Van Iwaarden or Robert Cline.

The Newberry Library Program in the Humanities

The Newberry Library Program in the Humanities enables students and faculty to tap the extraordinarily rich resources of the Newberry Library in a semester-length fall seminar, several month-long seminars in winter and spring, and independent study at any time after December. The Newberry Library, founded in 1887, is a privately endowed research library located on Chicago's Near North side. Over one million volumes and six million manuscripts comprise its strong general collection of Western history and the humanities from the Middle Ages to the early twentieth century. Among its internationally renowned special collections are: American History and Literature, European History and Literature (especially the Renaissance), History of Cartography and Printing, History and Theory of Music, and Early Philology and Linguistics. Recent seminar topics have included: Individualism and Community: Studies in the Relationship of Self and Society, 1750-1900; Herman Melville; American Dissent from 1870 to Present; and The Concept of Revolution. For further information, consult Professor William Cohen.

109

The Louisville Program

This program presents unusual opportunities for the broadening of advanced students in psychology, sociology, biochemistry, microbiology, and pre-med programs. Since Louisville General Hospital is located in the inner city, in addition to experience in psychiatric services, there are also opportunities for students to become involved in urban mental health and human services problems related to the courts, "half-way house" establishments, and the problems of the poor and culturally deprived. The program's two courses carry a total of twelve hours credit. Students selected by the screening committee may increase their number of credits by making ar-

Special Academic Sessions

rangements with the department of their choice for permission to also take an Independent Study. The program operates both semesters and summers. Application forms can be obtained from the Psychology Department.

FOREIGN STUDY OPPORTUNITIES

As part of the overall program in International Education at Hope College, the International Education Office offers information and assistance to all students interested in study abroad. Opportunities to do so for a short term, a summer, a semester, or a full year are available in virtually every part of the globe. Detailed descriptions of various programs and application forms may be obtained from the International Education Office, or by writing to Director of International Education, Hope College, Holland, Michigan 49423.

Programs in Europe

Austria	Vienna Summer School (Hope) Semester or Year in Vienna (IES ¹)
France	Semester or Year in Nantes (IES) Summer, Semester or Year in Paris (IES)

Special Academic Sessions

European Study Programs

THE HOPE COLLEGE VIENNA SUMMER SCHOOL

Established in 1956 as one of the first American programs in Austria the Hope College Vienna Summer School annually offers a regular summer session in Europe designed specifically to meet the needs of Hope College students, but open also to qualified applicants from other institutions. The Vienna Summer School offers students opportunity for new experiences in the various phases of the program.

Academic Work in Vienna: The academic program consists of two consecutive three-week sessions which offer a choice of work in Art, Economics and Business Administration, History, Literature and Music, taught in English, as well as courses in German language and literature, taught in German. European instructors in the program emphasize those aspects of their respective fields which can best be studied in the European location. Attendance at concerts, visits to museums, and field trips are included in the various course requirements.

In Vienna, Hope College utilizes the facilities of the Institute of European Studies with which the College is affiliated, but the academic program is under the complete and sole direction of Hope College. Students receive Hope College transcripts and credits for work completed in Vienna.

Residence in Austrian Homes: While in Vienna students are housed with Austrian families, most of whom live in city apartments. On school days, students have their noon meal together. They are free to plan their leisure time and to take weekend excursions to places like Salzburg, Budapest, Prague and Munich, all of which can easily be reached in a few hours from Vienna.

Independent Travel: Students are free to make their own transatlantic travel arrangements allowing them to include free time both before and after the academic sessions in Vienna.

SEMESTER AND YEAR PROGRAMS IN EUROPE

1. The affiliation between Hope College and the Institute of European Studies (IES) provides for preferred enrollment of qualified Hope College students in study centers which the Institute maintains in Austria, France, Germany, Great Britain and Spain. In Vienna, Paris, Nantes, Freiburg and Madrid, students may register either for a full year or a semester. Enrollment at the University of Durham in England is for the full year only, while the London program is for a semester only.
2. Under direct arrangements between the Hope College Chemistry Department and the Chemistry Departments of the University of Groningen in The Netherlands and the University of Southampton in England a limited number of exceptionally qualified Hope chemistry students have been invited to spend one semester of their senior year at one of the two universities abroad where they have worked under the direct supervision of senior professors in their field.
3. In addition to the various study opportunities in non-European areas, the Great Lakes Colleges Association (GLCA) offers an academic year at the University of Aberdeen, Scotland as well as a fall semester program, European Term in Comparative Urban Studies, in England, The Netherlands and Yugoslavia. Both programs are administered by Antioch College.

Special Academic Sessions

4. The GLCA and the Associated Colleges of the Midwest (ACM) jointly sponsor a fall semester program at the University of Zagreb, Yugoslavia. The program is administered by the ACM.

SUMMER, SEMESTER, AND YEAR PROGRAMS IN NON-EUROPEAN AREAS

Membership in the Great Lakes Colleges Association makes available to Hope College students a variety of overseas study programs in Africa, Asia, and Latin America. In each case one of the member schools serves as "agent" for the program abroad, but students from all twelve institutions are able to participate in any of the programs.

1. *Africa*: In East and West Africa Kalamazoo College arranges for programs lasting a semester or longer in which the language of instruction is English. Kalamazoo College also arranges for a program at the University of Dakar, Senegal in which the language of instruction is French.
2. *Asia*:
 - a. *Japan*: The Great Lakes Colleges Association and Waseda University in Tokyo have a cooperative arrangement whereby GLCA students may enroll in the International Division for an eight-month or a twelve-month program. A GLCA liaison secretary is in residence at Waseda University to assist students and a GLCA faculty member is program coordinator. Instruction in the program is in English, but study of Japanese is required during the student's stay in the Far East. Preceding the academic year a summer program is held involving approximately two weeks of U.S. orientation, four weeks of language study in Japan, and four weeks of work experience in rural Japan. Earlham College is the agent school for this program.
 - b. *Hong Kong*: GLCA and The Associated Colleges of the Midwest (ACM) sponsor a program at the Chinese University in Hong Kong. Except for Mandarin language courses, instruction is in English. There is no Chinese language prerequisite. Students may elect to attend the fall or spring semester or the entire academic year, which extends from September through June.
 - c. *China*: Through the GLCA students have access to a summer or fall program in Shanghai or Beijing, and a fall semester program in Nanjing. There is a minimum language prerequisite of one year of Mandarin, and this can be met through intensive courses during the summer. These programs focus on language study, Chinese economics and business, Chinese society and government, and Chinese history and culture.
3. *Latin America*: This flexible program, administered by Antioch College for the GLCA, is divided into three separate stages allowing students to participate in those which best accommodate them.

Summer Session at Bogota, Colombia is especially designed to provide basic intensive language instruction for students who have only high school Spanish or as little as one semester of college Spanish.

Fall Term in Bogota, Colombia is a special program for American students who have either completed the summer session in Bogota or who have already had two semesters of college Spanish in the U.S.

Spring Term in Bogota, Colombia is for American students who have sufficient Spanish to compete with Colombian students in regular university classes in humanities and social sciences at the Universidad de los Andes in Bogota.

Special Academic Sessions

During all of these stages students live with Colombian families. The total cost for the program including transportation, is similar to tuition, room, and board for an equal length of time on the Hope campus.

NON-ACADEMIC PROGRAMS ABROAD

In addition to the materials on college-credit programs in all parts of the world the Hope College International Education Office also provides information on work, travel and residence opportunities abroad for students who are primarily interested in adding an international dimension to their experiences through a summer of living or working in a different cultural environment.

Among those recommended are summer work camps abroad, programs of the Experiment in International Living and the Operation Crossroads Africa project. Though some of these programs are less expensive than foreign study opportunities in which students can earn academic credits, there is almost no way in which students can expect to earn enough to pay for this type of overseas program.

A program designed particularly for students in the sciences is administered by the International Association for the exchange of students for Technical Experience (IAESTE) which places American students in short-term trainee positions in twenty or more countries. AIESEC is a similar type program, designed to serve the needs of students in the field of Economics and Business Administration.

Further information on any of the foreign study programs may be obtained from the Hope College Office of International Education.

Special Academic Sessions

Course Number Guide

The course offerings at Hope College can be classified into three main divisions: lower division (100-299); upper division (300-699); and graduate division (700-899).

Competency levels are reflected in the first digit and are established as follows:

- 000-099 — No credit courses
- 100-199 — Freshman competency level
- 200-299 — Sophomore competency level
- 300-399 — Junior competency level
- 400-699 — Senior competency level
- 700-899 — Graduate level

In most departments, the second digit is used as a subdiscipline grouping. In all departments, the middle digit "9" refers to honors, seminars, or independent study courses.

The third digit designates either semester sequence (odd — 1st semester; even — 2nd semester) or course sequence.

GLOSSARY OF TERMS

CREDIT HOURS — The number of hours a course meets each week determines its worth in credit hours. Courses usually run 2, 3, or 4 credit hours a semester, which means classes meet two or three times a week. Since each credit hour of class work requires a minimum of two hours of preparation out of class, two or three hours of laboratory work, requiring no outside preparation, are generally equivalent to one class credit hour.

COMPOSITE MAJOR: A combination of several major disciplines especially arranged for students possessing particular educational and vocational goals.

MAJOR — An area of concentration in one particular subject in which the student earns a fairly large amount of required credit hours.

MINOR — The fulfillment of a specified number of credit hours in fields of study related to the student's minor. Particularly applicable to those students concerned with teacher certification but all students may declare minor programs which will become part of the student's record.

PREREQUISITE: The course(s) a student must have taken before he can take the course in question.

SEMESTER: The College year is divided into two semesters: a fall semester beginning in August and a spring semester beginning in January.

SEMESTER HOURS: Semester hours are credit hours. A student must complete 126 credit hours at a point average of 2.00 to be eligible for a degree and the hours must be in the required and elected courses.

ART

MR. MICHEL, CHAIRMAN; MR. MAYER, MR. McCOMBS, MR. VICKERS, MR. WILSON.

Course offerings in the Department of Art are structured in form, content and sequence to provide a foundation in the fine arts for both the pre-professionally oriented student and the liberal arts student. The curriculum affords opportunities for study and research in the visual arts through studio practice and art history. The Department of Art is accredited by the National Association of Schools of Art.

The Department of Art faculty is teaching, producing and research oriented artists and art historians.

The Department of Art offers studio and art history assistantships to qualified upper classmen.

Students majoring in art at Hope College participate in a wide variety of activities:

- contacts with visiting artists and lecturers of national importance
- field trips to museums such as those in Chicago, Detroit and Toledo
- exhibition experience in the College Gallery
- entrance in competitive shows
- varied contacts with other college art departments

Graduates of this department have gone into the following areas:

- graduate work in studio and art history
- teaching in elementary, secondary and college levels
- graphic design in industry
- furniture design in industry
- art gallery management
- museum work

.115

MAJOR: A major consists of at least 36 credit hours of art in either of the following two programs:

A. Art major — studio concentration

The studio major consists of a broad selection of studio courses, including Art 103, 104, 111 or 171, 121, 131 and 141. The studio major is also required to have a concentration (at least 9 additional hours) in either painting, printmaking, drawing, sculpture or ceramics. In addition to the above studio courses, the student is required to take Introduction to Art and Art History (Art 160) and two additional courses in art history. Art 365 and 369 are strongly recommended. A major with a studio concentration must present a comprehensive portfolio and an exhibition of his work at the end of his senior year. The expected ratio of the studio students' clock hour involvement, in class and/or outside of class, to each credit hour is: 3 clock hours of work to one credit hour.

B. Art major — art history concentration

Majors with an area of concentration in art history must fulfill course work in art to be divided as follows: 24 hours in art history, including Art 160; 6 hours of directed studies undertaken in a special problem area leading toward a Senior Art History paper; 6 hours in studio to be taken from the 100 level (Art 201 may be included). If graduate work is contemplated, a reading knowledge of two foreign languages is recommended.

Art

A major in art is expected to take related course work in such areas as history, literature, music and theatre. Art students are expected to visit museum collections and special exhibitions regularly. If at all possible, foreign study and travel are strongly recommended during the student's stay at Hope.

MINOR: A minor with a studio concentration consists of 21 credit hours in Art, including 3 credits above the 100 level and 15 credit hours selected as follows: Art 160 or 365, and Art 141, 103, 104, and Art 111 or 171.

A minor with an art history concentration consists of 21 credit hours in Art, including 3 credit hours in studio and 18 credit hours of Art History.

The History of Art

160. INTRODUCTION TO ART AND ART HISTORY — An introduction to a basic visual vocabulary of art to create in the viewer a heightened perceptual awareness and a sense of his/her cultural roots. Selected critical approaches to art which are necessary for thoughtful appreciation will be considered. Many of the illustrations will be drawn from recent art. The course will survey western art in a selective manner, concentrating on important period styles, individual artists and works of art from Ancient Greece to the 20th century. During the survey, continuing reference will be made to the art and values of our own time. No prerequisites.

THREE HOURS

WILSON, VICKERS

BOTH SEMESTERS

295. SPECIAL STUDIES — Studies and research in areas of art history or studio not covered in regular course listings. Course topics to be announced. Prerequisite: permission of professor.

THREE HOURS

STAFF

BOTH SEMESTERS

360. ANCIENT ART — A study of the development of the arts from the early Mediterranean cultures to late antiquity. Pre-historic, Near Eastern, Egyptian, Aegean, Greek, Etruscan and Roman art and architecture will be surveyed with special attention to Greece and Rome. No prerequisites.

THREE HOURS

WILSON

ALTERNATE YEARS

361. MEDIEVAL ART — A study of the development of the arts and architecture of the Early Christian, Byzantine, Islamic, Barbarian, Carolingian, Ottonian, Romanesque and Gothic periods. No prerequisites.

THREE HOURS

WILSON

ALTERNATE YEARS

362. RENAISSANCE ART — A study of the art and architecture of the 14th, 15th and 16th centuries in northern and southern Europe. No prerequisites.

THREE HOURS

VICKERS

ALTERNATE YEARS

363. BAROQUE AND ROCOCO ART — A study of the features of the art and architecture of Europe in the 17th and 18th centuries. Special focus is placed on the Dutch Baroque tradition. No prerequisites.

THREE HOURS

WILSON

ALTERNATE YEARS

364. HISTORY OF MODERN ARCHITECTURE — The development of modern architectural forms in the nineteenth and twentieth centuries. Emphasis is given to evolution in Europe and the United States. No prerequisite.

THREE HOURS

WILSON

ALTERNATE YEARS

365. INTRODUCTION TO THE HISTORY OF MODERN ART — This course undertakes a selective treatment of an important and popular subject: 19th and 20th century tendencies in European art up to WW II. Consideration will be given to aspects of Romanticism, Realism, Impressionism, Post-Impressionism, Symbolist and Fantasy art of the turn of the century, Fauvism, Expressionism, Cubism, Dada and Surrealism. No prerequisites. Studio majors are strongly advised to take this course early in their art program.

THREE HOURS **WILSON** **YEARLY**

366. HISTORY OF AMERICAN ART — The history and development of the painting and sculpture of America from the seventeenth to the twentieth century. Special emphasis is given to historical, sociological, and cultural factors which have influenced the character and development of American art forms. No prerequisites.

THREE HOURS **WILSON** **ALTERNATE YEARS**

367. NON-WESTERN ART — A brief survey of the Arts of India, China and Japan. No prerequisites.

THREE HOURS **STAFF** **ALTERNATE YEARS**

368. AFRICAN TRIBAL ART — A survey of the major art producing tribes of sub-Saharan West Africa. No prerequisites.

THREE HOURS **VICKERS** **ALTERNATE YEARS**

369. CONTEMPORARY ART MOVEMENTS (1960-PRESENT) — A course in the development of current movements involving research and readings in Pop Art, Minimal Art, Op Art, Kinetic Art, Happenings, Earthworks and Conceptual Art, with specific references to Dadaism, Surrealism and Abstract Expressionism. No prerequisites. Studio majors are strongly advised to take this course early in their art program.

THREE HOURS **MAYER** **WHEN FEASIBLE**

Studio Courses in Art

101. INTRODUCTION TO MATERIALS AND METHODS IN ART — The development of the basic techniques and procedures in painting, drawing, sculpture and graphics. Attention is also given to historical developments of composition and method. Non-majors only. This course is strongly recommended for the education major.

THREE HOURS **MCCOMBS** **EITHER SEMESTER**

103. BASIC PAINTING — A study of the elements of design through applied problems in painting. The course investigates two-dimensional design concepts and is also a useful preparation for Art 111 and 171.

THREE HOURS **MICHEL, VICKERS** **BOTH SEMESTERS**

104. BASIC SCULPTURE — A study of the elements of design through applied three-dimensional problems in sculpture. The course investigates three-dimensional design concepts.

THREE HOURS **MAYER** **BOTH SEMESTERS**

111. BASIC PRINTMAKING — A study of the techniques and procedures involved in using certain graphic media, such as etching, drypoint, and woodcut. No prerequisites.

THREE HOURS **MCCOMBS** **BOTH SEMESTERS**

Art

121. PAINTING II — Experimentation with various painting media, such as oil, water-color and acrylic, leading to the development of painting skills. Students work in a variety of concepts. Prerequisites: Art 103.

THREE HOURS

MICHEL, VICKERS

BOTH SEMESTERS

131. SCULPTURE II — An exploration of various sculpture materials and processes including metal brazing, wood construction, assemblage, direct plaster and clay modeling from the life model. Prerequisites: Art 104.

THREE HOURS

MAYER

BOTH SEMESTERS

141. BASIC DRAWING — A study of various drawing media and techniques such as pencil, pen and ink, charcoal and wash. The course investigates a variety of drawing approaches including the study of the structure and movements of the human figure.

THREE HOURS

MICHEL, McCOMBS, VICKERS

BOTH SEMESTERS

151. BASIC CERAMICS — Introduction to pottery; coil and slab construction, wheel forming, glazing and kiln operation are explored. No prerequisites.

THREE HOURS

MAYER

BOTH SEMESTERS

171. BASIC SILK SCREEN — A study of the techniques, procedures, and aesthetics of silk screen as a print making media. No prerequisites.

THREE HOURS

MICHEL

BOTH SEMESTERS

201. FUNDAMENTALS OF PHOTOGRAPHIC ART — Using the camera as a visual instrument, this course examines the still-photographic medium as an expressive art form through the creation and critical study of black and white photographic form, structure and content. Camera required. No prerequisites.

THREE HOURS

McCOMBS

BOTH SEMESTERS

301. DEVELOPING VISUAL AWARENESS — Designed for the prospective art teacher, this course investigates the many facets of creative development from childhood to adulthood. Materials and techniques suitable for teaching and supervising art as a major subject are emphasized and methods of guiding and motivating creative expression K-12 are observed, discussed and practiced. Not open to students who have taken Art 340. No prerequisites.

THREE HOURS

STAFF

WHEN FEASIBLE

311. PRINTMAKING II — Continuation of Art 111. May be repeated for credit with permission of the instructor. Prerequisite: Art 111.

THREE HOURS

McCOMBS

BOTH SEMESTERS

321. PAINTING III — Continuation of Art 121. May be repeated for credit with permission of the instructor. Individual development is encouraged. Prerequisite: Art 121.

THREE HOURS

MICHEL

BOTH SEMESTERS

331. SCULPTURE III — Individual experimentation in all sculptural media including oxyacetylene and arc welding and bronze casting, and modeling from the life model. May be repeated for credit with permission of instructor. Prerequisite: Art 131.

THREE HOURS

MAYER

BOTH SEMESTERS

340. ART FOR ELEMENTARY EDUCATION STUDENTS — The purpose of this course is to aid students in elementary education in developing a practical knowledge of art and exploring basic art principles and problems through creative studio work. Same as Education 340. No prerequisites.

TWO HOURS

STAFF

EITHER SEMESTER

341. DRAWING II — Continuation of Art 141. Experimentation in a wide variety of media is encouraged. May be repeated for credit with permission of the instructor. Prerequisite: Art 141.

THREE HOURS MICHEL, MCCOMBS, VICKERS BOTH SEMESTERS

351. CERAMICS II — Continuation of Art 151; including work in both sculptural and utilitarian directions, elementary chemistry of glazes, and oxidation and reduction firing techniques. May be repeated for credit with permission of the instructor. Prerequisite: Art 151.

THREE HOURS MAYER BOTH SEMESTERS

371. SILK SCREEN II — Continuation of Art 171. May be repeated for credit by permission of the instructor. The student develops the aesthetic possibilities of the silk screen media including photographic processes. Prerequisite: Art 171.

THREE HOURS MICHEL BOTH SEMESTERS

389. GLCA ARTS PROGRAM — The Great Lakes Colleges Association Arts Program, presently based in New York City, involves the student in a full semester study and involvement in the arts. At the discretion of the department, a portion of the credits earned in this semester may be applied toward the student's major requirements. Otherwise, the credits will be understood to constitute elective hours within the department.

SIXTEEN HOURS (MAXIMUM) EITHER SEMESTER

490. SPECIAL PROBLEMS IN STUDIO — Independent study for advanced students who can benefit by an additional semester of specialized work in applied art. Under special circumstances this course may be repeated for credit, subject to approval by the chairman of the department. Prerequisite: advanced standing and permission of the instructor.

TWO or THREE HOURS STAFF ANY SEMESTER

491. INDEPENDENT STUDY IN ART HISTORY — Independent study for advanced students with considerable background in art history, and who wish to study a particular aspect of the discipline. Independent research is emphasized. Under special circumstances, the course may be repeated for credit, subject to the approval of the chairman of the department. Prerequisite: advanced standing and permission of the instructor.

TWO or THREE HOURS STAFF ANY SEMESTER

BIOLOGY

MR. BRADY, CHAIRMAN; MR. BARNEY, MR. BLANKESPOOR*, MR. CRONKITE, MR. GENTILE, MR. GREIJ, MR. RIECK, MS. TALLER, MR. VAN FAASEN**.

The Department of Biology has a tradition of excellence in the preparation of students planning professional careers in biology. A national study ranked the Department eleventh out of 222 colleges in the preparation of students who received the Ph.D. in biology during the period from 1920-1976. For the more recent period of 1968-1973, our position improved to eighth. The Biology Department has an outstanding record of placing students in medical and dental schools. Other careers selected by biology majors, in addition to graduate and professional schools, include the allied-health professions, industrial research and laboratory positions, and secondary education.

In addition to the regular curriculum, students are encouraged to participate in research programs with our faculty. Stipends are usually available to give selected students an opportunity to pursue full-time research during the summer. More than 50 papers co-authored by students have been presented or published during the past five years. Examples of current research projects that involve students are:

- breeding biology of the Common Gallinule
- thermoregulatory physiology of rodents
- systematics and ecology of spiders
- host-parasite relationships of trematodes
- systematics of Compositae
- water and ion regulation in protozoa
- environmental mutagenesis and carcinogenesis
- plant tissue culture

120

The Department has excellent facilities for both teaching and research and a well-stocked library. The most recently acquired items of equipment include a scanning electron microscope (SEM), an ultracentrifuge, and six electronic physiological recording instruments.

Qualified students have the opportunity to spend a semester doing research and taking courses at the Oak Ridge National Laboratory in Tennessee. Studies in environmental health science are offered for students who wish to pursue advanced degrees or employment in fields of environmental toxicology. For specific details regarding these programs students are encouraged to contact Dr. James Gentile.

BIOLOGY MAJOR: Most careers in biology require training in the physical sciences but the amount of such training is variable. It is essential, therefore, that students planning to major in biology talk to the chairman or a biology advisor to discuss their particular needs. This should be done as soon as the major is planned.

The minimum requirements for a B.A. degree in Biology are 25 hours of biology and one year of chemistry. The requirements for a B.S. degree are at least 60 hours in the natural sciences, of which 36 hours must be in biology,

*On leave academic year, 1982-83.

**On leave spring semester, 1982-83.

and 8 hours in chemistry. Biology majors must take Biol. 111 and 112 and at least one course from each of three areas: A) Molecular-Physiological; B) Zoological; and C) Botanical. Courses that will fill the area requirement are: A) Biol. 301, 348, 355, 356 and 442; B) Biol. 232, 234, 351, 353 and 372; and C) Biol. 241, 340 and 343. Biol. 111 and 112 should be taken in the freshmen year if possible. The preferable chemistry sequence for the minimum requirement is Chem. 111, 113, 114 and 121. Chem. 101 and 102 will satisfy the chemistry requirement for some, but these are terminal courses and do not prepare a student to take additional chemistry. Students planning to attend graduate, medical, or dental schools; or to pursue other biology careers that require rigorous training, should take Math 135, 136, Physics 121, 122, 141, and 142, and Chem. 111, 113, 114, 121, 221, 231, 255, and 256. Biochemistry, statistics, and computer programming are desirable for many biological careers.

BIOLOGY MINOR: The minimum requirement for a biology minor is 20 hours of biology. Biology minors must take Biology 111 and 112 and at least one course from each of the three areas: A) Molecular-Physiological, B) Zoological, and C) Botanical. Courses that meet the area requirements are listed in the preceding paragraph. Biology 315 or 421 may be substituted for one of the three area requirements.

NON-SCIENCE MAJORS: The Department of Biology offers several courses that are designed primarily for students who wish to satisfy the college science requirement with biology.

Courses designed primarily for non-science majors:

100. GENERAL BIOLOGY — A human-oriented course in which principles of life and man's position in and relationship to the world are the main focus. Three lectures and one 2-hour laboratory per week.

FOUR HOURS

STAFF

BOTH SEMESTERS

121

217. PRINCIPLES OF HEREDITY — This course considers the mechanisms of inheritance of genetic traits and their evolutionary implications. Emphasis is upon Mendelian and human genetics. Two lectures per week.

TWO HOURS

BRADY

SPRING SEMESTER

218. HUMAN ECOLOGY — This course focuses on man and his environment. Basic ecological principles, environmental problems, and human populations and resources will be examined. Two lectures per week.

TWO HOURS

GREIJ

FALL SEMESTER

218A. HUMAN ECOLOGY — DISCUSSION/LABORATORY — An optional discussion/laboratory designed to give students an opportunity to discuss environmental topics; to work on projects, and to become familiar with some environmental laboratory techniques. One 2-hour period per week. Prerequisite: Biology 218 or can be taken concurrently. Pass-Fail only.

ONE HOUR

GREIJ

FALL SEMESTER

230. PLANT GROWTH — This course covers the basics of plant growth. Topics include plant structure and function, effects of hormones, propagation of house plants, soils and plant nutrition, plant distribution, and agriculture. Two lectures per week. Alternate years 1983-84.

TWO HOURS

VAN FAASEN

SPRING SEMESTER

Biology

245. BIOLOGY FOR ELEMENTARY TEACHERS — A course designed to introduce the prospective elementary teacher to concepts of biology. Topics include structure and function of plants and animals and the identification, natural history, and handling of common plants and animals in the laboratory and field. Prerequisite: none. Offered for one-half semester along with Physics 245. This course is open to prospective elementary teachers and they are expected to fulfill their college science requirement with this course unless excused by the chairman of the Education Department.

TWO AND ONE-HALF HOURS

STAFF FALL SEMESTER

Courses designed for science majors:

111. PRINCIPLES OF BIOLOGY I — An introductory course emphasizing molecular biology, cell structure and function, genetics and vertebrate physiology.

FOUR HOURS

STAFF FALL SEMESTER

112. PRINCIPLES OF BIOLOGY II — An introductory course emphasizing animal and plant structure, function, diversity, and ecology.

FOUR HOURS

STAFF SPRING SEMESTER

221. HUMAN PHYSIOLOGY — A study of the function and interactions of the various organ systems of the human body. Three lectures and one 3-hour laboratory period per week. Can be applied toward area requirement A for biology minors but not for biology majors. Not recommended for biology majors or for students intending to pursue advanced degrees in biology. Prerequisite: Biology III.

FOUR HOURS

BARNEY FALL SEMESTER

222. HUMAN ANATOMY — A series of lectures covering the organ systems of the human body to give students a sense of appreciation for the organization, complexity and uniqueness of their own body. Three lectures and one 3-hour laboratory period per week. Can be applied toward area requirement A for biology minors but not for biology majors. Not recommended for biology majors, premedical or pre dental students, or for students intending to pursue advanced degrees in biology. Prerequisite: Biology III.

FOUR HOURS

RIECK SPRING SEMESTER

232. COMPARATIVE ANATOMY OF VERTEBRATES — A selected series of vertebrate types is studied. Two lectures and two 3-hour laboratory periods per week. Prerequisite: Biology 112.

FOUR HOURS

RIECK FALL SEMESTER

234. INVERTEBRATE ZOOLOGY — The biology of selected invertebrate animals will be studied with emphasis upon their ecology, systematics, and behavior. Laboratory includes field studies with weekend trips to southern localities. Two lectures and two 3-hour laboratories per week. Prerequisite: Biology 112.

FOUR HOURS

BRADY SPRING SEMESTER

241. PLANT MORPHOLOGY — A comparative morphological study of the major plant groups from the algae through the vascular plants. Three 1-hour lectures and two 2-hour laboratories, including field trips. Prerequisite: Biology 112. Alternate years, 1982-83.

FOUR HOURS

290. INDEPENDENT STUDY IN BIOLOGY — A special course to allow students to study an area of biology not included in the regular curriculum or an in-depth study of a selected biological topic.

ONE, TWO, or THREE HOURS

STAFF BOTH SEMESTERS

295. STUDIES IN BIOLOGY — A lecture, laboratory or seminar class in a special topic of biology.

301. GENERAL MICROBIOLOGY — Selected viruses, bacteria, fungi, and algae will be used to introduce microbial techniques. Special emphasis will be given to physiology, genetic systems, and pathogenicity. Three lectures and two 2-hour laboratories per week. Prerequisites: Biology 111, 112, and one year of chemistry.

FOUR HOURS

GENTILE SPRING SEMESTER

315. PRINCIPLES OF ECOLOGY — The basic concepts of the interrelation of living organisms and their environment are studied. Three lecture periods and two 2-hour laboratories per week. Prerequisite: Biology 111, 112, and one year of chemistry.

FOUR HOURS

GREIJ FALL SEMESTER

340. PLANT ANATOMY — A study of plant cells and tissues, especially those of flowering plants. Laboratory includes tissue processing, microscope slide preparation, and an investigative project. Two lectures and two 2-hour labs per week. Alternate years 1983-84. Prerequisite: Biology 112.

FOUR HOURS

VAN FAASEN SPRING SEMESTER

343. VASCULAR PLANT SYSTEMATICS — A study of selected families of vascular plants; and includes their biology and evolutionary relationships, and principles of plant classification. Two 3-hour periods per week include lecture, laboratory, and field work. Alternate years 1983-84. Prerequisite: Biology 112.

THREE HOURS

VAN FAASEN FALL SEMESTER

348. CELL PHYSIOLOGY — A study of cell biology at the molecular level. Topics covered include: structure and function of cell organelles, exchange of materials across the cell membrane, control of enzyme activity and biosynthesis, mechanisms of metabolic interconversions and energy conversions, response to radiations, and current concepts in the regulation of cell growth and differentiation. Three lectures and one 3-hour laboratory per week. Prerequisites: one year of Biology and Chemistry 221 or permission of instructor.

FOUR HOURS

CRONKITE FALL SEMESTER

351. ORNITHOLOGY — An introductory study of the identification, classification, natural history, and adaptations of birds. Three lectures and two 2-hour laboratories per week. Prerequisite: Biology 112.

FOUR HOURS

GREIJ SPRING SEMESTER

353. HISTOLOGY — The structure of the cell and its modifications into various tissues. Two lectures and one 3-hour laboratory period per week. Offered odd numbered years. Prerequisite: Biology 112.

THREE HOURS

RIECK SPRING SEMESTER

355. EMBRYOLOGY — A study of the processes involved in the development of animal embryos, including regeneration and metamorphosis. The course integrates the descriptive, comparative and molecular approaches to the study of development. Three lectures and two 3-hour laboratories per week. Prerequisites: Biology 111, 112, one year of chemistry, or permission of instructor.

FIVE HOURS

CRONKITE SPRING SEMESTER

356. GENETICS — A course presenting the fundamentals of genetics in relation to general biological problems. Three lectures per week. The laboratory (1 cr. hr.) is optional and may be taken concurrent with the lecture portion or after the lecture por-

Biology

tion is completed. Prerequisite: Biology 111, 112, and one year of chemistry, or permission of instructor.

THREE HOURS GENTILE FALL SEMESTER

357. GENETICS LABORATORY — The laboratory is optional and must be taken concurrently with the lecture portion or after the lecture portion is completed. Prerequisite: Biology 111, 112, and one year of chemistry.

ONE HOUR GENTILE FALL SEMESTER

372. BIOLOGY OF ANIMAL PARASITES — An introduction to identification, classification, structure, life cycles, pathogenicity and adaptations of animal parasites, especially those affecting humans and domestic animals. Two lectures and two 3-hour laboratories per week. Prerequisite: One year of biology. Alternate years 1982-83.

FOUR HOURS BLANKESPOOR FALL SEMESTER

380. FIELD STUDIES IN BIOLOGY — A concentrated study of a variety of organisms in their natural habitats. Normally requires camping trips as long as two weeks in duration. In addition study projects and/or papers will be expected. May be repeated for a maximum of 6 hours credit. Prerequisite: Permission of instructor.

VARIABLE CREDIT 1-3 HOURS STAFF MAY SESSION

385. ENVIRONMENTAL GENETIC TOXICOLOGY — This course deals with the biological consequences to humans of the chemical contamination of the environment. Topics cover principles and practices of toxicology and mutagenicity of a variety of chemicals such as drugs, heavy metals, pesticides and food additives. Alternate years 1982-83. Prerequisite: Biology 356 or Chemistry 311 or permission of instructor.

THREE HOURS GENTILE FALL SEMESTER

421. EVOLUTIONARY BIOLOGY — A study of current theories concerning the process of evolution and its mechanisms including population genetics, population ecology, systematics, and behavior. Three lectures per week. Prerequisite: One year of biology.

THREE HOURS BRADY FALL SEMESTER

440. FUNDAMENTALS OF THE HUMAN NERVOUS SYSTEM — A concentrated study of the morphology of the human central nervous system especially as it relates to functional disorders. Prerequisites: At least one animal biology course plus permission of the instructor. Offered even numbered years.

THREE HOURS RIECK SPRING SEMESTER

442. MAMMALIAN PHYSIOLOGY — A study of the various organ systems of mammals (e.g. nervous, cardiovascular, digestive, excretory, endocrine, respiratory) with particular emphasis on their integration to maintain homeostasis under different physiological conditions. Three lectures and two 3-hour laboratories per week. Prerequisites: One year of Biology and Chemistry 221.

FIVE HOURS BARNEY SPRING SEMESTER

490. INDEPENDENT RESEARCH IN BIOLOGY — This course is designed to give students majoring in biology a chance to do research in an area in which they have a special interest. Upon formal application and permission by the head of the department.

CREDIT BY ARRANGEMENT STAFF BOTH SEMESTERS

495. ADVANCED TOPICS IN BIOLOGY

BIOLOGY SEMINARS — A program designed to give the biology students and faculty an opportunity to participate in seminars on special topics in biology or areas of current research. Most of the speakers are biologists from area colleges and universities. Not for credit. Biology majors are expected to attend.

BIOLOGY LABORATORY ASSISTANT — Qualified students are invited to apply for laboratory assistant positions. Selection will be made by the department. Not for credit. Assistants receive an hourly wage.

CHEMISTRY

MR. MUNGALL, CHAIRMAN; MR. BOYER, MR. BRINK, MR. DOYLE, MR. FRIEDRICH, MR. JEKEL, MR. SEYMOUR, MR. WILLIAMS.

Studies in chemistry can begin in four different courses so that a student can match program with skills and goals. The goal of the program is to serve all students and to see to it that all are given the opportunity, and that all are challenged, to be all and to do all that they are capable of being and doing. The high quality of the program means that often good students achieve levels of accomplishment undreamt of by themselves.

The Department of Chemistry has long been noted for the excellence of its preparation of students. The most recent study detailing the high quality of our program was published in the *Journal of Chemical Education* in 1981. When compared with departments in scores of similar colleges, this one was ranked first or second in every category measured, categories that included the number of National Science Foundation (N.S.F.) Graduate Fellowships awarded to our seniors. The number and size of research and equipment grants were also ranked. It all means that fine facilities and abundant opportunities exist for student involvement in chemical research. Excellent student-faculty rapport are built as well as a national reputation for productivity.

In addition to the grants to support student-faculty research and to develop Hope's outstanding laboratories, the N.S.F. has awarded the college grants to support undergraduate research for 16 of the past 18 years. Nearly thirty students participate each academic year in research programs in the Chemistry Department. During the past five years students at Hope College have co-authored more than sixty scientific publications and papers presented at scientific meetings. Some examples of current student-faculty research in the department include:

- neurochemistry of α -hydroxyfatty acids
- metalloprotein nitrosyl formation and reactions
- determination of acidic pollutants in rain
- distribution and composition of PCBs in lake sediments
- formation and reactions of dinitrogen compounds
- laser optical studies of new excited states in organic molecules
- energy storage and dissipation in organic molecules
- stereoselective labilization of cobalt (III) complexes

The Chemistry Department houses a vast array of modern instrumentation for student use in chemical analyses. Students are prepared for expanding technological and scientific advancements through the operation of advanced systems such as our computer-interfaced nuclear magnetic resonance spectrometer and microprocessor-controlled high pressure liquid chromatographs. The most recent acquisition is a mass spectrometer capable of both electron and chemical ionization. Its data system allows for computer aided identification of complicated molecules. Chemistry laboratory courses culminating in Chemical Instrumentation (Chemistry 452) offer detailed instruction in the design, operation, and uses of modern chemical instrumentation.

Thirty to forty chemistry majors graduate each year, and each has the opportunity to design a program to meet his or her specific career needs.

Students considering industrial chemistry or graduate school generally fulfill the requirements for an American Chemical Society (ACS) approved major, while those who intend to enter medical or dental schools or plan a career in secondary school teaching may design their major according to their specific goals.

BACHELOR OF SCIENCE DEGREE: Students wishing to receive the Bachelor of Science degree may do so by fulfilling all of the college's core curriculum requirements and by completing the ACS approved program listed under Major.

MAJOR: The minimum requirement for a chemistry major at Hope College is twenty-five semester hours of science major chemistry courses. (excluding Chemistry 101, 102, 105, and 246). In addition to Chemistry 111, 121, 221, 231, and six credit hours of laboratory courses (113, 114, 255, and 256), two of the following three courses are required of all majors: Chemistry 321, 322 or 343. All chemistry majors are required to complete the one year General Physics sequence and a year of Calculus.

Students planning to specialize in chemistry in graduate school or wishing to obtain a position in industrial chemistry should fulfill the major requirements approved by the ACS. These include the lecture courses Chemistry 111, 121, 221, 231, 321, 322, 343, 344, and at least two of the following advanced courses: 314, 421, 422, and 452. Laboratory courses required for the ACS approved major include Chemistry 113, 114, 255, 256, 345, 346 and at least one of the following: 315, 452, and 490. (Chemistry 452 may not be taken to fulfill both advanced lecture and laboratory requirements.) Certain advanced courses in other scientific disciplines may be substituted for an advanced course in chemistry. The student should consult the chairman regarding such courses.

To qualify as an ACS approved major a student is also required to take the three semester Calculus sequence and Differential Equations. Additional courses in mathematics and physics are highly recommended; such as Physics 241, 242, 270, 341, Mathematics 240, 273 and courses in statistics and computer science. Dependent on the student's background in Mathematics, Physics 121 should be taken concurrently with Chemistry 111 in the freshman year or taken no later than the first semester of the student's sophomore year.

Pre-medical, pre-dental and pre-veterinary students are advised to take the following courses in chemistry: 111, 113, 114, 121, 221, 231, 255, 256, and 311. To qualify for a chemistry major, health profession oriented students must meet the department's minimum requirements. These students design their chemistry major according to the specific requirements of their intended profession. Suggested courses for medicine are given on page 278.

Students who wish to major in chemistry for teaching in secondary school must complete the 30 hour certification requirement. Courses should include Chemistry 321, 322, 343 and additional advanced-level chemistry courses. Chemistry 105 may also count toward the 30 hour requirement.

Chemistry majors who wish to pursue graduate work in biochemistry and biochemistry-related fields should take courses for the ACS approved major including Chemistry 311, 314, and 315. Also recommended are Biology 111, 112, 301, 348 and 356.

Students interested in chemical engineering should consult with the chairman of the Department of Chemistry or the pre-engineering advisor early in

Chemistry

their undergraduate program. Several cooperative programs with engineering schools are available. See page 277 for further details.

Students who are interested in combined science fields, special programs, or contract curriculums should consult with the appropriate chairpersons as early as possible to learn of opportunities, prospects, and requirements.

MINOR: A minor in chemistry is defined by the department to consist of the lecture courses Chemistry 111, 121, 221 and 322, and the associated laboratory courses Chemistry 113, 114, and 255. In addition another six credit hours of science major chemistry courses are required. (That is, Chemistry 101, 102, 105, and 246 will not count in the 21 hour total.)

101. GENERAL CHEMISTRY — This course aims to develop an understanding of fundamental chemical principles and introductory descriptive inorganic chemistry. The course is designed for pre-nursing, pre-physical therapy, and liberal arts students and does not count toward a chemistry major. Lecture 3 hours, laboratory 3 hours, per week.

FOUR HOURS

WILLIAMS

FALL SEMESTER

102. GENERAL CHEMISTRY — Introductory organic chemistry and biochemistry are emphasized. Lecture, 3 hours per week; Laboratory 3 hours per week. Prerequisite: Chemistry 101 or equivalent.

STAFF

SPRING SEMESTER

105. CONTEMPORARY CHEMISTRY — This course for non-science majors is intended to provide an understanding of the nature and scope of chemistry today and in the future. It treats the development of chemical technology and the accompanying benefits and problems, including pollution, drugs, consumer products, and nuclear chemistry. Lecture, 2 hours per week.

TWO HOURS

STAFF

SPRING SEMESTER

111. GENERAL CHEMISTRY — First course in chemistry for all students who wish to major in science. Topics include stoichiometry, states of matter, periodicity, inorganic reactions, atomic structure, chemical bonding, geometry of molecules, chemistry of non-metals, solutions, chemical kinetics, chemical equilibrium and electrochemistry. Three lectures per week.

THREE HOURS

WILLIAMS, JEKEL

FALL SEMESTER

113. LABORATORY OF GENERAL AND ANALYTICAL CHEMISTRY I — An introduction to techniques and laboratory procedures in preparing compounds and in performing qualitative analyses. Introductory quantitative titrimetric and gravimetric procedures will be included. Laboratory, 3 hours per week including time for discussion of experiments. Co-requisite: Chemistry 111.

ONE HOUR

STAFF

FALL SEMESTER

114. LABORATORY OF GENERAL AND ANALYTICAL CHEMISTRY II — A continuation of Chemistry 113 including qualitative and quantitative measurements with special emphasis on the use of pH meters and visible spectrophotometers to study composition and properties. Laboratory, 3 hours per week including time for discussion of experiments. Co-requisite: Chemistry 121. Prerequisite: Chemistry 113.

ONE HOUR

STAFF

SPRING SEMESTER

121. GENERAL CHEMISTRY AND SPECTROSCOPY — The first portion of the course consists of a continuation of the basic principles of chemistry including chemical energy, acids and bases, and ionic equilibria with an emphasis on inorganic reactions and the chemistry of the metals. The second portion focuses on the basic prin-

principles of spectroscopy and molecular structure. Lecture, 3 hours per week. Prerequisite: Chemistry 111.

THREE HOURS

JEKEL, WETTACK

SPRING SEMESTER

221. ORGANIC CHEMISTRY I — Introduction to the basic principles of organic chemistry through studies of the structures and reactions of carbon compounds. The determination of structure by spectral means as well as mechanistic treatments of aliphatic and aromatic chemistry are stressed. Lecture, 3 hours per week. Prerequisite: Chemistry 121.

THREE HOURS

MUNGALL

FALL SEMESTER

231. ORGANIC CHEMISTRY II — Continuation of Chemistry 221 with emphasis on construction of complex molecules, including those found in biological systems. Lecture, 3 hours per week. Prerequisites: Chemistry 221 and 255.

THREE HOURS

DOYLE

SPRING SEMESTER

246. CHEMISTRY FOR ELEMENTARY TEACHERS — A course designed to introduce the prospective elementary school teacher to chemical sciences appropriate to elementary education. An understanding of the properties of materials and the nature of chemical change in terms of atomic and molecular behavior is stressed. Laboratory involves experiments that are applicable for teaching elementary pupils. This course is open only to prospective elementary teachers and they are expected to fulfill their college science requirement with this course unless excused by the chairman of the Education Department. Lecture, 4 hours; laboratory 2 hours per week for one-half of the semester.

TWO AND ONE-HALF HOURS

BRINK

SPRING SEMESTER

255. ORGANIC CHEMISTRY LABORATORY I — The laboratory stresses modern techniques for analyses of organic compounds and studies of the mechanisms of organic reactions. Infrared spectral analyses and chromatographic separations are introduced. Laboratory, 5 hours per week; discussion session, 1 hour per week. Prerequisite: Chemistry 121.

TWO HOURS

DOYLE, MUNGALL

FALL SEMESTER

256. ORGANIC CHEMISTRY LABORATORY II — A continuation of Chemistry 255 with emphasis on use of the chemical literature in organic syntheses. Nuclear magnetic resonance spectroscopy and mass spectroscopy are introduced. Laboratory, 5 hours per week; discussion session, 1 hour per week. Prerequisites: Chemistry 221 and 255.

TWO HOURS

DOYLE, MUNGALL

SPRING SEMESTER

295. STUDIES IN CHEMISTRY — A lecture and/or laboratory course in a chemical area of current interest.

THREE HOURS

STAFF

ANY SEMESTER

311. BIOCHEMISTRY I — The biochemistry of proteins, carbohydrates, lipids, enzymes, coenzymes, and nucleic acids are discussed together with the important metabolic pathways. Lecture, 3 hours per week. Prerequisite: Chemistry 231.

THREE HOURS

DOYLE

FALL SEMESTER

314. BIOCHEMISTRY II — The course is a continuation of Chemistry 311 with emphases on biosynthetic pathways, regulatory processes and transfer of genetic information. Special topics will include neurochemistry, immunochemistry, and the biochemical basis of metabolic disorders. Lecture, 3 hours per week. Prerequisite: Chemistry 311.

THREE HOURS

BOYER

SPRING SEMESTER

Chemistry

315. BIOCHEMISTRY LABORATORY — General biochemistry experiments including characterization of amino acids, carbohydrates and lipids, *N*-terminal analysis of proteins, and spectrophotometric enzyme assays. Techniques include gas chromatography, gel filtration, thin-layer chromatography, centrifugation, electrophoresis and spectrophotometry. Laboratory, 3 hours per week. Prerequisite: Chemistry 311.
ONE HOUR **BOYER** **SPRING SEMESTER**

321. ANALYTICAL CHEMISTRY — Lecture topics will include statistics and sampling, chemical equilibrium and electrochemistry as applicable to analysis, and an introduction to modern instrumentation. Laboratory experiments will include the total analytical process as applied to real samples, and will include taking representative samples, chemical workup, wet and instrumental quantitation, and data handling. Lecture, 2 hours; laboratory 6 hours per week. Prerequisites: Chemistry 114, 121 and Physics 122.
FOUR HOURS **SEYMOUR** **FALL SEMESTER**

322. INORGANIC CHEMISTRY — A detailed examination of covalent and ionic inorganic substances, Lewis acid-base concepts, thermodynamic aspects, coordination chemistry, chemistry of metals and nonmetals, inorganic aspects of aqueous and nonaqueous solvents. Lecture, 2 hours per week. Prerequisite: Chemistry 221.
TWO HOURS **WILLIAMS** **SPRING SEMESTER**

343. PHYSICAL CHEMISTRY I — Emphasis is placed on a study of the thermal properties of matter. The way in which temperature, pressure, volume and chemical composition determine the state of chemical equilibrium and the rate at which equilibrium is attained are studied. An understanding of these effects in terms of molecular behavior is stressed. Lecture, 3 hours per week. Prerequisites or co-requisites: Chemistry 121, Mathematics 235 and Physics 122.
THREE HOURS **BRINK** **FALL SEMESTER**

130

344. PHYSICAL CHEMISTRY II — The quantum description of matter will be investigated with particular emphasis on the theoretical concepts and the implications of those concepts for chemical systems. Lecture, 3 hours per week. Prerequisites or co-requisites: Chemistry 221, Mathematics 235, Mathematics 270 (strongly suggested), and Physics 122.
THREE HOURS **STAFF** **SPRING SEMESTER**

345. PHYSICAL CHEMISTRY LABORATORY I — An introduction to modern laboratory techniques used in physical chemistry. The work stresses the use of instrumentation, spectroscopic methods, vacuum techniques glass blowing, kinetics, and thermo chemistry in obtaining accurate data from chemical systems. Laboratory, 3 hours per week. Co-requisite: Chemistry 343.
ONE HOUR **BRINK** **FALL SEMESTER**

346. PHYSICAL CHEMISTRY LABORATORY II — A continuation of Chemistry 345, adding spectroscopic and physicochemical studies of molecular structure and interactions. Laboratory, 3 hours per week. Prerequisites: Chemistry 343 and 345.
ONE HOUR **BRINK** **SPRING SEMESTER**

421. STRUCTURE, DYNAMICS, AND SYNTHESIS I — An integrated discussion of advanced topics in physical, organic, and inorganic chemistry. Topics will include stereochemistry, chemical kinetics, inorganic and organic chemistry kinetics and mechanism, and advanced topics in inorganic chemistry. Lecture, 3 hours per week. Prerequisite: Chemistry 231 and 343.
THREE HOURS **DOYLE, BRINK** **FALL SEMESTER**

422. STRUCTURE, DYNAMICS AND SYNTHESIS II — A continuation of Chemistry 421. Lectures will cover organometallic chemistry, organic syntheses, chemical dynamics, and symmetry in molecular quantum theories and applications. Lecture, 3 hours per week. Prerequisite: Chemistry 231, 322, and 344.

THREE HOURS

WILLIAMS

SPRING SEMESTER

452. CHEMICAL INSTRUMENTATION — Introduction to selected electrochemical and spectral measurements and techniques useful in chemistry, and to the general principles that guide present rapid developments in chemical instrumentation. Topics will include instrumentation, electrochemical methods, optical and X-ray emission spectroscopy, mass spectroscopy, and nuclear magnetic resonance spectroscopy. Lecture, 2 hours; laboratory, 3 hours per week. Prerequisite: Chemistry 231, 321, and 345.

THREE HOURS

SEYMOUR

SPRING SEMESTER

490. INDEPENDENT RESEARCH IN CHEMISTRY — For chemistry majors. Course provides opportunity to do research in a field in which students have special interests. By special permission of the chairman of the department.

ONE, TWO or THREE HOURS

STAFF

FALL SEMESTER

700. RECENT ADVANCES IN CHEMISTRY — Stresses recent developments and modern techniques in various areas of chemistry. For local area chemists. Course not open to undergraduate students at Hope College.

SIX HOURS (MAXIMUM)

STAFF

ASSISTING IN CHEMISTRY LABORATORY — Upon the recommendation of the chemistry faculty, a limited number of students who have done meritorious work are invited to serve as laboratory assistants. No credit or honor points will be given toward graduation but a stipend is offered.

CHEMISTRY SEMINAR — A weekly series of seminars given by guest lecturers from academic institutions, industry, and government. Lecture topics include research activities and current special topics in all areas of chemistry. The guest lecturers are also available for discussions concerning graduate education as well as career opportunities for chemistry majors. No credit or honor points will be given toward graduation.

TEACHING OF SCIENCE — See Education 331 (page 156).

COMMUNICATION

MS. MAHOOD, CHAIRPERSON; MR. MAC DONIELS, MR. NIELSEN.

With increasing societal complexity, the demand for effective communicators is being expressed dramatically. A 1982 Endicott Study surveying 242 major private sector employers underscores the extreme importance of communication skills to success among college graduate new-hires. Victor R. Lindquist, Director of Placement at Northwestern University and co-author of the report, cautions college professors and academic advisor to "encourage training in communication skills."¹

Acknowledging the historical centrality of communication training to the liberal arts tradition, and recognizing contemporary societal demands for enlightened, skillful communicators, the Department of Communication offers a curriculum to enhance a student's understanding of the human communication process as well as to develop and to refine a student's communication skills. Communication situations varying in purpose and context (interpersonal relationships, small group interactions, face-to-face persuasive presentations, electronically mediated mass contexts) are addressed through the course offerings.

Students interested in improving their communication effectiveness as a means of increasing their overall success in disciplines outside the communication department are welcome to draw on communication course offerings and laboratories to serve their individual needs. Communication majors at Hope often link their academic programs with other disciplines in preparation for their careers in business, ministry, theatre, law and teaching. Professional plans in broadcasting, closed circuit television, public relations, human resource development, and government often stem from opportunities provided to communication majors. The Hope communication curriculum also provides a widely recognized, strong foundation for students planning graduate level study in communication at major graduate institutions.

SOCIAL SCIENCE REQUIREMENT — Communication 101 — The Communication Process satisfies three hours of the core curriculum social science requirement. The course satisfies this requirement by helping the student understand the societal influences on the human communication process and by sensitizing the student to major patterns of behavior recognizable in diverse communication contexts. Performance oriented communication activities help students apply these understandings in making more effective communication choices.

COMMUNICATION MAJOR — The communication major curriculum is designed to provide a balanced education emphasizing theoretic understanding and skill development across all significant communication contexts. A student would most likely enter the program through any one of four introductory courses (101, 140, 151, 160). It is assumed that majors will progress through the course offerings in somewhat chronological fashion,

¹Reported in *Higher Education and National Affairs*, American Council on Education, Vol. 30, No. 40, December 18, 1981, p.3.

Communication

with exceptions where skill and theoretic understanding warrant departure from prescribed course sequencing.

A communication major may be obtained by completing **33 hours** in the Communication Department according to the following criteria:

	Hours
Required: 101 Introduction to the Communication Process	3
140 Public Presentations	3
151 Introduction to Mass Communication	3
160 Analytic Skills in Communication	3
Skills Labs	Total of 3
201, 301, 401 Public Presentational-Skills Labs	
202, 302, 402 Reasoning and Analytic Skills Labs	
203, 303, 403 Interpersonal/Group Skills Labs	
204 Media Presentational Skills Lab	
304 Multi Media Skills Lab	
either { 210 Interpersonal Communication	3
220 Task Group Leadership	
either { 261 Persuasive Presentations	3
295 Topics in Communication: Applied Theory (with advisor approval)	
Electives: 12 hours with at least 9 hours above the 304 level and at least 3 hours above the 403 level	12
Colloquia: Majors must be continuously enrolled in a communication colloquium throughout their junior and senior years (all semesters).	0
	Total 33

COMMUNICATION MINOR — A minor in communication may be obtained by taking at least 20 hours of communication courses in one of several areas: Business/Organizational Communication, Communication and Mass Media, Communication and Social Influence (recommended for pre-seminary and pre-law students) and Communication in Interpersonal Relations. Minors are defined by these options:

OPTION A — BUSINESS/ORGANIZATIONAL COMMUNICATION

- 101 The Communication Process
- 160 Analytic Skills in Communication
- 220 Task Group Leadership
- either { 255 Print Media I
- 140 Public Presentations
- 320 Small Group Communication
- 420 Organizational Communication
- Communication Skills Labs: 2 hours

OPTION B — COMMUNICATION IN MASS MEDIA

- 101 The Communication Process
- 151 Introduction to Mass Communication
- 160 Analytic Skills in Communication
- 251 Media Production I: Radio and Television
- either { 255 Print Media I
- 352 Media Production II
- either { 353 Media Production III
- 356 Print Media II
- Communication Skills Labs: 2 hours

Communication

OPTION C — COMMUNICATION AND SOCIAL INFLUENCE

(recommended for pre-seminary and pre-law students)

- 101 The Communication Process
 - 140 Public Presentations
 - 160 Analytic Skills in Communication
 - 220 Task Group Leadership
 - 261 Persuasive Presentations
 - 365 Case Studies in Persuasion
- Communication Skills Labs: 2 hours

OPTION D — COMMUNICATION IN INTERPERSONAL RELATIONS

- 101 The Communication Process
 - 151 Introduction to Mass Communication
 - 160 Analytic Skills in Communication
 - 210 Interpersonal Communication
 - 220 Task Group Leadership
 - 320 Small Group Communication
- Communication Skills Labs: 2 hours

COMMUNICATION SKILLS LABORATORY — It is the objective of the Communication Department to develop students' communication skills as well as to build their understanding of communication theory. Communication majors, particularly, should exhibit good communication skills as well as understand basic theory in the discipline. Development and reinforcement of several skills are important to developing a competent communicator. Among these are analytic skills, verbal and nonverbal expressive skills, listening skills, and technical skills. Since communicators' purposes and communication contexts vary (i.e. from less formal, small face-to-face situations to formal, mass audience, technologically mediated situations), these skills must be appropriately adapted. Lab offerings, therefore, are diverse enough to encourage this adaptive skill as well.

050. Communication Majors Colloquium — A regularly scheduled meeting of all majors to conduct programs related to professional issues or topics, departmental business, vocational or career matters, advising or enrollment.

0 HOURS

STAFF EACH SEMESTER

201, 301, 401. Public Presentational Skills — Verbal and nonverbal expressive skills are emphasized in these laboratories, with attention to analytic skills as well. Intensive extemporaneous and impromptu verbal activities are utilized to refine skills in delivery, style and organization. Students are trained to compose and deliver their verbal messages spontaneously in clear, concise fashion. As students move through stages of development the presentation assignments move from drill exercises to extended, persuasive public presentations prepared for audiences outside the laboratory. Advanced students assist in coaching beginning students, thus improving their own skills by serving as models for instructional purposes.

202, 302, 402. Reasoning and Analytic Skills — These laboratories develop and refine analytic skills, verbal expressive skills, and critical listening skills appropriate to oral argument. Skills are developed through practice in impromptu oral argument exercises, direct clash activities, and diverse formats for debate and discussion of controversial positions. As students' skills become more refined, the activities move from shorter intensive drill exercises to extended formal debates and discussions presented publicly. Advanced students assist in coaching beginning students, thus improving their own skills by serving as models for instructional purposes.

Communication

220. TASK GROUP LEADERSHIP — This course will focus on the small task group with particular attention given to the communication skills of successful leaders. Problem-solving methods and communication skills related to productive input in task efforts, skills necessary to plan, chair and manage the activities of the task group along with training in parliamentary skills will be emphasized. Prerequisite: Communication 101 recommended.

THREE HOURS

MAC DONIELS

FALL SEMESTER

251. MEDIA PRODUCTION I: RADIO AND TELEVISION — Investigation, participation and criticism of the production process in Radio and Television Broadcasting (Commercial, Educational and Instructional). This course is a first taste of the process of communication by the electronic media, designed to be relevant for those utilizing sound and picture for professional purposes as well as for those interested in media as an adjunct to other interest areas.

THREE HOURS

NIELSEN

EACH SEMESTER

255. PRINT MEDIA I (JOURNALISM) — A study of the methods of gathering and evaluating news and re-writing and editing journalistic copy. The course emphasizes journalistic writing and its influence in contemporary society. Prerequisites: English 113 recommended only.

THREE HOURS

STAFF

FALL SEMESTER

261. PERSUASIVE PRESENTATIONS — This course introduces the student to preparation and delivery of more sophisticated persuasive presentations. Theories of attitude change, interpersonal perception, speaker credibility, language and nonverbal behavior provide the conceptual foundation upon which principles of effective persuasion are taught. Students prepare and deliver direct and indirect persuasive presentations, with consideration to informed methods of audience analysis. There is a balanced emphasis between theory and practice, along with consideration of the inherent ethical choices confronting the persuader. Prerequisite: Communication 140 and Communication 160.

THREE HOURS

MAHOOD

FALL SEMESTER

295. TOPICS IN COMMUNICATION (APPLIED THEORY) — A lecture or seminar class in a special topic of the discipline offered at the sophomore level. Prerequisite: Communication 101 or permission of instructor.

ONE, TWO or THREE HOURS

STAFF

ANY SEMESTER

320. SMALL GROUP COMMUNICATION — An investigation of the principles and methods of small group communication. The course emphasizes problem solving, leadership and group structure, group interaction dynamics and approaches to effective group methods. Prerequisite: Communication 251 and permission of instructor.

THREE HOURS

MAC DONIELS

SPRING SEMESTER

352. MEDIA PRODUCTION II — Advanced experiences in the area of television production — broadcast, closed-circuit instructional and cable. Focus will be on the creation of media formats in the student's interest area, techniques of television program direction and analysis and critique of current commercial and educational programming forms. Emphasis is given to the importance of viable content development prior to integration with media communication processes. Class members will produce programming for MOSAIC television series. Prerequisite: Communication 251 or permission of instructor.

THREE HOURS

NIELSEN

SPRING SEMESTER

353. MEDIA PRODUCTION III — Advanced experiences in electronic field production/film technique for broadcast, closed circuit and cable television. Focus on location/

Communication

studio shooting and editing of video tape filmic materials. Class members will function as producers/directors/camera/editors for projects. Student presentations will be cablecast on MOSAIC television series. Prerequisite: Communication 251 or permission of instructor.

THREE HOURS

NIELSEN FALL SEMESTER

356. PRINT MEDIA II (JOURNALISM) — An advanced course in special principles and applications of Journalism. Advanced reporting, criticism and reviews, treatment of copy, news sources and news suppression, total production stages, and journalistic ethics are emphasized. Prerequisite: Communication 255 or equivalent.

THREE HOURS

STAFF SPRING SEMESTER

357. BROADCAST NEWS PRODUCTION — Investigation and evaluation of the news and information function of the broadcast mass media. The course will also involve student participation in the news process, producing Hope College's THURSDAY JOURNAL for Cablevision 12. Purpose is to make the student aware of the process by which they receive views of the world from the media and to establish a sensitivity to the potential impact of that process on news, information, education and instruction. Prerequisites: Communication 251 and permission of instructor.

THREE HOURS

NIELSEN SPRING SEMESTER

365. CASE STUDIES IN PERSUASION (CRITICISM) — Students in this course analyze and critique contemporary persuasive appeals in politics, advertising, and scholarship. Several systems of criticism are contrasted to demonstrate the usefulness of diverse perspectives in revealing the nature of persuasive strategies and their effectiveness. (Among the approaches treated are neo-Aristotelean, Burkean, and phenomenological systems.) Students' familiarity with electronic media and theories of persuasion and possession of analytic skills are presumed. Prerequisite: Communication 260 or permission of instructor.

THREE HOURS

MAHOOD FALL SEMESTER

388. THE TEACHING OF SPEECH-COMMUNICATION — An explanation of the materials, methods and procedures essential in planning, structuring, and conducting curricular and co-curricular speech-communication activities in the school. Emphasis is focused on text evaluation, innovative classroom methods, assignment preparation and evaluative criteria. Same as Education 388. Prerequisite: A major or minor in communication.

TWO HOURS

STAFF OCCASIONALLY

395. COMMUNICATION INTERNSHIP — Student interns are assigned to organizations, agencies or communication media industries to observe, assist, assume regular duties, or engage in special projects under the supervision of skilled professionals. Students are generally not paid and are expected to maintain approximately thirty hours of placement for each hour of credit. Prerequisite: Permission of instructor.

ONE, TWO or THREE HOURS (may be repeated up to six hours)

MAC DONIELS ANY SEMESTER

420. ORGANIZATIONAL COMMUNICATION — This course is designed to provide students with understanding of and appreciation for the influence of intentional and unintentional communication within large organizations. The focus of study is on communication within a social system complex enough to be planned, deliberately structured (with codified rules, formalized roles among individuals, task assignments, etc.) and goal directed. Attention is paid to the role of communication in developing and sustaining the organization, to the impact of communication systems and climates on organizational members, and to the communication strategies most

Communication

useful for the individual within the organization. Designed as a field study, this course guides the student through a naturalistic observation of an actual organization of which he or she is a member. Some understanding of interpersonal and small group communication and familiarity with social scientific research procedures are presumed. Prerequisite: Communication 101, 320 and permission of instructor.

THREE HOURS

MAHOOD FALL SEMESTER

450. ISSUES IN MASS MEDIA — An examination of the relative effects of the several communication media on society. Study focuses on the relevant controversies surrounding the print and broadcast media, the formation of individual attitudes and public opinion and the research evidence reflecting the degree of media influence. Students will engage in individual research projects. Prerequisites: Two prior courses in mass communication or permission of instructor.

THREE HOURS

NIELSEN FALL SEMESTER

460. COMMUNICATION THEORY — This course integrates the major theoretical contributions to the communication discipline. In tracing the development of the field, attention is paid to diverse philosophical, scientific, social scientific, and humanistic influences in the development of communication theory. Among the influences considered are Aristotelean rhetorical theory; positivist research assumptions; symbolist perspectives and symbolic interactionism; existential philosophy; phenomenology; and technological innovation (electronic media). The course is conducted in seminar fashion; students are taught to appreciate original works as opposed to textbook treatments. Prerequisite: Communication 260.

FOUR HOURS

MAHOOD SPRING SEMESTER

490. INDEPENDENT STUDIES IN COMMUNICATION — A program permitting advanced students in Communication an opportunity to broaden their perspectives or intensify study in a communication area of unique interest. Eligibility requirements for the program are: senior standing (or approval), approved topic area, written proposal following format prescribed by department and presented at time of registration to chairperson and instructor, and final departmental approval of proposal. Prerequisite: approval.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

495. ADVANCED STUDIES IN COMMUNICATION — A lecture, seminar or intern program in a special topic of the discipline offered for majors in the department.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

COMPUTER SCIENCE

MR. DERSHEM*, CHAIRMAN; MR. DANGREMOND, MR. STEGINK.

Computer science is a young and rapidly developing discipline. In recognition of this fact, the Department of Computer Science is committed to providing the student with a program which includes the basic fundamentals of the field and which allows him the flexibility to pursue in depth many of the diverse areas into which computer science is expanding. In addition, computer science interrelates heavily with other disciplines both in its application and its construction. It is our belief that this interrelation can best be emphasized by the establishment of direct links with these other fields such as joint sharing of faculty and programs and by exposing computer science students to the fundamental core of knowledge in closely related disciplines.

COMPUTER RESOURCES — The computing facilities at Hope College give the student an opportunity to obtain a rich variety of experiences. The Hope College Xerox Sigma 6 computer supports a simultaneous batch and time-sharing operation. Some of the software features available on this system are:

1. Higher level computer languages such as Fortran, BASIC, APL, COBOL, SNOBOL, LISP, ALGOL, PASCAL.
2. Simulation packages SL-1, GPDS, CIRC-DC, CIRC-AC, CIRC-TR.
3. Data management systems EDMS and MANAGE.
4. Statistical, scientific, plotting, and file and text editing packages.
5. Simulator and cross-assembler for the INTEL 8080 microcomputer.

The peripheral equipment attached to the computer includes magnetic tape, 400 Megabytes of on-line disk storage, a CAL-COMP plotter, hard-copy and CRT terminals, a high speed printer, a card reader, and a card punch.

139

Opportunities to use and apply minicomputers and microcomputers exist, as well as instruction in modern computer and interface circuitry. The Chemistry Department has a Nuclear Data minicomputer used for data analysis and experimental control. The Physics Department has several microcomputers used for process control. A Tektronics 4051 graphics computer system, an Apple II microcomputer, and an Ohio Scientific Challenger II are available for use by the students and faculty.

A microcomputer laboratory which contains 10 Radio Shack TRS-80 systems, is available for student use. This laboratory is used for research, instruction, and problem solving.

THE COMPUTER SCIENCE MAJOR — The department offers a major program which emphasizes applications and experiences in computer science and allows the student the flexibility to design a program suitable for his/her interests and goals. Each student's major program, designed by the student and two departmental advisors, includes a core of computer science courses, a strong component of courses in some field to which the computer can be applied, and an internship experience or a semester of independent study and research under the supervision of a member of the Hope College faculty. By following an appropriate major program a student

*On leave academic year, 1982-83

Computer Science

could prepare himself/herself for many computer science careers including applications programming, systems programming, systems analysis, computer design, process control, operations research or computer center management.

COMPUTER SCIENCE MAJOR REQUIREMENTS — A major in computer science consists of a minimum of 30 hours including Computer Science 280, 283, and 284. Either Computer Science 490 or 491 must also be completed. Any other computer science courses and Physics 241, 242 may be taken to complete this 30 hour requirement. In addition, a strong component of courses in an area of application of computer science must be completed. This component is designed by the student and his departmental advisors. At least two courses in Mathematics are required. Mathematics 135, 136, 240, and 310 are recommended.

The requirements for a B.S. degree with a major in Computer Science are a minimum of 36 hours in Computer Science including 280, 283, 284, 381, 383, 490, and 491 and a minimum of 60 hours in natural science. Physics 241 and 242 may be taken in partial fulfillment of the 36 hour requirement.

COMPUTER SCIENCE MINOR — A minor in Computer Science consists of Computer Science 284, plus four additional Computer Science courses.

100. COMPUTER SCIENCE FOR LIBERAL ARTS STUDENTS — This course is intended for those students wishing to gain an awareness of computers and their role in society. The course will include modules in Introduction to Problem Solving, Impact of Computers and either Personal Computing or Information Processing. Those students who seek to develop general skills in computer programming should enroll in C.S. 120. Students who have previously completed an introductory computing course may not enroll in C.S. 100.

TWO HOURS

STAFF

120. INTRODUCTION TO COMPUTER SCIENCE — This is an introductory course and serves as a prerequisite for all other computer science offerings. Emphasis is placed on problem solving techniques, programming skills, and program style and design. Students in this class gain extensive experience in programming in FORTRAN.

THREE HOURS

STAFF

160. SCIENTIFIC COMPUTER PROGRAMMING — An introduction to computers, FORTRAN programming, and methods of scientific problem solving and data reduction under timesharing and batch modes of operation. Techniques in least squares fitting, sorting, transcendental equations solving, and the Monte Carlo method will be introduced. Features of the operating system, utility processors, and file management will be included. This course is a substitute for Computer Science 120 and is intended for students majoring in the Physical Sciences. Corequisite: Mathematics 135. This course is the same as Physics 160.

THREE HOURS

BROCKMEIER FALL SEMESTER

280. FILE MANAGEMENT — Overview of data processing. COBOL programming. File organization. Internal and external sorts. Report design. Common data base concepts. Analysis of specific problems and their solutions. Prerequisite: Computer Science 120 or consent of the instructor.

THREE HOURS

STAFF SPRING SEMESTER

283. INTRODUCTION TO COMPUTER SYSTEMS — Computer structure and machine language. Assembly language. Addressing techniques. Macros. Program segmenta-

Computer Science

tion and linkage. Assembler construction, linkers, and loaders. Interpretive routines. Prerequisite: Computer Science 120.

THREE HOURS

DERSHEM FALL SEMESTER

284. ADVANCED PROGRAMMING — Structured programming. Debugging and testing. Advanced programming techniques. Introduction to Pascal. Searching and sorting algorithms. Prerequisite: Computer Science 120.

THREE HOURS

STAFF

295. STUDIES IN COMPUTER SCIENCE — A course offered in response to student interest and need. Deals with topics in computer science which are not included in regular courses. Recent topics have been the Psychology of Computer Programming and Artificial Intelligence.

TWO or THREE HOURS

STAFF

320. BUSINESS INFORMATION SYSTEMS — Top-down design of business information systems. Design inspections. Detail design and implementation. Information system maintenance. File organization. Post-audit of information systems. Essential characteristics of information systems are developed through the use of case histories. Alternate years, 1982-83. Prerequisite: C.S. 280.

THREE HOURS

STAFF FALL SEMESTER

331. PROCESS CONTROL — Control of experiments and processes using microcomputers. Theory of discrete and continuous sampling methods of control. Experience in programming microcomputers to illustrate problems of control, data manipulation and data analysis. Skill will be developed in assembly language programming and an understanding developed of the relationship between assembly language and hardware. Prerequisites: Computer Science 120 or equivalent and one year of a laboratory course for science students other than Physics 241, 242. Same as Physics 331.

THREE HOURS

VAN PUTTEN FALL SEMESTER

332. PROCESS CONTROL LABORATORY — Application of control methods studied in Computer Science 331 to actual systems. Interfacing microcomputers with terminals, displays, analog to digital converters, and other input-output devices. Application of microcomputers to data acquisition and on-line data analysis. Prerequisites: Computer Science 331 and Physics 241.

ONE HOUR

VAN PUTTEN SPRING SEMESTER

352. HARDWARE/SOFTWARE SYSTEMS — Overview of operating systems. Operating system functions. Support functions for the operating system. Overview of hardware organization. Microprogramming. Multiprocessor systems. System considerations for reliability, availability, and servicability. Prerequisite: Computer Science 283. Alternate years, 1983-84.

THREE HOURS

DERSHEM SPRING SEMESTER

381. DATA STRUCTURES — Description and use of data structures. Software and programming language implementation. Storage allocation and management. Searching and sorting techniques. Applications of data structures. Prerequisite: Computer Science 284. Alternate years, 1982-83.

THREE HOURS

STAFF FALL SEMESTER

383. PROGRAMMING LANGUAGES — Survey of programming languages. Programming language syntax. Theory of computation. Control Structures. Recursion. Language extensibility. Application languages. Specific languages FORTRAN, ALGOL,

Computer Science

APL, and PL/I will be treated in detail. Prerequisite: Computer Science 284. Alternate years, 1983-84.

THREE HOURS

STAFF FALL SEMESTER

390. DATABASE MANAGEMENT SYSTEMS — Detailed study of the fundamentals of database technology to establish the vocabulary and processing methods of the subject. Practical database models. Applications of database systems in business organizations. Management considerations for effective implementation of database systems. Case studies, written reports, and programming exercises will be employed to develop relevant knowledge. Prerequisite: Computer Science 280. Alternate years, 1982-83.

THREE HOURS

DERSHEM SPRING SEMESTER

490. INDEPENDENT STUDY AND RESEARCH IN COMPUTER SCIENCE — Independent study or research project carried out in some area of advanced computer science or in the application of the computer to another discipline. This project will be carried out under the supervision of one or more designated staff members. Prerequisite: Permission of the chairman of the department.

ONE, TWO, or THREE HOURS

STAFF

491. INTERNSHIP IN COMPUTER SCIENCE — This program offers the student an opportunity to work on a project or an experience approved by the department as being of significance in computer science. This is usually done off campus and the student will have a qualified supervisor at the site of this experience in addition to a faculty advisor. This course is normally open only to senior computer science majors. Prerequisite: Permission of the chairman of the department or the director of internships.

THREE HOURS

DERSHEM

495. ADVANCED STUDIES IN COMPUTER SCIENCE — A course designated for junior and senior computer science majors which covers an advanced topic in computer science. Recent offerings have been operating systems and software engineering. This course is offered at least once each year and may be repeated for additional credit with a different topic. Prerequisite: Permission of the chairman of the department.

THREE HOURS

STAFF

700. COMPUTERS IN EDUCATION — A workshop open to teachers and administrators at both the elementary and secondary levels of education. Use and implementation of instructional computer software. BASIC programming language. Computer literacy. Survey of available resources for instructional use of computers. Survey of appropriate computer equipment. Each participant will receive experience in the use of a microcomputer and produce a computer-based classroom activity.

TWO HOURS

DERSHEM

DANCE

MRS. DeBRUYN, COORDINATOR; MR. ASCHBRENNER, MR. CECIL, MR. TAMMI*
Assisting Faculty: MRS. BAWM, MS. BURCH, MR. TEPPER.

The dance program is offered jointly by the departments of theatre and physical education and recreation, with the assistance of the department of music. Students desiring preparation in dance are advised to take a total of 20 hours, to be divided between courses in theory and courses in technique. The recommended technique courses are Dance 106, 110, 114, 116, 117, 126, and 203. The recommended courses in theory are Dance 201, 221, 300, 305, 315, and 320.

The dance student should plan to take Biology 111 in order to fulfill the prerequisite for Dance 221. This course in general animal biology will also satisfy a portion of the college core requirement in science.

RECOMMENDED ELECTIVE COURSES for the dance student include Dance 118, 119, 204; Theatre 116, 215, 223, 224, and 295; and Physical Education 107, 118, and 128.

CO-CURRICULAR ACTIVITIES provide an experience which the student will want to make a part of his or her training. The minimum expectation is that the dance student will participate for at least two semesters in college dance activities, including auditions or performances, and a mini-teaching assignment in the public schools.

DANCE MINOR — Certified K-12 since 1975.

DANCE THERAPY is a preparatory program for graduate school and a career. It is available to students through a composite major, biology/psychology including dance minor. Provisions are made through the Registrar.

PROFESSIONAL OPPORTUNITIES to which preparation in dance can lead include:

- graduate studies in dance
- dance instructor in public or private school
- recreator in dance
- dance performer
- dance therapist

Technique

106. MODERN DANCE I — Education in body movement through dance techniques designed to teach an understanding of rhythm and relaxation and a presentation of basic movement problems.

ONE HOUR

DeBRUYN

BOTH SEMESTERS

110. FOLK AND SQUARE DANCE — An introduction to folk and square dance techniques. Special emphasis will be placed on the cultural aspects of the development of both types of dance.

ONE HOUR

STAFF

BOTH SEMESTERS

*On leave 1982-83.

Dance

114. PERIOD DANCE STYLES — Special attention in this course is given to period styles, period dances, and the handling of period costumes. Enrollment by prior permission of instructor only.

TWO HOURS

STAFF SPRING SEMESTER

116. JAZZ I — A study of jazz technique, free style movement, floor and barre work, and combinations. The purpose of this course is to provide the student with a wider range of body movement and a creative means of expression for theatre dance.

ONE HOUR

STAFF BOTH SEMESTERS

117. JAZZ II — A continuation of Dance 116, designed to prepare the student for dance composition and improvisation, with emphasis on improvement of technique, style, and performance. Course may be repeated for credit. Prerequisite: Dance 116. Enrollment by permission of instructor only.

ONE HOUR

STAFF BOTH SEMESTERS

118. TAP I — An introduction to tap dance techniques, emphasizing the use of this dance form in theatrical performance.

ONE HOUR

TEPPER BOTH SEMESTERS

119. TAP II — A continuation of Dance 118, with emphasis on style and performance technique. Intermediate tap barre and center work, and a consideration of basic tap choreography. Course may be repeated for credit. Prerequisite: Dance 118. Enrollment by permission of instructor only.

ONE HOUR

TEPPER BOTH SEMESTERS

126. MODERN DANCE II — A continuation of beginning modern dance including improvisation to stimulate the imagination and allow for individual exploration of movement expression. Course may be repeated for credit. Prerequisite: Dance 106. Enrollment by permission of instructor only.

ONE HOUR

DeBRUYN BOTH SEMESTERS

203. BALLET I — A study of basic foot, arm, and body positions in ballet. The student is introduced to the barre for fundamental ballet exercises, followed by center practice and combination of dance steps.

ONE HOUR

STAFF BOTH SEMESTERS

204. BALLET II — A continuation of Dance 203. Intermediate technique, with barre and center work. Some consideration of anatomy and dance history as these subjects relate specifically to ballet performance. Course may be repeated for credit. Prerequisite: Dance 203. Enrollment by permission of instructor only.

ONE HOUR

STAFF BOTH SEMESTERS

290. DANCE REPERTORY — Emphasis is on learning new techniques through combined movement phrases and by learning one dance and/or sections from others. Prerequisites any two of the following: Ballet II, Jazz II, Modern II.

THREE HOURS

DeBRUYN, AND STAFF FALL SEMESTER

300. DANCE IMPROVISATION — This course is concerned with the development of the ability to create spontaneously through words, sketches, and sounds. The goal for the student will be the use of improvisation as a tool for developing sensitivity and a means of discovering the body's natural movement style, as a prelude to dance composition. Prerequisites: Dance 106, 116, 117, 126.

ONE HOUR

DeBRUYN SPRING SEMESTER

Theory

201. EURHYTHMICS I — The aim of eurhythmics is to aid the student in discovering that rhythm is experienced physically as well as mathematically conceived. Linear and contrapuntal rhythm within the various metric forms is studied through physical motion to acquire the feel of rhythm. Time in its relationship to space and energy is the basis for the study of rhythm as it functions in the motion of music.

ONE-HALF HOUR

ASCHBRENNER

FALL SEMESTER

202. EURHYTHMICS II — A continuation of Dance 201.

ONE HOUR

ASCHBRENNER, CECIL

SPRING SEMESTER

221. ANATOMICAL KINESIOLOGY — The muscle-skeletal system and its action, with special reference to the field of health and physical education, are studied in detail. Prerequisites: Biology 111, and Physical Education 211 or permission of the instructor.

THREE HOURS

IRWIN

SPRING SEMESTER

305. DANCE COMPOSITION — An introductory course in the rhythmic structure of dance, including problems in line, design, dynamics, theme, and group choreography. Prerequisites: Dance 106 and 126 (or Dance 315), 116, 117. Offered even years.

TWO HOURS

DeBRUYN

SPRING SEMESTER

315. TEACHING OF DANCE — An exploration of the materials, techniques, and principles of creative dance for youth. A concentrated study is made of the way children discover movement and create dances, climaxed by a mini-teaching assignment in the public schools. Prerequisites: Dance 106 and 126 (or Physical Education 205). Offered odd years.

TWO HOURS

DeBRUYN

SPRING SEMESTER

320. HISTORY OF DANCE — A survey of the development of humankind through dance from primitive times to the twentieth century, with a special focus on Ballet and dance in America.

THREE HOURS

DeBRUYN

FALL SEMESTER

ECONOMICS AND BUSINESS ADMINISTRATION

MR. RICHARDSON, CHAIRMAN; MR. CLINE, MR. GENTENAAR, MR. HEISLER, MRS. HILL, MR. JAPINGA, MRS. KLAY, MR. MUIDERMAN, MR. SJAARDEMA, MR. WELDON. Assisting Faculty: MR. CHUTTER, MR. NECKERS, MR. SWANEY, MR. TYSSE, MR. WEAR.

MAJORS — The Department of Economics and Business Administration stresses both theoretical and applied concepts of economics and business. Economic theory and quantitative skills serve as the cornerstone for advanced work in economics and management.

Students majoring in the department actively participate in field trips, internships with local business firms, and independent research projects. They meet frequently with visiting business executives and visiting distinguished economists.

There is a great deal of emphasis placed on applying a theory to practice. For example, students in recent years have:

1. held management internships with a land development corporation, a commercial bank, a national retailing firm, a local insurance agency, a large realtor and a boat manufacturer.
2. produced a market research study which is being used by a large-scale builder.
3. prepared an employee personnel handbook.
4. prepared cost-benefit studies for Holland Board of Public Works.
5. prepared econometric forecasts for local businesses.

Courses in investments, real estate, business law and advanced accounting are taught by adjunct faculty members, who are full-time specialists in their respective fields.

146 Computer applications and simulations, role-playing, management games and business case studies enliven the classroom work.

Hope College is the only college in the state of Michigan, and one of thirty-three in the country, to have received a George F. Baker Foundation grant, which gives scholarships to students who show promise of being exceptional business leaders.

The department offers the minimum number of accounting courses required for taking the Michigan C.P.A. examination.

Students wishing to sit for the C.P.A. examination should consult the accounting faculty, as requirements vary from state to state. The typical series of courses would be Accounting Principles I and II, Intermediate Accounting I and II, Cost Accounting, Advanced Accounting, Tax Accounting, Auditing, and Business Law.

Approximately 30% of the graduates in this department go on to graduate or professional schools in the fields of law, public administration, business administration, and economics. Those who choose to begin their careers upon graduation pursue employment opportunities in both the public and private sectors.

COURSES FOR NON-MAJORS — Principles of Economics (Econ. 201) is a course which is recommended to all students. Principles of Accounting (Bus. Adm. 221 and 222) and Principles of Management (Bus. Adm. 351) have

Economics and Business Administration

been found to be quite valuable courses for non-majors. Many of the upper level courses in economics and business administration are open to non-majors.

ECONOMICS MAJOR — A major in economics requires a minimum of 27 hours. The following courses are required: Econ. 201, Econ. 301, Econ. 303, Econ. 401. Students are also required to take a course in Econometrics (Econ. 495) and to complete a senior research project. It is also strongly recommended that students take one semester of calculus and one course in statistics. Courses in accounting and computer are strongly recommended. (See the department chairman for a more detailed schedule.)

BUSINESS ADMINISTRATION MAJOR — A major in business administration consists of 30 hours in the department. Included in those should be nine hours of economics (Econ. 201, 301 and 303), principles of accounting (Bus. Adm. 221 and 222) which should be taken in the sophomore year, principles of management (Bus. Adm. 351), principles of finance (Bus. Adm. 464), principles of marketing (Bus. Adm. 331) and six hours of department electives. In addition, Statistics (Math 210).

Students considering graduate work should take calculus. Work in computer science and advanced mathematics is strongly encouraged.

MINOR IN BUSINESS ADMINISTRATION: The minor requirements for Business Administration will consist of eighteen hours of course work. Courses required are: Econ. 201, Principles of Economics; B.A. 351, Principles of Management; B.A. 331, Marketing; B.A. 464, Finance; B.A. 221, Principles of Accounting; and an additional three-hour course in Business Administration.

MINOR IN ECONOMICS: The minor requirements for Economics will consist of twenty-one hours of course work. Courses required are: Econ. 201, Principles of Economics; Econ. 301, Macroeconomics; Econ. 303, Microeconomics; and four additional three-hour courses in Economics.

ADVISING PROCEDURES — Upon approval by the department, the student will be assigned an advisor from the department. Together, they will work out a tentative program for the student to complete the major.

CONCENTRATION IN ACCOUNTING — Students who wish to develop a concentration in the area of professional accounting should contact a member of the accounting staff early in their careers, since this program requires a special sequence of courses.

A — Course Offerings — Economics

201. PRINCIPLES OF ECONOMICS — A one semester introduction to economic principles and concepts designed to fulfill the objectives of the college social science requirement and to prepare students for advanced level work. The course deals with such topics as demand, costs, markets, resource allocation, the study of money, national income, and levels of employment.

THREE HOURS

STAFF FALL AND SPRING SEMESTERS

295. STUDIES IN ECONOMICS — A lecture or seminar class on a special topic of economics for majors and non-majors in the discipline.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

301. MACROECONOMICS — This course examines the important concepts and theories concerning levels of income, employment, interest rates and prices. It enables the student to understand the causes of changes in these levels, and to

Economics and Business Administration

understand the effectiveness of government policies in affecting them. Prerequisite: Econ. 201.

THREE HOURS GENTENAAR FALL AND SPRING SEMESTERS

302. MONEY AND BANKING — A study of the role of money, credit, and financial institutions, and the impact of these areas on the general level of output, income and employment. Prerequisite: Econ. 301, Macroeconomics.

THREE HOURS GENTENAAR FALL SEMESTER

303. MICROECONOMICS — Intermediate-level treatment of microeconomics concerned primarily with resource allocation decisions under varied market conditions, theory of factor pricing, and topics in welfare economics. Prerequisite: Economics 201.

THREE HOURS CLINE FALL AND SPRING SEMESTERS

308. INTERNATIONAL ECONOMICS — This course presents a survey of the fields of international trade and investment with attention given to fundamental theory and present policy and practice. Prerequisite: Economics 201 and Economics 301, Macroeconomics.

THREE HOURS GENTENAAR SPRING SEMESTER

315. HISTORY OF WESTERN CAPITALISM — A course beginning with the heritage of ancient and medieval economic institutions, tracing the rise of capitalism, and examining the restructuring of the system necessitated by structural changes in society such as: the rise of industrialization, the growth of labor movements, war, and the emergence and domination of the corporation. Prerequisite: Consent of instructor.

THREE HOURS STAFF FALL SEMESTER

401. HISTORY OF ECONOMIC THOUGHT — An introduction to, and critical survey of, the important people and ideas in economic theory. Attention is given to the interaction of ideas and the times, and to the evolution of significant economic doctrines. Prerequisite: Economics 201, and either Economics 301 or 303, or consent of the instructor.

148 THREE HOURS KLAY FALL SEMESTER

402. COMPARATIVE ECONOMIC SYSTEMS — Every economy has to accomplish certain basic tasks: determine what, where, how and how much is to be produced; allocate the aggregate amount of goods and services produced, distribute its material benefits among the members of society; and maintain economic relations with the outside world. The set of institutions established in any society to accomplish these tasks is its economic system. A comparison of these institutions comprises this course.

THREE HOURS RICHARDSON FALL SEMESTER

404. ECONOMIC GROWTH AND DEVELOPMENT — A study of the factors that influence the growth and development of modern economics with particular emphasis on the "underdeveloped nations." Attention will be given to theoretical models as well as the interplay of social, political and cultural phenomena. Prerequisite: Economics 201 or consent of instructor.

THREE HOURS KLAY SPRING SEMESTER

405. MANAGERIAL ECONOMICS — The application of microeconomic theory and quantitative methods to business decision-making problems. Topics covered in the course include demand estimation, empirical cost analysis, pricing policies, linear programming and optimization and decision-making in the presence of risk. Prerequisite: Economics 303.

THREE HOURS CLINE FALL SEMESTER

Economics and Business Administration

410. PUBLIC FINANCE — Study of the role of government in a market economy. The theory and practice of taxation, expenditure analysis and government regulation are examined in terms of their impact on economic efficiency and income redistribution. Topics include benefit-cost analysis, environmental pollution, tax reform, health-care economics, income transfer programs and intergovernmental grants. Prerequisite: Economics 303 or permission of instructor.

THREE HOURS

CLINE SPRING SEMESTER

430. LABOR ECONOMICS — Study of the institutional and economic forces which determine wages and employment in labor markets. Economic theory is used to analyze the impact of various policies on the distribution of income. Topics include the economic effects of unions, minimum wage legislation, investment in human capital, discrimination in labor markets, poverty and transfer programs and the disincentive effects of taxation. Prerequisite: Economics 303 or permission of the instructor.

THREE HOURS

KLAY SPRING SEMESTER

460. ECONOMETRICS — An introduction to the mathematical and statistical tools used in constructing and estimating economic models. Focuses on applications of multivariate regression analysis in the areas of economic forecasting and hypothesis testing. Extensive use of the computer. Prerequisite: Economics 303 and Mathematics 210, or equivalent.

THREE HOURS

CLINE FALL SEMESTER

490. INDEPENDENT STUDIES IN ECONOMICS — Independent studies in advanced economics under the supervision of a designated staff member. Prerequisite: advanced standing in the department and approval of the chairman.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

495. ADVANCED STUDIES IN ECONOMICS — A lecture or seminar in a special topic in advanced economics. Prerequisite: advanced standing in the department and approval of the chairman.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

B — Business Administration

221, 222. PRINCIPLES OF ACCOUNTING — A comprehensive introduction to accounting methods and applications covering two semesters of study. Three hours of lecture and discussion. (2 semester sequence, 3 hours each; 221, fall only, 222, spring only)

SIX HOURS

STAFF

295. STUDIES IN BUSINESS — A lecture or seminar class in a special topic of business for majors and non-majors in business. For example, management of human resources, accounting for managers and real estate have been offered under this topic number.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

321, 322. INTERMEDIATE ACCOUNTING — Continuation of the study of financial accounting theory and practice at the intermediate level. Prerequisite: Business Administration 221 and 222. (321, fall term only; 322 spring term only)

SIX HOURS

STAFF

331. MARKETING PRINCIPLES — The application of contemporary theories of social psychology, management and managerial economics to the marketing of products and ideas. Prerequisite: Economics 201.

THREE HOURS

MUIDERMAN FALL AND SPRING SEMESTERS

Economics and Business Administration

332. MARKETING COMMUNICATIONS — Theories and practices of advertising sales management, promotion and public relations as they relate to the overall marketing program. Findings in communication theory: broad policy and strategy.

THREE HOURS

STAFF

341. BUSINESS LAW — A survey of business law, stressing contracts and including an introduction to sales, agency, negotiable instruments, and partnerships and corporations. Prerequisite: Economics 201.

THREE HOURS

NECKERS, SWANEY

SPRING SEMESTER

343. INSURANCE — Survey of insurance principles and their applications in various fields, with attention also given risk-bearing as such, public supervision and social insurance. Prerequisite: Economics 201.

THREE HOURS

VAN LENTE

351. PRINCIPLES OF MANAGEMENT — Study of modern managerial principles and processes as usually associated with business but important also in the conduct of church, school, and other organizations. Prerequisite: Economics 201 or consent of instructor.

THREE HOURS

MUIDERMAN

FALL AND SPRING SEMESTERS

352. PERSONNEL ADMINISTRATION — Study of the personnel function from the standpoint of principles, methods, and organization with emphasis on the behavioral sciences. Prerequisite: Business Administration 351.

THREE HOURS

STAFF

FALL AND SPRING SEMESTERS

356. QUANTITATIVE MANAGEMENT — Decision making techniques developed in the context of an information-decision system. Examination of quantitative methods used to develop decision models applicable to situations which lend themselves to numerical analysis. Prerequisite: Statistics (Math 210).

THREE HOURS

STAFF

FALL SEMESTER

358. MANAGEMENT — THE BRITISH STYLE — This interdisciplinary workshop explores the culture, politics, and economy of the British along with their values and attitudes via visiting leaders of business and government.

THREE HOURS

RICHARDSON

MAY TERM

359. HUMAN RESOURCE MANAGEMENT — This course is specifically designed for those who want an introduction to basic management concepts. Concepts to be covered include: basic management functions, motivation and leadership, organizational theory, performance setting and appraisals, management by objectives, and participative management. While most of the examples will be taken from business and industry, these same concepts of management are relevant to managers of hospitals and governmental agencies.

THREE HOURS

STAFF

421. COST ACCOUNTING — Continuation of the study of cost accounting theory and practice with particular attention given to cost information systems, cost control, planning of profits and costs, and cost and profit analysis. Prerequisite: Business Administration 222. (Fall term only.)

THREE HOURS

WELDON

SPRING SEMESTER

423. AUDITING — An introduction to basic auditing techniques, audit evidence, statistical sampling in auditing, auditing through and around the computer, and audit reports and opinions.

THREE HOURS

STAFF

FALL SEMESTER

Economics and Business Administration

425. FEDERAL TAX ACCOUNTING — An introduction to federal tax accounting as it relates to income tax for individuals, partnerships, and corporations, as well as federal estate and gift taxes. It is recommended the student have completed Bus. Adm. 322, but not required.

THREE HOURS

WELDON

FALL SEMESTER

447. REAL ESTATE — Both residential and commercial real estate policies and practices are studied in this course. Students will learn the underlying concepts which determine present and future values of real properties. Some emphasis is also given to the concept of planned communities and the political and legal implications of real estate development.

THREE HOURS

TYSSE

SPRING SEMESTER

452. MANAGEMENT PROBLEMS — Advanced case-method study of significant problems arising in the business administration field, integrating subject matter of lower level courses. Special lectures and business simulation techniques are utilized as supplements to case work.

THREE HOURS

MUIDERMAN

FALL SEMESTER

461. INVESTMENT FUNDAMENTALS — Analysis and appraisal of investment alternatives as found in real estate, bonds, and preferred and common stock with emphasis on arrangements and programs meeting needs of individual investors. Prerequisite: Economics 201 and Business Administration 221 and 222.

THREE HOURS

HILL

FALL SEMESTER

464. PRINCIPLES OF FINANCE — Analysis of principles underlying sound financial policy and procedure; financial planning and control; sources of short-term and long-term funds; management of assets; and problems of valuation, combination, dissolution, and liquidation. Prerequisite: Business Administration 221, 222.

THREE HOURS

GENTENAAR

FALL AND SPRING SEMESTERS

490. INDEPENDENT STUDIES IN BUSINESS — Independent studies in advanced business under the supervision of a designated staff member. Prerequisite: advanced standing in the department and approval of the chairman.

ONE, TWO or THREE HOURS

STAFF

ANY SEMESTER

151

495. ADVANCED STUDIES IN BUSINESS — A lecture or seminar in a special topic in advanced business and accounting. For example, international business, auditing, tax accounting and other advanced courses are offered under this number. Prerequisite: advanced standing in the department and approval of the chairman.

ONE, TWO or THREE HOURS

STAFF

ANY SEMESTER

499. MANAGEMENT INTERNSHIPS — This course is a practical experience for students. It enables them to make use of their classroom knowledge in an organizational setting. Interns are supervised by organizational managers. Placements are made in the Holland-Zeeland area.

THREE HOURS

STAFF

ANY SEMESTERS

EDUCATION

MR. BULTMAN, CHAIRMAN; MR. BAKKER, MR. DIRKSE, MRS. MILLER, MISS MOOY, MR. PAUL, MR. SCHACKOW*.

The Education Department seeks to prepare students to teach in the elementary and secondary schools of our nation. To fulfill the requirements for graduation and certification each student planning on a professional teaching career must complete a major in an academic field, a minor and the professional education sequence. This sequence introduces the student to the theoretical foundations of creative and responsible teaching and, simultaneously, helps the prospective teacher acquire those teaching skills that make for effective teaching. An integrated field-theory approach to teacher preparation permeates the entire professional education sequence. Students become progressively more involved in field experiences and participate in increasingly more complex teaching styles as they proceed through the program. This preparation model has been replicated with enthusiasm throughout the country.

Currently, Hope students planning to teach are participating in many activities:

- some are tutoring students in classroom situations
- some are Big Brothers or Big Sisters in our Higher Horizons Program
- some are assisting in Special Education classes
- some are working with small groups of students in local schools
- those student teaching have a choice of inner-city schools in large metropolitan areas, schools in suburban settings, schools in Western Michigan, schools in rural settings, and American schools overseas.

152

Many students go on to graduate schools and focus their attention in special areas of education such as:

Reading, Curriculum Development, Administration and Counseling

Even in today's "tight" job market, graduates from Hope's Education Department have been very successful. Last year Hope graduates seeking teaching positions were placed in schools in this country and abroad at a rate considerably above the national average. The Education Department actively recruits students who possess academic promise, interpersonal and pedagogical skills and who, at the same time, aim for excellence in the teaching and educational vocations.

In addition to classroom teaching, graduates from the Education Department are currently serving as:

- personnel directors in public and private educational systems
- superintendents of local school systems
- counselors at high schools
- curriculum development consultants for major industrial firms
- teachers in "open-classroom" schools
- resource room teachers in special education programs

ELEMENTARY AND SECONDARY PROGRAMS — Students planning to teach in the elementary and secondary schools must be formally admitted

*On leave Fall 1982.

to the Teacher Education Program. Requests for admission should be made during the sophomore year. Information concerning admission criteria and procedures is available in the office of the Education Department.

Teacher education graduates will qualify for a teaching certificate from the State of Michigan. Although teaching requirements vary among states, the Michigan certificate through reciprocal certification agreements is valid in most other states. Students desiring to teach outside of Michigan should confer with the Education Department's Director of Certification for specific requirements.

In fulfilling the requirements for a teaching certificate in the State of Michigan, the Hope College student must do the following:*

1. Secure formal admission to the Teacher Education Program.
2. Complete Psychology 100 before entering any course in the Department of Education.
3. Complete the Professional Education Sequence which has been established:
 - a. Elementary — Complete Education 220, 280, 310, 315 +, 330 +, 470, 500.
 - b. Secondary — Complete Education 220, 295 +, 330 +, 360, 480 or 485, 500, and a special methods course in the major or minor field.
 - c. A "C" or better grade is required in student teaching.
4. Complete the minimum requirements for the major and minor sequences.
 - a. Elementary: Selected majors of 30 hours or a composite major of 36 hours and a substantive minor of 20 hours, a regular academic minor of 20 hours, or a composite minor of 24 hours.
 - b. Secondary: A major of 30 hours and a minor of 20 hours or a composite minor of 24 hours. Composite minors may be obtained in Natural Science and Social Science only. The 24 hours must be in no more than 3 disciplines with a 12 hour core in one discipline.
5. Satisfy the general requirements for the A.B., B.M., or the B.S. degree at Hope College.

Students are urged to plan their programs carefully and should begin early in their college career. It is suggested that students enroll in Education 220 during their sophomore year and reserve one semester of the senior year for the professional semester program, during which they will take specified education courses as well as student teaching. Requests for student teaching should be made in the junior year. No student will be allowed to student teach who has not been admitted to the Teacher Education Program. Arrangements for student teaching have been made with the school systems in Western Michigan. The Michigan Certification Code requires that a student have a 2.0 average before being assigned to student teaching; the college also requires that the student have a 2.3 grade point average in his/her major. All students seriously considering teaching in the elementary school should enroll in the special science program for elementary teachers. This program includes the following two courses: Biology-Physics 245, Science for the Elementary Teacher; Chemistry-Geology 246, Science for the Elementary Teacher. These courses will fulfill the science requirement for graduation. Students are also encouraged to enroll in the math program for elementary teachers which includes Math 205 and 206. Students have an op-

*State of Michigan requirements are subject to periodic change. Students must meet State of Michigan requirements for teacher certification in effect at the time application is made for certification.

+ Compliance date July 1, 1983.

Education

portunity to fulfill their student teaching experience in urban situations, in suburban areas, in rural places, or in overseas assignments. Some students fulfill this requirement in Philadelphia in our Urban Semester program or in Chicago at the Metropolitan Center.

Special Education: The Department of Education offers two K-12 special education majors in the areas of the Emotionally Impaired and Learning Disabled. Students may follow either the elementary or secondary professional education sequence for these two majors. This is a competitive program. Students must meet application deadlines and receive favorable course and field evaluations to continue.

K-12 Teaching Specialists: In the areas of Art, Music, and Physical Education, Hope College offers K-12 programs for Teaching Specialists. Students are asked to follow the secondary professional education sequence for such majors.

The Education Department provides each student desiring certification a comprehensive **Handbook** which outlines all program sequences and includes appropriate application forms and pertinent teacher education program information.

Students desiring additional program information should contact Hope's Education Department Office.

PLACEMENT — Special efforts are made by the Placement Office to help teacher candidates secure teaching positions but the college does not guarantee to place students in positions. Credentials must be completed during the semester in which the student does student teaching. They are then placed on file in the Placement Office.

ACCREDITATION — Hope College maintains membership in the American Association of Colleges for Teacher Education. Its teacher education programs are approved by the Michigan Department of Education and fully accredited by the National Council for Accreditation of Teacher Education.

220. EDUCATIONAL PSYCHOLOGY — The growth and development of childhood in all phases, but with special stress on mental development. Careful study of the learning process with implications for teaching and guidance.

FOUR HOURS

SCHACKOW BOTH SEMESTERS, SUMMER

253. INTRODUCTION TO LEARNING DISABILITIES — An initial, introductory view of learning disabilities will be presented. The student will demonstrate knowledge of terminology and the major educational approaches utilized in working with learning disabled children.

THREE HOURS

STAFF FALL SEMESTER

254. THE LEARNING DISABLED CHILD — Focus will be upon the relationship of the brain to learning, the manifestations of learning disabilities in academic performance of children, and the behavioral concomitants found in learning disabled youngsters. Techniques for screening youngsters for the purpose of initial and early identification of possible learning disabilities will be developed.

THREE HOURS

STAFF SPRING SEMESTER

265. SOCIOLOGY OF EDUCATION — Education from the institutional perspective, as an agency of socialization, analysis of various school and community relation-

Education

ships and discussion of the responsibility of both for the educational program of the community, and the relationship in general between society and education. Prerequisite: Education 220. Same as Sociology 265.

THREE HOURS

LUIDENS

SPRING SEMESTER

280. TEACHING OF READING — a study of the approaches used in the teaching of reading on an individual, small group and classroom basis. Included will be a study of the principles involved in developing a reading program, the equipment and materials available for use in the classroom, and the tools used to identify reading problems.

THREE HOURS

DIRKSE

BOTH SEMESTERS, MAY TERM

295. STUDIES IN EDUCATION — This course is designed to allow students at the Sophomore and Junior level to become involved in studies in special interest areas. Prerequisite: Permission by chairman of department.

ONE, TWO or THREE HOURS

STAFF

ANY SEMESTER

300. ELEMENTARY MUSIC METHODS — A practical presentation of how to teach music to school children, using simple instruments, functional piano playing, demonstration of methods and materials. Designed for the classroom teacher. Juniors and Seniors. Class piano or note reading ability strongly recommended prerequisite.

THREE HOURS

HOLLEMAN

BOTH SEMESTERS

301. DEVELOPING VISUAL AWARENESS — Designed for the art major, this course investigates the many facets of creative development from childhood to adulthood. Materials and techniques suitable for teaching and supervising art as a major subject are emphasized and methods of guiding and motivating creative expression K-12 are observed, discussed and practiced. Not open to students who have taken Art 340. No prerequisites.

THREE HOURS

STAFF

EITHER SEMESTER

305. LANGUAGE ARTS FOR THE ELEMENTARY TEACHER — A study of the many components of an integrated, comprehensive language arts program in the elementary school (among them vocabulary, grammar, usage, spelling, sentences, creative writing, handwriting). Emphasis is on the content of each area, related research, and appropriate methodology. Recommended for all students who have been approved for the teacher education program by the Education Department.

TWO HOURS

MILLER

BOTH SEMESTERS

310. ELEMENTARY CURRICULUM AND METHODS — An examination of the modern elementary school curriculum — its philosophy, structure, organization, and methods. Includes general principles and practices that are applicable to all areas of the curriculum, as well as specific principles and practices for the teaching of Language Arts, Reading, Social Studies, Arithmetic, and Science, AND THE Recreative Arts. The basics of Audio-Visual operation and production are also included. Students spend approximately 25 hours of the semester in elementary classrooms, teaching self-prepared units in these six subject areas. Recommended for the junior year. Prerequisite: Education 220 or permission of instructor.

EIGHT HOURS

PAUL

BOTH SEMESTERS

315. DIAGNOSIS AND TREATMENT OF READING PROBLEMS — This course is designed to provide experience in recognizing, diagnosing, and treating reading problems. Given the results of a diagnosis of a reading problem, the student will prescribe a system of treatment and compensation for the individual child. Prerequisite: Education 280.

THREE HOURS

DIRKSE

BOTH SEMESTERS, JUNE TERM

Education

321. TEACHING OF SOCIAL STUDIES IN THE SECONDARY SCHOOL — Methods and material used in teaching the social studies at the junior and senior high school levels. Studies of procedures, curricular practices in various systems, teaching aids, trends, preparation of resource teaching units, evaluation, etc. Alternate years 1983-84.

TWO HOURS

BAKKER

FALL SEMESTER

323. TEACHING OF MATHEMATICS IN THE SECONDARY SCHOOL — Methods of teaching mathematics with emphasis on new approaches, curriculum changes, trends in modern mathematics, and history of mathematics.

TWO HOURS

STEKETEE

FALL SEMESTER

330. THE EXCEPTIONAL CHILD — A psychological study of the child who deviates markedly from the norm of his group, mentally, physically, or socially, so as to create a special problem in regard to his education, development, or behavior. Special attention is directed toward the following groups of exceptional children: mentally impaired, gifted, emotionally impaired, visually-, physically-, and speech-handicapped, deaf, hard-of-hearing, and learning disabled. Prerequisites: Psychology 100 or Education 220. Same as Psychology 330.

THREE HOURS

MOOY

BOTH SEMESTERS

331. TEACHING OF SCIENCE IN THE SECONDARY SCHOOL — Methods of teaching science at the secondary school level. Emphasis is placed on materials and techniques for the teaching of Biology, Chemistry, Geology, and Physics. Alternate years 1982-83.

TWO HOURS

BULTMAN

FALL SEMESTER

335. CREATIVE DRAMA TECHNIQUES — Emphasis is on techniques such as improvisation, playmaking, story dramatization, role-playing, creative movement, and creative speech to be used by prospective elementary and secondary teachers and recreation or drama leaders. Course includes observation sessions, studio participation, evaluated practicum experience, a survey of literature in the field, and dramatic education seminars. Recommended for education, theatre, and physical education majors especially. No prerequisites in theatre or education. May be taken as a special methods course in education.

TWO HOURS

STAFF

340. ART EDUCATION FOR ELEMENTARY EDUCATION STUDENTS — A study of the child's creative and mental growth through art education. Acquaints the student with the means by which the child's development might be stimulated and achieved. The student participates both in creative studio work and in discussions of the basic principles and techniques of art education. Prerequisites: Art 101 or permission.

TWO HOURS

STAFF

345. TEACHING PHYSICAL EDUCATION AND RECREATION IN THE ELEMENTARY SCHOOL — Acquaints the student with the games, rhythms, story-plays, and other physical activities suitable for each of the elementary grades. Attention is given to objectives and methods of organization. Each student is required to do practice teaching in these activities as part of the class work. Elective for prospective elementary teachers.

THREE HOURS

VAN WIEN

FALL SEMESTER

343, 344, 347, 348. Special methods courses for the secondary and K-12 physical education major. See the Physical Education and Recreation section of this catalog for course descriptions.

355. AUDIO-VISUAL COMMUNICATIONS — Problems of production and usage are considered together with the communication impact of media presentations.

THREE HOURS

PAUL FALL SEMESTER

360. SECONDARY PRINCIPLES AND METHODS — A study of secondary schools, their origins, purposes, curriculum, principles, and general methods and materials of teaching. The course is designed, along with special methods courses in several academic areas, to prepare students for teaching in junior or senior high schools.

FOUR HOURS

BULTMAN BOTH SEMESTERS, SUMMER

370. SECONDARY INSTRUMENTAL METHODS AND ADMINISTRATION — Problems peculiar to the teaching of instrumental music in both class and private instruction. Sections will be devoted to the selection of text and music, the selection, care, and repair of orchestral instruments, and the marching band. The requirements for the first two years as a music major are advisable as a prerequisite. Alternate years, 1983-84.

THREE HOURS

STAFF FALL SEMESTER

372. TESTS AND MEASUREMENTS — An introduction to the purposes, the construction and the interpretation of tests of psychological and educational differences and uniformities. Prerequisite: Math 210. Same as Psychology 400.

THREE HOURS

STAFF FALL SEMESTER

373. DIAGNOSTIC AND PRESCRIPTIVE SYSTEMS IN SPECIAL EDUCATION — Knowledge and practical use of various diagnostic-evaluative instruments will be emphasized. Students will demonstrate competency in administering various diagnostic tools and following analysis will write appropriate prescriptive programs.

FOUR HOURS

STAFF SPRING SEMESTER

375. SECONDARY METHODS AND MATERIALS — The study and observation of secondary level teaching techniques in the vocal general music class with examination of materials and emphasis upon administrative responsibilities. Alternate years, 1982-83.

TWO HOURS

HOLLEMAN SPRING SEMESTER

376. SECONDARY CHORAL METHODS — The study and observation of secondary teaching techniques, with examination of materials. Open to junior and senior music majors only, others by permission of instructor. Offered alternate years, 1982-83.

TWO HOURS

STAFF FALL SEMESTER

378. TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE — A survey of procedures and materials for teaching English as a second or foreign language. Emphasis will be placed on developing basic aural-oral abilities, reading and writing skills. Recommended for majors in English, Communication or Language Arts who plan to teach in inner city schools. Prerequisite: Any one of the following: Education 220, Education 310, Education 360, English 355, Linguistics 364, or Psychology 220.

TWO HOURS

POWELL SPRING SEMESTER

380. TEACHING OF ENGLISH IN THE SECONDARY SCHOOLS — A study of and experience in applying methods of teaching grammar, discussion, literature, and composition in the secondary schools. Same as English 380.

THREE HOURS

VANDER ARK FALL SEMESTER

381. TEACHING RELIGION IN SECONDARY SCHOOLS — Methods of teaching the academic study of religion at the secondary level. Emphasis is placed on legality, curriculum, methods, and materials of instruction.

TWO HOURS

BULTMAN ANY SEMESTER

Education

384. TEACHING OF FOREIGN LANGUAGES — Methods of teaching French, Spanish, German and Latin at the elementary school, high school, or college levels. Required of those planning to teach these languages in the secondary school. Alternate years 1982-83.

TWO HOURS

McCARTHY FALL SEMESTER

388. THE TEACHING OF SPEECH/COMMUNICATION — Procedures, materials and methods for conducting the varied activities required of a speech teacher such as conducting classes, directing dramatics and forensics, evaluation of texts, assignments, and types of examination. Offered alternate years, 1982-83. Prerequisites: A major or minor in Communications.

TWO HOURS

STAFF FALL SEMESTER

393. CURRICULUM AND METHODS IN SPECIAL EDUCATION — Curricular methods and materials appropriate for instruction of learning disabled and emotionally impaired children will be studied. Emphasis will be placed upon a systematic structuring of the competency based curriculum objectives to meet the needs, present status of and evolving improvement of the child.

FOUR HOURS

MOOY BOTH SEMESTERS, SUMMER

393 Lab. SECONDARY SPECIAL EDUCATION DEVELOPMENTAL LAB — A practical look at the characteristics of the Secondary Special Education Student. Organizational procedures and the use of methods and materials appropriate to the secondary student will be explored.

ONE HOUR

MOOY BOTH SEMESTERS, SUMMER

395. MARCH TO HOPE — A week long multicultural backpacking/survival experience. Each participant is paired with a disadvantaged area youth. A challenging environment aids in the development of meaningful individual and group relationships. Includes course requirements prior to and after the March.

TWO HOURS

SCHAKOW SUMMER SEMESTER

158

443. STUDENT TEACHING OF EMOTIONALLY IMPAIRED — Student teaching, supervised by the Education Department, is done in cooperation with school systems in Western Michigan. To provide a field-based learning experience and a vehicle for application of previously acquired knowledge, the student will be placed in a classroom for emotionally impaired children. A Tuesday evening student teaching seminar is required. Students must apply for this student teaching assignment by January 20 of their Junior year.

SIX HOURS

MOOY BOTH SEMESTERS

444. INTERNSHIP IN LEARNING DISABILITIES — This field-based learning experience, supervised by the Education Department, is done in cooperation with area school systems. The student will be placed in a learning disabilities classroom for the purpose of making application of previously acquired knowledge. A Tuesday evening student teaching seminar is required. Students must apply for this internship by January 20 of their Junior year.

SIX HOURS

MOOY BOTH SEMESTERS

ENGLISH

MR. SCHAKEL*, CHAIRMAN; MR. COX, MR. FIKE, MS. HARRINGTON, MR. HEMENWAY, MR. HUTTAR, MR. JAMES, MR. JELLEMA*, MR. REYNOLDS, MR. RIDL, MS. TAYLOR, MS. VERDUIN. Assisting Faculty: MS. JELLEMA, MS. MARTINEAU, MS. MEZESKE, MS. PEPOY, MR. POWELL, MR. RAIKES, MR. VANDER ARK. Visiting Faculty: MS. WALHOUT.

The varied program of the Department of English is designed to meet the needs of the student who wishes to pursue the study of the English language and its literature in depth or the student who wishes to develop special skills in the art of writing, either for their intrinsic worth or in preparation for a specific career. Its major programs reflect these different objectives.

For the potential poet, novelist, journalist or feature writer there is a major program which includes a study of much of the best writing of the past but focuses on courses in writing — some in the *belles lettres* form, others in more technical areas. Students majoring in English with this writing emphasis are encouraged to become involved in one or more of the following activities:

- writing for or editing *Opus*, the student literary magazine
- competing for the Eerdmans Awards for best original poetry and prose
- serving on the staff of the *anchor*, the student newspaper
- participating in poetry reading sessions
- engaging in dialogue with visiting literary artists
- spending a semester in New York as a writing "apprentice" in the GLCA Arts Semester or in another off-campus program

160

For the major with primarily literary interests, there is a broad spectrum of courses in English and American literature, culminating in special seminars in writers such as Swift, Faulkner, Lawrence and Twain, and individual research projects. The college library is the laboratory for these majors, and it holds an excellent collection of primary and critical materials on literary masters from Chaucer to Bellow, Roethke and Albee. Many majors are planning on a career as teachers of English. For them there is a specially designed course pattern aimed at preparing them for the varied roles of the English instructor, at the secondary or collegiate level, or even in schools in a foreign country, in which English is taught as a second language. Students in such majors, in addition to some of the activities listed above, also have other special opportunities, such as:

- assisting Hope English faculty as student associates and discussion leaders in underclass courses
- participating in monthly literature colloquia
- reading papers at the annual GLCA Literature Conference
- mini-teaching or student teaching in the public schools
- tutoring underprivileged children in the community
- the Academic Skills Center

A majority of the graduates of this department in the past have moved in the direction of teaching, and frequently this has meant graduate study at major

*On leave fall semester, 1982-83.

**On leave spring semester, 1982-83.

universities throughout the country. Many have gone into the ministry. Increasingly, majors are entering fields that call for writing skill. Here are some interesting occupations that English majors have moved to:

- Dean of a liberal arts college
- President of a theological seminary
- Planner-evaluator in employment program (CETA)
- Friend of the Court, Ottawa County
- Editor in a publishing company
- Manager of a college book store
- Advertising copy writer
- Executive secretary of the Board of Foreign Missions, RCA
- College reference librarian

All students are required to take a course in composition and a course in literature as part of the general degree requirements. Course 113 in composition and courses 231 and 232 in literature are intended to meet these basic requirements. English 113 is prerequisite to all other writing courses, and 231 or 232 or 249 is prerequisite to all literature courses numbered above 300, except by special permission of the department chairman.

MAJORS: Concentration in English prepares students for a wide variety of careers as well as for responsible and personally rewarding avocational pursuits. The basic major is supplemented by elective courses within and outside the department to fit the individual student's interests and needs. See "Guidelines" below, and inquire at English office for career information.

The basic major is a minimum of 30 credit hours of English courses numbered 200 or above. Intermediate level proficiency in a foreign language is valuable for all English majors and is essential for those proceeding to graduate study in the field. The major must include the following:

1. Practical criticism (249), preferably taken in the freshman or sophomore year.
2. World Literature I (231).
3. Two courses in American literature (301, 302, 305, 332, or 338) including at least one of the first three listed.
4. Three courses in English literature:
 - a. Two courses from one of the columns below.
 - b. One course from the other column: a semester of the English Literature Survey (311 for column I, or 312 for column II) may be substituted.
 - c. Persons in elementary education may use 311, 312, and 325 to fill this requirement.

I
361 Chaucer and his Times
363 Spenser and his Times
372 Seventeenth Century
374 Eighteenth Century

II
330 The English Novel
376 Poetry of Romantic Movement
378 The Victorian Age

5. A course on the English Language (355 or 356).
6. A course that focuses on a major writer (364, 369, or in some cases 490 or 495).
7. Electives.

Guidelines for the English Major with Special Professional Goals

Among the options available to the student in the above program, certain courses are particularly recommended as part of the preparation for specific goals. Variation from these guidelines should be discussed with the major advisor.

- A. Elementary Teaching: 325, Children's Literature; 355, Modern English Language; 364, Shakespeare; 305, Major American Writers or 301, 302, Survey of American Literature; 311, 312, Survey of English Literature.

English

- B. Secondary Teaching: 355, Modern English Language; 364, Shakespeare; 301, 302, Survey of American Literature; three courses in English Literature; upper level electives.
- C. Graduate Study in English: Two courses in American Literature; three courses, preferably period courses, in English Literature; 364, Shakespeare; an advanced studies course (490 or 495); electives from upper level courses. (This major should approximate 40 hours.)
- D. Writing & Editing: One or more advanced writing courses; literature electives. (This major should approximate 35 hours.) Cognate courses in Communication are recommended.

For other kinds of professional preparation (e.g. business and industry, pre-law, pre-seminary, pre-med, foreign service, librarianship) the specific recommendations in English are less prescriptive and the student should, with his advisor's help, tailor a program to his own needs.

Internship programs are available for English majors having specific career interests such as writing, librarianship, and business. The student may devote part-time or full-time for a semester to such programs, either in Holland or off-campus. For information, inquire at the departmental office.

For students planning to apply for a secondary teaching certificate with an English minor, the department offers an advising program to guide them in course selection. At the time of entering a major they should also apply for an English minor on forms available at both the English and education offices.

Changes in the department's curricular offerings are initiated in departmental meetings, which are open to visitors. Proposals are invited from interested students or groups of students for 295 and 495 topics.

MINORS IN ENGLISH: a teaching minor consists of 24-25 hours, including 113, 231, 232 (all core requirements as well as minor requirements), 249, 305, a course in English literature, a course in fiction or drama, and a course in linguistics (355, 356) or writing (213, 254). English 380 (Methods of Teaching English) is required for a teaching minor in English. Pick up application form in English Department. For further details, consult the advisor for English minors, Professor Taylor.

General minor in English consists of 20-21 hours: 231 and 249, 213 or 254, plus 12 hours above 300, at least 6 of which must be numbered 315 or above. 232 (World Literature) can be substituted for 3 of the 12 hours above 300. Pick up application form in English Department. For further details, consult the advisor for English minors, Professor Taylor.

Academic Skills Center (Graves Hall basement)

A full description of this no-fee service is given on page 42.

ENGLISH 010. ACADEMIC SKILLS CENTER — Individual assistance is offered daily at scheduled times to help the student improve writing skills, study skills, and reading rate and comprehension. The student may seek these services voluntarily, be referred to the Center by one of his teachers, or even be required for a particular course to do work in the Center. In the last instance, the student registers formally for English 010.

NON-CREDIT

STAFF

Writing

090. WRITERS' WORKSHOP — Participants submit their current creative writing and meet regularly for critical discussion of the manuscripts submitted. Offered year-round, subject to enrollment. No credit or honor points will be given toward graduation.

STAFF BOTH SEMESTERS

101. ENGLISH AS A FOREIGN LANGUAGE (EFL) — A special course for foreign students who need improvement in English language proficiency. Emphasis is placed on improvement in speaking, comprehension, reading, and writing. Normally required of foreign students before taking the English 113 requirement or a full academic load. Credit hours to be determined by foreign students' advisor on basis of test scores; hours count as elective credit; pass/fail grade. Classroom work plus laboratory work (language laboratory and/or Academic Skills Center), as individual needs dictate.

FOUR TO NINE HOURS

POWELL BOTH SEMESTERS

113. EXPOSITORY WRITING I — This course encourages students to explore ideas through reading, discussion, and writing. The emphasis is on development of writing abilities. The area of exploration varies with individual instructors: consult department for current list. 1981-82 topics included: Writing about Literature, Rhetorical Methods, Crime and Punishment, Ghosts, Monsters, Detective Fiction, J.R.R. Tolkien, Roles and Relationships, Foxfire Holland, Passages, Images of Women in Literature, Other Lives/Other Views, C.S. Lewis, Choices We Make, Search for Meaning, and O Pioneers! Not counted toward an English major.

FOUR HOURS

STAFF BOTH SEMESTERS

213. EXPOSITORY WRITING II — A course designed to further the student's ability to write effective expository prose. For students in any discipline. Specific variants of the course include Business Writing (Mezeske, both semesters) and Legal Writing (D. Jellema, spring semester). Prerequisite: English 113.

TWO HOURS

STAFF BOTH SEMESTERS

254. CREATIVE WRITING — For students who wish to practice the fictive forms of writing (poetry, fall semester; stories, spring semester). Prerequisite: English 113.

THREE HOURS

JELLEMA, RIDL BOTH SEMESTERS

340. PLAYWRITING — Practice in the art of writing for the stage or screen. Students will move from work on selected special problems to the writing of full one-act or longer scripts. Whenever possible provision will be made for reading performances of work-in-progress; and in cases of exceptional merit arrangements may be made for public performance or screening of a finished script. Course is offered jointly with the theatre department (same as Theatre 240). Offered at student request, but no more frequently than every other year (not offered 1982-83). Prerequisite: permission of the instructors.

THREE HOURS

RIDL FALL SEMESTER

359. APPRENTICESHIP IN WRITING — IDS 349, Apprenticeship in Writing, may be awarded up to 8 hours of English credit at the discretion of the department. This course may be taken as part of the Chicago, Philadelphia, or Washington Semester Program, or by individual arrangement through the department with a local host company or agency.

389. GLCA ARTS PROGRAM — The Great Lakes Colleges Association Arts Program, presently based in New York City, involves the student in a full semester study and

English

involvement in the arts. At the discretion of the department, a portion of the credits earned in this semester may be applied toward the student's major requirements. Otherwise, the credits will be understood to constitute elective hours within the department.

SIXTEEN HOURS (MAXIMUM)

EITHER SEMESTER

454. ADVANCED CREATIVE WRITING — A seminar for those who wish to continue writing. Each student will work on a major project. Prerequisite: English 254. Offered alternate years, 1983-84.

THREE HOURS

JELLEMA

SPRING SEMESTER

Literature

(Literature offerings for 1983-84 may be altered by a departmental curriculum revision.)

231. WORLD LITERATURE I — A study of world masterpieces in translation through the Renaissance. Meets part of the Cultural Heritage requirement.

THREE HOURS

STAFF

BOTH SEMESTERS

232. WORLD LITERATURE II — A study of world masterpieces since the Renaissance. Meets part of Cultural Heritage requirement.

THREE HOURS

STAFF

BOTH SEMESTERS

241. BLACK LITERATURE — An intensive examination of selected prose and poetry of black American authors. Offered alternate years, 1983-84.

THREE HOURS

HEMENWAY

SPRING SEMESTER

VERDUIN

SPRING SEMESTER

305. MAJOR AMERICAN WRITERS — Study of selected American writers of the 19th and 20th centuries. Not open to students electing English 301 or 302.

THREE HOURS

HARRINGTON

FALL SEMESTER

311. SURVEY OF ENGLISH LITERATURE I — English literature from its beginnings to the eighteenth century.

THREE HOURS HEMENWAY FALL SEMESTER

312. SURVEY OF ENGLISH LITERATURE II — English literature from the Romantic period to the present. English 311 not a prerequisite.

THREE HOURS HEMENWAY SPRING SEMESTER

325. CHILDREN'S LITERATURE — An introduction to the authors, illustrators, and publications in the field of children's literature. Traditional literature, representative modern writings, and award-winning books are studied in their historical context and as guides to determining principles for interpreting and evaluating juvenile books as literature. Required of majors planning on elementary teaching.

TWO HOURS M. JELLEMA, WALHOUT BOTH SEMESTERS

330. THE ENGLISH NOVEL — The structure and content of the English novel from Defoe to Joyce. Alternate years, 1983-84.

THREE HOURS SCHAKEL SPRING SEMESTER

332. THE AMERICAN NOVEL — American novels from Hawthorne to Doctorow.

THREE HOURS VERDUIN FALL SEMESTER

334. THE MODERN EUROPEAN NOVEL — The nineteenth and twentieth century influences on the novel from Balzac to Camus. Not offered 1982-83.

THREE HOURS SPRING SEMESTER

335. THE ENGLISH LYRIC — A critical history of the short poem in English from its beginnings in Middle English to its modern forms. Not offered 1982-83.

THREE HOURS FIKE FALL SEMESTER

338. MODERN POETRY — Study of major poets of twentieth-century England and America.

THREE HOURS JELLEMA SPRING SEMESTER

345. MODERN DRAMA IN ENGLISH — A study of representative English, Irish, and American drama of the twentieth century. Examination of drama as an art form and as an expression of contemporary social and personal issues. Includes writing representative of minority groups. Not offered 1982-83.

THREE HOURS SPRING SEMESTER

349. HISTORY OF LITERARY CRITICISM — Examines the major schools of Western literary critical thinking from antiquity to the present in an effort to acquaint the student with the history and method of the shapers of critical theory and technique as well as the arbiters of style and taste in literature. Prerequisite: junior or senior standing. Not offered 1982-83.

THREE HOURS FIKE FALL SEMESTER

361. CHAUCER AND HIS TIMES — The course emphasizes Chaucer's poetry, with special attention given to *The Canterbury Tales* and *Troilus and Criseyde*. Knowledge of Middle English not a prerequisite. Offered alternate years, 1983-84.

THREE HOURS REYNOLDS FALL SEMESTER

363. SPENSER AND HIS TIMES — The English Renaissance in the non-dramatic literature. The course aims to study literature as an expression of the new concepts that marked the sixteenth century. Offered alternate years, 1982-83.

THREE HOURS HUTTAR FALL SEMESTER

English

364. SHAKESPEARE'S PLAYS — The most important plays of Shakespeare in chronological order to show the evolution of Shakespeare as a dramatist.

THREE HOURS COX BOTH SEMESTERS

369. MILTON — Primarily a study of Milton's poetry with some attention to his prose. Offered alternate years, 1982-83.

THREE HOURS HUTTAR SPRING SEMESTER

372. SEVENTEENTH CENTURY — Study of representative prose, poetry and drama of seventeenth-century England, with emphasis on the earlier period. Shakespeare and Milton excluded. Offered alternate years, 1983-84.

THREE HOURS HUTTAR SPRING SEMESTER

374. EIGHTEENTH CENTURY — English prose and poetry, 1660 to 1800, with emphasis on the satires of Dryden, Swift, and Pope. Offered alternate years, 1982-83.

THREE HOURS SCHAKEL FALL SEMESTER

378. THE VICTORIAN AGE — Selected Victorian poetry and prose in the light of the social and intellectual background of the age, 1832-1901. Offered alternate years, 1982-83.

THREE HOURS FIKE SPRING SEMESTER

395. SUMMER SEMINARS: LITERATURE — A short-term study of an area in literature or language not covered in the regular course listings. Offered in one-week concentrated summer seminars for one or two hours credit. Created for residents of Holland and the surrounding communities, but open to college students as well. Courses offered in 1982: Three Women Writers: Chopin, Porter, and Atwood; Contemporary American Poetry; The American Family in Modern American Drama. Individual course titles will be announced by mid-April of each year.

ONE or TWO HOURS STAFF SUMMER ONLY

Language

355. THE MODERN ENGLISH LANGUAGE — Examination of traditional, structural, and transformational models for analyzing the structure of contemporary American English.

THREE HOURS REYNOLDS FALL SEMESTER

356. HISTORY OF THE ENGLISH LANGUAGE — Study of the principles and phenomena of language change through an examination of changing forms and meanings in English from the earliest times to the present day.

THREE HOURS REYNOLDS SPRING SEMESTER

Linguistics 364 may be substituted to fulfill the major requirement of a course on the English language, but will not count toward the 30 hours in the major field.

Teaching

380. TEACHING OF SECONDARY SCHOOL ENGLISH — A study of and experience in applying methods of teaching grammar, discussion, literature, and composition in the secondary school. Required for Secondary Certification. Not credited toward En-

English major or minor, unless taken as a second methods course. Should be taken after or concurrently with Education 360, and before student teaching.

THREE HOURS

VANDER ARK

FALL SEMESTER

See also Education 378, Teaching English as a Second or Foreign Language, which may also be advisable for students to elect when appropriate to their special vocational goals.

385. SUMMER SEMINARS: TEACHING — A short-term study of methods of teaching primary or secondary English in one of these areas: grammar, discussion, literature, composition. Intended for prospective and practicing teachers. Available for one or two hours credit. This workshop is not a substitute for English 380, Teaching of Secondary School English. English 385 will be offered only as a one-week concentrated summer seminar. Offered in 1982: Teaching Writing to Elementary Students. Individual course titles will be announced by mid-April of each year.

ONE or TWO HOURS

STAFF

SUMMER ONLY

Readings and Research

490. INDIVIDUAL STUDY — An individual research project, investigating some topic in depth and culminating in a paper that demonstrates literary scholarship and independent thought. Students who meet the Honors Project eligibility and present a paper that meets the standards established will have the course recorded as an Honors Project. May be repeated for additional credit, with a different project. Not limited to the senior level. Prerequisite: departmental acceptance of application (forms available in department office).

TWO or THREE HOURS

STAFF

BOTH SEMESTERS

495. ADVANCED STUDIES — A seminar in some field designated by the instructor. Preparation and presentation of research papers are central to the course. Prerequisite: previous work in or related to the designated field. May be repeated for additional credit in a different field of study. Recent offerings include: Early English Drama; James Joyce; The Bible in English Literature; C.S. Lewis; and American Short Fiction. Scheduled for 1982-83: Thoreau (Ridl, spring semester); Medieval Drama (Cox, spring semester).

THREE HOURS

STAFF

BOTH SEMESTERS

499. READINGS IN LITERATURE — Designed to fill in gaps in knowledge of important authors and works and of major trends and patterns. Readings under tutorial supervision of an instructor assigned by department chairman. Prerequisite: departmental acceptance of application (forms available in department office).

FOREIGN LANGUAGES AND LITERATURES

MRS. TODD, CHAIRPERSON; MR. AGHEANA, MR. BELL, MR. CREVIERE, MR. DE HAAN, MS. MC CARTHY*, MS. MOTIFF, MR. NYENHUIS, MS. SEARLES, MRS. STRAND, MR. WELLER. Assisting Faculty: MR. POWELL.

The Department of Foreign Languages and Literatures seeks to lead students to a more complete understanding of the structure and role of language in human society, to an understanding and open-minded tolerance of the culture of the people who speak a language other than their own, and to the development of the ability to communicate in a language other than their native tongue. Instruction is offered in French, German, Greek, Latin, Russian and Spanish. Some courses are primarily designed to increase fluency in speaking, reading and writing. Others stress the patterns of life and thought and the great works of literature written in that language.

Since appreciation of other cultures and fluency in the use of another language is greatly enhanced by maximum immersion in the culture and constant challenge to use the language, the department sponsors many supplementary activities, in which majors normally take an active part:

- language clubs
- special language tables in the dining halls
- language houses (German, French, and Spanish) in each of which resides a native speaking student who provides conversational leadership and tutoring
- foreign films
- semester or year abroad or summer programs, such as
 - the French semester or year program in Paris or Nantes
 - the German semester or year program in Vienna, Freiburg or Munich
 - the Spanish semester or year program in Madrid
 - the GLCA summer, semester or academic year Spanish/Social Studies program in Bogota, Colombia
 - the Hope Vienna summer program
 - the May/June terms in France, Germany, Greece and Spain
- tutoring opportunities with children of Spanish-American background living in the community of Holland

All the faculty have traveled and studied abroad. Three of them are natives of countries other than the U.S.A.

Alumni of Hope who have specialized in foreign language study have found this field helpful in moving to a great variety of careers.

- high school and college teaching of foreign languages and literatures
- teachers of English in countries with the language of their major
- college librarian
- classical archaeologist
- translator
- business secretary for a firm with international accounts
- agent for import-export firm
- foreign missionary
- receptionist for foreign consulate
- foreign service officer — U.S. cultural officer

*On leave academic year, 1982-83.

MAJOR AND MINOR PROGRAMS

The department offers majors and academic minors in Classical Studies (Classics, Greek and Latin), French, German and Spanish. These major programs are designed to meet the needs of students with a wide variety of career interests. Specific requirements for each major and academic minor will be found preceding the listing of the course offerings for the language.

A teaching minor in French, German or Spanish consists of twenty credit hours of the appropriate language taken at the college level. Since not all of the courses in French, German or Spanish are equally suited to the teaching minor, the department makes the following recommendations:

1. that the teaching minor in French, German or Spanish include at least three credit hours at the 300 level;
2. that neither French, German or Spanish 200 nor French, German or Spanish 250 be included in such a minor because they are conducted entirely in English;
3. that in addition, the student take Education 384, Methods of Teaching Foreign Languages, if possible;
4. that students interested in completing a minor in French, German or Spanish seek the advice of the chairman of the Department of Foreign Languages and Literatures in selecting courses.

CORE CURRICULUM

All French, German and Spanish courses fulfilling the language component of the Cultural History and Language Requirement are based upon an audio-lingual approach which combines classes taught by the faculty and review and reinforcement sessions conducted by undergraduate apprentice teachers.

169

Programs which combine concentrated language instruction with the study of cultural history are available to students in German and Greek. These programs, entitled *The Two Souls of Germany* and *The Golden Age of Greece*, will fulfill 16 credit hours of the Cultural History and Language Requirement. For information concerning these two programs, refer to course listings IDS 123-124 (under German) and IDS 133-134 (under Greek).

To meet the needs of all students, the department offers courses of the following types in the various language areas:

1. Courses designed to enable the student to communicate in a given language (see French, German and Spanish)
2. Courses designed to enable the student to read a given language (see Classical Studies and Russian)

The course offerings and the descriptions of major and academic minor programs follow under these headings:

Foreign Languages and Literatures

CLASSICAL STUDIES: Classics, Greek and Latin

MR. BELL, MR. NYENHUIS, MRS. TODD

Major in Classics: In order to fulfill the requirements for a major in Classics, a student must complete thirty (30) hours of course work in Classics. These thirty hours must include: fifteen (15) hours of Latin beyond the Latin 172 level, and twelve (12) hours of Greek. A major is expected to acquire some knowledge of related fields, i.e., History and Archaeology. The department will counsel the student regarding source materials available in these fields.

Major in Latin: A major designed to prepare the student for language teaching at the primary or secondary school level with emphasis upon the skills of language acquisition and upon the culture in which the Latin language evolved. This major consists of thirty (30) credit hours of courses numbered 272 or higher; these 30 hours must include Education 384, Teaching Foreign Languages.

Major in Ancient Civilization: A flexible major designed to provide a student with the opportunity to develop a well-coordinated, inter-disciplinary program in Classical Literature, History and Thought. The required thirty (30) hours must include: (a) Twelve (12) hours of college-level work in ancient language; (b) six (6) hours of Ancient History, and (c) twelve (12) hours of courses in Ancient Art, Ancient Religion, Classical Literature in Translation, Mythology, Ancient Philosophy, or Ancient History not used for (b) above. The language component is increased to twenty (20) hours of Latin for those students wishing to use this field for a teaching minor. Electives for such students are reduced to four (4) hours.

A variety of study-abroad programs is available for study in Athens, Rome, Jerusalem, or Beirut. Overseas programs should be worked out with the Classical Studies Section to insure that full credit is given.

Minor in Latin: A minor consists of a minimum of 19 credits in Latin and Classics, selected as follows: Latin 171 and 172 or placement (7 credits), 9 credits in Latin at or above the 200 level, and 3 credits in Classics 207 or 250.

Minor in Ancient Civilization: A minor can be completed by choosing either of the following Options:

Option 1: 18 credits in IDS 133-134 or 16 credits in IDS 133-134 and a 3 credit elective chosen from the requirements for a major.

Option 2: 21 credits of course work, including 9 credits of college-level work in one ancient language, Classics 250 and Classics 205 (for Latin) or 207 (for Greek), History 130, and one 3 credit course selected from the following: Art 161 or 360, Philosophy 219, Religion 242.

Classics

***205. THE GREEK EXPERIENCE** — A study of the ideas and contributions of the major writers from pre-classical to Hellenistic times, with special attention given to the pertinent historical and archaeological background. A knowledge of Greek not required. Open to all students. Not offered, 1982-83.

THREE HOURS

STAFF FALL SEMESTER

***207. THE ROMAN EXPERIENCE** — A study of the ideas and contributions of the major Roman writers from the Republican Period through the Fourth Century, with spe-

*Courses indicated with an asterisk are given in English and designed to acquaint the student with a foreign literature or culture.

English As A Foreign Language

MR. POWELL

ENGLISH 101. ENGLISH AS A FOREIGN LANGUAGE (EFL) — A course for foreign students who need improvement in English language proficiency. Emphasis is placed on improvement in speaking, comprehension, reading, and writing. Normally required of foreign students before taking English 113 and a full academic load. Credit hours to be determined by foreign students' advisor; hours count as elective and foreign language credit. Classroom work plus required laboratory work (language laboratory and skills center), as individual needs dictate.

FOUR to NINE HOURS

POWELL BOTH SEMESTERS

French

MR. CREVIERE, MS. MC CARTHY, MS. MOTIFF.

Major

A major program designed for the student who wishes to acquire a thorough linguistic preparation combined with an extensive background in French culture and literature. This major will permit the student to prepare for advanced literary studies, for secondary level teaching or for other forms of employment in which linguistic skills and cultural awareness are useful.

The French Major consists of 24 credit hours of courses numbered 275 or higher and must include one 400 level literature course and one 400 level course in civilization. Students planning to study in France must take two 400 level courses upon their return. A maximum of 16 credit hours in French from off-campus study may be applied toward the major.

Students preparing to teach at the secondary level are advised that the State of Michigan requires both Education 384 and 30 hours of credit in French or the equivalent thereof through CLEP in order to obtain certification. Students are strongly encouraged to include among those 30 hours Linguistics 364. Students wishing to pursue graduate level study in French literature should take FR493 during their senior year.

173

Academic Minor in French: A French minor consists of a minimum of 18 credit hours taken at the college level. Of these hours, 6 must be at the 300 level or higher and approved by the chairperson.

101. FRENCH I — An audio-lingual course for beginners of French. The primary objective of this course is to enable the student to acquire the basic skills necessary to begin communicating in French. The secondary objective is to begin to give the student insight into the French language world. Emphasis is placed on all four language skills: listening, reading, speaking, and writing. Students meet four times per week in a Master Class and four times per week in a Review and Reinforcement Class. Laboratory work is also required. Conducted primarily in French.

FOUR HOURS

STAFF FALL SEMESTER

102. FRENCH II — Continuation of French I. An audio-lingual course designed primarily to continue to develop the acquisition of a comfortable communication knowledge of French. A secondary objective is to expand the student's insight into important features of French society. Emphasis on all four language skills: listening, reading, speaking, and writing. Students meet three times per week in a Master Class and three times a week in Review and Reinforcement Class. Laboratory work is also

Foreign Languages and Literatures

required. Conducted primarily in French. Prerequisite: French I, equivalent, or placement.

THREE HOURS

STAFF SPRING SEMESTER

***200. FRENCH LITERATURE IN TRANSLATION** — Reading of selected masterpieces of French literature in English translation. Special attention given to the study of a variety of literary genres. Readings and discussions in English. No knowledge of French required. Open to all students. Not offered, 1982-83.

THREE HOURS

STAFF FALL SEMESTER

201. FRENCH III — Language and Culture — Continuation of French II with added emphasis on reading and writing skills, as well as the study of the culture in greater depth. Students meet three times per week in a Master Class and two times per week in a laboratory session. Conducted primarily in French. Prerequisite: French II, equivalent, or placement.

THREE HOURS

CREVIERE FALL SEMESTER

230. FRENCH CONVERSATION — A course designed to develop aural and oral skills. Conducted entirely in French. Prerequisite: French 201, 215, placement, or equivalent. Not offered 1982-83.

THREE HOURS

STAFF SPRING SEMESTER

***250. THE FRENCH WORLD TODAY** — A study of contemporary French culture, including economic, political, sociological and creative forces and their influence in today's world. Readings, lectures and discussions in English. No knowledge of French required. Open to all students. Alternate years, 1983-84.

THREE HOURS

MOTIFF SPRING SEMESTER

275. ADVANCED SKILLS AND RHETORIC — A course designed to focus on systematic examination of syntactical and semantic choices as the basis for grammar review and introduction to advanced grammar subtleties. The four major skills of language will be studied; emphasis will be placed on reading and writing and the introduction to the principles of French rhetoric in preparation for the more advanced levels. Conducted primarily in French. Prerequisite: 201, placement, or equivalent.

THREE HOURS

STAFF SPRING SEMESTER

295. STUDIES IN FRENCH LANGUAGE AND LITERATURE — A course designed to allow a professor to teach in an area of his special interest and experience. Prerequisite: permission of instructor.

TWO or THREE HOURS

STAFF ANY SEMESTER

299. APPRENTICE TEACHING INTERNSHIP — A practical and contractual internship in the study and use of the methods and techniques of teaching French 101 French I. In addition to class discussions, each Apprentice Teacher will teach one Review and Reinforcement section of elementary French 101 for one hour a day, four days a week for the entire semester under the supervision of a Master Teacher and the Program Director. Prerequisites: sufficient proficiency in French, participation in the Training Workshop and selection by jury as an Apprentice Teacher. This course may be repeated for additional credit of one to three hours, but a total of three credits may be counted only once as a part of a French major or minor.

THREE HOURS

STAFF FALL SEMESTER

310. ADVANCED COMPOSITION AND STYLISTICS — A comprehensive study of French stylistics with emphasis on the development of writing competence in French through analysis of and exercise in various writing styles. Conducted entirely in French. Prerequisite: 275, placement or equivalent.

THREE HOURS

STAFF FALL SEMESTER

Foreign Languages and Literatures

330. ADVANCED FRENCH CONVERSATION — A course designed to develop aural and oral competency in French. Conducted entirely in French. Prerequisites: French 275, placement, or equivalent.

THREE HOURS

STAFF SPRING SEMESTER

370. INTRODUCTION TO FRENCH LITERATURE — A study of major literary works of France, with special emphasis on analytical approaches to the major literary genres. Required of all French majors. Conducted entirely in French. Prerequisites: French 275, or placement, or equivalent.

THREE HOURS

CREVIERE, McCARTHY FALL SEMESTER

399. APPRENTICE TEACHING INTERNSHIP — A practical and contractual internship in the study and use of the methods and techniques of teaching French 102 French II. In addition to class discussions each Apprentice Teacher will teach one Review and Reinforcement section of elementary French 102 for one hour a day, three days a week for the entire semester under the supervision of a Master Teacher and the Program Director. Prerequisites: sufficient proficiency in French, participation in the Training Workshop and selection by jury as an Apprentice Teacher. This course may be repeated for additional credit of one to three hours, but a total of three credits may be counted only once as a part of a French major or minor.

THREE HOURS

German

MR. DE HAAN, MRS. STRAND

Majors:

1. *German Language Major.*

A major designed for the student whose goal is the acquisition of language skills and a knowledge of the particular culture in which the particular language evolved. (This major is recommended for students who desire a career in primary or secondary education in foreign languages.) The German Language Major consists of 30 credit hours of courses numbered 201 or higher; these courses must include: German 201, 202, 310, 330, 350, 370, and Linguistics 364.

2. *German Literature Major.*

A major designed for the student whose primary interest is German literature and whose ultimate goal could be to pursue studies in German literature at the graduate-school level. The German Literature Major consists of 24 hours of German courses numbered 310 or higher including 493 and at least 15 hours of courses in literature (a maximum of 12 of the credit hours in literature will be accepted from study abroad). In addition, Classics 250 and English 349 are required.

3. *Germanic Studies Major.*

Viewed essentially, although not exclusively, as a component of a double major, the Germanic Area Studies Major provides the student with the opportunity to develop a well-coordinated, inter-disciplinary second concentration consisting of substantive work in German together with selected courses from related areas. This Area Studies Major can reinforce the primary major. For the prospective teacher the Germanic Area Studies Major provides considerably more than the traditional minor by allowing for an in-depth area consolidation built around the 20 hour language teaching minor. The Germanic Area Studies Major consists of 30 credit hours of courses which must include:

- a) a minimum of 15 credit hours of German courses numbered 201 or higher, of which at least 6 credit hours must be at the 300 level or higher;
- b) a maximum of 15 credit hours of related courses from a department or departments other than German; none of these courses may be counted as part of another major.

The prospective Germanic Area Studies Major student will with his/her departmental major advisor design a proposed course of study which will follow the above-established guidelines and which will be best suited to

Foreign Languages and Literatures

the student's individual needs. The proposed course of study will include a statement of rationale which will show how each non-German course is related to the whole. The proposed course of study will then be submitted to the German Section of the Department for final approval. The Department is under no obligation to accept such a proposed study which is submitted after the student has completed a semester or more of foreign study.

It is recommended that students who intend to teach German in secondary schools choose a teaching minor or Area Studies Major in another foreign language. All qualified majors are urged to include some foreign study experience in their major program.

Academic Minor in German: A German minor consists of a minimum of 18 credit hours taken at the college level. Of these hours, 6 must be at the 300 level or higher and approved by the chairperson. An alternative German minor consists of IDS 123, IDS 124, and German 310 or equivalent.

IDS 123-124. TWO SOULS OF GERMANY — An integrated language and culture program focusing on Germany from the Age of Goethe to the collapse of the Weimar Republic. Prerequisite: successful completion of German 101.

SIX HOURS/SEMESTER

DE HAAN, PEROVICH, WILSON **SPRING/FALL SEMESTER**

101. GERMAN I — An audio-lingual course for beginners of German. The primary objective is to enable the student to acquire the basic skills necessary to begin communicating in German. The secondary objective is to begin to give the student insight into the German language world. Emphasis is placed on all four language skills: listening, reading, speaking, and writing. Students meet four times per week in a Master Class and four times per week in a Review and Reinforcement Class. Laboratory work is also required. Conducted primarily in German.

FOUR HOURS

STAFF **FALL SEMESTER**

102. GERMAN II — Continuation of German I. An audio-lingual course designed primarily to continue to develop the acquisition of a comfortable communication knowledge of German. A secondary objective is to expand the student's insight into important features of German society. Emphasis on all four language skills: listening, reading, speaking, and writing. Students meet three times per week in a Master Class and three times a week in Review and Reinforcement Class. Laboratory work is also required. Conducted primarily in German. Prerequisite: German I, equivalent, or placement.

Prerequisites: sufficient proficiency in German, participation in the Training Workshop and selection by jury as an Apprentice Teacher. This course may be repeated for additional credit of one to three hours, but a total of three credits may be counted only once as a part of a German major or minor.

THREE HOURS **STAFF** **SPRING SEMESTER**

471. GERMAN LITERATURE FROM THE MIDDLE AGES TO GOETHE — A study of German literature including heroic epics, courtly epics, Baroque, Enlightenment, and Classicism (Lessing, Goethe, Schiller). Prerequisite: German 370 or permission of instructor. Every third year, 1982-83.

THREE HOURS **DE HAAN** **SPRING SEMESTER**

472. GERMAN LITERATURE OF THE EARLY 19TH CENTURY — The Romantic Rebellion, 1790-1830. (Novalis, Tieck, Brentano, E. T. A. Hoffmann, Kleist.) Prerequisite: German 370 or permission of instructor. Every third year, 1983-84.

THREE HOURS **DE HAAN OR STRAND** **FALL SEMESTER**

473. GERMAN LITERATURE OF THE LATE 19TH CENTURY — From the Bourgeois Era to the Industrial Revolution, 1830-1890. (Heine, Buechner, Droste-Huelshoff, Heibel, Moerike, Stifter, Storm, Keller, Meyer, Fontane). Prerequisite: German 370 or permission of instructor. Every third year, 1981-82.

THREE HOURS **DE HAAN or STRAND** **FALL SEMESTER**

474. GERMAN LITERATURE OF THE EARLY 20TH CENTURY — From Naturalism to Expressionism, 1890-1945. (Hauptmann, Wedekind, George, Hofmannsthal, Rilke, Schnitzler, Mann, Musil, Kaiser, Kafka). Prerequisite: German 370 or permission of instructor. Every third year, 1983-84.

THREE HOURS **DE HAAN OR STRAND** **SPRING SEMESTER**

475. GERMAN LITERATURE FROM THE THIRD REICH TO THE PRESENT — (Brecht, Boell, Grass, Frisch, Duerrenmatt, Zuckmeyer, and writers from East Germany). Prerequisite: German 370 or permission of instructor. Every third year, 1982-83.

THREE HOURS **STRAND** **FALL SEMESTER**

476. GENRES IN GERMAN LITERATURE — A specialized study of representative works in novelle, drama, and poetry, designed to introduce students to the basic tools of research in German Literature. Prerequisite: German 370 or permission of instructor. Every third year, 1981-82.

THREE HOURS **DE HAAN, STRAND** **SPRING SEMESTER**

490. SPECIAL PROBLEMS IN GERMAN — Individual study under the direction of an instructor designated by the chairman of the department in one of the following areas: literature, language, civilization, or methodology. This course may be repeated once. Prerequisite: one 400 level course in German and permission of department chairman.

TWO or THREE HOURS **STAFF** **BOTH SEMESTERS**

493. SPECIAL GERMAN STUDIES — Preparation for a comprehensive examination in the major field. Prerequisite: Permission of department chairman.

THREE HOURS **STAFF** **BOTH SEMESTERS**

495. STUDIES IN GERMAN LANGUAGE AND LITERATURE — A course designed to allow a professor to teach in an area of his special interest and experience. Prerequisite: permission of instructor.

TWO or THREE HOURS **STAFF** **BOTH SEMESTERS**

Foreign Languages and Literatures

Linguistics

MR. POWELL

295. and 490. STUDIES IN LINGUISTICS — A course designed to allow a professor to teach in an area of his special interest and experience. Prerequisite: permission of instructor. A completed course proposal for 490 must be signed by instructor and approved by department chairman.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

364. INTRODUCTION TO DESCRIPTIVE LINGUISTICS — An introduction to the science of general and descriptive linguistics, with a consideration of problems and methods of the phonemic, morphemic and syntactical analysis of languages. Prerequisite: Junior standing or permission of the instructor.

THREE HOURS

POWELL FALL SEMESTER

Russian

MR. PENROSE

171. READING RUSSIAN I — A course designed to lead to the acquisition of reading skill only. Conducted in English. For students with no previous study of Russian. Not offered, 1982-83.

FOUR HOURS

PENROSE FALL SEMESTER

172. READING RUSSIAN II — A continuation of Russian 171. Conducted in English. Prerequisite: Russian 171, placement, or equivalent. Not offered, 1982-83.

THREE HOURS

PENROSE SPRING SEMESTER

Spanish

MR. AGHEANA, MRS. SEARLES, MR. WELLER

Majors:

1. *Spanish Language Major.*

A major designed for the student whose goal is the acquisition of language skills and a knowledge of the particular culture in which the particular language evolved. (This major is recommended for students who desire a career in primary or secondary education in foreign languages.) The Spanish Language Major consists of 30 credit hours of courses numbered 201 or higher; these courses must include: Spanish 201, 202, plus 250, 310, 330, 350, 370 and Linguistics 364.

2. *Hispanic Literature Major.*

A major designed for the student whose primary interest is Hispanic literature and whose ultimate goal could be to pursue studies in Hispanic literature at the graduate-school level. The Hispanic Literature Major consists of 24 hours of Spanish courses numbered 310 or higher including 493 and at least 15 hours of courses in literature (a maximum of 12 of the credit hours in literature will be accepted from study abroad). In addition, Classics 250 is required.

3. *Hispanic Area Studies Major.*

Viewed essentially, although not exclusively, as a component of a double major, the Hispanic Area Studies Major provides the student with the opportunity to develop a well-coordinated, inter-disciplinary second concentration consisting of substantive work in Spanish together with se-

Foreign Languages and Literatures

lected courses from related areas. This Area Studies Major can reinforce the primary major. For the prospective teacher the Hispanic Area Studies Major provides considerably more than the traditional minor by allowing for an in-depth area consolidation built around the 20 hour language teaching minor. The Hispanic Area Studies Major consists of 30 credit hours of courses which must include:

- a) a minimum of 15 credit hours of Spanish courses numbered 201 or higher of which at least 6 credit hours must be at the 300 level or higher;
- b) a maximum of 15 credit hours of related courses from a department or departments other than Spanish; none of these courses may be counted as part of another major.

The prospective Hispanic Area Studies Major student will with his/her departmental major advisor design a proposed course of study which will follow the above-established guidelines and which will be best suited to the student's individual needs. The proposed course of study will then be submitted to the Spanish Section of the Department for final approval. The Department is under no obligation to accept such a proposed study which is submitted after the student has completed a semester or more of foreign study.

It is recommended that students who intend to teach Spanish in secondary school choose a teaching minor or Area Studies Major in another foreign language. All qualified majors are urged to include some foreign study experience in their major program.

Academic Minor in Spanish: A Spanish minor consists of a minimum of 18 credit hours taken at the college level. Of these hours, 6 must be at the 300 level or higher and approved by the chairperson.

101. SPANISH I — An audio-lingual course for beginners of Spanish. The primary objective of this course is to enable the student to acquire the basic skills necessary to begin communicating in Spanish. The secondary objective is to begin to give the student insight into the Spanish language world. Emphasis is placed on all four language skills: listening, speaking, reading, and writing. Students meet four times per week in a Master Class and four times per week in a Review and Reinforcement Class. Laboratory work is also required. Conducted primarily in Spanish.

FOUR HOURS

STAFF FALL SEMESTER

181

102. SPANISH II — A continuation of Spanish I. An audio-lingual course designed primarily to continue to develop the acquisition of a comfortable communication knowledge of Spanish. A secondary objective is to expand the student's insight into important features of Hispanic society. Emphasis on all four language skills: listening, reading, speaking, and writing. Students meet three times per week in a Master Class and three times a week in Review and Reinforcement Class. Laboratory work is also required. Conducted primarily in Spanish. Prerequisite: Spanish I, equivalent, or placement.

THREE HOURS

STAFF SPRING SEMESTER

***200. HISPANIC LITERATURE IN TRANSLATION** — Reading of selected masterpieces of Hispanic literature in English translation. Special attention given to the study of a variety of literary genres. Readings and discussion in English. No knowledge of Spanish required. Open to all students.

THREE HOURS

STAFF SPRING SEMESTER

201. SPANISH III — Language and Culture — Continuation of Spanish II with added emphasis on reading and writing skills, as well as the study of the culture in greater

Foreign Languages and Literatures

depth. Students meet three times per week in a Master Class and once per week in a laboratory session. Conducted primarily in Spanish. Prerequisite: Spanish II, equivalent, or placement.

THREE HOURS

STAFF FALL SEMESTER

202. SPANISH IV — Reading, conversation and composition, with required supplementary readings. Students meet three days per week in a Master Class and one day per week in a laboratory session. Prerequisite: Spanish III, placement or equivalent. Conducted in Spanish.

THREE HOURS

STAFF SPRING SEMESTER

***250. THE HISPANIC WORLD TODAY** — A study of contemporary Hispanic culture, including economic, political, sociological and creative forces and their influence in today's world. Readings, lectures, and discussions in English. No knowledge of Spanish required. Open to all students. Not offered, 1982-83.

THREE HOURS

STAFF FALL SEMESTER

295. STUDIES IN HISPANIC LANGUAGE AND LITERATURE — A course designed to allow a professor to teach in an area of his special interest and experience. Prerequisite: permission of instructor.

TWO or THREE HOURS

STAFF ANY SEMESTER

299. APPRENTICE TEACHING INTERNSHIP — A practical and contractual internship in the study and use of the methods and techniques of teaching Spanish 101 Spanish I. In addition to class discussions, each Apprentice Teacher will teach one Review and Reinforcement section of elementary Spanish 101 for one hour a day, four days a week for the entire semester under the supervision of a Master Teacher and the Program Director. Prerequisites: sufficient proficiency in Spanish, participation in the Training Workshop and selection by jury as an Apprentice Teacher. This course may be repeated for additional credit of one to three hours, but a total of three credits may be counted only once as a part of a Spanish major or minor.

THREE HOURS

STAFF FALL SEMESTER

310. ADVANCED GRAMMAR AND COMPOSITION — A comprehensive study of Spanish grammar, with extensive work in composition. Conducted in Spanish. Prerequisite: Spanish 202, or placement, or equivalent. Alternate years, 1983-84.

THREE HOURS

STAFF FALL SEMESTER

330. ADVANCED SPANISH CONVERSATION — A course designed to develop aural and oral competency in Spanish. Conducted entirely in Spanish. Prerequisite: Spanish 202, or placement, or equivalent.

THREE HOURS

STAFF SPRING SEMESTER

350. THE DEVELOPMENT OF HISPANIC CIVILIZATION — A study of the origins, development and significance of various aspects of Hispanic civilization. Conducted entirely in Spanish. Prerequisite: Spanish 202, or placement, or equivalent. Alternate years 1982-83.

THREE HOURS

STAFF FALL SEMESTER

370. INTRODUCTION TO HISPANIC LITERATURE — A study of major literary works of Spain and Latin America, with special emphasis on a variety of literary genres. Required of all Spanish majors. Conducted entirely in Spanish. Prerequisites: Spanish 202, or placement, or equivalent.

THREE HOURS

STAFF SPRING SEMESTER

399. APPRENTICE TEACHING INTERNSHIP — A practical and contractual internship in the study and use of the methods and techniques of teaching Spanish 102 Spanish

Foreign Languages and Literatures

II. In addition to class discussions each Apprentice Teacher will teach one Review and Reinforcement section of elementary Spanish 102 for one hour a day, three days a week for the entire semester under the supervision of a Master Teacher and the Program Director. Prerequisites: sufficient proficiency in Spanish, participation in the Training Workshop and selection by jury as an Apprentice Teacher. This course may be repeated for additional credit of one to three hours, but a total of three credits may be counted only once as a part of a Spanish major or minor.

THREE HOURS **STAFF** **SPRING SEMESTER**

471. SPANISH DRAMA AND POETRY OF GOLDEN AGE — Dramatic works of Lope de Vega, Ruiz de Alarcon, Tirso de Molina, Calderon de la Barca, and others; poetic works of the mystics, Herrera, Fray Luis de Leon, Gongora, Quevedo, and others. Prerequisite: Spanish 370 or permission of instructor. Every third year, 1984-85.

THREE HOURS **STAFF** **FALL SEMESTER**

473. SPANISH PROSE OF THE GOLDEN AGE — The picaresque novel, minor genres of the novel; Cervantes, the short novel; history and essay; *La Celestina*. Prerequisite: Spanish 370 or permission of instructor. Every third year, 1982-83.

THREE HOURS **STAFF** **SPRING SEMESTER**

474. 19TH CENTURY SPANISH LITERATURE — Romanticism and realism in prose and poetry, with special emphasis on the theatre and the development of the regional novel. Prerequisite: Spanish 370 or permission of instructor. Every third year, 1983-84.

THREE HOURS **STAFF** **FALL SEMESTER**

476. CONTEMPORARY SPANISH LITERATURE — The Generation of 1898, and the contemporary novel, drama and poetry. Prerequisite: Spanish 370 or permission of instructor. Every third year, 1983-84.

THREE HOURS **STAFF** **SPRING SEMESTER**

478. MODERN SPANISH-AMERICAN LITERATURE — A study of Spanish-American literature with emphasis on Modernismo and contemporary movements. Prerequisite: Spanish 370 or permission of instructor. Every third year, 1984-85.

THREE HOURS **STAFF** **SPRING SEMESTER**

490. SPECIAL PROBLEMS IN SPANISH — Individual study under the direction of an instructor designated by the chairman of the department in one of the following areas: literature, language, civilization, or methodology. This course may be repeated once. Prerequisite: permission of department chairman.

TWO or THREE HOURS **STAFF** **BOTH SEMESTERS**

493. SPECIAL SPANISH STUDIES — Preparation for a comprehensive examination in the major field. Prerequisite: one 400 level course in Spanish and permission of department chairman.

THREE HOURS **STAFF** **BOTH SEMESTERS**

495. STUDIES IN HISPANIC LANGUAGE AND LITERATURE — A course designed to allow a professor to teach in an area of his special interest and experience. Prerequisite: permission of instructor.

TWO or THREE HOURS **STAFF** **ANY SEMESTER**

GEOLOGY

MR. REINKING, CHAIRMAN; MR. ATTOH, MR. BARTLEY, MR. THARIN.

The Department of Geology has an established reputation of excellence. In recent years graduating seniors were accepted at California Institute of Technology, Harvard, Massachusetts Institute of Technology, Princeton, Stanford, Yale, and other graduate schools of high standing.

The Department of Geology maintains active teaching and research programs in environmental geology, land use, oceanography, structural geology and paleontology. Research in environmental geology and land use has resulted in several student-faculty publications in recent years. Presently students are involved in research with geology faculty members in other areas as well. They include:

- examination of glacial, volcanic, and stream deposits in Colorado
- land use and environmental mapping in and near the City of Holland
- mapping glacial deposits in vicinity of Holland
- mapping bedrock geology of southern Michigan
- computer simulation of overthrust faulting
- Precambrian geology of northern Michigan
- groundwater geochemistry
- landfill site evaluation
- sedimentation patterns in inland lakes

The Geology research laboratories are well-equipped and contain X-ray diffraction and X-ray fluorescence apparatus, an electron microscope, exploration seismograph, an earth resistivity-conductivity unit and drilling equipment suitable for study of the shallow subsurface.

- 184 Field study is an important part of training in geology and many field trips are taken every year. Each May term an introductory course in geology is offered in the Colorado Rockies which combines back-packing and geology partly above timberline. In addition, a six-week geology field camp is offered in Colorado for geology majors.

Geologists study the materials of the earth and the processes and agents which act to change these materials. The physics of rock deformation, the origin and location of ore deposits, the spreading of the ocean floor, continental drift, plate tectonics, the chemistry of sea water, the origin of the earth and of life, the use of land geologically suitable for home and factories, are areas of contemporary research by geologists. As the study of the earth is inter-disciplinary in nature, the professional geologist must be competent in mathematics and the natural sciences. Accordingly, strong minors in other science departments and interdepartmental or composite majors are encouraged.

MAJOR*: The minimum requirement for a geology major at Hope College is 25 hours of geology and one year of an allied science (biology, chemistry, or physics). The courses selected to comprise the 25 hours depend on the educational objectives of the student but must have approval of the chairman. All geology majors are urged whenever possible, to begin their course

*Also see Science Major under the Degree Program (page 88).

of study with Geology 101 or 201 and Geology 102. The next course for a geology major will commonly be Geology 241 followed by courses that fit the educational goals of the student.

The student who plans to be a professional geologist will usually follow a more rigorous curriculum than the student who has an avid interest in geology but who does not plan to be a professional geologist. The following curricula are suggested:

BACHELOR OF ARTS DEGREE: The minimum requirement is twenty-five hours of geology excluding Geology 246. Only one of the following may apply toward the major: 101, 115, or 201; also, only 108-9 or 116-7 may be counted toward the major. One year (8 hours) of allied science is required as is participation in at least one annual spring field trip. Students planning to pursue a career in Geology should not follow a minimum requirement program.

BACHELOR OF SCIENCE DEGREE: The minimum of 60 hours in the Science Division including a minimum of 32 hours in geology numbered above 200 (excluding 201 and 246). These courses must include Geology 241, 242, 251, 332, 341, 351, 453, and 454. Participation in the Field Camp course and senior research is strongly recommended. Also required are Math 135, 136, and 235, (With the permission of the Geology chairman, one semester of statistics or computer science may be substituted for Math 235); Chemistry 111, 113, 114, 121; and Physics 121, 122, 141, 142 (With permission of the Geology chairman, Biology 111, 112, and 113 may be substituted for physics).

Because geologists thoroughly trained in physics or chemistry are at the forefront of exciting research developments in the earth sciences and as they are aggressively recruited by graduate schools, geology-physics and geology-chemistry composite majors have been developed for those students who wish to pursue a career in geophysics and geochemistry.

GEOLOGY-CHEMISTRY COMPOSITE MAJOR: For additional information, please refer to page 90.

GEOLOGY-PHYSICS COMPOSITE MAJOR: This was the first composite major established in the sciences at Hope College. It has been very successful. Students who graduate with the composite major are in great demand and have been accepted in the top graduate schools in the United States. For additional information, please turn to page 90.

EARTH SCIENCE TEACHERS: The Michigan Certification Code requires that prospective high school teachers elect 30 or more hours of courses in geology and a minor of 20 hours in a discipline or 24 hours in an area. An area minor including courses in biology, physics, and chemistry, is recommended and will be developed on an individual basis with each student.

MINOR: Every geology minor will include Geology 101 (or equivalent), 102, and 241. The remaining courses should be selected by the student in consultation with the chairman to achieve the educational objectives of the student. A geology minor will be comprised of at least 16 credit hours not more than one half of which can be numbered 201 or below.

101. GENERAL GEOLOGY — An introduction to geology, stressing the materials of the crust, the nature and architecture of the earth's interior and crust, the processes which work to change the crust and the geologic evolution of the continents. Three lectures and one two-hour laboratory each week. One or more Saturday field trips may be required.

FOUR HOURS

REINKING FALL SEMESTER

Geology

102. GEOLOGICAL EVOLUTION OF NORTH AMERICA — A study of the physical and biological development of North America which has occurred in the last 4.5 billion years. Three lectures and one laboratory each week. One or more Saturday field trips may be required.

FOUR HOURS

BARTLEY SPRING SEMESTER

108. ENVIRONMENTAL GEOLOGY — A study of the relationship between man and his geological habitat. Problems that society faces in using the earth will be examined. For example, earth processes (earthquakes, floods, land slides, volcanism) earth resources (metals, water, hydrocarbons), engineering properties of geological materials and land use in urban development will be stressed. May be taken without the laboratory.

THREE HOURS

THARIN SPRING SEMESTER

109. ENVIRONMENTAL GEOLOGY LABORATORY — A course designed to accompany Geology 108 and to familiarize the student with contemporary problems in the environment using the tools of the geologist. Several laboratories may be held in the field examining problems and collecting data and materials for analysis. Prerequisite: Geology 108 (may be taken concurrently).

ONE HOUR

THARIN SPRING SEMESTER

115. PHYSICAL GEOLOGY — An introductory course in geology designed chiefly for science and mathematics majors. The physical and chemical development of the earth, and processes acting to change the earth's surface will be stressed. The course will consist of two parts, the first using seafloor spreading and plate tectonics as the unifying theme, and the second part devoted to the smaller-scale processes which act to modify the earth's surface. Three lectures and one three-hour laboratory or field trip each week. One or more Saturday field trips will be required. Prerequisite: consent of instructor.

FOUR HOURS

STAFF FALL SEMESTER

116. OCEANOLOGY AND LIMNOLOGY — An introduction to the natural processes in oceans and large lakes. Waves, currents, chemical and physical characteristics of water masses, biological productivity, geology and sedimentary activity will be studied. A portion of the course will be devoted to the natural history and geography of the Great Lakes. May be taken without the laboratory.

THREE HOURS

THARIN FALL SEMESTER

117. OCEANOLOGY AND LIMNOLOGY LABORATORY — A course designed to accompany Geology 116 and to familiarize the student with the processes active in large bodies of water. Several laboratories will be held on Lakes Macatawa and Michigan and along their shores. Prerequisite: Geology 116 (may be taken concurrently).

ONE HOUR

THARIN FALL SEMESTER

201. GEOLOGY IN COLORADO — An introductory course designed to acquaint both majors and non-majors with geologic features and processes as they can be observed in Colorado. Emphasized will be topics such as erosion and deposition by rivers, glaciers and wind, the study of minerals, rocks, and ore deposits, and the development of geologic structure. Fifteen days will be spent in the field at a camp near Salida in Colorado's Sawatch Mountains. No prerequisites.

FOUR HOURS

REINKING MAY

241. MINERALOGY — An introduction to the crystallography and crystal chemistry of minerals with emphasis on the rock forming silicates. Laboratory periods will be devoted to the study of minerals by various methods, including X-ray techniques.

Three lectures and one three-hour laboratory per week. Prerequisite: One semester of chemistry (may be taken concurrently) or consent of instructor.

FOUR HOURS

REINKING

FALL SEMESTER

242. OPTICAL MINERALOGY — The study of the optical properties of crystalline and noncrystalline materials with emphasis on minerals. The course will stress the use of polarized light and the petrographic microscope for the identification of materials and the determination of their properties. (1 lecture and 2 labs per week)

THREE HOURS

REINKING

SPRING SEMESTER

235. STUDIES IN LAND USE — An examination of the concept of land use planning and the role of scientists in the planning process. Planning based on the natural capabilities of the land will be emphasized and those geologic characteristics which influence man's use of the land will be discussed. The course will also examine the role of scientists in the planning process and their responsibilities both as scientists and citizens. Laboratory will involve case studies of several areas. Offered alternate years.

THREE HOURS

REINKING

FALL SEMESTER

246. GEOLOGY FOR ELEMENTARY TEACHERS — A course designed to introduce the prospective elementary school teacher to geological science appropriate to elementary education. Topics include materials of the earth, processes which act to change the earth's surface, and an examination of the atmosphere and weather. This course is open only to prospective elementary teachers and they are expected to elect this course to fulfill a portion of their college science requirement unless excused by the chairman of the Education Department. Lecture 5 hours per week including 1 hour of laboratory for one-half of the semester. Prerequisites: None.

FIVE HOURS

STAFF

SPRING SEMESTER

251. STRUCTURAL GEOLOGY — The study of rock deformation stressing the nature, origin, analysis and classification of deformed rocks. Three hours of lecture and one three-hour laboratory each week. One or more weekend field trips may be required. Prerequisites: Geology 101, 115 or 201 and Mathematics 121 or 131. Offered alternate years, 1982-83.

FOUR HOURS

ATTOH

FALL SEMESTER

295. TOPICS IN GEOLOGY — An investigation in depth of a series of topics selected to give additional perspective to the geology major. Clear writing and oral presentation will be stressed. Two lectures and one three-hour laboratory. Required of all geology majors. Offered alternate years.

THREE HOURS

THARIN

FALL SEMESTER

332. PETROLOGY AND PETROGRAPHY — An introduction to the study of the igneous and metamorphic rocks. Mineral composition, texture, occurrence and association, petrogenesis and classification of the rock clans will be stressed in lecture. Laboratory periods will be devoted to hand specimen and thin section examination of rocks. Two lectures and one three-hour laboratory each week. Prerequisites: Geology 241, 242 and either Geology 101, 115, or 201. Offered alternate years.

THREE HOURS

ATTOH

FALL SEMESTER

341. REGIONAL FIELD STUDY — An investigation in the field of the general geology of an area such as the Mississippi Valley, the Southern Appalachians, the Gulf Coastal Plain, the Colorado Plateau, or the island of Jamaica, etc. One or more hours of lecture will be held each week prior to study in the field. Entire spring vacation or an extended period in the summer will be spent in the field. Final report required. Prerequisites: Geology 101 or 115 and consent of instructor.

ONE TO THREE HOURS

ATTOH

SPRING SEMESTER

Geology

351. INVERTEBRATE PALEONTOLOGY — An introduction to the study of the fossil invertebrate phyla. Morphology, taxonomy, and ecology of fossils will be stressed and living representatives of the phyla will be used for comparison. Three lectures and three hours of laboratory each week. One or more Saturday field trip may be required. Prerequisite: Consent of instructor.

FOUR HOURS

BARTLEY FALL SEMESTER

355. GEOLOGY FIELD CAMP — A six-week, summer field camp for geology majors. The course will emphasize petrographic description and mapping using plane tables, air photos, topographic base maps, and shallow seismic and earth resistivity surveys. The course is operated from a tent camp located in the Rocky Mountains at Howard, Colorado. Prerequisites: 15 hours of geology excluding introductory and survey courses, and consent of director.

SIX HOURS

REINKING, ATTOH MAY-JUNE

371. MARINE GEOLOGY — An introduction to the geology of the ocean basins and to the geologic processes active in the basins and along their margins. The processes, sediments, and chemistry of nearby bodies of water will be examined in the field. Three hours of lecture and one afternoon of laboratory or field study each week. One or more Saturday or weekend field trips may be required. Prerequisite: Consent of instructor. Will not be offered 1982-83.

FOUR HOURS

STAFF FALL SEMESTER

441. GEOPHYSICS — An introduction to the physics of the earth. Topics will include earthquake seismology, geomagnetism, gravity, heat flow, geochronology, and geodynamics. Emphasis will be on how physical principles applied to the earth have furthered our understanding of the age, structure, and tectonics of the earth. Prerequisites: Mathematics 136, 235, Physics 122 or 132. Offered alternate years.

THREE HOURS

ATTOH SPRING SEMESTER

453. SEDIMENTOLOGY — Study of the mineralogy, petrology, petrography, occurrence and association of the sedimentary rocks. Thin section examination and textural analysis of sedimentary rocks and unconsolidated sediments will be performed in laboratory. Three lectures and one three-hour laboratory or field trip each week. Weekend field trip may be required. Prerequisite: Geology 242 or consent of instructor. Offered alternate years, 1982-83.

FOUR HOURS

THARIN FALL SEMESTER

454. PRINCIPLES OF STRATIGRAPHY — A study of stratigraphic principles and concepts including practical use of lithostratigraphic and biostratigraphic units and interpretation of facies and environments of deposition. Laboratory involves problems in surface and subsurface stratigraphy and petroleum exploration. Three lectures and one laboratory each week. Prerequisite: Geology 102, 241, consent of instructor. Offered alternate years.

FOUR HOURS

BARTLEY SPRING SEMESTER

490. SPECIAL PROBLEMS AND SEMINAR — A course designed to introduce the student to research. A research problem in an area of special interest will be nominated by the student, receive consent of instructor and be approved by the Geology Department before research begins.

ONE to THREE HOURS

STAFF ANY SEMESTER

495. STUDIES IN GEOLOGY — A course designed to allow a professor to instruct upperclass students in a special area of interest or research. Students will engage in extensive reading and/or research in the topic of study.

ONE to THREE HOURS

STAFF ANY SEMESTER

HISTORY

MR. PENROSE, CHAIRMAN; MR. BELL, MR. COHEN, MR. CURRY, MR. FRIED, MR. PETROVICH, MR. SOBANIA.

The story of man's past is vast and complex. No one masters it; yet no person can claim to understand the problems of the present and take constructive steps to create a better future without a reasonable understanding of the past that has helped shape him and his society. A key objective of the Department of History is to help all students attain a measure of this understanding. It also has a special responsibility in helping those students who wish to explore in greater depth some aspects of man's history and to become more adept at interpreting the past.

To accommodate this major student, the Department of History offers a variety of courses in U.S., European, Asian and Latin American history. Some courses are organized around time periods, for example, "Twentieth Century Europe," or "America in the Twentieth Century"; others examine topics or issues, such as "American Constitutional History," or "The European Enlightenment." The major student takes courses in a number of areas to acquire some breadth and overview, and then normally probes more deeply in advanced courses in a field of his special interest.

History staff members bring varied backgrounds and areas of specialization to their teaching. All have sustained their research interests through work in numerous foreign and domestic manuscript repositories such as the National Archives. Extended stays in Japan, the Soviet Union, Austria, England, and Yugoslavia help to assure both currency in scholarship and vitality in the classroom.

History majors have been involved in the following activities:

- feature writer for the "anchor", the student newspaper
- participation in several of the Year Abroad programs —
 - junior year in Beirut
 - summer seminar in Yugoslavia
 - summer and semester study program in Vienna
- participant in the Philadelphia Program — a semester of study and work in the inner city.

189

History majors in past years have gone on to graduate schools, and into careers as professional historians — both as writers and teachers. Many have gone into law and the political arena. Some have entered the ministry. Among the interesting careers of recent graduates of the department are these:

- law practice
- director of a New England historical museum
- administrative assistant to a U.S. Senator
- free lance feature writer, with articles in *Harpers* and *N.Y. Times*
- historian for the U.S. Marine Corps
- editorial staff, the international beat, for a metropolitan newspaper
- bureau chief for *Time* magazine

To accommodate the broad range of interests and career goals of its majors and other interested students, the History Department offers two possible major programs and a minor program.

History

I. HISTORY MAJOR: A minimum of thirty semester hours is required for a major. In addition a total of twelve hours must be taken from three of the following fields: Economics, Political Science, Sociology, Computer Sciences or Foreign Language at or beyond the intermediate level. The minimum distribution requirement is as follows: one history course focused mainly on the period before 1500; two courses in American history; two courses in European history; one course in non-Western history; and a senior seminar in history. Students who plan to do graduate work in history are urged to take at least thirty-six hours of course work in history and to attain reading proficiency in two foreign languages. Majors planning to study mainly the history of areas other than the United States are strongly urged to spend a summer, semester, or year of study in the geographic area of their concentration. A major in Ancient Civilization combining work in History, Classical Languages, Art and Philosophy courses is available. Please see requirements under the Department of Classics. History 130 and 131 can be used to fulfill the cultural heritage requirement.

II. COMPOSITE MAJOR IN HISTORICAL STUDIES: For the student who does not plan to become a professional historian or a teacher, and who needs a program with greater disciplinary breadth than the regular major program offers, the History Department provides a composite major. In this program a minimum of 36 credits is required, 18 credits in history and 18 in other disciplines that correspond to his or her particular needs and interests. At least 18 of the total 36 credits must be earned in courses at the 300 level or above. Credits earned in introductory courses and in courses used to fulfill the college core requirement, excepting the introductory history courses, cannot be applied to the major program. The 18 credits in history must be distributed as follows: 3 credits in American history, 3 credits in European history and 3 credits in either a history seminar or an independent study course in which a major research paper is required. The remaining 9 credits in history and the 18 non-history credits will be determined by the individual needs of the student after consultation with his advisor. To take full advantage of this individualized approach to the major program, it is in the best interest of the student to apply for acceptance as a major by the end of the sophomore year.

III. HISTORY MINOR: For interested students who wish to minor in history, the department provides a twenty-one hour minor. The minimum distribution requirement is as follows: one course dealing with a period before 1500; two courses in American history, two courses in European history, one course in non-Western history; and one additional history course of the student's choosing.

130. INTRODUCTION TO ANCIENT EUROPEAN CIVILIZATION — The course will focus on significant developments in ancient European history from its Greek origins through the Renaissance. It is designed to introduce the student to the discipline of history and can be used to fulfill part of the cultural heritage requirement.

THREE HOURS

STAFF

BOTH SEMESTERS

131. INTRODUCTION TO MODERN EUROPEAN HISTORY — The course will focus on significant developments in modern European history from the Renaissance to our own time. It is designed to introduce the student to the discipline of history and can be used to fulfill part of the cultural heritage requirement.

THREE HOURS

STAFF

BOTH SEMESTERS

210. THE GREEK WORLD — Historical development and civilization of Greece from prehistoric through classical and Hellenistic times. The recent unfolding of Greek beginnings, the artistic brilliance of Minoans, Homeric warfare, Greek age of exuber-

ance on Cyprus, explosion of reason and culture, development of the polls, Athenian democracy and imperialism, threat of hybris, "*oecumene*" of Alexander the Great. Alternate years, 1982-83.

THREE HOURS

BELL SPRING SEMESTER

215. THE ROMAN WORLD — The course follows the expansion of Rome from a small village to ruler of an enormous empire. It considers the growth of Roman institutions and culture during the Republic and Empire periods and speculates on the causes and significance of the disintegration of the greatest empire the ancient world had known. Alternate years, 1983-84.

THREE HOURS

BELL SPRING SEMESTER

220. THE MIDDLE AGES — A survey of the rise, flowering, and decline of the Western Medieval world from the reign of Constantine to the Renaissance. Alternate years, 1983-84.

THREE HOURS

FRIED FALL SEMESTER

232. HISTORY OF RUSSIA FROM KIEV THROUGH CATHERINE II — This course traces the development of the Russian state from its Kievan origins through the reforms of Peter the Great and the enlightened despotism of Catherine the Great. Emphasis is placed on geographic, economic, and political factors in the growth of the Russian empire. Alternate years, 1983-84.

THREE HOURS

PENROSE FALL SEMESTER

240. ENLIGHTENMENT AND NATIONALISM IN EUROPE: 1689-1914 — This course will examine European history in the 18th and 19th centuries. The central theme of the course will be the way in which ideas influenced the course of history. Particular emphasis will be placed on the ideas of the Enlightenment, Romanticism, and Nationalism, and on the ways these ideas were related to the revolutions, wars and political changes of the period. Alternate years, 1982-83.

THREE HOURS

PETROVICH FALL SEMESTER

242. TWENTIETH CENTURY EUROPE — This course examines the changing political, economic, social and intellectual climate during and after the two world wars. Special emphasis is placed on the interrelationships between the world of the intellect (literature and philosophy) and the world of politics. The changing social structure of Europe is also considered. Alternate years, 1982-83.

THREE HOURS

PETROVICH FALL SEMESTER

244. THE DIPLOMATIC HISTORY OF EUROPE, 1815-1979 — The focus of this course will be on the study of events and personalities in diplomatic relations among European nations in the period between the Vienna Congress in 1815 and the Belgrade Conference on European Security in 1977. Alternate years, 1983-84.

THREE HOURS

PETROVICH FALL SEMESTER

252. EARLY AMERICAN HISTORY, 1607-1815 — This course deals with the process by which the European colonists transformed themselves into a nation of Americans. It focuses upon the way the interaction between the European heritage and the American environment produced a new people. It also focuses on the growth of American nationalism. Topics to be covered include: Puritanism, relations with the mother country, the Revolution, the Constitution and the War of 1812. Alternate years, 1983-84.

THREE HOURS

COHEN SPRING SEMESTER

254. THE MIDDLE PERIOD IN AMERICAN HISTORY, 1815-1877 — Beginning with the "Era of Good Feelings," this course traces the course of U.S. history through the era

History

of the Civil War and Reconstruction. Major themes include: the rise of the "common man," the tension between nationalism and sectionalism, expansionism and the frontier, reform, industrialization, and the impact of race on American life. Alternate years, 1982-83.

THREE HOURS

COHEN SPRING SEMESTER

255. THE EMERGENCE OF MODERN AMERICA — A study of American politics, society, economics from 1877 to America's entrance into World War I. Special emphasis will be placed on industrialization, urbanization, the Progressives, America's increased involvement in foreign affairs, and conflicts in ideologies. Alternate years, 1983-84.

THREE HOURS

CURRY FALL SEMESTER

256. RECENT AMERICA — This course attempts an analysis of the intellectual and political response by twentieth century America to the ravages and rewards of technology and the older agonies of racism and poverty. To develop this analysis there will be a detailed study of the following topics: The intellectual disillusionment and political reaction of the 1920's; the radical thought and pragmatic reforms of the New Deal; the sources of anxiety and consensus politics in the post World War II era; and, the challenge to the American liberal tradition in the 1960's and 70's.

THREE HOURS

CURRY SPRING SEMESTER

260. HISTORY OF LATIN AMERICA — The aim of this course is to survey the intellectual, social and political traditions of the twenty nations of this hemisphere south of the Rio Grande. From this review it is hoped that the student might acquire an appreciation for a rich and colorful cultural tradition that is poorly understood and too often neglected by North Americans. A further and related purpose is to acquaint the student with the historical development of the political culture of Latin American societies and attempt to explain the causes of social and political instability in this area. History majors seeking to fulfill the departmental requirements for majors may count this course as either European or American history. Alternate years, 1982-83.

THREE HOURS

CURRY FALL SEMESTER

268. HISTORY OF ANCIENT CHINA — China's political, economic, social and intellectual development up to the Manchu conquest. Alternate years, 1982-83.

THREE HOURS

PENROSE FALL SEMESTER

271. HISTORY OF EAST ASIA IN MODERN TIMES — The political, economic, social and intellectual history of China will be covered from the Manchu conquest of the seventeenth century through the present. The reasons why China entered the modern world through revolutions ending in a communist state will be contrasted with Japan's evolution as an industrialized nation. Alternate years, 1982-83.

THREE HOURS

PENROSE SPRING SEMESTER

295. STUDIES IN EUROPEAN, AMERICAN, OR NON-WESTERN HISTORY — These courses are designed to allow students to study geographic areas, historical periods, or particular issues not normally covered in the formal courses offered in the history department. In each course a professor will present lectures in his area of particular interest and students will engage in guided reading and research under his supervision.

ONE, TWO or THREE HOURS

STAFF BOTH SEMESTERS

331. MODERN GERMANY AND AUSTRIA — A survey of the political, social and economic development of the Hohenzollern and Hapsburg Empires from the Peace of Westphalia to the end of the 19th Century. When given in the Vienna Summer School, special emphasis will be placed on the cultural and intellectual history of Austria. Alternate years, 1982-83.

THREE HOURS

FRIED SPRING SEMESTER

333. ENGLISH LEGAL AND CONSTITUTIONAL HISTORY — The development of Anglo-Saxon legal and constitutional theory and institutions from Magna Carta to the present. The decisive stages in their development of common law and constitutional law will be examined in this historical context.

THREE HOURS

STAFF OFFERED WHEN FEASIBLE

334. MODERNIZATION OF ENGLAND — English history from the seventeenth century Civil War to the present will be analyzed with special attention to the development of a value system, a commercial system, and a governmental system which has provided prototypes for other nations. Constitutional government, electoral procedures, the Industrial Revolution, entrepreneurship, liberalism and socialism will be examined in the light of their role in creating modern English society.

THREE HOURS

STAFF OFFERED WHEN FEASIBLE

335. HISTORY OF THE SOVIET UNION — The revolutionary origins of the Soviet state to the USSR in the modern world. Emphasis on three areas of inquiry: the revolutionary movement until 1917, the consolidation of Soviet power, the Soviet Union in world affairs.

THREE HOURS

PENROSE SPRING SEMESTER

338. FOREIGN POLICY OF RUSSIA AND THE SOVIET UNION, 1801-1970's — This course is a descriptive and analytic study of the main components of the foreign policy of tsarist Russia and the socialist Soviet Union. Among the factors that will be treated as shaping Russian and Soviet foreign policy are the following: geography, historical background, economic forces, ideological postulates, military policies and domestic politics. Alternate years, 1983-84.

THREE HOURS

PETROVICH SPRING SEMESTER

339. HISTORY OF THE BALKAN STATES — The development since 1815 of Albania, Bulgaria, Greece, Rumania, and Yugoslavia will be studied in this course. The processes of Balkanization and polycentrism will be analyzed against the background of Eastern Europe during the 1940's and 50's, and the "Third World" in the 1960's. Alternate years, 1982-83.

THREE HOURS

PETROVICH SPRING SEMESTER

193

342. THE RENAISSANCE IN EUROPE — Particular attention is given to the interaction of political and artistic developments in Italy, France, England and German territories from the fourteenth through the sixteenth centuries.

THREE HOURS

STAFF OFFERED WHEN FEASIBLE

346. THE ORIGINS OF MODERN FRANCE TO 1715 — The course will focus on key stages of France's development from its feudal beginnings until the end of Louis XIV's reign. The study of each stage will emphasize correlations between political and cultural movements, so that the course will provide background for students engaged in study of the literature and arts of France as well as to students primarily interested in a survey of early French history.

THREE HOURS

STAFF OFFERED WHEN FEASIBLE

347. THE HISTORY OF MODERN FRANCE, 1915-1969 — The aim of this course is threefold: to develop an appreciation of the French culture, society and politics; to gain an understanding of the main events, currents and personalities in modern French history; and, to appreciate contributions France has made to Europe and the world. Alternate years, 1982-83.

THREE HOURS

PETROVICH SPRING SEMESTER

348. EUROPE IN THE AGE OF THE REFORMATION — After examining the causes of the Reformation, this course will analyze that movement in its social, economic,

History

political, as well as religious aspects. Particular attention will be given to the role played by religion in opening European culture to new directions for future growth. Alternate years, 1983-84.

THREE HOURS

FRIED SPRING SEMESTER

354. AMERICAN CONSTITUTIONAL HISTORY, 1787-PRESENT — The historical development of the United States Constitution from its inception to the present. Emphasis will be placed on the interrelationship between the evolution of the Constitution and the changing needs of American society. Alternate years, 1982-83.

THREE HOURS

COHEN SPRING SEMESTER

355. UNITED STATES FOREIGN POLICY — This course traces the development of United States foreign policy from the Spanish-American War to the present. It is in this period that the United States emerged as a great world power and moved to stage center during World War II. The aim of this course is to explain how this new framework in which diplomacy was conducted, reshaped the American response to the traditional forces influencing its foreign policy. As national power increased, so too did responsibility for the international order. The problem confronting American policy makers in the 20th century has been to determine if and to what extent American power had to be directly employed in the several crises that have threatened the nation's interest and security and impeded the realization of its ideals.

THREE HOURS

CURRY FALL SEMESTER

356. AMERICAN SOCIAL HISTORY — American social history focused on the experience of some particular group within American society using the experience of that group to illuminate larger issues such as the impact of such factors as class, race and sex. Also treated are such topics as the family, migration, urbanization, social mobility and the role of quantification in history. The current course focuses on the black experience. Alternate years, 1983-84.

THREE HOURS

COHEN SPRING SEMESTER

357. AMERICAN INTELLECTUAL HISTORY, 1865-PRESENT — This course will examine the interplay of ideas and American life from the Civil War to the present. Political, religious, scientific, philosophical, and literary thought will be considered. Special emphasis will be placed on the twentieth century. Alternate years, 1983-84.

THREE HOURS

CURRY FALL SEMESTER

490. INDEPENDENT STUDIES IN HISTORY — Designed to provide students majoring in history, who plan to enter graduate school, with an opportunity to do advanced work in a field in which they have a special interest. Prerequisite: Formal application and departmental approval of proposed study. This designation, with appropriate descriptive title, may be used for Washington Honors Semester hours bearing history credit.

THREE HOURS

STAFF ANY SEMESTER

495. SEMINAR IN HISTORY — This course is required for all history majors. It is also open to non-majors who have a serious interest in doing research. It is designed to advance their mastery of historical method and the appreciation of the discipline as an achievement of man. Major emphasis will be placed on the development of sound research methods and acquiring familiarity with significant source materials in specific fields. The student will be expected to produce a lengthy research paper of scholarly merit and literary quality.

THREE HOURS

STAFF FALL SEMESTER

INTERDISCIPLINARY STUDIES

MR. GRANBERG, GENERAL DIRECTOR
MR. SHARP, DIRECTOR, NEW YORK ARTS PROGRAM
MR. NYENHUIS, DIRECTOR, PHILADELPHIA SEMESTER
MR. BOONSTRA, DIRECTOR, CHICAGO METROPOLITAN SEMESTER

Interdisciplinary courses provide a meeting place for the several academic disciplines. Integrated efforts can be directed to the perennial human questions, especially as these are affected by present discoveries and concerns. These courses deal with methods or content that go beyond what is usually dealt with in a single department. IDS courses, then, provide faculty and students with an opportunity for dialogue or research across departmental boundaries.

101. ENCOUNTER WITH THE ARTS — An intradivisional course designed to expose the student to the fine and performing arts. It is team taught and develops an understanding of the arts through performances, demonstrations and critique sessions. The fine arts faculty and those artists sponsored by the Cultural Affairs Committee contribute extensively to the course.

THREE HOURS

STAFF FALL SEMESTER

111. FRESHMAN COLLOQUIUM ON THE SCHOLAR IN AMERICA — This course seeks to examine the nature and role of intellectual activity in American culture. Through lectures, readings, and discussion with productive scholars, the student will confront attitudes past and present about scholarly activity in America. Open to Freshman Presidential Scholars and other Freshman students subject to permission of instructor.

TWO HOURS

STAFF FALL SEMESTER 195

115. PRINCIPLES OF BIBLIOGRAPHIC RESEARCH — Through the study of major reference sources, this course focuses on the methodology needed to do independent investigation. Bibliographic method and organization in the major disciplines will be examined, with the purpose of effective retrieval of information. Each student will have a project in the field of his choosing. No prerequisites.

TWO HOURS

STAFF FALL SEMESTER

123-124. TWO SOULS OF GERMANY — See listing under German, page 177.

133-134. THE GOLDEN AGE OF GREECE — See listing under Greek, page 171.

270. THE HISTORY, SOCIOLOGY AND CULTURE OF JAPAN — A multi-media survey of Japanese history, social structure and arts. Through films, slides, tapes and lectures this course will analyze how the cultural heritage of Japan reveals the values, social structures and history of the Japanese people.

TWO or THREE HOURS

SECOND SEMESTER

295. SPECIAL TOPICS — Study of an area of Interdisciplinary Studies not covered in the regular course listings. Offered as student and teacher interest requires and scheduling permits.

TWO to FOUR HOURS

STAFF

Interdisciplinary Studies

Internship Programs

Hope College offers its students a variety of "real world" experience through the programs described below. Building on the student's prior academic training, these programs blend theory and practical experience, asking the student to apply newly gained knowledge in the complex worlds of the city, government, fine arts, education, business, industry, and professions. All participants attend supervisory or integrating seminars and have faculty supervisors throughout the internship.

311. THE OAK RIDGE SCIENCE SEMESTER — The program is designed to give students an opportunity to spend half-time in scientific research activities and half-time studying under the guidance of GLCA faculty in residence. In addition, students are exposed to the wealth of resources available at the Oak Ridge installation. The ORNL staff supervises individual research projects in areas which match the interest and competence of the student. GLCA faculty arrange seminars and formal courses in their specific areas. Participating students may receive a maximum of 15 hours under Interdisciplinary Studies 311, or may replace a portion of this credit by credit assigned to specific courses in the Departments of Biology, Chemistry, and Physics. Approval for Oak Ridge Science Semester in a department other than that of Interdisciplinary Studies must be obtained in advance from the chairman of the department in which this credit is sought.

FIFTEEN HOURS (MAXIMUM)

STAFF FALL SEMESTER

349. APPRENTICESHIP IN WRITING — Ordinarily to be taken in conjunction with an off-campus internship program, this course provides para-professional writing opportunities in such areas as government, publishing, news media, business, law, industry, medicine, engineering, etc. At least one of the following prerequisites: English 213, Communications 255, 256, or permission of the chairman. Following consultation and in conjunction with his off-campus supervisor, each applicant for this internship is required to submit a contract proposal which stipulates the features of the program he plans to pursue: what sorts of evidence of his performance he intends to submit; a time schedule for submitting evidence; and the criteria on which his performance is to be evaluated. Acceptance of the contract proposal by the IDS chairman is required before the student registers for the course.

EIGHT HOURS (MAXIMUM)

STAFF

196

The Philadelphia Urban Semester Program

The Philadelphia Urban Semester provides an off-campus educational opportunity for faculty and students: to investigate and analyze a city as a system of human interaction; to blend theory and experience in a professional, academic, and stimulating environment; to acquire understanding of at least one field of work; to identify and develop skills in that field; to develop personally, socially, and responsibly in an urban environment. Students must be full-time participants in the program and carry a minimum of 12 semester hours or a maximum of 16 semester hours. Both semesters. Includes IDS 351-364.

351. URBAN FIELD STUDY — Students intern four days a week with professionals in well-supervised placements within agencies, schools, community groups and programs. All placements are complementary to academic disciplines and areas of interest. Required of all Urban Semester students not taking 470U, 480U, 485U.

EIGHT HOURS (MAXIMUM)

352. CITY SEMINAR — Students and staff participate in the City Seminar to examine urban life and patterns of interaction. A variety of learning resources are used to ex-

Interdisciplinary Studies

plain behavior in the city, such as personal experiences, studies and theories of social science researchers, and data systematically collected by students themselves. Required of all Urban Semester students.

FOUR HOURS (MAXIMUM)

IDS 360. STUDIES OF URBAN ISSUES — Studies concentrating on psychological, sociological, and political areas of urban society. The topics of this course vary, and some of those offered recently have been: Research Methodology; Social Science Methods, Tools, and Skills; Urban Anthropology; Social Work, and Modular Studies. Elective.

FOUR HOURS (MAXIMUM)

For those students in the Philadelphia Urban Semester Program who wish to enroll for an urban teaching internship, the following education courses are available:

Educ. 365U. STUDIES IN URBAN EDUCATION — This tutorial course introduces students to theories, problems, and skills essential for the education of elementary and secondary students in an urban environment. Elective.

FOUR HOURS

Educ. 470U. STUDENT TEACHING IN THE URBAN ELEMENTARY SCHOOL — Student teaching, supervised by faculty members of the urban semester, is done in cooperation with the public schools of the City of Philadelphia. Students must apply for student teaching during the second semester of their junior year.

EIGHT HOURS (MAXIMUM)

Educ. 480U. STUDENT TEACHING IN THE URBAN SECONDARY SCHOOL — Student teaching, supervised by the faculty members of the Philadelphia Urban Semester, is done in cooperation with the school systems of Philadelphia. Students must apply for student teaching during the second semester of the junior year.

EIGHT HOURS (MAXIMUM)

Educ. 485U. STUDENT TEACHING IN ELEMENTARY AND SECONDARY SCHOOLS — Student teaching, supervised by the Education Department, is done in cooperation with several school systems in the city of Philadelphia. Experience is provided in both the elementary and secondary level, enabling students majoring in art, music, and physical education to obtain K-12 certification. Students must apply for student teaching during the second semester of their junior year.

TEN HOURS (MAXIMUM)

None of the above courses is intended to replace either departmental or core requirements, but may do so by special arrangement (e.g., student teaching).

The Chicago Metropolitan Semester Program

Examining both suburban and urban characteristics of metropolitan life, this program emphasizes the challenge which the modern city presents to today's and tomorrow's Christian. Through seminars and apprenticeships throughout the metropolis, students acquire knowledge of the complexity of human, social, political, economic, historic, and esthetic features of city life in an effort to hone their personal values and prepare them to cope with the urban reality which will be in the inevitable locale of many of their lives.

The purposes of the program are to give students a greater understanding of the problems of a metropolitan society, develop skills and competencies in

Interdisciplinary Studies

an area of work that is related to their career plans, and to develop a greater understanding of themselves as persons. The program emphasizes action, reflection and thinking, feelings and values. The curriculum consists of an internship in some institution or agency, a series of seminars, and an independent research project. Students must be full-time participants in the program and carry a maximum of 16 semester hours. Includes IDS 371-377.

371. THE METROPOLITAN SEMINAR — The Metropolitan Seminar has two major goals: 1) To have students develop their understanding of the metropolitan environment, and 2) to increase their positive value attitudes toward the metropolitan environment. The goals deal with both thinking about and feelings toward the city. How do the structures and functions (Institutions) and spirit (values) of a metropolitan city affect the lives of the people in it? The seminar is designed to capitalize on the human and physical resources of the metropolitan area and will not overlap any more than is necessary with what students can better learn in their home colleges.

THREE HOURS

372. THE BEHAVIORAL SCIENCE RESEARCH METHODS SEMINAR — This seminar proposes to 1) assist the student to gain a working knowledge and understanding of the basic research methods used in the disciplines of the social sciences, 2) enable the student to apply these methods to the urban setting in which he/she is currently living and working, and 3) guide the student in reflecting on these scientific procedures for looking at reality as he/she relates to his/her life as a Christian person.

THREE HOURS

373. VALUES SEMINAR — The goals of the Values Seminar are to enable students to 1) gain an increasing awareness of their own values, 2) become more sensitive to the values of others, 3) analyze selected societal values and issues, 4) identify value conflicts in actual life situations, and 5) make decisions which relate value structures to everyday life.

THREE HOURS

198

374. METROPOLITAN INTERNSHIP — Work internships are supervised both by staff members from the Metropolitan Center and by the professional field supervisor on the job. The technical supervision, on a day-by-day basis will be done by the field supervisors. Metropolitan Center staff members will help students relate their work to their goals, to the overall goals of the program, and to other kinds of activities of the program.

EIGHT HOURS (MAXIMUM)

375. INDEPENDENT STUDIES — For students who need to do a special study because of special circumstances in their academic program.

IDS 376. SEMINAR ON FINE ARTS IN THE CITY — An intensive exploration of the rich variety of fine art forms influenced by and available in the city with emphasis on their historical development. It uses a broad range of field experiences supported by reading, writing, classroom discussion, and presentations by recognized authorities.

THREE HOURS

IDS 377. SEMINAR ON HUMANITIES IN THE CITY — An intensive exploration of the literature, history, philosophy, and religion of the city. It uses a broad range of field experiences, supported by reading which interprets the city in a given historical period. The social philosophy and the religious forces which prevailed in these periods will also be examined.

THREE HOURS

The Louisville Program

This program presents unusual opportunities for the broadening of advanced students in psychology, sociology, biochemistry, microbiology, and pre-med programs. Since University Hospital, Louisville, Ky. is located in the inner city, in addition to experience in psychiatric services, there are also opportunities for students to become involved in urban mental health and human services problems related to the courts, "half-way house" establishments, and the problems of the poor and culturally deprived. The program's two courses carry a total of twelve hours credit. Students selected by the screening committee may increase their number of credits by making arrangements with the department of their choice for permission to also take an Independent Study. The program operates both semesters and summers. Application forms can be obtained from the Psychology Department.

325. An internship of 8-10 weeks in the psychiatric services of University Hospital under the supervision of the Director of Outpatient Psychiatry (Dr. Herbert Wage-maker) and his staff. Students work directly with residents, nurses, social workers and chaplains on the inpatient ward, in the outpatient clinic, in family and group therapy and in interviewing and screening of patients. Students gain extensive exposure to the diagnosis, treatment and follow-up of various psychiatric disorders.

329. This seminar is conducted at the psychiatric ward of University Hospital under the direct supervision of the Director of Outpatient Psychiatry, (Dr. Herbert Wage-maker, also Associate Professor of Psychiatry at the University of Louisville School of Medicine). It consists of lectures and discussions conducted by the director, extensive use of videotape materials on psychopathology, and assigned readings on psychotic, neurotic and characterological disorders. The seminar is designed to academically augment the Louisville Psychiatric Internship. A scholarly paper is required, detailing the knowledge and insights gained from the lectures, readings and internship experience.

199

The New York Arts Program

Hope College students may take a semester in New York as part of the Great Lakes Colleges Association Arts Program. New York City's unique resources — for instance, its museums, the Lincoln Center of Performing Arts, professional theatres, lecture series, etc. — make possible an experience of the legacy of American art as well as its dynamic present.

IDS 389. This program is designed to provide those students seriously interested in the performing, visual and communication arts with an opportunity to experience the world of the established professional artist in New York City. A qualified student spends one semester or term living in New York as an apprentice to a producing artist or with an organization in the arts. At the same time, students participate in a specially designed program of seminars conducted by professionals, including GLCA staff members, in various areas of the arts. Applicants must consider themselves as beginning professionals and must have a mature, responsible attitude toward their art. Applicants should plan to visit New York City for an interview. Resident GLCA staff members assist students in finding both apprenticeships and housing. The program has two main goals: To provide advanced experience and knowledge in highly focused arts areas (primarily through the apprenticeships), and to provide a broadened knowledge of all the arts as currently practiced in New York (primarily through the seminars). The means of achieving these goals are adapted to the requirements of the individual participants.

Interdisciplinary Studies

Approval by the department is required prior to the student's registering for this program and the department must approve the student's individual program before credit will be granted. The GLCA Arts Program should preferably be taken in the junior year or first semester of the senior year, although it is open to a few qualified sophomores. The registrant must be accepted into the program by the Director of the Program.

See also: Art 389, English 389, and Theatre 389.

The Washington Semester Program

This program introduces students who have excelled in a variety of disciplines to the process of national government and politics in the setting of the nation's capital. Twelve students, selected from superior departmental majors, will attend biweekly seminars; take interviews with lobbyists and members of the legislature, executive, and judicial branches of government; and participate in internships of several kinds, in an effort to build skills related to future vocations for which their majors have prepared them. For further information, see page 107.

IDS 349. May be used as a module in the program which is tailored to each student's vocational interests.

The Senior Seminars

The Hope College catalogue introduces the college as an institution where life is regarded as God's trust to man. In this context students are helped to discover their individual abilities, and to develop as competent, creative, and compassionate human beings, devoted to serving God in all areas of life. From these aims the Senior Seminar's core requirement was developed.

200

Through personal assessment of one's education and life view, the Senior Seminar is intended to serve as the capstone to an education at Hope College. The Seminars are designed to help the student 1) consider how the Christian faith can form a philosophy for living, 2) articulate his philosophy for living in a coherent, disciplined, yet personal way, 3) provide an opportunity to understand secular contemporary values in Christian perspective.

Senior Seminars are three hour courses offered both semesters. Students may elect from the following courses to fulfill the requirement. Courses should be taken by second-semester juniors and seniors unless by special permission from the Director of Senior Seminars.

400. RELIGIOUS PERSPECTIVES IN THE DRAMA — An examination of the ways in which various religious perspectives, value systems, and world-views are reflected in drama, primarily of the modern period but with attention given also to the Greek classical and medieval theatre. Christian and non-Christian perspectives in drama will be considered and compared. Students will conduct critical research, be responsible for oral presentations, and prepare a life-view paper attempting to clarify and organize their own perspectives and values.

THREE HOURS

RALPH

401. CHRISTIANITY AND CONTEMPORARY CULTURE — An exploration of what it means to be a Christian in the modern world through reflection on the problem of Christ and culture in general and on such specific contemporary issues as Wealth

Interdisciplinary Studies

and Poverty, Male and Female, Work and Play, Truth and Illusion. The goal is to connect biblical and theological thinking with the society in which we live and, conversely, to evaluate our culture from an authentically Christian perspective.

THREE HOURS

WESTPHAL

402. CHRISTIANITY AND CONTEMPORARY LITERATURE — Through an examination of a variety of literary statements — in poems, plays, films, novels, etc. — this course focuses on a major problem confronting the Christian and Christianity in the contemporary world. Representative variants: "Images of Man," "Crises and Correlations," "Man's Search for Meaning."

THREE HOURS

STAFF

403. STUDIES IN CONFLICT AND PEACEMAKING — Building on Jesus' assertion "Blessed are the peacemakers," this course provides an occasion for the examination of the concepts and strategies from several disciplines (psychology, religion, political science, sociology, etc.) in an effort to understand the genesis and evolution of personal, social, and political conflict. Variants: "War and Peace," "The Peace Within."

THREE HOURS

BOULTON

405. PSYCHOLOGICAL FACTORS IN RELIGIOUS DEVELOPMENT — An examination of the critical growth tasks throughout the life cycle as these bear upon and are influenced by the development of faith. Special attention is given to the effect of a person's particular resolution of these growth tasks upon one's capacity to understand and respond to the invitation and challenges of the Christian faith.

THREE HOURS

GRANBERG

410. PSYCHOLOGICAL RESEARCH AND CHRISTIAN BELIEF — Explores such topics as values, mind and body, behavior and belief, freedom and determinism and related topics from the perspectives of psychological research and Christian thought.

THREE HOURS

MYERS

411. AUTOBIOGRAPHY AS THEOLOGY — Students will write interpretive autobiographical accounts of their life and experiences with the help of some integrating principles or "controlling images" of their own personal choice. Reading and discussion will focus upon contemporary literary, psychological and theological sources as well as biblical materials.

THREE HOURS

HUTTAR

412. PHILOSOPHY OF RELIGION — Inquiry into the nature and functions of religion in various cultures; the logic of religious belief; the nature of religious discourse; the relations between religious world-views and their alternatives. Same as Philosophy 331.

THREE HOURS

JENTZ, PALMA

413. EXISTENCE AND THE CHRISTIAN FAITH — A systematic inquiry into the Christian interpretation of human existence through a critical analysis and evaluation of such non-Christian existentialists as Sartre, Camus and Heidegger and such Christian theologians as Calvin, Kierkegaard, Niebuhr and Tillich. Prerequisite: One course in "Basic Studies in Religion."

THREE HOURS

414. ETHICS IN MODERN SOCIETY — A course in the practice of ethics. Each student explores a contemporary ethical question in light of the historic Christian faith. The subject areas are War and Peace, Justice, Sex and Love, Death and Life.

THREE HOURS

BOULTON

Interdisciplinary Studies

421. SCIENCE AND HUMAN VALUES — An exploration of the ramifications of man's actions in the physical world, this course exists to heighten awareness of western man's involvement in nature, detailing the role of science and technology in creating problems and attempting solutions.

THREE to FOUR HOURS

WILLIAMS, BRINK

423. SCIENCE AND THE CHRISTIAN FAITH — Examining from historical, theological, and scientific perspectives the conflicts that have arisen between science and the Christian faith, this course proposes a resolution which attempts to integrate the discoveries of science with Holy Scripture. Anticipated problems of faith arising from such scientific concerns as the synthesis of life, genetic engineering, longevity, etc. are also examined.

THREE HOURS

MARKER

425. GENESIS AND GEOLOGY — This course explores Creation and the origin of man from both scientific and scriptural points of view and examines the apparent conflicts between these two philosophies. On these basis, the course will attempt to define man and explain his origin. Students will be encouraged to examine their own understanding of what man is, his origins and how these origins might influence his outlook.

REINKING

441. MAN AND HIS ENVIRONMENT — This course will examine the historical and psychological effects of man-made environments on human behavior. Selected examples will pay attention to environments that man created for religious use, as pilgrimage centers, and as cities. The following questions about these environments will be explored: How did the creators of environment wish to affect people? What unintended or unforeseen results have certain environments had on those living in them? In what ways has spiritual growth been associated with pilgrimage to and meditation in certain environments? How can contemporary planners learn from the past in order to create environments most conducive to the development of highest human potential?

THREE HOURS

VAN EYL

451. RELIGION AND PSYCHOLOGY — An examination of basic components of human experience and behavior that are common to both religion and psychology. An analysis of the ways in which the disciplines of religion and psychology can assist one another.

THREE HOURS

PALMA

452. CHRISTIANITY AND CONTEMPORARY AMERICAN CULTURE — An examination of the major tenets of the Christian faith and the various ways in which the Christian faith interacts with major phenomena in contemporary American culture such as technology, the arts, politics and social morality.

STAFF

454. MAN, MEDICINE AND MORALS — The course poses questions raised by new advances in medical science and technology, examines some basic options for dealing with them, and helps students formulate an ethical perspective which is appropriate both to these new problems and to the Christian tradition.

THREE HOURS

VERHEY

456. BUSINESS AND ETHICS — A reflective consideration of what is said and done in the world of business with a view toward the relevant moral issues and the possible means for resolving them in a Christian perspective. Case studies as well as theoretical essays will be examined; and each student will write an essay with a view

Interdisciplinary Studies

toward clarifying his/her perspectives on the topic of "succeeding" in business. The course may be credited as a Senior Seminar.

JENTZ

457. CHRISTIAN THOUGHT AND THE SPIRITUAL LIFE — A study of speculative mysticism and the Christian Spiritual traditions with the aim of encouraging reflection as the relation between Christian thought and the life of prayer and contemplation.

THREE HOURS

PEROVICH

Readings and Research

490. INDIVIDUAL STUDY — An individual research project, investigating some topic in depth and culminating in a paper that demonstrates interdisciplinary scholarship and independent thought. Students who meet the Honors Project eligibility and present a paper that meets the standards established will have the course recorded as an Honors Project. May be repeated for additional credit, with a different project. Not limited to the senior level. Prerequisite: departmental acceptance of application (forms available in department office).

THREE to FOUR HOURS

STAFF BOTH SEMESTERS

491. CONTRACT CURRICULUM — This course is specifically designated to cover Contract Curriculum programs. See pages 92-94.

495. ADVANCED STUDIES — A seminar in some field designated by the department in consultation with faculty. Preparation and presentation of research papers are central to the course. Offered occasionally as student interest and faculty availability permit.

THREE to FOUR HOURS

STAFF

MATHEMATICS

MR. VAN IWAARDEN, CHAIRMAN; MR. CAROTHERS, MR. SHERBURNE, MR. TANIS, MR. VANDERVELDE.

The mathematics program includes courses in mathematical analysis, algebra, and statistics as well as a number of courses with a computer science orientation. A Xerox Sigma 6 Computer gives students access to a large batch and time sharing computer system. A Tektronix 4051 Graphic System that has built-in computational power and can also be used as a graphics terminal is available for student research. A microcomputer laboratory contains 10 TRS-80 Radio Shack Computers. These computers are used in several courses and are available for all students to use.

The department continues to offer a strong program in mathematics which prepares a student for graduate school in leading universities in this country. Students with immediate vocational interests have found that the mathematics major provides an excellent background for a position in industry, teaching, business, or government. Students are encouraged to have a strong component in an area in which mathematics is used. Some suggested areas are computer science, physics, and economics. Some students choose to major in mathematics and minor in computer science, physics, economics, etc.

Recent research projects were conducted by students with faculty members in the areas of:

computer simulation
computer art using parametric equations
M.C. Escher-type art on a computer
mathematical modeling
operations research
statistics
graph theory

All courses except Mathematics 100 and Mathematics 205 require a minimum of one year of high school algebra and one year of high school geometry. Any course may be counted toward the three semester-hour graduation requirement in mathematics.

MATHEMATICS MAJOR: A major in mathematics consists of a minimum of 30 hours of mathematics courses. Mathematics 120 and nine hours from courses numbered 300 or above are required. Either Mathematics 310 or Mathematics 361 (not both) may be counted towards a mathematics major. Courses 100, 121, 127, 130, 210, 212, and 323 may not be counted toward a major. It is suggested that prospective secondary teachers include 120, 240, 341, 351, 361, and 362 in their programs. All majors should consult a departmental advisor.

B.S. DEGREE IN MATHEMATICS: The requirements for a B.S. degree in mathematics consist of a minimum of 36 hours of mathematics courses including the 30 hours required for the major plus two 3-hour courses numbered above 270 and a minimum of 60 credit hours of courses from the natural science division.

Mathematics

210. INTRODUCTORY STATISTICS — A general introduction to the area of statistics for students majoring in other departments. Includes study of the binomial and normal distributions with applications of estimation and testing of hypotheses, non-parametric methods, regression and correlation, and analysis of variance.

THREE HOURS **STAFF** **BOTH SEMESTERS**

212. LABORATORY FOR INTRODUCTORY STATISTICS — The computer is used as a tool to aid in the learning and understanding of statistics. Experience given in the use of statistical analysis packages. Prerequisite or Co-requisite, Mathematics 210.

ONE HOUR **TANIS** **SPRING SEMESTER**

235. CALCULUS III — Infinite Series. Functions of several variables. Partial derivatives. Multiple integrals. Cylindrical and spherical coordinates. Prerequisite: Mathematics 136.

THREE HOURS **STAFF** **BOTH SEMESTERS**

240. LINEAR ALGEBRA — Set theory, matrices and linear systems, vector spaces, determinants, linear transformations. Prerequisite: Mathematics 136 or permission of department chairman.

THREE HOURS **VANDERVELDE** **BOTH SEMESTERS**

270. DIFFERENTIAL EQUATIONS — First order and higher order ordinary differential equations and introduction to Laplace Transforms. Numerical techniques including graphing for first and higher order equations using the computer. Prerequisite or Co-requisite: Mathematics 235.

THREE HOURS **SHERBURNE, VAN IWAARDEN** **BOTH SEMESTERS**

273. VECTOR CALCULUS — A study of applications of 3-dimensional vectors leading to line integrals, surface integrals, Green's Theorem, Stoke's Theorem, The Divergence Theorem. Prerequisite: Mathematics 235.

THREE HOURS **CAROTHERS** **FALL SEMESTER**

206 295. STUDIES IN MATHEMATICS — A course offered in response to student interest and need. Deals with particular mathematical topics which are not included in regular courses. Prerequisite: Permission of instructor or department chairman.

ONE, TWO or THREE HOURS **STAFF** **ANY SEMESTER**

310. STATISTICS FOR SCIENTISTS — An introduction to the area of statistics for students majoring in one of the natural or social sciences. The probability distributions that will be studied include the normal (Gaussian), binomial, Poisson, Student's T, chi-square and F. Statistical topics include estimation, tests of statistical hypotheses, non-parametric methods, regression and correlation, analysis of variance. Data that has been collected by students and/or professors in the sciences will form an integral part of this course. Prerequisite: Math 136.

THREE HOURS **TANIS** **SPRING SEMESTER**

321. HISTORY OF MATHEMATICS — This course is designed to give mathematics students in secondary education an opportunity to become acquainted with the various periods of mathematical development. Attention will be given to the early Egyptian-Babylonian period, the geometry of Greek mathematicians, the Hindu and Arabian contribution, the evolution and analytical geometry since Descartes, the development of calculus by Newton and Leibniz, and non-Euclidean geometry. Some attention will be given to the methods and symbolisms used in problem solving during various periods of time. Alternate years, 1982-83.

ONE HOUR **SHERBURNE** **SPRING SEMESTER**

Mathematics

323. TEACHING OF MATHEMATICS IN THE HIGH SCHOOL — Methods of teaching mathematics with emphasis on new approaches, curriculum changes, and trends in modern mathematics. Same as Education 323.

TWO HOURS

STAFF SPRING SEMESTER

334. COMPLEX ANALYSIS — Algebra and geometry of complex numbers, analytic functions, complex integration, series, conformal mapping. Prerequisite: Mathematics 235, 273 or consent of Department Chairman. Alternate years, 1983-84.

THREE HOURS

CAROTHERS SPRING SEMESTER

336. REAL ANALYSIS — A formal approach to limits, continuity, differentiation and integration. Attention is given to the proofs of theorems and the introduction of concepts which are not covered in Calculus I, II, III. Prerequisite: Mathematics 235.

THREE HOURS

STAFF SPRING SEMESTER

341. ALGEBRAIC STRUCTURES I — An introduction to algebraic systems including a study of groups, rings, and integral domains. Prerequisite: Mathematics 240 or equivalent.

THREE HOURS

VANDERVELDE FALL SEMESTER

342. ALGEBRAIC STRUCTURES II — A continuation of Mathematics 341 including a study of topics in fields, Galois theory, advanced linear algebra, modules. Prerequisite: Mathematics 341. Alternate years, 1982-83.

THREE HOURS

VANDERVELDE SPRING SEMESTER

351. COLLEGE GEOMETRY — A modern approach to geometry for students with some background in calculus and an interest in secondary teaching. Attention is given to the role of axioms in elementary geometry and in the development of other geometries. Prerequisite: Mathematics 135 and junior standing or permission of department chairman. Alternate years, 1982-83.

THREE HOURS

SHERBURNE FALL SEMESTER

361. MATHEMATICAL PROBABILITY AND STATISTICS I — Concepts of probability, probability as relative frequency, random variables, probability density functions, cumulative distribution functions, mathematical expectation, mean, variance, confidence intervals. Lecture, three hours per week for three hours credit. Prerequisite: Mathematics 235. Optional laboratory, two hours per week for an additional hour credit. Prerequisite: Mathematics (Computer Science) 120.

THREE or FOUR HOURS

TANIS FALL SEMESTER

362. MATHEMATICAL PROBABILITY AND STATISTICS II — Continuation of Mathematics 361 emphasizing statistics. Estimation, testing of statistical hypotheses, regression and correlation, analysis of variance. Lecture, three hours per week for three hours credit. Prerequisite: Mathematics 361. Optional laboratory, two hours per week for an additional hour credit. Prerequisite: Mathematics (Computer Science) 120.

THREE or FOUR HOURS

TANIS SPRING SEMESTER

372. NUMERICAL ANALYSIS — The source and analysis of computational error. Finding the solution of an equation. Systems of linear equations. Interpolation and approximation. Numerical integration. prerequisites: Computer Science 120 and Mathematics 235. Alternate years, 1982-83.

THREE HOURS

STAFF SPRING SEMESTER

375. OPERATIONS RESEARCH — Decision making using mathematical modeling and optimization. Linear programming. Network analysis. Dynamic programming.

Mathematics

Game theory. Queueing theory. Computer programs will be written to implement these techniques. Prerequisites: Computer Science 120, Mathematics 235, 240 and either 310 or 361. Alternate years, 1983-84.

THREE HOURS

STAFF FALL SEMESTER

434. ELEMENTARY TOPOLOGY — A systematic survey of the standard topics of general topology with emphasis on the space of real numbers. Includes set theory, topological spaces, metric spaces, compactness, connectedness, and product spaces. Prerequisite or co-requisite: Mathematics 336. Alternate years, 1982-83.

THREE HOURS

STAFF SPRING SEMESTER

490. INDEPENDENT STUDY AND RESEARCH — Course provides opportunity for a junior or senior mathematics major to engage in an independent study project or a research project in an area of mathematics in which the student has special interest. Prerequisite: Permission of the chairman of the department.

ONE, TWO or THREE HOURS

STAFF BOTH SEMESTERS

495. ADVANCED STUDIES IN MATHEMATICS — Offered as needed to cover topics not usually included in the other mathematics courses. A student may enroll for either or both semesters. Prerequisite: Permission of the chairman of the department.

ONE, TWO or THREE HOURS

STAFF ANY SEMESTER

MUSIC

MR. SHARP*, CHAIRMAN; MR. ASCHBRENNER, MR. CECIL, MISS CONWAY, MR. DAVIS, MISS HOLLEMAN, MR. KOOIKER, MISS MORRISON, MISS NATVIG, MR. RIETBERG, MR. RITSEMA, MR. VOTTA. Assisting Faculty: MRS. DAUSER, MRS. ENGSTROM, MR. ERICKSON, MR. FORMSMA, MR. JACKSON, MRS. KRAFT, MR. LANGEJANS, MR. MALFROID, MRS. PALMA, MR. SPEAKER, MR. VAN LENTE, MRS. WARNAAR.

The Department of Music of Hope College has two aims — to supply the liberal arts student with an elective musical background which will assist him in being aware and appreciative of the growing musical heritage of civilization, and to train the student who wishes to make music his individual vocation. A student in the first group will find ample opportunity to enrich his musical knowledge by enrolling in the Introduction to Music course, in any of the Applied Music courses, or by means of membership in any of the music ensembles. A student in the second group, if he desires to teach music, can elect either the Bachelor of Music in Instrumental Music Education or the Bachelor of Music in Vocal Music Education degrees, permitting him to teach music from kindergarten through the twelfth grade; the degree will not be awarded until he has gained Michigan provisional teacher certification; if he desires to be a performing artist, he should select the Bachelor of Music in Performance program; if he wishes to major in music under the Bachelor of Arts degree he may do so in either Music Literature and History or Theory. All of the above programs are designed as basic toward continued study in graduate schools of music.

Students enrolled in the music program at Hope College engage in a wide variety of experiences outside the classroom:

- many are directing choirs in area churches
- several are teaching private instrumental lessons
- some have organized combos and play in area night spots
- several instrumentalists play in the Grand Rapids Symphony

209

Graduates of the Music Department are currently serving as:

- a teacher of musicology at a major university
- a first hornist in the New York Philharmonic Orchestra
- a librarian at the Sibley Library in the Eastman School of Music
- director of music at a prominent Pennsylvania church
- teachers in various elementary and secondary schools
- a leading baritone in a prominent Eastern opera company
- a soprano in a German operatic company

MAJOR: A student who wishes to major in music, under either the Bachelor of Music or the Bachelor of Arts degree programs, must start work in the department in his Freshman year, following the suggested schedule closely. If possible, he should indicate his preference in his application for admission to Hope College. In the second semester of the freshman year a student will fill out an intent to major form, be evaluated by the department, and counseled appropriately. Formal application for majoring takes place at the close of the sophomore year.

*On leave Fall Semester 1982-83.

Music

MINOR: The requirements for the optional Music Minor are as follows:

Music 111, 112	8 hours
Music 197	2 hours
Music 101	3 hours
Choice of one Music Lit Course:	
Music 321, 323, 325 or 328	3 hours
Applied Music	8 hours
(Two hours of this may be in ensemble groups)	
TOTAL:	24 hours

The Music Minor requirements for elementary teacher certification are 23 hours of music, as follows:

Music 111, 112	8 hours
Music 101	3 hours
Music 300	3 hours
Ensemble	2 or 3 hours
Applied Music	6 or 7 hours
1st year Piano Proficiency, or Music 197	
TOTAL:	23 hours

The Music Minor requirements for secondary teacher certification are 22 hours of music, as follows:

Music 111, 112	8 hours
Music 101	3 hours
Music 307 or 375	2 or 3 hours
Ensemble	2 hours
Applied Music	6 hours
1st year Piano Proficiency, or Music 197	
TOTAL:	22 hours

210 BACHELOR OF MUSIC IN VOCAL MUSIC EDUCATION

Core Curriculum: Expository Writing (4), Mathematics (3), Cultural History (6) divided between A and B components and chosen from the following courses: English 231, 232; History 130, 131; Philosophy 219, 220. Social Science (3), Natural Science (4), *Foreign Language (7), Religion (6), Physical Education (2), Senior Seminar (3). **Total: 38 hours.**

Basic Musicianship: 101, 111, 112, 197, 211, 212, 297, 311, 315, 321, 323, 325, 491. **Total: 40 hours**

Performance: Applied Major Area (14), Applied Minor Area (4), Ensemble (4) to be distributed over seven semesters. **Total: 22 hours**

Music Education: 270 (2), 300 (3), 344 (2), 375 (2), 376 (2) **Total: 11 hours**

Professional Education: 220 (4), 295 (3), 330 (3), 360 (4), 500 (3), 485 (10). **Total: 27 hours**

Grand Total: 138 hours

BACHELOR OF MUSIC IN INSTRUMENTAL MUSIC EDUCATION

Core Curriculum: Same as program above. **Total 38 hours**

Basic Musicianship: 101, 111, 112, 197, 211, 212, 297, 311, 315, 321, 323, 325, 341, 491.	Total: 43 hours
Performance: Applied Major Area (14), Ensemble (4) to be distributed over seven semesters.	Total: 18 hours
Music Education: 300 (2), Instrumental Methods Classes (5), 342 (2), 370 (3).	Total: 12 hours
Professional Education: 220 (4), 295 (3), 330 (3), 360 (4), 500 (3), 485 (10).	Total: 27 hours
Grand Total: 138 hours	

Every student whose major applied instrument is brass, wind or percussion is required to be a member of the band for a minimum period of three years.

Every student whose major applied instrument is strings is required to be a member of the orchestra for a minimum of three years.

BACHELOR OF MUSIC IN PERFORMANCE

Core Curriculum: Expository Writing (4), Mathematics (3), Cultural History (6) divided between A and B components and chosen from the following courses: English 231, 232; History 130, 131; Philosophy 219, 220. Social Science (3), Natural Science (4), *Foreign Language (7), Religion (6), Physical Education (2), Senior Seminar (3).	Total: 38 hours
Basic Musicianship: 101, 111, 112, 197, 211, 212, 297, 311, 315, 321, 323, 325, 341, 342, or 344, 491.	Total: 45 hours
Performance: Applied Major Area (24), Applied Minor Area (8), Ensemble (4), to be distributed over seven semesters, Literature and Pedagogy (3).	Total: 39 hours
Electives: 7 hours	
Grand Total: 129 hours	

211

BACHELOR OF ARTS WITH A MAJOR IN MUSIC

The program for this major requires that the student apply for a major to the chairman of the department during his freshman year. The basic requirement in general studies is the core program. The chairman, or an advisor from the department, will work out a program of study to meet the major requirements and to ensure the development of a program which meets the individual needs and abilities of each student.

Major areas of study include the history of music, music theory and composition with a strong emphasis on performance. The degree basically will serve those students who plan to continue their music education in graduate or professional schools.

BACHELOR OF ARTS IN MUSIC WITH A CHURCH MUSIC EDUCATION EMPHASIS — Designed for the student who plans a career in Christian Education in the church.

Core Curriculum: Expository Writing (4), mathematics (3), Cultural History and Language (19), Social Science (6), Natural Science (8), Fine Arts (including Music 101) (6), Religion (must include 110 or 120, and one of the following: 211, 212, 215, 216 (6) Physical Education (2) Senior Seminar (3).	Total: 57 hours
--	-----------------

Music

Basic Musicianship: 111, 112, 197, 211, 212, (297 if necessary), 311 or 315, 321 or 323 or 325; 328, 491.	Total: 29 or 31 hours
Performance: Applied Major Area (12), Minor Area (4), Ensemble (4).	Total: 20 hours
Music Education: 300, 344, 350 or 337; 375, (295 — Supervised Field Work).	Total: 11 or 12 hours
Additional Requirements: Religion 352, Electives (3 or 6)	Total: 6 or 9 hours
	Grand Total: 126 hours

General Introductory Courses:

101. INTRODUCTION TO MUSIC — Development of skills in listening intelligently to music, with emphasis upon the development of music as an art. May be taken in partial fulfillment of the College Fine Arts Requirement.

THREE HOURS STAFF BOTH SEMESTERS

103. FUNDAMENTALS OF MUSIC — A course for the non-music major. It includes principles of music notation, basic keyboard skills (scales and triads) and elementary sight-singing.

TWO HOURS CECIL SPRING SEMESTER

Theoretical Courses:

111. THEORY I — For music majors and minors with emphasis on the fundamentals of music. The study of triads, intervals, key scales, cadences, sight singing, melodic and harmonic dictation, and keyboard harmony. Students must take Keyboard Skills concurrently with this course.

FOUR HOURS CECIL, RIETBERG FALL SEMESTER

112. THEORY I — Continuation of course 111. Introduces seventh chords, modulation, and the study of four-part writing. Dictation and keyboard drill are continued.

FOUR HOURS CECIL, RIETBERG SPRING SEMESTER

Keyboard Skills is required for all students studying Theory. Placement is by audition.

197A. KEYBOARD SKILLS — Designed for students with little or no previous piano background; beginning repertoire, scales, studies are covered, as well as elementary harmonization, improvisation and other functional skills.

ONE HOUR CONWAY BOTH SEMESTERS

197B. KEYBOARD SKILLS — Practical piano training for students who evidence a degree of proficiency. Deals with harmonization, improvisation, transposition, and sight-reading techniques.

ONE HOUR CONWAY BOTH SEMESTERS

197C. KEYBOARD SKILLS — Open to students whose major instrument is piano or organ, emphasis on a functional approach to the keyboard. Harmonization, transposition, improvisation, and practical harmonic vocabulary are stressed.

ONE HOUR CONWAY BOTH SEMESTERS

Music

211. THEORY II — Prerequisite: 111 and 112, first year piano proficiency. A continuation of Theory I, including keyboard harmony, dictation, and sight singing. The study of harmony will proceed from figured and unfigured bass and soprano harmonization and include techniques of 19th century composition. Course meets daily. Students deficient in keyboard must take Keyboard Skills concurrently with this course.
FOUR HOURS ASCHBRENNER, DAVIS FALL SEMESTER

212. THEORY II — Continuation of course 211.
FOUR HOURS ASCHBRENNER, DAVIS SPRING SEMESTER

213. COMPOSITION — A class designed for students with prior music composition background, especially those who are interested in becoming composition majors. The class will involve the writing of exercises, the completion of analytical assignments and free composition. Workshop performances of student compositions will be included. The course may be repeated. Prerequisite: Music 111, 112 or permission of instructor.
TWO HOURS ASCHBRENNER BOTH SEMESTERS

270. GENERAL INSTRUMENTAL METHODS — A required course for vocal music education majors. Basic skills in playing woodwind, brass, percussion, and string instruments as well as suggested literature and methods for teaching these instruments. Alternate years, 1982-83.
TWO HOURS RITSEMA FALL SEMESTER

295. STUDIES IN MUSIC — A lecture or seminar class in a special topic offered at the sophomore level.
TWO or THREE HOURS STAFF

297A. KEYBOARD SKILLS — Continuation of course 197A.
ONE HOUR CONWAY BOTH SEMESTERS

297B. KEYBOARD SKILLS — Continuation of course 197B.
ONE HOUR CONWAY BOTH SEMESTERS

300. ELEMENTARY MUSIC METHODS — A practical presentation of how to teach music to school children, using simple instruments, functional piano playing, demonstration of methods and materials. Designed for the classroom teacher. Junior and senior music majors only, others by permission of instructor.
THREE HOURS HOLLEMAN BOTH SEMESTERS

311. FORM AND ANALYSIS — A practical and analytical course in the structure of music, as well as the harmonic and polyphonic devices employed in representative major works. Prerequisite: Theory I and Theory II.
THREE HOURS NATVIG FALL SEMESTER

315. COUNTERPOINT — A practice of the techniques used in eighteenth-century composition and a study of the style and literature of the period.
THREE HOURS DAVIS SPRING SEMESTER

321. MUSIC LITERATURE OF THE CLASSIC AND ROMANTIC PERIODS — Includes the history and literature of music after 1750 and extending through the Romantic Period. Special emphasis is placed on the works of Haydn, Mozart, Beethoven, and Schubert. Prerequisite: Music 101 or consent of instructor.
THREE HOURS STAFF SPRING SEMESTER

Music

323. WAGNER AND THE TWENTIETH CENTURY — Music history and literature of Wagner, the later Romantic composers, and composers of the Twentieth Century.
THREE HOURS CECIL FALL SEMESTER

325. MUSIC LITERATURE BEFORE 1750 — The music from the time of the Greeks through the works of Bach and Handel, with emphasis on the use of illustrative materials and recordings. Prerequisite: Music 101 or consent of instructor. Alternate years, 1983-84.
THREE HOURS RITSEMA SPRING SEMESTER

327. ORGAN LITERATURE — A survey of the various periods of organ composition, with emphasis upon the study and performance of representative works. Alternate years, 1984-85.
TWO HOURS DAVIS FALL SEMESTER

328. MUSIC IN THE CHURCH — A study of the nature and meaning of Christian worship; the legacy of temple and synagogue worship; early Christian worship; the worship of the Roman Church; Reformation liturgies; a study of hymnology and a survey of the great music of the church, including the development of the anthem and oratorio.
THREE HOURS RIETBERG SPRING SEMESTER

330. PIANO METHODS — Introduces methods and materials used in teaching elementary and intermediate piano for private and class instruction at all age levels. Students other than majors may register upon consent of the piano staff. Includes supervised student teaching in electronic piano lab.
TWO HOURS CONWAY FALL SEMESTER

333. STRING APPLIED METHODS I — A course in the fundamentals of playing and teaching string instruments. Designed primarily for the instrumental music major. Alternate years, 1983-84.
ONE HOUR RITSEMA FALL SEMESTER

214 **334. STRING APPLIED METHODS II** — Continuation of Course 333. Alternate years, 1983-84.
ONE HOUR RITSEMA SPRING SEMESTER

335. PERCUSSION METHODS — A course in the fundamentals of playing and teaching percussion instruments. Designed primarily for the instrumental music major. Alternate years, 1982-83.
ONE HOUR LANGEJANS FALL SEMESTER

336. WOODWIND METHODS I — A course in the fundamentals of playing and teaching woodwind instruments. Designed primarily for the instrumental music major. Alternate years, 1983-84.
ONE HOUR WARNAAR SPRING SEMESTER

337. VOCAL METHODS — A required course for vocal performance majors and strongly recommended for vocal music education majors. The study involves the three main styles of vocal literature and combines contemporary vocal teaching techniques with representative solo material. Alternate years, 1983-84.
THREE HOURS MORRISON SPRING SEMESTER

338. DICTION FOR SINGERS — A course which prepares the voice student to study and to perform songs and operas in the most important languages of music literature. Alternate years, 1983-84.
TWO HOURS SHARP MAY TERM

339. BRASS METHODS — A course in the fundamentals of playing and teaching brass instruments. Designed primarily for the instrumental music major. Alternate years, 1982-83.

ONE HOUR CECIL SPRING SEMESTER

340. WOODWIND METHODS II — Continuation of course 336. Alternate years, 1982-83.

ONE HOUR WARNAAR SPRING SEMESTER

341. ORCHESTRATION — Principles of scoring for small string and wind ensembles, symphonic orchestra and symphonic band. Includes practical arranging for marching band and for chamber orchestra. Alternate years, 1982-83.

THREE HOURS RITSEMA FALL SEMESTER

342. INSTRUMENTAL CONDUCTING — A practical study of conducting instrumental music. A study of fundamentals of conducting and experience in conducting a small instrumental ensemble. Alternate years, 1982-83.

TWO HOURS RITSEMA SPRING SEMESTER

344. CHORAL CONDUCTING — A practical study of conducting choral music. The requirements for the first two years of a music major are advisable as a prerequisite. Alternate years, 1983-84.

TWO HOURS RIETBERG FALL SEMESTER

350. SERVICE PLAYING — Instruction in anthem and oratorio accompaniment, conducting from the console, and improvisation. Prerequisite: 1½ years of organ. Recommended for organ majors. Alternate years, 1982-83.

TWO HOURS RIETBERG SPRING SEMESTER

370. SECONDARY INSTRUMENTAL METHODS AND ADMINISTRATION — The problems peculiar to the teaching of instrumental music in both class and private instruction. Sections devoted to the selection of texts and music, the selection, care, and repair of orchestral instruments, and the marching band. The requirements for the first two years as a music major are advisable as a prerequisite. Alternate years, 1983-84.

THREE HOURS LANGEJANS FALL SEMESTER

215

375. MIDDLE SCHOOL MUSIC METHODS — Observation, teaching techniques in the general music class and chorus. Study of materials, administration. Junior and Senior Music majors only, others by permission; recommended prerequisite, Music 300. Alternate years, 1983-84.

TWO HOURS HOLLEMAN SPRING SEMESTER

376. SECONDARY CHORAL METHODS — The development and observation of teaching procedures in the Jr. and Sr. high school choral program with emphasis upon vocal literature, choral style, and rehearsal techniques. Alternate years, 1982-83.

TWO HOURS STAFF FALL SEMESTER

490. INDEPENDENT STUDY — This course is designed to give students majoring in music an opportunity to do research in a field of Music History or Theory in which they have a particular interest. The student will submit a formal application which must be approved by the faculty as a whole, and by the Dean for Academic Affairs.

TWO or THREE HOURS STAFF BOTH SEMESTERS

491. SENIOR SEMINAR IN MUSIC — A required senior music course designed to assist advanced students in the problems of music and to act as an additional survey of

Music

theoretical and music literature materials. Includes an oral comprehensive examination, as well as independent study.

TWO HOURS

KOOKER

FALL SEMESTER

495. STUDIES IN MUSIC — A lecture or class in a special topic for music majors.

TWO or THREE HOURS

STAFF

APPLIED MUSIC COURSES

Applied Music courses are available to all students, from beginners to advanced. Private or class instruction is by advisement of the faculty, depending upon the student's degree of preparation. All music majors except first semester Freshmen are required to pass an examination each semester under the jury system. For Applied Music fees, see index.

In partial fulfillment of music major requirements, seniors majoring in applied music will give a full length evening recital and seniors majoring in music education will share in a joint evening recital. All juniors majoring in performance will give either a partial or full recital, the length to be at the instructor's discretion. Exceptions to recital requirements will be granted only by a decision of the music faculty recital committee.

All private lessons are of 30 or 45 minute duration. Lessons in Applied Music will not be made up unless the student notifies the instructor a reasonable time in advance of his absence. Private lessons falling on legal and special holidays will not be made up. All Applied Music students are required to fulfill practice time requirements, consisting of at least one hour per day for each weekly piano, organ, or instrumental lesson. Qualified students studying piano privately are required to accompany for a minimum of one lesson per week during course study. Two hour credit courses are open to all students, including non-music majors. Three hour credit courses are open only to performance majors and to other music majors with the recommendation of the faculty. All students studying applied music meet for a class each Wednesday from 3:30 to 4:20 p.m.

216

APPLIED MUSIC — PRIVATE INSTRUCTION

Applied lessons are either one-half hour lesson per week, receiving two hours credit per semester, or one forty-five minute lesson per week, receiving three hours credit per semester. Students should audition prior to registration.

APPLIED MUSIC

161 Flute; 162 Oboe; 163 Clarinet; 164 Saxophone; 165 Bassoon; 166 Horn; 167 Trumpet; 168 Trombone; 169 Baritone; 170 Tuba; 171 Percussion; 172 Harp; 173 Violin; 174 Viola; 175 Cello; 176 String Bass; 177 Organ; 178 Harpsicord; 179 Piano; 180 Guitar; 181 Voice; 185 Early Instruments.

APPLIED MUSIC — CLASS INSTRUCTION

186. GUITAR CLASS, BEGINNING — Open to all students. A classical guitar is required for this course.

TWO HOURS

187. GUITAR CLASS, INTERMEDIATE — A continuation of the above.

TWO HOURS

190. PIANO CLASS, BEGINNING — Open to all students who are beginning piano study, with the exception of piano majors to whom it is closed entirely. Limited to four hours total credit.

TWO HOURS PALMA BOTH SEMESTERS

191. PIANO CLASS, INTERMEDIATE — A continuation of the above.

TWO HOURS PALMA BOTH SEMESTERS

192. VOICE CLASS, BEGINNING — Open to all students, with a limit of four hours total credit; meets twice weekly.

TWO HOURS MORRISON BOTH SEMESTERS

193. VOICE CLASS, INTERMEDIATE — A continuation of the above; meets twice weekly.

TWO HOURS MORRISON BOTH SEMESTERS

194. VOICE CLASS, ADVANCED — A course open only to music majors working toward the Bachelor of Music in Vocal Music Education; meets twice weekly.

TWO HOURS MORRISON BOTH SEMESTERS

ENSEMBLES — CHORAL AND INSTRUMENTAL

100. CHAPEL CHOIR — Membership of approximately 70 voices determined each Spring by auditions from members of the College Chorus.

ONE HOUR RIETBERG BOTH SEMESTERS

110. COLLEGE CHORUS — Membership open to all interested students.

ONE-HALF HOUR DAVIS BOTH SEMESTERS

120. ORCHESTRA — Offers music majors and non-majors alike the opportunity to perform major works from the standard orchestra repertoire. The 60 member organization gives several concerts throughout the academic year and regularly features renowned faculty and guest soloists.

ONE HOUR RITSEMA BOTH SEMESTERS

130. CONCERT BAND — Open to all students by tryout in the fall. Reads and performs the standard band literature. A Pep Band is drawn from the group for athletic events.

ONE HOUR VOTTA BOTH SEMESTERS

133. PEP BAND — Rehearses marches and popular band literature for performance at athletic games and other campus events.

ONE-HALF HOUR VOTTA BOTH SEMESTERS

135. JAZZ ENSEMBLE — Provides an opportunity to read and perform the standard big band literature; improvisation is also stressed. The band performs on campus and traditionally plays for school assemblies in the state.

ONE-HALF HOUR VOTTA BOTH SEMESTERS

140. COLLEGIUM MUSICUM — Study and performance of instrumental and vocal music of the medieval, Renaissance, and Baroque eras. Membership determined by tryouts at the beginning of the first semester.

ONE-HALF HOUR SHARP and RITSEMA BOTH SEMESTERS

150. SYMPHONETTE — Membership determined by tryouts at the beginning of the Fall term.

ONE-HALF HOUR RITSEMA BOTH SEMESTERS

Music

155. OPERA WORKSHOP -- A workshop involving stage movement, acting and singing in the context of opera or operetta literature. All students will participate in scenes or full productions. During one year scenes of some of the great operas will be performed and on the alternate year a full production will be performed. By permission of instructor only.

ONE HOUR

MORRISON and SHARP

SPRING SEMESTER

160. CHAMBER ENSEMBLES -- By arrangement with a faculty member, chamber ensembles can be formed. The literature to be studied will determine the membership of the ensemble.

ONE-HALF HOUR

STAFF

BOTH SEMESTERS

NURSING

MS. KIELINEN, CHAIRPERSON; MS. DANFORD, MR. MANSEN, MS. MARTIN

The Department of Nursing seeks to provide broad educational and professional experiences within the context of a Christian liberal arts education. The program is designed to prepare beginning practitioners of nursing who are capable of integrating their knowledge, skills and attitudes to provide quality nursing care for people of all ages and in a variety of settings.

The baccalaureate nursing program is offered cooperatively with Calvin College in Grand Rapids. One department, known as the Hope-Calvin Department of Nursing, incorporates students from both Hope and Calvin Colleges in junior and senior level nursing courses.

Students enrolled in the nursing program engage in a wide variety of clinical nursing experiences. Butterworth Hospital and Holland Community Hospital serve as Clinical Education Centers, providing opportunities to care for people who need the knowledge and skills of the nursing profession. Pine Rest Christian Hospital provides for learning experiences in psychiatric nursing and a variety of community agencies offer students an opportunity to care for clients outside of a hospital setting.

Upon completion of all requirements, students receive a Bachelor of Science degree in Nursing (BSN) from Hope College and are eligible to take state licensing examinations to become a registered nurse (RN). Alternatively, it is possible for the student to receive a Bachelor of Arts degree with a major in nursing. Students are encouraged to contact the Nursing Department for further information.

219

MAJOR

A student who wishes to pursue a degree in nursing must start work on pre-nursing requirements in the freshman year, following the suggested schedule closely. If possible, students should indicate their interest in nursing on the application for admission to Hope College. During the first semester, an "Intent to Enter Nursing" form should be completed. A formal application to the Hope-Calvin Department of Nursing must be submitted by January 15th of the sophomore year. Applicants should be aware that admission to the nursing program is selective and is not guaranteed by a student's acceptance to the College. Information concerning admission criteria and procedures is available in the office of the Nursing Department.

BACHELOR OF SCIENCE IN NURSING:

Pre-Nursing Courses: These 33 hours must be completed prior to beginning nursing coursework.

Biology 111, 221, 222, and 301
Chemistry 101 and 102
Psychology 100 and 230
Sociology 101

Nursing

Core Curriculum: The 31 hours are specified as follows.

Fundamental Skills:

- English 113
- Mathematics (one 3-hour course)

Cultural History and Language:

- Foreign Language (one 4-hour course)
- English 231 or 232
- History 130 or 131
- Philosophy 219 or 220
- (Both A and B blocks must be chosen)

Fine Arts: one course selected from:

- Art 160, IDS 101, Music 101, or Theater 101, 105, 153

Religion: one course selected from:

- Religion 110, 120, 211, 212, 215, 216, 221, 222, 231, 321, 333, 335 or 351

Physical Education:

- P.E. 140

Senior Seminar:

- select one course

Electives: Five courses selected from areas of interest. At least 3 hours must be chosen from departments offering courses which satisfy the core components of cultural history and language, fine arts or religion.

Nursing Courses: 301 (4), 311, (3), 321 (3), 352 (6), 373 (3), 375 Sections A, B, C, and D (10), 401 (6), 472 (2), 474 (7), 482 (4).

301. CONCEPTS OF NURSING — Concepts of Nursing introduces the nursing student to the theory and practice of professional nursing. The course focuses upon the concepts of Man, Health and Nursing. Prerequisites: Matriculation in the nursing major. Co-requisites: NURS 311 and 321

FOUR HOURS

FALL SEMESTER

311. COMMUNICATION, RELATIONSHIPS AND THE NURSING PROCESS — Communication skills, relationship development, health assessment and decision making as they relate to the nursing process. Clinical experiences provide opportunities for the application of theoretical concepts to well clients. The first five weeks will be composed of theory presentations. The next ten weeks will be comprised of nine hours of weekly clinical experience, including family visits. Prerequisites: Matriculation in the nursing major. Co-requisites: NURS 301 and 321.

THREE HOURS

FALL SEMESTER

321. PSYCHOMOTOR ASPECTS OF THE NURSING PROCESS — This course is designed to assist students in developing general physical assessment skills and basic procedural skills necessary in providing nursing care to clients. The course consists of two hours of theory presentation and three hours of laboratory per week. Prerequisites: Matriculation in the nursing major. Co-requisites: NURS 301 and 311.

THREE HOURS

FALL SEMESTER

352. ALTERATIONS, ADAPTATIONS AND NURSING I — An introduction to the adaptation process of clients in altered states of health. Consideration is given to pathophysiology, socio-cultural factors, and developmental concepts. The role of the professional nurse is examined with respect to leadership, legal-ethical issues, standards of practice, and research. The course consists of four hours theory presenta-

tion and two hours of seminar discussion each week. Prerequisites: NURS 301, 311, and 321. Co-requisites: NURS 375 (choose two sections A-D)

SIX HOURS

SPRING SEMESTER

373. ACUTE CARE NURSING — An in-depth exposure to the reality of nursing practice providing around-the-clock care for clients with alterations of health status. The four week experience includes 136 hours of nursing care with a clinical examination during the fourth week. Prerequisite: NURS 352 and NURS 375 (two sections).

THREE HOURS

MAY-JUNE TERM

375. CLINICAL NURSING — Clinical nursing practice in a nursing specialty area provides students with an opportunity to apply core theory within a nursing setting. Clinical conferences are held weekly. Students select two different areas while taking NURS 352 and 401. The course consists of sixteen hours of clinical laboratory a week.

Section A — Maternity Nursing

Section B — Pediatric Nursing

Section C — Psychiatric Nursing

Section D — Medical-Surgical Nursing

Prerequisites: NURS 301, 311, and 321. Co-requisites: NURS 352 or 401.

Frequency of Offerings: Both semesters, students select two sections concurrently with NURS 352 and the remaining two sections concurrently with NURS 401.

FIVE HOURS

401. ALTERATIONS, ADAPTATION AND NURSING II — This course is divided into core-theory and seminar. Core-theory focuses on nursing care of clients in situations where life processes are threatened. Alterations in physiological regulation, associated psychosocial aspects of individual and family adaptation, and the multidimensional role of the nurse are considered. A concurrent seminar provides opportunities for the student to make relationships between core-theory and clinical nursing experiences. The course consists of four hours theory presentation and two hours of seminar discussion each week. Prerequisites: NURS 373, two sections NURS 375. Co-requisites: NURS 375 (2 additional sections)

SIX HOURS

FALL SEMESTER

221

472. INDIVIDUALIZED CLINICAL NURSING — An individualized clinical nursing experience designed to meet specific learning needs of students. An opportunity is provided to select a clinical setting of interest. All nursing shifts and working days are used. The weeks include 96 hours of clinical practice. Prerequisites: NURS 401 and 375.

TWO HOURS

JANUARY INTERIM

474. ADVANCED NURSING PRACTICE — This course is divided into three parts. Each section focuses upon a specific aspect of nursing practice. Students are given opportunities to synthesize previous learning to provide care for clients with complex health problems; to explore roles and responsibilities in community health nursing; and, to assume nurse manager roles in a health care agency. Concurrent clinical experiences provide opportunities for students to relate theory to practice. Each week consists of two hours of seminar and sixteen hours of clinical nursing. Prerequisites: NURS 401 and 472. Co-requisites: NURS 482.

SEVEN HOURS

SPRING SEMESTER

482. NURSING IN TRANSITION — A core theory course which explores organizational structure in relation to the role of the professional nurse as a manager of nursing care for clients. Emphasis is given to multidimensional aspects of nursing, including research and degree of professionalism. Prerequisite: NURS 472. Co-requisite: 474.

FOUR HOURS

SPRING SEMESTER

PHILOSOPHY

MR. WESTPHAL, CHAIRMAN; MR. JENTZ, MR. PEROVICH. Visiting Faculty: MR. LUCHIES.

Philosophy is a style of thinking and an historical tradition of thought; or rather, it is several styles (analytical, speculative, descriptive) and several traditions (eastern, western). It is at once the questioning search for meaning and truth throughout the whole of human experience and the history of such critical reflection. We engage in philosophical thinking both through thoughtful dialogue with important thinkers in the history of philosophy (see the courses listed below under II) and through disciplined reflection on the substantive issues we have inherited from the tradition (see the courses listed below under I and III). This contributes to the overall goals of liberal education in at least three ways:

1. To live as free and responsible members of our society requires an understanding of our past as an inheritance to be gratefully received and critically carried on. Since philosophy is an important part of our cultural heritage, its study belongs to the preparation for thoughtful citizenship in the broadest sense of the term.
2. Philosophical questions, whatever their specific content, have a tendency to become ways of asking the question, Who am I? Consequently the study of philosophy relates directly to that quest for personal identity which is often particularly intense in early adulthood. This does not presuppose that one starts with nothing in the way of answers, however. For the thinker who comes to philosophy as a Christian, for example, reflection takes the form of faith seeking understanding.
3. The roles of other disciplines and areas of experience in enriching human life can often be enhanced through deliberate reflection on the goals, methods, and fundamental concepts they involve. This occurs in such sub-disciplines of philosophy as philosophy of science, philosophy of religion, and philosophy of art (aesthetics).

MAJORS AND NON-MAJORS

Students can pursue these and related goals through a single course in philosophy or through any number of combinations of courses short of a major. Others will want to make the history of philosophical thought and its special fields of inquiry the core around which their overall education is built and will become majors. Still others will want to combine a philosophy major with a major in some other field. Recent fields combined with philosophy in joint majors include:

Ancient Civilization, Biology, Chemistry, English, Math, Political Science, Psychology, Religion.

Hope College philosophy majors can be found

practicing law

teaching philosophy

teaching American studies

engaging in computer science research

pursuing careers in medicine

pastoring churches of various denominations

serving as a denominational executive in the Reformed Church in America

General Requirements for the Major in Philosophy

115 — Fundamentals of Philosophy

201 — Logic

219 — Ancient Philosophy

220 — Modern Philosophy

Any **two** of the following courses:

222 — Descartes to Kant

223 — Hegel to Nietzsche

224 — The Existentialist Tradition

225 — The Analytic Tradition

226 — Indian Philosophy

227 — American Philosophy

Four Elective Courses in Philosophy

Total Credit Hours Required: 30

Variations from this program may be sought by written application to the department. Courses from other disciplines which are to be offered as partial fulfillment of the requirements of the philosophy major require the written approval of the department chairman.

General Requirements for the Minor in Philosophy

115 and 201

Three further 200 level courses

Two further 300 or 400 level courses

Total Credit Hours Required: 21

Majors in Philosophy can be organized in such a way as to favor certain area students in conjunction with the fields of philosophic inquiry: e.g. Philosophy of Religion with courses in the Department of Religion (or even with a major in that Department); the same for Political Philosophy and the Department of Political Science; Philosophy of Science with departments in the Natural or Social Sciences, and so forth, so as to make good sense in a student's vocational perspective. Specific examples include the following:

1. Pre-Seminary Students

A Philosophy major including:

331 — Philosophy of Religion

340 — History of Ethical Theory

226 — Indian Philosophy

2. Pre-Law Students

A Philosophy major including:

340 — History of Ethical Theory

344 — Ethical Analysis

374 — Political Philosophy

3. Pre-Medical Students

A Philosophy major including:

331 — Philosophy of Religion

344 — Ethical Analysis

360 — Philosophy of Science

4. Future Educators in Literature and the Arts

A Philosophy major including:

226 — Indian Philosophy

331 — Philosophy of Religion

373 — Aesthetics

Philosophy

5. Future Educators in Social Studies

A Philosophy major including:

341 — History of Social and Political Theory

227 — American Philosophy

374 — Political Philosophy

I. Philosophic Methods and Skills

115. FUNDAMENTALS OF PHILOSOPHY — An introduction to argumentation and concept analysis in application to issues in religion, selfhood, personal identity and freedom, and morality.

THREE HOURS

JENTZ BOTH SEMESTERS

201. LOGIC — An introduction to semantic problems as they affect logic, and development of skills in classical syllogistic logic and modern propositional and quantificational logic. Introductory treatment of issues in philosophy of logic. (Not regarded as a prerequisite to other courses and not recommended as an introduction to philosophy.)

THREE HOURS

PEROVICH SPRING SEMESTER

II. Major Philosophical Traditions

219. ANCIENT PHILOSOPHY — Western philosophy from its beginning through Socrates, Plato, Aristotle, Plotinus, and St. Augustine. Partial fulfillment of the Cultural History requirement.

THREE HOURS

STAFF BOTH SEMESTERS

220. MODERN PHILOSOPHY — European philosophy from the seventeenth century to the present, including such major figures as Descartes, Locke, Hume, Kant, Hegel, Whitehead, and representative pragmatists and existentialists. Partial fulfillment of the Cultural History requirement.

THREE HOURS

STAFF BOTH SEMESTERS

222. FROM DESCARTES TO KANT — Critical analysis of seventeenth century rationalism, eighteenth century empiricism and the Kantian philosophy, with major emphasis on the epistemological and metaphysical issues. Not offered, 1982-83.

THREE HOURS

SPRING SEMESTER

223. FROM HEGEL TO NIETZSCHE — First the most comprehensive philosophical synthesis and most powerful affirmation of western culture since Aristotle, the Hegelian; then the most penetrating critiques of that synthesis and that culture, at the hands of Feuerbach, Marx, Kierkegaard, Schopenhauer and Nietzsche. Not offered, 1982-83.

THREE HOURS

WESTPHAL FALL SEMESTER

224. THE EXISTENTIALIST TRADITION — A study of the major philosophical existentialists of the twentieth century, such as Jaspers, Heidegger, Sartre, Marcel, and Camus. Some attention to Husserl and the phenomenological background of existentialism. Theses include: finite freedom, self and other, the mystery of being, hope and despair, guilt and death.

THREE HOURS

WESTPHAL SPRING SEMESTER

225. THE ANALYTIC TRADITION — The development of analytic philosophy from Bertrand Russell through logical positivism and ordinary-language philosophy of Wittgenstein and the Anglo-American applications. Not offered, 1982-83.

THREE HOURS

PEROVICH SPRING SEMESTER

226. INDIAN PHILOSOPHY — An introduction to the major philosophic traditions of India together with comparisons with and possible implications for philosophizing in the west. Fulfills religion major world religion requirement.

THREE HOURS

WESTPHAL FALL SEMESTER

227. AMERICAN PHILOSOPHY — A study of contributors to a philosophic tradition in America: C.S. Peirce, William James, Josiah Royce, John Dewey, Alfred North Whitehead. Not offered, 1982-83.

THREE HOURS

JENTZ SPRING SEMESTER

III. Major Fields of Philosophy

331. PHILOSOPHY OF RELIGION — A study of the nature and theory of religion, including the following topics: the explanation of religious beliefs and religious beliefs as explanation; God, evil, and suffering; religious experience, knowledge, and proof; religious meaning and symbol; the function of the Bible in religious commitment and interpretation; Christianity and religions of the East; death and life. Not offered, 1982-83.

THREE HOURS

JENTZ FALL SEMESTER

340. HISTORY OF ETHICAL THEORY — This course is an attempt to examine the nature of the moral life with light shed upon this topic by our most thoughtful predecessors, from Plato on into the Twentieth Century. Alternate years, 1982-83.

THREE HOURS

JENTZ SPRING SEMESTER

341. HISTORY OF SOCIAL AND POLITICAL THEORY — The objective of the course is two-fold: 1) to consider some of the basic problems of political philosophy, and 2) to indicate how they grew out of an attempt on the part of man to discover his purpose and the nature of his social organization. (Same as Political Science 341.)

FOUR HOURS

ELDER FALL SEMESTER

344. ETHICAL ANALYSIS — An examination of issues in contemporary moral philosophy, including such topics as the definition of morality, the nature of moral discourse and the logic of moral arguments, and present versions of utilitarian and deontological types of ethical theory. Alternate years, 1983-84.

THREE HOURS

JENTZ SPRING SEMESTER

360. PHILOSOPHY OF SCIENCE — A clarification and critical examination of the fundamental concepts employed in making clear what science is, as explanation, discovery, and confirmation. Alternate years, 1982-83.

THREE HOURS

PEROVICH SPRING SEMESTER

373. AESTHETICS — Readings from classical and contemporary sources discussing the nature of the arts, their relation to beauty, truth, and the sacred, and their function in contemporary society.

THREE HOURS

WESTPHAL SPRING SEMESTER

374. POLITICAL PHILOSOPHY — The theory of the modern state, i.e. the state in capitalist, technological society. Attention to central concepts such as community, participation, power, liberty, freedom, justice, and ideology. Readings from Hegel, Marx, Weber, Arendt, Habermas, Ellul. Not offered, 1982-83.

THREE HOURS

WESTPHAL SPRING SEMESTER

IV. Special Studies

295. STUDIES IN PHILOSOPHY — A lecture or seminar class in a special topic of philosophy.

THREE HOURS

STAFF EITHER SEMESTER

Philosophy

490. INDEPENDENT STUDY — Prerequisite: Departmental approval of a student-proposed project prior to enrollment in the course. (See also, under General Academic Regulations, statement about Honors Independent Study or Research.)

THREE HOURS

STAFF PREFERABLY FALL SEMESTER

495. ADVANCED STUDIES IN PHILOSOPHY — Topical seminars, focusing upon philosophic writing and the critique of papers in class. Prerequisite: permission of the instructor.

THREE HOURS

STAFF EITHER SEMESTER

PHYSICAL EDUCATION AND RECREATION

MR. BREWER, CHAIRMAN; MR. AFMAN, MR. DE VETTE, MISS IRWIN, MR. KRAFT, MRS. SHIRE, MR. SMITH, MISS SNYDER, MR. VANDERBILT, MR. VAN WIEREN. Assisting Faculty: MRS. DE BRUYN.

The curriculum of the Department of Physical Education and Recreation is designed to provide the undergraduate student a strong liberal arts background in addition to specific areas of expertise within physical education, recreation and/or dance.

Students currently majoring in the Department of Physical Education and Recreation also participate in the following activities:

- directing the intramural program at Hope College
- assisting coaches in collegiate sports
- working as assistants to physical therapists in local schools and hospitals
- directing various recreational programs through the local YMCA and Holland Department of Recreation
- serving as camp counselor in scout camps, camps for the handicapped and church camps
- providing meaningful experience for children in elementary physical education
- coaching or serving as assistant coaches in area junior and senior high schools

Graduates of the Department of Physical Education are currently leading satisfying careers as:

- exercise physiologist and director of campus recreation at larger state university
- recreational therapist of Midwest city
- dance instructor at liberal arts college in Midwest
- teacher and coach at a Midwest college
- recreational director of a Midwest city
- professor of Motor Learning at a major Midwest university
- physical therapist in a large urban hospital in the East
- sports editor of a prominent Midwest newspaper
- teaching and coaching in many elementary and secondary schools around the nation

PROFESSIONAL OPPORTUNITIES: Many students will find courses in the Department of Physical Education and Recreation helpful in preparation for their future professional vocation. With a major in this department numerous opportunities can occur. For example, elementary teaching, secondary teaching, college teaching after graduate work, coaching, athletic directorship, sport announcer, sport journalist, physical therapist, recreational therapist, occupational therapist, dance therapist, dance instructor, dance performer, leader in industrial recreation, community recreator, private enterpriser in recreation, physical education director, exercise or health dynamics expert are only a few of the career choices open for our majors and minors.

WORK/INTERNSHIP PROGRAM: Opportunities to apply theories and principles developed in the classroom are available for all students planning to

Physical Education and Recreation

major or minor in physical education, recreation or dance. Consult the department chairman for a copy of the program for your particular area of interest.

REQUIRED PHYSICAL EDUCATION: To be liberally educated each person should be knowledgeable about his/her body, good nutrition and the benefits of a habit of exercise. Additionally, it would seem important for each undergraduate to develop enough skill in one or two carry-over activities to find those activities fun and physiologically and psychologically beneficial. All students are required to take Health Dynamics, P.E. 140, during one of the first two semesters on campus. This is a 2 hour credit course and fulfills the P.E. College Core requirement in Physical Education. Students are encouraged to take four additional 100 level activity courses in their remaining years at Hope.

APPLICATION PROCEDURES: Students desiring a major or approved minor are required to consult the department chairman, preferably during their sophomore year. Upon student request the chairman will set up an appointment with the Screening Committee of the department for student guidance and program planning. Physical education majors minoring in Recreation or Dance, or Recreation majors minoring in Physical Education or Dance are required to substitute courses from within our department in cases when core requirements are duplicated.

PHYSICAL EDUCATION MAJORS: A major in physical education consists of a minimum of thirty hours within the department. Physical education courses 101-199 do not meet this requirement. All students planning to major in physical education are required to take Biology 111, Mathematics 210, Psychology 100, and Physics 101 or Chemistry 101. A major must also complete the following physical education courses: 201, 301, 321, and 383.

MINOR: Recommended minor in Physical Education with an emphasis in Coaching or Teaching. When possible, courses should be taken in numerical order (e.g. P.E. 201 Introduction to P.E. and Recreation should be taken before P.E. 301 Psychology of Physical Activity and Sport, etc.) If this procedure is adhered to, the student will progress in a more meaningful sequence of courses.

228

Certified Minors

EMPHASIS IN COACHING — (Suggested) 24 hours (two used by Education Department for certification requirement) Activity credit — at least 1 or 2 courses beyond P.E. 140 should be taken in sports offered as Interscholastic Sports in secondary schools: Physical Education courses 101-155, 201, 301, 321, (331-332 or 334-335), 340, 361, and 383. Participation in intercollegiate and intramural sports are also recommended.

EMPHASIS IN TEACHING PHYSICAL EDUCATION — (Suggested) 24 hours (two hours used for Education Department Certification requirement) Physical Education 201, 221, 301, 321, 344, 345, 383, and any two of 343, 347, or 348. Four activities courses in the areas of choice should also be taken. Swimming, gymnastics, and dance are strongly recommended. See Head of Professional Programs for activity course suggestions. (See Chairperson in Physical Education).

Suggested course sequence material for areas of concentration in Dance, Therapeutic Dance, Therapeutic Recreation, Physical Therapy, and Health Dynamics are available in the Physical Education office of the Dow Center.

A teaching minor in Recreation is also available.

Physical Education and Recreation

RECREATION MAJOR: A major in recreation consists of a minimum of thirty hours within the department. All students planning a major or composite recreation major are required to take Biology 111, Mathematics 210 and Psychology 100. A major must also complete the following core courses: 201, 250, 340, 365, 375, 383, and 495. In addition to the core, the student should choose 9 hours within the department from any of the following course offerings: 203, 230, 299, 295, 321, 325, 345, 343, 344, 347, 348, 350 or 361. It is expected that the recreation major will be an active participant in the meaningful experience program of the Department. (See Physical Education and Recreation Chairman for details.)

COMPOSITE MAJOR FOR THE RECREATION STUDENT: The composite major utilizing recreation as one of the areas of concentration includes the 18 core hours (201, 250, 340, 365, 375, and 383, in addition to 4 additional hours chosen from the other recreational listings.

In addition to the 22 hours in Recreation the student must take at least 14 hours from a department other than physical education and recreation in areas appropriate to the student's career plans. It is of utmost importance that the student contemplating a composite major secure information pertaining to composite majors from the Registrar's office prior to the completion of his sophomore year. In selecting courses the student is required to take 18 hours in courses numbered 300 or above. The following are possible areas for inclusion in the Recreation composite major:

22 hours Recreation Core plus:

Minimum hours

- 14 hours Business Administration — for administrative positions in Recreation
- 14 hours Religion — for future Christian Education positions
- 14 hours Communications — for career plans for administering community or industrial recreational programs
- 14 hours Geology — Outdoor Recreators
- 14 hours Biology with Physiology background careers in Y.M.C.A. as Physical Directors and Fitness Experts are available
- 14 hours Art, Music or Theatre — In depth knowledge and experience in the other Arts could lend itself to a unique background for future community recreator.

229

Variations of the above may be sought by formal application to the Department of Physical Education and Recreation.

RECREATION MINOR: The certified minor includes a minimum of 22 hours (two of which are used by the Education Department for certification purposes).

The following courses are suggested for the minor: 201, 250, 340, 383, and two of the following five courses: 296, 299, 350, 365, or 375. Additionally four hours should be chosen from the following to complete a strong minor: 203, 230, 321, 325, 343, 344, 345, 347, 348, 350, 365, or 375.

DANCE MINOR: See pages 143-145.

Physical Education Courses

101-199. PHYSICAL EDUCATION ACTIVITIES — Courses chosen by upper classmen, Soph., Jr., and Sr., during the last three years of undergraduate work. It is recommended that each student continue to carry out the principles set forth in P.E. 140 and attempt to continue to meet the criterion established for the student. Beginning Level (101-139) and Intermediate Level (150-199) are offered for the student. The ac-

Physical Education and Recreation

tivities offered include fencing, bicycling, aerobic dance, social dance, square and folk dance, creative movement, racketball, handball, cross country skiing, downhill skiing, tennis, badminton, volleyball, gymnastics, modern dance, swimming, jogging, weight training, conditioning, relaxation, archery, canoeing, backpacking, and life saving, scuba, karate, and a number of Intermediate Level activities.

140. HEALTH DYNAMICS — Course for all freshmen during first year at Hope. These courses will establish the knowledge of diet and exercise as they relate to fitness and health and will provide opportunity for the student to personally experience those relationships by putting into effect an individualized program appropriate to the students needs and interests.

TWO HOURS

STAFF

BOTH SEMESTERS

201. INTRODUCTION TO PHYSICAL EDUCATION & RECREATION — Orients the student to professional work in these fields. Emphasis is placed on philosophy and history as it has influenced physical education and recreation. Same as Recreation 201.

THREE HOURS

BREWER

FALL SEMESTER

203. HEALTH EDUCATION — This course is designed to give the student a contemporary look at American health problems. Such areas as mental health, physical fitness, diet and nutrition, reproduction and morals, stimulants and depressants, communicable diseases, and senses and organic systems will be studied and discussed. Same as Recreation 203.

THREE HOURS

AFMAN

SPRING SEMESTER

221. ANATOMICAL KINESIOLOGY — The muscle-skeletal system and its action, with special reference to the field of health and physical education is studied in detail. Prerequisite: Biology 111. Same as Dance 221.

THREE HOURS

SPRING SEMESTER

230

230. WATER SAFETY INSTRUCTION (W.S.I.) SWIMMING — This course is an intensive theory and method course which deals with swimming. It includes not only teaching methods but biomechanics of swimming, development of swimming skills, information on pool management and fifteen hours of observation and teaching of swimming. Same as recreation 230. (Prerequisite: Sr. Life Certification)

TWO HOURS

STAFF

SPRING SEMESTER

295. STUDIES IN PHYSICAL EDUCATION — Designed as a lecture discussion experience, in special topics of interest at the sophomore level of competency.

ONE, TWO, or THREE HOURS

STAFF

TBA

299. INTERNSHIPS IN PHYSICAL EDUCATION AND RECREATION — Designed for first hand experience in community, campus, health dynamics, or camp programs. Contracts will be agreed upon between the student, staff member and employer and should be finalized prior to the student leaving campus. A three hour contract will include individual sessions with the staff member on campus and at the site of employment, reading materials in preparation for the experience, goal setting, and personal evaluation. A paper summarizing some aspect of the experience may also be a requirement of the course. Other internships are possible in urban semester programs. The most appropriate time for this type of experience is during the summer months. The student must be hired for work related to his/her professional plans in order to qualify for the program. For total of six hours. Three hours may be chosen twice for the Recreation or Physical Education major or minor. Same as Recreation 299.

VANDERBILT AND STAFF

ANY SEMESTER OR SUMMER

Physical Education and Recreation

301. PSYCHOLOGY OF PHYSICAL ACTIVITY & SPORT — The purpose of this course is to gain an understanding of human behavior in activity learning experiences and in competitive sport situations. Special emphasis is given to the theory and research in the areas of Motor Learning and Sport Psychology. Prerequisite: Psychology 100.
THREE HOURS VANDERBILT SPRING SEMESTER

305. ADVANCED TECHNIQUES AND COMPOSITION FOR MODERN DANCE — This is an introductory course in the rhythmic structure of dance, including problems in line, design, theme and group choreography. Prerequisite: Dance 116 and 117 or permission from the instructor. Alternate years, 1983-84.
TWO HOURS DE BRUYN SPRING SEMESTER

315. TEACHING OF DANCE — Explores the materials, techniques and principles of creative dance for youth. A concentrated study is made of how children discover movement and create dances. Prerequisite: Physical Education 205 or two semesters of Techniques and Fundamentals in Modern Dance. Alternate years, 1982-83. Same as Dance 315.
TWO HOURS DE BRUYN SPRING SEMESTER

321. EXERCISE PHYSIOLOGY — Introduces the specialized knowledges associated with the physiology and biochemistry of exercise and physical conditioning. Additionally, it illustrates the process of the derivation of exercise principles and the application of those principles to health, fitness and/or performance objectives. Includes a laboratory prerequisite: Biology 111. Same as Recreation 321.
THREE HOURS STAFF FALL SEMESTER

325. CONCEPTS IN HEALTH DYNAMICS — Designed to familiarize the student with the specialized knowledges of the relationships between exercise, fitness, diet and health at an advanced level. Additionally, training in the evaluation of fitness and health status and in exercise and nutritional counseling will be done. Prerequisite: Biology 112 and Physical Education 321. Same as Recreation 325.
THREE HOURS STAFF SPRING SEMESTER

331. TECHNIQUES OF COACHING TRACK, CROSS COUNTRY, WRESTLING AND OTHER SPORTS (Coaching Men I) — The fundamentals of these sports and the techniques and theories of coaching them are analyzed. This course requires three lecture periods and a one hour laboratory a week. Alternate years, 1983-84.
THREE HOURS BREWER, STAFF FALL SEMESTER

332. TECHNIQUES OF COACHING FOOTBALL, BASKETBALL, AND BASEBALL (Coaching Men II) — The fundamentals of these sports and the techniques and theories of coaching them are analyzed. This course requires three lecture periods and a one hour laboratory a week. Alternate years, 1982-83.
THREE HOURS DE VETTE FALL SEMESTER

334. TECHNIQUES OF COACHING WOMEN'S SPORTS (Coaching Women I) — The purpose of this course is three fold: 1) exploration and analysis of techniques; 2) theories of coaching; 3) class organization for women's sports. The areas of sport covered in this course are: swimming, tennis, basketball, golf and track and field. Alternate years, 1983-84.
THREE HOURS IRWIN FALL SEMESTER

335. TECHNIQUES OF COACHING WOMEN'S SPORTS (Coaching Women II) — The purpose of this course is the same as that of 334, but the sports covered will be: softball, volleyball, gymnastics, and field hockey. Alternate years, 1982-83.
THREE HOURS IRWIN FALL SEMESTER

Physical Education and Recreation

340. TRAINING AND PERSONAL HEALTH CARE FOR ATHLETIC PARTICIPANTS — The principles of exercise physiology as they relate to athletic participants. Attention is also given to the care and prevention of injuries sustained in athletic competition. Same as Recreation 340.

THREE HOURS

STAFF FALL SEMESTER

343. TEACHING PHYSICAL EDUCATION IN THE SECONDARY SCHOOL — GYM-NASTICS AND DANCE — A course designed for Physical Education majors or minors that emphasizes skill development, methodological strategies, and effective teaching styles for the activities of gymnastics and dance.

TWO HOURS

STAFF SPRING SEMESTER

344. METHODS OF TEACHING PHYSICAL EDUCATION AND RECREATION — A course designed for Physical Education and/or Recreation majors or minors. It is recommended that it be taken concurrently with Physical Education 343 but this is not required. The course emphasizes styles of teaching that can be used in physical education and recreation settings and is an academic component which has practical manifestations in P.E. 343, 347, and 348.

ONE HOUR

KRAFT and STAFF SPRING SEMESTER

345. TEACHING PHYSICAL EDUCATION AND RECREATION IN THE ELEMENTARY SCHOOL — This course is designed to acquaint the classroom teacher with the total program of physical education and recreation in the elementary school. Special emphasis is given to the theoretical basis for physical education and the mastery of elementary skills. Same as Recreation 345.

THREE HOURS

VAN WIEREN FALL SEMESTER

347. TEACHING PHYSICAL EDUCATION IN THE SECONDARY SCHOOL — SWIMMING, VOLLEYBALL, AND SOFTBALL — A course designed for Physical Education majors or minors that emphasizes skill development, methodological strategies, and effective teaching for the activities of swimming, volleyball, and softball. Alternate years, 1983-84.

TWO HOURS

IRWIN and STAFF FALL SEMESTER

348. TEACHING PHYSICAL EDUCATION IN THE SECONDARY SCHOOL — TENNIS, BADMINTON, SOCCER, AND BASKETBALL — Designed for Physical Education majors or minors that emphasizes skill development, methodological strategies, and effective teaching for the activities of tennis, badminton, soccer and basketball. Alternate years, 1982-83.

TWO HOURS

STAFF FALL SEMESTER

350. ADAPTED AND THERAPEUTIC PHYSICAL EDUCATION AND RECREATION — The course is designed to help teachers with limited background in medical and technical aspects of medical rehabilitation to help the atypical person achieve maximum physical development. Same as Recreation 350. Alternate years, 1983-84.

THREE HOURS

VAN WIEREN SPRING SEMESTER

361. SPORTS AND CULTURE — An examination of the scope and impact of sport in the twentieth century. Special attention will be focused on sport and social processes such as the influence of sport on mobility, stratification and socialization. Emphasis will also be given to contemporary problems in sport and a look into the future of sport for man. Same as Recreation 361. Same as Sociology 351.

THREE HOURS

VANDERBILT FALL SEMESTER

365. URBAN RECREATIONAL ADMINISTRATION AND SOCIOLOGICAL CONSIDERATIONS — A unique approach to the study of the administrative dimensions of

Physical Education and Recreation

recreation in the urban setting, with special emphasis on the case method approach. The concept of leisure will be discussed, along with various other sociological aspects of recreation. The three phase program will be as follows: 1) On campus study of leisure and utilization of the case method approach to administrative problems, 2) At Cran-Hill Ranch in-depth discussion, reports, taped lectures, personal reflection, and appropriate films should assist the preparation of the student for the city visit, 3) In the city of Chicago — visits and discussions with recreational leaders in the suburban areas and the inner city with primary focus on the contrast in recreational opportunity in the suburbs and inner city. Same as Recreation 365.

THREE HOURS **VANDERBILT** **ANY SEMESTER OR MAY TERM**

375. THEORETICAL AND PRACTICAL ASPECTS OF WILDERNESS SKILLS PROGRAMS — The theory and practice of basic wilderness skills for the development of leadership in outdoor recreational experiences within our society. To acquaint the student with the knowledge and application of Emergency First Aid, personal safety, and the ecological impact of outdoor recreational participation. Same as Recreation 375.

THREE HOURS **STAFF** **SPRING SEMESTER**

383. MECHANICAL ANALYSIS OF HUMAN MOVEMENT — Basic mechanical principles as they underlie efficient movement are explored and applied to fundamental physical skills and sport. A knowledge of physics will make the course more meaningful, but it is not a prerequisite. The utilization of mathematical formula is limited. In most cases the stress is on the practical application of formula and not on computational procedures. Same as Recreation 383.

THREE HOURS **KRAFT** **SPRING SEMESTER**

490. INDEPENDENT STUDY — This course provides opportunity for the pursuit of an independent research study or in-depth reading in a specific area of interest. Prerequisite: Senior Standing.

ONE, TWO or THREE HOURS **STAFF** **BOTH SEMESTERS**

Recreation Courses

201. INTRODUCTION TO PHYSICAL EDUCATION AND RECREATION — Orients the student to professional work in these fields. Emphasis is placed on philosophy and history as it has influenced physical education and recreation. Beginning course for physical education and recreation majors and minors. Same as Physical Education 201.

THREE HOURS **BREWER, STAFF** **FALL SEMESTER**

203. HEALTH EDUCATION — This course is designed to give the student a contemporary look at American health problems. Such areas as mental health, physical fitness, diet and nutrition, reproduction and morals, stimulants and depressants, communicable diseases, and senses and organic systems will be looked at and discussed. Same as Physical Education 203.

THREE HOURS **AFMAN** **SPRING SEMESTER**

230. WATER SAFETY INSTRUCTION (W.S.I.) SWIMMING — This course is an intensive theory and method course which deals with swimming. It includes not only teaching methods but biomechanics of swimming, development of swimming skills, information on pool management and fifteen hours of observation and teaching of swimming. Same as Physical Education 230. Prerequisite: Senior Life Certification.

TWO HOURS **STAFF** **SPRING SEMESTER**

233
32

Physical Education and Recreation

250. COMMUNITY RECREATION — PROGRAMS AND ACTIVITIES — A course designed to serve as an introduction to the recreation field. A prerequisite for other courses in the recreation curriculum. The role and scope of recreation and leisure in the American culture will be explored in examination of the following areas: 1) the role of recreation in America, 2) the sources and settings of recreational services, 3) the recreation profession, and 4) the recreation program.

THREE HOURS

DE VETTE SPRING SEMESTER

299. INTERNSHIPS IN RECREATION — Designed for first hand experience in community, campus, health dynamics, or camp programs. Contracts will be agreed upon between the student, staff member and employer and should be finalized prior to the student leaving campus. A three hour contract will include individual sessions with the staff member on campus and at the site of employment, reading materials in preparation for the experience, goal setting, and personal evaluation. A paper summarizing some aspect of the experience may also be a requirement of the course. Other internships are possible in urban semester programs. The most appropriate time for this type of experience is during the summer months. The student must be hired for work related to his/her professional plans in order to qualify for the program. For total of six hours. Three hours may be chosen twice for Recreation or Physical Education major or minor. Same as Physical Education 299.

VANDERBILT AND STAFF ANY SEMESTER OR SUMMER

321. EXERCISE PHYSIOLOGY — Introduces the specialized knowledges associated with the physiology and biochemistry of exercise and physical conditioning. Additionally, it illustrates the process of the derivation of exercise principles and the application of those principles to health, fitness and/or performance objectives. Prerequisite: Biology 112. Same as Physical Education 321.

THREE HOURS

STAFF FALL SEMESTER

325. CONCEPTS IN HEALTH DYNAMICS — Designed to familiarize the student with the specialized knowledges of the relationships between exercise, fitness, diet and health at an advanced level. Additionally, training in the evaluation of fitness and health status and in exercise and nutritional counseling will be done. Same as Physical Education 325. Prerequisite: Biology 111 and Physical Education or Recreation 321.

THREE HOURS

STAFF SPRING SEMESTER

340. TRAINING AND PERSONAL HEALTH CARE FOR ATHLETIC PARTICIPANTS — The principles of exercise physiology as they relate to athletic participants. Attention is also given to the care and prevention of injuries sustained in athletic competition. Same as Physical Education 340.

THREE HOURS

STAFF FALL SEMESTER

344. METHODS OF TEACHING PHYSICAL EDUCATION AND RECREATION — A course designed for Physical Education and/or Recreation majors or minors. It is recommended that it be taken concurrently with Physical Education 343 but this is not required. The course emphasizes styles of teaching that can be used in physical education and recreation settings and is an academic component which has practical manifestations in P.E. 343, 347, and 348. Same as P.E. 344.

ONE HOUR

KRAFT and STAFF SPRING SEMESTER

345. TEACHING PHYSICAL EDUCATION AND RECREATION IN THE ELEMENTARY SCHOOL — This course is designed to acquaint the classroom teacher with the total program of physical education and recreation in the elementary school. Special emphasis is given to the theoretical basis for physical education and the mastery of elementary skills. Same as Physical Education 345.

THREE HOURS

VAN WIEN FALL SEMESTER

Physical Education and Recreation

350. ADAPTED AND THERAPEUTIC PHYSICAL EDUCATION AND RECREATION —

This course is designed to help teachers with limited background in medical and technical aspects of medical rehabilitation to help the atypical person achieve maximum physical development. Same as Physical Education 350. Alternate years, 1983-84.

DE VETTE SPRING SEMESTER

PHYSICS

MR. VAN PUTTEN, CHAIRMAN; MR. BROCKMEIER, MR. FRISSEL, MR. HICHWA, MR. JOLIVETTE, MR. MARKER, MR. NORTON, MR. VAN WYLEN.

The Department of Physics offers a comprehensive program for those desiring a career in physics, engineering, or allied natural sciences. The physics course structure allows students to tailor their program to their main interests. Opportunities for research participation are available to all physics students at all class levels during both the academic year and the summer. Students are presently engaged in:

- X-ray analysis of trace elements in environmental samples
- computer analysis of experimental data
- design and fabrication of electronic circuits to process data
- experimental studies of nuclear reactions
- microcomputer control of industrial systems
- computer analysis of mechanical structures

The undergraduate research program centers around the 2.5 million volt Van de Graaff accelerator and the facilities for industrial process control. The accelerator laboratory has a full complement of nuclear particle detectors and electronic instrumentation, and special equipment can be designed and constructed in the fully equipped metal shop and electronics laboratory. Such extensive laboratory facilities are rarely found in undergraduate colleges, and are comparable to those in the best graduate schools. Research is carried out in the application of microcomputer to the control of industrial machines and processes. Students have the opportunity to help develop systems that are manufactured and put into actual use. Research projects in geophysics, Fourier optics, and applied mathematical methods are also available. The College's Sigma 6 Computer System is used extensively by physics students at all levels.

PHYSICS MAJORS

Physics students are strongly encouraged, as early as possible, to become involved in one of the research projects of the staff members. Summer stipends for such activity are often available.

A. Physics

Program for students interested in post-graduate professional work in physics, astronomy, medicine, biophysics, chemical physics, radiation physics, environmental physics, medical physics.

Bachelor of Arts Degree — A minimum of 26 hours from physics courses numbered 121 and higher including 10 hours from courses numbered 340 or higher. Relativity is required. Physics 270, 381 and 382 are required. Additional requirements are Chemistry 111 and 113, and one of the following four courses: Biology 111 or 112, Geology 101 or 115. The mathematics requirements are Mathematics 135, 136, 235, and 270. Typically, freshmen enroll in physics, chemistry and mathematics.

Bachelor of Science Degree — A minimum of 36 hours in Physics including 121 or 131, 122, or 132, 241, 242, 270, 381, and 382. Relativity is required. The remaining electives are to be chosen from courses numbered 340 or higher. Only 3 hours of research may be included in the 36

hour total. An upperclass Engineering Science course may be substituted for a Physics elective. In addition, 24 hours of courses in mathematics, computer science, and science other than physics are required. Mathematics 270 and Computer Science 160 are required. A course in chemistry and either biology or geology is required.

	Typical Course Pattern	
	Fall	Spring
First Year:	Physics 121, 131 Physics 141 Math 135 Chem. 111, 113	Physics 122, 132 Physics 142 Math 136
Second Year:	Physics 241 Physics 160 Math 235	Physics 242 Physics 270 Math 270 Physics 295I
Third Year:	Physics 341 Physics 331* Physics 361	Physics 352/362 Physics 332* Physics 342
Fourth Year:	Physics 372 Physics 381 Physics 490	Physics 495 Physics 382 Physics 490

*May be taken fourth year.

B. Dual Majors

In a case of a dual major the physics courses required are those in paragraph A above, except that Biology 111 or 112 and Geology 101 or 115 are not required. The additional mathematics and science requirements shall be established by agreement between the student and the department. Recent dual majors have included physics-math, physics-computer science, physics-geology, physics-chemistry, and physics-philosophy.

C. Students preparing for secondary education

A physics major will require 30 hours (Certification requirement) in physics and may include Physics 113, 114 and other courses for non-science majors providing departmental approval is obtained.

D. Geology-Physics Composite Majors

A program of study in the two departments is included under the Degree Program section of the catalog. The program provides a strong background for students interested in the interdisciplinary area of geophysics.

E. Engineering

Students may select a major in physics with a strong engineering component as outlined below. For students desiring a bachelors degree in engineering see section below — Engineering Students.

Bachelor of Arts Degree — A major would consist of a minimum of 26 hours of Physics and Engineering courses including 10 hours of upperclass Engineering courses or Physics courses numbered 300 or higher. Physics 381 is required.

Bachelor of Science Degree — A major would consist of 36 hours of Physics and Engineering courses including 10 hours of upperclass Engineering or Physics courses numbered 300 or higher. Physics 381 is re-

Physics

quired. In addition, 24 hours of courses in mathematics, computer science, and science other than Physics or Engineering is required. Mathematics 270 and Computer Science 120 or 160 are required.

PHYSICS MINOR

A minor in Physics consists of 20 hours. Physics 121 or 131, 122 or 132, 141, 142, and 241 are required. The remaining 9 hours are to be chosen by the student in consultation with the department chairman. The exact courses will depend upon the intended major program of the student. Approval of the courses by the department chairman is required.

Examples of courses for particular programs.

- A. Secondary Education
Required: Physics 270 and one 300 level course.
Electives: All Physics courses number 110 or higher.
- B. Engineering Emphasis
Electives: Physics 331 and Engineering Science courses.
- C. Physics Emphasis
Required: Physics 270
Electives: All courses numbered 340 or higher.
- D. Computer Hardware Emphasis:
Required: Physics 242, 270, 331 and 332.

ENGINEERING STUDENTS

Hope offers three-two and four-one programs that lead to the B.A. degree from Hope, and the B.S. or M.S. degree from one of several engineering schools. These programs are detailed on page 277. Physics 121, 122 and 341 are required for these programs.

Typical Engineering Programs

238 First Year — Math 135, 136
Physics 121, 122 or 131, 132 plus 141, 142 labs
Chemistry 111, 121, plus 113, 114 labs

Second Year —	Bioeng.*	Chem.*	Civil	Elect.	Mech.
Math 235, 270	X	X	X	X	X
CS 120/160-Scientific Computer Programming	X	X	X	X	X
Eng. Sci. 295B-Intro. to Solid Mechanics	X	X	X		X
Eng. Sci. 295C-Prin. of Eng. Materials	X		X		X
Physics 241-Electronics I	X	X	X	X	X
Physics 242-Electronics II		X		X	
Third Year —					
Math 240	X	X	X	X	X
Physics 341-Intro. to Theo. Physics	X	X	X	X	X
Eng. Sci. 295D-Thermodynamics		X			X
Eng. Sci. 295E-Mechanical Vibrations			X		X
Physics 331, 332-Process Control		X		X	

Fourth Year (for Physics majors with Engineering emphasis)

Numerical Analysis	X	X	X	X	X
Physics 361-Analytical Mechanics					X
Eng. Sci. 295F-Mechanical Design			X		X
Physics 342-Electricity and Magnetism				X	

*Additional courses to be taken in the appropriate departments.

COMPUTER SCIENCE

Computer science majors will find portions of the physics curriculum of unique value because of:

- 1) the close inter-relationship of the developing technologies of electronics, large scale integration, physical optics, etc. with computer design and operation,
- and 2) the high degree to which mathematical concepts are applied to the understanding of solving problems.

The computer is introduced and used in the freshman lab associated with the General Physics sequence Physics 121, 122, 141, 142. Also highly recommended is Physics 241 and 242 for experience in analog and digital electronics, Physics 270 for an understanding of quantum devices such as transistors, and Physics 341 for applied mathematical methods. In addition Physics 331, Process Control, provides experience in using microcomputer systems to control processes and experiments.

PRE-MEDICINE STUDENTS

The sequence Physics 121, 122, 141 and 142 satisfies the entrance requirements for most medical schools. In addition Physics 241 is suggested. The student should consult with the Health Professions Committee. The physics major will give strong undergraduate preparation for certain technical areas of medical research.

239

Non-Science Major Oriented Courses

113. ASTRONOMY — A survey of the physical universe; what we know and how we know it. Topics include the telescope, the solar system, our sun, types of stars and their intrinsic properties, the H-R diagram, stellar evolution, quasi-stellar objects, pulsars, black-holes, galaxies, and cosmology. Opportunities for observational work are included. No prerequisites.

TWO HOURS

BROCKMEIER

SPRING SEMESTER

114. PHYSICS OF SOUND AND MUSIC — Everyday sound and musical phenomena provide a natural, intuitive introduction to general physical principles which are then used to assess more complex sound phenomena on a physical basis. This pattern is the fundamental method of physical science. The study of common musical instruments and electronic synthesis systems is included. No prerequisites.

TWO HOURS

STAFF

SPRING SEMESTER

116. MODERN ENERGY SOURCES — A survey for non-science majors of current and future energy technologies — nuclear, solar, wind, biomass, transportation, conservation — with a treatment of the appropriate physics principles of energy conservation, thermodynamics, electricity, and nuclear reactions. No prerequisites.

TWO HOURS

JOLIVETTE

SPRING SEMESTER

Physics

245. PHYSICS FOR ELEMENTARY TEACHERS — A course designed to introduce the prospective elementary school teacher to concepts of physics. Topics include mechanics, sound, light and electricity. This course is open only to prospective elementary education teachers and they are expected to fulfill their college science requirement with this course unless excused by the chairman of the Education Department. Lecture 5 hours per week including 1 hour of laboratory. Prerequisites: None. Offered for one-half semester along with Biology 245.

TWO AND ONE-HALF HOURS

STAFF

FALL SEMESTER

Science Major Oriented Courses

101. INTRODUCTION TO PHYSICS I — The course includes the following areas: 1) Mechanics (vectors, forces, work, momentum, and energy), 2) Geometric Optics, 3) Wave Motion, and 4) Practical Electricity (DC circuits). The emphasis of the course is on understanding the physical phenomena which surround us.

The course is designed for students interested in nursing, physical therapy, occupational therapy, medical technology, and non-professional science students not planning to enter graduate school in science. Non-science major students are welcome. Students who have taken or are now taking Calculus may not enroll in this course. Specifically excluded are premedical and pre dental students. A laboratory course, Physics 141, should be taken concurrently for laboratory credit.

THREE HOURS

STAFF

FALL SEMESTER

102. INTRODUCTION TO PHYSICS II — A continuation of Physics 101. The course includes the following areas: 1) Molecular Physics and Heat, 2) Acoustics, 3) Electricity and Magnetism (AC circuits), 4) Light and Color, and 5) Atomic and Nuclear Physics. These topics are treated in a manner so as to provide an understanding of the physical phenomena without requiring an extensive mathematical background. It is designed for the same students as Physics 101 and has the same exclusions. Physics 142, Physics Laboratory II, should be taken concurrently for laboratory credit. Offered alternate even years.

THREE HOURS

STAFF

SPRING SEMESTER

121. GENERAL PHYSICS I — The course is calculus based and designed for students desiring professional science careers. It provides a rigorous examination of the following physical phenomena and systems: 1) Mechanics (forces, conservation laws, work, potentials, and fields), 2) Molecular Physics and Heat, and 3) Wave Motion. Physics 141 is a co-requisite. Mathematics 135, Calculus I, must be taken either before or concurrently with this course.

THREE HOURS

STAFF

FALL SEMESTER

122. GENERAL PHYSICS II — A continuation of General Physics I, Physics 121. The course is calculus based with an accompanying laboratory. It is designed for students desiring professional careers in science. The course provides a rigorous introduction to the following topics: 1) Geometric Optics, 2) Electricity and Magnetism, 3) Light and Color, 4) Atomic and Nuclear Physics. Physics 142 is a co-requisite. Math 136 must precede or accompany this course.

THREE HOURS

STAFF

SPRING SEMESTER

131. GENERAL PHYSICS I — The course is calculus based and designed for the more mathematically mature student. Although the topics covered are essentially the same as those in Physics 121, they are explored in a manner that utilizes the power of mathematics more fully. The topics included are: 1) Mechanics (forces, conservation laws, work, potentials and fields), 2) Molecular Physics and Heat, and 3) Wave Motion. In addition special topics of current, scientific interest are discussed. The emphasis

Physics

of the course is on establishing a rigorous understanding of physical phenomena. Mathematics 135 and Physics 141 are co-requisites.

THREE HOURS

STAFF FALL SEMESTER

132. GENERAL PHYSICS II — A continuation of Physics 131. Additional topics are examined in a rigorous manner. Included are: 1) Geometric Optics, 2) AC and DC circuits, 3) Electricity and Magnetism, 4) Atomic and Nuclear Physics. Areas of current research are discussed. Major emphasis is placed on understanding the physical phenomena of the universe from a conceptual point of view. Physics 142 and Mathematics 136 are co-requisites.

THREE HOURS

STAFF SPRING SEMESTER

141. PHYSICS LABORATORY I — The laboratory is designed to accompany Physics 101, 121, and 131. Basic laboratory skills are developed. The use of modern instrumentation in physical measurements are employed. Students gain experience in using computers to analyze scientific measurements. Phenomena such as mechanical systems, sound, and radioactivity, are studied in quantitative terms. Co-requisite: Physics 101, 121, or 131.

ONE HOUR

STAFF FALL SEMESTER

142. PHYSICS LABORATORY II — A continuation of Physics 141, Physics Laboratory I. The laboratory accompanies Physics 102, 122, 132. Physical phenomena are studied and measured on a more advanced level. The topics of optics, electricity and magnetism, resonance, and electrical circuits are explored. In addition, experiments are performed that use the typical measurement techniques of modern physics. A major goal of the course is to develop skills in the measurements of physical phenomena. Prerequisite: Physics 141.

ONE HOUR

STAFF SPRING SEMESTER

160. SCIENTIFIC COMPUTER PROGRAMMING — An introduction to computers, FORTRAN programming, and methods of scientific problem solving and data reduction under timesharing and batch modes of operation. Techniques in least squares fitting, sorting, transcendental equations solving, and the Monte Carlo method will be introduced. Features of the operating system, utility processors, and file management will be included. This course is a substitute for Computer Science 120 and is intended for students majoring in the Physical Sciences. Corequisite: Mathematics 135. This course is the same as Computer Science 160.

THREE HOURS

BROCKMEIER BOTH SEMESTERS

241

241. ELECTRONICS I — An introduction to digital and analog electronics. The use of transistors, integrated circuits, and operational amplifiers in instrumentation is studied. Design techniques are taught. In the accompanying 3 hour laboratory course, random logic circuits are built including scalars, timers, digital to analog converters, and analog to digital converters. Analog amplifiers, summers, and pulse amplifiers are built and studied. Prerequisites: A laboratory course in physics, or previous electronics experience, or permission of instructor.

THREE HOURS

VAN PUTTEN FALL SEMESTER

242. ELECTRONICS II — Advanced applications of analog and digital electronics. Linear feedback theory is studied, including stability criteria. Circuits using active filters, power amplifiers, phase lock loops, and instrumentation amplifiers are studied and built in the three hour laboratory. The circuitry of digital computers is studied along with the relationship between hardware and assembly language. A digital computer is built and programmed in the laboratory. Prerequisite: Physics 241 or permission by instructor.

THREE HOURS

VAN PUTTEN SPRING SEMESTER

Physics

270. MODERN PHYSICS — A first course in the quantum physics of atoms, molecules, solids, nuclei, and particles. Topics include the historical basis of modern physics, the Schrodinger wave equation, one electron atoms, angular momentum, spectra, transition rates, and quantum statistics. Applications to atoms, molecules, nuclei, conductors, semiconductors, superconductors, and elementary particles will be discussed. Experiments as well as theory will be examined. Prerequisites: Physics 122 or 132, Math 136, or permission of instructor.

THREE OR FOUR HOURS

JOLIVETTE

SPRING SEMESTER

290. INDEPENDENT STUDIES — With departmental approval a freshman or sophomore may engage in independent studies at a level appropriate to his ability and class standing, in order to enhance his understanding of physics. A student may enroll each semester.

ONE or TWO HOURS

STAFF

BOTH SEMESTERS

295I. SPECIAL RELATIVITY — The Lorentz transformation is derived and then applied to the proper four-vector and transformation matrix approach to momentum, energy, and force. Various anomalies are dealt with such as twin paradox, Doppler Effect, and shapes of fast moving objects. Other relevant topics include nuclear and photon collision processes, and the magnetic field as a special manifestation of the electric field.

ONE HOUR

FRISSEL

SPRING SEMESTER

331. PROCESS CONTROL — (Same as Computer Science 331). The control of experiments and processes using microcomputers is taught. The theory of continuous and discrete sampling methods of control is studied. Microcomputers are programmed to illustrate the problems of control, data manipulation, and data analysis. A primary goal of this course is the development of skill in assembly language programming and an understanding of the relationship between assembly language and hardware.

THREE HOURS

VAN PUTTEN

FALL SEMESTER

332. PROCESS CONTROL LABORATORY — (Same as Computer Science 332). The control methods studied in Physics 331 are applied to actual systems. Microcomputers are interfaced with terminals, displays, analog to digital converters, and other input-output devices. Applications of microcomputers to data acquisition and on-line data analysis are included.

ONE HOUR

VAN PUTTEN

SPRING SEMESTER

341. INTRODUCTION TO THEORETICAL PHYSICS — Mathematical methods applicable to physical problem are studied. These include vector calculus, complex variables, matrices. The methods of Fourier analysis are developed. Second order differential equations associated with physical systems are studied, particularly those involving Bessel functions, Legendre polynomials and associated polynomials. Prerequisite: Physics 122 or 132. Corequisite: Math 270.

THREE HOURS

FRISSEL

FALL SEMESTER

342. ELECTRICITY AND MAGNETISM — A course in classical electromagnetism with the development and application of Maxwell's equations as the central focus. Topics include electromagnetic fields, boundary value problems, dielectric and magnetic materials, radiation, energy and momentum of the electromagnetic field, and wave guides. Prerequisite: Phys. 341 and Math 270.

FOUR HOURS

STAFF

SPRING SEMESTER

352. PHYSICS OF THE OPTICAL DOMAIN — Topics covered concern both geometrical and physical optics. The approach involves matrix formulation, computer formulation, Fourier analysis as it relates to Fresnel and Fraunhofer diffraction.

tion, interference, polarization matrices and holography. The relevance of these topics to modern day optical information processing is considered. Prerequisite: Physics 341. Alternate years.

THREE HOURS

FRISSEL SPRING SEMESTER

361. ANALYTICAL MECHANICS — A study in Newtonian mechanics, potential description, oscillatory motion, Lagrangian and Hamiltonian dynamics, normal modes, and perturbation methods. Corequisite: Physics 341.

FOUR HOURS

STAFF FALL SEMESTER

362. STATES OF MATTER — The prominent states of matter are examined from a classical and quantum mechanical points of view. An overview of thermodynamics and statistical mechanics is given. Effects of Bose-Einstein and Fermi-Dirac statistics are detailed for gases, liquids and solids. Slightly degenerate perfect gases, electrons in metals and Bose-condensation viewed as a first order phase transition are discussed. Applications are made to such systems as plasmas, semiconductors, white dwarfs, and neutron stars. Special emphasis is given to superfluids, superconductors, and the Josephson effect. Alternate years.

THREE HOURS

HICHWA SPRING SEMESTER

372. QUANTUM THEORY — A detailed study of the mathematical and physical foundations of quantum mechanics. Topics include the Schroedinger wave equation, one-dimensional potentials, operator methods in quantum mechanics, the Heisenberg representation of operators, the three-dimensional Schroedinger equation, angular momentum, the hydrogen and helium atoms, matrix methods in quantum mechanics, time independent and time dependent perturbation theory, radiation of atoms, scattering theory and group theory applied to the rotation group. Prerequisite: Physics 270.

FOUR HOURS

JOLIVETTE FALL SEMESTER

381. ADVANCED LABORATORY — This laboratory combines experiments from both classical and modern physics and from interdisciplinary physics fields such as biophysics and geophysics. Extensive use of the computer and FORTRAN is made in the analysis of data from the experiments. Detailed error analysis of each experiment is required. Experiments are from the fields of electricity and magnetism, gravitation, electronics, optics, acoustics, and atomic and nuclear physics. One hour of lecture and seven hours of laboratory. Required for physics majors. Prerequisites: Physics 241, 242, 270, and Physics 160 or Computer Science 120 or equivalent FORTRAN programming experience.

TWO HOURS

JOLIVETTE FALL SEMESTER

382. CONTINUATION OF ADVANCED LABORATORY — Experiments in the second semester of advanced laboratory include Rutherford scattering, neutron activation (geophysics) and additional accelerator experiments. One hour of lecture and seven hours of laboratory. Required for physics majors. Prerequisite: Physics 381.

TWO HOURS

JOLIVETTE SPRING SEMESTER

490. RESEARCH — With departmental approval a junior or senior may engage in independent studies at a level appropriate to his ability and class standing, in order to enhance his understanding of physics. A student may enroll in each semester.

ONE or TWO HOURS

STAFF BOTH SEMESTERS

495. ADVANCED STUDIES IN PHYSICS — A lecture or seminar in an area of special interest or experience. Department chairman's approval required.

TWO or THREE HOURS

HICHWA SPRING SEMESTER

Physics

Engineering Courses

221. INTRODUCTION TO SOLID MECHANICS. Principles of statics including equilibrium and static equivalence. Determination of moment and force resultants in slender members. Introduction to the use of structural analysis computer programs. Introduction to mechanics of deformable bodies, concepts of stress and strain, stress-strain relations. Application to engineering problems involving truss structures, torsion of solids, and beam deflections and stresses. Prerequisites: Mathematics 136 and Physics 121 or 131.

THREE HOURS

NORTON

FALL SEMESTER

232. PRINCIPLES OF ENGINEERING MATERIALS. The engineering properties of metals, plastics, and ceramics are examined and the application and modification of these properties to solve engineering problems is discussed. Various failure theories for isotropic, anisotropic, and composite structures are examined. Prerequisites: Mathematics 136 and Physics 122 or 132.

THREE HOURS

NORTON

SPRING SEMESTER

Upperclass Courses

344. MECHANICAL VIBRATIONS. Free and forced response of single and multiple degree of freedom lumped mass systems, and of continuous bodies. Classical and numerical methods for solving vibration problems. Applications to the vibrations of mechanical systems and structures, earthquake response of structures. Prerequisites: Intro to Solid Mechanics, Mathematics 240 and 270. Physics 341 is recommended.

THREE HOURS

NORTON

SPRING SEMESTER

345. THERMODYNAMICS. Zeroth, first and second laws of thermodynamics. General energy equation. Concepts of irreversibility and availability. Thermodynamic principles as applied to power and refrigeration cycles. Prerequisites: Mathematics 270, Physics 122 or 132, and Chemistry 121.

THREE HOURS

NORTON

FALL SEMESTER

495. INTERNSHIP IN ENGINEERING — This program offers the student an opportunity to work on a project or an experience approved by the department as being of significance. This is usually done off campus and the student will have a qualified supervisor at the site of this experience in addition to a faculty advisor. This course is normally open only to seniors. Prerequisite: Permission of the department or the director of internships.

THREE HOURS

NORTON

In addition: Physics 241, 242, 331, 332, and 342 are important for students interested in Electrical Engineering. Physics 361 is suggested for those interested in Mechanical Engineering.

POLITICAL SCIENCE

MR. ZOETEWY, CHAIRMAN; MR. ELDER, MR. HOEKSEMA, MR. HOLMES.

The academic program of the Department of Political Science seeks to provide the student with a systematic understanding of government, political behavior, and political institutions in the local, state, national and international areas. To accomplish this goal, students majoring in political science take such courses as "History of Political Theory," "Comparative Government," "American Political Parties," and "International Law." In addition to these theoretical courses, students enroll for academic credit in departmental programs which give the student a first-hand encounter with political processes both at home and abroad. For example, they work in political campaigns, intern in local and county governments, observe national presidential conventions, and work as a Congressional aide. All political science majors have the opportunity to apply for the Washington Honors Semester Program. This interdisciplinary program enables students to enroll in seminars with key political and administrative officials in the national government.

In addition to courses, students majoring in political science have engaged in a wide variety of activities which include:

- organizing a local Holland precinct
- sponsoring a model United Nations for local area high schools
- meeting with prominent campus visitors, such as Senators Mark Hatfield and Robert Packwood
- organizing a "get-out-to-vote" campaign among college students over the "age of majority"
- serving as youth chairmen of county, congressional district, and state political party committees

245

Graduates of the Department of Political Science have pursued such satisfying careers as:

- a member of the United States House of Representatives
- an assistant to the President's Press Secretary
- a foreign service officer in Southeast Asia
- a professor of International Relations at a major American University
- a senior partner in a nationally prominent law firm
- a juvenile rehabilitation officer
- an administrator of a hospital in New York state
- an insurance agent in the state of Maine
- a budget analyst in Fairfax County, Virginia
- a campaign management specialist with his own consulting firm
- a spokesman for the U.S. Department of Justice
- a legislative liaison for the U.S. Department of Housing and Urban Development
- the executive director of state and congressional district party organizations
- a state and national legislative staffperson

SOCIAL SCIENCE REQUIREMENT: Students who want to fulfill the college social science requirement should take Political Science 101.

Political Science

GENERAL PROGRAM FOR MAJORS: The program for majors, consisting of not less than twenty-five hours in the department, is designed to provide an excellent background and training for the student who wishes to prepare for secondary-level teaching, government service, law school, or graduate work in political science. Students who take appropriate electives in other disciplines may also prepare for eventual careers in journalism, public relations, industry, small business, personnel administration, as well as other facets of human relations. To assure a good balance of course work each student major will be required to enroll in 101, 121 or 212, 251, 261 or 262, 341 and 494. Each major is strongly urged to take Economics 201 and to fulfill the college mathematics requirement by taking Math 210 (Statistics).

MINOR IN POLITICAL SCIENCE: A minor consists of a minimum of 16 credits selected as follows: Political Science 101, 251, a theory or seminar course (Political Science 341, 346, or 494), one area study course (Political Science 261, 262, 270, 300, 304, 378, or 491), and one domestic area course (Political Science 121, 212, 235, 302, 331, 339, or 491). Up to 8 credits in Political Science 496 (Washington Honors Semester), may be substituted for the two area study courses. For a teaching minor, students should elect an additional course from each of the area study selections listed above.

SPECIAL PROGRAM IN FOREIGN AREAS STUDIES: A political science major may choose to concentrate on foreign areas studies in which case he will complete an individually tailored thirty-one hour study program formulated in conjunction with his advisor. This study program would include an appropriate balance of subnational, national, and international level political science courses and must be approved by the Department of Political Science. Political Science 101 is required. Programs will vary according to geographic areas and interested students should see the following faculty members who serve as program advisors: Dr. Elder, Dr. Hoeksema, and Dr. Holmes. For most of these area programs, up to six of the thirty-one hour requirement may be taken outside the Department of Political Science. Students who meet the International Education Committee's requirements for study abroad may include a year of study in the area itself through programs such as those sponsored by the GLCA or IES.

246

101. NATIONAL GOVERNMENT — A study of the national government from its origins (including the formation and development of the Constitution) through its development to the present. Varying approaches to teaching this course are used by the staff, though the discussion-lecture format is a common approach for all. Simulations (Holmes), foreign policy emphases (Holmes, Hoeksema), theoretical foundations for U.S. political and social institutions (Elder), historical, institutional, and practical politics emphases (Zoetewey, Hoeksema) are among the special approaches and interests of the staff.

THREE HOURS

STAFF

BOTH SEMESTERS

121. STATE AND LOCAL GOVERNMENT — Procedures of government at the state and local level are studied with an emphasis on the functional approach. Prerequisite: Political Science 101. Students who are interested in pursuing a career in state and local government should also take Political Science 235 (Public Administration) and Political Science 391 (Internship in Local Government or possibly state government).

THREE HOURS

ZOETEWAY

FALL SEMESTER

211. AMERICAN POLITICAL PARTY DEVELOPMENT — This course will trace the origin and growth of our political parties, major and minor, from the late 18th century to

Political Science

the present. Prerequisite: Political Science 101 or permission of the instructor. Not offered 1982-83.

THREE HOURS

ZOETWEY

FALL SEMESTER

212. PARTIES, PRESSURE GROUPS AND ELECTIONS — This course will involve a study of the organization and functions of contemporary political institutions such as parties, pressure groups and the nominating and electoral processes. Prerequisite: Political Science 101.

THREE HOURS

ZOETWEY

SPRING SEMESTER

235. PUBLIC ADMINISTRATION AND POLICY — The underlying principles of public policy and government management at the federal, state and local levels. Prerequisite: Political Science 101. Students who are interested in a career in government should also take Political Science 391 (Internship — in federal vocations, local government, or possibly in state government).

THREE HOURS

ELDER, HOLMES

FALL SEMESTER

251. INTERNATIONAL RELATIONS — An introduction to, and an examination of the major problems confronting the peoples and nations of the modern world. Prerequisite: One semester of college work.

THREE HOURS

HOLMES

BOTH SEMESTERS

261. COMPARATIVE GOVERNMENT: EUROPE — A study of the major types and forms of governments of Europe. Prerequisite: One semester of college work.

THREE HOURS

HOEKSEMA

SPRING SEMESTER

262. INTRODUCTION TO THE POLITICS AND INTERNATIONAL RELATIONS OF LATIN AMERICA — A political survey of the nations of Latin America and their relations with the outside world. Special attention is given to the role of the military in these countries. Prerequisite: Sophomore standing.

THREE HOURS

HOLMES

SPRING SEMESTER

270. INTRODUCTION TO CULTURE AND POLITICS OF INDIAN SUBCONTINENT — Considerable emphasis will be placed on the effects which religion, social structure and history can have on the nature of the functions performed by the political institutions of a society. Major emphasis will be on the social and political institutions of India, Pakistan, and Bangladesh. Prerequisite: One semester of college work.

THREE HOURS

ELDER

SPRING SEMESTER

247

294. GOVERNMENT IN WASHINGTON — Government in Washington is an exposure, through readings and on the spot interviews, to government officials, programs and policies in Washington, D.C. This May Term course provides student participants some 50-60 interviews with Washington officialdom during a three-week period.

HOLMES, ELDER

MAY TERM

295. STUDIES IN POLITICAL SCIENCE — This course allows a student to take a course 1) that would have a particular relevance at a particular time, 2) that would arouse and attract student interest, and 3) that would allow professors to develop areas within or related to their academic training. Courses that have been or could be offered include Civil Rights, Political Modernization, Far East Politics, Urban Government and Politics, Soviet-American Relations, Political Violence, Women and the Law, and Political Economy. Prerequisite: One semester of college work.

THREE HOURS

STAFF

BOTH SEMESTERS

300. GOVERNMENT AND POLITICS OF THE SOVIET UNION — This course analyzes the roots of the Bolshevik Revolution and the development of modern day Soviet poli-

Political Science

tical institutions and processes. Particular stress is placed on the role of the Communist Party and its relation to the different sectors of Soviet society and government, phases of domestic and foreign policy, the ever current struggles for succession, collectivization and incentives for agriculture, forced-draft industrialization, changing nature of the totalitarian state, and government by technocrats.

THREE HOURS

HOEKSEMA FALL SEMESTER

302. THE POLITICS OF RACE AND ETHNIC RELATIONS — This course takes a socio, historical, psychological and economic approach to the political position of minorities in our society. Most attention is focused on the Black racial minority, but what is true for a racial minority, such as the Indians and Blacks, is often true for an ethnic minority, such as the growing Spanish speaking minorities. A good deal of attention is given to developing a theoretical framework that will allow political prediction of when cultural racism, biological racism, violence, and political action will occur. Prerequisite: One semester of college work.

THREE HOURS

HOEKSEMA EVERY OTHER YEAR

304. POLITICS OF THE MIDDLE EAST — This course will offer a survey of recent and current international problems, together with some historical background, including the Arab-Israeli conflict, the process of decolonization, the question of Arab unity, and the interests and policies of the great powers. Prerequisite: One semester of college work. Not offered 1982-83.

THREE HOURS

HOEKSEMA FALL SEMESTER

331. LEGISLATIVE PROCESS — The organization and operations of Congress and the role of the Executive and Administrative agencies in the process of law making. Major issues before Congress will be studied in some detail. Prerequisite: Political Science 101.

THREE HOURS

ZOETWEY SPRING SEMESTER

339. AMERICAN CONSTITUTIONAL LAW — Principles of the American Constitution; separation of powers, federalism, the power of the national and state government, and limitations on the exercise of those powers. Prerequisite: Political Science 101.

248 Open to qualified sophomores. Not offered 1982-83.

THREE HOURS

ZOETWEY FALL SEMESTER

341. HISTORY OF POLITICAL AND SOCIAL THEORY — The objective of the course is two-fold: 1) to consider some of the basic problems of political philosophy, and 2) to indicate how they grew out of an attempt on the part of man to discover his purpose and the nature of his social organization. Open to qualified sophomores.

FOUR HOURS

ELDER FALL SEMESTER

346. AMERICAN POLITICAL AND SOCIAL THOUGHT — This course analyzes and interprets fundamental political ideas in terms of their origins, assumptions and developments. Prerequisite: Political Science 101. Open to qualified sophomores. Not offered 1982-83.

THREE HOURS

ELDER SPRING SEMESTER

352. INTERNATIONAL LAW, ORGANIZATION, AND SYSTEMS — Survey of present and possible future international procedures and systems for resolving problems arising from relations between nation states. Open to qualified sophomores. Not offered 1982-83.

FOUR HOURS

HOLMES, HOEKSEMA SPRING SEMESTER

365. WILDERNESS POLITICS — Wilderness politics is a case examination of the American political system through a detailed field study of the wilderness issue. The

Political Science

three week course is held in Colorado each summer with one week devoted to group interviewing on the subject, one week to a field trip, and a final week to a term project which can be done in a location of the student's choice. Special emphasis is placed on the interaction of local, state, and national governments in addressing one of the most controversial issues in the Western United States. Open to qualified sophomores.

HOLMES SUMMER SEMESTER

378. AMERICAN FOREIGN POLICY — American foreign policy is examined in global terms with emphasis on alternating political moods of the public, processes by which policy is formulated and executed, its current substance, and challenges of international politics. Open to qualified sophomores.

THREE HOURS

HOLMES FALL SEMESTER

391. INTERNSHIP PROGRAM — A field experience in government at the local, state or national level, or with a political party organization. The student will work in a governmental or political office for a minimum period of time and, under the direction of a staff member, prepare a paper related in some manner with his field experience. Prerequisite: Junior standing or consent of the chairman.

ONE to FOUR HOURS

STAFF BOTH SEMESTERS

395. CAMPAIGN MANAGEMENT — Campaign management studies the methods and techniques of managing a campaign for public office. Topics covered include organization, advertising, press relations, fund raising, advancing, volunteers, budget issues development, scheduling and strategies. Up to half of the total class and preparation time may involve field work. Students in the course choose between a Democratic Party and a Republican Party lab when doing their field work. Individual campaign plans are prepared at the end of the course. Open to qualified sophomores. Offered only during election years.

HOLMES FALL SEMESTER

490. INDEPENDENT STUDIES — Independent research of an advanced nature under the supervision of a designated staff member, culminating in the preparation of an extensive research paper. Prerequisite: Senior standing and consent of the department chairman.

THREE HOURS

STAFF BOTH SEMESTERS

491. READINGS — Independent reading of assigned works of an advanced nature under the supervision of a designated staff member. Prerequisite: Consent of the instructor.

ONE to THREE HOURS

STAFF BOTH SEMESTERS

494. SEMINAR — This course will provide instruction in bibliography and research methods, followed by individual research projects in some field of politics and the preparation of the research paper. Seminars scheduled for 1982-83 will study the Presidency (Hoeksema: Fall) and Comparative Foreign and Defense Policy (Holmes: Spring). Prerequisites: Not less than six hours in Political Science, Junior standing, and permission of instructor.

THREE HOURS

HOEKSEMA, HOLMES BOTH SEMESTERS

392A. WASHINGTON SEMESTER INTERNSHIP IN CONGRESS.

392B. WASHINGTON SEMESTER INTERNSHIP WITH POLITICAL INTEREST GROUPS.

393A. WASHINGTON SEMESTER INTERNSHIP IN AMERICAN FOREIGN POLICY.

Political Science

393B. WASHINGTON SEMESTER INTERNSHIP IN PUBLIC ADMINISTRATION.

These four internships are offered under the Washington Semester Program (see Political Science 496). During the first half of the semester students will be Interning in a congressional office or with an interest group. During the last half of the semester, the student will intern in an executive branch agency. Interns will prepare a term paper for each internship on a topic related to the internship experience.

EIGHT HOURS

ELDER SPRING SEMESTER

496. WASHINGTON SEMESTER PROGRAM — This program enables superior students from all disciplines to study in Washington, D.C. and to apply knowledge of their area as it relates to government and politics. Select junior and senior students will take a seminar on American government and politics (Political Science 496, 8 hours credit), participate in group interviews with congressmen and legislative staff, executives, lobbyists, political party officials, and journalists, intern for two seven-week periods in Congress (Political Science 392A, 4 hours credit), the executive branch (Political Science 393A or B, 4 hours credit), or with political interest groups (Political Science 392B, 4 hours credit), and prepare extensive research papers based upon their semester's work.

EIGHT HOURS

ELDER SPRING SEMESTER

PSYCHOLOGY

MR. VAN EYL, CHAIRMAN; MR. BEACH, MR. BROWN, MS. DICKIE, MR. GRANBERG, MR. LUDWIG, MR. MOTIFF, MR. MYERS, MR. SHAUGNESSY.

The Department of Psychology aims to provide its students with a strong base in the methodology and fundamental concepts of psychology in order to prepare them to enjoy the study of behavior or to pursue graduate study or practical applications of psychology. It is the department's philosophy that the best preparation for the future comes through acquiring the intellectual tools that will enable the student to be a problem solver, to change and grow as old techniques and vocational specialties become obsolete and new approaches become available.

The department also offers students opportunities to witness and experience psychological principles and thereby to shape their personal visions for the future. Almost half of the department's courses offer the opportunity for laboratory experience.

The department's exceptional, new facilities include a faculty-student lounge, an eight room laboratory for observing children and small groups, 40 additional rooms for laboratory instruction and research with humans and animals, and innovative classroom facilities. Many students collaborate with faculty in research in much the same way that graduate students do in large universities. In 1972, Hope was one of 19 colleges and universities to receive a National Science Foundation grant for summer research by psychology students and in 1973 a team of six Hope students received a National Science Foundation grant to support their summer research project on mental retardation. Each year 30-35 psychology students are involved in independent study — learning psychology by doing psychology.

The Psychology-Sociology Composite Major is designed specifically for students who plan to enter the "helping professions," such as social work. This program utilizes the greater Holland community and its social agencies as a laboratory for learning.

Graduates of the Department of Psychology are now pursuing interesting careers, such as:

- teacher of Organizational Psychology at Yale University
- senior partner in an Eastern law firm
- pastor of a Reformed Church in America congregation in the Midwest
- administrative assistant to a United States Senator
- career officer in the United States Navy
- personnel manager for a national photography-chemical firm
- human engineer for a national computer firm
- director of a social agency in Western Michigan

Although employment opportunities are increasing for the person holding only the bachelor's degree in psychology, a master's or doctoral degree is still considered essential for doing professional work in the field. Consequently, the student who aims to work as a psychologist should plan on graduate study, preferably study leading to the Ph.D. degree.

MAJOR REQUIREMENTS: The curriculum for the psychology major normally consists of Introduction to Psychology (PS 100), General Experimental

Psychology

Psychology (PS 200), Research Laboratory (PS 390), and five of the following six courses: Developmental Psychology (PS 230), Introduction to Personality (PS 260), Physiological Psychology (PS 275), Social Psychology (PS 280), Learning and Memory (PS 310) and Perception (PS 340). The psychology major is also required to take statistics (Math 210). The statistics lab (Math 212) and a course from the computer science department are strongly recommended. Because behavior is rooted in biological processes, course work in biology such as Bio. 100 or 111 is also recommended.

Those individual students who have questions about whether the prescribed 24-hour major is the most appropriate one for them or who would like to form a composite major may design, in consultation with their psychology advisor, a major program suited to their unique needs and goals. Such students should contact the psychology department chairperson or their psychology advisor as soon as possible so that the construction of the major program can be done as a forethought rather than an afterthought.

MINOR REQUIREMENTS: The psychology minor consists of a minimum of 18 hours of psychology credit. PS 290, 295, 490, 494, and 495 may be repeated but no more than four credit hours in any combination will be counted toward the minor.

100. INTRODUCTION TO PSYCHOLOGY — An introduction to the study of behavior. Psych. 100 or Psych. 200 is a prerequisite for all other psychoiology courses except 210.

THREE HOURS

STAFF

BOTH SEMESTERS

200. GENERAL EXPERIMENTAL PSYCHOLOGY — A beginning study of experimental and research methodology in contemporary psychoiology. Specific topics from the areas of learning, perception, motivation, developmental, personality, and social psychology are employed to teach the student basic concepts and methods of observation, measurement, hypothesis formation, experimental design, data collecting, data analysis, and generalization.

FOUR HOURS

MOTIFF, VAN EYL, SHAUGHNESSY

BOTH SEMESTERS

210. ANIMAL BEHAVIOR — An introduction to psychological, ethological and ecological approaches to animal behavior. Emphasis is on animals as models for complex processes and as exhibitors of intrinsically interesting behavior.

TWO HOURS

MOTIFF

220. EDUCATIONAL PSYCHOLOGY — Same as Education 220.

230. DEVELOPMENTAL PSYCHOLOGY — An introduction to theories, research methods, and findings related to intellectual, emotional, perceptual, social and personality development during the life-span, with emphasis on childhood and adolescence.

THREE HOURS

DICKIE, LUDWIG

BOTH SEMESTERS

231. THERAPEUTIC RELATIONS WITH CHILDREN — Weekly seminars and readings in conjunction with field research or participation. Emphasis will be on principles and techniques in therapeutic interactions with children. This course may be repeated once for credit. Co-requisites or prerequisites: Psychology 230 and permission of instructor.

ONE HOUR

DICKIE

240. THE HELPING RELATIONSHIP: PRINCIPLES AND SKILLS — This course is a seminar-workshop discussing the principles and practicing skills involved in the

helping relationship. Several instructors explore the theories of the helping relationship, helpers and helpees as persons, clinical skills of effective helping, self-defeating behavior, and transactional analysis applied to helping. The course has a limited enrollment and is held on Beaver Island.

THREE HOURS

MOTIFF MAY TERM

245. ENVIRONMENTAL PSYCHOLOGY — This course considers psychological concepts and principles that relate to the physical aspects of the environment. Perceptual, learning, emotional, and motivational principles and concepts are related to the natural environment and particularly to the designs of man-made environments.

THREE HOURS

VAN EYL

260. PERSONALITY — Study of the dynamics of human personality: motivation, emotion, self-concept, frustration and conflict, anxiety and defense mechanisms, with a focus on the processes of adaptive, healthy personality functioning and growth. Personality development, personality assessment, and representative viewpoints of personality psychology are also examined. The student becomes actively engaged in exploring the processes, problems and pleasures of becoming a person.

THREE HOURS

BEACH, BROWN BOTH SEMESTERS

262. METHODS OF SOCIAL RESEARCH — Same as Sociology 262.

275. PHYSIOLOGICAL PSYCHOLOGY: BRAIN AND BEHAVIOR — An introduction to the physiological bases of behavior. Research findings and methods will be emphasized regarding the neural processes underlying brain function and behavior.

THREE HOURS

MOTIFF FALL SEMESTER

280. SOCIAL PSYCHOLOGY — The scientific study of how people think about, influence, and relate to one another.

THREE HOURS

MYERS BOTH SEMESTERS

290. SUPERVISED STUDY IN PSYCHOLOGY — Designed to give the psychology student an opportunity for first-hand learning experience in laboratory settings or in a field placement under the supervision of a faculty member. It is the student's responsibility to obtain prior approval of the project from his/her faculty supervisor. May be repeated for credit; however, no more than four hours in 290, 295, 490, 495 may be applied to the 18-hour psychology minor requirement. Prerequisite: Psych. 100 and permission of the instructor/supervisor.

ONE or TWO HOURS

STAFF BOTH SEMESTERS

295. STUDIES IN PSYCHOLOGY — An experimental lecture or seminar course designed as a one-time or trial offering. May be repeated for credit but no more than four hours in 290, 295, 490, 495 may be applied to the 18-hour psychology minor. Prerequisite: permission of instructor.

TWO or THREE HOURS

STAFF

310. LEARNING AND MEMORY — Experimental methods, research findings and contemporary theories are evaluated for problems of conditioning, learning, and memory.

THREE HOURS

SHAUGHNESSY FALL SEMESTER

330. THE EXCEPTIONAL CHILD — Same as Education 330.

335. ADULT DEVELOPMENT AND AGING — A study of research and theory about human development during the post-adolescent years, with emphasis on the issue of

Psychology

continuity versus change in the various stages of life. Special attention is paid to the problems and challenges of late adulthood. Prerequisite: Ps. 230.

THREE HOURS

LUDWIG

340. PERCEPTION — An introduction to the sensory and perceptual processes as manifest in contemporary theory, research, and application. Special attention is paid to vision.

THREE HOURS

VAN EYL

SPRING SEMESTER

370. PSYCHOLOGY OF BEHAVIOR DISORDERS — An introduction to the study of pathological behavior. Includes investigation into etiological factors, common syndromes, and survey of therapeutic measures. Prerequisite: Psychology 260.

THREE HOURS

GRANBERG

BOTH SEMESTERS

380. GROUP DYNAMICS — Systematic study of the characteristics and functions of face-to-face groups; interpersonal relationship, group forces, cohesiveness, group process, goal formation, decision-making, styles of leadership and group membership roles. Practical application of group dynamics theory is included. Analytical observations are taken of groups in action. Psychology 280 is strongly recommended as a prior course.

THREE HOURS

BEACH

SPRING SEMESTER

390. RESEARCH LABORATORY IN PSYCHOLOGY — A psychology laboratory course in a specific content area such as Animal Behavior, Developmental Psychology, Perception, Environmental Psychology, Learning, or Physiological Psychology: Brain and Behavior. A prerequisite is General Experimental Psychology (200). The area, stressing contemporary methods of investigation and behavioral research. May be repeated for credit providing no specific content area is repeated. One course is required for the psychology major.

TWO HOURS

STAFF

BOTH SEMESTERS

400. TESTS AND MEASUREMENTS — An introduction to the purposes, the construction and the interpretation of tests of psychological and educational differences and uniformities. Prerequisite: Math 210.

THREE HOURS

STAFF

410. PSYCHOTHERAPY AND PERSONALITY THEORY — Representative systems of psychotherapy are examined comparatively in terms of their theoretical origins, therapeutic process and criteria of evaluation. Prerequisites: Ps. 260; Ps. 370 is recommended.

THREE HOURS

BROWN

490. SPECIAL STUDIES — This program affords an opportunity for the advanced psychology student to pursue supervised projects of his or her own choosing beyond the regular course offerings. The project may take on one of three forms: 1) the scholarly treatment of a particular topic using the library; 2) laboratory research; 3) a field placement combining study and an appropriate work experience with an organization or a professional person.

All three project types can be done in various combinations, on or off campus. To be eligible for the course the student must have a faculty sponsor, a specific topic in mind, a reasonable background in related course work, good independent study habits, initiative and high motivation. Special Studies credit requires departmental approval of a formal proposal to be submitted prior to registration. The number of credit hours and whether the course is taken for a grade or on a pass-fail basis are subject to department approval. The course may be repeated but no more than four hours of credit in this course, 290, 295, 494, and 495 may be applied to the psychology minor

requirement of 18 hours. When taken on a pass-fail basis the credit will not count toward the minor requirement.

HOURS TO BE ARRANGED

STAFF

BOTH SEMESTERS AND SUMMER

494. TOPICAL SEMINAR — A student or faculty initiated seminar on a special topic in psychology. Intended for students of demonstrated maturity, as usually indicated by upperclass standing. May be repeated for credit, but no more than four hours in 290, 295, 490, 494, and 495 may be applied to the 18-hour psychology minor requirement. Prerequisite: permission of seminar instructor. (Examples of recent offerings are: Mental Retardation, Human Sexuality, Urban Environment, and Monkeys, Apes and Man.)

TWO or THREE HOURS

STAFF

495. ADVANCED STUDIES IN PSYCHOLOGY — An experimental lecture or seminar course designed for a one-time or trial offering. Intended for students of demonstrated maturity, as usually indicated by upperclass standing. May be repeated for credit, but no more than four hours in 290, 295, 490, 494, and 495 may be applied to the 18-hour psychology minor requirement. Prerequisite: permission of instructor.

TWO or THREE HOURS

STAFF

Special learning opportunities for psychology students are available through the Louisville, Chicago, Philadelphia, and Washington semesters. See pages 107 and 109.

RELIGION

MR. BRUINS, CHAIRMAN; MR. BOULTON, MR. PALMA, MR. VERHEY, MR. VOGD, MR. VOSKUIL, MR. WILSON.

The broad academic purpose of the study of religion at the college level is to understand the role of religion in human culture. To accomplish that end the Department of Religion is divided into five areas of academic investigation: Biblical studies, historical studies, theological-philosophical studies, world religions and religion in contemporary cultures. While each student majoring in religion is required to enroll in both beginning and advanced level courses in each of the five areas, most religion majors concentrate in one area and develop, thereby, a considerable expertise. Many students have found the religion major an excellent way of focusing their liberal arts education at Hope College.

Students majoring in religion participate in a wide variety of academic and service activities which include:

- assisting professors with research programs
- enrolling in the Philadelphia or Chicago Urban Semester to investigate alternative ministries in an urban setting
- leading youth groups, both denominational and non-denominational, in area churches and performing community services

Students majoring in religion may form a composite major with another academic discipline, such as Philosophy, Communication, Theater, Music, Psychology, Foreign Languages, Sociology, and History. Each year many graduates of this department go on to graduate studies in major universities and seminaries in this country and abroad.

256 Graduates of the Department of Religion are currently leading satisfying careers such as:

- pastoring churches in this country and abroad
- teaching in seminaries and colleges
- serving as a theological librarian
- directing a home for the aged
- serving as youth directors in local churches

RELIGION OFFERINGS FOR THE ALL-COLLEGE REQUIREMENTS

Studies in the department are an integral part of the college curriculum and six semester hours (three semester hours for Junior and Senior transferees) in Religion offerings are required for graduation. Three of these hours are to be elected from the Basic Studies in Religion. The remaining hours are to be drawn from the upper level religion courses, allowing for those exceptions where additional prerequisites are listed.

RELIGION AS A MAJOR

Religion is a department within the Humanities Division presenting an area of study and research which students preparing for various professions may choose as the focus of their liberal arts education. The Department of Religion is comprised of five disciplines: Biblical Studies, Historical Studies, Theological-Philosophical Studies, Studies in World Religions, Studies of Religion in Culture. A religion major program requires 24-30 semester hours of courses elected from the five disciplines in Religion. Options for religion

majors include seminars or individual research and, in consultation with the department chairman, the opportunity to fulfill selected required courses through a tutorial reading program. The program has been endorsed and recommended by graduate theological seminaries for students preparing for church vocations.

For students interested in pursuing careers in Christian education and youth work in the local church, the religion major-church worker program is recommended. This program consists of the regular religion major course of study to which particular courses for skill development are added.

MINOR IN RELIGION: A minor consists of a minimum of 18 credits, including one course at the 100 level, four courses at the 200 and/or 300 level (it is suggested that these courses be elected from four of the five major disciplines offered by the department), and one course at the 400 level.

Basic Studies in Religion

110. LITERATURE OF JUDAISM AND CHRISTIANITY — A study of selected portions from Biblical literature, the primary documents of the Judeo-Christian tradition. The course will examine concepts in the religious tradition most basic in the Western world.

THREE HOURS

VERHEY, VOOGD, VOSKUIL

120. BASIC CHRISTIAN THOUGHT — An inquiry into the basic tenets of Christianity dealing with God, Jesus Christ, and the nature of human existence and human destiny. These tenets are examined in relation to their historical and contemporary contexts.

THREE HOURS

PALMA, WILSON

130. INTRODUCTION TO WORLD RELIGIONS — An analysis of categories of religious behavior, attitudes and assumptions as manifested and illustrated in world religion sources. Contemporary life is evaluated in the light of these categories.

THREE HOURS

WILSON

140. RELIGION IN SOCIETY — An examination of the role that religion plays in societies such as ancient Israel and early Christianity. The place of religion in these societies will serve as models for understanding religion in American life, past and present, with special reference to issues such as church and state, and religion and social ethics.

THREE HOURS

BOULTON, BRUINS

257

Biblical Studies

211. GOSPEL LITERATURE — A study of the synoptic gospels and John emphasizing the ministry and thought of Jesus. Attention is given to twentieth century research in the gospels. Sophomore standing.

THREE HOURS

VERHEY

212. PAULINE LITERATURE AND THOUGHT — The sources and content of the Apostle Paul's thought are treated through a study of his New Testament letters. The course also examines recent trends in Pauline research. Sophomore standing.

THREE HOURS

VERHEY

215. HISTORY AND RELIGION OF ANCIENT ISRAEL I — The history, literature and religion of Israel from the Patriarchal era to the Babylonian exile. A study of the Old Testament against the background of the ancient Near East.

THREE HOURS

VOOGD

Religion

216. HISTORY AND RELIGION OF ANCIENT ISRAEL II — The history, literature and religion of Israel from the Babylonian exile to the Christian era. A study of the rise of post-exilic Judaism in fusion and confrontation with the empires of Persia, Greece and Rome.

THREE HOURS

VOOGD

311. WISDOM LITERATURE OF ISRAEL — Study of the role of the sages and their contribution to Israel's religious and intellectual life through examination of the Wisdom books of Israel. Selections from contemporary literature bearing on the perennial problems raised by the Wisdom writers are used as collateral reading.

THREE HOURS

STAFF

312. PROPHETIC LITERATURE OF ISRAEL — A study of the prophetic literature of Israel in its historical setting. The course examines the basis of the prophetic movement, its impact on Israel's political, social, and religious life, and its relationship to later Jewish and Christian thought. The course also examines the prophetic social concerns as they relate to contemporary social problems.

THREE HOURS

VOOGD

421. ARCHAEOLOGY AND THE BIBLE — A study of the archaeological discoveries which cast a direct or indirect light upon the Biblical record, including an analysis of the Dead Sea Scrolls.

THREE HOURS

VOOGD

Historical Studies

221. RISE OF CHRISTIANITY I — The rise and development of Christianity from the second century to the Reformation era. Students who intend to take both 221 and 222 should select them in their proper sequence.

THREE HOURS

VOSKUIL

222. RISE OF CHRISTIANITY II — The history of Christianity from the Reformation era to the present day. Students who intend to take both 221 and 222 should select them in their proper sequence.

THREE HOURS

VOSKUIL

321. RELIGION IN AMERICA — An analysis and study of the various religious movements and cults in America from colonial times to the present.

THREE HOURS

BRUINS, VOSKUIL

422. STUDIES IN CALVINISM — A survey of the teachings of John Calvin and the development of the Reformed tradition in Europe and North America.

THREE HOURS

BRUINS

Theological-Philosophical Studies

231. PERSPECTIVES ON CHRIST — A study of representative views and images of Christ. Conceptions to be covered stem from a number of perspectives: theological, historical, psychological, etc. Attention is also given to images of Christ expressed in culture including music, painting and literature.

THREE HOURS

PALMA

331. PHILOSOPHY OF RELIGION — A critical study of religious beliefs as truth claims, their meaning and validity, the character of religious knowledge and issues concerning religious language.

THREE HOURS

PALMA

333. EXISTENCE AND FAITH — A systematic inquiry into the Christian interpretation of human existence through a critical analysis and evaluation of such non-Christian existentialists as Sartre, Camus and Heidegger and such Christian theologians as Calvin, Kierkegaard, Niebuhr and Tillich.

PALMA

335. CONCEPTIONS OF GOD — A typological study of various theological and philosophical conceptions of God and their implications for such problems as the meaning of evil, freedom of the will, and man's knowledge of God. The Biblical conception of God will be analyzed and then compared to the conceptions of God in various theologians (e.g. Augustine, Aquinas, Calvin, Edwards, Barth, Tillich and Niebuhr) and philosophers (e.g. Plato, Aristotle, Eckhart, Hegel, Whitehead and Hartshorne).

PALMA

Studies in World Religions

242. NEAR EASTERN RELIGIONS — An introduction to the major religions of Mesopotamia, Egypt, Palestine, Arabia, Greece and Rome.

THREE HOURS

VOOGD

341. ASIAN RELIGIONS I — A study and analysis of the major religions of India.

THREE HOURS

WILSON

342. ASIAN RELIGIONS II — A study and analysis of the major religions of China, Japan and Southeast Asia.

THREE HOURS

WILSON

Religion in Culture

251. CHRISTIAN LOVE — This course examines the crowning virtue in Christian morality, with special attention to sexual ethics. In a theological framework, students reflect on the origins and ends of sexuality, on the relation of love to justice, and on the meaning of marriage and the single life. Sophomore standing.

THREE HOURS

BOULTON

259

253. WAR AND THE CHRISTIAN CHURCH — Building on Jesus' assertion "Blessed are the peacemakers," this course examines Christian perspectives on war and peace, the implications of nuclear weapons, various peacemaking strategies and institutions, the legitimacy of the draft, and related topics. Sophomore standing.

THREE HOURS

BOULTON

351. CHRISTIAN ETHICS — This course gives students an opportunity to analyze the ethical system of an unfamiliar Christian community and to encounter Christian ethics as a discipline and as a vocation.

THREE HOURS

BOULTON

352. CHRISTIAN EDUCATION — An examination of current trends in Christian education in reference to theory, methods, and curricula in Christian education for the local church.

THREE HOURS

BRUINS

453. CHRISTIANITY AND CONTEMPORARY AMERICAN CULTURE — An examination of the major tenets of the Christian faith and the various ways in which the Christian faith interacts with major phenomena in contemporary American culture such as technology, the arts, politics and social morality.

BOULTON, BRUINS, PALMA, VOSKUIL

Religion

Seminar and Independent Study

295. STUDIES IN RELIGION — A lecture or seminar class on a selected topic from one of the five disciplines of the department. Prerequisite: one course in "Basic Studies in Religion" and sophomore standing.

THREE HOURS

STAFF

490. INDEPENDENT STUDIES — A program providing an opportunity for the advanced student to pursue a project of his own interest beyond the catalog offerings. Course can be based upon readings, creative research and/or field projects. Permission of department chairman required.

ONE, TWO or THREE HOURS

STAFF

495. SEMINAR — In-depth studies in any of the five disciplines of the department to develop the student's capabilities for individual research and use of primary sources. For religion majors only or by permission of instructor.

THREE HOURS

STAFF

SOCIOLOGY AND SOCIAL WORK

MR. MULDER, CHAIRPERSON; MR. LUIDENS, MR. OSBORN, MR. PIERS, MR. SOBANIA.

The Department of Sociology and Social Work provides students with a variety of courses in two pre-professional "tracks." The Sociology track prepares students who plan to enter graduate or professional school in the areas of sociology, law, urban planning, the ministry, and numerous other fields. The Social Work track, which is granted in conjunction with the Department of Psychology, prepares students who are intending to join the "helping professions," either directly after graduation or following graduate studies in social work.

Sociology can be defined as the scientific study of human societies. In order for students to engage in this study, they will be introduced to the major theoretical and methodological issues of the discipline. Students will be able to choose from a wide selection of topical courses. These courses bring various theoretical and methodological understandings to the analysis of specific social structures and processes.

The program for a Sociology major requires a minimum of 27 hours. The course program must include a) Soc. 101 (Principles of Sociology); b) Math. 210 or Math 310 (Introduction to Statistics) and Soc. 262 (Methods of Social Research); and c) Soc. 361 (Theoretical Perspectives in Sociology). It is strongly recommended that these courses be completed by the end of the junior year.

The Social Work major, a composite of Psychology and Sociology, is designed for students who are intending to enter professions which require direct contact with people concerning their social and personal welfare. This major builds upon a broad liberal arts base and examines: a) the philosophies of social welfare; b) various theoretical perspectives of sociology, psychology, and the other social sciences; and c) the complementary utility and integrative properties of the various theoretical perspectives.

261

The requirements for the Social Work major include the following Social Work courses: a) Soc. 101 (Sociology and Social Problems); b) S.W. 232 (Sociology of the Family), S.W. 241 (Introduction to Social Welfare), S.W. 242 or Soc. 312 (Child Welfare or Urban Sociology), Soc. 262 (Methods of Soc. Research), and S.W. 442 (Social Interventions); and c) the following courses from the Psychology Department: Psychology 100 or 200, 230, 260, 280 or 330, 370, 380 or 410.

Although not required, Social Work 443 or 446 is strongly recommended for all students in the Social Work major. It is also recommended that Social Work majors take Mathematics 210 (Introduction to Statistics) for their College mathematics requirement, and Biology 218 (Human Ecology) and Biology 217 (Principles of Heredity) toward their science requirements.

Students contemplating the Social Work major should consult with the Department of Sociology by the end of their sophomore year.

In addition to their classroom and experimental programs, Social Work students engage in a wide variety of activities which include the following:
social research in the community

Sociology and Social Work

liaison work with the Holland Police Department
work with the mentally and physically handicapped in local clinics
and hospitals
work in local hospitals with bi-lingual patients
work on a "one to one" basis with juvenile delinquents throughout
the local courts
work with neglected children through local agencies
work with school children through social workers in schools

Sociology and Social Work students have the unique opportunity to carry out some of their studies in other social contexts. In particular, the Philadelphia Urban Semester and Chicago Metropolitan Semester offer students courses and field placements in an urban setting.

Graduates of Hope's Department of Sociology and Social Work have been involved in a variety of satisfying careers such as:
college teachers, high school teachers
ministers and church workers
director of drug clinic in Western Michigan
workers in prisons
supervisors in counseling centers
teachers of social work and psychiatry at major universities
legal aid lawyer in Detroit, Michigan
professional counselor for the Girl Scouts of America
director of programs of special education in Virginia
housing director at a midwest college

MINOR: A minor in the field of Sociology consists of three required courses (Sociology 101, 262, and 361) and three Sociology courses of the student's choosing.

A. Basic Courses in Sociology and Social Work

101. SOCIOLOGY AND SOCIAL PROBLEMS — Examination of the concepts and theories which make up the sociological perspective, the evidence which supports these theories and some ways in which the sociological perspective can aid in understanding social phenomena in the contemporary world.

THREE HOURS **LUIDENS or MULDER** **BOTH SEMESTERS**

151. CULTURAL ANTHROPOLOGY — A study of the historical trends in anthropology that have led to its present perspective. The concepts of functionalism and cultural relativism are examined and evaluated. The course surveys various cultural patterns around the world.

THREE HOURS **SOBANIA** **FALL SEMESTER**

B. Sociology Courses

231. CRIMINOLOGY — The study of the social definition of "crime" and the process of defining criminals. The roles of power and group self-interest will be analyzed as we examine the demographic and social contexts in which crime has been variously "found" in society. Prerequisite: Soc. 101.

THREE HOURS **LUIDENS** **FALL SEMESTER**

232. SOCIOLOGY OF THE FAMILY — A study of family structure in both the American society and in other cultures. Theory and research will focus on trends in family life and social problems reflected in family functioning. Prerequisite: Soc. 101. Same as S.W. 232.

THREE HOURS **PIERS** **BOTH SEMESTERS**

Sociology and Social Work

262. METHODS OF SOCIAL RESEARCH — A course dealing with a variety of research techniques available to social scientists. An attempt will be made to evaluate the merits of each technique. Practical experience will be part of the course.

THREE HOURS

MULDER SPRING SEMESTER

265. SOCIOLOGY OF EDUCATION — Education from the institutional perspective, as an agency of socialization, analysis of various school and community relationships and discussion of the responsibility of both for the educational program of the community, and the relationship in general between society and education. Prerequisite: Soc. 101. Same as Educ. 265.

THREE HOURS

LUIDENS SPRING SEMESTER

280. SOCIAL PSYCHOLOGY — The psychological principles underlying interpersonal and group behavior and the effect of social conditions on individual behavior. Same as Psych. 280.

THREE HOURS

MYERS BOTH SEMESTERS

295. STUDIES IN SOCIOLOGY — Readings and discussion focusing on a selected topic of interest to sociologists and students. Prerequisite: permission of the instructor.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

311. POPULATION STUDIES — Determinants and consequences of changes in the basic demographic variables: fertility, mortality, migration. Composition and distribution of population throughout the world with emphasis on the relationship between population and other social, economic, and political factors. Issues about population control are also considered. Prerequisite: Soc. 101.

THREE HOURS

MULDER FALL SEMESTER

312. URBAN SOCIOLOGY — A study of perspectives sociologists use in studying cities, factors involved in urbanization, and the crisis in American cities. Study of the origin and development of cities, theory and research findings on the impact of urbanization on social life. Discussion of the changing shape and nature of cities and of urban social problems. Prerequisite: Soc. 101.

THREE HOURS

MULDER FALL SEMESTER

313. RURAL SOCIOLOGY — A study of the changing socio-cultural patterns in rural America. This course will focus on the contemporary structure of rural America covering such areas as agri-business and recent migration trends that affect rural areas. Prerequisite: Soc. 101.

THREE HOURS

MULDER FALL SEMESTER

321. PUBLIC OPINION AND MASS COMMUNICATION — Conceptual analysis of public opinion in relation to notions of democratic behavior and social change. Problems of measurement. The influence of the mass media, reference groups, and interpersonal relations. Prerequisite: Soc. 101.

THREE HOURS

MULDER SPRING SEMESTER

325. SOCIOLOGY OF FORMAL ORGANIZATIONS — An analysis of the nature and dimensions of formal "complex" organizations. Examination will be made of the inter-relationship between the principal organizational variables, such as centralization of power, job satisfaction among employees, formalization of tasks, and effectiveness of performance. Prerequisite: Soc. 101.

THREE HOURS

LUIDENS FALL SEMESTER

Sociology and Social Work

331. SOCIAL STRATIFICATION — A study of sociological theory and research bearing on the various systems of social classification, such as class, power, prestige, race, ethnic background, sex, and age categories. Prerequisite: Soc. 101.

THREE HOURS LUIDENS FALL SEMESTER

341. SOCIOLOGY OF RELIGION — This course is intended to introduce the student to the variety of approaches, concepts and theoretical understandings which constitute the discipline of the sociological study of religion. Prerequisite: Soc. 101.

THREE HOURS LUIDENS SPRING SEMESTER

351. SOCIOLOGY OF SPORTS — An examination of the scope and impact of sport in the twentieth century. Special attention will be focused on sport and social processes such as the influence of sport on mobility, stratification, and socialization. Emphasis will also be given to contemporary problems in sport and a look into the future of sport for man. Same as Phys. Ed. 361.

THREE HOURS VANDERBILT FALL SEMESTER

356. SOCIAL CHANGE — An understanding of social change is a fundamental concern in sociology. This course will examine research dealing with both individual and cultural aspects of social change. Topics such as the diffusion of innovations, the effects of mass communications, and the near-universal pattern of modernization will be discussed and analyzed. Prerequisite: Soc. 101 or permission of the instructor.

THREE HOURS MULDER FALL SEMESTER

361. THEORETICAL PERSPECTIVES IN SOCIOLOGY — This course will consider the major theorists of sociology, and the major questions asked or primary aspect focused on by each. Prerequisite: Soc. 101.

THREE HOURS LUIDENS SPRING SEMESTER

490. INDEPENDENT STUDIES IN SOCIOLOGY — This program affords an opportunity for the advanced student in Sociology to pursue a project of his/her own interest beyond the regular course offerings. The project may take one of several forms: 1) library readings on a topic in Sociology, 2) a supervised research project, 3) a supervised field project combining study with appropriate work experience. To become eligible for this course the student must have in mind a rather specific project, some background in related courses. Application in writing, including a course proposal and bibliography, should be submitted during advanced registration to the department through the instructor who will be supervising the project. Open to senior Sociology majors with the consent of the department.

TWO or THREE HOURS STAFF BOTH SEMESTERS

495. SEMINAR IN SOCIOLOGY — A senior course designed to enable students and faculty to organize and integrate a variety of interest areas in Sociology, thereby culminating the major with a synthesis provided through theoretical perspectives. Prerequisite: 15 hours of Sociology.

ONE, TWO, or THREE HOURS STAFF BOTH SEMESTERS

C. Social Work Courses

232. SOCIOLOGY OF THE FAMILY — A study of family structure in both the American society and other cultures. Theory and research study will focus on trends in family life and social problems reflected on family functioning. Prerequisite: Soc. 101. Same as Soc. 232.

THREE HOURS PIERS BOTH SEMESTERS

Sociology and Social Work

241. INTRODUCTION TO SOCIAL WELFARE — Examination of social welfare as a social institution, the history and philosophy of social work and the contribution of social work to social welfare institutions. Prerequisite: Soc. 101.

THREE HOURS

OSBORN SPRING SEMESTER

242. CHILD WELFARE — Examination of the philosophy of child welfare as a specific part of social welfare and the programs and policies which perpetuate the child welfare institutions. Prerequisite: Social Work 241.

THREE HOURS

OSBORN FALL SEMESTER

290. INDEPENDENT STUDY IN SOCIAL WORK — Designed to give a student specific experience in supervised agency observations, combined with study or library readings on a Social Work topic. The student is responsible for obtaining prior approval for his/her study from supervising faculty. Though the course may be repeated for credit, only three hours of S.W. 290 and 295 may be applied to the Social Work major.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

295. STUDIES IN SOCIAL WORK — Experimental lecture, readings and discussion focusing on selected topics of interest to Social Work students. Prerequisite: Permission of the instructor.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

442. SOCIAL INTERVENTIONS — Foci include: 1) Principles of the social work relationship, 2) framework for inter-personal helping, and 3) its utility for social work practice. Prerequisite: Social Work 241.

THREE HOURS

PIERS BOTH SEMESTERS

443. SOCIAL WORK FIELD PROJECT — This program offers the opportunity for advanced social work students to experience working with individuals, groups and community organizations under the close supervision of professional social workers. The program is offered in cooperation with several social and criminal justice agencies in Western Michigan. Work may include direct service, client advocacy, or training and referral service for client systems. Students will spend the equivalent of one agency day per week in the field. Prerequisite: Soc. 442, previously or concurrently taken and permission of the instructor during the semester prior to registration.

THREE HOURS

PIERS BOTH SEMESTERS

446. SOCIAL WORK FIELD PROJECT — Field experience is the same as in Social Work 443. Time spent at agency will be two agency days per week. See Soc. 443 for more information.

SIX HOURS

PIERS BOTH SEMESTERS

Note: The Social Work Field Project may be repeated for as many as nine hours of credit.

490. INDEPENDENT STUDY — This program allows advanced students in social work to pursue a project of his/her own interest beyond regular course offerings. Project may take the form of library research and study project or supervised research project. Students must have a specific project in mind. Prerequisite: 20 hours towards Social Work major.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

495. ADVANCED SEMINAR IN SOCIAL WORK — A senior level seminar course designed for trial offering which enables faculty and students to organize and integrate a variety of interest areas in social work. Prerequisite: senior standing, Social Work major, and permission of the instructor.

THREE HOURS

STAFF BOTH SEMESTERS

THEATRE

MR. RALPH, ACTING CHAIRMAN; MS. CARDER, MR. GRINDSTAFF, MR. SMITH, MR. TAMMI*.
Assisting Faculty: MR. TILLSTROM. *Hope Summer Repertory Theatre*: JOHN K.V. TAMMI, Artistic
Director; MARY SCHAKEL, Managing Director; JOYCE F. SMITH, Business Manager.

Course offerings in theatre, along with the department's co-curricular program, are designed to provide the liberal arts student with knowledge of and experience in an art form which has played an important role in our cultural history as well as in contemporary society. Performance or laboratory experience makes possible an appreciation of the art which can be derived only from direct participation. The practical experience of working together in a disciplined collaborative art can enhance one's understanding of oneself and of other people.

The theatre program is further intended to enhance the cultural life of the community through the presentation of plays of value from a historical, contemporary, literary, or entertainment point of view.

Theatre students currently engage in such activities as:

- acting, directing, designing
- participating in theatre production at all levels
- participating in the New York Arts semester program or the Philadelphia Urban Semester program sponsored by the GLCA
- working with established professionals in theatre through a guest artist program

Graduates of the Department of Theatre have recently been involved in pursuing such careers as:

- freelance acting
- elementary and secondary school teaching
- serving as members of resident companies, such as the Actors Theatre of Louisville
- designing lighting for the Geoffrey Ballet
- working in the Juilliard costume shop

MAJOR: A major in theatre generally serves one of the following purposes:

1. More intensive study in this particular discipline as the emphasis within the student's liberal arts education.
2. Preparation for a career in teaching.
3. Preparation for graduate work leading to an M.A., M.F.A., Ph.D., or D.F.A. degree in theatre.
4. Preparation for work in a non-commercial field of theatre such as community theatre.
5. Preparation for advanced training leading to a career in the professional theatre.

The major program is designed on a "contract" basis, with two provisions as follows:

1. A 24-hour general core, consisting of Theatre 216 (Acting); Theatre 121 (Stagecraft); one course chosen from Theatre 215 (Makeup), Theatre 222 (Scene Design), Theatre 223 (Lighting Design), and

*On leave academic year 1982-83.

Theatre 224 (Costume Design); Theatre 331 (Stage Direction); 3 courses chosen from Theatre 301, 302, 303, 304, and 306 (Theatre History); and a total of 3 hours singly or in combination from Theatre 380 (Practicum), Theatre 490 (Independent Studies), and Theatre 495 (Seminar).

2. Additional courses which the student will, in consultation with a departmental academic advisor, propose for completion of his or her major contract. This proposed course of studies in an area or areas of special concentration will be designed to suit the student's own individual interests, needs, and career goals. Typical areas of concentration are design and technical theatre, directing, acting, or theatre history and criticism. The major contract proposal will be submitted for approval to the Theatre Council, which is comprised of the theatre faculty and two elected student representatives.

In addition to the curricular requirements, every student who does not have an assigned responsibility on- or off-stage for a major departmental production is expected to serve a minimum of 10 hours on one of the crews for that production. Majors with a concentration in performance are expected to participate in all departmental production auditions.

In order that full advantage may be taken of the individualized approach to the major program, it is in the best interest of the student to apply for acceptance as a major by the end of the sophomore year. In any case, no major application will be approved which does not include two full semesters of study following the acceptance of the application.

Although the department has no foreign language requirement beyond the general college requirement, students anticipating graduate school — particularly in the area of theatre history, literature, and criticism — are advised to consider the undergraduate preparation in language which may be expected by graduate departments.

A detailed information sheet for majors and prospective majors is available in the department office. Majors are expected to be familiar with information provided on this sheet.

COURSES FULFILLING COLLEGE CORE REQUIREMENTS:

Performing and Fine Arts: first unit — Theatre 101, 105, 153.

Performing and Fine Arts: second unit — Any course work totaling three hours.

Senior Seminar: IDS 400.

MINOR: A minor consists of a minimum of 20 hours, including Theatre 121, 216, 331, one course in design (Theatre 215, 222, 223 or 224), one course in early theatre history (Theatre 301, 302, or 303), one course in modern theatre history (Theatre 304 or 306), and two credits in one or more of the following: Theatre 380, 490 or 495.

I. General

101. INTRODUCTION TO THE THEATRE — Intended for the non-major. Appreciation of the theatre and its role in contemporary life. Consideration of history, theory, playwriting, acting and directing, and technical areas, primarily from the audience point of view. Course includes laboratory experience and attendance will be required at films screened outside of class. Course may not be taken for credit if student has previously completed Theatre 105. *May be taken in partial fulfillment of College Performing and Fine Arts requirement.*

THREE HOURS

STAFF

BOTH SEMESTERS

Theatre

389. GLCA ARTS PROGRAM — The Great Lakes Colleges Association Arts Program, in New York City, involves the student in a full semester's study in the arts. The program includes a Seminar on the Arts in which all students participate, together with individual projects which usually take the form of a professional apprenticeship. Approval by the department is required prior to the student's registering for this course, and the department must approve the student's individual program before credit will be granted. The registrant must be accepted into the program by the Director of the GLCA Arts Program. The Arts Program should preferably be taken during the junior year.

SIXTEEN HOURS (MAXIMUM)

BOTH SEMESTERS

II. Performance and Production

NOTE: For course offerings in dance, see separate catalog listings under Dance.

105. INTRODUCTION TO THEATRE PRACTICE — Introduction to the performance and production aspects of theatre art. Through lectures, readings, discussions, laboratory experience, and class projects the student will become acquainted with the functions and the relation to the total production organization of the director, assistant director, designers, technical director, actors, technicians, and stage manager. Course is designed primarily for the intended theatre major, and fulfills introductory course unit of College Performing and Fine Arts requirement.

THREE HOURS

RALPH

FALL SEMESTER

116. VOICE AND MOVEMENT FOR THE ACTOR I — An integrated study of vocal production and body movement in relation to the actor's craft. Exercises designed to promote relaxation, natural breathing, correct alignment, organic vocal production, and coordinated physical action will be explored. Recommended that intended performance-emphasis majors enroll in the freshman year. Not offered 1982-83.

THREE HOURS

TAMMI

FALL SEMESTER

268

117. VOICE AND MOVEMENT FOR THE ACTOR II — A continuation of Theatre 116, emphasizing special problems in both voice and movement. Prerequisite: Theatre 116. Not offered 1982-83.

THREE HOURS

TAMMI

SPRING SEMESTER

121. STAGECRAFT — An introduction to technical theatre. Consideration of technical organization, scenery construction methods, scene-painting techniques, mechanical perspective, drafting, scenic materials. Introduction to the function of scene designer, costumer, lighting designer, technical director, and sound technician.

THREE HOURS

SMITH

SPRING SEMESTER

130. ORAL INTERPRETATION OF LITERATURE — A basic course designed to develop an increased understanding and appreciation of literature while cultivating and strengthening vocal skills through the process of interpretative reading. Not offered 1982-83.

215. HISTORY AND TECHNIQUE OF THEATRICAL MAKEUP — Study of the principles of makeup and hair fashion for the stage. Training in skills and techniques needed for understanding the design and application of straight, character, and fantasy makeup. Emphases will be on facial anatomy, physiognomy, corrective makeup, skin textures, materials, modeling, analysis, special structures, ventilation of hairpieces, historical hairstyles, and wig-making.

THREE HOURS

SMITH

MAY TERM

216. ACTING I — A concentration on script analysis, leading to the presentation of short scenes, together with a study of basic problems in observation, concentration, characterization, and improvisation. Course not open to freshmen.

THREE HOURS **RALPH** **FALL SEMESTER**

217. ACTING II — A continuation of Theatre 216, with increased emphasis on scene work. Course not open to freshmen. Prerequisite: Theatre 216.

THREE HOURS **RALPH** **SPRING SEMESTER**

222. SCENE DESIGN — An introduction to designing scenery for stage production. Course work is divided into three major areas of study: (a) history of architecture, furniture styles, and interior decor from the early Egyptians to the present day; (b) theoretical considerations in analyzing a production visually for an open theatre space; and (c) training in the techniques of sketching, painting, and model-building for set designs. Prerequisite: Theatre 121 or permission of the instructor. Offered alternate years, 1982-83.

THREE HOURS **SMITH** **FALL SEMESTER**

223. LIGHTING DESIGN — A study of the tools, technology, and artistic considerations of theatrical lighting. Course attempts to deal with the aesthetic problems of lighting design as the artistic effort of an individual working within a producing group. Prerequisite: Theatre 121 or permission of the instructor. Offered alternate years, 1983-84.

THREE HOURS

224. COSTUME DESIGN — An introduction to the role of the costume designer in the theatre. Consideration of the designer's responsibilities as a visual artist, based on analysis of the script and of the production concepts. Study of fashions in dress from the ancient Greeks to 1940. Development of the techniques of period dress making, pattern drafting, costume construction, shop organization, and rendering. Offered alternate years, 1983-84.

THREE HOURS

240. PLAYWRITING — Practice in the art of writing for the stage or screen. Students will move from work on selected special problems to the writing of full one-act or longer scripts. Whenever possible provision will be made for reading performances of work-in-progress; and in cases of exceptional merit arrangements may be made for public performance or screening of a finished script. Course offered jointly with the department of English. Offered alternate years, 1983-84.

THREE HOURS

280. THEATRE LABORATORY — Practical experience in theatrical production, through involvement as an actor or technician in a departmental major production. The amount of credit to be granted will be determined by the number of hours required for the particular assignment as agreed upon by student and instructor. Prerequisite: casting by the director, or acceptance on a production crew by the technical director. Enrollment requires permission of the department chairperson.

ONE or TWO HOURS **STAFF** **BOTH SEMESTERS**

295. STUDIES IN THEATRE — Instruction in specific performance or production techniques, such as mime, fencing, dance, and special problems in acting. Each class will be limited to one such performance area. Frequency of course offering is determined by student demand and by availability of theatre specialists or guest artists. Enrollment requires permission of the instructor. (Laboratory fee in some instances.)

ONE or TWO HOURS

Theatre

316. ACTING III — Extensive scene work focusing on such major classical dramatists as Shakespeare, Moliere, Chekhov, and Ibsen. Audition techniques and the rehearsal process will also be studied. Prerequisites: Theatre 216 and 217 or equivalents. Enrollment requires permission of the performance instruction staff.

THREE HOURS

FALL SEMESTER

317. ACTING IV — A continuation of Theatre 316, with continued emphasis on script analysis and ensemble performance. Prerequisite: Theatre 316.

THREE HOURS

SPRING SEMESTER

331. STAGE DIRECTION I — A basic course in the rudiments of the director's art and responsibility in theatrical production. Practice in the principles of composition, picturization, and dramatic tempo. Consideration of the problems in proscenium, central, and open staging. Prerequisites: Theatre 216 or equivalent and Theatre 121 or permission of the department.

THREE HOURS

STAFF

FALL SEMESTER

332. STAGE DIRECTION II — A continuation of Theatre 331. Each student will produce at least two one-act plays. Prerequisite: Theatre 331 or equivalent.

THREE HOURS

SPRING SEMESTER

335. CREATIVE DRAMA TECHNIQUES — Emphasis is on techniques such as improvisation, playmaking, story dramatization, role-playing, creative movement, and creative speech to be used by prospective elementary and secondary teachers and recreation or drama leaders. Course includes observation sessions, studio participation, evaluated practicum experience, a survey of literature in the field, and dramatic education seminars. Recommended for education, theatre, and physical education majors especially. No prerequisites in theatre or education. *May be taken as a special methods course in education.* Not offered 1982-83.

TWO HOURS

380. THEATRE PRACTICUM — Specialized study of a particular production aspect of the play in performance. The student will be assigned to a departmental production as assistant director, assistant designer, or stage manager. A report, the form of which is to be governed by the nature of the project, will be submitted to the project supervisor. Registration is restricted and requires departmental approval. Ordinarily, no student will be permitted to register for Practicum who has not taken basic course work in the particular area. Prerequisite: application to the department.

ONE or TWO HOURS

STAFF

BOTH SEMESTERS

381. SUMMER THEATRE LABORATORY — An integral part of the Hope College Summer Theatre program, the course will concentrate on a consideration of the inter-related problems of play production. Aspects to be covered include script and character analysis, production planning and design, construction procedures and techniques, and management. Course may be taken for a maximum of six hours (i.e., two summer sessions). Prerequisites: acceptance into the summer theatre company and permission of the instructors.

THREE HOURS

STAFF

SUMMER SESSION

490. INDEPENDENT STUDIES IN THEATRE — Independent work for the advanced student in one of the following areas: directing, acting, scene design, costuming, lighting, playwriting, theatre or film criticism, film production, theatre management. Course is offered on a selective basis, by permission of the department. The student must submit *in writing* a project proposal for departmental approval during the previous semester and prior to registration for the course.

ONE, TWO or THREE HOURS

STAFF

BOTH SEMESTERS

III. History and Theory

153. ART OF THE CINEMA — An introductory course in film appreciation. Films viewed and critiqued in class will be approached in terms of the cultural context of each film and the filmmaker's relation to the society in which he or she lives — its values, mores, and aspirations. *May be taken to fulfill introductory course unit of College Performing and Fine Arts requirement.*

THREE HOURS

SMITH FALL SEMESTER

243. PLAY ANALYSIS — The objective in this course is to learn how to read a play-script as a work intended for stage performance. Regularly assigned written analysis will deal with such matters as structure, plot, characterization, relationships, motivation, and language. The student will be introduced to the special analytical perspectives of the historian or critic, the actor, the director, and the designer.

THREE HOURS

RALPH SPRING SEMESTER

296. SPECIAL TOPICS IN THEATRE — Study of an area of theatre or film history, literature, theory, or criticism not specifically covered in the regular departmental offerings. Offered occasionally as warranted by student and faculty interest. Prerequisite: permission of instructor.

TWO or THREE HOURS

301. CLASSICAL WESTERN THEATRE — A survey of classical Greek and Roman theatre, and of the development of classical themes and techniques in subsequent periods of theatre history. Not recommended for freshmen. Offered alternate years, 1983-84.

THREE HOURS

302. WESTERN THEATRE FROM THE MIDDLE AGES TO THE 17TH CENTURY — A survey of the theatre of medieval Europe, Renaissance Italy and France, Golden Age Spain, Elizabethan England, and Baroque France. Not recommended for freshmen. Offered alternate years, 1983-84.

THREE HOURS

303. WESTERN THEATRE FROM THE 18TH CENTURY TO THE MODERN PERIOD — A survey of Western theatre in the 18th, 19th and early 20th centuries, from the English Restoration (latter seventeenth century) and the end of neo-classicism, through German romanticism, to the culmination of realism in Shaw and his contemporaries. Emphasis will be placed on such founders of modern stage practice as Ibsen, Strindberg, Chekhov, Stanislavski, Appia, and Craig. Not recommended for freshmen. Offered alternate years, 1982-83.

THREE HOURS

CARDER FALL SEMESTER

304. CONTEMPORARY WESTERN THEATRE — A study of contemporary movements in the theatre, including the variants of modern realism and naturalism, the epic theatre of Piscator and Brecht, the theatre of the absurd, and the theatres of participation, confrontation, protest, and ritual. Not recommended for freshmen. Offered alternate years, 1982-83.

THREE HOURS

RALPH SPRING SEMESTER

306. AMERICAN THEATRE — A study of theatre in the United States from colonial times to the present. Emphasis will be placed on contemporary developments, beginning with O'Neill and the Provincetown Playhouse. Offered alternate years, 1983-84.

THREE HOURS

SPRING SEMESTER

401. RELIGIOUS PERSPECTIVES IN THE DRAMA — An examination of the ways in which various religious perspectives, value systems, and world-views are reflected in

Theatre

drama, primarily of the modern period but with attention given also to the Greek classical and medieval theatres. Christian and non-Christian perspectives in drama will be considered and compared. Students will conduct critical research, be responsible for oral presentations, and prepare a life-view paper attempting to clarify and organize their own perspectives and values. *May be taken to fulfill College Senior Seminar requirement.* Same as IDS-400.

THREE HOURS

RALPH MAY TERM

495. SEMINAR IN THEATRE — Study in depth of the work of a playwright, critic, or specific movement in or period of theatre history. Past topics have included Moliere, Strindberg, American scene design, Tennessee Williams, Moscow Art Theatre, and modern directing theories and practices from Artaud to the present. Prerequisite: permission of the instructor.

TWO or THREE HOURS

499. READINGS IN THEATRE — Readings, under the tutorial supervision of an instructor assigned by the department chairperson, in a specialized or advanced area of theatre studies. Enrollment requires permission of the department.

TWO or THREE HOURS

STAFF BOTH SEMESTERS

PRE-PROFESSIONAL PROGRAMS

The liberal arts college is designed to help students live more adequately, and this aim includes preparation for effective and constructive service in a vocation. All of the study that a student does in college can have significant vocational value. In fact industry and business, professional schools, and government agencies are increasingly emphasizing the importance of a broad base of liberal arts subjects as the most significant vocational preparation an undergraduate college can give. However, in the present age of technology and specialization, there is need for some intelligent pointing of the student's program toward a field of vocational activity. Furthermore, the college curriculum is planned to include some courses which give specific professional training for vocations in which the collegiate years are the final period of preparation.

On the succeeding pages are found a number of recommended course programs carefully designed to give the best preparation for students planning on going directly into some vocation or profession or on entering professional schools. The requirements for entrance into professional schools vary so widely that students interested in a special field should consult professional school catalogs as early in their college career as possible. To assist the student in working out this undergraduate program, a number of faculty members with special interests and knowledge have been appointed to serve as vocational advisors. Students are encouraged to bring their inquiries to these advisors. In addition, the college maintains extensive files of career pamphlets and other vocational information in the career library.

The following vocational areas have special advisors, and suggested programs of study for them are separately described in the ensuing pages.

Advisors for Students Entering Professions

Biology — Mr. Brady	Medicine — Mr. Boyer,	273
Business and Economics — Mr. Richardson	Mr. Gentile, Mr. Jekel, Mr. Mungall, Mr. Cronkite	
Chemistry (Industrial and Research) — Mr. Williams	Medical Technology — Mr. Jekel	
Christian Ministry — Mr. Bruins	Music — Mr. Sharp	
Church Work — Mr. Bruins	Nursing — Ms. Kielinen	
Dentistry — Mr. Jekel	Teaching	
Diplomatic and Government Service — Mr. Hoeksema	Elementary School — Mr. Paul	
Engineering — Mr. Norton	Secondary School — Mr. Bultman	
Geology — Mr. Reinking	College — Department Chairman	
Journalism — Mr. Mac Doniels	Physics — Mr. van Putten	
Law — Mr. Zoetewey	Religion — Mr. Bruins	
	Social Work — Mr. Piers	

Christian Ministry and Church Vocation

Students desirous of pursuing pre-professional education for the Christian ministry and church vocations should consult the religion major program

Pre-Professional Programs

described on page 256. The major is designed to acquaint the student with the academic disciplines in religion as well as provide an interdisciplinary breadth to his/her program through courses in philosophy, psychology, sociology, history, English and communication. The program embraces an elective flexibility to adapt to the aptitudes and goals of the individual student.

Graduate schools and seminaries of the American Association of Theological Schools stress a broadly based liberal arts education and a core background in the academic religion discipline. Present graduate entrance requirements reflect the advisability of Greek as the required language with a preference for Spanish as a second language for those moving toward urban ministries.

Students contemplating this area of pre-professional education should consult a member of the Religion department early in their college career for more complete information regarding the major.

Diplomatic and Government Work

Students desiring to enter the Foreign Service or some other area of government work should concentrate primarily in the social sciences. Courses in American history, political science, economics, and business administration are recommended for persons intending to go into public administration. Those students who desire to enter the Foreign Service should seek as broad a knowledge as possible in History, Economics, Political Science, and English.

Students who wish to enter other branches of governmental work should major in Business Administration, Economics or Political Science.

Journalism

Because of the great variety of vocations in journalism, the College strives to give the student a broad base of knowledge and skills fundamental to all of these forms of journalistic work. Journalism courses and related courses are offered by the Communication Department. In addition, the English Department offers several relevant writing courses, such as advanced composition and creative writing. In addition, a broad study of the social sciences is highly recommended. The Chair of the Department of Communication or the Department of English will provide additional advice for students interested in journalism.

A number of positions on the campus newspaper, the *anchor*, and on the literary review, the *Opus*, and the yearbook, the *Milestone*, provide practical experience in various aspects of journalism: editorial work, news reporting, proofreading, advertising, radio script writing, and other techniques.

Law

The Law School Admission Council in its *Pre-Law Handbook* stresses that the highest quality of education needed for law school should emphasize: 1) comprehension and expression in words, 2) critical understanding of human institutions and values with which law deals, and 3) creative power in thinking.

Students desiring to enter the legal profession will find that most of the law schools do not prescribe a specific pre-professional program, but rather insist on a broad liberal arts background with emphasis upon courses that will help the student to attain the goals listed above.

Pre-Professional Programs

Practically speaking, then, the pre-law student could select any subject area major. Business administration, economics, English, history, political science, or philosophy are the common areas of concentration, though almost any major could provide a well-read student with a solid basis for law studies. He should take a number of courses in writing. Further, he should recognize that one of the most valuable activities in preparation for the study and practice of law is academic debate and public speaking, especially in extracurricular competition. Competition is ideal for producing research, reasoning, and communication skills. Finally, since law is neither to be studied or practiced in a vacuum, the undergraduate student should range as widely as possible in order to understand his environment — physical, physiological, psychological, social, and ethical.

Librarianship

Although some undergraduate institutions offer courses in the area of library science, Hope College does not, since it is still necessary for an individual to obtain the master's degree in order to be considered a professional librarian. However, the College recommends that any student wishing to prepare for a career in librarianship consider the following in undergraduate planning:

- 1) Select a number of courses from the Humanities, Social Sciences, and Sciences to develop a broad knowledge in these disciplines.
- 2) Recent developments in librarianship point to an emphasis on automation. Some undergraduate courses in computer science would therefore be desirable.
- 3) Major in the discipline that interests you personally, since there are opportunities for many kinds of subject specialists in librarianship.
- 4) Plan to work for one of the college's libraries in order to obtain first hand experience in the practice of librarianship.

Students who wish to specialize in school library work should take the education courses required by their state for certification.

A limited number of scholarships are available through Library Schools and other organizations, including the Michigan State Library.

275

Music

Students who wish to turn their interest in music to vocational purposes may possibly have as their goal teaching, the concert stage, or church-music directing. Two complete Bachelor of Music degree programs have been established to prepare students for public school teaching, from kindergarten through the twelfth grade: the Bachelor of Music in Vocal Music Education, or the Bachelor of Music in Instrumental Music Education. These programs are outlined in detail under the Music Department description of courses. For those who wish to prepare as performing artists, the Bachelor of Music in Performance is also described in the music section of this catalog. For those students who particularly wish to follow a music major course of study to prepare for a career as a musicologist or a music librarian, or to follow music as an avocation, the Bachelor of Arts degree program, with a major in Music Literature and History or Music Theory is similarly described in the music section. Students wishing to major in music for any of these purposes need to follow a sequence of courses that extends through the four years. Consequently it is important that they enter the prescribed music program in the freshman year. To prevent serious com-

Pre-Professional Programs

plications, the entering freshman who intends to major in music should have his/her schedule confirmed by the chairman of the Music Department *before* completing his/her registration for the first semester. It would be wise, also, to request an advisor from the music department faculty. The program for the last two years will be outlined by the department chairman in conference with the student.

Social Work

Students desirous of pursuing education for social work should elect the Psychology-Sociology composite major described on page 90. The major is designed to acquaint students with theoretical perspectives in Psychology and Sociology as well as substantive material from these disciplines.

Graduate schools of social work are interested in students who have a broadly based liberal arts education and a theoretical background in the social science disciplines. The present job market reflects the advisability and preference for Spanish as a second language.

Students contemplating the Psychology-Sociology major should consult the Sociology department by the end of their sophomore year for more complete information regarding the major.

Teaching

Students planning to teach in elementary and secondary schools must be formally admitted to the Teacher Education program and receive permission to student teach. Information concerning admission criteria and procedures is available in the office of the Education Department.

ELEMENTARY SCHOOL

Students completing the teacher education program will qualify for a teaching certificate from the State of Michigan. Although teaching requirements vary among states, the Michigan Certificate through reciprocal certification agreements is valid in many other states. A composite major for elementary teachers or a departmental major, a teaching minor or substantive minor, and the professional education course sequence are the essential components of the teacher education program. An *Education Department Handbook* is available for students in the Education Department office and will be distributed to all students enrolled in Educational Psychology.

SECONDARY SCHOOL

Students completing the teacher education program will qualify for a teaching certificate from the State of Michigan. Although teaching requirements vary among states, the Michigan Certificate through reciprocal certification agreements is valid in most other states. A departmental major, a teaching minor, and the professional education course sequence are the essential components of the teacher education program. An *Education Department Handbook* is available for students in the Education Department office and will be distributed to all students enrolled in Educational Psychology.

COLLEGE

For those preparing for college teaching, a major in the chosen field of specialization is advisable. The department advisor should be consulted in working out the academic program for the four years. For such students, French or German should normally be elected for foreign language study, preferably both if the student plans to work for a Ph.D. degree.

Pre-Professional Programs

MICHIGAN SCHOLARS IN COLLEGE TEACHING PROGRAM

Hope College is a participant with four other Michigan liberal arts colleges and the University of Michigan in a cooperative program to provide counsel, guidance and special curricular and extra curricular opportunities to academically talented students who are interested in college teaching as a profession. In the junior year, such students are advised to follow the special course sequences recommended by their major department, and to continue in mastery of one or more foreign languages.

In several areas cooperative course planning between Hope College and the University of Michigan or the University of Chicago leads to special consideration for graduate study at these universities and preference in scholarship awards.

HEALTH PROFESSIONS, SCIENCE, ENGINEERING

Hope College offers a variety of programs and opportunities for students interested in pursuing careers in the natural sciences. The science curriculum is designed to enable the student to develop competency in several scientific disciplines and to pursue a specific field of interest in depth. The opportunity to work closely with faculty in creative research efforts further enhances the student's learning and appreciation of the natural sciences. Hope offers extensive opportunities for such cooperative research. The net result of Hope's science program is a motivated, well-prepared young scientist who is eagerly sought by graduate schools, medical schools, and employers.

With these goals in mind, the freshman student interested in a career involving science should enroll in the Fall Semester in pre-calculus (Math 130) or calculus (Math 135) and two science courses, one of which should be Chemistry 111 or Physics 121. The other science course is to be selected from Biology 111, Chemistry 111, Geology 101, or Physics 121, and is recommended to be a course in the student's proposed field of interest. Each of these courses initiates a year sequence which is normally completed during the same year. The year sequence in physics or chemistry which was not taken in the freshman year should be completed during the sophomore year.

By following the above pattern the student develops the necessary background in chemistry and physics to undertake further study in all of the sciences and explores several scientific disciplines early in the undergraduate program. This provides a sound basis on which to choose a field for in-depth study. In addition, the mathematical training necessary to pursue scientific study is also initiated. The program provides an excellent preparation for further study or work in the sciences, engineering, or in a variety of health professions.

For specific details regarding departmental programs the descriptions found earlier in this catalog for each department should be consulted. General comments regarding programs in engineering and in the health professions follow.

Engineering

In addition to the normal courses recommended for admission to Hope, a student interested in engineering should have completed the following high school courses: at least three years of math through trigonometry, one year each of physics and chemistry, and a course in mechanical drawing if available.

Pre-Professional Programs

Several programs are available which combine a pre-engineering course at Hope with an engineering curriculum at an engineering school. For example a 3-2 engineering program has been arranged with Case-Western Reserve University, Columbia University, University of Michigan (Ann Arbor and Dearborn), Rensselaer Polytechnic Institute, University of Southern California and Washington University (St. Louis) in which the student takes three years of undergraduate work at Hope and completes his professional undergraduate engineering training in two years at one of the six universities. At the end of five years an A.B. degree from Hope and B.S.E. degree from the engineering school are granted. During his second year at Hope, the student should make application for a major in Engineering Science through the Engineering advisor (Dr. Norton). Application to the engineering school should also be made during the fall semester of the student's junior year.

Students whose academic records are strong enough to qualify for consideration for graduate study may complete a master's degree in a variety of engineering fields at the University of Michigan after five years of study. Such students spend three or four years at Hope and one to two years at the engineering school. The A.B. (Hope) and M.S.E. (university) are awarded upon completion of the program. In addition to the formal programs leading to the master's degree at the University of Michigan, graduate schools of engineering accept Hope graduates who have majored in the physical sciences, mathematics, or computer science.

Students considering an engineering career are strongly encouraged to take appropriate engineering courses offered at Hope (see page 000). These courses more fully prepare the student for an engineering school as well as confirm the student's career objectives.

The combination of degrees in the liberal arts and in engineering provides a broad, and yet thorough, foundation for future development. A wide variety of programs can be tailored to meet individual student interests. Complete details regarding these programs are available from Dr. Norton. It is important to arrange the Hope component of these programs early.

278

Medicine and Dentistry

A premedical student may major in any academic field in which he or she has a sincere interest. Most premedical students at Hope College major in biology or chemistry, and these disciplines provide excellent background in the basic sciences required for medical schools. Regardless of the student's choice of major field the person oriented toward a career in medicine should take Biology 111 and 112, Chemistry 111, 113, 114, 121, 221, 231, 255 and 256, Physics 121, 122, 141 and 142, and Mathematics 135. In addition, Mathematics 136 is highly recommended. These courses should be completed within the first three years of College in order to provide the optimum preparation for the Medical College Aptitude Test.

It should be emphasized that the premedical program is not a rigid one, and that each student will be permitted considerable latitude in selection of courses beyond those required by the medical schools. Frequent electives in the sciences include advanced psychology courses.

Although most pre-dental students complete a four-year program, a few each year complete the minimum requirements and enter dental school after three years at Hope College. It is advisable for students to select possible schools of dentistry early in their undergraduate career in order to prepare for the specific requirements of the dental schools of their choice.

Pre-Professional Programs

Students interested in medicine or dentistry are requested to contact the Chairman of the Health Profession Committee, Dr. Jekel, as soon as possible after they arrive at Hope. Other members of the Committee are Drs. Boyer, Cronkite, Gentile, and Mungall.

Medical Technology

All schools of medical technology approved by the American Medical Association require at least 90 semester hours of college credit. A minimum of 16 semester hours of chemistry, 16 semester hours of biology, (including microbiology, Biology 301), 8 hours of physics and 3 semester hours of mathematics must be included.

Hope College, in cooperation with nearby hospitals, has a four-year degree program which leads to the A.B. degree and to a certificate of registration as a Medical Technologist by the American Society of Clinical Pathologists. During the first three years, the student completes all of the core and departmental major requirements at the College. If accepted to an affiliated school of Medical Technology, he or she will spend 12 months in residence at the Hospital in an accredited Med-Tech program. Upon successful completion of both segments, the student is granted the A.B. degree by the College and the Certificate of Registration by the Hospital School. Students interested in medical technology should contact Dr. Jekel for further details on the program.

Hope College has an agreement of affiliation for the training of Medical Technologists with Blodgett and Butterworth Hospitals in Grand Rapids, Michigan.

A student who wishes to take the fourth year at an accredited, non-affiliated Hospital may do so if permission is granted in advance by the Dean of the Natural Sciences and the Admission Committee of the Hospital.

Environmental Health Science

279

Students with an interest in the health sciences may also wish to acquire a traditional major in biology, chemistry or physics along with a nucleus of courses dealing with environmental health problems. Such a program qualifies students to pursue employment or advanced degrees in fields dealing with environmental health concerns (e.g., toxicology and mutagenicity, chemical contamination, industrial hygiene, sewage treatment and nuclear power operations). Courses in environmental health science introduce the student to basic principles of toxicology, and environmental chemistry, and provide training which qualifies students to obtain employment in fields for which the demand is rapidly expanding due to new regulations limiting environmental contaminants. An early start with the basic science and mathematics courses allows the student to gain research and/or internship experience at the junior/senior level. Several staff members have active, ongoing research efforts related to environmental health situations, and internships with various industrial firms are possible. For specific details regarding these programs, students are encouraged to contact Dr. Jim Gentile early in their undergraduate program.

THE FACULTY

- GORDON J. VAN WYLEN — *President and Professor of Physics* (1972)*
B.A., Calvin College, 1942; B.S.E., University of Michigan, 1942;
M.S., University of Michigan, 1947; Sc.D., Massachusetts Institute of
Technology, 1951; Litt.D., Hope College, 1972
- DAVID G. MARKER — *Provost and Professor of Physics* (1965)
B.A., Grinnell College, 1959; M.S. Pennsylvania State University, 1962;
Ph.D., Pennsylvania State University, 1966
- JACOB E. NYENHUIS — *Dean for the Arts and Humanities and
Professor of Classics* (1975)
A.B., Calvin College, 1956; A.M., Stanford University, 1961;
Ph.D., Stanford University, 1963
- F. SHELDON WETTACK — *Dean for the Natural and Social Sciences
and Professor of Chemistry* (1967)
B.A., San Jose State College, 1960; M.A., San Jose State
College, 1962; Ph.D., University of Texas, 1968

President Emeritus

- IRWIN J. LUBBERS — *President Emeritus* (1923-1963)
A.B., Hope College; M.A., Columbia University; Ph.D., Northwestern
University; LL.D., Central College; Litt.D., Rutgers University;
Litt.D., Hope College

Chancellor Emeritus

- WILLIAM VANDER LUGT — *Chancellor and Distinguished Professor-At-
Large Emeritus* (1954-1972) 28
B.A., Calvin College; M.A., University of Michigan;
Ph.D., University of Michigan; Litt.D., Central College;
L.H.D., Hope College

Faculty/Administrative Staff Emeriti

- LOIS BAILEY — *Associate Professor-Emeritus of Library
Science* (1954-1968)
B.A. Monmouth College; M.A. University of Wisconsin;
B.S. in L.S., Western Reserve University
- TUNIS BAKER — *Professor-Emeritus of Science Education* (1957-1966)
A.B., Hope College; A.M., Columbia University;
Ph.D., New York University
- EDWARD BRAND — *Professor-Emeritus of English* (1946-1972)
B.A., Central College; M.A., University of Iowa;
Ed.D., University of Denver

*The figures in parentheses indicate the year in which the person began service at Hope College. A second figure in parentheses indicates the year of beginning the present appointment after interruption in the period of service. In the Emeriti section, the year of retirement is also given.

The Faculty

- CLARENCE DE GRAAF — *Professor-Emeritus of English* (1928-1972)
B.A., Calvin College; M.A., University of Michigan;
Ed.D. in English, University of Michigan
- D. IVAN DYKSTRA — *Professor-Emeritus of Philosophy* (1947-1980)
A.B., Hope College;
Th.B., Western Theological Seminary;
Ph.D., Yale University
- JAY E. FOLKERT — *Professor-Emeritus of Mathematics* (1946-1982)
A.B., Hope College;
M.A., Ph.D., University of Michigan
- WERNER W. HEINE — *Associate Professor-Emeritus of German*
(1960-1973)
B.A., Michigan State University;
M.A., Michigan State University
- WILLIAM J. HILMERT — *Professor-Emeritus of Religious
Education* (1952-1969)
A.B., Hope College;
B.D., Western Theological Seminary
- JOHN W. HOLLENBACH — *Professor-Emeritus of English* (1945-1978)
B.A., Muhlenberg College; M.A., Columbia University;
Ph.D., University of Wisconsin
- BASTIAN KRUIHOF — *Professor-Emeritus of
Religion* (1944-1947) (1957-1972)
B.A., Calvin College; M.A., University of Michigan;
D.D., Hope College; Ph.D., University of Edinburgh
- 282 WILLIAM RUSSELL MC INTYRE — *Professor-Emeritus of
Sociology* (1971-1977)
B.A., M.A., Ph.D., Northwestern University
- GERHARD F. MEGOW — *Professor-Emeritus of German* (1959-1977)
B.A., M.A., Ph.D., Indiana University
- M. HAROLD MIKLE — *Associate Professor-Emeritus of Communication
and Director of Forensics* (1962-1973)
B.A., Western Michigan University;
M.A., University of Michigan
- JANET MULDER — *Archivist-Emeritus* (1952-1968)
A.B., Hope College
- ZOE MURRAY — *Associate Professor-Emeritus of English* (1960-1970)
B.A., Sul Ross State College;
M.A. Baylor University
- LAMBERT PONSTEIN — *Professor-Emeritus of Religion* (1952-1977)
A.B., Hope College; B.D., Western Theological Seminary;
S.T.M., Oberlin College; D.Min., Vanderbilt University

The Faculty

ALBERT JAMES PRINS — *Professor-Emeritus of English* (1946-1981)
A.B., Hope College;
M.A., University of Michigan;
Ed.D. in English, University of Michigan

MARGUERITE MEYER PRINS — *Professor-Emeritus of French* (1919-1962)
A.B., Hope College;
A.M., University of Wisconsin

METTA ROSS — *Professor-Emeritus of History* (1926-1960)
A.B., Hope College;
A.M., University of Michigan

HELEN SCHOON — *Associate Professor-Emeritus of Education* (1946-1967)
A.B., Northwestern University;
A.M., University of Michigan

HENRY STEFFENS — *Treasurer and Vice President for Finance-Emeritus* (1946-1968)
A.B., Hope College;
A.M., Northwestern University

CHARLES A. STEKETEE — *Professor Emeritus of Mathematics* (1946-1981)
A.B., Hope College;
M.A., University of Michigan

MARIAN ANDERSON STRYKER — *Alumni Executive Secretary-Emeritus* (1957-1974)
A.B., Hope College

HENRY ten HOOR — *Professor-Emeritus of English* (1946-1979)
B.A., Calvin College;
M.A., University of Michigan;
Ed.D. in English, University of Michigan

ALVIN W. VANDERBUSH — *Professor-Emeritus of Political Science* (1945-1972)
A.B., Hope College;
M.A., University of Michigan

JOHN J. VER BEEK — *Professor-Emeritus of Education and Director of Student Teaching and Certification* (1950-1971)
A.B., Hope College;
M.A., University of Michigan

REIN VISSCHER — *Business Manager-Emeritus* (1946-1965)

EDWARD J. WOLTERS — *Professor-Emeritus of Latin and Chairman of Classical Languages* (1926-1966)
A.B., Hope College;
A.M., University of Michigan

The Faculty

DWIGHT B. YNTEMA — *Professor-Emeritus of Economics and Business Administration* (1931-1932) (1946-1967)
A.B., Hope College;
A.M., Ph.D., University of Michigan

The Teaching Faculty

GREGG AFMAN — *Assistant Professor of Physical Education, Recreation, and Athletics and Coordinator of the Health Dynamics Program* (1978)
B.A., Calvin College

ION T. AGHEANA — *Associate Professor of Romance Languages* (1979)
Licence es Lettres, University of Bucharest, 1961;
M.A., Harvard University, 1967;
Ph.D., Harvard University, 1970

CHARLES C. ASCHBRENNER — *Associate Professor of Music* (1963)
B.Mus., University of Illinois, 1959;
M.Mus., Yale University, 1963

KODJOPA ATTOH — *Assistant Professor of Geology* (1981)
B.Sc., University of Ghana, 1968;
M.S., University of Cincinnati, 1970;
Ph.D., Northwestern University, 1973

W. HAROLD BAKKER — *Assistant Professor of Education* (1969)
A.B., Salem College, 1947; M.A., Syracuse University, 1955;
Ph.D., Michigan State University, 1977

CHRISTOPHER C. BARNEY — *Assistant Professor of Biology* (1980)
B.S., Wright State University, 1973;
Ph.D., Indiana University, 1977

284 JOHN W. BARTLEY — *Assistant Professor of Geology* (1982)
B.S., Clarion State College, 1973;
M.S., University of Oklahoma, 1979

LESLIE R. BEACH — *Professor of Psychology* (1964)
B.A., Houghton College, 1949; M.Ed., Wayne State University, 1954;
Ph.D., University of Michigan, 1957

ALBERT A. BELL, JR. — *Assistant Professor of Classics and History* (1978)
B.A., Carson-Newman College, 1966; M.A., Duke University, 1968;
M. Div., Southeastern Seminary, 1973;
Ph.D., University of North Carolina, 1977

HARVEY D. BLANKESPOOR — *Associate Professor of Biology* (1976)
B.A., Westmar College, 1963; M.S., Iowa State University, 1967;
Ph.D., Iowa State University, 1970
(Sabbatical Leave 1982-1983 Academic Year)

HARRY BOONSTRA — *Director of Libraries and Associate Professor of Library Science* (1977)
B.A., Calvin College, 1960; M.A., Northwestern University, 1963;
M.A., University of Chicago, 1967; Ph.D., Loyola University, 1973

The Faculty

- WAYNE G. BOULTON** — *Associate Professor of Religion* (1972)
A.B., Lafayette College, 1963;
B.D., McCormick Theological Seminary, 1967;
M.A., Duke University Graduate School, 1970;
Ph.D., Duke University Graduate School, 1972
- RODNEY F. BOYER** — *Associate Professor of Chemistry* (1974)
B.A., Westmar College, 1964; M.S., Colorado State University, 1967;
Ph.D., Colorado State University, 1969
(Sabbatical Leave Fall Semester, 1982-1983)
- ALLEN BRADY** — *Professor of Biology and Chairperson of the Department* (1964) (1966)
B.A., University of Houston, 1955; M.S., University of Houston, 1959;
Ph.D., Harvard University, 1964
- GORDON M. BREWER** — *Associate Professor of Physical Education and Chairperson of the Department* (1956)
A.B., Hope College, 1948;
M.A., University of Michigan, 1952
- IRWIN J. BRINK** — *Professor of Chemistry* (1957)
A.B., Hope College, 1952;
Ph.D., University of Illinois, 1957
- RICHARD T. BROCKMEIER** — *Professor of Physics and Computer Science* (1966)
A.B., Hope College, 1959; M.S., California Institute of Technology, 1961; Ph.D., California Institute of Technology, 1965
- ROBERT S. BROWN** — *Associate Professor of Psychology* (1960)
B.A., Western Michigan University, 1950; M.A., University of Michigan, 1952; Ed.D., Michigan State University, 1963
- ELTON J. BRUINS** — *Evert J. and Hattie E. Blekkink Professor of Religion and Chairperson of the Department* (1966)
A.B., Hope College, 1950; B.D., Western Theological Seminary, 1953;
S.T.M., Union Theological Seminary, 1957;
Ph.D., New York University, 1962
- JAMES E. BULTMAN** — *Professor of Education and Chairperson of the Department* (1968)
A.B., Hope College, 1963; M.A., Western Michigan University, 1966;
Ed.D., Western Michigan University, 1971
- RICHARD J. BURTT** — *Librarian and Lecturer in Library Science* (1978)
A.B., Gordon College, 1975;
M.L.S., University of Rhode Island, 1977
- LOIS K. CARDER** — *Instructor in Theatre* (1981)
B.S., Mankato State University, 1978;
M.F.A., Mankato State University, 1981
- DAVID C. CAROTHERS** — *Assistant Professor of Mathematics* (1981)
B.S., Westminster College, 1975;
M.S., Purdue University, 1977;
Ph.D., Purdue University, 1981

The Faculty

- ROBERT M. CECIL — *Professor of Music* (1962)
B.S., Juilliard School of Music, 1949; B.Mus., Yale University School of Music, 1951; M.Mus., Yale University School of Music, 1952
- ROBERT CLINE — *Associate Professor of Economics* (1975)
B.A., College of William & Mary, 1968;
M.A., University of Michigan, 1971;
Ph.D., University of Michigan, 1977
(Sabbatical Leave 1982-1983 Academic Year)
- WILLIAM COHEN — *Associate Professor of History* (1971)
B.A., Brooklyn College, 1957; M.A. Columbia University, 1960;
Ph.D., New York University, 1968
- JOAN CONWAY — *Associate Professor of Music* (1969)
B.S.M.E., Lebanon Valley College, 1957;
M.Mus., Manhattan School of Music, 1959
- JOHN D. COX — *Associate Professor of English* (1979)
B.A., Hope College, 1967;
M.A., University of Chicago, 1968;
Ph.D., University of Chicago, 1975
- JOHN A. CREVIERE — *Associate Professor of French* (1969)
B.A., College of St. Thomas, 1962; M.A., Université Laval, Quebec, 1963; Ph.D., Université Laval, Quebec, 1967
- DONALD L. CRONKITE — *Associate Professor of Biology* (1978)
B.A., Indiana University, 1966;
Ph.D., Indiana University, 1972
- EARL CURRY — *Associate Professor of History* (1968)
B.S., Iowa State University, 1960; M.A., University of Minnesota, 1962;
Ph.D., University of Minnesota, 1966
- 286 BRUCE DANGREMOND — *Instructor of Computer Science* (1981)
B.S., Michigan State University, 1966;
M.B.A., University of Wisconsin, 1973
- ROGER E. DAVIS — *Associate Professor of Music* (1963)
B.S. in Music Education, University of Akron, 1957;
B.Mus., Oberlin College, 1962;
M.Mus., Northwestern University, 1963
(Leave of Absence Fall Semester, 1982-1983)
- MAXINE DE BRUYN — *Lecturer in Dance* (1965)
B.S., Michigan State University, 1959
- SANDER DE HAAN — *Assistant Professor of German* (1979)
A.B., Calvin College, 1967;
M.A., Northwestern University, 1970
Ph.D., Northwestern University, 1980
- HERBERT L. DERSHEM — *Professor of Computer Science and Chairperson of the Department* (1969)
B.A., University of Dayton, 1965; M.S., Purdue University, 1967;
Ph.D., Purdue University, 1969
(Leave of Absence 1982-1983 Academic Year)

The Faculty

- RUSSELL B. DE VETTE — *Professor of Physical Education* (1948) (1953) (1955)
A.B., Hope College, 1947;
M.A., University of Michigan, 1948
- JANE R. DICKIE — *Associate Professor of Psychology* (1972)
B.A., Alma College, 1968; M.A., Michigan State University, 1970;
Ph.D., Michigan State University, 1973
- LAMONT DIRKSE — *Professor of Education* (1964)
A.B., Hope College, 1950; M.A., Northwestern University, 1951;
Ed.D., Michigan State University, 1972
- MICHAEL P. DOYLE — *Kenneth G. Herrick Professor of Chemistry* (1968)
B.S., College of St. Thomas, 1964;
Ph.D., Iowa State University, 1967
- ROBERT ELLSWORTH ELDER, JR. — *Associate Professor of Political Science* (1969)
B.A., Colgate University, 1964; M.A., Duke University, 1969;
Ph.D., Duke University, 1971
- FRANCIS G. FIKE — *Associate Professor of English* (1968)
A.B., Duke University, 1954; M.Div., Union Theological Seminary, 1957;
M.A. Stanford University, 1958; Ph.D., Stanford University, 1964
- PAUL G. FRIED — *Professor of History* (1953)
A.B., Hope College, 1946; M.A., Harvard University, 1947;
Ph.D., Erlangen, Germany, 1949
- DONALD M. FRIEDRICH — *Associate Professor of Chemistry* (1975)
B.S., University of Michigan, 1966;
Ph.D., Cornell University, 1973
(Sabbatical Leave 1982-1983 Academic Year)
- HARRY F. FRISSEL — *Professor of Physics* (1948)
A.B., Hope College, 1942; M.S., Iowa State University, 1943;
Ph.D., Iowa State University, 1954
- ROBERT GENTENAAR — *Assistant Professor of Economics* (1977)
B.A., Western Michigan University, 1961;
M.B.A., Michigan State University, 1970;
M.A., Michigan State University, 1974;
Ph.D., Michigan State University, 1977
- JAMES M. GENTILE — *Associate Professor of Biology* (1976)
B.A., St. Mary's College, 1968; M.S., Illinois State University, 1970;
Ph.D., Illinois State University, 1974
- LARS I. GRANBERG — *Peter C. and Emajean Cook Professor of Psychology* (1947) (1960) (1975)
A.B., Wheaton College, 1941; A.M., University of Chicago, 1946;
Ph.D., University of Chicago, 1954; L.H.D., Northwestern College, 1975
- ELDON D. GREIJ — *Professor of Biology* (1962) (1969)
B.S., State Teachers College at Valley City, North Dakota, 1959;
M.S., North Dakota State University, 1962;
Ph.D., Iowa State University, 1969

The Faculty

- MICHAEL GRINDSTAFF** — *Manager of Theatre Facilities and Lecturer in Theatre* (1970)
B.A., Lycoming College, 1965;
M.F.A., Pennsylvania State University, 1971
- JANE HARRINGTON** — *Associate Professor of English* (1975)
A.B., Hope College, 1958; M.A., University of Wisconsin, 1959;
Ph.D., University of Notre Dame, 1978
- JAMES B. HEISLER** — *Visiting Associate Professor of Economics and Business Administration* (1981)
B.A., Drew University, 1965;
M.A., State University of New York at Albany, 1966;
Ph.D., University of Nebraska, 1975
- STEPHEN I. HEMENWAY** — *Associate Professor of English* (1972)
A.B., College of the Holy Cross, 1964; M.A., Boston College, 1967;
Ph.D., University of Illinois, 1972
- BRYANT P. HICHTWA** — *Associate Professor of Physics* (1975)
B.S., Georgetown University, 1968;
Ph.D., University of Notre Dame, 1973
(Sabbatical Leave 1982-1983 Academic Year)
- RENZE L. HOEKSEMA** — *Professor of Political Science* (1971)
A.B., Hope College, 1948;
M.A., Ph.D., Harvard University, 1956
- JANTINA W. HOLLEMAN** — *Associate Professor of Music* (1946)
B.A., Central College, 1943;
M.A., Columbia University, 1946
- JACK E. HOLMES** — *Associate Professor of Political Science* (1969)
B.A., Knox College, 1963; M.A., University of Denver, 1967;
Ph.D., University of Denver, 1972
- CHARLES A. HUTTAR** — *Professor of English* (1966)
B.A., Wheaton College, 1952; M.A., Northwestern University, 1953;
Ph.D., Northwestern University, 1956
- ANNE E. IRWIN** — *Assistant Professor of Physical Education and Athletic Director for Women* (1976)
B.S., University of Michigan, 1960;
M.A., Michigan State University, 1970;
Ph.D., Michigan State University, 1975
- DAVID R. JAMES** — *Intern in English* (1982)
B.A., Hope College, 1976;
M.A., University of Iowa, 1980
- WILLIAM H. JAPINGA** — *Assistant Professor of Business Administration* (1981)
B.A., Kalamazoo College, 1960;
M.B.A., Northwestern University, 1962

The Faculty

- EUGENE C. JEKEL — *Professor of Chemistry* (1955)
A.B., Hope College, 1952; M.S., Purdue University, 1955;
Ph.D., Purdue University, 1964
- R. DIRK JELLEMA — *Professor of English* (1964)
B.A., Calvin College, 1960;
M.F.A., University of Oregon, 1964
(Sabbatical Leave Fall Semester, 1982-1983)
- ARTHUR H. JENTZ, JR. — *Professor of Philosophy* (1962)
A.B., Hope College, 1956; B.D., New Brunswick Seminary, 1959;
Ph.D., Columbia University, 1965
- PETER L. JOLIVETTE — *Assistant Professor of Physics* (1976)
B.S., University of Wisconsin, 1963; M.S., Purdue University, 1965;
Ph.D., University of Wisconsin, 1971
- CAROL LYNN JUTH-GAVASSO — *Assistant Professor of Library Science* (1970)
B.A., Oakland University, 1968;
M.S.L., Western Michigan University, 1969;
M.A., Western Michigan University, 1972
- ROBIN KLAY — *Assistant Professor of Economics and Business Administration* (1979)
B.A., Whitman College, 1968;
Ph.D., Princeton University, 1973
- CYNTHIA E. KIELINEN — *Associate Professor of Nursing and Chairperson of the Hope-Calvin Department of Nursing* (1981)
B.S., Boston University School of Nursing, 1967;
M.S., Boston University School of Nursing, 1972;
Ed.D., Teachers College, Columbia University, 1979
- ANTHONY KOOIKER — *Professor of Music* (1950)
B.Mus., Northwestern University, 1942;
M.Mus., University of Rochester, 1944;
Ph.D., University of Rochester, 1962
- GEORGE KRAFT — *Associate Professor of Physical Education* (1967)
B.A., Wheaton College, 1962; M.S., Indiana University, 1965;
P.E.D., Indiana University, 1971
- THOMAS E. LUDWIG — *Assistant Professor of Psychology* (1977)
B.A., Concordia College, 1972;
M.A., Concordia Seminary-in-Exile, 1975
Ph.D., Washington University, 1977
- DONALD LUIDENS — *Assistant Professor of Sociology* (1977)
B.A., Hope College, 1969;
M.Div., Princeton Theological Seminary, 1972;
M.A., Rutgers University, 1974; Ph.D., Rutgers University, 1978

The Faculty

- JOSEPH W. MAC DONIELS — *Associate Professor of Communication* (1972)
B.A., Culver-Stockton College, 1963;
M.S., George Williams College, 1965;
Ph.D., University of Kansas, 1972
- SHARON M. MAHOOD — *Assistant Professor of Communication and Chairperson of the Department* (1975) (1981)
B.A., University of Kansas, 1967;
M.A., University of Minnesota, 1969;
Ph.D., University of Kansas, 1971
- THOMAS J. MANSEN — *Assistant Professor of Nursing* (1982)
B.S.N., University of Michigan, 1973;
M.S., University of Utah, 1977
- DAVID G. MARKER — *Provost and Professor of Physics* (1965)
B.A., Grinnell College, 1959; M.S., Pennsylvania State University, 1962;
Ph.D., Pennsylvania State University, 1966
- JEAN ELIZABETH MARTIN — *Assistant Professor of Nursing* (1982)
B.S.N., University of Michigan, 1968;
M.S., Boston University School of Nursing, 1969
- WILLIAM R. MAYER — *Assistant Professor of Art* (1978)
B.F.A., University of Minnesota, 1976;
M.F.A., Pennsylvania State University, 1978
- MARY SUSAN MC CARTHY — *Assistant Professor of French* (1977)
B.A., Marygrove College, 1971; M.A., University of Wisconsin, 1972;
Ph.D., University of Wisconsin, 1977
(Leave of Absence 1982-1983 Academic Year)
- 290 BRUCE McCOMBS — *Associate Professor of Art* (1969)
B.F.A., Printmaking, Cleveland Institute of Art, 1966;
M.F.A., Printmaking, Tulane University, 1968
(Sabbatical Leave Fall Semester, 1982-1983)
- DELBERT L. MICHEL — *Professor of Art and Chairperson of the Department* (1964)
B.A., De Pauw University, 1961;
M.F.A., State University of Iowa, 1964
- NANCY SONNEVELDT MILLER — *Associate Professor of Education* (1968)
A.B., Hope College, 1962; M.A., University of Michigan, 1965;
Ph.D., Michigan State University, 1968
- SUSAN MOOY — *Associate Professor of Education* (1976)
A.B., Hope College, 1964;
M.A., Western Michigan University, 1967
- JOYCE M. MORRISON — *Associate Professor of Music* (1962)
B.A., Augustana College, 1953; M.Mus., American Conservatory of Music, 1959; M.Mus., American Conservatory of Music, 1961
(Sabbatical Leave Spring Semester, 1982-1983)

The Faculty

- JAMES P. MOTIFF** — *Associate Professor of Psychology* (1969)
B.S., St. Norbert College, 1965; M.S., University of South Dakota, 1967; Ph.D., University of South Dakota, 1969
- JUDITH A. MOTIFF** — *Assistant Professor of French* (1969)
B.A., Purdue University, 1962;
M.A., University of Illinois, 1964;
Diplome de Letterature Francaise Conterporaine, Universite de Paris, 1967
- ANTHONY B. MUIDERMAN** — *Assistant Professor of Business Administration* (1977)
B.S., Calvin College, 1950; B.S.E., University of Michigan, 1960;
M.B.A., Grand Valley State Colleges, 1977
- RONALD D. MULDER** — *Associate Professor of Sociology and Chairperson of the Department* (1975)
B.A., Northwestern College, 1971; M.A., University of Chicago, 1973;
Ph.D., University of Chicago, 1975
(Leave of Absence Fall Semester, 1982-1983)
- WILLIAM S. MUNGALL** — *Associate Professor of Chemistry and Chairperson of the Department* (1971)
B.A., State University of New York at Buffalo, 1967;
Ph.D., Northwestern University, 1970
- DIANE E. MURRAY** — *Librarian and Lecturer in Library Science* (1977)
B.A., Hope College, 1964; M.A., Michigan State University, 1966;
M.S.L.S., Western Michigan University, 1968
- DAVID G. MYERS** — *Professor of Psychology* (1967)
B.A., Whitworth College, 1964; M.A., University of Iowa, 1966;
Ph.D., University of Iowa, 1967
- MARY NATVIG** — *Visiting Assistant Professor of Music* (1982)
B.Mus., Eastman School of Music, 1981;
M.A., Eastman School of Music, 1982
- THEODORE L. NIELSEN** — *Professor of Communication* (1975)
B.A., University of Iowa, 1955; M.A., University of Michigan, 1958;
Ph.D., University of Wisconsin, 1971
- ROBERT L. NORTON** — *Assistant Professor of Engineering Science* (1978)
B.S., California Institute of Technology, 1960;
Ph.D., University of Southern California, 1975
- JACOB E. NYENHUIS** — *Dean for the Arts and Humanities and Professor of Classics* (1975)

B.A., Stanford University, 1957;
M.Div., Union Theological Seminary, 1960;
M.A., Northwestern University, 1966;
Ph.D., Michigan State University, 1981
- ROBERT REINKING — *Professor of Geology and Chairperson of the Department* (1970)
B.S., Colorado College, 1963; M.S., University of Illinois, 1965;
Ph.D., University of Illinois, 1967
- WILLIAM REYNOLDS — *Associate Professor of English* (1971)
A.B., Xavier University, 1966; M.A., Columbia University, 1967;
Ph.D., University of Illinois in Urbana, 1971
- BARRIE RICHARDSON — *Professor of Economics and Business Administration and Chairperson of the Department* (1973)
B.A., Carleton College, 1955; M.B.A., Indiana University, 1956;
D.B.A., Indiana University, 1961

The Faculty

- JACK R. RIDL — *Associate Professor of English* (1971)
B.A., Westminster College, 1967;
M.Ed., Westminster College, 1970
- NORMAN W. RIECK — *Associate Professor of Biology* (1962)
A.B., Hope College, 1953; M.S., University of Michigan, 1956;
Ph.D., University of Michigan, 1957
- ROGER J. RIETBERG — *Professor of Music* (1954)
A.B., Hope College, 1947;
S.M.M., Union Theological Seminary, N.Y., 1949
- ROBERT RITSEMA — *Professor of Music* (1967)
A.B., Hope College, 1957; M.M., University of Michigan, 1959;
Ed.D. in Mus., University of Michigan, 1971
- CARL F. SCHACKOW — *Professor of Education* (1970)
B.S., Wittenberg University, 1959;
M.S., Northern Illinois University, 1963; Ph.D., Miami University, 1971
(Sabbatical Leave Fall Semester, 1982-1983)
- PETER J. SCHAKEL — *Professor of English and Chairperson of the Department* (1969)
B.A., Central College, Iowa, 1963;
M.A., Southern Illinois University, 1964;
Ph.D., University of Wisconsin, 1969
(Sabbatical Leave Spring Semester, 1982-1983)
- ANTONIA G. IGLESIAS SEARLES — *Assistant Professor of Spanish* (1970)
B.A., University of Salamanca, Spain; M.A., Escuela Normal Superior, Salamanca, Spain; Licenciada en Filosofía y Letras, Universidad de Salamanca, Spain; Diploma Lingua e Literatura Portuguesa, Universidade de Coimbra, Portugal; Certificate in English, University of Cambridge, Cambridge, England
- MICHAEL D. SEYMOUR — *Assistant Professor of Chemistry* (1978)
B.A., Saint Johns University, 1972;
Ph.D., The University of Arizona, 1977
- STUART W. SHARP — *Associate Professor of Music and Chairperson of the Department* (1975)
B.Mus., Bucknell University, 1962; M.M., University of Michigan, 1963;
D.M.A., University of Kentucky, 1975
(Sabbatical Leave Fall Semester, 1982-1983)
- JOHN J. SHAUGHNESSY — *Associate Professor of Psychology* (1975)
B.S., Loyola University, 1969; M.S., Northwestern University, 1971;
Ph.D., Northwestern University, 1972
- FRANK C. SHERBURNE, JR. — *Associate Professor of Mathematics* (1959)
B.S., University of Toledo, 1952;
M.S., Michigan State University, 1956
- TANYA SHIRE — *Assistant Professor Physical Education* (1981)
B.S., Houghton College, 1973;
M.S., University of Illinois, 1975

The Faculty

- RAYMOND E. SMITH — *Associate Professor of Physical Education and Director of Athletics for Men* (1970)
B.S., University of California, Los Angeles, 1961;
M.A., Pasadena College, 1963
- RICHARD L. SMITH — *Associate Professor of Theatre* (1972)
B.F.A., University of Minnesota, 1969;
M.F.A., University of Minnesota, 1972
- MARJORIE SNYDER — *Assistant Professor of Physical Education* (1980)
B.A., Kalamazoo College, 1975;
M.S., University of California, Los Angeles, 1980

M.S., University of Pennsylvania

ANNA SPITZMULLER — Art History (1970)
Ph.D., University of Vienna

WOMEN'S LEAGUE FOR HOPE COLLEGE (1982-83)

Founded in 1925, the Women's League for Hope College, composed of representatives from Reformed Churches, has raised over \$500,000 for the furnishing of residence halls and dining rooms. The League is presently committed to assisting with the refurbishing of Durfee Hall. The League members have carried out the various projects with enthusiasm and the appreciation of the college. The renowned "Village Square," held each summer on the campus, is the major focal point of the League's fund-raising activities. Each year, it provides the opportunity for League members to meet each other as they assemble from the various churches on the first Friday in August.

President	Mrs. John Smallegañ Route #1, 9875 Barry Street, Zeeland, Mich. 49464
1st Vice President	Mrs. Gene Campbell 3131 N. Lakeshore Drive, Holland, Mich. 49423

Past President	Mrs. Ted Boeve 629 Washington Avenue, Holland, Mich. 49423
1982 Village Square Chairman	Mrs. Norman Hahn 3717 Lovers Lane, Kalamazoo, Mich. 49001

ALUMNI ASSOCIATION

Hope Alumni are represented in all fifty states and in more than fifty foreign countries. Organized in 1867, the Alumni Association numbers more than 14,000 members. The Association has several regional clubs and a club for athletic letter winners. Edward Damson of Holland, Michigan heads the Alumni Varsity H Club. Regional groups are organized in Albany-Schenectady, Southern California, Cleveland, Detroit, Kalamazoo, Muskegon, Washington, D.C. Women graduates of Hope are eligible for membership in the American Association of University Women.

News From Hope College, a bimonthly tabloid, informs alumni and friends of the activities and achievements of Hope men and women. It also reflects and interprets the role of the College today. An Alumni Directory is published every five years.

The office staff keeps up-to-date alumni records. The staff welcomes visits, correspondence, changes of address, and news of promotions, new positions, and of work being done in postgraduate schools. The goal of the alumni office is to promote communication and good relations between the alumni and their Alma Mater. Three special days programmed for the return of alumni to the campus are Homecoming in October, Winter Homecoming in February, and Alumni Day, the Saturday before Commencement in May. The latter features class reunions and an annual alumni dinner. Alumni who have been selected for Distinguished Alumni Awards are announced at the annual dinner. Selections are made on the basis of contributions to society, interest in the College, and financial assistance to the College.

BOARD OF DIRECTORS, 1982-83

President	Marjorie Lucking French

SCHOLARSHIPS AT HOPE

Endowed Scholarships

Over the years a number of Endowed Scholarship Funds, which bear the name of the donor or persons designated by the donor, have been established. Such funds provide unique opportunities for donors to be directly involved in assisting and coming to know Hope students. The donor is free to designate a preference for the major field or vocational goal for the scholarship recipient. These Endowed Scholarship funds are listed on the following pages.

Further information on endowing scholarships is available from the College Development Office.

E. SAMUEL AND GRACE ENGLE AEILTS SCIENCE SCHOLARSHIP — A fund to provide aid to worthy science students. Established in memory of E. Samuel Aeilts and Grace Engle Aeilts.

MR. AND MRS. JOHN AGGEN SCHOLARSHIP — A fund to provide financial assistance for worthy students, with preference given to those pursuing careers in music or the ministry. Established through the estates of Mr. and Mrs. John Aggen, Reformed Church members supporting the work of the College.

GEORGE R. AND EDITH WEAVER ANDERSON FUND — Established in memory of Edith Weaver Anderson, Hope 1926, and her husband, this fund provides financial assistance to worthy students.

APIANUS SCHOLARSHIP — A fund to provide a scholarship to a deserving senior student who has achieved academic excellence. The scholarship is named after a great German Scientist in the 15th Century. Given by Dr. and Mrs. Martin Sommer.

WALTER F. BANK SCHOLARSHIP FUND — A fund to provide scholarship aid for deserving students. 309

BERTELLE ARKELL BARBOUR SCHOLARSHIP FUND — Aid to worthy students provided by the Arkell Hall Foundation, Canajoharie, New York.

PAUL GERDING BAST MEMORIAL SCHOLARSHIP — A fund to provide scholarship aid to students whose talents and character mark them for leadership of significance in their chosen field, as well as in the development of the highest human and Christian values in our society. Preference given to English or Music majors. A 2.5 minimum grade point average is required.

CHRIS BECKER MEMORIAL SCHOLARSHIP — An award to a graduating senior from Zeeland High School who demonstrates financial need.

RAYMOND VAN RENSSELAER BEGG MEMORIAL SCHOLARSHIP — A fund to provide aid to worthy students. Established by Mrs. Geneva Begg in memory of her husband, Mr. Raymond Van Rensselaer Begg.

THE PAUL L. AND LEONORE V. BETHKA SCHOLARSHIP — A fund to provide financial assistance to worthy students, with preference given to those from the New York State area encompassing Schenectady, Saratoga and Albany counties.

THE RUTH BLEKKINK FUND — A fund to provide financial aid to notable students, with preference given those pursuing a career in education. Given by Victor J. Blekkink.

Scholarships

THE VICTOR J. BLEKKINK FUND — This fund provides financial aid to students whose lives evidence the Hope spirit. Given by friends of Victor J. Blekkink, '09 graduate, Reformed church pastor and close friend of the College.

PHILLIPS BROOKS SCHOLARSHIP FUND — A fund established by Squirt Pak, Inc. in memory of its founder, Mr. Phillips Brooks, to provide annual scholarship assistance to deserving students, with preference given to students majoring in Business Administration.

JOHN H. AND CORNELIA W. BRUGGERS SCHOLARSHIP FUND — A fund to provide scholarship aid to students pursuing a career in Christian ministry.

MARY BUSSING SCHOLARSHIPS — A fund from the estate of Miss Mary Bussing to provide scholarship aid for students of ability, leadership, and educational purpose.

HENRY A., CAROLINE, AND ETHEL CHRISTIAN SCHOLARSHIP FUND — A fund to provide scholarship aid to a worthy student who desires higher education leading to a profession in medicine, nursing, biology or teaching. Given by Dr. Henry A. Christian.

GEORGE B. AND ANNA B. DALMAN SCHOLARSHIP — A fund, established by Mr. and Mrs. Andrew Dalman in memory of George B. and Anna B. Dalman, for the purpose of providing financial assistance to deserving and properly motivated students attending Hope College.

CLARENCE P. DAME SCHOLARSHIP FUND — A fund to provide aid to students who are preparing for full-time Christian service in the Reformed Church in America and who are in financial need. Priority is given to students from the Second Reformed Church of Kalamazoo and the Classis of Kalamazoo. Given by Clarence P. Dame, leader in the R.C.A. denomination and Hope '13 graduate.

ADRIAN AND MYRTLE E. deBOOM SCHOLARSHIP FUND — A fund established in memory of Hope College President Edward D. Dimnent 1918-1931.

JOHN AND SUSAN DYKEMA SCHOLARSHIP FUND — A fund established by Charles and Frank Dykema in memory of their parents, John and Susan Dykema. A scholarship is awarded each year to an outstanding graduate from the Holland, the Holland Christian, and the West Ottawa High Schools.

DR. HAROLD DYKHUIZEN MEMORIAL SCHOLARSHIP — A fund to provide an annual scholarship to a top science student at Mona Shores High School interested in majoring in science at Hope. To be awarded at graduation.

HAROLD AND LUCILLE DYKHUIZEN SCHOLARSHIP FUND — A fund established by Mrs. Lucille Walvoord Dykhuizen Busker in memory of her husband, Dr. Harold Dykhuizen, to provide scholarships for worthy students.

ADELAIDE AND GERALDINE DYKHUIZEN SCHOLARSHIP — A fund established by Adelaide and Geraldine Dykhuizen, in memory of their brother, Dr. Harold Dykhuizen, to provide annual scholarship aid to needy students with preference given to students interested in pursuing a pre-medical program.

MAXINE AND VICTOR W. EIMICKE SCHOLARSHIP FUND — A fund established by Dr. and Mrs. Victor W. Eimicke to provide scholarship assistance to deserving students.

AMOS AND RUTH FOY SCHOLARSHIP FUND — A fund to provide scholarship aid for students from a Latino background. Given by Mrs. Amos Foy.

Scholarships

THE GENEVA FUND — A fund established to promote international understanding and world peace. Part of the Hope-Geneva Book Store income is used to provide scholarships to college students from countries outside the U.S.A. who show promise of becoming leaders in the application of the principles of the Christian religion in this area of human relations.

GENEVA SCHOLARSHIP FUND FOR CHRISTIAN SERVICE — Awarded to students who, upon completion of two years of college, have demonstrated high scholastic ability, a clear sense of Christian purpose through choice of vocation, and evidence of a mature Christian faith.

ALMON T. AND HARRIET M. GODFREY SCHOLARSHIP FUND — A fund established by Dr. and Mrs. Almon T. Godfrey's estate to provide scholarships for outstanding chemistry students.

MARY JAYNE GOLD FUND — A fund to provide financial aid to deserving students, with preference given to those studying theatre or French.

MR. AND MRS. JOE GREVENGOED SCHOLARSHIP FUND — A fund to provide aid to worthy students. Preference is given to pre-medical students.

PAUL E. AND MARTHA HINKAMP MEMORIAL SCHOLARSHIP FUND — A fund given by members of the Hinkamp Family in memory of Paul E. Hinkamp, distinguished professor at Hope College and his wife Martha, to provide Presidential Scholarships for academically gifted students with leadership potential.

JACOB O. HINKEN SCHOLARSHIP FUND — A fund to provide financial assistance to worthy students. Established in memory of Jacob O. Hinken, Class of 1925, by his wife.

HISPANIC SCHOLARSHIP FUND — A common fund established by friends of the College to provide scholarship assistance for deserving students from an Hispanic background.

THE HELEN AND ALBERT HOEKENGA SCHOLARSHIP FUND — A scholarship to provide aid to worthy students, with preference given to students from First Reformed Church of Muskegon. Given by friends and family of Helen and Albert Hoekenga.

THE HELMUT AND ELLEN HOF SCHOLARSHIP FUND — A fund established by Mr. and Mrs. Helmut Hof to provide scholarship assistance to deserving students.

JOHN L. HOLLANDER SCHOLARSHIPS — A fund to provide scholarship aid for worthy students of good character who desire higher education leading to professions in the fields of law, economics, music or teaching. Established by Mrs. Hollander in memory of her husband, Judge John L. Hollander.

HOPE HERITAGE FUND — A common fund established by friends and alumni of the College, primarily through memorial gifts, to provide scholarship assistance to deserving students.

HAROLD AND MABEL JOHNSON FUND — A fund established by Mabel P. Johnson in memory of her husband, Mr. Harold F. Johnson.

JOHNSON-HENRICH SCHOLARSHIPS — A fund to provide scholarship aid to worthy students. Established by Mr. and Mrs. Howard Johnson in memory of Mrs. Johnson's father, Frederick Henrich.

Scholarships

THE RUSSELL AND ELIZABETH KLAASEN SCHOLARSHIP FUND — A fund to provide financial assistance to capable and needy students working toward a career as a minister or missionary. Funded by Russell Klaasen and friends.

WILLIAM M. KOLKMAN SCHOLARSHIP FUND — A fund to provide aid to worthy students, with preference given to members of the Reformed Church in America.

HERMAN A. KRUIZENGA SCHOLARSHIP FUND — A fund to provide scholarship aid for needy students that show evidence of strong Christian convictions. Preference given to minority group members and students preparing for one of the service professions.

LIVING LIFE AID FUND — A fund to provide a scholarship for a needy student who reflects a Christian attitude toward life. Preference shall be given to "attending" members of the Cloverhill Reformed Church in America, located in Flemington, New Jersey.

FRANK B. LOUNSBERRY EDUCATION FOUNDATION SCHOLARSHIP — A fund to provide financial assistance to a freshman showing high character, intelligence, scholastic record and need.

ESTELLE BROWNING McLEAN SCHOLARSHIPS — A fund to provide scholarship aid for worthy students. Established by C.M. McLean, former member of the Hope College Board of Trustees.

JOHN E. AND EDITH B. MEDENDORP SCHOLARSHIP — A fund to provide scholarships to worthy students.

NELLA MEYER SCHOLARSHIP — A fund established by Prof. Nella Meyer, with additional support from her family and friends, to provide financial assistance to students at Hope College, with preference given to students interested in Music or French.

312

WIETSCHKE AND NELLIE MIDDLEBUSH SCHOLARSHIP FUND — A fund to provide scholarship aid to a student with high character, financial need and scholarship. Given by Dr. Frederick A. Middlebush in memory of his parents.

MR. AND MRS. HOWARD MILLER SCHOLARSHIP FUND — A fund to provide scholarship aid to worthy students.

BERNARD J. AND LOUISE E. MULDER SCHOLARSHIP — A fund to provide aid to students, with preference given to those desiring to pursue a career in Christian Education.

THE FRED MULDER GRANT — A fund to provide a grant-in-aid for a worthy student demonstrating financial need. Grades and class standing are not necessarily a determining factor in naming the grant recipient.

I. MULLER SCHOLARSHIP FUND — A fund to provide scholarships for worthy students.

THE ROBERT E. MULVANEY MEMORIAL SCHOLARSHIP — An annual award to provide scholarship assistance to a junior or senior student enrolled in a pre-law or political science program. It is to be awarded on the basis of need and academic ability. Given by his family, Margaret Mulvaney Pulver, Douglas Mulvaney '80 and Marcia Mulvaney.

RUTH STAFFORD PEALE SCHOLARSHIP — A fund to provide scholarship aid for a worthy student. Given by Mr. Homer Surbeck in recognition of the distinguished service to the College by Trustee Ruth Stafford Peale.

PEOPLES BANK OF HOLLAND SCHOLARSHIP FUND — A fund to provide scholarship aid for worthy students, with first preference given to students majoring in business.

THE LOUIS M. PLANSOEN SCHOLARSHIP — A fund to provide scholarships to worthy students, with preference given to pre-ministerial students. This fund, made possible through a generous bequest from Mr. Louis M. Plansoen, has been established in his memory.

KEN QUIST MEMORIAL SCHOLARSHIP FUND — A fund to provide scholarship aid for worthy students.

MAX J. AND FLORENCE VYN REESE SCHOLARSHIP — A fund to provide scholarship aid to students with preference given to those interested in or enrolled in pre-medical programs; or, interested in or enrolled in economics and business administration programs. Students must be achieving a minimum 2.5 gradepoint average.

EMMA REEVERTS SCHOLARSHIP FUND — A fund in memory of Emma Reeverts, Hope College educator and Dean of Women, 1946-1963, to provide financial aid to a worthy student.

AGNES ROSS SCHOLARSHIPS — A fund to provide scholarship aid for worthy students.

JOHN H. RUMPH SCHOLARSHIP — A fund to provide scholarship aid for a worthy senior student who needs assistance to complete his education. Established by Mrs. Maude C. Rumph in memory of her husband.

DR. SCHOLL SCHOLARSHIP FUND — A fund established by the Dr. Scholl Foundation to provide financial aid to worthy students pursuing a career in medicine, with preference given to student from Illinois.

OSCAR O.R. SCHWIDETZKY SCHOLARSHIP FUND — A fund to provide scholarship aid on the basis of need and academic ability. Preference is given to pre-medical students. Established by Mrs. Schwidetzky in memory of her husband, Dr. Oscar O.R. Schwidetzky.

HOWARD AND MARGARET SLUYTER SCHOLARSHIP FUND — A fund established by Dr. and Mrs. Howard R. Sluyter to provide scholarships to deserving students.

THE ESTHER M. SNOW VIENNA SCHOLARSHIP FUND — Established in memory of Esther M. Snow, member of the Hope College faculty 1937-65, whose enthusiasm for music, German and Vienna, served as an inspiration for many generations of Hope students. The fund will annually provide one or more scholarships to outstanding students planning to spend a summer in Vienna studying music, German or European Culture. Recipients will be selected by a designated faculty committee representing music, German and international education.

JOHN JACOB SOETER SCHOLARSHIP FUND — A fund to provide scholarships for worthy students with preference given to those planning to serve in the ministry or in medical missions. Given by the family of Rev. John Jacob Soeter, Class of 1927.

REV. AND MRS. JAMES A. STEGEMAN SCHOLARSHIP FUND — Aid awarded to a needy student in honor of Rev. Stegeman's service to the Covenant Reformed Church of Muskegon Heights.

HAROLD A. SYKES MEMORIAL SCHOLARSHIP — A fund to provide scholarship for a deserving student. Established in memory of Elder Sykes by the Queens Reformed Church of Long Island, N.Y.

Scholarships

THE ARTHUR JOHN TER KEURST PSYCHOLOGY SCHOLARSHIP — A fund established by Ruth Laug Ter Keurst as a memorial to her husband, Professor Arthur John Ter Keurst. This scholarship is awarded at the conclusion of the Junior year to a student majoring in psychology who has a distinguished academic record and, in the opinion of the faculty in the Psychology Department, shows promise of a distinguished career in psychology.

ALBERT H. AND ESTHER D. TIMMER SCHOLARSHIP — Financial aid will be given to deserving students. This fund is made possible by the family of Albert H. Timmer, who faithfully served Hope College for over 40 years in the role of professor, administrator and coach.

JOHN W. TYSSÉ MEMORIAL FUND — Established in memory of the Rev. John W. Tysse, Hope alumnus and Reformed Church pastor, this fund recognizes the contribution of small churches and their ministers to Hope College and the denomination and provides aid to students from smaller congregations on the basis of financial need and evidence of potential.

KATHRYN VANDENBELT SCHOLARSHIP — Aid to a worthy student given in memory of Kathryn VandenBelt from the estate of her son, Donald VandenBelt.

GEORGE H. AND HELEN H. VANDERBORGH FUND — A fund to provide financial assistance to students of high respect and reputation. Established by George H. Vanderborgh, alumnus and trustee, and his wife Helen.

MATTHEW JAMES VANDERWEL MEMORIAL SCHOLARSHIP — A fund to provide aid to worthy students, with preference given to students demonstrating leadership ability and promise of service to others.

VIRGINIA VANDEWATER MEMORIAL SCHOLARSHIP — A fund established by the Randall Vandewater family in memory of Virginia Vandewater. This endowed scholarship is to be used to assist worthy female students majoring in physical education.

JAMES G. AND BERTHA VAN KEULEN SCHOLARSHIP FUND — A fund awarded each year to worthy and needy students pursuing a career in medicine, with preference given to those students desiring to enter the medical missionary field. Given by Mrs. Bertha Van Keulen, former Holland resident and friend of the College.

ELIZABETH KAY VANDER LUGT MEMORIAL FUND — A fund to provide a scholarship for a worthy student whose heritage and interest relate to our historic Reformed Church tradition. Given by Dr. and Mrs. William VanderLugt in memory of their daughter.

KATHRYN VAN GROUW SCHOLARSHIP — A fund to provide scholarship aid for a needy student who is preparing for full-time church work.

OLIN C. VAN LARE SCHOLARSHIP — A fund to provide scholarship aid for worthy students with first preference given to Holland High School graduates pursuing the study of literature. Funded through the estate of Olin C. Van Lare, a 1937 Hope graduate.

FRANCES H. VAN ZANDT SCHOLARSHIP — A fund to provide a scholarship for a worthy student preparing for the Christian ministry.

G. JOHN VAN ZOEREN SCHOLARSHIP — A fund to provide scholarship aid for worthy students.

THE JAMES T. VENEKLASÉN SCHOLARSHIP — This scholarship is awarded annually to a student who demonstrated excellence in Christian leadership. This endowed fund was established in 1974 by Mrs. Ann S. Veneklasen in loving memory of her husband, James T. Veneklasen.

Scholarships

AME VENNEMA SCHOLARSHIP — A fund to provide financial assistance to capable and needy students. Given by Florence V. Lichte in memory of her father, fourth Hope College president, 1911-1918.

LAWRENCE W. VERSLUIS AND KATHRYN MIDDLEBUSH VERSLUIS SCHOLARSHIP FUND — A fund to be used for worthy and needy students majoring in science.

WINIFRED WASHBURN SCHOLARSHIP FUND — A scholarship to provide aid for worthy students, with preference given to those pursuing music. Funded through the estate of Winifred Washburn.

THE WILLIAM J. WESTVEER SCHOLARSHIP FUND — A fund to provide scholarship aid for worthy students facing financial need. Established by Maud G. Westveer, Willard M. Westveer and Mrs. Henry Steffens.

KATHLEEN ANN WHITE '76 MEMORIAL SCHOLARSHIP — A fund to provide scholarship aid to a promising junior or senior physical education major, preferably a young woman.

THE NELL E. WICHERS NURSING SCHOLARSHIP FUND — A fund to provide scholarship aid to worthy students preparing for the nursing profession.

JOHN GARRETT AND ANNA WINTER SCHOLARSHIP FUND — A fund to provide scholarship aid to worthy students in the Classics established in memory of Dr. John Garrett Winter, Professor of Classics at the University of Michigan, and his wife, Anna, Hope '02.

JOHN D. WITZEL SCHOLARSHIP — A fund to provide aid to worthy students. Established in memory of Mr. John D. Witzel.

HELEN SPRIETZMA WOLF MEMORIAL FUND — A scholarship fund to be used for worthy students, with preference given to those students demonstrating interest and excellence in either remedial reading or personnel management work.

WOMEN'S LEAGUE SCHOLARSHIP FUND — A fund established by the Women's League for Hope College to provide scholarships for needy students from the Reformed Church in America.

315

Departmental Endowed Scholarships

These are similar to the preceding Endowed Scholarship funds, except that the recipients are selected by individual departments.

THE JAECKER CHEMISTRY SCHOLARSHIP — Established by the Harry C. Jaecker, Jr. family, this endowed scholarship is to be used to assist worthy students as designated by Hope College.

RELIGION SCHOLARSHIP AND ENDOWMENT FUND — A fund administered by the Religion Department for the awarding of scholarships, teaching fellowships and Biblical research grants to superior students contemplating church vocations.

HERREL GEORGE THOMAS MEMORIAL SCHOLARSHIP — A fund to provide an annual \$1,000 scholarship to assist a Hope student majoring in Art. The award is made to a student with a particular interest in Early American art whenever possible.

ALVIN W. VANDERBUSH STUDENT ATHLETE AWARD — A fund established in honor of Alvin W. Vanderbush, Class of 1929, who served his alma mater for twenty-seven years as a teacher and football coach. Awarded each year to an upperclassman who has demonstrated both academic and athletic competence.

Scholarships

ELISABETH VANDERBUSH MEMORIAL FUND — A fund established by Professor Alvin W. Vanderbush and others in memory of his wife Betty to provide scholarship aid for a junior student who plans to become an elementary teacher.

CLARENCE VAN ESS CHRISTIAN EDUCATION ENDOWMENT FUND — A fund established by Clarence Van Ess to provide annual awards to superior students preparing for the Christian ministry. The fund is administered and selections made by the Religion Department.

Annually Funded Scholarships

These scholarships are similar to Endowed Scholarships, except that they are awarded on the basis of funds received annually. Further information on annually-funded scholarships is available from the College Development office.

GEORGE F. BAKER SCHOLARSHIPS — Awards to students entering the Junior year at Hope whose academic record and character reveal promise of future leadership. A majority of the scholarship holders will be students who plan to make constructive business activity their life work. The amount of the stipend is determined by financial need, but honorary awards may be made on the basis of leadership qualities alone.

THE BRANCH SCHOLARSHIP FUND — This fund is for students who display academic ability, financial need, and above all a sense of purpose and direction. Given by Branch Capital Management.

CLASSICAL BOARD OF BENEVOLENCE SCHOLARSHIPS — The Classical Board of Benevolence, Reformed Church in America, was organized to assist young men and women in preparation for definite Christian work in the Reformed Church in America. Those interested should write for information on available scholarships, to the Secretary of the Classical Board of Benevolence, in care of Hope College, Holland, Michigan.

ENTERPRISE CONSTRUCTION SCHOLARSHIP — A fund to provide aid to worthy students who are Michigan residents.

FOUR-WAY TEST SCHOLARSHIP FUND — An annual award from the Christian Worker's Foundation to a student active in Christian activities as indicated by the four-way test.

THE MARBLE MEN'S LEAGUE FOUNDATION — Awards available to selected students of high ability and dedication to life purposes consistent with the goals of the Reformed Church in America. Given in memory of Belle Sacre and in honor of Henry C. Bohack, John G. Phillips, and Norman Vincent Peale, this scholarship to be awarded to a young man preparing for the ministry.

RALPH W. MACLACHLAN AND JOHN D. WITZEL SCHOLARSHIP — Aid to worthy students given in memory of Ralph W. MacLachlan and John D. Witzel by the Lee N. and Grace Q. Vedder Foundation.

AMOS NORDMAN FOUNDATION — Assistance for young people studying at Hope College.

HERBERT AND JULIA VAN WYK SCHOLARSHIP — Awarded annually to a student entering the junior or senior year whose academic record, character, and leadership qualities are of high calibre. Given in honor of Dr. Herbert S. Van Wyk and Julia Walvoord Van Wyk.

WOMEN'S GUILD — MIDDLE COLLEGIATE CHURCH — A fund for a worthy student in memory of Miss Janna H. Schafer.

HONORS AND AWARDS

Each year the faculty honors those students whose academic careers are marked by high achievement. The following honors and awards, in addition to several mentioned on preceding pages, are among those presented.

ADELAIDE PRIZE IN ORATORY — A cash award to the winner of an oratorical contest open to all women students on the campus.

AMERICAN BIBLE SOCIETY BOOK AWARD — A book award given by the American Bible Society to a deserving student who, in the judgment of the religion department faculty, is a superior student and who will utilize the book in future study.

ALFRED S. ANDREWS AWARD FOR OUTSTANDING ACCOUNTING STUDENTS — A cash award, which is a gift from Mr. and Mrs. Alfred S. Andrews, to be used as an award to outstanding accounting students, as selected by the faculty of the Department of Economics and Business Administration.

ANALYTICAL CHEMISTRY AWARD — An award to the students who, in the estimation of the Chemistry Department, exhibited outstanding performance in analytical chemistry. The award is a fifteen-month subscription to the *Journal of Analytical Chemistry* presented by the American Chemical Society.

ANCIENT MYSTIC ORDER OF THE TRILOBITE — An award given to the freshman male and female who, in the judgment of the geology faculty, show the most potential of being successful professional geologists.

ATHLETIC SENIOR BLANKET AWARDS — Award blankets are presented to those senior athletes who have earned at least three varsity letter awards at Hope College. One of the three must have been received during the athlete's senior year. The letters need not necessarily have been won in a single sport.

BIOLOGY BOOK AWARD — A book award presented to students, selected by the biology faculty, on the basis of outstanding performance in introductory biology.

GEORGE BIRKHOFF ENGLISH PRIZE — A cash prize founded by the Honorable George R. Birkhoff, Jr., to promote study of the English literature and language.

PETER BOL AWARD — A cash award given to the upperclass student who in the estimation of the Personnel Deans and Counseling Staff has made outstanding contribution in counseling and helping underclass students and who gives promise of a career of service to youth.

THE LAURA ALICE BOYD MEMORIAL AWARD IN GERMAN — A cash award to the senior German major whose interest and achievement in the German language and literature has been most significant.

GRACE MARGUERITE BROWING SCHOLARSHIP IN VOICE — Awarded each year to the Junior or Senior music student who, in the opinion of the Music Faculty, has proved himself worthy of such a scholarship under the following conditions:

- a. He has been in residence at Hope College for one year.
- b. He maintains a good general academic record during the year the scholarship is granted and does superior work in his applied music field. Failure to do so means immediate termination of the scholarship.

The scholarship is for one thirty-minute lesson per week throughout the year. A student may receive the scholarship for one year only.

Honors and Awards

THE ROBERT W. CAVANAUGH SCHOLARSHIP IN VOICE — Given each year to the sophomore music student who, in the opinion of the music faculty, has proved most worthy in terms of his academic record and superior work in the study of voice. The scholarship provides private voice lessons during the student's junior year.

THE ROBERT W. CAVANAUGH SENIOR MUSIC AWARD — A book and cash award to that music major in the senior class who, in the judgment of the music faculty, has demonstrated unusual interest and achievement, and has contributed significantly to the music program. Established in recognition of Robert W. Cavanaugh's contribution to the music department of Hope College and his Christian commitment by his family, former students, and friends.

J. ACKERMAN COLES AWARD FOR SCHOLARSHIP IN COMMUNICATION STUDIES — Awarded to the students who have demonstrated continuing interest and excellence in communication studies.

DELTA OMICRON SCHOLARSHIP AWARD — An award for outstanding musicianship and outstanding scholarship presented by the alumni of Zeta Alpha Chapter. (This is not an annual award.)

DELTA PHI ALPHA BOOK PRIZE — Delta Phi Alpha, the honorary German fraternity, presents annually book prizes to the students in German who have been chosen for this honor by the members of the German Department.

MARGARET OTTE DE VELDER PRIZE — A cash award to the junior student who, in the judgment of the political science faculty, has demonstrated unusual interest and promise in political science.

RAY DE YOUNG HISTORY PRIZE — A cash award to the senior student whose interest, achievement, and promise in history, as indicated by his academic record and a significant piece of historical research, most merit the award.

E.I. du PONT AWARD FOR UNDERGRADUATE RESEARCH IN CHEMISTRY — A cash award to the student who has done the most outstanding research in chemistry.

WILLIAM B. EERDMANS POETRY PRIZE — A cash award for the best creative writing done in poetry during the current year.

WILLIAM B. EERDMANS PROSE PRIZE — A cash award for the best creative writing done in prose for the current year.

ETA SIGMA PHI BOOK PRIZE — An award presented to a graduating senior who is a member of this national honorary Classical society and who has achieved distinction in advanced study in either of the Classical languages.

FRESHMAN CHEMISTRY BOOK AWARD — Presented to the freshman student who, in the estimation of the chemistry faculty, has demonstrated outstanding performance in chemistry. The award is the Handbook of Physics and Chemistry donated by the Chemical Rubber Publishing Company.

FRESHMAN MUSIC AWARDS — Given each year to entering freshman in the applied music fields of Piano, Voice, Instrument and Organ. Awards are awarded on the basis of an audition by means of a tape recording. Audition tapes must be submitted by March 15. Additional information can be secured by writing to the head of the Music Department.

THE BARBARA E. GEETING MEMORIAL AWARD IN GERMAN — The Barbara E. Geeting Memorial Award in German was established in 1978 to honor the memory of Barbara E. Geeting, a 1978 graduate in German, who was killed

Honors and Awards

in a tragic accident with her grandparents shortly after her graduation. This award is granted to a graduating senior who has achieved distinction in German.

ALMON T. GODFREY PRIZE IN CHEMISTRY — A cash award to the senior student chosen the outstanding student in chemistry.

THE JEANETTE GUSTAFSON MEMORIAL GIFT — An award to the most deserving graduating student of the Psychology-Sociology Major Program, chosen on the following basis: ability to demonstrate academic achievement, voluntary involvement in organizations aimed at aiding the community and/or the College, and promise for significant contribution to the helping professions.

THE STANLEY HARRINGTON ART SCHOLARSHIP — Awarded to a promising major in the Art Department, approximately \$100 intended for the purpose of research materials. The Stanley Harrington Art Scholarship is established by friends, students and family in memory of Mr. Harrington, a professor in the Art Department of Hope college from 1964 to 1968.

THE HOLLAND COUNCIL FOR THE ARTS SCHOLARSHIP — A cash award given to a promising major in the Art Department. The Holland Council for the Arts is founded for the purpose of sponsoring and encouraging cultural and educational activities in the Holland and surrounding areas.

JUNIOR-SENIOR INSTRUMENTAL SCHOLARSHIP — A prize of one instrumental lesson per week for one year awarded by the Music Department to the junior or senior who is a music major and has spent at least one year of resident study in the Music Department. The award is given to the junior or senior who, in the judgment of the department, best qualifies on the basis of talent and potentialities.

MARGUERITE E. KINKEMA SPECIAL EDUCATION AWARD — A plaque awarded to the senior special education major who, in the judgment of a faculty committee, gives promise of making the most significant contribution to the teaching of handicapped children.

THE ALLAN C. KINNEY MEMORIAL FUND — Provides an annual cash award to the outstanding graduating senior majoring in economics or business administration. The winner will be selected by the faculty members teaching in these areas on the basis of scholarship, contribution to campus life and promise of an outstanding career.

THE JOHN H. KLEINHEKSEL MATHEMATICS AWARD — This award is presented to the freshman or sophomore student who demonstrates outstanding ability in sophomore level mathematics courses and shows promise for future work in mathematics. The prize is a one-year membership in the Mathematical Association of America which includes the subscription to two mathematical journals.

THE CHARLES E. LAKE MEMORIAL PRIZE IN PHILOSOPHY — A cash award to that philosophy major in the senior class judged by the Department to be most deserving. Established in recognition of Charles Lake's scholarly abilities, character and Christian commitment by his family, friends, and the First Reformed Church of Three Oaks, Michigan.

ALBERT E. LAMPEN MATHEMATICS PRIZE — A cash award to the senior student chosen the outstanding student in mathematics.

ROBERT L. MELKA MEMORIAL AWARD — A cash prize awarded annually to a freshman or sophomore for an essay in European history that is judged superior by the department of history.

Honors and Awards

MICHIGAN INSTITUTE OF CHEMISTS AWARD — Statewide recognition of the senior student who, in the estimation of the chemistry faculty, has exhibited diligence in study and research projects, helpfulness in the instructional laboratories, and interest in chemistry for his/her four years at Hope College. Awardees are recognized at a banquet sponsored by the Michigan Institute of Chemists.

THE MILES AWARD IN LAW — An annual cash award established by Judge Wendell A. Miles in honor of his father, Judge Fred Thomas Miles, presented to a senior student whose promise in the study of Law is judged superior by the faculty of the department of history.

HERMAN MILLER ART AWARD — A cash award given to a senior most deserving of recognition and encouragement for creative work in the field of visual arts.

THE MABEL NIENHUIS AWARD IN APPLIED MUSIC — An award in applied music given to three music majors, who at the close of their freshman year receive the highest rating in their jury examinations. One award each will be given in the areas of keyboard, voice, and instrumental music to be used for the applied music fees during the sophomore year.

THE LINDA D. PALMER MEMORIAL AWARD IN FRENCH — An award, in the memory of Dr. Linda D. Palmer, Assistant Professor of French, 1966-1971, to the student who, having studied in a French-speaking country, demonstrates the greatest promise of excellence in the teaching of French.

PATTERSON MEMORIAL PRIZE IN BIOLOGY — A cash award to a superior student with a major interest in biology, whom the Hope College faculty deems most worthy.

PHI ALPHA THETA FRESHMAN BOOK AWARD — A book prize awarded to the freshman student who, in the opinion of the faculty, shows the greatest promise in history.

320 **PHI ALPHA THETA SOPHOMORE BOOK AWARD** — A book prize awarded to the sophomore student who, in the opinion of the faculty, shows the greatest promise in history

PIETENPOL PRIZE — A cash award to the senior student who gives promise of greatest success in the Christian ministry.

POST JEWELRY MUSIC AWARDS — Gold keys to senior members of the Chapel Choir who have been active members for at least three years and have done outstanding service.

THE MARGUERITE PRINS FRENCH AWARD — A cash award to the senior whose interest and achievement in the study of the French Language and Literature has been the most significant.

MARTIN N. RALPH AWARD IN SPANISH — A cash award to the junior or senior whose achievement in the Spanish language and literature has been most significant.

A.A. RAVEN PRIZES IN COMMUNICATION — Awarded to the student who best demonstrates excellence in communication through leadership and/or the effective presentation of issues of public significance.

METTA J. ROSS HISTORY PRIZE — A cash award to the junior student whose interest, achievement, and promise in history, as indicated by academic record and career plans, in the judgment of the history faculty, most merits recognition.

Honors and Awards

SANDRENE SCHUTT AWARD FOR PROFICIENCY IN LITERATURE — A cash award to be presented to the senior who has shown outstanding proficiency in English Literature and who expresses the intention of entering the profession of teaching English Literature.

SENIOR BIBLICAL AWARDS — Cash awards to senior students who have exhibited superior ability in the field of Biblical study.

SIGMA XI AWARD — The Sigma Xi awards are given in recognition of the independent initiative shown by the student, the accomplishment of a noteworthy contribution to research in the sciences while at Hope College, and for showing promise of continuing research contributions in the future.

SLOAN-STEGEMAN AWARD — A cash award to a senior student who displays promise of greatest success in the field of Christian world missions.

SOPHOMORE BOOK AWARD TO THE OUTSTANDING STUDENT IN ORGANIC CHEMISTRY — Presented to the student who, in the estimation of the chemistry faculty, has demonstrated outstanding performance in organic chemistry. The prize is the *Merck Index* donated by Merck and Company, Incorporated.

SOUTHLAND AWARD FOR WOMEN — A gold medal to the senior who, in the judgment of a faculty committee, has maintained the highest standard of scholarship in several fields, character, and usefulness during the four years of her college course.

THE MINER STEGENGA AWARD — An award in memory of the Reverend Miner Stegenga, which consists of a plaque inscribed and presented annually to a student-athlete in the junior or senior class selected by the Athletic staff and the Faculty Committee on Athletics. The recipient must show leadership in campus Christian activity, demonstrate athletic ability in a college-sponsored sport, and be that student-athlete who, in the opinion of the committee, best exemplifies Miner Stegenga's deep love of sport, and his deeper love and Christian concern for those who played — on both sides.

CHRISTOPHER JAMES STRINGER MEMORIAL AWARD — A cash award to a deserving junior or senior selected by the psychology department staff as showing promise of becoming an outstanding psychology student.

321

THEATRE DEPARTMENT SENIOR PRIZE — The Theatre Department Senior Prize is awarded to seniors who in the judgment of the theatre faculty have demonstrated the highest achievement academically, artistically, and in theatre craftsmanship during their undergraduate career.

THEATRE PATRONS' AWARD — The Theatre Patrons' Award, a cash award of \$100, is presented to the student in each of the freshman, sophomore, and junior classes who in the judgment of the theatre faculty has shown the greatest promise artistically, academically, and in terms of participation in the department's co-curricular programs. A similar award may be given to a high school student member of the Hope Summer Repertory Theatre apprentice class, who intends to enter Hope College, and in the opinion of the summer theatre staff has shown particular dedication and promise.

THE WILLIAM AND MABEL VANDERBILT, SR. FAMILY AWARD — An award established by Mrs. Mabel Vanderbilt Felton in memory of William Vanderbilt, Sr. It is awarded annually to students majoring in Physical Education and Recreation, who in the judgment of the faculty in this department, contributed outstanding service to others.

OTTO VAN DER VELDE ALL CAMPUS AWARD — A gold medal to the senior man chosen for his outstanding contribution to the college in athletics, scholarship and participation in student activities.

Honors and Awards

JOHN RICHARD VANDER WILT AWARD — A cash award to a deserving student who, in the judgment of the religion faculty, gives promise of a dedicated service as a minister or missionary.

THE JAMES DYKE VAN PUTTEN POLITICAL SCIENCE PRIZE — A cash award to be given to the graduating senior who has excelled in the classroom and, in the judgment of the political science faculty, possesses those qualities of character and personality which give promise of a useful career in public service. The award is named after the first chairman of the political science department, who was a fine scholar and a United States Diplomat.

THE WALL STREET JOURNAL AWARD — The Wall Street Journal Student Achievement Award of a one-year subscription to the Journal and an individual medallion is presented to the student selected by the business administration.

DONALD WEENER MEMORIAL AWARD — A fund to provide piano scholarships in the music department for deserving students. Funded by friends and family in loving memory of Donald Weener.

THE EGBERT WINTER EDUCATION AWARDS — Cash prizes to the young man and young woman in the senior class who give promise of making the most significant contributions in the field of teaching.

THE EDWARD J. WOLTERS CLASSICS AWARD — The Edward J. Wolters Classics Award has been established in honor of Professor Edward J. Wolters, Professor Emeritus of Latin and Chairman of Classical Languages for nearly 40 years, until his retirement in 1966. This award is given to a student with an outstanding record of performance in advanced Latin classes or in classical studies.

DOUWE B. YNTEMA PRIZE — A cash award to the senior student who has been chosen the outstanding student in physics.

322

ASSISTANTSHIPS

CHEMISTRY ASSISTANTSHIPS — A number of chemistry faculty members have available research assistantships for students to support part-time research during the academic year and full-time research during the summer.

FRENCH SCHOLARSHIP ASSISTANTSHIP — Awarded each year to a qualified native speaker of French. The awardee receives a waiver of tuition, cultural affairs, room and board fees in return for work as a native assistant in the Department of Foreign Languages and Literatures.

GERMAN SCHOLARSHIP ASSISTANTSHIP — Awarded each year to a qualified native speaker of German. The awardee receives a waiver of tuition, cultural affairs, room and board fees in return for work as a native assistant in the Department of Foreign Languages and Literatures.

PHYSICS ASSISTANTSHIPS — Full-time summer research assistantships are available to students on the basis of ability.

SPANISH SCHOLARSHIP ASSISTANTSHIP — Awarded each year to a qualified native speaker of Spanish. The awardee receives a waiver of tuition, cultural affairs, room and board fees in return for work as a native assistant in the Department of Foreign Languages and Literatures.

GRADUATE FELLOWSHIPS

UNIVERSITY OF MICHIGAN GRADUATE FELLOWSHIP — The University of Michigan has established fellowships which are awarded annually to a selected number of colleges in Michigan. The faculty of Hope College nominates an outstanding member of the graduating class to be the recipient of this fellowship award for graduate study at the University of Michigan.

UNIVERSITY OF MICHIGAN GRADUATE SCHOOL OF BUSINESS SCHOLARSHIP — Hope College annually nominates an outstanding member of the graduating class to be the recipient of this scholarship award for graduate study in the School of Business Administration at the University of Michigan.

Fellowship Nominations

MICHIGAN COLLEGE FELLOWSHIP — The University of Michigan has established fellowships which are awarded annually to a selected number of colleges in Michigan. The faculty of Hope College nominates an outstanding member of the graduating class to be the recipient of this fellowship award for graduate study at the University of Michigan.

MICHIGAN COLLEGE SCHOLARSHIP — Hope College annually nominates an outstanding member of the graduating class to be the recipient of this scholarship award for graduate study in the School of Business Administration at the University of Michigan.

Departmental/Faculty/Administration

ENDOWED FUNDS

Specified gifts to the College are used to establish endowed funds for the enrichment of faculty and staff. The College believes it is important that funds be made available for the continued personal growth of faculty and staff. These opportunities are essential for maintaining quality education at Hope. Income from these funds is used for individual enrichment and research, endowed lectureships and departmental programs.

Endowed Professorships

EVERT J. AND HATTIE E. BLEKKINK PROFESSORSHIP — A chair, created from the bequest of the late Victor and Ruth Blekkink in honor of their parents to provide financial support for a member of the faculty who is selected on the basis of a distinguished record as an outstanding teacher, recognized scholarly contributions, and significant contributions to the overall mission of the college. The chair is open to faculty members in the Departments of Education and Religion.

PETER C. AND EMAJEAN COOK ENDOWED PROFESSORSHIP — A chair established by Peter C. and Emajeon Cook to provide financial support for a faculty member who has an established record of excellence as a Christian scholar, as evidenced by effectiveness in teaching, a record of scholarship, a Christian life marked by a meaningful integration of faith and practice, and who subscribes to the concept and principle of the free enterprise system.

KENNETH G. HERRICK ENDOWED PROFESSORSHIP — An endowed Chair, established in 1981, and named in honor of Mr. Kenneth G. Herrick, President of the Herrick Foundation and Chairman of the Board of Trustees of Tecumseh Products, Inc., in recognition of and appreciation for his generous support of Hope College. This Chair is held by a faculty member in one of the following Departments: Biology, Chemistry, Computer Science, Economics and Business Administration, Geology, Mathematics, or Physics.

DRS. EDWARD A. AND ELIZABETH HOFMA ENDOWED PROFESSORSHIP — An endowed Chair, established by the Board of Trustees of the Drs. Edward A. and Elizabeth Hofma Trust, to be held by a faculty member who has a major responsibility for the instruction of pre-medical students. Normally, this will be a member of the Biology Department or the Chemistry Department. Drs. Edward A. and Elizabeth Hofma were long-time residents of Grand Haven, Michigan, in which community these doctors served as distinguished and greatly respected physicians.

JOHN DIRK WERKMAN ENDOWED PROFESSORSHIP — An endowed Chair established by Mary K. Werkman in the name of her husband, John Dirk Werkman, a graduate of Hope College in 1889. This Chair is held by a faculty member at Hope College who has a distinguished record of achievement as both teacher and scholar.

Faculty Development Funds

MR. AND MRS. CHRISTIAN BECKER FACULTY DEVELOPMENT AWARD — The Becker Distinguished Professorship in Economics and Business is named in honor of Mr. and Mrs. Christian Becker. This fund partially endows a professorship to be awarded by the College to a person who has attained

distinction as a scholar and teacher within the field of economic discipline. Given by Mr. Becker's children.

THE ALBERTUS PIETERS FUND — Named in honor of Albertus Pieters, College Pastor and Distinguished Professor of Biblical Literature at Hope in the 1920's. This fund provides monies for self-renewal and study projects pertaining to teaching courses relating the sciences to the Christian faith. Funds may be given to either faculty members, students or to acquire library resources to accomplish this purpose.

REIMOLD FACULTY STUDY AWARD — The Julie Van Raalte Reimold Award, given in memory of his mother, by Mr. O.J. Reimold II, is awarded to the member of the faculty whose proposal for summer research and writing best offers effective expression of those spiritual and cultural values which motivated the founder of Hope College, Dr. Albertus C. Van Raalte, and which gives promise of resulting in scholarly or literary publication.

MATTHEW J. AND ANNE C. WILSON FOUNDATION FACULTY DEVELOPMENT PROGRAM — The Matthew J. and Anne C. Wilson Foundation Trust Fund has provided a number of gifts held as an endowment, the interest from which is used for faculty development and advanced study. The mainstay of the Fund is to encourage full-time members of the faculty to grow as scholarly teachers through summer study and research. A special committee of faculty and administration determines award recipients annually from applications submitted by the faculty.

THE SIMON DEN UYL AWARD — The Den Uyl Fellowship is awarded annually to a member of the Hope College faculty who has attained marked distinction in his academic career and who proposes a study of considerable scope promising future benefits to the College. It is named in honor of Dr. Simon D. Den Uyl, '19, who initiated the Fellowship in 1958 and who has made possible its establishment as an annual award. The Den Uyl Fellow is selected by a faculty committee and the administration and is the highest award given a Hope teacher by his faculty colleagues.

MARJORIE DEN UYL SUMMER GRANT — An annual award to a member of the music faculty to enable this person to enrich his/her performance and/or teaching ability. Any faculty member within the Department of Music who has taught at Hope College for a minimum of two years is eligible to apply for this grant. The final selection will be made by the Provost after appropriate consultation with the Chairman of the Music Department and the Faculty Status Committee.

325

Departmental Discretionary Funds

MARGUERITE E. KINKEMA FUND — A financial resource, administered by the Education Department and used for development of personnel and programs in the field of special education.

JOHN H. AND ANN S. KLEINHEKSEL FUND — Given in memory of John H., Kleinheksel, Professor of Mathematics at Hope College for many years, and his wife, Ann S. Kleinheksel. Income from this fund is to be used in the operation of the Mathematics Department. Funded from the estate of Frank D. Kleinheksel, for his parents.

THE LOUIS AND HELEN PADNOS COMMUNITY EDUCATION FUND — A fund to promote and foster creative programs and projects to further the excellence of the entire educational system of the Holland Community. Administered through the Education Department.

Endowed Funds

FRANK N. PATTERSON MEMORIAL FUND — Established in memory of Frank N. Patterson, Professor of Biological Sciences at Hope from 1909-1926. The income from this fund is to be used for furthering the College's biology program. Given by T. Elliot and Katherine Weier, in recognition of an imaginative and inspiring teacher.

Endowed Lectureships

DANFORTH RELIGIOUS SPEAKERS FUND — The Danforth Foundation provides an endowment fund at Hope College whose annual interest is to utilize the enrichment of the Religious Life Program on campus. The goals of the fund are as follows: 1) to deepen and enlarge the religious dimension of the campus family through speakers who can reflect on the broad, inter-denominational and yet positive sense of the Judaeo-Christian perspectives of life and existence; 2) to promote the enrichment of spiritual life on campus through intensification of student-faculty relations on the interpersonal encounter and dialogue level.

THOMAS STALEY LECTURESHIP — The Staley Distinguished Christian Scholar Lecturer Program is a project of the Thomas F. Staley Foundation of New York and Florida, and was established in memory of Dr. and Mrs. Thomas F. Staley and Judge and Mrs. H.H. Gaynes of Bristol, Tennessee. The Thomas F. Staley Foundation believes that the Christian gospel, when proclaimed in its historic fullness, is always contemporary, relevant and meaningful. The Foundation encourages intellectual understanding, spiritual conviction and commitment to service in Christ's name. To this end, the Foundation seeks to bring to college and university campuses of America distinguished Christian scholars who have comparable viewpoints and who can communicate clearly with the several members of the academic community.
