Connelly Brings Many Meets

MAYORS, ROAD MEN, CON-TRACTORS FLOCK TO

Never has Holland been more active as a convention town than during the past week. William D. Connelly, our new director of commerce, who knows people conductting city, state and national affairs, was instrumental in bringing three meetings here within a

The first has already been chronicled in the News and more than 200 county road men from Michigan came to Holland when wired to by their president, Mr. Connelly. The road men were more than pleased with their reception and some stayed through the week.

Mayor Bosch and Mr. Connelly then got busy enlisting the may ors of Michigan to come, also by wire. More than 125 mayors and city officials from 66 cities gathered at Warm Friend Tavern and many of them brought their wives and other members of their famlies until the number from abroad totaled nearly 200.

Tonight, as the News goes to press, Mr. Connelly has the Associated General Contractors of Michigan as guests in the city and it is understood that at least 75 have arrived for the evening meeting when dinner will be served at the Tavern.

Mr. Connelly is a busy man. He

seems to be everywhere at the same time. It is evident immediately that he has met most of these men before since he greets a large number of them by their first names. He also provides the different groups with different badges. All the badges have Dutch embellishments, wooden Dutch figures or little Dutch windmills, and this Dutch complex certainly takes with the outsider, in fact it appears that we have not nearly capitalized this phase to full capacity. Each delegate has also been given a courtesy card, in the way of wooden shoes, ex-

during their stay. The whole arrangement, it is evident, proves exceedingly pleasing to the different groups who

The meeting of these different groups had much to do with the NRA, the message of President Roosevelt, and how these things are applicable for cities, for road builders and for contractors. These matters were thoroughly discussed with plans formulated by committees then appointed to lay the ground work as this relates to the different groups. At tonight's meeting now in progress, this is being done.

At the meeting of the mayors, Mr. Connelly was again in charge and called upon Mayor Nicodemus Bosch to give his fellow mayors a welcome to Holland. Mr. Bosch did this in his inimitable way pointing out that Holland had taken the initial step in that direction. Mr. Bosch invariably invites the guest to visit our Tulip Festi-

WHY NOT OPEN SCHOOLS LATER?

Reports have come in from and other nearby cities indicating that tentative plans are to open the public schools one or two weeks later than usual. In Grand Rapids the date has been fixed for September 18 and our neighbor to the southwest of us has also adopted

We can readily see how Saugatuck fell in line immediately, for Saugatuck is strictly a resort town and school children and resorts have much in common

Our own experience has been that when school opens our resorts are dead and the transformation takes place overnight.

Holland being a resort town, it seems, should welcome this change for it would lengthen our resort season, something we have been "harping" on for years back. It is needless to ask how the pupils would take this new order of things. Undoubtedly the vote would be unanimous.

There is another feature that makes the opening of school on Tuesday after Sunday and Labor Day trying to parents, teachers and pupils. The last holiday during the summer months is a hectic one-instead of celebrating the day parents at the resorts or at home are all "stewed up" to get the children to school on Tuesday. Teachers from abroad must start for Holland either Sunday or Labor Day to get here in time for the teachers' reception before the opening of school on Monday aft-

Why not extend the vacation for a week or two, giving all school folks an opportunity to come, possibly because these fea- spend these two closing days of tures are so much different than the summer season under more happy conditions? in an orderly manner. It is already noticeable in the state press that in cities where schools are to open later, families are planning to come to the resorts or are asking extension of time in the renting of cottages. Holland, having such extensive resort environs, should as a city give this serious consideration. Undoubtedly the board of education at its meeting next Monday will not overlook the many desirable features that the extended vacation | Hon. Nicodemus Bosch:

(Grand Haven Tribune) Alderman Martin Boon and Peter Kammeraad, city manager, who attended the Michigan mayors' conference held at the Warm Friend Tavern, Holland, Tuesday were enthused over the sentiment expressed at the meeting that Michigan municipalities will cooperate as largely as possible with the NRA program, although exen.pted from participation under

CONTRACTORS DISCUSS NRA CODE THURSDAY

This Thursday night, as the News goes to press, a meeting of contractors of western Michigan is being held at Warm Friend Tavern. William Connelly, managing director of the Chamber of Commerce, expected that about 50 contractors would attend. The purpose of the meeting is to adopt a resolution conforming to President Roosevelt's national recovery act. Other matters will also be discussed, including the sales tax and the contractors' pre-qualifica-

tion act. The session will open with a dinner at 6:30 o'clock p. m. at the Tavern. The business meeting will begin at 7:30 o'clock. Frank L. Dykema of Grand Rapids, secretary of the Michigan chapter, Associated General Contractors of America, will lead the discussion on the NRA code.

William K. Clute, Grand Ran ids attorney, will discuss the sales tax, and J. N. Gunnell of Lansing, secretary of the Michigan Road Builders' association, will talk on the contractors' pre-qualification

In closing Mr. Stephan said: While Holland is a city which is financially and fundamentally sound, in fact there are few cities in the state that can make such an enviable showing compared, still many of our citizens are in hard straits financially and with the added exactions that new taxes and new methods bring, they are often

MANY CHANGES IN HOLLAND FURNACE COMPANY'S PERSONNEL

A matter that has been held in abeyance for some time and inter-ests Holland intensely is the new "setup" at the Holland Furnace Company. During the past week many surprising changes have taken place. The culmination came at a directors' meeting when Charles H. Landwehr, the president of the company, was succeeded by H. W. Thorne of New Canaan, Conn. Mr. Thorne also assumes the treasureship of the company, ably conducted by Arthur W. Wrieden, resigned.

Paul Theodore Cheff elected vice president in the place of Edgar G. Landwehr, who held that position for a number of years. The second vice president was named in the person of Paul W. Bruns of Detroit.

Ernest H. Sulkers, who has been handling the accounting system of the company for a number of years and who was secretary, has relinquished his duties and his relinquished his duties and his place is filled by Mr. A. W. Tahaney of Kalamazoo, expert accountant of the firm of Lawrence Scudder & Co., who have offices in Kalamazoo and Chicago.

Raalte and Edward Muchlenbrock. It is understood that at the board of directors' meeting held within the week, the following resignations were acted upon: Charles Landwehr, Edgar Landwehr, Ar-thur W. which is national in scope. The Landwehrs, especially A. H. Landwehr, with the late John P. Kolla, have been identified with the Holland Furnace Company since its founding more than a quarter of a century ago. The company is reputed to be the largest installers of furnaces in the world and the company has factories at Holland, Cedar Rapids, Iowa, and Bethlehem, Pa. Their branch offices dot the nation from

Maine to California. A Holland furnace is synonymous with "Warm Friend" and this community has received much favorable publicity because of this tremendous institution aside from the fact that it is our industrial

"mainstay." Mr. Thorne stated there would be very few changes in the staff -that all loyal employes would be retained as long as they showed

efficiency in their duties. The highlight in the wonderful growth of the Holland Furnace Company was evident when the beautiful office building, costing approximately one-third of a million dollars, was erected. This structure is the last word in that kind of construction. Their own product of heating, cooling and humidifying was installed and the results were indeed gratifying. The appointments of the office, the convenience and the beauty of it all, have not been surpassed anywhere and has been marveled at by those who have been privi-

leged to see it. Our readers will remember that the Holland City News devoted a page to this beautiful building when it was dedicated, showing a picture of both exterior and in-

terior views. The men who have left the Furnace company have no definite plans up to this time. One of them took this opportunity to take unto himself a wife, one of Holland's lovely young ladies, who has been closely identified with the teaching

profession. Mr. Arthur W. Wrieden says he of Commerce to give other matters immediate thought.

The shipment, authorized by common coun-ticular waters. cil. will be received the latter part of September in time for fall planting. Bulbs will be used in extending Holland's Tulip Lane in preparation for the 1934 Tulip Time festival next May.

TABLE PLAN FOR SHORE ROUTE TO GETZ FARM

The proposal to construct a high way along the shore of Lake Michigan from the south city limits to connect US-31 near the Getz farm was brought before Ottawa county supervisors today, and following a report of the good roads committee, was tabled until the next meeting in September.

The road has been the dream of residents in that section for many years and would greatly relieve the traffic on US-31 between this city and Holland. Welfare labor would mostly be used on the work, the cost to be defrayed partially by the federal government and partially by the county. Grand Haven council adopted resolutions some time ago favoring the project.

HERMAN BITTNER DIES AT HOME OF SON

Herman A. Bittner, 80, who was resident of Holland for about 12 years, died Monday at the home of his son, Edward Bittner, in Jeni-

Officials of the biological survey have advanced the suggestion that should Mallard No. 555414 finally fall before a duck hunter, she be mounted and presented to Mr. Keller. Her original band, while still legible, shows the effort of the 6 years' wear, so Mr. Keller placed a new band on her other foot this spring. Now she carries two bands and the number of the new one is A604109.

AMPLES OF LICENSE PLATES FOR '34 CARS ARE YELLOW AND BLACK

Samples of the new automobile plates for 1934 have been received at the county clerk's office. The background will be bright yellow with large distinct black letters. The name Michigan will be at the top of the plate and the figures 1934 separated between the name of the state. The figures of the license occupy the largest share of the plate and are of unusual size. The plates last year had a white background with black letters. The vear before the background was

blue with white letters. Sale of automobile plates continues heavy, as according to state instructions all those running under stickers must purchase plates before Aug. 1. The county clerk's office will not be open on Saturday afternoon, so owners are urged to bear it in mind and prepare for the expiration date.

SUNDAY DINNER SUGGESTIONS

By ANN PAGE

EACH week seems to bring some outstanding food feature and this week apples have bid for first place. These summer apples make delicious tart apple sauce, pie and baked apples. Spiced apple sauce, molded with gelatin and served with whipped cream, or whipped evaporated milk makes a delicious dessert.

The recent hot weather has unfavorably affected much of the garden produce but there are still many excellent choices especially among salad vegetables. For garnishing the cold plate and salads green and stuffed olives take first place. The Quaker Maid Kitchen supplies the following menus:

Many meetings are being held, called by C. P. Milham. Holland Park and Olive township included. One hundred forty wheat grow ers and rural supervisors of Ottawa county voted unanimously to cooperate in the wheat reduction campaign proposed by the Federal Government for the next two years at the meeting held at Allendale Mr. C. V. Ballard who has charge and two daughters, Alma and Vera of the work in the State and agricultural agent Milham explained the plan and how it would apply to

> the vote. Nominations for a temporary county committee to plan the campaign were made for each township; eight districts were blocked out, and a schedule of district meetings arranged to reach every wheat grower in the county. The districts and committee members from each township are Chester and Wright, Floyd Harrison and Everett Collar; Polkton, John Potts; Crockery and Spring Lake, Scott Holmes and Sam Rymer; Robinson and Grand Haven, Al Reisbig and C. Reenders; Allendale and Tallmadge, Abe Robinson and Fred Ellis; Georgetown and Jamestown, Chas. Lowing and Hiram Yntema; Blendon and Zeeland, Ralph Lamer and Jacom Geerlings: Olive, Holland, Park and Port Sheldon, John Kemme, Henry Kragt, Bert Van Lente and Henry

Wassink. The schedule of meetings in these districts to explain the plan will be held at Hudsonville high school, Monday, August 14; Zeeland high school, August 15; Allendale town hall, August 16; Conklin Grange hall, August 17; Holland township hall, August 18; Nunica town hall, Monday, August 21; Coopersville high school, August 22; Robinson town hall, August 23. Briefly the plan is this - wheat growers will sign a contract with the Federal Government to reduce their acreage for the next two years, not over 20 per cent below their average acreage for the past three years. In return the Government proposes paying the farmers who sign contracts twenty-eight cents a bushel on the average doof their average production of wheat for the past three years. So if all the 2292 growers in the county cooperate and sign contracts the acreage will be reduced from 22,077 to 17,662 acres. In return for this reduction for the next two years the Government will pay to the county 30 cents a bushel on 54 per cent of our average crop of 464,024 age by 8,830 acres in two years the cessing tax levied on manufacturers of wheat products a total of expected that the cost of administration of the act will be about two cents a bushel, so farmers will receive 28 cents a bushel above the world market price. Farmers who do not choose to join in the plan will receive only the world market

being taken up first. The Mayor went into conable detail in outlining to the Coun-cil what had transpired during the past two or three weeks in regard to the matter of these out selling ice in the City of Holland. The Mayor stated that in talking

with these men when they first came to the city they had made the statement that their purpose in coming was for retaliation, and he further stated that he was informed that in other places they had sold ice books and then later refused to deliver the ice. The Mayor have never been besought in vain. further told having met these two After four years of hopeless and gentlemen in the City Attorney's seemingly helpless suffering and office and interviewed them in reinaction, it would be unforgivable gard to their activities in the City

He then called upon Mr. A. Fairbanks of the Superior Ice Co. to address the Council on the matter. Mr. Fairbanks stated that these men were selling ice below cost, and although he could not prove the assertion, he stated that information had come to him that their purpose in doing so was to force them out of business and that these men were being backed by a wealthy company who sought to gain control over the sale of ice in

western Michigan. Mayor Bosch then called upon Chief Lievense for information except that he was informed that the ice station from which these folks operate on 10th St. had been taken from Grand Rapids and brought here without being paid or, and his thought in the matter was that these people are not responsible persons with whom to

Ald. Prins requested an opinion from Atty. Den Herder as to what the City's rights are in this matter. Mr. Den Herder stated he was just there on behalf of Mr. Lokker and preferred to hear more about the proposition before he could give an opinion; that is, he wanted to know just what these people are doing and are proposing to do, and re-quested to hear from their repre-sentative before giving an opinion. Mr. Ten Cate, who was repre-

A large number of women gathered at the Woman's Literary club rooms yesterday to discuss how they could help President Roosevelt in his NRA plan. Mrs. C. M. McLean, who was in charge of the meeting, called upon Arthur W. Wrieden and William M. Connelly, chairman and secretary, respectively, of the Chamber of Commerce, to give their talks to the ladies and the necessary informa-

tion relative to the NRA. William Connelly stressed more the importance of putting people to work and he stated that they could do this very effectively by encouraging Chamber of Commerce work. He stated that he could tell some very encouraging features but not at this time. He suggested that the women call their club the "Never Retreat America" club.

Mr. Wrieden pointed out that 85 per cent of home buying was done things to do-get people back to work with purchasing power wages and then let that 85 per cent of women go and buy something, covering their prospective needs.

Buying means business from fac- ing tory to store and that cycle is necessary. Mr. Wrieden stated. Mrs. Charles K. Van Duren gave a review of how welfare needs jumped from \$8,000 to \$98,000 annually within two years and that

Parents Attention!

Vacation season will soon be over. On Sept. 5 the fall term of our schools will begin. The future career of many young men and women is today in the balance. What are your plans for your son or daughter to provide them with a means of self-support?

Business is one of the leading professions of America-College and high school graduates, teachers. and others who have left grade school for reasons beyond their control are entering this career.

In these days when there is but little demand for manual laborers, we find that clerical helpers are still largely in demand, and such as are not, have entered other fields for which their business training has qualified them.

The expense to pursue such a course of training is small and the time to obtain a year's course is short in comparison with other professions.

We shall be glad to explain ourcourses to you. Come to visit our school. Our office over Woolworth's is open on Saturday afternoons and evenings.

Hoekjes On Way To Holland From Japan

EXPECTS TO BE HERE WITH FAMILY LATTER PART OF AUGUST

After eight years in Japan, in Nagasaki, Willis G. Hoekje and family are homeward bound. The ship that they took from Yoko-homa is "President Taft," an American ship. They started to sail on July 11 and they are nearly due in Holland now.

Missionary Hoekje in a lengthy letter tells some interesting ex-periences in the land of cherry

Nagasaki, Japan To Our Friends in the Home Land: Some of you are aware of my custom, partly by way of acknowledgement of Christmas and New Year greetings received from many of you, to write a letter of this nature early in each New Year. This year you are no less forgotten, and the lateness of the writing makes possible fuller mention of the two things that bulk largest in my consciousness as

The first is the fact of the consummation of the task that has occupied my major attention during the past three years—the bringing to a worthy close of the nearly fifty years of service of Steele Academy. To do this has required patience, and planning, and prayer. Our last year we had 104 boys in very regular attendance. Fifty-two these were graduated, and the majority of the remainder, nearly all, were transferred to the Methodist Boys' school in the city. With very few exceptions, new positions were found for all the teachers, our head teacher, for example, having become head master at an English mission girls' school in Formosa. It was possible, also, to dispose of the property at a fair price for this era of depression, and most of the equipment was promptly trans-ferred to Meiji Gakuin in Tokyo, our other boys' school which is now o continue what was begun here.

Our commencement and closing exercises were held early in Marcu. invitaed Rev. S. Tada, moderator of the synod of the Church of Christ in Japan, and one of the very best ing to the identity of the night known pastors, to preach the comnown pastors, to preach the commemorative sermon. His message concerned the need of the missionary spirit in a vital church life. On Monday forenoon formal closing exercises were held, much as usual, except that at the close several addresses were made in recognition of the completion, now, of with the Meiji Gakuin in Tokyo. The closing address was made by Gakuin, Hon. D. Tagawa, who at just that time was being mentioned as a possible candidate for the mayoralty of the great city of Tokyo. Officials of the city and prefecture, educators, and alumni in considerable number attended on this significant occasion. But for me the great thing of the day was own opportunity to speak for the last time in my school to my students and their friends, but the response made to the various addresses of congratulations upon their graduation by the representatives of the class graduating. I knew and remembered something of his personal history as he roseboy whom I had baptised last hristmas Sunday. And there, after the usual formal expressions of gratitude, he testified clearly that

One must know something of the disappointment it means to a Japanese boy to have to graduate from a school that is being closed to understand that. But it made the efforts to maintain under adverse conditions seem the more worth while to hear such a testimony. Seven members of that class were aptized in the year preceding

On April first, after a week or two of packing equipment, includ-ing the tower bell, to go to the Meiji Gakuin, I turned over the grounds and buildings to their purhaser, the Roman Catholic bishop of Nagasaki, who is using them for his school for training Christian workers. Nagasaki prefecture is the stronghold of Roman Catholic Christians in Japan, some of them being very poor as a result of the confiscation of their property in the years of persecution a few decades ago. Bishop Hayasaka, by the way, the only Japanese who has ever peen consecrated as a bishop of the Roman Catholic church. I find him xcellently business-like.

I have not been quite idle sinceno mission secretary and treasurer can be. Besides, some unusually attractive preaching opportunities have come to me, in three churches of the Kurume field and at Sturges Seminary in Shimonoseki. Another vitation to teach five periods of year of family life, all together. this work in the Japanese language the homeland at this time. Last requires much of preparation, but time we were among you in the it is of the nature of the work you immediate post-war years. This expect us to be doing here. At- time we renew our fellowship with tendance at meetings of the directors of our two girls' schools, which duties I am now relinquishing at least for a season we want to

This brings me to the other matter with which this letter is matter with which this letter is concerned. After eight full years—full in many senses—in Nagasaki, we are to leave for furlough in the United States next month. The two younger children are at school in Kobe, and we wish them to complete their school year on the 30th. Then on July 11th we expect to sail from Yokohama. There are friends and relatives to be visited here and there before we settle down, so we have chosen a somewhat roundabout route to Michigan, where we expect to arrive about mid-August, or a little later. After renewing acquaintances at Holland, we shall

William A. Holley, who 50 years is to be host at a dinner at Warm ago was head miller of the Walsh-

of New York on the 7th of October, 1858. Besides being a miller at Milwaukee and at Bellville, Ill., he also Mrs. conducted mills at Middleville and Thomas Wanty and Mr. and Mrs. [Plainwell, Michigan, after leaving Holland some twenty years ago. During his milling days he was honored with the presidency of the National Association of Millers, an honor that comes to but few considering the large number of mills

that dot the nation. Mr. Holley learned the miller' trade when a young man in New generally. During the early years, when Mr. Holley was a resident of this city for at least three decades he was a public spirited citizen and was especially interested in church work He was a devout member of the First Methodist Episcopal Church in this city. He was on the building committee supervising the building of a new brick church and parsonage, supplanting the old wooden structures that were landmarks on West Tenth Street.

For a number of years he was a Sunday School teacher in the Methodist Church and was superintendent of the Sunday School for a long time. He was also interested in choir work, and also made his usefulness felt in practically every department of the church

As a citizen he was public spirit ed in a civic way and was looked upon by his host of friends as an honest, trustworthy leader in this community. For many years Mr. Holley was a member of Castle 000 for building a sewage disposal Lodge, Knights of Pythias, Holformer weather bureau department leased from the Detroit house of land, in fact, he was a charter member and shortly before his death he was made a life member of the local organization. For a number of years he was also member of the Maccabees.

Holdup Men Flee With \$36 After Striking Harry Ewing, Tying Couple's Hands

Two masked men attacked Mr. and Mrs. Harry Ewing at their home near Pottowatomie Bayou near Grand Haven, about midnight near Grand Haven, about midnight Saturday night and robbed Mr. Ewing of \$36. The men had guns and backed Mr. and Mrs. Ewing into corners, where they frisked Mr. Ewing and took the money. They later tied the hands of the two and made them sit in their chairs, with the warning not to move until they heard an automo-bile leave the vicinity. Mr. Ewing notified the sheriff's

office at Grand Haven within a few minutes and the officers have been following up clues that they have.

Mr. Ewing told the officers that he and his wife were sitting at a table eating a lunch when two men walked into the house. Mr. Ewing walked into the house. Mr. Ewing arose, supposing it was some neighbors or callers. As he did so one of the men knocked him to the floor and he bears the marks of the fall on his head. Mrs. Ewing tried to protect her husband but was quickly backed into a corner at the point of the gun of the other man.

Mr. Ewing was made to face the wall when he had regained his feet and he was searched.

As the two men advanced into the room they said "Stick 'em up!"
Mr. Ewing said, "Oh, you're kidding." "This is no kidding, we want your roll," declared one of the men, whereupon Mr. Ewing was struck.

The Ewings described the two men as nearly as they could. One was tall and the other heavy set. Distinct footprints were found leading from the cement highway to the cottage, a distance of about one mile. One of the prints measured 11 inches.

It was raining very heavily at the time of the holdup and the footprints of the two were very well marked in the damp sand Search was made by the officers in all directions and it is believed the two walked some distance and that they did not have a car as no in-dications were found that a car had been concealed anywhere nearby. The home is located in the wo about a mile from the highway and one-half mile from the bayou. It

is believed the two disappeared southeast from the cottage. Mr. and Mrs. Ewing were both much frightened when they realized

Frank says it's rather late in life to speculate on making a fortune out of it but if it may lead to more human satisfaction he will feel fully compensated for his contribution to horticulture. Frank had heard a great deal

class one, also of ponies ridden by and everbearing raspbenies so he conceived the idea of everbearing and Mrs. Corneal Heyboer engrapes, and occasionally dreamed joyed an outing Friday evening, about it. Finally he planted the everbearing variety of :trawbergrape vine for the purpose of giving close observation and study to it, but this evidently automatically grape vine apparently took its cue from the strawberry vine and gave birth to new blossoming during the period of growing and maturing fruit. And Frank challenges any person to prove his grape vine is not the only one to do this since the dawn of civilization, and he savs he has the evidence of his claim on his vine right now. He has not yet determined whether he will arrange a change of season to permit his grapes to ripen at Christmas time or whether he will move the vine to other climes.

Within the past few years the ate game farm has been distributing Hungarian partridges in the southern counties. These birds have proved to be hardy in Michigan. They are somewhat smaller than our native grouse and do not much resemble either those or the pheasants. About twenty-five pairs will be released here where suitable 'cover" may be found for them. They, like the grouse, prefer wooded areas. Some of them have strayed into Michigan from placements made in Ohio and Indiana. For the present they may not be lawfully killed.
