Fire Destroys the Business Portion of the Thriving City of Victor, Colorado.

LOSS PLACED AT TWO MILLION DOLLARS

Post Office, Railroad Depots and Banks Swept Away - Buildings Blown Up by Dynamite to Check the Progress of the Flames, But the Effort Was Useless.

Cripple Creek, Col., Aug. 22.-Fire has utterly destroyed the business portion of the city of Victor, causing a loss estimated at \$2,000,000. Beginning shortly after noon, the fire raged until evening, consuming everything in its way. It had its origin, it is thought, in the Merchants' cafe, adjoining the their prisoners being Faure. Bank of Victor, on the corner of Third ing houses were afire.

Flames Swept Everything.

Help was summoned from Cripple Creek, but the town had been built in the early days of the camp and was of pine timber, for the most part, and burned like paper. Efforts were made to stop the progress of the flames by blowing up buildings in their path by means of dynamite, and all afternoon the hills have roared with the explosions, but the effort was in vain.

The fire claimed the Bank of Victor, the post office, on the corner opposite, crossed Third street and followed the row of blocks between Third and Fourth streets to the north, taking the Victor Banking company, the Western Union Telegraph company's office and the office of the Colorado Telephone company, the Hotel Victor, on the opposite side of Fourth street, and the three great shaft houses of the Gold Mining company, and its ore bins, among the largest in the Cripple Creek district. From there the flames were swept northward by the half hurricane which was blowing, and never stopped until they had taken the Florence & Cripple Creek depot and the fine new depot of the Midland Terminal road, at the head of Fourth street. All the buildings between these are a total loss, with practically their contents, for the flames were so rapid in their progress that nothing could be saved.

The burned area may be thoroughly designated as the space between the head of North street and Victor avenue, extending from the Gold Coin mine buildings on the west to a point near Second street, and down Third street

The first house was built in Victor in October, 1893. In July of the following year the city was incorporated, and six years later it contained 10,000 people. That is about the population now.

STREWN WITH CORPSES.

Six Hundred Residents of the Island of Andros Killed in the Recent Hurricane.

Jacksonville, Fla., Aug. 19 .- According to a Miami dispatch to the Times Union and Citizen, Capt. Dillon, of the steamer Cocoa, states that the town of Red Bay on the Island of Andros, 20 miles southwest of Nassau, was swept away in the recent tropical hurricane and about 300 lives lost. An eyewitness of the storm estimated that the loss of life on the island was fully 600. Scattered through the wreck of houses at Red Bay after the storm subsided, he said, were hundreds of corpses of persons of all ages and classes. Capt. Dillon says the wind blew at the rate of 90 miles an hour at Nassau, with occasional gusts which reached a velocity of 105 miles an hour.

The President's Plans.

Plattsburg, N. Y., Aug. 22.-President McKinley and party will leave here on Friday evening for Pittsburgh, where, on August 28, a celebration will be held in honor of the return of the Tenth Pennslyvania volunteers from president hopes to go to East Liverpool, O., to spend one day with his old friend, Col. J. M. Taylor. From there he will go to Canton for a few days' visit and to look over the old homestead he recently purchased. He will LIVE STOCKreturn to Washington about September 2.

Boycott Is Off.

Milwaukee, Aug. 22. - President Teney, of the local Coopers' union, has wired President Gompers, of the American Federation of Labor, that the boycott inaugurated by the coopers against the Pabst Brewery company has been declared off, and that the strike is at an end, the coopers giving in.

Crime of a Jealous Man.

St. Louis, Aug. 23.-A special telegram to the Post-Dispatch from Paris, Tex., says that Henderson Pierson, living near Davenport, Tex., in a fit of jealous rage shot and killed his wife and her mother. The murderer was arrested by his neighbors and lodged in the Clarksville jail.

The Hurricane Victims, Ponce, Island of Porto Rico, Aug. 22. -It is now estimated that the bodies of 2,500 victims of the recent hurricane have been buried, that 1,000 persons were injured during the storm and that 2,000 people are still missing.

WORK OF A MOB.

Which Many Persons Are Injured and Churches Wrecked. Paris, Aug. 21 .- Serious riots oc-

curred here yesterday afternoon. The trouble originated in an attack made by anarchists on anti-Semites.

A thousand anarchists under Sebastian Faure assembled in the Place de la Republique and resisted the police who attempted to disperse them. The latter fought bravely, but were finally overpowered.

A police commissary and an inspector attempted to arrest some rioters who were carrying a red flag, but they were trampled upon and beaten with bludgeons. A number of shots were fired by the mob. The inspector was mortally injured by the clubs, and the commissary was hit by a bullet, receiving a serious wound. Four other policemen were stabbed. Notwithstanding their defeat, the police made a number of arrests, among

Subsequent to the rioting in the Place street and Victor avenue. A strong de la Republique the mob marched to wind from the south fanned the flames | the Rue St. Maur, where they wrecked and in a few minutes all the surround- the churches of St. Maur and St. Joseph. A similar disgraceful scene was enacted at St. Nicholas' church. The mob tried to burn the churches, but in this dastardly attempt they failed.

The prefecture of police gives the following statistics of the riots: Injured, 380; taken to hospitals, 360; police agents wounded, 61; arrests, 150; detained in custody, 80.

The Secret of Health

The health of the whole body depends upon the blood and nerves. Therefore the medicine that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted nerve tissues, reaches the root of many serious diseases. It is these virtues that have

Dr. Williams' Pink Pills for Pale People

and caused the miraculous cures that have startled the scientific world. Thousands of cases have demonstrated that this remedy is an unfailing specific for such diseases as locomotor ataxia, partial paralysis. St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the aftereffects of the grip, palpitation of the heart, pale and sallow complexicall forms of weakness either in male or female.

Frank Tucker, is a prominent farmer, of Versailles, Indiana. His daughter, Lucy, is now fifteen years old; three years ago she began silling. The rosy color in her cheeks gave way to a paleness, and she began me rapidly thin. As she grew weaker she became the victim of nervous prostration. Most of the time she was confined to the bed and was almost on the verge of going into St. Vitus' dance.

"Finally the doctor told us to give her Dr. Williams' Pink Pills for Pale People. Said he was treating a similar case with them and they were curing the patient. We began giving the pills at once, and the next day we could see a change for the better in her. The doctor told us to keep giving her the medicine. We gave her one pill after each meal until she was well. We began giving her the medicine last August, and she took the last dose in October, having used eight boxes. She is now entirely well and has not been sick a day since. We think the cure almost miraculous."

Frank Tucker, Mrs. Frank Tu

Saugatuck's Greeting to Holland.

Train Day will live in the history of Saugatuck as one of the most eventful dates in the chronicles of that town. For on that day her citizens hailed with delight the consumation of a business project that put their village in closer touch with the outside world and joined it to a city that is glad of the union of social and geous to both communities.

and this city showed its appreciation lover of fair play, whose editors are of the greeting by sending 2000 people ever ready to deal justly with others. to respond to the welcome. The vanguard of this army of occupation consisted of a delegation of business and type of journalism by publishing the professional men headed by the West following in reference to this city: Michigan band. They were followed by a crowd that taxed the capacity of land. The county metropolis is certhe cars until late in the evening. But Saugatuck was equal to the occa- the best in Michigan. Sunday Services at Macatawa

The cars were crowded with Holland's best people last Sunday afternoon for many went to the Park to listen to Rev. John Van der Meulen of Grand Rapids who delivered the afternoon sermon. He spoke of the Prodigal Son and held the close attention of the congregation as he pictured in masterly style the lessons suggested by the subject. He said in part:

"Men are all hungry, it may not be for the same thing, but for something. Some seek for wealth, thinking that with it they can satisfy all the desires of the soul, but their souls are starying while they are counting out their thousands. Some seek for knowledge Raalte, toastmaster, took the meeting to satisfy the craving soul, but the old philosopher in his dying kour is not yet satisfied and is eager to read one more page before he goes. Some seek for glory, but is this passion ever satisfied? Ask the lonely exile on that island in the sea, as he looks with eager eyes toward the continent he once had hoped to conquer. Ask the young warrior of Greece, who weeps because there are no more lands to conquer. Others seek after ideals of men and women, but like the weeping Evangeline of Arcadia they never catch the realization of their ideal. These are the husks on which they strive to satisfy the exceeding hunger The Encampment at Grand of their souls.

"What is this need of which these desires are the different expressions? Amid all the movements, plans, desires, envies and plots of men we find the same hunger after something. It is all the yearning of the human soul for God. Men feel that they must have joy and satisfaction and some seek it in sensual pleasure, some in gold, and in all the various other desires of life, but in the last analysis all these are but the yearning after God and if this desire is not satisfied they become beasts.

"We now come to the soul's realization of its own hunger, just as the prodigal realized that he was perishing with hunger. Men's needs and wants are not synonymous. Man often wants things he does not need, and by great applause and made an exagain, man may need things and yet cellent speech in which he paid trimay not want them, but when like the bute to the soldiers of the civil war prodigal he realizes the hunger of his and expressed his belief in the patriosoul, he wants what he needs. Seriously Injured.

The success of the Soo City excursion to Muskegon Wednesday was marred by a deplorable accident to two young men of this city. While the steamer was landing at Ottawa Beach one of the fenders struck a er of the boat. Attracted by the sound Ed. Westveer, who were on the hurricane deck looked over the railing and were struck by the fender. They were knocked to the deck senseless and were soon surrounded by sympathyzing friends who did all in their power to restore them to consciousness and ease their sufferings. The boat swung round and landed at Macatawa dock where Dr. Baker was waiting by appointment made by telephone from the beach. He made the injured men as comfortable as possible and found upon investigation that Mr. Thole had five teeth knocked out and was badly bruised about the face and that Mr. Westveer was suffering from a severe blow on the skull and was in a critical condition. SHEEP FOUND IN ALASKA.

Flesh Said to Be the Most Delicious of All Wild Game and Is Much Sought.

This rare wild white sheep is found nowhere in the world but Alaska, and few specimens for mounting whole have ever been obtained, says a writer in Outing. This species, named ovis dalli by Prof. Dall, differs from its cousin, the Rocky mountain big horn (ovis montana) in color, ovis montana being a dull brown in midsummer, changing to a grayish drab in winter, with a light ashy-colored patch over the rump all the year, while the ovis dalli is snewwhite at all seasons; in fact, there is not a colored hair on any part of its body. He is not quite so stockily built as the "big horn," yet more trim and shapely. Two of my specimens stood 42 inches at the shoulder. His limbs are not quite so heavy, and his horns will not average as large at the base, although quite as long. The horns of my largest specimen of 1897 measured 411/4 inches in length and 12% inches in circumference at the base.

TO RECLAIM THE LAND.

Dikes Are Proposed in a Plan to Render Submerged California Estates Profitable,

Application of the Dutch method of diking has resulted in the reclamation of about 30,000 acres of low-lying ground in the basin of the Sacramento river, California, below the city of Sacramento, while work is in progress to cursions of the last 15 or 16 years. About AT HALF protect 20,000 more acres from the in-100,000 acres are yet to be drained in THE the Sacramento bottoms and a less area in the lowlands of the valley of the San PRICES Joaquin: Attempts at diking made over 20 years ago failed because the surface soils and the peat used in constructing the dikes could not withstand the wearing effect of the river's current. Much money was wasted and the disheartened workers abandoned the enterprise. The newcomers on the ground dug deeper than their predecessors and found a bed of potter's clay, which, when heaped up in levees, is baked by the sun to almost the consistency of pottery. Jewelers Have a Method of Number ing and Registering That Is of Lasting Value.

In these days of frequent robberies it is well to adopt some method of identification more sure than that of a simple recognition of one's own jewels. It is or skirt, strictly up-to-date and different from next to impossible to pick out one's own anyone's else, at a price no higher than asked ring from a collection of 20. An expert for ordinary ready-to-wear garments, should might do it, but few women can, says leave her measure with us and make selections the Chicago Times-Herald.

The best method is the jewelers' method. Every piece of jewelry they own is marked with an identification number. It is scratched by the jeweler soon as it is bought, and entered on his registry books with a full description of the setting and each stone. Examine your rings with a microscope and the numbers will be found.

Whenever an article of jewelry is repaired this number, with its repair registry number, is entered on the repair book wherever it is left. This is true of fishcakes you should not drown out the all articles of jewelry, but is particularly noticeable in the repair of watches... Every time a watch is cleaned its new number is scratched somewhere on the inside of the case. One can never deceive a jeweler as to the length of time since the watch was last cleaned, as he has it registered on his books.

If you cannot make out a jewelry descriptive list yourself, your jeweler will

LOOKS FOR EARLY END OF REBELLION.

Admiral Dewey in an Interview Says That a Solution of the Philippine Question Will Soon Be Found-Thinks That the People Are Able to Govern Themselves.

Plattsburg, N. Y., Aug. 21.-At the close of his interview with President McKinley Sunday night Gen. Merritt said:

"So far as I know there will be no immediate change in military commanders in the Philippine islands. Gen. Otis, whom I regard as one of the most capable and effi-cient officers in the service, will continue in charge of the American forces.

With an efficient force of say 50,000 troops I believe he will be able to put down the rebellion. Just how much time will be required, however, I cannot say. Aguinaldo and his men have put up a much better fight than I thought them capable of at the outset, but there can be but one outcome to the conflict, a complete victory for Amerlcan arms.

"I can now but repeat what I have said time and again, that the insurrection would have been broken ere this had it not been for the moral support which Aguinaldo and his men have received from the United

"The delay in the ratification of the peace treaty, coupled with the impotent opposi-tion to the administration's policy in the far east did more to encourage Aguinaldo and his followers than anything else. However, this is an event of the past and must be considered as such. "There remains but one thing to do, that

is to carry the conflict to a successful con-clusion. This result will, I believe, soon be accomplished by Gen. Otis and the corps of able assistants who have been assigned to his command. "Will you be sent to the Philippines?"

"Not now," replied the general.

WILL SOON BE SUBDUED.

Admiral Dewey Looks for an Early Solution of Philippine Question.

New York, Aug. 22. - A dispatch to the World from London gives at some length the London Daily News reported interview with Admiral Dewey at Naples. According to the correspondent Admiral Dewey began by saying that he regarded Cavite as the battle which decisively turned the fortunes of war in favor of the Americans. He added: "The Spanish ships were fought morning. Maitre Labori and Mme. Lawell all the same."

The correspondent asked him if the Philippines were likely to be pacified

The admiral replied:

"I have the question of the Philippines more at heart than has any other American, because I know the Filipinos intimately and they know I am their friend. The erecent insurrection is the fruit of the an-archy which has so long reigned in the islands, but the insurgents will have to submit themselves to the law, after being accustomed to no law at all.

"I believe and affirm, nevertheless, that the Philippine question will be very shortly

According to my view, the concession of melf-government ought to be the most just and most logical solution."

OUR TRUE MISSION.

dommissioner Schurman Gives His Views on Philippine Question. Ithaca, N. Y., Aug. 22.-Commission-

er Jacob G. Schurman reached Ithaca Monday. Since leaving Manila he has, he says, steadily refused to discuss Philippine affairs, although he has been besieged by reporters everywhere, Chicago reporters having gone as far as the Rocky mountains to interview him. However, he now makes the following statement:

"First, the United States, having assumed sovereignty over the Philippine is-lands by virtue of a treaty of peace with Spain, the chief executive of the republic is engaged in establishing that sovereignty. The issue to-day is not a commercial one, although the natural resources of the Philappine islands are of great value, and wait only American capital for the development. Nor is the question one of political ex-pediency or party politics, although in its collateral branch there may be aspects upon which political parties may properly divide, but the question to-day is neither one of commercial advantage nor of paran politics. It is a purely moral question. The vital issue is the honor of the nation, the protection of loyal Filipinos and the fulallment of our obligations to the nations of the world involved in our acceptance of sovereignty.

accomplishment of this end must be deter-mined by the president, and it is well to bear in mind that the president understands the situation better than anyone else can possibly do, inasmuch as he is in receipt of information from a variety of sources, civil and military, and has the judgment of experts upon the facts reported. I have no doubt the president will soon effect a solution of the Philippine problem which will

The Recent Hurricane Killed Many Persons Along the Coast of North Carolina.

SHIPWRECKED SEAMEN ARE IN NORFOLK

With Nothing in the World But a Few Tattered and Torn Clothes on Their Backs They Tell of the Horrors of the Tornado That Started in the Island of Porto Rico.

Norfolk, Va., Aug. 23.—Thirty-five shipwrecked seamen who had nothing in the world but a few tattered and torn clothes on their backs, some injured, and all miserable, arrived here Tuesday from Hatteras, N. C. From them it is learned that the recent hurricane which sent so many people to death and destroyed vast estates in Porto Rico, added another chapter to its horrors in a little stretch of beach from Kinnakoot to Hatteras, N. C. Thirty people are known to have lost their lives in this district, which is only 18 miles long, and the beach is strewn with spars, masts and other wreckage. The sailors say 11 vessels are ashore on the coast between Hatteras and New River inlet. No such damaging results has attended a storm on the coast in the past quarter of a century. Waves ran mountain high and the wind howled unceasingly several days and nights at a 75-mile velocity. That no more lives were lost in the vicinity of Hatteras is considered by the survivors nothing less than a mir-

Among those who arrived were ten of the crew of the barkentine Priscilla, Capt. Benjamin R. Springstein, of Baltimore. The Priscilla lies broken in three pieces on Gull shoal, 18 "miles north of Cape Hatteras. There were four fatalities shortly after the Priscilla went ashore, the captain's wife being washed overboard and drowned within ten minutes from the time the bark struck. The others who lost their lives were the captain's two sons, aged 24 and 12 years, a Mr. Goldenborough, connected with the Lee family, and a relative of one of the vessel's owners, C. Morton Stewart & Co.

AN AWFUL CRIME.

Three Tramps Shoot Down Two Brakemen and Throw Their Bodies Under the Moving Train.

Marshalltown, Ia., Aug. 23.-Three tramps stealing a ride on a Chicago & Great Western freight train that left here shortly after midnight shot and killed Brakemen J. T. Wilson and Conney Matthews and threw their bodies under the wheels.

The train had proceeded about two miles from the city when the two brakemen discovered the tramps and ordered hem from the train which was moving slowly. Instantly the tramps drew revolvers and fired. The brakemen fell wounded, but did not roll from the train. The tramps threw the wounded victims under the moving train and their bodies were terribly mangled.

At Melbourne the conductor missed the brakemen and a search was made and the bodies found along the track. The murderers escaped, but an armed posse at once started in pursuit.

Wilson lived in Marshalltown and Matthews in Des Moines. Both were married.

Big Demand for Poultry.

St. Louis, Aug. 22.-Since the advance in the price of meat, the demand for poultry has greatly increased. Eastern buyers are now scattered all over the state, and a large per cent. of chickens are shipped to the Atlantic coast cities. Until recently it was difficult for farmers living a considerable distance from a railroad to dispose of Stray Stories. their surplus.

A Minister Drowned. Des Moines, Ia., Aug. 23.—Rev. Frederick Paul Williams was drowned in the Des Moines river in the northern part of the city Tuesday afternoon. He was bathing with a party of friends, when he went beyond his depth and sank. The body was soon recovered. He was only 22 years old, a graduate of the Iowa state university and pastor of the Christian church at Adel.

Poorhouse Burned.

Big Rapids, Mich., Aug. 19. - The county poorhouse at Stanwood was burned at night. The fire started in the frame insane ward of which Adolph Murrin is believed to have been the only occupant. Murrin was burned to transit within 30 days. death. Many of the 40 inmates of the main building narrowly escaped.

Five Drowned.

Detroit, Mich., Aug. 21.-A Tribune special from Harbor Beach says: The schooner Hunter Savidge capsized Sunday afternoon in a squall off Point au Barques. Five of her crew were drowned. She was commanded by Capt. Sharpsteen, of Alpena.

Killed by Lightning.

Eau Claire, Wis., Aug. 21.—Artemus Coon, assistant superintendent of the Metropolitan Life Insurance company, was struck dead by lightning on the sidewalk on First avenue Saturday afternoon in a heavy rainstorm.

Killed Two Thieves.

Springfield, O., Aug. 23.-Two colored Springfield thieves were surrounded Tuesday and shot dead in a buggy by Urbana officers. The incident grew out of continued thievery at Urbana. Excitement is intense.

Singular Characteristic of the Samoans-An Illustrative Incident.

War is savage in its very nature, and one looks for war among savages to be peculiarly barbarous. That such is not always the case among the people of Samoa is attested by a letter sent from Samoa by an American gentleman who recently visited Apia, and who gives a description of Mataafa's army in camp after a battle between the rival claimants to the throne, says Youth's Companion.

"We went all about among the huts where the savages were resting after the battle and making preparations for the next fight. It was a very peaceful scene, for their arms were all concealed under the mats where the men sat, and many of the soldiers were accompanied by their wives and children. They were amusing themselves by smoking and beating tom-toms.

"The Samoans are a most amiable race of savages, and white people are always perfectly safe among them. Everywhere we were greeted with smiles and friendly nods and the salutation, 'Talofa,' which means 'Love to

you,' from men, women and children. "One instance of their friendly feeling occurred during the big battle. A white man, who lived in the street where they were fighting, saw that two of his horses had strayed out between the hostile lines. He did not want to lose them, and he did not want to venture out in the line of fire. So he stuck a white flag out of his window. Upon seeing it, both chiefs ordered their men to stop firing, and hostilities were suspended while the white man went out and drove his horses to a place of shelter. Then the combatants went at it again."

AFRICAN RIVERS.

Eight Months Out of Twelve They Are Dry and Drifts of Sand Mark Their Course.

It is a distinguishing feature of most African rivers that they contain no water for at least eight months of the year. It is true that water can almost always be found in a river bed by digging for it, but in outward appearances a river is usually a broad belt of sand lying between high and precipitous banks. Many and many a coach has been upset in one of these drifts, as they are called. The descent is always steep, frequently so steep that the brakes cannot hold the coach, says Gentleman's Magazine.

They start going down at a crawl, and then the coach gathers way and goes on with a rush, the mules are driven into a heap anyhow, and one wonders that they do not get their legs broken; but they usually land all right, while the coach, practically unmanageable, goes down like a sort of toboggan, jumping from stone to stone, and swaying like a ship in a sudden squall, and may or may not arrive right side uppermost at the bottom. In fact, the passenger who has gathered his ideas of coaching from a trip to Brighton or a drive to Virginia Water, finds that he has a lot to learn about the subject when he gets to South Africa. Still, on the whole, it was wonderful how few accidents did occur, and if one considers that the coaches ran night and day, and that when there was no moon it would sometimes be too dark to see the mules from off the coach, it reflects great credit on the drivers.

Over the Siberian Railroad Earth's Circuit May Be Made in Thirty Days.

A military gentleman declares that in the year 1902 he intends with a friend to travel around the world in 30 days. His companion will be Prince Hilkoff, the Russian minister of railways, says

"Suppose," he says, "we start from Baltimore. It is, say, 3,150 miles to Seattle; then, via the Pacific, to Yokohama 4,500 miles, whence to Port Arthur, via

Nagasaki, it is 1,200 miles more. "At Port Arthur we leave ship, and, going ashore, take train on the Manchuria extension of the Transsiberian railway for St. Petersburg, 5,600 miles, thence by rail direct to Berlin, 1,000 again, this time on the Atlantic, to New York, 3,200 miles, winding up with 200 miles or less of railroad.

"The total of rail travel is 10,700 miles. and of water 8,900 miles, an aggregate

of 19,600 miles. "An average of 40 miles an hour by train and 20 by ship would insure the

Prince Hilkoff declares that with the completion of the great Siberian line to Port Arthur and Ta-Lien-Wan in 1902, he will make the time from London to Shanghai 12 days.

The distance from London to Yokohama has already been done in 20 days.

A Duel by Post.

Dueling is passing out of France. Recently a Paris journalist offended an artist by a criticism, and in a letter received this: "You are below my level, so I simply send you a cuff on the ears by post." In response this was sent: "Thank you for the cuffs. In return I desire to shoot you by post with six bullets. Consider yourself dead!"
