

Major Martin Announces Democratic Student Rally at Clemson College

Appeal to be Made to Students to Support Roosevelt Campaign Fund

MONEY NEEDED

Friday, October 1, has been set apart as the school and college day of South Carolina for raising funds for the National Democratic campaign, according to an announcement made yesterday by Major S. M. Martin, of the mathematics department.

On this day, it is the purpose of the officials to canvass the schools and colleges of this state for funds to carry on the National Democratic campaign. Since South Carolina is still far behind its quota, it is the sincere wish that school students throughout the state will be able to contribute to this cause.

Other details concerning the drive will be announced later, it was said.

EMORY FIRST TO USE INTRAMURAL SYSTEM

Georgia Institution Introduces Method of Allowing Every Student Sport Activity

Atlanta, Ga.—With college interest centering to a greater extent than ever before on intramural athletics in place of the now highly commercialized intercollegiate system, Emory University is finding herself in the enviable position of forerunner of a reform movement.

But the system is nothing new in this Methodist controlled university. For over 40 years Emory has confined participation in major sports to inter-class and inter-organization contests on the campus, and students voted several years ago to spend the money annually spent in intercollegiate minor sports on the intramural system.

Lack Hatred

Yet, despite the lack of an intense athletic hatred or other schools, Emory has steadily grown even during the depression, students and officials heartily endorsing the program that gives every student a chance at athletic participation.

That interest is turning toward this system is not only born out by the letters received from colleges and universities throughout the nation desiring specific information, but Florida-Southern, Lambuth and Baltimore universities have recently adopted the system.

Required Athletics

Each freshman at Emory is required to spend several hours each week in some form of athletics, experimentation showing that the majority continue to participate in some form during the remainder of their college life.

Contests in the major sports are run on the league principal between classes, while fraternities and organizations have adopted the bracket system in the majority of sports. In addition, many of the sports have individual participation listings.

As further evidence of Emory's position in the movement, Emory debaters contested the intercollegiate policy in a NBC program from station WMAL in Washington, speaking against Said John Tillman, speaking for Emory:

Demoralizing

"The highly paid coach, the huge gate receipts, the recruiting from the high school, the demoralizing publicity showered on players, the devotion of an undue proportion of time to training, the devices of putting a desirable athlete, but weak scholar, across the hurdles of examination—all these are deplorable features of the intercollegiate athletic program; a program wholly inconsistent with the aims, ideals, and primary purposes of college and university life."

Judgement is the sum of all a man knows; character, the sum of all he is.

Riley Announces Agitation

Chancellor Jack Riley of the Benevolent Protected Order of Agitators has announced a meeting to be held in Room 329 Monday night. Agitation will begin promptly at eight o'clock.

A rumor that Walter Keys Lewis, Jr., will address the body at its first session was branded false by Vice-Chancellor R. E. Downey this afternoon. Only business plans are to be discussed, said Downey. All politics, well practically all, will be left out.

Members are asked to wear mackinaws.

Wilkie Sees Death of Knock-Knocks

(Continued from page one)

vous wrecks of several library assistants, the committee reported that the craze must have been originated by none other than Edgar Allen Poe. To prove this bold assumption the newshawks cited incidents in connection with one of the famous Southern writer's masterpieces—THE RAVEN. It seems that Poe was brooding one dark and stormy night when suddenly a sharp "Knock-knock" broke the silence of his gloomy room.

"Who's there?" inquired the noted writer.

"Nevermore!" quoth the intruder, obviously a Raven.

"Nevermore who?" stormed our intrepid poet, not to be outdone.

The reply to this immortal query has been lost, thank God, but it has been reported by more advanced biographers that as a result of this conversation, Poe was seen running screaming into the night wildly quoting, 'Bells, Bells, Bells, Bells, Hell's bells.

As far as we have been able to discover from an extensive study of the subject, the Knock-Knock is merely a device which enables the incurable punster to get away with arson, mayhem, and murder, so to speak. We'll admit, rather regretfully, that certain people derived genuine amusement from the pastime—even we were amused occasionally. We mention particularly, however, our own proverbial punsters and Clemson's "one-man Language department" who contributed several classics to the art. It is with pleasure that we announce that the fad is on the wane as a campus habit. To make the extinguishing complete, we humbly suggest that Capt. Harcombe inject a little Ethyl fluid or Gulf No-Knox into our palatable soup n hopes that what's good for stopping motor knocks will also prove detrimental to cadet Knock-knocks.

BEFORE TOO LATE GET YOUR COLLEGE RING

Bearing Official Seal
Certified
\$2.00 Value
only

25c

with the purchase of a bottle of

Parker Quink

at 15c—Total 40c...YOU SAVE \$1.75

The Parker Pen Co. makes this amazing offer solely to induce you to try Parker Quink—the remarkable new ink that cleans your pen as it writes—that dries ON PAPER 31% faster, yet does NOT dry in a pen.

Get Quink today from any store selling ink. Tear off the box-top, and on the back write the FULL NAME of your school or college, ring SIZE, and style wanted (man's or woman's) and your name and address. Then mail box-top with 25 cents in coin to The Parker Pen Co., Dept. 738, Janesville, Wis.

Don't delay. This offer ends Dec. 31, 1936, if supply lasts.

Tiger Coaching Staff

The Clemson coaching staff, the men behind the best Bengal eleven in recent years, look forward confidently to a great season. They are: (Top Row) Joe Davis, Bill Dillard, last year's grid star and new addition to the staff, and Bob Jones. (Bottom Row) Frank Howard, Head Coach Jess Neely, and Earle Hoagland. The coaches are putting the Tigers through a light work-out this week, fearing injuries before the Alabama tilt this weekend. Frank Howard, who scouted Alabama last weekend has conceded the locals an excellent chance of winning over the Tide, the strongest team in Southern football for the past three seasons. The team will leave for Tuscaloosa tomorrow.

B. F. Robertson, Jr. Visits on Campus

Associated Press Writer on Leave Here to Write Book

Mr. Benjamin F. Robertson, Jr., distinguished journalist and author, has returned to the campus on an eight month's leave from his duties with the Associated Press. He plans to write a travel book while here.

Mr. Robertson, a graduate of Clemson in the class of 1923 and later of the journalism school of the University of Missouri, has been associated with the AP for a number of years, serving as foreign correspondent, and in the various bureaus in this country. His last assignment was with the Washington, D. C., department, one of the largest operated by the Association.

Magazine Work

In addition to his newspaper work, Mr. Robertson has made several world tours and has contributed articles to TRAVEL, ASIA, and other magazines. He is at work now on his first book, a collection of adventures gathered on his world tours, both as a private citizen and as a journalist.

He is staying at the home of his father, Mr. Benjamin F. Robertson, Sr., who is a state chemist attached to the college.

Two Units Of New Barracks To Be Occupied Next Week

MODERN BUILDINGS TO HOUSE 400 MEN; SENIORS TO GO FIRST

Band, Senior Company and Two Regular Companies to Occupy Completed Building

WELL-EQUIPPED

Plans have been made for the first group of cadets to occupy a portion of the new barracks during the week ending October 2. At this time the first two barracks, which contain room for 200 boys will be completed. The remaining units, which will house 220 boys are scheduled to be completed the following week. The buildings, offering living quarters of a most modern type have been designed to accommodate two cadets to a room. In addition to the regulation rooms, comfortable lounging rooms for visitors have been designed. Basements of two of the units will provide space for the offices of the two student publications and an indoor rifle range.

Relieves Crowding

The completion of the new barracks will greatly alleviate the somewhat crowded condition now existing in old barracks and will be welcomed by cadets staying four in a room and those occupying the temporary barracks which were erected last year. This completion also marks an important step in the progress of Clemson's extensive building program which was begun in an effort to facilitate the accommodating of the ever increasing student enrollment.

Minor Block C To Add Nine Members

Initiation Gets Under Way As Junior Sports Organization Inducts

For the first time in the history of the organization, the Minor Block C Club is holding an extensive initiation period. This initiation will last for two weeks during which time nine new members will be taken into the club. Of the nine candidates, five will receive minor blocks for service on the rifle squad, two for the swimming team, and two for their activities as cheer leaders.

New Members

The nine members to be inducted are H. B. Risher, K. S. Laney, R. H. Martin, W. M. Gordon, and R. B. Wearn of the Rifle Squad; C. B. Little and R. L. Farmer of the Swimming Team; and E. R. Smith and J. W. Murray, Cheerleaders. Directing the activities of the club this year will be G. H. Durban, president; H. P. Bacot, vice-president; and Eddie Heikkila, secretary and treasurer.

Dr. Cooper to Present Paper To National Agricultural Conference

Dean of Local School Attends Conclave Sponsored by Ag Editors

LAND SURVEY

Dr. H. P. Cooper, Director of the South Carolina Experiment Station, left Tuesday to attend the "Pasture and Hayland Conference" sponsored by the American Agricultural Editors Association and the National Fertilizer Association. The conference is being held today and Dr. Cooper read a paper entitled "Grass Farming in the South—For Profit and for Soil Conservation."

Land Survey

Among other things Dr. Cooper pointed out that the recent land uses survey made in South Carolina showed that 41.38% of the soils of the state were strongly acid at the time the survey was made. He further stated that this condition is probably representative of the conditions in all the Southeastern Coastal Plains States.

The less acid lands are used for cash crops, while those which are strongly acid are commonly used for hay and pasture purposes. This accounts for the unusually low returns generally secured from our pasture and hay lands. Until the condition is corrected, it will not be possible to secure satisfactory returns from these lands.

Experiment Station

Calling attention to the research work on pastures conducted by the Dairy Department of the South Carolina Experiment Station, Dr. Cooper emphasized the value of the use of lime and phosphorus in developing profitable pastures in the Southeast. Much of the pasture land needs from one to two tons of limestone per acre to bring about a favorable reaction for leguminous pasture plants and most of these soils will respond to an annual application of 200 to 300 pounds of 18 per cent superphosphate. On seep land terracing and contour furrowing will conserve the rainfall and help to maintain the pastures in good condition during dry summer weather.

The studies by the South Carolina Experiment Station showed that pastures at Clemson College when limed and fertilized with superphosphate furnished grazing equivalent to more than four tons of alfalfa hay per acre per year.

The results of these experiments will shortly be published in bulletin form.

ARTCRAFT 313 ALLEN Grand Rapids, Michigan

COLLEGE DANCE BAND AGAIN TOURS EUROPE

Successful Foreign Engagement Completed by Jungaleers; Well-Received

WELSH DIRECTS

To add further reknown to their reputation as one of the South's better collegiate orchestras, Clemson's Jungaleers once again took advantage of the summer vacation to make an extensive tour of Europe. The musicians who left New York harbor on June 3 aboard the Cunard White Star Liner Laconia were Emmons Welch, Herbert Erpool, from which point an e Greene, Judson Wilkes, John Massey, and Gordon Walker. After nine days of playing on the Laconia, the band docked at Liverpool, from which point an eventful tour of various European countries was begun.

Principal cities included in the Jungaleers' itinerary were Brussels, Berlin, London, and Paris. During their stay in London, the crew of musicians witnessed a highly interesting British Military program which included pageants, parades, and demonstrations which were of particular significance due to Europe's unsettled condition. Another high spot on the program was a visit to famous art galleries of the Louvre. The trip, which gave the cadets an excellent opportunity to see something of the Old Country and which resulted in much favorable publicity for the college and the orchestra, was concluded July 5 when the musicians left Havre for New York.

J. L. Hoffman, '32, is teaching school at Bamberg.

Week's Prize Remark

Prize freshman remark of the term came to light at last Saturday's inspection.

An inspecting officer, noticing a freshman trembling by his bed with bent knees, shouted, "Don't you know you are supposed to be at attention?"

"But, sir", replied the rat, "I am at attention. It's my pants that are standing at ease."

WORK UNDERWAY ON NEW TENNIS COURTS

According to a statement issued by Mr. J. C. Littlejohn, Clemson College business manager, work will begin in leveling the southside slope at the rear of the fieldhouse to provide for the new tennis courts. It is expected that the project will be in full swing in about two weeks.

The courts will be ideally situated, being close to the barracks and easily accessible by way of the newly paved road.

NYA WILL RELEASE MILLIONS THIS YEAR

\$5,057,630 to Be Spent on Regular Student Benefits; \$629,135 to Drought Area

EARNINGS ARE SAME

Washington, D. C.—So that college and university students who have been shadowed by the spectre of depression may continue their higher education, the National Youth Administration of the federal government this year will distribute almost six million dollars among the collegians of the 48 states.

A recent announcement of Deputy NYA Director Richard Brown revealed that \$5,057,630 would be spent on regular undergraduate and graduate benefits, but that this would be supplemented with a fund of \$629,135 for distribution to students in the 20 drought-ridden states of the south and middle west.

Where violence reigns, reason is weak.—Chamfort.

PRINCE ALBERT THE NATIONAL JOY SMOKE

ANNUAL EDITOR ASKS EARLY FEE PAYMENT

Folk Urges Student Cooperation; Promises Early Appearance of Taps

RATES ANNOUNCED

William Folk, Jr., editor-in-chief of the 1937 TAPS, in a recent interview urged the wholehearted support of the corps of cadets in the publication of this year's annual. At the present rate of work, TAPS will go to press around the first of the year and will be obtainable by the corps at a date which will be greatly in advance of the time most college annuals make their appearance. With such a task in view, Folk said that it would be impossible to have the annual ready at the scheduled date without the cooperation of the entire student body and urged that this cooperation be forthcoming thus resulting in what may well be the best yearbook ever produced by the corps.

TAPS Rates Announced

Oscar Says

(Continued from page four)

OSCAR SAYS

--that he even though he is averse to the practice on principle, he found standing in line fifteen minutes to get to dance with La Weeks worth it.

OSCAR SAYS

--that he notices that Captain Buckner is still running hot on the bust sheet, but that the award this week goes to Lt. Col. Prestwood who sends runners around to his company commanders with orders from battalion headquarters.

OSCAR SAYS

--that one of his assistants just came in with two Winchell birth predictions, but that he hasn't stooped that low--yet.

Cadets are urged to pay their TAPS space to the most convenient collector at the earliest possible moment. Space for this year will be as follows:

Freshmen	\$1.50
Sophomores	2.00
Juniors	2.50
Seniors	5.00

New Enrollment Figures Show Rapid Increase in Clemson Student Body

HARVARD SCIENTISTS WOULD RULE MINDS

Court of Wisdom to Unify World Thinking is Advocated at Harvard

Cambridge, Mass.—A "Court of Wisdom" that would meet each year to coordinate the intelligence of man into a unified "world mind" is now being considered by world scientists after the successful Conference of Arts and Sciences held here to celebrate the tercentenary anniversary of the founding of Harvard College.

The world can be assured of a continuance of Western civilization only through the advice and guidance of the world intellectual leaders, acting as a permanent body and organized along the lines of the Harvard conference, the leaders of the movement claim.

Two Thousand Mark is Predicted by Registrar For Next Few Years

A statement from Mr. Metz, college registrar, reveals that in a few short years, Clemson has increased its student body to over four times the original enrollment. Of the 1593 students enrolled this semester, 596 are freshmen. The number of transfer students has not yet been determined. At the present rate of increase, the college will have an average enrollment of two thousand students within the next few years thereby ranking Clemson among the South's largest colleges. The following figures indicate the growth of the student body from the founding of the college to the present time:

1893	44 students
1906-07	658 students
1916-17	853 students
1926-27	1137 students
1936-37	1593 students

TWO TEXTILE GRADS SECURE NEW WORK

Duval and Snipes are Transferred From North Carolina to Illinois

PROMINENT MEN

L. S. Duval and T. F. Snipes who completed the Weaving and Designing course at Clemson in June, 1936, have been transferred from the Marshall Field Plant at Spray, North Carolina, to the Marshall Field Lace Industries at Zion City, Illinois.

Duval was President of the Clemson Chapter of the Phi Psi, national honorary textile fraternity, last year. Snipes was a Lieutenant on Band Company, and President of the Weaving and Designing Club, honorary society for students taking the Weaving and Designing course.

A postage stamp is a mighty small thing, but it has achieved a wonderful success by simply sticking to one thing until it got there.

— for Digestion's sake ... smoke Camels

Science Confirms the Truth of the Popular Phrase "For Digestion's Sake ... Smoke Camels"

WHETHER your meal is a banquet or a sandwich, a Camel gives it more zest. Scientists have found that Camels gently stimulate the flow of the digestive fluids... alkaline digestive fluids... necessary for good digestion. Worry and nervousness interfere with this flow. Camels increase it! With their finer, costlier tobaccos, Camels give mildness a new meaning. And they have a matchless flavor all their own!

Copyright, 1936, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

LONG ASSIGNMENTS call for increased mental effort. Camels help you with their cheering "lift." Enjoy Camels, too, for their aid to digestion. Camels never jangle your nerves or tire your taste.

ROARING WIDE OPEN as constant vibration hammers at his nerves and digestion. Fred Jacoby, Jr. (above), says: "Camels make food taste better and help me get the good out of what I eat. Camels set me right!"

FIRE-CHIEF Frank Gilliar (above) forgets about food and rest till the last spark is out. He says: "Camels put back into eating the joy that nervous strain takes out of it."

WHEN WASHINGTON DINES. The Presidential Room, main restaurant of the Mayflower Hotel, presents a memorable scene as famous men... beautifully gowned women... diplomats and statesmen gather. The famous Mayflower kitchens give forth a stream of tempting dishes. And from table after table the fragrant smoke of Camels rises. Commenting on the preference for Camels at the Mayflower, the famous *maitre d'hôtel*, Fred, says: "Our cosmopolitan clientele prefer Camels."

HOLLYWOOD RADIO TREAT! Camel cigarettes bring you a FULL HOUR'S ENTERTAINMENT! Two great orchestras and glamorous Hollywood Guest Stars. Tuesday—9:30 pm E. S. T., 8:30 pm C. S. T., 7:30 pm M. S. T., 6:30 pm P. S. T. WABC-Columbia Network.

COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

ASME CHAPTER HERE PLEDGES 15 JUNIORS

Professor Furnow Addresses Group In First Meeting of Season

INITIATION UNDERWAY

The student branch of the American Society of Mechanical Engineers formally began its 1937 season with a meeting last Monday night at which time 15 outstanding Juniors were elected to membership thereby giving promise of making the enrollment the largest in several seasons.

Fernow Speaks

Prof. Fernow, of the engineering department, was the principal speaker of the evening after which plans were discussed for the initiation of the new members. The initiation started today and will continue for 10 days during which time the "Nephytes" will furnish cigarettes, mints and chewing gum to the older members.

Varied Programs

The ASME program for this year will be especially interesting, according to J. T. Mann, president of the society. Plans have been made to have several outstanding engineers of the state to address the members. Trips to power plants and other engineering projects are also part of the educational program arranged for this school session.

By way of increasing enjoyment of football through more intimate knowledge of its finer points, Coach Charles E. Dorais of the University of Detroit conducts free football clinics for fans.

Yale University is having the home of Noah Webster razed because no one would furnish the funds for its upkeep.

Literary Society Membership Reaches New High After Giles' Chapel Speech

Many Members Answer Call as Officers Forsee Most Successful Year

REORGANIZATION

Following a spirited talk in chapel by E. S. Giles, Palmetto Literary Society president, the society's hall was packed to overflowing at the initial meeting Tuesday evening.

In his chapel oration, Giles stressed the benefits to be received from such an organization; and commented heavily upon the effect of public speaking training as an invaluable aid to a man entering the business world.

The results of the first meeting show a broken attendance record; greatest all-time interest ever shown in a literary organization at Clemson College; a long waiting list of prospective members; and prompt payment of dues which gives evidence of eagerness and enthusiasm of new members.

The outlined activities point with sureness to a highly successful year. A few high spots will be intercollegiate debating; radio broadcasts by student members; and cash prizes to be awarded for orations, impromptu speeches, and short talks.

To add to the formality of the meeting, officers will wear the robes of office. The officers are E. S. Giles, president, from Greenwood; vice-president, E. D. Wells of Savannah, Ga.; secretary, J. C. Boesch, Charlotte, N. C.; and K. H. Inderfurth, Mystic, Conn., will serve as treasurer. Dr. D. W. Daniel, Dean of the School of General Science and widely known for his speaking ability, will be honorary critic.

For a statement Dr. Daniel gave the following: "The train-

The Music Goes Round

SHIFT

To be sure you know what you are getting for the next week or so we advise that you keep a radio program at your elbow at all times. Before you know it you'll be tuning in on a cooking lesson or maybe a kiddie story hour instead of getting the Breakfast Club or your favorite morning recorded program.

TONE 'EM DOWN

Another tip if you don't mind. Probably you can study anywhere at any time without worrying the least bit about noise, but everyone isn't built that way. Now there are nearly 1600 boys here this year and a great many have radios. Education today would hardly be complete without up-to-the-minute news of the country. But let's think of the other fellow when we cut the boxes on at night and keep the volume toned to a minimum. We all will get along much better, and the bust sheet may not look so voluminous.

You probably remember them as Eddie and Ralph, "Sisters of the Skillet", but now you will have to be introduced to the "Quality Twins". Ed East and Ralph Dumke will be on the air during your 11 o'clock Tuesday vacant, beginning at 11:15 over

ing that I received in a literary society has been of more value to me than has any other course of study in any college or university. Public speaking is a training that increases in value as a man grows older".

your favorite CBS station. . . WLW pulls a fast one through the medium of its sound effect department. When the noise boys were turned away from the zoo where they went in search of a rattlesnake's rattle for a detective story program, they all lost hope, that is with the exception of Don Wingate. This chief sound engineer got the best of the serpent family however, when he turned up for the program with a special infant's rattle. It's all in a day's work. Did you know that just ten years ago the National Broadcasting Company had only 19 stations in its full hook-up? But today 98 stations have affiliated themselves with NBC. WDAF in

Grid Stars Strike At Susquehanna U.

Football Players Ask For Higher Wages; Demands Denied by University

CONFERENCE RULING

Spains Grove, Pa.—Susquehanna University's football players have gone on strike for higher wages because the time taken by practice caused their employers to reduce their wages. Demands of the university to reimburse the students for their losses were met with flat denials from the university's president because of conference rulings against paying athletes.

Kansas City was the westernmost station in 1926, but now we find the Red and Blue network programs going out from Honolulu.

NBC can boast the largest broadcasting studio in the world in Radio City which has a seating capacity of 1,500.

J. H. Cochran, '35, has been awarded his master's degree at the University of Wisconsin where he pursued graduate work during the past year. He has a position in Wisconsin and will enter the University in the fall for work toward a doctor's degree.

FOR HIGHER GRADES IN COLLEGE

Get the Pen That Never Runs Dry in Classes or Exams

The All-American College Favorite

With Double Ink Capacity and Full-length Visible Ink Supply Shows DAYS AHEAD When It's Running Low

Do the thing that you know is the thing to do—replace your old-style pen with this miracle Vacumatic—Parker's revolutionary invention that holds 102% more ink WITHOUT INCREASE IN SIZE—that shows the ENTIRE ink supply, not merely the last drop—shows not only when your pen is empty, but shows DAYS AHEAD when it's running low, so it CAN'T run dry against your will!

Today the Parker Vacumatic is the world's long-distance writer and Style and Beauty Winner—the sacless marvel whose simple working parts are sealed in the top—never touched by ink, hence won't corrode or fail. That's why it's GUARANTEED Mechanically Perfect.

In the hands of millions of users, using all kinds of ink, this marvelous pen has repeatedly proved that it "can take it" anywhere and any time—it never leaves its owner gasping for ink in classes or exams.

If you'll go and try its marvelous

SCRATCH-PROOF Point of precious Platinum and Solid Gold, you'll give your old-style pen to the rummage sale. Look for the smart ARROW clip—this ARROW identifies the genuine. The Parker Pen Co., Janesville, Wis.

Junior, \$5 Over-Size, \$10 Pencils, \$2.50, \$3.50 and \$5

WHEN the class of 1917 was at college, a long distance telephone call took (on the average) more than ten minutes to be put through.

This time has been whittled down gradually, so that now the connection is made in an average of 1.4 minutes—nine out of ten of them while you hold the line.

But this is only one phase of the relentless effort to improve. Your service is better today because voice transmission is clearer—interruptions and errors less frequent than ever before.

America demands fast but sure telephone service—and gets it.

College men and women find after 7 P. M. a convenient time for long distance calling. Moreover, most rates are lowest then.

BELL TELEPHONE SYSTEM

EPISCOPAL STUDENTS PLAN MANY DINNERS

Club to Sponsor Fellowship Banquet in Parish House

VESTRY ELECTED

To facilitate the acquaintance between the Episcopal cadets, plans have been completed for a series of dinners to be attended by two members of each class, the rector, and a prominent faculty member. The meetings will be given in rotation until every member of the club has been extended the hospitality of the church. In addition to these dinners, the regular Wednesday night meetings are to be continued. It is at these meetings that the cadets have a chance to express their unbiased opinions of the affairs of the day. An effort is also being made to provide a suitable place for students to participate in basketball, handball, tennis, and other minor sports.

Junior Vestry Elected

A Junior Vestry to aid in the handling of the extensive program has been formed of the following members: J. S. Baskin, J. H. Byington, sophomores; J. C. Wilkinson, M. M. Miller, juniors; and E. D. Wells and H. T. Malohe, seniors.

New York University has a new course in cosmetic hygiene.

Dr. A. Lawrence Lowell, president emeritus of Harvard University, recently failed to pass an automobile driving examination.

When you find a willing help don't take advantage.

Clemson College Boasts Largest Band in Years; Seventy Pieces

FIVE MEN TAPPED BY SCABBARD AND BLADE

(Continued from page one)

Tiger Brotherhood.

Informal initiation for the new members starts Friday morning and will last two weeks.

For the past two weeks, plans have been going forward for sending a representative of the local chapter of Scabbard and Blade members, which is to be held at Raleigh, N. C., November 19, 20, 21. Gathering at the North Carolina state capitol for a three day session will be cadet leaders from all parts of the United States.

Elected to go as a delegate, J. F. Dunlap, captain of the local chapter, and also Brigade Commander, will represent the Clemson unit of the national fraternity.

Two French university students commissioned by France's ministry of education are now touring American universities to examine the social life of the American student.

Anthropological measurements of University of Kansas freshmen compared with those of selected list of other schools recently revealed that these men were taller, about the same in weight, and less in girth and chest.

Student Director C. G. Frye Rounds Musical Unit Into Shape

TRIPS PLANNED

Clemson College's crack 70-piece band under the direction of Lieutenant C. C. Frye, student director, has impressed the entire student body with its early development and the speed with which the freshman members have been rounded into form. This is due mainly to the extensive practice sessions which the organization has lately been holding.

Valuable Freshmen

There are several quite exceptional new students who will add much to the musical unit in short time and with the time drawing nigh for the first brigade parade of the year it is expected that the outfit will be in top form by then.

Trips Are Made

The college band is called upon at all times throughout the year to play at gatherings and feature occasions in all parts of the state. Several trips are always made either with the varsity or freshman football team, adding much to the color of the proceedings and causing many fine comments on the part of outsiders.

What is truly valuable in our bustle of life is not the nation, I should say, but the creative and impressionable individuality, the personality—he who produces the noble and sublime while the common herd remains dull in thought and insensible in feeling.—Albert Einstein.

Alumni News

ROTH ON CAMPUS

Louis Roth, Class of '29, who is now employed as Project Manager, National Park Service, Columbia, S. C., was a visitor to the campus Friday.

SPARTANBURG CADET CLUB ELECTS LEADER

O. W. Leonard Outlines Activities to be Carried Out by Organization

DANCES PLANNED

As the initial step in an extensive program intended to bring together Spartanburg boys and to promote among the freshmen and upperclassmen of the county a better spirit of understanding and fellowship, the Spartanburg County Club held its first meeting of the semester Wednesday night. From the sixty cadets present, a nucleus for a progressive club was formed. Under the direction of Pres. O. W. Leonard, plans for an active program for the coming year were discussed.

Dances Planned

High spots for the year's program included plans for the continuation of the regular scheduled meetings, banquets, and socials, to be held on the campus. Committees were appointed to formulate plans for dances to be held in Spartanburg during the various school holidays. By cooperating with other county clubs, it is hoped that some of the South's most popular dance orchestras can be obtained to make the Holiday Hops gala events.

Chesterfield Wins

...for tobacco
cut right to smoke right

There's a right way to carve a chicken or slice a ham.
And there's a right way to cut tobacco.

When the tobacco in your cigarette is cut the way
it is in Chesterfield... right width and right length
... it burns even and smooth... it smokes better.
