

FACULTY MEETING
January 30, 1948

The faculty of Clemson College met in the Chemistry Lecture Hall at 5:00 P.M. on Friday, January 30, 1948, with President Poole presiding.

After the reading by the secretary of the minutes of the previous meeting, held on Monday, September 8, 1947, the President turned immediately to the business at hand; i.e., the approval of candidates for degrees to be awarded at the mid-year graduating exercises scheduled for Sunday, February 1 at 11:30 a.m. in the college chapel.

Candidates from the several schools were recommended in the following order and by the following men: School of Agriculture, Dean H. P. Cooper; School of Arts and Sciences, Professor M. E. Bradley, acting for Dean F. M. Kinard, who was absent; School of Textiles, Dean H. M. Brown; School of Education, Dean W. H. Washington; School of Engineering, Professor John Gates, acting in the absence of Dean S. B. Earle and Vice-Dean J. H. Sams; School of Chemistry, Dean H. L. Hunter.

The President then accorded Dr. G. H. Aull the honor of presenting the names of the four candidates for the M. S. degree - the first to be awarded under the present graduate program - since all four were majors in Dr. Aull's department, i.e. Agricultural Economics.

It was moved, seconded, and approved by unanimous vote that all of the degrees recommended should be awarded. A list of these is appended to this report.

Professor B. E. Goodale then announced plans for Religious Emphasis week to be held the third week of February, Monday through Thursday, and urged faculty attendance and support.

The Registrar, Mr. G. E. Metz, then announced plans for registration for the second semester and called attention to a meeting on Wednesday, February 4, in order that those concerned with registration might become familiar with the changes brought about because of the installation of IBM equipment.

The President in his brief remarks touched on the following points:

1. Expressed the hope, since members of the faculty have been closely confined to the campus for several years, that in the future those who wished to get away for a few days would not feel obligated to remain on the campus just to attend the pre-graduation faculty meetings, as there should be a sufficient number left on the campus to approve the awarding of degrees.

2. Called attention to the steadily growing endowment, secured from the Kress Fund and other sources, said that some gifts had been entirely unexpected; that the present real value of the endowment approximated \$1,000,000; and urged members of the faculty to avail themselves of the opportunity to make applications for grants-in-aid for research.

3. Said that he was still hoping that the Ravenel Tract could be made available to the faculty for home sites and that he was exploring the possibility of the college's furnishing lumber and other building supplies, including hardware, at cost.

4. Announced plans for graduation exercises and said that the address would be delivered by the Hon. R. M. Cooper, Life-member of the Board of Trustees. The President said that he regretted the criticism arising from the fact that the exercises would be held on Sunday and that there would be no baccalaureate sermon, but that he thought the

presence of two ministers on the platform, together with the invocation and benediction to be given by them, would to a considerable degree create the atmosphere to be desired for the occasion.

5. Said that during the second semester the faculty would be given an opportunity to vote on the question of wearing caps and gowns in future graduating exercises.

The President then called for announcements from the floor. Dean H. L. Hunter then announced the meeting of the Western Carolina Section of the American Chemical Society to be held at Clemson on Tuesday, February 3, and invited the faculty to attend the meetings, stressing particularly an address to be given by Dr. Alfred Burger of the University of Virginia on the subject, "Medicinal Chemistry Since the War."

There being no further business, the meeting was adjourned at about 5:50 P.M.

Respectfully submitted,

Joseph C. Green

Joseph C. Green, Secretary

Report of General Faculty Meeting

Friday, June 4, 1948

The faculty of Clemson College met in the College Auditorium at five o'clock on Friday June 4, with President Poole presiding.

Turning at once to the business at hand, the President recognized the deans of the several schools who presented the names of candidates for degrees in their respective schools. These lists, a copy of which is appended to this report, were approved by the faculty.

In making his recommendations, Dean Cooper announced that the Anderson Fellowship was awarded this year to L. A. McInnis, with L. H. Moore as alternate.

The President then asked the faculty to approve the awarding of three honorary degrees recommended by the faculty council: that of Doctor of Laws, to be awarded to George Daniel Grice, President of the College of Charleston; that of Doctor of Science to be awarded to Frank Hamilton Jeter, Agricultural Editor and Director of the News Bureau of North Carolina State College; and that of Doctor of Education to be awarded to Mark Anthony Smith, superintendent of Schools of Bibb County, Georgia. The faculty approved unanimously.

The President then asked the Chairman of the standing committee to give brief synops~~is~~es of their annual reports, complete copies of which are appended to these minutes and will, according to custom, be mimeographed and put into the hands of the faculty.

Dr. Sheldon, Chairman of the Scholarship and Honors Committee, reviewed the history of the Norris Medal and cited the records to show that only two stipulations in regard to it were of record: first, that according to the terms laid down by the donor, the medal should go to the senior who the faculty thinks merits it; second, that, according to a ruling of the faculty made in 1937, the committee could not consider anyone whose grade point ratio was more than one-half a grade point from the highest grade point ratio of that year.

Since the idea had prevailed in recent years that the medal was awarded to the student having the best all-round record and since the committee felt that, in making a selection for an award of this kind, it should have a little more latitude than half a grade point, Dr. Sheldon, in behalf of the committee moved the adoption of a motion consisting of three points:

- (1) That the Norris Medal be given annually to the Senior having the best all-round record.
- (2) That only those seniors within a range of one grade point of the highest grade for the year be considered.
- (3) That some organization annually award a medal for the highest grade point ratio.

After considerable discussion and the defeat of a motion to table, the first two points of Dr. Sheldon's motion were adopted by the faculty.

Dr. Sheldon then announced that the winner of the medal for 1948 was James Henry Walker, III, of Griffin, Georgia.

Dr. Thomas B. Alexander, President of the Clemson College Chapter of the American Association of University Professors, then moved the adoption of several resolutions which had been approved by the local chapter. A copy of these resolutions had been put into the hands of each faculty member as he entered the auditorium and a copy is appended to these minutes. These resolutions were adopted by the faculty.

The meeting was then adjourned at 6:45 p.m.

Respectfully submitted,

Joseph C. Green

The following RESOLUTIONS were approved by the Clemson College Chapter of the American Association of University Professors for presentation to the faculty for action:

1. Resolved that orientation sessions be held for all new faculty members during the first week of the fall semester to build morale, to acquaint them with resources for instruction and research at Clemson College, and to put emphasis upon teaching for the sake of the whole college as well as for the sake of the department.
2. Resolved that a faculty committee be appointed to prepare a concise summary of the history, purpose, and operational procedures of Clemson College to present to faculty members; that this manual be revised at frequent intervals; and that the following statement be included in the manual: "Initial employment as a faculty member marks only a change in the scene of self-education, not a terminal point, and the attainment of permanent tenure marks arrival at self-responsibility for continued growth, not the peak of educational attainment."
3. Resolved that Clemson College establish a center for audio-visual aids which will assist faculty members in selecting and procuring the use of recordings, motion pictures, filmstrips, slides, exhibits, and other similar instructional aids.
4. Resolved that each faculty member should, whenever practicable, attend state, regional, and national meetings of professional organizations in his subject-matter field.
5. Resolved that the faculty hereby expresses appreciation to the Clemson College administration for its assistance to faculty members attending regional meetings of professional organizations during the past year.

Report of General Faculty Meeting

Monday September 6, 1948

The faculty of Clemson College met in the College Auditorium at four p.m. on Monday September 6, 1948, with President Poole presiding.

Following the reading by the secretary of the minutes of the previous meeting, President Poole addressed a few words of welcome to the new members of the faculty. He emphasized Clemson's accessibility by railroad or highway; called attention to the improvements in housing and especially to the new homes being built by recent additions to the staff; and again expressed the hope of the administration to work out some plan for aiding faculty members in securing sites for homes and obtaining building materials at as low a cost as possible.

He expressed the hope that every member of the staff, administrators and teachers, would feel the responsibility for doing what he could to instill in the students the proper conception of gentlemanly deportment and thereby make impossible the repetition of the abuses which marked the observance of senior day last spring.

He spoke of the large number - approximately 650 - scheduled to be graduated during the new school year. As the greater part of these are veterans and the replacements would be largely regular cadets, he expressed the belief that disciplinary problems should begin to be less serious.

The President then commended highly the work of the group - composed largely of the newer members of the faculty - who had been responsible for the compiling of the new faculty handbook of information and also the work of the Sage Club in arranging orientation meetings for new faculty members.

The President then recognized Dean Cooper, Dean Kinard, Dean Earle, Dean Hunter, Dean Brown, Dean Washington, and the new Commandant, Colonel W. S. Morris, who introduced the new members of their schools or departments. A list of the names of these men is appended to these minutes.

President Poole then recognized Miss Graham, the college librarian, who invited new faculty members to visit the library and make a request for any books or journals which they might like to have the library secure.

Dr. Rutledge, in the absence of Dr. Bolen, then extended an invitation to the new members of the faculty to attend an orientation meeting as the guests of the Sage Club on Monday, September 13 at 7:30 p.m. at the Y.M.C.A.

Mr. G. E. Metz, the Registrar, then gave necessary information as to matriculation procedure and transmitted a request from the American Legion for volunteers to assist with the registration for selective service during the period of September 7 - September 18.

President Poole then read a letter from the college surgeon requesting newcomers with young children to keep the children at home for two weeks if they had visited a section of North Carolina or any city or town in which polio was prevalent.

The President called attention to the fact that tickets for the concert series had been reserved for new faculty members and that if desired the tickets could be obtained from his office.

In conclusion, he extended an invitation to all people in the community to attend a reception at his home on Thursday, September 16 from 8 to 10 in the evening in honor of new members of the faculty.

The meeting was then adjourned at 5:15 p.m.

Respectfully submitted,

Joseph C. Green

Secretary
