Dabney, 1887-1904 by an authorized administrator of TRACE: Tennessee Research and Creative Exchange. For more information, please contact trace@utk.edu.

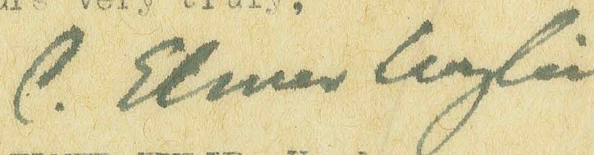

June 5, 1923.

Prof. M. Mulvania,
Bacteriology Dept.,
University of Tenn.

Dear Sir:

I have read the article of June 2nd in the Journal & Tribune and your letter to Pres. Morgan in regard to a survey which you made in order to gather suggestions for the President for the betterment of this Institution. This whole matter has been given an unwarranted and objectionable notoriety and the subject matter of your report has been attributed in general to men who were not its authors, had not previous knowledge of its contents and who in a large measure are out of sympathy with it. I am writing to you to voice my emphatic disapproval of this affair and to request you to make proper explanation to the President covering this situation. I am having a copy of this letter sent to President Morgan and Dean Willson so that they will have an expression of my position in this affair.

Yours very truly,

C. ELMER WYLIE, Head,
Department of Dairying.
