 Ralph Cross, Finance Consultant

Social Security Income (SSI) beneficiaries will receive a 3.3 percent cost-of-living adjustment for 2007. This increase is based on growth in the Consumer Price Index (CPI-W) from the third quarter of 2005 through the third quarter of 2006.

Additional information below was extracted from the 2006-2007 Social Security Fact Sheet, a press release from the Social Security Administration (SSA).

Tax Rate	2006	2007
Employee—Employer	7.65%	7.65%
Self-employed	15.30%	15.30%

These tax rates reflect the combined rate for Social Security and Medicare. The 7.65 percent tax rate is composed of the Social Security (OASDI) rate of 6.20 percent and the Medicare rate of 1.45 percent. The Social Security portion is applied on earnings up to the applicable taxable maximum amount listed below. The Medicare portion is applied to all earnings.
