The value of the device can be seen in an offer of several thousand dollars, which was turned down, because the inventor saw possibilities of more in the manufacture and sale of .it.

Mr. E. O. Davis, assistant superintendent of the Dixle Knitting Milis, Eighth and Jones street, is the inventor and Dr. R. E. Hearne is his associate. The invention is simplethe result of Davis' constant application to the textile machines and it will prove a matter of economy to the mill operators in several ways. It can save \$15 a day in the ordinary knitting mill of 100 machines; it precluded danger of cuts to operators of the machines and lengthens the life of the machine. The patent R. E. Its merit is thoroughly substantial and genuine, being a combination of absorbing story and one of the most notable scenic acutevements of the modern stage. The celebrated mechanical triumph, which gives the play its name, the bridge scene, is after all, only an incident in the story of a blind mother's devotion and a long search for her lost child. Her pathetic quest led her, in the city of Chicago, to the river at the point where Chicago's engineering triumphy the huge jackknife bridge, lifts and closes its huge valves every day to let steamers pass. The musical genius may be said to be the highest order of mental endowment. Probably more than any other gift, it is native to the possezsor. Intellectuality may be assumed to a certain extent. Daily Thought.

Do not pine over what you can't ielp, but get a new grip on yourself, and go forward."

When Mayor Yeiser and the general council get together on a bustness proposition, wherein the public interests are at stake, things move, and a good example is the action taken by the committee of the whole, Mayor Yeiser presiding, last night Under a recent provision of the charter, the city may issue bonds to build lect the amount assessed against the property holders in ten annual installments, thus reimbursing the city for the expense and relieving the burden on the taxpayers. This appeals to us as the best method for general use, and we trust that steps will be taken in time to provide for such a bond issue before the next extension is to be made, as the cost of such improvements falls heavily on some property owners for a time In the end, of course, they must pay for the work but the installment WARD AT ILLINOIS CENTRAL plan makes it easier, while it costs the city nothing in the long run But this is an emergency case, 'we are dealing with, and a bond issue bly. The health of the community is vitally concerned in sanitary provisions for the big Washington school building and the Illinois Central shops, and the city is going ahead in the proper spirit. The sewer expenses are to fall on the beneficiaries, just as did the cost of the other sewers, and they probably will not object, as all these improvements must result in greatly increasing the value of their property, the prosperity of the city and the healthfulness of the neighborhood

Pay Car Dissatisfactory.

Railroad men in Paducah state hat the pay car is not satisfactory nd that efforts have been made from me to time to have the checks sent by mail. It works a hardship on em ployes at times. If an employe is l or unable to go to the pay car or i on duty at the time the pay master makes his rounds, he has to wait until the next month for his pay.

The Meeting This Morning. The blacksmiths and helpers me this morning and decided to appear to their district council at Chicago over which the national presiden presides. They want the union to act in instructing them before any answer is given the railroad, and because of this no result was had at the conference with Master Me chanie R. J. Turnbull.

Master Mechanic Turnbull is friend of the employes and pleaded with the strikers to appeal directly to the higher Illinois Central officials a course they naturally should pur sue. They refused to take any such action until they heard from this council at Chicago. The meeting was adjourned pending word from Chi-

In justice to Master Mechanic Turnbull, by far one of the most liberal officials the local shops have ever had, a well-known Illinois Central employe stated this morning.

"If Assistant Paymaster Carrol was in the wrong, it was not the place of Mr. Turnbull to refuse to discharge the employe. Mr. Turabull's position is one of much delicacy. He took the course that he was supposed to take, and when he discharged the helper, was not supposed to act as a judge. The higher authorities are supposed to take up such matters, and if the paymaster's assistant was guilty of telling the into municipal government in Euboilermaker helper to "Go to H-," as it is said he did, then the Illinois entral will tolerate him just about as long as it would tolerate any other person who would act in any such manner."

#### **WORK TO PROCEED** WITHOUT DELAYS

Is Decision of Mayor and General Council:

Property Owners Must Pay Cost of Sewer Extension and Estimates Will Be Made.

OBJECTIONS ARE SUSPICIOUS

No delay will be had and property owners along the route or the proposed sewer extension in district, No. 2, Ninth street to Thirteenth street, must pay for the improvement.

This was the decision of the general council in committee of the whole last night. The cost will be assessed against the abutting property according to estimates of the englneer and the contractor can look to the property for his pay, the assess ment becoming a lien on the land.

The boards met in joint session last night at the call of Mayor Yelser, who presided. Aldermen Palmer Among those registered at The and Chamblin and Councilmen Her-

This would delay the work until it could not be accomplished thisyear. It is the endeavor of the general council and Mayor Yetser to get the system extended to the High school and the Illinois Central shops as soon as possible. Other extensions will be taken care of at a later date

This delay caused the general council and Mayor Yelser to favor the plan adopted and the action was unanimous, Mayor Yeiser voting.

Joe King, colored who white drinking shoved three white men off the pavement in Wickliffe last week, remarking at the time that he did not give a "d-n for all white folks," is dead and it was reported that because of the ill feeling towards him his body was permitted to lie in an undertaker's shop in a rough box without burial for several days, in fact that the body had never been buried. The Wickliffe town marshat denied the report. King was Jrinking and did have words with and shoved some men off the pavement, but it was thirty minutes after this that the shooting occurred. The shooting occurred in a colored bar, and no one saw it but the murderer. In fact the authorities can not find anyone who was in the bar at the time. The marshal states that the body was burled the next day, 21 hours after death.
