I took about six bottles in all, and have never quit praising Cardui."

WHEN YOUR VALVES GET STUCK

When you're going up a hill or trying to get away quickly in traffic and you step on the gas with poor response—don't blame your engine for the way it struggles—

Quick Action On the Power Dam Indicated

Hopes of people in this section that the proposed power dam on Tennessee River at Aurora will be built in the very near future received much encouragement last week with the announcement that Robert McNeill, vice-president of the proposed company had suggested to the state-highway commission that it use the top of the dam for crossing the river, instead of building a separate highway bridge for that purpose.

The date for the debate of Cambridge University, England, versus Murray State Teachers College has been set for Monday night, November 4, here, according to Martha H. Bieble, acting secretary of the National Student Federation, New York City. The two English speakers will be C. Oatridge, of Fitzwilliam House, and Albert Edward Holdsworth, of Gonville and Caine College, Cambridge.

Murray will choose one of four questions submitted by Cambridge. That Great Britain should immediately grant dominion status to India.

That emergence of woman from the home is a regrettable feature of modern life. That the progress of science is a great and growing menace to civilization.

Those making the trip were: Judge C. A. Hale, Sen. T. O. Turner, Harry Mead, J. T. Turnbow, Hazel, W. D. Sykes, Elbert L. Laster, George S. Hart and M. T. Morris.

Republican Scandal Sheet Comes Out in Campaign

If Senator Robison wants to know the most contemptible, dirty, low-down scoundrel in Kentucky or in the eleventh district, it is that Republican who is attempting to inject religion in the senatorial campaign this year. A sheet published at Mt. Sterling in behalf of the Republican party has started a campaign of this character already. The articles are furnished this sheet by Republican publicity committee, no doubt, and with the knowledge and consent of Robison. In the eleventh district a whispering campaign has been started by Robison himself. What will he resort to next in his desperation?

Senator Robison, who claims to be so in sympathy with the poor people in their suffering and aid in a speech here everyone ought to conserve and aid the poor, did have made this speech that he drove into Somerset in a big Cadillac machine with a chauffeur all dressed up in brass buttons and cap. The car is equipped with that high-pitched car like a king and "strutted" the streets full of that ego that has been with him since he was first elected to Congress. In his own estimation the Senator is about the biggest man in Washington. That ego will be taken out of him in November and it will be by such an avalanche of votes that Robison's name will not be heard of for ages—Somerset Journal.

Federal Aid "Hokum"

After days and weeks of investigating the effects of the drought after hurried conferences at Washington between Governors, Senators and Congressmen, after the appointment of still another Federal Commission by the President, the promise of Federal aid to the farmers of the drought-stricken communities comes to naught.

In order to obviate the present Washington administration from the responsibility of another broken promise to the farmers, Secretary of Agriculture Hyde, after a special trip from Washington to the Blue Grass section (a train) announces that "pastures are greening" and Kentucky is not as badly off as Virginia. Governor Sappington adds his bit with the statement that "Kentuckians will not beg"; and Senator Robison goes all the way to Washington to tell President Hoover that "reports of the drought situation in Kentucky are much exaggerated."—Shelbyville News

A cooperative association of 100 farmers was formed in Lawrence county to take advantage of the freight rate reduction. As a result a carload of rye was purchased and sowed to provide fall pasture and a dairy pasture next spring.

The 29th purebred bull has been taken into Elliott county, where an effort is being made to eradicate grade and scrub sires.
