**BIGGER
AND
BETTER**

PRESENTING THE NEW CHEVROLET SIX

Today the Chevrolet Motor Company presents the **Bigger and Better Chevrolet Six**, a new model of the six-cylinder car which has enjoyed such wide popularity.

In both the chassis and body of this new six-cylinder Chevrolet you will find improved, as never before, Chevrolet's well-known policy of progress through constant improvement.

But—without departing from the basic features which have won the enthusiastic approval of over 2,000,000 buyers—Chevrolet has produced a six-cylinder car which represents an entirely new standard of quality, value and refinement in the low-price field.

Your first impression of the new Chevrolet will be one of striking fitness, grace and beauty. The car is longer, lower and modernly smart. The radiator has been deepened and its appearance enhanced by a curving tire-bar and chrome-plated parabolic headlamps. The long

hood lines sweep back unbroken to blend gracefully into the new Fisher bodies. And never was Fisher's fine craftsmanship more evident than in the bodies of the new Chevrolet Six!

Not only are the bodies roomier and more comfortable, but as you study them you will discover many gratifying new features and pleasing refinements—many examples of that painstaking attention to detail which is the basis of true quality.

Mechanically, too, the new Chevrolet Six is a better automobile. The wheelbase is longer. The frame is stronger. The steering is easier. The clutch is more durable. There is a smoother, quieter, easier shifting transmission. In fact, wherever finer materials and more advanced design could add to Chevrolet quality or increase Chevrolet's traditional economy of ownership—improvement has been made. See the new Chevrolet Six—and you will agree that here is *the Great American Value!*

» » AT NEW LOW PRICES « «

Chevrolet has long been one of the lowest priced cars in the world. Yet due to the savings of volume production and increased manufacturing efficiency, the *Bigger and Better*

Chevrolet is offered at new low prices. Come in today. See and drive the new Chevrolet Six. Learn the *new economy* of owning a modern, fine quality, six-cylinder automobile.

What the Dam Promises

During the hearing on his application for a preliminary permit to survey for a power dam on Tennessee River near Egmont's Ferry, Robert H. McNeill stated that his organization was already in negotiations for the sale of power to be developed by industries which would locate in this region. While the expenditure of more than \$20,000,000, as estimates on the project indicate, would be of immense effect in this part of Kentucky the greatest benefits to be expected from the dam are new industries attracted by cheap and abundant power and lower rates on electricity for ourselves. Just who is behind the dam remains as yet unrevealed but Mr. McNeill introduced witnesses at Nashville in the hearing on the sixth of this month to show that the company sponsoring the project was financially able to carry it through. Some believe the head to be Henry Ford while others think it is Andrew Mellon. Those are only surmises but it is practically certain that the interests behind the proposed dam are not small fry. The outlay is too large to permit little fish. The opposition of the railroads to the project was not unexpected and the shortsightedness of the nation's common carriers which has brought them to a period of decline. It has become habitual with the railroads of this section to protest vigorously each and every progressive move that does not enrich them directly. It is not believed that their reconstructions will have any power as the objections they advanced at Nashville are far insufficient to block any such development as the Aurora dam contemplated. While interest in the dam has grown quite intense in the past

Please Give Special Orders in Ample Time...

In giving you your orders for special bakery goods of all kinds, please give us sufficient notice.

This will in no way interfere with the freshness of your order, as it will not be baked until you are ready for it, but if you will tell us what you wish plenty of time beforehand it will give us more time in which to make our plans and preparations.

Kindly remember to call the day before if possible and you will find that it will result in better satisfaction all the way round.

We want you to try this remarkable set. If you have a radio, it is an ideal extra set. You can buy on terms so easy you'll never miss the money. Call for free demonstration.

See our showing of the newest in Living Room, Dining Room, and Bedroom Furniture—Also Odd Pieces.

few weeks it would be well not to get too excited about the project. If the company is given a preliminary permit that does not mean necessarily that the dam will be built. It simply gives the sponsor three years to investigate the possibilities, make a complete survey and consummate all necessary arrangements before making an other application for a permit actually to build the dam. It is entirely possible for the company to obtain the preliminary permit and then conclude, after further investigation, that the project is impractical or could not be made to pay out. At the most, it will be several years before the dam is actually a operation and the best we can do is to sit tight and "see what we can see."

Get the Postoffice

A petition signed by practically every business and professional man and woman in Murray has been forwarded to Senators Barkley and Williamson and Congressman Gregory, asking that they use their best offices to get an appropriation for a permit actually to build the dam. It is entirely possible for the company to obtain the preliminary permit and then conclude, after further investigation, that the project is impractical or could not be made to pay out. At the most, it will be several years before the dam is actually a operation and the best we can do is to sit tight and "see what we can see."

JUST JOTS

By Joe

What we need is somebody who can put more life in industry. Senator Robinson says he doesn't want any office. About two hundred thousand Kentucky voters heartily agreed with him on November 4.

The longest any Republican appointee can figure on his job now is just two years. Unless Santa Claus' Auxiliary functions in Calloway county again this year hundreds of little children are going to find Santa Claus nothing but a bitterly disappointing myth.

Most any husband would be able to deliver an effective affirmative speech in Murray as recently debated by Murray and the University of Kentucky. "Resolved that the emergence of woman from the home is a regrettable feature of modern life."

No, Geraldine, Opus Castleberry did not take a downward step when he quit caring for faces to smooth the hair for feet. According to Senator Barkley, President Hoover has proved his great engineering ability for he has ditched the country and "drained it dry."

Every town in the country is complaining of poor business and at the same time the census taker that it is not as bad off as its neighbors. Chairman Fess has about as well concealed that the G. O. P. got a terrible whalloping in the November elections.

Joe Savoldi, all-American football fullback of Notre Dame, married an engineer for divorce on grounds of "cruel and inhuman treatment." Some of Notre Dame's opponents would be glad to have some information from Mrs. Joe.

The Lexington Leader is advocating voting machines for Kentucky. Doesn't the Leader know they are used in the Eastern Kentucky for years?

Murray, as follows, to-wit:— On the north side of that part of Olive Street between 6th Street and 7th Street, upon which the lots of F. E. Crawford and Edna Kennedy abut, embracing a foot-square of 23 feet.

On the east side of North 5th Street between Olive Street and McElrath's Alley (except that part lying immediately in front of the lot of J. W. Strader, upon which a sidewalk already exists, embracing a footage of about 280 feet.

Second—That all of said sidewalks shall be built on a grade to be made by the Street Committee of the City Council and same shall be constructed, under the supervision of the said Street Committee, in accordance with the following specifications, to-wit:—

A layer of clean creek gravel, free from refuse, and five inches in depth shall first be spread and tamped after same has been wet; and while said gravel is still wet there shall be put thereon a layer of concrete four inches thick. Said concrete shall be composed of one part Portland cement and two parts sand, mixed with sufficient water to make a good mixture. No stones of more than one inch in diameter shall be placed in the concrete. Said concrete shall first be mixed twice dry, and then made into concrete with very little water and then thoroughly mixed until every piece of gravel is coated with mortar. It shall then be put in place and spread to a straight-edge so that the top will be almost perfectly level on the concrete and compressed by ramming so as to give a space of from five-eighths to seven-eighths of an inch for the finishing coat. The mortar and concrete shall be mixed on a tight floor. The course shall be separated into blocks five feet in length and four feet in width. The foundation shall be kept wet while the concrete is being laid on same, and upon the concrete as above described shall be laid a finishing coat of two parts Portland cement and three parts clean sharp sand, free from dirt. The sand and cement shall be mixed dry in a clean mortar bed, and then made into mortar by thoroughly mixing with the necessary amount of water so as to obtain a good mixture, and shall be used after mixing and spread in a stiff mortar and struck off to a true surface with a straight-edge and finished with a wooden float. The top coat shall not be placed upon concrete which has become dry. The entire work when finished shall be properly protected by a suitable covering until hardened.

Third—That immediately upon the ordinance becoming a law the Chief of Police shall at his convenient advertise said work or parts of said work as directed by the Street Committee for the completion of the same before the contract for same is let and shall proceed to let said contract or contracts to the lowest bidder and the bidder, however, in letting said work shall give preference to the contractor who is a resident of Murray, Ky.

The cost of construction of said sidewalks shall constitute a charge against the owners of said property and against the property tax, and shall constitute a lien upon said property from the date of the commencement of said work under said contract; and no tax is hereby levied and assessed against the several owners of said properties, and against said property, for the proportionate share of said cost of construction due from each, and said tax shall become due and payable within thirty days after said sidewalks shall have been completed.

Thanksgiving

"In Every Thing Give Thanks"—1 Thess. 5:18
Nothing could be broader in its meaning or more comprehensive in expression than the three words "In Every Thing." This phrase includes all the things that enter into the experience of man.

There are, first and greatest of all, the spiritual blessings we receive from above. "Behold, God is my salvation," says Isaiah. Yes, in all things. Every blessing whether temporal or spiritual, from the smallest of our daily comforts to the greatest of spiritual mercies should be acknowledged, for every good gift is from above and therefore demands our grateful recognition.

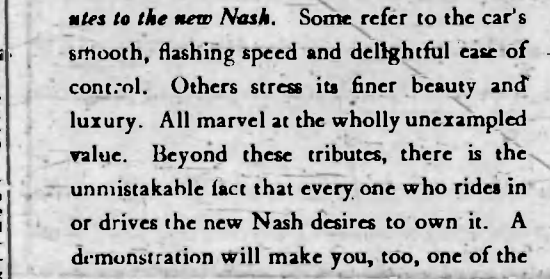

"In Every Thing" includes, too, all Divine discipline, however antagonistic it may be to our plans or feelings. It is God's loving chastening and fatherly correction. "Disappointments" may be looked upon as "His Appointments" in the light of His Word. In comparing Hebrews 12:5-11, we find God chastening "whom He loves." We reverence our parents who correct us, so, much more should we reverence God who chastens us "for our profit, that we might be partakers of His holiness." No chastisement is pleasant to us at the time of its execution but afterwards it yields the "fruit of righteousness" to those upon whom it is exercised. Yes, in all things give thanks.

"In Every Thing" includes all future good that may be ours as yet unrealized, but applied to our lives through faith and so enjoyed in advance. Faith opens the very windows of Heaven bringing down to us His presence and the sunshine of His love. It projects our lives into the future enabling us to realize God's care and to recognize His hand. "Nor is the least a thankful heart That thanks those gifts with joy!"

So let us, like David, be "continually and every day," praising Him with our whole hearts, joyously realizing it is good to sing praise with understanding unto our God. As John Newton says, "Thanksgiving means Thanks-living."
Ralph D. Churchill.

THE New NASH

Appearance and comfort are usually advanced. Performance is smoother, more thrilling than ever.

Everywhere you go, you will hear glowing tributes to the new Nash. Some refer to the car's smooth, flashing speed and delightful ease of control. Others stress its finer beauty and luxury. All marvel at the wholly unexampled value. Beyond these tributes, there is the unmistakable fact that every one who rides in or drives the new Nash desires to own it. A demonstration will make you, too, one of the new thousands now turning to the new Nash.

Putnam-Lewis Marriage License

Marriage license was issued by the county clerk clerk November 16 between Miss Euda Putnam, Hamilton and Raymond Lewis, Alton, Ky.

Two couples from Tennessee were given license the fifteenth. They were between J. T. Winsatt and Page Scarborough and E. E. Burns and Thelma Harper. Another certificate was issued to Ed Holland and Treva Billington of Murray.

MOVIES

He Broadsides Laughs and Thrills and Romance!

Haines' Imitation of Radio Celebrities High Spot of "License to Thrill"

Amos 'n' Andy, Floyd Gibbons, Walter Damrosch, Graham McNamee and other radio stars have nothing on William Haines as he appears in his latest Metro-Goldwyn-Mayer picture, "Remote Control," opening Friday at the Capitol Theatre for two days.

In the Metro-Goldwyn-Mayer picture, Haines plays the role of an announcer and one-man staff of a defunct radio station, filling all the "air" by himself and a doubling for all performers on the program.

From all reports of the new Haines vehicle supplies that "something different" which is the ingredient of all screen successes, being a combination of comedy and melodrama so that the audience finds itself in the unusual situation of laughing one moment and sitting on the edge of its seats another.

The plot revolves about a number of bank robberies which occur simultaneously with the slightly broadcasting of a series of clairvoyant readings given by a mysterious Professor Kruger. How Haines as the manager of the broadcasting station becomes involved in the crimes and subsequently traces them to the perpetrator makes up the extremely thrilling story.

A clever cast supports the star, including Charles King, who sings the song bit of the production, "Just a Little Closer"; Mary Moran, in the feminine lead; John Hillan, in his usual villainous capacity; Polly Moran as the doll expert on beauty talks; J. C. Nugent, Edward Nugent, Wilbur Mack, James Donald, Edward Brophy, Warner P. Richmond and Russell Hopton.

Edward Sedwick directed the picture.

JOHN GILBERT Seen as Fighting Rogue in "Way for a Sailor" With Wallace Beery.

John Gilbert is starred in "Way for a Sailor," the new Metro-Goldwyn-Mayer talking picture which will open Monday for two days at the Capitol Theatre, with Wallace Beery in a prominent character part.

This is Gilbert's first picture

"Redemption" and is regarded with particular anticipation because of the virile role he plays as a tramp steamer sailor, ready for a fight or frolic at any port any time. It is a wide departure from Gilbert's uniform sweet part and packs a mighty dramatic wallop, as well as offering romantic interest.

Wallace Beery, whose talkie debut in "The Big House" was an outstanding performance of the season, plays another "light-heavy" role at the boat's mate who drifts with Gilbert one minute and fights with him the next.

The trio of shipmates is rounded out by three other than Jim Tully, mobo-author, whose flat fights with Gilbert recently occupied expansive headline space. Tully having patched up his troubles with Gilbert, makes his acting debut in the comedy character, "License to Thrill," which is being given by his authorship of "Jarnegan," "Circus Parade" and "Beggars of Life."

The story taken from the two flatbed sea novel by Albert Ritchie, author, published by the Century Company, wins critical acclaim as an unusually human writing, with a vivid background of life aboard the rolling main. The adaptation and dialogue is by such capable writers as Lawrence Stallard, of "The Big Parade" fame, Charles MacArthur, of "Front Page" note and W. L. Clark, author of the interesting apprenticeship at sea.

ILLUSTRIOUS NEW LAUGH SHOW IS WELL RECEIVED Those two gorgeously crazy clowns, Bert Wheeler and Robert Woolsey, who have established themselves within the past year as the greatest screen comedy team, deliver their funniest performance to date in "Half Shot at Sunrise," which opens Wednesday at the Capitol Theatre. Furnished with an unusually amusing story in the form of a wartime comedy, the team cuts loose and runs wild.

In "Holloking Entertainment" audiences were in a constant uproar. The picture emerges as one of the most genuinely hilarious entertainments the screen has ever known.

Wheeler and Woolsey, funnier even than in "The Cuckoo," are seen as American doughboys A. W. O. L. in Paris. They raise everything but the dead, attacking the Colonel's daughter and his sweetheart, but wind up as heroes in the uproarious, final scene.

The comedy team receives excellent support from a talented cast. Dorothy Lee, diminutive comedienne, scores brilliantly once more. Hugh Trevor and Roberta Robinson make a clever romantic team. Edna May Oliver and Leni Stengel also contribute a number of comedy high spots.

Other brilliant features include "Half Shot at Sunrise" introduces some hitting tunes in clever and logical fashion, with music by Harry Tierney, complete with "Rio Rita" and "Distiana" melodies and lyrics by Anne Caldwell. The Tiller Sunshine girls are featured in two sparkling and unique precision dance numbers.

Paul Stone, who directed

"Foster and Woolsey in 'The Cuckoo,' did an even more effective job with 'Half Shot.' He has kept the action moving at a fast pace throughout and has admirably timed the laughs.

"Half Shot at Sunrise" is one show you won't want to miss.

A Community Program The Willing Workers Society of St. Vincent church met at the appointed time on Saturday night, November 15, and rendered a very helpful and enjoyable program.

The program follows: Song—More About Jesus Prayers—Rev. McElroy Minutes of last meeting—Verda Nell Dunn Song by audience Reading—Elven Dunn "The Work of a Soul"—L. Nellie Vreay "Let Not the Sun Go Down Upon Your Wrath"—Nena Dell Ly "The Further Leadership of the Church"—Bro. Boyd Virgilio Lyle Trio—Willford Dunn, Calvert Harris and Brock Manning Reading—Gladys Cunningham Report on the 12 Apostles—Claud Manning Quartet—When the Roll is Called Up Yonder! Remarks and Announcements—Willford Dunn Benediction—Lyle Dunn.

The next program will be given Saturday night, November 29, with Jessie Bruce Cunningham as leader.

Great interest is being manifested by the entire community. We invite every one to come and feel welcome to take part in these programs.

We are glad that so many people are willing to give their service in the work of the Lord.

Our Sunday School is also growing in interest and attendance. If you live in this community and do not attend Sunday School, please, we invite you to come and study the Word of God with us.

Brooks Chapel

Showery weather but people are still hauling water and watering lawns.

The showers and damp cloudy weather have kept tobacco in order as the week and market has been striped. Mr. Arlie Jones striped fifteen hundred sticks.

Mrs. Ester Hopkins lost two head of horses while gathering corn. Death was caused by amut on one. Max Walton lost a fine mole from the same cause.

Mrs. Nannie Stringer has received word it was not Clifton Sim's wife it died in French, but was one of his daughters.

Johanna Ramsey and family visited his uncle, David Morgan, and family near Newburg, last week.

Mr. Parker, deputy sheriff, of Murray, was in this city last week summoning witnesses to attend circuit court in season at Murray.

Mrs. Mollie Starks visited her granddaughter, Mrs. Albert Penney, and family, of Benton last week.

Vanclave News

Chapel service was conducted Friday morning by Mr. William Jeffrey, the principal, Monday morning it was conducted by the ordinary teacher, Miss Debrae Jeffrey.

Mrs. Ada Workman is improving at the writing.

Grandma Williams has pneumonia. She has reached the age of 84. We all hope she will soon be better.

Mr. and Mrs. David Burken were guests of her mother Sunday.

Mrs. J. N. Colson and Miss Leatrice Colson were guests of Mr. and Mrs. Curt Hale and family Thursday.

Miss Moseil Warham was the guest of Mrs. Balah Smith Sunday.

Mr. and Mrs. Roy Tucker and her sister, Mary Bell Gordon, were with Mr. and Mrs. L. Sumner and family.

Most everybody seems to be busy taking down and stripping this week. "Rose Bud"

Good Care Reduces Winter Feed Bills Attention to details of management rather than spending large amounts of money is being emphasized in answers to inquiries which the experimental station, University of Kentucky, is receiving about wintering sheep.

Balanced rations, regular feeding, exercise, water, and protection from severe weather will save money and tend to insure a good lamb crop.

Grains, with the exception of corn, are not unusually high. Oats and wheat bran should be liberally used, with some oil meal, though cottonseed meal which is low in price may be safely fed in small amounts to ewes.

While mixed hay, stover and straw may be utilized as part of the ration of breeding ewes, especially during the early part of the feeding period, it would be a mistake to depend entirely on such roughages. These roughages can be profitably fed only in connection with some good legume, such as alfalfa, clover, soybean or cowpea hay. Farmers who are fortunate enough to get rye established have some much to solve a major part of their feeding problem.

Successful sheep farmers know the care required in handling ewes. Not only should rations be balanced, but feeding should be regular. Water is important and protection should be given during storms. Exercise is also very important and is often overlooked.

As long as sheep can graze they will get all the exercise they need, but when the ground is covered with snow it will pay to feed roughage some distance from the

High School Will Give Minstrel This Evening

"Hits and Misses", a minstrel, will be given this evening in the high school auditorium by the clubs and senior class of Murray high school. The entertainment will be under the direction of Miss Gwendolyn Hayes and Prof. W. H. Moore. The curtain will rise at eight o'clock.

The show will be featured by a number of musical hits, including solos, quartets and choruses. Charles Jones will be interactor for the minstrel while the end men will be Mr. Moore, Mr. Franklin, James Overby and LaVerne Wallis.

While you wait!

Timely Test Topics

Majesty's Fancy Olga

Majesty's Fancy Olga 673604, a remarkable producer owned by Mrs. T. A. Jones, 1230 Grove, Ky., has just completed a Register of Merit record which wins both a gold and a Silver Medal and a state age class championship in the 365-day division. She was only 4 years and 8 months of age when started on this recent test and during the ensuing 365 days produced 779.58 lbs. butterfat, 12745 lbs. milk. In her best month of test she produced a total of 80.95 lbs. butterfat, and for nine consecutive months maintained her yield above 60 lbs. of butterfat. Her name appeared upon the Fifty-Pound List during each of the eleven complete months of the test. She qualified for the medal award in Class AA, carrying calf for 187 days.

With her splendid record Majesty's Fancy Olga superceded Majesty's Golden Elsie 422984, tested by Mr. J. C. Anker, Truett, Ky., as junior 4-year-old champion of Kentucky, 365-day division. Majesty's Golden Elsie held the championship with a record of 722.44 lbs. butterfat.

Majesty's Fancy Olga has made one previous Register of Merit test, having produced 491.21 lbs. butterfat as a senior 3-year-old in a 365-day Class A test. This new Gold and Silver Medal cow is one of two Register of Merit daughters of Majesty's Fancy 221229, her dam is Addie's Pansie 526692.

The county agent estimates that 13,000 bushels of rye were sown in rainway season. Murray dealers sold 1,000 bushels of seed and the Red Cross distributed 2,000 bushels.

What the Dam Promises

During the hearing on his application for a preliminary permit to survey for a power dam on Tennessee River near Eggers's Ferry, Robert H. McNeill stated that his organization was already in negotiations for the site of power to be developed to industries which would locate in this region. While the expenditure of more than \$20,000,000, as estimates on the project indicate, would be of immense effect in this part of Kentucky the greatest benefits to be expected from the dam are new industries attracted by cheap and abundant power and lower rates on electricity for ourselves. Just what is behind the dam remains as yet unrevealed but Mr. McNeill introduced witnesses at Nashville in the hearing on the sixth of this month to show that the company sponsoring the project was financially able to carry it through. Some believe the head to be Henry Ford while others think it is Andrew Mellon. These are only surmises but it is practically certain that the interests behind the proposed dam are not small fry. The outlay is too large to permit little fish.

The opposition to the railroad to the project was not unexpected and is only additional evidence of the short-sightedness of the nation's common carriers which has brought them to a period of decline. It has become habitual with the railroads of this section to protest vigorously such as every progressive move that does not enrich them directly.

It is not believed that their remonstrances will have any effect at Nashville are far insufficient to block any such development as the Aurora dam contemplates. While interest in the dam has grown quite intense in the past

Please Give Special Orders in Ample Time...

In giving us your orders for special bakery goods of all kinds, please give us sufficient notice.

This will in no way interfere with the freshness of your order, as it will not be baked until you are ready for it, but if you will tell us what you wish plenty of time beforehand it will give us more time in which to make our plans and preparations.

Kindly remember to call the day before if possible and you will find that it will result in better satisfaction all the way round.

WE ARE ALWAYS GLAD TO HAVE YOU SHOP IN PERSON

WE TRADE NEW FURNITURE FOR OLD

few weeks it would be well not to get too excited about the project. If the company is given a preliminary permit that does not mean necessarily that the dam will be built. It simply gives the sponsors three years to investigate the possibilities, make a complete survey and consummate all necessary arrangements before making another application for a permit actually to build the dam.

It is entirely possible for the company to obtain the preliminary permit and then conclude, after further investigation, that the project is impractical or could not be made to pay out.

At the most, it will be several years before the dam is actually an operation and the time we can do is to be tight and "see what we can see."

Get the Postoffice

A petition signed by practically every business and professional man and woman in Murray has been forwarded to Senators Barkley and Williams and Representative Gregory, asking that they use their best offices to get an increase in the Murray postoffice appropriation.

The sum of \$65,000 has been included in the preliminary estimates for a government building which was done several years ago. Since that time, however, the city has made considerable growth, including a big expansion in the college, and it is now believed that the \$65,000 will be entirely inadequate to construct a post office and government building that will be sufficient for Murray's needs throughout the coming years. For these reasons, an increase to \$100,000 is petitioned.

Those here who should be in the know seem to be thoroughly convinced that Murray will get her long-deferred government building in 1931. It is certain that the government is going to do quite a bit of building in the next two years, not only because of its needs but also to contribute something to bringing back normal conditions in industry and reducing unemployment.

It is needless to say that every citizen of the United States that has any chance at all to get a government building during this period is going to bend every effort to put it over. Murray cannot slack on the job and expect to get its government building without doing every thing possible to show that it wants the building. Energy, persistence and application of every influence will be necessary.

The boom in government building is now on and if Murray misses this one it is likely that it will have to wait several years before another era of post office building rolls around.

If we try and try hard Murray can get a \$65,000 but a \$100,000 post office, probably in 1931. And such a building is certainly worth our most diligent efforts.

ORDINANCE NO. 16, BEING AN ORDINANCE REQUIRING SIDEWALKS TO BE CONSTRUCTED, MAINTAINED AND KEPT IN REPAIR ON CERTAIN STREETS OF PARTS OF STREETS OF THE CITY OF MURRAY, AND LEAVING A TAX TO PAY THE COST OF SAME.

BE IT ORDAINED BY THE CITY OF MURRAY, KENTUCKY, AS FOLLOWS:

First—That sidewalk shall be constructed, maintained and kept in repair on the following streets or parts of streets of the City of

Murray, as follows, to-wit:—

On the north side of that part of Olive Street between 6th Street and 7th Street upon which the lot of E. E. Exford and Eula Kennedy abut, embracing a footage of 231 feet.

On the east side of North 5th Street between Olive Street and 6th Street, upon which the lot of J. W. Strader, upon which sidewalk already exists, embracing a footage of about 280 feet.

Second—That all of said sidewalks shall be built on a grade to be made by the Street Committee of the City Council and same shall be constructed, under the supervision of the Street Committee, according to the following specifications, to-wit:—

A layer of clean creek gravel, free from refuse, and five inches in depth shall be spread and well tamped after same has been wet; and while said gravel is still wet, a layer of concrete shall be laid on top of the gravel, said concrete shall be composed of one part Portland cement and two parts of clean, sharp sand, mixed twice dry, and then made into concrete with very little water and then thoroughly mixed. Said concrete shall be laid on a bed of gravel, and shall be almost perfectly level on the concrete and compressed by hand ramming so as to give a space of from three-eighths to seven-eighths of an inch for the finishing coat. The mortar and concrete shall be mixed on a tight floor. The concrete shall be separated into blocks five feet in length and four feet in width. The foundation shall be kept wet while the concrete is being laid on same, and upon the concrete as above described shall be laid a finishing coat of two parts portland cement and three parts clean sharp sand, free from dirt. The sand and cement shall be mixed dry in a clean mortar bed and then made into mortar by thoroughly mixing with the necessary amount of water so as to obtain a good mixture, and shall be used after mixing and spread in a stiff mortar and struck off to an even surface with a straight-edge and finished with a wood float. The top coat shall not be placed upon concrete which has become dry. The entire work shall be finished to be properly protected by a suitable covering until hardened.

Third—That immediately upon the ordinance becoming a law the Chief of Police shall file his certificate of approval with the clerk of the City Council for at least two days before the contract for same is let and shall proceed to let said contract or contracts to the lowest and best bidder, provided, however, in letting said work he shall give preference to the owner or owners of the abutting property. He shall have the right to reject any and all bids.

The cost of construction of said sidewalks shall constitute a charge against the owners of said property, and against the property itself, and shall constitute a lien upon said property from the date of the commencement of said sidewalks under said contract; and a tax is hereby levied and assessed against the several owners of said properties, and against said properties, for the proportionate share of said cost of construction due from each, and said tax shall become due and payable within thirty days after said sidewalk shall have been accepted, and after the amount due from each owner shall have been fixed, it shall be deemed to have been accepted, and if not so recovered by action approved, this 7th day of November, 1930.

Ed Filbeck,
Mayor, City of Murray.

Chas. B. Grogan,
Clerk.

JUST JOTS

By Joe

What we need is somebody who can put more "try" in industry.

Senator Robison says he doesn't want any office. About two hundred thousand Kentucky voters have agreed with him on November 4.

The longest any Republican appointee can figure on his job now is just two years.

Unless Santa Claus' Auxiliary functions in Calloway county again this year hundreds of little children are going to find Santa Claus nothing but a bitterly-disappointed myth.

Most any husband would be able to deliver an effective affirmative speech on the question recently debated by Murray and the University of Kentucky. "Respectful emergence of woman from the home is a regrettable feature of modern life."

No, Geraldine, Ophus Castleberry did not take a downward turn when he left Murray for a year to smooth the pathway for feet.

According to Senator Barkley, President Hoover has proved his great engineering ability for he has ditched the country and drained it dry.

Every town in the country is complaining of poor business and at the same time consoling itself that it is not as bad off as its neighbors.

Chairman Feas has about as well confessed that the G. O. P. got a terrible wallop in the November elections.

Joe Savoldi, all-American football fullback of Notre Dame, married to a divorcee, on grounds of "cruel and inhuman treatment." Some of Notre Dame's opponents would be glad to have some information from Mrs. Joe.

The Lexington Leader is advocating voting machines for Kentucky. Doesn't the Leader know how they have had them in Eastern Kentucky for years?

Murray, as follows, to-wit:—

On the north side of that part of Olive Street between 6th Street and 7th Street upon which the lot of E. E. Exford and Eula Kennedy abut, embracing a footage of 231 feet.

On the east side of North 5th Street between Olive Street and 6th Street, upon which the lot of J. W. Strader, upon which sidewalk already exists, embracing a footage of about 280 feet.

Second—That all of said sidewalks shall be built on a grade to be made by the Street Committee of the City Council and same shall be constructed, under the supervision of the Street Committee, according to the following specifications, to-wit:—

A layer of clean creek gravel, free from refuse, and five inches in depth shall be spread and well tamped after same has been wet; and while said gravel is still wet, a layer of concrete shall be laid on top of the gravel, said concrete shall be composed of one part Portland cement and two parts of clean, sharp sand, mixed twice dry, and then made into concrete with very little water and then thoroughly mixed. Said concrete shall be laid on a bed of gravel, and shall be almost perfectly level on the concrete and compressed by hand ramming so as to give a space of from three-eighths to seven-eighths of an inch for the finishing coat. The mortar and concrete shall be mixed on a tight floor. The concrete shall be separated into blocks five feet in length and four feet in width. The foundation shall be kept wet while the concrete is being laid on same, and upon the concrete as above described shall be laid a finishing coat of two parts portland cement and three parts clean sharp sand, free from dirt. The sand and cement shall be mixed dry in a clean mortar bed and then made into mortar by thoroughly mixing with the necessary amount of water so as to obtain a good mixture, and shall be used after mixing and spread in a stiff mortar and struck off to an even surface with a straight-edge and finished with a wood float. The top coat shall not be placed upon concrete which has become dry. The entire work shall be finished to be properly protected by a suitable covering until hardened.

Third—That immediately upon the ordinance becoming a law the Chief of Police shall file his certificate of approval with the clerk of the City Council for at least two days before the contract for same is let and shall proceed to let said contract or contracts to the lowest and best bidder, provided, however, in letting said work he shall give preference to the owner or owners of the abutting property. He shall have the right to reject any and all bids.

The cost of construction of said sidewalks shall constitute a charge against the owners of said property, and against the property itself, and shall constitute a lien upon said property from the date of the commencement of said sidewalks under said contract; and a tax is hereby levied and assessed against the several owners of said properties, and against said properties, for the proportionate share of said cost of construction due from each, and said tax shall become due and payable within thirty days after said sidewalk shall have been accepted, and after the amount due from each owner shall have been fixed, it shall be deemed to have been accepted, and if not so recovered by action approved, this 7th day of November, 1930.

Thanksgiving

"In Every Thing Give Thanks"—1 Thess. 5:18

Nothing could be broader in its meaning or more comprehensive in expression than the three words "In Every Thing." This phrase includes all the things that enter into the experience of man.

There are, first and greatest of all, the temporal blessings we receive from above. "Blessed, God is my salvation," says Isaiah. Yes, in all things. Every blessing whether temporal or spiritual, from the smallest of our daily comforts to the greatest of spiritual mercies should be acknowledged, for every good gift is from above and therefore demands our grateful recognition.

"In Every Thing" includes, too, all Divine discipline, however antagonistic it may be to our plans or feelings. It is God's loving chastening and fatherly correction. "Disappointments" may be looked upon as "His Appointments" in the light of His Word. In comparing Hebrews 12:5-11, we find God chastening "whom He loves." We reverence our parents who correct us, so, much more should we reverence God who chastens us "for our profit, that we might be partakers of His holiness." No chastisement is pleasant to us at the time of its execution but afterwards it yields the "fruit of righteousness" to those upon whom it is exercised. Yes, in all things give thanks.

"In Every Thing" includes all future good that may be ours as yet unrealized, but applied to our lives through faith and so enjoyed in advance. Faith opens the very windows of heaven bringing down to us His presence and the sunshine of His love. It projects our lives into the future enabling us to realize God's care and to recognize His hand.

"Nor is the least a thankful heart That tastes those gifts with joy!"

So let us, like David, be "continually and every day," praising Him with our whole hearts, joyously realizing it is good to sing praise with understanding unto our God.

As John Newton says, "Thanksgiving means Thanka-living".

Halph D. Churchill.

THE New NASH

Appearance and comfort are instably advanced
Performance is smoother, more thrilling than ever

The Eight-90—Finest Motoring Money Can Buy—\$1565

Everywhere you go, you will hear glowing tributes to the new Nash. Some refer to the car's smooth, flashing speed and delightful ease of control. Others stress its finer beauty and luxury. All marvel at the wholly unexampled value. Beyond these tributes, there is the unmistakable fact that every one who rides in or drives the new Nash desires to own it. A demonstration will make you, too, one of the new thousands now turning to the new Nash.

Haines' Imitation of Louis Celestine High Spot of 'Remote Control'

Amos 'n' Andy, Floyd Gibbons, Walter Damrosch, Graham McNamee and other radio stars have nothing on William Haines as he appears in his latest Metro-Goldwyn-Mayer talkie, 'Remote Control,' opening Friday at the Capitol Theatre for two days.

In the Metro-Goldwyn-Mayer production of the New York stage hit, Haines plays the role of an announcer and one-man staff of a defunct radio station, filling all the 'acts' by himself and a doubling for all performers on the program.

From all reports of the new Haines vehicle, supplies that 'something different' which is the ingredient of all screen successes, being a combination of comedy and melodrama so that the audience finds itself in the unusual situation of laughing one moment and sitting on the edge of its seat another.

The plot revolves about a number of bank robberies which occur simultaneously with the nightly broadcasting of a series of clairvoyant readings given by a mysterious Professor Kruger. How Haines as the manager of the broadcasting station becomes involved in the crimes and subsequently traces them to the perpetrators makes us the extremely baffling story.

A clever cast supports the star, including Charles King, who sings the song hit of the production, 'Just a Little Closer'; Mary Moran, in the feminine lead; John Miljan, in his usual villainous capacity; Polly Moran as the droll expert on beauty talks; J. C. Nugent, Edward Nugent, Wilbur Mack, James Donlan, Edward Brophy, Warner P. Richmond and Russell Hopton.

Edward Sedgwick directed the picture. JOHN GILBERT Seen as Fighting Rogue in 'Way for a Sailor' With Wallace Beery.

John Gilbert is starred in 'Way for a Sailor,' the new Metro-Goldwyn-Mayer talking picture which will open Monday for two days at the Capitol Theatre, with Wallace Beery in a prominent character part. This is Gilbert's first picture.

Wheeler and Woolsey in 'The Cuckoos,' did an even more effective job with 'Half Shot.' He has kept the action moving at a fast pace throughout and has admirably timed the laughs.

'Half Shot at Sunrise' is one show you won't want to miss.

A Community Program

The Wiffling Workers Society of Mt. Carmel church met at the appointed time on Saturday night, November 15, and rendered a very helpful and enjoyable program.

The program follows: Song—More About Jesus Prayer—Rev. McEldoy Minutes of last meeting—Verda Nell Duce by audience Reading—Elven Dunn 'The Worth of a Soul'—Lanette Trice 'Songs of My Mother'—Reba Mother 'How Terrible to Be Lost'—Mrs. Ray Cunningham 'Let not the Sun Go Down Upon Your Wrath'—Nona Dell Lyles

The Further Leadership of the Church—Bro. Boyd 'The Story of Jacob's Dream'—Virginia Lyles 'The Willard Dunn, Calvert Harris, and Buck Manning' Reading—Genevieve Cunningham Report on the 12 Apostles—Claud Manning Quartet—'When the Roll is Called Up Yonder'

Remarks and Announcements—Willford Dunn Benediction—Lula Dunn The next program will be given Saturday night, November 23, with Jessie Bruce Cunningham as leader.

Great interest is being manifested by the entire community. We invite every one to come and feel welcome to take part on these programs. We are glad that so many people are willing to give their service in the work of the Lord.

Our Sunday School is also growing in interest and attendance. If you live in this community and do not attend Sunday School elsewhere, we invite you to come and study the Word of God with us.

Brooks Chapel Showery weather but people are still hauling water and watering stock. The showers and damp cloudy weather have had a tobacco order all the week and much has been striped. Mr. Arlie Jones striped fifteen hundred sticks.

Mrs. Elmer Hopkins lost two head of horses while gathering corn. Death was caused by a snipe on corn. Max Walston lost a fine mule from the same cause.

Mrs. Nannie Stringer has received word it was not Clifton Sims's wife that died in Paducah, but was one of his daughters. Johnnie Ramsey and family visited his uncle, David Morgan, at family near Newburg last week.

Mr. Parker, deputy sheriff, of Murray, was in this vicinity last week summoning witnesses to attend circuit court in season at Murray.

Mrs. Mattie Starks visited her granddaughter, Mrs. Albert Penoy, and family, of Benton last week.

Mrs. Ollie Burken and son, Robert, were guests of Mrs. Nannie Stringer Sunday evening. Rex Anderson and family of Hardin, R. 2, spent Sunday here with Mrs. Anderson's parents, Mr. and Mrs. T. A. Jones, and family. Dr. Cottfield, of Hardin, was called to Mrs. Norman Coursey's Saturday night to attend James Norman, who had a slight attack of appendicitis.

and Mrs. Delon Ramsey, and daughter, Miss Mildred and son, Vernon, were all-day guests of Mr. Ramsey's step-mother, Mrs. Ollie Burken Sunday. Mr. Burnie Jones is still on the milk route. Several cans of milk soured last week during the warm days.—'Old Glory.'

Vanclave News

Chapel service was conducted Friday morning by Mr. William Jeffrey, the principal Monday morning lit was conducted by the primary teacher, Miss Debra-Jeffrey.

Mrs. Ada Workman is improving at this writing. Grandma Williams has pneumonia. She has reached the age of 84. We all hope she will soon be better.

Mr. and Mrs. David Burken were guests of her mother Sunday. Mrs. J. N. Colson and Miss Louline Colson were guests of Mr. and Mrs. Curt Hale and family Thursday.

Miss Mosell Warshaw was the guest of Miss Bulah Smith Sunday. Mr. and Mrs. Roy Tucker and her sister, Mrs. Dell Gordon, spent the week end with Mr. and Mrs. L. Sumner and family.

Most everybody seems to be busy taking down and stripping this week.—'Rose Bud'

Good Care Reduces Winter Feed Bills Attention to details of management rather than spending large amounts of money is being emphasized in a series of lectures which the experiment station, University of Kentucky, is receiving about wintering sheep.

Balanced rations, regular feeding, exercise, water and protection from severe weather will save money and tend to insure a good lamb crop. Grains, with the exception of corn, are not unusually high. Oats and wheat bran should be used liberally with some oil meal though cottonseed meal which is low in price may be safely fed in small amounts to sheep.

While mixed hays, stover and straw may be utilized as part of the ration of breeding ewes, especially during the early part of the feeding period, it would be a mistake to depend entirely on such roughages. These roughages can be profitably fed only in connection with some good legume, such as alfalfa, clover, soybean or cowpea hay. Farmers who are fortunate enough to get rye established have done much to solve a major part of their feeding problem.

Successful sheep farmers know the care required in handling ewes. Not only should rations be balanced, but feeding should be regular. Water is important, and protection should be given during storms. Exercise is also very important and is often overlooked. As long as sheep can graze they will get all the exercise they need, but when the ground is covered with snow it will pay to feed roughage some distance from the pen.

2 Meals Day, Plenty Water, Helps Stomach 'Since I drink plenty water, eat 2 good meals a day and take Adierika now and then, I've had no trouble with my stomach.'—C. DeForest. Unlike other medicines, Adierika acts on BOTH upper and lower bowel, removing poisonous waste which causes gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adierika give your stomach and bowels a REAL cleaning, and see how good you feel!—Dale, Stubbins, Field & Co. Druggists, in Havel by J. T. Turnbow & Son, Druggists.

Timely Test Topics. Majesty's Fancy Olga 673504, a remarkable producer, owned by Mr. T. A. Jones, Lynn Grove, Ky., has just completed a Register of Merit record which wins both a Gold and a Silver Medal and state age class championship in the 365-day division. She was only 4 years and 5 months of age when started on this recent test and during the ensuing 365 days produced 779.58 lbs. butterfat, 13,745 lbs. milk. In her best month of test she produced a total of 80.05 lbs. butterfat, and for nine consecutive months maintained her yield above 60 lbs. of butterfat. Her name appeared upon the Fifty Pound List during each of the eleven complete months of the test. She qualified for the medal award in Class AA, carrying calf for 187 days.

With her splendid record Majesty's Fancy Olga superseded Majesty's Golden Elsie 422094, tested by Mr. J. C. Askew, Trenton, Ky., as junior 4-year-old champion of Kentucky 365-day division. Majesty's Golden Elsie held the championship with a record of 727.44 lbs. butterfat. Majesty's Fancy Olga has made one previous Register of Merit test, having produced 491.31 lbs. butterfat as a senior 2-year-old in a 365-day, Class A test. This new Gold and Silver Medal cow is one of two Register of Merit daughters of Majesty's Fancy Sultan 221939, and her dam is Addie's Fannie 536595.

The county agent estimates that 12,000 bushels of rye were sown in Calloway county. Murray dealers sold 12,000 bushels of seed and the Res. Cross distributed 3,000 bushels.

High School Will Give Minstrel This Evening

MURRAY DEBATERS DOWN UNIVERSITY

M. E. C. Wins Three; Losses Two Encounters With U. K. November 14-15.

Debates between Murray College and University of Kentucky held in Mayfield, Hopkinsville, Russellville and Murray on questions. Resulted that the emergence of woman from home is a regrettable feature of modern life. Resulted in three wins and two losses for Murray, Friday and Saturday November 14 and 15. Prof. L. J. Martin is the coach of the Murray debaters and Mr. Southland directs the University forensics.

Forrest Pogue and Clay Copeland defeated U. K. team at Mayfield and Paducah by audience counts. The votes of the Paducah

clash were not counted but it was estimated by officials that the Murray orators emerged victorious by fifteen or twenty votes. Moody, Rounton and Jones, engaging in their first intercollegiate contest lost to the University at Hopkinsville and Russellville.

It was announced Monday November 17, after an elimination contest, that Copeland and Pogue would meet the Cambridge, England debaters at Murray Monday evening, November 24 at 8 o'clock on the same subject that was used with the University. All high schools of Western Kentucky will be invited to the contest.

Every Red Cross dollar is a useful dollar. It is on the job day and night throughout the year, alleviating suffering and making this world a healthier, happier place in which to live.

Four carloads of cotton-seed meal have been ordered by dairymen in Spencer county.

Dull Tone Hosiery

Wears Longer, Due to its more perfect finish and greater strength.

Is free from the "rings" and "shadows" found in ordinary hosiery.

Keeps its original beauty after many launderings and does not "fuzz" or "streak."

Appears sheerer than an ordinary stocking of the same weight, due to special treatment of yarn used in manufacture.

And BEST OF ALL the dull finish creates an illusion of slenderness that cannot be approached in the regular finish.

Lynn Grove Notes

The Annual Old Fiddler's contest at the Lynn Grove High School will be held this year on Thursday, November 27, in accordance with the custom established several years ago.

Again the best musicians of the county are invited. Cash prizes will be given. The price of admission has been reduced from 25 and 35 cents to 15 and 25. A bigger and better program for less money. Come, meet your old friends, and enjoy an evening of music and entertainment.

"The Trip to Lexington" was described in chapel Monday afternoon, November 17, by six of the Lynn Grove students who attended the State Rural School tournament at the University of Kentucky Friday and Saturday, November 14 and 15.

Modell Tidwell, Calloway county and district winner in hygiene and a member of the Calloway team representing this district, gave a brief summary of the trip and of the drive from Lexington to Harrodsburg, including High Bridge, Boones Tunnel, Brooklyn Bridge, and the Palisades along the Kentucky river.

The quaint old village inn at Shakerstown, the old fort at Harrodsburg, the first school in Kentucky, the grave of the first child born in Kentucky, and the log cabin where Abe Lincoln's parents were married was to have been described by Rubens Ford, county representative in Civics. This was omitted on account of illness of speaker.

The City of Frankfort, including a detail discussion of both the old capitol building and the new capitol was given by Charlotte Jordan, Calloway's expert in all-around scholarship and winner of fifth place at State meet. Miss Jordan was second place in all-around scholarship and first place in history at the district meet at Murray, November 1.

James Maxfield who went to Lexington to represent Calloway in running and as a member of the county relay team, described Lincoln's birth place and memorial near Hodgenville.

Bardstown with its interesting old Catholic Cathedral erected in 1815 and Kentucky Old Kentucky Home" made famous by Stephens Collins Foster's songs, was the subject chosen by Robbie Neil Myers, Calloway's entrant in seventh and eighth grade English.

Herman Cochran, Calloway representative in both broad and high jump, told of Lost River at Bowling Green and Jeff Davis monument at Fairview, Ky.

Codie Lee Caldwell, who acted as chairman of the meeting, and was an entrant in the 50 and 100 yard dashes at the state meet, described Dixie Dam, the highest rock-filled dam in the world, and home of Henry Clay.

Dexter News

Mrs. Jim Thorn and children of East Paris, Tenn. have been here as the guests of her sister, Mrs. Henry Thorn the past week. Mrs. Stafford Cud and son Vernon Ford, arrived Friday night from Hartsville, to reside several months. Her father, Mr. Scott Shoemaker, accompanied her here for a week's visit with his family before returning to work at Canton, Ky.

Miss Hazel Tarry spent the week-end with her parents, Mr. and Mrs. Eugene Tarry, at Murray.

Messrs. Paul, Darnell, L. B.

Courtesy and Hamlet Cud were business visitors in Murray Monday.

Mr. and Mrs. Curtis Copeland and Mrs. Paul Darnell motored to Paducah Friday to hear Mr. Clay Courtesy, member of the U. K. T. C. debate team.

Mr. and Mrs. Burnett Jones and family motored to Paducah Sunday attend the birthday celebration of Mrs. Jones' father, Mr. J. G. Harris, who resides with another daughter, Mrs. M. J. Harris of Broadway. A family feast and surprise to the father who was 73 years old and all, had a great day.

Mr. Clyde Hayden Coleman and Mrs. Clynt Skaggs attended the funeral service of Mrs. Laura Rose Radford west of Murray.

Mr. and Mrs. Mac Missel spent Sunday at Murray.

Mr. L. B. Courtesy is closing out his store and will move on the highway to continue in business of which we will state later.

Eagle, I read your letter each week.

MR. HOOVER
About two years ago I think Hoover started in. He promised us most anything if we would help him win. But now that he has taken his seat he acts like it's a sin for him to even try to help. The ones that voted him in.

Chorus:
No one works at our house
We lay around all day,
Nothing to eat in the partry
No money and rent to pay—
Mother takes in washings
This she does by hand.
No one works at our house—
Since Mr. Hoovers in.

If this goes on for two more years, With some on whom to call The Government will have to build A few more prison walls. It're call our first bread. Or cannot pay our fare We'll have to do the other then. For men can't live on air.

Chorus:
Now when comes to making laws, And giving into a seat It ought to be a man that's had To earn his daily sats.

To earn the habit in his power, He'll lend helping hand. To all of us who are down and out For he will understand. For he will understand. Curd Peters, Terre Haute, Ind., R. R. 1.

STANDARD OIL TO SELL TIRES

At Their Stations and Through Independent Dealers

Louisville, Ky.—(Special)—W. E. Smith, President of the Standard Oil Company, Incorporated in England, announced that the company will enter, at an early date, into the business of selling automobile tires throughout the States of Kentucky, Alabama, Florida, Georgia and Mississippi.

In his statement issued to the press today, Mr. Smith said, "The growing demand for more complete and exacting service by the motoring public makes this addition to our business a necessary and logical one."

"The tires to be offered by the Standard Oil Company, Incorporated in Kentucky, will be first line and first quality in every respect and will be made by experienced and reliable manufacturers."

"The Standard Oil Company, Incorporated in Kentucky, will retail tires, tubes, and the usual tire accessories at certain of its own service stations, and will be prepared to render complete tire service along with that of supplying the motorist with gasoline, motor oil, greasing service, etc."

"A special feature in the Company's plan is that of offering tires to independent dealers operating filling stations and garages. Tires will be offered to these dealers on a wholesale price basis assuring them satisfactory profits. It will be the desire of the Company to cooperate with and include these retailers in its tire selling program rather than disturb the business of those dealers, many of whom are valued customers of the Company on petroleum products."

"A little later the Company will, through its representatives or otherwise, present this feature of its marketing plan to dealers and resellers."

"The Company will guarantee every tire sold, whether by its Dealers or service stations. This plan provides for a twelve months' guarantee, regardless of mileage, on all tires sold for use on passenger cars, and six months' guarantee, regardless of mileage, on all tires sold for use on commercial cars. This guarantee protects against accidents, blow-outs, cuts, bruises, rim cuts, under inflation, wheel nut alignment, faulty brakes, or any other road hazard. In event of such a condition arising during the guarantee period, the tire will be repaired free of cost to the owner, or replaced with a new tire for which the owner will pay a price equal to one-seventh of the usual price multiplied by the number of months the tire was in service, if used on commercial vehicle."

"Adjustments and service, under the Company's guarantee, will be made by any of its dealers or at any of its service stations selling these tires in the States of Alabama, Florida, Georgia, Kentucky and Mississippi. Furthermore, arrangements have been made whereby the Company's guarantee will be fully honored elsewhere throughout the United States where the same tires are sold. Likewise the Standard Oil Company's dealers and service stations will honor similar guarantee on the same brand of tires sold elsewhere."

"A moderate scale of charges will be made for service on tires after expiration of the guarantee period, and on other makes of tires."

PADUCAH, KENTUCKY

Present Business Conditions

Require careful consideration on the part of merchants and the public.

First—A merchant who feels the burden of his people, who have depended on him for their needs in season and the way of necessary clothing, shoes and house furnishings.

The grocer, who has furnished them with food; the hardware and furniture dealers, who have furnished stoves, furniture or farming tools, etc.

An arrangement has been made by the Calloway County Agricultural Credit Corporation, connected with the Bank of Murray, by which one may get credit for an extended length of time, support to make the 1937 crop, by furnishing a new source of collateral.

Other banks are furnishing liberal credit. A careful budget or estimate of needs and probable resources will be necessary to get through this twelve months of absolute need, and protection of good name and credit of many individuals.

The necessity now of asking direct questions about your financial condition, your resources and your ability to pay at a practically fixed time is a business proposition not to be overlooked if those extending credit are to keep sound. And those who do not give absolute facts and definite finance are not deserving of credit.

Those who wish credit should furnish true facts when asking for credit, which will cause less delay when making application for credit. If you are sensitive and do not wish to let your condition be known, then you should not expect credit.

If a merchant put his goods out on credit, as the old custom is, for the length of time necessary to run his account, will have no value in his credit for replacing his stock, therefore he must protect his own credit, or he cannot finance his own store. It is time now for co-operation between merchant and customer; you must pay for your credit accommodation. The cash buyer must be protected. He is entitled to cash consideration.

There will be no danger of over-production of farm products in 1937 in our section. Preparation for crops should be made during winter and early spring. Fall and winter plowing will save feed and over-working of teams in the spring and summer. Stop waste of all kinds of feed by neglect of shelter will be necessary.

Proper co-operation of people locally will solve the problem of hard times, until another crop is made. We need not expect much help from the outside. If we get it back we will first have to send it off, and then not expect it all to come back. Let's help ourselves.

Merchandise of all kinds is cheaper this fall.

T. O. TURNER

It's Not too soon to think of Christmas

It's not too soon to consider an Electric Range for your most important Christmas gift. This thoroughly modern range enables the happy owner actually to serve better food by spending less time in the kitchen. The electric oven has recaptured the goodness of old-time cooking. It cooks with retained heat—without a bit of attention after the controls are set. But the part appreciated most is the day after Christmas—and the day after that—365 days each year for many a year to come she will have more leisure and everyone will enjoy the delicious food that an Electric Range cooks.

See these ranges at our store. You can order one now at special terms.
Special Combination Offer
For a limited time only we are also offering an automatic electric water heater at \$10 down and 24 months to pay. If a range and water heater

A Hotpoint Electric Range

\$10 DOWN 24 Months to pay For Limited Time

are bought at the same time, 30 months will be allowed to complete payment.

New Chevrolet Placed on Display Here

Chrysler's new car for 1937, priced substantially below current levels, went on display Saturday throughout the nation.
Heralded as "The Great American Value", the new car boasts a two-inch increase in wheelbase, larger and roomier bodies by Fordor with standard or broadcloth or optional trimmings and scores of refinements in appearance and performance despite the low price, which being the level for the 1937 car to a far lower figure than any Chevrolet, four or six, has ever sold.

The nineteen domestic production plants of the Chevrolet Corporation are now producing the new model, according to W. E. Knudson, president, and shipments are going out to dealers to assure immediate delivery of all models.

Fundamentally the new model embodies the same basic features as the Chevrolet that has established a popularity exceeding Chevrolet's former four cylinder model and four times as great as "the cylinder". However, scores of improvements and refinements have been made this year—every change designed to increase the car's performance, safety or durability of this latest General Motors model.

Twelve carloads of line-ups were taken into Graves county last month. Several farmers applied to the 600 pounds of basic slag to the acre before sowing legumes.

PADUCAH, KENTUCKY

Our Attorney, Too, is at Your Service

Not only do we offer many years of experience in writing your will but we are also glad to call in the advice of our own legal counsel to clear up any point or points that are not to your entire satisfaction. No pains are spared to render complete service and entire satisfaction in every matter to the customers of this institution.

WHAT SHALL BECOME OF YOUR ESTATE?

If you die without making a will, the laws of the state provide an arbitrary distribution between your heirs. Perhaps this wouldn't satisfy you at all—perhaps someone you wished to provide for (a cripple, an invalid or an aged relative) would suffer in such a distribution. Perhaps you prefer that all your means be placed at your widow's disposal; maybe it's unwise for a certain dependent to be given his share before a certain time. All these things ought to be thought about and provided for now. Tomorrow may be too late. It is your privilege and your duty to make your will. See us about it.

We will be glad for you to come in any time and have us explain any or all phases of the service rendered by our Trust officer.

BEN GROGAN, Vice President and Trust Officer

NOTICE
Market Opens Dec. 3
FARMERS LOOSE LEAF FLOOR will operate this season at the big Association Warehouse east of the railroad, formerly occupied by Veal's Loose Floor.
This is the largest loose floor in Western Kentucky which enables us in many ways to sell your tobacco to a better advantage.
All tobacco sold on this floor will have our personal attention at all times, and it shall be our desire to sell your tobacco at the highest market price, and will be glad to advise with you at all times regarding the marketing of your tobacco to the very best advantage.
We will conduct daily sales with prompt settlement after each sale.
Our floor will be open day and night with free stalls and sleeping quarters.
Sell your tobacco on the Murray Market this season, the highest market in the Western District for the past five years.

Everything Is Cheaper
I am in the market now to fill in on merchandise to complete my stock.
I had not bought much winter merchandise, expecting this opportunity to buy merchandise cheaper.
This is a very extensive sale. Merchandise is much cheaper than last year. This is the annual manufacturers' sale.
My merchandise in stock is being marked down to meet present prices.
An opportunity is extended to those preparing for Thanksgiving to buy cheap.
