REVISING IDEAS.

As to When the War Will End.

Britons Not So Sanguine As They Were.

Utmost Alarm Beginning To Be Felt.

4000 Rebels Said To Have Surrendered.

Boers Preparing To Carry Out Their Threat.

London, April 7.—4.30 a. m.—Not a word regarding the disaster at Reddersburg has been allowed to come through except the despatch of Lord Roberts. It is therefore impossible to form any notion as to what has happened. Meanwhile the British public is beginning to realize the immense difficulties to be overcome even before Pretoria is reached, and is revising premature ideas with respect to the time when the war will be over. No one now believes that it will have ended by the beginning of June.

This latest disaster more particularly illustrates the heavy task involved in holding the railway. This body of some five hundred British troops without guns, which disappeared so completely within thirty-five miles of the great British army had for its business to guard a section of nearly ninety miles of railway between Bloemfontein and Springfontein. If it could thus be spirited away, how is Lord Roberts to ensure his continually extending communications. Other pertinent questions are being asked as a result of the successive "unfortunate occurrences."

The foremost is, why do not the British troops retreat? It is argued that if this had been done even five hundred men might have held out until reinforcements had arrived. It cannot be concealed that the utmost alarm is beginning to be felt. It is said that the Boers who captured the British at Reddersburg belonged to Olivier's command and if so he has not retired north and hopes are expressed that he may still be cut off. It is asserted that four thousand rebels surrendered during General Clement's march northward. The Boers will do their utmost to hold Ladybrand and Thaba N'Chu, both being rich grain producing districts.

A correspondent of the Morning Post at Springfontein telegraphing Thursday, says he is glad to be able to report that increased precautions are being taken in patrolling the railway.

It is stated that most of the prisoners captured at Boshof are foreigners. The report that Mr. Steyn has been appointed to the command of the Free States and the further report that the Free State has arranged a loan from the Transvaal for war purposes are both confirmed.

Ten thousand remnants from South America are due to arrive during the coming week at ports of Natal and Cape Colony.

Another Boer version of the fighting with Col. Plumer's forces says that four officers and thirty men were taken prisoners at Ramathlabama. It appears that the names Cecil and Granville which

Two Lumbermen Poisoned by Favorite Down East Beverage.

Patten, April 6.—The remains of two men, David Berry, formerly of Presque Isle, and George McDonald were brought to Patten yesterday from Murphy's camp. The authorities have so far been unable to learn the residence of McDonald. It seems that on Sunday last the crew in the camp were drinking excessively of Jamaica ginger. It is reported that the two dead men drank about twenty bottles each later when suffering from the effects of it, they attempted to take a mustard emetic and in about two hours they both were dead after suffering the greatest agony begging to be set open. Several other men in the crew are sick from the effects but are likely to recover. The town authorities are in charge of the remains and they will forward them to their friends if any can be found.

PLOT THICKENS.

Leading Democrats See Dewey.

It Is Not Known Who They Were.

One Is Said To Be Mayor Van Wyck.

Story Confirmed By Several Sources.

Admiral Refuses To Affirm Or Deny Statement.

Philadelphia, April 6.—Notwithstanding the announcement that Admiral Dewey saw only Captain Brownson while in the city, it was gleaned from what is considered a reliable source that he had a two hours' conference with three men who came here from New York.

The informant said the Admiral's conferences were neither Grover Cleveland, William C. Whitney nor David B. Hill. As to the nature of the conference nothing could be learned but it was believed to have a close relation to Admiral Dewey's candidacy for the Presidency. It was reported tonight that the three men who, it is said, met Admiral Dewey here today, were sent in advance by prominent Democrats in New York to make an appointment with the Admiral for this afternoon. It is also asserted that the men returned to New York and reported that everything was fixed and that thereupon a special car in which were ex-Senator Arthur C. Cogan of Maryland, William C. Whitney and George D. Spilney, was attached to the Baltimore and Ohio train from New York, which arrived here at 5.03 p. m., and that it was then switched to the Pennsylvania railroad and attached to the Congressional limited which leaves here at 5.25 for Washington. These statements could not be confirmed tonight.

While on the way from the hotel to join Mrs. Libbey on the train a reporter asked the Admiral whether he had any visitors besides Captain Brownson and the Admiral replied: "I left orders at the hotel office that I would see no one."

"But did you see anyone?" "The orders I gave were explicit," "This was the only answer the Admiral would give."

"Will you say now, who is back of your candidacy?"

"Not at this time."

"Are you prepared yet to issue a statement?"

"None has been prepared."

"When will it be ready?"

"I shall issue a statement in a few days."

"What will be the nature of it?"

"I can say nothing as to that."

"It has been stated that if McKinley and Bryan are nominated you will run independently; is that true?"

"I have never said so."

"Admiral, how do you feel about the way the people of the country have received the announcement?"

"The Admiral then went on to say that he did not expect to be accompanied to Washington by anyone except his wife and that he would have no conference with anyone while on route."

NEVER VOTED IN HIS LIFE.

Admiral Dewey Makes One More Admission at Washington.

Washington, April 6.—Admiral and Mrs. Dewey returned to Washington, tonight, from their visit to Philadelphia. They expressed themselves as greatly pleased with their reception. A number of reporters were at the house awaiting his return. In response to a question, the Admiral said that he expected to have in a few days, ready for the press his statement of his plans for the future which he indicated his intention to make.

"Can you confirm the statement you are credited with making, that you are a Democrat?" persisted one of the reporters.

"Certainly I am a Democrat," he replied. "I always have been a Democrat," he added smilingly.

uring Monday next the Admiral and Mrs. Dewey will move into their country home at Beverly which they have taken for the summer.

QUARTERS AT KANSAS CITY

Elaborate Apartments Engaged By Admiral's Brother-in-Law.

Kansas City, Mo., April 6.—John H. McLean, brother-in-law of Admiral Dewey has engaged elaborate headquarters at one of the leading hotels for the Democratic convention in July. The rooms are very choice and it is rumored that they are to be shared by Admiral Dewey. When the selection was made Mr. McLean, it is said, announced that the rooms would be occupied by himself and a friend.

ADMIRAL'S OWN IDEA.

Ex-Sec'y Whitney Says He Had Nothing To Do With Dewey's Candidacy.

New York, April 6.—William C. Whitney said today that all statements suggesting that he has had to do with the candidacy of Admiral Dewey for the Presidency, are without foundation. He said: "I do not consider myself as so related to politics at present, as to be entitled to assist in making candidates. I have the profoundest admiration of Admiral Dewey. It came naturally to me from my acquaintance with the Admiral when I was secretary of the navy. I take great pride in his reputation but I have no knowledge of and nothing to do with his recent announcement. I believe it to be the act of the Admiral himself. His nature is simple, and straightforward, and he has doubtless been solicited to become a candidate by thousands of people who would like to see him President. I imagine that if you get at the real truth you will find that to be the reason of his announcement."

VAN WYCK ONE OF THEM.

Leading Tammany Democrats See Dewey.

New York, April 6.—The Press tomorrow will print the following special despatch: Philadelphia, April 6.—Robert Van Wyck, mayor of New York, representing Tammany Hall and two other Democratic leaders of New York, also representatives of Tammany came to Philadelphia today to confer with Admiral Dewey regarding the sailor's announcement that he would accept the nomination for the Presidency of the United States.

G. A. R. WILL ENTERTAIN DEWEY.

Chicago, April 6.—Should the Dewey committee finally decide, owing to the Admiral's political aspirations, not to welcome him May 1, in Chicago, the Grand Army of the Republic will invite him as a Presidential candidate to attend the great encampment to be held in Chicago in August. "The Grand Army men are anxious to have Admiral Dewey attend the encampment," said William H. Harper, chairman of the general committee today.

"We invited him when he first landed in New York, but at that time he found May 1 more convenient, so the invitation of the Dewey committee was finally accepted."

MRS. DEWEY'S SUGGESTION.

New York, April 6.—Mrs. Geo. Dewey arrived here today from Philadelphia and went to the Waldorf-Astoria hotel.

The Evening Journal says that on the train an acquaintance asked Mrs. Dewey what would be her ideal ticket for the coming Presidential contest and Mrs. Dewey, with a quizzical smile, replied: "Well, how would Admiral Dewey for President and Theodore Roosevelt for Vice President do?"

DEWEYS RETURN TO WASHINGTON

Philadelphia, April 6.—Admiral and Mrs. Dewey, who arrived here yesterday to attend the concert in aid of the families of soldiers and sailors killed in the Philippine Islands, returned to Washington late this afternoon. The Admiral spent a quiet day at the Hotel Bellevue, denying himself to all but one caller, that one being Captain Brownson, who is to command the battleship Alabama. There was no demonstration either at the hotel or at the depot when the Admiral left.

M'CLURE ARRAIGNED.

Rutland, Vt., April 6.—There were no sensational developments today at the hearing of Marvin A. McClure, the Rutland music dealer who was arraigned upon the charge of larceny and embezzlement and with aiding and abetting Cashier Charles W. Mussey in the wrecking of the Merchants' National bank of this place. Bank Examiner Muir announced that two weeks more would be required to complete his examination of the bank's affairs and upon the agreement of counsel the hearing was continued until April 23. McClure's bail being increased from \$25,000 to \$50,000. The prisoner was brought before U. S. Commissioner Johnson of Burlington, the government being represented by U. S. District Attorney Martin, while McClure had as counsel State Auditor G. M. Barber and J. A. Morrill, the latter of whom holds the position of United States commissioner.

RAILROAD BLOCKADE.

El Paso, Texas, April 6.—The Atlantic division of the Southern Pacific is blocked with passenger and freight trains from El Paso to San Antonio. The heavy rains which occurred yesterday between Dryden and Del Rio destroyed six bridges delaying trains from all directions. No passenger trains have gone east from here since Wednesday night. Traffic will not be resumed for several days.

IN CROUPS.
This has been a day of reading glasses. Every one of my patrons said they had no trouble in seeing at a distance, with the exception of one who came for bifocals. Every pair of glasses I have sold today has been for reading. It is strange but true that the different kinds of glasses seem to each have their day. Some days I sell nothing but far-seeing glasses. Other days they are all for headache and so on. If I were superstitious I might know some reason for it, but as I am not, it is beyond me. Glasses for reading and glasses for headaches are however the most frequent. About the first difficulty in defective eyes is either a difficulty in evening reading or else a headache. It is necessary to hold the book at arm's length and even then the type runs together and the letters blur. Well fitted glasses will relieve the trouble and make reading a pleasure. That's my business.

NOTHING TO FEAR.

Gov. Taylor Makes Statement Regarding Charges Against Him.

Cincinnati, Ohio, April 6.—Governor Taylor gave out the following statement at Frankfort tonight:

For weeks I have been the target of vilification by certain unprincipled newspapers in Kentucky. The vilest insinuations have been told. When I was called to attend the funeral of a beloved brother I was asked upon a statement on my part to fly from justice. Again when called to my home by reason of the death of a dear sister, the fountains of abuse were opened and a flood of falsehood and slanders poured forth upon me, its charge again being made that I was attempting to fly from the state. On my last return to Frankfort, these papers hastened to publish the statement that I was made to leave the state and escorted to my home by a squad of soldiers with a gatling gun. There is not one word of truth in this statement but nevertheless it was published and circulated to harm me. Not content with this infamous, glib work which with unblinking audacity has followed me to the graves of my brother and sister, even the private life of my family has been invaded and because my wife drew from the bank some money with which to pay the soldiers, an attempt was made to impress upon me the fact that she was preparing to fly to Ohio and for all I desire to do I never directly nor indirectly had any connection with the assassination of Senator Goebel. I am a citizen of this state amenable to its laws and I am not a criminal; neither would I ever be a fugitive from justice. Whenever indicted, if such an outrage should be committed, I should appear for trial, conscious of my innocence and of the ultimate triumph of right and justice. The whole purpose of this persecution has been and is to deprive me from my post of duty and to prevent me from holding the office to which I have fairly been elected. Such a surrender I have not made, nor will I make it unless the highest courts of this land should adjudge that I should do so.

BATTLE WITH OUTLAWS.

El Paso, Texas, April 6.—Complete details of the fatal battle between New Mexico officers and a band of outlaws near San Simon, at Ariz, Wednesday have reached here. Hanser George Seabrook, who was wounded in the fight died after reaching his home in Deming yesterday. Walter Brehfeld it is thought was recovered. Brevier H. Bantly who was with the wounded officer from San Simon Deming, has arrived here and tells the story of the fight as he had it from the officers. The officers of the Seabrook said he and Officer Brehfeld who was a cattle man were riding along in the rough mountains and were suddenly attacked from a clump of bushes. Both their horses fell immediately. They began to defend themselves but the next fire wounded both of them. Officers are still in pursuit of the bandits.

ROOSEVELT PRAISES OFFICIALS.

Albany, N. Y., April 6.—Governor Roosevelt has given out a statement on the work of the legislature of 1900 in which he specifies a number of the leading measures passed by the legislature and refers to the public benefits conferred by these and in conclusion, says: "I do not believe that anywhere can be found a more devoted, conscientious and able set of officials than those now administering the various departments, bureaus and institutions in the state government of New York."

GOT RID OF HIM QUICKLY.

Richmond, Va., April 6.—Joseph Fletcher, a re-enlisted negro soldier of troop F, ninth cavalry while drunk on a Chesapeake and Ohio train last night, became dangerous and had to be tied. On the arrival of the train at Staunton he was put in jail and arrested Deputy Sheriff Dawson, who shot and killed him. Fletcher was from Washington. Dawson was acquitted by the coroner's jury.

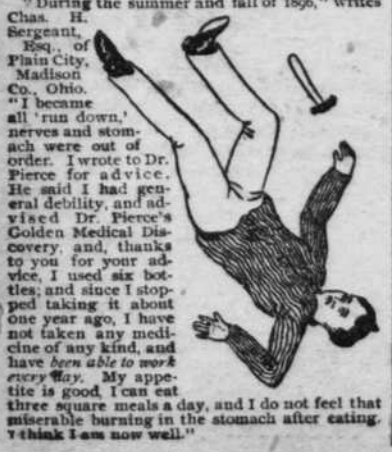

BIG BEQUESTS.

Chicago, April 6.—Several public bequests were disclosed by the filing of the will of Albert G. Cone, late treasurer of the W. W. Kimball company, who died March 28 and whose estate amounts to \$520,000. The Chicago Home for Incurables is given \$50,000; the Chicago Homeopathic hospital \$10,000 and the Presbyterian hospital \$15,000.

CHINESE MINISTER TO REMAIN.

London, April 7.—The Peking correspondent of the Times telegraphing Thursday says: "In deference to a request made by Li Hui Chang, the Chinese minister in London and Washington, will be allowed to retain their posts some time longer."

When a man falls headlong from a roof, we think only of the hazardous character of his employment. It does not occur to us that thousands of men at sea or on land are hourly climbing to dizzy heights without a fear and without a fall, and that the real danger is not in the employment but in the weakening of the nerves and giving way of the muscles. That danger is just as great to the man on the sidewalk or in the office as to the man on the stomach and the organs of digestion and nutrition are diseased becomes impoverished, and nerves and muscles grow weak for lack of nutrition. More fatal diseases probably begin with "weak stomach" than with any other cause. The first symptom of disordered stomach calls for prompt use of Dr. Pierce's Golden Medical Discovery. It is a vegetable medicine, absolutely non-alcoholic and non-drowsy. My recommendation for the strength it gives to blood, nerves and muscles. "During the summer and fall of 1896," writes Chas. H. Bergant, "I became afflicted with a nervous and stomachic ailment. My nerves and stomach were out of order. I wrote Dr. Pierce for advice. He said I had general debility, and I tried Dr. Pierce's Golden Medical Discovery, and, according to your advice, I used six bottles and since I have been taking it about one year ago, I have not taken any medicine of any kind, and I have been able to sleep three square meals a day, and I do not feel that miserable burning stomach after eating I think less now well."

REVISING IDEAS.

Continued from First Page. were originally supposed to indicate two of the officers captured at that time should have been read together as the name of one officer. As numerous prisoners are now held on both sides, the question of exchange was mooted in the House of Commons last evening. This elicited a reply that the government had no intention of proposing an exchange.

TO REDEEM PROMISE.

Boers Will Make Effort to Retake Bloemfontein. London, April 6.—The Bloemfontein correspondent of the Morning Post, telegraphing Thursday, says: "The Boers are apparently making an attempt to redeem their promise to retake Bloemfontein. A considerable force has moved south through Thaba N'Chu. General Tucker's isolation at Karas is more apparent than ever since the open ground north of Bloemfontein offers small opportunity for Boer tactics. They may possibly engage him to distract attention from operations elsewhere. Rumours are anxiously awaited." "The Bloemfontein correspondent of the Daily Telegraph telegraphing Thursday, says: "An edict meeting was summoned by Transvaal emissaries for today at Louisa, but by nobody attended. "Boer patrols from Brandfort have cut the telegraph wires between here and Beaufort. "The British scouts reported yesterday that a force of from 15,000 to 18,000 Boers had been seen beyond Bosman's Kop moving from Thaba N'Chu to the south. The enemy, by appeals and promises couched, are vainly trying to induce the burghers to take the field again. The burghers are more afraid of the Transvaalers than of the British. "The Daily Telegraph has the following from Johannesburg dated Thursday: "Lord Methuen's Mafeking relief force was concentrated here today. The Boers are in force a few miles distant on the Vaal river. This town is practically deserted, all the men being with the commander under commandant Daplessis, who controls the district. "Lord Methuen's command in a spirited little action, nine miles to the southeast where he surrounded 70 Boers on a kopje. Not a man escaped. We took 65 prisoners, 80 horses and a quantity of baggage. General De Villiers was killed during the action. "A Boer hoisted a white flag and then fired immediately, killing a British officer. The murderer was instantly shot."

The Pretoria correspondent of the Daily Mail telegraphing Thursday, says: "Col. Plummer's force is returning north. "A special despatch from Kroonstad dated Monday, gives the last appeal of General DeVilliers to the French legion. "To the Legionnaires who have known me as their comrades, officers, non-commissioned officers and men: "I know you have not forgotten me and that we understand each other. Therefore I appeal to you. There is here in front of the Vaal a people whom it is desired to rob of their rights, their properties and their liberty in order to satisfy some selfish ends of a government. "The blood that runs in the veins of this people is in part French blood. France, therefore owes to it some striking manifestation of help. You are the men whom a soldier's temperance, apart from all the great obligations of nationality gathered under this people's flag, and many that cling with it, is the best of fortune to me. You are the finished type of a troop that attacks and knows not defeat."

COMPANIES CAPTURED.

Lord Roberts Announces Another Unfortunate Occurrence. London, April 6.—The following is the text of Lord Roberts' despatch announcing the capture of five companies of his troops: Bloemfontein, April 5.—Another unfortunate occurrence has occurred, resulting, I fear, in the capture of a party of infantry consisting of three companies of Royal Irish Fusiliers and two companies of the Ninth regiment of mounted infantry, near Reddersburg, a little eastward of Betsieba railway station, within a few miles of this place. They were surrounded by a stronger force of the enemy with four or five guns. The detachment held out from before noon April 3, until 9 a. m., April 4, and then apparently surrendered, for it is reported that the firing ceased then. Immediately after I ordered Gatons to proceed from Sprinfontein, his present headquarters to Reddersburg with all possible speed, and I despatched Cameron's Highlanders thence to Betsieba. He arrived at Reddersburg at 10.30 a. m. yesterday without opposition, but could get no news of the missing detachment. There can be no doubt the whole party has been made prisoners. "The war office has received the following despatch from Lord Roberts, dated Bloemfontein, Thursday, April 5: "Methuen telegraphs from Boshof, (in the Orange Free State a little northeast of Kimberley), as follows: "Surrounded General Villabois Marsull and a body of Boers today, Villabois and seven Boers killed, eight wounded, fifty prisoners. "General de Villabois Marsull was the chief of staff of the Boer army. He was about fifty years of age and is said to have been responsible for many of the Boer successes in Natal and later in Cape Colony and the southern part of the Orange Free State."

HUSSARS DETAINED.

Norval Point, Thursday, April 5.—A detachment of Hussars who were proceeding hence to Bloemfontein, are reported to have been detained at Edenburg, about fifteen miles northwest of Reddersburg, in the Orange Free State, and despatched to the assistance of the Irish Fusiliers captured near Reddersburg.

BRITISH SUBJECTS EXPELLED.

Lourenco Marques, Thursday, April 5.—According to advice from Pretoria all British subjects have been ordered to quit Pretoria and Johannesburg immediately except some four hundred who are permitted under a recent law to remain in the capital. Those who are expelled number about six hundred. "The prisoners and guns taken at Sannas Post have arrived at Pretoria. Bloemfontein, Thursday, April 6.—The

first cavalry brigade under Col. Procter reconnoitered outward today beyond Louisa Kop. They found one hundred and fifty Boers and opened upon them with shells. The Boers dispersed instantly.

OUTSIDE HELP CALLED.

Serious Labor Troubles in Greenwich, Connecticut.

Greenwich, Conn., April 6.—The situation arising out of the strikes of the members of the Building Trades union of Greenwich and Port Chester last night seemed to the town authorities to have reached a point where extreme measures were necessary and this morning the citizens of the town are on the qui vive for a lively day.

In apparent desperation the local officials have deemed it wise to call in outside aid to suppress possible demonstrations, and High Sheriff Bradley of Fairfield county today left Bridgeport with a posse of twenty-five men.

Moreover, as a result of the counsels of the more apprehensive ones of the situation has, it is said, been had with Governor Lounsbury, who has announced his willingness to arrange for the detail in Greenwich of military companies from South Norwalk and Stamford should the occasion arise. Whatever of demonstrative trouble has developed has been precipitated by the Italian laborers involved. The latter have seized this opportunity to press their demands for more pay and less work. They have paraded to some extent, and in some cases have induced by force or argument a few workmen to leave their labor and join them. The town authorities were annoyed because of repeated protests from citizens against the toleration of these parades. Just at this time the summer residents are beginning to arrive and this has added to the discomfort of the permanent residents who fear that the situation may give Greenwich a black eye. The officials in response to the pressure brought to bear, issued an order prohibiting parades or other demonstrations. The strikers accepted the gambit and announced an elaborate parade for today. The guardsmen of the posse were seized with apprehension and the appeal to the county authorities refused.

Bridgeport, Conn., April 6.—High Sheriff Bradley of Fairfield county left this city this morning with a posse of deputies for Greenwich, having been summoned there by the town authorities, who announced themselves as unable to cope with the strikers of the building trades unions. The sheriff will collect men at Stamford and Norfolk, and will arrive in Greenwich with a posse of twenty-five.

MACABEE SCOUTS.

Report on Organization and Operations. Washington, April 6.—The war department today made public the report of Lieutenant Matthew A. Bateson, of the Fourth cavalry, in regard to the origin and operations of the Macabee scouts who formed a part of the armies of General Lawton and General Young in the exciting campaigns in pursuit of Aguinaldo in northern Luzon. For his success with this military band of natives Lieutenant Bateson has been appointed a major of volunteers and placed in command of a cavalry battalion of Filipinos, to be immediately organized with the Macabee scouts as a nucleus.

Major Bateson's report is long and covers all the details of the active operations of the Macabees from the time of their origin, September 9, when he was obliged to relinquish command by reason of a serious wound of the left foot, received in an engagement at Aringay river. There were five companies of these native scouts numbering about 600 in all, and they were uniformed, equipped and drilled in every other respect like United States troops. Lieutenants Boutelle, Quinlan, Hallard, Faulkner and Aeling Assistant Surgeon Simpson were attached to the command and rendered efficient service. Lieutenant Boutelle was killed while bravely leading a charge in a skirmish near Santiago. The enemy were in trenches at the time and they were a sergeant of the Dublin police. She returned at 5.30 p. m. Crowds of people filled O'Connell street in fruitless anticipation of seeing the Queen pass.

News of Latest Disaster Cast Gloom Over Party. Dublin, April 6, 7.40 p. m.—In spite of the fact that it was raining, Queen Victoria this morning drove out in the vice regal grounds in a garden chair. Owing to the continued wet weather she did not visit the city this afternoon, merely indulging in a short carriage drive in the park and over the roads in the vicinity. Great anticipations have been expressed in connection with tomorrow's children's exercises when 30,000 youngsters from all parts of Ireland, will be given a chance to see Her Majesty.

TO U. S. SUPREME COURT.

Gov. Taylor Will Appeal Decision Against Him. Frankfort, Ky., April 6.—Ex-Governor W. O. Bradley, chief counsel for Gov. Taylor tonight, authorized the statement that an appeal on behalf of Gov. Taylor and Lieut. Gov. Marshall from the decision of the State Court of Appeals will be carried to the Supreme court of the United States.

Mr. Bradley and Judge W. H. Yost counsel for the Republican state officers were in consultation with Gov. Taylor for several hours this afternoon. It is stated that Col. W. C. F. Crookbridge and Republican leaders from different parts of the state will meet Gov. Taylor in conference here tomorrow morning.

DECISION FAVORS DEMOCRATS.

Frankfort, Ky., April 6.—The court of appeals today handed down a decision in the governorship in favor of the Democrats. The opinion is by six of the judges, four Democrats and two Republicans. One Republican dissented.

The opinion holds that the action of the legislature in seating Governor Beckman was illegal and that the court has no power to review it; that Gov. Taylor exceeded his authority in adjourning the legislature to London and that the journals of the two houses of the legislature being regular, cannot be impeached. The Republicans will now try to get a hearing before the United States Supreme court. Thirty days must elapse before the students of the court of appeals, in accordance with today's decision is issued. Meanwhile no radical change in the relative positions of the two state governments is expected.

HOW GOEBEL WAS KILLED.

Louisville, Ky., April 6.—The Courier Journal prints a story which purports to give the details of the conception and execution of the plot to kill Senator Goebel. The story is based upon evidence said to have been given to the authorities for the prosecution by Wharton Golden, W. H. Cullon, H. E. Koutsey and others. The story follows Golden's testimony as reported by having fired the shot that killed Goebel. He is a Clay county feudist. He is supposed to be in the mountains and has not yet been arrested.

The story follows the evidence given by Golden in the preliminary trial of Caleb Powers as to the bringing to Frankfort of the armed mountain feudists. The plan was to bring a man suspected of having fired the shot that killed Goebel. He is a Clay county feudist.

RIOTING IN PORTO RICO. Natives Attack the Foreign Colored Men. PORTO RICANS TO BE EXECUTED. San Juan, P. R., April 6.—At four o'clock yesterday the natives made a concentrated movement at Pura Tiera. Different mobs, totalling about two thousand men attacked the foreign colored men. Any English speaking negro was subject to attack, particularly the natives of St. Thomas and St. Kitts. One Porto Rican was killed, one seriously injured, and three negroes of St. Kitts were dangerously wounded. The affair was the outcome of the pier strike and the presence of the attack, apparently was that the English Islanders were usurping Porto Rican labor. The islanders anticipated trouble and some of them were armed with revolvers. The mob entered the house of a St. Kitts man, and his abdomen was gashed with a machete. Another St. Kitts man was stoned. He escaped to the roof and was forced to jump to the ground. He was killed in the street and stoned until exhausted when the head was hammered into a jelly. Captain Alexander and Lieutenants Ansell and Parker, was called out, martial law was declared, soldiers now patrol the streets, and the rum shops were closed. The more presence of the soldiers dispersed the crowds. There were no demonstrations after the arrival of the soldiers. The condition of affairs necessitates the presence of troops indefinitely in order to prevent more trouble. The municipal police are utterly inadequate to preserve order of bands any crowd. They stood by during the riot as spectators, and made no attempt to interfere. The Pura Tiera district of San Juan is about a mile from the city hall.

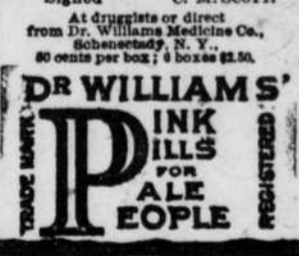

QUICK WORK BY JEFFRIES. Detroit, Mich., April 6.—Champ n James J. Jeffries, knocked out Joe Finnegan of Pittsburgh before the Cadillac Athletic club tonight in fifty-five seconds. Finnegan landed the first blow as they came to the center of the ring, and Jeffries then put his left on the Pittsburgh man's jaw and he went to the floor. Finnegan came up in a few seconds only to be sent to the floor again with a blow in the same place. He stayed down longer this time and when he again rose he was in visible distress. He had hardly assumed a fighting position before the champion put his left in the pit of his stomach and Finnegan went down completely out.

THE HAWAIIAN BILL

Passed House By Big Majority.

Important Amendments By Mr. Hill Voted Down.

One Was For Resident Commissioner

Other Provides Against Statehood in the Future.

Washington, April 6.—The House after four days of debate today passed the substitute for the Senate bill providing for a territorial form of government for Hawaii. The bill now goes to conference. The most interesting feature of the day's proceedings was the attempt of Mr. Hill of Connecticut to secure the adoption of two amendments, one providing for a resident commissioner instead of a delegate in Congress and the other declaring that nothing in the act should be interpreted as a pledge of statehood. Both amendments were overwhelmingly defeated.

The House resumed the consideration of the bill to provide a territorial form of government for Hawaii.

An amendment offered by Mr. Newlands was agreed to directing the surveyor general to report to the department of labor annually the number of holders of land of less than one hundred acres.

The section giving the legislature of Hawaii power to impeach the judges of the several courts was struck out. Mr. Hill of Connecticut offered an amendment giving Hawaii a resident commissioner in Washington instead of a delegate in Congress. Mr. Hill opposed anything that pointed to the possible formation of a future state outside of the islands. He said there were few members of Congress who looked forward to the admission of Hawaii as a state.

Mr. Hill of Illinois who was a member of the Hawaiian commission opposed the amendment. He said it was desirable in legislation for the island that there should be a delegate on the floor who could be questioned. If there was no such, the corridors would be crowded with lobbyists representing special interests. (Applause.)

Everybody knew what a lobbyist was. Whether he was an ex-Governor, an ex-Senator, an ex-Justice of the Supreme Court or a common hireling in Washington he represented special interests. Mr. Hill recalled that the ministers from Hawaii in the past, Messrs. Carter, Thurston, Hatch and Hastings were all honorable men who had the privilege of the floor but no votes.

"The gentleman has had broad experience with foreign affairs," interrupted Mr. Hill. "Does he know of a single singular government in the world, either in Great Britain, France or Germany, or any other European power, which has a representative in the parliament."

"Whenever a popular representative government, essentially," replied Mr. Hill, "and a republic does not need to take lessons from monarchies in the application of our own systems." (Great applause on both sides of the House.)

Mr. Williams of Mississippi argued that the constitution entitled every organized territory to a delegate on the floor of the House. He said that he had opposed the annexation of Hawaii originally because he had foreseen the race problem it would bring with it. He replied with much feeling to Mr. Hill's reference earlier in the day to the restricted suffrage in Mississippi.

"Does the gentleman imagine," said Mr. Hill, "that we of the South take any pride in the fact that we are compelled to restrict the suffrage in the interests of civilization."

"I do not," replied Mr. Hill, "but why not apply the same system to Hawaii."

"Whenever I am faced with the race problem," continued Mr. Williams, "I stand for white supremacy. I stand for white supremacy in Hawaii as I stand for it in Mississippi. It is the duty of man to lift up those below him if he can, but there is no injunction, human or divine which obliges white men to herd with narrow foreheads, ignorant of our glorious gains. I have no idea that the blacks will ever rise to the plane of the whites and indulge in no hypocrisy about it."

Mr. Williams said it will become the representative of Connecticut and Rhode Island to tempt the men of the South with their election laws. He created much amusement by his reference to some of the peculiarities of the election laws in those islands and Connecticut and drew the fire of the representatives of those states.

WASHINGTON, April 6.—Senator Debevoise of Kentucky, gave notice in the Senate today that he would move to refer the credentials of former Senator J. O. P. Blackburn as a Senator from that state to the committee on privileges and elections. During the greater part of the session, the Senate had under consideration the Indian appropriation bill. Early in the day Mr. Sullivan of Mississippi delivered a speech in favor of the seating of Hon. M. S. Quay.

Mr. Clark of Missouri said he was totally opposed to taxation without representation.

Mr. Hill's amendment was adopted to postpone for one year the time when the coastwise laws of the United States should be extended to Hawaii. An amendment was added to the end of the bill providing that no Chinese who obtain a certificate in Hawaii under the terms of the bill, shall be allowed to enter any state or territory of the United States.

Mr. Dearmond of Missouri offered an amendment compelling all Asians who have entered the islands under contract since the date of annexation to leave within one year. Adopted.

Mr. Newlands offered an amendment declaring it to be the purpose of the act to encourage free white labor in the islands and discourage Asiatic labor and providing that within one year all corporations shall employ at least one-tenth white labor and one-tenth more each successive year until at least three-fourths of the employees shall be citizens of the United States and Hawaii.

The amendment was lost 34 to 77.

A committee amendment was adopted to close up and liquidate the affairs of the Hawaiian Savings Bank.

Mr. Hill of Connecticut offered an amendment providing that nothing in the act should be construed as a pledge of statehood in the immediate or distant future.

Mr. Knox characterized the amendment in the words of former Representative Walker of Massachusetts as "Almighty Damn License." The amendment was lost.

Another committee amendment was adopted to make the section relating to appropriations go into effect after the approval of the act.

The last amendment was one offered by Mr. Newlands of Nevada, to create the office of commissioner of labor in Hawaii. The committee then reported the bill and amendments to the House.

Mr. Bartholdi of Missouri, moved to reconsider the bill, with instructions to strike out the amendment prohibiting the sale of intoxicating liquors in saloons in Hawaii and report the bill back forthwith as amended. The motion was lost 50 to 83.

The bill was then passed 190 to 38. At 3:50 p. m., the House adjourned.

THE TRADE SITUATION.

Favorable Features Continue in the Majority.

New York, April 6.—Bradstreet tomorrow will say: Favorable features continue in the majority in the general trade situation. The hopes for the advent of seasonable spring weather have been realized; and nearly all markets reported an improved distribution at retail. The industrial situation is a rather spotted one. While many thousands are directly or indirectly involved in the Chicago building trade strike, and several thousands are out in the coal industry in the Pittsburgh region, most of the building trade strikers in other cities have gained their demands and the machinists strike in Chicago has been called off pending arbitration. While domestic trade shows signs of expansion, as indicated by noticeable lowering clearings this week, exports business is likewise satisfactory. It would seem evident that March exports from the country as a whole, would come near to breaking all records. Railroad earnings lose nothing as spring advances. The price situation, too, is encouraging, farm products leading in the upward movement.

Wheat, including flour shipments for the week aggregate 4,800,000 bushels against 3,384,000 bushels in the corresponding week of 1899. Corn exports for the week aggregate 4,301,000 bushels against 3,274,000 in this week a year ago. Business failures for the week number twenty-five, compared with twenty-one in this week a year ago. For the first quarter of the year failures are fewer in number than in 1899, and liabilities are seven per cent smaller.

CUBAN EDITORS ARRESTED.

Action Taken By Santiago's Mayor.

Has Caused Intense Excitement in The City.

Paper Was Indecent In Criticisms.

Police and Rural Guards Are Under Arms.

Santiago de Cuba, April 6.—The first important action of the new mayor, Senor Griaño, in suppressing El Cubano Libre yesterday and placing the editorial staff of five men under arrest, created intense excitement when it became known this morning. El Cubano Libre had always been intensely radical in its utterances against Americans, Spaniards and white Cubans. Yesterday it published an editorial both offensive and indecent in criticism of the civil government particularly the municipal branch.

The editorial characterized the palace as "an official sewer and a cess-pool of moral corruption," and used other language not fit for publication. It charged officials with stealing—even specifying the amounts and with selling immense quantities of valuable timber belonging to the municipality, particularly one thousand trees of mahogany that were delivered on contract for one hundred dollars. Furthermore the editorial asserted that Senor Griaño became legally incapacitated for holding office years ago, on account of corrupt conduct.

The new mayor who proposes an aggressive and progressive administration acting under General Wood's order of March 24, giving mayors the control of public order, confiscated the printing plant and lodged the editorial staff in jail. He justifies this step on grounds of public decency. The Americans, foreigners and the best class of Cubans applaud this action. Two hundred prominent Cubans signed a telegram to General Wood today endorsing Senor Griaño's course.

The colored party objects and says the time has arrived for decisive action. The colored general, Habi, and other leaders were requested by the telegraph to come immediately to Santiago to head a "popular movement against the Americans and the Cuban traitors."

There is considerable excitement in the city tonight and it is expected that the release of the editors will be followed by riots. All the police of the city and the rural guards are under arms and ready for an emergency.

The friends of annexation are pleased with the situation. They say that the attitude of the Cubans who are fighting each other, shows the impossibility of self government.

All the papers except the Independencia endorse the mayor's action.

LEFT A VALUABLE PROPERTY.

Eastport, March April 6.—Neil Lamond, a prosperous farmer living at Perry, about seven miles above this island city, has been informed that considerable valuable property has been left near San Francisco, Cal., by a relative who had disappeared.

The communication came from Charles A. Mau, a lawyer at San Francisco, stating that the property had been left there by David Lamond, and that the name of Neil Lamond appears in the papers left by the missing man. The latter has placed the matter in the hands of his son, Lawyer Leo D. Lamond of this city, who has written to the register of deeds, also Lawyer Charles A. Mau, at San Francisco, regarding the above property in the west.

To a correspondent, Mr. Lamond stated that the missing David had left Grenock, Scotland, about forty years ago for America, and a short time later he (Neil) had heard from him at Montreal. From there David Lamond finally went west and settled near San Francisco, Cal., and during these years he had not been heard from. He was cousin of Neil Lamond, now living near this city, and formerly came from Ireland.

The latter also has a brother, John living at Portland, and these two brothers are the only living next relatives of the missing David Lamond, who made his fortune in the west.

GRAPE-NUTS CURE.

Good Food Works Salvation.

"When I began the use of Grape-Nuts food for breakfast, I was suffering with nervous and stomach troubles. I found that Grape-Nuts furnished a nourishing, satisfying meal, that the stomach took to heartily. I feel so much more satisfied and well-fed after a meal of Grape-Nuts, and do not have that disagreeable gorged and tight feeling in the stomach which so often used to accompany my meals when I was using other foods."

"This proves to me that Grape-Nuts food is a highly condensed and nourishing food which satisfies the system as no other food does, and causes no indigestion. It is a Godsend to all sufferers of stomach and nervous troubles."

"I have several neighbors who are using both Postum Cereal Coffee and Grape-Nuts, and they wonder how they ever did without either, since learning how good and beneficial they are. One lady has a family of growing school children. She says they use nothing else for their luncheon at noon but Grape-Nuts with milk. They all enjoy the food very much and feel well fed. She states that when the children come in from school, they are not starved for a piece of something to eat, as they formerly were when they lunched from all other foods."

"This has convinced her that Grape-Nuts food sustains the system longer than any other food. The fact that it is thoroughly cooked and ready for immediate serving is of great value, especially when one is in a hurry. Please do not publish my name. The name of this lady can be had by application to the Postum Cereal Co., Ltd., Battle Creek, Mich."

The Hon. William Jennings Bryan gathered in the Pennsylvania delegates to the Kansas City convention in spite of the Dewey announcement.

General Buller and General Methuen were accustomed to introduce bad news with "I regret to state," Lord Roberts's phrase is "Another unfortunate occurrence has occurred." This is a change but by no means an improvement.

Timothy Woodruff, whom Senator Hanna recently alluded to as "that young thing with the pink waistcoat" has secured the endorsement of the New York Senate for his vice-presidential room, and Timothy now feels somewhat encouraged.

Appearances indicate that the Hay-Pauncoffe treaty will be allowed to go over until the next session of Congress. It seems that there are not supporters enough of it in its present shape to rally to it, and there are not supporters enough to the Davis amendment to adopt that. That being the case nothing could result from taking up the treaty but a discussion which would be sure to be as fruitless as far as the ratification of the treaty is concerned, and which might be harmful in other directions.

Another British detachment has been caught in a trap similar to that General Colville fell into a few days ago, and with results even more disastrous. It seems impossible for the English to comprehend Boer tactics. Ever since the war began they have been blundering into these traps. If their forces were not immensely superior to the Boers none the less the chances of beating them even now would be good, for the Boers seem to be capable of constantly outwitting them.

The decision of the Republican caucus to accept all the Senate amendments to the Porto Rico bill probably ensures the early passage of the Senate measure. From the standpoint of the interests of the island this is the best thing that can happen. The bill as passed by the Senate assures free trade in two years certainly, and makes it possible for the island to get it much sooner. To reject the Senate amendments would probably result not only without any certainty of getting a free trade measure pure and simple in the end, but with the danger that a bill could be agreed upon, and the effect of that would be the continuance of the McKinley tariff against the island. Furthermore any sort of settlement is better for the Porto Ricans than continued uncertainty. They can adapt themselves to some extent to an unfavorable tariff, but uncertainty admits of no adaptation.

The New York Herald's attempt to get an early settlement of the status of Porto Rico by importing a laborer from the island under contract to work in this country has failed. The law forbids laborers from foreign countries under contract to land, and authorizes the Treasury department to send them back from whence they came.

RESPONSIBILITY FOR DEWEY'S CANDIDACY. (Springfield Republican.)

If there is any tragedy in the Dewey candidacy the responsibility for it will have to be shared by those who went to the verge of hysteria in popular demonstrations in his honor, in buying houses for him and swords, in erecting triumphal arches for him to ride under, and in signifying to the man in various ways that he held in the hollow of his hand the highest honors this people could bestow. What is hero worship in America? It is the refinement of cruelty to the victim, especially when the clouds of incense are blown away.

THE MAGAZINES.

The following is the table of contents for Appleton's Popular Science Monthly for April: Recent Years of Egyptian Exploration, Prof. W. M. Flanders Petrie; The Gold Sands of Cape Nome (Illustrated), Prof. Angelo Hallprin; A State Official on Excessive Taxation, Franklin Smith; Latest Developments with the X-Rays (Illustrated) Prof. John Trowbridge; A Hundred Years of Chemistry, Prof. F. W. Clarke; The Science of Art Form (Illustrated), D. Cady Eaton; Steam Turbines and High-Speed Vessels (Illustrated), Hon. Charles A. Parsons; F. R. S.; A Survival of Medical Credulity (concluded), Prof. E. P. Evans; Genuine Starch Factories (Illustrated), Byron D. Halsted S. D.; Trade Corporation in China, M. Maurice Courant; Editor's Table: Science and Dogma, A. More Excellent Way; Fragments of Science; Index to Vol. LVII.

In sureness and variety of attraction, it would be hard to surpass McClure's Magazine for April. The account of the interior of Oshin, especially with reference to its rich promises as a market for America, written by W. B. Parsons, Chief Engineer of the American-Chinese Development Company, from observations made on his own journey, and illustrated very fully from photographs taken by him; the account of Professor

oriless, the public performance of such plays as Epheo ought in some way to be prevented. The most effective way would be for the people to refuse to patronize them, but the public taste has apparently become so vitiated that that method cannot be relied upon. In most cities, however, a license is required for the production of any play, and it is to those who have control of the license that relief from scandalous performances must be looked for in the present condition of the laws. This power has been appealed to in several western cities in the case of Mrs. Langtry's Degenerates, and not in vain.

DEWEY'S CANDIDACY.

The Dewey candidacy is fast taking on the character of a belated April fool joke, and there is some room for suspicion that that is what the Admiral really intended it for. Certainly the deliverances of the Admiral and his wife in regard to it grow funnier and funnier. Yesterday the latter capped the climax by suggesting Roosevelt as her husband's running mate. Of course this humor may be of the unconscious kind, and so may not be proof that the Admiral is not taking his candidacy seriously, but then, it may be conscious, showing that he is entering into the fun of the thing and is purposefully making a contribution to the gaiety of the nation. The view most creditable to the Admiral is the latter, for if his candidacy is to be treated seriously, then his remarks in regard to it must be treated seriously also, and this it is hard to do without imputing his knowledge of the rudiments of politics and government in this country. Certainly if the idea he expresses of the duties of the President is to be regarded as serious, it shows a woeful lack of knowledge on the subject.

To sign bills and execute the laws confided in his opinion, about all the President has to do or ought to do. For a President to have a policy he seems to regard as little short of usurpation, and yet curiously enough the President that he professes to admire above all others—Grover Cleveland—had a more definite and distinct policy and did more in various ways to enforce it than any President, perhaps, since Andrew Jackson. Here is a contradiction which is easy enough to overlook if we regard the Admiral as joking for it is not necessary to press consistency in jokes, but which becomes very troublesome if we undertake to treat the Admiral as serious. Equally troublesome from the view point of seriousness are his announcement that he is a Democrat and the declaration of persons in his confidence that his candidacy is aimed at McKinley. How he can hurt McKinley by going in for the Democratic nomination, it is difficult to see. He might possibly do harm to the Hon. Mr. Bryan, but Mr. McKinley would seem to be entirely out of range of guns aimed in that direction.

CURRENT COMMENT.

DEWEY'S HALO DIMMED. (Hartford Times.)

There was a time not many months ago when, if it were possible to nominate a President, on-hand, by acclamation, Admiral Dewey would have had the nomination, with few dissenting voices. Then spontaneous, unthinking, right-handed admiration, and the admiration of the sea, the situation is vastly changed. His unqualified rejection of the idea, his marriage diverting attention from his heroic aspects to that of a mere mortal in love, and left among other denunciations the club of the Thirty-nine Articles and appellate succession. Blessed, indeed, would be any of these zealous leaders of men if he had some friend who could point out the humor of the situation, and show him how his performance is not only tickle the ribs but do not warm the hearts.

"TICKLE THE RIBS BUT DO NOT WARM THE HEARTS." (N. Y. Evening Post.)

The newly consecrated Episcopalian Bishop of Maine, for example, has been going about his diocese with some extraordinary deliverances, swinging right and left among other denominations the club of the Thirty-nine Articles and appellate succession. Blessed, indeed, would be any of these zealous leaders of men if he had some friend who could point out the humor of the situation, and show him how his performance is not only tickle the ribs but do not warm the hearts.

RESPONSIBILITY FOR DEWEY'S CANDIDACY. (Springfield Republican.)

If there is any tragedy in the Dewey candidacy the responsibility for it will have to be shared by those who went to the verge of hysteria in popular demonstrations in his honor, in buying houses for him and swords, in erecting triumphal arches for him to ride under, and in signifying to the man in various ways that he held in the hollow of his hand the highest honors this people could bestow. What is hero worship in America? It is the refinement of cruelty to the victim, especially when the clouds of incense are blown away.

THE MAGAZINES.

The following is the table of contents for Appleton's Popular Science Monthly for April: Recent Years of Egyptian Exploration, Prof. W. M. Flanders Petrie; The Gold Sands of Cape Nome (Illustrated), Prof. Angelo Hallprin; A State Official on Excessive Taxation, Franklin Smith; Latest Developments with the X-Rays (Illustrated) Prof. John Trowbridge; A Hundred Years of Chemistry, Prof. F. W. Clarke; The Science of Art Form (Illustrated), D. Cady Eaton; Steam Turbines and High-Speed Vessels (Illustrated), Hon. Charles A. Parsons; F. R. S.; A Survival of Medical Credulity (concluded), Prof. E. P. Evans; Genuine Starch Factories (Illustrated), Byron D. Halsted S. D.; Trade Corporation in China, M. Maurice Courant; Editor's Table: Science and Dogma, A. More Excellent Way; Fragments of Science; Index to Vol. LVII.

In sureness and variety of attraction, it would be hard to surpass McClure's Magazine for April. The account of the interior of Oshin, especially with reference to its rich promises as a market for America, written by W. B. Parsons, Chief Engineer of the American-Chinese Development Company, from observations made on his own journey, and illustrated very fully from photographs taken by him; the account of Professor

Huxley's life in London between his twenty-sixth and thirty-first years, when he was having a terrific struggle to maintain himself by purely scientific work, with its self-revealing passages from his unpublished correspondence and his new portrait of him; and the account of the Russian ship "Krack," the marvelous new ice-breaker that gives promise of being able to cut a passage for itself to the Pole—these are all, in their several ways, articles of the strongest interest and the highest value.

The frontpiece of the current Bookman is an engraving from "The Angels of Womankind," by Ludius Hitchcock. In addition to the Chronicle and Comment and the other departments the table of contents includes the following: John Ruskin; The Politician as Literary Material, Arthur Bartlett Maurice; Nell Munro, James MacArthur; Charm; Harry Thurston Peck; Richard Hovey's "Tales"—All Poet's Poem, Curtis Hilden Page; The Fire Books of England; English Authors, VII. John Keats, Luther S. Livingston; Henry de Regnier, Jane Grosvenor Cooke; The New Leader of American Illustration, III; The Story—Belgia, Hagnia, Armstrong; Great Newspapers of Continental Europe, IV. Austrian and Hungarian Newspapers, Eugene Linsedorf; Concerning "Sapho," H. F. H. The Club District; A Bookman; Inside and Outside, Chas. Woodward Hixon; Stringtown on the Pike, Joan Uri Lloyd; Resurrection, Harry Thurston Peck; Drama of the Month, Napoleon Haggood; Literary Paris, Adolphe Cohen.

The leading articles in The Protectionist for April are: Champion of Protection, Jacob Harris Patton, with portraits and extracts; The Further Need of Protection; Facts and Issues in the Porto Rican Case; Report of the Industrial Commission; The Shipping Subsidy Bill; Foreign Competition; Climate and New Industries; The Uses of Wheat and Corn.

The National Magazine for April contains an exceedingly entertaining article on Calicut Day at the White House, by Joe Mitchell Chapelle. Ernest Newton Bragg has an appreciative sketch of Julia Marlowe. In an article entitled "Andrew Jackson and Multiple Choice," L. Osborne draws a parallel between certain happenings in Jackson's time and the condition of affairs today. Perhaps the most valuable and timely feature in this number is a symposium by eight leading editors on the question: "Shall We Retain the Philippines?" Editorial opinion in every quarter of the country is represented in this article, and it cannot fail to be of great interest. In view of the light it sheds on a question of momentous importance.

The Puerto Rican tariff question is editorially discussed in the Review of Reviews for April, and in the same magazine there is an able exposition of the relations of the United States Constitution to the Territories, by Prof. Harry Pratt Johnson of the University of Chicago. The methods of industrial training pursued at Hampton Institute, in Virginia, are described by Albert Shaw whose text is illustrated from a series of forty photographs recently taken by Miss Frances Johnston, of Washington. The Great Steel Makers of Pittsburgh and the Erie-Carnegie Suit is the subject of an illustrated article by Julius Moritz. The article describes the wonderful development of the steel and coke industries of which Pittsburgh is the center. Prof. J. W. Jenks, who has been a United States Industrial Commission as expert adviser in the trust investigation, sets forth the merits of publicity as a remedy for the ills of trusts, with special reference to the companies of the industrial Commission, and to the pending legislation in New York known as the "Business Companies Act." Prof. James Howard Gove writes on the proposed Rhine-River Canal as a feature of German politics. There are two important articles on affairs in the far east by Mr. E. Van Bergen and Mr. William M. Brewster; Louis and the Moscowers; some of the wonderful methods of fire insurance companies. In an article entitled "The Constitution of the Territories," Prof. Henry Pratt Johnson, of the University of Chicago, directs the members of Congress in relation to our new possessions, exposing some of the fallacies that have crept into the discussion of the subject, both within and without the halls of Congress.

THE Kearsarge Fine Ship. Washington, April 3.—The Naval Inspection Board returned to Washington today from Fort Monroe, having completed the two-day trial of the battleship Kearsarge. Admiral Rodgers, the president, says that the test was completely successful.

Conceding the excellence of the Kearsarge in speed, structural strength and embodiment of advanced ideas, there is still a strong division of sentiment among the naval officers here as to the merits of the double turret system.

HYOMEI
A POSITIVE CURE
For Catarrh,
Bronchitis,
Consumption.

DOCTORS REPORT
No Further Proof Necessary.

Within the past few months hundreds of members of the medical profession have stated that no further proof is necessary to show that Hyomei is a positive cure for Catarrh, Consumption and all diseases of the respiratory organs.

With such evidence it would seem that nothing but ignorance and carelessness on the part of the public could prevent the early and complete eradication of these diseases.

That Hyomei and Hyomei alone of all the treatments and remedies used should be the only one to ever receive the endorsement of regular physicians and the United States Health Reports is not surprising when the truth about it is known.

REMEMBER THESE FACTS.
HYOMEI is the only germicide which can be inhaled in the air you breathe, the only possible way of reaching the diseased parts.

HYOMEI is the only treatment for which your money is refunded in case it fails.
HYOMEI is sold by all druggists or sent by mail. Complete outfits, 5 Trial outfits, 5 Five Days' Treatment Free to all sufferers.

IRISH NEWSPAPER SEIZED.
Dublin, April 6. p. m.—The Dublin police, by order of the government, seized today's issue of the United Irishman, a paper calculated to produce discontent, disaffection and disloyalty.

empty basilica and at the same moment all the church bells in the Eternal City rang out glad peals.

His Holiness has decided, after due reflection, that for the Catholic world the year 1900 is to commence the 20th century.

Rome, however, is evidently enjoying a 20th century transition period, and Pope Leo may be glad next year to call another Jubilee, especially as most scientific scholars have decided that the twentieth century does not commence until 1901.

Meanwhile the sights of this wonderful city and its long buried works of art never grow trite or less interesting.

More and more you hunt out the old theatres and forums and trace out the course of the early Servian wall and the sewers, all the work of the Tarquines; and you try to locate the boundaries of the Campus Martius which is now built up solid with many new buildings which are crowding out the old, and you ponder over the changes which must happen in the course of a century, and many of the ruins which must fall; for the spirit of modern progress has seized the Roman along with other more northern and medieval cities.

Like most of old places you find the ancient objects of interest here in the slums. If you are hunting for the beautiful columns and arches of the Portico of Octavia of early Roman days you go through the Ghetto, a locality which once was the fashionable quarter of Rome; and nearby, adjoining the Piazza Minerva, one of the most vulgar quarters of the city, you discover the Theatre of Marcellus named by Augustus for his nephew who did so young.

Worcester, April 6.—Mages, plover, and Blake, outfielder of the national league, have been signed by Manager Kittredge of the Worcester, Eastern league club.

There is one subject upon which the judgment of the average traveller, without definite experience, is at fault, and that is concerning the warm weather in Italy. In fact, no such phenomenon exists; for there is no place in that sunny land of song where the lay finger of King Frost does not at one time or another meddle.

In passing from Rome to Naples and farther south it is true that you can reach out and pick the orange blossoms which are often on the same tree with the golden fruit. Then you feel happy, and think that the soft Italian climate is no dream.

These old sentinels of the past stand as present in solitary grandeur within sound of the sea which used to wash their Doric columns, and now lashes the shores near by.

POMMERANIAN IN.

Arrived Yesterday After a Pleasant Voyage from Cape Town—On the Sea Nearly a Month.

At a few minutes before three o'clock yesterday afternoon the steamer Pommeranian of the Allan Line arrived in this city. This ship had been expected for several days and more than the usual curiosity attached to her coming on account of the fact that she was from Cape Town, Africa, the scene of the conflict between the Britons and the Boers.

The largest crowd that has yet appeared on the wharves during the arrival of an ocean steamer this season was present to greet the well known steamer. The crowd began to put in an appearance early in the afternoon and by the time that the steamer was tied up the wharf was well lined with people.

Captain J. A. Fairful is the master of the Pommeranian and the crew consists of no less than one hundred and ten men. All stood the long voyage in good style with the exception of Chief Officer Brown, who had been suffering with a severe cold which he contracted soon after the steamer left Cape Vincent ten days ago.

"We left Cape Town on the eighth day of last month," said one of the officers in speaking of the trip. "Beautiful weather was experienced during the entire voyage and on no day was it a bit worse than here in Portland today.

THE LONGFELLOW HOME.

The Story of One of the Landmarks of the Portland of the Past.

The Longfellow house on Congress street, is one which has a great interest to the Portlander. For over one hundred years it has been the home of Portland people. In 18, Henry W. Longfellow wrote some of his poems and the room in which he composed "The Hairy Day" is still known as his study.
