LIKE A FLASH

Of Sunlight Out of Dark Came Conger's Message to State Department. Its Authenticity Not Questioned By Cabinet Officers.

Foreign Powers Appealed To To Hasten Relief. Secretary Long's Urgent Message to Admiral Remy.

Washington, July 20.—Like a flash of sunlight out of the dark came the intelligence at an early hour today that United States Minister Conger had sent a cipher despatch from Peking to the state department at Washington making known that two days ago he was alive and that the foreigners were fighting for their safety.

Yuan Shih Kai, governor of Shan Tung province reported that the Chinese authorities were doing all in their power to put down the insurrection, an exceedingly welcome news. It not only confirms the theory of the state department that the position of the Chinese government is correct, but it is assumed to indicate that Yuan Shih Kai has thrown the weight of his influence on the side of the government.

Throughout the day the Conger message remained the absorbing topic of discussion. Secretary Hay was congratulated on the success of the steps he had adopted to open up communication between Peking and Washington, for while the channels of the whole world stood dead and inactive he had adopted a course which had brought a message from our minister. The Chinese minister Mr. Wu shared also in the universal approbation of what had been done.

The fact that the cablegram from Minister Conger was given scant credence in London official circles had no dampening effect upon the optimism of the administration officials. It was pointed out by one of the officials most interested that the weight of international evidence in the despatch was in favor of the genuineness. Besides there were the several strongly corroborative despatches from Consul Goodnow and Consul Fowler.

The fact that Minister Conger mentioned the bombardment of the British legation was considered good evidence that the message was written subsequent to the sixth as the best information here is that the bombardment of the legation did not begin prior to that date. It was said in the state department that it was not thought expedient to give out either the text or paraphrase of the message sent by the state department July 11 to Minister Conger.

The government accepted the message as authentic and Secretary Hay transmitted it to all our ambassadors and ministers abroad with instructions to lay it before the respective governments to which they are accredited, and to urge upon them the necessity of co-operation for the immediate relief of the foreigners in Peking.

A message was also sent by Secretary Long to Admiral Remy conveying the intelligence of the desperate situation in Peking, and instructing him to "use and urge every possible endeavor for relief."

This message Secretary Long explained meant for Admiral Remy to himself "use and to urge" upon the commanding officers of the other powers the use of every endeavor for the relief of Peking. Secretary Root sent a similar notification to Col. Coolidge, the senior American officer ashore at Tientsin. This action was the result of the conference of Secretaries Hay, Long and Root. It was realized that the land and naval forces of the United States now in China could not single handed push on to Peking and the other powers accordingly were appealed to on the basis of Minister Conger's message to co-operate for instant relief.

Secretary Hay expressed his reasons for placing reliance in the authenticity of the message in Conger's despatch, saying that it was a complete reply in code to the cable message sent to him and that its authenticity was vouched for by the Tsung Li Yamen.

"Of course," said Secretary Hay, smiling, "I am not omniscient and may be fooled, but I cannot see how the authenticity of Minister Conger's cable can be questioned."

Secretary Hay said he attached no importance to the use of the words "Chinese troops" in the message. They did not, in his opinion mean that the Chinese government troops were besieging the foreigners. He seemed to entertain little doubt that the Chinese government itself was doing all in its power to suppress the Boxers' insurrection. In this connection the message of Consul Fowler that Gen.

Washington, July 20.—The Chinese minister has just received a cipher cable despatch from United States Minister Conger. It is in the state department cipher and is transmitted through the Tsung Li Yamen and the Shanghai Taotai. It contains less than 50 words and is signed in English with the name Conger.

At a quarter of 10 o'clock Minister Wu handed the Conger despatch to Secretary Hay, who immediately called in his assistant secretaries and private secretary and work was begun on the translation of the cipher.

DROWNING ACCIDENT AT PUSWAY

East Corinth, July 20.—An East Corinth party met disaster Thursday on Little Pusway lake. The party consisted of Fred T. Hill of East Corinth, his wife, their two children—a girl 3-1/2 years and a boy 10 months—and Mrs. Stuart, mother of Mrs. Hill. They embarked in a sail boat and went up the pond to fish. When none of the party was expecting it, the boom jibed and struck Mrs. Stuart on the head, crushing her to the side of the boat. Mrs. Stuart is very stout and her weight suddenly cast on one side heeled the boat so far that it filled and capsized.

In an instant all five of the occupants of the boat were struggling in deep water. Little Hill, being all he could to keep the others afloat and all trying to get hold of the overturned boat.

Charles Miller of Corinth, in company with a young woman, was fishing from a boat about a half mile up the pond when the accident happened to the party. He immediately started to the rescue and made quick time down the lake. When Miller reached the scene of the accident it was short work to get all five of the Hill party into his boat. They were all nearly dead with exhaustion and badly scratched and bruised. The baby was beyond recovery.

NOT INVITATIONS ENOUGH.

Augusta, July 20.—The last of the invitations for Maine's Old Home Week which will be held from August 6 to 11 were sent out today by S. W. Matthews, the secretary of the state association. The number of invitations to the party requested were Portland, Bath and Rockland. On account of the short interval between the formation of the state association and the Old Home Week the requests for invitations were obliged to be proportionately granted.

RECOMMEND REPEAL.

Ky. Dems. Go Back On Goebel Law.

Say Law Hasn't Prevented Republican Frauds.

Gov. Beckham Renominated Amid Cheers.

Names of the Other Candidates Withdrawn.

Lexington, Ky., July 20.—The Democratic State convention adjourned here shortly before 4 o'clock this morning after an all-night session. The only object of the convention was the nomination of a candidate for governor to fill the unexpired term of William Goebel, who was assassinated last February, and for that reason it was thought the convention would complete its work in one day. A recess had been taken yesterday afternoon till 8.30 p.m., but when the convention re-assembled the committee were not ready to report and the time was spent till after midnight in calling out favorites for speeches. The committees sent word to the convention repeatedly that they could not report till today, but the delegates refused to adjourn. Finally the reports began to come in after midnight and there were fights on all of them. Following the contests in Campbell and Kenton counties there was a minority report on credentials and after a long fight the minority report, seating the Larvin delegates was substituted for the majority report. Then came the reports of permanent organization, rules and order of business. There was another fight because of the provision for the state committee to arbitrate all contests between delegates as it was thought to have special application to the seventh district where Trimble and Moody both claim the Democratic nomination for Congress. This report was adopted after much debate.

The platform adopted is, in part, as follows:

We heartily endorse the platform and nominees of the national Democratic convention at Kansas City.

We recommend that the election law of 1898, (known as the Goebel law), which was enacted to prevent the repetition of well-known Republican frauds in certain districts of this state, but which has not proved sufficient for that purpose, be amended, to secure this end so thoroughly that the most hypocritical can find no excuse for charging fraud or unfairness to our party in the conduct of the election.

Until such amendments can be enacted we declare that the Republican party shall have representation on both the state and all county boards of election commissioners.

The mob and the assassins shall not be the arbiters of the rights of the citizens of Kentucky, nor shall the penalty on an appeal to the law and the regular constituted authorities be death at the hands of assassins.

Law and order must and shall prevail in Kentucky.

Bradley's alleged use of the militia to control the election of November, 1899, is denounced.

Sincere grief is expressed over the death of Gov. William Goebel.

The administration of Gov. J. C. W. Beckham was strongly endorsed.

At 2 1/2 a. m., nominations for governor were reached. Congressman Wheeler presented the name of Gov. J. C. W. Beckham. A wild demonstration followed. The names of Judge James D. Black and Judge James P. Tarvin were also presented. McGraw, Lewis, Smith, Pryor and Garrett were also nominated.

About 8 a. m., when the call of counties was almost completed, Charles Metcalf withdrew the name of Judge Black and moved that the nomination of Beckham be made by acclamation. Judge Tarvin withdrew his own name and seconded this motion. The name of Pryor was also withdrawn and Gov. Beckham was then nominated by acclamation.

Another wild scene greeted Gov. Beckham as he appeared on the stage. He accepted the nomination in a brief speech. Cheers were crowing near the hall, when it was voted to adopt the roster as the party emblem.

The convention adjourned at 3.40 a. m.

PATTANGALL RENOMINATED.

Machias, July 20.—At the Republican class convention held in the town office, Machias, on Tuesday evening, W. R. Pattangall, Esq., was unanimously nominated for representative to the legislature from the Machias-Jonesport class.

CUBAN ELECTION SEPT. 15.

To Choose Delegates to Constitutional Convention.

Washington, July 20.—It is understood that the President and General Wood have agreed on September 15 as the time for holding the election in Cuba for delegates to the constitutional convention that is to be called for the purpose of forming a constitution for an independent government for Cuba. The original idea was to have the election take place in October but unless there is a change in the plans, the election will take place on the 15th of September.

There is no doubt that any constitution which may be formulated will be scrutinized with the greatest care by the President and possibly by Congress before it is allowed to go into effect for it is a settled conviction of the officials that Cuba should not be permitted to make treaties with foreign nations except through the United States, nor should the people be allowed to involve the island in debt, unless authorized to do so by this government.

BATTED LEWIS AT WILL.

Chicagoa Won Easily From Boston Yesterday.

Boston, July 20.—Chicago batted Lewis at will today after the second inning and won easily. Boston failed to bunt their hits. Tenney was injured while sliding to second base in the first inning and retired. Clarke taking his place. Attendance, 1800. Score:

JUST ESCAPED SHUT OUT.

New York, July 20.—The New Yorks won another game from the St. Louis at the polo grounds this afternoon. The St. Louis just escaped a whitewash by some clean hitting in the eighth inning. Attendance, 1500. Score:

St. Louis, 0 0 0 0 0 0 0 2 0-2
New York, 1 0 1 0 0 1 0 0 8-3

Hits, Pittsburgh, 7; Philadelphia, 8. Errors, Pittsburgh, 3; Philadelphia, 3. Batteries, Chesbro and O'Connor; Frazier and Douglas. Attendance, 2,883.

DUNN WEAKENED.

Brooklyn, N. Y., July 20.—Dunn weakened in the eighth inning when Crawford's triple, Quinn's single and three passes to first gave Cincinnati a lead of three runs which was increased to four in the ninth. Then the Brooklyn made one of their famous rallies, fumbles by Corcoran, the first on the game. Demont's scratch single and Dahlen's slashing triple scored three runs. Cross failed to bring him home and Cincinnati won its first game of the season here. Scott was batted in lively fashion, but he kept the hits scattered except in the first inning. Attendance, 950. Score:

Cincinnati, 2 1 0 3 0 0 0 3 1-8
Brooklyn, 0 3 0 0 1 0 0 0 0-7

Hits, Cincinnati, 12; Brooklyn, 14. Errors, Cincinnati, 2; Brooklyn, 15. Batteries, Scott and Wood Dunn and Farrell.

OUR RESPONSIBILITIES.

Havana, July 20.—The Patria of Trinidad, says:

"If the United States government abandons Cuba now in regard to the organization of its administration and the establishment of financial and economic conditions, Washington would break the pledge in the word of Congress as to the very matters which led up to the intervention. For the United States government has compromised itself with the American people and the people of Cuba in a solemn promise to establish a good and stable government here."

TOWNS THREATENED.

Miles of Forest Fire on Cape Cod.

Hundreds of Men at Work Fighting Flames.

Lives Constantly Being Menaced.

Flames Travelling Through Heavy Timberland.

Sandwich, Mass., July 20.—A forest fire which extends over a territory of at least 25 square miles and which threatens at least a score of towns and villages in this portion of the Cape district is the result of a tiny blaze started yesterday in the vicinity of Hatchville by some berry pickers. Hundreds of men drawn from every town in this neighborhood are working night and day to check the progress of the flames, but as the brush is as dry as tinder and the flames jump first one way and then the other, the men are almost helpless, and their lives are constantly being menaced, several instances being known where gangs of men, by a quick shift of the wind, were entirely surrounded by the flames, and none escaped without a bad scorching. At a late hour tonight the flames are travelling through some of the heaviest timber standing on the cape as fast as a man can walk and the excitement is intense in all the surrounding towns, as it is not known at what shift of the wind the flames will sweep some luckless settlement out of existence.

The fire now has a general direction but is spread out in the direction of Sandwich and Buzzards Bay, bounded by the main line of the Consolidated road and the towns of Castanet, Wanamet and the Falmouths, and the brush and tinder between is a roaring mass of flames. The fire warden has been unable to make out what course the flames will take, and sometimes back firing, which it was hoped would keep the fire within bounds, has proved of no avail and the back fire is carried away in the huge head fire. It has been a terrible battle for the men, and as they are coming out of the woods in an exhausted condition, and they express no hope that the fire will be checked unless rain comes. Men in sufficient numbers cannot be brought here and the fire is entirely out of control of the help at the disposal of the warden.

The whole country bounded by Hallowell, the Falmouths, Howard and Pocomet roads was burned last night, and this morning the brick breeze soon had the fire headed in the direction of Falmouth and the adjoining villages and with a shift of the wind to a southerly and then an easterly direction, the flames bore down on the heavily wooded country before it at the rate of four miles an hour. The fire warden seeing their helplessness, sent couriers to the surrounding towns requesting all available men, and the call was answered by a large number who tonight are hard at work with shovels.

The old Pocomet road is being guarded less the fire runs over and get in the villages of Sandwich and Castanet. At noon the main fire was working toward Hatchville but another shift of the wind sent the flames back so that they are now heading in the direction of Sandwich and Sagamore. A large gang is back firing on the Foster road to prevent the fire from reaching the town of Bourne.

Last afternoon a gang of over 100 were fighting the flames near Sagamore, when by a change of the wind the flames surrounded the gang and only through the careful guiding of Fire Warden Burgess were the men brought out alive, although a large number were burned.

The fire is near the summer residence of Mrs. Sarah Curtis of Newton Highlands and at dark a number of men were standing by to guard the property. Farmers are bringing in their wagons, and it is possible to haul the cord wood they own from the woods before the flames reach it. One farmer who came out of the woods said the flames jumped the sand, and which he men place on the path of the fire and continue uninterrupted.

Tonight the wind is from the southwest, which is likely to increase rather than diminish the fury of the fire. No estimate of the damage already done can be given, nor can anything definite be said as to the progress the flames will make tonight.

WINDWARD WILL HAVE TROUBLE.

St. Johns, N. F., July 20.—The sailing steamer Lila arrived here today from Turzavik, Labrador, to which point she has been conveying fishery crews for William Bartlett, brother of Capt. Samuel Bartlett, master of the Peary exploring steamer Windward. Capt. Jackman, master of the Lila, who is himself an expert Arctic navigator, says the Windward which left Sydney this morning, will experience great difficulty in going northward, the ice here being unusually heavy and extensive.

MIDSUMMER VACATION.

Already It Has Lasted More Than "Week or Two."

New York, July 20.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

"The mid-summer vacation has already disposed of the prophets who gave it 'a week or two,' but there are a few signs to indicate its probable duration. The compact of lake ore producers not to see standard Bessemer ore below \$5.50 an ton, much lessens the probability that the market will wait for Bessemer pig to go for below \$15 and some increased buying already appears by makers of implements."

The halt in the great iron industry necessarily affects both business and prospects in some others. The same extensive building strikes which have cut off the use of much structural steel have also prevented a vast use of lumber which was, like iron, extraordinarily advanced in prices.

When cotton had been easily held above 10 cents and then had dropped sharply, a Liverpool speculator again showed how easily Americans are induced to accept higher prices for the quantity they have left for sale. The goods market, quite unimpaired at the best, is not helped by such vagaries, and the closing of important mills was the more meritorious because it gave occasion at the end of a season, with an over-supply here both of goods and material, to raise the capacity is now at work, because the nature of the next season's demand does not yet appear. There has resulted more

WILLINGNESS TO SELL WOOL AND PRICES AVERAGE FULLY TWO CENTS LOWER THAN IN FEBRUARY. but manufacturers are inquiring more earnestly just now to find out what goods they can sell than where they can get materials.

Further important changes are appearing in the heavy decline of packer hides at Chicago, and also in heavy sales of leather to manufacturers. It is reported that such sales are made to many of those who bought largely a few weeks ago, according to reports upon concessions made and competent reporters now state that about half a cent has again been conceded from recent prices, making Buenos Ayres about \$3 1-2 cents; common hemlock, \$2 1-2, and union, \$0 cents.

The sharp fall of 8 cents in wheat and 4 cents in corn, appears to reflect public conclusions, after hearing much evidence, official and unofficial, regarding the extent of injury to both grains. It would not be far from the truth to say that the contradictory character of these statements of injury has well nigh deprived them of weight, so that the public reckoning on a destruction of 100,000,000 bushels wheat by drought as possible, but not much more probable than that the official estimate of yield was 100,000,000 bushels too low. The same resulting outcome in either case would be enough to meet all probable home and foreign needs for the current year. The legitimate conclusion as to corn goes even further and is by the public accepted as evidence that even the strangely increasing foreign demand in recent years with enough increase for gradually expanding home needs can be safely met.

Failures for the week have been 231 in the United States, against 145 last year, and 27 in Canada, against 25 last year.

FIRE IN A BOG.

It Was Near Rigby But the Park Property Was Not in Danger.

Wednesday morning a fire broke out in the bog in South Portland on the water side of the Eastern Division tracks of the Boston & Maine, between the Cape Elizabeth Crossing and the Scarborough Crossing. The fire burned fiercely through the tangled mass of underbrush, grass and dead wood and the smoke from it, which was plainly seen from Portland, led people to believe that a terrific fire was in progress. Forty men from the Boston & Maine were sent out to fight the fire and worked all day Thursday. The blaze started on the land of Patrick Conley and spread in a northwesterly direction towards the Rigby track. The men had all they could do to keep the fire from crossing the railroad tracks and even with all their precautions it got across the tracks in one or two places, but was quickly extinguished before it had time to do much damage. Little water was obtainable and the men fought the fire by digging trenches and clearing away underbrush.

Yesterday morning the fire was fanned into life again by the breeze and swept down across the land of Mr. Hunnewell, passing the tracks and going within a quarter of a mile of the outer fence of the Rigby Park fence. Had the fire reached any of the large growth nearer Rigby a portion of the fence about the Park would surely have been burned.

As it was it continued down into the swampy land towards the Brown Hill church, but as there was little property in this direction which could be damaged by the flames, no great damage was done. Seventy men were at work all day yesterday fighting this fire and sitting along the railroad track at various points to keep it from getting across. The blaze was plainly seen from the Western Promenade last night and many people thought that Rigby park was endangered, but at 10 o'clock there did not seem to be much danger of the fence of the park catching fire.

PARDON CASES POSTPONED.

Augusta, July 20.—The governor and council were in session this afternoon, the nominations recently made by the governor were confirmed.

The petition for the pardon of Emma Gould of Lewiston, who is serving a term in Auburn jail for selling liquor was assigned for the September meeting. The petition asking for the removal of Lewis F. Johnson from the chairmanship of the Saco board of registration and the pardon of Lewis C. Gerrish of Lubec, who is serving a term in the Bangor jail for assault, assigned for today were postponed until the next session.

MANY KILLED AND INJURED.

Yokohama, July 19.—Mount Azuma near Bandai-san, which was the scene of a volcanic disaster in 1888, broke into eruption Tuesday, July 17. Two hundred persons were killed or injured.

COULDN'T SWIM ASHORE.

Calais, July 20.—Jesse Marshall, while out in dory off Red Beach this morning, found that his boat was sinking and endeavored to swim ashore. He reached land, however, he was drowned. Marshall was about 30 years old.

WILLINGNESS TO SELL WOOL AND PRICES AVERAGE FULLY TWO CENTS LOWER THAN IN FEBRUARY. but manufacturers are inquiring more earnestly just now to find out what goods they can sell than where they can get materials.

Further important changes are appearing in the heavy decline of packer hides at Chicago, and also in heavy sales of leather to manufacturers. It is reported that such sales are made to many of those who bought largely a few weeks ago, according to reports upon concessions made and competent reporters now state that about half a cent has again been conceded from recent prices, making Buenos Ayres about \$3 1-2 cents; common hemlock, \$2 1-2, and union, \$0 cents.

The sharp fall of 8 cents in wheat and 4 cents in corn, appears to reflect public conclusions, after hearing much evidence, official and unofficial, regarding the extent of injury to both grains. It would not be far from the truth to say that the contradictory character of these statements of injury has well nigh deprived them of weight, so that the public reckoning on a destruction of 100,000,000 bushels wheat by drought as possible, but not much more probable than that the official estimate of yield was 100,000,000 bushels too low. The same resulting outcome in either case would be enough to meet all probable home and foreign needs for the current year. The legitimate conclusion as to corn goes even further and is by the public accepted as evidence that even the strangely increasing foreign demand in recent years with enough increase for gradually expanding home needs can be safely met.

Failures for the week have been 231 in the United States, against 145 last year, and 27 in Canada, against 25 last year.

CATARRH OF THE BOWELS.

[Peruna a Safeguard Against Summer Catarrh.]

weeks, and was terribly bad. My wife bought a bottle of Peruna, and the first dose I took helped me. I have only had one slight attack since, and that was last spring and I took about two-thirds of a bottle of Peruna to effect a cure."

Mrs. George W. Taylor, Lex, Tenn., says: "I had had chronic diarrhoea for six years. I tried everything I could hear of and had consulted several physicians without avail. My husband bought me a bottle of Peruna and I began to improve at once. I can do anything I ever could, and eat anything without inconvenience; and when I say if it had not been for Peruna I would now be in my grave, I do not think I exaggerate."

John W. Methvin, of Belva, Ark., writes: "I had what is called catarrh of the lower bowels, and no one knows the torture and misery I have passed through. My doctor seemed to do me no good. I had often heard of Peruna when I was first taken sick, but I did not know it was good for catarrh, until I saw one of Dr. Hartman's advertisements in the paper. I made up my mind I would try it, as my doctor was doing me no good. I got a bottle of Peruna and began to feel better after the first dose. I believe if it had not been for Peruna I would have died. Everyone said I was going to die and I believed it. To those who are suffering with catarrh I take pleasure in recommending your medicine to them."

According to a Washington despatch President McKinley and General Wood have arrived at an informal understanding that the United States troops shall be withdrawn from Cuba within eight or nine months, and the people of the island left free to operate the government themselves.

There are signs of friction between the Russians and Japanese at Tientsin. Japanese correspondents are accusing the Russian soldiers of cruelties toward the Chinese, alleging that they slaughter innocent women and children as well as soldiers, pillage the shops and massacre their owners.

The Kentucky Democrats have withdrawn one potent issue from the campaign in that state by themselves recommending a modification of the infamous Goshaw law. The claim which they make that the law was passed to put a stop to Republican frauds, and that they now recommend its modification because it has not accomplished that object is false and hypocritical of course.

Those persons who are demanding a third ticket on the ground that they do not want to choose between Bryan and McKinley should bear in mind that they cannot really escape making that choice by taking refuge in a third ticket.

The Appellate division of the Supreme Court of New York has just rendered a very important decision relative to the rights of labor unions. The case arose out of an attempt on the part of a labor union to prevent the employment of objectionable men by threatening the employers with a strike not only on their own part but on the part of other organizations with which they were allied.

The State Department seems to believe fully in the genuineness of the despatch received through the Chinese minister at Washington. Doubtless its faith is largely due to the fact that the despatch is in its own alphabet. This certainly is strongly corroborative evidence, and yet it is difficult to understand how Minister Conger, beset, as the despatch says, in the British legation, managed to get a message out. Assuming the despatch to be genuine it shows that the legations were still holding out on July 13, that they were then in desperate straits, and that unless speedily relieved a general massacre was inevitable.

On his way to the capital, may be able to wield sufficient power and influence to accomplish this. In this direction lies about the only hope left of saving the foreigners alive. It is rather a far from one, for though Li Hung Chang has professed to be the friend of the foreigners, it is by no means certain that his professions have been sincere.

CHAINED IN THE WHIRLPOOL. The Man Who Shot Niagara Rapids Talks About It. (From the Chicago Times-Herald.) "I did not do the thing for notoriety, nor with the intention of afterward exhibiting myself in a dime museum. I simply did it for fun and adventure and to prove or disprove certain theories of mine."

CURRENT COMMENT. THE CUBAN TEACHERS. (Boston Advertiser.) Needless fears are expressed sometimes that our visitors from the gem of the Antilles will have their time so occupied by excursions, picnics, receptions, dances and such social and adventurous recreations as any one, two or more of them may find time to undertake in an informal manner, that there will be small opportunity left for serious study.

That absurd flag law of the last legislature, whose defects the News pointed out soon after it was passed, must be ignored entirely or the names of the gubernatorial candidates cannot be shown upon the campaign flags. A good many have already incurred the penalties of the law.

PERSONAL AND PECULIAR. The wedding of Miss Bessie Davis of Washington and Mr. George Cabot Lodge, son of Senator Lodge, is set for Wednesday, Sept. 5, at Bar Harbor, where the Davises have a cottage. Miss Davis is a tall and pretty girl, the daughter of a handsome mother, who as Sally Freeling-husen, was a beauty of her day.

Charles Alexander, Grand Duke of Saxe-Weimar, who has just completed his eighty-second year, is fourth among European rulers both as to age and as to seniority as sovereign. The Pope is his senior by eight years, and then follow the Grand Duke of Luxembourg and the King of Denmark. In length of reign Queen Victoria surpasses him by sixteen years, the Emperor of Austria by nearly five, and the Grand Duke of Baden by one year.

Gen. Diaz, upon learning of his re-election as President of Mexico, said: "I must repeat what I said some months ago, that neither my age nor my capabilities qualify me to continue ruling the country. I am seventy years old, of which forty-three have been devoted to the active service of the Fatherland. As to my capabilities, I recall my previous opinion, and I can only add that I will not withhold from my Fatherland my closing years, if she requires them of me, any more than I have begrudged to her the unstinted services of my whole life."

OLD HOME WEEK. To the Editor of the Press: Limerick, July 14. In a recent issue was a letter from Biddeford which, after calling attention to the fact of their having met the evening before, and organized for Old Home Week, contained the following assertion: "We are the only city or town in York that has taken any action in this matter." Please allow me to say through your paper that Biddeford is much mistaken for up here in the back woods, ten miles from a railroad, in the smallest town in York county, an Old Home Week association was formed more than a month ago. Our officers were all chosen and our committees all appointed. We have held several committee meetings, and some of our committees having finished their work, have been discharged and placed on other committees.

OLD HOME WEEK SUBSCRIPTIONS. The following additional subscriptions have been received toward the expense of celebrating Old Home Week in August next: Oren Hooper's Sons, \$50.00; T. F. Foss & Sons, 25.00; Walter Corey Co., 25.00; Thos. P. Beals Co., 10.00; Roscoe S. Davis & Co., 15.00; T. H. McDonnell & Co., 10.00; Atkinson Furnishing Co., 10.00; W. H. Winslow & Co., 10.00; F. E. Portland Missionaries in North China.

Editor Strong Thinks Misses Gould and Morrill Are Safe.

No Word From Shan Si Missionaries.

Mr. Strong Says Missionaries Didn't Cause Trouble.

Boston, July 20.—Rev. E. E. Strong, D. D., editor of the Missionary Herald of the American Board says:

"We have reason to believe that Rev. Mr. Pitkin, Miss Mary Morrill and Miss Annie Gould are under the protection of the Yamen at Pao Ting Fu, North China, and some confidence is felt that they will be safe there until the storm has passed. No word has been received from our missionaries in Shan Si since Pekin was beleaguered, but the last letters that came through gave no indication of any trouble in that province. If trouble should arrive it would seem that our brethren might go northward through Mongolia to a place of safety.

"Let no Christian for a moment entertain the thought that the church of Christ is to withdraw from mission work in China because of the revolution within that empire. That would be pusillanimous indeed. Such a thought, we are persuaded, would not be entertained for a moment by any one of our missionaries in China. The soldiers of the King of Kings should be as brave as the soldiers of any earthly ruler, and they are not to be deterred in their loyal service by temporary defeats of the death of comrades. It has been frequently said that the recent troubles in China have entirely arisen because of the missionaries and that their presence and intervention in Chinese affairs is due to all the existing complications. This is far from true. The Chinese are suspicious of everything to which they are unaccustomed. What ever is strange (and whatever is foreign is strange to them) is feared and repelled. It is not the western religion alone or chiefly, but western civilization that awakens their wrath.

FORGER WANTED.

Requisition Asked For Man Who Passed Bad Check on Belfast Bank.

ESPECIAL TO THE PRESS.

Augusta, July 20.—County Attorney Bowden of Winterport, Waldo county, was at the state house this afternoon to obtain requisition papers of Gov. Powers on the governor of Massachusetts for James E. Simpson who is serving a sentence in the Cambridge house of correction for forgery. His sentence expires August 9 and he is then wanted in Belfast for passing a forged note on the Belfast bank for \$500 in July 1899. He at that time presented in London in Danforth in this state and signed the names of Russell Bennett and H. A. Bennett.

He referred the Belfast bank to a Bangor bank as reference of his reliability. It was several months before the note was discovered to be a forgery. It is said that Simpson used this money to pay another note which he had forged on a Belfast bank. In the meantime Simpson went to Massachusetts, committed forgeries, was caught, tried and found guilty. He will be arrested on the expiration of his term in Cambridge and brought back to this state.

MEN OF AFFAIRS.

Need Proper Food to Supply the Brain.

The "Medical Sentinel" comments on the restless brain worker of our large cities and refers to the fact that he thinks he knows as much about the needs of the brain, when he is tired and shows brain fatigue, as a trained practitioner.

He is inclined to spur up the tired organs by some stimulant or perhaps quiet its complaints with the narcotic of tobacco, and this plan goes on until suddenly he collapses, for brain fatigue is a sure sign that the elements that compose the brain are being more rapidly used up than are replaced by the food.

There is really a choice of but two pathways for an active brain worker—a man of affairs—when he shows symptoms of breaking down. Either he must quit work or he must have food that will replace the structure of brain and nerve centers as rapidly as they are used up each day.

Chemical analysis of the particles thrown out through the pores of the body shows that after continued brain work, a large portion of excreta contains phosphate of potash. It is known that when this element is furnished by the food in proper quantities, the system unites it with albumen and from that compound makes the gray matter that fills the nerve centers and the brain.

This is an essential feature of the food known as Grape Nuts, a delicious, ready-cooked and predigested breakfast food.

A definite and well understood gain in brain power and physical strength will set in after Grape Nuts have been used eight or ten days, and sustained and continued brain work can be carried on with a reliance placed upon this food in connection with the ordinary food of the day.

Grape-Nuts Food is sold at all first-class groceries.

THE RAFT WAS WRECKED.

And Jimmie O'Donnell Was Drowned in Back Bay.

Jimmie O'Donnell and Johnny Dulaney were playing on a raft inside the marginal way in Back bay yesterday afternoon about 3 o'clock. The water was not so very deep where they started with the raft but they pushed it out toward the sluiceway at the foot of Fox street through which a terrible current was running and where the water was very deep. When the frail raft struck the current it went to pieces and both boys were thrown into the water. Some say that young O'Donnell could not swim but that his companion Dulaney was a good swimmer for a boy. At any rate Dulaney struck into an eddy which carried him away from the sluiceway and enabled him to reach the shore in safety. O'Donnell was carried out by the sluiceway and disappeared.

Young Dulaney gave the alarm and some men who happened to be near tried to find the O'Donnell boy but no trace of him was discovered.

About 9 o'clock last night when the tide had fallen and left the flats uncovered the body of the boy was found a long distance from where he had fallen from the raft. Both the Dulaney boy and young O'Donnell were stripped for bathing when the raft went to pieces and when the body of the O'Donnell boy was found the position of the legs led the discoverers to believe that the boy was seized with a cramp when he struck the cold water in the sluiceway and this had prevented him from saving himself.

The O'Donnell boy was about 14 years of age. His father is Michael O'Donnell who lives on Greenleaf street and the boy's mother, a hard working woman, was almost prostrated by the news of her son's death. Besides his parents O'Donnell leaves three sisters. About two years ago the grandfather of the O'Donnell boy was drowned not far from the spot where the boy lost his life.

Coroner Littlefield was called when the boy's body was found but he deemed an inquest unnecessary.

MUSIC AND DRAMA.

THE GEM.

The best play Portland has seen in a long time is "A Stranger in a Strange Land." This is the result of a new metropolitan success cleverly presented by a company that has been admirably strengthened by a number of strong players. Another large audience howled with delight at last night's performance, and many New Yorkers who have seen the metropolitan production in their enthusiasm favorably compare it with the original. Myrtle May, Carrie Clarke Ward, Richard Bennett, William Hunt and Barton Drew enter into the spirit of the comedy with the other leading members of the company that fairly raises an enthusiasm seldom seen in the cosy little theatre. George Osborne has repeated his New York success, and continues to win the admiration of the many lovers of artistic acting at each performance. During the New York run of this piece about two hundred Indiana sat in front at a performance, and they would not believe Mr. Osborne any other than one of their tribe until they had positive proof by calling on him in his dressing room. Theatre goes that appreciate good work should take advantage of a new play cleverly presented.

MCCULLUM'S THEATRE.

The public continue to crowd McCullum's theatre to its capacity at every performance of the beautiful Irish play "The English Rose." The last two chances to see this excellent production will be offered this afternoon and evening. Next Monday evening Manager McCullum will offer a magnificent presentation of the famous military spectacle "Shenandoah," written by Bronson Howard, America's most famous playwright. "Shenandoah" is a play founded on actual incidents in the Civil War and contains among its climaxes the most realistic battle scene ever introduced on the stage.

RIVERTON PARK.

Were it not that local amusement lovers knew that the attractions at Riverton never vary in their general excellence, there would be deep regret that the last performances of German's Imperial Minstrels would be given this afternoon and evening. The public have enjoyed the entertainments given by this talented and well-equipped organization this week and the attendance has broken all previous records at Riverton for a week, having no special holidays. There is not one mediocre act on the entire programme. Every member of the company is an artist in his special lines and the singing is an especial feature. The pleasure of a visit to Riverton this week has been enhanced by the brilliant playing of the Matus Royal Hungarian orchestra, and their concert at the Casino at 1 o'clock and at 6 have pleased many large dinner parties this week and numerous summer tourists.

NOTES.

H. C. Barnabee of "The Bostonians" sailed for Europe last Saturday, to visit the Paris exposition.

Dorothy Love, the young society woman of St. Louis, who will make her debut as an actress this fall, has been engaged by Frank McKee to play in support of the Agostini family in John J. McNally's new farce.

Joseph Kilgore, starred by Jacob Litt in "Sporting Life," has been engaged by Joseph Brooks and Ben Stern for Blanche Walsh's support in Eugene W. Presbury's new play.

Marc Klaw, of Klaw & Erlanger, met Miss Ada Behan in London last week. All the arrangements for her tour next season, under the direction of this firm, were then completed. She will return to America the latter part of September. Some of her old repertoire will be utilized during her tour. A new play by a prominent author, will be placed in rehearsal immediately on her arrival.

Blanche Walsh will sail for America August 20th, and immediately on her arrival in New York will begin rehearsals of the new, and yet unnamed, play written for her by Eugene W. Presbury. This piece is a romantic drama, the story dealing in part with the persecution of the Huguenots in France during the years from 1790 to 1793. The chief char-

Pain Rheumatic Sciatic or Neuralgic

Pain is a symptom, not a disease; what you must fight is not the pain but its cause. Liniments and oils for external application are almost worse than useless. Internal treatment is necessary to overcome the cause. The blood must be purified and the nerves strengthened.

There is one remedy that has been successfully employed in thousands of cases.

Dr. Williams' Pink Pills for Pale People

Rheumatism is a disease of the blood; Neuralgia is the prayer of a nerve for food; Sciatica is but rheumatism under another name. Dr. Williams' Pink Pills for Pale People cure these troubles by attacking the disease in the blood and driving it out. Proofs as to their efficacy are found in thousands of testimonials from grateful people who have been cured.

setters emigrate from old to new France, and important scenes have their locale in the city of Quebec. Its capitalization forms the basis for one of the strong incidents. Mr. Presbury has borrowed several of his characters from history, among them Francois Birot, the king's Intendant at Quebec, Marquis de Vaudruil, governor general of French Canada, and Montcalm, the general killed at Quebec.

A GEORGIA BARBECUE

Closed Reunion of Blue and Gray at Atlanta.

Atlanta, Ga., July 20.—A genuine Georgia barbecue this afternoon closed the reunion in this city of the Blue and Gray.

Gen. John B. Gordon, commander-in-chief of the Union Confederate Veterans, disobeying his physician's orders, was present, with the other distinguished guests and sat side by side with Gen. Albert D. Shaw, commander-in-chief of the Grand Army of the Republic. The invited guests made speeches, but the second on the programme, that of Gen. Shaw, did not please Gen. Gordon and for a time reconciliation was forgotten. Gen. Shaw's speech was for the most part conciliatory in tone and was well received, yet his reference to the manner in which all memories of the great struggle should be blotted out in the families of the South, was not received with the favor hoped for.

In his speech he uttered these words and they went deep into Gen. Gordon's heart: "What I am anxious to see is the disappearance of all unworthy reminders of the terrible conflict, and the culture of present unity and righteousness over all the Union. The keeping alive of sectional teachings as to the justice and rights of the cause of the South in the hearts of the children is all out of order, useless, unjust and utterly opposed to the bond by which the great Chief of the South solemnly bound the cause of the South in his final surrender."

As the close of Gen. Shaw's speech, Gen. Gordon came forward. He had spoken before and his appearance again caused considerable surprise. Gen. Gordon said he could not teach his children that he fought for what was wrong. He entered the battle for what he believed was right, and "only the judgment day and God himself will ever decide who was right."

"Let us cherish the memories," continued Gen. Gordon, "and history will record and heaven judge, that both sides were right in fighting for what they believed was right. Let us settle on a basis of that fundamental truth that both sides were fighting for the constitution of their forefathers."

Gen. Shaw responded gracefully to the general's exhortations. "Our children should be taught," said Gen. Shaw, "the true glory and sublimity of our one country; their fathers will teach them this. Let them be so alike, the children of the North and of the South, that no difference will be perceptible."

The incident closed with three cheers for the blue and the gray. The speakers of today were Gen. Albert D. Shaw, Gen. John B. Gordon, Gov. James A. M. Smith of Indiana, Hon. W. C. P. Breckinridge, Gen. J. C. Breckinridge, Inspector general, U. S. A., Gen. A. P. Stewart of Chattanooga and Gen. O. O. Howard.

UNCLE WILLIAM RUNS AMUCK.

South Paris, July 20.—The inhabitants of this place were thrown into a wild state of excitement Friday morning when Mr. Wm. Morse, one of the oldest residents of the town, appeared on the hotel steps of the Andrews house with a revolver in his hand and discharged it freely. Fortunately the shots did not hit anyone. It seems rather remarkable as there were many persons on the street, and not far distant at the time. After discharging the weapon he rushed away down the mill road evidently making for the woods. It is believed that he has gone crazy and intends to commit suicide.

Nothing has been seen of him up to the time of this dispatch. Sheriff Tucker has been notified and he with a posse of armed officers is now in search of the demented man.

WRECK NEAR NEWMARKET.

Portland and Boston Freight Trains in a Head On Collision.

Newmarket, N. H., July 20.—Two freight trains on the Boston & Maine railroad came together in a head on collision early this morning about two miles from this place.

The engines were telescoped, 14 cars were thrown from the track and several of them were wrecked and one of the engines was considerably bruised. All the other train hands escaped by jumping. The track was blocked for several hours.

One of the trains was from Boston and they were making the regular through night trips. They usually pass at Bennett's road about two miles from Newmarket. At a point just this side of the usual passage place and just beyond what is known as Diamond bridge, where the railroad crosses Lamphrey river, the engines came together. Each train was going at a fair rate of speed, although all the cars of both trains were heavily loaded. The momentum of each train was so great that the engines as they crashed into each other were crushed and telescoped. At the point where the collision occurred the track runs along an embankment about 20 feet high. The shock of the collision threw the cars from the track and piled them up along the rails and down over the embankment, some of them being split apart and heaped into masses of splintered wood and disordered merchandise.

The trainmen saw that a collision could not be avoided and jumped. All escaped save one of the engineers. This man who was taken to the Boston hospital before his name could be learned here, it is understood, was considerably bruised, but it was the opinion among the railroad men here that his injuries were critical.

If ever superstition could find excuse, it would be when the expectant mother, calendar in hand, ponders the fortunate days and hopes that the baby's birthday may fall on a lucky time.

The greatest fortune any mother can bestow on her child is a healthy body and a happy mind, and with this great fortune every mother may endow the child if she will.

Dr. Pierce's Favorite Prescription makes mothers healthy and happy. It does away with the misery of morning sickness. It strengthens the nerves, gives the body a feeling of buoyancy, makes the mind cheerful, gives vigor and elasticity to the organs peculiarly feminine, and baby's advent to the world is free from danger and painless.

There is no alcohol, whisky or other intoxicant in "Favorite Prescription," neither does it contain any opium or other narcotic.

Dr. Pierce's Pleasant Pellets do not react on the system. They are a perfect medicine.

Motley Crowds at the Great Exposition.

Things Which Amuse Portland Visitors at the French Fair.

(Correspondence of the Press.)

Paris, June 15. There is one thing we have found also lately unattainable in Paris, and that is Sunday as understood by the average New England woman.

There is no alcohol, whisky or other intoxicant in "Favorite Prescription," neither does it contain any opium or other narcotic.

After days of incessant sight seeing in the Exposition and about Paris, the delightful change and rest of an afternoon at St. Cloud may be imagined. It was compulsory, that from the seven days of the week we should select some Saturday to make our excursion, it mattered not which one, for the year round on Saturday afternoons from two until six, "tout le monde" if it pleases, can see a sight most thoroughly French.

possible. The groom, looking uncomfortably conscious of his new clothes and staid responsibilities, led the procession, the bride clinging to his left arm, and both waving small tri-colored flags.

The motley crowds at the Exposition furnish endless picturesque scenes, as well as amusing incidents. We longed for camera and bright sun as we stood, late in the afternoon, in the Rue de Paris, watching a long line of kuesies, men and women, passing arm in arm, singing their native chansons.

THE ANNUAL ENCAMPMENT.

Adjutant General's Orders Relative to the Muster.

Adjutant General Richards has issued the following orders relative to the annual encampment of the National Guard: I. The annual encampment of the land forces of the National Guard of the State of Maine will be held during the third week of August, 1900.

The greater portion of the Guard having expressed a desire to extend the tour of each organization to seven days, on the same conditions as to payment as heretofore arrangements will be made for concentration at the State camp ground, Augusta, as follows:

The First Infantry, Colonel Lucius H. Kendall commanding, will proceed to the place of concentration on Saturday, August 11. It will break camp and its several companies will return to their stations on Friday, August 17.

The Signal Corps, Second Lieutenant George W. Butler commanding, will report to the commanding officer of the camp on Saturday, August 11. It will break camp and return to its station on Friday, August 17.

The Second Infantry, Colonel Everett R. Newcomb commanding, will proceed to the place of concentration on Saturday, August 11. It will break camp and its several companies will return to their stations on Friday, August 17.

Company cooks will be ordered to August in advance of their companies so that those of the First Infantry may be in camp on the morning of Saturday, August 11, and those of the Second Infantry on the morning of Saturday, August 18.

The Colonels of the First and Second Regiments, with their Adjutants and Commissary Sergeants, will assume their duties in camp on the mornings of Saturday, August 11th and 18th respectively. The Quartermasters and Quartermaster Sergeants from each regiment will assume their duties on the mornings of Friday, August 10th and 17th respectively.

Colonel Lucius H. Kendall, First Infantry, will have the command of the camp for the week August 11th to 17th inclusive, and Colonel Everett R. Newcomb, Second Infantry, will have command for the week August 18th to 24th inclusive. Each camp commander will prepare and present to this office for approval, orders embracing the routine of each day during his tour of duty, the hours of all duties and ceremonies, and such rules and regulations as he may deem necessary for maintaining order and discipline and promoting the efficiency of his command.

The Inspector General, Commissary General, Surgeon General and Inspector General of Rifle Practice will attend the encampment and discharge the duties devolving upon them under the law.

Muster and pay rolls in triplicate of the Field and Staff, non-commissioned staff and band, companies and coles, will be prepared before going to camp by entering on them the name of each officer and enlisted man of the organization with date of rank of officers and date of enlistment of privates, and the grade of enlisted men. Un-uniformed enlisted men will not be brought to camp and no substitutes will be permitted or paid. No officer or enlisted man will be paid who does not render his full term of service within the periods from the 15th to the 16th and the 20th to the 23rd of August, both days in each case inclusive.

All enlistment papers and applications for commissions, and certificates with certificates filled out, in transit, will be promptly forwarded to the Adjutant General's office in order that the records may be complete for verification of the pay rolls.

By virtue of the power conferred by Section 87 of the Militia Law, the authority of the officer in command of the camp is hereby extended to a distance of one mile from the State camp ground, and upon the external spaces within such distance from the camp, with the exception of any road or roads within said distance, no person or persons save those especially authorized by law shall be allowed to enter except under such rules as may be established by the officer commanding the camp and approved by the Commander-in-Chief.

Special attention will be given to the enlistment of competent men as company cooks. In order to facilitate this, the age and weight limits in the case of men physically sound and active, who are thoroughly accomplished cooks, may be waived. On application, company cooks may be given protracted furloughs, not, however, extending over any period of active service, and subject to revocation in case of an emergency requiring a mobilization of troops.

Attention is called to the following paragraph of the Manual of Guard Duty: "All persons of whatever rank in the service, are required to observe respect toward sentinels." It is expected and believed that no violation of this paragraph will occur during the encampment.

Recruits who are medically examined will order no more than one medical examination of recruits in a company prior to the encampment. Company commanders will upon completion of enlistments, on August 11, send to the Adjutant General's office, to be forwarded to this office, lists of recruits awaiting medical examination and muster. Men re-enlisted subsequent to the medical examination of recruits may be examined and mustered in at the encampment.

The following section of the Militia Law of the State is published for the information of all concerned: Section 105. No officer or enlisted man shall contract or presume to authorize the contracting of any indebtedness on behalf of the State without the express authority therefor from the Commander-in-Chief.

Special attention will be given to the enlistment of competent men as company cooks. In order to facilitate this, the age and weight limits in the case of men physically sound and active, who are thoroughly accomplished cooks, may be waived. On application, company cooks may be given protracted furloughs, not, however, extending over any period of active service, and subject to revocation in case of an emergency requiring a mobilization of troops.

Attention is called to the following paragraph of the Manual of Guard Duty: "All persons of whatever rank in the service, are required to observe respect toward sentinels." It is expected and believed that no violation of this paragraph will occur during the encampment.

Recruits who are medically examined will order no more than one medical examination of recruits in a company prior to the encampment. Company commanders will upon completion of enlistments, on August 11, send to the Adjutant General's office, to be forwarded to this office, lists of recruits awaiting medical examination and muster.

HYOMEI SOAP

NATURE'S OWN SKIN PURIFIER.

UNLIKE ANY OTHER SOAP MANUFACTURED

Made from the Fresh Green Leaves of the Tasmanian Blue Gum Tree.

During the past twenty years there has been a great improvement in the makeup of almost every article of ordinary use except skin and toe soaps, and while every now and then new soaps have been placed on the market, these differ from their predecessors only in smell.

A delightful experience awaits those who have never used yomei Anti-septic Skin Soap. Made from the fresh green leaves of the Tasmanian Blue Gum Tree, it contains all their well-known healing, refreshing and antiseptic qualities, and but for its beautiful creamy lather one would doubt if they were using soap of any description.

Hyomei Skin Soap is nature's own skin purifier. There is no soapy smell, no overpowering perfume, no dangerous ingredients used in its manufacture. No smarting of the eyes or tender skin results from its use.

Try it, and no other soap will ever again be found among your toilet requisites. Sold by all druggists or sent by mail. Price, 25 cents. Sausle cake, 5 cents.

WORKING WELL,

Portland Will Be Crowded August 7th.

Fully One Hundred Thousand Strangers Will Be Here.

Greatest Celebration City Ever Had.

The Morning Parade Will in Itself Be a Big Feature.

The Old Home Week committee now seems to be getting down to a position where they can see all of the details of the big show on August 7 working out finely. Col. Boothby received a telegram yesterday from the Minneapolis agent of the Soo line stating that the road would bring a large party to Maine for this week and asking for information regarding what is to be done here.

Including the crowd which is to come to Portland for the firemen's muster it seems probable that fully 100,000 strangers will be here for August 7. The town is to be pretty well filled up by Sunday night preceding the show on Tuesday and it will be a lucky man who will be able to secure quarters here if he does not secure them before Tuesday. All of the hotels are booking rooms for this occasion and many applications for rooms are being received by people in the city. The secretary of the local association has sent out up to this time 5000 of the Governor's invitations and could send out as many more if there were time to do so. Invitations will be sent up to the very last moment or as long as the stock on hand holds out. The indications are that from the crowd to be expected Portland will have the biggest day she has known for many years.

The committee has decided to decorate city hall and Congress street quite extensively. By day the street from Congress square to Franklin and possibly other streets will be gay with bunting, while nearly all the big buildings and some of the smaller ones will be decorated. The committee has also decided to placard all the historic spots in the city and mark them so that strangers will have no difficulty in finding them. This work will be in the hands of Alderman Moulton and Mr. Nathan Gould will be asked to give the committee the benefit of his knowledge in this matter.

By night Congress street is to be brilliantly illuminated with vari colored electric lights which are to be strung across the street and the city building is also to be handsomely decorated with festoons of electric lights. These decorations are to remain for the entire week.

At the meeting of the committee last evening the gentlemen who are interested in the yachting parade and races appeared and presented their claims. They asked for \$400 but this amount the committee did not feel willing to give. They did, however, decide to give the yachtsmen \$300 and with this sum the gentlemen who have the matter in charge promise the best display of yachts the harbor has seen in years. It is expected that this feature will be a very attractive and interesting one.

The route of the parade on August 7 has practically been decided upon. It will be down Pearl street to Cumberland, to High, to Deering, to State, to Spring, to High, to Congress and thence to City hall where the procession will be reviewed. It is expected that fully 6000 men will participate in this parade as well as some 15 fire engines from all parts of New England and some 20 hand tubs. This fireman's feature of the celebration will be one of the best displays of the kind ever seen in New England.

The committee has been informed that 11 of the 12 companies of the 1st regiment of Maine's national guard will come to Portland for this parade. They will be brought here on special trains on the morning of August 7 and will be fed at noon by the city at the auditorium.

The committee is very anxious to make the civic division of the parade a distinct success and has invited all of the uniformed civic bodies to take part in the procession. It is the desire of the committee that this parade on the morning of August 7 should equal anything of the kind ever attempted before in Portland.

There is a chance waiting for some bright man to bid for the privilege of putting up a grand stand on the Eastern Promenade which shall overlook the place where the great exhibition of fireworks is to take place. It is expected that the crowd at this point on the evening of August 7 will be the largest the eastern end of the city has ever known.

THROUGH THE SUBURBS. The ride by trolley cars through the suburbs is ever an enjoyable pastime, and of all the lines in connection with Portland none is more popular than the Westbrook, Windham & Naples Railway. Close connections are made at Westbrook with all cars leaving Preble street from 8.40 a. m. to 6.10 p. m. The entire distance opens up some of the prettiest country scenery hereabouts, and when it is realized that Woodland Street, that entrancing retreat, awaits a visit, the expectations of the tourist are more than fulfilled.

AN EDITOR DEAD. New York, July 20.—Col. William H. Grosvenor, editorial writer on the New York Tribune, died at his home in Englewood, N. J., today. Mr. Grosvenor has been in poor health for some time and his death was not unexpected.

NUMBER OF VOTERS.

It is Estimated That 3600 Males in Portland Are Not Registered Here.

The board of registration has compiled some interesting statistics regarding the list of voters in Portland. The reports show that the total number of names on the voting list up to today is 10,441, divided as follows:

Table with 2 columns: Ward, Number of Voters. Island Ward 1, 133; Island Ward 2, 12; Ward 1, 1,258; Ward 2, 1,138; Ward 3, 1,128; Ward 4, 1,012; Ward 5, 1,006; Ward 6, 1,145; Ward 7, 1,539; Ward 8, 892; Ward 9, 916.

Total, 10,441. The total of Ward 1, including island wards 1 and 2 is 1,555.

The total number of changes of residence within the same wards and from ward to ward is 1,821.

The net number of names stricken from the voting lists is 521. Of these 113 are of voters who have died; 826 who have left the city; 10 who have become city charges; 63 who can't be found, their names not having been returned by the assistant assessors; 2 who are of unsound mind, and 1, about which there is an error.

The total number of names stricken off is 1,477; the total number of names added to the wards, 956; net loss, 521; net gain, 17. The net loss on the voting list is 521. It is estimated that the number of males in the city not registered is 3,600.

THE FIRST REGIMENT.

Orders Preparatory to the Old Home Week Parade.

Colonel Kendall through Charles E. Davis first lieutenant and adjutant of the 1st regiment, N. G. S. M., has issued general orders No. 3, as follows:

The several companies of the regiment have accepted the invitation of the Old Home Week committee to participate in the parade at Portland on State day, August 7, the following instructions are hereby promulgated for the information and guidance of all concerned.

Regimental headquarters will be established at the armory building and company commanders will report to the adjutant there at 9.30 a. m., or immediately upon arrival in the city. The field and staff, non-commissioned staff and band will also report to the adjutant at the armory, not later than 9.30 a. m.

Officers and men will appear in fatigue uniform, caps and leggings. White gloves will not be worn.

Horses will be furnished by the committee. Mounted officers are requested to forward their horse equipments, clearly marked with name and rank to the Whiteman Sawyer Stables company, Portland, not later than August 5.

Regimental line will be formed on Pearl street, right resting on Federal street, at 10 o'clock a. m. sharp, and will be in the following order from right to left, First battalion, Major Charles Collins commanding, Companies A, B, E, and L; second battalion, Major William O. Peterson commanding, companies F, D, O and K; third battalion, Major John Bird commanding, companies I, M, H and G. Company D will act as color company and the company commander will detail a sergeant to carry the colors, and two well instructed privates to act as color guards, who will report to the adjutant immediately upon arrival at the armory. Battalion commanders will each detail a second lieutenant and a sergeant to act as adjutant and sergeant major of their respective battalions.

GRAND SACRED CONCERT AT GREENWOOD GARDEN. Manager Rounds is to provide his patrons with enjoyable attractions at Greenwood Garden tomorrow. The American Cadet band has been engaged and throughout the afternoon there is to be a concert of appropriate music.

A feature of genuine novelty has been secured in the shape of a trick bicycle rider who rides on the water—Prof. H. Irving. The professor is to start from Old Orchard in season to arrive at White Head passage at about 2.30 o'clock Sunday afternoon. Greenwood Garden will be the best place to see the arrival of the bicyclist from the sea as he will land there and give all a chance to examine his ingenious water wheel.

Steamer Alice Howard will make frequent trips from Portland Pier, and the regular low fare round trip tickets will admit to the garden without extra charge.

TWO FINE SUNDAY SAILS. Tomorrow the steamer Pejepsot will go to Orrs Island and New Meadows river and the steamer Percy V. will run to Mere Point touching the several landings on the route. If you want a pleasant days outing take one of these trips. Good shore dinners can be obtained.

What Shall We Have for Dessert? This question arises in the family every day. Let us answer it today. Try Jell-o—a delicious and healthful dessert. Prepared in two minutes. No boiling, no baking! simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers today, 10 cts.
