### SAFE FULL OF DIAMONDS.

Daring Robbery in Boston Yesterday.

Thieves Lugged Safe Bodily Ont of Office.

Loaded on Wagon and Hauled it Away.

It Contained \$3000 Worth of Diamonds and Jewelry.

Boston, November 14.-A daring rob bay, which the police are now actively engaged in investigating, was committed about 4 o'clock this afternoon, when the rooms of David Morse, at 85 Lowell street. West End, were broken into and a safe weighing 800 pounds, containing \$3,000 worth of money, diamonds, watches and jewelry, was taken out bodily

and carried away.

Mr. Morse, who is a heavy real estate owner, was absent looking after his Postmaster General Smith's Estimate ols property. His two sons, Max H., and of Appropriation Needed. Mendell, are engaged in the jewelry business, selling to the retail trade, and kept their stock in trade in the safe which stood in a room on the first floor of the house which they also occupied as a sleeping room. This morning father and son left the house about 11 o'clock and upon their return late in the afterdiscovered that the safe had been front and rear bedroom, with kitchen between. The thieves passed the front entrance and forced the kitchen door which, in addition to the usual lock, was reinforced by a bar and padlock. They forced the padlock, then broke in the door and gaining an entrance to the front room, rolled the sate about three feet from its position at the head of the bed, then apparently lifted it up and carried it to their wagon, waiting outside, and drove off. The police were Our apparatus is without doubt the finest in New England The instrument illustrated above is especially valuable in correcting the results of erestrain when the ordinary methods fail.

Strong and Stott Concern Swapped Paper.

How the Failure is Said to Have Been Caused.

Philadelphia, November 14.-William L. Strong & Co., wholesale dry goods merchants, whose assignment was announced in New York, yesterday, have a branch house in this city at which a large business is transacted.

Attorney have secured foreign at chments against the firm in common pleas court here for a number of creditors. One of the attorneys said: "It is one of the largest failures that has occurred in the last few years, and the liabilities will easily amount to \$6,000, 000, 21

CAUSE OF THE FAILURE.

New York, November 14.-The cause of the Strong failure was made public to day by Butler. Notman, Joline & Myndesre, counsel for the firm in the action for the receivership, which resulted in the appointment of Edward A Treat. Counsel said that the Strong firm had indorsed more than \$500,000 in notes for the Stott woollen mills at Stottsville, N. Y , for which the firm was agent, and that the odd circumstance of the sudden death of former Mayor Strong and of F. H. Stott, heads of the two concerns, within three days of each other, had brought about a crisis by dissolving both firms at a moment when large sums were due. One note indersed for the Stott company for \$100,000, is du tomorrow. Other notes for nearly half a million are due soon. The Stott con pany, in which the Strong company is largely interested, counsel said today, had indorsed notes of the Strong company, in return. but for an insignificant amount, probably less than \$100,000 in

"If either Mr. Strong or Mr. Stott had lived, the difficulty might have been settled without public embarrassment, said the representative of the counsel.

The two dead members of the firm had been doing what we call 'swapping paper,' Mr. Strong endorsed Mr. Stott's notes and Mr. Stott endorsed Mr. Strong's. It was an accommodation paper and served to show that the firm was in difficulty.

STATEMENT FROM TREAT. New York, November 14.-Edward A. Treat, the receiver of W. L. Strong & Co., said today that he was at present unable to remove the uncertainity as to whether or not the firm is solvent. Mr. Treat made the following statement:

"The books must be gone over and days will be required for that work. Just as soon as I can I will issue a statement of the firm's affairs."

Will Boom His Business.

S. Laval, a merchant of Dallas, Tex., writes: "I thought I would have to give up business, after two years of suffering from general debility brought on by overwork and long hours, but four bottles of Electric Bitters gave me new life I can now eat anything, sleep well and leal like working all the time. It's the best medicine on earth." It's a wonderful tonic and health builder for tired, weak, stokly and run-down people. Try it. Satisfaction guarantsed Only 500 at H P S. BATH, 5; LEWISTON, 4.

Bath, November 14.-Tonight's game GREEN MOUNTAIN RENOVATOR. You surpassed in every way that of any other thus far this season in the Maine league. Bath lost a goal on fouls in the third period, thus tleing the score and PORTLAND POST OFF SCE making an extra period necessary, which proved wildly exciting, as the teams

CADET GIRL.

The story of Harvard students followo'clock he again escaped from his home ing the Cadet Girl chorus, which was told and wandered away, this time having by somebody connected with the company, appars to have been a highly imagi-native production. A few students did apparently go to Lawrence, but it is doubtful it a single one came here. The impression which the story gave that a large number of students had procured a special ftrain and were following the chorus from place to place, was entirely erroneous. There has been no special train, and no train load of boys. A mountain appears to have been made out of a very insignificant molehili.

### WOMEN MUST SLEEP.

Avoid Nervous Prostration.

If you are dangerously sick what is the first duty of your physician? He quiets the nervous system, he deadens the pain, and you sleep well.

Friends ask, "what is the cause?" and the answer comes in pitying tones, nervous prostration. It came upon you so quietly in the beginning, that you were not alarmed, and when sleep deserted you night after night until your eyes fairly burned in the darkness, then you tossed in nervous agony praying for sleep.

The board of alderman held another caucus last night on the telephone matter. They talked from about eight o'clock until after eleven and then adjourned. The alderman had nothing to say for publication. They said that they were to nearer the solution of the question than they were before they met. The aldermen are agreed on the proposition to admit a new telephone company so the PRESS is informed but they bave not yet agreed as to which company of the petitioning for permission shall have the privilege of doing business in Portland. A likely solution of the problem so it is said seems to be the admission of both of the petitioning companies.

### CRUSHED BY CABLE CAR.

Awful Death of Vicar General Barry of N. H.

Was Dragged Under Street Car in New York.

His Body Was Horribly Mangled.

Dead Priest Was Ordained in Portland in 1864.

New York, November 14 .- Rev. Father John E. Barry, vicar-general of the diocese of Manchester and Concord, N. H., and pastor of St. John's church, Concord, was instantly killed by a cable car on Broadway, late this afternoon. In company with Rev. E. M. O'Callaghan of Portsmouth, N. H., Rev. D. W. Murphy of Dover, N. H., and Rev. W. J. O'Helliy of Manchester, N. H., he was crossing the street immediately in front of the Astor house for the rurpose of mailing a letter at the post office. Two cars were passing at the time and Father Barry, being in the lead, jumped across the track to avoid the first. Before he could be warned he was caught by the fender of the other car and thrown in front of the wheels. His body was dragged some distance, the wheels of the first truck passing over and horribly mangling the body. He was almost instantly killed. Traffic was stopped for some time, owing to the difficulty in removing the remains from the wheels.

The body was removed to the nearest police station and Bishop Dennis M. Bradley of the Manchester, N. H., dloese, who, with the other priests is here to attend a series of special services at St. Patrick's Cathedral, was at once notified. Afterward, under his instructions, the body was removed to an undertaker's establishment where it was prepared for shipmen? to the dead clergyman's home. Requiem mass will be said at St. Peter's church on Friday morning. In consequence of the accident the sermon which was to have been preached tomorrow at the Cathedral by Bishop Bradley, has ben cancelled. Father Barry was 67 years old and well known throughout New England. He has a sister living in Boston.

The conductor and motorman of the car that killed the Vicar were arrested.

### USE FOR CANNON BALLS.

Condemned as War Weapons, but all Right in Stone Quarries.

"Cannon balls for blasting" This sign hung in a conspicuous place before the door of a store in Atlantic

The proprietor said: "Last fall when the United States government sold all of with little thought of converting them into anything besides pig iron. But a few weeks after we had stored them here I overheard a quarry-owner complaining of the slowness and uncertainty of the old system of steel wedging used in getting out huge blocks of granite, and after a bit of thought I suggested the use of cannon balls in the steel wedges. We sent about twenty of various sizes and weights out to his quarry, and after the first trial he hurried a team in here with a note that read:

"Tried the cannon balls; they are it. Send fiftfy more; have thrown the steel wedges away."

"Tried the cannon balls; they are it. Send fiftfy more; have thrown the steel wedges away."

"The experience of this man led us to send the cannon balls and solid shot to other quarry operators and within the last month the orders have been coming in so thickly we can scarcely fill them from the stock on hand.

"The method used in getting out great cubes or monoliths from the granite and marble quarries has been to drive steel wedges along the line of the lower por-tion of the split made by a blast until the great chunk of stone toppies over on its

marble quarries has been to drive steel wedges along the line of the lower portion of the split made by a blast until the great chunk of stone toppies over on its face.

"It required a deal of time and a number of men with big iron sledges and steel wedges to separate these cubes from the quarry wall from which they had been started by the blast.

"The method now pursued with the cannon balls is to start the block of stone away by a slight blast, and then between the quarry face and the block several of the smaller solid shot, usually the fournessort, are dropped down the aperture.

Two men with crowbars give the block moves in the slightest manner forward the shot take up their 'purchase' on the space made, when the large cannon balls, some measuring fourteen or fifteen inches and weighing 200 or 300 pounds, are dropped into the top of the gap. Now the slightest outward jar by levers on the big stone sends these heavy cannon balls are for pland downward of their own weight, until, with an easy forward movement, in the outse goes over;on its face.

"These shot do away with any driving; of necessity their great weight in proportion to their size forces them downward, and their form prevents any chance of backward setting of the block.

"These cannon balls are also used as rollers, as they take up and go over the inequalities of the quarry surface, and an be rolled in any direction without resetting, thus doing away with the old style wooden rollers.

"These cannon balls are also used to such the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, and these cannon balls are thrown over the surface where the blast has been set, an

Interesting comparisons may be drawn from the above figures. There will be much surprise at the enormous gains among the disciples of Christ, or Campbellites, who are found throughout the central states. Missouri has the greatest in number, Indiana second and Kentucky third. The church is also very strong in Illinois, Ohio and Tennessee.

The largest gains by any religious denomination during the nine years covered by the returns were made by the Christian Scientists, who in 1890, by the census returns, had only 8,724 members, but are credited with 80,600 in 1899. The latter-day saints, or non-polygamist Mormons, show the next largest growth, having lucreased in membership from 163,125 to 433,600. The Disciples of Christiare third in the order of growth, and the Roman Catholics fourth. The Unitarians show no gain. The Universalists and Spiritualists show a failing off both in membership and in the number of churches sustained.

The following table shows the number of ministers in 1890 and 1899:

There seems to be a difference of opin ion as to whether or not Maine is to lose a Congressman by the next apportion ment. The Kennebec Journal, probably voicing the opinion of Congressman Burleigh stated the other day that there would probably be no reduction in the present number. But the figures which the Director of the Census has submitted before that voyage. This fact has been the Director of the Census nor the Presiapportionment will be determined law passed by Congress this winter. Mr. Burleigh is a member of the Census committee of the House, and that committee will frame the apportionment bill. EUROPEAN DOMINATION IN THE WEST.

footbold in the Carlbbean. Only the United States can prevent the acquisition.

It will be for jurists and diplomatic interpreters of the formulated utterance to declare just how closely the Monroe docrine applies to this situation. President Monroe himself spoke of and appeared to contemplate only forcible aggression when he made that declaration against the further extension of European possession on American soil. Indeed, he saggested that it was incredible to expect that by voluntary act any of the republics would place themselves under a foreign monarchy, and so devoted his words to the more reasonable proposition that in some way there might be an effort to encreach upon them, this to be opposed by the power of the United States. But it is evident that in the present instance, should Germany seek a coaling station from Venezuela or Brazil, it would be by peaceful methods, lease or purchase, and not opposed to the wifi of the South American republic. Furthermore, it Germany should obtain privileges by purchase or lease from one of the European powers already holding Caribbean possessions, that would still further eliminate the matter from the letter of the Monroe doctrine and complicate the situation.

First principles, then, would rule our action. It is clear that in peace, however great the South and Central American commerce of Germany may be, no necessity exists for that empire to have a western coaling station. A dezen harbors are open, more convenient than the one contemplate. Only in time of war, and war with an American government, could such a coaling station be of value. To admit such a neighbor to a point of vantage unnecessarily would be bad business For the United States it would mean more warships, more danger to the Isthmian canal, more concern at the first friction between the counties. To yield this point now would mean to yield other points later.

Maine Built Ships on Alaskan Coast.

They Carry Chinamen and Sal-

And No Longer Plough the Mid-Ocean.

Some Vessels That Were Once Famous.

(Bangor News.)

In the year 1877, the epoch of the old time big wooden sailing ship was at its aunched from Maine yards. Until the recent revival of shipping a full-rigged American ship was something of a novelty and here the question arises as to where they all have gone. To be sure there are a few lett such as have not been \*\*\*\*\*\*\*\*\*\*\*\*\* burned, wrecked or converted into barges, which latter fate seems bound to overtake the last of the old fleet.

The dat of 1877 1: an interesting one and in that year crafts were set afload whose history would make big books and interesting ones. In that year the chips were flying in yards all along the Maine coast many long since grass-grown and effaced. In addition to the ships there were also many brigs, barks, schooners, etc., on the stocks But as this particular skatch has reference to a ship, look at the list of the famous crafts born in 1877. At Bath went over the ships C. C. Chapman, Belle of Bath, Palestine, Challenger, Daniel Barnes, Hecla, St. Mark, St. David, Florence and James Yesmith; at Thomaston, the Baring Brothers, Levi G. Burgess and Alex Gibson; at Freeport, the Sintram; at Searsport, the William H. Connors; at Waldoboro, the Willie Reed; at Kittery, the Granite State; at Camden, the Wandering Jew; at Damariscotta, the Normandy; at Kennebunk, the Vigilant; at East Deering, the Wil-Ham G. Davis, and many others. These ships have carried the Stars and Stripes to many climes and their days were the glorious days of the old time squarerigged, deep-water skipper.

ON THE PENOBSCOT.

In the year 1877 was launched at Brewer a big ship, the Liewellyn J. Morse, named for Capt L. J. Morse of Bangor, and it might be mentioned that in the launched on the river, the latter from a

Bangor yard.

The name of the Llewellyn J. Morse does not appear in the shipping reports these days. One might haunt the docks of the Atlantic coast from Passamaquod dy to Corpus Christie and speak every incoming craft but none could give any tidings of a ship called the Llewellyn J. Morse built at Brewer, Mains, in 1877, 1835 net tonnage and who would show the signal letters J. S. L. V. The famous old ship has dropped out of society. Many who noted her comings and goings have lost all track of her. Her off chums are nearly all out of it, wrecked or worse—coal barges.

Secretary Lyon of Rhode Island, said that more religious work was done than formerly, notwithstanding the seeming evidence to the contrary during the summer months.

Secretary Harbutt of the Maine society, said that there are more people in Maine who are gloyal to religious prin cipies than ever before.

Secretary Ives of Connecticut affirmed that conditions in Connecticut were a duplication of those in New Hampshire, as stated by Secretary Hillman, and

from or reported. Many an old-time skip-per will tell you that he thinks the Geo. Skolfield, the St. Nicholas, the Sterling, Eclipse and others that might be named—and the Liewellyn J. Morse were 'dead' long ago. But they

ARE STILL AFLOAT.

Scattered along almost the entire coast of Alaska are long, low, rough buildings most cases the wild and barren wilderoperatives live for a time.

operatives live for a time.

The Alaskan coast is something like that of Maine with many islands, inlets and bays. These are alive with salmon and redish. Big course lish when compared with the Penobscot article but red of flesh and nice to look at and eat by those who know nothing better.

A score or more of syndicates operate these canneries in the season but the exigincies of the business require that they bring their employes with them for where the salmon are most plentiful they are no inhabitants except a few lazy, half-civilized Indians. The canning companies for the mst part have headquarters at San Francisco. Here in the early spring they lit out their transports for the canneries. Some own and some charter godo sized craft for they must carry from 200 to 400 people, including the Chinese who make the cans and pack the flish as well as the fishermen, engineers for the seine steamers, and supplies of all kinds.

And this is what the solid old Maine ship the Liewellyn J. Morse has come to. For a few months she is tied up at San Francisco, then with a miscellaneous cargo she heads far to the northward for

Francisco, then with a miscellaneous cargo she heads far to the northward for Chiknik Bax, where all summer, high and light, she swings at her moorings in

the sheltered bay which receives the waters of the Chilkoot river. In the fall when the season is over, she is docked, and case upon easy and ton upon ton of the canned salmon are stored away in her spaceous held, the doors and windows of the canneries are nailed up, the boats housed and with the last man on board the old Yankee craft heads down the coast once more.

of the canneries are nailed up, the boats housed and with the list man on board the old Yankee craft heads down the coast once mors.

Her skipper probably never heard of Liewellyn J. Morse of Banger or Bath, or the Penobscot river but the craft considered a pretty good ship yet. The Chiknik Bay Packing company who now own her put down her value as \$85,000.

But the Liewellyn P. Morse is not the only Maine built craft that is dodging the coal barge fate up towards the Behring sea. The bark Nicholas Thayer built at Thomaston in 1868 carries the supplies of the Ai aska Salmon Packing and Fur company to Loring on Nahalbay and has as consort the bark Electric built at Boston in the same year.

When the ship George Skoiffeld, 125 tons, was built far up the Kennebec at Brunswick, thirty years ago the Bowdoin class prophet did not forstell that the a beautiful craft to which he alluded by way of a very pretty and convenient simile in connection with the class of '70, would ever be freighting Chinese laborers up the Pacific coast but that is what the Giacter Packing company, who can salmon at Point Highfield, Wrangelf island, use the one time pride of the Kennebec for. And there are still others. The ship Invincible, built at Bath in 1878 runs to Pyramid Harbor, Philkoot inlet; the bark Prussia, Bath built in 1968, goes to Kadlak island for the Arctio Packing company, also the ship Santa Clara, built at Bath in 1873, and the St. Nicholas, tuilt at the same port in '68 are in the same business. Of others of the salmon fleet which years before sailed in the Atlantic waters on the Maine coast is the ship Meron built at Phippsburg in 1870; bark Kate Davenport, Bath, 1875; ship Ecilpse, Bath, 1878 ship Bohemia, Bath, 1875; ship B. P. Cheney, Bath, 1875; ship Ecilpse, Bath, 1878 ship Bohemia, Bath, 1875; ship Ecilpse, Bath, 1878 ship Bohemia, Bath, 1875; ship Ecilpse, Bath, 1878 ship Bohemia, Bath, 1875; ship to carry Chinamen, loaf all summer and then load up with imitation Penobscot salmon, seems very much too bad.

RELIGIOUS DECADENCE.

Boston, November 14.-The secretaries of the State Congregational Home Missionary societies, in each of the states of and today, considering whether there is an over supply of ministers, and whether there is any real decay in the religiou life of New England. Secretary Hillman of Concord, N. H.,

secretary of the New Hampshire Home Missionary society, said that he did not believe that religious decadence had occurred, either in the last few years or in the last 30 years. There are communities in New Hampshire where large numbers do not attend church, but there had been no decadence because the conditions were not new, but historic. More congregations in New Hampshire have come to self support during the last decade than during - the previous decade and the additions to the churches by profession and by letter have been greater, notwithstanding the losses by emigration. Secretary Joshua Colt of the Massachusame year the schooners Empress. Lester setts Home Missionary society, stated A. Lewis and the brig Haivlah were also that there had been no decadence in Massachusetts.

Secretary Lyon of Rhode Island, said

The fact is that the Morse and a dozen other fine Yankee-built craft who were mee in the aristocratic trades of Hong Kong, Manila, Singapore, Melbourne and The River, form a little fleet of old timers who to escape from the poor house, as it were, have hidden themselves away in a trade where they are seldom heard

Tons of Kennebec Ice Left Over

Gardiner, November 14.-The ice shipping business of the Kennebec river is practically over for this year. Not a veson shakey piles, salmon canneries. In sel is loading on the river at the present time, although one may be expected to ness grudgingly allows but a strip of arrive and load a cargo before the close beach barely wide enough for the build-ings and the rougher shacks in which the have not come up to the expected figures and a large amount of ice is to be carried over, which is not encouraging to the farmers and those who live in touch with the river and who for years have to a certain extent, depended on the ice harvest for their winter's work. The prospects are not favorable to the America Ice company for rebuilding the house which were burned early in the season, unless there should be a mild winter and the crop of the Hudson river prove failure. The amount of tee on hand at the opening of the season was 913,000 tons, leaving a balance of marketable icefof 848,000 tons. Today there are 498,000 tons in the different houses on the river, showing that only 850,000 tons have been shipped during the entire season. There are 11 houses on the river from which no ice has been shipped. Ten houses are partially full and five entirely empty so that it is readily seen that not half of the Kennebec ice crop found a market the past season and that but a small part of the capacity of the river is in condi-tion to receive next winter's harvest.

LIEUT. LANG IS BETTER.

The many friends of Lieutenant Frank R. Lang will be pleased to know that within a day or so his wife has received a letter from San Francisco, written by resident of that city, conveying the grate ful information that her husband's con dition has somewhat improved. He was able to dictate the letter, something he has heretofore been unable to do. Lieut. Lang's brother will keep his wife and Portland friends informed of the progres of the case. Lieut. Lang was wounded in live different places by the shell which burst over his head—one fragment strik-ing him at the base of the brain, another breaking his right arm above the elbow, another passing through his neck, just grazing the jugular vein, a fourth frag ment going through his shoulder, lodging near the lungs, and the fifth struck his schulder a giancing blow. Of course the most serious of these injuries wa that of the base of the brain, which caused paralysis, and until very recently unconsciousness. He has been subjected PORTLAND HIGH SCHOOL WON.

The Portland High school football in addition electric baths have been tried, and the treatment has so far proved suchoped his convalescence will be rapid.

Have Foundered.

Boston, November 14.-No tidings er Henry J. Lipsett, which was reported being driven by South Shoal lightship in a dismastel condition during the hurricane last Friday. The schooner left Baltimore October 1, swith a cargo of coal, consigned to E. R. Norton of this city and she was one of a fleet of vessels in Hampton Roads and did not leave there until November 5.

The absence of any news is regarded as indicating that something must have happened to the vessel and among shippossible, however, that she was blown many miles off the coast and may te ard from within the next few days.

Capt. Benjamin T. Howes, the regular commander and part owner of the vessel, reached this city today from

The Lipsett was in command, tempora rily, of Capt. J. W. Given of Bowdoin ham, who was master of the schooner Warren Adams when that vessel was wrecked in August, 1898. A crew was signed from this city on September 18 and sent to Bath to join the vessel which was then loading ice for Baltimers. The following is the crew list: First Mate John Wilson, Engineer J. O. Lovell, Seamen W. Puger, a native of Germany: Augustus Hoffman, R. Ramway and J. the prew being Spaniards.

CAPT. BROKE HIS LEG.

Machias, November 14.—Schooner Lily of Windsor, N. S., bound from Windsor for New York, put in here today, for surgical aid for Captain Masters of the schooner. He attempted to step on the foreboom while off Libby's Island last evening when the boom tackle parted and he was thrown across the hatch one of his legs being broken. Captain Masters was taken to the marine hospital.

The council voted to continue its work one playground next summer. A short parliamentary drill on "Organizations" Ex-Mayor Charles H. Randall said: will be continued at December meeting Adjourned to December 12th.

WHERE IGNORANCE WAS BLISS.

A popular physician of Boothbay Harwas married yesterday and was to have taken the boat for Bath. The time for the sailing of the boat came, but the newly married couple did not put in ap-Their friends were there at the pier with rice, old shoes and similar things, but the young doctor and his bride had given them the slip. They drove to Newcastle by carriage and took the Maine Central train for Portland.

Some one discovered that this young couple who quietly seated themselves in The 15th annual coffee party in aid of the very end of the last car on the train

Men and women walked back to the At the conclusion of the drill a dance rear car to see the newly married pair. of eight orders followed. Mr. Thomas The story reached the ears of everyone on the train and all went back to see the bride and groom and the dress suit case. The doctor was puzzled. He tried to appear unconcerned, but his face was flushed and he forgot his assumed manner of being perfectly at ease. Neither the doctor nor his wife could understand what attracted so much attention to them, but the passengers on the train enjoyed their joke all the more for this eason. When last seen hunting for a hack at Union station with this dress suit case and its sign in hand the doc tor was still totally unconscious of the cause for all of the attention which had been accorded him.

A MODEL GROCERY AND MEAT MARKET.

Modern methods with plenty of energy have rapidly pushed O. C. Elwell's store at 794-796 Congress street, far in the front rank of Portland's successful merchants. One change has followed another in the interior arrangement and finish, until today it is as neat and attrac-Mr. Elwell has gained the confidence tomers know they can depend on him for particular service and special goods. It's a pleasure to trade in such a store.

TEACHERS' LECTURE COURSE. President Hyde, of Bowdoin college, will this evening lecture in Assembly hall, Portland High school building, on "The True Aim of Education." This will be the first in the series of lectures to be given this winter under the auspices of the Portland school teachers.

We've just emerged from the debris that's been with us for weeks. We've entirely changed the arrangement of the store, repaired and painted until it's as good as new. In many respects it's better than when new, it's much larger. There's nearly double the former shelf space. That means double the stock. You drove us to it by increasing our business. We're grateful to you for it. We mean to repay you in still better selling, better service than ever, if possible. We're proud of our store in its present condition and would be more than pleased to have you drop in and look at it.
