CONGRESSMAN SMITH

Speaks Plainly Against Reciprocal Trade Agreements

To the Farmers of the Second District:-

Realizing that the source of all business successes depends upon agriculture, and since you are the medium through which flows the staff of life, it may be that you and those whom you feed would like to know more about what is crippling your great enterprise, especially at a time when prosperity was promised. We have paid billions of dollars for the "missing link" not yet found.

The following list of foreign imports of your agricultural products may tell the story.

Imports	1932	\$1,092,000
Imports	1937	19,400,000
Exports	1932	\$43,500,000
Exports	1937	29,000,000

You will note we are buying about 19 times more pork and selling about one-half as much as we did five years ago. Have you forgotten the killing of little pigs-excuse, creating a scarcity

			Exports	1937	800,000	lbs.

These figures show that our imports are about 10 times as much as our experts and that our imports are 11 times more in 1937 than in 1932. This product comes from Mexico, Labrador and China, while our grass is uncut because of no market.

These facts lead me to inquire whether you farmers are pleased with this competition when so many farms are deserted and still more acres uncultivated, especially at a time when the President tells us that one-third of the people are undernourished.

It might be well to know what the vast expenditures of your money have accomplished for Maine farmers by way of buying foreign produce, and the regimentation of crops. Here are the results, plainly told, evidence unimpeachable.

Do not be deceived by approaching reports that Reciprocal Trade Agreements have been balanced during the first four months of this yar.

Deduct \$900,000 000 of munitions of war that we have exported and we will still have bought \$500,000,000 worth more from foreign countries than we have sold them.

The President says this is as was planned. What do you think about his planning? Grewing up on a farm I know something about privations

and sacrifices, hours of work from sunrise to sunset, frost and drouth that destroy crops, laboriously cared for I am sure that you tillers of the soil who have always been in

the front ranks defending those inalienable rights of human beings, whether at Bunker Hill, Appemattox or on Flanders Field, approve of my efforts in working and voting against the Court Packing and Departmental Reorganization bills.

Would you expect my opponent to do likewise after pledging his life to New Dealism?

Through 42 years and 48 elections, without defeat, my word has been good, my promises, kept. Feel sure you are not ready to turn to a New Dealer.

Definite Results Are Being Shown In Sheepscot and Medomak Flats

Reports that definite results in production are being shown by rigid enforcement of the two-inch clam law are being received from all sections of the coast, according to Commissioner Arthur R. An especially rapid gain has been noticed on the flats of the Sheepscot and Medomak rivers, Greenleaf said.

Although made a law several years ago it was not enforced to any extent until 1936. The measure provides that all clams under two inches in size at the longest diameter must be returned to the

What Liquor Business Does To Maine, As Seen By Correspondent

Rockland, Sept. 7 Editor of The Courier-Gazette:-Much is being said these days about the profits that are accruing to the State of Maine as a result of the sale of liquor within the state. During the fiscal years, which run from July to June 30, the following is the total amount of money that has been turned over to the state as a result of all kinds of liquor

\$1.338.538 \$2,214,798 1938 (11 months) \$3,051,429 These figures include: Profits on

sales of liquor in the state stores; income from the issuance of licenses for the sale of liquor; and the tax TALK OF THE TOWN on beer. This is the amount of money left when all the operating expenses of the Liquor Commission have been deducted, including the 8-Republican rally at Camden cost of the operation of the Beer

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

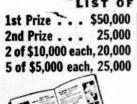

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't vait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

MEN LOVE PEP

-adv. 108-109

If you are peppy and full of fun, men will invite you to dances and parties. invite you to dances and parties.

BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep.

So in case you need a good general system tonic, remember for 3 generations one woman has told another how to go "smilling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders.

Their Beer Arguments In Camden Paper Draw Fire From Camden Voter

Editor of The Courier-Gazette: If you will allow me space I should like to reply briefly to two letters appearing in last week's issue of the Camden Herald regarding the necessity of voting for the return of beer parlors in Camden to "keep trade at home." The writers of signing themselves letters. A.H.B. and H.T.R., seem to forget that the condition in our mills (which do not run on beer) is the index of prosperity in our town. When the mills are running there is plenty of money and when they are dull there is no money to spend,

for the average working man. I can not recall any great pros perity in town when we did have beer two years ago, but do remember clearly the plaint of most of the merchants that no one but the beer parlors got much trade, and certainly many honest debts went unpaid, as the books in town could And I remember seeing C.C.C. boys coming in every Saturday morning, walking into the beer parlors-and staggering out. And seeing the line of W.P.A. men on paydays spending a large part of the pitiful \$11 a week on beer for themselves, and standing treat for their companions. How much could

Long before beer was sold in Rockland many people went there from Camden to do their weekly shopping, and will continue to do so whether or not beer is sold in Cam-

be left for the needs of their fami-

I have no doubt that A.H.B. and H.T.R. will have their hearts' desire and that Camden will once more see men and women getting "plastered" on beer bought here in town. But I do wish they would be fair enough to say, "We are going to have it because we like it and want it," instead of trying to make the rest of us feel that we are doing an injury to our town by voting for a clean, decent place for children to grow up in and for safe, pleasant conditions for everyone.

Word From Willard

Former Instruction Officer Gives Us News From Far Away Hawaii

A member of The Courier-Gazette staff is in receipt of an interesting letter from S. E. Willard former instruction officer of the Second Battalion of Coast Artillery with headquarters in this city. He is now stationed at Fort Kamehameha, Territory of Hawaii. He writes:

"I was pleased to note by your Black Cat that you got the Fleet Edition of the Honolulu Star-Bulletin all right.

"Enclosed is another part of the same paper dated May 27. Edward C Moran arrived the day before and I saw him the night before at his rooms in the Royal Hawaiian Hotel at Waikiki Beach. He left after a very nice time here at the crossroads of the Pacific.

"While he was here, I received the copy of the Courier containing Mr. Winslow's speech at the Memorial Day exercises. In it he spoke of the Navigation School conducted by Capt. Charles R. Magee. The same night that I read the speech I was at a dinner with the Honoluly Chapter of the National Sojourners Club. Next to me was a man introduced to me as a guest of the club for that dinner. During the meal the subject of Maine came up with my seatmate on my left. The man on my right overheard and remarked that he was from Maine. I asked him if he knew Carl Moran.
