# PREFACE

## ORLANDO, FLORIDA

### *The City Beautiful*

It is impossible to describe the beauties of this wonderful city in words; one must visit Orlando to appreciate fully the meaning of a beautiful city. A trip over Orlando's thirty-three miles of brick streets, which are shaded by large oaks, will convince one that Orlando is in a class by itself.

The progress of Orlando is amazing. The building program for 1920 amounted to \$3,500,000, putting it in fourth place for the entire South, and according to population, in first place.

Orlando is the hub of several hundreds of miles of brick and equally hard surfaced roads radiating in every direction, making the city accessible to any part of the State. Orlando is thus an excellent distributing point and an ideal location for factories and industrial plants. It is reached direct by the Atlantic Coast Line and Seaboard Air Line Railways.

The climate of Orlando is ideal, both in winter and summer, being fanned in summer by the delightful breezes of the Atlantic Ocean, 38 miles to the east and the Gulf of Mexico, 70 miles to the west; and in winter, what might be otherwise freezing weather, is modified by the gulf stream which surrounds Florida—and the sun, which never fails to shine.

There are hundreds of magnificent orange and grape fruit groves in the vicinity of Orlando and hundreds of acres of fertile truck lands on which two and three crops can be grown each season.

Orlando's Chamber of Commerce is comprised of three hundred and fifty live and progressive business men, who are always on the alert for anything beneficial and eager to give their services at any time in the interests of the city. A club for the tourists and an Information Bureau are maintained by the Chamber of Commerce at its headquarters.

One need never get lonesome in Orlando as there is an abundance of entertainment throughout the year. The Orlando Country Club maintains an eighteen-hole golf course, which is second to none in the state and almost daily, a dance, dinner or party is being held there. The Royal Scotch Highlanders Band has been engaged for ten weeks, commencing January 23rd, for the entertainment of our visitors and home folks. The Orange County Fair, with the Johnny Jones Carnival, scheduled about the middle of February, will no doubt be very enjoyable—and the Water Carnival, with its magnificent display of fireworks, is a yearly event. There are many other forms of entertainment too numerous to mention.

For information, which will be gladly furnished, concerning Orlando and Orange County, address the Secretary of the Orlando Chamber of Commerce, Orlando, Florida.

# No Guess Work About a Want Ad!

---

With display advertising results are sometimes difficult to measure. "Cumulative force," "future benefit," "indirect value"—these are the intangible elements that very properly enter into the appraisalment of any campaign of display advertising.

With "want" advertising the case is different. A want ad pays or it doesn't pay—and you don't have to wait a year to find out. It has to make good right away. The returns can be checked within 24 hours after the ad appears.

On this account—because "want" advertising is the definite, positive, indisputable test of a newspaper's pulling power—it is a matter of importance to display advertisers that in Orlando all the want advertisements appear in the Orlando Morning Sentinel.

## Orlando, Florida, Street Directory

Giving Names of Householders and Denoting  
Business Places.

Vol. VII

The Tropic Series

1921

**Note**—All streets and avenues are arranged in alphabetical order; the house numbers are arranged in numerical order, with names of occupants after each number.

**Dash** (—) before names denote that the number is wanting.

**Star** (\*) before names generally means that such persons are colored.
